COMMISSIONERS OF THE SINKING FUND OF THE CITY OF NEW YORK.

Proceedings of the Commissioners of the Sinking Fund, at a Meeting Held in Room 16, City Hall, at 11 o'clock A. M., on Wednesday, May 13, 1914.

Present—John Purroy Mitchel, Mayor; Alexander Brough, Deputy and Acting Comptroller; Henry Bruere, Chamberlain; George McAneny, President, Board of Aldermen; Henry H. Curran, Chairman, Finance Committee, Board of Aldermen.

The minutes of the meeting held May 6, 1914, were approved as printed.

The Commissioner of Docks appeared before the Board, asked for and received unanimous consent for immediate consideration of the proposed modification of contract of Holbrook, Cabot and Rollins, to include the building of a coffer dam and rock excavation from 44th to 46th street, North River, and submitted the following:

Pier A, North River, May 5, 1914.

Hon. JOHN PURROY MITCHEL, Mayor, and Chairman of the Commissioners of the Sinking Fund:

Sir—I transmit herewith copy of a communication addressed by me this day to the Board of Estimate and Apportionment, respecting the modification of Contract 1401, Class 2, Holbrook, Cabot & Rollins Corporation, contractors, by eliminating certain items amounting to \$62,109.72, and providing for additional work at an estimated cost of \$202,109.72, making a net addition of \$140,000; also a new contract, No. 1431, for dredging at the site of the proposed improvement near the foot of West 44th street. The facts in relation to the matter are fully set forth in the letter to the Board of Estimate and Apportionment.

I respectfully beg to request that a resolution be adopted by the Commissioners of the Sinking Fund recommending to the Board of Estimate and Apportionment that the Comptroller be authorized to issue corporate stock to the amount of \$140,000 for the extension of the West 46th street improvement, and \$30,000 for the additional dredging, it being understood that the resolution of your Board shall be of no force and effect unless the modification of Contract No. 1401, Class 2, be approved by the Board of Aldermen, with the concurrence of the Board of Estimate and Apportionment, and that the Board of Aldermen authorize and empower the Commissioner of Docks to contract with Holbrook, Cabot & Rollins Corporation, without public letting, for extending the West 46th street improvement, southerly, to include the wall along the northerly line of West 44th street. Yours respectfully,

R. A. C. SMITH, Commissioner of Docks.

May 5, 1914.

Hon. JOHN PURROY MITCHEL, Mayor, and Chairman of the Board of Estimate and Apportionment:

Sir—I have this day addressed a communication to the Board of Aldermen requesting favorable consideration of a matter, which you will realize is of the utmost importance to the City, and relief from which can only come through your Honorable body in conjunction with the Board of Aldermen. The request is for an extension of the contract of the Holbrook, Cabot & Rollins Corporation to enable the completion of that portion of the new 1,000-foot slips adjoining the pier at the foot of 44th street, North River. The permission requested is to award the contract to said Holbrook, Cabot & Rollins Corporation, without public letting, upon the original unit prices, thus saving the City \$150,000.

If the southerly extension above referred to is built as a separate and new contract, it can only be commenced after the present contract is entirely completed, say in 18 months, and will cost, based upon the original unit prices as used in Engineer's estimate, \$290,000.

If, on the other hand, this extension is now made a part of Contract No. 1401, with Holbrook, Cabot & Rollins Corporation, based upon the same unit prices used in their contract, the work will cost, \$140,000.

The Engineering Bureau under my directions prepared plans only for the construction of the full pier at the foot of 46th street. Because of the complications surrounding the pier at the foot of West 44th street, it was not deemed wise to touch this portion of the work until it was ascertained that the City would not be called upon to pay damages for the removal of the present sublessees, who have still four years of occupancy, and until I had completed my negotiations for the transfer of the original lessees, whose lease runs to 1928. I deemed it of far more importance to proceed with the work on the one pier than to hazard the risk of complicating the entire improvement and possibly get into legal difficulties, which in the end would be far more costly and result in interminable delays.

I am able to say that every obstacle has been removed and I can see no reason why the entire work should not be completed as outlined by our Engineering Department when this matter was first undertaken in the month of May, 1913.

The entire question can be summed up practically as follows: By securing the permission of your Honorable body, the City will save \$150,000, and advance the work two years, and enable the Department to complete the one full pier at the foot of 46th street, and make rapid progress towards the completion of the second full pier at the foot of West 44th street.

