#### REPORTS OF THE BUREAUS AND OTHER SUBDIVISIONS OF THE LAW DEPARTMENT.

#### REPORT OF THE BUREAU OF STREET OPENINGS.

LAW DEPARTMENT—BUREAU OF STREET OPENINGS, Nos. 90 and 92 West Broadway, New York, July 13, 1906.

Hon. George L. Sterling, Acting Corporation Counsel:

SIR-I transmit herewith report of the Bureau of Street Openings for the quarter

SIR—I transmit herewith report of the Bureau of Street Openings for the quarter ending June 30, 1906.

Thirty-eight reports in street opening proceedings were confirmed in which the awards aggregate \$2,199,060.84, and the assessments for benefit \$3,602,990.89. The streets acquired cover 113,474+ linear feet in length, about 21½ miles.

Fourteen reports were moved for confirmation, in which the awards amount to \$648,093.35 and the assessments for benefit to \$649,064.68. The length of the streets to be acquired covers 60,908+ linear feet, or about 11½ miles.

Twenty-one final reports have been signed, in which awards amount to \$983,277.31 and the assessments for benefit to \$2,046,993.05.

Of the 396 reports upon which the Commissioners have been engaged in the whole Bureau, 73 have been completed and 323 have reached the stages enumerated below.

Final instructions received..... 34 39 54 11 Hearing or considering objections.

Preliminary abstracts in course of preparation. Considering awards
Taking testimony.

Damage maps received, hearings to be called.

Awaiting final maps.

Awaiting damage maps. 49

Total....

Very respectfully, JOHN P. DUNN, Assistant Corporation Counsel.

The increases asked for in above estimate have been recommended by the Board of Aldermen; the two employees in question are efficient and faithful, and have been servants of the City for a long time.

Respectfully,
P. J. SCULLY, City Clerk.

#### CITY CHAMBERLAIN.

City of New York,
Office of the City Chamberlain,
August 3, 1906,

Hon. P. J. SCULLY, City Clerk and Clerk of the Board of Aldermen:
Dear Sir—I submit herewith an estimate of expenditures for this office for the year 1907.

The appropriation asked for salaries, as proposed, is \$56,030. In the above amount, provision had to be made for the salary of a Secretary to the Chamberlain, a position recently created.

The increases show justly deserved promotions, and were made possible by the transfer of the Senior Bookkeeper of this office to the Comptroller's office last spring.

Respectfully yours,
PATRICK KEENAN, Chamberlain.

Salaries-General Administration.

\$2,680 00

		the original contracts; and repair of burns	ire	43,147 00	
Totals	\$840,558 00		\$971,611 00	\$131,053 00	

Note—The increase in the above estimate for 1907 of \$131,053 is required for the following purposes: 1st. To increase—25 per cent.—the wages of laborers who are receiving \$2 per day, which amounts to \$32,906, and \$50,000 for the employement of 100 additional laborers. 2d. To increase the amount required for the purchase of material to the extent of \$5,000. 3d. To increase the amount required for the maintenance of asphalt pavements to the extent of \$43,147. Although requested in the estimate for 1906, the Board of Estimate and Apportionment did not allow a sufficient amount in this appropriation for the maintenance of asphalt pavements during 1906, where the periods of maintenance under original contracts had expired. It was, therefore, necessary during

the year to obtain an issue of Special Revenue Bonds in the amount of \$238,000 to meet this emergency.

Roads, Streets and Avenues Unpaved, Maintenance of and Sprinkling.

Note—The appropriation allowed by the Board of Estimate and Apportionment for bath attendants to properly equip the interior and floating baths, it was, therefore, \$43,500 for this work. In addition to those new baths that were opened to the public this fourth streets, will be ready for the public about the 1st of January, 1907, if not before. It is very necessary that the full amount of this estimate should be allowed in order that all the baths may be adequately equipped with bath attendants, etc., so that the great crowds that patronize them may be properly handled.

The foregoing list is prepared in order to show the complete annual salary list of the Topographical Bureau, Borough of The Bronx, as the same existed in July, 1906. Of the total charges for salaries in July, 1906, of about \$11,500, \$9,000 was charged against appropriation account and \$2,500 against Corporate Stock. These charges vary from month to month according to the nature of work the employees are engaged in. Dated New York, August 1, 1906.

Title of Appropriation.

Respectfully,

F. GREIFFENBERG, Topographical Engineer.

The total charge for salaries in July, 1906, was taken as a basis for making up the estimate for 1907. This appropriation is necessary for making surveys, examinations and estimates of the cost of proposed improvements directed by the Local Board, for obtaining the valuation of the property within the assessment area as required by the Charter before the work can be authorized; also to cover the cost of making surveys, plans and specifications for contracts after improvements are authorized by the Board of Estimate and Apportionment; it also provides for the keeping up of the office record and for the supervision of completed contracts during the guarantee term and the necessary inspection of repairs required by the Engineering Bureau. It also covers the purchase of necessary instruments required and repairs on the same. The increase

a These salaries are chargeable at present time (1906) against Corporate Stock Fund as noted; this fund will be exhausted this year, and it is therefore essential that provision for such salaries shall be made in the Budget for 1907 as requested, inasmuch as the preparation of drainage and sewerage district plans is part of the regular work of the Bureau of Sewera.

b Includes eight (8) of the office force of Chief Engineer of the Borough of The Bronx.

c Includes \$5,250, requested on account of Office of Chief Engineer of the Borough of The Bronx.

\$5,250 provision for one-third amount necessary for salaries of office of Chief Engineer of the Borough of The Bronx.

The amount requested is needed to meet the cost of making, for the information of the Board of Estimate and Apportionment, surveys and estimates and reports of the cost of proposed sewers, and the preparation of plans and specifications for the construction of such sewers; also to defray the expense of making necessary surveys, investigations, studies and computations for, and the preparation of plans of drainage for the Chester District, Borough of The Bronx, and for the preparation of necessary modifications of the plans of drainage for the Morrisania District, Borough of The Bronx. Attention is respectfully directed to the fact that in the Budget for 1906 no provision was made for moneys to pay for drainage plans and the work preliminary to their preparation, although a request for such moneys was made in the Departmental Estimate for the year 1906; the needs of this branch of the work of the Bureau of Sewers, Borough of The Bronx, was recognized by the Board of Estimate and Apportionment during 1905, by the authorization of an issue of Corporate Stock in December of that year, in the amount of \$12,000 for drainage and sewerage district plans. It is respectfully urged that the appropriation of \$60,785, as hereinbefore requested, be allowed in full for the purposes specified, as the sum mentioned is positively necessary for the conduct of this most important work of the Bureau.

No salary account against this appropriation; charges as necessitated by the requirements of this class of work are made for wages of Mechanics, Laborers, etc., and for materials.

Supplies and Contingencies.

No salary account against this appropriation.

# BUREAU OF SEWERS. Departmental Estimate for the Year 1907.

The foregoing schedule sets forth the complete salary list of employees of the Bureau of Sewers, Borough of The Bronx, as it existed in July, 1906, as shown by the payroll for that month. Said schedule also shows the proposed salary list for 1907 This schedule is presented for the reason that in the Departmental Estimate for 1907 the salaries of all of the employees are not set forth for the reason that a number of them are paid entirely from various construction funds, including the "Street Improvement Fund."

CHARLES H. GRAHAM, Engineer in Charge of Sewers.

BUREAU OF PUBLIC BUILDINGS AND OFFICES.

Allowed for 1906 Salaries and Wages. \$45,000 00
Estimate for 1907 75,050 00

Note—\$10,000 Revenue Fund Bonds will no doubt be authorized for this purpose at the next meeting of the Board of Estimate and Apportionment, which will make the actual increase of appropriation for 1907 over 1906, \$20,050.

The foregoing estimate is based on actual conditions now existing, and attention is especially called to the fact that the services of the employees in the Bureau of Public Buildings and Offices are continuous throughout the year, and required each day in cleaning, labor work and repairs of all the public offices within this borough and under the jurisdiction of the President of the Borough of The Bronx. The number of such offices has increased considerably during the past year, and the necessity for the increased force assigned to work during 1906 is manifest. In the estimate for 1907 there is an increase of but nineteen employees over 1906, consisting of eight Laborers, seven Cleaners (men), and four Cleaners (women). This additional force is positively required and is the minimum of increase necessary for 1907 so far as it is possible at this time to determine.

 Bureau of Buildings, Borough of The Bronx, Third Avenue and One Hundred and Seventy-seventh Street, New York, August 1, 1906.

Hon. LOUIS F. HAFFEN, President of the Borough of The Bronx:

Dear Sir—I hereby respectfully submit the following estimate of money that will be required for the maintenance of the Bureau of Buildings, for the Borough of The Bronx, for the year 1907:

10 hars	The second section of the second section secti		Estimate for 1907.
Salaries . Contingen	cies and emergencies	\$110,000 00 2,500 00	\$126,050 00 3,000 00
		\$112,500 00	\$129,050 00
	Increase		. \$16,550 00

To pay salaries of the employees of this Bureau, as its working force now exists,

July, 1906, for the year 1907, the sum of \$114,100 is necessary; see list of employees and salaries of same attached hereto. As but \$110,000 was allowed by the Board

of Estimate and Apportionment for salaries for this Bureau for 1906, instead of \$116,500, as requested in the estimate for this year, we have an actual shortage of \$4,100 in our present salary account. In order to meet this deficiency and provide for a few additional Inspectors to fill up my force for the balance of this year an issue of Special Revenue Bonds to the amount of \$6,500 has been requested; the matter has passed the Board of Aldermen; and is now in the hands of the Board of Estimate and Apportionment for its action.

The amount asked for salaries for 1907, viz.: \$126,050, is \$16,050 more than was allowed in the Budget for this year, and, to my mind, this increase is small, when the vast increase in appropriations and compensation of employees heretofore granted is entirely out of proportion to the quantity of work performed. When the responsibilities and duties of the Superintendent of Buildings are considered in comparison with the salaries paid by private corporations to their superintendents, for services of similar character and importance, which range from \$8,000 to \$15,000 a year, the compensation which is now paid, viz.: \$5,000, is inadequate, and the sum of \$6,000 is requested for the salary of the Superintendent, in order to afford him a compensation commensurate with the duties and responsibilities of his position.

An increase of \$500 is requested in the salary of the Secretary to the Superintendent, in order to afford proper compensation for the duties of the position, and partially equalize his compensation with that paid Secretaries in other Bureaus, which range from \$3,000 to \$5,000 per annum.

It is proposed to increase the pay of the Chief Inspector from \$3,000 to \$4,000 per annum. The duties of this position are important; besides attending to the general business of the Bureau, with which he is charged by the Superintendent, the law designates the Chief Inspector as the Acting Superintendent of Buildings in the absence of the Superintendent, and I therefore feel that the salary of

Borough of Manhattan.

In addition to the regular work of this Bureau in connection with building matters, which is constantly on the increase, the new Prentice Excise Law, passed last winter, has placed the duty of inspecting and reporting upon all hotels in the borough which do or do not comply with the provision of the Excise and Building laws in reference to the construction of hotels.

This act is mandatory and makes any failure to comply therewith or a false report in reference to hotels a misdemeanor. The compliance with this law has encumbered this Bureau with a great amount of extra labor, both upon the inspecting as well as upon the clerical force, and in order to properly handle this new business it will be necessary to establish a branch in this Bureau to attend to this

class of business alone. For this purpose I ask for two extra Clerks and four Inspectors. We are not only required to examine all now existing hotels, but all buildings hereafter erected or converted into hotels. This work is going on from day to day. To date 227 final reports on hotels have been made, each of which has been examined on an average of from three to five times in order to see that the requirements of the laws are fully complied with before final report is rendered to the Commissioner of Excise. From this showing it is readily seen how much of the time of the present inspecting force is taken up with this class of inspection alone, and the Inspectors are forced to exert themselves to the utmost to keep up with their regular duties in their respective inspection districts.

The business of this office for this year bids fair to equal, if not exceed, that of 1905 in the number of operations, which was the greatest in the history of The Bronx, plans for new buildings for the first six months of this year exceeding that of last year by 41.

In view of this fact, the proposed increase in salaries and the extra force requested I consider fair and reasonable, and in keeping with the constantly increasing business of this Bureau.

The increase of \$500 asked for Contingencies and Emergencies is as small, to my mind,

business of this Bureau.

The increase of \$500 asked for Contingencies and Emergencies is as small, to my mind, as is practicable for the proper management of the Bureau, for out of this fund is paid all the incidental expenses of the office, such as carfare of Inspectors and Messengers, postage, horseshoeing bills, repairs to carriages, harness, survey fees and emergency expenses, and, in addition, two new horses will be required during the coming year, the ones now in use having outlived their usefulness.

The continued prosperity of the building business in The Bronx, and consequent increased business of this Bureau, fully warrants the full appropriation requested for 1907, and I therefore respectfully request that you use your every endeavor before the Board of Estimate and Apportionment to obtain for this office the full "mount requested."

requested.

Respectfully submitted,

PATRICK J. REVILLE, Superintendent of Buildings, Borough of The Bronx.

\*Secretaries in other Bureaus receive as high as \$5,000. †Chief Inspector, Manhattan, \$4,000.

Note—It will be observed that the total yearly amount of salaries of the Bureau of Buildings, as shown by July pay-roll of 1906, is \$114,100, while the Budget appropriation for 1906 for said purpose is but \$110,000, making a positive deficiency of \$4,100. This deficiency will be met by an issue of Revenue Fund Bonds to the amount of \$6,500, resolution requesting the Board of Estimate and Apportionment to issue same having been adopted by the Board of Aldermen, and which will no doubt be authorized by the Board of Estimate at its next meeting. The \$2,400 above said deficiency will be used to pay the salaries of additional Inspectors and Clerks for the remainder of the year, who are urgently needed to properly carry out the business of the Bureau. This extra force is shown in the schedule for 1907 Budget. Including the \$6,500 Revenue Bonds referred to, the total available funds for this year (1906) will therefore be \$116,500, viz.: \$116,500, viz.: \$114,100 00 Additional force 2,400 00

This amount, viz., \$116,500, is really but \$500 more than was allowed for 1905, the Budget appropriation for that year being \$96,000, and Special Revenue Bond issue of \$20,000 additional. The actual amount of increase of funds requested for 1907 over 1906 will therefore be but \$9,550, viz.:

#### PRESIDENT OF THE BOROUGH OF BROOKLYN.

The City of New York, Office of the President of the Borough of Brooklyn, Brooklyn, August 17, 1906.

Hon. P. J. SCULLY, City Clerk and Clerk of the Board of Aldermen:

Dear Sir-On behalf of the Borough President, I beg to transmit herewith the Budget for this Department for the year 1907. Yours truly,

CHARLES FREDERICK ADAMS, Borough Secretary.

Hon. P. J. SCULLY, City Clerk and Clerk of the Board of Aldermen:

I have considerably increased the total amount of the appropriation of this office, because I am not in sympathy with any attempt to arbitrarily reduce the salaries paid to the employees of the City, and because I believe that those salaries should, on the other hand, be increased when experience and ability on the part of the employees

General Administration.

The increase of \$1,000 requested for the Borough Secretary is due to the fact that he is a man of exceptional ability, and a salary of \$5,000 per annum is not at all too high for the class of public servant of which he is a type.

The Private Secretary has been in the service of the City for three years now, and his experience has increased his value as a public servant. I believe he is entitled to the

increase which I have asked for.

The Consulting Engineer is a new office, created since the last annual appro-

priation.

