Hon, Maurice F. Holanan, President, Bourd of Public Euprocements:

Hon, Maurice F. Holanda, President, Board of Public Emprovements:

Dear Six—Referring to a letter dated January 5th, from the Secretary of the Board, transmitting, for investigation and report a resolution adopted in joint session of the Local B and of the Nineteenth and Twentieth Districts, Borough of Manhatton, recommending that the stone arch which incumbers the thoroughlare at One Handred and Tenth street and Park around be removed, I beg leave to report that, imparticles the stool viadoct supporting the tracks of the railroad at that location is entirely independent of the masonry archiver over One Handred and Tenth street, there will be no difficulty in removing it without interfering with the railroad, excepting that a past of the masonry supporting one of the cross-littless would have to be transdown, and the girder supported on temporary tractic bents until the masonry would be replaced. This would, however, he a comparatively simple piece of work.

I maintain a plan of the section of the viadoct in the vicinity of One Handred and Territe street and Park avenue, showing in light blue color the masonry to be removed, and, in red, showing the masonry to be removed and rebuilt.

The tracks of the railroad, as shown on the plan, are supported by those longitudinal garders resting on capstones built into the masonry. Under the north capstone of the centre with the catrance to the waiting-room is located. This entrance could be remissed aton the arch is removed.

The estimated cost of removing the stone such over the resolway of One Handred and Punk street and Park avenue, and rehaliding the section of mas any shown in red on the plan. i 58,500. It seems to me that this should be done by the railread company. However, it it should be decided that the work must be done by the Department, a querial appropriation would be massary, as this Department has no fund from which the expense of the work could be paid.

Very respectfully,

JAMES P. KEATING, Commissioner of Highways.

No. 320 REDADWAY, NEW YORK, January 21, 1901.

To the Hancraste the Board of Public Improvements of The City of New York;

GENTLEMEN-I include herewith petitions asking that your Honorable Board direct that one-half of the cost and expense of the proceeding to open time Hill road be paid by The City of New York, and respectfully request that notice be given me of any hearing to be had on said petitions.

Respectfully yours, CHARLES V. GABRIEL.

In the Matter

of

Opening Gun Hill road (formerly Olin avenue), from Jerome avenue to the Bronx river, in the Twenty-fourth Ward of The City of New York.

To the Honorable the Board of Public Improvements of The City of New York;

The petition of the undersigned respectfully shows to your Honorable Board that they are the owners of property having a frontage of about seven hundred feet on the north side of old

Gun Hill road.

That said old Gun Hill road, or Olin avenue, was originally of a width of about fifty-two feet, and has been a used and traveled thoroughtare or many years. That proceedings have That said old Gun Hill road, or Olin avenue, was originally of a width of about fifty-two feet, and has been a used and traveled thoroughtare or many years. That proceedings have been taken by The City of New York to widen said road to a width of one hundred feet, and the Commissioners of Estimate and Assessment therein have made a preliminary report in which the properties of your petitioners have been very heavily assessed. Said Commissioners have assessed the whole cost and expense of the improvement upon property in the vicinity of the opening, pursuant to resolution of the Board of Street Opening and Improvement.

That a width of sixty feet would have been sufficient for all local needs, but that said road was laid out one hundred feet in width for the reason that it was intended to be a main thoroughfare, connecting Williamsbridge with Van Corthandt Park, Jerome avenue and Broadway, and was intended to be, and is, a public improvement for the benefit of the whole borough and not for the special benefit of abuting property-awners.

That the assessments as proposed to be levied will work a great injustice to property-owners who sught to be charged with the whole cost and expense of an improvement of general benefit to The City of New York.

Wherefore your petitioners pray that the Board direct that fifty per vent of the cost and expense of this improvement be borne and paid by The City of New York.

Dated New York, January 7, 1901.