The following is a brief resume of the official actions taken on this improvement:

April 10, 1913—Plans were submitted to the Commissioners of the Sinking Fund for the improvement of the water-front between West 44th street and West 46th street, providing for a pier 1,000 feet long at the foot of West 46th street, and for an extension inshore of the pier at the foot of West 44th street, so as to make two berths at the foot of West 46th street and one at the foot of West 44th street.

April 30, 1913—There was a subject hearing on the proposed new plan, after which it was approved by the Commissioners of the Sinking Fund.

April 30, 1913—The Commissioners of the Sinking Fund and the Board of Estimate and Apportionment were requested to authorize condemnation proceedings for the acquisition of the necessary property to be acquired for the improvement of the waterfront under the new plan.

May 21, 1913—Condemnation proceedings were authorized by the Commissioners of the Sinking Fund.

May 22, 1913—Condemnation proceedings were authorized by the Board of Estimate and Apportionment.

July 23, 1913—The Commissioners of the Sinking Fund recommended to the Board of Estimate and Apportionment that the Comptroller be authorized to issue corporate stock to the extent of \$164,000, to meet the cost of dredging in connection with the construction of the 1,000 foot pier at the foot of West 46th street.

July 31, 1913—The Board of Estimate and Apportionment authorized the issue of corporate stock to the extent of \$164,000 for dredging.

September 4, 1913—Contract for dredging was awarded in the sum of \$80,193.75. The amount actually expended, however, was \$63,892.27.

October 23, 1913—The Commissioners of the Sinking Fund recommended to the Board of Estimate and Apportionment that the Comptroller be authorized to issue corporate stock to an amount not exceeding \$850,000, to be used for the construction of the pier at the foot of West 46th street.

December 11, 1913—The Board of Estimate and Apportionment authorized the Comptroller to issue corporate stock to an amount not exceeding \$850,000.

January 21, 1914—Bids were opened for constructing filled in portion of the new pier at the foot of West 46th street, together with concrete column foundations, pier and slip walls, cofferdam, etc. The following proposals were received: Holbrook, Cabot & Rollins Corporation, \$487,812.90; Godwin Construction Company, \$508,618; Snare & Triest Company, \$543,793; Oscar Daniels Company, \$554,468; United States Realty and Improvement Company, \$564,417.45; Phoenix Construction Company, \$607,916; MacArthur Brothers Company, \$646,519.50; L. A. Burke & Sons, \$654,468; W. P. Seaver, \$682,349.25; John Monks & Sons, \$690,349.50; G. B. Spearin, \$708,128.52.

February 6, 1914—Contract 1401, Class 2, was awarded to the lowest bidder, Holbrook, Cabot & Rollins Corporation, for \$487,812.90. The estimate of this Department's Engineers for doing this work, based on unit prices, was \$497,500.

I respectfully request that this matter receive your immediate attention for the following reasons:

The contractors are willing to enter into a contract to build the extension on the unit prices under the original contract. They are now sufficiently advanced in the work so that any delay in reaching a decision would seriously inconvenience them; and, in fact, might defeat the entire proposal, as we cannot direct them to suspend any portion of their work without impairing the present contract. In addition, it is necessary that the Dock Department shall advertise for bids for the dredging, for which specifications and forms of contract have been prepared for some time past.

As I have stated above, this matter has been submitted today for the consideration of the Board of Aldermen and that Board has been requested to adopt a resolution authorizing and empowering the Commissioner of Docks to eliminate from the contract the items which, owing to the modification of the contract, the contractor will not be called upon to perform. The Corporation Counsel is of the opinion that this action of the Board of Aldermen should be concurred in by your Board.

I therefore request that a resolution be adopted by the Board of Estimate and Apportionment authorizing and empowering the Commissioner of Docks to eliminate from Contract No. 1401, Class 2, the items amounting to \$62,109.72, shown in detail on the accompanying memorandum, entitled: "Estimated quantities under present Contract 1401, Class 2, to be deducted in order that the work may be extended to the northerly side of West 44th street, North River."

The Board of Aldermen has also been requested to adopt a resolution authorizing and empowering the Commissioner of Docks to contract with Holbrook, Cabot & Rollins Corporation, without public letting, for extending the West 46th street improvement southerly to include the wall along the northerly line of West 44th street, at an estimated cost of \$202,109.72. This estimate is based on Engineers' estimated quantities and on the unit prices made by the contractor for Contract No. 1401, Class 2, the items of which are set forth in detail on the accompanying memorandum, entitled: "Estimated quantities to be added under present contract to complete extension to West 44th street, North River, all as shown on the accompanying plan, entitled 'Modification to provide for extending the West 46th street improvement, southerly, to include the wall along the north line of West 44th street, North River, Borough of Manhattan.'"

