N200053ZAM, and

The City Planning Commission (CPC), acting as lead agency, issued a Notice of Completion on August 23, 2019 for a Draft Environmental Impact Statement (DEIS) for the Lenox Terrace proposal in accordance with Article 8 of the Environmental Conservation Law. A public hearing on the DEIS will be held, on Wednesday, December 18, 2019, at 10:00 A.M., at the City Planning Commission Hearing Room, located at 120 Broadway, Lower Concourse, New York, NY 10271 in conjunction with the CPC's public hearing, pursuant to ULURP. Comments are requested on the DEIS and will be accepted until Monday, December 30, 2019.

The applicant, Lenox Terrace Development Associates — an affiliate of The Olnick Organization, Inc. — is seeking several land use actions (the "proposed actions") to facilitate construction of five new mixeduse buildings and a connecting podium (the "proposed project") on the existing Lenox Terrace property, a superblock, bounded by West 132nd and 135th Streets and Lenox and Fifth Avenues in the Central Harlem neighborhood of Manhattan, Community District (CD) 10. The new buildings would be constructed on portions of the property that are currently vacant or contain one-story retail structures which would be demolished. The new development would result in approximately 1,642 new dwelling units (DUs), a portion of which would be permanently affordable; approximately 135,500 gross square feet (gsf) of retail space; approximately 15,055 gsf of community facility space; underground parking garages providing a total of 525 parking spaces; and approximately six acres of open space.

The affected area comprises the proposed development site (Block 1730, Lots 1, 7, 9, 25, 33, 36, 40, 45, 50, 52, 64, 68, and 75) as well as four additional lots on the project block and within the rezoning area that automations in the project block and within the rezoning area that are not owned or controlled by the applicant (Block 1730, Lot 16, 19, 55, and 65). One of the sites not owned by the applicant but located within the rezoning area is analyzed as a projected future development site (Block 1730, Lot 65); one site is analyzed as a potential development site (Block 1730, Lots 16 and 19); and one site, which is owned by the City, is not analyzed as a potential or projected development site. The proposed not analyzed as a potential or projected development site. The proposed actions include a zoning map amendment from R7-2/C1-4 to C6-2; a zoning text amendment to establish the affected area as a Mandatory Inclusionary Housing (MIH) area; a large-scale special permit, pursuant to Zoning Resolution (ZR) Section 74-743; an authorization, pursuant to ZR Section 25-631(f)(2) to modify curb cut requirements under ZR Sections 36-532 and 25-631; and a parking reduction special permit, pursuant to ZR Section 74-533 (the "proposed actions"). The proposed actions also would include recordation of a Restrictive Declaration and (E) Designation (E-547) to commit future development of the site in accordance with approvals and any necessary mitigations.

In order to assess the possible impacts of the components of the Proposed Actions, a reasonable worst-case development scenario (RWCDS) was established for both the current (No-Action) and proposed zoning (With-Action) conditions by the build year of 2026, and an interim build year of 2023. The RWCDS includes one Projected Development Site (Block 1730, Lot 65), and one Potential Development Site (Block 1730, Lots 16 and 19). In total, the incremental development that is assumed to occur within the affected area in the With Action scenario by 2026 is as follows: 1,488,758 gsf of residential use, or approximately 1,711 DUs (431 to 514 of which are assumed to be affordable, pursuant to MIH); 39,844 gsf of retail use; 15,056 gsf of community facility space; and up to 222 accessory parking spaces.

The DEIS assesses whether development resulting from the Proposed Actions could result in significant adverse environmental impacts. The DEIS identifies potential significant adverse impacts related to open space, shadows, historic and cultural resources (architectural), transportation (traffic, pedestrian elements) and construction (traffic, pedestrian elements and noise). The DEIS identifies measures that would fully or partially mitigate certain impacts. These potential mitigation measures will be further explored between DEIS and FEIS and will be evaluated in the FEIS. If the proposed mitigation measures are determined to be infeasible, the significant adverse impacts would remain unmitigated. The DEIS also identifies unavoidable significant adverse impacts. The DEIS considered two alternatives — a No Action Alternative and a No Unmitigated Significant Adverse Impact Alternative.

