DEPARTMENT OF HEALTH.

Department of Health,
Corner of Fifty-fifth Street and Sixth Avenue,
New York, August 25, 1909.

Hon. P. J. SCULLY, City Clerk and Clerk of the Board of Aldermen:

Sir—By direction of the Board of Health, I have the honor to submit herewith, pursuant to section 226 of the Greater New York Charter, and agreeable to a resolution adopted by the Board of Estimate and Apportionment at a meeting held May 14, 1909, an estimate of the amounts required to be expended in conducting the public business of the Department of Health of The City of New York during the year 1910.

The amount requested is $3,623,289.

Resources, 1909, General.

The amount included in the Budget for 1909, adopted by the Board of Estimate and Apportionment on October 31, 1909, was $2,484,859.25, to which was added by resolution of the Board of Estimate and Apportionment on April 16, 1909, pursuant to the provisions of section 236 of the Greater New York Charter, the sum of $7,600, making a total Budget allowance of $2,492,459.25.

Special Revenue Bonds were authorized by the Board of Estimate and Apportionment on February 19 (two issues), May 14, and July 2, 1909, to the amounts of $9,900, $6,600, $9,900 and $4,275, respectively, making a total of Special Revenue Bond funds authorized of $30,675.

The cash receipts from the care and maintenance of immigrants affected with contagious diseases and from personal telephone calls during 1909, which are forwarded to the City Chamberlain monthly, and by him deposited to the credit of the several appropriations affected, are estimated at $40,000, and $310, respectively, making a total of estimated cash receipts augmenting appropriations, of $40,310.

The estimated total resources of the Department of Health for the year 1909, are therefore as follows:

Budget appropriation	$2,484,859 25
Additional Budget appropriation	7,600 00
Special Revenue Bonds authorized	30,675 00
Estimated cash receipts	40,310 00
Total estimated resources, 1909	$2,563,444 25

Estimate of Expenditures, 1910, General.

The amount requested for the payment of salaries during 1910, is $2,525,073. This includes provisions for 2,143 employees at present in service, whose annual salaries at their present rate of compensation aggregate $1,843,824.25, and the allowance for which is $1,815,949.25. Request is made for an additional allowance of $58,457 to advance the remuneration of 320 positions, which, after deliberation by the Departmental Board of Promotions, and by the Board of Health, when the value of the services performed and the prevailing rate of payment for similar services in other Departments and in private employment were duly considered, were judged under compensated. The various increases in the compensation of clerical positions requested are the result of an exhaustive inquiry into a consequent report upon the services performed and salaries received by Clerks doing similar work and having similar responsibilities in the various offices in the several Boroughs under the jurisdiction of this Department. It was found that the compensation greatly varied, and it was decided to arrange for their equalization in the departmental estimate for the year 1910. As an instance, it may be cited that Clerks receiving $480 per annum in one borough, were found to be performing the same duties as Clerks receiving $1,500 per annum in other boroughs.

It may be here stated that the above additional allowance includes provision for the automatic promotion of all Clerks from $300 to $480 after one year of employment. Also of all Stenographers and Copyists from $600 to $750, and of all Laborers (except hospital help) to $780 per annum after a similar period. It is believed that a year of experience and satisfactory service warrants this promotion by reason of increased value to the Department.

Further request is made for an allowance of $622,791.75 to pay the salaries of 718 additional employees required to assist in performing the proposed increased activities of the Department, during 1910, as shown in detail later. The total request for salaries for 1910 is therefore $2,525,073.

The sum of $1,098,216 is requested for the purchase of supplies, repairs, etc., during 1910.

The resources of the Department for similar purposes is estimated at $747,495 for 1909.

The explanation of the increase, $350,721, will be later shown in detail.

A summary of the Departmental Estimate follows:

	Salaries.	Supplies, etc.	Total.
Allowed in 1909 Budget	$1,777,674 25	$707,185 00	$2,484,859 25
Additional Budget allowance	7,600 00	.....	7,600 00
Revenue Bonds authorized	30,675 00	.....	30,675 00
Estimated cash receipts	.....	40,310 00	40,310 00
Total resources, 1909	$1,815,949 25	$747,495 00	$2,563,444 25
Estimate for 1910	2,525,073 00	1,098,216 00	3,623,289 00
Increase	$709,123 75	$350,721 00	$1,059,844 75

Following is a detailed explanation of the estimate by Departmental Divisions.

Office of the Commissioner.

	Salaries.	Supplies, etc.	Total.
Estimate for 1910	$21,150 00	$6,266 00	$27,416 00
Budget allowance, 1909	25,170 00	3,234 63	28,404 63
	*$4,020 00	$3,031 37	*$988 63

* Decrease.

Salaries.

It is proposed to transfer two Sanitary Engineers now employed and each receiving $2,400 annually, to the office of the Sanitary Superintendent, who will in future direct their duties. Provision for them is made there.

The above decrease in Salaries, $4,020, is therefore only apparent, by reason of the fact that the two Sanitary Engineers above referred to, are proposed for continuance in service. In addition, provision for a Clerk at $480 is requested to assist in the filing and indexing of correspondence. The apparent decrease, therefore, is in reality an increase of $480 over the present expense basis.

Request is made for funds to provide for an increase of $150 each, in the compensation of two Stenographers now receiving $900 and $1,050 annually, respectively. The Stenographer for whom a salary of $1,200 per annum is requested for the year 1910, is the Chief Stenographer of this office, and has been in the service since March 24, 1902.

The Stenographer for whom the salary of $1,050 is requested was appointed on December 27, 1904, and is performing services for which the same or greater compensation is paid in other Departments.

Supplies, etc.

Increases are requested over the 1909 allowance as follows:

	Allowed, 1909.	Requested, 1910.	Increase, 1910 Over 1909.	Expended, 1908.
General supplies	$398 08	$800 00	$401 92	$608 00
Repairs and replacements	216 54	450 00	233 46	103 10
Apparatus	86 98	150 00	63 02	963 50
Purchase of furniture	284 34	500 00	215 66	299 74
Purchase of autos	.....	.....	.....	4,880 00
Maintenance of autos	1,309 34	2,000 00	690 66	736 90
Purchase of horses	.....	350 00	350 00	.....
Forage, etc	518 99	816 00	297 01	851 81
Hired teams	.....	500 00	500 00	710 00
Contingencies	420 36	700 00	279 64	91 11
Total	$3,234 63	$6,266 00	$3,031 37	$9,244 16

A slight increase is requested in General Supplies over the actual expenditures during 1908, the Budget allowance for 1909 being insufficient.

Under Repairs and Replacements, $300 is requested for the renovation of the Commissioner's carriages, unnecessary this year.

Under Apparatus, new harness is included. An added allowance of $215.66 is requested under Furniture, to provide for the purchase of new equipment for an office in a proposed new building.

Maintenance of Automobiles indicates an increase of $690.66, due to the insufficiency of the current allowance. The amount shown as "Expended, 1908," $736.90, represents the cost of maintaining the Commissioner's new car from the date of purchase, October 19, 1908, only.

A new horse, at $350, is also requested.

Under the caption Forage, etc., an increase of $297.01 is indicated, the appropriation for 1909, $518.99, being manifestly insufficient, considering the actual expenditures during 1908 were $851.81.

For Hired Teams, etc., a request of $500 is made for 1910, no allowance having been granted for 1909. This represents the estimated cost of automobile hire contingent upon the discontinuance through disability of the Commissioner's car. The expenditures for this purpose were $710 and $685 during 1908 and 1907, respectively.

For Contingencies an increase of $279.64 over the 1909 allowance is requested to provide for increased travelling expenses and incidentals.

Office of the Secretary.

	Salaries.	Supplies, etc.	Total.
Estimate for 1910	$13,820 00	$27,800 00	$41,620 00
Budget allowance, 1909	12 925 00	18,996 86	31,921 86
Increase	$895 00	$8,803 14	$9,698 14

Salaries.

Request is made for provision to advance the compensation of three positions at a total cost of $780 per annum over the present annual expense basis of this office. *No additional help is requested.*

An increase of $450 per annum is requested for a Clerkship paying a present salary of $2,550. The present incumbent is a member of the Bar, prepares all the papers incidental to the institution of civil actions by the Department of Health, interviews all witnesses, and acts as legal counsel to the Board of Health. Similar positions in other Departments pay at least $3,000 or more per annum. An increase of $150 per annum is requested for a Clerk now receiving $1,050. This Clerk attends to the general indexing, comparison and printing of the minutes of the Board of Health. It would seem that the responsibilities involved would warrant the increase. The third increase of $180 is for a Clerk now receiving $300 per annum. This promotion is in accordance with the policy of the Department regarding automatic promotion, as before stated.

Supplies, etc.

The following increases are requested:

	Allowed, 1909.	Requested, 1910.	Increase, 1910 Over 1909.	Expended, 1908.
General supplies	$440 71	$500 00	$59 29	$405 00
Repairs and replacements	72 19	100 00	27 81	23 95
Furniture	398 08	200 00	*198 08	67 67
Contingencies	18,085 88	27,000 00	8,914 12	21,010 81
Total	$18,996 86	$27,800 00	$8,803 14	$21,507 43

* Decrease.

The significant increase here indicated is that in Contingencies, for which was expended during 1908, $21,010.81. Of this amount $19,513.17 was spent for postage as against $21,410.68 during 1907.

Postage covering all mail forwarded by the Department in the Borough of Manhattan is purchased and distributed by the Secretary.

A comparison of the expenditures for 1907 and 1908 with the allowance for 1909 shows the inadequacy of the latter amount.

Taking the proposed increased activities of the Department into consideration, an increase of 20 per cent. over actual expenditures, 1908, does not seem excessive.

Office of the Sanitary Superintendent.

	Salaries.	Supplies, etc.	Total.
Estimate for 1910	$48,910 00	$79,888 00	$128,798 00
Budget allowance, 1909	38,057 50	82,017 63	120,075 13
	$10,852 50	*$2,129 63	$8,722 87

* Decrease.

Salaries.

Request is made for provision to increase the compensation of seven positions in this office, at a cost of $2,000 over the present annual expense basis. An increase of $500 over the salary now received by an Assistant Sanitary Superintendent is here requested. This officer is the principal Assistant Sanitary Superintendent. Besides performing the functions of his office as prescribed by the Charter, he has charge of the Division of District Medical Inspection in all Boroughs, and in the absence of the Sanitary Superintendent, acts in his stead.

An increase of $300 per annum is requested for a Sanitary Inspector now receiving $1,500. This employee was originally appointed on June 29, 1888, and now makes special inspections assigned to him directly by the Sanitary Superintendent, and which require special knowledge and experience. The character of his services warrants the increase.

Provision is requested for increase in the compensation of a clerkship now paying $1,500, to $1,800 annually. This is a result of the equalization of salaries before referred to, and it is submitted that this Clerk who acts in an executive capacity and prepares for transmission to all subordinates of the Sanitary Bureau the orders of the Sanitary Superintendent should receive proportionate compensation. An increase from $900 to $1,200 annually, is requested for the principal Assistant of the Clerk above referred to. This Clerk acts as Executive Clerk in the absence of his superior.

A Stenographer and Typewriter is recommended for increase from $750 to $900. The amount and character of work performed by the present incumbent warrants the salary requested. The automatic promotion of a Typewriting Copyist from $600 to $750 is also here included. An increase in compensation of $300 of an Automobile Engineman now receiving $1,200 annually, is further requested, by reason of the fact that the length of hours of duty of this employee exceeds that of most chauffeurs,

occasioned by the peculiar functions of the Department of Health, whereby inspections are necessary at all hours. It may be also stated that other City Departments are paying $1,500 for similar services.

Provision is also requested for the addition (by transfer) of a Clerk at $1,500, one at $1,200, and a Copyist at $750, now employed in the Division of the Chief Clerk, and receiving $1,200, $900 and $750, respectively. These employees are engaged in recording and issuing the orders of the Board of Health, and should be under the immediate direction of the chief executive officer of the Department, the Sanitary Superintendent. For like reasons, two Sanitary Engineers, presently employed in the office of the Commissioner, are proposed to be transferred to this office, where it is urged that provision be made.

Supplies, etc.

