STATEMENT OF BASIS AND PURPOSE

The foregoing amendments are proposed pursuant to the authority of the Commissioner of Buildings under Sections 643 and 1043(a) of the New York City Charter.

The original rule was promulgated in accordance with Section 28-115.1 of the New York City Administrative Code by specifying the qualifications of special inspectors and the processes through which the department will regulate their activities.

This set of amendments adds new definitions: "Accreditation Deadline", "Full Demolition", "Major Building", "Partial

Demolition”, “Registration Deadline” and “Special Inspection Category” for the purposes of clarity and ease of use. Most importantly, the new deadline definitions help clarify exactly when, from the effective date of this rule, registration and accreditation shall occur and allows for timely and proper enforcement of the proposed three-class registration system described more fully below.

The revisions to the rule introduce the concept of special inspection classes, which better addresses the level of qualification necessary to perform the various types of special inspections. There is currently only one registration class. These amendments establish three classes of special inspection registration: class 1, class 2, and class 3, based on the scope of work the special inspection agency is performing. Class 3 special inspection agencies are limited to performing inspections involving the construction, demolition or alteration of one-, two-, or three-family dwellings and alterations of buildings with less than ten thousand square feet of total work area. Class 2 special inspection agencies may perform inspections on any project except for certain types of work performed on major buildings. Class 1 special inspection agencies have no limit on their scope of work, and require accreditation to maintain their registration.

In addition, these amendments modify the rule’s insurance requirements to more accurately reflect what is necessary for these entities. The requirement for general liability insurance for the special inspection agencies was removed because these agencies will either be required to obtain professional liability insurance which will cover their technical duties, or if other than a PE or RA the special inspection agency already has general liability insurance as part of their trade license requirements.