The Assistant Engineer has been transferred from the Topographical Bureau to this office to assist the engineering staff here.

I have asked for an increase of \$300 in the salary of my Confidential Inspector, because I intend to make his duties more onerous and his position more responsible by placing him in charge of a squad of Inspectors intended for particular service.

The Confidential Stenographer has shown particular aptitude and industry, and I think he is entitled to the increase of \$300 for which I have asked.

I desire to increase to \$1,050 per annum a Stenographer who was recently employed at \$000, and has shown himself to be an excellent Stenographer.

I have asked for an increase of \$450 in the salary of one Clerk who attends to all Civil Service matters, this being the rate paid to similar Clerks in other departments.

The duties of the Executive Clerk have increased, and I think he is entitled to the

I have asked for an increase of \$450 in the salary of one Clerk who attends to all Civil Service matters, this being the rate paid to similar Clerks in other departments. The duties of the Executive Clerk have increased, and I think he is entitled to the \$300 increase for which I have asked.

The two Clerks now receiving \$750 per annum I desire to increase to \$1,050 per annum. These Clerks have grown up in the office, having entered the service as Office Boys, and I think they are entitled to the increase.

The "Division of Substructures" of the President's office was established by action of the Board of Estimate with appropriation of the Board of Aldermen July 2, 1906, of \$10,000, this amount being agreed upon as a proper allowance for six months' operation in collecting, surveying and mapping locations and sizes of all pipes, conduits and structures of the City and public service corporations below the street surface. Permits for further locations cannot until then be intelligently issued by the Borough President as the Charter provides. The work is actively under way, and the best practice of Philadelphia and other cities will be followed. The Chief Engineer of the Board of Estimate on January 22, 1906, reported in this matter in part as follows: "As to the value of a complete record of underground structures, even if no system of subways were to be built, I will refer to the system in vogue in the City of Philadelphia, where a very complete record of underground structures has been made. These plans can be consulted by any corporation or individual securing a permit to install any underground structure. The information derived from them is invaluable, and a fee, dependent upon the length of street to be opened, is charged for this information, the result being that the Bureau having these records in charge has for some years shown a substantial net profit to the City."

The Consulting Engineer of the President has personal charge of this work, and has no other staff to assist in the solution of the many te

the borough work,

The increase of \$1,000 is proposed in the salary of the Secretary to the Commissioner. The Secretary is entitled to this increase, because of his ability and his industry.

I have asked for an increase from \$1,200 to \$1,500 in the salary of one Clerk, because I believe such an increase is warranted by the services rendered.

I have asked for a new appropriation of \$939, to be paid for the services of an Automobile Engineman.

In the office of the Assistant Commissioner of Public Works the only increase asked for is one of \$450 for a Clerk who is now receiving \$750, and who thoroughly deserves the increase suggested.

In the Bookkeeper's office two increases are requested, one of \$450 in the salary of the Bookkeeper, who has given excellent service during the last year, and one of \$450 in the salary of a Clerk who is now getting \$750 and who is very much underpaid.

Bureau of Highways.

Bureau of Highways.

The Superintendent of the Bureau of Highways is a new office created since the last appropriation. The proposed increase of the Chief Engineer from \$5,000 to \$6,000 per annum is on account of the extra amount of work that is being ordered from year to year and on account of the long service of the present Chief Engineer who has been in the service for more than eleven years, and also to make the salary nearer the salaries paid in other boroughs and other departments for work no greater in quantity and of less responsibility.

These increases are for two Engineers who are very efficient, one of whom has been in the Department seventeen years and the other eleven years.

The increase of two Engineers from \$2,100 to \$2,400 is also on account of increased work and increased experience the Engineers have had, and consequently their greater value to the City.

value to the City.

The increase of the Chemist from \$1,950 to \$2,400 is a recognition of the work done
by the Chemist during the ten years he had been in the Department and to equalize

his salary to a certain extent with that of the Chemist in the Water Supply Department, who received \$2,500 per year.

The increase of two Clerks from \$1,350 to \$1,500 is to reward men for faithful service who are carefully working in the City's interest.

The increase of two Junior Clerks from \$600 to \$750 is on account of a natural increase which is recognized as proper for Clerks in the lowest grade after they have been in the service long enough to understand the duties and perform more work, therefore are worthy of an increases.

fore are worthy of an increase.

The increase of Messenger of \$150 is to reward a man for faithful service and who does everything to forward the business of the City, if not always directly in his line.

In this connection it should be understood that the total increase to the above force in 1906 was at the rate of \$1,050 for the entire year. The actual increase was about

Bureau of Sewers.

Bureau of Sewers.

It will be noted from this estimate of proposed salaries for the coming year that the administrative forces are far too small to properly conduct the business of the Bureau. This is especially so in the Enginering Division of the Bureau, where the greater number of new employees are desired and must be obtained to efficiently and quickly carry on the work. It will be found that the increase in the salaries of the present employees is minor, and such is intended only for those who have through zealousness, efficiency and length of service deserved attention.

The promotion of the Assistant Superintendent of Maintenance is deserved by zealous work in supervising the maintaining of the sewerage system, having been employed in the Bureau for nine years.

The clerical force is small. The appointment of a Bookkeeper and two new Clerks is absolutely necessary to properly conduct the affairs of this Bureau. The promotion of the other Clerks mentioned is due to their zealousness and hard work in the Bureau under adverse circumstances, working over hours, sometimes until 6 and 7 o'clock, in order to keep up with the work which was assigned to them. All have been in the service for years, ranging from eight to eighteen years.

The appointment of a Cashier is an absolute necessity, to handle the moneys collected through the year for connections of houses, etc., with the sewerage system. Said Cashier should be bonded for the safe conduct of his work. Some \$78,649.17 were collected last year, and it is expected that a greater amount will be this year, due to the vast increase of building in the borough.

The appointment of a Stenographer and Typewriter, and the increase of one already in the employ in the Bureau for zealous and hard work is necessary.

The Foreman of the Repair Yard, who has been in the City's employ for twenty years, should be promoted for his efficient work.

The position of General Inspector of Sewers and Basins is intended to be made by the promotion of one of the most active and effic

rections made with said sewers.

The appointment of a Foreman Plumber is much desired to examine houses which are flooded throughout the borough, due to improper plumbing. The acquisition of an employee of this kind is necessary to point out to the owners of property the faults in their plumbing. I believe that the appointment of an expert of this kind would lessen the many claims for damages made against the City through the misunderstanding of property owners as to why their premises have been flooded.

In the Engineering Division of the Bureau it is absolutely necessary to secure six new Draughtsmen in order to prepare plans for new work which has been authorized by the Board of Estimate, in order that such may not be delayed in preparation.

The appointment of three Levelers to fill vacancies in the field parties is necessary, as is the appointment of one Rodman and seven Axemen for the same purpose.

The slight increase in the salaries of the five Draughtsmen now in the service of the Bureau is absolutely necessary to maintain them in the employ of the Bureau. Three Draughtsmen have recently resigned and been appointed in other branches of the City Government, at an increased salary.

The promotion of one Assistant Engineer is to equalize salaries, said Engineer performing work in a field party, and has proved by his efficient service of sixteen years as worthy of same.

years as worthy of same

years as worthy of same.

It has been found that the maintaining of a force as now employed under the heading of "Sewers, Repairing and Cleaning, Pay-rolls and Supplies," is sufficient to clean the sewer basins and the small pipe sewers of the borough only. One Foreman should be employed over the present forces, as listed and shown on July I, 1906. The supplies desired are the same as last year. It will be noted that the appropriation allowed for the year 1906 is deficient by about \$15,000 to properly maintain the smaller sewers and the sewer basins throughout the borough. Especial attention is drawn to a new appropriation desired noted hereinafter in this Budget to maintain the large brick and concrete sewers throughout the borough, the amount allowed under this heading having been insufficient to enable us to clean said large sewers.

No new employees are desired under this heading than are now employed. The slight increase requested is, first, to pay the prevailing rate of wages for Stokers which I understand is compulsory, and for the general betterment of the plant in maintaining same. The wooden buildings of Stations I and 3 need painting, and Station 4 white-washing, and all generally overhauled. The appropriation requested for 1906 was \$50,000. This agrees very closely with the estimate now forwarded, showing that the amount of \$43,710 for 1906 was slightly deficient.

This Bureau has been unable to do a single thing in the cleaning of the large brick

amount of \$43,710 for 1906 was slightly deficient.

This Bureau has been unable to do a single thing in the cleaning of the large brick and concrete sewers throughout the borough during the year, sufficient money having been allowed only for the cleaning of the pipe sewers and the sewer basins as explained in the appropriation, "Sewers Repairing and Cleaning, Pay-rolls and Supplies." A special allowance of \$100,000 was made in 1904 for this purpose, but the same did not become available until 1905, when the large brick and concrete sewers were cleaned by contract. This method was found unsatisfactory, and it is proposed now to clean said sewers by days' labor. Eight gangs of men of five Laborers each, with a Foreman for each gang, is deemed necessary to perform this work. The twenty-four horses and carts to be used to cart this material to the dumping grounds; said horses and carts to be hired. Portable derricks erected on platforms with a wheeled base are necessary to perform this work. The purchase of twenty horses to be used as a power to haul material from the sewers by means of the derricks. In conjunction with this work a new plant will be necessary wherein to house the new derricks and horses, the building to contain a blacksmith shop and machine shop. Sufficient room does not exist in the present repair yard to store the materials used in maintaining the sewerage system, some stores being housed within the areaway of said yard in the public streets. The establishment of a new plant will provide for dividing the stores obtained under the heading of "Sewers, Repairing and Cleaning," between the old and new plant. From 30,000 to 35,000 cubic yards of material collect in the brick sewers until a self-securing gradient is formed. The sewers then discharge under this reduced efficiency in some locations as much as 40 per cent.

The slight increase desired in Twenty-sixth Ward Disposal Works is for the purpose of filling a vacancy of one Engineman, to provide for the prevailing rate of wages for Stokers and fo

The slight increase desired in Twenty-sixth Ward Disposal Works is for the purpose of filling a vacancy of one Engineman, to provide for the prevailing rate of wages for Stokers and for the betterment of the plant in addition of two new centrifugal pumps to pump the clarified sewage to the spoil banks.

The Thirty-second Ward Disposal Works has not been put in operation as yet, the expenditures, salaries for Watchmen, being all that has been made against this fund. A contract has been let and recently registered and ordered on in work to dredge out Paerdegat Basin, whereby this plant can be put in operation. It is estimated that this contract will be completed in another month's time, when the plant can be placed in operation. The same amount of money as allowed this year is necessary for the plant's operation in 1907.

The Bureau of Public Buildings and Offices Budget for 1906 asked for a total appropriation for Salaries and Wages, based upon absolute requirements, of \$287,278.25 and only \$271,014.75 was allowed—a reduction of \$15,363.50—with the result that a Revenue Bond issue of \$6,300 was found necessary and made during the year, to help make up a portion of the deficiency, and the balance of the shortage will yet have to be secured to meet the requirements of the present pay-rolls, before the close of the year. This statement is respectfully submitted for consideration in connection with this year's budget.

year's budget. Bureau of Public Buildings and Office

For buildings to cost approximately \$4,500,000 (new Eighth Ward Market, \$2,000,000, new Municipal Building, \$2,000,000; three new Interior Baths, \$345,000, and new Sixth District Municipal Court House, \$75,000); under way or in line for construction, in conjunction with the forty odd public buildings already in care of the Bureau of

Public Buildings and Offices, the advisability of appointing an assistant to the Superintendent seems manifest. As purchasing agent of the entire Department of Public Works, expending annually on open orders nearly \$300,000, the Superintendent must necessarily devote a large part of his time to office matters, and it is planned to give the personal supervision of new buildings to the Assistant Superintendent, who can devote his entire time and attention to the construction work.

Constantly the need of a Supervising or Chief Inspector—a position which has never been filled in this Bureau, but which has been provided for in most of the other branches of municipal work—becomes apparent. It is intended to make this official directly responsible to the Superintendent for the work of the eleven Inspectors now on this Bureau's pay-roll, so that in a large measure errors in bills for work done on open orders—bills are now checked only by the respective Inspectors—and which seem bound to occur, can be avoided.

Mr. White's salary was \$3,000 per year up to the advent of Mr. Swanstrom's administration, when it was reduced to \$2,850. He has been in the City's employ for a great many years, and for the next two years he will have indirect charge of the construction of a large number of projected public buildings, matters which will employ his time, frequently after regular office hours, and it seems just that his salary should be restored to its former figure.

Mr. Griffith, who has been employed as a Draughtsman by the City for over a dozen years, won a promotion examination for the position as Assistant Engineer, last year, and was to have received \$2,000 a year salary at the time. This Bureau's appropriation, however, did not warrant the expenditure, and his salary was fixed at only \$1,800 per annum. He is an experienced and capable employee, and the proposed increase of his salary is to place him on an equal salary basis with men who are holding similar positions elsewhere in the City.

Mr. Hamilton passes on all bills

crease is intended to equalize his salary with that of Clerks doing like work in the other Bureaus.

The records of the Interior Baths and Comfort Stations, by reason of lack of help, have never been kept so that they can readily be referred to. The patronage of these buildings is daily increasing and has almost doubled itself within the past year. The Superintendent of Baths and Comfort Stations recognizes the necessity of a Junior Clerk to care for these records, and I know that his request is reasonable.

Mr. Tice is now the only Draughtsman in the Bureau of Public Buildings and Offices, and is really doing the work—particularly in connection with the Eighth Ward Market project—of two or three employees. Men of equal ability in similar positions in Manhattan are receiving from \$1,800 to \$2,000 per annum.

Seven of the eleven Inspectors credited to this Bureau—four places have never been filled since the resignation of the incumbents—have been receiving \$1,350 for the past four years and doing the work of eleven men. In the other Bureaus in Brooklyn and Manhattan, Inspectors receive \$1,500 per year.

Mr. Gill was appointed Messenger at \$900 per annum eight years ago, when there were two Messengers in the Bureau, and has been doing all the Messenger work of this Bureau for the last four years, without increased compensation. In Manhattan Messengers are receiving \$1,050 per year, and elsewhere in the Brooklyn Borough Presi-

sengers are receiving \$1,050 per year, and elsewhere in the Brooklyn Borough President's offices Messengers receive \$1,200 per year. The increased salary asked for Mr.

Gill is from \$900 to \$1,050 per year.

The increased salary of all the Firemen in this Bureau from \$2.50 per day, or \$900 per annum, to \$3 per day, is intended as an equalization of compensation and to meet the prevailing rate of wages for such employees. On February 28, 1906, this matter came before the Board of Aldermen and was approved, but the Board of Estimate failed to take action thereon.

timate failed to take action thereon.

The permanent employment of experienced tradesmen in this Bureau, which suggested itself early this year, has been found to be decidedly advantageous from an economical point of view. Thousands of dollars have been saved to the City by the regular employment of Painters and Decorators instead of having the work done by contractors on open orders. As an evidence of this fact, some time ago fourteen Carpenters were appointed from the Civil Service list of eligibles, and paid at the rate of \$2.37½ per day each, for remodeling one of the offices in the Municipal Building. The materials for their work cost \$668, which sum added to the wages paid the Carpenters, brought the total cost of the improvements up to \$895.30, while an estimate for the work from an outside contractor was over \$1,500, a net saving to the City of over \$600.

Carpenters, brought the total cost of the improvements up to \$895.30, while an estimate for the work from an outside contractor was over \$1,500, a net saving to the City of over \$600.

