#### REDUCTION OF ASSESSMENT ON SEVENTY-SIXTH STREET PARK, MANHATTAN.

Steinkamp in support of the application, the following resolution was adopted: Resolved, That so much of the resolution adopted by the Board of Street Opening and Improvement on the 25th day of June, 1897, as provides "that the proportion of the expense to be incurred in acquiring title to the land for the Public Park at the foot of East Seventy-sixth street, to be assessed upon the property and persons and estates to be benefited by the acquisition and construction of such park, be and the same is hereby determined at twenty-five per cent., or one quarter the cost thereof, as fair and equitable," is hereby amended so as to read "that the entire cost and expense to be incurred in acquiring title to the land for the Public Park at the foot of East Seventy-sixth street, shall be borne and paid by The City of New York."

#### REDUCTION OF ASSESSMENT ON ONE HUNDRED AND TENTH STREET, MANHATTAN.

The hearing in this matter was adjourned for four weeks.

The following communication was placed on file:

NEW YORK, August 21, 1901.

Board of Public Improvements, No. 19 Park Row, New York City:

GENTLEMEN—I am the owner of various pieces of property on Amsterdam avenue, One Hundred and Eighth and One Hundred and Ninth streets, which, under the report of Commissioners in the matter of acquiring title to One Hundred and Tenth street, from the Circle at Fifth avenue to Seventh avenue, etc., are marked for assessment.

One-half of the cost of improvement, by a resolution of the Board of Public Improvements, is to be borne by the City. I beg most respectfully to submit that the improvement is one which should be paid for by the City alone. My property has already been assessed for the widening of One Hundred and Tenth street up to Central Park, West. The assessment paid amounted to upwards of \$2,730, and no further benefit from the widening of One Hundred and Tenth street can ever be derived by my property. The improvement made is really a parkway of great benefit to the city at large, in the sense that it is an improvement to Central Park and to the system of parks extending from Central Park through Morningside Park and to Riverside Park. Viewed from this standpoint which, I submit, is the only proper one, all the citizens of the city equally enjoy the benefit of this improvement in their use of the parks, and no particular benefit whatever is conferred upon property in the vicinity of One Hundred and Eighth and One Hundred and Ninth streets and Amsterdam avenue.

As the matter stand at the present time it would appear that the Commissioners of Estimate have no alternative but to charge property-owners with one-half of the cost of this improvement. The only relief from such an injustice lies with the Board of Public Improvements. While it is true that the individual who is about to be assessed usually makes complaint, still I beg to say that this is the first occasion that I have appeared to complain in a matter of this character. I feel convinced that an impartial consideration of this subject will clearly show that the improvement is essentially one for the benefit of the city at large, and consequently its cost should not be imposed upon property-owners whose property receives absolutely no benefit whatever other than as sharing the general benefit conferred upon the city.

Yours respectfully,

HENRY F. MILLER.

#### CHANGE OF GRADE OF EIGHTY-THIRD AND EIGHTY-FOURTH STREETS, BROOKLYN.

This matter was laid over until the first Wednesday in October.

#### OPENING EASTERN BOULEVARD, BRONX.

The following resolutions were adopted:

"Resolved, That the Board of Public Improvements of The City of New York, in pursuance of the provisions of section 970 of chapter 378, Laws of 1897, deems it for the public interest that the title to the lands and premises required for the opening and extending of Eastern Boulevard, from Bronx river to Westchester creek, in the Borough of The Bronx, City of New York, should be acquired by The City of New York.

"Resolved, That the Board of Public Improvements, deeming it for the public interest so to do, hereby requests the Corporation Counsel to make application to a Special Term of the Supreme Court for the appointment of Commissioners of Estimate and Assessment, and to take the necessary proceedings, in the name of The City of New York, to acquire title, whenever the same has not heretofore been acquired, for the use of the public, to the lands, tenements and hereditaments that shall or may be required for the purpose of opening and extending Eastern Boulevard, from Bronx river to Westchester creek, in the Borough of The Bronx, City of New York.

"Resolved, That one-half of the cost and expense of said proceedings shall be assessed upon the property deemed to be benefited thereby, and one-half of the cost and expense shall be borne and paid by the city at large."

Affirmative—Commissioner of Water Supply, Commissioner of Highways, Commissioner of Bridges, President of the Borough of The Bronx and President of the Board.

Negative—Comptroller.

#### OPENING EAST ONE HUNDRED AND SEVENTY-FIFTH STREET, BRONX.

The following communication from the President of The Bronx was read:

THE CITY OF NEW YORK,  
OFFICE OF THE PRESIDENT OF THE BOROUGH OF THE BRONX,  
MUNICIPAL BUILDING, CROTONA PARK,  
September 6, 1901.

