THE CITY RECORD.

VOL. XXXVII.—NUMBER 11069. NEW YORK, THURSDAY, SEPTEMBER 30, 1909. SUPPLEMENT.

Departmental Estimates

for the

BUDGET OF 1910

Extract from Minutes of Meeting of the Board of Aldermen, Tuesday, September 14, 1909.

MARTIN B. BROWN
PRESS
NEW YORK

THE BOARD OF ALDERMEN OF THE CITY OF NEW YORK.

COMMUNICATIONS FROM CITY, COUNTY AND BOROUGH OFFICERS.

The Acting President laid before the Board the Departmental Estimates for the year 1910.

No. 2759.

MAYORALTY.

City of New York, Office of the Mayor,
September 20, 1909.

Hon. P. J. SCULLY, City Clerk and Clerk of the Board of Aldermen:

Gentlemen—I submit herewith the estimate for the Mayor's office for the year 1910.

The increase in the salary schedule is due largely to the necessity for making provision for the salaries of four employees who were recently transferred from the roll of the Commissioners of Accounts to that of the Mayor's office. For some years past these employees had been merely detailed to this office for the purpose of checking up and entering the bonds, warrants and vouchers received from the Finance Department to be countersigned by the Mayor, but in view of the constantly increasing volume of work it was thought advisable to have these men permanently attached to this office by transfer, and their names placed upon the salary schedule of the Mayor's office. An increase in the salary of one of these employees from $1,750 to $2,250 per annum is requested so as to make his compensation the same as that of the other men.

An increase of $300 per annum is also asked for one Executive Clerk, whose services, I think, entitle him to such an increase. The position of one Executive Clerk in this office has been abolished.

The increase of $1,300 in the Contingencies estimate is proposed for the reason that the contingent expenses of this office have invariably been greater than the amounts heretofore allowed in the Budget, necessitating the transfer of funds to meet the resulting deficiencies, and I deem it proper that a sufficient sum should be appropriated in the first place.

Respectfully,

GEO. B. McCLELLAN, Mayor.

Mayor's Office, Bureau of Licenses,
City Hall,
New York, September 27, 1909.

Hon. P. J. SCULLY, City Clerk and Clerk of the Board of Aldermen:

Gentlemen—I submit herewith a proposed Budget for this Bureau for the year 1910, and in explanation of those items which appear as additions to the items now in existence on the Budget of 1909 I respectfully submit the following:

The proposed increase of $300 in the salary of the Stenographer-Typewriter is an increase deserved by years of experience, by ability and fidelity. The present salary of the position is $1,200, and is entirely inadequate for the work which is done and the skill that is required in performing it.

In regard to the proposed increase for salaries in the cases of the two Clerks now obtaining $1,050 a year to $1,200 per year, both Clerks are doing the same work as others in the office who procure $1,200 per year for their services, and they are two of the most efficient men in the office.

I urge, furthermore, that two new Clerks be added to the staff of this office on account of the fact that because of the passage of several different laws, namely, the taxicab law, the dancing academy law and the car line license law, the work in the office will be greatly increased and additional help will be needed to perform it; and, furthermore, on account of the establishment of a new and comprehensive system of licenses in this Bureau, additional help is needed to properly carry out its terms.

There is great necessity for the establishment of the position of Record Clerk in the office, because of the fact that all of the men in the office perform work on the records, which tends to divide the responsibility and bring into the keeping of the records personal traits which do not lead to uniform and satisfactory condition of the books and documents. As we have a Manhattan office and an office in each of the other boroughs excepting the Borough of The Bronx, his work will not only extend through the Manhattan office, but also through each of the others. I intend, if the position is established, that the occupant of the position inform me of the condition of the records in each of the boroughs, in order that I might know quickly and thoroughly what the state of affairs in the office is.

Section 317a and section 317r of the ordinances provide for the inspection of the taximeters affixed to taxicabs in The City of New York, and therein specifies that Inspectors are to be appointed to carry out the work set forth. This is of the utmost importance in the work of this Bureau. The moneys derived from license fees are sufficient to pay not only the salaries of the Inspectors, but the contingencies for which I have made requisition. I respectfully urge that no increase in the Budget on this account will affect the debt of the City, for the moneys out of which the appropriation is made will be forthcoming from the sale of the licenses which must be procured.

In regard to the Inspectors of dancing academies, the same argument prevails, and these Inspectors are provided for by chapter 400 of the Laws of 1909, which makes it mandatory upon this Bureau to have periodical inspections of the dancing academies of the City.

I have requested an appropriation for the additional positions of five Inspectors of Licenses, because the Corporation Counsel informs me that those provisions of the ordinance which make it mandatory upon the car lines of the City to procure licenses from this Bureau also impose upon us the duty of inspecting the cars, with the purpose of seeing whether the licenses are properly displayed. The moneys for the payment of these Inspectors will be more than repaid to the City by the moneys derived from the sale of car licenses. Furthermore, I desire these Inspectors for the reason that the present Inspectors of the Bureau are Policemen attached to the regular police force of The City of New York. I find it highly desirable to have several lay Inspectors at my disposal, who might oversee the work of the police squad and report to me on confidential matters.

Therefore, there is not a single item for which I urge your Honorable Board which ultimately will add to the debt of the City and which is not justified by the work of the Bureau on account of its growth and scope.

Respectfully,

FRANCIS V. S. OLIVER, JR., Chief, Bureau of Licenses.

CITY CLERK.

Office of the City Clerk,
Borough of Manhattan,
New York, July 30, 1909.

Hon. P. J. SCULLY, City Clerk and Clerk of the Board of Aldermen:

Dear Sir—I transmit herewith the departmental estimate of the Board of Aldermen and City Clerk for the year 1910, aggregating $262,806, as against a total of $261,806, the Budget allowance for 1909. This increase of $1,000 is caused by an increase of that amount in the salary of the City Clerk, which passed the Board of Estimate and Apportionment May 28, 1909, was concurred in by the Board of Aldermen June 22, 1909, and approved by the Mayor July 1, 1909.

Respectfully,

P. J. SCULLY, City Clerk.

DEPARTMENT OF FINANCE.

September 10, 1909.

Hon. P. J. SCULLY, City Clerk and Clerk of the Board of Aldermen:

Sir—I transmit herewith the estimate of the expenses of the Department of Finance, exclusive of the City Chamberlain's office, for the year 1910.

The estimate for Salaries calls for the amount allowed this Department for the current year, plus an addition of $10,000 for the purpose of providing for the salary of a Clerk at $2,100, who was dropped from the rolls on account of continued illness, but reinstated by order of Court; an additional Assistant Engineer at $3,000; a Transitman and Computer at $1,500 for the Engineering Bureau; an additional Junior Clerk in the Bureau of Municipal Investigation and Statistics; two Junior Clerks in the Queens office of the Receiver of Taxes; an additional Telephone Operator, and an Office Boy in the main division.

In June the Board of Estimate and Apportionment fixed a grade of Expert Accountant at $5,000 for Messrs. Chapman and MacInnes, who have been receiving a compensation of $4,000, and to permit the increase of $2,000 necessitated thereby the amount of $340 is requested, as I have provided the balance of $1,660 out of the allowance for the present year.

The estimate for Supplies and Contingencies shows an increase of $18,000 over the amounts allowed for the current year, which is accounted for by the request for $5,000 additional for the Contingency Fund of the main office, which has proven insufficient for the current year and will have to be replenished by a like amount before the end of this year; $10,000 for the proper installation and maintenance of the Division of Inspection, and the laboratory connected therewith, and $3,000 for the office of the City Paymaster for the purchase of printing, dating and numbering presses to be used for the particular work of that office, and which will in a short while save considerably more than their cost.

Furthermore, I desire to say that of the amounts allowed for Salaries for the current year, there have been saved through accrued balances during the first eight months, $21,472.15, which, together with further savings that may be made during the last four months, can be returned to the City Treasury at the end of the year.

The total appropriation asked for the year 1910, as compared with the allowance for the current year, not considering the Revenue Bonds allowed this Department for the current year, shows an increase of $28,000, or 1.85 per cent. If the Revenue Bonds issued to this Department during the current year are considered, the estimate asked for in comparison with the allowance for 1909 shows a decrease of $27,347.86, or 1.79 per cent.

By increasing the working hours of the Department and getting rid of much of the useless timber which I inherited from previous administrations, I have been able to reorganize the force so that I hope to be able to complete the installation of the new accounting system of this Department by the use of a few temporary bookkeepers, and without the force that was recommended by the Expert Accountants who passed upon the system.

If I had received the Revenue Bonds asked for a short time ago for appointing temporary Accountants, the installation would now be complete, but I hope, even with the limited force at my disposal, to have it entirely installed in its essential details by the end of the year, so that the amounts asked for next year will cover all that is necessary for the continuance of the same.

Respectfully,

H. A. METZ, Comptroller.

BOARD OF CITY RECORD.

Hon. P. J. SCULLY, City Clerk and Clerk of the Board of Aldermen:

Gentlemen—In presenting my estimate for the sums that seem necessary to be appropriated to meet the expenditures of the Bureau of the City Record for the year 1910 I renew the urgent request that I have made on previous occasions, that appropriations sufficient in amount be allowed to permit this Bureau to fill the requirements that shall be made upon it without ending the year with large arrearages.

I have included in the list of resources for the present year certain Special Revenue Bond issues marked with an asterisk (*), which, while approved by the Board of Aldermen, had not been concurred in by the Board of Estimate and Apportionment at the time of the presentation of this estimate. If these issues, to the amount of $275,000, do not meet with the approval of the Board of Estimate and Apportionment, the appropriations to be provided in 1910 for the maintenance of this Bureau must of necessity be increased to the same amount as the Special Revenue Bonds are to provide for deficiencies already existing in this Bureau.

A few moderate increases in salaries are included in this estimate. The compensation of the Deputy Supervisor has not been changed in ten years, although there has been a large increase in his work and responsibilities. The other small added sums are due for faithful service.

I again call attention to the fact that in proportion to the business transacted this Bureau is conducted with a smaller expenditure for salaries of office force than any other connected with the City government.

Respectfully submitted,

PATRICK J. TRACY, Supervisor of the City Record.

ART COMMISSION.

Art Commission of The City of New York,
City Hall, July 13, 1909.

Hon. P. J. SCULLY, City Clerk and Clerk of the Board of Aldermen:

Dear Sir—In accordance with the resolution recently adopted by the Board of Estimate and Apportionment, I submit the following estimate of expenditures for the Art Commission for the year 1910. The appropriations for the year 1909 are given in parallel column:

	Estimates for 1910.	Amount Appropriated for 1909.
Incidental expenses, including supplies, prints, maps, books, telephone, postage, expressage, office equipment, travelling and other necessary expenses	$3,400 00	$3,400 00
Salary of Assistant Secretary	3,000 00	3,000 00
Salary of Stenographer	1,200 00	1,200 00
Total	$7,600 00	$7,600 00

There will remain practically no unexpended balance at the end of the current year, and if the work of the Commission continues to increase as rapidly as it has during the past year, the amount $7,600 may be inadequate, but it has not been considered necessary to ask for an increased appropriation at this time.

Yours very truly,

ROBERT W. DE FOREST, President.

NEW YORK PUBLIC LIBRARY.

The Trustees of the New York Public Library,
Astor, Lenox and Tilden Foundations,
July 17, 1909.

Hon. P. J. SCULLY, City Clerk and Clerk of the Board of Aldermen:

Gentlemen—I have the honor to transmit to you herewith, on behalf of this corporation, the estimates for the maintenance during the year 1910 of the free circulating libraries conducted by the corporation in the Boroughs of Manhattan, The Bronx and Richmond. These estimates, with accompanying schedules, have been prepared in accordance with the plan prescribed by the Comptroller.

The total estimate for the year 1910, of $723,042, is the amount actually required to conduct forty-one branch libraries and the traveling library system.

During the year 1909 there are available the following amounts for the maintenance of these libraries:

1909, Budget appropriations by the City		$598,310 00
Special appropriations made during 1909 by the City for branches in new buildings opened during the year		3,497 50
Total amount available through appropriation by the City		$601,807 50
In addition to these amounts there has been appropriated by the Library Trustees, from funds of the corporation for the purposes of 1909, the sum of	$16,008 41	
and it is estimated that	19,000 00	
additional will be appropriated during the remainder of the year, making a total of		35,008 41
Total amount available for expenditure during 1909		$636,815 91
All of which, it is calculated, will be expended for maintenance.		
The total estimate for the year 1910 of		723,042 00
exceeds the calculated expenditures of 1909 by		$86,226 09

This amount, therefore, represents the increased cost of these libraries in 1910 over that of 1909.

This increased cost in the maintenance of the libraries is made up of the following items:

Salaries		$19,750 00
Books, Binding, etc.—		
Books	$38,496 59	
Periodicals	300 00	
Binding	13,500 00	52,295 59
Supplies—		
Catalogue materials	$200 00	
Printing	1,000 00	
Postage, stationery and sundries	4,500 00	
Janitors' supplies	110 00	5,810 00
Telephone service		1,000 00
Furniture and repairs thereto		1,735 00
Fuel, Light, Rent, Repairs, etc.—		
Insurance on books	—$1,500 00	
Light	+ 2,697 50	
Heat	+ 200 00	
Taxes	.....	
Rentals	— 2,300 00	
Insurance on buildings	— 1,500 00	
Repairs to buildings	+ 1,137 00	
Care of grounds	+ 1,600 00	334 50
Purchase of automobiles		4,000 00
Maintenance of automobiles		1,300 00
Grand total		$86,226 09

A part of this increase is due to the establishment in a new building of the Seward Park Branch. This building is the largest in the City, and the branch will be the most important in usefulness, supplying the densely populated east side district. The cost of maintaining this branch alone in 1910 is estimated at $20,505.

Insufficient amounts were appropriated for 1909 adequately to restock the depleted collections of books in the children's reading rooms.

A very considerable number of books are in need of binding for which no appropriation is available. Increases for these purposes are, therefore, urgently requested.

Increases in salaries are due mostly to increases due to promotion in grades upon examination under the rules of the service.

The estimates include amounts sufficient for the purchase and keep of an automobile. The forty-one branches and numerous traveling stations operated by the corporation extend from Tottenville, Staten Island, to Kingsbridge, a distance of over thirty miles.

It has become extremely difficult and expensive in cost and time to inspect these libraries properly. The proper use of an automobile for the purposes of inspection will not only be to the advantage of the work of the heads of Departments, so much of whose time is now lost in travel from branch to branch, but will enable a more frequent inspection to be made than is now possible.

In making up the estimates for books, binding, etc., for the year 1910, the amount required has been stated, keeping in view the fact that in addition to the amount so estimated there will be available from funds of the corporation for this purpose the sum of, say, $35,000.

The amount of the estimate has been calculated after a careful consideration of each item with a view to reducing the cost to the City to the lowest amount commensurate with the increasing demand upon the library system on the part of the public.

Very respectfully,

(Signed) G. L. RIVES, Chairman, Executive Committee.

Summary Statement.

Estimate of the Entire Amount Required for Maintenance of the Libraries in 1910.

Salaries	$353,945 00
Books, binding, etc	225,615 00
Supplies	52,110 00
Telephone service	3,000 00
Furniture and repairs thereto	6,735 00
Fuel, light, rent, repairs, etc	76,337 00
Purchase of automobile	4,000 00
Maintenance of automobile	1,300 00
Total	$723,042 00
Total expenditures from 1908 City appropriations	$538,702 38
City appropriations for 1909	601,807 50
Estimate for 1910	723,042 00
Increase of estimate for 1910 over 1908 City appropriations	$184,339 62
Less expenditures for 1908 from corporate funds	51,546 17
Net increase	$132,793 45
Increase of estimate for 1910 over 1909 City appropriations	$121,234 50
Less appropriations for 1909 from corporate funds	35,008 41
Net increase	$86,226 09
Note 1—In addition to expenditures made from City appropriations for 1908 there was expended by the library from funds of the corporation during 1908 the sum of	$51,546 17
Note 2—In addition to the amount available from City appropriations for 1909 there has been appropriated by the library trustees from funds of the corporation for the purposes of 1909 the sum of $16,008.41, and it is estimated that $19,000 additional will be appropriated during remainder of year, making a total of	35,008 41
Note 3—The "Public Funds" which will be received during 1910 will be available for expenditure in that year, and are estimated to be	35,000 00

BROOKLYN PUBLIC LIBRARY.

DEPARTMENTAL ESTIMATE FOR 1910.

Brooklyn Public Library,
No. 26 Brevoort Place,
July 20, 1909.

Hon. P. J. SCULLY, City Clerk and Clerk of the Board of Aldermen:

Gentlemen—Herewith I send, on behalf of the Board of Trustees of the Brooklyn Public Library, the annual estimate for 1910.

The estimate has been very carefully prepared, and it is hoped that the full amount will be allowed by the Board of Estimate and Apportionment.

Respectfully yours,
DAVID A. BOODY, President, Board of Trustees.

ESTIMATE, 1910.

Summary Statement.

Estimate of the Entire Amount Required for Maintenance of the Libraries in 1910.

QUEENS BOROUGH LIBRARY.

The Queens Borough Public Library,
No. 25 Clinton Avenue, Jamaica,
New York, July 1, 1909.

Hon. P. J. SCULLY, City Clerk and Clerk of the Board of Aldermen:

Gentlemen—I have the honor to transmit to you herewith, on behalf of this Corporation, the estimates for the maintenance of Free Circulating Libraries and Traveling Library Stations, to be conducted by the Corporation in the Borough of Queens during the year 1910. These estimates, with accompanying schedules, have been prepared in accordance with the plan prescribed by the Comptroller.

The total estimate for the year 1910 of $158,132 is the amount actually required to conduct sixteen branches and the traveling library stations now in operation, and includes the operation of a branch at Woodside, at which place there is now a Traveling Station.

During the year 1909 there will be available the following amounts for the maintenance of these libraries:

1909 Budget appropriation by the City	$105,975 00	
Total amount available through appropriation by the City		$105,975 00
In addition to this amount there has been appropriated and there is available from the accumulated funds of the Corporation for the purpose of 1909		3,000 00
Total amount available for expenditure during 1909 —all of which it is calculated will be expended for maintenance.		$108,975 00

The total estimate for the year 1910 of		158,132 00
Exceeds the calculated expenditures of 1909 by		$49,157 00

This amount, therefore, represents the increased cost of these libraries in 1910 over that of 1909.

This increased cost in the maintenance of the libraries is made up of the following items:

Salaries		$10,120 00
Books, Binding, Etc.—		
Books	+ $9,760 00	
Periodicals	— 520 00	
Binding	+ 10,150 00	
		19,390 00
Supplies—		—
Catalogue materials	+ $200 00	
Printing	+ 1,200 00	
Postage, stationery and sundries	+ 345 00	
Janitors' supplies	.....	
		1,745 00
Telephone service		600 00
Furniture and repairs thereto		1,765 00
Fuel, Light, Rent, Repairs, Etc.—		
Insurance on books	.....	
Light	+ $747 00	
Heat	+ 540 00	
Taxes	+ 10 00	
Rentals	+ 740 00	
Insurance on buildings	.....	
Repairs to buildings	+ 9,500 00	
		11,537 00
Purchase of automobiles		2,500 00
Maintenance of automobiles		1,500 00
Grand total		$49,157 00

The increase for salaries provides for certain new positions in the Administration Department and in the graded service, and also provides for increases of salary for promotions in grade under the rules of the library service.

The increase for repairs to buildings in the sum of $9,500 is largely made necessary by the condition of the library buildings erected under the Carnegie gift. For a number of years it has been urged that appropriations be made to place these buildings in proper repair. All of these buildings need redecoration and exterior painting, as well as other minor repairs. The grounds about these buildings require expenditures to put them in better condition.

The estimates include amounts required for the purchase and keep of an automobile. It is intended to use this automobile constantly for the transfer of books from one library to another, as well as for the purpose of inspection of the libraries. It is intended thereby to provide a better service for the distribution of books from branch to branch and for interchange of books than is possible at present. A more systematic inspection of the library branches by the heads of departments is necessary. At the present time, because of the great area of the Borough of Queens, it is impossible, by the use of the ordinary transit facilities, for the heads of departments to properly inspect the libraries.

In making up the estimates for books, binding, etc., for the year 1910, the amount required has been stated keeping in view the fact that in addition to the amount so estimated there will be available from funds of the corporation for this purpose the sum of $3,000.

The amount of the estimate has been calculated after a careful consideration of each item with a view to reducing the cost to the City to the lowest amount commensurate with the increasing demand upon the library system on the part of the public.

Very respectfully,

(Signed) F. W. MAR, President.

ESTIMATE, 1910.

Summary Statement.

Estimate of Entire Amount Required for Maintenance of the Libraries, 1910.

Salaries	$68,400 00
Books, binding, etc.	44,880 00
Supplies	8,845 00
Telephone service	1,300 00
Furniture and repairs thereto	3,245 00
Fuel, light, rent, repairs	27,462 00
Purchase of automobiles	2,500 00
Maintenance of automobiles, etc.	1,500 00
Total	$158,132 00

LAW LIBRARY OF BROOKLYN.

Law Library, County Court House,
Borough of Brooklyn,
June 2, 1909.

Hon. P. J. SCULLY, City Clerk and Clerk of the Board of Aldermen:

Gentlemen—The Board of Trustees of the Law Library, in Brooklyn, pursuant to Laws of 1863, chapter 463, ascertains and by its Chairman hereby certifies:

That the sum of ninety-four hundred dollars will be required for the care and management of the Law Library of the Second Judicial District of Brooklyn for the fiscal year from January 1, 1910, to December 31, 1910, inclusive, viz.:

Salary of Librarian	$4,200 00
Salary of Assistant Librarian	2,500 00
Salary of Clerk	1,200 00
Salary of Assistant Clerk	900 00
Incidentals, binding, stationery and shelving	600 00
Total	$9,400 00

No change is made in the gross amount certified, but the compensation of William G. Martin, Assistant Clerk, instead of being provided for in the "Incidentals" at $60 per month, is provided for separately at $900 per annum, which sum is deducted from the "Incidentals," leaving $600 for that item.

That the amounts given in this certificate are set forth in the statements required by the Comptroller's circular and which statements are annexed, duly certified.

Respectfully submitted,
JAMES D. BELL, Chairman.

Statement of the Law Library in Brooklyn Required by Comptroller.
Salary Schedule.

Title of Appropriation: Salaries, General Administration.

Allowed for 1909	$7,900 00
Estimate for 1910	8,800 00

	Proposed Salary for 1910.	Salary Paid June, 1909.
Librarian	$4,200 00	$4,200 00
Assistant Librarian	2,500 00	2,500 00
Clerk	1,200 00	1,200 00
Assistant Clerk	900 00	.....

Title of Appropriation: Salaries, Incidentals, Binding, Stationery, Shelving.

	Estimate, 1910.	Appropriation for 1909.
Salaries	$8,800 00	$7,900 00
Incidentals, binding, stationery and shelving	600 00	*1,500 00
Total	$9,400 00	$9,400 00

* Including boy at $60 per month.

COMMISSIONERS OF THE SINKING FUND.

City of New York, Department of Finance,
July 14, 1909.

Hon. P. J. SCULLY, City Clerk and Clerk of the Board of Aldermen:

Dear Sir—I transmit herewith an estimate of the moneys required for the expenses of the Commissioners of the Sinking Fund for the year 1910.

The following are the only employees in the office of the Commissioners of the Sinking Fund:

Bertha M. Schmitt, Clerk, salary $1,700 per annum.

Anna L. McLoughlin, salary $1,350 per annum.

—payable from the general appropriation for the expenses of the Commissioners of the Sinking Fund.

The balance of the moneys are to be used for expenses of a miscellaneous character and the amount asked for is the same as was appropriated for the year 1909, viz., $17,000.

Very truly yours,
N. TAYLOR PHILLIPS, Secretary, Commissioners of the Sinking Fund.

Estimate of Moneys Required for Expenses of the Commissioners of the Sinking Fund for the Year 1910.

For Salaries—	
Bertha M. Schmitt, Clerk	$1,700 00
Anna L. McLoughlin, Stenographer and Typewriter	1,350 00
Proposed increase to each of the above, $300	600 00
For expenses of a miscellaneous character	13,350 00
	$17,000 00

BELLEVUE AND ALLIED HOSPITALS.

Hon. P. J. SCULLY, City Clerk and Clerk of the Board of Aldermen:

Sir—I have the honor to transmit herewith, as required by section 226 of the Greater New York Charter, and in accordance with the resolution of the Board of Trustees at a meeting held on July 27, 1909, the following estimates of the funds that will be required to meet the expenses of Bellevue and Allied Hospitals during the year 1910.

