 Adopted by the Board of Aldermen November 15, 1915.

No. 556.

An Ordinance to Amend Section 26 of Article 2 of Chapter 15 of the Code of Ordinances, Relating to "Location and Designation of Public Markets."

Be it Ordained, by the Board of Aldermen of The City of New York, as follows:

Section 1. Section 26 of article 2 of chapter 15 of the Code of Ordinances, relating to "location and designation of public markets," is hereby amended to read as follows:

§ 26. Manhattan bridge market. The space under the Manhattan Bridge between East Broadway and Madison street in the Borough of Manhattan, shall be set aside for a public market to be known as the Manhattan Bridge market.

Sec. 2. This ordinance shall take effect immediately.

Adopted by the Board of Aldermen November 9, 1915.
 Received from his Honor the Mayor November 23, 1915, without his approval or disapproval thereof; therefore, as provided in section 40 of the Greater New York Charter, the same took effect as if he had approved it.

No. 557.

An Ordinance Relating to Safeguards Against Spread of Fire in The City of New York.

Be it Ordained by the Board of Aldermen of The City of New York as follows:

Section 1. Article 18 of chapter 5 of the Code of Ordinances of The City of New York is hereby amended to read as follows:

ARTICLE 18.

Safeguards against spread of fire.

Section 370. Definitions.

- 371. Fire walls.
 - 372. Fire partitions.
 - 373. Shafts.
 - 374. Existing hoistways.
 - 375. Protection of Exterior openings.
 - 376. Protectives for openings.
- § 370. Definitions. For the purpose of this chapter.
- a—a fire wall is any wall built for the purpose of restricting the area subject to the spread of fire;
 - b—a fire partition is a subdividing partition built for the purpose of protecting life by providing an area of refuge;
 - c—a shaft is an enclosed space extending through one or more stories of a building connecting a series of two or more openings in successive floors, or floors and roof;
 - d—an open shaft is one that extends through the roof of a building and is open to the outer air at the top;
 - e—a vent shaft is one used solely to ventilate or light, or both, one or more water-closet compartments or bathrooms;
 - f—an elevator shaft is one that encloses any device used for carrying persons or things upward or downward;
 - g—a dumbwaiter shaft is an elevator shaft which has a cross-sectional area at any point of nine square feet or less, and in which the device is used only for the carrying of things;
 - h—the term "self-closing," as applied to a fire door or other opening protective, means closing automatically after having been opened for use;
 - i—the term "automatic," as applied to a fire door or other opening protective, means normally held in an open position and automatically closing by the action of some releasing device.

§ 371. Fire walls. 1. Construction. Fire walls shall be constructed of approved masonry or reinforced concrete of the thicknesses prescribed by this chapter for the exterior walls of the building in which it is erected, but if hollow terra cotta blocks are used they shall be filled solidly with concrete. In non-fireproof buildings fire walls shall be continuous from the foundation to the roof and provided above the roof with a parapet wall, as specified in § 259 of this chapter.

2. Opening. No opening in a fire wall shall exceed eighty square feet in area, and the aggregate width of all openings at any level shall not exceed twenty-five per cent. of the length of the wall, except that in the first story of buildings equipped throughout with an approved system of automatic sprinklers larger openings and a

greater percentage of wall length may be used by the special written permission of the superintendent of buildings, stating the reason for such allowance. Every opening in a fire wall shall be protected on each side of the wall with an approved automatic fire door. When any fire wall serves also as a fire partition it shall have no openings other than door openings not exceeding forty-eight square feet in area, and one of the automatic fire doors at each opening shall be replaced by a self-closing fire door.

§ 372. Fire partitions. 1. Construction. Fire partitions shall be constructed of the materials and in the manner herein specified, as follows:

- a—approved masonry;
- b—any form of fireproof partition, constructed as required in § 355 of this chapter, provided (1) that such partition is supported on each story on fireproof construction, (2) that, unless otherwise approved after the three hours fire test herein provided, the thicknesses are not less than eight inches for brick, not less than six inches for stone or cinder concrete, or hollow blocks of terra-cotta, concrete or gypsum, and not less than four inches for stone or cinder concrete if properly reinforced with steel, (3) that, unless constructed of expanded metal or wire lath and cement mortar of a finished thickness of not less than two and one-half inches, metal lath construction shall not be used, and, (4) that all openings in partitions of hollow building blocks, gypsum or metal lath construction, shall be adequately reinforced with steel; or,

c—any material and form of construction that may be approved by the Superintendent of Buildings as conforming to the requirements of the fire test prescribed in subdivision 3, § 355 of this chapter, provided, however, that for fire partitions the duration of such test shall be not less than three hours and that such partition shall be supported at each story on fireproof construction.

2. In non-fireproof buildings. In non-fireproof buildings fire partitions, if required in any story, shall be continuous through all stories from the foundation to the roof, provided that if any of the floors of the building are of fireproof construction for their full extent and all stairways are enclosed in approved fireproof construction, fire partitions shall be required to be continuous only from one such fireproof floor to another or to the roof. Any such fire partition shall be deemed continuous, even though the several parts are not directly over one another in successive stories, if the intervening parts of the floors at the levels where offsets occur, are of fireproof construction and all parts not supported directly on the foundations are carried on fireproof construction. Fire partitions shall be carried at least three feet above any non-fireproof roof.

3. Openings. Fire partitions shall have no openings other than the required door openings. No such door opening shall exceed forty-eight square feet in area. If more than one door opening is required, the distance, measured along the line of the fire partition, between any door and the next one shall not be more than sixty feet. Every opening in a fire partition shall be protected by an approved self-closing fire door.

§ 373. Shafts. 1. When required. Unless otherwise specially provided by any other law or ordinance, shafts as in this section described and specified shall be provided in all fireproof and non-fireproof buildings for every series of floor openings, except stairways, hereafter placed or constructed in any such building, whether for air, light, elevator or any other purpose, or hereafter altered so as to enlarge any of such openings, or to change their use. The provisions of this section shall not, however, be taken to apply to ducts permitted by Article 19 of this chapter.

2. Open shafts. All open shafts hereafter placed in any building shall be constructed of approved masonry or reinforced concrete, and of the thicknesses required for exterior walls, provided that for shaft walls not exceeding ten feet in length the thickness may be reduced to not less than eight inches for the uppermost forty feet and four inches more for each lower section of forty feet.

3. Shafts exceeding nine square feet in area. Except as hereinafter provided in this section, all shafts hereafter erected in any building and having a cross-sectional area at any point within the enclosing walls of more than nine square feet, and all existing shafts hereafter enlarged so that the cross-sectional area at any point exceeds nine square feet shall be constructed in the manner and of the material and thicknesses prescribed in subdivision 1, § 372 of this article for fire partitions, or subdivision 2 of this section for open shafts.

4. Shafts not exceeding nine square feet in area. All shafts hereafter erected in any building and having a cross-sectional area at any point of nine square feet or less, except as hereafter provided in this section, shall be constructed of approved masonry, reinforced concrete, or any material or form of construction, not less than two inches thick, permitted under the provisions of § 355 of this chapter as permanent fireproof partitions, set in a steel frame of proper strength or suitably reinforced with metal dowels, or in such other manner as may be approved by the Superintendent of Buildings.

5. Elevator shafts in existing residence buildings. In existing residence buildings which have not more than fifteen sleeping rooms any elevator shaft hereafter erected, when the available space does not permit of the construction required by subdivision 3 of this section, may be constructed as required by subdivision 4 of this section.

6. Non-fireproof shafts. Vent shafts hereafter erected in non-fireproof residence buildings, when extending through not more than one story in height, carried not less than three feet above the roof and covered with a ventilating skylight of metal and glass, and dumbwaiter shafts hereafter erected that do not extend more than three stories above the cellar or basement in residence buildings occupied by not more than two families or having not more than fifteen sleeping rooms, may be built of wood filled in solidly with brick or other approved incombustible material, or covered on the inside with plaster on plaster board or metal lath, or with sheet metal not less than one-sixteenth of an inch in thickness, provided that the part of any such dumbwaiter shaft which extends into the cellar shall be enclosed in eight-inch brick walls.

7. Existing elevators. In every non-fireproof public building all elevators not already enclosed in fireproof shafts shall be enclosed in wall constructed and arranged as in this section required for elevator shafts.

8. Existing dumbwaiter shafts. Any existing dumbwaiter shaft which extends into the cellar or basement, except such as do not extend more than three stories above the cellar or basement in residence buildings, shall be enclosed in the cellar or basement with walls of brick eight inches thick or other fireproof construction approved by the superintendent of buildings, unless already enclosed in some form of construction conforming to the requirements of subdivision 4 of this section.

9. Openings. a. In open shafts having a cross-sectional area at any point of thirty-six square feet or less, hereafter erected or altered, all openings shall be protected with fire doors, fire shutters or fire windows.

b. In vent shafts, hereafter erected or altered, except non-fireproof vent shafts, all openings shall be provided with fire windows.

c. In elevator shafts hereafter erected or materially altered all door openings shall be protected by fire doors. No other openings shall be provided in such shafts, except window openings to the outer air.

d. In dumbwaiter shafts hereafter erected or altered, there shall be no openings other than door openings protected with self-closing fire doors.

e. All other shafts not provided for in this subdivision, hereafter erected or altered, shall have all openings protected with self-closing fire doors.

10. Enclosure at top. All shafts hereafter erected or altered to extend into the top story of any non-fireproof building shall be carried through and not less than three feet above the roof. Every shaft extending above the roof, except open shafts, shall be enclosed at the top with a roof of fireproof construction and a metal skylight of at least three-fourths the area of the shaft in the top story, except that the skylight herein required may be replaced by a window of equivalent area in the side of the shaft provided the sill of such window is not less than three feet above the roof and the window does not face a property line within ten feet. Any shaft that does not extend into the top story of the building shall have the top enclosed with fireproof construction.

11. Enclosure at bottom. The bottom of every shaft, hereafter erected or altered, except vent shafts, shall be enclosed with fireproof construction.

12. Elevator machinery compartment. When any compartment which contains machinery for opening an elevator communicates with an elevator shaft it shall be enclosed with partitions of the same materials, and construction as required for the shaft, and shall have five doors on the openings.

13. Number of elevators restricted in shaft. Not more than two elevators shall be placed hereafter in any one shaft, and where there are only two elevators in any building they shall be placed in separate shafts.

§ 374. Existing hoistways. 1. Gates and trapdoors. In any existing building in which there shall be any hoistway, elevator or wellhole not already inclosed

in walls constructed of brick or other fireproof material and provided with fireproof doors, the openings thereof through and upon each floor of said building shall be provided with and protected by substantial guards or gates and with such good and sufficient trap-doors as may be directed and approved by the superintendent of buildings. When, in the opinion of the superintendent of buildings, automatic trap-doors are required to the floor openings of any uninclosed elevator, the same shall be constructed so as to form a substantial floor surface when closed, and so arranged as to open and close by the action of the elevator in its passage either ascending or descending.

2. Enforcement of section. Except as otherwise provided by law or ordinance, the superintendent of buildings shall have power and authority to require the openings of hoistways, elevators and wellholes in buildings to be enclosed or secured by trap-doors, guards or gates and railings.

3. Guards, gates and trap-doors to be closed when not in use. All guards or gates required by this section shall be kept closed at all times, except when in actual use, and the trap-doors shall be closed at the close of the business of each day, by the occupant or occupants of the building having the use or control of the same.

§ 375. Protection of exterior openings. 1. When required. Every window or other opening above the first story in the exterior walls of every fireproof and non-fireproof business building, more than forty feet in height, shall, except as may be otherwise specifically provided in this chapter or by any other law or ordinance, be protected by a fire door, fire window, fire shutter, open sprinkler or other approved protective when such opening is distant in a direct line less than thirty feet from any opening in any other building and not in the same plane with said opening, or when said opening is not more than fifty feet above a neighboring roof.

