Hon. ROBERT A. VAN WYCK, Mayor :

SIR—I have the honor to inclose herewith the quarterly report of the Commissioners of Parks for the different borough divisions of The City of New York, for the quarter ending December 31, 1900.

Respectfully,  
WILLIS HOLLY, Secretary Park Board.

DEPARTMENT OF PARKS—CITY OF NEW YORK,  
THE ARSENAL, CENTRAL PARK,  
February 15, 1901.

Hon. ROBERT A. VAN WYCK, Mayor :

SIR—I have the honor to inclose herewith the quarterly report of the operations and financial condition of the Department of Parks, boroughs of Manhattan and Richmond, required by the Charter, for the three months ending December 31, 1900.

Yours respectfully,  
GEORGE C. CLAUSEN,  
Park Commissioner, Boroughs of Manhattan and Richmond.

The planting of bulbs by the gardening force was commenced in October, about 150,000 bulbs being used. In the Ramble and other parts of the Central Park this planting is permanent in character, the plants coming up yearly. A large number of herbaceous plants were set in the Ramble, and generally in the borders of the Central Park. The dead trees in the parks were replaced with young healthy trees, and the shrubs also received attention of this character. The work of planting in Riverside Park had to be suspended during the quarter owing to the failure of the Municipal Assembly to take action on the appropriations for the purpose. This delay involves a loss of at least one year's growth in the development of these plantations, which is most unfortunate, as it delays the improvement of the park, and prevents the public from enjoying features that would have been in existence much sooner than is now possible. This improvement in Riverside Park includes the planting of trees to serve as a protection from the strong winds that sweep over this park from the river, and every planting season that intervenes between the date of the appropriation of funds for the purpose and the action on the part of the Municipal Assembly to make the funds available, involves a serious delay in the development of the park.

Along the westerly slopes of the Harlem River Driveway an improvement has been accomplished, the utility and artistic effect of which is apparent to visitors there. The fertile spots among the rocks between One Hundred and Fifty-fifth street and High Bridge have been graded and sodded, the grass growing among the rocks producing a very beautiful effect, and serving to prevent the washouts heretofore prevalent along the slope.

The lawns of the Central Park were many of them renovated and reseeded in October, and preliminary grading was done to the grounds around the Conservatory. Pruning in all of the parks was carried on as large a scale as the force would permit, and this work will be taken up again early in 1901.

A Chrysanthemum Exhibition was held in the Conservatory in November and December and proved a great success. The interest shown in this exhibit is indicated by the fact that over one hundred thousand persons attended.

The propagation of bedding plants for use in the spring was begun during this quarter and excellent results are looked for. Plans for the improvement of Jefferson and Seward Parks, for Manhattan square and the parks of Staten Island have received attention during the quarter, as well as plans for minor improvements to the various parks in the Borough of Manhattan.

The laboring force was engaged during the quarter in the regular work of caring for the drives, walks, lawns, basins, rolling stock, etc. During the quarter 1,141 loads of refuse were removed from the parks to the dumps. The lawns of the Central and Mount Morris Parks were kept open to the public for games until December 1.

At the Harlem River Driveway the macadam stretch of roadway was repaired with trap rock and the soft roadway, from One Hundred and Sixty-fourth street to Dyckman street, was resurfaced with loam. The construction of new equestrian and pedestrian entrance to the Central Park at Sixty-sixth street and Central Park, West, was begun and temporary entrances for equestrians were made at Fifty-ninth street and Seventh and Eighth avenues. These latter entrances were made necessary by the chaotic condition of the Circle at Eighth avenue and Fifty-ninth street, owing to the Rapid Transit Subway construction at that point.

The Carpenters, Masons and other mechanics have been employed in repairing the buildings, fences, etc., in the parks and in putting up the skate-house, Central Park, building an engine-house, Jefferson Park, and repairing and constructing settees, scrapers, signs, rolling stock, etc. The bow bridge, Central Park, was painted during the quarter and the rolling stock, fences, etc., also received attention at the hands of the painting force. The basins and sewers were repaired and the necessary attention was given to the steam-heating plants in park buildings.

The Central Park Menagerie and the Aquarium, Battery Park, were kept open daily to the public, as usual, and the attendance at both places was unusually large for the season of the year, the mild weather bringing to the Menagerie especially thousands of visitors. The collections in both of these institutions are in splendid condition, the mortality having been very low.