Following is a table comparative of the requests for 1910 with the allowance for 1909, and expenditures for 1908.

	Allowed, 1909.	Requested, 1910.	Increase, 1910 Over 1909.	Expended, 1908.

Total	$82,017 63	$79,888 00	*$2,129 63	$99,377 62

* Decrease.

The aggregate of the decreases in the amounts requested for the first eight funds above indicated ($4,699.01), is due to the fact that allowances for 1909 were based upon the departmental organization as it existed in August, 1908. At this time, allowances were recommended for the maintenance of the offices of the Assistant Sanitary Superintendents in each Borough, and for the office of the Sanitary Superintendent.

For 1910, provision is requested only for the support of the office of the Sanitary Superintendent. The cost incidental to the work performed by the Assistant Sanitary Superintendents is included in the estimates for the support of the various Divisions receiving the benefit of their services.

The increase shown under the caption "Hired Teams," represents provision for automobile hire in the event of the temporary disability of the Sanitary Superintendent's car.

The sum of $5,000 is requested and included under "Contingencies" for the "Abatement of Nuisances" under sections 1287 to 1300 of the Charter. This amount exceeds by about $2,000 the allowance for 1909, and the actual axpenditures in 1908, by about $2,500.

The sum of $69,880 is requested under the caption "Special Contract Obligations." This represents the estimated cost of removing offal, night soil and dead animals during 1910, in accordance with sections 1205 and 1206 of the Charter.

Contracts to this end were entered into by the Department in 1905, at the annual cost indicated, but terminate with the current year.

In default of positive knowledge as to the actual cost of executing these contracts, the amount is estimated as above, the right being reserved to request a bond issue to provide means to meet a possible deficiency.

OFFICE OF THE GENERAL MEDICAL OFFICER.

Increase	$250 00	$812 62	$1,062 62

Salaries.

No increases in salaries nor force are requested in this office for 1910.

Supplies, etc.

The apportionment of the request for supplies, etc., is as follows:

	Allowed, 1909.	Requested, 1910.	Increase, 1910 Over 1909.	Expended, 1908.
General supplies	$284 33	$500 00	$215 67	$166 16

Total	$1,295 38	$2,108 00	$812 62	$928 00

* Decrease.

Under "General Supplies" an increase of $215.67 over the current allowance is requested to provide means for the purchase of additional books and periodicals relating to research into the causes and cure of disease.

An increase of $277.81 is requested under "Repairs and Replacements" to provide for the general renovation of the vehicle used by the General Medical Officer.

New harness and stable supplies involving an increase of $56.06 is requested under "Apparatus."

A decrease of $70.60 is shown under "Furniture," it being estimated that $100 will be sufficient for 1910.

For "Forage" the appropriation for 1909 of $253.99 is insufficient, the actual expenditures for 1908 amounting to $425.75. For 1910, $408 is requested, an increase over 1909 of $154.01.

For "Contingencies" the sum of $600 is requested for 1910, an increase over 1909 of $179.67.

When it is considered that the General Medical Officer is frequently designated by the Board to represent the Department at conventions held in distant cities, this request should seem reasonable.

Salaries.

Provision is requested to increase the salaries of twenty-six positions at a total cost of $5,560 over the present annual expense basis. These twenty-six increases include provision for the automatic promotion of fifteen Copyists from $600 to $750, and of two Clerks from $300 to $480. Of the remainder, the principal increase is that of the Registrar, for whom is proposed an increase of $1,000 over his present compensation of $4,000 per annum, for reasons stated in a report accompanying the recommendation for the establishment of the salary of this position adopted by the Board of Estimate, and which went into effect on June 29, 1909. The compensation of two Bookbinders now receiving $1,200 annually, is proposed to be increased to $1,350 to conform to the prevailing rate of wages in the Comptroller's office and in private enterprise. Two clerkships now paying $900 are recommended for increase to $1,200 annually, to equalize the salary of these positions with that of others having similar responsibilities. The compensation of three tabulators is recommended for increase from $1,500 to $1,800 annually, for like reasons.

The salary of a Medical Clerkship now paying $1,050 is recommended for increase to $1,200, to equalize the compensation of this position with that of others in the Department. An additional Clerk at $300 is also requested for employment in Manhattan.

Supplies, etc.

The requirements of this Bureau for supplies, etc., are slight, the functions being entirely clerical. A small decrease under the amount allowed for 1909 is shown, due to the excess allowances for "Apparatus" and "Furniture" for 1909.

Salaries.

Request is made for provision to increase the compensation of thirty-two positions at a cost of $6,171 over the present annual expense basis. This includes provision for the automatic promotion of three Clerks from $300 to $480, and of four Copyists and Stenographers from $600 to $750. The position of a Clerk detailed as Assistant Chief Clerk in the Borough of The Bronx is recommended for increase from $1,500 to $2,550 per annum, to equalize the salary of the position with those in the other Boroughs. The compensation of two Clerkships in the auditing office is recommended for increase from $1,200 to $1,500 annually. One of these positions covers the preparation of all payrolls and all payroll vouchers, and the accounting work incidental thereto. The other involves the maintenance of the expense ledgers, the basis of the departmental estimate. Inquiry in other Departments develops the fact that the prevailing rate for similar services is at least $1,500. The salary of a Clerk now receiving $750 is recommended for increase to $900. This Clerk is assigned to the Assistant Chief Clerk in the Borough of Manhattan, receives applications and fees, and issues permits for searches of the record pertaining to births, marriages, deaths, etc. A Clerk now receiving $540 is proposed for increase to $600. This Clerk assists in the distribution of the very large quantities of stationery supplies and printed forms used by the Department. Two Clerks now receiving $480 are recommended for promotion to $540 and $600 respectively. One of these is assigned to the office of the Chief Clerk and is employed on important auditing work. The other is assigned to the Assistant Chief Clerk in the Borough of Brooklyn, and has to do with the receiving of applications and the issuance of permits for searches of the records. Two Stenographers now receiving $750 are recommended for promotion to $900. The quantity and quality of the services performed by them warrant the increase. Automatic promotion of ten Laborers to $780 per annum is also requested. A Stoker now receiving $750 annually, is provided for at the prevailing rate of $3 per diem for 1910. Two Telephone Operators receiving $750 are included at $900 for next year. These are the only Operators in the Department receiving less than $900 annually. Two Cleaners are included for promotion from $300 to $360, the prevailing rate for this service in the City. A Janitor receiving $750 is provided for at $1,500 for 1910. In view of the erection and occupation of a new office building in the Borough of Brooklyn, it would seem that the salary of this position should be advanced equal to that of a similar position in the Borough of Manhattan.

Provision is further requested for the employment of two additional Bookkeepers at $1,200 each, a Stenographer at $900, and a Copyist at $750, in the auditing and accounting office, to meet the increase of work caused by the expansion of the Department and the improvement in bookkeeping methods.

Further provision is requested for the restoration to the appropriation payroll of a Clerk at $1,800, one at $1,050, and a Laboratory Assistant at $1,050, now receiving $1,800, $900 and $900, respectively, employed in distributing and accounting for the sales of laboratory products. These employees were formerly paid from Budget appropriations; but owing to the insufficiency thereof, have, since 1908, been paid out of the receipts from the sales of laboratory products. It is urged that their salaries are more properly a charge to Budget appropriations than to special and trust funds.

Request is also made for provision to employ the services of four Sanitary Inspectors, three of whom are now engaged in inspection building construction and repairs, and whose salaries are presently charged to the various Corporate Stock funds.

These employees are engaged during part of their time in inspecting repairs to existing buildings, and when so employed, their services are properly chargeable to Budget appropriations, but owing to insufficiency of appropriation, the Department, since 1908, has been compelled to meet their entire salaries from Corporate Stock funds.

It is estimated that one-half of their time will be employed on repair work. One-half of their aggregate annual salaries of $3,450 is therefore requested for inclusion in the 1910 Budget.

The new Brooklyn office building will probably be ready for occupancy before January 1, 1910. The following additional help will be required to maintain it.

Engineer, at $4.50 per diem	$1,642 50
Stokers (3), at $3 per diem	3,285 00
Elevator Attendants (3), at $900	2,700 00
Cleaners (5), at $360	1,800 00
Laborers (8), at $780	6,240 00
	$15,667 50

While the lease of the buildings now occupied as the headquarters of the Department in Manhattan expired on May 1, 1909, no provision, as yet, has been made for renewal, or for new quarters for 1910, although the Board of Health, on July 21, adopted a resolution requesting the purchase by the City of a building at the southwest corner of Irving place and Sixteenth street for the purpose. This request awaits action by the Board of Estimate and Apportionment.

For these reasons no provision has been included in the estimate for 1910 for any additional force, reserving the right to request an issue of Revenue Bonds for additional help, supplies and expenses of removal when the site and capacity of the new headquarters are finally determined.

Provision for a Messenger at $900 to travel between the Richmond and Manhattan Boroughs and for a Watchman at $600 for employment at the Richmond office for night duty, is also requested.

A Clerk at $1,200, one at $900 and a Copyist at $750 are proposed for transfer to the office of the Sanitary Superintendent for reasons hereinbefore stated.

Supplies, etc.

Following is a distribution of the request for supplies, etc.:

	Allowed, 1909.	Requested, 1910.	Increase, 1910 Over 1909.	Expended, 1908.
General supplies	$3,757 58	$5,100 00	$1,342 42	$2,543 16

Contingencies	7,534 20	16,500 00	8,965 80	11,774 50
Total	$33,653 20	$61,600 00	$27,946 80	$39,689 40

To the Assistant Chief Clerks in the several Boroughs is assigned the care and maintenance of the various office buildings located therein.

Prior to or during 1910, the location of the offices in Manhattan, Brooklyn and Richmond will probably be changed, the lease of the present office building in Manhattan having expired on May 1, 1909, a new office building now being constructed in Brooklyn will be probably ready for occupancy before January 1, 1910, and the lease of new headquarters in Richmond having been authorized by the Sinking Fund Commission.

To these conditions therefore may be attributed the increased requests for "Supplies," "Materials for Repairs," "Repairs and Replacements," "Furniture" and "Fuel," owing to the increased cost incidental to the adjustment caused by removal and greater accommodations.

Under the caption "Telephone Service" request is made for the entire estimated cost of telephone service during 1910, except that of the Otisville Sanatorium. The amount above shown to have been "Allowed, 1909" ($12,734.45), represents that portion of the total allowance of $20,700 properly creditable to this Division based upon the Departmental Estimate for 1909. The balance is shown under the various hospitals affected.

The above request of $25,000 therefore really represents an actual increase of but $4,300, which, taking into consideration the probable expansion of the Department during 1910, should appear reasonable.

The Assistant Chief Clerks also purchase and distribute postage covering the mail forwarded in all Boroughs but Manhattan. This is the principal item provided for under the caption "Contingencies," the appropriation for which for 1909 was but $7,534.20, as against $11,774.50 actually expended during 1908. The request of $16,500 should not be deemed excessive when the proposed increased activities of the Department are considered.

No request has been made for provision to cover the cost of removing the effects of the Department from the old to the new office buildings in the boroughs cited.

This being a matter of some magnitude, it has been considered expedient to wait until the actual time of removal is imminent, and then request an issue of Revenue Bonds based upon the actual requirements.

DIVISION OF CHILD HYGIENE.

	Salaries.	Supplies, etc.	Total.
Estimate for 1910	$461,880 00	$18,200 00	$480,080 00
Budget allowance, 1909	341,920 00	5,471 63	347,391 63
	$119,960 00	$12,728 37	$132,688 37

Salaries.

Request is made for provision to increase the compensation of twenty-three positions at an added cost of $6,300 over the present annual expense basis. This includes provision for the automatic promotion of five (5) Clerks from $300 to $480 annually, and of two (2) Copyists from $600 to $700. It is here desired to reorganize the field staff of this Division, and for this reason the position of Medical Inspector at $2,550 per annum is proposed for promotion from $1,950. The incumbent of this position will act as the Chief Inspector in immediate charge of the work of this Division in the Borough of Brooklyn. Two Medical Inspectors now receiving $1,500 are proposed for promotion to $1,800. These will act as Chiefs of the Boroughs of The Bronx and Queens, respectively.

