#### 101-53 Reservoir Spaces

The provisions of this Section shall apply to parking facilities created after (date of adoption) or for parking facilities enlarged by 50 or more spaces after (date of adoption). For the purpose of determining required reservoir spaces, fractions equal to or greater than one-half resulting from the calculations in this Section shall be considered one reservoir space.

For #automated parking facilities#, off-street reservoir space at the vehicle entrance shall be provided as set forth in paragraph (a) of this Section.

In addition, the number of reservoir spaces required pursuant to paragraph (a) of this Section may be reduced where the Commissioner of Buildings determines that the operational characteristics of such #automated parking facility# warrant such a reduction.

(c) Self-parking facilities

For self-parking #accessory# off-street parking facilities, #public parking garages# and #public parking lots#, where entering vehicles are required to stop before a mechanically operated barrier before entering the parking facility, such barrier shall be placed a minimum of 20 feet beyond the #street line#.

#Public parking garages# with 225 or fewer spaces shall be permitted as of right, provided that such garages are, except for entrances and exits, entirely below the level of any #street# or #publicly accessible open area# upon which such facility, or portion thereof, fronts. In addition to a maximum number of 225 public parking spaces, such garages may include required #accessory# parking spaces, which may be provided at any level. Any #accessory# parking spaces that are not required shall be included with all other public parking spaces in such #public parking garage# for the purpose of applying any regulations in this Resolution relating to the number or location of parking spaces in such #public parking garage#.

#### 101-542 Off-site accessory parking spaces in public garages

#### 101-543 Pedestrian safety

The provisions of this Section shall apply to parking facilities created after (date of adoption) or for parking facilities enlarged by 50 or more spaces after (date of adoption). (b) a speed bump, which shall be located within the exit lane of the parking facility. Such speed bump shall:

- (1) span the entire width of such exit lane;
- (2) have a minimum of two inches in height, as measured from the adjoining grade of the exit lane and shall have a maximum depth of 12 inches; and
- (3) be located a minimum of four feet beyond the #street line#, as measured perpendicular to the #street line#.

#### 101-544 Stackers in garages

Within an enclosed attended parking facility with parking lift systems, for individual lifted trays upon which a vehicle is stored, each tray upon which a vehicle is stored shall be considered 153 square feet of #floor area#, except for portions exempt from the definition of #floor area# pursuant to Section 12-10 (DEFINITIONS).

#### 101-545 Automated parking facilities

For an #automated parking facility#, the minimum size of spaces regulated in Sections 25-62 (Size and Location of Spaces) and 36-351 (Size of spaces) shall not apply.

For the purpose of calculating parking spaces in #automated parking facilities#, each tray upon which a vehicle is stored shall constitute one off-street parking space. However, auxiliary parking trays may be exempted from constituting a parking space where the Commissioner of Buildings determines that such auxiliary parking trays are needed to routinely store and retrieve vehicles for the efficient operation of such #automated parking facility#.

Within an #automated parking facility#, each tray upon which a vehicle is stored shall be considered 153 square feet of #floor area#, except for portions exempt from the definition of #floor area# pursuant to Section 12-10 (DEFINITIONS).

#### 101-546 Special permit for public parking garages

Section 74-52 (Parking Garages or Public Parking Lots in High Density Central Areas) shall not apply to #public parking garages#. In lieu thereof, the following provisions shall apply.

The City Planning Commission may permit:

(a) a #public parking garage# that does not comply with the provisions of Section 101-541 (Public parking garages) provided that such garage complies with all other applicable regulations set forth in Section 101-50 (OFF-STREET PARKING AND OFF-STREET LOADING REGULATIONS); and

(b) floor space on one or more #stories#, up to a height of 23 feet above #curb level#, to be exempted from the definition of #floor area# as set forth in Section 12-10 (DEFINITIONS).

In order to grant a special permit for such #use# or #floor area# exemption, the Commission shall find:

(1) that such #use# will be compatible with the surrounding area, and will not adversely affect the growth and development of #uses# comprising vital and essential functions in the general area within which such #use# is to be located;

(2) the proposed materials and articulation of the #street wall# of the parking facility are compatible with #buildings# in the surrounding area;

(3) the ground floor level of such parking facilities that front upon #streets# with a width of 60 feet or more, or that front upon public access areas, is occupied by #commercial#, #community facility# or #residential uses# that generate activity on all such adjoining #streets# or public areas, except at the entrances and exits to the parking facility. Where site planning constraints make such #uses# infeasible, the parking facility shall be screened from such adjoining #streets# or public access areas with a strip at least five feet deep, densely planted with shrubs or trees that are at least four feet high at the time of planting and that are of a type which may be expected to form a year-round dense screen at least six feet high within three years. Where such screening is not desirable, a total of at least 50 percent of the exterior building wall with adjacent parking spaces shall consist of opaque materials that include graphic or sculptural art, or living plant material;

(4) any floor space above the ground floor level utilized for parking is located, to the greatest extent feasible, behind #commercial#, #community facility# or #residential floor area#, so as to minimize the visibility of the parking facility from adjoining #streets# with a width of 60 feet or more, or public access areas. Any exterior wall of the parking facility visible from an adjoining #street# or public access area shall be articulated in a manner that is compatible with #buildings# in the surrounding area;

(5) that such #use# will not create or contribute to serious traffic congestion and will not unduly inhibit surface traffic and pedestrian flow and that the #streets# providing access to such #use# will be adequate to handle the traffic generated thereby;

(6) that such #use# and its vehicular entrances and exits are so located as to draw a minimum of vehicular traffic to and through residential #streets# in nearby areas; and

(7) that, if any floor space is exempted from the definition of #floor area#, such additional floor space is necessary to prevent excessive on-street parking demand and relieve traffic congestion.

The City Planning Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area including limitations on #signs#, or requirements for shielding of floodlights, or locations of entrances and exits.

#### 101-55 Restrictions on Use of Accessory Off-Street Parking Spaces

The provisions of Section 36-46 (Restrictions on Use of Accessory Off-Street Parking Spaces) shall apply, provided that all #Commercial Districts# within the #Special Downtown Brooklyn District# shall be considered a C6 District for the purposes of such Section, inclusive. However, the provisions of this Section shall not apply within the Atlantic Avenue Subdistrict.

#### 101-56 Location of Off-Site Parking Spaces

Sections 25-50 and 36-40 (RESTRICTIONS ON LOCATION AND USE OF ACCESSORY OFF-STREET PARKING

SPACES) shall apply, except that where the #use# generating the parking requirement and the #zoning lot# providing the parking spaces are both within the #Special Downtown Brooklyn District#, Sections 25-521 and 36-421 (Maximum distance from zoning lot) shall be modified to permit #accessory# parking spaces to be located up to 2,500 feet from the #zoning lot# occupied by the #residences# to which they are accessory.

