BELLEVUE AND ALLIED HOSPITALS.**REPORT FOR THE QUARTER ENDED MARCH 31, 1916.****The Department as a Whole.**

A great deal of embarrassment and inconvenience was caused during the months of January and February by delay in paying the hospital employees. This delay was occasioned by the inability to adjust the payrolls with the budget allowance of the Board of Estimate and Apportionment. A number of the old employees, whose services could not be dispensed with, were left off the payroll by this Board, and it was in consequence necessary to obtain revenue bonds to meet the expense of their salaries. In the meantime severe hardship was caused in many individual cases and the Trustees are most indebted to the generosity of Mrs. William Church Osborn and Doctor George O'Hanlon, who advanced funds with which to pay the overdue salaries pending remedial action by the City.

The Trustees have adopted a regulation under the terms of which visiting surgeons who have attained the age of sixty and physicians who have attained the age of sixty-two shall retire from active service in the hospitals with which they may be connected and take their place upon the consulting lists of these institutions. This has resulted in the retirement of some Attending Physicians and Surgeons of many years standing whose efficient and self-sacrificing service to the City the Trustees are glad to recognize.

The Trustees have issued instructions to the surgeons on the several medical boards of the hospitals under their jurisdiction to direct the preparation of only as many operative cases as they are ready to operate upon at any one time in order to correct an abuse of long standing, which has consisted in preparing more patients for operation than the time permitted to give attention to. They have also ordered that if for any reason the surgeon is unable to proceed with the number of operations previously determined upon, arrangements should be made to have the operations undertaken or completed by such associate or assistant as may be qualified under the rules of the department.

Upon the establishment of the Municipal Garage the department's motor car

was turned over to that institution. This has resulted in an impairment of the service so far as the ability of the Superintendent and the Trustees to visit outlying institutions on short notice is concerned. On several occasions a notice of two or more hours has been given the garage without a car becoming available. In an institution, such as Bellevue, having plenty of garage room and available chauffeurs, it would seem to be more practicable to leave the car where it could be of ready availability for service.

It has been decided to purchase two White motor cars, one Studebaker motor ambulance and one White motor truck for the use of the department. Provision for the purchase of these cars was made in the 1916 Budget. The General Medical Superintendent has been authorized to purchase a light delivery car for making deliveries to the several hospitals from the central store room at Bellevue. This is particularly needed for Neponsit Beach Hospital.

Bids were received on Feb. 7 for the installation of power plant equipment in Bellevue and its allied hospitals. The contract for Bellevue was awarded to the Reliance Engineering Company, in the sum of \$5,847, and that for the other hospitals was awarded to the Shevlin Engineering Company, for the sum of \$4,385.

A rule has been adopted whereby the employees of the department are to receive anti-typhoid inoculation.

The annual reorganization of the Board occurred at the meeting of Feb. 29, when Dr. John W. Brannan was re-elected President and James K. Paulding, Secretary

Bellevue Hospital.

The final moving into the new surgical pavilions I, K, L and M was accomplished in the early days of January. The removal of patients from the old building, except those in the tuberculosis and erysipelas wards, as well as the alcoholic, prison and drug cases has now been effected. The members of the interne staff have also been transferred to their new quarters. The first and second floors of the south wing of the old administration building have been assigned to the use of the psychopathic and alcoholic services, while it is proposed to remove the tuberculosis patients to bright wards in the vacated north wing of the old building. The upper stories of this building, from which patients were ordered to be removed by the Fire Department, will be occupied as a dormitory for the hospital employees, the Fire Department holding it safe for able bodied occupants.

It is proposed to house the Social Service Department on the second floor of the north wing, where much more space will be available for their use. This also will have the advantage of vacating the second floor of the dispensary building, which will be devoted entirely to the needs of the out-patient department, thus relieving the serious over-crowding in the present quarters.

An urgent request has been made of the Commissioner of Public Charities to remove the old morgue from in front of pavilions A and B. He has replied that this will be impossible until he has some other place available for the purpose to which the old morgue building is now being applied. With the erection of a new building on Blackwell's Island, for which money and plans are available, he expects to comply with this request.

The sum of \$17,000 in corporate stock has been made available for carrying out the fire protection work in the old building at Bellevue. In this connection the General Medical Superintendent has been instructed to provide two exits for every room used by employees as sleeping quarters.