The Engineering Corps of the Department has been employed during the quarter in supervising the several works of construction and in the routine work incident to that bureau.

The sewer from the Swedish school-house to that in Manhattan square was completed and the building thrown open to public use. The park wall where taken down in connection with this work was rebuilt, the pavement of Eighth avenue relaid and the trench within the park refilled and resodded.

The old walks around the Arsenal building to the extent of some 16,732 square feet were taken up and new asphalt laid.

The following work was done in connection with the removal of the Forty-second Street Reservoir and the building of the foundations for the New York Public Library building :

- 2,965 cubic yards of old reservoir removed.
- 19,573 cubic yards of excavation of earth.
- 47,250 cubic feet of concrete laid.
- 207,795 cubic feet of rubble masonry laid.
- 282 cubic yards of rock excavation.

The construction of the Ninety-sixth street viaduct at Riverside drive has progressed, as follows :

## Division A.

- 1,829 cubic yards of excavation of all kinds.
- 355 cubic yards of foundation concrete in place.
- 64 cubic feet of pedestal pincaps set.
- 89 linear feet of vitrified drain-pipe laid.

## Division D.

- 1,295 cubic yards of excavation for wall's, etc.
- 475 cubic yards foundation concrete laid.
- 60 cubic yards walls on Ninety-sixth street built.
- In connection with the viaduct work it was found necessary to remove city sewer between Ninety-fifth and Ninety-seventh streets, Riverside drive, and to construct a new sewer with house connections. The work done under this contract is
- 1,058 cubic yards of excavation of all kinds.
- 430 linear feet of sewer, etc. built.
- In regulating and grading Thomas Jefferson Park work was done to the extent of :
- 18,500 cubic yards of excavation of all kinds.
- 20,000 cubic yards of filling in place.
- The corps also gave grades and lines for the new Soldiers and Sailors' Monument erection, made plans for reconstruction of Riverside Park where disturbed by the erection of approach to Viaduct at One Hundred and Twenty-ninth street, made plans, etc., for proposed widening of roadway of Fifty-ninth street, from Fifth to Eighth avenue, and made topographical surveys, prepared specifications, estimates, etc., for a number of other improvements in the parks,

## BOROUGH OF BROOKLYN AND QUEENS.

OFFICE OF THE DEPARTMENT OF PARKS, BOROUGH OF BROOKLYN AND QUEENS,  
ROOM 14, BOROUGH HALL, BROOKLYN,

January 2, 1901.

Hon. ROBERT A. VAN WYCK, Mayor of The City of New York:

DEAR SIR—I have the honor to transmit to you, in accordance with the provisions of the Charter, a general statement of the work performed and of the finances of the Department of Parks of the boroughs of Brooklyn and Queens for the three months from October 1 to December 31, inclusive, 1900.

Yours very truly,  
GEO. V. BROWER, Commissioner.

## STATEMENT OF WORK PERFORMED BY THE DEPARTMENT OF PARKS OF THE BOROUGH OF BROOKLYN AND QUEENS DURING THE THREE MONTHS FROM OCTOBER 1 TO DECEMBER 31, INCLUSIVE, 1900.

## Prospect Park.

In addition to the regular work of keeping the walks, shelters, drives, basins and gutters clean and in good condition, the force (which was put on half-time beginning November 17) has been employed in raking the old leaves off the lawns and meadows, sodding the borders along the walks and drives, protecting the small evergreens and half-hardy plants and shrubs, erecting wire guards, spreading fertilizers and manure, and preparing the grounds for spring planting. Over three thousand shrubs and one thousand running roses have been planted, the flower beds have been dug over and bulbs have been planted for spring display. The trees and shrubs have been pruned, as the weather permitted, and old and diseased trees have been taken up.

In addition to the regular work on the various roads in the park, the East drive, from Valley Grove to the Ocean parkway entrance, has been resurfaced with gravel, after having been carefully picked with steam roller, graded and stones removed.

The annual flower shows in the greenhouse were inaugurated with a most successful exhibition of chrysanthemums in November, all the flowers being raised by this Department. Other flower shows will follow during the season. These exhibitions entail much additional care and oversight and work for the gardeners; but nothing in the Department gives more general satisfaction, while tending to increase education and culture among the people.

