COMMUNITY DEVELOPMENT BLOCK GRANT PROGRAM (CD) FLOOD NOTICE OF EXPLANATION

Regulations promulgated under Executive Order 11988 require that a Notice of Explanation be published when it is determined that a federally funded project is proposed to be located in a floodplain as defined by the respective Executive Order. This announcement constitutes such notice. The location identified below has been determined to be located within a federally designated floodplain (as indicated in the Flood Notice of Early Public Review dated 3/5/12). This

project conforms to applicable local floodplain protection standards.

Bronx River Project

The Bronx River Alliance (Alliance) serves as a coordinated voice for the Bronx River and works in harmonious partnership to protect, improve and restore the Bronx River corridor so that it can be a healthy ecological, recreational, educational and economic resource for the communities through which the river flows. The Alliance works in close partnership with the New York City Department of Parks and Recreation (Parks Dept.) to achieve these goals. In addition to their efforts to inform and educate the public about the river, the Alliance and the Parks Dept. have already made substantial progress in cleaning and improving the river and its environs. The physical improvements have been primarily made through the availability of other funding sources. The Program's CD allocation (\$207,000 in 2012) is partially being used to pay for conservation crew members who assist in the clean-up activities as well as riverbank stabilization, removing invasive plants from natural areas, planting of native trees and shrubs, and installing rainwater harvesting systems.

The target areas is the length of the Bronx River from the Westchester border on the north of the river's mouth at the East River on the south (although the Alliance is also coordinating with Westchester on its portion of the river). Thus, there is no alternative location for the program's activities.

The Alliance and the Parks Dept. make every effort to restore the river to its original conditions. Water quality is monitored, polluting sources are identified and remediated to the extent possible, and vacant industrial sites are being reclaimed and converted for public use. The activities being undertaken are coordinated with many partners such as other city agencies, state agencies, nonprofit organizations, local community groups, schools and individuals. The project's activities will result in positive impacts on the floodplain.

The alternative of no action is unacceptable. Unfortunately, for decades, and continuing as late as the 1970's and early 1980's, it was a lack of funding and inaction that allowed the river to become polluted and it and its banks filled with debris. It was the initial efforts of Bronx River Restoration and now the Alliance that have greatly restored the river and have allowed the public to once again enjoy it as a recreational destination.

Additional information is available and can be obtained at the Office of Management and Budget, Office of Community Development, 75 Park Place, 8th Floor, New York, New York 10007, between 10:00 A.M. and 5:00 P.M., Monday through Friday. Please call (212) 788-6130 to make an appointment to view the file. All interested persons, groups and agencies are invited to submit comments to the City of New York at the above mentioned address. Such comments should be received at the Office of Community Development on or before April 11, 2012. All such comments so received will be considered.
