MUNICIPAL CIVIL SERVICE COMMISSION.

New York, January 28, 1903.

A meeting of the Municipal Civil Service Commission was held at the Commission's offices, No. 61 Elm street, on Wednesday, January 28, 1903, at 3 p. m.

There were present President Ogden and Commissioners Mason, Banta, Perrine and Spencer.

The minutes of the meeting held January 14 were approved after correction.

The minutes of the meeting held January 21 were approved.

On motion, duly seconded, the request of the Board of Trustees of Bellevue and Allied Hospitals, submitted at the meeting held on the 14th instant, that the position of Ambulance Driver be included in the non-competitive class, was referred to the President.

The Commission then considered the request of the Department of Correction, submitted at the meeting held on the 14th instant, that two additional Chaplains be included in the exempt class, and on motion, duly seconded, it was

Resolved, That the classification of offices and positions in the Department of Correction, in the exempt class, as fixed by rule 68, be amended by striking therefrom the following:

5 Chaplains,
—and by substituting therefor the following:

7 Chaplains.

The Law Committee submitted reports in the following matters:

The request of the Secretary for further information as to the manner in which the opinion of the Corporation Counsel, with reference to increases in salaries, rendered December 18, 1902, should be construed, and especially requesting information as to the eligibility of a Clerk appointed in 1887 at a salary of \$1,300, after an examination in which the grade of appointment was not specified, for an increase to \$1,500 without further examination.

The Committee is of the opinion that the person referred to must pass an examination for promotion, for the reason that in accepting appointment he voluntarily included himself within the grade indicated by that salary. If any increase in salary is made subsequent to that time, beyond the maximum fixed for that grade, he must pass a civil service promotion examination, because he acquired no specific right at the time that he was examined. Where a position is not graded, and in Schedule E, this, of course, does not apply. If, however, a different view is to be taken of this case, the provisions of the civil service law with reference to promotion will be defeated. The promotion cannot be governed by the rules passed in May, 1902, but it must be governed by the rules and grades in force at the time the examination was taken.

The opinion of the Corporation Counsel, with reference to the power of a department to appoint such number of employees of particular classes as the needs of his department may require within the appropriation made by the Board of Estimate and Apportionment.

This opinion holds that the Board of Estimate and Apportionment and the Board of Aldermen have fixed the amount of salaries, but have not fixed the number of employees, and that a department may increase the number of its employees at any time that it sees fit without further action of the Board of Estimate and Apportionment and the Board of Aldermen, providing the salaries paid them are not different from those fixed by the Board of Estimate and Apportionment. In other words, it is held that under section 1543 of the Charter the number of employees in a department can only be limited by an ordinance of the Board of Aldermen, and that the action of the Board of Aldermen and the Board of Estimate and Apportionment in fixing the number of employees in May and in November, 1902, was not such an ordinance as is required by the section of the Charter referred to. Therefore, if the Board of Estimate and Apportionment appropriates the sum of \$100,000 for the use of the Civil Service Commission, and has provided for three classes of Clerks, \$1,500, \$1,000 and \$500, the Commission may increase the salaries of any number of its Clerks to \$1,500 without any action on the part of the Board of Estimate and Apportionment, provided the sum appropriated is not exceeded.

The letter from the Corporation Counsel, referring to a letter of the Secretary of the Civil Service Reform Association recommending that the Civil Service Commission issue a statement to the heads of departments, setting forth the proper procedure in removing an employee, in line with the latest decisions of the Courts.

We do not see the wisdom of issuing such a statement. It is no part of the duty of this Commission to advise the departments how employees can be removed. It is entirely proper for the Corporation Counsel to issue such a statement, as he is the

legal adviser of the various departments and is the one to inform the heads of departments as to the proper construction of the law.

The peremptory writs of mandamus issued by Justice Gaynor of the Supreme Court directing the Commission to certify to the payrolls of Michael Gorman and others as Captains of police.

The Committee recommended that the writs be referred to the Corporation Counsel.

On motion, duly seconded, the reports of the Law Committee were adopted.