## Mechanical Work.

The mechanical force has been kept busy in general repairs to shelters, fences, trucks, watering carts, wagons, bridges, etc., throughout the entire park system. They have built two propagating houses, a new area and a coal chute at the greenhouses, and have thatched two shelters and made the various buildings in readiness for the winter.

## East Side Lands.

One thousand one hundred and seventy-six cubic yards of top soil have been received at the East Side Lands during the three months, for use in the building of the mounds.

## The Outside Parks.

Tompkins, Fort Greene, Red Hook, City, Winthrop, Bushwick, Bensonhurst, Underhill, Highland, Carroll, Zindel, Bedford, Long Island City, Flushing, Kings (Jamaica), College Point, Municipal, Woodpoint, Dyker, Beach, Lincoln Terrace, Linton, Stuyvesant, City Hall, Brooklyn Heights, Canarsie, Cooper, Cuyler, Cooper Gore and Irving and Saratoga Squares have all been kept clean and in good order.

The flower beds in the various parks have been dug over, the leaves and rubbish raked up, the trees and shrubbery trimmed and the parks put in good order for the winter. Over 152,000 bulbs, for spring flowering, have been planted in the finished parks.

## Forest and Sunset Parks.

Only the regular work of guarding these parks from fires and depredations has been carried on.

## Fort Hamilton Park.

The work of grading Fort Hamilton Park has been commenced and carried on as the men could be spared from the regular work.

A large, smooth-bore gun, weighing fifty-two tons, was presented to the Department by the War Department, and will be placed in Fort Hamilton Park.

## Ocean Parkway.

The work of resurfacing the main drive was carried on as far as Avenue C, at which point the work was suspended owing to the frost. About 11,550 square yards were covered with Marcellus shale and trap-rock screenings.

The westerly traffic road received attention, and all low and muddy places in the roadbed were picked up and refilled with trap-rock and screenings.

The bridle road was partly recoated with clean gravel, and the southerly portion of the main drive, from Kings Highway to Coney Island, was treated in the same manner. Over four hundred Golden Willow and Carolina Poplar trees were planted on Ocean parkway, below Coney Island creek.

## Eastern Parkway.

Repairs on Eastern parkway were continued from Albany to Ralph avenue. Owing to the heavy traffic (which during the early morning hours encroaches upon the macadam and gravel part of the parkway), it is extremely difficult to keep the driveway in a satisfactory condition.

## Stone Avenue.

Portions of Stone avenue were repaired and the remainder cleaned and put in good condition.

## Glenmore Avenue.

The resurfacing of Glenmore avenue was continued until stopped by the cold weather. The improvement now extends as far as Sherman street.

## Bay Parkway (Twenty-second Avenue).

Only the regular work of keeping the parkway clean and in good order has been attended to during the quarter.

## Fort Hamilton Avenue.

The repaving of Fort Hamilton avenue, between the Park circle and Ocean avenue, has been completed. The new macadam pavement measures 11,400 square yards, with 811 square yards of granite-block gutters.

## Bay Ridge Parkway (Shore Drive).

Work upon the extension of the Bay Ridge parkway continued while the weather permitted.

The work performed by Thomas Monahan to date, under contract, is as follows:

Excavation.....	49,545 cubic yards.
Macadam replaced.....	5,166 square yards.
Curbing reset.....	1,421 linear feet.
Belgian-block pavement relaid.....	753 square yards.
Cobble-stone pavement relaid.....	135 "
Sewer-pipe laid, 24-inch.....	1,336 linear feet.
Sewer-pipe laid, 18-inch.....	550 "
Sewer-pipe laid, 15-inch.....	925 "
Sewer-pipe laid, 12-inch.....	345 "
Manholes built.....	13

The contract of the Eastern Stone Company, for Ohio sandstone archways under Second and Third avenues, has progressed as follows:

Earth excavation.....	17,710 cubic yards.
Concrete in foundation.....	671 "
Rubble masonry.....	1,227 "
Ohio sandstone, cut and in place.....	4,638 cubic feet.
Brick laid in arches.....	222,000

The lower end of the Shore road, between Third and Fort Hamilton avenues, paved last year by Kelly & Byrnes, under contract, was entirely cleaned, repaired and recoated with trap-rock screenings by the contractors, and then turned over to the Department of Parks.