I also transmit herewith plans, specifications and form of contract, No. 1431, for dredging at the site of the proposed improvement near the foot of West 44th street, North River. This contract has been based upon the removal of 85,000 cubic yards of material at an estimated cost of 35 cents per cubic yard, a total of about \$30,000.

In case of favorable action by your Board and the Board of Aldermen on the modification of the contract and the authorization to extend the work to the northerly side of West 44th street, I respectfully ask for your approval of the plans, specifications and form of contract for the dredging.

In order that no time may be lost I have requested the Commissioners of the Sinking Fund to adopt a resolution recommending that your honorable Board authorize the Comptroller to issue corporate stock for \$140,000, required to complete the extension to West 44th street, and \$30,000, both contingent upon favorable action being taken by your Board and the Board of Aldermen on the modification of the contract and the authorization of the Board of Aldermen empowering the Commissioner of Docks to contract with Holbrook, Cabot & Rollins Corporation for the new work.

Yours respectfully, (Signed) R. A. C. SMITH, Commissioner of Docks.

I have the honor to present the following resolution, which was adopted by the Board of Superintendents at a meeting held this day:

"Resolved, That the Board of Superintendents recommends to the Board of Education that the Commissioners of the Sinking Fund be requested to turn over to the Board of Education for high school purposes the building formerly known as Fire Headquarters, on 67th street, extending through to 68th street, near 3d avenue, Borough of Manhattan."

Commissioners of the Sinking Fund, Municipal Building, New York:

Dear Sirs—Pursuant to inquiry made by the City Chamberlain respecting purposes for which the Department of Education intends to use the Fire Headquarters of 67th and 68th streets, I beg to say that it is designed for administrative and school purposes. The Bureau of Public Lectures and the Bureau of Physical Training are to be transferred from the building at 59th street and Park avenue owing to overcrowding. It is also intended to use the premises at 67th street and 68th street for high school purposes.

I am advised that additional room is seriously needed, because of the creation of the school known as the Julia Richman High School.

I cannot urge too strongly the earliest possible transfer of the building to the Department of Education and I trust your commission will take immediate action.

Yours very truly, T. W. CHURCHILL, President, Board of Education.

The Committee to which this matter was referred at the last meeting reported in favor of the proposed assignment of the premises in question to the Board of Education, said assignment to continue, however, only during the pleasure of the Commissioners of the Sinking Fund.

The following resolution was then offered for adoption:

Whereas, The Fire Commissioner, by a communication dated May 2, 1914, having turned over to the Commissioners of the Sinking fund as no longer required for the use of the Fire Department the premises in the Borough of Manhattan, situated on the northerly side of East 67th street, and on the southerly side of East 68th street, extending along East 67th street 65 feet westerly from a point 170 feet westerly from 3d avenue and extending along East 68th street 100 feet westerly from a point 170 feet westerly from 3d avenue, heretofore acquired by the City for the use of said department, excepting and reserving however, as yet needed by, and required for the use of, said department such parts, and so much, of said premises as are now occupied and used by Engine Company 39 and Hook and Ladder 16, being the first and second floors of the building fronting on East 67th street known as Fire Headquarters, together with such parts of the cellar of said building as are now used by said Fire Companies and for storage purposes by said department, with access to the fifth floor of said building for the purpose of hanging hose to dry in the tower, or well, of the building; also the right or privilege of using for the "School of Instruction" the back stairway to the roof of said building, the roof of said building, the rear wall of said building in "Scaling Drill" and the yard in the rear of the buildings on the 68th street side, and also the first and second floors of the building fronting on East 68th street, known as Fire Headquarters Annex, now used for the storage of supplies, it is

Resolved, That pursuant to the provisions of section 205 of the Greater New York Charter as amended, the Commissioners of the Sinking Fund hereby assign to the Department of Education, the premises known as Fire Headquarters situated on the northerly side of East 67th street and on the southerly side of East 68th street between 3d and Lexington avenues in the Borough of Manhattan, and more particularly hereinabove described, with the exceptions and reservations mentioned in the foregoing preamble; said assignment to continue during the pleasure of the Commissioners of the Sinking Fund.

Which resolution was unanimously adopted.