The Secretary stated that he had been notified by the Corporation Counsel that the latter did not believe it advisable to appeal from the decision of Justice Gaynor directing the Commission to certify the payrolls of Michael Gorman and others as captains of police. On motion, duly seconded, it was

Resolved, That in obedience with the order of the Supreme Court, dated January 22, 1903, the Secretary be and he hereby is directed to attach the certificate of the Municipal Civil Service Commission to the payrolls of the following-named persons as Captains of Police:

Michael Gorman, James Gannon, Francis J. Creamer, Michael E. Foody, Edward A. Gaus, John Buchanan, Edward Walsh, John F. Flood, John J. Lantry, John Cooney, John E. Colgan, Lawrence J. Murphy, Charles E. Wendell, Francis J. Kear, Jefferson Deevy, Edward J. Kenney, John Mara, Edward J. Toole, Michael Devaney.

Commissioner Mason reported that, as directed by the Commission, he had proceeded with the hearing in the case of Bernard Lazarus on Monday, January 26, and that further testimony would be taken on Saturday, January 31.

The Committee on Appeals (Commissioner Spencer and Examiners Crandall and Kavanagh), presented the following report upon appeals considered at meetings held January 15, 16, 19, 20, 22 and 26:

Bureau of Highways, Chief Engineer's Office,
October 16, 1902.

Mr. WILLIAM C. REDFIELD, Commissioner of Public Works:

Dear Sir—I return you herewith petition from the property owners asking that the opening of Battery avenue, from One Hundred and Seventh street to Eighty-sixth street, be amended so as to read from Warehouse avenue to Eighty-sixth street. Just what is involved in this change I do not know, how much extra expense will be incurred in the discontinuance proceedings and instituting new ones. I would think, however, that it would have been better when the proceedings were instituted to have had them ask for Warehouse avenue to Eighty-sixth street, as I do not think anything will be gained by extending it to One Hundred and Seventh street, as provided for in the original proceedings. I think the reasons given by the petitioners are good and would recommend that this petition be referred to the Law Department, and if the old proceedings have not gone too far so that new ones would involve a large amount of expense, I would recommend that the petition be granted.

Respectfully,
(Signed) GEO. W. TILLSON, Chief Engineer.

The matter of constructing a sewer basin on the northeast corner of Gold and Tillary streets, which passed the Local Board on November 6, 1902, was referred back to the Borough President by the Board of Estimate and Apportionment on January 16, 1903, the Engineer having reported that there is now a basin at this corner of antique pattern and in such condition that reconstruction is necessary, and recommending that the resolution be referred back for amendment so as to provide for rebuilding instead of building a new one.

The following resolution was offered:

Resolved, That the Local Board of the Heights District, Borough of Brooklyn, this 22d day of January, 1903, hereby amends the following resolution adopted November 6, 1902:

"Resolved, That the Local Board of the Heights District, Borough of Brooklyn, after hearing had this 6th day of November, 1902, deeming it for the public interest so to do, hereby determines to initiate proceedings to construct sewer basin on the northeast corner of Gold street and Tillary street, in the Borough of Brooklyn.

"Resolved, That this resolution be forwarded to the Board of Estimate and Apportionment for its approval."

By substituting the word "reconstruct" for the word "construct," the amended resolution to read as follows:

Resolved, That the Local Board of the Heights District, Borough of Brooklyn, after hearing had this 22d day of January, 1903, deeming it for the public interest so to do, hereby determines to initiate proceedings to reconstruct sewer basin on the northeast corner of Gold street and Tillary street, in the Borough of Brooklyn.

Resolved, That this resolution be forwarded to the Board of Estimate and Apportionment for its approval.

Which was decided in the affirmative by the following vote:

Affirmative—Commissioner Redfield and Alderman Bridges.

Approved by the President of the Borough February 2, 1903.

LOCAL BOARD—RED HOOK DISTRICT.

Wednesday, January 21, 1903.

Meeting in Borough Hall, at 3 p. m. The roll was called, and the following members answered to their names:

William C. Redfield, Commissioner of Public Works, presiding; Alderman Kenney, Fifty-third Aldermanic District; Alderman Gillen, Fifty-fourth Aldermanic District.

The Commissioner submitted the following:

No. 14.

The matter of constructing a sewer basin at the northeast corner of King and Conover streets was referred back to the Borough President by the Board of Estimate and Apportionment on January 16, 1903. The Engineer of the Board of Estimate and Apportionment reported that a sewer basin is already in use on this corner, but that a new one is required and recommended that the resolution of the Local Board be amended so as to properly describe the work as reconstructed instead of construction.