It is desired to create four (4) additional positions of Supervising Inspector at $1,500. This explains the request for provision for the promotion of four (4) Inspectors now receiving $1,200 to the salary indicated. It is further desired to create the position of Supervising Nurse at $1,500 per annum. This employee will have charge of the entire staff of Nurses of this Division. It is also deemed advisable to create the position of Supervising Nurse at $1,200 for eight (8) incumbents, each of whom will be assigned to a given district and have charge over the Nurses assigned to that district.

Provision for the following additional force is also requested:

Medical Inspectors, 33 at $1,200	$39,600 00
Nurses, 74 at $900	66,600 00
Clerks, 2 at $1,200	2,400 00
Clerks, 2 at $600	1,200 00
Clerks, 3 at $480	1,440 00
Stenographer	1,050 00
Copyists, 2 at $600	1,200 00
	$113,490 00

The work performed by this Division at present consists of the medical inspection of children attending the public schools, the investigation of still-births, midwives and foundlings, the physical examination of applicants for certificates under the Mercantile Law and the instruction of mothers in the care of new born infants.

The present staff of Medical Inspectors bears the following relation to the public school population:

Manhattan	1 Inspector to 5,700 children.
Brooklyn	1 Inspector to 5,400 children.
The Bronx	1 Inspector to 5,100 children.
Queens	1 Inspector to 5,100 children.
Richmond	1 Inspector to 4,100 children.

It is proposed to extend the examination of school children to cover all of the free schools of the City, including public schools, parochial schools, Children's Aid Society schools and the schools of the American Female Guardian Society.

For this purpose provision for thirty-three additional Medical Inspectors is requested.

Should allowance be made, the following new and satisfactory relation would be established:

Manhattan	1 Inspector to 5,000 children.
Brooklyn	1 Inspector to 4,500 children.
The Bronx	1 Inspector to 4,000 children.
Queens	1 Inspector to 4,000 children.
Richmond	1 Inspector to 3,000 children.

The relation of the present force of Nurses to the school population is as follows:

Manhattan	1 Nurse to 5,300 children.
Brooklyn	1 Nurse to 5,200 children.
The Bronx	1 Nurse to 5,100 children.
Queens	1 Nurse to 4,200 children.
Richmond	1 Nurse to 3,100 children.

Provision for seventy-four additional Nurses is requested, which would admit of the following relation:

Manhattan	1 Nurse to 4,000 children.
Brooklyn	1 Nurse to 3,500 children.
The Bronx	1 Nurse to 3,000 children.
Queens	1 Nurse to 3,000 children.
Richmond	1 Nurse to 3,000 children.

The additional clerical force requested is in anticipation of the increase in office work due to added field work by an increased staff.

Supplies, etc.

Following is a distribution of this request:

*Decrease.

This Division being newly created in the fall of 1908, no data is available to show previous expenditures

Under General Supplies request is made for provision to purchase drugs, chemicals and druggists' sundries, amounting to $5,000, and required to be used in the examination of school children. These supplies are now furnished by the Board of Education, which has notified this Department that it will discontinue doing so during 1910.

Request is made for provision to maintain three automobiles assigned to the use of the Chief, Assistant Chief and the Manhattan Borough Chief of this Division.

Provision for the purchase of furniture amounting to $1,000 is requested, necessitated by the proposed employment of ten additional Clerks and Stenographers.

Three hundred dollars is requested for the cost of livery of one horse and carriage, assigned to the use of the Borough Chief of The Bronx.

The sum of $6,000 is requested under Contingencies, of which $5,000 is estimated to be required for the payment of carfares of the 400 Inspectors and Nurses assigned to this Division.

DIVISION OF DISTRICT MEDICAL INSPECTION.

	Salaries.	Supplies, etc.	Total.
Estimate for 1910	$266,407 50	$85,065 00	$351,472 50
Resources, 1909	235,847 50	43,069 80	278,917 30
Total	$30,560 00	$41,995 20	$72,555 20

Salaries.

Provision is requested to increase the salaries of 59 positions at an increased cost of $12,540 over the present annual expense basis. This includes provision for the automatic promotion of eight (8) Stenographers and Copyists from $600 to $750,

of five (5) Clerks from $300 to $480, and of 12 Laborers to $780 per annum. Provision is also included for an increase in compensation of eight (8) Disinfectors now receiving $750 to $900 annually. These have all been employed more than one year, and are the only ones receiving this salary. A Fireman and a Stoker now receiving each $750 per annum are recommended for promotion to $3 per diem, the prevailing rate of wages for this service. As a result of the equalization of salaries before referred to, a Clerk acting as the Chief Clerk of this Division is recommended for increase from $1,200 to $1,500. For similar reasons two Clerks now receiving $900 each in the Borough of Manhattan are recommended for promotion to $1,050. Two Stablemen now receiving $600 and $720 are provided for at $720 and $840, respectively.

A Stenographer (typewriting copyist) is recommended for promotion from $900 to $1,050 per annum. She is the principal amanuensis to the Chief of this Division and prepares and transmits his official orders. It is here desired to effect a reorganization of the field staff of this Division by the establishment of the salary of the position of Diagnostician at $1,950 annually and by the creation of the position of Supervisor at $1,500 annually. To fill the 16 vacancies in the position of Diagnostician there have been selected for promotion 7 Inspectors now receiving $1,800, 8 receiving $1,500, and one receiving $1,200. For the position of Supervisor, 2 Inspectors now receiving $1,200 are recommended for promotion.

Further provision is requested for the permanent employment of 33 Medical Inspectors at present temporarily employed, whose salaries are paid from the proceeds from the sales of Revenue Bonds authorized by the Board of Estimate and Apportionment at meetings held February 19 and May 14, 1909, respectively.

Supplies, etc.

A distribution of this request follows:

	Allowed, 1909.	Requested, 1910.	Increase, 1910 Over 1909.	Expended, 1908.
General supplies	$10,431 09	$16,600 00	$6,168 91	$12,149 51
Repairs and replacements	5,179 78	10,025 00	4,845 22	6,914 84

Furniture	1,632 82	3,000 00	1,367 18	2,524 86
Maintenance of autos	1,331 76	4,080 00	2,748 24	5,663 68
Purchase of horses	3,853 80	4,000 00	146 20	250 00
Forage	11,526 14	18,360 00	6,833 86	17,738 28
Hired teams	1,500 00	3,000 00	1,500 00	3,077 75
Fuel	281 25	1,500 00	1,218 75	1,499 40
Contingencies	3,306 35	15,500 00	12,193 65	12,127 13
Total	$43,069 80	$85,065 00	$41,995 20	$62,886 75

The apparent insufficiency of the aggregate supply funds allowed for the support of this division during 1909 ($43,069.80), when contrasted with the actual expenditures during 1908 ($62,886.75), is partly due to the fact that a proportion of the resources of this function are shown elsewhere under the "Office of the Sanitary Superintendent" as based upon the Departmental Estimate for 1909, while the expenditures for 1908 are here shown.

The expense of vehicular transportation, etc., incidental to the services proposed to be rendered by the Assistant Sanitary Superintendents for the Boroughs of The Bronx, Brooklyn, Queens and Richmond during 1910 is here included.

For these reasons the amounts estimated for 1910, will be compared with the actual expenditures, 1908.

The principal items of expense included under "General Supplies," viz.: "Disinfectants" and "Disinfector's Supplies," show an increase of about $4,200 due to proposed additional disinfection activities with special relation to tuberculosis.

Provision is included under the captions "Repairs and Replacements" and "Apparatus" for the replacement and renovation of the Department's equipment of ambulances, wagons, carriages, harness and stables and disinfecting plants, unnecessary during 1908.

A decrease is shown under "Maintenance of Autos" by reason of the fact that repairs necessary during 1908 will probably be not required in 1910.

The sum of $4,000 is requested to purchase twelve new horses to replace a like number of the seventy-four now in service. The condemned horses will be transferred to Otisville for service on the farm, or at the antitoxin stable.

For "Hired Teams" practically the same amount is requested as was expended during 1908. These horses are required during the winter season to assist the Departmental horses in performing the heavy ambulance and disinfection wagon service required at that time.

Under "Contingencies" an increase of about $1,500 is requested for carfares, and about $3,000 for postage. This last item represents the cost of printed postal cards used by this division for the reporting of cases of contagious disease.

DIVISION OF COMMUNICABLE DISEASES.

	Salaries.	Supplies, etc.	Total.
Estimate for 1910	$321,240 00	$91,641 00	$412,881 00
Resources, 1909	120,800 00	35,279 71	156,079 71
Increase	$200,440 00	$56,361 29	$256,801 29

Salaries.

Request is made for provision to increase the compensation of thirty-one positions, at an added cost of $7,170 over the present annual expense basis of this division. The automatic promotion of three Clerks from $300 to $480 per annum and of four Laborers from $600 to $780 is here included. The salary of a Medical Inspector now receiving $1,800 annually is recommended for advancement to $2,550. He will have charge of the extension of the supervision over tuberculosis in Manhattan. Six Attending Physicians are proposed for increase from $300 to $600 owing to increased responsibilities, due to the said extension.

As a result of the previously mentioned equalization of salaries the elevation of a Clerk from $1,200 to $1,500 is provided for. This Clerk acts as the Chief Clerk of this division. A Clerk now receiving $900 is recommended for promotion to $1,200. He acts as Clerk in Charge of the Borough of Brooklyn. One receiving $600 is recommended for promotion to $900. He acts as Clerk in Charge of the Borough of The Bronx. Three Clerks each receiving $480 are provided for at $600 for 1910. The duties and responsibilities of these employees in comparison with similar positions warrant the increase. A Medical Inspector now receiving $1,500 is recommended for promotion to $1,800. He acts as Assistant to the Division Chief. It is desired to increase the compensation of three Bacteriological Diagnosticians from $1,050, $1,200 and $1,350, to $1,200, $1,350 and $1,500 annually, respectively. The importance of the work performed by these employees and the prevailing rate of compensation in private enterprise warrants the promotion. For similar reasons the salaries of seven Laboratory Assistants are recommended for advance.

It is proposed to extend the supervision of the Department over cases of tuberculosis through the employment of additional Nurses for assignment to visit the homes of persons affected with tuberculosis, through the maintenance of proper records whereby each case of tuberculosis may be kept under supervision from the time it is first reported until it passes from the jurisdiction of the Department, through the reorganization of the present clinics, the establishment of additional ones, and the extension of the diagnosis laboratory.

The added force estimated to be required to carry on the work above outlined is as follows:

Medical Inspectors, 3 at $1,500	$4,500 00	
Medical Inspectors, 1 at $1,200	1,200 00	
Attending Physicians, 47 at $600	28,200 00

Assistant Director, Bacteriological Laboratory	1,800 00	
		$8,400 00

Request is also made for provision to restore to the appropriation payroll the following employees, at present being paid from the proceeds from the sales of laboratory products, owing to insufficiency of appropriation:

Medical Inspectors, 3 at $1,500	$4,500 00	
Laboratory Assistants, 3 at $750	2,250 00	
Laborer	780 00	
Helper	360 00	
		$7,890 00

Supplies, etc.

Following is a distribution of this request:

The request for "General Supplies" is in support of the greater number of patients proposed for treatment at the reorganized clinics, and at the additional clinics.

The provision for disinfectants, etc., is included to equip the proposed new disinfection corps for the fumigation of premises vacated by tuberculosis patients.

The request for "Repairs to Buildings" is to meet anticipated alterations in premises rented for additional clinics.

"Furniture" is requested for the equipment of additional clinics and for an added office staff.

Additional carfares are requested to meet the proposed increase in the number of Nurses and the proposed disinfection corps.

The remaining increases are insignificant.

DIVISION OF GENERAL SANITARY INSPECTION.

	Salaries.	Supplies, etc.	Total.
Estimate for 1910	$164,090 00	$13,282 00	$177,372 00
Budget allowance, 1909	129,360 00	8,029 01	137,389 01
Increase	$34,730 00	$5 252 99	$39,982 99

Salaries.