2. Fire shutters to be readily opened. When fire shutters are used in exterior openings at least one row in every three vertical rows of shutters on front window openings shall be arranged to be readily opened from the outside. Distinguishing marks, satisfactory to the fire commissioner, shall be provided on these shutters.

3. Openings to fire escapes. When fire doors or fire shutters are used on exterior openings leading to fire escapes or exterior exits of any kind they shall be so arranged as not to obstruct such fire escape or exit.

4. Vertical separation of windows. In fireproof and non-fireproof business buildings hereafter erected, over forty feet in height, exterior openings above the second story that are located vertically above one another and that do not require any protective under this section, shall have not less than three feet of solid masonry between the top of one opening and the bottom of the one next above, and no such opening shall be arranged, to open within one foot of the ceiling of the story in which it is located, provided, however, that part of such masonry between openings may be replaced by wire glass in fixed metal sash and frame.

5. Closing protectives. All fire doors, fire shutters and fire windows on exterior openings, unless provided with approved automatic closing devices operative from either side, shall be closed when not required to be open, and at the close of business each day by the occupant or occupants of the building having the use or control of them.

§ 376. Protectives for openings. 1. Construction. All opening protectives required or permitted under this chapter shall be constructed as prescribed in such rules, consistent with the provisions of this chapter, as may be promulgated by the superintendent of buildings, or, in the absence of such rules, as specified in the standard requirements of the National Board of Fire Underwriters; or they may be constructed in any manner and of any material that will comply with the fire test hereinafter prescribed.

2. Fire test. In testing the fireproof qualities of any opening protective a complete sample of the device of the maximum size to be approved, constructed and installed in every respect as in actual service, shall be subjected to a fire on one side, continuous for not less than one hour, at a temperature, in the case of fire doors and fire shutters increasing gradually from that of the outer said to eighteen hundred degrees Fahrenheit within the first half-hour and to two thousand degrees Fahrenheit during the second half-hour, and, in the case of fire windows, increasing gradually from that of the outer air to fifteen hundred degrees Fahrenheit within the hour, without permitting the passage of flame or the transmission of heat to a dangerous extent.

3. Use of wire glass. When wire glass is required or permitted by this chapter or the rules authorized thereunder, for fire doors, fire shutters or fire windows, the panes shall not exceed seven hundred and twenty square inches in area, and shall not be less than one-quarter inch in thickness, and shall be set not less than five-eighths of an inch in the frame. When the use of glass is permitted in any fire door or fire shutter only wire glass shall be used. For the glazing of fire window only wire glass shall be used.

Section 2. Sub-division 2 of § 447 of Article 21 of Chapter 5 of the Code of Ordinances of The City of New York is hereby repealed.

Section 3. The provisions of this ordinance shall take effect three months after its adoption by the Board of Aldermen.

Adopted by the Board of Aldermen November 9, 1915.

Received from his Honor the Mayor November 23, 1915, without his approval or disapproval thereof; therefore, as provided in section 40 of the Greater New York Charter, the same took effect as if he had approved it.

No. 558.

An Ordinance Relating to Roofing and Roof Structures in The City of New York.

Be it Ordained, by the Board of Aldermen of The City of New York, as follows:

Section 1. Article 20 of Chapter 5 of the Code of Ordinances of The City of New York is hereby amended to read as follows:

ARTICLE 20.

Roofing and roof structures.

- Section 420. General.
- 421. Roofing.
- 422. Cornices and gutters.
- 423. Leaders.
- 424. Sky-lights.
- 425. Scuttles.
- 426. Roof houses.
- 427. Slanting roofs.
- 428. Tanks.
- 429. Cooling towers.

Section 420. General. Except when otherwise specifically provided for in this chapter, all construction, other than water tanks, hereafter placed above the roof of any part of any building within the fire limits or of any building more than forty feet in height outside the fire limits, shall be of incombustible materials.

Section 421. Roofing. 1. Materials. Except as otherwise in this chapter specifically provided, every roof hereafter placed on any building or part thereof, shall be covered with an approved roofing of brick, concrete, tile, slate, metal, asbestos, slag, gravel, or other approved incombustible material.

2. Planking. When wood planking or sheathing is permitted in roof construction, it shall not, in any case, extend across any side or party walls.

3. Repairs. No roofing on any existing roof shall be renewed or repaired, except in conformity with the requirements of this section, provided, however, that when the renewal or necessary repairs do not constitute more than one-fourth of the roofing in any one roof surface, the new work may be made to conform to the existing roofing.

Section 422. Cornices and gutters. 1. Construction. All cornices inclusive of those on show windows, and gutters, hereafter placed on the exterior of any building, except buildings that are permitted to be of frame construction, shall be of incombustible materials. When constructed of sheet metal they shall be riveted in the seams at intervals of not more than five inches. Cornices shall be secured to the walls with metal framing or anchors, spaced not more than four feet apart, and extending not less than four inches into the wall at top and bottom.

2. Repairs. All cornices or gutters that may now be or that may hereafter become unsafe shall be taken down, and if replaced, shall be constructed to conform to the requirements for new cornices, except that when any such cornice or gutter is not damaged to a greater extent than one-half, it may be repaired with the same material as originally constructed.

Section 423. Leaders. All buildings shall be provided with proper leaders for conducting water from the roofs. In no case shall the water from leaders be allowed to flow upon the sidewalk, but it shall be conducted by pipe or pipes to the sewer. If there be no sewer in the street then the water from the leader shall be conducted by proper pipe or pipes, below the surface to a street gutter, or to a cesspool.

Section 424. Skylights. 1. Construction. All skylights hereafter placed in any building, shall have the sashes and frames thereof constructed of metal, except that skylights in foundries or buildings where acid fumes are present as an incident to the occupancy of the building may be of wood in the discretion of the superintendent of buildings. The frames and other parts of metal skylights shall be riveted or otherwise securely fastened, in addition to soldering, and shall be securely anchored to the supporting structure.

2. Glazing. Skylights placed over shafts of any kind shall be glazed with plain glass not less than three-sixteenths of an inch in thickness. No pane of glass in any such skylights hereafter placed in any building shall exceed seven hundred and twenty square inches in area.

3. Protection. Every skylight in which plain glass is used shall be protected by a wire screen placed not less than four inches nor more than ten inches above the glazed portion of the skylight at all points. Such screen shall be not lighter than No. 12 U. S. gauge, shall have a mesh of not less than three-fourths of an inch nor more than one inch, shall extend beyond the glazing on all sides a distance not less than the height of the screen above the glazing. When any such skylight is located over any passageway or any room of public resort a similar screen shall also be placed below the skylight.

Section 425. Scuttles. Unless provided with some other means of access to the roof, every building more than fifteen feet high, except dwellings with peak roofs, shall have in the roof a scuttle, with a substantial iron ladder leading thereto. All scuttles shall be covered on the top and edges with sheet metal or other approved incombustible material. The scuttle openings shall be at least two feet by three feet in size.

Section 426. Roof houses. 1. Definitions.

a. The term bulkhead as used in this section includes all such enclosed structures above the roof of any part of a building as enclose only stairways, tanks, elevator machinery or ventilating apparatus, or shafts.

b. The term pent house as used in this section means any enclosed structure, other than a bulkhead, extending not more than twelve feet above a roof.

2. Bulkheads. The walls of any bulkhead hereafter erected on any roof of a fireproof building, shall be constructed as required for fire partitions by subdivision 1, section 372 of this chapter. Such walls may be used as bearing walls of the bulkhead roofs when they do not exceed fifteen feet in height and thirty-five feet in length, and the roof span does not exceed twelve feet. The roofs of such bulkheads shall be of fireproof construction as provided by section 354 of this chapter. The walls and roofs of all bulkheads, unless constructed of approved masonry, shall be covered on the outside with incombustible, weatherproof material.

3. Pent houses. Every pent house shall be considered a story of the building and, except as may be otherwise specifically provided by law, its construction shall conform to the requirements for buildings of a height to which such pent house is carried; provided that when any exterior wall of such pent house sets back not less than five feet from the exterior walls of the next lower story of the building it may be constructed of brick not less than eight inches thick, or hollow building blocks not less than six inches in thickness, covered on the outside with incombustible weatherproof material, and supported by steel or reinforced concrete girders.

4. Doors and windows. All doors and door frames in the exterior walls of bulkheads or pent houses shall be metal or metal covered wood. All windows in bulkheads or pent houses, except where otherwise specifically provided for, shall be constructed as other windows of the building similarly located.

5. Sun parlors. Nothing in this section shall prevent the erection on any roof of any building, of sun parlors or rooms for similar purposes, provided that only incombustible materials are used in the construction, and the floor of such structure is constructed as required for the roof of the building.

Section 427. Slanting roofs. 1. Construction. Every mansard or other slanting roof having a pitch of more than sixty degrees, hereafter placed on any non-fireproof building over forty feet high, shall be constructed fireproof as specified in Section 354 of this chapter.

2. Dormer windows. Every dormer window hereafter erected shall be constructed in the same manner as the roof on which it is placed. The sides and top shall be covered with any of the materials approved for roofing.

Section 428. Tanks. 1. Supports. Tanks of more than 500 gallons capacity hereafter placed in or on any building shall be supported on masonry, reinforced concrete or steel construction of sufficient strength and carried to a proper foundation.

2. Emergency outlet. Every such tank shall have in the bottom or on the side near the bottom, a pipe or outlet, not less than four inches in diameter, fitted with a suitable quick-opening valve for discharging the contents in an emergency.

3. Location. Such tanks shall not be placed over nor near a line of stairs or an elevator shaft, unless there is a solid roof or floor underneath the tank.

4. Covers. All unenclosed roof tanks shall have covers with proper slope.

5. Hoops. When hoops are used in the construction of tanks they shall be of metal round in section.

Section 429. Cooling towers. Cooling towers hereafter erected above any roof shall be of incombustible material, except the drip bars, which may be of wood.

Section 2. The provisions of this article shall take effect three months after its adoption by the Board of Aldermen.

Adopted by the Board of Aldermen November 9, 1915.

Received from his Honor the Mayor November 23, 1915, without his approval or disapproval thereof; therefore, as provided in section 40 of the Greater New York Charter, the same took effect as if he had approved it.

No. 559.

An Ordinance Relating to Safeguards During Construction or Demolition of Buildings in The City of New York.

Be it Ordained by the Board of Aldermen of The City of New York as follows:

Section 1. Article 10 of chapter 5 of the Code of Ordinances of The City of New York is hereby amended to read as follows:

ARTICLE 10.

Safeguards during construction or demolition.

- Section 190. Enforcement of article.
- 191. Sidewalk sheds.
- 192. Temporary fence.
- 193. Roofs and skylights of adjoining buildings.
- 194. Scaffolding.
- 195. Floors to be filled in or covered over.
- 196. Protection of floor openings.
- 197. Weather protection.
- 198. Cellar drainage.
- 199. Overloading prohibited.
- 200. Precautions during demolition.

§ 190. Enforcement of article. Except as may be otherwise provided by any law or ordinance, the provisions of this article shall be enforced by the superintendent of buildings, and all safeguards required by the provisions of this article or by any rules authorized thereunder shall be subject to the supervision of the bureau of buildings. The superintendent of buildings shall, from time to time, adopt such rules, consistent with the provisions of this article, as may be necessary to secure fully the protection of persons and property. In case any safeguard shall not be provided as prescribed by this article, the superintendent of buildings shall cause a notice to be served personally upon the persons whose duty it may be to provide the same or upon the owners of the buildings affected, requiring such safeguard and specifying the manner in which the same shall be erected. If such safeguard is not provided as required in such notice, within three days after the service thereof, the superintendent of buildings shall have full power and authority to provide or cause the same to be provided as herein specified. All expenses connected with same may become a lien on the property inclosed or protected, which lien may be created and enforced in the same manner as now provided in § 652 of this chapter.