The following resolution was offered:

Resolved, That the Local Board of the Red Hook District, Borough of Brooklyn, this 21st day of January, 1903, hereby amends the following resolution adopted November 6, 1902:

Resolved, That the Local Board of the Red Hook District, Borough of Brooklyn, after hearing had this 6th day of November, 1902, deeming it for the public interest so to do, hereby determines to initiate proceedings to construct sewer basin at the northeast corner of King and Conover streets, in the Borough of Brooklyn.

"Resolved, That this resolution be forwarded to the Board of Estimate and Apportionment for its approval."

By changing the word "construct" to "reconstruct," the amended resolution to read as follows:

Resolved, That the Local Board of the Red Hook District, Borough of Brooklyn, after hearing had this 21st day of January, 1903, deeming it for the public interest so to do, hereby determines to initiate proceedings to reconstruct sewer basin at the northeast corner of King street and Conover street, in the Borough of Brooklyn.

Resolved, That this resolution be forwarded to the Board of Estimate and Apportionment for its approval.

Which was decided in the affirmative by the following vote:

The following proceedings were this day directed by Police Commissioner Greene:

Ordered, that a copy of the instructions to the Chief Inspector in the matter of Commendation, Honorable Mention and award of Medal be entered in the minutes and placed on file. The same being as follows, viz:

In the matter of Commendation, Honorable Mention and award of Medal, I desire to have a distinction drawn between Commendation and Honorable Mention, because the Civil Service Commission gives three points for a Commendation, five points for an Honorable Mention and seven points for a Medal. In every such case a report is to be made by the Captain of the Precinct either recommending or disapproving the award, and an entirely separate and independent investigation is to be made by the Inspector of the District so as to confirm the opinion of the Captain in case a favorable recommendation is made. You will please communicate the substance of the foregoing to all Inspectors and Captains and see that this is carried out in all future cases.

At 11 o'clock a. m., Present—Police Commissioner Greene, First Deputy Commissioner Ebstein, Second Deputy Commissioner Piper, Chief Clerk Kipp, Chief Inspector Cortright, Borough Inspectors Nicholas Brooks and Patrick H. McLaughlin, and the following Inspectors, viz: Elias P. Clayton, Thomas Murphy, James Kane, Adam A. Cross, William W. McLaughlin, John Brennan, Thomas L. Druhan and Walter L. Thompson, and the following Acting Inspectors, viz: Richard Walsh, Stephen O'Brien and James Campbell, the following instructions were given, viz:

Inspectors—I have called you together to speak of certain things which were not mentioned at the time of our first meeting, a month ago. The patrolling is not properly done and particularly in the thickly populated sections of the City, where the patrolman's posts are short, the Precincts are small and can be easily observed by the Captains. It is the duty of the Captains to make the Patrolmen do their duty and, to assist them, the Captains have the Sergeants on patrol, the Roundsmen on patrol and the plain clothes men, and if necessary, can use the men on reserve. If a Captain is brought to trial for neglect of duty, in regard to patrolling in his precinct, it will not be a sufficient defense for him to show that at the roll call of the out-going sections he gave orders for the patrolmen to properly patrol. He must see that his orders are obeyed. It is the duty of the Inspectors to inspect, and to report any neglect of the Captains to perform their duty in this as in other matters.

Under the provisions of the Liquor Tax Law about 2,400 hotel licenses have been granted in Greater New York, and all these places have the right to sell liquor on Sunday. Many of the cheaper hotels comply strictly with the law and others do not. Some of them are notoriously used for gambling and prostitution. The ordinary difficulties in getting evidence do not apply to these places, for they all hold public licenses and are subject to inspection by you and your subordinates whenever open. Written instructions on this subject will be issued to you to-day. It is your plain duty as Police Officers and mine as Police Commissioner to see that the law is enforced. In the report called for under the amendment to Rule 44, you and the Captains will report the places of each kind therein referred to which you have personally visited during the preceding month.