Request is made for provision to advance the salaries of twenty-four positions at an increased cost of $4,910 over the present annual expense basis of this Division. Here is included provision for the automatic promotion of six Clerks, from $300 to $480 per annum, of five Copyists, from $600 to $750, and of two Laborers to $780 annually. As a result of the proposed equalization of salaries, a Clerk who now receives $1,050 is recommended for advancement to $1,500 per annum, he acting as the Chief Clerk of this Division. For similar reasons of equalization, two Clerks receiving $480, are recommended for promotion to $540, one receiving $480, is recommended for promotion to $600, he acting as the Chief Clerical Assistant in the Borough of Manhattan. A Copyist receiving $900 is proposed for advancement to $1,050, and a Stenographer receiving $600, is recommended for promotion to $900, she acting as Stenographer to the Chief of this Division, the quality and quantity of services involved in filling the duties of this latter position warranting the increase.

The Chief of this Division is recommended for promotion from $3,000 to $3,500 annually. He was originally appointed on May 17, 1892. The functions of the Division of General Sanitary Inspection have materially increased during the past several years, due to a general extension of the Division, one of the most important in the Department. It is respectfully submitted that Chiefs of Divisions in other City Departments upon whom responsibilities devolve equal to those of this officer, receive compensation in excess of the salary requested. Increases are requested for four Sanitary Inspectors assigned to work requiring knowledge and experience greater than that of their associates

Provision for eight additional Sanitary Inspectors at $1,200 per annum each is also requested to meet the increase in the number of sanitary inspections, caused by the rapid growth of dwelling construction in The Bronx, Brooklyn and Queens.

Request is also made for provision to employ twenty-five Laborers at $780 each per annum. These will be employed in cleaning and removing obstructions from the tide water drainage ditches already constructed or to be constructed in the salt water marshes throughout the entire city, with the object of destroying breeding places for mosquitoes. Constant care must be taken of these ditches for the reason that any obstruction prevents a circulation of tide water, defeats the object of the work and results in the production of ideal breeding places.

Provision is requested for the employment of an Automobile Engineman at $1,200, required to drive the car proposed to be furnished the Chief of this Division during the current year.

For like reason the discontinuance of the position of Driver at $840 is indicated.

Supplies, etc.

Following is a distribution of the request for Supplies, etc.:

	Allowed, 1909.	Requested, 1910.	Increase, 1910 Over 1909.	Expended, 1908.
General supplies	$1,749 67	$2,100 00	$350 33	$1,656 14

Total	$8,029 01	$13,282 00	$5,252 99	$8,962 55

* Decrease.

The slight increase requested for General Supplies is intended to provide means to purchase the necessary supplies and equipment for the added force proposed for assignment to the duty of keeping clear the drainage ditches before referred to.

Under Repairs and Replacements request is made for provision to renovate the existing Department vehicles at an added cost over 1908.

Under Apparatus provision is included for the purchase of additional motorcycles, harness and stable supplies.

A decrease is shown in the request for furniture, due to an excess allowance for the current year.

Under Maintenance of Autos request is made for provision to maintain an automobile to be assigned to the use of the Chief of this Division.

Funds are requested for the purchase of two horses to replace others whose usefulness render them eligible for transfer to the Department farm at Otisville.

The allowance for Contingencies was but $1,124.04 as against $2,429.53 actually expended during 1908. An increase of $570.47 over the 1908 expenditures is requested for 1910, to provide means to meet the estimated increase in carfare and incidental expense due to the proposed additions to the force of this Division.

DIVISION OF FOOD INSPECTION.

	Salaries.	Supplies, etc.	Total.
Estimate for 1910	$54,030 00	$12,050 00	$66,080 00
Budget allowance, 1909	44,130 00	2 890 36	47,020 36
Increase	$9,900 00	$9,159 64	$19,059 64

Salaries.

Provision is requested for the increase in the compensation of six positions involving an added cost of $1,800 over the present annual expense basis.

The compensation of an Inspector of Foods acting as Assistant to the Chief of this division is provided for at $1,800 during 1910, an increase of $300 over his pesent salary.

It is desired to create the position of Supervisor for four incumbents at an annual compensation of $1,500 each. To fill these proposed vacancies, four Inspectors of Foods now receiving $1,200 per annum are selected for promotion.

A Typewriting Copyist now receiving $600 and acting as Stenographer to the Supervising Inspector of Foods, is recommended for promotion to $900.

Request is also made for provision to employ six additional Inspectors of Foods at $1,200 each, to meet the growth in the work of this division, in the enforcement of the pure food laws.

Further request is made for provision to employ a Typewriting Copyist at $750 to fill the vacancy caused by the proposed discontinuance of the position of Stenographer and Typewriter at $600.

Supplies, etc.

The distribution of this request is as follows:

	Allowed, 1909.	Requested, 1910.	Increase, 1910 Over 1909.	Expended, 1908.
General supplies	$106 28	$10,200 00	$10,093 72	$84 82
Repairs and replacements	.....	100 00	100 00	.....
Furniture	.....	250 00	250 00	226 40
Contingencies	2 784 08	1,500 00	*1,284 08	744 56
Total	$2,890 36	$12,050 00	$9,159 64	$1,055 78

* Decrease.

The significant increase here shown is under the caption "General Supplies," which included provision for the expenditure during 1910 of $10,000 for samples of foods and drugs to be purchased in the open market for examination and analysis.

Heretofore, this work has not been extended as rapidly as possible for the reason that the cost of samples now and heretofore purchased was borne by various Inspectors, who were compelled to take it from their salary and wait for the return of funds expended. Handicapped in this manner, it can be readily seen that it will be quite impossible to further the best interests of the Department, unless some ready money is at hand. Should allowance be here made, it is proposed to request the Board of Aldermen to establish a cash fund for this purpose.

MILK INSPECTION, CITY AND COUNTRY.

	Salaries.	Supplies, etc.	Total.
Estimate for 1910	$233,460 00	$138,150 00	$371,610 00
Budget allowance, 1909	85,442 50	37,650 00	123,092 50
Increase	$148,017 50	$100,500 00	$248,517 50

Salaries.

Request is made for provision to increase the compensation of 21 positions, all clerical, and principally of the minimum grade, involving an increase of $2,970 over the present annual expense basis.

An automatic promotion of 18 Stenographers and Copyists from $600 to $750 per annum is here provided. A Copyist now receiving $750 is recommended for advancement to $900, she acting as the Stenographer in charge of the large stenographic force of this Division.

As the result of the equalization of salaries, two Clerks now receiving $540 are recommended for advancement to $600 per annum.

Provision is also requested for the following additions to the present force of this Division:

Inspectors of Foods, 4 at $1,350	$5,400 00	
Inspectors of Foods, 98 at $1,200	117,600 00	
Clerk	1,200 00	
Clerk	750 00	
Clerks, 2 at $600	1,200 00	
Clerks, 4 at $480	1,920 00	
Clerk	300 00	
Stenographers and Copyists, 18 at $600	10,800 00	
Chemists, 2 at $1,200	2,400 00	
Veterinarians, 2 at $1,200	2,400 00	
		$143,970 00

It will be remembered that on March 20, 1907, the Mayor appointed a Commission to investigate the milk supply of New York City, with a view to recommending such measures as might be required relating thereto for the preservation of public health, which Commission made an exhaustive inquiry into the conditions of the cattle and dairies, the method of handling the milk at the farms, creameries, in transit, and in the City, and into the methods, scope and details of the work of inspection.

The milk supply of New York City comes from between thirty and forty thousand farms, located within six States, some points of shipment being more than 400 miles from the City.

This territory had been divided by the Department about a year previous into fifteen districts, one Inspector to a district, thus giving an Inspector jurisdiction over more than 2,000 farms. The average number of working days possible in a year, after allowing for Sundays, holidays and time expended in traveling, amount to 250, and the possible number of inspections per diem, eight. It is readily computed that with but fifteen Inspectors, each farm within the territory supplying the city could be inspected but once annually.

This was considered absolutely inadequate, and in a report dated May 17, 1907, in which the system and methods of inspection employed by the Department were unqualifiedly endorsed, the Commission recommended the employment, under the jurisdiction of the Department of Health, of the following additional force:

100 Inspectors (including fifteen Supervisors) for country work.
25 Inspectors for city work.
5 Chemists.
5 Bacteriologists.
Clerks, Stenographers, etc.

In accordance therewith the Department made requisition forthwith upon the Board of Estimate and Apportionment for an issue of Revenue Bonds amounting to $175,000, to provide means for the employment of this force between July 1 and December 31 of that year, which amount included necessary traveling and sundry expenses connected with said inspection.

The Board of Estimate considered the request, but deemed it too important and expensive a proposition to be immediately acted upon, and suggested that the request be incorporated into the departmental estimate for 1908.

Additional allowances have been made from year to year, and at this time the force consists of 57 Inspectors, of whom 22 are assigned to work within the city, 31 in the country and 4 at headquarters.

During 1908, the average force employed in country work was 26. These Inspectors made 45,137 dairy and creamery inspections.

During the same period the 20 Inspectors assigned to City work made 109,282 inspections.

The country organization now comprises five districts, covering the entire area supplying The City of New York with milk. Each district is in charge of a Supervising Inspector, who is held responsible for the work performed by the five Inspectors in his district.

Each Inspector now inspects about 1,000 dairies and creameries twice annually. It is proposed to add 82 Inspectors to the country force, and 20 to that of the City. This would admit of an inspection of every dairy and creamery each eight weeks, and provide a special staff for educational and reinspection work.

The addition of 20 Inspectors to the City staff should insure the proper care and distribution of milk sold within the city.

The request for additional clerical force, Chemists and Veterinarians is reflective of the anticipated increase of work proposed for accomplishment by an increased staff of Inspectors.

Supplies, etc.

An analysis of this request follows:

	Allowed, 1909.	Requested, 1910.	Increase, 1910 Over 1909.	Expended, 1908.
General supplies	$1,753 73	$5,000 00	$3,246 27	$1,962 62
Repairs and replacements	.....	250 00	250 00	16 50
Furniture	746 27	3,000 00	2,253 73	1,382 76
Contingencies	35,150 00	129,900 00	94,750 00	29,113 80
Total	$37,650 00	$138,150 00	$100,500 00	$32,475 68

This increase shown under "General Supplies" represents added provision for the purchase of miscellaneous supplies estimated to be required through the proposed increase of the field and clerical staff of this division.

The increase under "Furniture" represents the added cost of desks and typewriters estimated to be required by the increased clerical staff.

Under "Contingencies" provision is made for the travelling expenses of one hundred and four Country Milk Inspectors and two Veterinarians at an estimated cost of $1,200 each per annum, and for fifty-four City Inspectors at $50 each per annum.

SANITARY POLICE.

	Salaries.	Supplies, etc.	Total.
Estimate for 1910	$142,150 00	.....	$142,150 00
Budget allowance, 1909	103,800 00	.....	103,800 00
Increase	$38,350 00	.....	$38,350 00

Salaries.

Provision is requested for the employment of the following additional force:

Captain	$2,750 00	
Lieutenant	2,000 00	
Patrolmen, 24 at $1,400	33,600 00	
		$38,350 00

Pursuant to section 312 of the Charter, the Police Commissioner is required to detail, upon request by the Board of Health, to the service of the Department of Health, not less than fifty, nor more than one hundred suitable officers and men.

The above force added to the present detail of seventy-four men would give this Department the maximum allowance permitted by law, and is urgently needed by the Department.

The Sanitary Company of Police is assigned to the following work:

The investigation of all complaints regarding uncleanliness and such nuisances as may be quickly removed by personal effort.

The constant supervision of carting of offensive materials.

The enforcement of orders and notices issued by the Board of Health.

The destruction of glandered horses.

The making of arrests for violation of the Sanitary Code.

During 1908 there were made 5,959 arrests, resulting in a collection of $12,212.87 in fines.

It would seem reasonable that with a force of 96 Patrolmen a Captain, Lieutenant and two Sergeants should be provided for discipline and administrative control. A chart indicative of the proposed organization follows:

Brooklyn. Queens.	Sergeant.	Lieutenant.	Captain.
Manhattan, Bronx. Richmond.	Sergeant.		

No estimate for supplies, etc., is here included, any expense incidental to the services performed by the Sanitary Company being met from appropriations made for the support of the Division of General Sanitary Inspection to which it is assigned.