## The Finances.

Trial balance statements, as per ledger, were forwarded to the Comptroller and to the Mayor, in accordance with the usual custom, at the beginning of each month.

To the Holders of Six Per Cent. Gold Consolidated Stock of the County of New York, Payable July 1, 1901:

THE FOLLOWING IS AN EXTRACT FROM the proceedings of the Commissioners of the Sinking Fund at a meeting held Tuesday, February 19, 1901:

The Comptroller presented the following report and accompanying resolution relative to the redemption of six per cent. Gold Consolidated Stock of the County of New York, maturing July 1, 1901:

CITY OF NEW YORK, DEPARTMENT OF FINANCE,  
COMPTROLLER'S OFFICE, February 15, 1901.

To the Commissioners of the Sinking Fund:

GENTLEMEN—Six per cent. Gold Consolidated Stock, amounting to eight million eight hundred and eighty-five thousand five hundred dollars (\$8,885,500), which was issued by the County of New York prior to its consolidation with the former City of New York, matures on July 1, 1901.

The said stock is all held by the public and is payable from the Sinking Fund for the Redemption of the City Debt (No. 1), under the provisions of section 213 of chapter 378 of the Laws of 1897.

Under an amendment to the Constitution of the State of New York adopted at the general election held in the year 1899, the said stock is exempted, for the debt-restrictive purposes of section 10 of article VIII. of the Constitution, from classification as a City debt.

In view of the present heavy demands upon the City's debt-incurring capacity, especially for rapid transit and bridge construction, it is desirable to retain the advantage gained by such exemption. This advantage would be practically lost as to the amount of said stock if it were to be redeemed out of the Sinking Fund, or if it were refunded by the issue of Corporate Stock of The City of New York.

I therefore propose to extend the maturity of a considerable proportion, if not the whole of such stock, for periods not exceeding twenty years, under the authority conferred upon me by chapter 630 of the Laws of 1900, upon the best obtainable terms for the City.

It is not unlikely, however, that it may prove impossible to extend certain portions of said stock upon advantageous terms, and I therefore recommend that a resolution be adopted authorizing the Comptroller to redeem from the Sinking Fund such portions of said stock.

Respectfully,  
(Signed) BIRD S. COLER,  
Comptroller.

Whereas, Six per cent. Gold Consolidated Stock issued by the County of New York prior to its consolidation with the former City of New York, amounting to eight million eight hundred and eighty-five thousand five hundred dollars (\$8,885,500), matures July 1, 1901, and is payable from the Sinking Fund for the Redemption of the City Debt (No. 1), under the provisions of section 213 of chapter 378 of the Laws of 1897;

Whereas, the Comptroller proposes, under the authority of chapter 630 of the Laws of 1900, to extend for periods not exceeding twenty years the maturity of as much of said stock as he may be able to so extend upon terms advantageous to the City; therefore

Resolved, That the Comptroller be and is hereby authorized to pay out of the Sinking Fund for the Redemption of the City Debt (No. 1), such portion of the six per cent. Gold Consolidated Stock of the County of New York, payable July 1, 1901, as he may be unable to extend upon terms deemed by him to be advantageous to the City.

The report was accepted and the resolution unanimously adopted.

For the reasons set forth in the foregoing report to the Commissioners of the Sinking Fund, the Comptroller of The City of New York will avail himself of the provisions of chapter 630 of the Laws of 1900, which reads as follows:

## CHAPTER 630.

AN ACT to authorize the extension of the funded indebtedness of the counties of New York, Kings, Queens and Richmond.

## ACCEPTED BY THE CITY.

Became a law April 23, 1900, with the approval of the Governor. Passed, a majority being present.

This People of the State of New York, represented in Senate and Assembly, do enact as follows:

Section 1. It shall be lawful for the comptroller of the city of New York, in his discretion, to provide for the extension of all or any part of the funded indebtedness of the counties of New York, Kings, Queens and Richmond, as the same may from time to time mature. Certificates of stock or bonds so extended shall bear interest at a rate not exceeding three and one-half per centum per annum, and shall be stamped across their face with the terms of such extension, which shall be for a period not exceeding twenty years.

Sec. 2. This act shall take effect immediately.