§ 191. Sidewalk sheds. Whenever any building or part thereof, within ten feet of the building line, is to be erected or raised to exceed forty feet in height, or whenever such a building more than forty feet in height is to be demolished, the owner, or the person doing or causing such work to be done shall erect and maintain during such work a substantial shed over the sidewalk in front of said building and extending, so far as practicable, from building line to curb. Such shed shall remain in place until the building is enclosed, or, in case of a demolition, until the building has been reduced to twenty feet in height. Every such shed shall be kept properly lighted at night.

§ 192. Temporary fence. In any building operation that does not require a sidewalk shed as provided in § 191 of this article, the owner or person doing or causing such work to be done, shall, unless relieved by a general rule of the superintendent of

buildings or a special permit from him, erect and maintain in front of the building during such building operation, a substantial fence not less than eight feet high, of wood or other suitable material. Such fence may extend not more than six feet into the highway, and shall be built solid for its full length except for such openings, provided with sliding doors or doors swinging inwards, as may be necessary for a proper prosecution of the work.

§ 193. Roofs and skylights of adjoining buildings. When any building is to be carried above the roof of an adjoining building, proper means for the protection of the skylights and roof of such adjoining building shall be provided, at his own expense, by the person constructing or causing the construction of such building, provided that the owner, lessee or tenant of the adjoining building should refuse permission to have the roofs and skylights so protected, the responsibility and expense for the necessary protection shall devolve on the person refusing this permission.

§ 194. Scaffolding. All scaffolds used in connection with the erection, alteration or demolition of any building shall be constructed in a manner to secure the safety of the workmen on them and of all persons passing under or near them. All scaffolds used on or about buildings at a height of more than twenty feet above the street or ground level, or a floor, except scaffolding wholly within the interior of a building and covering the entire floor space of any room therein, shall be provided along the outer edges and ends with substantial railings or enclosures of wire mesh or other suitable material, extending at least three feet above the working platform.

§ 195. Floors to be filled in or covered over. If the floors of any building are to be of fireproof construction the floor filling shall be completed as the building progresses. If the floors consist of wood beams the under-flooring, when double flooring is to be used, shall be laid on each story as the building progresses; when double floors are not to be used, the floors two stories below the story where the work is being performed shall be kept planked over. If the floor beams are of iron or steel, the entire tier of iron or steel beams on which the structural iron or steel work is being erected, except such spaces as may be reasonably required for the proper construction of such iron or steel work, and for the raising or lowering of materials to be used in the construction of such building, or such spaces as may be designated by the approved plans for stairways and shafts shall be thoroughly planked over.

§ 196. Protection of floor openings. All floor openings within a building in the course of construction shall be enclosed or fenced in on all sides by a barrier of suitable height, except on those sides which may be used for the handling of materials hoisted through such openings, or at which stairs or ladders land, provided, that such sides, other than landings, shall be guarded by an adjustable barrier not less than three nor more than four feet from the floor and not less than two feet from the edge of such opening.

§ 197. Weather protection. Whenever permission has been given under any of the provisions of this chapter to enter any adjoining building the person who receives such permission or who is responsible for the work requiring such permission, shall provide for such adjoining building adequate protection against the weather.

§ 198. Cellar drainage. Before the foundation walls of any building are completed provision shall be made to prevent water accumulating in the excavation or cellar to the injury of the foundation, and if there is a sewer in the street the cellar shall also be connected therewith.

§ 199. Overloading prohibited. No building or part thereof, or any temporary support or scaffolding in connection therewith, shall be loaded during erection, alteration or demolition in excess of its safe carrying capacity.

§ 200. Precautions during demolition. In demolishing any building or part thereof, story after story shall be completely removed. No material shall be stored upon a floor of any building in the course of demolition, but old material shall be lowered to the ground immediately upon displacement. The material to be removed shall be properly wet to lay the dust incident to its removal.

Section 2. The provisions of this ordinance shall take effect three months after its adoption by the Board of Aldermen.

Adopted by the Board of Aldermen November 9, 1915.

Received from his Honor the Mayor November 23, 1915, without his approval or disapproval thereof; therefore, as provided in section 40 of the Greater New York Charter, the same took effect as if he had approved it.

No. 560.

An Ordinance in Relation to Frame Buildings in the City of New York.

Be It Ordained by the Board of Aldermen of The City of New York as follows:

Section 1. Article 22 of Chapter 5 of the Code of Ordinances of The City of New York is hereby amended to read as follows:

ARTICLE 22. Frame buildings.

- Section 470. Height.
471. Area.
472. Frame construction.
473. Filling in walls.
474. Roofing.
475. Towers.
476. Piazzas.
477. Minor structures.
478. Temporary structures.
479. Miscellaneous frame structures.
480. Permissible alterations.
481. Use of masonry walls.

§ 470. Height. Except as may be otherwise specifically provided in this chapter, or in the rules authorized thereunder, no frame building or structure hereafter erected or enlarged shall exceed forty feet in height.

§ 471. Area. 1. Building area. No frame building hereafter erected or enlarged shall exceed five thousand square feet in area.

2. Plot area. The combined area of frame buildings, sheds and outhouses located on any lot or plot shall not exceed eighty per cent. of the area of that part of the lot or plot which is not already covered by fireproof or non-fireproof buildings.

§ 472. Frame construction. The wood frame work of all frame buildings, hereafter erected, shall consist of sills, posts, girts and plates of suitable size and materials with proper mortise and tenon framing and braced with studs at all angles, but this shall not prohibit the use of balloon framing with proper sills and ribbon strip provided diagonal sheathing is used. Floor and roof beams and rafters shall be not less than two inches in thickness. No part of the wood frame work shall be built below the ground level.

§ 473. Filling in walls. 1. Independent walls. Any exterior wall of frame construction, hereafter erected within three feet of a side or rear line of the lot or plot on which it is located, or hereafter erected as the side wall of any frame tenement house, shall have the spaces between the studding filled in solidly with brickwork or other approved incombustible material.

2. Party walls. Every party wall of frame construction hereafter erected shall have the studding filled in solidly with brickwork or other approved incombustible material not less than four inches thick. Every interior wall of frame construction extending from front to rear without openings and dividing the building into separate and distinct parts, shall have the studding filled in solidly with brickwork or other approved incombustible material.

3. Extent of filling. The filling herein required in exterior or party walls of frame construction shall in all cases be carried up from the ground to the under side of the roof boards.

§ 474. Roofing. 1. Within the fire limits. Any roofing hereafter placed on any frame building within the fire limits shall be of approved incombustible materials, provided that any existing shingle roof may be repaired at any time to an extent of not more than twenty-five per cent. of its surface.

2. Outside of fire limits. Nothing in this chapter shall prevent the use of wood shingles outside the fire limits on any building which, under the provisions of this chapter, is permissible of frame construction.

§ 475. Towers. 1. On residence buildings. Outside of the fire limits towers, turrets or minarets of frame construction may be erected on frame buildings occupied or used exclusively as residence buildings, provided they do not extend more than ten feet above the limiting height for frame buildings and do not cover an aggregate area of more than fifteen per cent. of the roof area of the building, and that the greatest horizontal dimension of any one tower, turret or minaret is not more than fifteen feet.

2. Church spires. Outside of the fire limits and the suburban limits, towers or spires, of frame construction may be erected on frame buildings occupied or used

exclusively as churches or other places of worship, provided they do not exceed a height of seventy-five feet above the curb or ground level.

3. Covering. All towers or other structures provided for in this section shall be covered on the exterior with approved incombustible roofing.

§ 476. Piazzas. Within the fire limits and the suburban limits, piazzas or balconies of wood may be erected on residence buildings having not more than fifteen sleeping rooms, provided they do not exceed twelve feet in width, and do not extend more than three feet above the second story floor beams. The roofs of all such piazzas or balconies shall be covered with incombustible material.

§ 477. Minor structures. 1. Sheds. Within the fire limits and the suburban limits sheds, open on at least one side, may be erected of wood, but such sheds shall not exceed fifteen feet in height, shall not cover an area exceeding twenty-five hundred square feet, shall not be placed nearer than four feet to any lot line, and shall be covered on the sides and roof with incombustible materials.

2. Outhouses. Outhouses of wood to be used exclusively for privies, or for the storage of coal or wood for domestic purposes, may be erected on the lot with any residence building within the fire limits or the suburban limits, provided they do not exceed eight feet in height, or one hundred and fifty square feet in area, and have the roofs covered with incombustible materials.

3. Builders' shanties. One-story buildings for the use of builders in connection with any building operation for which a permit has been issued, may be constructed of wood and placed on the lot or plot where such building operation is carried on, or on adjoining lots or plots if they do not interfere with the safe occupancy of any buildings thereon, or on the sheds which may be required or provided over the sidewalks in front of such building operation.

4. Fences. Fences of wood within the fire limits or the suburban limits shall not exceed twelve feet in height.

§ 478. Temporary structures. 1. Meaning. Temporary structures shall be taken to mean platforms, reviewing stands, gospel tents, circus tents and other structures that are erected to serve their purpose for a limited time.

2. Permit. Temporary structures shall not be erected until a permit, specifying the purpose and the period of maintenance, shall have been obtained from the superintendent of buildings.

3. How located. Within the fire limits or the suburban limits no temporary structure which is enclosed in any manner shall be placed on any lot nearer than four feet to the lot line.

4. Removal. Every temporary structure shall be removed at the expiration of the period for which the permit was issued, unless such permit is renewed.

5. Unlawful use. It shall be unlawful to use any temporary structure for any other purpose than that designated in the permit.

§ 479. Miscellaneous frame structures. Frame structures which are of an unusual character and to which the provisions of this chapter do not directly apply, including among others, buildings for fair and exhibition purposes, towers for observation, amusement devices, greenhouses and lumber sheds, and temporary structures of any kind shall be erected in conformity to such rules, consistent with the provisions of this chapter and securing the general intent thereof, as may be adopted by the superintendent of buildings.

§ 480. Permissible alterations. 1. Application. Subject to the requirements of this chapter as to construction, occupancy and location, any existing frame building within the fire limits or the suburban limits occupied exclusively as a residence building and having not more than fifteen sleeping rooms, may be altered and enlarged of frame construction as hereafter specified in this section, provided that no such building shall be altered or enlarged to be used for any other purpose.

2. Raising in height. a. Any such building situated in a row of frame buildings may be increased in height to conform to the height of adjoining buildings.

b. Any such building already exceeding twenty-five feet in height, that has a peaked roof, may be raised for the purpose of making a flat roof thereon, provided that the new roof is covered with incombustible material, and that, when so raised, the building shall not exceed forty feet in height to the highest part thereof.

c. Nothing in this section shall prohibit one-story and basement residence buildings from being increased one additional story in height.

3. Extensions. a. Any such building may be extended either on the front or rear to a depth of not more than fifteen feet and not more than the width of the building and not more than two stories and basement in height.

b. If any such building has an extension of less width than the main building the same may be increased in width to the full width and height of the main building.

4. Bay windows. Any such building may have bay windows of wood placed on any story, the roofs of which may be covered with the same material as the roof of the main building, except when such a bay window would increase the width of the building to more than eighty-five per cent. of the width of the lot.

§ 481. Use of masonry walls. In case approved masonry or reinforced concrete is used for the exterior walls of any building which under the provisions of this chapter is permitted to be of frame construction, nothing in this chapter shall prohibit all other parts of the building from being constructed as though the entire building were of frame construction.