Compared with the appropriation for 1909, the amounts requested for 1910 are as follows:

		Estimate, 1910.	Appropriation, 1909.
Salaries and Wages—			
General Administration		$42,145 00	$34,200 00
Bellevue Hospital:			
Administration	$23,300 00		
Operation and maintenance	245,833 00		
Nurses' residence	16,812 00		
		285,945 00	254,368 00

		Estimate, 1910.	Appropriation, 1909.
Salaries and Wages—			
Gouverneur Hospital:			
Administration	$3,480 00		
Operation and maintenance	57,544 50		
		61,024 50	51,082 50
Harlem Hospital:			
Administration	$5,430 00		
Operation and maintenance	57,124 50		
		62,554 50	54,588 50
Fordham Hospital:			
Administration	$5,840 00		
Operation and maintenance	48,270 50		
		54,110 50	55,360 50
Contingencies (Salary Fund)		10,000 00	.....
Total salaries and wages		$515,779 50	$449,599 50
General supplies		$470,000 00	$507,880 77
Materials for repairs and replacements by Departmental labor		15,500 00	13,529 75
Repairs and replacements by contract and open order		52,000 00	20,000 00
Apparatus, machinery, vehicles, harness, etc., care of		6,000 00	11,735 00
Purchase of furniture and fittings		12,000 00	*.....
Purchase of automobiles		10,000 00	4,000 00
Maintenance of automobiles		3,000 00	*.....
Purchase of horses		1,625 00	*.....
Forage, horseshoeing, etc		7,660 00	*.....
Fuel		90,000 00	85,050 00
Telephone service		5,500 00	5,500 00
Contingencies		5,000 00	5,450 00
Clothing for insane patients		15,000 00	*.....
Total supplies, etc		$693,285 00	$653,145 52
Grand total		$1,209,064 50	$1,102,745 02

*Included in Supplies.

This increase on the estimate for "Salaries" compared with the appropriation for 1909 is $56,180 and the increase in "Supplies" $40,139.48, a total increase of $106,319.48.

It should be noted that the increase in salaries is entirely due to the request for new appointments. In fact, aside from the amount required by these appointments, there is actually a decrease of $3,985 in the estimate for 1910 when compared with the appropriation for 1909.

A summary of the proposed new appointments are as follows:

Contingent salary fund	$10,000 00
Assistant Superintendents (2)	6,000 00
Resident Physician (alcoholic wards)	1,500 00
Clerk in bookkeeping office	600 00
Physicians in tuberculosis clinics	8,100 00
Physicians to Gouverneur dispensary	6,000 00
Anaesthetists (7 at $750)	5,250 00
Automobile Engineman (5 at $1,200)	6,000 00
X-Ray Photographer	1,200 00
Chief Bookkeeper	3,000 00
Day camps	5,160 00
Plumber	1,825 00
Chaplains (2 at $450)	900 00
Dietitian	1,000 00
Watchmen (2)	1,440 00
Coal Passers (3)	2,190 00
Fire Expert	600 00
Clerk in alcoholic wards	600 00
Hospital Helper-Mechanic	600 00
Seamstress (Bellevue Hospital)	288 00
Laundryman, 2 at $240 (Bellevue Hospital)	480 00
Laundress, 2 at $240 (Bellevue Hospital)	480 00
Waitress (M. T. S.)	216 00
Laundresses, 3 at $180 (B. T. S.)	540 00
Laundryman (B. T. S.)	300 00
Seamstress (B. T. S.)	280 00
Waitress (B. T. S.)	216 00
Additional Nurses, tuberculosis clinic (4)	2,400 00
Additional Nurses, social service (2)	1,200 00
	$68,365 00

SALARIES.

During the past few months many important changes have been made in the Civil Service classification of the employees in this Department. The class of employees known as Hospital Helpers has been segregated under titles more descriptive of the duties performed, such as Hospital Clerk, Cook, Laundress, Laundryman, Waitress, Waiter and Hospital Helper-Mechanic. During the last few months also the payroll has been prepared on the basis of bureaus and departments, and the estimate has been prepared in similar form. While this furnishes a clear statement of the number of persons employed in each office or bureau and permits of an easy analysis of the estimate, it prevents a proper comparison of the estimate with the payrolls of June and December, 1908, as it is impracticable to tell from these payrolls which of the many helpers were employed in the various bureaus. A recapitulation of all these payrolls has, however, been included, as well as a summary of the estimate, thus affording a comparison of the total number of employees by titles, though not as individuals.

It is requested that the supporting schedules be prepared in the form of the summaries, as should the schedules be set up by bureaus it would undoubtedly result in needless requests for modifications and amendments.

In comparing the payrolls for June, 1909, with those of June and December, 1908, it should be remembered that all of the employees of the Bellevue Training School were placed on the payroll of the Department on January 1, 1909, and that the new Training School for Women Nurses was opened in April, 1909; also that Pavilions A and B of the new Bellevue Hospital, accommodating 400 patients, were opened in November, 1908. These events increased the numbers on the payroll of Bellevue Hospital, and consequently prevent a proper comparison of the payrolls for the periods named.

Increases.

The increases asked for the various individuals are all, in the opinion of the Trustees, merited by efficiency and length of service. In each instance specific reasons are given for the increase requested. These are as follows:

	Present Salary.	Proposed Salary.	Increase.	Total Sum Involved.
Assistant Alienist	$1,500 00	$2,100 00	$600 00	$1,200 00
Pathologist	1,500 00	2,100 00	600 00	1,200 00
Stenographer	750 00	1,050 00	300 00	300 00
Stenographer	750 00	900 00	150 00	150 00
Clerk	900 00	1,200 00	300 00	300 00
Clerk	600 00	900 00	300 00	300 00
Cook	720 00	900 00	180 00	180 00
Hospital Clerks (3)	720 00	900 00	180 00	540 00
Supervising Nurses (3)	1,200 00	1,500 00	300 00	900 00

In State Hospitals the Second Assistant Physicians are paid $1,500 to $2,000 per year, with an increase from minimum to maximum at the rate of $100 at the end of each year's continuous service. The services rendered by the Assistant Alienists in this Department are much more responsible and difficult, and good men should be encouraged to remain by adequate increases of salary for length of service. The incumbents for whom increases are asked have been in the Department since April 16, 1906, and September 20, 1906, respectively.

The two Pathologists for whom increases are recommended have been in the service of the Department since March 1, 1905, and April 1, 1905, respectively, during which time no increase whatever has been received by them. It is realized by the Trustees that in order to retain medical men with the qualifications and capacity required for the places held by them in this Department, an advance must be made in the salaries as now established. Both Pathologists for whom increases are asked have received tempting offers from other institutions, but have remained on the assurance that an effort would be made to increase their salaries. These men have been carefully trained by Dr. Norris, the Director of Laboratories, and it is very desirable that their services should be retained, as it takes a long time for new men to acquire a knowledge of the technique of the laboratory and the routine of the hospital. Furthermore, the early opening of the new Pathological Department renders it imperative to have men accustomed to the work of the Department to organize the new and enlarged activities provided for in the new building.

The Stenographers are appointed in this Department at a salary of $750, and no increase has been awarded for length of service or efficiency. As a result the Department has lost the services of several Stenographers by resignation, or through transfer to other Departments, where they are now receiving higher salaries. It is believed by the Trustees that length of service and efficiency should be recognized at all times. It is especially desirable that the Stenographers should be encouraged to continue in the Department, as much of the detail work naturally devolves upon them, and their efficiency can only be secured through experience. The hours of this Department are longer than those in most of the other Departments, and this factor should be taken into consideration in determining the question of their salaries. Increases have been provided for two Stenographers as shown above. The Stenographer for whom $300 more is asked has been in the Department since November 1, 1904, the other since January 1, 1907.

At Bellevue Hospital ten Helpers are employed in the admitting office as Stretcher Carriers and Messengers by day, and ten Helpers for the same duties at night. These Helpers come into direct contact with the patients, and it is very desirable that a higher grade of men should be secured than has been possible at the low wage paid. Thirteen of them only receive $240 a year, and provision has been made to increase these men to $300 each, a total increase of $780. This will also tend to insure the employment of a more permanent class of men in the admitting office, which in itself would justify the extra expenditure that will be incurred.

An increase of $180 has been included for the Hospital Clerk who has charge of the central storeroom of Bellevue Hospital. This incumbent has been in the Department for over fifteen years, and has considerable responsibility, having charge of nine employees. He passes upon the quality of all goods delivered to the hospital and supervises all stores' accounts. All requisitions for supplies pass through his hands.

An increase of $300 is asked for the Clerk in Charge of the Payrolls. The work on the payrolls has increased materially in the past few months, and it became necessary to organize a bureau. The Clerk for whom an increase is asked has general supervision of the preparation of the salaries and wage schedules of the departmental estimate, and of all modifications required in these schedules, as well as of keeping all records of the changes, and appointments, dismissals, etc., of the employees. The slight increase asked for him is merited by the additional responsibility which has been placed upon him, as also by efficiency and length of service. He has been over five years in the Department.

The Property Clerk for whom an increase of $180 is asked has been employed in Bellevue Hospital for over thirteen years. His responsibilities have been considerably increased by the opening of Pavilions A and B of the new Bellevue Hospital. He is under $2,500 bonds, the premium for which he pays himself. He is familiar with the routine of the entire institution, and his services are of great value to the Department.

A similar increase is asked for the Property Clerk at Harlem Hospital, and is equally deserved.

Three Coal Passers, at $2 each per day, in all $2,190, have been provided for Gouverneur Hospital. The grade for these employees was established on July 2, 1909, after careful investigation by the Department of Finance of the conditions in the Gouverneur Hospital boiler room. The Board of Aldermen has been requested to issue Revenue Bonds for the balance of this year in order that appointments may be made without delay.

The increase of $150 to the Cook at Bellevue Hospital is more apparent than real, as this grade was established in June, 1909, and the incumbent placed on the payroll at the increased rate on July 1.

The Butcher for whom an increase of $120 is asked was on the payroll at the higher rate for one year, from May 1, 1908, but was reduced when it was learned that the grade of $720 had never been formally established. The Board of Estimate and Apportionment has authorized the establishment of the new grade, and it is expected that this will be approved by the Board of Aldermen this autumn.

There are a number of Civil Service employees in the Department to whom it is desired to give slight increases for length of service. The amount thus involved is $900, composed as follows:

Name and Title.	Appointed.	Salary.	Proposed Salary.
Theodore Hagenjos, Clerk	June 7, 1909	$540 00	$600 00
James A. Masterson, Clerk	June 10, 1907	600 00	750 00
Anna M. Duffy, Clerk	Feb. 10, 1908	600 00	750 00
Emma Murray, Clerk	Feb. 19, 1908	600 00	750 00
Elizabeth R. G. Wilson, Clerk	Mar. 17, 1908	600 00	750 00
Lillian Guilfoy, Hospital Clerk	Nov. 4, 1907	600 00	720 00
Mary Law, Hospital Clerk	Nov. 18, 1907	600 00	720 00

It is believed that payment of these increases, which does not exceed $150 to any one incumbent, will encourage competent employees to remain in the Department.

The wages paid by the Board of Trustees are generally less than those of other Departments, and the hours, as in the case of Stenographers, are usually longer; furthermore, the duties performed in every instance warrant the higher remuneration proposed.

Additional Appointments.

Two Assistant Superintendents (Medical) are provided for at $3,500 and $2,500, respectively. Attention is called to the fact that in the departmental estimate last year, four Superintendents were asked for, one at each of the hospitals of this Department. This request was not granted. It has been made manifest during the past year that the organization of the three dependencies requires less consideration at the present time than does the organization of the main hospital—Bellevue. With this in mind, the request for two Assistant Medical Superintendents is made. This does not represent the full requirement, but represents the least that can be done at the present time toward the proper organization of the administrative staff of the Department. The duties of the General Medical Superintendent are so numerous and so varied that it is a physical impossibility for him to give adequate attention to the work of his office. His time is too much occupied with details of administration, which should be performed by Assistants. This condition will soon be aggravated with the growth of the new Bellevue Hospital, to which it is desirable that the General Medical Superintendent should give more time in order to plan and perfect the arrangements, both as to building and as to organization. It is essential that some members of the medical administrative force should make frequent tours of inspection through the wards of the institution. It is impossible for the General Medical Superintendent to do so at the present time. To establish the fact that a minimum number of Assistant Superintendents has been asked for, it is only necessary to call attention to one of the best administered hospitals in the country—the Massachusetts General—which has a Medical Superintendent and four Assistant Medical Superintendents, although the bed capacity is only about one-fourth of that of this Department. The Boston City Hospital has a Medical Superintendent and at least three Assistant Superintendents, as well as several lay supervisors. This is one of the most important requests relating to the organization of the Department.

One thousand two hundred dollars has been included for the salary of an X-Ray Photographer at Fordham Hospital. At the present time the radiographic work at this institution is performed without salary, but the increasing demands, as well as proper control, require that a salaried Radiographer be provided. Similar incumbents at the other hospitals are paid salaries.

Three thousand dollars has been requested with which to pay the salary of a Chief Bookkeeper. The place has been established upon the special recommendation of the Comptroller, who stated that it was necessary for the efficient management of the Bookkeeping Department. An appointment will be made as soon as a properly qualified man can be obtained.

It will be observed that $6,000 has been included for the payment of salaries of $300 each to twenty Physicians in the dispensary at Gouverneur Hospital. This action is also taken upon the recommendation of the Comptroller. A report was made to the Board of Estimate and Apportionment by the Bureau of Municipal Investigation and Statistics in regard to the crowding of the Gouverneur dispensary, and the Trustees were advised to apply for the establishment of the necessary grade. The grade has been established, and appointments will be made from August 1, of the current year. It is essential that the full allowance requested be granted in order that this dispensary may properly serve the purpose for which it is intended.

Instructors in Anaesthesia have been provided for at $750 each, one for each of the four divisions of Bellevue Hospital, and one for each of the three allied hospitals. The importance of this request can hardly be overestimated. Surgical operative technique has reached a very high point of perfection, but the practice of anaesthesia has not made similar progress. In recognition of this fact, the Trustees have attempted for the past seven years to secure proper instruction of the house staff, who must give the anaesthetics in the majority of instances, and have from time to time appointed expert anaesthetists for this purpose. This has only been partly successful, however, as it is impossible to retain the service of good men continuously without pay. In operations in private practice among the well-to-do, the family physician no longer gives the anaesthetic; an expert anaesthetist is employed for the purpose. The Trustees wish to give the sick poor the benefit of this same expert anaesthesia if it can be done without bringing undue expense upon the City.

Provision has been made for the payment of the salary of a Resident Physician to the alcoholic wards, at $1,500. The management and care of the alcoholic service has been the subject of a long and careful investigation by the Medical Board and the Board of Trustees, and this request is the result of these deliberations. The care and treatment of alcoholic patients presents so many difficulties, and so great are the risks of permitting the discharge of patients in need of further treatment, or in whom drinking is the indication of a mental disease requiring the care of experienced alienists, that it is essential that a properly qualified Resident Physician be employed in these wards at all times. It is believed, also, that the appointment of a salaried Physician to this service will tend to prevent the abuse of the privileges of the hospital.

At the present time no clinical record whatever is kept of the patients in the alcoholic wards, and as such records are essential for the proper management of the service, it is proposed to appoint a Clerk at $600, for this purpose.

Provision has been made for the appointment of an additional Clerk in the Bookkeeping Department, at a salary of $600. The appointment of this Clerk will enable the work to be kept up to date and prevent the delays that occur at the present time as a result of an inadequate clerical force.

An increase of $300 is asked for the Supervising Nurses in each of the three allied hospitals. These Nurses really act as Superintendents; they have great responsibility, and the increased remuneration asked for them is no more than commensurate with the duties performed.

Five Hospital Helpers, whose aggregate salaries amount to $1,860, are employed in Bellevue Hospital as Telephone Operators, and it is proposed to replace these employees by Hospital Clerks at the minimum grade of $480 each. The duties of the Operators at Bellevue Hospital are very important, and it is desirable that experienced Operators be secured.

In the allied hospitals, the lowest grade of Telephone Operators has been inserted at $300, but no change has been made in the few employees who are in receipt of more than that amount. It was at first proposed to provide for regular switchboard Operators from the Civil Service list, at $600 each, for all the hospitals, but the expense involved seemed prohibitive in view of the many other important improvements necessary at this time.

The same statement applies to the Elevatormen in the Department, as a similar change has been made in the several schedules so as to make the minimum wage of Elevatormen $300.

Early this year the sum of $10,000 was appropriated in Revenue Bonds for the maintenance of tuberculosis day camps which have been established aboard the ferryboats "Southfield" and "Westfield." This work has developed and has been the subject of very favorable notice in medical and social records. Schools have been instituted for the children, and Teachers provided by the Board of Education. Workmen predisposed to tuberculosis are to be permitted to sleep on the boats in the open air at night, and the number of sufferers cared for during the day is to be increased. Provision has therefore been made for the employment throughout the year 1910 of the full number of persons who are to care for this new sphere of activity of the Department. The amount involved for six employees aboard the "Southfield" is $2,340, and for eight employees aboard the "Westfield" is $2,820, making a total of $5,160.

One of the principal items included in the Budget is provision for the extension and development of the activities known as "social service" or "welfare" work. Some years ago this work was begun by the appointment of a Nurse to visit the wards and ascertain the home conditions of the patients in order to secure the co-operation of the various charitable associations of the City whenever such aid was needed. Similar Nurses have since been appointed in almost every hospital of this City and in those of many other cities. The co-operation of most of the social organizations in the City has been obtained. Patients requiring further care are sent to convalescent homes and their families assisted during their absence. The financial aid given to the patients or to their relatives is contributed voluntarily by a number of interested persons, and much of the service employed is rendered gratuitously. Nurses have been appointed to visit the tenements from which sick babies are brought to the hospital so as to make sure that the instructions of the physicians are followed in the homes. Mothers are advised as to the preparation of food and the care of the infants. Thus far this feature of the welfare work has been limited to two divisions, and it is desirable that a Nurse should be appointed for each of the four divisions of the hospital.

Salaries at $600 each are included for the Physicians and $300 for the Assistant Physicians who serve in the tuberculosis clinics in the various dispensaries. It has been found impossible to secure and retain Physicians who are qualified and willing to treat the patients in these clinics on account of the personal danger from infection to which it exposes them, as well as because of the small scientific interest in the work. The Trustees have every reason to believe that by paying the Physicians the small salaries proposed a sufficient number of medical men can be obtained to care for the ever increasing number of sufferers from tuberculosis who apply to the Department for treatment.

It is proposed to appoint two Watchmen at Bellevue Hospital from the Civil Service eligible list at a wage of $720 each in place of the two Helpers at $240 each, who now perform the duties. This change while necessary in order to comply with the Civil Service rules, is also desirable for the proper protection of the hospital.

In each of the hospitals the Helpers performing the duties of Oilers have been replaced by Hospital Helper-Mechanics at a salary of $600 each. The change, desirable in itself, is required to conform with the rules and regulations of the Municipal Civil Service Commission.

In comparing the estimate of Gouverneur Hospital with the payroll for June, 1909, there is an apparent increase of thirty-three (33) Pupil Nurses at the total sum of $4,752. This is explained by the fact that each year provision has to be made in the Budget of this Department for the Nurses who are supplied to Gouverneur Hospital by the Department of Public Charities, the amount appropriated being subsequently transferred to that Department each year in accordance with the resolution of the Commissioners of the Sinking Fund adopted in 1902.

The present nursing staff is not adequate to the needs of the Department, and excluding the additional five Nurses which are to be assigned to the dispensary, tuberculosis clinics and convalescent relief bureau, provision has been made in the estimate for the employment of 44 additional Nurses for the general hospital service. The increased expense of this is not so great as it would seem, inasmuch as 11 Graduate Nurses who receive salaries of $600 each are to be replaced by Pupil Nurses at $96 each. There would be a great saving in the cost of nursing if a sufficient number of Pupil Nurses could be secured. It is felt that the new Training School, because of the better teaching facilities which it provides, as well as the comfortable living quarters which it affords the Pupil Nurses, will be of great help in this direction. In fact, it should be said that the proposed reduction in the number of Graduate Nurses is due to the fact that there is every indication that an increased number of Pupil and Post-graduate Nurses will be obtainable.

When compared with the June, 1909, payroll there are a few other changes in the Departmental Estimate that are not described in this text. These, however, are all of a minor character and are self-explanatory.

Inelasticity of Supporting Schedules.

Owing to the peculiar nature of the work performed by the hospitals and the consequent irregularity in the number of employees, particularly Nurses, and because of the fact that it is impossible to foresee the needs of the Department with absolute certainty, it is requested that an allowance of $10,000 be made for salaries and wages against which may be drawn all special items or payments not provided for in the salaries and wages schedules. This is necessary, especially because of the inelasticity of the Budget. During the past year it was found on a number of occasions that very necessary improvements could not be made, or emergencies met, because of the fixed schedules. This situation has been appreciated by the City authorities and at a conference held at the Comptroller's office the request of the amount herein included was suggested as the only satisfactory solution of the difficulty.

The amount required for general supplies has been estimated by adding 5 per cent. to double the exact amount expended during the first six (6) months of 1909 for each item included therein. This is a conservative estimate, especially considering the fact that the census of the various hospitals increases each year.

For materials and supplies for repairs and replacements by departmental labor an increase is asked of only 5 per cent. over the basis of the expenses for 1909.

In schedule 15 is included the sum of $4,000 for the purpose of securing an automobile for the use of the General Medical Superintendent of the Department. At the present time he has a carriage at his disposal, but it is impracticable to use it in visiting the allied hospitals. Fordham and Harlem Hospitals are from five to eight miles distant from Bellevue, and should an automobile be available these hospitals could be visited more frequently by the General Medical Superintendent.

Included in the same schedule is the sum of $6,000, with which it is proposed to buy two automobile ambulances, one for Fordham and one for Harlem Hospital on account of the long distances which the ambulances of these hospitals have to travel. An automobile ambulance was purchased for Bellevue Hospital during the past year and is doing about three times the work of a horse ambulance. It is believed that the installation of automobile ambulances will result in a saving to the Department, as they will enable a number of horses and drivers to be dispensed with, and at the same time render the ambulance service more efficient.

In schedule 12 it will be noted that provision has been made for the repainting of Fordham and Gouverneur Hospitals, and for repairs to tuberculosis day camps, and also for the purpose of providing additional space in the tuberculosis clinic of Gouverneur Hospital dispensary. These improvements are estimated to cost $12,500. All of them are necessary and should be provided for in the Budget for 1910.

It will also be noted that provision has been made in the schedule for extensive changes in the electrical equipment of Gouverneur, Harlem and Fordham Hospitals at an estimated cost of $15,500. This work is declared necessary by the Bureau of Lamps and Gas of the Department of Water Supply, Gas and Electricity in a letter stating as follows:

"In view of the fact that to change these equipments to meet the requirements of this Department would involve the expenditure of more money than is usually devoted to ordinary repairs to such equipments, we write to ask that the Board of Bellevue and Allied Hospitals make such provisions as would be sufficient for such changes as set forth in detail by this Department."

The amount required for forage, horseshoeing, etc., has been estimated on the assumption that the two automobile ambulances and the automobile for the General Medical Superintendent asked for will be granted, and that as a result five (5) horses will be disposed of. If any of these requests are denied it is essential that this appropriation be increased by a corresponding amount to the number of horses dropped in each hospital, viz.: Fordham Hospital, 1 horse; Harlem Hospital, 3 horses; Bellevue Hospital, 1 horse.

The amount required for contingencies is estimated at $5,000, which is less than the appropriation for 1909. It is believed, however, that if the $10,000 "elastic fund" is granted it will not be necessary to charge any salaries against contingencies, as was necessary in 1909, hence the reduction.

Conclusion.

The Trustees have carefully examined and revised the general items contained in the several schedules with due regard to economy and efficiency of administration, and are satisfied that the funds requested are necessary to care properly for the sick and injured who will be treated in the hospitals of the Department during 1910.

Respectfully submitted,

JOHN W. BRANNAN, President, Board of Trustees.

MEMORIAL COMMITTEE, G. A. R.

The City of New York,
Office of the President of the Borough of The Bronx.
Municipal Building, Crotona Park, August 3, 1909.

Hon. P. J. SCULLY, City Clerk and Clerk of the Board of Aldermen:

Dear Sir—I transmit herewith copy of a letter received from the Memorial Committee of the Grand Army of the Republic, Borough of The Bronx, in which request is made for the appropriation of $1,000 for Memorial Day observances in the Borough of The Bronx for 1910.

Yours truly,
LOUIS F. HAFFEN, President, Borough of The Bronx.

Memorial Committee of the Grand Army of the Republic,
Borough of The Bronx,
New York, July 26, 1909.

Hon. LOUIS F. HAFFEN, President, Borough of The Bronx:

Dear Sir—We herewith respectfully submit the following estimate of money which will be required for Memorial Day observances in the Borough of The Bronx for the year 1910:

Three bands of music	$450 00
Three fife and drum corps	150 00
Carriages	160 00
Rent of halls	140 00
Printing	40 00
Decorating graves	60 00
	$1,000 00

The amount asked for is $200 in excess of the amount allowed in the Budget for 1909. The extra band and additional carriages are found to be necessary with the increase in the number of those participating in our Memorial Day parade. The $200 excess of the $800 was made up from the depleted treasuries of Vanderbilt and Oliver Tilden Posts. The carriages are provided for all veterans of the Civil War who by reason of old age are now unable to march.

We earnestly request that you urge the granting of the amount by the Board of Estimate and Apportionment.

Respectfully submitted,
THEODORE WEBERG, Chairman.
JOHN A. MURRAY, Treasurer.
ALBERT H. BAISELEY, Secretary.

POLICE DEPARTMENT.

Police Department of The City of New York,
No. 300 Mulberry Street,
July 16, 1909.