RESEARCH AND VACCINE LABORATORIES.

	Salaries.	Supplies, etc.	Total.
Estimate for 1910	$67,800 00	$32,200 00	$100,000 00
Allowed, 1909	51,156 00	16,525 00	67,681 00
Increase	$16,644 00	15,675 00	$32,319 00

Salaries.

Provision is requested for the increase in compensation of five positions involving an added cost of $780 over the present annual expense basis.

The automatic promotion of one Laborer, from $600 to $780 per annum is here provided. To equalize the salaries paid Laboratory Assistants for similar work in private enterprise, provision has been included for the increase of three from $900 to $1,050, and of one from $600 to $750.

Provision is also requested for the employment of a Hospital Clerk at $1,200, to have charge of the records of this Division, no clerical force, with the exception of a Junior Clerk, at $480, being at present provided.

Request is made for provision to employ an additional Assistant Director of Bacteriological Laboratories at $2,100, this position having become vacant through the promotion of the former incumbent to the position of Superintendent of Hospitals.

Further request is made for the restoration to the appropriation payroll of the following employees, now being paid out of the proceeds from the sales of laboratory products, owing to the insufficiency of salary appropriations for this Division:

Veterinarian	$1,800 00	
Bacteriologists, 2 at $1,200	2,400 00	
Laboratory Assistant	900 00	
Laboratory Assistant	750 00	
Laborers	780 00	
Laborers, 4 at $600	2,400 00	
Laborers, 2 at $480	960 00	
Helper	600 00	
Helpers, 5 at $480	2,400 00	
Helper	420 00	
Helper	360 00	
Helpers, 2 at $300	600 00	
		$14,370 00

Supplies, etc.

The distribution of this request is as follows:

	Allowed, 1909.	Requested, 1910.	Increase, 1910 Over 1909.	Expended, 1908.
General Supplies	$12,881 88	$25,000 00	$12,118 12	$10,705 90
Repairs and replacements	.....	700 00	700 00	50 75
Furniture	318 12	500 00	181 88	161 34
Horses	2,129 60	2,000 00	*129 60	1,180 00
Forage	170 40	3,000 00	2,829 60	133 33
Contingencies	1,025 00	1,000 00	*25 00	192 85
	$16,525 00	$32,200 00	$15,675 00	$12,424 19

*Decrease.

The apparent increase here shown is due to the fact that the request for 1910 is based upon the expenditures for the support of this laboratory during previous years from all sources, which included cash receipts from the sales of laboratory products.

For instance, the total expenditures during 1907, amounted to $30,369.50, of which $17,998.48 was from cash receipts. The estimate for 1909, which was based upon the above figures amounted to $30,950, which did not include the estimated cost of maintaining the antitoxin stable at Otisville. The sum of $16,525, however, was arbitrarily allowed for 1909, it being presumably the theory that the cash receipts would be sufficient to compensate for expenditures above this amount.

CHEMICAL LABORATORY.

	Salaries.	Supplies, etc.	Total.
Estimate for 1910	$12,990 00	$2,750 00	$15,740 00
Budget allowance, 1909	12,540 00	2,650 00	15,190 00
Increase	$450 00	$100 00	$550 00

Salaries.

Request is made for provision to increase the Chemist in charge of this laboratory from $2,100 to $2,550 per annum.

This latter amount approaches the compensation paid for similar work in other City Departments and in private employment.

Supplies.

An analysis of this request follows:

	Allowed, 1909.	Requested, 1910.	Increase, 1910 Over 1909.	Expended, 1908.
General supplies	$2,316 18	$2,400 00	$83 82	$1,578 02

Contingencies	150 00	100 00	*50 00	46 50
Total	$2,650 00	$2,750 00	$100 00	$1,773 02

* Decrease.

Practically the same amount is requested for 1910 as was allowed for 1909, with slight internal adjustments necessary to meet estimated requirements during 1910

DRUG LABORATORY.

General Storehouse and Receiving and Distributing Agency for Drugs, Chemicals and Apparatus to the Several Hospitals and Clinics of the Department.

	Salaries.	Supplies, etc.	Total.
Estimate for 1910	$8,550 00	$22,000 00	$30,550 00
Budget allowance, 1909	8,100 00	21,375 00	29,475 00
Increase	$450 00	$625 00	$1,075 00

Salaries.

Provision is requested to increase the compensation of the Chemist in charge of this laboratory from $1,500 to $1,800 per annum, and of one Laboratory Assistant from $600 to $750.

The Chemist is responsible for the correct preparation of most of the formulas distributed to the various hospitals and clinics of the Department. The compensation requested should seem reasonable.

The Laboratory Assistant has been in the service of the Department since December 5, 1904. It is urged that her length of service qualifies her, by reason of experience, for the increase requested.

Supplies, etc.

Following is a distribution of this request:

	Allowed, 1909.	Requested, 1910.	Increase, 1910 Over 1909.	Expended, 1908.
General supplies	$20,860 93	$21,250 00	$389 07	$18,373 43
Repairs and replacements	.....	400 00	400 00	81 66

Contingencies	375 00	50 00	*325 00	.....
Total	$21,375 00	$22,000 00	$625 00	$18,747 04

* Decrease.

An increase of but $625 over an allowance of $21,375 for 1909 is here requested. It is estimated that this amount will be sufficient to meet the requirements of the general hospitals in relation to the consumption of formulae prepared by the drug laboratory.

For the increased cost of remedies required to be supplied to the clinics for the treatment of pulmonary diseases due to the proposed extension of this service additional request has been made under the caption "Division of Communicable Diseases."

WILLARD PARKER AND RECEPTION HOSPITALS.

	Salaries.	Supplies, etc.	Total.

Salaries.

Provision is requested to increase the compensation of thirty-four positions, at an added cost of $2,850 over the present annual expense basis.

The compensation of thirteen Nurses now receiving $540, and of eleven now receiving $480, is recommended for advancement to $600 and $540, respectively. It has proven extremely difficult to secure Nurses of ability for service in the contagious disease hospitals of this Department. As an inducement to the continuance in employment of qualified employees of this character, it has been the policy of the Department to engage them at the minimum rate of compensation, and after stated periods of service, to advance them to the next higher grade until the maximum of $600 is arrived at. For this reason the request is here made.

The compensation of two Laborers each receiving $750 and $780, respectively, is requested for advancement to $900 each, by reason of the skilled character of the services which they render.

Five Domestics who are employed as Cooks are recommended for promotion, from $300 to $360 per annum each.

A Hospital Physician now receiving $1,200, and proposed for assignment in charge of the Scarlet Fever Pavilion, is provided for at $1,800 during 1910.

To equalize the salaries paid for similar work in other branches of the departmental service, two Clerks now receiving $480 are recommended for promotion to $600.

Request is also made for provision to employ the following additional force to supplement the present insufficient staff assigned to maintain the Scarlet Fever Pavilion:

Domestics, 10 at $216	$2,160 00	
Orderlies, 3 at $480	1,440 00	
Elevator Attendants, 2 at $600	1,200 00	
		$4,800 00

Supplies, etc.

A distribution of this request follows:

Total	$106,946 10	$110,200 00	$3,253 90	$84,063 46

* Decrease.

The principal increase here shown is that in "General Supplies," which provides for added expenditures for foods, clothing, bedding and house furnishings, estimated to be required to meet a probable increase in census during 1910.

The same reason applies to the purchase of furniture.

The increase shown under "Materials for Repairs," is due to the fact that the stock of supplies used for the purpose is getting low and will require replenishment in 1910.

The increase in "Fuel," is due to the fact that deliveries under a contract for coal, entered into in 1907, at a cost of $11,576.83, were not completed until April, 1908, resulting in reduced expenditures during 1908.

The decrease shown under "Telephone Service," is by reason of the fact that since 1907, the expenditures for this service have been a charge against the office of the Assistant Chief Clerk in each Borough, and provision therefore has been made under the "Division of the Chief Clerk" for 1910.

Provision is requested to increase the compensation of a Medical Inspector, employed as Anaesthetist from $1,500 to $1,950. He will administer the ether in all operations performed in both the Manhattan and the Brooklyn Hospitals, thus obviating the necessity for the employment of an additional Anaesthetist. A Watchman is recommended for promotion from $600 to $720 per annum to equalize the salaries paid for similar services in other departmental divisions.

Request is also made for provision to employ an additional Medical Inspector at $1,200, and a Nurse at $900 per annum. These will be assigned to the performance of operations in the Brooklyn Hospital. All operations are now performed in the Manhattan Hospital, owing to the lack of sufficient force in Brooklyn.

Practically the same amount appropriated for the support of this function for 1909 is considered requisite for 1910, with certain necessary adjustments of funds.

During 1908, the Department maintained a clinic in Gouverneur Slip, and a hospital and clinic at One Hundred and Eighteenth street and Pleasant avenue, both in the Borough of Manhattan. The expenditures during this period amounted to $4,284.55.

Provision was included in the Budget for 1909 for the support of an additional clinic in Brooklyn, which was opened during the early part of the current year.

It is estimated that twice the amount expended during 1908, with a slight increase provided for the extension of this service, should be sufficient for 1910.

Salaries.

Provision is requested to increase the compensation of nineteen positions at an increased cost of $1,536 over the present annual expense basis. The compensation of eight Nurses now receiving $540 is recommended for advancement to $600 per annum, and one Nurse receiving $480 to $540 per annum, for reasons before stated.

In order to equalize with salaries paid for similar services in other branches of the departmental service, two Hospital Clerks are recommended for promotion from $780 to $900, and one from $480 to $600 per annum. The salary of a Captain receiving $1,200 is recommended for advancement to $1,380, and two deckhands receiving $600 and $624, respectively, are proposed to be increased to $720, to meet the prevailing rate of wages for these services. Four Domestics who now receive $300 and who are employed as Cooks are proposed to be increased to $360 annually by reason of the character of the services rendered.

Request is also made for provision to employ the following additional help required for the efficient maintenance of this institution:

Marine Firemen, 2 at $3 per diem	$2,190 00	
Marine Engineer, $4.50 per diem	1,642 50	
Laborers, 2 at $600	1,200 00	
Nurses, 3 at $540	1,620 00	
Orderlies, 3 at $360	1,080 00	
		$7,732 50

Supplies, etc.

Following is an analysis of this request:

General supplies	$66,950 00	$97,000 00	$30,050 00	$85,624 73

Total	$110,425 00	$140,916 00	$30,491 00	$113,266 62

* Decrease.

The significant increase here shown, is that in "General Supplies," for which an increase of $30,050 is requested for 1910.

It is manifest that, considering the sum of $86,624.73 was actually expended during 1908, the allowance of $66,950 for 1909 is insufficient. The expenditures for 1908, however, do not truly represent the current and proposed rate of expenditure. Prior to September 1, 1908, the major portion of Riverside Hospital was devoted to the care and treatment of children affected with contagious diseases. Subsequent to that date, the institution was reorganized for the accommodation of adults suffering from tuberculosis.

It is very evident that the per capita cost of an adult in relation to food and clothing will exceed that of a child. The liabilities incurred for "General Supplies" to June 30, of the current year, exceeded $75,000 of which about $55,000 was for contracts covering the entire year. It is probable that the total expenditures for 1909 will approximate $100,000.

The conditions affecting the estimate for "Materials," "Fuel" and "Telephone Service" are similar to those cited under "Willard Parker and Reception Hospitals."

Salaries.

Provision is requested for the increase in compensation of twenty-one positions involving an added cost of $1,260 over the present annual expense basis.

The salaries of ten Nurses are here recommended for increase from $540 to $600, and of ten other Nurses from $480 to $540 per annum, in accordance with the policy of the Department as before expressed. One domestic employed as Cook is proposed for advancement from $300 to $360 per annum.

Request is also made for provision to employ a Nurse at $1,200 to act as Supervising Nurse over the nursing staff of this institution.

This is to equalize the salary of this position with that of a similar position in the Willard Parker and Reception Hospitals.

Provision is further requested for the employment of ten domestics, at $216 each per annum, required to supplement the present staff in maintaining the new laundry building now under construction.

Further request is made for provision to employ three additional Orderlies at $600, and a domestic (Cook) at $360 per annum, required in addition to the present staff assigned to the maintenance of the measles pavilion.

