There have also been presented newspaper bills for advertising in the years 1878 and 1879, for the payment of which there is no provision. To pay these bills for advertising, as provided by law, it will be necessary for the Board of Estimate and Apportionment to make an appropriation. The amount to be provided, including the arrearages of the year 1880, is estimated at..... 15,000 00

CHAPTER 726, LAWS OF 1873.

AN ACT to provide for the more effectual extinguishment of fires in the City of New York.

Passed June 12, 1873; three-fifths being present.

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

Section 1. The Fire Commissioners of the City of New York are hereby empowered and directed to organize in the Fire Department of the City of New York a corps to be known as the Corps of Sappers and Miners. Said corps shall be composed of not exceeding three members, either officers or private firemen, of each company in said Fire Department, and said members shall be appointed by said Fire Commissioners upon the nomination of the Chief Engineer of said Fire Department.

Sec. 2. The said Fire Commissioners shall appoint a suitable officer, who shall be skilled in the use of explosives, whose duty it shall be to instruct and drill said corps in the use of explosives, and to give said corps such other instruction as may be required to qualify them to effectually discharge the duties imposed upon them by this act. Such officer shall receive an annual salary of two thousand dollars, and such salary shall be raised and paid in the same manner as the salaries of the other officers appointed by the said Fire Commissioners.

Sec. 3. Whenever, under and by virtue of the acts relating to the extinguishment of fires in the said City of New York, the destruction or pulling down of any building or buildings shall be deemed necessary, and shall be ordered by the engineer in com-

mand at any fire in said city, it shall be the duty of said corps, or any member or members thereof, by the direction of the said engineer in command at such fire, to level and destroy such building or buildings by the use of explosives, for the purpose of arresting the spread of such fire, and it shall be lawful for them to enter and take possession of the same for such purposes.

Sec. 4. The said Fire Commissioners shall establish, in the City of New York, one or more depots for the storage and safe-keeping of such explosives as may be required for the use of said corps, and may limit the quantity of any such explosives to be kept at any one of such depots.

Sec. 5. All acts or portions of acts inconsistent with the provisions of this act are hereby repealed.

For the Bureau of Inspection of Buildings the amount of the total expenditure is limited by section 1 of chapter 521 of the Laws of 1880, to the amount asked for, \$36,000 (exclusive of \$4,000 for the salary of the Attorney to the Department, provided for in the same section), which, judging by the experience gained since its incorporation with this Department, will be needed to secure the efficient administration of the duties devolving upon this very important bureau.

Under the head of Apparatus, Supplies, etc., \$30,000 more is asked for than was allowed for the current year, the excess being accounted for in the several items, as follows:

\$10,000 for apparatus made necessary by the conversion of Chemical Engine No. 4 into a steam engine company, and the location of a new steam engine in the quarters of Hook and Ladder Co. No. 16, in addition to the usual number of new engines, tenders, trucks, boilers, etc., annually required to maintain the apparatus in proper condition.

\$2,000 for coal and wood;
1,000 for gas;
2,000 for general supplies;
2,000 for horse feed and straw;
2,500 for machine and paint shop supplies;
500 for horseshoeing;

—to provide for the advance in prices.
\$2,000 for Contingent Expenses—Bureau of Buildings;
3,000 for horses, made necessary by the addition of ten new horses required in the organization of new companies, etc., before referred to.

\$5,000 for hose shop supplies and new hose, made necessary by the increased quantity of new hose required during the coming year.

For building 3 new engine-houses, \$30,000, and for alteration and repair of 4 engine-houses, \$20,000 was allowed the Department for the current year, but it was found that but two could be built with the first named amount, and that the \$20,000 will suffice only for altering and repairing two instead of four houses, leaving then a balance of less than \$5,000, which is not sufficient for the alteration of a third house. The amounts asked for 1881 for these purposes are absolutely required, and though the cost per house may seem large, it must be considered that the houses thus proposed to be built and altered are carefully planned, and will be so substantially built that what may now seem an extraordinary expenditure, will in the end be found to be consonant with true economy.

Referring to the last items for new engines and a floating engine, the following is submitted for the consideration of the Board of Estimate and Apportionment:

The seven fourth-class engines are to be substituted for heavier engines now in use in the upper part of the city, where the streets are in an unfinished state, with heavy grades and long distances to stations, in order to facilitate prompt responses to alarms. The heavier engines can be used advantageously in other parts of the city.