Hon. P. J. SCULLY, City Clerk and Clerk of the Board of Aldermen:

Sir—The Police Commissioner on July 16, 1909, directed the following proceedings:

Ordered, That in pursuance of a resolution adopted by the Board of Estimate and Apportionment on May 14, 1909, the Departmental Estimate of the Police Department of the amount required for expenses for the year 1910, be and is hereby approved and the following copies forwarded:

One copy to the Mayor, as Chairman of the Board of Estimate and Apportionment.
One copy to the Comptroller.
One copy to the Board of Aldermen.
One copy to the Secretary of the Board of Estimate and Apportionment.

Respectfully,
WM. F. BAKER, Police Commissioner.

DEPARTMENTAL ESTIMATE OF THE POLICE DEPARTMENT, CITY OF NEW YORK, OF THE AMOUNT REQUIRED FOR EXPENSES FOR THE YEAR 1910.

[SUPPLEMENTAL.]

Police Department of The City of New York,
No. 300 Mulberry Street,
August 3, 1909.

Hon. P. J. SCULLY, City Clerk and Clerk of the Board of Aldermen:

Gentlemen—The following proceedings were this day directed by the Police Commissioner:

On reading and filing communication from the Central Federated Union, dated July 31, 1909, asking that the persons employed in the Police Department as roofers (metal) be paid the prevailing rate of wages, $4.50 per day,

Ordered, That the Board of Estimate and Apportionment be and is hereby respectfully requested to amend the departmental estimate of the Police Department for the year 1910, in Form 1, title of appropriation "No. 518, Mechanics and Laborers," by fixing the amount "Roofer (metal), 313 days, $4.50 per day, three employees, total, $4,225.50," such amount being the prevailing rate of wages, instead of the compensation therein stated, viz.: $3.75 per day.

Respectfully,
WM. F. BAKER, Police Commissioner.

Police Department of The City of New York,
No. 300 Mulberry Street,
August 9, 1909.

Hon. P. J. SCULLY, City Clerk and Clerk of the Board of Aldermen:

Gentlemen—The following proceedings were directed by the Police Commissioner on the 6th inst.:

On reading and filing report of T. E. O'Brien, Lieutenant in charge of Bureau of Repairs and Supplies, dated August 3, 1909, stating that the Carpenters and Plumbers employed in this Department are not receiving the prevailing rate of wages, viz., $5 per day,

Ordered, That the Board of Estimate and Apportionment be and is hereby respectfully requested to amend the department estimate of the Police Department for the year 1910, in appropriation "518, Mechanics and Laborers, Form 1," so that the second and third lines thereof shall read:

Carpenters, 313 days, $5 per day, nine employees $14,085 00
Plumbers, 313 days, $5 per day, six employees 9,390 00

—so that the Carpenters and Plumbers employed in this Department may be paid at the prevailing rate of $5 per day, instead of $4.50 and $4.25 per day, respectively, as therein stated.

Respectfully,
WM. F. BAKER, Police Commissioner.

Police Department of The City of New York,
No. 300 Mulberry Street,
August 12, 1909.

Hon. P. J. SCULLY, City Clerk and Clerk of the Board of Aldermen:

Gentlemen—The Police Commissioner on August 11 directed the following proceeding:

Ordered, That the Board of Estimate and Apportionment be and hereby is respectfully requested to amend the department estimate of the Police Department for the year 1910, in appropriation "518, Mechanics and Laborers," by adding thereto: "Job Compositors, 313 days, $3.50 per day, eight employees, amount, $8,764."

Respectfully,
WM F. BAKER, Police Commissioner.

Police Department,
No. 300 Mulberry Street,
August 26, 1909.

Hon. P. J. SCULLY, City Clerk and Clerk of the Board of Aldermen:

Gentlemen—The following proceedings were directed by the Police Commissioner on August 25:

Ordered, That the request made August 11, 1909, upon the Board of Estimate and Apportionment to amend the departmental estimate of the Police Department for the year 1910, in appropriation "518, Mechanics and Laborers," by adding thereto: "Job Compositor, 313 days, $3.50 per day, eight employees, amount $8,764," be and is hereby rescinded.

Ordered, That the Board of Estimate and Apportionment be and hereby is respectfully requested to amend the departmental estimate of the Police Department for the year 1910, in appropriation "518, Mechanics and Laborers," by adding thereto:

Compositors, 313 days, $3.50 per day, six employees; amount, $6,573.
Pressman, 313 days, $4 per day, one employee; amount, $1,252.
Feeder, 313 days, $2.66⅔ per day, one employee; amount, $834.67.

Respectfully,
WM. F. BAKER, Police Commissioner.

BOARD OF AMBULANCE SERVICE.

Board of Ambulance Service,
Office of the Secretary, Foot of East Twenty-sixth Street,
New York, August 31, 1909.

Estimate of the Board of Ambulance Service for 1910.

Hon. P. J. SCULLY, City Clerk and Clerk of the Board of Aldermen:

Gentlemen—The Board of Ambulance Service of this City, created by chapter 395 of the Laws of 1909, very respectfully presents the following estimate of the means required for the efficient conduct of its work during the year 1910:

(1) General Supplies—		
Manhattan	$500 00	
Brooklyn	500 00	
Total		$1,000 00
(2) Telephones—		
Manhattan	$1,000 00	
Brooklyn	1,000 00	
Total		2,000 00
(3) Contingencies—		
Manhattan	$500 00	
Brooklyn	500 00	
Total		1,000 00
(4) Rents—		
Manhattan	$1,200 00	
Brooklyn	600 00	
Total		1,800 00

(5) Salaries and Wages, General Administration—			
Director			5,000 00
Manhattan:			
Deputies, 3 at $1,800	$5,400 00		
Registrar	1,800 00		
Inspector	1,500 00		
Clerk	1,200 00		
Telephone Operators, 3 at $1,200	3,600 00		
Stenographer	900 00		
		$14,400 00	
Brooklyn:			
Deputies, 3 at $1,800	$5,400 00		
Clerk	1,200 00		
Telephone Operators, 3 at $1,200	3,600 00		
Stenographer	900 00		
		11,100 00	
Total for Salaries and Wages			25,500 00
Making the total amount of the estimate for 1910			$36,300 00

Respectfully submitted,

WM. F. BAKER, President.

Attest:
Robert W. Hebberd, Secretary.

LAW DEPARTMENT.

City of New York,
Law Department, Office of the Corporation Counsel,
New York, June 30, 1909.

Hon. P. J. SCULLY, City Clerk and Clerk of the Board of Aldermen:

Sir—By direction of the Corporation Counsel I transmit herewith the provisional estimate of the expenditures of the Law Department for the year 1910.

Yours respectfully,
J. H. GREENER, Assistant Chief Clerk.

PROVISIONAL ESTIMATE OF THE LAW DEPARTMENT FOR THE YEAR 1910.

The Board of Estimate and Apportionment of The City of New York:

Sirs—In compliance with the instructions contained in your circular letter dated May 18, 1909, I submit the following estimate of the appropriations needed by the Law Department for the year 1910. You will note that I have asked for an increase of less than one per cent. over the total amount allowed for 1909:

	Allowed for 1909.	Needed for 1910.
Salaries and Wages—		
Appropriation	$618,490 00	
Bond issue	8,325 00	
	$626,815 00	$650,765 00
General Supplies	8,700 00	7,500 00
Telephones	5,250 00	7,500 00
Contingencies, including Deficiencies	107,500 00	113,000 00
Contingent Counsel Fees, including Deficiencies	25,000 00	15,000 00
Fees of Expert Witnesses and Disbursements in proceedings to review Assessments for Taxation, including Deficiencies	30,000 00	37,500 00
Expenses in connection with actions and proceedings brought by or against gas and electric light companies and other public utility corporations	30,000 00	15,000 00
For compensation and expenses of counsel in proceedings for review of Assessments of Special Franchises made by the State Board of Tax Commissioners, pursuant to chapter 155, Laws of 1906	25,000 00	20,000 00
Police Detail, Salaries	29,400 00	29,400 00
Total	$887,665 00	$895,665 00

The detail in connection with the above items is as follows:

Salaries and Wages.

The amount allowed in the Budget for 1909 was $610,240, to which was added a transfer from other appropriations of $8,250 and a Special Bond Issue of $8,325, making a total of $626,815. For the year 1910 I have requested $650,765. The increase consists of the following three items:

First. It was found necessary in the early part of the year to add ten Stenographers to our force and resolutions were adopted by your Board on February 19, 1909, creating the new positions, the annual salaries of which aggregated $10,900, and transferring from other appropriations $8,250 to pay the salaries for the remaining ten months of the year.

Second. The great increase in the business transacted by the Tenement House Branch Office necessitated a considerable addition to the force of that Bureau and resolutions were adopted by your Board on April 2, 1909, establishing ten additional positions whose annual salaries aggregated $11,100 and authorizing a Special Bond issue of $8,325 to pay such salaries from April 1 to the close of the year.

The two foregoing items add $21,000 to the salary list of $610,240 as established in the Budget for 1909, making a total payroll now in force of $631,240. The difference between that sum and the amount requested for 1910, $650,765, is accounted for in the following items:

Third. In the proposed salary schedule for 1910 I have asked for the following new positions:

1 Assistant	$5,000 00
1 Assistant	3,000 00
1 Telephone Switchboard Operator	900 00
1 Telephone Switchboard Operator	750 00
1 Telephone Switchboard Operator	600 00
1 Examiner	1,500 00
1 Examiner	1,350 00
1 Examiner	1,200 00
1 Law Clerk	1,200 00
1 Law Clerk	1,050 00
1 Clerk	750 00
3 Clerks, at $600	1,800 00
1 Clerk	480 00
	$19,580 00

The amount of the salaries of these additional positions added to the payroll now in force ($631,240) makes a total of $650,820. I have deducted $55 from the sum allowed for "30 Special Process Servers, paid $1.15 for each summons served," and the net amount requested for salaries is therefore $642,765.

The rapidly increasing volume of litigation makes it necessary to ask for two more Assistants.

The three Telephone Switchboard Operators are made necessary by the installation of a separate telephone service for the main office in the Hall of Records.

The three new Examiners and two new Law Clerks are needed in the preparation of cases for trial and other similar work. The staff of Assistants has been considerably increased during the past two years, but there has been no corresponding increase in the force of Examiners or Law Clerks. Nothing in this Department is more necessary than a thorough preparation of matters in litigation.

Of the five new Clerks requested, one is for the main office, one for the Brooklyn office, one for the Bureau of Penalties and two for the Tenement House Branch office.

The salaries of these proposed new positions of Law Clerks, Examiners, Clerks and Telephone Operators have all been fixed, as required by section 56 of the Charter, by your Board and the Board of Aldermen.

General Supplies.

The expenditures for this purpose in 1908 were included in the appropriation for Supplies and Contingencies, etc.

Budget appropriation for 1909	$11,700 00
Estimate for 1910	7,500 00
Decrease of estimate for 1910 from appropriation for 1909	$4,200 00

The original appropriation for 1909 was $11,700, but this was reduced to the sum of $8,700 subsequently by a transfer. I have asked for only $7,500 for the year 1910, but have made a corresponding addition to the amount requested for Contingencies for the reason that a number of disbursements which we assumed would be considered Supplies, have been classified by the Finance Department as Contingencies.

Telephones.

The disbursements under this heading were also included in the appropriation for Supplies and Contingencies in 1908.

Budget appropriation for 1909	$7,500 00
Estimate for 1910	7,500 00

The original appropriation for 1909 was reduced by a transfer to $5,250, for the reason that the separate telephone system for the main office had not been installed. It now appears that the new switchboard for the exclusive use of this Department in the Hall of Records, will be ready for operation in a few weeks, and a contract has been made with the New York Telephone Company for the necessary service.

The cost for the main office will be approximately $5,000 per year, and the service for the Bureau of Penalties, Bureau for the Collection of Personal Taxes, Brooklyn office and Tenement House Branch office, costs about $2,500 each year.

Contingencies.

Total expenditures from 1908 Budget account (as already stated, the above amount included supplies and telephone bills)	$113,945 02
Budget appropriation for 1909	110,500 00
Estimate for 1910	113,000 00
Decrease of estimate for 1910 from expenditures for 1908	$945 02
Increase of estimate for 1910 over appropriation for 1909	2,500 00

As already explained, the increase in this appropriation is partly offset by the decrease in the amount requested for General Supplies and is brought about by the fact that certain disbursements which were included by this Department under the heading of Supplies, are classified by the Finance Department as Contingencies.

In preparing the final Budget, I suggest that the words "including deficiencies," be added to the title of this appropriation, for the reason that it appears now as if there would be a small deficiency in the appropriation for 1909.

Contingent Counsel Fees.

Total expenditures from 1908 Budget appropriation	$25,000 00
Budget appropriation for 1909	25,000 00
Estimate for 1910	15,000 00
Decrease of estimate for 1909 from expenditures for 1908	$10,000 00
Decrease of estimate for 1910 from appropriation for 1909	10,000 00

In the appropriation for 1908 and 1909, provision was made for paying the special counsel retained in the so-called "Eighty-cent gas case," which was recently decided in favor of the City by the United States Supreme Court. I have, therefore, asked for only $15,000 for 1910, which apparently will be sufficient to pay the counsel retained in patent cases and other miscellaneous matters.

Fees of Expert Witnesses and Disbursements in Proceedings to review Assessments for Taxation, Including Deficiencies.

Total expenditures from 1908 Budget appropriation	$48,164 34
Budget appropriation for 1910	30,000 00
Estimate for 1910	37,500 00
Decrease of estimate for 1910 from expenditures of 1908	$10,664 34
Increase of estimate for 1910 over appropriation for 1909	7,500 00

There were some unusually large payments from the Budget for 1908 for experts in tax certiorari proceedings, and there may be some deficiency in the appropriation for 1909. The amount requested for 1910 is the least sum that it would be safe to allow for 1910.

Expense in Connection with Actions and Proceedings Brought by or Against Gas and Electric Light Companies and Other Public Utility Corporations.

Total expenditures from 1908 Budget appropriations	$19,576 05
Budget appropriation for 1909	30,000 00
Estimate for 1910	15,000 00
Decrease of estimate for 1910 from expenditures for 1908	$4,576 05
Decrease of estimate for 1910 from appropriation for 1909	15,000 00

During the years 1907, 1908 and the early part of 1909, there were large demands on this appropriation to meet the expenses in the "Eighty-cent gas case." That proceeding having been terminated, I am able to make a large reduction in the amount requested for 1910.

Expenses in Proceedings to Review Assessments of Special Franchises.

Total expenditures from 1908 Budget appropriation	$19,147 83
Budget appropriation for 1909	25,000 00
Estimate for 1910	20,000 00
Increase of estimate for 1910 over expenditures for 1908	$852 17
Decrease of estimate for 1910 from appropriation for 1909	5,000 00

The disbursements from this appropriation are difficult to anticipate. The amount asked for, although less than the appropriation for the current year, is substantially the same as the amount actually expended in 1908.

The title of this appropriation may be abbreviated as indicated.

Police Detail, Salaries.

(No provision in 1908 Budget.)	
Budget appropriation for 1909	$29,400 00
Estimate for 1910	29,400 00

As the total amount requested for the Law Department for 1910 is less than one per cent. more than the amount allowed for 1909, it does not seem necessary to explain these matters at any greater length in this provisional estimate. If any further information on any subject is desired, it will be promptly supplied.

The schedules required by your Board are attached hereto.

Yours respectfully,

F. K. PENDLETON, Corporation Counsel.

* Bond issue to replenish appropriation for Salaries and Wages will not be used until end of year.

Note—In connection with the foregoing summary it should be borne in mind that the payrolls for 1909 and 1910 contain the names of a number of persons who were paid as Special Counsel during the year 1908 from the appropriations for Contingent Counsel Fees and Investigation of City's Claims to Lands Under Water in Jamaica Bay, etc. The latter appropriation is now merged in Salaries and Wages.

Title of Appropriation: General Supplies.

Total expenditures for supplies, repairs, etc., as per Form XXIV	260,850 00	.....	240,016 27	.....	.....	87,110 22	.....

Some of the above figures are quite misleading unless properly explained. The comparison of the years 1909 and 1910 (as proposed) is correct and shows that less than one per cent. increase is requested. But in comparing the years 1909-1910 with the year 1908 it must be remembered that the Police Detail, with salaries aggregating $29,400 per annum, were paid in 1908 by the Police Department. The actual net increase in 1909 and 1910 over 1908 was therefore less than $70,000, or about eight per cent.

The figures showing a considerable increase in salaries over the year 1908 are also somewhat misleading for the reason that a number of persons paid from Salaries and Wages in 1909 and 1910 were paid from Contingent Counsel Fees and Investigation of Claims to Land Under Water in Jamaica Bay in 1908 and preceding years.

The balance of the increase in Salaries and Wages is largely accounted for by the increase in force of the Department, especially in the Tenement House Branch Office. Including the fifteen new positions recommended for 1910, the total increase in force for the three years from January 1, 1908, will be 60 persons, with salaries aggregating $89,980 per annum, or an increase in force of about 20 per cent. with an increase in salaries of about 12 per cent. for the three years.

DEPARTMENT OF CORRECTION.

Department of Correction of The City of New York,
Commissioner's Office, No. 148 East Twentieth Street,
New York, July 23, 1909.

Hon. P. J. SCULLY, City Clerk and Clerk of the Board of Aldermen:

Dear Sir—I beg to transmit, herewith, an estimate of the expenses of the Department of Correction for the year 1910.

The total amount appropriated for the year 1909 was $1,274,957.50. The amount required for the year 1910 is $1,379,344, an increase of $104,386.50, or .08187 per cent.

The appropriation available for Salaries and Wages, for the year 1909, amounted to $514,417.50; for the year 1910, the sum of $545,564 will be required, an increase of $31,046.50, to be applied as follows:

Keepers—Increases in salaries of Keepers (mandatory) $6,850 00

General Bookkeeper and Auditor 400 00

Central office, increase, $3,600 to $4,000. The position of General Bookkeeper and Auditor is a very important one, and the salary paid to the present incumbent does not compare with salaries of similar positions in other City Departments. The amount asked for is very modest indeed, and is well warranted by the services rendered.

Clerk, Central office 250 00

Increase, $800 to $1,050. This Clerk has been four and a half years in the service; is a very good Clerk, willing and competent, and is justly entitled to this increase.

Hostlers—For increase in salaries of two (2) Hostlers 300 00

One, from $1,000 to $1,200. At present, the man in charge gets the same as the other Hostlers and Drivers. He is very competent, and it is intended to make this distinction between him and the other employees.

One Hostler, from $900 to $1,000. To equalize his salary with that of the other (17) Drivers and Hostlers.

Warden, City Prison, Manhattan 500 00

Increase of salary from $2,500 to $3,000. This Warden now has quarters in the City Prison, which are unfit for occupancy, and his health is impaired by living there. It seems to me that he should live outside of the prison. The increase in this case is to be in lieu of house and maintenance. Besides, I consider the position of Warden of the City Prison a very important one, and well worth $3,000 per annum.

Physician, City Prison, Manhattan 500 00

Increase, from $1,500 to $2,000. This is a very important position and necessitates the Doctor's being at the prison daily. He also visits the Second, Third and Fourth District Prisons, daily. As compared with salaries of similar positions in other Departments, the salary of $2,000 is very modest.

Clerk, City Prison, Manhattan 150 00

Increase in salary, from $900 to $1,050. This is a good and competent Clerk, who is entitled to an increase for the services performed. In the employ of the City for six years.

Electrician, City Prison, Manhattan 40 00

Increase, from $1,460 to $1,500. This position is now a per diem one. The intention is to put salary on a yearly basis, so as to allow Sundays off. At present the Electrician works every day in the year. I consider the present incumbent one of the most conscientious workers in the Department.

Orderlies, City Prison, Manhattna 480 00

For promotion from Orderly to Hospital Helper (two) $240 to $480. Both of these men have been over seven years in the service. They are efficient, their hours are long and they should have a decent salary.

Helper, City Prison, Manhattan 120 00

For promotion from Helper to Orderly, $120 to $240. This man has been for fourteen years in the service; he is a faithful employee; sober, efficient, and is entitled to this increase.

General Storekeeper, Blackwells Island 500 00

For increase from $2,000 to $2,500. One of the most important positions in the Department, involving the handling of over half a million dollars' worth of supplies, and having constantly under his control from seventy to one hundred thousand dollars' worth.

Physician, City Prison, Brooklyn 300 00

Increase in salary from $1,200 to $1,500. This is a very important position and necessitates the Doctor's being at the prison daily. As compared with salaries of similar positions in other Departments, the increase to $1,500 asked for, is very modest.

Warden, Harts Island 500 00

Increase of salary from $2,000 to $2,500. Harts Island contains some of the important institutions of the Department. The present incumbent is an able, efficient and competent officer. I consider him entitled to this increase, which will equalize the salaries of Wardens.

Instructor of Industries, Harts Island 800 00

Increase from $1,200 to $2,000. This position is vacant at present, as I can not get a competent man for less than $2,000 per annum.

A total for salary increases of $11,690 00

For additional help, as follows:

Drivers—For five (5) Drivers, at City Prison, Brooklyn (chapter 381, Laws of 1909)	$5,000 00
Clerk—One, at Central Office, to assist Purchasing Agent	800 00
Clerk—One, at Storehouse, to assist General Storekeeper	900 00
Keepers—Nine (9), 2 at City Prison, Manhattan; 3 at Penitentiary, Blackwells Island; 2 at Rikers Island; 2 at City Prison, Brooklyn	7,200 00
Pilot—One, steamboats, at Harts Island	1,400 00
Pilot—One, steamboats, for three months, during vacations	350 00
Engineer—One, steamboats, for three months, vacations	337 50
Stoker—One, District Prisons, to comply with eight hour law	1,095 00
Clothing Cutter—One, Reformatory, Harts Island, to instruct boys in clothing industry	1,050 00

Orderlies—Three (3), at $240 each; 2 at storehouse, 1 on steamboats....	720 00
Stationary Engineers, at $4.50 per diem, for vacations.....	504 00
Total for additional help.....	$19,356 50
Making a total in Salaries and Wages of.....	$31,046 50

The amount requested for General Supplies, etc, is $488,550, as against $469,940, available for 1909, an increase of $18,610, or .0395 per cent., which increase is normal, and to be expected.

The accompanying statement will show the estimated increase in the different items called for under this appropriation.

For Materials for Repairs and Replacements by Department Labor, $28,600 is asked for, an increase of $7,100, which will be necessary to purchase materials required to keep prisoners employed in repair of buildings, etc.

The increase asked for in appropriation Repairs by Contracts or Open Orders, $10,150, is to be applied principally to the repairing of steamboats, and to some very necessary repairs to roofs and floors of district prisons.

After January 1, 1910, the Department will probably have about seventy-four horses and mules; some of which are very old, and must be replaced by new stock. I have, therefore, requested an appropriation of $2,800, for the purchase of eight additional horses, and trust that same will be allowed.

The appropriation for Forage, Shoeing and Boarding Horses, is calculated very closely, and I hope the same will be allowed as asked for, namely, $17,220.

The amount requested for Fuel, $119,000, as against $100,000, allowed for 1909, is absolutely necessary, as the appropriation for Fuel for 1909 will not suffice, and provision must be made for the additional coal required for this year.

The appropriation entitled Contingencies will require $5,060 for 1910, a decrease of $1,103.85 from the expenditures of 1908.

For appropriations entitled Telephone Service, Donations to Discharged Prisoners, Transportation of Insane Criminals, Manufacturing Supplies, Penitentiary; Manufacturing Supplies, Reformatory; the same amounts will be required for 1910 as were allowed for the year 1909.

This estimate having been prepared with a view of being as economical as consistency would permit, without impairing the efficiency and usefulness of the institutions of the Department, I trust that your Honorable Board will pass it as presented.

Very respectfully,

JOHN J. BARRY, Commissioner.

DEPARTMENT OF PARKS.

Department of Parks, Boroughs of Manhattan and Richmond,
Arsenal, Central Park.
August 23, 1909.

Hon. P. J. SCULLY, City Clerk and Clerk of the Board of Aldermen:

Sir—Pursuant to directions of the Board of Estimate and Apportionment, the estimate of appropriation required by the Department of Parks for the Boroughs of Manhattan and Richmond, to properly administer its affairs for the calendar year 1910, is herewith submitted.

Summary of the estimate, compared with 1909, shows a net decrease of $6,804.19.

Summary of the estimate for maintenance of institutions (Metropolitan Museum of Art, American Museum of Natural History and Aquarium), compared with 1909, shows an increase of $20,000, all for the American Museum of Natural History.

Respectfully,

HENRY SMITH, Commissioner of Parks, Manhattan and Richmond.

DEPARTMENT OF PARKS, BOROUGHS OF MANHATTAN AND RICHMOND.

Estimate for 1910.

METROPOLITAN MUSEUM OF ART.

The Metropolitan Museum of Art,
Office of the Secretary,
New York, July 21, 1909.

Hon. HENRY SMITH, *Commissioner of* Parks, The Arsenal, Central Park, New York City:

Sir—Accompanying this letter you will receive the budget of the Metropolitan Museum of Art for the year 1910. It is made up, as I understand, on the forms given to our Assistant Treasurer for this purpose, which are evidently identical with the usual City departmental forms. Our Treasurer has followed these forms, in conference with your Department, understanding that this method was most convenient to you and the City authorities. This practice might be confusing except for the explanations contained in this letter, which is intended to be an integral part of the statements submitted.