Delay has been caused in the installation of the plumbing work in connection with the radiographic department in pavilions I and K by the apportioning of too low an allowance by the Board of Estimate and Apportionment for this work. The amount allowed was \$500 and the lowest bid received at first was \$800. Later, however, another bid of \$595 was obtained. The completion of this and other items is still awaited to permit of the installation of the x-ray department in its new quarters.

On account of the difficulty in obtaining supplies, owing to the European war, the Trustees have been obliged to extend the contract time of the company charged with the installation of the lighting fixtures in these new pavilions for thirty days.

For the same reason a like extension has been granted to the Automatic Electric Company for the installation of the telephone system in these pavilions.

An issue of corporate stock in the sum of \$25,000 for the construction of additional balconies on pavilions I and K has been authorized.

The new ice plant has been completed and with the assistance of two additional employees we are now ready to manufacture our own ice at Bellevue.

A request for revenue bonds in the sum of \$7,900 to meet the cost of providing an additional ambulance for the psychopathic service has been made and approved by the Board of Aldermen.

It has been resolved to appoint McKim, Mead and White architects of the additional wing to the nurses' residence, funds for which have been requested.

Application has been made to the Commissioners of the Sinking Fund for the allotment of the plot of ground from 25th to 26th st. and the East River, directly east of the Bellevue Training School for Nurses, for the use of this department.

A strip of land 14 feet, 10 inches wide and 98 feet, 5 inches deep on 25th street and directly east of Osborn Hall will be assigned to the department by the authorities of the Bellevue Training School for Nurses to permit of the construction of two wings of equal size to the nurses' residence and also allow for an open air shaft.

It has been decided to open the Social Service Bureau on Sundays and to authorize the payment of two additional Social Service Nurses to take care of this extended service.

The Trustees have assented to the incorporation of a new auxiliary authorized to receive funds for the extension and development of the Social Service work carried on in connection with hospitals.

Among the losses to be regretted during the past quarter may be mentioned former Commissioner Michael J. Drummond of the Department of Public Charities and Dr. Charles C. Barrows, men who have been of great service.

The Trustees were obliged to decline a request from the Department of Correction asking permission to use the pier at the foot of East 28th Street as a receiving station for supplies for that department. It was proposed to truck these supplies through the hospital enclosure, and the Trustees felt that the noise and dust which might be expected to result therefrom would seriously interfere with the comfort of patients and the discipline of the hospital.

Under the leadership of Dr. George D. Stewart a Red Cross unit has been organized at Bellevue for service in case of emergency.

Medical Reorganization.

A conference has been held with the deans of the several medical colleges connected with Bellevue, together with representatives of the Fourth or non-collegiate division for the purpose of discussing the proposed medical reorganization. This conference was fruitful in developing the plans under consideration, each university submitting in detail a plan for the work assigned to it with provision for development and extension. With a view to utilizing to the fullest extent the hospital material for teaching purposes a plan to develop facilities for teaching is under consideration by the Fourth Division. The assignments of special services proposed for the several divisions are as follows: Tuberculosis, Nose, Throat and Ear. First Division; Neurological, Second Division; Dermatology and Orthopaedics, Third Division; Obstetrical, Second and Third Divisions; Eye, Fourth Division. This assignment proposed by the Executive Committee of the Medical Board was found to be generally satisfactory to the several divisions, and will be put into operation as soon as detailed plans for its execution have been worked out.

Gouverneur Hospital.

Progress upon the construction of the new out-patient department building at Gouverneur was slow at first on account of the inability of the contractor to obtain iron. The architects report that all the exterior walls are completed to the level of the arches above the windows on the second floor and that the concrete flooring is finished. The terra cotta partitions are in place on the first story.

For the plumbing work the fixtures have been selected. The roughing for the piping, including the soil and ventilating lines, is completed. The material for the hot water boiler and supply tank has been delivered. These are about to be installed. On March 18, the steamfitters began work and are placing the main lines in the cellar and the risers on the first and second floors.