- recognize and enhance the vitality and character of the neighborhood for workers and residents;
- encourage the development of buildings compatible with existing development;
- regulate conversion of buildings while preserving continued manufacturing or commercial use;
- encourage the development of affordable housing;
- promote the opportunity for workers to live in the vicinity of their work;
- retain jobs within New York City; and

#### 88-05 Applicability of District Regulations

#### 88-051 Applicability of Article I, Chapter 5

The conversion to #dwelling units# of non-#residential buildings# erected prior to January 1, 1977, or portions thereof, shall be permitted subject to Sections 15-11 (Bulk Regulations), 15-12 (Open Space Equivalent) and 15-30 (Minor Modifications), paragraph (b), except as superseded or modified by the provisions of this Chapter.

#### 88-10 SUPPLEMENTAL USE REGULATIONS

All permitted #uses# in the underlying districts, as set forth in Section 42-10 (USES PERMITTED AS-OF-RIGHT), shall comply with the provisions set forth in this Section, inclusive.

#### 88-11 Residential Use

#Residential use# shall be permitted in accordance with the provisions of this Section.

##### (a) Residential use as-of-right

#Residential use# shall be permitted as-of-right on any #zoning lot# that, on (date of referral), was not occupied by a qualifying #building#. As a condition to receiving a building permit, such absence of a qualifying #building# on the #zoning lot# must be demonstrated to the satisfaction of the Department of Buildings.

##### (b) Residential use by certification

#Residential use# shall be permitted on a #zoning lot# that, on (date of referral), was occupied by one or more qualifying #buildings#, only upon certification by the Chairperson of the City Planning Commission that the #zoning lot#, as it existed on (date of referral), will contain at least the amount of non-#residential floor area# that existed within such qualifying #buildings# on the zoning lot on (date of referral), subject to the following:

- (1) non-#residential floor area# that is preserved within existing non-qualifying #buildings# on the #zoning lot# through restrictive declaration may count toward meeting the requirements of this certification; and
- (2) #floor area# from #community facility uses# with sleeping accommodations shall not count toward meeting the requirements of this certification.

However, non-#residential floor area# converted to #residential# vertical circulation space and lobby space need not be replaced as non-#residential floor area#.

A restrictive declaration acceptable to the Department of City Planning shall be executed and recorded, binding the owners, successors and assigns to maintain the amount of non-#residential floor area# that existed within such qualifying #buildings# on (date of referral) on the #zoning lot#. Such restrictive declaration shall be recorded in the Office of the City Register. A copy of such declaration shall be provided to the Department of Buildings upon application for any building permit related to a change in #use# from non-#residential# to #residential#, or for any #development# containing #residences#.

#### 88-12 Community Facility Use

The #community facility use# regulations applicable in M1 Districts shall not apply in the #Special Hudson Square District#. In lieu thereof, all #community facility uses# listed in Use Groups 3 and 4 shall be permitted, except that #community facilities# with sleeping accommodations shall only be permitted in accordance with paragraphs (a) or (b) of this Section, as applicable.

(a) #Community facilities# with sleeping accommodations shall be permitted as-of-right on any #zoning lot# that, on (date of referral), was not occupied by a qualifying #building#. As a condition to receiving a building permit, such absence of a qualifying #building# on the #zoning lot# shall be demonstrated to the satisfaction of the Department of Buildings.

(b) #Community facilities# with sleeping accommodations shall be permitted on a #zoning lot# that, on (date of referral), was occupied by one or more qualifying #buildings#, only upon certification by the Chairperson of the City Planning Commission that the #zoning lot# will contain at least the amount of non-#residential floor area# that existed within qualifying #buildings# on the zoning lot on (date of referral), subject to the following:

- (1) non-#residential floor area# that is preserved within existing non-qualifying #buildings# on the #zoning lot# through restrictive declaration may count toward meeting the requirements of this certification; and

- (2) #floor area# from #community facility uses# with sleeping accommodations shall not count toward meeting the requirements of this certification.

However, non-#residential floor area# converted to vertical circulation and lobby space associated with a #community facility# with sleeping accommodations need not be replaced as non-#residential floor area#.

A restrictive declaration acceptable to the Department of City Planning shall be executed and recorded, binding the owners, successors and assigns to maintain the amount of non-#residential floor area# that existed within such qualifying #buildings# on (date of referral) on the #zoning lot#. Such restrictive declaration shall be recorded in the Office of the City Register. A copy of such declaration shall be provided to the Department of Buildings upon application for any building permit related to a change in #use# from non-#residential# to #community facility uses# with sleeping accommodations, or for any #development# containing #community facility uses# with sleeping accommodations.

- (c) Ground floor #community facility uses# shall be subject to the streetscape provisions set forth in Section 88-131 (Streetscape Provisions).

#### 88-13 Commercial Use

Portions of such establishments located above or below ground floor level shall not be limited in size;

- (c) ground floor #commercial uses# shall be subject to special streetscape provisions set forth in Section 88-131 (Streetscape provisions);

- (d) #commercial uses# permitted in M1 Districts shall be subject to the modifications set forth in Section 123-22 (Modification of Use Groups 16, 17 and 18), inclusive;

- (e) #transient hotels# shall be allowed, except that:

- (1) #development# or #enlargement# of #transient hotels# with greater than 100 sleeping units on #zoning lots# where #residential use# is permitted as-of-right, in accordance with paragraph (a) of Section 88-11, shall only be allowed upon certification by the Chairperson of the City Planning Commission to the Commissioner of Buildings that the "residential development goal" has been met for the #Special Hudson Square District# as set forth in this paragraph, (e)(1), or,

- (2) where such "residential development goal" has not been met, by special permit pursuant to Section 88-132 (Special permit for large transient hotels):

##### Residential Development Goal

The residential development goal shall be met when at least 2,255 #dwelling units#, permitted pursuant to the provisions of Section 88-11 (Residential Use), within the #Special Hudson Square District# have received temporary or final certificates of occupancy subsequent to [date of enactment].

- (3) A change of #use# within a qualifying #building# to a #transient hotel# with greater than 100 sleeping units shall only be allowed by special permit, pursuant to Section 88-132;

- (f) eating or drinking establishments with entertainment and a capacity of more than 200 persons, or establishments of any capacity with dancing, are permitted only by special permit of the Board of Standards and Appeals, pursuant to Section 73-244.