Hon. MAURICE F. HOLAHAN, President, Board of Public Improvements:

DEAR SIR—I hereby beg to inform you that my attention has been called to the fact that the resolution adopted on June 18, 1897, by the Board of Street Opening and Improvement, fixed the

date of vesting of title in the matter of East One Hundred and Seventy-fifth street for November 29, 1897, but instead of having it read "East One Hundred and Seventy-fifth street, from Third avenue to Boston road," made it read "East One Hundred and Seventy-fifth street, from Third avenue to Park avenue."

The "preamble" part and the "technical description" is all right. Kindly have the resolution corrected immediately, as the contract for regulating and grading this street has been awarded.

Respectfully,

LOUIS F. HAFFEN.

The following resolution was then adopted:

"Whereas, The Board of Street Opening and Improvement on the 3d day of January, 1896, adopted a resolution directing that, upon a date to be thereafter more fully specified, not less than six months after the filing of the oaths of the Commissioners of Estimate and Assessment who might be appointed by the Supreme Court in proceedings for the acquisition of title to East One Hundred and Seventy-fifth street, from Third avenue to Boston road, in the Twenty-fourth Ward, the title to any piece or parcel of land lying within the lines of such East One Hundred and Seventy-fifth street from Third avenue to Boston road, so required, should be vested in the Mayor, Aldermen and Commonalty of The City of New York; and

"Whereas, said Board received written notice from the Corporation Counsel that Commissioners of Estimate and Assessment have been appointed by the Supreme Court in proceedings to acquire title to said East One Hundred and Seventy-fifth street, from Third avenue to Boston road, and that the oaths of said Commissioners of Estimate and Assessment were duly filed, as required by law, on the 18th day of May, 1897; therefore be it

"Resolved, That the Board of Public Improvements of The City of New York, in pursuance of the provisions of section 990 of chapter 378, Laws of 1897, directs that, upon the 11th day of September, 1901, the title to each and every piece or parcel of land lying within the lines of said East One Hundred and Seventy-fifth street, from Third avenue to Boston road, in the Borough of The Bronx, City of New York, so required, shall be vested in The City of New York."

Affirmative—Comptroller, Commissioner of Water Supply, Commissioner of Highways, Commissioner of Bridges, President of the Borough of The Bronx and President of the Board.

Negative—None.

Hon. MAURICE F. HOLAHAN, President, Board of Public Improvements:

DEAR SIR—Referring to communications addressed to your Board by the President of the Borough of Queens under date of March 5, March 21 and July 6, 1901, and which embody resolutions of the Local Board of that borough, asking that permission be given to the Citizens' Water Supply Company to extend its water-mains in certain streets and avenues in that borough, I have the honor to report that there is no objection to the granting of the permission for water-main extension in the following streets, etc.:

The permission is to be given with the usual condition against liability on the part of the City for hydrant rental.

Very respectfully,

—provided, however, that this permit is given and accepted upon the understanding, and the said Water company by accepting and acting under this permit agrees, that no hydrants shall be erected by said company upon the line of the extension of its water-mains, for the tearing up of the streets in the construction of which this permit is given; and no payment for any such hydrants shall be demanded of said City, excepting where such hydrants are ordered by the said City or its Water Department in writing, and provision for the payment thereof is made by the Board of Estimate and Apportionment of said city.

Resolved, That the Commissioner of Highways is hereby authorized to issue a permit to the Citizens' Water Supply Company for opening the above streets, upon the presentation to him of the permit of the Commissioner of Water Supply.

Affirmative—Comptroller, Commissioner of Water Supply, Commissioner of Highways, Commissioner of Bridges and President of the Board.

Negative—None.

#### REPORTS FROM THE COMMISSIONER OF HIGHWAYS.

The following communication from the Commissioner of Highways was read:

DEPARTMENT OF HIGHWAYS,  
NEW YORK, September 10, 1901.

Hon. MAURICE F. HOLAHAN, President, Board of Public Improvements:

DEAR SIR—I herewith transmit a copy of a letter from Messrs. Stephens & O'Rourke, applying for the remission of the overtime under their contract, dated December 30, 1897, for the construction of the Melrose Avenue Viaduct, which improvement has been completed and accepted by this Department.

The time occupied in carrying out the work is 748 days, the contract time is 200 days; for stormy weather an allowance of 79 days was made; also an additional allowance of 74 days on account of the suspension of masonry work. Subtracting the three latter items of time, amounting to 353 days, from the time occupied, 748 days, leaves 395 days' overtime.

As provided by Article F of the contract, the contractors had a right to assume that they would be ordered to begin work within ten days from December 30, 1897, the date of the execution of the contract. However, in consequence of the City not having fully acquired title to the street, the contractors were not ordered to begin work until July 10, 1899. They claim that this delay interfered with all the arrangements they had perfected for commencing and completing the work within the time stipulated in the contract. They further state that when the contract was signed the steel market was in such a condition that no difficulty was experienced in making a sub-contract for the construction of the superstructure when the masonry would be completed. At the same time, the condition of the stone market was such that a contract was made providing for the cutting and furnishing of the stone as fast as it could be laid. By the time the work was ordered on, conditions had changed so materially that it was impossible to get prompt deliveries of either steel or stone, and delays of nearly a year occurred.