Great difficulty has been met in providing any satisfactory substitute for the old ferryboat "Westfield," which was condemned for use as a tuberculosis day camp. The possibility of repairing the boat providing the Dock Commissioner could guarantee that moorings would be made safe was considered, but rejected in view of the very great expense attached to it. Renewed efforts were then made to obtain another ferryboat or barge, but the great scarcity of boats occasioned by the demand created in connection with the war rendered this impossible. When all efforts seemed at the point of resulting in failure, the Trustees were informed of the boat "Helen C. Juillard," formerly used as a floating hospital by the St. Johns Guild. This Association had just been presented with a new boat and were willing to part with the old one. With great public spirit this institution voted to dispose of the boat for less money than they could have received from a private concern in order that the boat might continue to be devoted to purposes similar to those for which it was originally designed. The boat, which is in excellent condition, cost \$35,000 to construct, and the price agreed upon between the Trustees and the officers of St. Johns Guild is \$5,000. Request has been made of the City for an issue of revenue bonds in this amount. The Trustees are confident that the City's financial authorities will not miss this opportunity to obtain so valuable a property.

In the meantime the Trustees have offered their assistance and co-operation to the Dock Commissioner in hastening the erection of a pier at the foot of Corlears Street, the upper portion of which might be so constructed as to provide a permanent home for this camp.

The children's clinic connected with this camp has been housed temporarily in the small wooden building to the rear of Gouverneur Hospital previously used by the Board of Health.

At the suggestion of Dr. Francis Huber, one of the retiring physicians at Gouverneur, it has been decided to establish a special children's service under the direction of a medical chief or director.

Harlem Hospital.

The appointment of a Neurologist to have charge of all cases of this class in the hospital and the out-patient department has been approved.

It has also been decided to appoint a pathological interne and a resident obstetrician, while provision will be made in this year's budget for the salary of a pathologist.

The proposal to establish a separate gynaecological service at this hospital is still under advisement pending investigation. It has been found that the general average of cases belonging to such a service is about ten.

A valuable beginning of a system of follow-up work has been started at this hospital and the Trustees hope that it will be extended throughout the department.

The establishment of a clinic for diseases of the heart in children is under contemplation.

Requests for extensions of time on the contracts of the several contractors engaged in the work of alterations to the power house and ambulance station have

been frequent at this hospital during the past quarter. Congestion of freight, carpenters' strike, difficulty in obtaining materials and other causes have formed the basis for these requests. In each case the Trustees have investigated carefully through their Building Committee and Inspector of Construction and have invited the opinion of the architect before granting the extensions asked for.

In the case of the Andrews Building Company the Trustees were advised by the architect, J. H. Freedlander, that the contract had been unreasonably delayed and the Trustees thereupon declared the contract abandoned and called upon the surety company to complete the work. The lawyers for this contractor requested a reconsideration by the Trustees and an opportunity was accordingly given for them to present their reasons at a special hearing held on this matter. No sufficient reasons were further advanced for rescinding the action already taken by the Trustees and the sureties were therefore notified to complete the work.

An appropriation of \$75,000 corporate stock for the power house and ambulance station has been amended to include equipment.

Fordham Hospital.

At the request of the Medical Board a change in the service of internes at this hospital from two years to sixteen months has been approved by the Trustees as an experiment to become operative at once for a period of two years.

Bids were opened on March 14th for the installation of transoms in this hospital and the contract awarded to the lowest bidder, Samuel Rosen, for the sum of \$1,741.

Neponsit Beach Hospital for Children.

Toys for the children at Neponsit Beach Hospital were purchased with the interest of a special fund at the disposal of the Trustees.

An extension of time had to be allowed the contractor for the alterations to the fourth floor of the hospital on account of a delay in the installation of the plumbing.

The construction of the balconies has been delayed by the inability of the contractor to obtain a delivery of steel caused by congestion of freight traffic. An extension of thirty days was accorded the contractor on this account.

The work of the construction of a sewer was held up by the Neponsit Realty Company whose property must be crossed for a distance of about ten feet. An extension of ten days was granted the contractor to allow time for an adjustment with this company.

JAMES K. PAULDING, Secretary, Board of Trustees.

NOTICE TO BIDDERS AT SALES OF OLD BUILDINGS, ETC.

TERMS AND CONDITIONS UNDER WHICH BUILDINGS, ETC., WILL BE SOLD FOR REMOVAL FROM CITY PROPERTY.

THE BUILDINGS AND APPURTENANCES thereto will be sold to the highest bidder, who must pay cash or certified check, drawn to the order of the Comptroller of The City of New York, and must also give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. Where the amount of the purchase price does not exceed the sum of \$50, the sum of \$50 shall be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract, but unfinished at the expiration of the contract period.