Copies of the Draft Environmental Impact Statement and Final Scope of Work for the proposed project may be obtained from the Environmental Assessment and Review Division, New York City Department of City Planning, 120 Broadway, 31st Floor, New York, NY 10271, Olga Abinader, Director (212) 720-3493; or from the Mayor's Office of Environmental Coordination, 100 Gold Street, 2nd Floor, New York, NY 10038, Hilary Semel, Director and General Counsel; and on the New York City Department of City Planning's website, at http:// www.nyc.gov/html/dcp/html/env_review/eis.shtml.

ARTICLE VII

ADMINISTRATION

Chapter 8

Special Regulations Applying to Large-Scale Residential Developments

78-00

GENERAL PURPOSES, DEFINITIONS AND GENERAL PROVISIONS

78-01

General Purposes

The regulations set forth in this Chapter are designed to deal with certain types of problems which arise only in connection with largescale residential developments and to promote and facilitate better site planning and community planning through modified application of the district regulations in such developments.

For large-scale residential developments involving several zoning lots but planned as a unit, the district regulations may impose unnecessary rigidities and thereby prevent achievement of the best possible site plan within the overall density and bulk controls. For such developments, the regulations of this Chapter are designed to allow greater flexibility for the purpose of securing better site planning for development of vacant land and to provide incentives toward that end while safeguarding the present or future use and development of surrounding areas and, specifically, to achieve more efficient use of increasingly scarce land within the framework of the overall bulk controls, to enable open space in large-scale residential developments to be arranged in such a way as best to serve active and passive recreation needs of the residents, to protect and preserve scenic assets and natural features such as trees, streams and topographic features, to foster a more stable community by providing for a population of balanced family sizes, to encourage harmonious designs incorporating a variety of building types and variations in the siting of buildings, and thus to promote and protect public health, safety and general welfare.

78-03 Applicability of This Chapter

#Large-scale residential developments# are governed by all the #use#, #bulk#, off-street parking and loading, and other applicable regulations of this Resolution, except for such special provisions as are specifically set forth in this Chapter and apply only to such #large-scale residential developments#. However, the Quality Housing Program is inapplicable in #large-scale residential development#.

Any #large-scale residential development# having a total of, at least 500 #dwelling units# shall be subject to the provisions of Section 78-11 (General Provisions), relating to Provision of Public Facilities in Connection with Large-Scale Residential Developments.

#Large-scale residential developments# within the #waterfront area# shall be subject to the provisions of Section 62-132 (Applicability of Article VII, Chapters 4, 8 and 9).

The contracting opportunities for construction/construction services and construction-related services that appear in the individual agency listings below reflect that commitment to excellence."

HHS ACCELERATOR

To respond to human services Requests for Proposals (RFPs), in accordance with Section 3-16 of the Procurement Policy Board Rules of the City of New York ("PPB Rules"), vendors must first complete and submit an electronic prequalification application using the City's Health and Human Services (HHS) Accelerator System. The HHS Accelerator System is a web-based system maintained by the City of New York for use by its human services Agencies to manage procurement. The process removes redundancy by capturing information about boards, filings, policies, and general service experience centrally. As a result, specific proposals for funding are more focused on program design, scope, and budget.

Important information about the new method

- Prequalification applications are required every three years.
- Documents related to annual corporate filings must be submitted on an annual basis to remain eligible to compete.
- Prequalification applications will be reviewed to validate compliance with corporate filings, organizational capacity, and relevant service experience.
- Approved organizations will be eligible to compete and would submit electronic proposals through the system.

The Client and Community Service Catalog, which lists all Prequalification service categories and the NYC Procurement Roadmap, which lists all RFPs to be managed by HHS Accelerator may be viewed at http://www.nyc.gov/html/hhsaccelerator/html/ roadmap/roadmap.shtml. All current and prospective vendors should frequently review information listed on roadmap to take full advantage of upcoming opportunities for funding.

Participating NYC Agencies

HHS Accelerator, led by the Office of the Mayor, is governed by an Executive Steering Committee of Agency Heads who represent the following NYC Agencies:

Administration for Children's Services (ACS) Department for the Aging (DFTA) Department of Consumer Affairs (DCA) Department of Corrections (DOC) Department of Health and Mental Hygiene (DOHMH) Department of Homeless Services (DHS) Department of Probation (DOP) Department of Small Business Services (SBS) Department of Small Business Services (SBS) Department of Youth and Community Development (DYCD) Housing and Preservation Department (HPD) Human Resources Administration (HRA) Office of the Criminal Justice Coordinator (CJC)