The new floating engine is required because one is not sufficient for the present and prospective needs of the Department. The one now belonging to the Department has often demonstrated its usefulness, but it has also occurred that its services were greatly needed when it was laid up for necessary repairs, and thus the want of another has been shown. Having two, one could be stationed centrally on each side of the city to respond to calls with greater promptness, and at least one would be available at all times. It is proposed to build a new boat of light draught, with powerful engines to ensure great speed and largely increased pumping capacity; a submerged ram for sinking vessels on fire, if that method should be necessary, with pumps of the best and largest practicable size, and generally with all the improvements suggested by past experience. These powerful floating engines are also extremely useful in case of protracted fires upon or within working distance of the river front, in taking the place of a number of land engines, which, being relieved, can be returned to quarters and prepared for other calls to duty; and the saving which may be effected by their use at a single fire, may exceed the proposed cost of the one herein estimated for.

NEW YORK, October 6, 1880.

To the Commissioners of the Sinking Fund:

GENTLEMEN—I am informed that proceedings have been taken, under chapter 625 of the Laws of 1871, and chapter 521 of the Laws of 1880, against the building known as Fulton Market, and that a precept directing the Fire Commissioners to take down and remove said building has been, or is about to be made by one of the Judges of the Court of Common Pleas, in conformity with the provisions of said statute.

Will you please inform me if it is your wish to be represented in these proceedings by this Department, and if so, what position you desire to take in the matter.

Yours respectfully,

WILLIAM C. WHITNEY, Counsel to the Corporation.

The communication was ordered on file; whereupon the Mayor submitted the following resolution, which, on motion, was adopted, viz.:

Resolved, That the Counsel to the Corporation be requested to appear before the Commissioners of the Sinking Fund in the proceedings which have been taken under chapter 625 of the Laws of 1871, and chapter 521 of the Laws of 1880, in relation to the Fulton Market buildings, and that the position the Commissioners of the Sinking Fund desire him to take on their behalf is that the precept shall not conform to the report of the surveyors, that the building be immediately taken down, but that it shall permit such parts of the market to be repaired as can be made secure without delay and at reasonable expense.

The Comptroller submitted the following communications, which were laid over for consideration and ordered to be printed in the minutes, viz.:

Delivery will be required to be made from time to time, at such times and in such quantities as may be directed by the said Department; but the entire quantity will be required to be delivered on or before thirty (30) days after the date of the contract.

Any bidder for this contract must be known to be engaged in and well prepared for the business, and must have satisfactory testimonials to that effect; and the person or persons to whom the contract may be awarded will be required to give security for the performance of the contract by his or their bond, with two sufficient sureties, in the penal amount of fifty (50) per cent. of the estimated amount of the contract.

Each bid or estimate shall contain and state the name and place of residence of each of the persons making the same; the names of all persons interested with him or them therein; and if no other person be so interested, it shall distinctly state that fact; that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud; and that no member of the Common Council, head of a Department, Chief of a Bureau, Deputy thereof or Clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate, that the several matters stated therein are in all respects true. Where more than one person is interested, it is requisite that the verification be made and subscribed by all the parties interested.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in the City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person making the estimate, and he will, on its being so awarded, become bound as his sureties for its faithful performance; and that if he shall omit or refuse to execute the same, they shall pay to the Corporation any difference between the sum to which he would be entitled on its completion and that which the Corporation may be obliged to pay to the person or persons to whom the contract may be awarded at any subsequent letting; the amount in each case to be calculated upon the estimated amount of the work by which the bids are tested. The

consent above-mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of this contract over and above all his debts of every nature, and over and above his liabilities, as bail, surety, or otherwise; and that he has offered himself as a surety in good faith and with the intention to execute the bond required by section 27 of chapter 8 of the Revised Ordinances of the City of New York, if the contract shall be awarded to the person or persons for whom he consents to become surety. The adequacy and sufficiency of the security offered to be approved by the Comptroller of the City of New York.

Should the person or persons to whom the contract may be awarded neglect or refuse to accept to contract within forty-eight (48) hours after written notice that the same has been awarded to his or their bid or proposal, or if he or they accept but do not execute the contract and give the proper security, he or they shall be considered as having abandoned it and as in default to the Corporation, and the contract will be readvertised and relet as provided by law.

The quality of the articles, supplies, goods, wares, and merchandise must conform in every respect to the samples of the same respectively at the office of the said Department. Bidders are cautioned to examine the specifications for particulars of the articles, etc., required, before making their estimates.

Bidders will state the price for each article, by which the bids will be tested.

Bidders will write out the amount of their estimate, in addition to inserting the same in figures.

Payment will be made by a requisition on the Comptroller, issued on the completion of the contract, or from time to time as the Commissioners may determine.

The Department of Public Charities and Correction reserves the right to decline any and all bids or estimates if deemed to be for the public interest, and to accept any bid or estimate as a whole, or for any one or more articles included therein. No bid or estimate will be accepted from, or a contract awarded to, any person who is in arrears to the Corporation upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.