#### 88-131 Streetscape provisions

For #zoning lots# with #street# frontage of 50 feet or more, the location of certain #uses# shall be subject to the following #use# requirements:

- (a) For #uses# located on the ground floor or within five feet of #curb level#, limited to Use Groups 6A, 6C, 7B, 8A, 8B, 9A, 10A, 12A and 12B, shall have a depth of at least 30 feet from the #building wall# facing the #street# and shall extend along a minimum of 50 percent of the width of the #street# frontage of the #zoning lot#.

- (b) The remainder of the #street# frontage of the #zoning lot# may be occupied by any permitted #uses#, lobbies or entrances to parking spaces, except that lobbies shall be limited to a total width of 40 feet per #street# frontage. The 30 foot minimum depth requirement shall not apply where a reduction in such depth is necessary in order to accommodate a #residential lobby# or vertical circulation core.

- (c) In Subdistrict A, for portions of a #building# bounding a #public park#, the ground floor #use# requirements of paragraph (a) of this Section shall apply to 100 percent of the width of the #street# frontage of the #zoning lot#, and #residential# lobbies and #schools# shall be permitted #uses# on the ground floor for purposes of compliance with paragraph (a) of this Section.

For #zoning lots# with #street frontage# of less than 50 feet, no special ground floor #use# requirements shall apply.

Enclosed parking spaces, or parking spaces covered by a #building#, including such spaces #accessory# to #residences#, shall be permitted to occupy the ground floor provided they are located beyond 30 feet from the #building wall# facing the #street#.

Any ground floor #street wall# of a #development# or #enlargement# that contains #uses# listed in Use Groups 1 through 15, not including #dwelling units#, shall be glazed with transparent materials which may include #show windows#, transom windows or glazed portions of doors, provided such transparent materials have a minimum width of two feet. Such transparency shall occupy at least 50 percent of the surface area of each such ground floor #street wall# between a height of two feet, and 12 feet or the height of the ground floor ceiling, whichever is higher, as measured from the adjoining sidewalk. The lowest level of any transparency that is provided to satisfy the requirements of this Section shall not be higher than four feet above the #curb level#, with the exception of transom windows. In addition, the maximum width of a portion of the ground floor level #street wall# without transparency shall not exceed ten feet. However, where an entrance to a parking facility is provided, the requirements of this Section shall not apply to that portion of the ground floor #street wall# occupied by such an entrance.

#### 88-132 Special permit for large transient hotels

- (a) Developments or enlargements

In the #Special Hudson Square District#, prior to the "residential development goal" set forth in paragraph (f) of Section 88-13 (Commercial Use) having been achieved, the City Planning Commission may permit #developments# or #enlargements# of #transient hotels# with greater than 100 sleeping units on #zoning lots# where #residential use# is permitted as-of-right, in accordance with paragraph (a) of Section 88-11 (Residential Use), provided the Commission finds that:

- (1) sufficient development sites are available in the area to meet the "residential development goal"; or
- (2) a harmonious mix of #residential# and non-#residential uses# has been established in the surrounding area, and such #transient hotel# resulting from a #development# or #enlargement# is consistent with the character of such surrounding area.

- (b) Changes of use

In the #Special Hudson Square District#, the City Planning Commission may permit the change of #use# of #floor area# within qualifying #buildings# to a Use Group 5 #transient hotel# with greater than 100 sleeping units provided that, at minimum, the amount of #floor area# changed to such #transient hotel# is:

- (1) preserved for Use Group 6B office #use# within a qualifying #building# located within the #Special Hudson Square District#, or
- (2) created for Use Group 6B office #use# within a #building developed# after (date of referral), or within the #enlarged# portion of a #building#, where such #enlargement# was constructed within one year of the date an application pursuant to this Section is filed with the Department of City Planning (DCP). Such #developed# or #enlarged buildings# may be located anywhere within the #Special Hudson Square District#, and shall have either temporary or final certificates of occupancy for Use Group 6B office #use#.

In order to permit such change of #use#, the Commission shall find that the proposed #transient hotel# is so located as not to impair the essential character, or the future use or development, of the surrounding area.

A restrictive declaration acceptable to the DCP shall be executed and recorded, binding the owners, successors and assigns to preserve an amount of Use Group 6B office #use# within a qualifying #building#, or created within a #development# or

#enlargement#, as applicable. Such restrictive declaration shall be recorded in the Office of the City Register. A copy of such declaration shall be provided to the Department of Buildings upon application for any building permit related to a change in #use# from Use Group 6B office #use# to any other #use#.

The Commission may prescribe additional conditions and safeguards to minimize adverse effects on the character of the surrounding area.

**88-14

- (b) For #developments#, #enlargements#, or changes of #use# containing #manufacturing#, #commercial# or #community facility uses#, the #bulk# regulations set forth in Article IV, Chapter 3 (Bulk Regulations), shall apply.

For the purposes of applying the regulations of this Section, Greenwich Street shall be a #wide street#.

**88-31

Except in Subdistricts A and B, the maximum #floor area# ratio for #zoning lots# that do not contain #residences# shall be 10.0; no #floor area# bonuses shall apply.

The maximum base #floor area ratio# for #zoning lots# that contain #residences# shall be 9.0 plus an amount equal to 0.25 times the non-#residential floor area ratio# provided on the #zoning lot#, provided that such base #floor area ratio# does not exceed 10.0. Such #floor area ratio# may be increased to a maximum of 12.0 only as set forth in Section 88-32 (Inclusionary Housing).

**88-311  
Special floor area regulations in Subdistrict A**

For #zoning lots# in Subdistrict A that do not contain #residences#, the maximum #floor area# ratio shall be 10.0; no #floor area# bonuses shall apply.

For #zoning lots# in Subdistrict A containing #residences#, the maximum #floor area ratio# shall be 9.0 plus an amount equal to 0.25 times the non-#residential floor area ratio# provided on the #zoning lot#, provided that such base #floor area ratio# does not exceed 10.0.

Any floor space designated for #use# as a #school# shall be exempted from the definition of #floor area# for the purposes of calculating the permitted #floor area ratio# for #community facility uses# and the total maximum #floor area ratio# of the #zoning lot#, provided that such school is either:

**88-32  
Inclusionary Housing**

The #Special Hudson Square District#, except Subdistrict A, shall be an #Inclusionary Housing designated area#, and the provisions of Section 23-90 (INCLUSIONARY HOUSING) applicable to R10 Districts shall apply, except that within Subdistrict B, the provisions of Section 23-90 applicable to R8 Districts shall apply.

**88-33  
Height and Setback**

In the #Special Hudson Square District#, the height and

setback regulations of the underlying districts shall not apply. In lieu thereof, the provisions of this Section shall apply to all #buildings#.