Mr. Ray, Foreman Painter here, has been receiving \$1,200 per year since his employment six years ago. In Manhattan similar employees are receiving \$4,50 per day, or over \$1,600 per year. The increase requested is from \$1,200 to \$1,500 per year.

A Decorator was appointed this year at only \$750 per year, because of lack of funds. The prevailing rate of wages for Decorators is \$4,50 per day, or over \$1,600 per year, while this increase asked for is only from \$750 per year to \$1,000 per year.

A day never passes that one or more requisitions in connection with each of the public buildings for plumbing repairs is not received. Expenses of this character are the heaviest of any line of work which the Bureau is called on to do. The regular employment from the Civil Service list of a Plumber and a Plumber's Helper, which is asked for here at the prevailing rate of wages, will save the City many thousands of dollars in the course of a year.

Experience has shown that each Bath and Comfort Station should have a Chief Attendant, and it seems reasonable that such employee should receive a larger salary than the employees under him. The thought is to make this position one to be aimed for by the Attendants generally by faithful and efficient service.

When the Public Baths and Comfort Stations were established about five years ago the salaries of Male Attendants were fixed at \$000 per year, and the Female Attendants at \$750 per year—the figures paid in Manhattan. This Bureau's salary appropriation, however, having been found inadequate to meet the requirements after a few appointments at the rate of \$000 per annum for Male and \$750 per annum for Female Attendants at \$600 per year, so that some employees doing the same work are receiving \$150 per year less than their associates.

This Bureau's Budget for 1906 asked for Supplies and Repairs an

This statement is respectfully submitted for consideration in connection with this year's Budget.

Having recently asked for a special appropriation of \$18,000 for needed improvements to this building, the cost of contingent repairs thereto for the next year is figured on the basis of 1906.

While a number of improvements of an expensive character are really necessary to this building, in view of its probable demolition in the near future to make way for a new and enlarged Municipal Building, the changes seem inadvisable and no more money for the care of the structure in 1907 is asked for than was requested in 1906.

Mail chutes (one in the front and one in the rear) in this building are necessary for the convenience of the Courts on the upper floors and will cost \$750 each. To avoid accidents and to perfect the outside appearance of the structure new sidewalks should be laid.

Contracts amounting to nearly \$650,000 for improvements to this building, ex-

should be laid.

Contracts amounting to nearly \$650,000 for improvements to this building, extending over six years, having now been completed, the structure is in A1 condition, with the exception of one or two minor necessities that the contracts did not provide for—notably, mail chutes—and the officials located in the building have joined in a request that they be installed. They will cost \$750 each, and one is required in the front and one in the rear of the building.

To correct conditions that have been repeatedly criticised by Grand Jurors and the State Commission of Prisons, a special appropriation of several thousand dollars in connection with this building has been applied for and will be probably forthcoming; therefore, only the same amount of money for the structure's maintenance as was requested in 1906 is asked for 1907.

Lorimer Street Comfort Station roof is badly in need of redamp-proofing, sodding (the building is located under a park) and general repairs; the interior also needs replastering and repainting, because of leakage, and the surrounding brick wall requires to be extended with coping, and its iron fence should be continued around the entire block; the sidewalk surrounding it also wants kosmocreting.

Bureau of Incumbrances and Permits

#### Bureau of Incumbrances and Permits,

Bureau of Incumbrances and Permits.

In recommending that the salaries of the Cashier and Clerk employed in issuing permits to Plumbers in the Bureau of Incumbrances and Permits be increased \$200 and \$300, respectively, I would say that the position of Cashier is one of importance and responsibility. The amount of money received by them and credited to the proper funds amounts to over \$100,000 per annum. The responsibility of the position and the amount of detail work warrants the increase. The Clerk, because of his experience and technical knowledge, is a valuable man and has been commended for efficiency by the Commissioner of Accounts Office at various times. Formerly the salaries paid to the men employed in this branch of the office were \$2.550 and \$1,500, while at present the salaries are but \$1,800 and \$1,200. The work of the office has increased fully 25 per cent. This estimate of increase is based not upon the amount of money received, but upon the number of permits issued. The cost of restoring the different pavements varies from \$5 to \$13, while the work of issuing the permit in detail is the same.

To request that the salaries of the Inspectors be increased from \$1,050 to \$1,200

detail is the same.

To request that the salaries of the Inspectors be increased from \$1,050 to \$1,200 per annum, is simply to ask that their salaries be made uniform with that paid in the Borough of Manhattan. At present there are 7 Inspectors attached to this office. Their duties require that they be thoroughly familiar with all the ordinances of the City as well as special ordinances which are enacted by the Board of Aldermen from time to time. In the discharge of their duties they are brought in contact with builders, small business people and the general public, and it is necessary that they be tactful, courteous and just. The men who are now in this office are men of that character and experience, and as a matter of justice they should be granted the increase. I would also recommend that the force of Inspectors be increased from the present number 7 to 12. The area of the Borough of Brooklyn is 77½ square miles. The number of permits passed upon by the Inspectors for the year 1005 was 9,735. In using the words "passed upon," I mean to say that the Inspectors visited and inspected the work done under the authority of the permits issued, scattered over the 77½ square miles of territory. In the outlying sections of the Borough, building operations are going on at such an extent that the services of additional Inspectors would be repaid in better regulation of the placing of material on streets by builders, and the public would have less cause of complaint of incumbrances and encroachments on the public would have less cause of complaint of incumbrances and encroachments on

The salary of the Driver for the Superintendent of Incumbrances has heretofore and up to March 1, 1906, been paid out of the fund for the "Removal of Incumbrances." Since the above date, however, the position has been charged against the fund "Salaries," and therefore appears here for the first time.

aries," and therefore appears here for the first time.

In asking that the appropriation for the Removal of Incumbrances be increased from \$8,000 to \$12,000, I wish to state that the force now employed in removing incumbrances consists of 4 Laborers at \$2.50 per diem, I Foreman at \$4 per diem, and I horse and truck at \$3.75 per diem, making a pay-roll of \$106.50 per week. This force should be increased by the addition of at least 3 Laborers, making 7 Laborers in all, at a yearly cost for the entire removal of incumbrances about \$8,000, the balance of the fund, \$4,000, is used for all incidental expenses of the office, emergency charges, tools, postage, livery, repairs and for any possible contingency which may arise during the year. This increase should be granted for the greater efficiency of the Bureau. It is proposed that the scope of work of the Bureau be very much extended during the year and by reason of the fact that a more rigid scrutiny and closer supervision of the use of the streets by the public service corporations has been instituted and the carrying out of this policy during the coming year will entail an increased expenditure.

ture.

A uniform salary of \$1,500 per annum for Building and Plumbing Inspectors is asked for in order to attract a good class of mechanics and to increase the salary of Inspectors now receiving less than this amount. Building operations in Brooklyn have been steadily increasing during the past two years sufficient to warrant a goodly increase in the number of employees. A study of the following figures will best explain the existing condition. During the years 1902 and 1903, permits were issued for a total of 7,172 new buildings to cost \$42,494,354. For the years 1904 and 1905, permits were issued for a total of 14,776 new buildings to cost \$108,688,853. The figures at present indicate that the year 1906 will show a still further increase. The additional duty of examining and reporting yearly to the Excise Department on about 700 hotels in this Borough is another good reason why our working force should be increased. This statement applies equally to the Clerical force of this Bureau.

Nearly the entire time of our present force is spent on the inspection of new buildings in course of erection, thereby neglecting almost entirely the care that should be given to places of public amusement, public buildings, department stores, factories, etc. This feature of our jurisdiction calls for the service of more Inspectors.

<sup>a. Increased duties and to equalize his salary with the salaries paid in other boroughs.
c. Length of service and efficiency.
e. Length of service, efficiency and increase of work.</sup> 

Note—The increase, \$39,895.50, over the total salaries and supplies, July 1, 1906, with the twenty-four additional employees, is absolutely essential to prepare the several maps for the great number of street opening proceedings which are now pending, and also to complete the triangulation within the Borough of Brooklyn before damage is done to the primary stations already located and determined by the United States Coast and Geodetic Survey. Dated, New York, August 3, 1906.

CHAS. R. WARD, Assistant Engineer in Charge.

b. Increase of work.
d. Efficeincy and increase of work.
f. Equalize wages and efficiency. BUREAU OF HIGHWAYS.

Salaries.

Estimated for 1907 ...... 86,850 00

The Borough of Brooklyn has an area and pavement mileage of a little more than that of Manhattan and The Bronx combined. In 1906 the allowance in those boroughs for what corresponds in Brooklyn to the Labor, Maintenance and Supplies Fund was: Manhattan ...... \$564,858 00 The Bronx .....

\$1,074,858 00

a The appropriation for 1906 was much too small to permit the stone paved streets to be put in good repair, and it is hoped that in 1907 the Bureau will be able to get all the stone pavements in such a condition as to prevent liability to accidents.

b Increase needed on account of additional amount of asphalt to be maintained.
c Additional amount required on account of increased amount of work proposed.
d Additional amount required on account of increased amount of work proposed.
f Twelve horses in Bureau, and their keep alone is \$3,600.
g Increase required to do the amount of work needed and proposed for 1907. Sidewalks of the borough are in very bad repair. It is proposed in 1907 to make a systematic effort to repair sidewalks. In the past, on account of the insufficiency of the appropriation, it has only been possible to attend to complaints.

h Increase required to do the amount of work needed and proposed for 1907.
i There are a large number of macadam streets and roads that require reinforcing else they will be entirely worn out, when the ultimate cost of repairing will be greater, as well as the liability to accidents.
j The demand for sprinkling has increased enormously during the last two years, and it is made necessary on account of the increased amount of macadam pavement.
k The great amount of building that has been done in the outlying wards has vastly increased the necessities of those sections, as new houses demand temporary improvements, such as turnpiking, cutting weeds, cleaning, etc.

#### PRESIDENT OF THE BOROUGH OF QUEENS.

August 15, 1906.

Hon. P. J. SCULLY, City Clerk and Clerk of the Board of Aldermen:

Dear Sir—In accordance with circular letter, dated June 11, 1906, I submit herewith an estimate of the amounts required for the use of the various bureaus under my jurisdiction for the year 1907.

diction for the year 1907.

This is a conservative estimate of the amounts required, prepared only after careful investigation and consideration with respect to the phenomenal growth of the borough, and I would strongly urge that the full amounts asked for by the various bureaus be allowed.

Respectfully,

JOSEPH BERMEL,

President of the Borough of Queens.

Employees chargeable to the above appropriation:

No.	Salary Paid July 1, 1906.	No.	Proposed Salary for 1907.	Increase.	Decrease
r President of the Borough	\$5,000 00	1 President of the Borough	\$5,000 00

• The second sec	\$24,550 00	17	\$45,400 00	\$20,850 00	

\*Paid from appropriation for work upon which he may be engaged.

The above increase is asked for in order to establish an adequate office force to cope with the increasing work of the office of the President, due to the numerous demands for improvements. The salary increases are only moderate, and are based on the amount paid in other boroughs for services of similar character.

Recapitulati	-

	Title of Appropriation.	1906.	1907.	Increase.
Salaries (i	ncluding salary of the President)	\$24,550 00	\$45,400 00	\$20,850 00
Supplies a	nd Contingencies	8,000 00	15,000 00	7,000 00
	Total	\$32,550 00	\$60,400 00	\$27,850 00

The amount appropriated for this particular purpose has not been sufficient to cover the various items chargeable thereto, there being a deficit each year.

### TOPOGRAPHICAL BUREAU.

# SUPPLEMENT.

# THE CITY RECORD.

Necessary to increase the force by one Engineer and one Stoker, on account of increase in sewerage matter handled, due to the increase in population. New pumps are needed to increase the capacity of the plant.

#### Recapitulation.

Title of Appropriation.	1906.	1907.	Increase.
Salaries	\$34,350 00	\$39,300 00	\$4,950 00
Labor, Maintenance and Supplies	82,400 00	143,990 00	61,590 00

Title of Appropriation.	1906.	1907.	Increase.
Far Rockaway Disposal Works	17,157 50	20,157 50	3,000 00
Jamaica Disposal Works	14,000 00	23,800 00	9,800 00
Newtown Disposal Works	10,000 00	17,402 50	7,402 50
Total	\$157,907 50	\$244,650 00	\$86,742 50

There will be no balance in appropriations at the end of the year 1906; in fact, the appropriations will be insufficient.

#### BUREAU OF STREET CLEANING.

#### Salaries.

Total salaries paid July 1, 1906, as below	\$5,700 00
Estimate for 1907, as below	10,200 00
Increase	\$4,500 00

# Estimated deficiency in the above appropriation December 31, 1906...... \$56,758 50

The increase requested for the above fund (Sweeping, Carting and Final Disposition, etc.) is to meet the increase of work to be performed next year. At present this Bureau is unable to remove ashes and garbage oftener than three times a week, even from sections thickly built up. This inflicts a hardship upon the residents of the populous communities, particularly on the borough line adjoining Brooklyn, where the residents are forced to house in their cellars putrefying garbage for several days, while they witness the necessary daily removals from their next door neighbors in the latter borough.

The above meagre service can scarcely be maintained during the balance of the present year, even with an additional transfer of \$45,000, which will be necessary. Dur-

ing the present year the Bureau has retrenched and pruned down wherever possible; its force of Laborers employed in sweeping remove from two and one-half tons to four tons of sweepings per man daily, while a hard day's work is from one to two tons. The same applies to the carting, as stated above. The boom in this borough has established a necessity for the increase asked for. This increase is not based altogether on a continuance of the present boom, which, however, is likely to be the case, but is necessary to meet the present conditions.

In view of the fact that so many new paved streets will be added, and that this Bureau will have to incur a vastly greater expense for hauling ashes and sweepings to more distant dumps and to pay for same, together with the conditions mentioned above, this estimate of \$311,009.25 for Sweeping, Carting and Final Disposition of Material, etc., cannot consistently be placed at a lower figure.

Rents.

5,304 00 \$1,704 00

Items chargeable to the above appropriation:

	Allowed for 1906.	problem of the second of the s	Estimate for 1907.	Increase.	Decrease.
Rent of office and basements, 4 Crematories and Section Stations	\$3,600 00	Rent ot office and basements	\$564 00		
		Four Crematories	2,700 00		
		Ten Section Stations (new)	1,800 00		
And the second of the second o	-	Two Incumbrance Yards (new)	240 00		
	\$3,600 00		\$5,304 00	\$1,704 00	

\$250 00 25,000 00 Total amount allowed for snow and ice, 1906..... Estimate for 1907..... \$24,750 00

This form of garbage disposal has been found to be the best financially and for sanitary reasons, and if the above sum is allowed it is intended to construct these plants in isolated sections of the Second and Fifth wards, which now have no means of disposing of their garbage except by hauling same to Barren Island at a much greater ex-Recapitulation.

Chargeable to the above appropriation:

	1906.	1907.	Increase.
Snow and Ice	\$250 00	\$25,000 00	\$24,750 00

It seems unnecessary to advance any argument for the need of the above sum for the removal of snow from the eighty-five or more miles of streets which this Bureau, it is estimated, will have to care for at the close of the year 1907. The major portion of these streets are in a thickly built up section, which must have snow removal service.

New Stock and Plant. Cost of erecting two garbage crematories, together with cost of needed land. \$100,000 00

<u>-</u> ,	-				
14	\$14,670 00	15	\$23,100 00	\$11,100 00	\$2,670 00

Estimated balance in above appropriation December 31, 1906, \$1,980.

