Hon. GEORGE B. McCLELLAN, Mayor, New York City:

SIR—Pursuant to section 1554, chapter 466, Laws of 1901, the Police Commissioner of the Police Department of The City of New York hereby submits the following report of the operations and transactions of the Police Department and Force for the three months ending September 30, 1905.

Note.—The discrepancy existing between the number of arrests for particular offenses in Felony Report and General Report (in Schedule "B") is accounted for by the fact that the General Report is made from the daily returns from the station-houses and the Felony Report is made from the quarterly returns. An offense charged in the station-house at the time of arrest is liable to be, and often is, changed to a greater or less offense on evidence elicited before the Magistrate.

FOR FURNISHING AND DELIVERING CHEMICALS AND APPARATUS FOR THE DEPARTMENT OF CHEMISTRY OF THE COLLEGE OF THE CITY OF NEW YORK.

Delivery will be required to be made between the first and thirty-first days of August, 1906, or thereafter from time to time, and in such quantities and places as may be directed by the Professor of Chemistry until April 30, 1907.

The amount of security will be fifty per cent. (50%) of the amount of the bid or estimate.

Should the person or persons to whom the contract may be awarded neglect or refuse to accept the contract within five days after written notice that the same has been awarded to his or their bid or proposal, or if he or they accept but do not execute the contract and give the proper security, he or they will be considered as having abandoned it, and as in default to the Corporation, and the contract will be readvertised and let, as provided by law.

For particulars as to the quantity and quality of the supplies or of the nature and extent of the work required or of the materials to be furnished, bidders are referred to the specifications and the blank proposals and lists of articles, materials, supplies and apparatus to be furnished and delivered to the places designated. Such work and materials must conform in every respect to the specifications and schedules. The quality of the articles, supplies, goods, wares and merchandise must conform to and must be the same or equal in quality, character, finish and design to the samples furnished, or to those described by the names of well-known dealers and manufacturers, or referred to by catalogue number. Bidders are cautioned to examine the specifications for particulars of the articles, etc., required before making their estimates, and are cautioned against referring to any samples or specifications other than those furnished by the Board of Trustees. Such references are cause for rejecting bids whereon they are written, and will in no case govern the action of the Board of Trustees in passing upon tenders. Bidders must state the price of each item. Awards will be made to the lowest bidder on each item whose goods are the same or equal to the samples furnished for inspection or referred to by catalogue number.

Bidders will write out the total amount of their estimates in addition to inserting the same in figures. Only one bid will be received from a bidder for each item.

Wherever in the specifications an article or any class of materials is specified by a trade name or by the name of any particular patentee, manufacturer or dealer, or by reference to the catalogue of any such manufacturer or dealer, it shall be taken as intending to mean and specify the article or materials described, or any other equal thereto in quality, finish and durability, and equally as serviceable for the purposes for which it is or they are intended. Nothing in the specifications shall be interpreted or taken to violate the provisions of section 1554 of the Greater New York Charter, which provides that "except for repairs no patented pavement shall be laid and no patented article shall be advertised for, contracted for or purchased, except under such circumstances that there can be a fair and reasonable opportunity for competition, the conditions to secure which shall be prescribed by the Board of Estimate and Apportionment."

The bidder will state the price of each item or article contained in the specifications or schedules herein contained or hereto annexed, per pound, ton, dozen, gallon, yard, or other unit of measure, by which the bids will be tested. The extensions must be made and footed up, as the bids will be read from the total for each item and awards made to the lowest bidder on each item.

All prices to include proper containers delivered in perfect condition at the College of The City of New York. Duty-free affidavits, where necessary, will be given by the proper official of said college when the proper forms are provided, the expense of the same being paid by the contractor.

Samples will be on exhibition at the College of The City of New York, Lexington avenue and Twenty-third street, until the bids are opened.

All goods must be delivered as directed, in the original bottles, at the Chemical Department, the College of The City of New York, One Hundred and Fortieth street and Convent avenue, Borough of Manhattan (unless otherwise stated in the specifications). The weight, measure, etc., will be allowed as received at the institution.

No charge will be allowed for freight, express, boxes or cartage, but boxes may be taken away by the contractor.

Contractors who fail to make prompt deliveries will be considered as in default and debarred from bidding in the future.

Bidders are requested to make their bids or estimates upon the blank form prepared by the said Board of Trustees, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon written application therefor at the office of the College of The City of New York, and any further information can be obtained at the office of the said college, corner of Lexington avenue and Twenty-third street, Borough of Manhattan.