Section 2. § 550 of Article 26, and §§ 620, 621 and 622 of Article 30 of Chapter 5 of the Code of Ordinances of The City of New York are hereby repealed.

Section 3. The provisions of this ordinance shall take effect three months after its adoption by the Board of Aldermen.

Adopted by the Board of Aldermen November 9, 1915.

Received from his Honor the Mayor November 23, 1915, without his approval or disapproval thereof; therefore, as provided in section 40 of the Greater New York Charter, the same took effect as if he had approved it.

No. 561.

An Ordinance in Relation to Chimneys and Heating Apparatus in The City of New York.

Be it Ordained by the Board of Aldermen of The City of New York as follows:

Section 1. Article 19 of Chapter 5 of the Code of Ordinances of The City of New York is hereby amended to read as follows:

ARTICLE 19.

Chimneys and heating apparatus.

- Section 390. General.
391. Heat producing devices.
392. Chimneys.
393. Fireplaces.
394. Metal smokestacks.
395. Cupola chimneys.
396. Underground flues.
397. Ranges.
398. Drying rooms.
399. Smoke houses.
400. Registers.
401. Vent flues.
402. Ducts.
403. Smoke pipes.
404. Steam and hot water pipes.

§ 390. General. 1. Definitions. For the purposes of this chapter.

a—a chimney is that part of a building which contains one or more flues for transmitting the products of combustion from some fireplace or heating device to the outer air, and includes the fireplace when therein one;

b—a flue is a passage, enclosed on all sides with solid masonry or reinforced concrete and used only for the transmission of air, whether fresh, heated, or vitiated, or of the products of combustion from solid fuel or liquid fuel, and designated respectively vent flue or smoke flue;

c—a duct is a passage constructed of sheet metal or other approved incombustible material, and used only for the transmission of air, whether fresh, heated or vitiated;

d—a smoke pipe is a passage constructed of metal and used as an intermediate connection between a heat producing device and a chimney or metal stack for the transmission of the products of combustion.

2. Notice of installation. In case heat producing appliances or furnaces are hereafter placed in any building, or flues and fireplaces are installed, changed or enlarged, and such installation or alteration necessitates any change in any structural parts of the building, due notice shall be given to the superintendent of buildings by the person doing such work or causing the same to be done, and a permit secured from him if necessary.

§ 391. Heat producing devices. For the purposes of this chapter, heat producing devices shall be graded as

a—low, including bakers' ovens; boiling vats; candy furnaces; clay, coke and gypsum tripoli kilns; coffee roasting ovens; cooking ranges; core ovens; cruller furnaces; drying furnaces for spent materials; feed drying ovens; fertilizer drying ovens; forge furnaces; gas producers; gypsum kilns; hardening furnaces (below dark red); hot air engine furnaces; hot-air heating furnaces; hot water and low pressure steam heating boilers; japanning ovens; ladle drying furnaces; lead melting furnaces; nickel plate furnaces; paraffine furnaces; rendering furnaces; rosin melting furnaces; stereotype furnaces; sulphur furnaces; typefoundry furnaces; wood drying furnaces; wood impregnating furnaces;

b—medium, including alabaster gypsum kilns; charcoal furnaces; direct fire heated feed driers; direct fire heated fertilizer driers; direct fire heated pulp driers; galvanizing furnaces; glass factory lehrs and glory holes; hardening furnaces (cherry to pale red); lime kilns; porcelain biscuit kilns; smoke houses; steam boilers, other than low pressure heating boilers; water-glass kilns; wood-distilling furnaces; wood-gas retorts;

c—high, including annealing furnaces; bessemer retorts; billet and bloom furnaces; blast furnaces; bone calcining furnaces; brass furnaces; carbon point furnaces; cement, brick and tile kilns; coal and water gas retorts; cupolas; earthenware kilns; gas blow furnaces; glass smelting furnaces; glass kilns; open hearth furnaces; ore roasting furnaces; porcelain baking and glazing kilns; pot-arches; puddling furnaces; regenerative furnaces; reverberatory furnaces; stacks, carburetor or super-heating furnaces in water gas works; welding furnaces; wood carbonizing furnaces.

In doubtful cases the superintendent of buildings shall by a rule designate the grade of any heat producing device, being governed in doing so by the degree and amount of heat transmitted.

§ 392. Chimneys. 1. Construction. Except as in this article otherwise provided, every chimney hereafter erected shall be of brick or stone laid in cement mortar, or of reinforced concrete, extending above the highest point of the roof and at least four feet above the highest point of contact with the roof. Every chimney shall be properly capped with terra cotta, stone, cast iron or other approved incombustible, weatherproof material, except that on buildings forty feet or less in height the top courses of a brick chimney may be finished off by being carefully bonded and anchored together to serve as coping.

2. Supports. All chimneys shall be wholly supported by stone, brick or self-supporting fireproof construction. No chimney shall rest or be built upon any wood construction.

3. Flues for low grade devices. The smoke flues of stoves, cooking ranges, hot air, hot water and low pressure steam heating furnaces, and all other heat producing devices graded as low, shall be encased in brickwork or concrete not less than eight inches thick, except that for smoke flues exclusively used for ordinary stoves, ranges or open fireplaces when no combustible studding, furring or sheathing is placed against it, such brickwork or concrete may be reduced to not less than four inches. In chimneys of stone, the stone work of such flues shall be four inches thicker than required for brick. Every flue coming under the provisions of this subdivision hereafter erected shall be lined with well-burnt terra cotta pipe, from the bottom of the flue, or from the throat of the fireplace if the flue starts from a fireplace, for the entire height of the chimney. Such lining pipes shall be built in as the flues are carried up, laid end to end in cement mortar so as to make a smooth flue. Where two or more smoke flues are contained in the same chimney, the widths shall be either brick not less than four inches thick, or concrete or grout not less than one inch thick, provided, however, that every third width shall consist of brick.

4. Flues for medium grade devices. The smoke flues of high pressure steam boilers, smoke houses and all other heat producing devices graded as medium shall be encased in brickwork or concrete not less than eight inches thick, or stonework not less than twelve inches thick, and in addition, shall be lined with not less than four inches of fire brick, laid in fire mortar, for a distance of at least twenty-five feet from the point where the smoke connection of the device enters the flue.

5. Flues for high grade devices. The smoke flues of cupolas, brass furnaces, porcelain baking kilns and all other heat producing devices graded as high shall be built with double walls, each not less than eight inches in thickness, with an air space of not less than two inches between them. The inside of the interior walls shall be of firebrick not less than four inches in thickness.

6. Certain flues required. In every building hereafter erected exceeding forty feet in height, where one or more smoke flues start from the cellar or lowest story, at least one such flue shall have an internal cross-sectional area of not less than ninety-six square inches and shall start not less than three feet below the ceiling. No flue hereafter erected shall have smoke-pipe connections in more than one story of a building.

7. Flues to be clean and chimneys safe. Upon the completion of any new building or an alteration in any flues of an existing building, the flues shall be properly cleaned and left smooth on the inside. Any chimney which shall be dangerous in any manner whatever shall be repaired and made safe, or taken down.

8. Unlawful use of flues. It shall be unlawful to use as a smoke flue any flue hereafter erected or placed in any building, or any flue now existing and not already used as a smoke flue, unless it conforms to the requirements of this section. Nothing in this article, however, shall prevent the use of approved metal flue linings for the repair or alteration of flues in residence buildings.

9. Raising adjoining chimneys. a. Whenever a building, wall or structure is hereafter erected, altered, enlarged or raised so that any of the walls, whether independent or party, along a property line or within three feet thereof, extends above the top of any chimney, smoke flue or smokestack of an adjoining building or structure, the owner of the building, wall or structure so erected, altered, enlarged or raised, shall, at his own expense, carry up, either independently or in his own building, wall or structure, all chimneys, smoke flues and smokestacks of such adjoining building or structure within ten feet of any portion of the said wall extending above such chimney, flue or stack. The construction of such chimneys, flues or stacks shall conform to the requirements of this article applying thereto, but in no case shall the internal area of any flue or stack as raised be less than that of the existing flue or stack. All such chimneys, flues or stacks shall be carried above the walls in question to the heights prescribed, and shall, furthermore, be so constructed, supported and braced as to be at all times safe.

b. It shall be the duty of the owner of the building, wall or structure to be erected, altered, enlarged or raised to notify in writing, at least ten days before such work is begun, the owner of the chimneys, flues or stacks affected, of his intention to carry up such chimneys, flues or stacks as herein provided, and unless released in writing he shall carry up such chimneys, flues or stacks simultaneously with the walls.

§ 393. Fireplaces. 1. Firebacks. The firebacks of all fireplaces hereafter erected shall be not less than eight inches in thickness of solid masonry. A lining of firebrick or other approved material at least two inches thick shall be provided unless the fireback is twelve inches in thickness.

2. Trimmer arches. All fireplaces and chimney breasts where mantels are placed, whether intended for ordinary fireplace use or not, shall have trimmer arches or fireproof construction supporting hearths. The arches and hearths shall be at least twenty inches in width measured from the face of the chimney breast. Trimmer arches shall be of brick, stone, terra cotta or reinforced concrete. The length of the trimmer arch shall not be less than the width of the chimney breast, and the length of the hearth shall be not less than the width of the mantel. The hearths shall be of brick, stone, tile or other approved fireproof material. The combined thickness of trimmer arch and hearth shall at no point be less than six inches. Wood centres under trimmer arches shall be removed before plastering the ceiling underneath.

3. Heaters. No heater shall be placed in a fireplace which does not conform to the foregoing requirements of this section.

4. Mantels. No wood mantel or other woodwork shall be hereafter placed within eight inches on either side nor within twelve inches of the top of any open fireplace. If a coal-burning heater of the Baltimore type is placed in a fireplace, any mantel that may be provided shall be of incombustible material. No combustible summer piece or fireboard shall be used in connection with any open fireplace. All spaces back of combustible mantels shall be solidly filled in with incombustible material.

5. False fireplaces. False fireplaces using summer pieces or fireboards shall not be placed in any building except against an unfurred masonry wall or a fireproof partition.

§ 394. Metal smokestacks. 1. Construction. Metal smokestacks must be so constructed that they will be securely supported and that the materials entering into their construction or serving as support shall not be stressed beyond the working stresses fixed by this chapter. The metal work must be riveted and of adequate thickness,

but not less than No. 16 U. S. gage when the cross-sectional area is one hundred and fifty-four square inches or less, not less than No. 14 U. S. gage when the cross-sectional area is more than one hundred and fifty-four square inches and not more than two hundred and one square inches, not less than No. 12 U. S. gage when the cross-sectional area is more than two hundred and one square inches but not more than two hundred and fifty-four square inches, and not less than No. 10 U. S. gage when the cross-sectional area is more than two hundred and fifty-four square inches. All metal work shall be painted; galvanized metal shall not be used. Clean-out openings shall be provided at the base of every such stack.

2. Height. All such stacks serving high grade heat producing devices shall extend to a height of not less than ten feet above the highest point of any roof within twenty-five feet.

3. Independent stacks. All such stacks hereafter erected, outside and independent of any building, shall be supported on substantial masonry foundations, so designed that the maximum pressure on the soil shall not exceed two-thirds of that prescribed in § 231 of this chapter.

4. Exterior stacks. Any such stacks, or any part thereof, hereafter erected on the immediate exterior of the building it serves shall be braced to such building at least every twenty feet. It shall have a clearance of not less than four inches from the walls of a fireproof or non-fireproof building and not less than twenty-four inches from the walls of a frame building; and a clearance of not less than twenty-four inches in any direction from any wall opening, fire escape or other exit facility, unless such stack is insulated in some approved manner, in which case the clearances herein provided may be reduced an amount fixed by the superintendent of buildings when approving the insulation.