The proposed increase to the appropriation Salaries for the year 1907 is requested for the following reasons:

First—A competent Janitor for the remodeled Queens County Court House should receive a salary of \$1,500 per annum, an increase of \$300 over the amount previously paid

Second—To equalize the salaries of the Janitors of the eight other public buildings would require the sum of \$3,330.

Third-To provide a Stenographer for this Bureau at a salary as \$1,200 per annum. Fourth-On account of efficient service and punctuality, it is proposed to increase

the salaries of the Chief Clerk and Clerk \$300 per annum each. Fifth-To provide for an Assistant to the Superintendent. The various public buildings are widely scattered, and it is almost impossible for the Superintendent to give the same personal supervision.

Supplies and Repairs (including wages of Mechanics, Cleaners, etc., 1906).

\$10,050 00 Increase.....

a. The Bureau of Engineering (Construction) will probably require \$10,000 to \$15,000 at the lowest estimate for transfer from some other appropriation or to be made up from Revenue Bonds. b. This request is to cover two months' disbursements, should delay ensue in issuing Corporate Stock for Topographic Map; an engineer corps of over 100 men being constantly employed on the work.
c. The Bureau of Public Buildings and Offices will require at least \$10,000 to be transferred this year.

4	\$75,225 00	95	\$110,365 00	\$35,140 00	*******

Of the appropriation of \$50,000 asked for, \$45,000 will be required for salaries and \$5,000 for carfares, keep of horses, repairs to wagons and instruments, drawing materials, supplies, etc.

The difference between \$110,365 required, and \$50,000 asked, for salaries in appropriation will be paid from Street Improvement Fund and Special Bond issues; balance of appropriation used for public improvements in stages prior to possibility of charging against bond accounts, Street Improvement Fund, etc.

The principal reason for the increase in the appropriation asked for is the large amount of assessable improvement work which has been and is being authorized by ments in this borough unless the amount of \$50,000 asked for 1907 is allowed.

Schedule of Salaries for the Bureau of Engineering-Topogra In addition to the amount required for salaries as shown will be required for transportation and \$8,000 for supplies. Below will be found an approximate statement of the futures and balance on hand July 1, 1906:	in the sche	edule, \$4,000
Funds Available, 1906—		
Fund for Topographical Bureau (old), balance, January 1, 1906  Map or plan of Ward 1, etc., balance, January 1, 1906 Topographical—Salaries and Supplies, balance, January 1, 1906  Fund for Topographical Bureau (new), April 10, 1906	\$33,000 00 2,400 00 15,000 00 130,000 00	
		\$180,400 00

\* Vacant. † New positions.

There will be no unexpended balance for the year 1906.

It is desired to restore the salary of the Deputy Commissioner to \$5,000 per annum, the same as it was prior to May 1, 1902.

As to the proposed increase for the Secretary to the Commissioner, I desire to state that in many of the Departments the business transacted by the incumbent of this office is divided between a Private Secretary and a Departmental Secretary, each of which positions carries a salary as large as that at present paid to the Secretary to the Commissioner of this Department.

The salaries of the two Automobile Enginemen, both new employees, must be provided for for the coming year.

The increase of \$450 requested for a Clerk is to be used to make his salary commensurate with his services.

It will be necessary before the end of 1906 to request a transfer to meet the requirements of this appropriation.

#### SCHEDULE "B."

Supplies and Contingencies.  Telephone service Photographic supplies Office furniture, typewriters' supplies and special printing. Postage, carfares, etc. Draughting materials Incidentals	\$1,300 0 300 0 500 0 500 0 250 0 150 0
restant.	\$3,000 0
Allowed for 1906 Estimate for 1907	\$2,500 0 3,000 0
Increase	\$500 O

There will be no unexpended balance of the appropriation for the year 1906.

The appropriation for 1906 was not sufficient to meet the necessary charges against the account.

# SCHEDULE "C."

There will be no unexpended balance for the year 1906.

The appropriation for 1906 Newtown Creek Bridges is inadequate for the proper care of these structures. The opening of the new Vernon Avenue Bridge has completely changed conditions at that point. This structure is 1,700 feet in length and 58 feet in width. For the proper care of this and the other bridges in this division a large increase of force is necessary, particularly in regard to mechanics for making necessary and immediate repairs. This new Vernon Avenue Bridge is a \$1,000,000 public improvement, which replaced an old \$25,000 bridge, and with its improved mechanism requires a force of skilled mechanics to properly maintain it. The other bridges over Newtown creek require more repairs, as each year they are subjected to more wear and tear on account of the growing traffic.

The sum of \$3,080.68 is asked for to equalize the salaries of the bridge tenders in this division with those paid in other divisions of the Department.

The position of Foreman of Laborers at \$1,200 is required to supervise the labor force on the new Vernon Avenue Bridge.

Increase		\$28,610 50
	=	

There will be no unexpended balance for the year 1906.

During the year it has been necessary to carry a force of painters which was not asked for in the appropriation for 1906. The increase in the pay-roll for painters is \$8,538. In compliance with a request of the Fire Department, the force of bridge tenders was increased last year to cover all the bridges at night as well as day, with the exception of the Metropolitan Avenue Bridge. The growing manufacturing industries of that district make it desirable that that bridge also be manned at night. This will require two additional bridge tenders. To properly man the other bridges, two more bridge tenders are needed.

The increased allowance asked for repairs and supplies is made necessary by the operation of four new bridges over the Gowanus canal. These bridges will require greater expenditures for maintenance and supplies than the smaller bridges they replaced. The request for repairs and supplies is also increased by the need of extensive repairs at the Washington Avenue and Metropolitan Avenue bridges. The floor system of these bridges must be strengthened to carry the exceptionally heavy loads which are now passing over them.

	Increase	\$12,533 74
	There will be no unexpended balance for the year 1906.	

The increase asked for amounts to \$12,533.74. Of this amount \$2,700 is required to pay for the Bridge Tenders on the Hunter's Point Avenue Bridge, which structure has been transferred from the jurisdiction of the President of the Borough of Queens to this Department during the present year.

The sum of \$4,050 is asked for to provide male and female Attendants at the public comfort stations at the new Flushing Bridge, which will be opened for traffic before the end of 1906.

The further sum of \$1,291.74 is asked for to equalize the salaries of Bridge Tenders and make the pay of these men uniform at \$900 per annum.

The balance of the increase asked for is intended to be expended on necessary repairs to bridges, especially painting, which must be kept up continuously.

J. W. STEVENSON, Commissioner of Bridges.

# DEPARTMENT OF WATER SUPPLY, GAS AND ELECTRICITY.

Department of Water Supply, Gas and Electricity.

Commissioner's Office, Nos. 13 to 21 Park Row.

City of New York, August 1, 1906.

Hon. P. J. SCULLY, City Clerk and Clerk of the Board of Aldermen:

Dear Sir-In compliance with a circular letter issued by the Comptroller, dated June 11, 1906, I have the honor to transmit herewith an estimate of the amount required to conduct the business of this Department for the year 1907.

Form "A," salary schedule, and Form "B," appropriations, hereto annexed, give the details as required by said circular letter.

Salaries-General Administration. Allowed for 1906 ..... Estimate for 1907 ..... \$37,655 25 \$3,544 75

This increase of \$3,544.75 is to pay the present force at the present rates. I also wish to increase the salary of my Secretary \$500, for his faithful and efficient services and on account of the nature of the work he is required to perform.

#### BOROUGHS OF MANHATTAN AND THE BRONX.

Salaries—Central Office.	
Allowed for 1906	
Estimate for 1907	30,439 00
Increase	\$380 00

This increased amount is required to pay the present force at the present rates and to provide for an increase of \$150 in the salary of one Clerk and to create the position of Chief Clerk and Auditor. The position of Chief Clerk is now vacant, and that of General Bookkeeper is filled by a man twenty-five years in the service. The salary of Chief Clerk is \$2,700 per annum, and that of General Bookkeeper, \$3,000, a total of \$5,700 per annum. In the event of these two positions being consolidated under the title of Chief Clerk and Auditor at a salary of \$4,000 per annum there would be a saving to the City of \$1,700 per annum.

Allowed for 1906 . Estimate for 1907 .	Salaries—Bureau of Water Register.	\$128,820 00 188,914 00
Increas	se	\$60,094 00

In making this estimate I have asked for increases in salary to which a number of employees in this Bureau are justly entitled. One Inspector of Meters and Water Consumption has charge of the Inspectors examining buildings to be metered, and his duties are of such an important nature that I consider him fully entitled to an increase of \$300. Five Inspectors of Meters and Water Consumption, who have been recommended for increases of from \$100 to \$400 each, are entitled to special mention for faithful services and general efficiency, and each is deserving of the increase herein asked. The increase asked for the forty-six Inspectors is in keeping with the growth of the work required of them, and considering the pay now received by ordinary mechanics, the increases asked for them are, in my opinion, fair.

The additional force of thirty (30) Inspectors, six (6) Junior Clerks and two (2) Measurers is asked for because of the increased number of meters being installed this year, together with the fact that new ledgers must be opened.

It is also necessary that all unmetered buildings in this Borough should be reinspected, with a view to determining regular rents to be charged, as there has been no such general reinspection for the past twenty years.

The work in this Bureau has multiplied and the correspondence increased to such an extent that I deem it no more than just that the position of Secretary be created for this office.

for this office.

The granting of this additional force will greatly tend to the efficiency of this Bureau, and will, without doubt, result in increased revenue.

Al Es

Salaries—Bureau of Chief Engineer. llowed for 1906	\$12,200 00 14,300 00
Increase	\$2,100 00

The additional Stenographer therein provided for has been transferred from Brooklyn, and is imperatively needed, owing to the extraordinary increase in the work of preparing contracts, specifications and reports, both for current and new

Allowed for 1906	\$33,037 00 45,390 00
Increase	\$12,353 00

This increased amount is required to pay the present force at the present rates and to provide for the prevailing rate of wages to be paid to Enginemen and Stokers, now being paid.

In 1907 most of the work now under construction by the Aqueduct Commission will be transferred to this Department. This will necessitate larger outlay for men and material than last year. An Assistant Engineer and a larger force of men will have to be appointed to take care of the New Croton Dam, Muscoot Dam, New

Croton Lake, Shaft No. 25, High Bridge, etc. This Department will, furthermore, have to take care of about 5,000 acres of land around Croton Lake and the streams flowing into the lake, fence walls, banks, lands, new roads, etc.

Salaries-Bronx River Works. Allowed for 1906 ..... \$4.200 00 4,500 00 Estimate for 1907 ..... Increase ..... \$300 00

The estimated amount for this year (\$4,500) is the same as asked for 1906, although the amount allowed then was only \$4,200, and this has proved insufficient, leaving a deficit of \$300 for which provision will have to be made this year by transfer from some other account.

Supplies and Contingencies. Allowed for 1906 ...... \$15,000 00 Estimate for 1907 ...... 23,580 00

Of this increase \$9,000 alone is necessary for postage—the mail matter sent out daily by this Department is something enormous-the balance is made up of necessary expenses, such as telephone, traveling expenses, furniture, repairs and other incidentals.

We have never had a sufficient amount appropriated under this appropriation, and each year have had to ask the Board of Estimate and Apportionment to transfer a sufficient amount from other appropriations to help out.

#### BOROUGH OF THE BRONX.

Salaries-Office of Deputy Commissioner and Water Register. Allowed for 1906 ...... Estimate for 1907 ..... \$8,034 00

Of this increase \$3,000 is necessary for the employment of one Electrical Inspector at \$1,200 and two additional Clerks at \$900 each per annum.

I also desire to increase the salaries of the Deputy Commissioner and the Water Register \$1,000 each per annum. These increases are asked for on account of the nature and the growth of the work required of them, and in recognition of their faithful and efficient services.

Maintenance Croton Water System.

Allowed for 1906...... \$396,554 50 Estimated for 1907..... 576,019 50 Increase...... \$179,465 00

axes on Watershed and Aqueduct Property	6,690 00	Taxes on Watershed and Aqueduct Property	100,000 00	93,310 00	
Total.	\$396,554 50	Total.	\$576,019 50	\$179,465 00	

The amount asked for 1906 was \$550,148, of which \$396,554.50 was allowed. The estimate for 1907 is \$576,019.50, or \$25,871.50 in excess of the amount asked for 1906. Attention has already been called to the increased expense entailed by the necessity of providing for the care of the works now under construction, lands, etc., to be transferred to this Department.

Furthermore, a much larger amount will be required for taxes on the watershed and aqueduct properties, owing to the transfer of these lands, and to the increase in valuations of lands and structures in the Croton and Bronx watersheds, and pro-

vision has also to be made for the payment of back taxes which we have had to pay

this year and will also have to be met in 1907.

The appropriation of \$396,554.50 allowed for 1906 proved inadequate, and, in consequence, much of the work which should have been done on our watershed has necessarily been neglected, and transfer from other appropriations will have to be made before the year is finished to meet the deficit. On the basis of the first six months of the present year, the expenditures were \$25,474.86 more than the allowance.

Total	\$32,960 00	Total	\$49,187 50	\$19,107 50	\$2,880 00

The estimate made for 1906 was \$50,947.50, of which \$32,960 was appropriated. The estimate for 1907 is \$49,187.50, or somewhat less than the amount asked for 1906. The appropriation of \$32,960 for 1906 has been insufficient, owing mainly to the amounts required for the payment of taxes. We have furthermore estimated that the taxes for 1907 will be about \$13,000 more than in 1906.

\$8,500 00 \$5,500 00 \$3,000 00

Public Drinking Hydrants.

\$3,000 00 Allowed for 1906..... Estimate for 1907..... 8,500 00 \$5,500 00

To comply with the urgent requests which have been made to us by religious societies that we increase the number of drinking fountains throughout the City, we are desirous of the increased appropriation for this purpose for the year 1907. Nearly all of the funds provided for the public drinking fountains are by necessity expended in the repairing of our present hydrants, leaving an almost insignificant sum for the increase in the number of hydrants. We have already on file thirty-two resolutions passed by the Board of Aldermen for the setting of new and additional drinking fountains, but which we cannot set, as the funds given to use for this purpose are not adequate. not adequate.

The mileage of water mains which must be kept in proper repair from this appropriation increased during the past year nearly 6 per cent. Owing to the large increase in the mileage of the mains, number of hydrants and stop cocks in certain of our repair districts, it is very difficult for one gang of men to keep them in proper order, the repair districts being very large. It is necessary that some of these districts be subdivided and additional repair stations established, so as to make the services of the men more available. The small increase in expense necessitated by these changes is fully warranted under the circumstances and would be more than offset by the increased efficiency in the work of repairs.

Water Supply for the Twenty-fourth Ward.

Allowed for 1906..... \$1,000 00 Estimate for 1907...... 1,000 00

There is still a small section in The Bronx which we are unable to reach with our own water mains and for which provision must be made for a supply from private water companies.

Many necessary repairs and relaying of mains cannot be done this year, owing to lack of funds, and unless sufficient moneys become available for 1907, a chaotic condition must necessarily follow. Many contemplated improvements were stopped in the early part of the year on this account.

Rental of Fire Hydrants.  Appropriation for 1906	\$53,000 00 62,034 00
Increase	\$9,034 00
Hydrants in Service, July 1, 1906.	
Second Ward, 100 at \$25 each. Second Ward, 487 at \$20 each.	\$2,500 00 9,740 00
Second Ward, 140 at \$18 each	2,520 00 180 00
Fourth Ward, 1,699 at \$18 each	\$14,940 00 30,582 00 6,185 00

Fourth Ward, 1,699 at \$18 each.