The budget follows in substance the same practice which the museum has followed for many years past, in including all the items contained in our Trustees' museum budget, which aggregate an amount largely in excess of the City's appropriation for the museum. In the present case its amount is more than $67,000 more than the $200,000 which the City appropriated last year, and which the City is expected to continue during the year 1910. To that extent the amount of the budget must be provided by our own Trustees. For this reason the budget necessarily includes some items which might require explanation if the entire amount of $267,541 were to be paid by the City. While the City is not expected to appropriate more than $200,000, the same amount which it appropriated last year, you will note that our total budget is something in excess of our budget of last year, a result necessarily incident to the growth and development of the museum. This excess will be met by our own Trustees. The constant growth of the museum, of which you are cognizant as a member of our Board of Trustees, represents largely increased service to the public, including as an important part of that public the Teachers and scholars of the public schools, and the cost of increased service is necessarily greater. The museum constitutes an important part of the educational facilities of the City.

The Board of Trustees respectfully request that you include $200,000 for the Metropolitan Museum of Art in the estimate which you present by the Park Department to the Board of Estimate. It is less by more than $67,000 than the estimated actual expenditures of the museum, and will still leave upon the Trustees and members of the museum the burden of that amount in addition to the large sums which they are expending in the enlarging of their collections and for other purposes equally beneficial to the public, but not embraced in the City Budget.

We shall be prepared on your request to attend the meeting of the Board of Estimate and make any explanations relating to this appropriation which you or the Board of Estimate may deem desirable.

Respectfully yours,
ROBERT W. DE FOREST, Secretary.

AMERICAN MUSEUM OF NATURAL HISTORY.

American Museum of Natural History,
New York, June 30, 1909.

To the Honorable HENRY SMITH, Commissioner of Parks, Boroughs of Manhattan and Richmond, Arsenal, Central Park, City:

Dear Sir—In accordance with your request of June 10, we are sending you herewith estimate of the funds required for the maintenance of the American Museum of Natural History for the year ending December 31, 1910. In this connection I beg to make the following comments:

First—In the estimate of 1910 (made up of 202 employees), the total amount to which the Trustees are pledged is $210,032. Of this sum we are asking the City to pay only $170,072, the Trustees assuming the responsibility for the balance.

Second—The normal development of the museum and the receipt of valuable collections have made imperative the appointment of additional assistants.

In the salary schedule (as given under the caption "Comparison of June 30, 1909, with 1910 estimate") there is a net increase in the estimate for 1910 of $6,886, made up as follows:

Due to the appointment of certain new assistants on the scientific staff and in the Preparation Department	$4,720 00
Due to the progressive scale of wages of employees based on length of service	2,166 00

Third—Under the caption "Comparison of January 1, 1909, with June 30, 1909," there is an apparent increase in the salary schedule for June of $5,268. This, however, will not result in an actual increase, since several men will be transferred from the payroll of the City to the payroll of the endowment of the museum.

Fourth—Under the caption "Comparison of June 30, 1908, with January 1, 1909," there is a net decrease of $17,198. The reason for this decrease is that the Trustees have assumed the payment of these salaries from the general funds of the museum, owing to the inadequacy of the present appropriation by the City.

Fifth—In the estimate for supplies for 1910, there is a net increase of $4,371 over the amount allowed by the City for 1909. This increase is necessary because of the opening of additional exhibition halls and because of the care of new storage rooms.

Very truly yours,
H. C. BUMPUS, Director.

Schedule of Salaries and Wages Estimate for 1910, Monthly Payrolls.

‡ $69.38 for telephone service unexpended, and $49.09 paid in 1909. † Estimated. * Decrease.

Since the expense of maintaining the American Museum of Natural History is only in part borne by The City of New York, the figures submitted on the accompanying schedule do not in all cases represent the actual financial relations. Certain statements that are particularly misleading are explained in a letter addressed to the President of the Park Board.

DEPARTMENT OF PARKS, BOROUGH OF THE BRONX.

New York, July 25, 1909.

Hon. P. J. SCULLY, *City Clerk and Clerk of the Board of Aldermen:*

Sir—In compliance with instructions received from the Board of Estimate and Apportionment, as per a circular letter dated May 18, 1909, I herewith transmit estimate of expenditures required to conduct the public business of the Department of Parks, Borough of The Bronx.

The several titles of estimates and the amounts required therefor are as follows:

Administration.

	Estimate, 1910.	Allowed for 1909.	Excess, 1910 Over 1909.
Salaries and Wages—			
Commissioner's Office	$15,600 00	$13,277 50	$2,322 50
Superintendent's Office	14,700 00	12,900 00	1,800 00
Engineer's Office	12,400 00	11,200 00	1,200 00
Engineer's Office (surveys, maps and plans)	5,430 00	.....	5,430 00
Foremen, etc	32,220 00	25,020 00	7,200 00
General Supplies	500 00	365 00	135 00
Total	$80,850 00	$62,762 50	$18,087 50

General Maintenance, Mechanical Force.

	Estimate, 1910.	Allowed for 1909.	Excess, 1910 Over 1909.
Salaries and Wages	$77,130 00	$46,744 00	$30,386 00

Maintenance of Parks and Boulevards.

	Estimate, 1910.	Allowed for 1909.	Excess, 1910 Over 1909.
Salaries and Wages	$476,275 00	$229,566 00	$246,709 00
Hired Teams, Horses and Carts	68,750 00	34,414 50	34,335 50
General Supplies	6,150 00	2,500 00	3,650 00
Forage, Shoeing and Boarding Horses	5,912 02	3,000 00	2,912 02
Materials for Repairs and Replacements by Departmental Labor	31,150 00	25,000 00	6,150 00
Repairs and Replacements by Contract or Open Order. Apparatus—Machinery, Vehicles, Harness, etc., including, Care and Storage	4,250 00	4,000 00	250 00
Maintenance of Automobiles, including Equipment, Care and Storage	8,468 00	10,000 00	*1,532 00
Purchase of Horses	2,000 00	.....	2,000 00
Fuel	2,250 00	.....	2,250 00
Telephone Service	5,000 00	3,500 00	1,500 00
Contingencies	1,000 00	750 00	250 00
	1,000 00	1,000 00	.....
Total	$612,205 02	$313,730 50	$298,474 52

* Indicates decrease.

Maintenance of Trees in City Streets.

	Estimate, 1910.	Allowed for 1909.	Excess, 1910 Over 1909.
Salaries and Wages	$42,000 00	$16,177 00	$25,823 00

Miscellaneous Appropriations.

	Estimate, 1910.	Allowed for 1909.	Excess, 1910 Over 1909.
Music	$12,000 00	$12,000 00	.....

Maintenance, New York Botanical Garden.

	Estimate, 1910.	Allowed for 1909.	Excess, 1910 Over 1909.
Salaries and Wages	$79,240 00	$63,420 00	$15,820 00
General Supplies	2,150 00	3,000 00	*850 00
Materials for Repairs and Replacements by Departmental Labor	1,450 00	1,000 00	450 00

Summary.

	Estimate, 1910.	Allowed for 1909.	Excess, 1910 Over 1909.
Administration	$80,850 00	$62,762 50	$18,087 50
General Maintenance, Mechanical Force	77,130 00	46,744 00	30,386 00
Maintenance of Parks and Boulevards	612,205 02	313,730 50	298,474 52
Maintenance of Trees in City Streets	42,000 00	16,177 00	25,823 00
Music	12,000 00	12,000 00	.....
Maintenance, New York Botanical Garden	97,506 50	79,520 00	17,986 50
Maintenance, New York Zoological Garden	179,327 50	162,325 00	17,002 50
Grand total	$1,101,019 02	$693,259 00	$407,760 02

In addition to the data requested by the Finance Department, in the several statements hereto annexed, I have the honor to submit an additional statement of the reasons for the changes made in the estimate for the year 1910.

All of which is respectfully submitted.

JOSEPH I. BERRY, Commissioner of Parks, The Bronx.

Statement in the Matter of Changes in the Estimate for the Year 1910.

Administration, Salaries and Wages, Commissioner's Office.

In the Budget of 1907, under the above title, an application was made for the addition of two Clerks, at the salary of $1,200 each. The appropriation was granted at a salary of $900 each, but, unfortunately, the two Clerks who were already employed at a salary of $1,200 each were omitted in the Budget Appropriation. In 1908, the application was renewed, and the two additional Clerks again omitted. In the estimate for 1909, the application was again made, and, although inserted in the Budget, was stricken out in the final appropriation. The result has been that, owing to the short force, all the work under the new system of accounting cannot be properly carried on, although the Clerk's office is open from 7 o'clock a. m., until all hours of the night, and frequently on Sunday. It is therefore respectfully urged that the amount asked for be granted. The additional appropriation will enable the next Commissioner to forward payrolls and payments promptly, and the new system of accounting to be properly carried on.

Engineer's Office, Surveys, Maps and Plans.

This appropriation was made to this Department for the first nine years of its existence. It is necessary to have such an appropriation for the following reason: In the preparation of surveys of the parks, for making important improvements, and for plans of works contemplated, which may or may not be approved at the time proposed, the salaries and expenses cannot be properly charged to a Corporate Stock account. It is my opinion that a comprehensive plotting of park improvements should be commenced at once, and steadily carried to completion, even if the improvements be postponed to a future date.

Administration, Salaries and Wages, Superintendent's Office.

The only change in the estimate for 1910, in the addition of the Budget Appropriation for 1909 is an appropriation of the salary of a Head Gardener, viz.:, $1,800 per annum. The said salary has heretofore been paid at a per diem rate of $4.50. The fixing of the salary at an annual rate makes no substantial addition to the aggregate amount.

Administration, Salaries and Wages, Engineer's Office.

The only change in this estimate for 1910 is for the salary of a Clerk in said office, amounting to the sum of $1,200 per annum. This appropriation was made in the year 1908, in the amount of $900. It was found impossible to get a Clerk at the rate of $900 to properly perform the particular duties of a Clerk in that office. It has been necessary during the current year to perform the required work by details from the official force of the Chief Engineer.

Administration, Salaries and Wages, Foremen, etc.

A specific appropriation has been asked for under the above title for the following bookkeeping reason: The Chief Clerk informs me that the Foremen's payroll at all times during the existence of the Department has been a special payroll, and for years it has been a semi-monthly one. During the present year, the Foremen have been paid from the general appropriation account entitled "Maintenance of Parks and Boulevards," though set forth as a specific expenditure in the Budget and schedules for 1909. I am informed that under the new system of accounting, payrolls must take precedence in the order of dates, and a weekly payroll of Laborers, antedating the payrolls of Foremen, must be first forwarded. This results in a delay in the payment of the above roll, if for any reason the Laborers' weekly rolls cannot be forwarded. During the past six months, because of the lack of clerical help, this has caused the Foremen's roll to be unnecessarily delayed.

A specific appropriation is, therefore, requested under this title.

Administration, General Supplies.

The title of appropriation named above, is for supplies for necessities in the office building, not properly chargeable to any other account, $500.

General Maintenance, Mechanical Force.

The amount granted under this title, which includes all mechanics, etc., was entirely inadequate during the current year. Needed repairs could not be made with the inadequate force provided by the appropriation for 1909, and, therefore, an increase is requested.

Maintenance of Parks and Boulevards.

Salaries and Wages—For the year 1910, for the maintenance of 4,200 acres, the sum of $476,275 is requested. This increase over the Budget appropriation of the present year is reasonable, and should be granted. It allows a daily expenditure of but 31 cents a day per acre, and even the widest and most uncultivated portions of our park lands require some little attention, if the forests and wild flowers are to be preserved. The enormous crowds visiting The Bronx parks are steadily increasing, because of additional transit facilities through subway extensions and other sources. A much larger appropriation for the care and maintenance of our larger parks in the eastern section of our Borough will, therefore, be required for the coming year. I therefore deem a larger appropriation for the maintenance and development of our park system an absolute necessity.

General Supplies—The increase in the appropriation asked for, is more than accounted for by the request for 500 additional benches, costing $4,000. No benches have been furnished the Department since the year 1906. The increased attendance in our several parks make this item an absolute necessity.

Materials for Repairs and Replacements by Departmental Labor—The increase of $9,150, over the appropriation for the current year is required.

First—To maintain new plantations constructed for plants, bulbs, seeds, etc., during the year 1910. The estimate for the ensuing year is made after careful examination by the Head Gardener, which estimate has even been reduced.

Second—The balance of the additional increase requested is for lumber necessary for the repair work throughout the Department, and for other sundry supplies, such as pipe, garden mould, repairs to buildings, and other minor expenses.

Repairs and Replacements by Contract or Open Order—The increase of $250 is slight. The purchase of 40,000 gallons of road oil at the average cost of 7½ cents a gallon, will expend at least $3,000 of this appropriation. The balance is for disinfectants, flag poles, etc.

Apparatus, Machinery, Vehicles, Harness, etc., Including Care and Storage—This reduction, based on the opinion of the Chief Engineer, is made so that no additional road roller is needed, unless greater appropriations be made for broken stone and screenings.

Maintenance of Automobiles, Including Equipment, Care and Storage—The estimate for the care and maintenance of the automobile in this Department is based upon the expenditure for the past year. The one automobile, having been in service for three years, will need to be practically rebuilt.

Purchase of Horses—An application is herein made for the purchase of six additional horses. The average daily run of driving horses used in the Department is over twenty miles, and the older horses are petering out. It is my opinion that it will be necessary to retire at least six of the present driving horses.

Forage, Shoeing and Boarding Horses—The estimate for 1910 includes the amount of forage necessary for maintaining the horses of the Department during the next year; also an estimate for horseshoeing, based upon the expenditures of the preceding years 1908 and 1909. Veterinary services and medical supplies, as deemed necessary, are also estimated. These have all been carefully prepared, and I believe the estimate represents the lowest basis of the amount required for the purpose.

Hired Teams, Horses and Carts—In the estimate for the year 1909 an appropriation was asked for amounting to the sum of $55,000. Every dollar of this amount was necessary for the proper maintenance of the several parks, parkways and roadways of this Department.

The amount allowed for the current year was the sum of $34,414.50. The result has been that, with the utmost care in the expenditure of this amount, the pro rata expenditure, during the summer months, when the roads, parkways, etc., have to be sprinkled, has been exceeded, and this leaves the Departmein in a crippled condition during the winter months, should heavy snow storms occur.

In 1908 nearly $40,000 was expended for this purpose, with a smaller area of territory and mileage of roads to be cared for. With still additional land to be cared for during the ensuing year, I believe that every dollar of the amount asked for is absolutely necessary for the proper conduct of the Department.

Fuel—The amount requested for the ensuing year is $5,000. The amount expended for the year 1908 was the sum of $4,574.29. The amount expended for the first six months of 1909 was $3,487.44. The additional amount asked for will be necessary for the heating of additional public comfort stations, already erected, and to be completed during the coming year.

Telephone Service—The additional amount is requested for the purpose of installing telephones in parks not already covered by the system.

Contingencies—Expenditures under this appropriation have been estimated from what has been spent in preceeding years. It is used for the usual disbursements, postage and other petty cash accounts.

Maintenance of Trees in City Streets, Salaries and Wages—The estimate of the amount required for the year 1910 is the sum of $42,000. The expenditure for the year 1908 was $38,000. The amount required for the year 1909 was the sum of $38,000; the amount allowed for the year 1909 was $16,177. While every endeavor has been made to expend the sum allowed to the best interests of the Borough, much important work was neglected because of insufficient funds. I know of no more important work than the care of the old trees that have been growing since the annexation of the Borough, and the care of thousands of trees that have been planted within the past decade. The appropriation is a comparatively small one for this purpose, and no less an amount would adequately take care of the trees.

Miscellaneous Appropriation, Music—The amount requested, viz.: $12,000, is the same amount as granted by your Board for the current year. I know of no expenditure that gives more pleasure to the thousands of people in our several parks, than this appropriation.

In the matter of the applications of the New York Botanical Garden and the New York Zoological Society, I herewith submit their respective applications, and would respectfully ask your favorable consideration.

Every item of expense has been carefully weighed, and only what is deemed absolutely necessary included. I trust that the amounts asked for will be granted.

NEW YORK BOTANICAL GARDEN.

New York Botanical Garden,
Bronx Park,
New York City, July 15, 1909.

Hon. JOSEPH I. BERRY, Commissioner of Parks, Zbrowski Mansion, Claremont Park, New York City:

Dear Sir—In compliance with your request, I transmit herewith, on behalf of the Board of Managers of the New York Botanical Garden, an estimate of the expenses of maintaining the New York Botanical Garden in Bronx Park for the year 1910.

The estimates are prepared on forms furnished by you for the purpose.

The increases in salaries requested are the recognition of efficient and long continued services by members of the staff and their increased duties, owing to the growth of the collections and the expansion of the work of the institution.

The additional employees needed are for the purpose of properly maintaining the additional collections and the large amount of additional land which has recently been improved, and for the maintenance of the additional public conservatories opened to the public in July of this year, together with the new power house for heating these buildings.

As will appear on the forms submitted, the Board of Managers of the Garden have found it necessary to expend considerable sums from their own funds to supplement the maintenance allowance by the City.

In 1908 the amount of this contribution to maintenance was $14,983.10, and the labor force, a portion of the gardening force and a large part of the expenditure for supplies is being paid from funds of the Board of Managers during 1909.

The funds of the Board of Managers are much needed for educational purposes and for the purchase and collection of plants and specimens.

Yours respectfully,
N. L. BRITTON, Director in Chief.

NEW YORK ZOOLOGICAL PARK.

Zoological Park,
One Hundred and Eighty-third Street and Southern Boulevard,
New York, July 15, 1909.

Hon. JOSEPH I. BERRY, Park Commissioner, Borough of The Bronx, Claremont Park, New York City:

Dear Sir—I have the honor to transmit to you herewith our estimates of the expenditures necessary in 1910 for the maintenance of the New York Zoological Park. The total amount is $179,307.50, and I know that in view of the size of this institution, the extent of its collections and the annual number of visitors who use the park, the amount is very moderate. The schedules show the great extent and diversity of the field to be covered by the sum requested. With all due respect to the world at large, I desire to record the opinion that nowhere on earth is there a popular scientific institution of the magnitude of this zoological park, in buildings, grounds and collections, that is maintained annually for a sum as small as that which we now ask for 1910.

Our attendance this year will much exceed the total of 1,413,677 for 1908.

We urgently need an increase of fully $6,000 to expend in the care of the Zoological Park grounds, especially the new plantings, and for the three additional employees that are absolutely necessary in the Administration Building, now nearly complete.

We earnestly hope that an increase will be granted us commensurate with our growth during the year 1909, and the imperative needs of 1910. Just how we are going to get through the present year and supply the extra labor necessary to keep the park up to the standard that has been fixed for it without a deficit, I am at present unable to determine.

Respectfully submitted.

W. T. HORNADAY, Director.

DEPARTMENT OF PARKS, BOROUGHS OF BROOKLYN AND QUEENS.

Department of Parks, Boroughs of Brooklyn and Queens,
Litchfield Mansion, Prospect Park,
Borough of Brooklyn, July 14, 1909.

Hon. P. J. SCULLY, City Clerk and Clerk of the Board of Aldermen:

Sir—In compliance with circular letter from the Board of Estimate and Apportionment, dated May 18, 1909, in relation to departmental estimates, I beg to submit herewith estimate of the Department of Parks, Boroughs of Brooklyn and Queens, for the year 1910.

Respectfully,
M. J. KENNEDY, Commissioner.

The estimate of appropriations for the Department of Parks for the Boroughs of Brooklyn and Queens for the year 1910, as herewith submitted, includes a number of increases in the amounts requested over those granted for the year 1909.

The Administration account shows an increase of thirty-two thousand six hundred and fifty dollars ($32,650), of which amount two thousand dollars ($2,000) is to be applied to increases in salary in the existing force, and thirty thousand six hundred and fifty dollars ($30,650) for the payment of new positions which should be created in order to facilitate the work of the Department. The increases in salary which are desired to be made are as follows:

Chief Clerk, five hundred dollars ($500). The present pay is two thousand dollars ($2,000). Up to 1902 this position commanded a salary of twenty-five hundred dollars ($2,500), but it was reduced in that year to two thousand dollars ($2,000). The work and responsibilities of this position have largely increased and the pay shou'd be made commensurate.

It is proposed to add one hundred and fifty dollars ($150) per annum to the pay of the Assistant Paymaster. The salary of this position was likewise decreased in 1902, and a small addition to the pay of the incumbent should be made on account of the additional work entailed.

It is also proposed to increase the salary of the Stenographer from sixteen hundred and fifty dollars ($1,650) to eighteen hundred dollars ($1,800), and the Telephone Operator from nine hundred dollars ($900) to ten hundred and fifty dollars ($1,050), an increase of one hundred and fifty dollars ($150) in each position. These increases were asked for last year, but sufficient money was not allowed to make the same operative.

An increase in the pay of three (3) Arboriculturists of three hundred dollars ($300) each is asked. The incumbents have been in this Department for a number of years at a salary of fifteen hundred dollars ($1,500) per annum. They are exceptionally intelligent and successful in their work, and I feel that an increase of three hundred dollars ($300) in their pay would tend to encourage them, and the same should be granted.

An increase of one hundred and fifty dollars ($150) per annum is asked in the pay of the Property Clerk. The incumbent has been employed in the Department for over twenty (20) years, and his duties, on account of the new methods of bookkeeping and accounting for supplies, have been largely increased. I therefore feel that this slight increase of one hundred and fifty dollars ($150) per annum should be granted.

The new positions comprise a Chief Engineer at four thousand dollars ($4,000) per annum. The Department of Parks for the Boroughs of Manhattan and Richmond and for the Borough of The Bronx each have a Chief Engineer at a like salary, and I really fail to see why this Department should not be granted the necessary funds wherewith to pay a Chief Engineer. The amount of construction work which is an-

nually carried on in this Department makes it imperative that an Engineer of experience and ability be appointed to supervise the same.

Another new position which it is desired to add to the Administration payroll is that of Assistant Engineer at twenty-four hundred dollars ($2,400) per annum. The incumbent of this position is now being paid from Corporate Stock, but I believe it would be in the interest of the Department to make this position a permanent one.

The other new positions are: Two (2) Transitmen, at nineteen hundred and fifty dollars ($1,950) each; one (1) Topographical Draughtsman, at eighteen hundred dollars ($1,800); one (1) Draughtsman, at fifteen hundred dollars ($1,500); three (3) Rodmen, at thirteen hundred and fifty dollars ($1,350) each; two (2) Axemen, at nine hundred dollars ($900) each; one (1) Inspector of Masonry, at twelve hundred dollars ($1,200); one (1) Inspector of Regulating, Grading and Paving, at twelve hundred dollars ($1,200). All these positions are in the engineering service, and some of the same have heretofore been paid for out of Corporate Stock. Experience has shown that a large amount of preparatory engineering work is necessary in order to properly formulate requests for the issuance of Corporate Stock, and heretofore it has been impossible to do this in as thorough and efficient a manner as desirable. I believe that if these positions were added to the Administration payroll the work of the engineering force of the Department would become much more efficient.

It is also desired to create the position of Bookkeeper at sixteen hundred and fifty dollars ($1,650) per annum; of Clerk at sixteen hundred and fifty dollars ($1,650) per annum; of Clerk at six hundred dollars ($600) per annum, and to add two (2) Clerks at twelve hundred dollars ($1,200) each to the existing force. These positions are absolutely necessary on account of the large increase in work created by the new methods of accounting and bookkeeping now in force.

Another position it is desired to create is that of Forester. The Legislature of the State has put the care and preservation of all street trees throughout the City under the control of the Department of Parks. The Boroughs of Brooklyn and Queens contain more trees than any other large city in the world, and a competent man should be selected so as to properly supervise the work of the Arboriculturists, Pruners and Climbers and others engaged in the care and preservation of the street trees. Every large city in the country has recently added a forester to its staff of officials, and what is deemed necessary for a smaller city, having a correspondingly small number of trees within its limits should certainly be a necessity for The City of New York. The salary of this position has been fixed at twenty-five hundred dollars ($2,500) per annum, and I trust that this amount may be granted.

A slight increase is asked in the Zoological Department. The position of Keeper of Menagerie, which is filled by a thoroughly competent man, at present pays three dollars and fifty cents ($3.50) per diem, and it is desired to increase his salary to four dollars ($4) per diem. It is also necessary to employ two (2) additional Laborers on account of the increase in the number of our water fowl.

The increases in the salaries for the mechanical force amount to thirty-seven thousand seven hundred and ninety-one dollars ($37,791). This is accounted for by the considerable increases in pay made necessary by the Prevailing Rate of Wages Law, and also by the fact that in order to preserve the property of this Department it becomes necessary to employ an increased number of mechanics in the various branches.

The Labor account shows an increase of one hundred and five thousand two hundred and eighteen dollars and twenty-five cents ($105,218.25), which is partly due to the acquisition of new parks and parkways by the Department, and the increased number of men necessary to maintain the same, and, furthermore, to an increase in the number of employees required for the care and preservation of the older parks, which are put to greater use by the public from year to year.