On motion of the Chairman of the Finance Committee, Board of Aldermen, the Secretary was directed to request the President of the Board of Education to inform the Commissioners of the Sinking Fund what sites under the control of the Board of Education were not needed for educational purposes and how soon they would be turned over to the Commissioners of the Sinking Fund as no longer required.

The committee to which was referred the matter of the proposed leasing of premises in the Borough of Queens, for use of the Board of City Magistrates and the Board of Municipal Justices made a verbal report as to the status of the matter. On motion of the Chamberlain the matter was again laid over.

The Deputy and Acting Comptroller presented the following report and offered the following resolution relative to the hiring by the State Department of Health from the Trustees of Bellevue and Allied Hospitals of one horse now under treatment for pneumonia serum:

May 11, 1914.

To the Commissioners of the Sinking Fund, City of New York:

Gentlemen—In a communication dated April 29, 1914, the Board of Trustees of Bellevue and Allied Hospitals made a request to the Commissioners of the Sinking Fund for permission to transfer for hire to the State Department of Health at Albany, N. Y., a bay gelding horse which was formerly used in the ambulance service at Fordham Hospital, Bronx, until it became crippled and was thereby rendered useless for work.

On December 4, 1913, Dr. Augustus Wadsworth, who was then engaged as a voluntary assistant in the laboratories at Bellevue Hospital, began to treat this horse with pneumococci at the Bellevue Hospital stable and continued to do so until April 1, 1914, when he resigned to take the position of Director of Laboratories and Research, State Department of Health, Albany, N. Y.

The serum obtained from the said horse is of excellent quality and it is necessary to continue to inoculate this animal each week, but it would be practically impossible for Dr. Wadsworth to travel to New York solely for that purpose. It is therefore requested that the said horse be transferred to the State Department of Health, Albany, N. Y.

It does not appear that the Commissioners of the Sinking Fund have the legal authority to assign to the State of New York any personal property owned by The City of New York, neither is it possible to lease a horse. Under the circumstances, however, it would seem that the Board of Trustees of Bellevue and Allied Hospitals are justified in their purpose of transferring this horse to the State, and for that

purpose I would recommend that the horse be hired by the State from the City, in accordance with the resolution herewith submitted.

Respectfully, ALEX. BROUGH, Deputy and Acting Comptroller.
Resolved, That the Commissioners of the Sinking Fund hereby approve of the hiring by the State Department of Health from the Trustees of Bellevue and Allied Hospitals of the bay gelding now under treatment for pneumonia serum in the stable at Bellevue Hospital, at the foot of 26th street, Borough of Manhattan, for the use of Dr. Augustus Wadsworth, Director of Laboratories and Research, for experimental purposes, for a period of two years from May 15, 1914, at the nominal rental of one dollar (\$1) for the term.

The report was accepted and the resolution unanimously adopted.

The Deputy and Acting Comptroller presented the following report and offered the following resolution relative to the sale and removal of encroachments lying within the lines of Cruger avenue, from Williamsbridge road to South Oak drive, and from South Oak drive to Gun Hill road; Holland avenue, from Williamsbridge road to South Oak drive and Maple street from Gun Hill road to East 215th street, in the Borough of The Bronx, to permit the improvement of the street:

May 9, 1914.

To the Honorable the Commissioners of the Sinking Fund:

Gentlemen—A request has been received from the President of the Borough of The Bronx for the removal of the encroachments lying within the lines of Cruger avenue, from Williamsbridge road to South Oak drive, and from South Oak drive to Gun Hill road; Holland avenue, from Williamsbridge road to South Oak drive, and Maple street, from Gun Hill road to East 215th street, in the Borough of The Bronx, to permit the improvement of the street.

These encroachments consist of buildings and other improvements, some of which are only partly taken in this proceeding, and their estimated removal value apportioned by damage parcels is as follows: Damage Parcels No. 29, \$2; No. 30, \$3; No. 39, \$75; No. 52, \$2; No. 53, \$2; No. 61, \$2; No. 78, \$5; No. 79, \$5; No. 80, \$2; No. 89, \$50; No. 103, \$25; No. 105, \$5; No. 106, \$25; No. 108, \$5; No. 110, \$5; No. 111, \$25; No. 112, \$25, making a total of \$263, which amount should be realized by their sale.