All the posts, studs, purlins, trusses and bracing composing the framing of the shed are of structural steel.

The roof sheathing, window frames, partitions, walls, ceilings, office doors, etc., in the second story of the office portion are of woodwork in first-class condition. The sides of the building not taken up by doors are covered with corrugated steel. The roof is covered with tar and gravel over board sheathing, which rests on the wooden purlins. The principal parts or items composing the shed on Pier, old 11, East river, which is offered for sale include all the trusses, columns, studs, wooden sliding doors, corrugated steel folding doors, wooden siding, corrugated steel sheeting composing sides and end of shed, steel frames and all material of every description comprising the shed proper on Pier, old No. 11, East river, and the shed extension at inshore end, westerly side, down to the level of the decking of the pier, excepting the backing log, and any portion or portions of the pier proper which may be above the level of said docking of the pier.

The items in the description are believed to be approximately correct, but bidders must satisfy themselves as to the quantity, quality and condition of the material composing the shed to be sold when making their bids.

All the parts of the shed and extension and the materials composing them must be torn down to the level of the decking of the pier and entirely removed.

It is the purpose of the Dock Department to proceed with the improvement of the water front at Pier, old 11, East river, and it is stipulated and agreed that the purchaser of the materials composing the shed and shed extension will make no claim or demand of being interfered with or hampered in the prosecution of the work of removal by virtue of the operations of the Dock Department.

The purchaser will be required to stipulate and agree that no claim for damage will be made nor will it affect the bond furnished for the removal of the structures, in the event of the Dock Department entering or taking possession of any portion of the premises from and after the date set for the removal of the materials composing the shed and extension. The purchaser must also stipulate and agree that no material of any description composing the shed or extension will be allowed to go adrift or to be deposited in the waters adjoining the pier and that the purchaser will conform in every way to all the laws relative to the depositing of materials or permitting same to go adrift, as established by the United States Government, the State and City authorities. The materials to be sold will be those only which comprise the shed and extension and are on the premises at the time of sale, and the purchaser must take the necessary and proper precautions to protect the same.

Pursuant to a resolution of the Commissioners of the Sinking Fund adopted January 25, 1906, the Comptroller was directed to sell the above-described property. The sale will take place under the supervision of the Collector of City Revenue on Friday, February 23, 1906, at 11 a. m. on the premises.

The shed on the premises above described shall be sold for the highest marketable price at public auction upon the following

TERMS AND CONDITIONS.

The shed and appurtenances thereto will be sold to the highest bidder, who must pay immediately cash or a certified check drawn to the order of the Comptroller of The City of New York, and must give either a cash bond or an approved bond of a surety company in the amount of the purchase price as security for the proper performance of the work of removal, which must be completed within thirty working days thereafter.

Failure to remove the said shed and appurtenances, or any portion thereof, within said period will work forfeiture of ownership of such shed or appurtenances, or any portion as shall then be left standing, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and the said City of New

York will, without notice to the purchaser, cause the same to be removed and the cost and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against and from all suits and actions, claims and demands, of every name and description brought against it, them or any of them, and against and from all damages and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work or in guarding the same, or from any improper or defective materials or machinery, implements or appliance used in the removal of the said shed by the said successful bidder, and the bidder's assent and agreement to the above conditions are understood to be implied by the act of bidding.

The Comptroller of The City of New York reserves the right on the day of the sale to withdraw from sale the shed or any part included in the foregoing parcel.

1. Proposals containing conditions other than those herein set forth will not be received or considered.

2. No proposal for stock shall be accepted for less than the par value of the same.

3. Every bidder, as a condition precedent to the reception or consideration of his proposal, shall deposit with the Comptroller in money, or by a certified check drawn to the order of said Comptroller upon a solvent banking corporation, two per cent. of the par value of the stock bid for in said proposal.

No proposal will be received or considered which is not accompanied by such deposit.

NOTICE TO CONTRACTORS.

GENERAL INSTRUCTIONS TO BIDDERS.

The person or persons making a bid or estimate for any services, work, materials or supplies for The City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope, indorsed with the title of the supplies, materials, work or services for which the bid or estimate is made, with his or their name or names and the date of presentation to the President or Board or to the head of the Department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said Department and read, and the award of the contract made according to law as soon thereafter as practicable.

Each bid or estimate shall contain the name and place of residence of the person making the same, and names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below.

No bid or estimate will be considered unless, as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done.