5. Interior stacks. Any such stack, or part thereof, hereafter erected within any building shall be enclosed in walls of approved masonry; or, if in a fireproof building, such stack, or part thereof, shall be enclosed in walls of brick, terra cotta blocks or concrete not less than eight inches thick, with a space left between the stack and the enclosing walls sufficient to render the entire stack accessible for examination and repair. The enclosing walls shall be without openings above the story at which it starts.

6. Prohibition. Smokestacks shall not be carried up inside of vent stacks or flues connected to ranges, unless such vent stacks or flues are constructed as required by this article for smokestacks or smoke flues.

§ 395. Cupola chimneys. Chimneys or cupola furnaces, blast furnaces and similar devices shall extend at least twenty feet above the highest point of any roof within a radius of fifty feet thereof and be covered on the top with heavy wire netting or other approved spark arrester. No woodwork shall be within three feet of any part of such device or its chimney.

§ 396. Underground smoke flues shall be covered with at least twelve inches of solid masonry, or an approved equivalent insulation. If clean-out openings are installed they shall be provided with approved double iron doors or covers, of which the two parts are twelve inches apart, with the intervening space filled with insulating material. No combustible flooring shall be laid over any such flues.

§ 397. Ranges. 1. Kitchen ranges. When fixed ranges are to be installed in any building hereafter erected trimmer arches extending beyond such ranges not less than six inches on all sides shall be provided unless the floor is of fireproof construction. No such range shall be placed against a stud partition, a furred wall or any other combustible construction. When any such range is to be placed within twelve inches of a wood stud partition the said partition shall be shielded with metal from the floor to a height of not less than three feet higher than the range, provided that when the range is within six inches of the partition the studs shall be cut away and framed three feet higher and one foot wider than the range and filled in to the face of the said stud partition with brick or fireproof blocks.

2. Hoods over ranges. All hoods and ducts for same placed over hotel or restaurant ranges shall be constructed of incombustible materials and installed in accordance with the requirements of § 403 for smokepipes.

§ 398. Drying rooms. Drying rooms hereafter placed within any building as a part of the building shall be constructed entirely of incombustible materials. When the heating pipes are not placed overhead, they shall be so shielded as to preserve at all times a clear space of not less than two inches between them and the contents. All such drying rooms shall be ventilated directly to the outer air by vent flues or ducts installed as specified in § 403 of this article for smokepipes.

§ 399. Smoke houses. All smoke houses hereafter erected as part of any building shall be of fireproof construction with walls of brick or reinforced concrete. All openings shall be provided with fire doors. The interior framing, racks, hangers and other interior fittings shall be of incombustible materials.

§ 400. Registers. All registers used in any hot-air furnace heating system, placed in any woodwork or combustible floor, shall rest upon stone or iron borders firmly set in plaster of paris or gauged mortar. All register boxes used in any such heating system shall be made of tin plate or galvanized iron with a flange to fit the rabbet in the border. The register box shall be enclosed in a tin or galvanized iron casing turned under the border and spaced at least two inches from the sides of the box. Such casing shall extend from the border to and through the ceiling below in the case of a floor register and through the partition in the case of a wall register. When a register box is placed in the floor over a portable furnace, the space on all sides between the casing and the register box shall be not less than four inches. Every hot-air furnace shall have at least one register without valve or louvres.

§ 401. Vent flues. Flues hereafter erected for the removal of foul air or the transmission of heated air shall be encased in masonry not less than four inches thick and shall be lined with terra cotta or other approved incombustible material. Not more than one gas burning shall be direct-connected to any flue, nor shall any such device be connected to any flue used as a smoke flue. Any flue to which a gas burning device is direct-connected shall be constructed as required in § 392 for a smoke flue.

§ 402. Ducts. 1. General. Except as may be otherwise specifically permitted or prescribed, the transmission of air through buildings for heating or ventilation shall be by means of ducts constructed as in this section provided.

2. Casing. No Casing, furring or lath of wood shall be placed against or over a duct of any kind; but this shall not prevent the placing of woodwork on a covering over such ducts, of metal lath and plaster, plaster board or asbestos, provided the thickness of the covering is not less than seven-eighths of an inch.

3. In partitions. Ducts hereafter placed in combustible partitions shall be covered with one-half inch of corrugated asbestos or shall be constructed double with a one-half inch air space. The asbestos covering or outside pipe shall be not less than one and one-half inches away from the woodwork. In lieu of the above protection, four inches of brickwork or concrete may be placed between the duct and the woodwork.

4. In floors. Ducts hereafter placed between the flooring and ceiling of non-fireproof floors, shall be constructed double with a one-inch air space. The outside pipe shall be not less than two inches from any woodwork, which shall be covered with metal.

5. In closets. Ducts hereafter placed in closets or similar concealed spaces shall be double with a one and one-half inch air space, or shall be covered with approved incombustible insulation, not less than one inch thick. When constructed double the outside pipe shall be not less than No. 18 U. S. gage, and not less than one inch from any woodwork.

6. Passing through partitions and floors. Ducts hereafter placed to pass through combustible partitions or floors shall be constructed double, with a one and one-half inch air space open at one end, or shall be covered with approved incombustible insulation not less than one inch thick.

7. Horizontal ducts. Ducts used for hot-air furnace heating, hereafter placed under cellar ceilings, shall be at least six inches below wood floor beams, wood lath and plaster ceiling or other combustible materials; but if such combustible construction is protected by metal lath and plaster, plaster board or one-half inch asbestos the distance may be not less than three inches.

8. Cold air ducts. The cold air ducts of any heating system shall be of metal or other approved fireproof material.

9. Hot air ducts. No hot-air furnace duct shall be placed in any floor, partition or enclosure, of combustible construction, unless it be at least eight feet distant in a horizontal direction from the furnace.

§ 403. Smoke pipes. 1. Restriction. No smoke pipe shall pass through any floor, nor through any non-fireproof roof.

2. Clearance. The clear distance between any smoke pipe or metal breeching and any combustible material or construction shall be not less than eighteen inches in the case of low grade heat producing devices, nor less than thirty-six inches for medium or high grade heat producing devices, except that, when such smoke pipes

or breechings are protected with not less than two inches of asbestos or in some other approved manner, such clearances may be reduced one-half, and that, in the case of smoke pipes used on ordinary ranges and stoves in tenements or other residence buildings having not more than fifteen sleeping rooms, such clearances may be not less than nine inches when the combustible material or construction is protected by one-half inch asbestos or its equivalent, nor less than eighteen inches when not so protected.

3. Protection through partitions. Smoke pipes from ordinary ranges and stoves in residence buildings may pass through combustible partitions, provided every such pipe is guarded by a double metal ventilated thimble twelve inches larger in diameter than the pipe, or by a metal tube built in brickwork or other approved fireproof materials, not less than eight inches thick on all sides of the tube.

§ 404. Steam and hot water pipes. 1. Protection. Steam or hot water pipes shall not be placed nearer than one inch to any woodwork unless the woodwork is covered with metal, in which case the distance shall be not less than one-half inch. Every steam or hot water heating pipe passing through a combustible floor or partition shall be protected by a metal tube one inch larger in diameter than the pipe. Any such pipe passing through stock shelving shall be covered with not less than one inch of approved insulation. All wood boxes or casings inclosing steam or hot water heating pipes, or wood covers to recesses in walls in which such pipes are placed, shall be lined with metal.

2. Pipe coverings. Any coverings or insulation used on steam or hot water pipes shall be of incombustible material.

Section 2. § 552 of article 26 of chapter 5 of the Code of Ordinances of The City of New York is hereby repealed.

Section 3. The provisions of this ordinance shall take effect three months after its adoption by the Board of Aldermen.

Adopted by the Board of Aldermen November 9, 1915.

Received from his Honor the Mayor November 23, 1915, without his approval or disapproval thereof; therefore, as provided in section 40 of the Greater New York Charter, the same took effect as if he had approved it.

No. 562.

Resolution for Special Revenue Bonds, \$11,675, for the Purpose of Equipping New Quarters of the County Court of Kings County.

Resolved, That, in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and it is hereby requested to authorize the Comptroller to issue Special Revenue Bonds to the amount of eleven thousand, six hundred and seventy-five dollars (\$11,675), the proceeds whereof to be used by the President of the Borough of Brooklyn for the purpose of equipping the new quarters of the County Court of Kings County (including furniture, etc.) on Schermerhorn Street, Borough of Brooklyn.

Adopted by the Board of Aldermen November 9, 1915.

Received from his Honor the Mayor November 23, 1915, without his approval or disapproval thereof; therefore, as provided in section 40 of the Greater New York Charter, the same took effect as if he had approved it.

No. 563.

Resolution to Fix the Compensation of Certain Janitors in the Department of Education.

Whereas, The Board of Estimate and Apportionment adopted the following resolution at a stated meeting held October 22, 1915:

Whereas, By opinions of the Corporation Counsel as of June 28 and July 30, 1910, the Comptroller was advised that the payment of salaries of Janitors in the Department of Education was illegal unless such salaries shall have been established under the provisions of section 56 of the Greater New York Charter; and

Whereas, The Special Committee on Janitorial Compensation and the Committee on School Inquiry, Board of Estimate and Apportionment, submitted a joint report on March 27, 1913, which contained detailed suggestions and recommendations for the reorganization of the janitorial force of the Department of Education; therefore be it

Resolved, That, pursuant to the provisions of section 56 of the Charter, the Board of Estimate and Apportionment hereby recommends to the Board of Aldermen, pending action by the Board of Education on the aforesaid report, that the compensation of Janitors in the Department of Education be fixed temporarily and until further modified, in accordance with the following list:

Janitor, P. S. 45, Queens, per annum	\$1,200 00
Janitor, P. S. 52 (new), Manhattan, per annum	3,408 00
Janitor, P. S. 36 (including new addition), Brooklyn, per annum	3,432 00
Janitor, P. S. 50 (new), Brooklyn, per annum	3,324 00
Janitor, P. S. 169 (new), Brooklyn, per annum	3,804 00
Janitor, P. S. 91 (new), Queens, per annum	3,888 00
Janitor, P. S. 96 (new), Queens, per annum	2,268 00
Janitor, Flushing High School, Queens, per annum	5,364 00
Janitor, P. S. 50 (new), Brooklyn, per month	100 00
Janitor, P. S. 169 (new), Brooklyn, per month	100 00
Janitor, P. S. 104, Manhattan, per annum less \$286	3,000 00
Janitor, P. S. 22, Brooklyn, per annum less \$221	1,440 00
Janitor, P. S. 96 (new), Queens, per annum less \$221	2,268 00
Janitor, P. S. 67, Queens, per month	10 00
Janitor, P. S. 72, Queens, per month	25 00

Resolved, That the Board of Aldermen hereby approves of and concurs in the above resolution and fixes the compensation of said positions as set forth therein.

Adopted by the Board of Aldermen November 9, 1915.

Received from his Honor the Mayor November 23, 1915, without his approval or disapproval thereof; therefore, as provided in section 40 of the Greater New York Charter, the same took effect as if he had approved it.

No. 564.

Resolution to Fix the Compensation of Certain Janitors in the Department of Education.