The estimate shows an increase in the allowance asked for the Care of Trees on City Streets of thirty-nine thousand one hundred and thirty-five dollars ($39,135), which is explained by the desire on the part of this Department to more thoroughly and expeditiously protect the trees from the ravages of disease and insects.

The estimate for Hired Teams, Horses and Carts and Steam Rollers shows an increase of six thousand four hundred and ten dollars ($6,410), practically all of which is chargeable to the fact that Bushwick avenue, between Myrtle avenue and Eastern parkway extension, is to be put under the care and control of the Department of Parks by an act of the Legislature passed in 1909.

The Supply account shows a net increase of thirty-nine thousand three hundred and forty-four dollars and twenty-five cents ($39,344.25), which is explained by the fact that the increased number of employees of all grades require an increase in the amounts expended for tools, implements, machinery and materials. It is also desired to add two (2) gasolene road rollers to the equipment now in the possession of the Department, for the reason that the steam rollers at present employed in road construction burn and discolor the foliage of trees under which they are operating, and it is therefore impossible to do effective repair work on roads in our parks during the summer season.

An increase is asked for the Music account of six thousand and forty dollars ($6,040), which, if granted, will be applied to furnishing additional concerts in a number of small parks in both Boroughs.

The increase of twenty-one thousand four hundred dollars ($21,400) in the Museum account is explained as follows:

"To enable the institute to employ a sufficient number of persons to properly care for and protect the property of the Museum, to properly receive and care for visitors to the Museum and to provide necessary supplies."

Dated Brooklyn, New York, July 14, 1909.

M. J. KENNEDY, Commissioner of Parks, Boroughs of Brooklyn and Queens.

BROOKLYN INSTITUTE OF ARTS AND SCIENCES.

The Brooklyn Institute of Arts and Sciences,
Lafayette Avenue, Between Fulton Street and Flatbush Avenue,
Brooklyn, June 14, 1909.

Hon. MICHAEL J. KENNEDY, Park Commissioner, Boroughs of Brooklyn and Queens, Litchfield Mansion, Prospect Park:

My Dear Sir—The Board of Trustees of the Brooklyn Institute of Arts and Sciences respectfully recommends that application be made to the Board of Estimate and the Board of Aldermen of The City of New York for appropriations for the maintenance of the Museums of the Institute for the fiscal year 1910, as follows:

Central Museum.

Payroll	$73,420 00
Budget Supplies, etc.	36,765 00

Children's Museum.

Payroll	11,280 00
Budget Supplies, etc.	3,840 00
Grand total for Payroll, Supplies, etc.	$125,305 00

The appropriation made for the current year of 1909 was $103,905.

An increased appropriation for the coming year is required to enable the institute to employ a sufficient number of persons to properly care for and protect the property of the museum, to properly receive and care for visitors to the museum and to provide necessary supplies.

Six copies of the Budget for the year 1910, prepared in accordance with the forms required by the City, are transmitted to you herewith.

Very truly yours,

FRANKLIN W. HOOPER.

General Recapitulation of Estimates for All Expenditures.

Comparison of 1908, 1909 and 1910.

Title of Appropriation: Maintenance of Museums, Museums of the Brooklyn Institute of Arts and Sciences.

	1908.	1909.	Increase 1909 Over 1908.	Estimate 1910.	Increase 1910 Over 1909.

DEPARTMENT OF PUBLIC CHARITIES.

Department of Public Charities,
Foot of East Twenty-sixth Street,
August 5, 1909.

Hon. P. J. SCULLY, City Clerk and Clerk of the Board of Aldermen:

Dear Sir—In compliance with the provisions of section 226 of the Greater New York Charter, I have the honor very respectfully to present in the pages following the Departmental Estimate of the amounts necessary to conduct the business and affairs of the Department of Public Charities, of which Department I am the present head, in an effective and satisfactory manner during the coming year, 1910. In submitting this estimate for consideration, I beg leave to call attention to the increases desired over the original appropriation for 1909, as well as over the estimated expenses for the said year, the anticipated difference or deficiency being met through the issue of Special Revenue Bonds, as proposed, which have already been authorized in full by the Board of Aldermen and in part approved by the Board of Estimate and Apportionment, and also to the reasons herein given for the anticipated increase in expenditures during the succeeding year, as set forth in the following tables and the accompanying memoranda:

			397,259 61	
	Making net increases of		$843,982 30	

To summarize, in general increases for 1910 are requested in the following items for the reasons given in each case:

Salaries and Wages—		
Manhattan	$205,716 50	
The Bronx	4,650 50	
Brooklyn	83,730 50	
Queens	4,650 00	
Richmond	4,054 00	
		$302,801 50
General Supplies—		
Manhattan	$227,831 72	
Brooklyn	79,805 44	
Richmond	105 48	
		307,742 64
Fuel—		
Manhattan	$13,694 90	
Brooklyn	9,335 35	
		23,030 25
Fodder—		
Richmond		1,199 86
Repairs and Replacements by Contract or Open Order—		
Manhattan	$343,718 00	
Brooklyn	145,760 00	
Richmond	8,770 00	
		498,248 00

Materials for Repairs and Replacements by Departmental Labor—		
Manhattan	$47,079 40	
Brooklyn	4,914 68	
Richmond	46 24	
		52,040 32
Apparatus, Machinery, Vehicles, Horses, Equipment, Care and Storage of Same—		
Manhattan	$28,461 36	
Brooklyn	10,888 30	
Richmond	1,873 60	
		41,223 26
Telephones—		
Brooklyn		1,650 00
Clothing for insane patients		2,100 00
Clothing for epileptics sent to Craig Colony		800 00
Donations to Grand Army Veterans		3,706 08
Transportation of paupers		1,200 00
State Hospital for tuberculosis		5,500 00
Total increase		$1,241,241 91
Deducting from the amount the sums allowed by the Board of Aldermen through the issue of Special Revenue Bonds, namely:		
May 14, 1909	$14,874 25	
June 15, 1909	35,004 51	
June 22, 1909	347,380 85	
		397,259 61
Would reduce the net total increase requested to		$843,982 30

Salaries and Wages.

Increase Desired, $302,801.50—The reasons for this large increase, while varied in their character, have in almost every case their origin in a desire to improve and render more efficient the work and service of this large and rapidly growing branch of the City government, the great majority of whose employees of the lower grades have for years been much underpaid.

While the reasons for the increased means desired for this purpose are given in considerable detail in connection with the proposed schedules of each branch or division of the service, it may be stated that the results sought to be achieved fall generally within the three following classifications:

1. The improvement of the Hospital Helper service throughout the entire Department by paying more reasonable wages, particularly in the lower grades, and offering opportunities for small increases based on satisfactory time service.

2. The payment of the additional employees required because of the proposed extension or improvement of the service, mainly through the proposed opening of new buildings and the better care and protection of patients, as well as of the properties and equipment of the Department.

3. Increased compensation to a few of the present employees who have rendered efficient service in positions with increasing duties and responsibilities.

The desire radically to improve the Hospital Helper service of the Department is responsible for a considerable part of the requested increase in the salaries and wages schedules. To take the first steps required to securing the improvement desired, it is estimated that the sum of $72,576 will be required during the coming year. This will, in part, enable the Department to pay $20 a month and maintenance to men employees and $15 a month and maintenance to women employees to commence, which should, if wisely used, eventually produce much better results. It will also provide a small increase for some of the employees who have served more than a year.

The Hospital Helper service of the Department, at the present time, although in some respects showing improvement, is generally unsatisfactory. In my opinion this is in large part due to the small wages paid to the great majority of these Helpers, the amounts in many cases ranging from $5 to $15 a month and maintenance. The fact that satisfactory employees cannot be had at these rates, even in a time of great financial depression, when the labor market is supposed to be filled with the unemployed, will be obvious when it is understood that during the year 1908 it took 8,256 actions, or an average of 22 a day, and during the first half of the present year 4,468 actions, or an average of 24 a day, to keep approximately 1,000 such places filled.

The sum of $10,000 was allowed in the Budget for use during the present year in improving the lower grades of the Hospital Helper service in the Kings County Hospital, which has a very acute service. This has been used very largely to replace by paid help the unpaid convalescent help in the wards, in previous years commonly recruited from the alcoholic division of the hospital, the men now receiving $20 a month and maintenance and the women $15 a month and maintenance to commence. The result has been to secure substantial improvement in that branch of the service and it is desired to extend this increased compensation to the other branches in the case of every position wherein less money is paid. When it is considered that upon this class of help devolves the greater part of the work about the hospitals, including the safe-guarding of the helpless patients in case of fire or other emergency, the necessity for obtaining reliable employees at whatever charge necessary must be obvious. The cost of this change is estimated to be $71,292.

It is also desired to improve the Hospital Helper service by allowing a graded increase from a minimum of $15 a month and maintenance to a maximum of $25 a month and maintenance at the end of a three year term of employment, to the women Nurses having charge of the aged and infirm poor in the infirmary and the neurological divisions of the City Home on Blackwells Island. This grade of employees now receive for this most trying work the very meagre compensation of $15 a month and maintenance, which is inadequate to secure and retain satisfactory employees. The estimated cost of this change for the year is but $1,.84, involving the improved care of over 500 patients.

Additional Employees Required—The additional employees required to meet the enlarged and more effective service of the Department, as proposed, will, it is estimated, call for the additional sum of $198,285.50. These additional employees are in considerable part required because of the proposed opening before January 1 of the following new buildings having capacity for approximately 600 additional patients:

(1) Two new hospital pavilions for tuberculosis patients at the Metropolitan Hospital on Blackwells Island, having a bed capacity of about 350 patients. The cost of the additional employees required to care for these patients, as well as for other extensions of work under the charge of the Training School at this hospital, is estimated to be $22,030.

(2) The new neurological hospital pavilion at the City Home on Blackwells Island, having a bed capacity of 150 patients. The additional employees required to care for these more or less chronic patients will, it is estimated, require the expenditure of $2,448 during the coming year.

(3) The new Coney Island Hospital, with a bed capacity of 100 patients, and having as well all the auxiliary buildings of a complete hospital plant with an acute and emergent service to be maintained and kept in running order. The additional employees required for this work will, it is estimated, call for the expenditure of $38,616.50 during the year 1910.

Through the issue of Special Revenue Bonds authorized by the Board of Aldermen, with the approval of the Board of Estimate and Apportionment, the moneys have already been allowed for salaries and wages at the new Coney Island Hospital from July 1, 1909, to the close of the current year. The Board of Aldermen has also provided in like manner for the wages of the Hospital Helpers and other employees at the neurological hospital pavilion at the City Home from October 1, 1909, to the end of the year, which action now awaits approval by the Board of Estimate and Apportionment.

Proposed Third Deputy Commissioner and Proposed Engineer—As has been stated in previous estimates, the office work of the Department, which necessarily devolves upon a chief executive officer, is so great in volume and in extent of detail as to require the undivided time and attention of the Commissioner or one of his Deputies. Inasmuch also as the requirements of a service such as this, having responsibility for the care of thousands of sick and dependent people, as well as the expenditure of several millions of dollars of public money annually, called for the most active vigilance on the part of the head of the Department, it is recommended and urged that a Third Deputy Commissioner be appointed to give his entire time and attention to the detailed executive work in the principal office of the Department, at a salary of $3,500 a year.

The very extensive building operations of the Department made most urgently necessary because of the oversight and the neglect of previous years, which will require to be continued in an active manner for some years to come, if the needs of the future are to be met in an efficient manner, call for the appointment of a capable engineer, who is an expert in City work, to have charge of this extensive and costly construction for carrying on which the Bureau of Buildings should be organized in the Department as soon as possible. In this connection it may be stated that at a conservative estimate it will require the expenditure of $10,000,000 on construction work in this Department during the next ten years in order to place the institutions in a position to cover the work they are to carry on during the succeeding years. While this amount may seem large, it must be remembered that New York already has greater public charity problems to solve than any other community in the world. It is estimated that a suitable officer to take charge of this work can be had for $5,000 a year.

Other additional employees desired to render the general administration of the Department more effective will be found specified in detail in the proposed salaries and wages schedules herein recommended for adoption. The additional mechanics specified are required to expedite the greatly needed repairs to buildings and apparatus which are hereafter referred to at greater length. An additional Telephone Operator is needed to cover the growing work of the Central Office switchboard at night. Two additional Stenographers are required to keep up with the work of the general offices in an effective manner, and another Junior Clerk is desired for the same purpose.

The development of the valuable properties of the Department, particularly on Blackwells Island, calls for the employment of a Head Gardener to have general charge of the work.

As will be seen by referring to the schedules, it is proposed to allow but moderate compensation to these employees.

It is further desired to systematize and improve the work of the executive offices of the Department by the addition of an Employment Agent to help secure a better class of Helpers through investigation of applicants and the systematic improvement of the conditions under which they live and work at the institutions of the Department, and Inspector of Buildings, to supervise the large amount of construction work going on by contract or otherwise, under Budget appropriations, and a Statistician to maintain comparative records of the work and expenditures of the several institutions and divisions of the Department.

The estimated cost of these and other desired increases under the head of general administration is estimated to be $28,836.

In order to provide for emergencies requiring the prompt employment of additional help, and to cover the period when the Board of Estimate and Apportionment and the Board of Aldermen are not in session it is recommended that the sum of $10,000 be included in the Budget for use when necessary.

Other additional employees are required to improve and render more efficient the work of the Bureaus of Dependent Adults in Manhattan, Brooklyn and Richmond, as well as that of the Children's Bureau in Manhattan and in Brooklyn, through the employment of additional Examiners as shown in detail in each schedule, as well as other needed employees. The work of these Bureaus have grown very rapidly in recent years and additional help is urgently needed.

In order to limit the relief granted by or through the Department to those actually in need of charitable assistance, and to comply with the rules of the State Board of Charities adopted pursuant to the provisions of the State Constitution, it is desired to make closer examination of the large and constantly growing number of applicants for assistance. It is confidently believed that the proposed increase in the force of these offices will, should the same be allowed as recommended, result in the saving of considerable expense to the City by preventing applicants from becoming or continuing as public charges who belong elsewhere or are able to pay for their care and maintenance. As an indication of the need for additional assistance in investigating the cases of applicants it may be stated that within the past five years the number of applicants for the commitment of children in Manhattan and The Bronx has increased over 40 per cent. The additional employees required in these Bureaus, as specified in their respective schedules, will, it is estimated, require the expenditure of $12,900.

Increased Force Because of Increased Work—In a number of the institutions of the Department an increase and improvement of the force is necessary because of an increase in the work, even without the opening of new buildings. This is particularly true of the Kings County Hospital and the Kings County Home, both at Flatbush, in the Borough of Brooklyn. In order properly to safeguard the patients at the hospital it is considered desirable to appoint a Deputy Medical Superintendent, in addition to the one now employed for day service, who will have charge of the hospital at night. It is also desired to appoint a like officer to have charge of the City Home, which has a large number of aged and infirm persons constantly within its care. The additional employees specified in the schedules are necessary to the proper administration of these large institutions with a population of approximately 2,700.

The estimated cost of this additional help is $25,880.

In other institutions or divisions of the work not previously mentioned, but hereinafter specified in detail in the schedules, it is desired to appoint additional employees, either to improve existing conditions requiring remedy or to cover increased work of such institutions or divisions in the amounts following: New York City Children's Hospitals and Schools, $7,300; City Hospital, $7,866; New York City Training School for Nurses, $4,770; Metropolitan Hospital, $10,372; Municipal Lodging House, $4,620; Cumberland Street Hospital, $1,680; New York City Farm Colony, $2,242.50.

For the purpose of giving closer attention to the needs of discharged patients, who may in many cases have no place to go when they leave the institutions, it is desired and proposed to add a Nurse at each place to the present employees of the New York City Children's Hospitals and Schools, the Metropolitan Hospital, the City Hospital and the Kings County Hospital, to have the oversight of such patients.

The estimated cost of this improved service in the institutions specified is $2,400.

Other divisions of the work requiring additional help for the reasons also given in each case together with the amounts requested are Auditor's office, $1,200; General Drug Department, $1,380; Steamboats, Launches and Piers, $5,804; Storehouse and Bakery, $2,340; making a total for these divisions of $10,724.

The Proposed Offices in the Boroughs of The Bronx and Queens—In view of the long distances from some parts of the Borough of The Bronx to the offices of the Department in Manhattan, it is recommended that an office with similar force and equipment to the one in the Borough of Richmond be established in The Bronx. Similar and probably even worse conditions prevail in relation to the Borough of Queens, whence application must be made to the remote Brooklyn office of the Department, and a like recommendation is therefore made for the establishment of a branch office in the Borough of Queens. These branch offices should each be in charge of a Superintendent with powers similar to those exercised by the Superintendent of the Bureau of Dependent Adults in the Borough of Richmond, and with a subordinate force consisting in each case of an Examiner of Charitable Institutions, a Clerk and a Stenographer. The total estimated cost of this additional force for a year is $9,300.

Increased Compensation for Present Force—In a Department such as this, with 2,370 employees on the payroll, most of them receiving relatively small compensation, it is necessary to grant some increases from time to time because of length of service or increase of duties and responsibilities, combined with merit on the part of employees. This is true throughout the whole business world where the duties increase with the increase of work devolved upon the employees and there is no reason why this department of public service should be exempt from the operations of this natural law in business. During the past, as well as in the present year, the Department has lost the services of a number of desirable employees because of inability to grant small increases to them, and was obliged to take on new hands to the disadvantage of the service. While changes from time to time are doubtless inevitable it seems wise to limit the extent of them as much as possible by the payment of going rates to em-

ployees. Increases are accordingly recommended in the Salaries and Wages Schedules following to the amount of $16,778:

General Supplies.

Increase desired, $307,742.64. This increase is requested over the appropriation for 1909 which has been found insufficient to meet the needs of the current year, and which the Board of Aldermen, with the approval of the Mayor, has voted to supplement by an issue of Special Revenue Bonds to the amount of $174,915.87. The necessity for this increase is shown in part by the distribution during the first five months of the current year, indicating a large increase in the expenditures of the Department for supplies. The chief reason for this increase is the large excess during the forepart of the year over last year in the census of the institutions. For the first six months of the present year, as compared with a like period of 1908, this increase has amounted to a daily average of 608.

This anticipated increase is also in large part accounted for by the proposed opening of the two new hospital buildings for tuberculosis patients at the Metropolitan Hospital, with capacity for about 350 patients; the new Neurological Hospital Pavilion at the City Home, Manhattan, with capacity for approximately 150 patients, and the new Coney Island Hospital, with capacity for 100 patients, making a total increased capacity of about 600 patients. It is estimated that the opening of these new buildings will call for an increased expenditure for general supplies, including drugs and medicines, of approximately $150,000.

In this connection the enlarged capacity of the new Municipal Lodging House is also to be considered. Should the winter prove long and inclement the expenditures for general supplies required at this institution will be correspondingly increased.

Repairs and Replacements.

Increase desired, $498,248. The extraordinary needs of the Department in this respect are shown in detail in connection with each institution or other branch of the service in the pages following, wherein it is estimated that the sum of $601,050, an increase of $498,248 over the Budget allowance of 1909, will be necessary to put into good sanitary and effective order the several hundred buildings and wards of this Department, small and great, many of them, together with their necessary appurtenances and equipment, while old and in some cases dilapidated, being still capable of rendering good service for years to come if the necessary repairs are made with a reasonable degree of promptness. Owing, however, to long continued delays, in some instances for many years, in the prosecution of this necessary work, due to a lack of means, or the failure to request them, together with an inadequate force of mechanics, a condition has been reached which calls for considerable expenditure in the near future in order to check further deterioration and prevent the necessity for even greater expenditure if the work is longer delayed.

Many of the buildings require painting, both inside and out, the exterior walls require painting and repairs, the plumbing needs renewal in many cases, steel ceilings are required to replace lath and plaster that have outworn their usefulness, and the fire alarm systems of nearly all the institutions, which have probably never been in good order or efficient, require extensive repairs and replacements. It is the desire of the Department to place all its buildings and equipment in a good, wholesome and effective condition and to keep them in such order. The Bureau of Mechanics, established through the Budget appropriation for the current year, is rendering efficient service in repairing and painting buildings, but the force is not sufficient to keep up the current work and cannot therefore render very material aid in catching up with the large amount of necessary repairs and replacements that for one reason or another have so long been deferred. Besides the buildings, it is important that the valuable and extensive grounds as well as the roads and walks of departmental property should be kept in good order.

Much help in the way of labor on the grounds has been given by the Department of Correction, in accordance with the provisions of the Charter, but much of the material used in construction work of this nature must be purchased, and moneys are required for this purpose.

Attempts have been made to secure moneys for the more extensive alterations, additions and repairs through the issue of Corporate Stock, but it has been held that items of this nature are properly paid for out of Budget allowances.

Apparatus, Machinery, Vehicles, Horses, Equipment, Care and Storage of Same.

Increase desired, $41,223.26. The reason for this increase is that in segregating the Budget of 1909, an insufficient amount was granted for these purposes. The necessary expenditures for the first six months of 1909 show an anticipated deficiency for the year of $41,223.26 in this account, which it is proposed to supplement by the issue of Special Revenue Bonds, which has been authorized by the Board of Aldermen, with the approval of the Mayor, to the amount of $41,223.26.

Fuel.

Increase desired, $23,030.25. This increase is requested largely because of the opening of seven new buildings at the institutions of the Department on Blackwells Lsland, including the new Nurses' Home at the Metropolitan Hospital, and the new Staff House, as well as the new Service Building, at the City Hospital, together with the greatly enlarged Municipal Lodging House in East Twenty-fifth street, Manhattan. It is also required because of the proposed opening of the two new tuberculosis hospital pavilions, with capacity for 350 additional patients, at the Metropolitan Hospital, the new pavilion at the Neurological Hospital of the City Home, Manhattan, and the new Coney Island Hospital in the Borough of Brooklyn.

Fodder.

Increase desired for the Borough of Richmond, $1,199.86. This increase is required for 1910 inasmuch as in segregating the Budget for 1909 an insufficient amount was granted for this purpose.

Telephones.

increase desired in Borough of Brooklyn, $1,650. In segregating the Budget for 1909 the sum allowed for telephone service in his Borough was, through some error, also placed at an inadequate amount.

Clothing for Insane Patients.

Increase desired, $2,100. This increase is desired because of the growth in the number of patients for whom such clothing is required, the amount of the present appropriation being insufficient for the purpose of meeting the cost of such clothing, which the Department is required to furnish in accordance with the provisions of the general insanity law of the State regulating the care of the insane by public authorities.

Clothing for Epileptics Sent to Craig Colony.

Increase desired, $800. The increased number of patients sent from this City, in accordance with the provisions of the State Charities Law, to be cared for at Craig Colony, the State institution for the care of epileptics, makes this increase necessary. The only direct charge upon the City for the care of such patients is the cost of their clothing. The City now has approximately 600 patients at the colony and the total charge for their clothing during 1910 is estimated to be $8,300, or an average of $13.83 per capita. When the uncleanly and destructive habits of many of these patients are considered, this charge must be regarded as a moderate one.

Transportation of Paupers.

Increase desired, $1,200. In adopting the Budget for 1909 this appropriation, which in previous years has shown a small excess to be transferred to other accounts, was reduced from $10,000 to $5,000, which has been found insufficient to meet the requirements of the Department.

Donations to Grand Army Veterans.

Increase desired, $3,766.08. As many of these veterans and the members of their families, who are also entitled to relief through the G. A. R. posts in accordance with the provisions of the General Poor Law of the State, are, naturally, through increase of years and their growing infirmities, becoming more dependent upon assistance, a small present increase in the amount of the annual appropriation for their relief is considered necessary. In the natural course of events the whole charge for this assistance should practically cease within a comparatively few years.

State Hospital for Tuberculosis.

Increase desired, $5,500. This increase is rendered necessary by the growth in the number of incipient cases of tuberculosis sent to the State Hospital at Raybrook at a stated charge of $5 per week each for their maintenance, the balance of the charge being met by the State itself. The Department now has approximately 120 patients at this hospital.

In conclusion, permit me to say that while it must be frankly admitted that the aggregated estimated increase of $843,982.30 in the expenses of this Department for the year 1910 is a very large amount to recommend the expenditure of these moneys is, in my opinion, absolutely essential to the most efficient administration of this Department, with its very serious duties and responsibilities, including daily the humane care of nearly ten thousand sick and otherwise dependent persons who are a charge upon the public charities of this City.

Respectfully submitted,

ROBERT W. HEBBERD, Commissioner.

Schedule of Salaries and Wages Estimate for 1910, Monthly Payrolls.

For 1908.	
Estimate	$54,810 00
Budget allowance	45,760 00
Net allowance available	45,760 00
Revenue Bonds allowed	63 78

For 1909.	
Estimate	$54,880 00
Budget allowance	46,330 00
Transfers to June 30, Dr	75 00
Transfers to June 30, Cr	45,446 00
Net allowances available	91,701 00

Note—Explanation is given of the changes desired in the salaries and wages schedules of this division as follows:

The reasons for desiring to add the proposed Third Deputy Commissioner and the Assistant Engineer to these schedules are fully given in the letter transmitting this estimate, which has been made a part hereof, and to which reference is respectfully made. The same is also true of the proposed Employment Agent, Inspector of Buildings, Statistician and Head Gardener. The Stenographers and Junior Clerk are required to keep pace with the growing work of the several administrative divisions at the principal office of the Department, principally in that of the Secretary. The employment of two additional Stationary Engineers is necessary in order to cover the steam plants of the Department, as required by law, during the vacation season. The additional mechanics are needed for the work of repair and replacement, the present force being insufficient, and to meet the requirements of the statutes requiring the payment of prevailing rates and the eight-hour service. The Telephone Operator is needed to cover the telephone service at the principal office of the Department on the Twenty-sixth street pier, from 4 p. m. until midnight, which will do away with the present confusion of service arising from the failure to operate the central switchboard during the busy hours at night. The Auto Engineman is required to replace the Driver for the First Deputy Commissioner, for whose use, in part, an automobile has been purchased.