Fifth Ward, 309 at \$20 each.

Petitions on file from Local Boards call for 274 hydrants (which include 121 recommended by Deputy Fire Commissioner), estimated at \$18...

For proper fire protection in the residential sections of the borough, where the growth has been phenomenal, in addition to the above, at the most conservative estimate it will require 150 hydrants in Second Ward, 100 hydrants in Fourth Ward, 50 hydrants in Fifth Ward, making a total of 300 hydrants, estimated at \$18 each.

The increase of \$9,034, as above stated, is needed to provide more efficient fire protection in the residential districts to comply with the petitions of the Local Boards for additional hydrants.

Supplying Water to Long Island City. Appropriation for 1906. \$125,000 00 Estimate for 1907, as below. 160,587 50 160,587 50 \$35,587 50

The appropriation for 1906 will show a large deficit, at the present rate of consumption of water in Long Island City, and, with the new manufacturing interests locating in our borough, and the rapid growth of the residential sections, at least one and one-half million gallons more per diem will be required for 1907, which, at \$65 per million, makes \$35,587.50 additional.

Additional required...... 35,587 50

Estimate for 1907...... \$160,587 50 Supplies and Contingencies. Allowed for 1906..... \$2,500 00 5,250 00

The above figures are based on the actual present rate of expenditures, and only absolute necessities have been considered. The electrical inspections alone show an increase of over 80 per cent., and, with the additional Inspectors of Lamps and Gas to be cared for, it is imperative that the entire amount of \$5,250 be allowed for 1907.

#### BOROUGH OF RICHMOND.

Salaries—Office of Deputy Commissioner.	
Allowed for 1906	\$6,900 00
Estimate for 1907	7,350 00
Increase	\$450.00

The amount asked for is required to pay the present force at the present rates, and to provide for an increase in the salary of a Leveller, \$150, and a Meter Inspector, \$100. These increases are asked for on the ground that the present salaries paid these men are not adequate with the services rendered.

Pumping Stations—Salaries and Supplies. \$74,740 00

Total net increase, 1907, all appropriations, all boroughs						\$407,992 84	

† Includes only the portion of pay roll for services applying to lamps and lighting.

This year there has been considerable difficulty in arriving at the estimated figures of the appropriations required for the year 1907, on account of the fact that owing to complications, in many instances bills have not been rendered for the whole of 1905, and for the first half of 1906. In many instances the Department had to tabulate its own meter cards of consumptions and make up its own cost from such consumptions.

Consumptions.

The basis of rates on which these figures are made are the bid rates for 1906, received February 1, 1906, and where no bids were made—as, for instance, on the supply of gas to public buildings or lamps—the quantities to be used have been estimated and the legal rate, as established by the Laws of 1905, has been used as a basis of cost. This rate for gas throughout all boroughs is seventy-five (75) cents per thousand cubic feet, except in one or two isolated instances or exceptions under the law for long-time contracts still in force. As you know, this rate is now being questioned on the ground of constitutionality, before the Circuit Court of the United States in the southern district of New York.

During the spring of 1906 all the bids offered were reviewed by a Board of Advisory Engineers retained by the Corporation Counsel, in conjunction with the Chief Engineer of Light and Power of this Department, and contracts were made according to their recommendations.

Engineer of Light and Power of this Department, and contracts were made according to their recommendations.

Among other things, it was strongly recommended that certain methods and appliances of lighting now in use be changed and improved, particularly in the Boroughs of Brooklyn, Queens and Richmond. These recommendations, in brief, were that all open flame gas and naphtha lighting should be changed to mantle gas and naphtha lighting, on the ground that the open flame lighting was inefficient and actually cost considerably more per candle power of light furnished than mantle lighting at the prices bid. It was also recommended that the arc electric lighting in these boroughs, which was principally done by 1,200 candle power lamps, be changed and a uniform system of 2,000 candle power, 450-watt lamps be used throughout the Greater City. The reason for this is practically the same as that given for the change in gas and naphtha lighting.

These changes will account for practically two-thirds (%) of the increased expenditure for lighting in the Boroughs of Brooklyn and Queens.

In the Boroughs of Brooklyn, Queens and Richmond particularly, many additional lights are needed on account of the rapidly increasing population and the fact that this lighting had been neglected for various reasons in previous years.

A considerable part of the balance of the increase in appropriations is chargeable to the increase in the lighting of Public Buildings. As will be noted by a table I give later, a number of buildings have been added to those existing on January 1, aco, and many more will be added between now and December 31, 1907.

In consequence of the recommendations of the Board of Advisory Engineers, and the urgent demands for increased lighting in the Boroughs of Brooklyn, Queens and Richmond, I asked the Board of Estimate and Apportionment for an additional amount of money for the year 1906 to cover the expenses of the changes and new lights required, and also to give the money for salaries of an additional force with which to inspect and check the lighting conditions. This additional amount is shown in the comparison given at the head of this statement, under the title of "Revenue Bond Fund for Department of Water Supply, Gas and Electricity," and accounts as well, for the increased appropriation for "Salaries, Lighting and Electricity."

It will be understood that, as the additional lamps and additional employees were not in service during the first half of the year 1906, the appropriation for 1907 necessarily shows a larger increase, in order that these additional items of expense may be taken care of throughout the whole year of 1907, instead of part of the year, as in 1906.

The increase in the appropriation for Heat and Power, outside of the estimated

1906. The increase in the appropriation for Heat and Power, outside of the estimated charge for the High Pressure Pumping Stations, is not as large as appears on its face. The returns gathered for the Budget of 1906 were incomplete, and a considerable portion of the increase shown existed at the time and was chartered to other appropriations. This year, however, this appropriation is made up so that the amount can be deducted from the appropriations of other departments that have previously paid this charge.

In the Boronse's of Manhattan and Brooklyn it will be noted that heavy increases.

paid this charge.

In the Boroughs of Manhattan and Brooklyn, it will be noted that heavy increases are asked for in this appropriation, in order to provide for the maintenance of the High Pressure Pumping Stations during the year 1907. As near as can be estimated, this will be sixty thousand dollars (\$60,000) per year in the Borough of Manhattan, and fifty thousand dollars (\$50,000) per year in the Borough of Brooklyn. It is hoped that the amount will be less than this, but with the present information we have, we cannot so state

cannot so state.

In the Boroughs of Manhattan and The Bronx the increases for lighting are those which are usual from year to year, except that the Department is planning to put a good many additional arc lamps in the lower east side of the City, replacing a number of mantle gas lamps that are not powerful enough for the great congestion of population in this district.

In preparing the Budget for this year, I requested each of the other Departments to give me a summary of what they assumed their needs would be during the year 1907. The following table gives these returns. You will notice the extremely heavy increases in lighting in many of these buildings. I would call particular attention to the Department of Education. The figures here given represent the increases for all boroughs.

\* Water Supply, Gas and Electricity high pressure pumping station.

Summary Showing Estimated Number of Lights Required in Public Buildings During the Year 1907.

#### DEPARTMENT OF PARKS.

The City of New York—Department of Parks, The Arsenal, Central Park, August 13, 1906.

Hon. P. J. SCULLY, City Clerk and Clerk of the Board of Aldermen:

Dear Sir—Pursuant to the instructions in the circular letter from the Board of Estimate and Apportionment, dated June 11. 1906, I transmit, herewith, copies of the Departmental Estimate for 1907 for the Park Board for the Park Departments in the Boroughs of Manhattan and Richmond, the Borough of The Bronx and the Boroughs of Brooklyn and Queens.

Respectfully,

WILLIS HOLLY, Secretary, Park Board.

#### DEPARTMENTAL ESTIMATE FOR THE YEAR 1907.

The Park Board, 

The salaries chargeable to the above appropriation are as follows:

No.	Salary Paid July 1, 1906.	No., 1907.	Proposed Salary for 1907.	Increase.	Decrease.
3 Commissioners, at \$5,000 each	\$15,000 00	3 Commissioners, at \$5,000 each	\$15,000 00

Total expenses for Children's Museum		\$11,220 00
Total expenses for two Museums		\$95,000 00
The course convenience by the City for the museums	of the instit	ute for the

The annual appropriation by the City for the museums of the institute for the fiscal year 1904, when the institute occupied only the western wing, or first section of the central museum, was \$70,000.

The second or central section of the central museum was completed in the spring of 1905 and was opened to the public from June 1 to December 31 of that year. The increase in the appropriation by the City for 1905 was only \$5,000, or \$75,000 altogether, an amount inadequate for the proper maintenance and development of the

During the present fiscal year, 1906, the institute has for the first time had the care and maintenance of the central or second section of the museum, through the entire year of twelve months. To meet the extra expenses of care, maintenance and the conduct of the work in this second section the increase in the appropriation was only \$5,000. The total appropriation this year, \$80,000, is inadequate, and the proper care, mounting, arranging and developing of the collections in this second section of the museum is impossible for the lack of sufficient curators and their assistants.

We are informed by the architects of the building that the third section or eastern wing of the museum, and the front steps or central approach, with the rooms

underneath the same, will be completed and be ready for occupancy by the institute in October, 1906. The expense of heating, lighting and caring for these two additions to the museum, together with the cost of arranging collections in the eastern wing, and the keeping of the eastern wing open to the public, must, therefore, be provided for by the City in the appropriation for 1907.

Recommendation is therefore made that the full amount of \$95,000, that is, the largest amount which the City is able to appropriate in any one year for the maintenance of the museums of the institute according to the City Charter, be appropriated.

In order that the central museum may be cared for, developed and used by the public in a manner commensurate with the needs of our population, and commensurate with the development of other similar institutions in Greater New York, provision is needed during the year 1907 for the following additional expenses:

Curator of Natural History	\$2,000 00
Modeler	1,500 00
Second Attendant	720 00
Painter	960 00
Mechanic	900 00
Printer's Assistant	600 00
Carpenter	960 00
Preparation of school collections	1,000 00

\$8,640 00

It will be seen, therefore, that provision should be made in 1907, by the amendment of existing law, for a larger annual appropriation than \$95,000 for the public museums administered by the institute for the benefit of the people of the City.

Very respectfully submitted,

FRANKLIN W. HOOPER, Director.

Increase	\$201,337 25

### INCREASES IN ADMINISTRATION ACCOUNT.

### Telephone Operator, \$150.

The increase in the salary of the Telephone Operator from seven hundred and fifty dollars to nine hundred dollars is asked for so as to make her pay the same as that paid for similar positions elsewhere in the City service. (Asked for in Budget for 1906, but not granted.)

### Chief Clerk, \$500. Assistant Paymaster, \$50. Property Clerk, \$50.

The increase of five hundred dollars in the salary of the Chief Clerk, fifty dollars in that of the Assistant Paymaster and fifty dollars in that of the Property Clerk is asked so as to restore the salaries of these positions to what they were previous to 1902. (Asked for in Budget for 1906, but not granted.)

### Chief Engineer, \$600. Assistant Engineer, \$600.

The increased amount of work, entailing larger responsibilities, make it advisable that the salary attached to the positions of the Chief Engineer and Assistant Engineer be made adequate to the duties imposed.

### Arboriculturist, \$1,800. Two Arboriculturists, \$3,000.

One Arboriculturist, who has been receiving a salary of fifteen hundred dollars paid out of the Labor, Maintenance, Supplies and Care of Trees Account, is in charge of the planting in all parks and parkways of both boroughs, and his services are easily worth the increased amount, eighteen hundred dollars per annum. Two Arboriculturists at fifteen hundred dollars each a year, having charge of the care of street trees, remain the same, but these positions should be transferred from the Labor, Maintenance, Supplies and Care of Trees Account to that of the Administration Account.

### Rodman, \$1,500.

Another Rodman is required for the Engineer's office, as the force as now constituted is entirely too small to attend to the work. I therefore ask for fifteen hundred dollars per annum to employ a competent Rodman.

### Building Inspector, \$1,500.

The number of buildings in course of construction and contemplated by this Department require the services of a Building Inspector, whose salary should be at least fifteen hundred dollars per annum.

### Inspector of Masonry, \$1,200.

The Inspector of Masonry is required on the extensive contract work now going on, and the salary should be at least twelve hundred dollars per annum.

### Inspector of Topsoil, \$1,200.

The Department purchases between twenty-five and fifty thousand cubic yards of topsoil each year, and a competent Inspector at a minimum salary of twelve hundred dollars per annum should be appointed.

### Inspector of Concrete and Cement Work, \$1,200.

A large amount of concrete and cement work by contract is being continually done, and it requires one or more Inspectors of this class of work at a salary of not less than twelve hundred dollars per annum.

### Electrician, \$1,500.

The electric lighting of the parks and buildings therein require the services of an Electrician at a minimum salary of fifteen hundred dollars per annum.

### Master Machinist, \$2,000.

The Department now owns and is about to acquire a large amount of machinery, such as steam rollers, automobiles, pumps, spraying machines, etc., and we are without a competent machinist. A Master Machinist is required to handle this work at a salary of not less than two thousand dollars per annum.

### General Foreman, \$1,800.

The position of General Foreman is essential for the intelligent management of this growing Department, and I would recommend that such position be created at a minimum salary of eighteen hundred dollars per annum.

## Architectural Draughtsman, \$1,800. Topographical Draughtsman, \$1,500.

The Engineering office is now without a Draughtsman, and the amount of work the office is called upon to produce necessitates the establishment of the positions of Architectural Draughtsman at eighteen hundred dollars per annum and Topographical Draughtsman at fifteen hundred dollars.

### Clerk to Superintendent, \$1,500.

A Clerk at a proposed salary of fifteen hundred dollars per annum is asked for for the Superintendent. The continually increasing amount of work in the office of the Superintendent make it absolutely necessary that he be given the services of a Clerk, and the salary of fifteen hundred dollars per annum is not excessive, when it is considered that he will be called upon to be at his desk every day in the year, includings Sundays

### Two Clerks to Bookkeeper, \$2,400.

The Bookkeeper at the present time has but a second grade Clerk to assist him, and it is impossible to properly conduct the work of this Department without some additional clerical help. I therefore ask for two Clerks to fill this deficiency at a salary of twelve hundred dollars per annum.

### Clerk to Engineers, with Knowledge of Stenography, \$1,200.

The Engineering Bureau is constantly called upon to issue permits for street openings and other work, and this work has heretofore been attended to by one of the Engineers, to the consequent neglect of other duties. I realize that the Department could save money by employing a Clerk with knowledge of stenography to attend to these duties, and I ask that the position be created at a salary of twelve hundred dollars per

### Increases in Labor, Maintenance, Supplies and Care of Trees.

Increases in Labor, Maintenance, Supplies and Care of Trees.

The supply account asked for the year 1907 is largely increased over the amount asked for 1906 for the following reasons:

The use of the roadways under the jurisdiction of the Park Department by heavy automobiles have reduced the life of an ordinary gravel road to two years, as against five or six years under former conditions. As a result, repairs and resurfacing of these roadways is going on constantly, requiring a much larger amount of road material, soil on Speedway, tools and implements and coal for steam rollers, and other supplies, such as sprinklers, new steam rollers, etc.

It is also considered advisable, in the interest of economy, to purchase a number of gasolene grass cutters and an auto truck. The area covered by this Department make it next to impossible to attend to the transportation of plants, flowers, trees and shrubbery in a satisfactory manner by the use of horse-drawn vehicles.

The automobiles now in use in this Department, while more expensive than horses and carriages, have simplified the work of the various officials to such a degree that I have included in my application two additional machines at an expense of seven thousand dollars.