I therefore request that the Commissioners of the Sinking Fund, pursuant to the authority vested in them by sections 205 and 1553 of the Revised Charter, adopt a resolution authorizing and ordering that the said encroachments be offered for sale at the upset or minimum prices named above, and also authorizing and ordering the President of the Borough of The Bronx to demolish and remove all those encroachments that are not sold at the said upset prices, as encroachments upon a public street, and such a resolution is herewith transmitted. Yours respectfully,

ALEX. BROUGH, Deputy and Acting Comptroller.

Whereas, The President of the Borough of The Bronx has requested the removal of the encroachments lying within the lines of Cruger avenue, from Williamsbridge road to South Oak drive, and from South Oak drive to Gun Hill road; Holland avenue, from Williamsbridge road to South Oak drive, and Maple street, from Gun Hill road to East 215th street, in the Borough of The Bronx, and

Whereas, If these improvements are offered for sale at upset prices, some of them would probably realize a fair return in proportion to the awards given, it is therefore

Resolved, That the Commissioners of the Sinking Fund, by virtue of the powers vested in them by law, hereby authorize and order the sale at public auction or by sealed bids at the following upset or minimum prices: Damage Parcels No. 29, \$2; No. 30, \$3; No. 39, \$75; No. 52, \$2; No. 53, \$2; No. 61, \$2; No. 78, \$5; No. 79, \$5; No. 80, \$2; No. 89, \$50; No. 103, \$25; No. 105, \$5; No. 106, \$25; No. 108, \$5; No. 110, \$5; No. 111, \$25; No. 112, \$25, making a total of \$263, of all the buildings, parts of buildings, etc., lying within the lines of Cruger avenue, from Williamsbridge road to South Oak drive, and from South Oak drive to Gun Hill road; Holland avenue, from Williamsbridge road to South Oak drive, and Maple street, from Gun Hill road to East 215th street, in the Borough of The Bronx, upon the terms and conditions for the sale of buildings, etc., as authorized by the Commissioners of the Sinking Fund at a meeting held October 4, 1910, and the President of the Borough of The Bronx is hereby authorized and ordered to demolish and remove all those encroachments that do not realize the said upset prices, as encumbrances upon a public highway, in the manner provided by section 205 of the Revised Charter, as amended by chapter 398 of the Laws of 1909.

The report was accepted and the resolution unanimously adopted.

The following was received from the Board of Aldermen relative to the abandonment of Fulton Market:

The Deputy and Acting Comptroller brought up to the matter of the proposed leasing of premises on Washington Heights for use as a new City Magistrates' Court laid over at the last meeting.

Chief City Magistrate William G. McAdoo was heard in opposition to the proposed leasing of Commonwealth Hall, on Amsterdam avenue, between 159th and 160th streets, Borough of Manhattan, which building the President of the Board of Aldermen stated was the most suitable one of the alternative propositions submitted by the Washington Heights Tax Payer's Association.

A communication was received from Bronson Winthrop, Chairman of the Committee on Criminal Courts of the Charity Organization Society, requesting on behalf of the Committee a postponement of action on the proposed lease of Commonwealth Hall for one week until the Committee can have an opportunity of presenting certain important considerations involved in this question before final action is taken.

Discussion of the matter followed, participated in by all the members of the Board.

On motion the matter was referred to a select committee consisting of the President of the Board of Aldermen, the Comptroller and the Chief City Magistrate to obtain facts and figures in regard to building a building for court purposes either on Mr. Whalen's property at the southeast corner of 154th street and Amsterdam avenue, Borough of Manhattan, or on some other corner.

Adjourned.

VOUCHERS RECEIVED IN DEPARTMENT OF FINANCE MONDAY, MAY 18, 1914.

A statement is herewith submitted of all vouchers filed in the Department of Finance on this date, in which is shown the Department of Finance voucher number, the date of the invoices or the registered number of the contract, the name of the payee and the amount of the claim. Where two or more bills are embraced in one voucher the date of the earliest is given, excepting that when such vouchers are submitted under a contract the registered number of the contract is shown instead.

If the vouchers are found to be correct and properly payable to the respective claimants it will be my endeavor to have the warrants therefor made ready for payment within the next seven days.

If any claimant within the time stated does not receive his warrant or a written notice in relation thereto then written or verbal inquiry may be made at this office, using the Department of Finance voucher number as a ready means of reference.

WILLIAM A. PRENDERGAST, Comptroller.

The Public Service Commission for the First District (hereinafter called the Commission) hereby invites proposals to construct Section No. 3 of Route No. 48, a part of the Park Place, William and Clark Street Rapid Transit Railroad.