The increases recommended in this division are to pay a more equitable salary to the Super vising Engineer of the Department, who, in my opinion, should receive $3,000 a year for his services, and to the Clerk of the Department who acts as Assistant Secretary, and also as Acting Secretary during the absence of the Secretary; also to grant the slight increase of $5 a month to one of the Clerical Assistants on these schedules.

Schedule of Salaries and Wages Estimate for 1910, Monthly Payrolls.

Total	.....	11	$17,050 00	9	$13,950 00	.....	8	$13,350 00	.....	8	$13,350 00	.....	8	$13,350 00	.....

For 1908.	
Estimate	$14,400 00
Budget allowance	13,350 00
Net allowance available	13,350 00

For 1909.	
Estimate	$14,650 00
Budget allowance	13,950 00
Net allowance available	13,950 00

Note—The increase of salary recommended in this division of the schedules is to grant more equitable pay to the Auditor and the Clerks of his division. The Auditor and his force are required to pass upon claims aggregating about $8,000,000 annually, and it is most important to prevent the loss of desirable employees because of an inability to pay suitable salaries.

In order to expedite the work called for under the new system of accounts being installed, it is necessary to employ at least two more Junior Clerks, at $600 a year each to commence, for that purpose. This increase is recommended by the experts of the Finance Department who are installing the new system.

Budget allowance	11,910 00
Transfers to June 30, Dr	408 00
Transfers to June 30, Cr	408 00
Net allowance available	11,910 00

Note—The additional help required in this division is rendered necessary by a large increase in the work, which has not for some years been met with any corresponding increase in force. The work has during the present year been largely increased through the orders for the regular chemical analysis of supplies not heretofore made with the same degree of regularity. To cover the increased work of this division an additional Apothecary at $900 and a Hospital Helper at $480 a year are needed.

The increases recommended are for the purpose of granting slight additional compensation to the Apothecary who acts as Assistant to the Chemist in charge for the division, and takes his place when the superior is absent, and to increase the pay of another Apothecary to $1,050 a year, which is the rate ordinarly paid for such service in the Department.

Note—The additional help desired in this Bureau is to expedite its constantly growing work and to make it more effective. It is believed that a competent Interpreter attached to this office, to interpret the statements of thousands of foreign-speaking people who seek public relief, would enable the Department to place under the care of the National and the State authorities a much larger number of dependent persons who are probably a proper charge upon such authorities. Such an appointment should also greatly improve the work along humane lines, inasmuch as it would enable the employees to gain a better idea of the needs of many of the unfortunates who now come to it for help. The Court Attendant is desired to have charge of cases in Court, a duty now assigned to an Examiner of Charitable Institutions who is needed for other duties. The additional Examiners are required because of the increase in the number of applicants to be investigated and the desire to look into their requests for assistance more carefully and thoroughly.

It is desired also to increase the salary of the Morgue Keeper, who is at present very inadequately compensated for his work, to $1,500 a year, the salary of one Clerk from $1,050 to $1,200, and of two Clerks now receiving $750 each to $900 each, because of length of service and general satisfaction. It is also desired to promote one of the Visitors now receiving $1,000 a year, and who has rendered long and useful service, to the position of Examiner, at $1,200 a year. The other increases are to improve the Hospital Helper service generally, as explained in the letter accompanying these schedules.

For 1909.	
Estimate	$28,130 00
Budget allowance	28,130 00
Transfers to June 30, Dr	310 00
Net allowance available	27,820 00

Note—The additional help desired in this Department is to keep up with the rapidly increasing work and to render the Bureau more effective in its examination of applicants for assistance.

The three additional Examiners are particularly required for this purpose. The Registrar of Records is needed to keep the valuable and voluminous papers of the division in good order, so that they will be carefully preserved and rendered accessible for the Examiners. The additional Clerk is also required because of the increased work of the Bureau, in amount about 40 per cent. during the past few years.

Two small salary increases are recommended in this Bureau. It is desired to pay $1,200 a year to one Clerk now receiving $1,050, and $750 a year to another Clerk now receiving $600.

Note—Additional help is desired in this division to cover the service properly, in part to meet the requirements of the United States authorities having supervision of steamboats in New York Harbor.

To cover the Steamer "Thomas M. Mulry," three additional Deckhands are needed; the additional Hospital Helpers are required for the piers used by the Department, to which two new ones at Ninety-first street, Borough of Manhattan, and at Noble street, Borough of Brooklyn, have been added during the present year. A Ship Joiner and a Ship Carpenter have been added to the estimate, and their employment is recommended in the belief that the boats could thereby be kept in better order and economies of administration effected.

The increases of salary recommended are to pay the Master and Pilot of the "Fidelity," one of the larger boats of the Department, which is required to traverse practically all parts of the harbor, at the rate of $1,620 a year, and to pay the Clerk in charge of the pier at Twenty-sixth street, and to allow the increase recommended generally to improve the Hospital Helper service throughout the Department.

Transfers to June 30, Cr	120 00
Net allowance available	21,134 00

Note—The additional help required in this division is needed to improve the service by expediting the work and rendering it more efficient.

In order better to safeguard the valuable stores of the Department on Blackwells Island it is recommended that two of the divisions be placed in charge of Junior Clerks, at $600 a year each, replacing Hospital Helpers at small wages, who are ordinarly irresponsible and incompetent. A Stenographer is urgently needed in this division, together with two additional Hospital Helpers, one at $300 and the other at $240 a year.

It is desired to increase the salary of one Clerk from $750 to $900, because of length of service and merit. The remainder of the increase recommended is to pay the men Hospital Helpers generally the minimum rate of $20 a month to commence.

Budget transfers, Dr	700 00	Transfers to June 30, Cr	6,300 00
Net allowance available	52,996 40	Net allowance available	66,143 50
Revenue Bonds allowed	5,298 23		

Note—The increases desired in the force of this Hospital are needed to meet the increased demands largely growing out of the opening of the Service and other buildings, where their services are required. In order to give better attention to the persons and the clothing of patients it is desired to employ a competent Barber and a Tailor in place of the Hospital Helpers now assigned to this service.

The Trained Nurse is required to have charge of discharged patients, particularly those whose condition, for one reason or another, makes it desirable that they be brought to the attention of private charitable agencies of the City.

It is recommended that the salary of the Deputy Superintendent at this Hospital be made $1,500 a year, inasmuch as satisfactory candidates cannot be had through the examinations of the Civil Service at the present rate.

The other increases recommended are to pay the increased rates to Hospital Helpers, generally recommended to be paid to such employees throughout the Department.

Revenue Bonds allowed	120 00		

Note—The additional employees required at this school are almost exclusively for the purpose of improving the nursing service of the hospital. These desired increases consist of an additional Supervising Nurse to assist in the management of the nursing force in the main hospital, a male Nurse to have charge of certain male patients, six Nurses at $300 a year for their post-graduate course, as provided in the rules of the school, and a Dietitian at $720 a year in place of the present Hospital Helper.

The increases recommended in the pay of Hospital Helpers are those general to the whole service.

Budget transfers, Cr	815 00
Net allowance available	48,377 48
Revenue Bonds allowed	5,253 94

For 1909.	
Estimate	$69,667 50
Budget allowance	54,400 00
Transfers to June 30, Dr	2 50
Transfers to June 30, Cr	984 00
Net allowance available	55,381 50

Note—The additional help desired in this division is required for the administration of the new Neurological Hospital Pavilion.

The increases in salary recommended are to pay the Deputy Superintendent $1,500 a year, the present amount being inadequate, and it is proposed to give one of the Hospital Helpers $600 in place of $480.

It is also recommended that the wages of the Seamstress be increased from $240 to $300 a year.

The other increases recommended are to improve the Hospital Helper service generally.

For 1908.

Estimate	$70,512 00
Budget allowance	49,123 64
Budget transfers, Dr.	2,900 00
Net allowance available	46,223 64
Revenue Bonds allowed	8,158 22

For 1909.

Estimate	$84,817 00
Budget allowance	51,831 00
Transfers to June 30, Cr.	2,527 50
Net allowance available	54,358 50

Note—The additional help required at this hospital consists of a Stationary Engineer at $4.50 per day, who is required to comply with the provisions of the Eight-hour Law, as well as to attend to the increased work at the power house; six additional Firemen are also needed to cover the work as at present and proposed, an additional Watchman is desired for the hospital, and two are required at the new gate house to prevent the entrance of intemperate, disorderly or otherwise improper persons. The additional Trained Nurse is desired to have charge of discharged patients, as proposed in the letter of transmittal accompanying these estimates.

The only important increase of salary recommended is for the Deputy Superintendent of this large hospital, who should be paid $1,500 a year. The increase for the Hospital Helpers is for the most part, as in other cases for the general improvement of the service.

Schedule of Salaries and Wages Estimate for 1910, Monthly Payrolls.

Budget transfers, Cr.	500 00
Net allowance available	46,575 32
Revenue Bonds allowed	5,620 77

For 1909.

Estimate	$68,636 00
Budget allowance	56,102 00
Transfers to June 30, Cr.	7,880 00
Net allowance available	63,982 00

Note—The additional help desired by this school is largely for the purpose of improving the nursing service and caring for more patients, particularly in the two new hospital pavilions of the tuberculosis infirmary connected with the Metropolitan Hospital, which are now being pushed to completion as rapidly as possible. It is hoped to open them before the first of the year, and so great is the need for accommodation of this nature there is no doubt but that they will be promptly filled.

It is desired to increase the salary of the Deputy Superintendent of the School, having charge of the nursing of the tuberculosis infirmary, to $1,200 a year, being an increase of $150 over the present rate; to pay the Supervising Nurse $1,050 in place of $850, as at present, and the Supervising Nurse $850 instead of the $750 now paid. It is also desired to increase the salary of the Stenographer and Typewriter from $750 to $900, all of these proposed changes being for merit.

Increases in wages are recommended for a number of the Hospital Helpers occupying the more important places of the kind as indicated, who have rendered good and meritorious service, but the large increase recommended for the Hospital Helpers is, as in other cases, for the general improvement of the service.

Schedule of Salaries and Wages Estimate for 1910, Monthly Payrolls.

Title of Appropriation: 267, Institutions, Manhattan and The Bronx, New York City Children's Hospitals and Schools.

For 1908.		For 1909.	
Estimate	$125,037 50	Estimate	$126,843 50
Budget allowance	98,866 56	Budget allowance	106,388 50
Budget transfers, Dr	481 47	Transfers to June 30, Dr	512 00
Net allowance available	98,385 09	Transfers to June 30, Cr	5,655 00
Revenue Bonds allowed	13,338 12	Net allowance available	111,531 50

Note—The additional help required at this large institution, with 1,532 more or less helpless patients, is comparatively few in number. The Deputy Medical Superintendent is the most important addition recommended.

The Instructor in the gymnasium, at $700 a year, is needed to instruct the children capable of receiving such training and thereby to improve their health. Four of the Trained Nurses and the Orthopædic Mechanic are required for the service of the more acute orthopædic wards, while the fifth is to have charge of the discharged patients. A Teacher is also required to have charge of the education of the children in hospital wards for long periods, and who would otherwise be deprived of much of their schooling.

The increases recommended for the Hospital Helpers are, as in other cases, for the general improvement of the service. Such improvement is greatly needed in this institution, where children require not only feeding and clothing, doctoring, nursing and educating, but also a much larger measure of protection than is required by adults.

Schedule of Salaries and Wages Estimate for 1910, Monthly Payrolls.

For 1908.		For 1909.	
Estimate	$14,620 00	Estimate	$23,122 50
Budget allowance	11,043 96	Budget allowance	16,862 50
Net allowance available	11,043 96	Transfers to June 30, Cr	600 00
Revenue Bonds allowed	1,000 13	Net allowance available	17,462 50

Note—The additional help required at this enlarged institution is to improve the service by replacing unpaid help with paid help. This has, in large part, been allowed for the current year through the issue of Special Revenue Bonds authorized by the Board of Aldermen, action on which is now pending with the Board of Estimate and Apportionment.

The increases recommended for the Hospital Helpers are to improve that service generally throughout the Department by paying somewhat better wages.

Transfers to June 30, Cr	5,688 00
Net allowance available	108,114 50

Note—The additional help required at this Hospital is needed to meet in an adequate and efficient manner the increased demands upon the hospital, and to safeguard the persons of the patients and the property of the City. A Deputy Medical Superintendent is desired for day duty in place of the lay Deputy now provided on the schedules, and an additional Deputy Medical Superintendent is desired to have charge of the acute and growing service of this large hospital at night. The increase recommended in the nursing force is necessary to meet the increased demands upon the hospital through the opening of new buildings and by reason of other causes, particularly a Trained Nurse to visit discharged patients. The additional Helpers, Waitresses, Laundresses and Seamstresses are required for the same reasons. A Steward is desired to safe guard the supplies and properties of the institution, and the Clerk, as well as the Stenographer, to do the work more promptly and efficiently.

Increases are desired in the salaries of the Resident Physician (Alienist) from $1,800 to $2,500 a year, of the Clerk from $600 to $750, and of the Principal Apothecary, who has been for a long period in the service with an excellent record, from $1,050 to $1,200 a year. The other slight increases recommended in the better-paid Hospital Helper service are because of long and meritorious service. In the lower grades the increases recommended are for the improvement generally of the Hospital Helper service throughout the Department.

Schedule of Salaries and Wages Estimate for 1910, Monthly Payrolls.

Note—Additional help is required at this home, with its 1,698 inmates, many of them helpless through age and infirmities, in order to protect them and the properties of the Department.

It is recommended that the administration of this home be placed under the charge of a Deputy Medical Superintendent, and that a Steward be appointed to take charge of and safeguard the use of supplies. The appointment of a Stenographer, a Cook and fourteen Hospital Helpers is also recommended as urgently required at this large and rapidly growing institution.

It is recommended that the Trained Nurse in charge of the infirmary branch of this home be appointed to the place of Supervising Nurse, she having qualified for such appointment through a promotion examination. The duties of the place are arduous and the salary should be increased.

Slight increases are recommended in the cases of a Hospital Helper, Cook, Clerical Assistant and Waitress because of length of service and merit.

The increases in the wages of the lower grade of the Hospital Helper class are recommended for the general improvement of the service, as in other cases.

For 1908.

Estimate	$30,829 50
Budget allowance	25,159 56
Net allowance available	25,159 56
Revenue Bonds allowed	2,348 30

For 1909.

Estimate	$33,472 50
Budget allowance	28,040 50
Transfers to June 30, Cr.	600 00
Net allowance available	28,640 50

Note—The additional help recommended for this hospital is a Steward at $1,200 a year, to have charge of the supplies and to safeguard them and the other properties of the Department at this institution. The allowance of four additional Pupil Nurses is also requested in the estimate. It is also recommended that a Trained Nurse, who has qualified for such position, be appointed Supervising Nurse at $750 a year, an increase of $150, and that the slight increases indicated be allowed to the Laundress and Waitresses, who work under very trying conditions at this institution. The increases recommended for the lower grades of Hospital Helpers are general in their nature and designed to improve the service throughout the Department.

Estimate	$14,360 00
Budget allowance	12,624 04
Budget transfers, Dr	182 68
Net allowance available	12,441 36
Revenue Bonds allowed	1,166 50

For 1909.

Estimate	$17,774 00
Budget allowance	12,188 00
Transfers to June 30, Cr	1,890 00
Net allowance available	14,078 00

Note—The appointment of a competent Stationary Engineer is recommended at this plant in the belief that such an employee at the colony should not only promote the efficiency of the plant under his charge, but be economical in the end by making, as well as preventing, the need for extensive repairs to the plant. The opening of the new employees' dormitory requires the employment of two additional Helpers at $300 a year each.

The increases recommended in the wages of the Hospital Helpers at the Colony are for the general purpose of improving the service.

Note—Revenue Bond Fund as per resolution passed by the Board of Aldermen, approved by the Mayor July 1, 1909, and awaiting action by the Board of Estimate and Apportionment, is included in 1909 allowance in the sum of $347,380.85, which, with apparent needs in other appropriations not stated in said resolution in the sum of $6,873.60, makes the total for Revenue Bonds $354,254.45; half for six months equals $177,127.23.

HUDSON-FULTON CELEBRATION COMMISSION.

June 1, 1909.

Hon. P. J. SCULLY, City Clerk and Clerk of the Board of Aldermen:

Dear Sir—In accordance with the request contained in the circular, entitled "Departmental Estimate for the Year 1910," received from the Secretary of the Board of Estimate and Apportionment and dated May 18, 1909, I beg to send the following estimate:

For lease of room 805, in the Tribune Building, No. 154 Nassau street, Manhattan, for the use of the Hudson-Fulton Celebration Commission, for one year from May 1, 1910, one thousand dollars ($1,000).

For rental of room 807, in the Tribune Building, No. 154 Nassau street, Manhattan, for the use of the Hudson-Fulton Celebration Commission, for one year from December 1, 1909, three hundred and sixty-five dollars ($365).

Yours respectfully,
STEWART L. WOODFORD, President.

TENEMENT HOUSE DEPARTMENT.

Tenement House Department,
No. 44 East Twenty-third Street,
New York, August 6.

Hon. P. J. SCULLY, City Clerk and Clerk of the Board of Aldermen:

Gentlemen—Complying with the provisions of section 226 of the Greater New York Charter, and with the instructions outlined by your Honorable Board for the preparation of the departmental estimates for the year 1910, I beg to transmit herewith the estimate of the Tenement House Department for the year 1910.

The Tenement House Department respectfully requests that the Board of Estimate and Apportionment appropriate the sum of eight hundred and forty-nine thousand six hundred and two dollars and fifty cents for the expenses of the Tenement House Department for the year 1910, made up as follows:

General Administration	$29,470 00
Administration	398,982 50
Division of Inspection Review	50,350 00
Division of New Buildings, Complaints, and Inspection of Pending Violations	301,450 00
Division of Structural Work	41,400 00
General Supplies	4,000 00
Contingencies	22,000 00
Board and Care of Horses	450 00
Rental of Telephones	1,000 00
Total	$849,602 50

It is my intention to submit a supplementary letter, explanatory of the reasons for the continuance of the present force, the new employees required and the increases in salaries asked for. The material for this letter is dependent upon the compilation of the statistics concerning the work done by the Department during the past six months. These statistics will be completed during the current month, and I hope to be able to forward the letter referred to not later than the 25th inst.

Very truly yours,
EDMOND J. BUTLER, Commissioner.

Tenement House Department, Borough of Manhattan,
No. 44 East Twenty-third Street,
New York, August 31, 1909.

Hon. P. J. SCULLY, City Clerk and Clerk of the Board of Aldermen:

Gentlemen—In my budgetary letter of the 6th inst., I stated: "It is my intention to submit a supplementary letter, explanatory of the reasons for the continuance of the present force, the new employees required and the increases in salaries asked for. The material for this letter is dependent upon the compilation of the statistics concerning the work done by the Department during the past six months."

In compliance with the statement as above, I beg to submit for the consideration of your Honorable Board, the following:

In the budgetary letter of August 28, 1908, as a reason for the requested increase in the Budget for the year 1909, I made the following statement:

"The Tenement House Department was established to (1) supervise the construction of new tenements, (2) make regular inspection of completed tenements, and (3) effect certain structural changes in tenements erected prior to 1901, necessary to provide greater security in case of fire, and more sanitary conditions for tenants. Owing to the inadequacy of the appropriation granted to date, the Department has been compelled to neglect the regular sanitary inspection of tenements and the structural change of old buildings. In the past six years, therefore, the Department has been forced to confine itself largely to the supervision of the erection of new tenements and to the work made necessary by citizens' complaints."

In conformity with the foregoing request, your Honorable Board granted the increase asked for, and the Department during the past six months has been engaged in organizing its administration on the assumption of the continuance of that increase.

As a preliminary to both the sanitary and structural work, it was found necessary to make a general inspection of all tenements to determine their actual number, the number of apartments they contained, a fact which was important as indicating the number of families for which accommodations were available, the rental and the main structural defects, such as the number of houses without sufficient number of fire escape balconies, the number of dark rooms, dark halls and school sinks, and the number of stables still existing on tenement property.

The canvass of defects was not intended to be the detailed report necessary as a basis for filing violations, but for the purpose in hand, was simply meant to be an enumeration in rough, of the conditions, so that the amount of work to be planned for should be known, and that the houses showing the worst conditions might be taken up first.

The census was taken as of date February 13, 1909, and it was found that the number of tenements in the entire city was 102,897. Of this number 14,166, or about 14 per cent., were new law tenements, and consequently not subject to the structural alteration required for buildings erected before the passage of the Tenement House Act. Of the 88,731 buildings remaining, 11,542, or about 10 per cent., had had structural orders issued against them, which were then pending and 7,231, or about 6 per cent., had had structural orders issued and dismissed. This leaves 69,958 houses, or about 70 per cent. of the total, still subject to structural inspection. Of this number, 9,024, or about one-eighth, are of doubtful occupancy so that not necessarily all will prove to be subject to structural alteration, but all are subject to inspection to determine occupancy.

Structural work was undertaken immediately at the close of the preliminary canvass as a result of which structural inspections were made, and orders issued on 2,191 houses up to June 30, 1909, those showing the worst conditions being undertaken first. It is presumed that succeeding months will show a much more rapid rate of inspection, as a considerable portion of the first half of 1909 was taken up with the necessary organization and training of the new force and the preliminary canvass.

The above 2,191 inspections were made practically within a period of two months. At this rate, it will be possible to complete the required inspections within the three-year period mentioned in last year's Budget, as, under the plan of taking up the houses in worst condition first, as far as could be gathered from the results of the preliminary canvass it may be presumed that the work of the first year will go the most slowly, of the second year more rapidly, and of the third year more rapidly still.

Among the first premises to receive attention are those containing dark rooms and school sinks. It has not been possible to tell until this time, just how many of these conditions existed in the city. The recent canvass shows that at that time there were in the entire city only 1,931 school sinks or privy vaults remaining, and 715 of these were in the Boroughs of Queens and Richmond, where in many cases no other form of fixture than a privy vault is possible, owing to the lack of sewer connection. Of the 1,216 remaining in Manhattan, The Bronx and Brooklyn, only 307 remained to be covered by orders June 30, the remainder being disposed of either by having orders already standing against them or by demolition of the house, or classification as non-tenement. With the co-operation of the landlords and the Courts, it should be no long time until every school sink or privy vault, where sewer connections permit, shall be done away with.

The canvass showed, with reference to dark rooms, that there were 101,117 rooms used for living purposes, containing absolutely no windows. This is exclusive of rooms with inadequate light and ventilation in other respects, as for instance, windows opening upon too small an air shaft, or upon a covered shaft, or windows of too small size opening to an adjoining rom.

The above figure represents the absolutely "dark room," that is such a bad feature of our city life. At the date of the census orders had already been issued against 16,768 of these dark rooms, and by June 30, 6,124 more had been covered. Meantime, 421 had been done away with by demolition of buildings, or removal from the tenement house class, leaving 77,804, or nearly three-quarters of the original number to be attended to. Remembering that these 6,124 rooms were covered by orders practically within two months, it may be expected that all dark rooms will have been covered by orders early in the year 1911, but that it will not be possible to complete this part of the work in 1910.

The following is a statement as to the provision made for semi-annual inspections of tenement houses in the grade of twenty-five dollars and less per month, together with an outline indicating the quarterly work of same and other inspectorial work of the Department:

SCHEDULE OF INSPECTORIAL DUTIES.

First Quarter, January 1 to April 1.

Reinspection of all pending violations by Sanitary Squad. Investigation of complaints and other special work, such as the need of vacating buildings unfit for human habitation, reinspecting work on which the Department have issued stop orders and reinspection of violations that are in the hands of Corporation Counsel.

Inspection by Structural Squad of tenements that have not been remodelled according to the requirements of law and in which there still exists interior and dark bed rooms, basements that may not be fit for human habitation, bakeries that are not fireproofed and fire escapes that need repairs. Also verification of architects' plans for proposed alterations in old law tenements.

Second Quarter, April 1 to July 1.

Initial inspection of all tenements rated as the twenty-five-dollar and under class, to ascertain if same are kept in a sanitary condition, and at the same time reinspecting all those houses on which there are pending violations, even though they be of a higher rental.

Investigation of complaints and other special work, such as the need of vacating buildings unfit for human habitation, reinspecting work on which the Department have issued stop orders, and reinspecting of violations that are in the hands of Corporation Counsel.

Continuation of inspection by Structural Squad of tenements that have not been remodelled according to the requirements of law and in which there still exists interior and dark bed rooms, basements that may not be fit for human habitation, bakeries that are not fireproofed and fire escapes that need repairs. Also verification of architects' plans for proposed alterations in old law tenements.

Third Quarter, July 1 to October 1.