The Corporation Counsel having decided that mere betterments should not be charged against Corporate Stock, large amounts of work of that nature which had heretofore been charged against the above account will now have to be met out of our allowance for Labor, Maintenance and Supplies.

I consider that the amounts asked for under the various headings are thoroughly legitimate and absolutely necessary to conduct the Department of Parks for the Boroughs of Brooklyn and Queens on its present satisfactory standard.

Increase in Music Account,

### Increase in Music Account.

The Department has asked for a considerably larger appropriation for music. It is my intention during the year 1907, if the money is granted, to have concerts every Saturday and Sunday in both Prospect and Highland parks, and increase the

number of concerts in the smaller parks as shown in detail in the foregoing state

Mighland Park is the breathing spot of the thickly populated sections of Bushwick and East New York, and from five to ten thousand people congregate therein every Saturday and Sunday. Heretofore I have been unable to comply with the request for Saturday concerts on account of lack of funds, and the Sunday concerts have not been furnished as often as seems advisable.

There will be no unexpended balances in any of the appropriations for the Department of Parks, Boroughs of Brooklyn and Queens, for the year 1906.

Respectfuly submitted,

M. J. KENNEDY,

Commissioner of Parks, Boroughs of Brooklyn and Queens.

#### BOROUGH OF THE BRONX.

Maintenance and Construction. 

Supplies, hardware, tools, paints, oils, lumber, etc., as per	SEMINISE.
average of past five years	\$25,000 00
For 500 benches, at \$8.25 each	4,125 00
For 2 motor mowers, at \$1,500 each	3,000 00
For I steam roller	2,500 00

The records of your Board will show that, while the territory developed has increased threefold—the roadways and paths more than fourfold—the appropriations have been substantially the same for the past seven years.

The result has been that large portions of our territory have been neglected in whole or in part.

127,800 00

34,625 00

If the proper development of our park system is to be made, the criticism of the past to be avoided, the desires of our people to be considered, and the parks maintained to the extent that would reflect credit upon the present administration, I would most respectfully and most earnestly request your careful and favorable consideration of the above account, viz., Maintenance and Construction.

The Care of Trees, etc.

For care of trees in City boulevards, avenues, street and places.

The territory in the Borough of The Bronx has an area of 26,017 acres. It is very largely a residential section, and for half a century our people have taken a great interest in tree planting. Professor John Davey, of Kent, Ohio, probably the best known expert on tree planting, culture and restoration of trees, has recently made a critical examination of our tree culture throughout the borough, and has reported that our trees require immediate attention and thorough treatment.

I have caused a careful estimate to be made of the cost of caring for the trees for the ensuing year, as follows:

For 6 Foremen, 300 days, at \$2 per diem each

\$5,400 00 37,500 00 6,300 00

\$51,700 00

#### Music.

For several years the appropriation for music for the several parks of our borough was fixed at the sum of \$12,480. This enabled the Department to give concerts with twenty-two pieces, soloist and leader, at a cost per concert of \$130. The appropriation was subsequently reduced to \$9,360, which allowed only sixteen pieces, a reduction of

200 00

Supplies and Contingencies.

The amount appropriated for several years past, for defraying the necessary contingent expenses of the Department, and for the purchase of office supplies, formerly

furnished by the Department of Buildings, Lighting and Supplies, was the sum of \$1,500. The same amount will be required for the ensuing year.

### Surveys, Maps and Plans.

The sum of \$6,000 has been heretofore appropriated for the continuation of the work of surveying and mapping our parks. The work is an important one, and the surveys and maps, when completed, are largely used by other Departments, as well as by adjoining property owners, in the work of improving and developing their holdings. The same amount will be necessary for the coming year.

Forestry Work.

Five thousand dollars (\$5,000) has been appropriated for the pruning, spraying and preservation of the many thousands of trees within our park areas. The results have been gratifying, to some extent, and many forest trees have been saved by timely application. An increased appropriation will be necessary, as in all our parks a careful investigation has shown that a much larger percentage of diseased trees has been found.

I respectfully request an appropriation of \$10,000.

#### New York Botanical Garden.

Herewith is transmitted the estimate of Dr. E. L. Britton, for the maintenance of the Botanical Garden for the coming year. As the area of improved territory increases there is necessarily an increase in the cost of maintenance. The estimate seems to me to be reasonable, and I would request your favorable consideration.

#### New York Zoological Garden.

New York Zoological Garden.

The detailed estimate of Mr. William T. Hornaday is hereto annexed, and the same conditions exist as in the Botanical Garden. The great increase in attendance each successive year shows the great popularity of this institution.

In the preparation of the foregoing estimate, it has been my earnest endeavor to comply with the directions contained in your circular letter. The phenomenal increase in the population of the borough, the large increase in assessed valuations, the great activity in building operations, especially in the sections adjacent to our parks, and the limited appropriations made in previous years, have made a substantial increase in the appropriation for the maintenance of our park system an urgent necessity.

It would be a pleasure, as well as a duty, to accompany each member of your Board upon a tour of personal inspection, and I would be content with the result of their observation.

All of which is respectfully submitted.

GEORGE M. WALGROVE.

Commissioner of Parks, Borough of The Bronx.

New York Botanical Garden, Bronx Park, New York City, July 30, 1906.

Hon. GEO. M. WALGROVE, Commissioner of Parks, Borough of The Bronx, Zbrowski Mansion, Claremont Park, New York City:

Dear Sir-Referring to your letter of July 10, 1906, I transmit an estimate in detail of the amount required for the maintenance of the New York Botanical Garden for

Salaries and Labor-

did to did but to		_
Director-in-Chief	\$6,000 0	00
First Assistant	2,400 0	00
Administrative Assistant	1,200 0	00
Head Curator	2,400 0	00
Four Curators at \$2,000	8,000 0	00
Two Assistant Curators at \$1,200	2,400 0	00
Museum Custodian	1,380 0	00
Ten Museum Aids, averaging \$420	4,200 0	00
Superintendent of Grounds	1,800 0	00
Accountant	1,500 0	00
Clerk	900 0	00
Stenographer	720 0	00
Librarian	1,200 0	00
Head Gardener	2,400 0	00
Second Gardener	1,500 0	00
Forty Gardeners and Apprentices, averaging \$500	20,000 0	00
Twelve Laborers, averaging \$400	4,800 0	00
Five Janitors at \$600	3,000 0	00
Three Night Watchmen, averaging \$600	1,800 0	
Two Foremen at \$900	1,800 0	00
Two Stablemen at \$540	1,080 0	00
Four Drivers of carts and wagons at \$600	2,400 0	00
Five Keepers, averaging \$480	2,400 0	00
Head Steam Engineer	1,500 0	00
Two Steam Engineers at \$900	1,800 0	oc
Two Firemen (six months) at \$360	720 0	
Two Painters and Glaziers at \$840	1,680 0	
Two Carpenters at \$840	1,680 o	
coal for power houses and propagating houses	10,500 0	00
supplies, including feed, oil, flower pots and tubs, tools, lumber, hardware,		
manure, stationery, glass, paint, cement, putty and sundries	4,000 0	0
Total	\$97,160 0	10

The increased allowance is asked mainly for the means to employ additional Gardeners, Keepers and Laborers, in order to properly care for the additional areas of land taken into cultivation, for the operation of additional public conservatories and for the proper guarding and care of the natural woodlands; increased expenditures for coal and other supplies will also be necessary, and, in a few instances, it is desirable to increase the remuneration of employees long in service.

Yours respectfully, N. L. BRITTON. (Signed.) Director-in-Chief. New York Zoological Society, General Office, No. 11 Wall Street, New York, August 6, 1906.

Park Department of The City of New York, New York City:

Park Department of The City of New York, New York City:

Dear Sirs—I have the honor to submit estimates in detail for the maintenance of the New York Zoological Park for the year 1907. The amount we ask for is exactly the same as we asked for last year, \$154,572. We were allowed last year \$144,905. We have made it a point in dealing with the City to scrupulously adhere to the principle of asking for exactly what we require, without any allowance for a cut, which is usually made in the estimates. This policy has resulted in a deficiency, which had to be met by the Society, and which greatly crippled us in every year since the foundation of the park, with the exception of 1905. The fact that we will not have a deficiency in 1906, so far as at present appears, is due to the failure of the contractors to complete the various buildings and installations which, if opened during the year, would have involved us in heavy expenditures for maintenance. If you will examine our estimates you will see that there is no increase asked for any salaries or labor for the maintenance of buildings and collections; no increase in salaries and labor in general administration. An increase of \$605 is asked for in maintenance materials; an increase of \$4,408.25 is asked for for additional food for animals, due solely to the actual increase in the number of exhibits. These animals are actually in the park, and every dollar is needed. We also ask for an increase of \$4,593.75 for the maintenance of two new entrances; food, fuel and attendants for the small deer house, which will be completed this autumn, and which the Society proposes to fill with animals. You will appreciate that these two increases are solely due to the increase of the exhibits, and the amount asked for is scarcely in accordance with the requirements, and we have cut down our request as low as possible.

I trust in presenting this matter to the Board of Estimate and Apportionment you will be good enough to call their attention to these facts.

I trust in presenting this matter to the Board of Estimate and Apportionment you will be good enough to call their attention to these facts. A cut made from this amount will result in an actual deficiency, which will have to be met by the Society, and which will, to that extent, impair its ability to fill with animals the new buildings. The Society will be for the next few years under very heavy expenses to supply the large and expensive animals required to fill the elephant house. As, for example, the Society has already purchased from The City of New York a hippopotamus for \$3,000; from abroad, a young rhinoceros for \$5,000, and a young elephant for \$3,000. These animals are all small and represent only a small portion of the expenses attending the filling of the elephant house.

I remain, yours very respectfully,

MADISON GRANT, (Signed) Secretary.

#### DEPARTMENT OF PUBLIC CHARITIES.

Department of Public Charities, Foot of East Twenty-sixth Street, New York, August 17, 1906.

Hon. P. J. SCULLY, City Clerk and Clerk of the Board of Aldermen:

Dear Sir-In conformity with the provisions of section 226 of the Greater New York Charter, I beg leave to transmit herewith departmental estimate of the amount necessary to conduct the business of the Department of Public Charities for the year

This estimate shows the following increases over the appropriation for 1906: Salaries and wages \$134,160 43
Supplies and contingencies 133,907 81
Alterations, additions and repairs 143,050 00 143,050 00 Clothing for insane
Clothing for epileptics at Craig Colony
Donations to Grand Army veterans
New ambulances, horses, harness and repairs 1,500 00 3,000 00 3,000 00

In the main these increases are explained as follows:

Salaries and Wages.

Total amount of increase ...... \$420,118 24

I. A paramount need of the Department is to secure a better class of Hospital Helpers than it is possible to obtain with the low compensation of \$10 a month, which is paid to majority of the members of this class of employees at the present time. From January 1 to July 1 of the present year over 3,405 changes took place among the employees paid less than \$20 a month, amounting to a practical reorganization of this portion of the staff at short intervals. No private business could succeed under such

conditions, and they are exceedingly detrimental to the proper and efficient conduct of the work of the Department. It is my desire gradually to increase the compensation paid to this class of employees, so as to pay the men \$20 a month and the women \$15 a month to commence, increasing such compensation for satisfactory service, so that for the second year of continuous service the men will receive \$25 a month and the women \$20 a month, while for the third year of such service the men will be paid the maximum of \$30 a month and the women of \$25 a month in this grade of employment. Only in this way can satisfactory employees be secured and maintained. The Board of Estimate and Apportionment and the Board of Aldermen, with the approval of the Acting Mayor, having made better provision for the housing of this class of employees, this should prove an opportune time to improve the standard of their service. Inasmuch as this important change should be made with the greatest care, and in order to make certain that a more capable class of employees were being secured I would recommend that the new scale of wages be commenced on July 1, 1907, which is as soon as it will be practicable to make the change in a thoroughly satisfactory manner. The additional cost of this desirable change for the year 1907 is estimated to be \$73,218. estimated to be \$73,218.

2. The wages of the Stokers and of the Deckhands in this Department should be increased to what may fairly be regarded as the prevailing rate, namely, \$2.50 a day without maintenance and \$2 a day with maintenance, to the Stokers, and \$40 a month with maintenance to the Deckhands who have been in the service for a year. It is also proposed to increase the salaries of four Pilots to \$100 a month each. The total cost of these increases to meet the prevailing rate of wages is \$0,547.50.

3. The nursing force at both the Metropolitan Hospital, at Blackwell's Island, and the Kings County Hospital, at Flatbush, require to be increased at an estimated expense of \$6,000.

4. Other additional employees considered to be necessary for the efficient and satisfactory administration of the Department are estimated to cost \$50,546.50.

5. Increases are desired in salaries to make them conform to schedules adopted by the Board of Aldermen as well as for merit, which amount to \$7,584.

Supplies and Contingencies.

This desired increase aggregating \$133,907.81 is rendered necessary by the normal increase in the census of the institutions and the proposed opening of new buildings during the year,

Alterations, Additions and Repairs. With the great number of buildings in the Department, many of them old and in a bad state of repair, it is inevitable that a large sum of money must annually be expended to keep such structures in reasonable good order. I am satisfied that the condition of the buildings is such that the amount requested for alterations, additions and repairs represents a conservative estimate of the needs of the Department in this important particular.

The payments for clothing for the insane, for clothing for epileptics at Craig Colony, as well as for donations to Grand Army veterans, are charges which inevitably show an increase and have to be met in accordance with the provisions of law. The slight increase requested for new ambulances, horses, harness and repairs is made necessary by the growth of the Department.

Respectfully yours,

ROBT. W. HEBBERD, Commissioner.

## BELLEVUE AND ALLIED HOSPITALS.

New York, August 15, 1906.

Hon. P. J. SCULLY, City Clerk and Clerk of the Board of Aldermen:

COLD DELLE

Dear Sir-I have the honor to transmit herewith the estimates for the expenditures

Dear Sir—I have the honor to transmit herewith the estimates for the expenditures of Bellevue and Allied Hospitals for the year 1907, in compliance with the provisions of section 226 of the Greater New York Charter.

In accordance with the instructions of the Honorable, the Comptroller of The City of New York, in his circular letter of June 11, 1906, these estimates state specifically the object and purposes of all appropriations necessary to meet the expenses of conducting the public business of this Department for the year 1907.

The total amount of appropriation required for 1907 is \$864,736.01, which is \$226,559.23 in excess of the appropriation for 1906. This excess, it will be noted, is due to the fact that in the coming year the new Harlem Hospital and the new Fordham Hospital, each with about three times the capacity of the present hospitals, and an enlarged Gouverneur Hospital, with double the present capacity, must be maintained.

The Trustees have asked for an increase of \$128,382 for the salaries of the employees of the Department. In the central office but a small sum has been asked for three employees whose grade is better remunerated in other departments, and whose services justify the slight increase in salary.

### Bellevue Hospital.

The salary of the Assistant Superintendent on night duty has been inadequate for some years, when the responsibilities of his office are considered; the increase asked for gives a very moderate salary for a competent man.

The prevailing rate of wages requires an increase of the salaries of Enginemen and Stokers to the amount indicated in the table.

The important duties performed by the Drivers of the Department demand a high class of men, and the present pay is inadequate for those long in the service. The slight increases asked for are intended to pay Drivers of two and of three or more years' of service.

more years' of service.