It is estimated that about the same amount included in the 1909 Budget for the purchase of "General Supplies" (including "Furniture") ($30,000) should be sufficient for 1910.

Under "Materials and Repairs" and "Repairs and Replacements" decreases are shown. The amounts set forth in the detailed estimate are considered sufficient.

An allowance of $1,250 is requested under "Apparatus" to provide for the purchase of additional laundry equipment upon the completion of the laundry building now under construction.

For "Fuel" the sum of $20,000 is requested, the same amount being allowed for 1909.

The expenditures for this purpose during 1908 amounted to $10,106.25, and during 1907, $17,366.35. This apparent discrepancy is due to the fact, as before stated, that coal purchased during 1907 was delivered in 1908, reducing the expenditures in 1908. Additional boiler capacity has recently been provided, hence the increased estimate over 1907 and 1908 expenditures.

No request is made for "Telephone Service," provision for 1910 having been made and expenditures shown under this caption in the "Division of the Chief Clerk."

Construction of new shacks for the accommodation of additional patients is continually progressing through the employment of Department labor and the purchase of material by contract at public letting.

The average census of patients during 1908 was 150, the estimated average census for 1909, 250, and the probable average census during 1910, between 400 and 500.

In the matter of the added request for "General Supplies," it would seem reasonable to assume that with an average census of 150 patients during 1908, as compared with an estimated average of 400 to 500 during 1910, that the expenditures for 1910 will be an increase over those of 1908.

The expenditures for 1908, however, include the cost of maintenance of certain of the Sanatorium staff, a class of employees whose number will not largely increase in 1910.

It is therefore estimated that about twice the amount expended for general supplies in 1908 (after deducting the sum of $4,672.52 expended for laundering, now unnecessary by reason of the construction and operation of a laundry plant), will be sufficient for 1910.

Decreases are shown in the estimates for "Repairs and Replacements," "Apparatus" and "Furniture," under the allowance for 1910.

The sum of $750 is requested for the maintenance of an automobile not provided for in 1909. For the purchase of additional horses the sum of $1,000 is requested.

It is proposed to largely increase the number of cows now maintained, to provide larger quantities of milk for additional patients. This explains the added request for "Forage."

It is estimated that the operation of the laundry and dairy plants and the heating of additional buildings will require about twice the amount of "Fuel" purchased in 1908 ($3,730).

An added request of $2,500 is made under "Contingencies," principally to provide means for the transportation of an increased number of patients between Otisville and New York.

The Department maintains no hospitals for contagious diseases in the Borough of Queens, although the City owns a site for this purpose near Jamaica, and an authorization of Corporate Stock for the construction of suitable buildings was voted on July 2, 1909.

Patients affected with contagious diseases are now conveyed by ambulance to the Kingston Avenue Hospital, in Brooklyn.

The Department of Health maintains no hospital for contagious diseases in the Borough of Richmond. Prior to the current year it was the practice to convey persons suffering from contagious diseases by ambulance and boat to the Willard Parker, Riverside or Kingston Avenue Hospitals. The long journey is considered deterrent to the recovery of the patients, who are now committed to the S. R. Smith Infirmary at New Brighton, Staten Island, and payment made at the rate of $1 per diem per patient for their care and treatment. From January 1 to June 30, 1909, the aggregate payments amounted to $2,100.

Rentals.

On page 237 of the Departmental Estimate is shown the leased building occupied by and the buildings proposed for lease and occupancy by the Department during 1910.

The appropriation for "Rents" is included in the Municipal Budget for administration by the Comptroller, and not by the several Departments.

Your attention is therefore directed to the provision included in said table for the leasing of premises in which to install the three proposed additional clinics for the treatment of tuberculosis, provision for which in relation to salaries and supplies has been requested in the estimate for the support of the Division of Communicable Diseases.

BOROUGHS OF MANHATTAN, THE BRONX AND RICHMOND.

Explanatory.

Reasons for increases in the number of employees and increases in salaries and wages on the several bureau payrolls.

Salaries as compared with payrolls of June 30, 1909:

Office of the Commissioner—Payroll increase, $7,220. The work at the office of the Commissioner is much congested and it is necessary that additional help be provided. For this purpose provision is made in the estimate for one Clerk, the transfer of two Stenographers and Typewriters, one from the Bureau of Chief of Department and one from the Superintendent of Buildings Bureau; one Laborer from the Repair Shops; three Drivers from the Hospital and Training Stables, one as Elevatorman and two as Laborers; also for increases in compensation of one Bookkeeper, two Clerks and one Stenographer and Typewriter.

Bureau of Combustibles Payroll—Increase, $1,200. One Clerk.

Fire Marshal Payroll—Increase, $600. Increases in compensation of an Assistant Fire Marshal and an Interpreter.

Repair Shops Payroll—Shows a decrease of $675, although increases in compensation are included in estimate for one Bookkeeper and two Clerks (decreases on account of transfers to other bureaus in this Department).

Hospital and Training Stables Payroll—Increase, $1,336. One Veterinarian, $2,500. The increase of only $1,336 is on account of transfers to other bureaus in this Department.

Superintendent of Buildings Payroll—Increase, $7,072. Two Carpenters; the transfer of one Clerk at $1,650 from Bureau of Chief of Department, Manhattan, in place of one at $1,050 to office of Commissioner; also Mechanics from Repair Shops.

Chief of Department, Manhattan, Payroll—Shows a decrease of $3,450, although the estimate provides for one Clerk and the transfer of one Stenographer and Typewriter at $1,500 from office of the Commissioner, one Stenographer and Typewriter at $1,200 to office of the Commissioner and one Clerk at $1,650 to Superintendent of Buildings.

Engine and Hook and Ladder Companies, Manhattan, Payroll—Increase, $117,130. Four Foremen, three Assistant Foremen, eight Engineers of Steamers, ten Firemen, four Pilots, two licensed Firemen (Stokers), and advancements in grades (mandatory), $74,100.

Fire Alarm Telegraph, Manhattan, Payroll—Increase, $460. One Telephone Operator, one Instrument Maker, and an increase in compensation for Chief Inspector with proposed change in title to "Inspector in Charge of Manhattan, Bronx and Richmond," less transfers of two Stablemen to Hospital and Training Stables.

Chief of Department, The Bronx, Payroll—Shows a decrease of $3,300, a loss of one Battalion Chief.

Engine and Hook and Ladder Companies, The Bronx, Payroll—Increase, $28,920. Two Foremen, four Assistant Foremen, five Engineers of Steamers and ten Firemen and for advancements in grades (mandatory), $1,400.

Engine and Hook and Ladder Companies, Richmond, Payroll—Increase, $11,055. One Foreman, two Engineers of Steamers, one Pilot and one licensed Fireman (Stoker), and for advancements in grades (mandatory), $3,100.

Total	$8,232,556 02	$8,066,507 06	$166,048 96

The foregoing estimate, amounting to eight million two hundred and thirty-two thousand five hundred and fifty-six dollars and two cents ($8,232,556.02), is adopted as the sum which will be required for the expenses necessary for the administration of the Fire Department of The City of New York for the year 1910.

NICHOLAS J. HAYES, Fire Commissioner.

Headquarters, Fire Department, City of New York,
Nos. 157 and 159 East Sixty-seventh Street,
Borough of Manhattan, September 7, 1909.

Hon. P. J. SCULLY, City Clerk and Clerk of the Board of Aldermen:

Sir—I have the honor to request that from the Departmental Estimate for 1910 of this Department, Fire Alarm Telegraph Bureau, Boroughs of Brooklyn and Queens, there be eliminated the position of Foreman Lineman and the provision of $1,000 asked therefor, and in lieu thereof the position of Messenger at $1,200 be substituted.

The reason for this request is that, while at a meeting of the Municipal Civil Service Commission held June 16, 1909, the application of this Department for the transfer of the incumbent of said position of Foreman Lineman to that of Messenger was granted, such transfer had not been actually made by me up to the time of the submission of the Departmental Estimate for 1910, and it is my desire that the proper financial provision in connection with the matter be made in the Budget for the ensuing year.

Respectfully,

NICHOLAS J. HAYES, Fire Commissioner.

MUNICIPAL EXPLOSIVES COMMISSION.

A This is requested to make salary commensurate with duties.

B This is recommended because of increased work of supervision in Department, due to operation of more large bridges and the great amount of extra detail necessitated by new system of accounting, etc. This has all been accomplished without increase in the size of the Department's clerical staff. The incumbent is an employee of over nineteen years' experience in the City's service.

C The accounting and bookkeeping systems recently installed have caused an increase of at least 100 per cent. in the work of this position. The incumbent is an old experienced bookkeeper, and his services are well worth the additional amount recommended.

D This is an apparent increase only. A Clerk who held this grade resigned in 1908. The Clerk to be assigned to this place is an old employee of the City who is on the roll of the New York and Brooklyn Bridge, but whose services are general to the Department, and should be paid on General Administration. There will be no additional expense to the City.

E This is no increase in expense to the City, the intention being simply to transfer two men from the roll of the New York and Brooklyn Bridge to the General Administration payroll, their services being of a general character.

F This increase is apparent only except in the matter of $300. There exists a vacancy (not appearing on June payroll) of a Stenographer and Typewriter at $1,200 on General Administration roll. A Stenographer and Typewriter who is paid on the New York and Brooklyn Bridge payroll has been transferred to the main office. His salary and grade is $1,500. By allowing this apparent increase in this appropriation the City is saving $1,200 per annum, because his name will be taken off the Brooklyn Bridge payroll and placed on this roll at his present salary, thus wiping out the $1,200 place allowed in the Budget for 1909.

G This $600 increase for two Messengers is to pay the salaries of present incumbents. They were paid at the rate of $1,200 each on June payroll. The Board of Estimate and Apportionment and the Board of Aldermen fixed these salaries at $1,500 each on July 2, 1909, and they are now paid at that rate.

H The position of Photographer appeared in every General Administration Budget down to and including 1908. It was cut out of the 1909 appropriation because the position was vacant in June, 1908, on account of the death of the former incumbent. The Civil Service Commission having since examined the present Photographer, and he being duly appointed, it is necessary to re-establish this position and provide for it by this appropriation.

I Increase of $300 in pay of one incumbent by the action of the Board of Estimate and Apportionment and the Board of Aldermen in fixing salary at $1,500 on July 2, 1909; $1,200 to provide one extra Auto Engineman to comply with Civil Service requirements, such extra position having been established by the Board of Estimate and Apportionment and the Board of Aldermen on July 2, 1909.

J Increase of $150 for Telephone Operator. This is requested in order that the incumbent may be paid at the rate prevailing for this position in the majority of the City Departments.

A The clerical work of this Division is too heavy to be done by the Engineer in Charge, the new system of cost accounting having largely increased it. The Board of Estimate and Apportionment adjusted the Budget for the current year in June and provided for a Clerk at $1,500, and one will shortly be appointed.

B It is proposed to give the increase to the present Foreman Bridge Mechanic in consideration of his duties and responsibilities. This is the only title of its kind in the Department. Foremen doing similar work get $1,800 per annum or more.

A A man trained and skillful in the use of the lathe and other machines is needed in the shop of this Division.

B There are six horses and three Drivers in this Division, and it will be more economical to employ two additional Drivers than to take other men—sometimes higher priced men—off their regular work to drive the horses. Also suggest that all Drivers be put on the same basis of pay, viz., $2.50 per day.

C The increasing travel over Harlem River bridges adds to the work of keeping them up to their usual standard of cleanliness, and three additional men are asked for that purpose.

D To provide for vacations in accordance with the law passed this year.

E The Blacksmith has no regular Helper, and the promptness and economy with which work is turned out from the shop would be much increased by the appointment of a Blacksmith's Helper.

A It is proposed to increase the salary of the Assistant Engineer in charge of the Borough of The Bronx to $4,000 per year, in order to equalize his compensation proportionately with that received by the Engineers in charge of the other divisions of the Department.

B It is proposed to raise the salary of the General Foreman to $2,000 per year, in order to equalize his compensation with that received by the men of his title in the other Boroughs.

C Apparent increase of one Bridge Tender, according to June payroll. One Tender died in May, 1909. One to take his place was duly appointed on July 1, 1909.