This amendment also allows agencies to adjust or suspend this price preference with the approval of the Citywide Chief Procurement Officer ("CCPO"). This amendment exercises authority granted to the City by Chapter 504 of the Laws of 2017 and Chapter 19 of the Laws of 2018 and codified under New York City Charter Section 311(i)(2).
- Rule changes related to an M/WBE scoring preference applicable to competitive sealed proposals (§§ 3-5 below). This amendment to the PPB Rules expands

application of the best value competitive sealed proposal point or price preference provisions to both City and State-certified M/WBEs and mandates its usage for both professional and construction-related consulting services. Additionally, this amendment also allows agencies to adjust or suspend this point or price preference with the CCPO's approval. This amendment exercises authority granted to the City by Chapter 504 of the Laws of 2017 and Chapter 19 of the Laws of 2018 and codified under New York City Charter Section 311(i)(2).

• Rule changes related to expansion of the M/WBE Noncompetitive Small Purchase Mechanism (§§ 6-7 below). This amendment to the PPB Rules allows agencies to use the M/WBE Noncompetitive Small Purchase mechanism to make purchases not in excess of \$500,000. within General Limit

^a FYs 2021 through 2023 debt limits are based on the NYC Comptroller's Office's forecasts of assessed value and related full market value of real property.

^b Net adjusted for Original Issue Discount, Capital Appreciation Bonds, GO bonds issued for the water and sewer system and Business Improvement District debt.

^c Reflect City-funds capital commitments as of the FY 2020 Adopted Capital Commitment Plan (released in October 2019) and includes cost of issuance and certain Inter-Fund Agreements. In July 2009, the State Legislature authorized the issuance of TFA Future

Tax Secured bonds above the initial authorization of \$13.5 billion, with the condition that this debt would be counted against the general debt limit. Thus, City capital commitments will be funded with TFA debt as well.

Note: The Debt Affordability Statement released by the City in April 2019 presents data for the last day of each fiscal year, June 30th, instead of the first day of each fiscal year, July 1, as reflected in this table. The City's Debt Affordability Statement forecasts that indebtedness would be below the general debt limit by \$31.1 billion, at the end of FY 2020.

BACK-UP FUEL RESERVES AND STORAGE - Competitive Sealed Bids - PIN# 857BACKUP-FUEL - Due 12-10-19 at 10:00 A.M.

DCAS' Office of Citywide Procurement, proposes to procure one million gallons of #2 Ultra Low Sulfur Diesel Fuel (#2ULSD) and lease space for storage of the #2ULSD fuel, which will be used as back-up fuel reserves during "emergency/critical" situations. The purpose of this contract guarantees the City of New York is prepared for an emergency fuel situation; minimizing disruptions, eliminating the risk of unexpected downtime and ensuring the business continuity of city agencies as much as can be achieved. As a result, the City of New York is seeking to identify contractors who can supply and store the #2ULSD fuel; which is intended for rack pick-up only by designated NY City trucks. Usage of this contract will be contingent upon an event, at the sole discretion of DCAS, when normal and regular fuel delivery is interrupted. Awarded vendor will be responsible for providing and storing the strategic fuel reserves out of harm's way, inside a designated terminal storage tank. This back-up fuel is to be readily available for pick-up, at DCAS' request. The City will utilize its own fleet of designated vehicles (trucks), including FDNY, NYPD, DSNY, DOT, PARKS, etc. DCAS will delegate which trucks are to be granted access to vendor's terminals, upon contract award.

The back-up fuel reserve supply is to be stored at the vendor's terminal location for a period of six-(6) months and is to be rotated regularly, preventing the circulation of "stale" fuel. Any inventory of back-up fuel remaining inside storage tanks following the six months, will be depleted as soon as possible, within the subsequent weeks as arranged by DCAS.

Contract pricing will be based on the #2ULSD fuel price/per gallon and the monthly lease price/per barrel.

A Pre-Solicitation Meeting will be held, to give interested vendors an opportunity to pose questions for further clarification. The meeting is scheduled for:

Date: Tuesday, December 10, 2019

Time: 10:00 A.M. - 12:00 P.M.

Location: DCAS, 1 Centre Street, 18th Floor South, Bid Room, New York, NY 10007.

All questions should be forwarded via email, to the attention of Alvin Pettway at: apettway@dcas.nyc.gov.

Use the following address unless otherwise specified in notice, to secure, examine or submit bid/proposal documents, vendor prequalification and other forms; specifications/blueprints; other information; and for opening and reading of bids at date and time specified above.