Reinspection of all pending violations by Sanitary Squad. Investigation of complaints and other special work, such as the need of vacating buildings unfit for human habitation, reinspecting work on which the Department have issued stop orders and reinspecting of violations that are in the hands of Corporation Counsel.

Continuation of inspection by Structural Squad of tenements that have not been remodelled according to the requirements of law and in which there still exists interior and dark bed rooms, basements that may not be fit for human habitation, bakeries that are not fireproofed and fire escapes that need repairs. Also verification of architects' plans for proposed alterations in old law tenements.

Fourth Quarter, October 1 to December 1.

Initial inspection of all tenements in the greater City (which would include those of the twenty-five-dollar and under class).

Continuation of inspection by Structural Squad of tenements that have not been remodelled according to the requirements of law and in which there still exists interior and dark bed rooms, basements that may not be fit for human habitation, bakeries that are not fireproofed and fire escapes that need repairs. Also verification of architects' plans for proposed alterations in old law tenements.

ADDITIONAL FORCE REQUESTED.

General Administration.		
Secretary to Commissioner	$1,500 00	
Clearing House for Corporation Counsel Cases—		
Clerk	1,500 00	
Clerk	600 00	
Clerk	300 00	
Stenographer and Typewriter	750 00	
		$4,650 00
Current.		
7 Policemen, at $1,400		9,800 00
Administration.		
2 Plan Examiners, at $1,200		2,400 00
9 Process Servers, at $900		8,100 00
		$24,950 00

Private Secretary to Commissioner.

Your Honorable Board in its consideration of the Department's request for the current year, saw fit to eliminate the position of Secretary to the Commissioner. It is absolutely necessary that I should have some person to relieve me to the extent of looking after many of the details pertaining to the general administration of the Department that now claim my personal attention. It does not seem to me that I should be called upon to make an extended explanation, since the need of a Private Secretary is conceded to all other heads of City departments.

Clearing House Corporation Counsel Desk.

The Department has felt the want of creating a new division to act as a "Clearing House" for the Corporation Counsel work of all Boroughs. It is intended that this division shall keep a record of all cases sent to and returned from the Corporation Counsel, so that the delays and confusion consequent upon lack of such a system may be avoided. This division could be made responsible for reviewing the violations before forwarding same to the Corporation Counsel, eliminating such as might be handled by the Vacation and Summons Division, and thus allow the Corporation Counsel to devote his time to the more important cases.

Increased Number of Policemen.

Orders of a clean-up nature, whitewashing, etc., removal of rubbish and attending to sewage overflowing complaints, removal of rags, removal of fire escape encumbrances, and all such orders that are reasonably supposed to be handled by the lessee or tenant, should have the direct attention of a Police officer. With an additional number of officers, much of the accumulation of such orders may be avoided.

Plan Examiners.

In view of the fact that the Department has inaugurated a campaign for the enforcement of alterations to existing tenements and that this is likely to increase the number of plans filed for compliance with the orders of the Department, and in further view of the fact that for some time past our present force has been unable to keep the examination of plans at all times up to date, I have deemed it necessary to ask for an increase of Plan Examiners as specified in the schedule.

Process Servers.

During our reorganization of the current year I have had occasion to look into a number of dismissed violations, on which we have had to threaten the owners with posting and the serving of notices and find that in 65 per cent. of these cases notices had to be posted on the walls of the building and served on the owner. This to my mind indicates that if the Department can post and serve these owners when violations are issued it will save considerable correspondence and stenographic work.

Salary Increases.

	From	To	Increase.	Total Increase.
General Administration.				
1 Clerk	$1,050 00	$1,200 00	$150 00	
1 Typewriting Copyist	750 00	900 00	150 00	
				$300 00

1 Clerk	1,350 00	1,500 00	150 00	
1 Watchman, per diem	2 00	2 50	182 50	
				5,432 50
				$8,732 50

In the budgetary letter of last year I made a request for an allowance for the purpose of increasing salaries. This request was not complied with and as a consequence the Department has lost since January 1, 1909, thirty-six valuable employees by resignations and transfers, who cannot be substituted by new employees, for the reason that the latter cannot possess the qualifications and experiences gained by the long years of service possessed by the former.

In addition to the number of resignations and transfers from the service during the current year, as above stated, occasioned by failure to recognize ability and increased efficiency, I would call your attention to the fact that the Department has lost by resignations and transfers during the past four years, 495 employees, among them a large number of persons of experience and ability whose services we would have been able to retain if we had been able to show some evidence of appreciation in the way of small salary increases.

The proposed increases in salary for the force in general are based upon the need of rewarding faithful service on the part of employees who have been in the Department for periods in excess of five years and who have not received any increases in salary since the date of their appointment. It is not intended to increase the salaries of all persons who have been in the Department in excess of five years but those only who have made themselves valuable employees of the Department by meritorious service and whose continuance in the service of the Department, which is most desirable, will depend in most cases upon such recognition.

Respectfully submitted,

EDMOND J. BUTLER, Commissioner.

Tenement House Department,
No. 44 East Twenty-third Street,
New York, August 9, 1909.

Hon. P. J. SCULLY, City Clerk and Clerk of the Board of Aldermen:

Gentlemen—As the appropriations for this Department were not divided in previous years, it will be impossible to give the statistics required.

In lieu thereof permit me to give you the following memorandum of appropriations for the years 1908 and 1909:

Estimate, 1908—		
Salaries	$695,154 00	
Supplies and Contingencies	25,000 00	
		$720,154 00
Allowed 1908—		
Salaries	$623,333 00	
Supplies and Contingencies	19,894 00	
		$643,227 00

	Estimate, 1909.	Allowed, 1909.

Budget allowance	3,900 00

CITY CHAMBERLAIN.

City of New York,
Office of the City Chamberlain,
July 1, 1909.

Hon. P. J. SCULLY, City Clerk and Clerk of the Board of Aldermen:

Sir—I submit herewith an estimate of the amount of money required for the Chamberlain's office for the year 1910, and for purposes of comparison, I also send a copy of the payroll of this office for the month of June, 1909.

The amount asked for salaries for the year 1910 is $52,550, which is the same as that allowed for 1909. This is exclusive of the salary of the Police detail, which amounts to $1,400.

Respectfully,
JAMES J. MARTIN, Chamberlain.

Salaries.

DEPARTMENT OF WATER SUPPLY, GAS AND ELECTRICITY.

Department of Water Supply, Gas and Electricity,
Commissioner's Office, No. 21 Park Row,
New York, August 25, 1909.

Hon. P. J. SCULLY, City Clerk and Clerk of the Board of Aldermen:

Sir—Herewith is submitted, in compliance with the circular letter from the Secretary of the Board of Estimate and Apportionment, dated May 18, 1909, my estimate of the amounts required to be appropriated, under section 226 of the Greater New York Charter, to properly conduct the business of this Department for the year 1910.

Very respectfully,
JOHN H. O'BRIEN, Commissioner.

GENERAL ADMINISTRATION.

General Administration, Salaries and Wages.

Estimate for 1910	$104,417 50
Budget allowance for 1909	92,397 50
Increase	$12,020 00

Comparing with the June, 1909, payroll, I have asked in this estimate in addition for two Clerks, one Chemist, one Bacteriologist, one Laboratory Assistant, two Laborers for the Laboratories and one Messenger, besides the filling of the position of Secretary to the Department, now vacant.

The two new Clerks and the Messenger are required in the Central Office, the Accounting and Bookkeeping Branch of the Department. The other additional employees are needed at the laboratories.

The increases in salaries are $450 each for two Bookkeepers, $300 each for three Clerks, $150 each for seven Clerks and for one Stenographer, $150 for one Chemist, $300 for one Chemist, $300 each for three Bacteriologists and $209 in the pay of two Laborers.

Request has already been made for a transfer of money and the necessary change in the salary schedule to permit an increase of $300 each in the salaries of the two Bookkeepers and one Clerk. The further increase of $150 each in the salaries of the Bookkeepers is asked partly in recognition of their services during long hours after the office closed and partly because of their superior ability shown in carrying on the work of the office under the present new system of accounting. The full increase requested will permit the promotion of one of these men to be General Bookkeeper, a position already established and which he is particularly qualified to fill.

Another richly deserved increase that I wish especially to have granted is that of $300 in the salary of the Clerk now receiving $2,700 per annum. He performs all the duties of the position of Corresponding Clerk, a position now vacant but which was formerly occupied for years by a man whose salary was $3,000. And in addition he has done all the work during the present year that falls to the position of Secretary to the Department. The increases shown for the other Clerks are intended as rewards for faithful performance of increased duties and as a stimulous to continue in maintaining the high quality of work they are now doing.

The increases asked for the laboratory force are simply a move in the right direction to pay high class men engaged in a most important work salaries somewhat equal to the amounts they can get in outside employment.

It has been suggested that this account be divided, making one appropriation for the Commissioner's and the Central Office and a separate one for the Laboratories. If such a division be made the amounts should be for the Commissioners and Central Office, $67,750, and for the Laboratories, $36,667.50.

General Administration, General Supplies.

Estimate for 1910	$6,786 00
Budget allowance for 1909	5,375 00
Increase	$1,411 00

General Administration, Repairs and Replacements by Contracts or Open Orders.

Estimate for 1910	$100 00
Budget allowance for 1909	1,025 00
Decrease	$925 00

General Administration, Purchase of Furniture and Fittings.

Estimate for 1910	$1,000 00
Budget allowance for 1909	.....

General Administration, Maintenance of Automobiles.

Estimate for 1910	$2,250 00
Budget allowance for 1909	.....

General Administration, Hired Teams, Horses and Carts.

Estimate for 1910	$1,500 00
Budget allowance for 1909	1,900 00
Decrease	$400 00

General Administration, Telephone Service.

Estimate for 1910	$4,250 00
Budget allowance for 1909	4,000 00
Increase	$250 00

General Administration, Contingencies.

Estimate for 1910	$12,800 00
Budget allowance for 1909	11,365 00
Increase	$1,435 00

General Administration, Taxes.

Estimate for 1910	$60,000 00
Budget allowance for 1909	60,000 00

General Administration, Apparatus, Machinery, Vehicles; Equipment, Care and Storage of Same.

Estimate for 1910 included in Maintenance of Automobile.	
Budget allowance for 1909	$300 00

The preceding estimates for appropriations for General Administration, other than for Salaries and Wages, show a total net increase of $4,721, and are based on the expenditures of the past two years, with an allowance for the natural increase.

WATER SUPPLY, BOROUGHS OF MANHATTAN AND THE BRONX.

Water Supply, Boroughs of Manhattan and The Bronx, Administration, Salaries, Office of Deputy Commissioner, The Bronx.

Estimate for 1910	$8,750 00
Budget allowance for 1909	5,950 00
Increase	$2,800 00

The increase is to provide for a promotion to $1,050 per annum for the only Clerk in the office of the Deputy Commissioner, and for the appointment of a Secretary at $2,500. It is considered necessary that the latter be allowed in order that there may be someone in control in the office when official business calls the Deputy to the main office.

Water Supply, Boroughs of Manhattan and The Bronx, Administration, Office of Chief Engineer, Salaries and Wages.

Estimate for 1910	$25,400 00
Budget allowance for 1909	19,600 00
Increase	$5,800 00

The larger allowance is requested in order that the Messenger attached to the office of the Chief Engineer may be paid at the rate of $1,200 per annum instead of $900. A request is now before you for this increase for the balance of this year. The Chief Engineer also desires the appointment of an Engineer to assist him in his office duties and this estimate includes the salary of such an Engineer at $5,500 per annum.

Water Supply, Boroughs of Manhattan and The Bronx, Administration, Office of Chief Engineer, General Supplies.

Estimate for 1910	$2,558 00

Water Supply, Boroughs of Manhattan and The Bronx, Administration, Office of Chief Engineer, Repairs and Replacements by Contract or Open Order.

Estimate for 1910	$600 00

Water Supply, Boroughs of Manhattan and The Bronx, Administration, Office of Chief Engineer, Purchase of Furniture and Fittings.

Estimate for 1910	$1,150 00

Water Supply, Boroughs of Manhattan and The Bronx, Administration, Office of Chief Engineer, Telephone Service.

Estimate for 1910	$6,000 00
Budget allowance for 1909	5,000 00
Increase	$1,000 00

Water Supply, Boroughs of Manhattan and The Bronx, Administration, Office of Chief Engineer, Contingencies

Estimate for 1910	$100 00

These five appropriations are set up here under "Administration, Office of Chief Engineer," for a more complete segregation of accounts. They were included in this year's appropriations under the head of "Distribution, Maintenance."

Water Supply, Boroughs of Manhattan and The Bronx, Collection and Storage, Croton Water System, Care of Water Sheds, Aqueducts, Ponds and Reservoirs, Salaries and Wages.

Estimate for 1910	$168,566 50
Budget allowance for 1909	161,227 00
Increase	$7,339 50

The payrolls chargeable to this appropriation for June were at the rate of $164,343, so that it will be necessary for me to apply for the authorization of Revenue Bonds, unless a sufficient saving can be accomplished in other salary accounts to make up the deficiency by transfer of funds.

In addition to an appropriation to care for the present force this estimate includes the salary of an Automobile Driver at $1,200, and increase in rates of $2,800. The increases are $600 and $300, respectively, in the salaries of two Engineers now receiving $2,400 and $2,100, who have been in the Department many years, and who, from their long experience in caring for the aqueducts and reservoirs, have become very valuable employees. The other increases are to make the salaries of the Keepers uniform at $1,800 per annum.

Water Supply, Boroughs of Manhattan and The Bronx, Collection and Storage, Croton Water System, Care of Watersheds, Aqueducts, Ponds and Reservoirs, Hired Teams, Horses and Carts.

Estimate for 1910	$33,850 00
Budget allowance for 1909	29,809 00
Increase	$4,041 00

The larger amount estimated for next year will provide for the present force and for two teams, one horse and cart and two horses and wagons additional, that are required to properly care for the large area of watershed over which we have to keep the most careful supervision.

Water Supply, Boroughs of Manhattan and The Bronx, Collection and Storage, Bronx River System, Care of Watersheds, Aqueducts, Ponds and Reservoirs, Salaries and Wages.

Estimate for 1910	$26,788 00
Budget allowance for 1909	26,929 50
Decrease	$141 50

This estimate, although less than this year's appropriation, will continue the present force and allow for a slight increase in the salary of the Keeper, which is asked in order to make his salary uniform with that of other Keepers.

Water Supply, Boroughs of Manhattan and The Bronx, Collection and Storage, Bronx River System, Care of Watersheds, Aqueducts, Ponds and Reservoirs, Hired Teams, Horses and Carts.

Estimate for 1910	$6,128 50
Budget allowance for 1909	6,000 00
Increase	$128 50

The present force, working full time, would cost the exact amount estimated for 1910. To keep within the amount appropriated for this year it will be necessary to put some of the force on part time.

Water Supply, Boroughs of Manhattan and The Bronx, Collection and Storage, Croton and Bronx Systems, Care of Watersheds, Aqueducts, Ponds and Reservoirs, General Supplies.

Estimate for 1910	$2,555 00

Water Supply, Boroughs of Manhattan and The Bronx, Collection and Storage, Croton and Bronx Systems, Care of Watersheds, Aqueducts, Ponds and Reservoirs, Materials for Repairs and Replacements by Departmental Labor.

Estimate for 1910	$20,052 00
Budget allowance for 1909	250 00

Water Supply, Boroughs of Manhattan and The Bronx, Collection and Storage, Croton and Bronx Systems, Care of Watersheds, Aqueducts, Ponds and Reservoirs, Repairs and Replacements by Contracts or Open Orders.

Estimate for 1910	$17,505 00
Budget allowance for 1909	5,000 00

Water Supply, Boroughs of Manhattan and The Bronx, Collection and Storage, Croton and Bronx Systems, Care of Watersheds, Aqueducts, Ponds and Reservoirs, Purchase of Furniture and Fittings.

Estimate for 1910	$275 00

Water Supply, Boroughs of Manhattan and The Bronx, Collection and Storage, Croton and Bronx Systems, Care of Watersheds, Aqueducts, Ponds and Reservoirs, Purchase of Automobiles.

Estimate for 1910	$3,000 00

Water Supply, Boroughs of Manhattan and The Bronx, Collection and Storage, Croton and Bronx Systems, Care of Watersheds, Aqueducts, Ponds and Reservoirs, Maintenance of Automobiles.

Estimate for 1910	$810 00

Water Supply, Boroughs of Manhattan and The Bronx, Collection and Storage, Croton and Bronx Systems, Care of Watersheds, Aqueducts, Ponds and Reservoirs, Hired Teams, Horses and Carts.

Estimate for 1910	$2,500 00

Water Supply, Boroughs of Manhattan and The Bronx, Collection and Storage, Croton and Bronx Systems, Care of Watersheds, Aqueducts, Ponds and Reservoirs, Fuel.

Estimate for 1910	$2,800 00

Water Supply, Boroughs of Manhattan and The Bronx, Collection and Storage, Croton and Bronx Systems, Care of Watersheds, Aqueducts, Ponds and Reservoirs, Contingencies.

Estimate for 1910	$5,100 00

Water Supply, Boroughs of Manhattan and The Bronx, Collection and Storage, Croton and Bronx Systems, Care of Watersheds, Aqueducts, Ponds and Reservoirs, Purchase of Water.

Estimate for 1910	$3,000 00

No fair comparison could be made, in the ten accounts immediately preceding, for it is not possible to divide the appropriations for 1909, which were made to cover other expenses as well. In the two cases where the appropriations for 1909 are given, they were for only a part of the watershed.

Water Supply, Boroughs of Manhattan and The Bronx, Collection and Storage, Pumping Stations, Salaries and Wages.

Estimate for 1910	$135,643 50
Budget allowance for 1909	131,163 50
Increase	$4,480 00

It is proposed, if the amount estimated is allowed, to appoint a Store Keeper to take charge of the storehouse now being built, a Pipe Fitter, one Laborer and two Stokers. The increases in pay are $250 per annum each in the salaries of the Engineman in charge at the pumping stations and fifty cents per day in the pay of the Machinist's Helper.

Water Supply, Boroughs of Manhattan and The Bronx, Collection and Storage, Pumping Stations, General Supplies.

Estimate for 1910	$7,300 00

Water Supply, Boroughs of Manhattan and The Bronx, Collection and Storage, Pumping Stations, Materials for Repairs and Replacements by Departmental Labor.

Estimate for 1910	$9,230 00
Budget allowance for 1909	4,000 00
Increase	$5,230 00

Water Supply, Boroughs of Manhattan and The Bronx, Collection and Storage, Pumping Stations, Repairs and Replacements by Contracts or Open Orders.

Estimate for 1910	$32,100 00
Budget allowance for 1909	14,000 00
Increase	$18,100 00

Water Supply, Boroughs of Manhattan and The Bronx, Collection and Storage, Pumping Stations, Hired Teams, Horses and Carts.

Estimate for 1910	$6,387 50
Budget allowance for 1909	5,477 50
Increase	$910 00

Water Supply, Boroughs of Manhattan and The Bronx, Collection and Storage, Pumping Stations, Fuel.

Estimate for 1910..... $64,560 00

Water Supply, Boroughs of Manhattan and The Bronx, Collection and Storage, Pumping Stations, Contingencies.

Estimate for 1910..... $240 00

In three cases only is it possible to compare the six estimates just noted with the Budget allowance for 1909. In two of those, large increases are requested; yet the total amount asked is not a large sum to expend in one year in keeping in repair the costly machinery and buildings of the pumping stations. For "repairs and replacements by contract or open order" the cost to June 30 this year was over $12,000 and the total expense for 1908 was $28,432.10. And it is hoped that the amount estimated will be allowed.

Water Supply, Boroughs of Manhattan and The Bronx, Distribution, Maintenance, Croton and Bronx Systems, Salaries and Wages.

Estimate for 1910..... $333,832 30
Budget allowance for 1909..... 293,161 30

Increase..... $40,671 00

The only increase in salary in this estimate is one of $300 per annum for the Engineer in charge of the repairs. A request for a modification of the salary schedules to permit the increase has already been made. The balance of the increase asked is to provide for the appointment of additional men in the repair companies and to pay the wages of the repair forces engaged on the high pressure fire system pipes and appurtenances.

Water Supply, Boroughs of Manhattan and The Bronx, Distribution, Maintenance, Croton and Bronx Systems, General Supplies.

Estimate for 1910..... $11,815 00
Budget allowance for 1909..... 18,750 00

Decrease..... $6,935 00

Water Supply, Boroughs of Manhattan and The Bronx, Distribution, Maintenance, Croton and Bronx Systems, Materials for Repairs and Replacements by Departmental Labor.

Estimate for 1910..... $48,080 00
Budget allowance for 1909..... 43,945 00

Increase..... $4,135 00

Water Supply, Boroughs of Manhattan and The Bronx, Distribution, Maintenance, Croton and Bronx Systems, Repairs and Replacements by Contracts or Open Orders.

Estimate for 1910..... $45,450 00
Budget allowance for 1909..... 45,750 00

Decrease..... $300 00

Water Supply, Boroughs of Manhattan and The Bronx, Distribution, Maintenance, Croton and Bronx Systems, Hired Teams, Horses and Carts.

Estimate for 1910..... $69,156 25
Budget allowance for 1909..... 65,907 25

Increase..... $3,249 00

Water Supply, Boroughs of Manhattan and The Bronx, Distribution, Maintenance, Croton and Bronx Systems, Fuel.

Estimate for 1910..... $2,000 00
Budget allowance for 1909..... 97,285 00

Decrease..... $95,285 00

Water Supply, Boroughs of Manhattan and The Bronx, Distribution, Maintenance, Croton and Bronx Systems, Contingencies.

Estimate for 1910..... $550 00
Budget allowance for 1909..... 16,870 00

Decrease..... $16,320 00

Estimates for appropriations for General Supplies, for Materials for Repairs and Replacements by Departmental Labor, for Repairs and Replacements by Contract or Open Order, for Contingencies, etc., have been made under the two divisions of Collection and Storage, Care of Watersheds, Aqueducts, Ponds and Reservoirs and Pumping Stations, and under the general head of Distribution, Maintenance, but for 1909 all or nearly all were grouped in the appropriations under the latter general title. Comparisons are therefore difficult to show by tables. For instance, General Supplies shows in some places as an increase and under Distribution, Maintenance, it shows a decrease of $6,935. Really there is a net increase of $7,134.42. The estimate for Contingencies in all divisions is $3,310 less than the 1909 appropriation for the same purposes. There is also a net decrease in the estimates for Fuel of $25,661.

For Water Supply, Bureau of Chief Engineer, Boroughs of Manhattan and The Bronx, the total of the estimates is..... $1,095,082 55
Budget allowances for 1909..... 989,975 05

Increase..... $105,107 50

Water Supply, Boroughs of Manhattan and The Bronx, Distribution, Water Registration Permits and Revenue Collections, Salaries and Wages, Manhattan.

Estimate for 1910..... $291,976 00
Budget allowance for 1909..... 203,879 00

Increase..... $88,097 00

The increases asked are $67,984.49 for additions to the force, and $27,300 for increases in salaries.

A new system of keeping the accounts is now being installed, and it is necessary that a larger force be employed in order to keep up with work, and to make the change from the old methods. The increases in salaries are chiefly for those now in the lower grades. There has been so little opportunity in the past to show appreciation to those deserving promotion that the office has lost the services of many valued men by transfers to other branches of the City government. The work performed in this Bureau requires a grade of intelligence and proficiency that should be paid higher salaries than our appropriations would allow.

Increases are asked also for those who for their exceptional merit have been in charge of the different classes of work. An increase to $6,000 per year is asked for the head of the Bureau.

Application has already been made for the creation of the position of Auditor for this Bureau and the salary for the position is included in this estimate.

The need of such an official is imperative if the high standard of excellence in work is to be continued.

Water Supply, Borough of Manhattan, Distribution, Water Registration Permits and Revenue Collections, General Supplies.

Estimate for 1910..... $942 30

Water Supply, Borough of Manhattan, Distribution, Water Registration Permits and Revenue Collections, Repairs and Replacements by Contract or Open Orders.

Estimate for 1910..... $480 00

Water Supply, Borough of Manhattan, Distribution, Water Registration Permits and Revenue Collections, Purchase of Furniture and Fittings.

Estimate for 1910..... $1,782 75

Water Supply, Borough of Manhattan, Distribution, Water Registration Permits and Revenue Collections, Maintenance of Automobiles.

Estimate for 1910..... $1,998 48

Water Supply, Borough of Manhattan, Distribution, Water Registration Permits and Revenue Collections, Contingencies.

Estimate for 1910..... $5,745 00

Water Supply, Borough of Manhattan, Distribution, Water Registration Permits and Revenue Collections, Department Boat, General Supplies.

Estimate for 1910..... $314 20

Water Supply, Borough of Manhattan, Distribution, Water Registration Permits and Revenue Collections, Department Boat, Repairs and Replacements by Contract or Open Order.

Estimate for 1910..... $2,500 00

Water Supply, Borough of Manhattan, Distribution, Water Registration Permits and Revenue Collections, Department Boat, Fuel.

Estimate for 1910..... $2,266 00

Water Supply, Borough of Manhattan, Distribution, Water Registration Permits and Revenue Collections, Department Boat, Contingencies.