Whereas, The Board of Estimate and Apportionment adopted the following resolution at a stated meeting held October 22, 1915:

Whereas, By opinions of the Corporation Counsel as of June 28 and July 30, 1910, the Comptroller was advised that the payment of salaries of Janitors in Department of Education was illegal unless such salaries shall have been established under the provisions of section 56 of the Greater New York Charter; and

Whereas, The Special Committee on Janitorial Compensation and the Committee on School Inquiry, Board of Estimate and Apportionment, submitted a joint report on March 27, 1913, which contained detailed suggestions and recommendations for the reorganization of the janitorial force of the Department of Education; therefore be it

Resolved, That, pursuant to the provisions of section 56 of the Charter, the Board of Estimate and Apportionment hereby recommends to the Board of Aldermen pending action by the Board of Education on the aforesaid report, that the compensation of Janitors in the Department of Education be fixed temporarily and until further modified, in accordance with the following list:

Janitor, P. S. 52, Manhattan (new addition), per month	\$100 00
Janitor, P. S. 36, Brooklyn (new addition), per month	50 00
Janitor, P. S. 91, Queens, per month	100 00
Janitor, Flushing High School, Queens, per month	100 00
Janitor, P. S. 50, Brooklyn, per annum, less \$221	1,008 00
Janitor, P. S. 103, Brooklyn, per annum, less \$221	3,084 00
Janitor, P. S. 104, Brooklyn, per annum, less \$221	2,784 00
Janitor, P. S. 92, Queens (annex), per month	40 00
Janitor, P. S. 153, Brooklyn (annex), per month	50 00

Resolved, That the Board of Aldermen hereby approves of and concurs in the above resolution and fixes the compensation of said positions as set forth therein.

Adopted by the Board of Aldermen November 9, 1915.

Received from his Honor the Mayor November 24, 1915, without his approval or disapproval thereof; therefore, as provided in section 40 of the Greater New York Charter, the same took effect as if he had approved it.

DEPARTMENT OF FINANCE.

WARRANTS MADE READY FOR PAYMENT IN DEPARTMENT OF FINANCE FRIDAY, NOVEMBER 26, 1915.

Below is a statement of warrants made ready for payment on the above date, showing therein the Department of Finance voucher number, the dates of the invoices or the registered number of the contract, the date the voucher was filed in the Department of Finance, the name of the payee and the amount of the warrant.

Where two or more bills are embraced in the warrant, the dates of the earliest and latest are given, excepting that, when such payments are made under a contract, the registered number of the contract is shown in the place of the second invoice date.

Where the word "final" is shown after the name of the payee, payment will not be made until thirty days after the completion and acceptance of the work, but all of the other warrants mentioned will be forwarded through the mail unless some reason exists why payment is to be made in person, in which event written notice will be promptly given to the claimant.

In making a written or verbal inquiry at this office for any of the above mentioned warrants, it is requested that reference be made by the Department of Finance voucher number.

WILLIAM A. PRENDERGAST, Comptroller.

PUBLIC SERVICE COMMISSION.

Invitation to Contractors.

For the Supply of Special Work, Order No. 6, for Use in the Construction of Rapid Transit Railroads.

Sealed bids or proposals for the supply of nineteen Portions of Special Work (Frogs and Switches) for use in the construction of rapid transit railroads (Lexington Avenue Line) will be received by the Public Service Commission for the First District at the office of said Commission at No. 154 Nassau Street, Borough of Manhattan, New York City, until the 7th day of December, 1915, at twelve fifteen (12:15) o'clock P. M., at which time and place or at a later date to be fixed by said Commission the proposals will be publicly opened.

The Special Work is to be delivered in installments. The contractor must be prepared to deliver at least one portion of the Special Work on the expiration of two months after the delivery of the contract and must be prepared to deliver two more portions during the third and each succeeding month, and must complete deliveries within eleven months after the delivery of the contract, except as otherwise provided in the form of contract.

A fuller description of the Special Work and other requirements, provisions and specifications are given in the Information for Contractors and in the form of contract, specifications, contract drawings, bond and Contractor's Proposal, which are to be deemed a part of this Invitation and copies of which may be inspected and purchased at said office of said Commission.

The receipt of bids will be subject to the requirements specified in said Information for Contractors.

New York, November 16, 1915.
PUBLIC SERVICE COMMISSION FOR THE FIRST DISTRICT, BY EDWARD E. McCALL, Chairman.

TRAVIS H. WHITNEY, Secretary. n18,d7

Part of the Seventh Avenue-Lexington Avenue Rapid Transit Railroad.

Sealed bids or proposals for the construction of Section No. 2 of Routes Nos. 19 and 22, a part of the Seventh Avenue-Lexington Avenue Rapid Transit Railroad, will be received by the Public Service Commission for the First District (hereinafter called the "Commission"), at No. 154 Nassau Street, Borough of Manhattan, New York City, until the 30th day of November, 1915, at twelve fifteen (12:15) o'clock p. m., at which time and place or at a later date to be fixed by the Commission the proposals will be publicly opened.

The said part to be constructed is to be an

elevated railroad, in the Borough of The Bronx, extending over and along Whitlock Avenue and Westchester Avenue from Bancroft Street to Eastern Boulevard.

The work to be done will include the care and support and, where necessary, the readjustment of buildings, vaults, sewers, pipes, railroads, poles and wires and other surface, sub-surface and overhead structures, the maintenance of traffic and the restoration of pavements and other surfaces.

The Contractor must complete the work within eighteen (18) months from the delivery of the contract.

A fuller description of the work and other requirements, provisions and specifications are given in the Information for Contractors and in the form of contract, contract drawings, bond and Contractor's Proposal, which are to be deemed a part of this Invitation and copies of which may be inspected and purchased at said office of the Commission.

The receipt of bids will be subject to the requirements specified in said Information for Contractors.

New York, November 12, 1915.
PUBLIC SERVICE COMMISSION FOR THE FIRST DISTRICT, BY EDWARD E. McCALL, Chairman.

NOTICE IS HEREBY GIVEN THAT AT THE meeting of the Board of Estimate and Apportionment held on October 29, 1915, the following resolutions were adopted:

Whereas, the Board of Estimate and Apportionment, under resolutions adopted on January 26, 1911, and January 8, 1915, authorized a proceeding for acquiring title to Corona Avenue from Hampton Street to Rodman Street, Borough of Queens; and

Whereas, the Board is considering the advisability of further amending the said proceeding so as to conform to a map or plan adopted by the Board of Estimate and Apportionment on October 15, 1915, in which certain additional changes were made in the position of the lines of said Corona Avenue in the block between Junction Avenue and Alstine Avenue; the amendment now proposed providing for the acquisition of title to Corona Avenue from Hampton Street to Rodman Street as now laid out upon the map or plan of the City of New York.

Resolved, That the Board of Estimate and Apportionment, in pursuance of the provisions of the Greater New York Charter, as amended, hereby gives notice that the following is the proposed area of assessment for benefit in this proposed amended proceeding:

Beginning at a point on the southerly property line of the Long Island Railroad where it is intersected by a line at right angles to Corona Avenue, and passing through a point on its northwesterly side, midway between Hampton Street and Neil Place, and running thence eastwardly along the said property line of the Long Island Railroad to the intersection with a line midway between Way Avenue and Alstine Avenue; thence southwardly along the said line midway between Way Avenue and Alstine Avenue to the intersection with a line midway between Lurting Street and Merritt Street; thence eastwardly along the said line midway between Lurting Street and Merritt Street to a point distant 600 feet north-easterly from the northeasterly line of Corona Avenue, the said distance being measured at right angles to Corona Avenue; thence southwardly and always distant 600 feet north-easterly from and parallel with the northeasterly line of Corona Avenue and the prolongations thereof to the intersection with the prolongation of the northerly line of Rodman Street; thence southwardly along a line at right angles to Rodman Street to the intersection with the prolongation of a line midway between Tredwell Street and Urquhart Street; thence westwardly along the said line midway between Tredwell Street and Urquhart Street and along the prolongations of the said line to the intersection with a line parallel with Seminole Avenue and passing through a point on the southerly line of Scudder Street, where it is intersected by the prolongation of a line midway between Van Doren Street and Waldron Street; thence northwardly along the said line parallel with Seminole Avenue to the southerly line of Scudder Street; thence northwardly along the said line parallel with the prolongation of the said line to a point distant 600 feet southwesterly from the southwesterly line of Corona Avenue, the said distance being measured at right angles to Corona Avenue; thence generally northwesterly and always distant 600 feet southwesterly from and parallel with the southwesterly line of Corona Avenue and the prolongations thereof to the intersection with the prolongation of a line midway between Gerry Avenue and Maurice Avenue; thence westwardly along the said line midway between Gerry Avenue and Maurice Avenue and along the prolongation of the said line to the intersection with the prolongation of a line midway between Etna Place and Medina Place; thence northwardly along the said line midway between Etna Place and Medina Place and along the prolongations of the said line to the intersection with a line at right angles to Corona Avenue, and passing through the point of beginning; thence northwardly along the said line at right angles to Corona Avenue to the point of place of beginning.

Resolved, That this Board consider the proposed area of assessment at a meeting of the Board to be held in the City of New York, Borough of Manhattan, in the City Hall, on Friday, December 3, 1915, at 10 o'clock A. M., and that at the same time and place a public hearing thereon will then and there be had.

Resolved, That the Secretary of this Board

cause these resolutions and a notice to all persons affected thereby to be published in the City Record for ten days prior to the 3rd day of December, 1915.

Dated November 19, 1915.
JOSEPH HAAG, Secretary, Municipal Building, Telephone, 4560 Worth. n19,d1

NOTICE IS HEREBY GIVEN THAT AT THE meeting of the Board of Estimate and Apportionment held on October 29, 1915, the following resolutions were adopted:

Whereas, the President of the Borough of Manhattan, in a communication dated October 6, 1915, requested the Board of Estimate and Apportionment to institute proceedings to construct receiving basins at the following points: Adjacent to the northeast corner of Columbus Avenue and West 101st Street; estimated cost, \$600; assessed valuation, \$900,000. Adjacent to the northeast corner of Columbus Avenue and West 102nd Street; estimated cost, \$600; assessed valuation, \$906,500. Adjacent to the northeast corner of West 95th Street and Broadway; estimated cost, \$600; assessed valuation, \$1,108,000. Adjacent to the northwest corner of West 90th Street and West End Avenue; estimated cost, \$600; assessed valuation, \$1,646,000. Adjacent to the northwest corner of East 18th Street and 4th Avenue; estimated cost, \$600; assessed valuation, \$4,766,000. Adjacent to the northeast corner of West 25th Street and 7th Avenue; estimated cost, \$600; assessed valuation, \$3,055,000. Adjacent to the southeast corner of East 124th Street and 3rd Avenue; estimated cost, \$600; assessed valuation, \$1,224,650. In East 120th Street, adjacent to the northwest corner of Lexington Avenue; estimated cost, \$500; assessed valuation, \$800,500. Adjacent to the southeast corner of West 38th Street and 6th Avenue; estimated cost, \$600; assessed valuation, \$12,810,000. Adjacent to the southwest corner of West 25th Street and 6th Avenue, and the southeast corner of West 25th Street and 7th Avenue; estimated cost, \$1,100; assessed valuation, \$4,715,500. Adjacent to the northwest corner of Broadway and West 58th Street; estimated cost, \$600; assessed valuation, \$650,000. Adjacent to the southeast corner of Front Street and Jones Lane; estimated cost, \$600; assessed valuation, \$888,000. Adjacent to the southeast corner of Front Street and Fulton Street; estimated cost, \$600; assessed valuation, \$693,000. Total—Estimated cost, \$9,400; assessed valuation, \$37,887,150. And

Whereas, the President of the Borough of Manhattan states that the foregoing streets (except at 90th Street and West End Avenue) are to be repaved during the present season and it is desired to take advantage of this fact to install such additional basins as are necessary to facilitate pedestrian traffic by practically removing the flow of water in gutters at crosswalks; and

Whereas, the Board of Estimate and Apportionment is considering the advisability of initiating proceedings for the construction of the said sewer basins, and of assessing the cost of the improvements upon the property deemed to be benefited thereby, be it

Resolved, That the Board of Estimate and Apportionment hold a public hearing in Room 16, City Hall, Borough of Manhattan, on Friday, December 3, 1915, at 10 o'clock A. M., at which all persons interested in the proposed improvement and assessment thereof will be afforded an opportunity to be heard thereon.