A The increase in the number of men in the Wages schedule is due to the fact that since the 1909 Budget became available the former practice of transferring mechanics temporarily from other divisions as the work demanded is no longer possible. Formerly men from the Harlem River gang were employed as required and were paid for Bronx work on Bronx payrolls. At present even the smallest repairs must be done by outside concerns. It is hoped that the proposed increase in force will take care of ordinary maintenance and small repairs. A Bridge Mechanic was allowed for in the Budget for 1908, but no appointment was made. A Riveter is asked for in 1910 in place of the Bridge Mechanic, as the title of Bridge Mechanic no longer exists in the Civil Service classification.

General Note—This large structure was only opened for public use on March 30, and the necessary force to properly maintain it has not yet been fully organized, but is being gradually brought into proper shape as experience manifests the necessity in each case.

A These positions were allowed in the appropriation for the present year, but had not been filled at the time of the June payroll. They are absolutely needed and appointments thereto will probably be made shortly. They should be allowed for 1910.

B These new positions will be needed and should be provided for.

A These positions were allowed in the appropriation for 1909, but had not been completely filled at the time of June payroll. The appointments to the remaining vacancies are being made from time to time, and will probably all be filled before the end of the year. It is earnestly requested that they be allowed for 1910.

B Elevators are being installed at the anchor piers, one at Vernon avenue, on the Queens side, and one at First avenue, on the Manhattan side, to enable the public to have access to the bridge without going to the ends of the approaches; and in each pier comfort stations are being installed. The elevator attendants, watchmen and cleaners will be required for this equipment.

SCHEDULE "G."

Manhattan Bridge.

This estimate is intended to cover the cost of operating the bridge for the entire year of nineteen hundred and ten (1910), and is based on the experience acquired through maintenance of the other large bridges over the East River. Both salaries and wages have been estimated on the basis of pay of similar positions on the other bridges over the East River, and includes the Bridge Keepers and Bridge Tenders, with the small force of Mechanics and Laborers deemed necessary to properly maintain this structure with its large area of roadways, promenades and great tonnage of steel.

1910 Estimate—

Salaries	$48,505 00
Wages	73,770 10
Supplies	51,364 00

ARMORY BOARD.

Office of the Secretary,
The Armory Board, Hall of Records,
New York, July 28, 1909.

Hon. P. J. SCULLY, City Clerk and Clerk of the Board of Aldermen:

Sir—I have the honor to submit the departmental estimate of the Armory Board for the year 1910, as certified in the accompanying resolution adopted July 16, 1909.

The expenditures have not been segregated in detail, because, under section 183 of the Military Law (chapter 231 of the Consolidated Laws) it is mandatory upon the Board of Estimate and Apportionment to approve the appropriations for the various armories as certified to the Board of Estimate and Apportionment by the Armory Board. The subcommittee of the Armory Board, under the direction of the Board, examined in detail the requisitions of the commanding officers of the various organizations before reporting the proposed budget for certification by the Armory Board.

The increase of $2,800 asked for in "Salaries, Care and Maintenance of Armories, Administration," seemed to the Armory Board to be justified for these reasons:

During the last two and one-half years the work of the Armory Board has increased considerably. Beside the annual appropriations for supplies, etc., more than $250,000 has been expended for repairs and additions to armories, and there is now in progress:

Work on Second Battery armory (appropriation)	$450,000 00
Work on additional story, Seventh Regiment (appropriation)	200,000 00
Work on new Twenty-second Regiment armory (appropriation)	625,000 00

All this work is under the direct supervision of the Secretary of the Armory Board (who, by vote of the Armory Board April 11, 1902, is the executive officer of the Board and has to inspect all work and approve all bills), and two Inspectors of Repairs and Supplies.

The increase of $300 asked for the Stenographer to the Board is justified by a faithful and efficient service of sixteen years, with no promotion or salary increase in seven years.

Section 195 of the Military Law provides that an inventory of all City property shall be made annually at each armory. This City property, movable furniture, carpets, fixtures, etc., is worth at least $300,000. To carry out the spirit of the law it is necessary that it be inspected and compared with the inventories furnished by the commanding officers of the various organizations. The Board therefore asks for $1,200 to pay the salary of an Inspector, to be appointed from the Civil Service list.

In four Boroughs of the City the Armory Board has jurisdiction over twenty-two buildings, occupied by twenty-six organizations. The cost of the buildings, land and equipment was $13,223,264.61, and it is respectfully submitted that an annual outlay

of $14,050 for the administration of the Armory Board in the care of these properties cannot be considered excessive.

I respectfully ask your Honor and the Board of Estimate and Apportionment to concur in this budget as presented, believing that the Armory Board has exercised the strictest economy and conservatism consistent with the welfare of the Department and the armories within its care.

Respectfully,
HARRIE DAVIS, Secretary.

Resolved, That, pursuant to section 183 of chapter 231 of the Laws of 1908, the Armory Board does now revise the itemized estimates of commanding officers of the active militia quartered in The City of New York, for necessary expenditures to be made during the ensuing year for repairs to and furnishing of armories, and utensils, materials and other expenditures to be furnished by the City, and also the departmental estimate for 1910 for Salaries, Care and Maintenance of Armories, Administration, and does hereby determine and certify said amounts as necessary to be expended for such purposes in detail, and request the Board of Estimate and Apportionment to make the appropriations, as follows:

Note—The work of removing obstructions, consisting of incumbrances on sidewalks, dirt, stone and rubbish from streets, fallen trees, stumps, etc., is entirely of an emergency character and cannot be anticipated. The amount asked for 1910 is an increase over the amount allowed for the current year. The small amount allowed for this year will be insufficient, and an additional appropriation probably will be necessary to carry on the work for the balance of the year.

1318. Materials for Repairs and Replacements by Departmental Labor.

Appropriation for 1909		$5,000 00
Estimate for 1910		5,000 00
Electric Squad	$1,500 00	
Carpenter Squad	1,200 00	
Roofing Squad	1,000 00	
Varnishing Squad	500 00	
Plumbing and Steam Fitting Squad	500 00	
Pipe Covering and Awning Squad	300 00	
Total		$5,000 00

Note—The estimated amount is for material to be used by the several Bureau squads for repairs and alterations of the public buildings, baths and comfort stations. The work performed by these employees is usually of an emergency character.

1319. Repairs and Replacements by Contract or Open Orders.

Budget appropriation for 1909		$96,200 00
Estimate for 1910		96,200 00
Increase of estimate for 1910 over appropriation for 1909		.....
Criminal Courts Building—		
Installation of ventilating system in engine room	$1,000 00	
Repairs to elevators	2,500 00	
Replacements to iron work	1,000 00	
Painting	5,000 00	
Electric work, boiler repairs, plumbing and steam fitting	3,000 00	
Carpentering, repairs to masonry, mosaic tiling, pointing steps and sidewalks	1,000 00	
Glazing on open orders	175 00	
Shades and repairs to same	250 00	
		$15,425 00

Note—A thorough inspection of this building shows the need for considerable painting, particularly in the office of the District Attorney and the Court Room. Repairs to boilers, plumbing and steam systems will have to be made next year, and a ventilating system should be installed in the engine room to give proper ventilation to those working there.

County Court House—		
Electric work	$1,000 00	
Glazing	300 00	
Repairs and painting roof	500 00	
Iron, steam and plumbing work	2,000 00	
Masonry	1,000 00	
Painting	2,000 00	
Repairs to elevators	1,000 00	
Carpentering	600 00	
		8,400 00

Note—All of the court rooms and offices of the Supreme Court in this building require painting and renovating, which should be done to keep the building in a sanitary condition. The estimate of $4,000 will cover about one-half the work required, but will enable most urgent work to be taken care of and leave the remainder for some other time.

Hall of Records Building—

Care of roof, leaders and gutters	1,500 00	
		15,500 00

Note—This building, being new, did not require any extensive repairs beyond those of an ordinary nature up to the present, but, owing to the expensive character of the construction, the very large amount of machinery, including refrigerating plant, electric clock system, etc., and the fact that almost three years' use of the building has made it evident that a great many replacements and repairs to boilers, plumbing and steam systems will be required next year. The necessity for the full amount asked is obvious. It is also proposed to restore and retouch the painting and decorations.

City Hall—

Electric work	$200 00	
Repairs, etc., for iron work, steam fitting and plumbing	1,000 00

Painting	350 00	
Glazing	25 00	
Roofing, painting and repairing	250 00	
Carpentering and cabinet work	300 00	
Window shades	50 00	
		10,925 00

Note—It has been requested by the Justices of the Municipal and Magistrates' Courts, sitting in this building, that provisions be made to change the system of lighting from gas to electric, to improve conditions and add to the comfort and convenience of the occupants. Therefore, $8,000 is requested for this purpose.

Jefferson Market Court House—

West Fifty-fourth Street Court House—

Repairs and maintenance of elevators	$600 00	
Electric work (ordinary)	175 00	
Electric work, rewiring—present wiring in defective condition	8,000 00	
Plumbing, steam fitting, repairs to boilers and iron work	2,000 00	
Glazing	250 00	
Painting	1,000 00	
Carpentering and cabinet work	275 00	
Roofing and painting same	500 00	
Masonry	500 00	
		13,300 00

Note—The electric wiring in this building is in a defective condition and serious danger threatens by fire. The building should be entirely rewired in accordance with the rules and regulations of the Fire Underwriters and the Department of Water Supply, Gas and Electricity.

Seventh District Court House (East Fifty-seventh Street)—

Plumbing repairs, steam fitting and boiler work	$500 00	
Care and maintenance of electric lighting system	300 00	
Glazing	100 00	
Repairing and painting roof	500 00	
Painting several court rooms and offices, halls and corridors	1,500 00	
Repairs to masonry	525 00	
		3,425 00

Note—The building above mentioned is very old and requires a great deal of attention, providing alterations, repairs, replacements and painting, in order to maintain a cleanly and sanitary condition.

Children's Court—

Plumbing repairs, steam fitting and boiler work	$400 00	
Masonry repairs, replacing defective work	1,500 00	
Care of lighting system	250 00	
Glazing	100 00	
Repairing and painting roof	300 00	
Painting	250 00	
		2,800 00

Note—The masonry of the above building is in a defective condition and liable to become dangerous. It is therefore expected that sufficient funds to do this work will be provided.

Third District Magistrate's Court (Essex Market)—

Painting	$1,000 00	
Repairing and painting roof	400 00	
Repairs to plumbing	1,600 00	
Carpentering	250 00	
Masonry	250 00	
		3,500 00

Note—It is especially difficult to maintain the sanitary condition of this building, owing to the congested conditions always existing therein, and the fact of its being so old makes it impossible to keep it in satisfactory condition for the purpose for which it is used. The proper action to take in this regard would be the abandonment of the building and the erection of a modern structure.

First District Municipal Court (Prince and Wooster Streets)—

Repairs to plumbing	$400 00	
Carpentering and cabinet work	600 00	
Masonry	200 00	
Painting	800 00	
Repairing and painting roof	350 00	
		2,350 00

Note—This building has been abandoned as a court room and is to be maintained as a storeroom and record room for the Municipal Courts. However, the building must be properly maintained.

GENERAL ADMINISTRATION.

Salaries, President, Commissioner of Public Works, etc.

Estimate for 1910	$74,350 00	
Allowed for 1909	59,300 00	
Increase		$15,050 00

Compared with June, 1909, Payroll.

Estimate for 1910	$74,350 00	
June, 1909, payroll, yearly basis	58,400 00	
Increase		$15,950 00

This increase provides for the following proposed rates of compensation, viz.:

Commissioner of Public Works, $5,000 to $6,000	$1,000 00
Assistant Commissioner of Public Works, $4,000 to $5,000	1,000 00
Secretary to the President, $4,000 to $4,500	500 00
Chief Clerk, $3,500 to $4,000	500 00

For 1909.

Estimate		$62,000 00
Budget allowance		59,000 00
Transfers to June 30, Cr		300 00
Net allowance available		59,300 00
General Bookkeeper, $3,500 to $4,000	500 00	
Increase of 18 Clerks, etc., within present Civil Service grades, aggregating	2,400 00	
Appointment of one Stenographer and Typewriter	1,050 00	
Appointment of one Consulting and General Construction Engineer	9,000 00	
		$15,950 00

The object of the proposed appointment of a Consulting and General Construction Engineer is to provide to the farthest possible extent that in the construction work of the Borough, both the City's and the taxpayers' interests will be safely guarded.