Another stenographer and junior clerk are required to perform the duties now assigned to Hospital Helpers, hence the increase in number asked for in these

assigned to Hospital Helpers, hence the increase in number asked for in these mployees. Two Inspectors who have been in the City's service for a number of years should have their pay increased from \$600 to \$720, as neither of these employees lives in the hospital. And the salaries of two Orderies should be increased from \$600 and \$670 to \$720 because of efficient service and the fact that neither lives in the hospital.

Certain Nurse heretofore paid for from a special appropriation which is about exhausted, should be on the regular rolls, and more graduates and pupil nurses are needed in the wards, thus increasing the expenditures in this Department.

The increase in Laundresses is a paparent rather than real, as these employees have hitherto been designated Hospital Helpers.

An increase has been asked for the salaries of thospital subjects in the Salaries of other employees will make the pay in the several grades correspond to that in Bellevue.

Supplies and Contingencies.

The estimated expenses would be \$35,3922.14. It has been found that the distribution of rAgt patients. Based on this figure and the experience of 1905 the total with the distribution of rAgt patients. Based on this figure and the experience of 1905 the total with the distribution of rAgt patients. Based on this figure and the experience of 1905 the total hitherto been designated Hospital Personal to the employees, and the mental expenses would be \$35,3922.14. It has been found that the distribution of rAgt patients. Based on this figure and the experience of 1905 the total with because of supplies is not population of rAgt patients. Based on this figure and the experience of 1905 the total hitherto been designated where the paye have been paid \$12,50, \$15, and \$20, and the women, \$5,0, \$12,50 and \$57,50 and \$57,5

employees, and it is satisfied that only in this way will the City be able to compete in the labor market with other employers of domestic labor.

The Trustees deem it very desirable to have a skilled man to supervise the plumbing in the hospitals, especially the new ones just opened. The establishment of the grade of Foreman Plumber is asked, and it is believed such an employee will effect economy by lessening repairs.

It is very necessary to have a qualified operator in charge of the X-ray apparatus, which has been used more or less by those inexperienced in its use. Much harm may result from the improper use of the apparatus, and the Trustees believe an expert to be necessary.

### Gouverneur Hospital.

The salary of the Supervising Nurse, whose duties are those of a Superintendent, is not in keeping either with the responsibilities of the office or the qualifications of the incumbent. The increase asked for is moderate and the Trustees feel is well

There must be an increase in the pay of the Enginemen and Stokers to meet the prevailing rate of wages.

The enlarged capacity of the hospital, virtually double that at present, requires more employees during the coming year, and the Nurses heretofore paid by the Department of Charities must be paid by this Department. The salaries are the same as those paid in other hospitals in the Department, and the number asked for is based on present experience. based on present experience.

### Harlem Hospital.

The new Harlem Hospital plant includes the hospital building, the ambulance house and the power house and laundry. This is a modern equipment in every way, and needs three times the employees required for the two rented buildings used at

The salary of the Supervising Nurse should be increased for similar reasons to those given in the case of the Supervising Nurse at Gouverneur Hospital. The salaries of Drivers and Hospital Helpers should be increased for the reason given for the same classes in Bellevue.

The number and salaries of the new employees is based on experience in other hospitals and the practice of the Department.

### Fordham Hospital.

The new Fordham Hospital includes the hospital building, the ambulance house and stable, the laundry building, the engine house and the Nurse's home. It is a very complete plant, that is needed by the rapidly increasing population in The Bronx, and it is believed that it will have a very large and active service. To meet the demands a large increase in employees is needed, and the salaries are those that prevail in the other hospitals in the Department.

Additions, Alterations and Repairs, etc.

Additions, Alterations and Repairs, etc.

The estimate for additions, alterations and repairs is given in detail. Bellevue liospital is an old building and has a large population, and throughout the year repairs have to be made to the plumbing, gas and electric fitting, floors and halls, the steam heating apparatus, and to other details in the buildings. As Gouverneur, Harlem and Fordham will be virtually new hospitals it is not deemed necessary to provide for other than slight repairs.

The opening of new hospitals will enable the City to end the leases of a number of buildings that were needed, so the item of rental may be reduced materially.

The amount asked for clothing for the insane is required to comply with the State law to provide each patient transferred to a State hospital with a new outfit of clothing, and the sum estimated is based on the expectation that the insane population of 1907 will not be greater than in 1906.

The same sum is asked for new ambulances, horses and harness as in 1906. New ambulances and horses will have to be purchased to replace those worn out in service, and it is hoped the amount asked for will be adequate to meet the demands that will arise.

The Trustees have gone over the general items carefully and with due regard to economy and efficiency of administration, and they are satisfied that the funds asked for are necessary to care properly for the sick and injured who come to City institu-tions for relief, and whose number increases annually with the growth in population.

Respectfully submitted,

JOHN W. BRANNAN, President, Board of Trustees.

#### DEPARTMENT OF CORRECTION.

Department of Correction,
Commissioner's Office, No. 148 East Twentieth Street,
New York, August 13, 1906.

Hon. P. J. SCULLY, City Clerk and Clerk of the Board of Aldermen:

Dear Sir—I beg to transmit herewith an estimate of expenses of the Department of Correction, Boroughs of Manhattan and Brooklyn, for the year 1907.

The appropriation "Salaries" for 1906 shows a deficit of \$5,522, as follows: The amount allowed for salaries in the Budget for 1906 was \$299,944.50. On April 6, 1906, your Honorable Board authorized the issue of Special Revenue Bonds to the amount of \$40,000, to be applied to the deficit in the salaries account in this Department, Boroughs of Manhattan and Brooklyn, caused by the regrading of the position of Keeper. Of this amount \$33,000 has been applied to the Borough of Manhattan. On May 11, 1906, your Honorable Board further authorized the issue of Special Revenue Bonds to the amount of \$5,150 for the payment of salaries of employees in the New May 11, 1906, your Honorable Board further authorized the issue of Special Revenue Bonds to the amount of \$5,150 for the payment of salaries of employees in the New York City Reformatory for Male Misdemeanants, Hart's Island, making the total appropriation for this borough for 1906, \$338,094.50; whereas at the present yearly rate \$343,616.50 would be required, an apparent shortage for 1906 of \$5,522. For 1907 \$35,166.50 will be required, an increase of \$6,550 over the yearly rate paid July 31. 1906. Of this amount \$5,350 to be applied to the regrading of Keepers' salaries and

\$1,200 to pay the salary of an Instructor of Industries at the New York City Reformatory, Hart's Island. The total increase in salaries for 1907 amounts to \$12,072.

For supplies and contingencies \$436,450 will be required, as shown by accompanying statement. The increase over 1906, \$58,502, is to be applied principally to the purchase of additional quantities of coal, meats, groceries, dry goods, oils, drugs, medicines, etc., as the stock for 1906 will be completely exhausted before January 1, 1907.

For alterations, repairs and additions to buildings, apparatus and steamboats, transportation, maintenance, etc., insane criminals, donations to discharged prisoners, and for improvement of Riker's Island, the same amounts will be required for 1907 as were allowed for 1906.

for improvement of Riker's Island, the same amounts allowed for 1906.

For supplies for manufacturing purposes, New York City Reformatory, Hart's Island, \$20,000 will be required, the same as allowed for the current year by your Honorable Board on May 11, 1906, by issue of Special Revenue Bonds.

I have asked for an appropriation of \$5,000 to enable me to carry out the provisions of Senate bill 1181 of the Laws of 1905, in regard to taking the Bertillon measurements of prisoners committed to the workhouse, Blackwell's Island, under the Accumulative Sentence Law.

#### BOROUGH OF BROOKLYN.

BOROUGH OF BROOKLYN.

For salaries, \$59,870 will be required for 1907.

The amount allowed for salaries for 1906 was \$49,219.50; to this was added \$7,000 of the \$40,000 issue of Special Revenue Bonds, allowed by your Honorable Board. April 6, 1906, making a total appropriation of \$56,219.50, whereas at the present yearly rate, \$59,620 would be required. This shows an apparent deficit for 1906 of \$3,400.50. In addition to this an increase of \$250 will be required during 1907 for the regrading of Keepers' salaries.

The total increase in salaries for 1907 amounts to \$3,650.

For supplies and contingencies, repairs of buildings and apparatus, donations to discharged prisoners, transportation, maintenance, etc., insane criminals, and for supplies for manufacturing purposes, the same amounts will be required for 1907 as were allowed for 1906.

The appropriations for the current year will be exhausted by December 31, 1906.

This estimate has been prepared with a view of being as economical as possible, without impairing the efficiency and usefulness of the institutions of the Department.

I trust, therefore, that your Honorable Board will pass it as presented.

Very respectfully, FRANCIS J. LANTRY, Commissioner.

### DEPARTMENT OF HEALTH.

Department of Health, City of New York,
Southwest Corner of Fifty-fifth Street and Sixth Avenue,
Borough of Manhattan,
New York, August 15, 1906.

Hon. P. J. SCULLY, City Clerk and Clerk of the Board of Aldermen:

Dear Sir—Pursuant to section 226 of the Greater New York Charter, and agreeable to the request contained in a circular letter from the Board of Estimate and Apportionment dated June 11, 1906, I have the honor to transmit herewith the departmental estimate of the amounts required to be expended in conducting the public business of the Department of Health of The City of New York during the year

In presenting this, the eleventh departmental estimate prepared since consolidation, the Department has acted after due deliberation, and has included no item of expense therein unless it was considered absolutely necessary for the preservation of the public health. It has not pursued the policy of asking for more than is required in the expectation of receiving less, and therefore requests your earnest and favorable consideration of the amounts included hereafter.

It must be remembered that discoveries of vast moment are continually being made along the lines of bacteriological research, the treatment of contagious diseases, methods of disinfection and of chemical analysis of foods and drugs, not a few of which have had their origin within the laboratories and institutions of this Department.

The Department of Health of this City, now recognized throughout the world as the foremost body in the investigation of causation, treatment and prevention

of contagious and infectious diseases, cannot afford to be compelled to retrograde. It must be free to retain the services of those possessed of the best scientific knowledge, at commensurate compensation; it should be provided with the latest scientific apparatus and equipment, in order that as this great City proceeds to first place among the metropoles of the world as respects population, its Department of Health will be in a position to efficiently safeguard the health of its people, and make it the healthiest as well as the most populous City on the globe. Its death rate continues to decrease annually, and who may compute the value of human lives saved as a result of the intelligent control of contagious diseases?

The recent great public agitation with respect to the enforcement of governmental supervision of foods and druss has made it incumbent on the Department to

\$3,650 50

The recent great public agitation with respect to the enforcement of governmental supervision of foods and drugs has made it incumbent on the Department to increase its staff of Inspectors, at a corresponding expense.

The growth of the City has necessitated the erection of many additional hospital buildings to properly care for the increased number of cases of contagious disease which come under the control of the Department. These will require additional help and supplies for their maintenance at a corresponding increase of cost.

The establishment of a tuberculosis sanatorium at Otisville, N. Y., will cause a large expenditure not hitherto considered, and the extension of the medical school inspection to meet the growth of the school population also entails an increase of expenditure in this connection.

Taking all the above facts into consideration, the Department feels that the amounts requested, as indicated by the following estimate, are in no way excessive, and earnestly requests your generous consideration and allowance.

Respectfully submitted, on behalf of the Board of Health,

THOMAS DARLINGTON, Commissioner.

### DEPARTMENTAL ESTIMATE FOR 1907.

Departmental estimate of expenditures required by the Department of Health of The City of New York for the year 1907, including a statement of the salaries of the officers, clerks and employees of said Department, under their titles and respective grades, in compliance with section 226, chapter 466, Laws of 1901.

Salaries-Board of Health and Executive Officers.

Total annual salaries at rates paid July 1, 1906, chargeable to Salaries—Board of Health and Executive Officers	\$92,070 00	63 Total salaries proposed for 1907	\$101,620 00	\$17,950 00	\$8,4

Of the net increase shown as indicated above, \$9,550, the sum of \$7,650 is requested to pay the salaries of seven (7) additional employees required to fill vacancies occasioned by the natural growth of business throughout the Department, which is reflected in these administrative offices in greater ratio than in any of the other divisions. The balance, \$1,900, is required to provide for increases in compensation of four (4) employees, whose services have been considered worthy of recognition.

### SUMMARY OF PROMOTIONS.

Office of the Commissioner.

The salary of the Private Secretary is recommended for increase from \$3,000 to \$4,000, by reason of inadequate compensation for increased responsibilities.

Office of the Chief Clerk.

Two (2) Clerks now receiving \$1,800 are recommended for \$2,100, to meet the increase in the responsibilities of their respective positions, while the same conditions apply to a Sanitary Inspector now receiving \$1,800, who is recommended for \$2,100.

Required to fill vacar position on April 1, 1906.

Total, Tuberculosis Sanatorium, Otisville, Orange County, N. Y	\$50,586 oo	Total, Tuberculosis Sanatorium, Otisville, Orange County, N. Y	\$122,442 00	·inti	
Total annual salaries at rates paid July 1, 1906, chargeable to Salaries— Officers, Clerks, Inspectors and Other Employees	\$924,912 00	Total salaries proposed for 1907, charge- able to Salaries—Officers, Clerks, In- spectors and Other Employees	\$1,163,156 00	\$244,694 00	\$6,450 00

Of the increase requested for the Salaries of Officers, Clerks, Inspectors and other employees, \$238,244, as shown above, \$234,714 is provided for the compensation of 516 additional employees required to fill vacancies made necessary by the natural growth of the Department and the opening of new hospital buildings, as indicated by the following table. The balance, \$3,530, is requested to provide for increases in the compensations of seven deserving employees, whose responsibilities have increased out of proportion to their present remuneration.

Tuberculosis Sanatorium, Otisville, Orange County, N. Y	141	71,856 00			
Totals	516	\$234,714 00	7	\$3,530 00	

Of the above amount, \$234,714, asked for to provide for additional employees required, it will be noted that by far the greater portion, \$174,378, is made necessary by the opening of the new scarlet fever pavilion and a general storehouse at the Willard Parker Hospital on July I, 1906, the measles pavilion and six isolation ward buildings at the Kingston Avenue Hospital, which it is estimated will be ready for occupancy by July I, 1907, and for the care and treatment of about 200 patients next year at the Otisville Sanatorium.

Willard Parker Hospital..... 33,030 00 71,856 00 Kingston Avenue Hospital..... Tuberculosis Sanatorium ..... \$174,378 00

This leaves but \$60,336 to provide for an increase in force throughout the Department of only 67 employees chargeable to this appropriation. When it is considered that the Department now has on its main roll 1,249 employees, this increase does not exceed 6 per cent., and should not be deemed excessive in view of the tremendous growth of the Department.

The amount requested to provide for the promotion of seven employees at a net expense of but \$3,530, as compared with present main payroll aggregating \$924,912, is obviously inconsiderable.

#### BOROUGH OF MANHATTAN.

### Office of the Assistant Chief Clerk.

The sum of \$1,500 is requested to pay the salary of one Clerk to fill the vacancy caused by the appointment of the present Assistant Chief Clerk, who previously filled the vacant position, to his present office.

#### Office of the Assistant Sanitary Superintendent.

The salary of the Assistant Sanitary Superintendent in the Borough of Manhattan has been recommended for increase from \$3,500 to \$4,000 in view of the constantly increasing responsibilities and importance of his position.

#### Bureau of Contagious Diseases.

Request is here made for funds to appoint two high grade veterinarians to take up the treatment of the increasing number of cases of glanders among horses, one of whom is to receive \$2,100 and the other \$1,800 per annum.

