The Comptroller presented the following communications:

NEW YORK, July, 1878.

Hon. SMITH ELY, JR., Mayor, and Chairman Board of Estimate and Apportionment:

and Chairman Board of Estimate and Apportionment:

SIR—The undersigned property owners and occupants of houses on the line of Hanover street, between Wall street and Hanover square, respectfully submit that the pavement on that street, part of which is wood and the remainder cobble-stone, is in very bad condition, and should be replaced by a new pavement; and that a noiseless pavement of a durable character would be very desirable and beneficial for the transaction of the class of business carried on in that vicinity.

With the view of securing such a pavement your petitioners have ascertained that "the asphalt and stone paving blocks" of the "National Stone Block Company," has been laid and tested in several cities, iucluding Philadelphia, San Francisco, St. Louis and Chicago, and has been found durable, smooth and noiseless; and that it is recommended by eminent engineers and other gentlemen of character and responsibility. The company offers to put down this pavement at a very low cost—about one-half their regular price, in order to introduce it in this city and demonstrate its outlities.

Your petitioners applied to the Commissioners of Public Work to have this pavement put down in Hanover street, but were informed by him that, while he approved of the pavement, and considered the offer advantageous, he was prohibited from accepting it by the following provision of section 115, of the Charter of 1873: "Except for repairs no patented pavement shall be laid, and no patented article shall be advertised for, contracted for or purchased, except under such circumstances that there can be a fair and reasonable opportunity for competition, the conditions for which shall be prescribed by the Board of Estimate and Apportionment."

Your petitioners, therefore, respectfully request that your Board will take the necessary action to enable the Commissioner to put down the "asphalt and stone paving blocks" above mentioned in Hanover street.

DEPARTMENT OF PUBLIC WORKS, COMMISSIONER'S OFFICE, ROOM 19, CITY HALL, NEW YORK, July 19, 1878.

Hon. SMITH ELY, JR., Mayor,

and Chairman Board of Estimate and Apportionment:

SIR—I am acquainted with the facts set forth in the petition of Messrs. Brown, Brothers & Co. and others, that your Board would authorize this Department to lay the "asphalt and stone paving blocks" in Hanover street.

From the practical tests to which this pavement has been subjected in other cities, especially in Philadelphia, where it has been in use for the past six years, I am satisfied that in the proposed

location it will answer a good purpose. The price at which it is offered to be laid in Hanover street is very low, and the street is much in need of repaving. I would therefore recommend that the request of the petitioners be granted.

Very respectfully,
ALLAN CAMPBELL,
Commissioner of Public Works. And submitted the following report:
FINANCE DEPARTMENT—COMPTROLLER'S OFFICE,
July 26, 1878, July 26, 1878.

To the Board of Estimate and Apportionment:

A communication from the Commissioner of Public Works, dated July 19, 1878, recommending favorable action by this Board upon an accompanying petition of certain property-owners and occupants of houses for laying a pavement in Hanover street, between Wall street and Hanover square, with "the asphalt and stone paving blocks" by the "National Stone Block Company," has been received, and is now submitted for the action of the Board.

I respectfully represent that patent pavements have heretofore been disastrous failures in this city. In many of the principal streets and avenues trials of various kinds of pavements have been made at immense expense upon representations and supposed evidence of their great value and superiority. The failure of these experimental pavements has subjected the city and property owners to enormous loss and damage, the condition of the streets in many cases being almost impassable for a long time after the pavements were laid, occasioning great public inconvenience and annoyance as well as injury to property and private rights.

Stone-block pavements are found by experience to be the only satisfactory and reliable pavements for the climate and thoroughfares of this city.

The Charter of 1873 contains stringent provisions against the use of patent pavements, and in

The Charter of 1873 contains stringent provisions against the use of patent pavements, and in view of this state of the law and the past experience of this city in regard to them, it would seem to be inexpedient that the Board of Estimate and Apportionment should give the sanction of its authority to lay such a pavement as is asked for in said petition and recommended by the Commissioner of

Respectfully,

On motion, the report was adopted and the request refused.

The Comptroller presented the following communication, referred to him at meeting of July 19,

DEPARTMENT OF PUBLIC WORKS, COMMISSIONER'S OFFICE, ROOM 19, CITY HALL, NEW YORK, July 11, 1878.

Hon. SMITH ELY, Jr., Mayor,

and Chairman of the Board of Estimate and Apportionment:

SIR—In order to enable this Department to make requisition for the payment of a bill for services of Inspector of plumbing work on the Third District Court-house, I have to request that the sum of one hundred and ninety dollars and forty-one cents (\$190.41) be transferred from the appropriation for "Lamps and Gas for 1877," for which it is not needed, to the appropriation for "Third District Court-house." This Department had no knowledge of this claim when asking for the transfer of \$1,500 to this appropriation in December last. The Inspector employed by the late Commissioners for the erection of the Third District Court-house, ceased his services on the 31st December, 1876, when the terms of the Commissioners expired. In order that the city's interests might be protected in the matter of the plumbing work then in progress, the architects, Messrs. Withers & Vaux, who had sole charge of the construction of the building from January 1, 1877, to who had sole charge of the construction of the building from January I, 1877, to deemed it necessary and proper to employ a competent person or persons to inspect the work. They certify that the services were performed, and this Department is also convinced that they were properly performed, and should be paid.

Very respectfully,

ALLAN CAMPBELL, Commissioner of Public Works.

And submitted the following report:

To the Board of Estimate and Apportionment:

In the matter of the application of the Commissioner of Public Works, dated July 11, 1878, requesting the transfer of \$190.41 from the appropriation for "Lamps and Gas" for 1877, to the appropriation for "Third District Court-house," referred to the Comptroller at the last meeting of the Board, I respectfully recommend that the Secretary be directed to inform the Commissioner of Public Works that if he desires a transfer of the amount for the purpose named from the appropriation for "Lamps and Gas" for 1878, the Board will comply with his request to that effect as early as practicable.

Respectfully,

Which was referred to the Secretary, with request to communicate with the Commissioner of Department of Public Works.

By unanimous consent the rule adopted at meeting of June 23, 1874. relating to calls of meetings, was suspended in order to act upon the issue of Consolidated Stock of the City of New