The points between the City of New York between which the said part is to run and the route or routes to be followed are briefly as follows:

Section No. 3. Beginning at a point under Old Slip, in the Borough of Manhattan, at or near the southeasterly line of Pearl Street and extending thence southeasterly under Old Slip and easterly under the East River to a point under Furman Street, in the Borough of Brooklyn, at or near the foot of Clark Street produced, thence easterly under Clark Street produced, Clark Street and Fulton Street to a point about one hundred and forty-eight (148) feet south of the southerly line of Clark Street; with a station at Henry Street.

The general plan of construction calls for a subsurface railroad having two tracks. The contractor will not be required to provide or place permanent track, ventilating apparatus, nor to do station finish.

The work under the contract will include the care and support of buildings, vaults, sewers, pipes, railroads and other surface, subsurface and overhead structures, the maintenance of traffic and the restoration of pavements and other surfaces.

The method of construction will be generally by tunneling and partly by excavation from the surface.

Sites for permanent shafts to be used as working shafts, sites for the contractor's air-compressing plant, and water-front facilities, as indicated on the contract drawings, will be furnished to the contractor for his use.

Bidders must examine the form of contract and the specifications and the contract drawings, must visit the location of the work and inform themselves of the conditions along the line of the work and make their own estimates of the facilities and difficulties attending the execution of the work.

The attention of bidders is especially directed to the contract requirements as to an adequate plant, the use of compressed air, the methods of tunneling in soft ground, the contractor's responsibility for damage to property, the order of progress of work, and the damages for non-completion within the time prescribed.

A fuller description of the work and other requirements, provisions, details and specifications are given in the form of contract drawings therein referred to. Copies of the forms of contract, bond and contractor's proposal and of the contract drawings may be inspected and purchased at the office of the Commission, No. 154 Nassau Street, Borough of Manhattan, New York City. The forms of contract, bond and contractor's proposal and the contract drawings are to be deemed a part of this invitation.

The City of New York (hereinafter called the City) and Interborough Rapid Transit Company will be parties to the contract; the Interborough Rapid Transit Company being a party for the purpose of disbursing part of its contribution toward the cost of construction, as provided in the contract dated March 19, 1913, between the City and said Company, for additional rapid transit railroads. The contractor shall look to Interborough Rapid Transit Company for the payment of the sums earned under the contract to an amount equal to ninety-five (95) per centum of the total estimated amount to be paid to the contractor under the contract as calculated from the estimated approximate quantities of items and the prices contained in the Schedule in the Contractor's Proposal, and to the City for all sums over and above such amount. The Interborough Rapid Transit Company shall not be liable under the contract beyond said amount. Such amount is to be inserted in the contract before the contract is executed.

Partial payments to the contractor will be made as the work proceeds.

The contractor must complete the work within forty-two (42) months from the delivery of the contract.

At the time of the delivery of the contract the contractor must furnish security to the City by depositing a bond, cash or securities in the sum of five hundred thousand dollars (\$500,000). As further security ten (10) per centum of the amounts certified from time to time to be due to the contractor will be deducted.

Sealed bids or proposals will be received at the office of the Commission at No. 154 Nassau Street, Borough of Manhattan, New York City, until the 22d day of May, 1914, at twelve-fifteen (12:15) o'clock p. m., at which time, or at a later date to be fixed by the Commission, the proposals will be publicly opened.

Proposals must be in the form or forms prescribed by the Commission. Proposals are invited in either or both of two forms. In Form "A" the bidder is to state his prices for the work proposed without dependence upon the award of any other contract. In Form "B" the bidder is to state his prices for the work proposed in case he should be awarded the contract, advertised concurrently herewith, for the construction of Section No. 2 of Route No. 33, being that portion of the Whitehall Street-East River-Montague Street Rapid Transit Railroad extending from a point under Whitehall Street at South Street in the Borough of Manhattan to a point under Montague Street near Clinton Street in the Borough of Brooklyn. Proposals in Form "B" must be accompanied by a proposal or proposals for the construction of said Section No. 2 of Route No. 33.

A statement, based upon the estimate of the Chief Engineer of the Commission, of the quantities of the various classes of the work and of the nature and extent as near as practicable of the work required is to be found in the schedule forming a part of the form or forms of contractor's proposal. The quantities given in such schedule are approximate only, being given as a basis for the uniform comparison of bids, and

no claim is to be made against the City for damages or anticipated profit or loss of profit on account of any excess or deficiency, absolute or relative, in the same.