To fill such a position acceptably a man of vast engineering experience will be required, one who has been associated with and has had supervision over field construction and other engineering work of important character for at least fifteen or twenty years. He will need to give his entire time, continuously, divided between all the works of regulating, paving and sewer construction, of which in this Borough there is a great amount in progress and in contemplation.

There is no doubt that the services of such an official will result in the complete performance of the work called for in the contract specifications in every instance, and both the City and taxpayer will be benefited thereby.

GENERAL ADMINISTRATION.

Office of Chief Engineer.

Estimate for 1910	$22,500 00	
Allowed for 1909	20,600 00	
Increase		$1,900 00
This increase provides for the increase of rate of Deputy Chief Engineer from $5,000 to $6,000	$1,000 00	
Increase of each of the five employees of the Chief Engineer of $150 each, being within the established Civil Service grades	750 00	
1 Clerk allowed in Budget of 1909 (but not yet appointed)	$750 00	
Proposed for 1910	900 00	
	150 00	
		$1,900 00

Owing to the insufficiency of funds to pay the employees in other bureaus who were appointed subsequent to budget basis of June, 1908, it was deemed best to postpone until 1910 the appointment of a Deputy Chief Engineer, which was allowed at the rate of $5,000 in the Budget for 1909, and accordingly the Board of Estimate and Apportionment consented to the use of said amount for the pruposes described, by resolution amending the 1909 Bduget adopted by said Board on May 27, 1909.

TOPOGRAPHICAL BUREAU.

"Maps for Street Openings."

Allowed for 1909, $63,000.

Under an act of the Legislature of 1909, the cost of salaries and wages for above purpose, after June 1, 1909, is to be charged to the "Fund for Street and Park Openings."

The only Budgetary appropriation needed for the Topographical Bureau for 1910 will be a sum sufficient to defray the cost of contingencies and incidental expenses, amounting to $1,500.

For 1909, the allowance for the purposes described to the Topographical Bureau were: Contingencies, $500; general supplies, $1,000; total, $1,500, which will be the amount required for the year 1910.

It is estimated that the charges to the "Fund for Street and Park Openings" for 1910 will average about the amount heretofore annually expended from the Budgetary appropriation, entitled Maps for Street Openings.

The present total salary list of the entire yearly force of the Topographical Bureau is $171,070; the weekly payrolls, $9,009, to which is to be added necessary estimated supplies, $5,000; total, $185,079. Deduct charges to Street and Park Openings, estimated, $63,000, leaving $122,079 to be provided for by Corporate Stock issue.

BUREAU OF HIGHWAYS.

Administration Roll, Salaries and Wages.

Amount allowed for 1909, $46,600, plus $4,200 added thereto when the Administration Budget was revised on May 11, 1909, thus making the total Administration Budget for 1909 $50,800.

Administration Budget estimated for 1910, $59,750. Increase over 1909, $8,950. This amount provides for an increase of salary as follows:

Six Clerks at $300 each	$1,800 00	
Six Clerks at $150 each	900 00	
Two Inspectors of Regulating Grading and Paving at $150 each	300 00	
Two Attendants at $300 each	600 00	
One Typewriter Copyist	150 00	
One Mechanical Draftsman	150 00	
One Rodman	240 00	
		$4,140 00
One Superintendent		1,000 00
		$5,140 00

It also provides for the payment of salaries of one Mechanical Draftsman at $1,500 per annum, plus an increase of $150 per annum; one Rodman at $960 per annum, plus an increase of $240 per annum, and one Messenger at $1,350 per annum, now paid out of the appropriation for Maintenance of Highways and proposed to pay out of the Administration Budget for 1910; also one Superintendent at $4,000, plus an increase of $1,000.

The reason for adding more employees to the office force during the first part of the year 1909 was owing to the change in the system of making out payrolls, keeping records and unit cost data as ordered by the Comptroller.

The persons for whom an increase is provided on the Administration roll are justly entitled to such an additional compensation by reason of the manner and nature of duties they perform, the length of service most of them have to their credit, their Civil Service classification, and also for the reason that salaries now paid to several employees are hardly in commensuration with the cost of living expenses, which have greatly increased within the past few years.

Estimate for 1910, Maintenance, Bureau of Highways.

Including Foremen, Laborers, Mechanics, Stablemen, etc., or all who are employed on the per diem force, Bureau of Highways, excepting teams and carts.

This estimate for 1910 is based on the total amount of funds expended in 1908, for the purposes above described. The Budget allowance for 1909 is not taken as a basis for the estimate for 1910, for the reason that the allowance for that year was entirely inadequate for the purpose, being about $224,000 short of the allowance made for 1908. Resolution was offered in the Board of Aldermen very early in 1909, requesting an issue of Revenue Bonds to meet the deficiency, but was not acted upon until late in the spring, when it was adopted and forwarded to the Board of Estimate and Apportionment for authorization, and was duly referred to the Comptroller for report, but before said report could be presented the Board adjourned, not to meet until September 17.

Meanwhile, owing to this delay, the Department was unable to carry on the required maintenance work, except to the extent that only the most urgent requirements could be attended to, as, owing to lack of funds, a great deal of necessary work was delayed temporarily, or until funds could be obtained, therefore to base the estimate for 1910 on the Budget allowance for 1909 would not be equitable.

The total amount expended for payrolls of per diem force employed on maintenance during 1908 (exclusive of teams and carts), was $552,999.16, divided as follows:

Labor, maintenance and supplies, wages	$536,107 47
Maintenance of viaducts and bridges	16,891 69
	$552,999 16

This amount, therefore, is deemed to be the amount required for 1910, and request is hereby made for $533,000, for "Maintenance of Highways," to pay per diem force in 1910, consisting of Foremen, Mechanics, Laborers, etc.

ADMINISTRATION.

Form I.

The increase in this appropriation is due to the following:

On the basis of June 30, 1909, part salary of the Engineer in Charge of Sewers, amounting to $1,166.64, was charged against this appropriation. For the year 1910 it is proposed that the entire salary of the Engineer in Charge of Sewers be charged against this appropriation. The salary of the Engineer in Charge of Sewers on June 30, 1909, was $5,000 per annum. It is proposed that his salary be $6,000 per annum during 1910. This shows an increase of $1,000 for increase in salary, and the difference between $1,166.64 and $5,000 (the salary of the Engineer in Charge of Sewers on June 30, 1909), or $3,833.36, making a total increase of $4,833.36 due to the proposed increase in the salary of the Engineer in Charge of Sewers and the proposed charging of all of such salary to this appropriation.

On the basis of June 30, 1909, part of the salary of the Principal Assistant Engineer of Sewers, amounting to $525, was charged against this appropriation. It is proposed in 1910 to charge all of the salary of the Principal Assistant Engineer of Sewers against this appropriation. It is proposed to make such salary $4,500 in 1910 as against $3,500 on June 30, 1909. Therefore, this appropriation is increased the difference between $525 and $4,500, or $3,975.

It is proposed to increase the salaries of two Stenographers and Typewriters the sum of $150 per annum each, or a total of $300.

It is proposed to increase the salaries of two Clerks $300 per annum each, or a total of $600 per annum.

It is proposed to charge the entire salary of one Clerk at $750 per annum to this appropriation, whereas his salary of $600 was charged on June 30, 1909, against Maintenance, Including Cleaning and Repairs. Thus, this change carries with it an increase of $750 against this appropriation.

It is proposed to increase the salary of one Messenger from $1,200 to $1,350, and to charge the entire amount of such salary against this appropriation. It is also proposed to employ one additional Messenger at a salary of $1,350. This carries with it a total increase of $1,500. (This last Messenger is now drawing this salary of $1,350 and is at present being charged against Maintenance, Including Cleaning and Repairs, but he was appointed subsequent to June 30, 1909.)

It is proposed to increase the salary of one Attendant from $1,050 (salary on June 30, 1909), to $1,200, and one Attendant from $900 per annum (the salary on June 30, 1909) to $1,200. The salaries of both of these Attendants were charged against Maintenance, Including Cleaning and Repairs, on June 30, 1909. It is proposed to charge their entire salaries in 1910 against Administration. This carries with it an increase of $2,400.

It is proposed to make sixteen new Attendants at a salary of $1,050 per annum each. These employees on June 30, 1909, were Laborers at the following rates of pay:

One at $3.50 per day; nine at $3 per day; three at $2.50 per day; three at $2.25 per day.

On June 30, 1909, one of these Laborers at $3.50 per day, and two at $3 per day, were charged against a special appropriation of Corporate Stock for the construction of the storm relief tunnel sewer. Four of these Laborers at $3 per day were charged against Maintenance, Including Cleaning and Repairs. Three of them at $3 per day, three of them at $2.50 per day, and three at $2.25 per day, were being charged against Preliminary Surveys.

The making of these men Attendants is proposed for the reason that it is believed that the duties to be performed by these men would be more properly classified under the grade of Attendant and that the salaries for the same should reasonably and properly be provided for under the appropriation for Administration.

To recapitulate, the increase in this appropriation is accounted for as follows, referring to the hereinabove explanations:

	Increase.
Engineer in Charge of Sewers	$4,833 36
Principal Assistant Engineer of Sewers	3,975 00
Two Stenographers and Typewriters	300 00
Two Clerks	600 00
One Clerk	750 00
Two Messengers	1,500 00
Two Attendants	2,400 00
Sixteen Attendants	16,800 00
Total	$31,158 36

Of this total of $31,158.36, the following is made up of proposed increases in salaries:

	Increase.
Engineer in Charge of Sewers	$1,000 00
Principal Assistant Engineer of Sewers	1,000 00
Two Stenographers and Typewriters	300 00
Three Clerks	750 00
One Messenger	150 00
Two Attendants	450 00
Total for proposed increases of salaries	$3,650 00

The balance, amounting to $27,508.36, is in the nature of transfers from the appropriations for Preliminary Surveys and for Maintenance, Including Cleaning and Repairs, with the exception of three of the proposed Attendants, whose salaries were charged on June 30, 1909, against a special appropriation of Corporate Stock for the construction of the storm relief tunnel sewer.

It must, therefore, be borne in mind that this large increase in the appropriation for Administration does not mean a corresponding increase in the total of all the appropriations for the Bureau of Sewers for 1910.

This reclassification or rearrangement of appropriations, throwing more of the charges against the appropriation for Administration, is done in order to carry out the idea expressed in this same line by the arrangement of the Budget made by the Board of Estimate and Apportionment in 1909.

Note—As prior to 1909 these items were charged to account of Sewers, Repairing and Cleaning, Payrolls and Supplies, and in 1909 some to Maintenance, Form II. has been omitted.

BORING EXAMINATIONS.

Form I.

The decrease in this appropriation under that of 1909 is due to the fact that the part salary of the Principal Assistant Engineer of Sewers, which was charged against this appropriation in 1909, is proposed to be charged in 1910 against the appropriation for Administration and is so provided for in the request for such appropriation.

*The number and titles of employees in the Engineering Force, Bureau of Sewers, charged against this appropriation cannot be stated in detail as to individuals and amounts in the different periods, the charges varying from time to time as the service demands. Hence Form II. has been omitted.

Note—This amount represents 15.315 per cent. of proposed salary schedule for 1910, and is the average percentage which the charges against this appropriation bear to the total salary schedules for the periods submitted for comparison. Total salary schedules for 1909 and proposed for 1910 attached herewith.

BORING EXAMINATIONS.

Form VII.

The increase in this appropriation over that of 1909 is due in part to the increase of the pay of one Laborer from $2.25 per day to $2.50 per day, which increase it is proposed to make pursuant to resolution of the Board of Estimate and Apportionment of June 12, 1908; and in part to the fact that five additional Laborers are provided for in this appropriation, as the services of the same will be needed in this class of work during the year 1910. At present the force of Laborers doing this class of work is divided into three gangs and it has been found that the work cannot be carried on advantageously with the present force, but that eight Laborers are needed in each gang.