The purchaser shall not lease, occupy, cause or permit the building or buildings, etc., purchased by him to be used or occupied for any purpose other than that of their speedy removal nor shall he collect any rental or other revenue for use of either the land or the buildings, etc., situated thereon. The breach of either or any of these conditions shall forthwith void the sale and cause immediate forfeiture of the purchase money and the security deposited for the faithful performance of the conditions of the sale. The placing therein or permitting the occupancy of any such building by any tenant free, for rent or otherwise, excepting the necessary watchmen or the workmen engaged in the actual demolition thereof, shall of itself be a breach of the above conditions of sale.

The sale will be as of the condition of the property on date of delivery thereof to the purchaser. The City of New York will not be responsible for any change or loss which may occur in the condition of the buildings, or their appurtenances between the time of the sale thereof and the time of delivering possession to the purchaser, after being properly vacated of all tenants. The sale and delivery to purchaser will be made as nearly together as the circumstances of vacating the structures of their tenants will permit.

All the material of the buildings, sheds, walks, structures and cellars of whatsoever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds, except the exterior walls of the buildings and their foundations and the sidewalks and curbs in front of said buildings, extending within the described premises, shall be torn down and removed from the premises. None of the dirt, debris or waste resulting from demolition shall be allowed to remain on the premises, except old mortar or plaster only, which may be left, but not higher at any point than two feet below the curb opposite that point. The exterior walls and their foundations shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building. Where there is no curb the elevation of the surrounding ground shall be considered curb level. All wells, cesspools, sinks, etc., existing on the property must be filled to the level of the surrounding ground with clean earth.

The purchaser at the sale shall also withdraw and remove all abandoned water taps and old service mains, and in place thereof cause to be inserted a brass plug in the main water pipe in the street, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and furnish the Department of Finance with a certificate from the Department of Water Supply, Gas and Electricity that this has been performed.

The purchaser at the sale shall also remove all house sewer connections to the main sewer in the street and the openings of the main sewer in street shall be properly closed in compliance with the directions of the Bureau of Sewers in the Borough in which the buildings are situated, and furnish the Department of Finance with a certificate from the Bureau of Sewers that the work has been properly performed.

The permit for all openings in the street to be obtained by and at the expense of the purchaser of the building.

Failure to remove said buildings, appurtenances, or any part thereof, within thirty days from the day of possession will work forfeiture of ownership of such buildings, appurtenances or portions, as shall then be left standing, together with all moneys paid by said purchaser on account thereof at the time of the sale, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and The City of New York will, without notice to the purchaser, cause the same to be removed, and the cost and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and must be completed within thirty days from the day of possession, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damage and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of said buildings.

Where party walls are found to exist between buildings purchased by different bidders, the materials of said party walls shall be understood to be equally divided between the separate purchasers. Party walls and fences, when existing against adjacent property not sold, shall not be taken down. All furrings, plaster, chimneys, projecting bricks, etc., on the faces of such party walls are to be taken down and removed. The walls shall be made permanently self-supporting, beam holes, etc., bricked up, and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs and adjacent buildings shall be properly flashed and painted and made watertight where they have been disturbed by the operations of the Contractor.

No buildings, parts of buildings, fixtures or machinery sold for removal under these terms and conditions shall in any case be re-located or re-erected within the lines of any proposed street or other public improvement, and if any such buildings, parts of buildings, fixtures or machinery, etc., shall be re-located or re-erected, within the lines of any proposed street or other public improvement, title thereto shall thereupon become vested in The City of New York and a resale at public or private sale may be made in the same manner as if no prior sale thereof had been made.

NOTICE TO CONTRACTORS.

GENERAL INSTRUCTIONS TO BIDDERS.

The person or persons making a bid or estimate for any services, work, materials or supplies for The City of New York, or for any of its departments, bureaus or officers, shall furnish the same in a sealed envelope, indorsed with the title of the supplies, materials, work or services for which the bid or estimate is made, with his or their name or names and the date of presentation to the President or Board or to the head of the Department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said Department and read, and the award of the contract made according to law as soon thereafter as practicable.

Each bid or estimate shall contain the name and place of residence of the person making the same, and names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud and that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

No bid or estimate will be considered unless as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money or corporate stock or certificates of indebtedness of any nature issued by The City of New York, which the Comptroller shall approve as of equal value with the security required in the advertisement to the amount of not less than three nor more than five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The amount shall be as specified in the proposals or instructions to bidders and shall not be in excess of 5 per cent.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation of the City.

The contract must be bid separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there.