Every proposal must, when submitted, be enclosed in a sealed envelope endorsed "Proposal for Constructing Part of Rapid Transit Railroad—Route No. 48, Section No. 3," and must be delivered to the Commission or its Secretary; and in the presence of the person submitting the proposal, it will be deposited in a sealed box in which all proposals will be deposited. No proposal will be received unless accompanied by a separate certified check for the sum of one hundred thousand dollars (\$100,000) payable to the order of the Comptroller of the City and drawn upon a national or state bank or trust company satisfactory to the Commission and having its principal office in New York City. Such check must not be enclosed in the envelope containing the proposal. One such check will be sufficient to enable a bidder to submit proposals in both Forms "A" and "B."

The Unit Prices must not be improperly balanced, and any bid which the Commission considers detrimental to the City's interests may be rejected.

No proposal, after it shall have been deposited with the Commission, will be allowed to be withdrawn.

The award of the contract will be made as soon as practicable after the opening of the proposals.

Deposits made by bidders whose proposals are not accepted will be returned within three (3) days after the contract is executed and delivered and its provisions in respect of the bond or deposit are complied with, unless all proposals shall be rejected, in which event such deposits will be returned within three (3) days after such rejection. The deposit of the successful bidder will be returned when the contract is executed and delivered and its provisions in respect of the bond or deposit are complied with.

The right to reject any and all bids is reserved.

At the time of delivery of the contract, the contractor must furnish security to the City by depositing a bond, cash or securities in the sum of five hundred thousand (\$500,000) dollars. As further security ten (10) per centum of the amounts certified from time to time to be due to the contractor will be deducted.

Sealed bids or proposals will be received at the office of the Commission, No. 154 Nassau Street, Borough of Manhattan, New York City, until the 22d day of May, 1914, at twelve-fifteen (12:15) o'clock p. m., at which time, or at a later date to be fixed by the Commission, the proposals will be publicly opened.

Proposals must be in the form or forms prescribed by the Commission. Proposals are invited in either or both of two forms. In Form "A" the bidder is to state his prices for the work proposed without dependence upon the award of any other contract. In Form "B" the bidder is to state his prices for the work proposed in case he should be awarded the contract, advertised concurrently herewith, for the construction of Section No. 3 of Route No. 48, being that portion of the Park Place, William and Clark Street Rapid Transit Railroad extending from a point under Old Slip near Pearl Street in the Borough of Manhattan to a point under Fulton Street near Clinton Street in the Borough of Brooklyn. Proposals in Form "B" must be accompanied by

a proposal or proposals for the construction of said Section No. 3 of Route No. 48.

A statement, based upon the estimate of the Chief Engineer of the Commission, of the quantities of the various classes of the work and of the nature and extent as near as practicable of the work required is to be found in the schedule forming a part of the form or forms of contractor's proposal. The quantities given in such schedule are approximate only, being given as a basis for the uniform comparison of bids, and no claim is to be made against the City for damages or anticipated profit or loss of profit on account of any excess or deficiency, absolute or relative in the same.

Every proposal must, when submitted, be enclosed in a sealed envelope endorsed "Proposal for Constructing Part of Rapid Transit Railroad—Route No. 33, Section No. 2," and must be delivered to the Commission or its Secretary; and in the presence of the person submitting the proposal, it will be deposited in a sealed box in which all proposals will be deposited. No proposal will be received unless accompanied by a separate certified check for the sum of one hundred thousand dollars (\$100,000) payable to the order of the Comptroller of the City and drawn upon a national or state bank or trust company satisfactory to the Commission and having its principal office in New York City. Such check must not be enclosed in the envelope containing the proposal. One such check will be sufficient to enable a bidder to submit proposals in both Forms "A" and "B."

The Unit Prices must not be improperly balanced, and any bid which the Commission considers detrimental to the City's interests may be rejected.

No proposal, after it shall have been deposited with the Commission, will be allowed to be withdrawn.

The award of the contract will be made as soon as practicable after the opening of the proposals.

Deposits made by bidders whose proposals are not accepted will be returned within three (3) days after the contract is executed and delivered and its provisions in respect of the bond or deposit are complied with, unless all proposals shall be rejected, in which event such deposits will be returned within three (3) days after such rejection. The deposit of the successful bidder will be returned when the contract is executed and delivered and its provisions in respect of the bond or deposit are complied with.

The right to reject any and all bids is reserved.