Resolved, That the Secretary of this Board cause these resolutions and a notice to all persons affected thereby to be published in the City Record for ten days prior to the 3rd day of December, 1915.

Dated November 19, 1915.
JOSEPH HAAG, Secretary, Municipal Building, Telephone, 4560 Worth. n19,d1

NOTICE IS HEREBY GIVEN THAT THE Board of Estimate and Apportionment of The City of New York, deeming it for the public interest so to do, proposes to change the map or plan of The City of New York so as to establish lines and grades for 121st Street (Spruce Street) from Atlantic Avenue North to Atlantic Avenue South, across the Atlantic Avenue Division of the Long Island Railroad, Borough of Queens.

and that a meeting of said Board will be held in the Old Council Chamber, City Hall, Borough of Manhattan, City of New York, on Friday, December 3, 1915, at 10 o'clock A. M., at which such proposed change will be considered by said Board; all of which is more particularly set forth and described in the following resolutions adopted by the Board on October 29, 1915, notice of the adoption of which is hereby given, viz.:

Resolved, That the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of Section 442 of the Greater New York Charter, as amended, deeming it for the public interest so to do, proposes to change the map or plan of The City of New York by establishing lines and grades for 121st Street (Spruce Street) from Atlantic Avenue North to Atlantic Avenue South, across the Atlantic Avenue Division of the Long Island Railroad, in the Borough of Queens, City of New York, which proposed change is more particularly shown upon a map or plan bearing the signature of the President of the Borough, and dated April 14, 1915.

Resolved, That this Board consider the proposed change at a meeting of the Board, to be held in the City Hall, Borough of Manhattan, City of New York, on the 3rd day of December, 1915, at 10 o'clock A. M.

Resolved, That the Secretary of this Board cause these resolutions and a notice to all persons affected thereby that the proposed change will be considered at a meeting of the Board, to be held at the aforesaid time and place, to be published in the City Record for ten days continuously, Sundays and legal holidays excepted, prior to the 3rd day of December, 1915.

Dated November 19, 1915.

Notice of Public Hearing.

FRANCHISE MATTERS.

NOTICE IS HEREBY GIVEN THAT THE public hearing, in order that this Board may determine, whether, in its opinion, certain electrical conductors in Jerome Avenue between River Avenue and Woodlawn Road, Borough of The Bronx, shall be removed and placed underground, which hearing was by resolution adopted October 1, 1915, fixed for October 8, 1915, and continued until November 5, 1915, and then until November 19, 1915, was on the latter date continued until Friday, December 3, 1915, at ten o'clock A. M. in Room 16, City Hall, Borough of Manhattan.

All persons or corporations interested will be afforded an opportunity to appear and be heard at said time and place.

JAMES D. MCGANN, Assistant Secretary, Room 1307, Municipal Building, Borough of Manhattan. Telephone, 4560 Worth.
Dated, New York, November 19, 1915. n22,d3

PUBLIC NOTICE IS HEREBY GIVEN THAT the hearing on the petition of the New York Motor Bus Company, Inc., for a franchise to maintain and operate truck, stage and omnibus

lines for public use in the conveyance of persons and property upon various streets and avenues in the Borough of Manhattan, as recommended in the report of the Committee on Franchises of this Board, presented at the meeting of October 22, 1915, which was, by resolution adopted October 22, 1915, fixed for this day, was continued until Monday, November 29, 1915, at 10:30 o'clock A. M., in Room 16, City Hall, Borough of Manhattan.

The Board will, at the same time and place, hold a public hearing upon the petitions of the Fifth Avenue Coach Company for a franchise to maintain and operate additional stage and omnibus lines in the Borough of Manhattan.

All persons or corporations interested will be afforded an opportunity to appear and be heard at said time and place.

JAMES D. MCGANN, Assistant Secretary, Room 1307, Municipal Building, Borough of Manhattan. Telephone, 4560 Worth.
Dated, New York, November 19, 1915. n22,d2

PUBLIC NOTICE IS HEREBY GIVEN PUR-suant to law that at a meeting of the Board of Estimate and Apportionment held November 5, 1915, the following petition was received:

TO THE HONORABLE THE BOARD OF ESTIMATE AND APPOINTMENT OF THE CITY OF NEW YORK:

The amended petition of the Fifth Avenue Coach Company respectfully shows:

I. That the petitioner is a domestic common carrier corporation duly organized to own, operate, manage and control a line of passenger stages or omnibuses for the transportation of passengers for hire.

II. That the post office address of the petitioner is No. 10 East 102nd Street, Borough of Manhattan, City and State of New York.

III. That the petitioner now owns and operates lawfully established stage routes as set forth at length in its applications filed with your Honorable Board on the following dates, to wit: June 5, 1913, and March 21, 1914, said applications constituting public records in the premises and reference thereto is prayed as fully as if here set forth at length.

IV. That for the purpose of establishing, maintaining and operating stage and omnibus routes for public use in the conveyance and transportation of persons and property for compensation, your petitioner desires to obtain from your Honorable Board and hereby respectfully applies for a grant of the right, privilege and franchise for the establishment, maintenance and operation by your petitioner of stage and omnibus routes for public use in the conveyance and transportation of persons and property for compensation, upon and along and over the surface of streets, avenues, highways, bridges, approaches and public places in the Borough of Manhattan of the City of New York, of which a description is hereto attached and hereby made part hereof. It is designated as "Schedule A."

The omission from said "Schedule A" of various routes shown on the map which accompanied the letter of the Franchise Committee of May 4, 1915, upon the basis of which applicants were invited to submit propositions, is upon the assumption that the Franchise Committee in its report of October 15, 1915, has recommended the adoption of the principle that new routes for omnibus operation should be such as to directly compete as little as possible with existing transit systems and also upon the assumption that no route will be authorized where ultimate public convenience and necessity will not require additional and competitive transit facilities.

This petition is amendatory of the petitioners heretofore filed with your Honorable Board upon the dates above specified, to wit: June 5, 1913, and March 21, 1914, upon which public hearings have been duly held.

Dated, New York, November 1st, 1915.

New York, November 5, 1915. n20,d3

PUBLIC NOTICE IS HEREBY GIVEN THAT at the meeting of the Board of Estimate and Apportionment held this day the following resolutions were adopted:

Whereas, The New York and North Shore Traction Company has, under date of April 16, 1915, made application to this Board for a modification of the terms and conditions of two certain contracts, dated, respectively, February 1, 1909, and April 14, 1909, as amended by contract dated November 25, 1913, granting said Company a franchise for the construction, maintenance and operation of a street surface railway upon and along certain streets and avenues in the Third Ward of the Borough of Queens; and

Whereas, Sections 72, 73 and 74 of the Greater New York Charter, as amended by Chapters 629 and 630 of the Laws of 1905, and Chapter 467 of the Laws of 1914, provide for the manner and procedure of making such grants; and

Whereas, In pursuance of such laws, this Board adopted a resolution on October 8, 1915, fixing the date for public hearing thereon as November 5, 1915, at which citizens were entitled to appear and be heard, and publication was had for at least two (2) days in the "Evening Globe" and "Flushing Daily Times," newspapers designated by the Mayor, and in the City Record for ten (10) days immediately prior to the date of hearing, and the public hearing was duly held on such day; and

Whereas, This Board has made inquiry as to the proposed modifications and amendments of said contracts of February 1, 1909, and April 14, 1909, as amended by said contract of November 25, 1913; now, therefore, it is

Resolved, That the following form of resolution for the consent or right applied for by the New York and North Shore Traction Company, containing the form of proposed contract for the grant of such right, be hereby introduced and entered in the minutes of this Board, as follows, to wit:

Resolved, That the Board of Estimate and Apportionment hereby consents to certain modifications in the terms and conditions of the said contracts of February 1, 1909, and April 14, 1909, as amended by said contract of November 25, 1913, such modified terms and conditions being fully set forth and described in the following form of proposed contract for the grant thereof, embodying such terms and conditions as modify or alter said contracts of February 1, 1909, and April 14, 1909, as amended by said contract of November 25, 1913, which said contracts otherwise remain unchanged as to all the other terms and conditions expressed therein, and that the Mayor of The City of New York be and he hereby is authorized to execute and deliver such contract in the name and on behalf of The City of New York, as follows, to wit:

Proposed Form of Contract.

THIS CONTRACT, made and executed in duplicate this _____ day of _____, 191____, by and between The City of New York (hereinafter called the City), party of the first part, by the Mayor of said City, acting for and in the name of said City, under and in pursuance of the authority of the Board of Estimate and Apportionment of said City (hereinafter called the Board), and the NEW YORK AND NORTH SHORE TRACTION COMPANY (hereinafter called the Company), party of the second part, WITNESSETH:

WHEREAS, By a contract dated February 1, 1909, the Company was authorized to construct, maintain and operate a street surface railway from the former Village of Flushing, Borough of Queens, to the boundary line between The City of New York and the County of Nassau; and

WHEREAS, By a second contract, dated April 14, 1909, the Company was authorized to construct, maintain and operate a street surface railway from the former Village of Flushing to the former Village of Whitestone, Borough of Queens; and

WHEREAS, By a contract dated June 27, 1911, said contract of February 1, 1909, was amended by authorizing the abandonment by the Company of a portion of the route therein described; and

WHEREAS, By a contract dated November 25, 1913, said contract of February 1, 1909, as amended, and said contract of April 14, 1909, were amended by a modification of the provisions contained therein relating to the annual compensation to be paid for the rights granted thereby; and

WHEREAS, In and by each of said contracts of February 1, 1909, and April 14, 1909, as amended by said contracts of June 27, 1911, and November 25, 1913, the Company is obligated to pay to the City as annual compensation a fixed percentage of its gross annual receipts, with specified minimum annual payments; and

WHEREAS, The Company has, by a petition dated April 16, 1915, applied to the Board for a further amendment of said contracts of February 1, 1909, and April 14, 1909, as amended, by being relieved from the payment to the City of the annual compensation required in and by said contracts, as amended, or by a reduction in the amounts of such payments.

Now, THEREFORE, in consideration of the sum of fifty dollars (\$50) to be paid by the Company to the City on or before January 1, 1916, and of the mutual covenants and agreements herein contained, the parties hereto do hereby covenant and agree as follows:

SECTION 1. The parties hereto hereby consent, subject to the conditions and provisions herein-

after set forth, to certain modifications and amendments in and to said contracts of February 1, 1909, and April 14, 1909, as amended, such modifications and amendments to be as follows:

1. So much of Section 2, Third, of said contract of February 1, 1909, as amended by said contract of November 25, 1913, reading as follows:

"(b) During the first term expiring August 12, 1915, an annual sum which shall in no case be less than Two thousand two hundred dollars (\$2,200), and which shall be equal to three (3) per cent. of its gross annual receipts, if such percentage shall exceed the sum of Two thousand two hundred dollars (\$2,200).

During the second term expiring September 30, 1920, an annual sum which shall in no case be less than Two thousand seven hundred dollars (\$2,700), and which shall be equal to five (5) per cent. of its gross annual receipts if such percentage shall exceed the sum of Two thousand seven hundred dollars (\$2,700).

During the term expiring February 1, 1934, an annual sum which shall be equal to five (5) per cent. of its gross annual receipts, but which sum shall not be less than Three thousand two hundred dollars (\$3,200).

2. So much of Section 2, Fourth, of said contract of April 14, 1909, as amended by said contract of November 25, 1913, reading as follows:

"(b) During the first term expiring August 12, 1915, an annual sum which shall in no case be less than One thousand five hundred and seventy-five dollars (\$1,575), and which shall be equal to three (3) per cent. of its gross annual receipts, if such percentage shall exceed the sum of One thousand five hundred and seventy-five dollars (\$1,575).