These facts are corroborated by the report of the Chief Engineer of this Department, Borough of The Bronx, a copy of which is also herewith inclosed.

I concur in the view of the Chief Engineer that, under the circumstances, no penalty for overtime should be imposed in this case, and I recommend that the overtime of 395 days be canceled.

Very respectfully,

JAMES P. KEATING, Commissioner of Highways.

(Copy.)

CITY OF NEW YORK,  
DEPARTMENT OF HIGHWAYS—BOROUGH OF THE BRONX,  
August 28, 1901.

Hon. JAMES H. MALONEY, Deputy Commissioner of Highways:

DEAR SIR—I return communication of Mr. J. D. Creamer, Secretary, with letter of Stephens & O'Rourke attached, in which the latter ask for an extension of time sufficient to cover the over-

time on their contract for constructing the Melrose Avenue Viaduct, and in reporting I beg to say that the time statement of this work is as follows:

	Days.
Inspector's time (consecutive).....	748
Time allowed.....	200
Stormy.....	79
Masonry suspended.....	74
	353
Overtime.....	395

With regard to the claims made by the contractors for delays on this contract, I would say that their statements, so far as the date of ordering the work ahead is concerned, are correct. The contractor was ordered to begin work July 10, 1899. I understand that there was some trouble with the title proceeding in this matter which necessitated the delay in ordering the work ahead. The contract was executed under date of December 30, 1897, and under the provisions of Article F of the contract the contractor had the right to assume that the work would be commenced within ten days of the date thereof; this Article reads as follows:

F. "The party of the second part will commence the work herein agreed to be performed by him within ten days from the day of the date thereof, etc., etc."

The claim of the contractors that this delay caused them difficulties in their sub-contracts for steel and stone work is a matter of general information, and I have no doubt that they were materially affected in these particulars. When the work was ordered ahead, the contractors proceeded with reasonable despatch, and with the exception of the delays in securing granite and steel, the work was carried on with expedition and in a satisfactory manner. The work, as a whole, has been completed in substantial compliance with the contract, and is, in all respects, a very creditable piece of construction work.

Under the circumstances I think that the contractors should not be charged a penalty in this case.

Respectfully,  
(Signed) JOSIAH A. BRIGGS, Chief Engineer, Borough of The Bronx.  
(Copy.)

NEW YORK, August 20, 1901.

Hon. JAMES P. KEATING, Commissioner of Highways, City of New York:

DEAR SIR—We have completed the performance of our contract bearing date December 30, 1897, for the construction of the Melrose Avenue Viaduct, connecting Melrose avenue with Webster avenue, and the same has been accepted by your Department and is now being used by the public.

The order for commencement of work on this contract was delayed until July 10, 1899, the City not having until about that time acquired title to land, and in consequence of this delay all the arrangements which had been heretofore perfected for commencing and completing the work within the time required by the contract were so interfered with that additional time was required for the performance of the work.

When the contract was signed the steel market was in such a condition that no difficulty was experienced in making a sub-contract for the construction of the superstructure when the masonry would be completed. The condition of the stone market at that time was such that a contract was made providing for the cutting and furnishing of the stone as fast as the same could be laid. When the work was ordered to proceed, the conditions had so changed that prompt deliveries of either steel or stone were impossible to get, and we were in consequence delayed in receiving these materials for nearly a year. This fact of changed conditions during this period, and the delays in deliveries of materials of all kinds, is well known. It affected all kinds of construction, not only of bridges, but also of buildings, of which many down town stood idle for more than six months awaiting the delivery of even small orders for I beams that a year previously would have been waiting when wanted.

We accepted your order to proceed with this work in good faith, and have carried out the contract in such a manner that even the officers of your own Department admit that the work could not have been better or more faithfully performed. Nor was complaint ever heard of the speed at which it went along.

In consequence of the additional time unavoidably required by the conditions, which could not be foreseen at the time the contract was made by either the City or ourselves, we ask you now to grant an extension of time sufficient to cover the additional time required for the completion of the contract.

Relying upon your justice to take into account the conditions of delay beyond our control under which the contract was carried out to such a successful and satisfactory completion, we are

Most respectfully,  
(Signed) STEPHENS & O'ROURKE.

The following resolution was then adopted:

Resolved, by the Board of Public Improvements, That the Commissioner of Highways be and he is hereby authorized to remit the penalty for three hundred and ninety-five (395) days' overtime on the contract of Messrs. Stephens & O'Rourke, contractors for the construction of the Melrose Avenue Viaduct, in the Borough of The Bronx, said overtime not having been caused through any fault of the contractor.

Affirmative—Commissioner of Water Supply, Commissioner of Highways, Commissioner of Bridges, President of the Borough of The Bronx and President of the Board.

Negative—None.

The Comptroller was excused from voting.