NOTICE TO BIDDERS AT SALES OF OLD BUILDINGS, ETC.

TERMS AND CONDITIONS UNDER WHICH BUILDINGS, ETC., WILL BE SOLD FOR REMOVAL FROM CITY PROPERTY.

THE BUILDINGS AND APPURTENANCES thereto will be sold to the highest bidder, who must pay cash or certified check, drawn to the order of the Comptroller of The City of New York, and must also give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. Where the amount of the purchase price does not equal or exceed the sum of \$50, the sum of \$50 shall be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract, but unfinished at the expiration of the contract period.

The purchaser shall not lease, occupy, cause or permit the building or buildings, etc., purchased by him to be used or occupied for any purpose other than that of their speedy removal, nor shall he collect any rental or other revenue for the use of either the land or the buildings, etc., situated thereon. The breach of either or any of these conditions shall forthwith void the sale and cause immediate forfeiture of the purchase money and the security deposited for the faithful performance of the conditions of the sale. The placing therein or permitting the occupancy of any such building by any tenant free, for rent or otherwise, excepting the necessary watchmen or the workmen engaged in the actual demolition thereof, shall of itself be a breach of the above conditions of sale.

The sale will be as of the condition of the property on date of delivery thereof to the purchaser. The City of New York will not be responsible for any change or loss which may occur in the condition of the buildings, or their appurtenances between the time of the sale thereof and the time of delivering possession to the purchaser, after being properly vacated of all tenants. The sale and delivery to purchaser will be made as nearly together as the circumstances of vacating the structures of their tenants will permit.

All the material of the buildings, sheds, walks, structures and cellars of whatsoever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds, except the exterior walls of the buildings and their foundations and the sidewalks and curb in front of said buildings, extending within the described area shall be torn down and removed from the premises. None of the dirt, debris or waste resulting from demolition shall be allowed to remain on the premises, except old mortar or plaster only, which may be left, but not higher at any point than two feet below the curb opposite that point. The exterior walls and their foundations shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building. Where there is no curb the elevation of the surrounding ground shall be considered curb level. All wells, cesspools, sinks, etc., existing on the property must be filled to the level of the surrounding ground with clean earth.

The purchaser at the sale shall also withdraw and remove all abandoned water taps and old service mains, and in place thereof cause to be inserted a brass plug in the main water pipe in the street, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and furnish the Department of Finance with a certificate from the Department of Water Supply, Gas and Electricity that this has been performed.

The purchaser at the sale shall also remove all house sewer connections to the main sewer in the street and the openings of the main sewer

in street shall be properly closed in compliance with the directions of the Bureau of Sewers in the Borough in which the buildings are situated, and furnish the Department of Finance with a certificate from the Bureau of Sewers that the work has been properly performed.

The permit for all opening in the street to be obtained by and at the expense of the purchaser of the building.

Failure to remove said buildings, appurtenances, or any part thereof, within thirty days from the day of possession will work forfeiture of ownership of such buildings, appurtenances, or portion as shall then be left standing, together with all moneys paid by said purchaser on account thereof at the time of the sale, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and The City of New York will, without notice to the purchaser, cause the same to be removed, and the cost and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and must be completed within thirty days from the day of possession, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damage and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of said buildings.

Where party walls are found to exist between buildings purchased by different bidders, the materials of said party walls shall be understood to be equally divided between the separate purchasers.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down. All furrings, plaster, chimneys, projecting brick, etc., on the faces of such party walls are to be taken down and removed. The walls shall be made permanently self-supporting, beam-holes, etc., bricked up, and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs and adjacent buildings shall be properly flashed and painted and made watertight where they have been disturbed by the operations of the Contractor.

The Comptroller of The City of New York reserves the right on the day of sale to withdraw from sale any of the buildings, parts of buildings and machinery included therein, or to reject any and all bids; and it is further

Resolved, That, while the said sale is held under the supervision of the Commissioners of the Sinking Fund, the Comptroller is authorized to cause the sale to be advertised and to direct the sale thereof as financial officer of the City.

No bid or estimate will be considered unless, as a condition precedent to the reception, or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money or corporate stock or certificates of indebtedness of any nature issued by The City of New York, which the Comptroller shall approve as of equal value with the security required in the advertisement to the amount of not less than three nor more than five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The amount shall be as specified in the proposals or instructions to bidders and shall not be in excess of 5 per cent.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately.

The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Plans and drawings of construction work may also be seen there.