During the second term expiring September 30, 1920, an annual sum which shall in no case be less than Two thousand dollars (\$2,000) and which shall be equal to five (5) per cent. of its gross annual receipts, if such percentage shall exceed the sum of Two thousand dollars (\$2,000).

During the third term expiring September 30, 1925, an annual sum which shall in no case be less than Two thousand nine hundred dollars (\$2,900), and which shall be equal to five (5) per cent. of its gross annual receipts, if such percentage shall exceed the sum of Two thousand nine hundred dollars (\$2,900).

During the fourth term expiring September 30, 1930, an annual sum which shall in no case be less than Three thousand eight hundred and fifty dollars (\$3,850), and which shall be equal to six (6) per cent. of its gross annual receipts, if such percentage shall exceed the sum of Three thousand eight hundred and fifty dollars (\$3,850).

During the remaining term expiring February 1, 1934, an annual sum which shall in no case be less than Four thousand two hundred dollars (\$4,200), and which shall be equal to six (6) per cent. of its gross annual receipts, if such percentage shall exceed the sum of Four thousand two hundred dollars (\$4,200).

is hereby stricken out and the following substituted therefor:

"(b) During the term expiring August 12, 1915, an annual sum which shall be equal to three (3) per cent. of its gross annual receipts, but which sum shall not be less than One thousand five hundred and seventy-five dollars (\$1,575).

During the term expiring September 30, 1915, a sum which shall be equal to five (5) per cent. of its gross receipts, but which sum shall not be less than at the rate of Two thousand dollars (\$2,000) per year.

During the term expiring September 30, 1920, an annual sum which shall be equal to five (5) per cent. of its gross annual receipts, but which sum shall not be less than One thousand six hundred dollars (\$1,600).

During the term expiring September 30, 1925, an annual sum which shall be equal to five (5) per cent. of its gross annual receipts, but which sum shall not be less than One thousand seven hundred and fifty dollars (\$1,750).

During the term expiring September 30, 1930, an annual sum which shall be equal to five (5) per cent. of its gross annual receipts, but which sum shall not be less than One thousand nine hundred and twenty-five dollars (\$1,925).

During the term expiring February 1, 1934, an annual sum which shall be equal to five (5) per cent. of its gross annual receipts, but which sum shall not be less than Two thousand one hundred and twenty-five dollars (\$2,125).

3. So much of Section 2, Third, of said contract of February 1, 1909, reading as follows:

"Any and all payments to be made by the terms of this contract to the City by the Company shall not be considered in any manner in the nature of a tax, but such payments shall be in addition to any and all taxes of whatsoever kind or description now or hereafter required to be paid by any ordinance of the City or by any law of the State of New York." is hereby stricken out and the following substituted therefor:

"Any and all payments to be made by the terms of this contract to the City by the Company on and after September 30, 1925, shall not be considered in any manner in the nature of a tax, but such payments shall be in addition to any and all taxes of whatsoever kind or description, now or hereafter required to be paid by any ordinance of the City, or resolution of the Board, or any law of the State of New York."

4. So much of Section 2, Fourth, of said contract of April 14, 1909, reading as follows:

"Any and all payments to be made by the terms of this contract to the City by the Company shall not be considered in any manner in the nature of a tax, but such payments shall be in addition to any and all taxes of whatsoever kind or description, now or hereafter required to be paid by any ordinance of the City, or resolution of the Board, or any law of the State of New York."

is hereby stricken out and the following substituted therefor:

"Any and all payments to be made by the terms of this contract to the City by the Company on and after September 30, 1925, shall not be considered in any manner in the nature of a tax, but such payments shall be in addition to any and all taxes of whatsoever kind or description, now or hereafter required to be paid by any ordinance of the City, or resolution of the Board, or any law of the State of New York."

SECTION 2. The grant of this privilege is subject to the following conditions:

All the terms, provisions and conditions contained in said contracts dated February 1, 1909, and April 14, 1909, respectively, as amended by said contract dated November 25, 1913, excepting those which are herein expressly amended or modified, shall remain unchanged and in full force and effect.

SECTION 3. The Company promises, covenants and agrees on its part and behalf, to conform to, abide by and perform all the terms, conditions and requirements in this contract fixed and contained.

IN WITNESS WHEREOF, The party of the first part, by its Mayor, thereunto duly authorized by the Board of Estimate and Apportionment of said City, has caused the corporate name of said City to be hereunto signed, and the corporate seal of said City to be hereunto affixed, and the party of the second part by its officers thereunto duly authorized has caused its corporate name to be hereunto signed and its corporate seal to be hereunto affixed the day and year first above written.

THE CITY OF NEW YORK, Mayor.

(CORPORATE SEAL.) Attest: City Clerk.

NEW YORK AND NORTH SHORE TRACTION COMPANY, President.

(SEAL.) By Attest: Secretary.

(Here add acknowledgments.)

Resolved, That the results of the inquiry made by this Board as to the money value of the proposed franchise and the adequacy of the compensation to be paid therefor, and of the terms and conditions, are as specified and fully set forth in the said contracts dated, respectively, February 1, 1909, and April 14, 1909, as amended by said contract dated November 25, 1913, as further amended by the foregoing form of proposed contract for the consent to such modifications and alterations.

Resolved, That these preambles and resolutions, including the said resolution for the consent of the City of New York to the modifications and alterations as applied for by the New York and North Shore Traction Company, and the said form of a proposed contract for the grant of such franchise or right, containing said results of such inquiry, after the same shall be entered in the minutes of this Board, shall be published in full for at least fifteen (15) days immediately prior to Friday, December 3, 1915, in the City Record, together with the following notice, to wit:

NOTICE IS HEREBY GIVEN THAT the Board of Estimate and Apportionment, before authorizing any contract for the consent of the City to certain modifications and amendments in and to the terms and conditions of the said contracts of February 1, 1909, and April 14, 1909, as amended by said contract of November 25, 1913, such modifications and amendments being fully set forth and described in the foregoing form of proposed contract for the grant of such franchise or right, and before adopting any resolution authorizing such contract, will, at a meeting of said Board, to be held in Room 16, City Hall, Borough of Manhattan, City of New York, on Friday, December 3, 1915, at 10 o'clock a. m., hold a public hearing thereon, at which citizens shall be entitled to appear and be heard.

Resolved, That a notice of such hearing, stating that copies of the proposed contract and resolution of consent thereto may be obtained by all those interested therein at the Bureau of Franchises, Room 1307, Municipal Building, Centre and Chambers Streets, Borough of Manhattan, shall be published at least twice, at the expense of the proposed grantee, during the ten (10) days immediately prior to Friday, December 3, 1915, in the "Evening Globe" and "Flushing Daily Times," the two daily newspapers in which the petition and notice of hearing thereon have been published.

NOTICE TO BIDDERS AT SALES OF OLD BUILDINGS, ETC.

TERMS AND CONDITIONS UNDER WHICH BUILDINGS, ETC., WILL BE SOLD FOR REMOVAL FROM CITY PROPERTY.

THE BUILDINGS AND APPURTENANCES thereunto will be sold to the highest bidder, who must pay cash or certified check, drawn to the order of the Comptroller of The City of New York, and must also give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. Where the amount of the purchase price does not equal or exceed the sum of \$50, the sum of \$50 shall be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract, but unfinished at the expiration of the contract period.

The purchaser shall not lease, occupy, cause or permit the building or buildings, etc., purchased by him to be used or occupied for any purpose other than that of their speedy removal nor shall he collect any rental or other revenue for the use of either the land or the buildings, etc., situated thereon. The breach of either or any of these conditions shall forthwith void the sale and cause immediate forfeiture of the purchase money and the security deposited for the faithful performance of the conditions of the sale. The placing therein or permitting the occupancy of any such building by any tenant free, for rent or otherwise, excepting the necessary watchmen or the workmen engaged in the actual demolition thereof, shall of itself be a breach of the above conditions of sale.

The sale will be as of the condition of the property on date of delivery thereof to the purchaser. The City of New York will not be responsible for any change or loss which may occur in the condition of the buildings, or their appurtenances between the time of the sale thereof and the time of delivering possession to the purchaser, after being properly vacated of all tenants. The sale and delivery to purchaser will be made as nearly together as the circumstances of vacating the structures of their tenants will permit.

All the material of the buildings, sheds, walks, structures and cellars of whatsoever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds, except the exterior walls of the buildings and their foundations and the sidewalks and curb in front of said buildings, extending within the described area, shall be torn down and removed from the premises. None of the dirt, debris or waste resulting from demolition shall be allowed to remain on the premises, except old mortar or plaster only, which may be left, but not higher at any point than two feet below the curb opposite that point. The exterior walls and their foundations shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building. Where there is no curb the elevation of the surrounding ground shall be considered curb level. All wells, cesspools, sinks, etc., existing on the property must be filled to the level of the surrounding ground with clean earth.

The purchaser at the sale shall also withdraw and remove all abandoned water taps and old service mains, and in place thereof cause to be inserted a brass plug in the main water pipe in the street, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and furnish the Department of Finance with a certificate from the Department of Water Supply, Gas and Electricity that this has been performed.

The purchaser at the sale shall also remove all house sewer connections to the main sewer in the street and the openings of the main sewer in street shall be properly closed in compliance with the directions of the Bureau of Sewers in the Borough in which the buildings are situated, and furnish the Department of Finance with a certificate from the Bureau of Sewers that the work has been properly performed.

The permit for all opening in the street to be obtained by and at the expense of the purchaser of the building.

Failure to remove said buildings, appurtenances, or any part thereof, within thirty days from the day of possession will work forfeiture of ownership of such buildings, appurtenances, or portion as shall then be left standing, together with all moneys paid by said purchaser on account thereof at the time of the sale, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and The City of New York will, without notice to the purchaser, cause the same to be removed, and the cost and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and must be completed within thirty days from the day of possession, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damage and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of said buildings.

Where party walls are found to exist between buildings purchased by different bidders, the materials of said party walls shall be understood to be equally divided between the separate purchasers.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down. All furrings, plaster, chimneys, protecting brick, etc., on the faces of such party walls are to be taken down and removed. The walls shall be made permanently self-supporting, beam holes, etc., bricked up, and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs and adjacent buildings shall be properly flashed and painted and made watertight where they have been disturbed by the operations of the Contractor.

The Comptroller of The City of New York reserves the right on the day of sale to withdraw from sale any of the buildings, parts of buildings and machinery included therein, or to reject any and all bids; and it is further

Resolved, That while the said sale is held under the supervision of the Commissioners of the Sinking Fund, the Comptroller is authorized to cause the sale to be advertised and to direct the sale thereof as financial officer of the City.

PROPOSALS FOR BIDS AND ESTIMATES FOR THE CITY OF NEW YORK.

NOTICE TO CONTRACTORS.

GENERAL INSTRUCTIONS TO BIDDERS.

The person or persons making a bid or estimate for any services, work, materials or supplies for The City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope, indorsed with the title of the supplies, materials, work or services for which the bid or estimate is made, with his or their name or names and the date of presentation to the President or Board or to the head of the Department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said Department and read, and the award of the contract made according to law as soon thereafter as practicable.

Each bid or estimate shall contain the name and place of residence of the person making the same, and names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

No bid or estimate will be considered unless as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money or corporate stock or certificates of indebtedness of any nature issued by The City of New York which the Comptroller shall approve as of equal value with the security required in the advertisement to the amount of not less than three nor more than five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The amount shall be as specified in the proposals or instructions to bidders and shall not be in excess of 5 per cent.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation of the City.

The contract must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there
