Dr. William Mabon, Superintendent of Bellevue and Allied Hospitals, reported as follows:

The boxes to hold the clothing of women employees have been supplied and are now being assigned to the quarters in the new dormitory building.

The rooms formerly occupied by the Bookkeeper and his assistants are being rearranged as an additional dining room for the Ambulance Drivers and Clerks, in accordance with the authority granted by your Board last fall. It was found necessary to put down a new floor in one of the rooms, tear down the partition between the two rooms and put up a new steel ceiling.

Estimates are now being prepared for a bath-room for the servants who sleep in that part of the building near the Steward's dining-room.

Owing to the increased number of persons to be served at the Steward's mess additional accommodations will have to be provided in the kitchen by tearing down the partition between the bath-room and the kitchen and making it one room.

The room formerly occupied as the Doctor's laundry is now being made over as a diet kitchen for the training schools. It was found necessary to replaster all of this room and to lay new floors.

It is respectfully suggested that the Civil Service Commission be requested to exempt from competitive examination Dr. George D. Creevey, appointed Anaesthetist last year, and to allow a compensation not to exceed two hundred and fifty dollars a year.

The daily average patient population at Bellevue Hospital for the first quarters of 1902, 1903 and 1904 was as follows:

1902.....	730 1-3
1903.....	846
1904.....	922

For the entire Department it was for the same period as follows:

1902.....	884
1903.....	1,017
1904.....	1,108

At Gouverneur Hospital the work of tearing down the old hospital building and excavating for the new is progressing favorably.

At Harlem Hospital the painters have nearly completed the work in the main building, and will soon paint the isolating ward and the stable.

At Fordham Hospital the road is being rearranged, and the work of excavating the rock will be done by the contractor at the price mentioned at the last meeting, namely, two hundred and eighty dollars.

PROPOSALS FOR BIDS AND ESTIMATES FOR THE CITY OF NEW YORK.

NOTICE TO CONTRACTORS.

GENERAL INSTRUCTIONS TO BIDDERS.

The person or persons making a bid or estimate for any services, work, materials or supplies for The City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope, indorsed with the title of the supplies, materials, work or services for which the bid or estimate is made, with his or their name or names and the date of presentation to the President or Board or to the head of the Department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said Department and read, and the award of the contract made according to law as soon thereafter as practicable.

Each bid or estimate shall contain the name and place of residence of the person making the same, the names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below.

No bid or estimate will be considered unless, as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 410 of the Greater New York Charter.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately.

The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there.