(a) Rooftop regulations

(1) Permitted obstructions

The provisions of Section 33-42 shall apply to all #buildings#, except that elevator or stair bulkheads, roof water tanks, cooling towers or other mechanical equipment (including enclosures), may penetrate a maximum height limit, provided that either the product, in square feet, of the #aggregate width of street walls# of such obstructions facing each #street# frontage, times their average height, in feet, shall not exceed a figure equal to eight times the width, in feet, of the #street wall# of the #building# facing such frontage; or that the #lot coverage# of all such obstructions does not exceed 20 percent of the #lot coverage# of the #building#, and the height of all such obstructions does not exceed 40 feet.

In addition, dormers may penetrate a maximum base height provided that on any #street# frontage, the aggregate width of all dormers at the maximum base height does not exceed 60 percent of the length of the #street wall# of the highest #story# entirely below the maximum base height. For each foot of height above the maximum base height, the aggregate width of all such dormers shall be decreased by one percent of the #street wall# width of the highest #story# entirely below the maximum base height.

(2) Screening requirements for mechanical equipment

For all #developments#, #enlargements# and #conversions# of non-#residential floor area# to #residences#, all mechanical equipment located on any roof of a #building or other structure# shall be fully screened on all sides. However, no such screening requirements shall apply to water tanks.

(b) Height and setback

(1) #Street wall# location

On #wide streets#, and on #narrow streets# within 50 feet of their intersection with a #wide street#, the #street wall# shall be located on the #street line# and extend along the entire #street# frontage of the #zoning lot# up to the minimum base height or the height of the #building#, whichever is less. On #narrow streets# beyond 50 feet of their intersection with a #wide street#, the #street wall# shall be located on the #street line#. For the purposes of this paragraph, (b), portions of #street walls# located up to 18 inches from a #street line# shall be considered to be located on the #street line# where a vertical element of such #street wall# is located on the #street line# and rises without setback from ground level to the top of the second #story# at intervals of at least once every 15 feet in plan and, above the level of the second #story#, where a vertical element rises without setback to the applicable minimum base height at an interval of at least once every 30 feet in plan.

On the ground floor, recesses shall be permitted where required to provide access to the #building#, provided such recesses do not exceed three feet in depth as measured from the #street line#.

Above the level of the ground floor, recesses shall be permitted beyond 20 feet of an adjacent #building# and beyond 30 feet of the intersection of two #street lines#, as follows:

(i) Along #wide streets#

Recesses shall be provided at the level of each #story# entirely above a height of 60 feet, up to the maximum base height of the #building#. Such recesses shall have a minimum depth of five feet and a width between 10 and 40 percent of the #aggregate width of street wall# of the #building# at the level of any #story#.

(ii) Along #narrow streets#

Above the level of the second #story#, recesses in #street walls# deeper than 18 inches shall be permitted. Such recesses may not exceed 30 percent of the #aggregate width

of street wall# of the #building# at the level of any #story#.

(2) Base height

On #wide streets#, and on #narrow streets# within 50 feet of their intersection with a #wide street#, the #street wall# of a #building# shall rise without setback to a minimum base height of 125 feet and a maximum base height of 150 feet.

On #narrow streets#, beyond 50 feet of their intersection with a #wide street#, the #street wall# of a #building# shall rise without setback to a minimum base height of 60 feet, or the height of the #building#, whichever is less, up to a maximum base height of 125 feet.

As an alternative, the minimum and maximum base heights applicable to a #wide street# may apply along a #narrow street# to a distance of 100 feet from its intersection with a #wide street#.

(3) Required setbacks and maximum #building# heights

(i) Along #wide streets#

The provisions of this paragraph, (b)(3)(i), shall apply to #buildings#, or portions thereof, located on #wide streets#, and on #narrow streets# within 100 feet from their intersection with a #wide street#. The portion of such #building# above a height of 150 feet shall be set back from the #street wall# of the #building# at least 10 feet along a #wide street# and at least 15 feet along a #narrow street#, except such dimensions may include the depth of any permitted recesses in the #street wall#. The maximum height of such #buildings# shall be 320 feet. In addition, the gross area of each of either the highest two or three #stories# of such #building# located entirely above a height of 230 feet, shall not exceed 80 percent of the gross area of the #story# directly below such highest two or three #stories#.

(ii) Along #narrow streets#

The provisions of this paragraph, (b)(3)(ii), shall apply to #buildings#, or portions thereof, located on #narrow streets# beyond 100 feet from their intersection with a #wide street#.

The portion of such #building# above a height of 125 feet shall be set back from the #street wall# of the #building# at least 15 feet, except such dimensions may include the depth of any permitted recesses in the #street wall#.

The maximum height of such #buildings# shall be 185 feet. For #buildings# containing #residences#, no portion of such #building# exceeding a height of 125 feet shall be nearer to a #rear yard line# than ten feet.

(4) Maximum length of #building wall#

The maximum length of any #story# located entirely above a height of 150 feet shall not exceed 150 feet. Such length shall be measured in plan view by inscribing within a rectangle the outermost walls at the level of each #story# entirely above a level of 150 feet.

(5) Vertical #enlargements#

(i) Existing #buildings# may be vertically #enlarged# by up to one #story# or 15 feet without regard to the #street wall# location requirements of paragraphs (b)(1) and (b)(2) of this Section.

(ii) Existing #buildings# with #street walls# that rise without setback to a height of at least 80 feet may be vertically #enlarged# in excess of one #story# or 15 feet without regard to the #street wall# location requirements of paragraphs (b)(1) and (b)(2) of this Section, provided such #enlarged# portion is located at least 10 feet from a #wide street# and at least 15 feet from a #narrow street#.

88-331
Special height and setback regulations in Subdistrict A

For #zoning lots# in Subdistrict A, the regulations in paragraph (b) of Section 88-33 applicable to #wide streets# shall apply, except where modified or superseded by the regulations of this Section.

The conversion to #dwelling units# of non-#residential buildings# erected prior to January 1, 1977, or portions thereof, shall be permitted subject to Sections 15-11 (Bulk Regulations), 15-12 (Open Space Equivalent) and 15-30 (Minor Modifications), paragraph (b), except as superseded or modified by the provisions of this Chapter.

SUPPLEMENTAL USE REGULATIONS**

All permitted #uses# in the underlying districts, as set forth in Section 42-10 (USES PERMITTED AS-OF-RIGHT), shall comply with the provisions set forth in this Section, inclusive.

**88-11  
Residential Use**

#Residential use# shall be permitted in accordance with the provisions of this Section.

- (a) Residential use as-of-right
- #Residential use# shall be permitted as-of-right on

any #zoning lot# that, on (date of referral), was not occupied by a qualifying #building#. As a condition to receiving a building permit, such absence of a qualifying #building# on the #zoning lot# must be demonstrated to the satisfaction of the Department of Buildings.