Estimate for 1910..... $425 00

Because of the different division of appropriations for 1909, a comparison with estimates for the nine appropriations just preceding is not attempted.

The total of the estimates is $16,453.73, and the expenditures for the same purposes for 1908 were $21,586.76 and for the first half of this year, $12,725.04.

Water Supply, Boroughs of Manhattan and The Bronx, Distribution, Water Registration Permits and Revenue Collections, Salaries and Wages, The Bronx.

Estimate for 1910..... $48,600 00
Budget allowance for 1909..... 37,865 00

Increase..... $10,735 00

The estimate provides for additional employees at a cost of $7,650, including a Bookkeeper to direct the installation and to continue the new system which is now being installed in the Manhattan office. Increases in salaries are also requested for those who have proven their worth by doing the work required to be done by the Bureau in a very satisfactory manner, although the force, compared with other boroughs, is very small.

Water Supply, Borough of The Bronx, Distribution, Water Registration Permits and Revenue Collections, General Supplies.

Estimate for 1910..... $400 00

Water Supply, Borough of The Bronx, Distribution, Water Registration Permits and Revenue Collections, Purchase of Furniture and Fittings.

Estimate for 1910..... $100 00

Water Supply, Borough of The Bronx, Distribution, Water Registration Permits and Revenue Collections, Hired Teams, Horses and Carts.

Estimate for 1910..... 3,360 00

Water Supply, Borough of The Bronx, Distribution, Water Registration Permits and Revenue Collections, Contingencies.

Estimate for 1910..... $850 00

These four estimates are set up here as new accounts for a more complete segregation of appropriations. They make a total of $4,710. The expenditures for 1908 for the same purposes was $3,794.78, and for the first half of this year, $1,762.05.

WATER SUPPLY, BOROUGH OF BROOKLYN.

Water Supply, Borough of Brooklyn, Administration, Salaries, Office of the Deputy Commissioner.

Estimate for 1910..... $12,250 00
Budget allowance for 1909..... 12,250 00

The only change in this estimate is the employment of a Clerk at $1,050, in place of a Stenographer at the same salary.

Water Supply, Borough of Brooklyn, Distribution, Water Registration, Permits and Revenue Collections, Salaries and Wages.

Estimate for 1910..... $54,050 00
Budget allowance for 1909..... 48,475 00

Increase..... $5,575 00

It is proposed, if the amount estimated is allowed, to appoint in addition to the present force, one Clerk at $1,200, four at $600, and eight Clerks temporarily for $1,800.

It is desired also to make some well deserved increases in salaries.

Water Supply, Borough of Brooklyn, Distribution, Water Registration, Permits and Revenue Collections, General Supplies.

Estimate for 1910..... $400 00

Water Supply, Borough of Brooklyn, Distribution, Water Registration, Permits and Revenue Collections, Purchase of Furniture and Fittings.

Estimate for 1910..... $500 00

Water Supply, Borough of Brooklyn, Distribution, Water Registration, Permits and Revenue Collections, Contingencies.

Estimate for 1910..... $1,100 00

The total of the estimates for these three appropriations is $2,000, while for the same purposes the cost for 1907 was $3,467.57; for 1908, $697.07, and for the first six months of 1909, $609.61.

Water Supply, Borough of Brooklyn, Distribution, Fire Hydrant Rentals and Water Purchased.

Estimate for 1910	$32,250 00
Budget allowance for 1909	27,100 00
Increase	$5,150 00

In this estimate there is an allowance for a slight increase in cost under the contract with the Blythebourne Water Company and an allowance of $5,000 additional for a contract with the Flatbush Water Works Company. Their contract expires with this year, and I am informed they refuse to continue at the present rate.

WATER SUPPLY, BOROUGH OF QUEENS.

Water Supply, Borough of Queens, Administration, Salaries, Office of Deputy Commissioner.

Estimate for 1910	$6,850 00
Budget allowance for 1909	5,550 00
Increase	$1,300 00

The increased amount will allow the fixing of the salary of the Deputy at $4,000, which is asked because of the rapid growth of the Borough and the increased work and responsibility incident to the position. It will also provide increases of $150 each in the salaries of the Clerk and the Stenographer, promotions richly deserved.

Water Supply, Borough of Queens, Administration, Salaries, Office of Chief Engineer.

Estimate for 1910	$7,000 00
Budget allowance for 1909	2,700 00
Increase	$4,300 00

This appropriation for 1909 pays part only of the salaries of the Engineer in charge and the Clerk, the balance of their salaries being paid from the Water Fund. Their full salaries are respectively $3,000 and $2,000 per annum. A request has already been made to so modify the salary schedule as to permit the increase in rates asked for in this present estimate. The increase in the estimate over the appropriation contains provision too for the appointment of a Stenographer, whose services are necessary.

Water Supply, Borough of Queens, Administration, Office of Chief Engineer, General Supplies.

Estimate for 1910	$295 00

Water Supply, Borough of Queens, Administration, Office of Chief Engineer, Purchase of Furniture and Fittings.

Estimate for 1910	$275 00

Water Supply, Borough of Queens, Administration, Office of Chief Engineer, Purchase of Automobiles.

Estimate for 1910	$600 00

Water Supply, Borough of Queens, Administration, Office of Chief Engineer, Maintenance of Automobiles.

Estimate for 1910	$950 00

Water Supply, Borough of Queens, Administration, Office of Chief Engineer, Telephone Service.

Estimate for 1910	$2,200 00
Budget allowance for 1909	2,000 00
Increase	$200 00

The five foregoing estimates amount to $4,320 and the expenditures for the same purposes for the first half of the present year were $1,493.17 indicating a yearly cost of about $3,000.

Water Supply, Borough of Queens, Collection and Storage, Pumping Stations and Standpipes, Salaries and Wages.

Estimate for 1910	$64,878 75
Budget allowance for 1909	60,930 00
Increase	$3,948 75

The increased amount estimated for next year is to pay the wages of six Laborers, not yet appointed but whose services are necessary.

Water Supply, Borough of Queens, Collection and Storage, Pumping Stations and Standpipes, General Supplies.

Estimate for 1910	$4,914 00

Water Supply, Borough of Queens, Collection and Storage, Pumping Stations and Standpipes. Materials for Repairs and Replacements by Departmental Labor.

Estimate for 1910	$6,865 00
Budget allowance for 1909	1,525 00
Increase	$5,340 00

Water Supply, Borough of Queens, Collection and Storage, Pumping Stations and Standpipes, Repairs and Replacements by Contracts or Open Orders.

Estimate for 1910	$5,200 00
Budget allowance for 1909	3,900 00
Increase	$1,300 00

Water Supply, Borough of Queens, Collection and Storage, Pumping Stations and Standpipes, Hired Teams, Horses and Carts.

Estimate for 1910	$720 00

Water Supply, Borough of Queens, Collection and Storage, Pumping Stations and Standpipes, Fuel.

Estimate for 1910	$33,039 00

Water Supply, Borough of Queens, Collection and Storage, Pumping Stations and Standpipes, Contingencies.

Estimate for 1910	$1,434 00

For the same reason as given in other cases, namely, that the appropriations for 1909 were not segregated, no comparisons are given with four of the six preceeding estimates. That the estimates represent the needs of the Department is shown in stating that the expenditures for the same purposes for the first six months of the present year amounted to $20,751.72, the total of the estimates for 1910 being $51,172.

Water Supply, Borough of Queens, Distribution, Maintenance, Salaries and Wages.

Estimate for 1910	$42,200 67
Budget allowance for 1909	28,407 00
Increase	$3,793 67

The estimate contains provision for the employment of seven additional Laborers and an increase in salary of a Foreman to $1,200 per year. The rapid increase of the area of distribution makes necessary a larger force of men to keep in repair the mains and appurtenances.

Water Supply, Borough of Queens, Distribution, Maintenance, General Supplies.

Estimate for 1910	$4,983 00

Water Supply, Borough of Queens, Distribution, Maintenance, Materials for Repairs and Replacements by Departmental Labor.

Estimate for 1910	$1,420 00

Water Supply, Borough of Queens, Distribution, Maintenance, Repairs and Replacements by Contracts or Open Orders.

Estimate for 1910	$6,050 00

Water Supply, Borough of Queens, Distribution, Maintenance, Hired Teams, Horses and Carts.

Estimate for 1910	$4,400 00

Water Supply, Borough of Queens, Distribution, Maintenance, Fuel.

Estimate for 1910	$155 00

Water Supply, Borough of Queens, Distribution, Maintenance, Contingencies.

Estimate for 1910	$480 00

The six preceding estimates amounting to $17,488 are best compared with the expenditures as shown in the tables from which we learn that the expenditures for the same purposes were $12,017.42 for the year 1908 and $4,652.44 for the first six months of 1909.

Water Supply, Borough of Queens, Distribution, Maintenance, Fire Hydrant Rentals and Water Purchased.

Estimate for 1910	$292,686 88
Budget allowance for 1909	250,000 00
Increase	$42,686 88

This estimate is based on the expected purchase of an increased supply of water at present contract prices, and on the average annual increase of fire hydrants supplied by the private water companies.

Water Supply, Borough of Queens, Distribution, Water Registration, Permits and Revenue Collections, Salaries and Wages.

Estimate for 1910	$19,050 00
Budget allowance for 1909	14,800 00
Increase	$4,250 00

With the amount estimated one new Clerk, a Messenger and, during the rush season, two temporary Clerks, all badly needed, may be employed, and some promotions in salaries, well deserved, may be made.

WATER SUPPLY, BOROUGH OF RICHMOND.

Water Supply, Borough of Richmond, Administration, Office of Deputy Commissioner. Salaries and Wages.

Estimate for 1910	$11,300 00
Budget allowance for 1909	4,600 00
Increase	$6,700 00

Included in this estimate is an increase in the salary of the Deputy Commissioner from $2,500 to $5,000 per annum, and provision for the appointment of four additional employees, a Clerk at $1,800, a Messenger at $1,200, a Telephone Operator at $900 and an Automobile Engineman at $1,200. The enormous increase in the duties and responsibilities of the Deputy due to the assumption by the Department of the two private water companies and their pumping facilities and distributing systems is a sufficient reason for the increase in his salary. The same reason justifies the request for more help.

Water Supply, Borough of Richmond, Administration, Office of Deputy Commissioner, General Supplies.

Estimate for 1910	$200 00

Water Supply, Borough of Richmond, Administration, Office of Deputy Commissioner, Telephone Service.

Estimate for 1910	$2,000 00

Water Supply, Borough of Richmond, Administration, Office of Deputy Commissioner, Contingencies.

Estimate for 1910	$1,050 00

These three estimates, amounting to $3,250, are for the same purposes that cost in 1908 when we had only the one City owned plant $940.94 and have cost to June 30 this year $774.22.

Water Supply, Borough of Richmond, Administration, Office of Assistant Engineer, Salaries and Wages.

Estimate for 1910	$9,400 00
Budget allowance for 1909	7,450 00
Increase	$1,950 00

The amount estimated is only sufficient to pay the salaries of the Engineer in Charge, the Clerk, a Stenographer and Typewriter and an Automobile Engineer, all making only an adequate force for the proper conduct of the Bureau.

Water Supply, Borough of Richmond, Administration, Office of Assistant Engineer, General Supplies.

Estimate for 1910	$1,475 00

Water Supply, Borough of Richmond, Administration, Office of Assistant Engineer, Purchase of Furniture and Fittings.

Estimate for 1910..... $705 00

Water Supply, Borough of Richmond, Administration, Office of Assistant Engineer, Purchase of Automobiles.

Estimate for 1910..... $3,000 00

Water Supply, Borough of Richmond, Administration, Office of Assistant Engineer, Maintenance of Automobile.

Estimate for 1910..... $1,100 00

No comparisons with appropriations of 1909 are possible, and the expenditures for 1908 and for the first half of this year are so little that no comparisons are attempted. These four appropriations are, therefore, practically increases, but the appropriations are necessary because the water supply system of the whole island is now in our care.

Water Supply, Borough of Richmond, Collection and Storage, Pumping Stations, Salaries and Wages.

Estimate for 1910.....	$130,545 87
Budget allowance for 1909.....	70,042 80
Increase.....	$60,503 07

The increase shown here is large, because the appropriation made for this year was based on the expectation, which became a fact, that the force at the pumping stations of the private water companies would have to be paid from it for only a portion of the year. The payrolls of June 30, 1909, indicate an annual expense of $102,614. More men are necessary, and some increases in salaries ought to be made to properly grade the men and to indicate the rank of those in charge.

Water Supply, Borough of Richmond, Collection and Storage, Pumping Stations, General Supplies.

Estimate for 1910..... $2,485 00

Water Supply, Borough of Richmond, Collection and Storage, Pumping Stations, Materials for Repairs and Replacements by Departmental Labor.

Estimate for 1910..... $32,595 00

Water Supply, Borough of Richmond, Collection and Storage, Pumping Stations, Repairs and Replacements by Contracts or Open Orders.

Estimate for 1910..... $6,750 00

Water Supply, Borough of Richmond, Collection and Storage, Pumping Stations, Hired Teams, Horses and Carts.

Estimate for 1910..... $2,465 00

Water Supply, Borough of Richmond, Collection and Storage, Pumping Stations, Fuel.

Estimate for 1910..... $50,290 00

Water Supply, Borough of Richmond, Collection and Storage, Pumping Stations, Contingencies.

Estimate for 1910..... 640 00

Water Supply, Borough of Richmond, Distribution, Maintenance, General Supplies.

Estimate for 1910..... $1,235 00

Water Supply, Borough of Richmond, Distribution, Maintenance, Materials for Repairs and Replacements by Departmental Labor.

Estimate for 1910..... $20,200 00

Water Supply, Borough of Richmond, Distribution, Maintenance, Repairs and Replacements by Contracts or Open Orders.

Estimate for 1910..... $7,050 00

Water Supply, Borough of Richmond, Distribution, Maintenance, Apparatus, Machinery, Vehicles, Harness, etc.

Estimate for 1910..... $2,903 00

Water Supply, Borough of Richmond, Distribution, Maintenance, Purchase of Automobiles.

Estimate for 1910..... $5,400 00

Water Supply, Borough of Richmond, Distribution, Maintenance, Maintenance of Automobiles.

Estimate for 1910..... $2,800 00

Water Supply, Borough of Richmond, Distribution, Maintenance, Purchase of Horses.

Estimate for 1910..... 750 00

Water Supply, Borough of Richmond, Distribution, Maintenance, Forage, Shoeing and Boarding of Horses.

Estimate for 1910..... $3,510 00

Water Supply, Borough of Richmond, Distribution, Maintenance, Hired Teams, Horses and Carts.

Estimate for 1910..... $1,500 00

Water Supply, Borough of Richmond, Distribution, Maintenance, Fuel.

Estimate for 1910..... $500 00

Water Supply, Borough of Richmond, Distribution, Maintenance, Contingencies.

Estimate for 1910..... $5,035 00

These estimates for appropriations, seventeen in number, aggregate $146,113, while the appropriations with the revenue bonds authorized amount to $93,980. This would show an increase for 1910, but the amount so far allowed is not sufficient, and a request for more funds for this year is now before you.

Water Supply, Borough of Richmond, Distribution, Maintenance, Fire Hydrant Rentals and Water Purchased.

Estimate for 1910.....	$95,500 00
Budget allowance for 1909.....	10,000 00
Increase.....	$85,500 00

Very little of this year's appropriation will be used, as the Hudson County Water Company, with which we have a contract, has not yet supplied any water, and can scarcely do so before the end of the year. Assurances have been given that the company will begin early next year to furnish a supply which at the contract rates will make necessary an appropriation equal to the above estimate.

Water Supply, Borough of Richmond, Distribution, Water Registration, Permits and Revenue Collections, Salaries and Wages.

Estimate for 1910.....	$38,722 50
Budget allowance for 1909.....	5,800 00
Increase.....	$32,922 50

Water Supply, Borough of Richmond, Distribution, Maintenance, Salaries and Wages

Estimate for 1910.....	$88,947 50
Budget allowance for 1909.....	13,980 00
Increase.....	$74,967 50

From the increase above stated should be deducted the amount of revenue bonds authorized, $20,209.45, which was given for the care and maintenance of only one of the two plants lately purchased.

The work to be done by the men who will be paid out of this appropriation is most important, and will be particularly so this year and next. All the newly acquired mains with the hydrants and stopcocks, etc., must be definitely located and mapped, and deficiencies, wherever found, must be immediately corrected. At the same time all the regular work of supervision and repairs must go on.

HIGH PRESSURE FIRE SERVICE STATIONS.

Water Supply, High Pressure Fire Service, Administration, Office of Supervising Electrical Engineer, Salaries and Wages.

Estimate for 1910..... $8,150 00

I have separated the supervision, the operation and maintenance of the High Pressure Fire Service stations from the Bureaus of the Chief Engineers, leaving with those Bureaus, however, the extension, maintenance and repairs of the distributing mains and appurtenances.

The operation of these stations is a distinct function, and the systems of both Boroughs have been merged, forming a separate and complete branch of the Department under the direction of an official designated as Supervising Electrical Engineer. The cost will be less, all being under the management of one person. The amount estimated for salaries and wages for the office of the Engineer cannot well be less to secure efficient management. The salary of the Supervising Electrical Engineer is now paid from the Manhattan appropriation for Salaries, and the salaries of his Assistants from the Revenue Bond Fund authorized July 2, 1909.

Water Supply, High Pressure Fire Service Stations, Administration, Office of Supervising Electrical Engineer, Purchase of Automobile.

Estimate for 1910..... $3,000 00

Water Supply, High Pressure Fire Service Stations, Administration, Office of Supervising Electrical Engineer, Maintenance of Automobile.

Estimate for 1910..... $1,900 00

Water Supply, High Pressure Fire Service Stations, Administration, Office of Supervising Electrical Engineer, Contingencies.

Estimate for 1910..... $200 00

These amounts are estimated as necessary for the purchase of an automobile and the care of same, and of the one now in use.

Water Supply, High Pressure Fire Service Stations, Borough of Manhattan, Salaries and Wages.

Estimate for 1910.....	$36,230 00
Budget allowance for 1909.....	33,951 00
Decrease.....	$2,279 00

The above estimate is less than the appropriation for this year because the salary of the Supervising Electrical Engineer is not included. The estimate includes provision for, in addition to the present force, one Telephone Operator, two Oilers and one Machinist.

Water Supply, High Pressure Fire Service Stations, Borough of Manhattan, General Supplies.

Estimate for 1910..... $2,106 60

Water Supply, High Pressure Fire Service Stations, Borough of Manhattan, Materials for Repairs and Replacements by Departmental Labor.

Estimate for 1910..... $3,050 00

Water Supply, High Pressure Fire Service Stations, Borough of Manhattan, Repairs and Replacements by Contracts or Open Orders.

Estimate for 1910..... $6,000 00

Water Supply, High Pressure Fire Service Stations, Borough of Manhattan, Telephone Service.

Estimate for 1910.....	$11,330 50
Budget allowance for 1909.....	9,076 50
Increase.....	$2,254 00

Water Supply, High Pressure Fire Service Stations, Borough of Manhattan, Fuel.

Estimate for 1910.....	$750 00
Budget allowance for 1909.....	380 00
Increase.....	$370 00

The estimates for these foregoing appropriations are larger for the ensuing year, because the expense of maintaining will have to be borne by the City, whereas for this year the contractors guarantee of maintenance relieved the City of all such expense.

Water Supply, High Pressure Fire Service Stations, Borough of Brooklyn, Salaries and Wages.

Estimate for 1910.....	$51,012 50
Budget allowance for 1909.....	37,930 00
Increase.....	$13,082 50

Water Supply, High Pressure Fire Service Stations, Borough of Brooklyn, General Supplies.	
Estimate for 1910	$3,008 50
Budget allowance for 1909	311 50
Increase	$2,697 00
Water Supply, High Pressure Fire Service Stations, Borough of Brooklyn, Materials for Repairs and Replacements by Departmental Labor.	
Estimate for 1910	$4,106 00
Budget allowance for 1909	825 00
Increase	$3,281 00
Water Supply, High Pressure Fire Service Stations, Borough of Brooklyn, Repairs and Replacements by Contracts or Open Orders.	
Estimate for 1910	$10,200 00
Budget allowance for 1909	1,000 00
Increase	$9,200 00
Water Supply, High Pressure Fire Service Stations, Borough of Brooklyn, Apparatus, Machinery, Vehicles, Harness, etc.	
Estimate for 1910	$200 00
Budget allowance for 1909	200 00
Water Supply, High Pressure Fire Service Stations, Borough of Brooklyn, Fuel.	
Estimate for 1910	$1,080 00
Budget allowance for 1909	360 00
Increase	$720 00
Water Supply, High Pressure Fire Service Stations, Borough of Brooklyn, Telephone Service.	
Estimate for 1910	$7,548 00
Budget allowance for 1909	5,000 00
Increase	$2,548 00

Most of the appropriations for 1909 for High Pressure Fire Service were insufficient, and help and supplies had to be borrowed from other branches of the Department. Revenue Bonds, too, were needed, and have been granted. It is strongly recommended that sufficient be allowed for next year to keep the stations at all times at the highest point of efficiency.

Bureaus of Lamps and Lighting and Bureaus of Electrical Inspection, Heat, Light and Power.

The estimate for the Budget submitted, so far as lighting is concerned in all five Boroughs, is made on as low a basis as can reasonably and safely be given. On account of heavy increases in street lighting the latter part of 1908, and in the latter part of 1909, the increased lighting in 1910 has been held within close limits. This is shown better in the comparative number of lamps than in the comparative amounts of money, for the reason that lighting increases made towards the end of any one year have a small effect on the Budget of that year, but have full effect on the Budget for the succeeding year.

The rapid building up of the Borough of Queens and the suburban portion of the Borough of Brooklyn, is accountable for the heavy increases in 1909, and the number of lamps added in 1910.

In the Borough of Richmond, after a long campaign for the improvement of conditions, in July, 1908, an arrangement was made with the Company by which the lighting and the distribution plant will be improved to the satisfaction of this Department. This work will be finished towards the end of 1909. During the period of poor lighting, few lamps have been added, and in 1910 it is proposed to take advantage of the improved conditions and add a number of lights that are necessary for the further improvement of the lighting of this Borough.

In public building lighting the increases have been held down to very narrow limits for the year 1910, for the reason that the year 1909 shows that it is going back to a normal rate of increase, instead of the abnormally great increases of 1907 and 1908. It is assumed that 1910 will follow in the path of 1909.

On account of the demand now coming upon this Department from nearly all the other Departments for expert advice as to the improvements in the lighting of public buildings, and also for the improvement of the wiring installation in these buildings, a reorganization has become necessary in order to cope with the situation. These two Bureaus are now in the position of a consulting electrical engineer to the other Departments. The work of necessary inspections, maintenance tests, specifications, etc., has grown so large that a considerably increased force is required. This is work that apparently belongs to the Bureau of Electrical Inspection, but really goes far beyond the functions assumed by that Bureau in the past. Such a force is absolutely necessary if the Bureaus are to be able to take the responsibility for the safety of electrical wiring and the proper lighting in the various Departments.

Inspection of the lighting of streets and parks also requires additional men in order to hold the lighting up to the standard, particularly in the more remote districts, where the company's equipment is not as extensive or reliable as in the more metropolitan sections. The value of this inspection does not lie in the amount of outages, although these are carefully computed and amount to a considerable sum. The moral effect of this inspection is the chief value to this arm of the Department. As noted, street lighting is increasing in the suburban sections rapidly, and the Inspectors for these should be proportionately increased.

The Bureau of Electrical Inspection has been reorganized on lines approved, so far as known, not only by the Department, but by the Board of Estimate and the Board of Aldermen. The new arrangement it is hoped will be in full operation early this fall.

Finally, it is expected that the inspection of this Department will deal more with fire and life hazards, than with fire hazards alone.

The approval of electrical appliances submitted by manufacturers, contractors and so on, and decisions in regard to the rules of the Electrical Bureau are now in the hands of a Board of Engineers. The necessary tests of appliances and so on, are made and certified to this Department by Columbia University.

It is hoped that the inspection of electrical appliances throughout the City, particularly in places of public assemblage, will be much stricter and closer than in the past.

The additional expenditure required for the work of the Bureau of Electrical Inspection was covered by revenue bonds for the last half of the year 1909. This not having gone into effect, after consultation with the Finance Department, this Department was advised to make the Budget out on the basis it thought would be necessary, including this reorganization. In consequence, the increases in Salary account and so on for 1910 over 1909, look larger apparently than a true comparison would show.

The proposed reorganization included the appointment of an Assistant Chief Engineer at $5,000 a year, the Chief Engineer no longer being able to attend properly to the details of the two Bureaus alone.

The general theory of this Budget, therefore, has been to hold down the actual lighting expenses as much as possible, but to provide the necessary organization required to operate and properly supervise it so as to obtain full efficiency for the ensuing year.

GENERAL ADMINISTRATION.

Schedule of Salaries and Wages Estimate for 1910, Monthly Payrolls.

Title of Appropriation: General Administration, Salaries and Wages.

Title of Position.	Estimate for 1910.			Annual Expense, Basis as of June 30, 1909.			Annual Expense, Basis as of January 1, 1909.			Annual Expense, Basis as of June 30, 1908.			Annual Expense, Basis as of January 1, 1908.