Proposals will be received by the Comptroller at his office, No. 28 Broadway, New York City, from the holders of six per cent. Gold Consolidated Stock of the County of New York, payable July 1, 1901, for extending the maturity of all or any part of the respective amounts of such stock held by them to the following dates:

JULY 1, 1917,  
JULY 1, 1918,  
JULY 1, 1919,  
JULY 1, 1920, and  
JULY 1, 1921.

Stock so extended will be payable in gold and will bear interest from July 1, 1900, at the rate of three and one-tenth (3 1/10) per cent. per annum, payable, also in gold, semi-annually, on the first day of January and of July in each year. The Comptroller proposes to apportion the amount of stock thus extended so that, as nearly as practicable, one-fifth of the whole amount extended shall be redeemable at each of the five maturity dates above mentioned. Preference will, as far as possible, be given to the proposals received according to priority in the date of their receipt, the proposals first received being entitled to the privilege of the longest extension period, unless such proposal shall indicate a preference for the shorter terms. The stock which is to be extended in accordance with the terms of this circular must be delivered to the Comptroller upon demand, when the certificates will be stamped across their face with the terms of the extension, in accordance with the provisions of chapter 630 of the Laws of 1900, provided, however, that such stock now outstanding in coupon form when presented for extension will be extended in the form of registered stock. Thereafter transfers may be made of such stock on the books of the Corporation in accordance with the general provisions of law and the rules of the Depart-

ment of Finance in regard thereto. The right to discontinue the offer contained in this circular at any time without further notice is expressly reserved.  
Dated New York, March 1, 1901.

BIRD S. COLER, Comptroller.

**25TH DAY OF APRIL, 1901,**

indorsed "Proposal for Construction of the Steel Suspended Structure of the New East River Bridge," for furnishing the materials for and constructing the steel suspended structure of the New East River Bridge, in accordance with the proposed form of contract and the drawings and specifications therefor. All bids shall be inclosed in sealed envelopes, addressed to Lewis Nixon, President of the Board of Commissioners of the New East River Bridge, and presented to him on that day and at that hour at his office, and such bids will be opened in public meeting by the said Commissioners on that day at two o'clock in the afternoon.

Copies of the specifications and the general drawings for the work, with the proposed forms for the bid, bond and contract, may be obtained, and further information will be given at the office of the Chief Engineer, No. 84 Broadway, Borough of Brooklyn, City of New York, on and after the 8th day of April, 1901.

The Commissioners require that all bidders shall carefully examine the specifications, drawings and proposed form of contract, in order that no question as to their meaning may arise hereafter. It must be distinctly understood that no changes in the quality of the materials or of the workmanship will be allowed, and that the specifications will be adhered to strictly.

The contract is to be completely performed within eight months after the receipt by the contractor from the Engineer of written notice to begin the erection of the suspended structure.

Bids will be made upon a form provided therefor, and only those bids will be considered which are complete, in proper form, comply with the requirements herein stated, and are offered by parties of known reputation, experience and responsibility.

Each bidder will be required to deposit, with his proposal, in the office of the Commissioners, a certified check for Ten Thousand Dollars, payable to the order of Julian D. Fairchild, as Treasurer of the New East River Bridge Commissioners, as security for the execution by him of the contract and the giving of the required bond, if his bid is accepted, within two weeks after notice of the acceptance of his bid.

Bidders are required to state in their estimates, under oath, that such estimate is made without any connection with any other person making a bid or estimate for the same purpose, and that it is in all respects fair and without collusion or fraud; and also, that no member of the Municipal Assembly, head of a Department, School Commissioner, Chief of a Bureau, Deputy thereof or clerk therein, or other public officer, is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof, as principal, surety or otherwise.

The estimate must be verified by the oath, in writing, of the party making such estimate, that the several matters therein stated are in all respects true.

The Contractor will be required to give a bond in the sum of \$300,000, in the form annexed to the proposed form of contract, with an approved surety company doing business in the City of New York, conditioned for the prompt and faithful performance of the contract and its covenants and the work thereunder.

As by far the greater part of this work can be executed only by bridge establishments of the first class, bids will be received only from such parties as have the requisite plant and facilities. The bidders must be, in the opinion of the Commissioners, fully qualified both by experience and in appliances to execute work of this character and importance according to the highest standard of bridge work at the present time.

The Commissioners reserve the right to reject any and all of the proposals offered, and to accept any bid offered.