(b) Residential use by certification

#Residential use# shall be permitted on a #zoning lot# that, on (date of referral), was occupied by one or more qualifying #buildings#, only upon certification by the Chairperson of the City Planning Commission that the #zoning lot#, as it existed on (date of referral), will contain at least the amount of non-#residential floor area# that existed within such qualifying #buildings# on the zoning lot on (date of referral), subject to the following:

- (1) non-#residential floor area# that is preserved within existing non-qualifying #buildings# on the #zoning lot# through restrictive declaration may count toward meeting the requirements of this certification; and
- (2) #floor area# from #community facility uses# with sleeping accommodations shall not count toward meeting the requirements of this certification.

However, non-#residential floor area# converted to #residential# vertical circulation space and lobby space need not be replaced as non-#residential floor area#.

A restrictive declaration acceptable to the Department of City Planning shall be executed and recorded, binding the owners, successors and assigns to maintain the amount of non-#residential floor area# that existed within such qualifying #buildings# on (date of referral) on the #zoning lot#. Such restrictive declaration shall be recorded in the Office of the City Register. A copy of such declaration shall be provided to the Department of Buildings upon application for any building permit related to a change in #use# from non-#residential# to #residential#, or for any #development# containing #residences#.

**88-12  
Community Facility Use**

The #community facility use# regulations applicable in M1 Districts shall not apply in the #Special Hudson Square District#. In lieu thereof, all #community facility uses# listed in Use Groups 3 and 4 shall be permitted, except that #community facilities# with sleeping accommodations shall only be permitted in accordance with paragraphs (a) or (b) of this Section, as applicable.

- (a) #Community facilities# with sleeping accommodations shall be permitted as-of-right on any #zoning lot# that, on (date of referral), was not occupied by a qualifying #building#. As a condition to receiving a building permit, such absence of a qualifying #building# on the #zoning lot# shall be demonstrated to the satisfaction of the Department of Buildings.

- (b) #Community facilities# with sleeping accommodations shall be permitted on a #zoning lot# that, on (date of referral), was occupied by one or more qualifying #buildings#, only upon certification by the Chairperson of the City Planning Commission that the #zoning lot# will contain at least the amount of non-#residential floor area# that existed within qualifying #buildings# on the zoning lot on (date of referral), subject to the following:

- (1) non-#residential floor area# that is preserved within existing non-qualifying #buildings# on the #zoning lot# through restrictive declaration may count toward meeting the requirements of this certification; and
- (2) #floor area# from #community facility uses# with sleeping accommodations shall not count toward meeting the requirements of this certification.

However, non-#residential floor area# converted to vertical circulation and lobby space associated with a #community facility# with sleeping accommodations need not be replaced as non-#residential floor area#.

A restrictive declaration acceptable to the Department of City Planning shall be executed and recorded, binding the owners, successors and assigns to maintain the amount of non-#residential floor area# that existed within such qualifying #buildings# on (date of referral) on the #zoning lot#. Such restrictive declaration shall be recorded in the Office of the City Register. A copy of such declaration shall be provided to the Department of Buildings upon application for any building permit related to a change in #use# from non-#residential# to #community facility uses# with sleeping accommodations, or for any #development# containing #community facility uses# with sleeping accommodations.

- (c) Ground floor #community facility uses# shall be subject to the streetscape provisions set forth in Section 88-131 (Streetscape Provisions).

Portions of such establishments located above or below ground floor level shall not be limited in size;
- (c) ground floor #commercial uses# shall be subject to special streetscape provisions set forth in Section 88-131 (Streetscape provisions);
- (d) #commercial uses# permitted in M1 Districts shall be subject to the modifications set forth in Section 123-22 (Modification of Use Groups 16, 17 and 18), inclusive;
- (e) #transient hotels# shall be allowed, except that:

- (4) #development# or #enlargement# of #transient hotels# with greater than 100 sleeping units on #zoning lots# where #residential use# is permitted as-of-right, in accordance with paragraph (a) of Section 88-11, shall only be allowed upon certification by the Chairperson of the City Planning Commission to the Commissioner of Buildings that the "residential development goal" has been met for the #Special Hudson Square District# as set forth in this paragraph, (e)(1), or, where such "residential development goal" has not been met, by special permit pursuant to Section 88-132 (Special permit for large transient hotels):

**Residential Development Goal**

The residential development goal shall be met when at least 2,255 #dwelling units#, permitted pursuant to the provisions of Section 88-11 (Residential Use), within the #Special Hudson Square District# have received temporary or final certificates of occupancy subsequent to [date of enactment].

**88-131  
Streetscape provisions**

For #zoning lots# with #street# frontage of 50 feet or more, the location of certain #uses# shall be subject to the following #use# requirements:

- (d) For #uses# located on the ground floor or within five feet of #curb level#, limited to Use Groups 6A, 6C, 7B, 8A, 8B, 9A, 10A, 12A and 12B, shall have a depth of at least 30 feet from the #building wall# facing the #street# and shall extend along a minimum of 50 percent of the width of the #street# frontage of the #zoning lot#.
- (e) The remainder of the #street# frontage of the #zoning lot# may be occupied by any permitted #uses#, lobbies or entrances to parking spaces, except that lobbies shall be limited to a total width of 40 feet per #street# frontage. The 30 foot minimum depth requirement shall not apply where a reduction in such depth is necessary in order to accommodate a #residential lobby# or vertical circulation core.
- (f) In Subdistrict A, for portions of a #building# bounding a #public park#, the ground floor #use# requirements of paragraph (a) of this Section shall apply to 100 percent of the width of the #street# frontage of the #zoning lot#, and #residential# lobbies and #schools# shall be permitted #uses# on the ground floor for purposes of compliance with paragraph (a) of this Section.

For #zoning lots# with #street frontage# of less than 50 feet, no special ground floor #use# requirements shall apply.

Enclosed parking spaces, or parking spaces covered by a #building#, including such spaces #accessory# to #residences#, shall be permitted to occupy the ground floor provided they are located beyond 30 feet from the #building wall# facing the #street#.

Any ground floor #street wall# of a #development# or #enlargement# that contains #uses# listed in Use Groups 1 through 15, not including #dwelling units#, shall be glazed with transparent materials which may include #show windows#, transom windows or glazed portions of doors, provided such transparent materials have a minimum width of two feet. Such transparency shall occupy at least 50 percent of the surface area of each such ground floor #street wall# between a height of two feet, and 12 feet or the height of the ground floor ceiling, whichever is higher, as measured from the adjoining sidewalk. The lowest level of any transparency that is provided to satisfy the requirements of this Section shall not be higher than four feet above the #curb level#, with the exception of transom windows. In addition, the maximum width of a portion of the ground floor level #street wall# without transparency shall not exceed ten feet. However, where an entrance to a parking facility is provided, the requirements of this Section shall not apply to that portion of the ground floor #street wall# occupied by such an entrance.