During the last month, in addition to 220 trials in the lower grades, resulting in penalties from dismissal to reprimand, there have been five trials in the upper grades, viz: one Inspector and four Captains. One Captain was acquitted and promptly restored to duty; another Captain was found guilty and promptly dismissed; a third Captain was found guilty of a minor offense and cautioned not to repeat it. The other cases have not reached me. In regard to these trials, it is well that you should understand the principles which have been laid down by the highest Courts of the State, viz: that they are administrative trials, held for the purpose of determining whether the officer accused is fit to remain in the Police Department; that they are not to be limited by the strict rules of evidence required in trials under the criminal law; and that the action of the Commissioner is final, except as it may be reversed by the Courts for manifest error. It is noticeable that in the case of these higher officers the evidence (in the most important cases) was obtained not within the Department but from those without the Department. The Inspectors of Police now have the opportunity, and it is their high privilege, to redeem the good name of the police and to purge the force of its dishonest and unworthy members. Other agencies, individuals, clubs, incorporated societies, various branches of the City Government, and, finally, the officers who administer the criminal law, are actively working in hearty co-operation to bring about these ends. With your intimate knowledge of police affairs you can easily accomplish what these other agencies can only accomplish with difficulty, but they surely will accomplish it. I trust that I may have your hearty co-operation to this end.

On reading and filing communication from J. J. Corkill, Complaint Clerk, dated January 30, 1903,

Ordered, that the following complaints be entered upon the service record of Captain James Kenny in the Service Record Book:

Thomas Johnston, violation Rules 123 and 124, August 17, 1888; 8 days.

James W. Lamb, violation Rule 11, S. D. 2, August 17, 1888; D. C.

Michael Carberry, violation Rule 109, October 5, 1888; reprimand.

BOARD OF EXAMINERS.

February 10, 1903.

Present—Messrs. William J. Fryer, Warren A. Conover, William C. Smith, Cornelius O'Reilly, Charles D. Purroy and Walter Cook, Chairman.

Meeting called to order at 3 p. m.

Minutes of meeting of 3d instant read and on motion approved.

Appeal 18 of 1903, Alteration No. 4834 of 1902, No. 66 Water street, Brooklyn, Axel Hedman, architect and appellant; laid over at last meeting (pending receipt of Engineer's report from the office of the Superintendent of Buildings).

On motion, denied.

Appeal 21 of 1903, New Building No. 1798 of 1902, east side of Thirty-fifth street, Brooklyn, Albert Cassanese, appellant;

The buildings located as above described are one-family, frame, two-story and attic dwellings, 23 feet front and rear and 32 feet deep, built on plot of ground 36 feet front and rear and 100 feet deep. Section 65 of Building Code where the law requires eight inches of brick work around flues (furnace) is hereby asked in these buildings to be repealed by your Honorable Board of Examiners, and that you allow the flues to be built with four inches of brick and the same lined with the flue lining.

On motion, approved.

Appeal 23 of 1903, New Building No. 738 of 1902, northeast corner of Fifty-sixth street and Twelfth avenue, Manhattan, Alexander Stevens, Superintendent of Buildings of Fire Department, appellant;

The waiving of the objection in regard to the excessive area is urged on the ground that the building is to be not more than three stories high, and no part of it will be more than 56 feet from a street. Apparently the regulations are intended to prevent a building being erected in such a manner that part of it would be a considerable distance from any street, because the area allowed is increased in accordance with the number of streets on which a building fronts. This building, owing to its unusual length in proportion to width, would, it is believed, comply with the spirit of the regulations. The construction of the building will be slow-burning mill construction, using steel girders.

2. The stairways shown, while not all continuous, are believed to furnish sufficient means of exit, particularly as the building is so shallow. In addition to this, the number of men employed is only about sixty, and seventy-five per cent. of these will be on the ground floor, while ten per cent. are on the third floor.

On motion, approved.

Appeal 24 of 1903, Alteration No. 105 of 1903, No. 9 West Eighth street, Manhattan, M. L. & H. G. Emery, architects and appellants;

Objection No. 1. "Proposed conversion to a lodging house would be unlawful without first making building fireproof and conform to section 105 of the Code."

Objection No. 5. "It would be unlawful to occupy cellar wholly or in part as a dwelling. Section 1309, Charter of City of New York."

In reference to Objection No. 1: We have found upon investigation since filing the plans and application that the building was incorrectly described to be used as a lodging house, as it has less than the number of rooms comprehended in the designation "lodging house." There are but nine (9) rooms for sleeping purposes. The present building is not to be enlarged in any way, or its present accommodations increased. Fire escapes are to be provided front and rear. The plumbing is to be renewed throughout and the building improved in sanitary and other ways. The building occupies less than fifty per cent. of the lot, setting about five feet back of street line and having large yard in rear. We would petition that the building be constructed as a girls' "boarding" house, instead of "lodging" house.