One (chief) Disinfector is recommended for promotion from \$1,050 to \$1,200, due to increased responsibilities and efficiency, while two new Automobile Enginemen are required to operate the Department cars, one of whom is to receive \$1,200 and the other \$900.

#### Division of Inspections.

The sum of \$2,700 is requested to provide means to promote the present Chief Inspector from \$2,550 to \$3,000, the salary received by the Chiefs of other divisions, while the balance, \$2,250, is required to promote three of his principal assistants (two Sanitary Inspectors and one Inspector of Foods) from \$1,800 to \$2,550 each.

#### Chemical Laboratory.

High-grade men are here required to properly conduct the work of pure food and drug investigation. It having been found that the Civil Service Commission cannot furnish Chemists at a low remuneration, the sum of \$11,250 is requested to appoint one new Chemist at \$3,000, one at \$2,550 and three at \$1,500.

An additional Clerk is also required to fill a vacancy caused by the expansion of

this laboratory, at a compensation of \$1,200.

#### Willard Parker Hospital.

The new scarlet fever pavilion, accommodating about 250 additional patients, and

The increase requested in the Bacteriological Laboratory Fund, as indicated above, \$23,430, provides for two additional Bacteriologists at \$1,200 and three additional Laboratory Assistants at \$600 in the Bacteriological Laboratory, at a total cost of \$4,200, made necessary by the rapid extension of bacteriological research; six additional employees for the Vaccine Laboratory, costing \$4,530, required when the new Vaccine Laboratory to be erected at Westchester is completed (about January I, 1907), and for thirty Attending Physicians to the Tuberculosis Clinic, situated in the various boroughs, at an expense of \$13,500, required to take the place of Physicians

cians now performing this work gratuitously, and over whom the Department has at present no control. These amounts aggregate \$22,230, leaving a balance of \$1,200, which is requested to provide for the promotion of three employees, whose faithfulness and efficiency have been attested to by their immediate superior officers and whose training and experience make it expedient for the Department to retain their services. The amount required to make promotions should not be considered excessive when the professional character of the work performed is taken into consideration.

Allowed, 1906 ..... 44,073 00 \$55,927 00 Increase .....

The amount actually expended by the Department for Supplies and Contingencies during 1904 was \$59,981.73. During 1905 there was expended \$72,630.20, equivalent to an increase of \$12,648.47, or 21 per cent.

To July 1 of the current year was expended \$38,672.18. It is estimated that there will have been expended by December 31, 1906, \$84,073, the expenditures during the latter half of the year being generally heavier than those of the first half. This indicates an increase during 1906 of \$11,443 over 1905, equivalent to about 16 per cent.

Assuming that the requirements of the Department during 1907 will increase in the same ratio, the sum of \$100,000 is requested, this being an advance of \$15,027 over the indicated expenditures for 1906, or about 19 per cent.

Removal of Night Soil, Offal and Dead Animals. (Sections 1205 and 1206, Chapter 466, Laws of 1901.)

The second secon	Total Estimate for 1907.	Manhattan.	The Bronx.	Brooklyn.	Queens.	Richmond.
Estimate, 1907	\$69,880 oo 69,880 oo	\$24,245 00	\$9,115 00	\$15,000 00	\$16,200 00	\$5,320 00

The contracts for the removal of dead animals were relet in 1905 for a period of five years at a fixed annual charge. It is not estimated that any additional funds will be required over the stated contract liabilities.

#### Sanitary Police.

For the payment to the Police Department for the services of the Sanitary Company detailed for the enforcement of the provisions of the Sanitary Code and the laws relating to tenements and lodging houses as provided in sections 312 and 1202 of the Greater New York Charter.

		N	Ianhattan.	T	he Bronx.		Brooklyn.		Queens.	Ri	ichmond.

Allowed, 1906 ..... \$35,200 00

The appropriation allowed for 1906, \$94,600, indicated above, admits of the employment of but sixty-seven men. This force is wholly inadequate to perform efficiently the work required of them. Sufficient funds to employ ninety-two men, distributed as above, is therefore requested.

#### Disinfection.

(Sections 1180 and 1225, Chapter 466, Laws of 1901.)

\$87,000 00 Total estimate, 1907..... 68,050 00 Allowed, 1906 ..... \$18,950 00

The amount actually expended for disinfection during 1905 was \$77,273.66. The liabilities incurred to July 1, 1906, amount to \$31,473.33, indicating an expenditure for the year of about \$70,050; assuming the expenditures for the latter half of the year to be at least 50 per cent. greater than the first half in accordance with precedent.

This indicates an increase of \$777.34 over 1905. It is estimated that an additional \$18,950 will be sufficient to extend the work of disinfection in the various boroughs during 1907, thus bringing the total up to \$87,000, the amount requested.

#### Hospital Fund Including Payments to Private Hospitals.

(Section 1170, Chapter 446, Laws of 1901.)

For the support of Willard Parker Hospital, Reception, Riverside and Kingston Avenue Hospitals and Dispensaries for the treatment of contagious eye diseases.

Total estimate for 1907. \$357,500 00 Allowed, 1906 170,871 66 Increase .....

The amount actually expended during 1903 on account Hospital Fund was \$148,846.35; in 1904 was spent \$207,781.31, an increase of 39 per cent. In 1905 the expenditures amounted to \$243,251.23, an increase of about 17 per cent, while the amount to be spent during 1906 it is estimated will reach \$290,871.66, equivalent to an increase of nearly 20 per cent. over 1905. In view of the fact that several modern large hospital buildings, now under construction, and intended to replace those of obsolete design, will be opened during 1907, and will require a considerable sum to maintain a sum equivalent to an increase of about 25 per cent. over the amount estimated to be required for 1906, or \$357,500, is requested, as indicated above, and should not be considered excessive.

### Support of Ambulance Service.

(Chapter 583, Laws of 1888, Title 12, Sections 2, 1168, Chapter 446, Laws of 1901.)

7.	Cost of cerebro-spinal meningitis research, in- cluding services and expenses of experts	5,000	00		*******	
			-			

Increase .....

The actual expenditures during 1905 for the support of the various laboratories as indicated above amounted to \$56,994.33.

To July 1 of the current year was expended \$27,250.38. Assuming the expenditures during the latter half of the year to be at least \$17,000 greater than the first half, the total amount to be expended during the current year will approximate \$72,000.

In view of the fact that a new vaccine laboratory is under construction at West-chester, which will require an additional sum to maintain, the sum of \$75,000, as requested, should not be deemed in excess of the requirements.

For Abatement of Nuisances.

(Sections 1176, 1197, 1278, 1279, Chapter 446, Laws of 1901.)

Allowed, 1906 ..... ... \$171,605 00

The Sanatorium at Otisville received the first patients on July 11, 1906. No figures sufficient to base an accurate estimate upon are as yet available. The figures given, however, are based upon the previous experience of the Department as to the cost of maintaining thereculosis patients at the Riverside Hospital, and on the expenditures at

Otisville to date.

The figures given for the maintenance of the various clinics are based upon expenditures during previous years, and on estimates for the requirements during 1907.

It is estimated that there will be received during 1906 from the United States Government sums aggregating \$75,000 for the care and treatment of immigrants affected with contagious dis-

† Estimated to be received during 1906 from the sales of antitoxin. ‡ Estimated to be received during 1906 from the sales of vaccine virus.

Total estimate for 1907......\$2,741,351 00 | 

Total net increase...... \$759,416 84

#### Conclusion.

It will be noted from the foregoing figures that an aggregate net increase of \$310,824 over the salaries paid July 1, 1906, is requested in the salary appropriations for 1907, apportioned as follows:

Salaries-

Board of Health and Executive Officers	\$9,050 00
Officers, Clerks, Inspectors and other employees	238,244 00
Bacteriological Laboratory	23,430 00
Medical School inspection	39,600 00

\$310,824 00

Of this amount, \$304,194, providing for 597 new positions, is requested, of which sum \$174,378 is made necessary by the additional help required to maintain new hospital buildings at the Willard Parker and Kingston Avenue hospitals and the Otisville Sanatorium, as stated above.

The balance, \$6,630, is requested to provide for increases in compensation of but fourteen employees, who have been recommended for promotion by reason of length of service, efficiency and increased responsibilities. When it is considered that the payrolls of July I, 1906, contained the names of 1,651 employees, at an aggregate annual compensation of \$1,390,542, the proportion of promotions appears exceedingly small, considerably less than one per cent. on the total rolls.

Of the miscellaneous funds, an increase of \$240,810,34 over the amount estimated to be spent during 1906 is requested, distributed as follows:

	Amount Estimated to be expended for 1906.	Amount Requested for 1907.	Increase.
Removal of Night Soil, etc	\$69,880 00	\$69,880 00	
Sanitary Police	94,600 00	129,800 00	\$35,200 00
Supplies and Contingencies	84,073 00	100,000 00	15,927 00
Disinfection	78,050 00	87,000 00	8,950 00
Hospital Fund	290,871 66	357,500 00	66,628 34
Support of Ambulances	28,100 00	31,700 00	3,600 00
Laboratory Fund	72,000 00	75,000 00	3,000 00
Abatement of Nuisances	1,600 00	17,500 00	15,900 00
Tuberculosis Fund	80,000 00	171,605 00	91,605 00
Total	\$799,174 66	\$1,039,985 00	\$240,810 34

It will thus be seen that the greater portion of this amount, \$158,233.34, is requested for additions to the Hospital and Tuberculosis Funds made necessary by the erection of new buildings, requiring an additional amount to maintain, at the Kingston avenue and Willard Parker hospitals, and the extension of the Tuberculosis Sanatorium at

Otisville, where it is estimated 200 patients will be cared for during 1907, as against

some twenty-five at the present time.

The balance, \$82,577, is requested to provide for the normal growth of business of the Department, and is distributed among the remaining miscellaneous funds as indicated above.

It is therefore obvious that, while the apparent increase requested for 1907 over 1906 is \$1,399,454.34, as follows:

Estimate, 1907...... \$2,741,351 00 Allowed, 1906..... 1,344,396 66 Increase ...... \$1,396,954 34

—the actual increase requested is but \$63,953.84, as will be shown later.

This apparent discrepancy is due to the fact that, while the appropriation made to the Department in the annual Budget for 1906, on October 31, 1905, amounted to but \$1,344,396.66, supplemental appropriations were made through the issue of Revenue Bonds to July 1 aggregating \$537,537.50. The receipts for the care and maintenance of immigrants, it is estimated, will amount to \$75,000 during the year, and \$25,000 will probably be received during 1906 from the sales of laboratory products. In addition, there remained on January 1, 1906, balances from funds created by the issue of Revenue Bonds during 1905 aggregating about \$7,000, while credit balances existed in the laboratory products accounts of about \$3,000. There is pending an application for a bond issue of \$100,000, \$44,537 of which has been authorized, leaving a balance of \$55,463, which will probably be authorized in the fall. The salaries of several Sanitary Inspectors, employed in supervising construction, are properly chargeable against the Building Funds of the Department, as are also the wages of a number of Laborers and mechanics at Otisville engaged in the erection of new buildings.

It is therefore shown that the resources of the Department for 1006 are as follows:

It is therefore shown that the resources of the Department for 1906 are as follows: Appropriation ...... \$1,344,396 66 Revenue Bonds, 1906..... Revenue Bonds, 1905 (balances)..... 7,000 00 United States Government, 1906..... 75,000 00 Laboratory products, 1906..... products, 1905 (balances)..... Pending bond issue..... 55,463 00 Chargeable to Corporate Stock..... 20,000 00

\$2,067,307 16

The liabilities of the Department are:

Salaries Fund-

Expended prior to July 1, 1906...... \$595,805 86 Estimated to be required between July 1, 1906, and De-

Estimated to be expended during 1906.....

cember 31, 1906...... 672,416 64

\$1,268,222 50 Miscellaneous Funds-

\$2,067,397 16

It is therefore shown that with estimated expenditures during 1906 amounting to \$2,067,397.16, the extent of the Departmental resources, the amount requested for 1907 in the foregoing estimate, \$2,741,351, shows an actual net increase of but \$673,953.84, which your honorable Board is respectfully, but urgently, requested to allow.

#### TENEMENT HOUSE DEPARTMENT.

Tenement House Department, City of New York, No. 44 East Twenty-third Street, New York, August 30, 1906.

Hon. P. J. SCULLY, City Clerk and Clerk of the Board of Aldermen:

Dear Sir—Complying with the provisions of section 226 of the Greater New York Charter, I beg to transmit herewith a departmental estimate of the Tenement House Department for the year 1907.

The Tenement House Department respectfully requests that the Board of Estimate and Apportionment appropriate the sum of \$743,520 for the expenses of the Tenement House Department, for the year 1907, made up as follows:

Rents

\*20 190 200 

Supplies and contingencies ..... 25,000 00 698,420 00

The amounts requested for Rents and for Supplies and Contingencies are exactly the same at those appropriated for the same purpose for each of the years 1904 and 1905. The increase in the amount requested for Salaries for the year 1907 is made absolutely necessary to meet the requirements for inspection, etc., created by the enormous increase in new tenements completed during the past year, and the equally large number likely to be completed during the current year.

Some idea of the need for this increased inspection and the work incidental thereto may be gained from the following statistics concerning the construction of new tenements:

Year.	Number of Buildings.	Number of Apartments.	Estimated Value.
1902	562	7,582	\$19,080,200 00
1903	1,362	15,914	34,163,670 00
1904	3,177	40,516	79,110,000 00
1905	5,918	78,119	146,020,775 00
1906*	3,424	39,195	73,806,500 00
Total	14,443	181,326	\$352,181,145 00

<sup>\*</sup> January 1, 1906, to July 1, 1906-six months.

In addition to the buildings above enumerated there are the old tenements, and the buildings altered into tenements, which may be moderately estimated to number about ninety thousand.

With the above appropriation it will be possible to make a complete sanitary inspection of the existing tenement houses in the City not more often than once in every three or four months. Attention should be called to the fact that under the provisions of section 1344a of the Greater New York Charter it is made the duty of the Tenement House Commissioner "to cause an inspection of every completed tenement house ment House Commissioner "to cause an inspection of every completed tenement house in the City, to be made at least once in each month." This provision is mandatory and applies to all tenement houses except those where the average rental is \$25 a month or more, in which case the frequency of the inspection is in the discretion of

the Commissioner.

While I am of the opinion that a monthly inspection of those buildings popularly known as "tenement houses" is eminently desirable, I appreciate that the cost of such inspections would be so great that your Board might with difficulty feel justified in making so large an increase in the appropriation of this Department. For this reason I have refrained from submitting my estimate upon this basis, but if your Honorable Board desires, I shall be pleased to submit to you a supplementary estimate as to the increased cost of complying with this provision of the Charter.

No amount of this year's appropriation will remain unexpended.

Yours respectfully, EDMOND J. BUTLER, Tenement House Commissioner.

#### POLICE DEPARTMENT.

Police Department of The City of New York, No. 300 Mulberry Street, New York, July 30, 1906.

Hon. P. J. SCULLY, City Clerk and Clerk of the Board of Aldermen:

Dear Sir—In compliance with instructions in circular letter of the Secretary of the Board of Estimate and Apportionment, dated June 11, 1906, I have the honor to forward herewith the Departmental Estimate of the Police Department for the year 1907, together with a statement giving the reasons for increase in the amounts as compared with the appropriation made for the year 1906 by the Board of Estimate and Apportionment tionment.

#### Very respectfully,

THEO. A. BINGHAM, Police Commissioner.

Police Fund, Police Commissioner, Deputy Commissioners and Chaplains.