**88-132****Special permit for large transient hotels**(c) Developments or enlargements

In the #Special Hudson Square District#, prior to the "residential development goal" set forth in paragraph (f) of Section 88-13 (Commercial Use) having been achieved, the City Planning Commission may permit #developments# or #enlargements# of #transient hotels# with greater than 100 sleeping units on #zoning lots# where #residential use# is permitted as-of-right, in accordance with paragraph (a) of Section 88-11 (Residential Use), provided the Commission finds that:

- (1) sufficient development sites are available in the area to meet the "residential development goal"; or
- (2) a harmonious mix of #residential# and non-#residential uses# has been established in the surrounding area, and such #transient hotel# resulting from a #development# or #enlargement# is consistent with the character of such surrounding area.

(d) Changes of use

In the #Special Hudson Square District#, the City Planning Commission may permit the change of #use# of #floor area# within qualifying #buildings# to a Use Group 5 #transient hotel# with greater than 100 sleeping units provided that, at minimum, the amount of #floor area# changed to such #transient hotel# is:

- (2) preserved for Use Group 6B office #use# within a qualifying #building# located within the #Special Hudson Square District#, or
- (2) created for Use Group 6B office #use# within a #building developed# after (date of referral), or within the #enlarged# portion of a #building#, where such #enlargement# was constructed within one year of the date an application pursuant to this Section is filed with the Department of City Planning (DCP). Such #developed# or #enlarged buildings# may be located anywhere within the #Special Hudson Square District#, and shall have either temporary or final certificates of occupancy for Use Group 6B office #use#.

In order to permit such change of #use#, the Commission shall find that the proposed #transient hotel# is so located as not to impair the essential character, or the future use or development, of the surrounding area.

A restrictive declaration acceptable to the DCP shall be executed and recorded, binding the owners, successors and assigns to preserve an amount of Use Group 6B office #use# within a qualifying #building#, or created within a #development# or #enlargement#, as applicable. Such restrictive declaration shall be recorded in the Office of the City Register. A copy of such declaration shall be provided to the Department of Buildings upon application for any building permit related to a change in #use# from Use Group 6B office #use# to any other #use#.

The Commission may prescribe additional conditions and safeguards to minimize adverse effects on the character of the surrounding area.

**88-14****Manufacturing Use**

In the #Special Hudson Square District#, #manufacturing uses# permitted in M1 Districts shall be subject to the modifications set forth in Section 123-22 (Modification of Use Groups 16, 17 and 18), inclusive.

**88-20****SIGN REGULATIONS**

In the #Special Hudson Square District#, #signs# are subject to the regulations applicable in C6-4 Districts, as set forth in

Section 32-60, inclusive.

Except as modified in this Chapter, the following bulk regulations shall apply:

- (c) For #developments#, #enlargements#, or changes of #use# containing #residences#, the #bulk# regulations of an R10 District, as set forth in Article II, Chapter 3 (Bulk Regulations for Residential Buildings in Residence Districts) shall apply;
- (d) For #developments#, #enlargements#, or changes of #use# containing #manufacturing#, #commercial# or #community facility uses#, the #bulk# regulations set forth in Article IV, Chapter 3 (Bulk Regulations), shall apply.

For the purposes of applying the regulations of this Section, Greenwich Street shall be a #wide street#.

**88-31****Floor Area Regulations**

Except in Subdistrict A, the maximum #floor area# ratio for #zoning lots# that do not contain #residences# shall be 10.0; no #floor area# bonuses shall apply.

The maximum base #floor area ratio# for #zoning lots# that contain #residences# shall be 9.0 plus an amount equal to 0.25 times the non-#residential floor area ratio# provided on the #zoning lot#, provided that such base #floor area ratio# does not exceed 10.0. Such #floor area ratio# may be increased to a maximum of 12.0 only as set forth in Section 88-32 (Inclusionary Housing).

**88-311****Special floor area regulations in Subdistrict A**

For #zoning lots# in Subdistrict A that do not contain #residences#, the maximum #floor area# ratio shall be 10.0; no #floor area# bonuses shall apply.

For #zoning lots# in Subdistrict A containing #residences#, the maximum #floor area ratio# shall be 9.0 plus an amount equal to 0.25 times the non-#residential floor area ratio# provided on the #zoning lot#, provided that such base #floor area ratio# does not exceed 10.0.

Any floor space designated for #use# as a #school# shall be exempted from the definition of #floor area# for the purposes of calculating the permitted #floor area ratio# for #community facility uses# and the total maximum #floor area ratio# of the #zoning lot#, provided that such school is either:

- (a) a public school, subject to the jurisdiction of the New York City Department of Education, pursuant to an agreement accepted by the School Construction Authority; or
- (b) a charter school, subject to the New York State Education Law, pursuant to an agreement with a charter school organization.

**88-32****Inclusionary Housing**

The #Special Hudson Square District#, except Subdistrict A, shall be an #Inclusionary Housing designated area#, and the provisions of Section 23-90 (INCLUSIONARY HOUSING) applicable to R10 Districts shall apply.

**88-33****Height and Setback**

In the #Special Hudson Square District#, the height and setback regulations of the underlying districts shall not apply. In lieu thereof, the provisions of this Section shall apply to all #buildings#.

(a) Rooftop regulations(1) Permitted obstructions

The provisions of Section 33-42 shall apply to all #buildings#, except that elevator or stair bulkheads, roof water tanks, cooling towers or other mechanical equipment (including enclosures), may penetrate a maximum height limit, provided that either the product, in square feet, of the #aggregate width of street walls# of such obstructions facing each #street# frontage, times their average height, in feet, shall not exceed a figure equal to eight times the width, in feet, of the #street wall# of the #building# facing such frontage; or that the #lot coverage# of all such obstructions does not exceed 20 percent of the #lot coverage# of the #building#, and the height of all such obstructions does not exceed 40 feet.

In addition, dormers may penetrate a maximum base height provided that on any #street# frontage, the aggregate width of all dormers at the maximum base height does not exceed 60 percent of the length of the #street wall# of the highest #story# entirely below the maximum base height. For each foot of height above the maximum base height, the aggregate width of all such dormers

shall be decreased by one percent of the #street wall# width of the highest #story# entirely below the maximum base height.

(2) Screening requirements for mechanical equipment

For all #developments#, #enlargements# and #conversions# of non-#residential floor area# to #residences#, all mechanical equipment located on any roof of a #building# or other structure# shall be fully screened on all sides. However, no such screening requirements shall apply to water tanks.