In reference to Objection No. 5: We would repeat the foregoing statement as applying to this objection and further state that the space in front of kitchen windows is to be excavated and a large open area formed, materially improving the condition of light and air, and petition that the ruling in reference to using the rooms in question for a kitchen be waived.

Appeal 25 of 1903, Alteration No. 206 of 1903, south side East New York avenue, near Amboy street, Brooklyn, Henry Miles, appellant;

Laid over, pending appearance of applicant.

We propose to build and extend present building, which is frame construction, thirty feet in depth, for show-room purposes, to conform with present design and construction of building now on said property.

There can be no objection made from surrounding property owners, as we own the property on all sides of said proposed extension, which will ensure light, air and access to all parts.

This improvement is within five (5) feet of the fire limits.

On motion, approved.

Adjourned.

JAMES GAFFNEY, Clerk.

other person or corporation, and in such case the use of the street railway, including tracks, wires and other equipment constructed thereon by the New York City Inter-Borough Railway Company, aforesaid, shall be granted by such company to any person or corporation which the City of New York may hereafter grant the right or franchise to use any portion of such viaduct, such bridges and their approaches for the street railway purposes, upon payment of an annual sum which shall not exceed the legal interest on one-half the cost of the construction of such portion of such street railway, and the actual cost of the power necessary for the operation of the cars of such company thereon and one-half the cost of maintenance of the tracks, wires and other equipment of the New York City Inter-Borough Railway Company used by the said grantee, including the watering, paving and cleaning of streets from ice and snow and all the other duties imposed upon the New York City Inter-Borough Railway Company in connection with the maintenance of the portion of its road used by said grantee. And such persons and companies shall have the right to make all track and other connections which may be requisite and necessary to connect with the tracks of the grantee, its successors or assigns, it being intended by this provision to restrict to two the number of tracks upon the bridges above described and the approaches thereto, including the viaduct in West One Hundred and Fifty-fifth street.

Provided that such time may be extended under and for causes specified in section 99 of the Railroad Law, and the Board of Estimate and Apportionment may extend such time for period or periods not exceeding one year if, in their discretion, it seems best so to do, and the City officials or departments who or which shall at the time of such construction have authority over the said avenues, streets, roads, highways, bridges and viaducts may extend such time for a period or periods not exceeding one year further, if reasonable, in their judgment, by reason of requirements as to the manner of construction imposed by the City officials.

Or in case of failure to keep the said terms and conditions of this grant relating to the headways of cars, fenders and wheel guards and the heating of the cars and the watering of the street pavement, the said company shall pay a penalty of \$50 a day for each day of violation, and the further sum of \$10 a day for each car which shall not properly be heated or supplied with fenders and wheel guards in case of the violation of the provisions relating to those matters. In case of any drafts so made upon this security fund, the said company shall, upon thirty days' notice, in writing, pay to the Comptroller of the City of New York a sum of money sufficient to restore the said fund to the original amount of fifty thousand dollars, and in default thereof the grant hereby made may be canceled and annulled at the option of the Comptroller of the City of New York, acting on behalf of said City. No action or proceeding or rights under the provisions of this section shall affect any other legal rights, remedies or causes of action belonging to The City of New York.

Sec. 8. This grant shall not become operative until said railway company shall duly execute, under its corporate seal, an instrument in writing wherein said company shall promise, covenant and agree on its part and behalf to conform to and abide by and perform all the terms and conditions and requirements in this ordinance fixed and contained, and file the same in the office of the Comptroller of the City of New York.

GENERAL INSTRUCTIONS TO BIDDERS.

The person or persons making a bid or estimate for any services, work, materials or supplies for The City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope, indorsed with the title of the supplies, materials, work or services for which the bid or estimate is made, with his or their name or names and the date of presentation to the President or Board or to the head of the Department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said Department, and read, and the award of the contract made according to law as soon thereafter as practicable.

Each bid or estimate shall contain the name and place of residence of the person making the same, the names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below.

No bid or estimate will be considered unless as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The certified check or money should not be included in the envelope containing the bid or estimate, but should be either included in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contracts must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there.