(b) Height and setback(1) #Street wall# location

On #wide streets#, and on #narrow streets# within 50 feet of their intersection with a #wide street#, the #street wall# shall be located on the #street line# and extend along the entire #street# frontage of the #zoning lot# up to the minimum base height or the height of the #building#, whichever is less. On #narrow streets# beyond 50 feet of their intersection with a #wide street#, the #street wall# shall be located on the #street line#. For the purposes of this paragraph, (b), portions of #street walls# located up to 18 inches from a #street line# shall be considered to be located on the #street line# where a vertical element of such #street wall# is located on the #street line# and rises without setback from ground level to the top of the second #story# at intervals of at least once every 15 feet in plan and, above the level of the second #story#, where a vertical element rises without setback to the applicable minimum base height at an interval of at least once every 30 feet in plan.

On the ground floor, recesses shall be permitted where required to provide access to the #building#, provided such recesses do not exceed three feet in depth as measured from the #street line#.

Above the level of the ground floor, recesses shall be permitted beyond 20 feet of an adjacent #building# and beyond 30 feet of the intersection of two #street lines#, as follows:

(i) Along #wide streets#

Recesses shall be provided at the level of each #story# entirely above a height of 60 feet, up to the maximum base height of the #building#. Such recesses shall have a minimum depth of five feet and a width between 10 and 40 percent of the #aggregate width of street wall# of the #building# at the level of any #story#.

(ii) Along #narrow streets#

Above the level of the second #story#, recesses in #street walls# deeper than 18 inches shall be permitted. Such recesses may not exceed 30 percent of the #aggregate width of street wall# of the #building# at the level of any #story#.

(2) Base height

On #wide streets#, and on #narrow streets# within 50 feet of their intersection with a #wide street#, the #street wall# of a #building# shall rise without setback to a minimum base height of 125 feet and a maximum base height of 150 feet.

On #narrow streets#, beyond 50 feet of their intersection with a #wide street#, the #street wall# of a #building# shall rise without setback to a minimum base height of 60 feet, or the height of the #building#, whichever is less, up to a maximum base height of 125 feet.

As an alternative, the minimum and maximum base heights applicable to a #wide street# may apply along a #narrow street# to a distance of 100 feet from its intersection with a #wide street#.

(3) Required setbacks and maximum #building# heights(i) Along #wide streets#

The provisions of this paragraph, (b)(3)(i), shall apply to #buildings#, or portions thereof, located on #wide streets#, and on #narrow streets# within 100 feet from their intersection with a #wide street#. The portion of

such #building# above a height of 150 feet shall be set back from the #street wall# of the #building# at least 10 feet along a #wide street# and at least 15 feet along a #narrow street#, except such dimensions may include the depth of any permitted recesses in the #street wall#. The maximum height of such #buildings# shall be 320 feet. In addition, the gross area of each of either the highest two or three #stories# of such #building# located entirely above a height of 230 feet, shall not exceed 80 percent of the gross area of the #story# directly below such highest two or three #stories#.

(ii) Along #narrow streets#

The provisions of this paragraph, (b)(3)(ii), shall apply to #buildings#, or portions thereof, located on #narrow streets# beyond 100 feet from their intersection with a #wide street#.

The portion of such #building# above a height of 125 feet shall be set back from the #street wall# of the #building# at least 15 feet, except such dimensions may include the depth of any permitted recesses in the #street wall#.

The maximum height of such #buildings# shall be 185 feet.

For #buildings# containing #residences#, no portion of such #building# exceeding a height of 125 feet shall be nearer to a #rear yard line# than ten feet.

(4) Maximum length of #building wall#

The maximum length of any #story# located entirely above a height of 150 feet shall not exceed 150 feet. Such length shall be measured in plan view by inscribing within a rectangle the outermost walls at the level of each #story# entirely above a level of 150 feet.

The CUNY ASAP program is designed to help students earn their Associate Degrees within three years by providing academic, social, and financial supports. The selected Vendor will advise and agree to the use of specific methodologies to assess outcomes, monitor outcome measures, and determine whether outcomes targets have been met. The selected Vendor will provide documentation that these targets have been met. A contract award will be made by the Negotiated Acquisition source selection method, pursuant to City of New York Procurement Policy Board Rules (PPB Rules) Section 3-04(b)(2) because SBS has determined that it is neither practical nor advantageous to award the proposed contract by competitive sealed bids or competitive sealed proposals, and that this source selection method is in the City's best interest.

It is anticipated that the contract to be awarded through this solicitation will have an initial four-year term with one 1-year renewal commencing on January 1, 2013 and ending on December 31, 2016.

Any vendors with similar expertise that wishes to express an interest to be considered for this procurement is invited to do so by contacting Daryl Williams, Agency Chief Contracting Officer by e-mail at procurementhelpdesk@sbs.nyc.gov or by mail sent to NYC SBS, Attn: Daryl Williams, 110 William Street, 7th Floor, New York, NY 10038 or by fax to (212) 618-8867. **Items for Consideration:**

**1. Hudson Valley Systems (revised November 5 posting)**

**Service(s):** The Division of Financial Systems & Business Operations is seeking an agreement with Hudson Valley Systems to implement a transition to the DOE of the production, support and maintenance functions for the Galaxy system. Galaxy services schools and central offices by providing finance and human resource support. This transition entails staff acquisition, training, and turnover, while maintaining current levels of service and performance. The capital expense portion is to bring the data regarding over 50,000 additional staff into the New York City Automated Personnel System (NYCAPS). The additional staff includes DOE hourly employees, per diem employees, school food employees, per session and part time staff. Over 100,000 pedagogical and administrative staff are already on NYCAPS.

**Term: 12/11/12 – 12/10/17**  
**Capital Expense: \$ 4,500,000**  
**Total Contract Cost Not-To-Exceed: \$16,500,000**  
**\$21,000,000**

**2. Champion Learning Center (Expanded Learning Time Provider)**

**Service(s):** The Office of Innovation and Vendor Resources is seeking an agreement with Champion Learning Center to provide tutoring services for students who are not meeting performance standards.

In June 2012, United States Department of Education granted New York State an Elementary and Secondary Education Act (ESEA) Flexibility Waiver from the requirements of the No Child Left Behind law, eliminating the mandate to offer Supplemental Educational Services (SES). The DOE will offer a new program for tutoring services – Expanded Learning Time (ELT), allowing school principals to select tutoring service vendors based on the needs of their students.

This action will allow the DOE to contract with former SES vendor, Champion Learning Center, whose SES contract term expired on August 31, 2012. This new agreement will cover the 2012/2013 school year, allowing the DOE to release a Request for Proposals, open to all vendors, for the following year.

## READER'S GUIDE

The City Record (CR) is published each business day and includes notices of proposed New York City procurement actions, contract awards, and other procurement-related information. Solicitation notices for most procurements valued at or above \$100,000 for information technology and for construction and construction related services, above \$50,000 for other services, and above \$25,000 for other goods are published for at least one day. Other types of procurements, such as sole source, require notice in The City Record for five consecutive days. Unless otherwise specified, the agencies and offices listed are open for business Monday through Friday from 9:00 A.M. to 5:00 P.M., except on legal holidays.

### NOTICE TO ALL NEW YORK CITY CONTRACTORS

The New York State Constitution ensures that all laborers, workers or mechanics employed by a contractor or subcontractor doing public work are to be paid the same wage rate that prevails in the trade where the public work is being done. Additionally, New York State Labor Law §§ 220 and 230 provide that a contractor or subcontractor doing public work in construction or building service must pay its employees no less than the prevailing wage. Section 6-109 (the Living Wage Law) of the New York City Administrative Code also provides for a "living wage", as well as prevailing wage, to be paid to workers employed by City contractors in certain occupations. The Comptroller of the City of New York is mandated to enforce prevailing wage. Contact the NYC Comptroller's Office at [www.comptroller.nyc.gov](http://www.comptroller.nyc.gov), and click on Prevailing Wage Schedules to view rates.

### CONSTRUCTION/CONSTRUCTION SERVICES OR CONSTRUCTION-RELATED SERVICES

The City of New York is committed to achieving excellence in the design and construction of its capital program, and building on the tradition of innovation in architecture and engineering that has contributed to the City's prestige as a global destination.

### VENDOR ENROLLMENT APPLICATION

New York City procures approximately \$17 billion worth of goods, services, construction and construction-related services every year. The NYC Procurement Policy Board Rules require that agencies primarily solicit from established mailing lists called bidder/proposer lists. Registration for these lists is free of charge. To register for these lists, prospective suppliers should fill out and submit the NYC-FMS Vendor Enrollment application, which can be found online at [www.nyc.gov/selltonyc](http://www.nyc.gov/selltonyc). To request a paper copy of the application, or if you are uncertain whether you have already submitted an application, call the Vendor Enrollment Center at (212) 857-1680.

### SELLING TO GOVERNMENT TRAINING WORKSHOP

New and experienced vendors are encouraged to register for a free training course on how to do business with New York City. "Selling to Government" workshops are conducted by the Department of Small Business Services at 110 William Street, New York, NY 10038. Sessions are convened on the second Tuesday of each month from 10:00 A.M. to 12:00 P.M. For more information, and to register, call (212) 618-8845 or visit [www.nyc.gov/html/sbs/nycbiz](http://www.nyc.gov/html/sbs/nycbiz) and click on Summary of Services, followed by Selling to Government.

### PRE-QUALIFIED LISTS

New York City procurement policy permits agencies to develop and solicit from pre-qualified lists of vendors, under prescribed circumstances. When an agency decides to develop a pre-qualified list, criteria for pre-qualification must be clearly explained in the solicitation and notice of the opportunity to pre-qualify for that solicitation must be published in at least five issues of the CR. Information and qualification questionnaires for inclusion on such lists may be obtained directly from the Agency Chief Contracting Officer at each agency (see Vendor Information Manual). A completed qualification questionnaire may be submitted to an Agency Chief Contracting Officer at any time, unless otherwise indicated, and action (approval or denial) shall be taken by the agency within 90 days from the date of submission. Any denial or revocation of pre-qualified status can be appealed to the Office of Administrative Trials and Hearings (OATH). Section 3-10 of the Procurement Policy Board Rules describes the criteria for the general use of pre-qualified lists. For information regarding specific pre-qualified lists, please visit [www.nyc.gov/selltonyc](http://www.nyc.gov/selltonyc).

### NON-MAYORAL ENTITIES

The following agencies are not subject to Procurement Policy Board Rules and do not follow all of the above procedures: City University, Department of Education, Metropolitan Transportation Authority, Health & Hospitals Corporation, and the Housing Authority. Suppliers interested in applying for inclusion on bidders lists for Non-Mayoral entities should contact these entities directly at the addresses given in the Vendor Information Manual.

### PUBLIC ACCESS CENTER

The Public Access Center is available to suppliers and the public as a central source for supplier-related information through on-line computer access. The Center is located at 253 Broadway, 9th floor, in lower Manhattan, and is open Monday through Friday from 9:30 A.M. to 5:00 P.M., except on legal holidays. For more information, contact the Mayor's Office of Contract Services at (212) 341-0933 or visit [www.nyc.gov/mocs](http://www.nyc.gov/mocs).

### ATTENTION: NEW YORK CITY MINORITY AND WOMEN-OWNED BUSINESS ENTERPRISES

Join the growing number of Minority and Women-Owned Business Enterprises (M/WBEs) that are competing for New York City's business. In order to become certified for the program, your company must substantiate that it: (1) is at least fifty-one percent (51%) owned, operated and controlled by a minority or woman and (2) is either located in New York City or has a significant tie to New York City's business community. To obtain a copy of the certification application and to learn more about this program, contact the Department of Small Business Services at (212) 513-6311 or visit [www.nyc.gov/sbs](http://www.nyc.gov/sbs) and click on M/WBE Certification and Access.

### PROMPT PAYMENT

It is the policy of the City of New York to pay its bills promptly. The Procurement Policy Board Rules generally require that the City pay its bills within 30 days after the receipt of a proper invoice. The City pays interest on all late invoices. However, there are certain types of payments that are not eligible for interest; these are listed in Section 4-06 of the Procurement Policy Board Rules. The Comptroller and OMB determine the interest rate on late payments twice a year: in January and in July.

The Rules may also be accessed on the City's website at [www.nyc.gov/selltonyc](http://www.nyc.gov/selltonyc)

### HOW TO READ CR PROCUREMENT NOTICES

Procurement notices in the CR are arranged by alphabetically listed Agencies, and within Agency, by Division if any. The notices for each Agency (or Division) are further divided into three subsections: Solicitations, Awards; and Lists & Miscellaneous notices. Each of these subsections separately lists notices pertaining to Goods, Services, or Construction.

Notices of Public Hearings on Contract Awards appear at the end of the Procurement Section.

At the end of each Agency (or Division) listing is a paragraph giving the specific address to contact to secure, examine and/or to submit bid or proposal documents, forms, plans, specifications, and other information, as well as where bids will be publicly opened and read. This address should be used for the purpose specified unless a different one is given in the individual notice. In that event, the directions in the individual notice should be followed.

The following is a SAMPLE notice and an explanation of the notice format used by the CR.
