BUILDING DEPARTMENT.

Rules and Regulations for Plumbing, Drainage, Water Supply and Ventilation of Buildings.

Drawings and triplicate descriptions on forms furnished by the Department of Buildings for all plumbing and drainage shall be filled in with ink and filed by the owner, architect or plumber in the said Department.

And the said plumbing and drainage shall not be commenced or proceeded with until said drawings and descriptions shall have been so filed and approved by the Superintendent of Buildings.

No modification of the approved drawings and descriptions will be permitted unless either amended drawings and triplicate descriptions, or an amendment to the original drawings and descriptions, covering the proposed change or changes, are so filed and approved by the Superintendent of Buildings.

It shall not be lawful to do said plumbing and drainage except pursuant to said approved drawings and descriptions or approved amendments thereof.

Repairs or alterations of plumbing and drainage may be made without the filing and approval of drawings and descriptions in the Department of Buildings. But said repairs or alterations shall not be construed to include cases where new vertical and horizontal lines of soil, waste, vent or leader pipes are proposed to be used.

Notice of said repairs or alterations shall be given to the said Department, before the same are commenced, in all cases except where leaks are stopped or obstructions are removed.

Said notice shall consist of a description in writing of the work to be done, of the location of the property where the same is executed, and of the names and addresses of the owner and of the plumber.

Said notice shall not, however, be required when repairs or alterations are ordered by the Board of Health for sanitary reasons.

Said repairs and alterations shall comply in all respects with the weight, quality, arrangement and venting of the rest of the work in the building.

The plans must be drawn to scale in ink on cloth, or they must be cloth prints of such scale drawings, and shall consist of such floor plans and sections as may be necessary to show clearly all plumbing work to be done, and must show partitions and the method of ventilating water-closet apartments.

Written notice must be given to the Department of Buildings by the plumber when any work is begun, and from time to time when any work is ready for inspection. No part of the work shall be covered until it has been examined, tested and approved by the Inspector.

Definition of Terms.—The term "private sewer" is applied to main sewers that are not constructed by and under the supervision of the Department of Public Works or the Department of Street Improvements of the Twenty-third and Twenty-fourth Wards.

The term "house sewer" is applied to that part of the main drain or sewer extending from a point two feet outside of the outer face of the outer front vault or area wall to its connection with the public sewer, private sewer, or cesspool.

The term "house drain" is applied to that part of the main horizontal drain and its branches inside the walls of the building and extending to and connecting with the house sewer.

The term "soil pipe" is applied to any vertical line of pipe, extending through roof, receiving the discharge of one or more water-closets, with or without other fixtures.

The term "waste pipe" is applied to any pipe, extending through roof, receiving the discharge from any fixtures except water-closets.

The term "vent pipe" is applied to any special pipe provided to ventilate the system of piping and to prevent trap syphonage and back pressure.

I. Materials and Workmanship.—All materials must be of the best quality free from defects, and all work must be executed in a thorough workmanlike manner.

All cast-iron pipes and fittings must be uncoated, sound, cylindrical and smooth, free from cracks, sand holes and other defects, and of uniform thickness and of the grade known in commerce as extra heavy.

Pipe including the hub shall weigh not less than the following average weights per lineal foot:

DIAMETERS.	WEIGHTS PER LINEAL FOOT.	DIAMETERS.	WEIGHTS PER LINEAL FOOT.
2 inches.....	5½ pounds.	7 inches.....	27 pounds.
3 ".....	9½ "	8 ".....	33½ "
4 ".....	13 "	10 ".....	45 "
5 ".....	17 "	12 ".....	54 "
6 ".....	20 "		

The size, weight and maker's name must be cast on each length of the pipe.

All joints must be made with picked oakum and molten lead and be made gas-tight. Twelve (12) ounces of fine, soft pig lead must be used at each joint for each inch in the diameter of the pipe.

All wrought iron and steel pipe must be equal in quality to "Standard," and be properly tested by the manufacturer. All pipe must be lap welded. No plain black or uncoated pipe will be permitted.

After January 1, 1897, wrought iron and steel pipe must be galvanized, and each length must have the weight per foot and maker's name stamped on it.

Fittings for vent pipes on wrought iron or steel pipes may be the ordinary cast or malleable steam and water fittings.

Fittings for waste or soil pipes must be the special, extra heavy cast-iron recessed and threaded drainage fittings, with smooth interior water-way and threads tapered, so as to give a uniform grade to branches of not less than ¼ of an inch per foot.

All joints to be screwed joints made up with red lead, and the burr formed in cutting must be carefully reamed out.

Short nipples on wrought iron or steel pipe where the unthreaded part of the pipe is less than one and one-half (1½) inches long must be of the thickness and weight known as "extra heavy" or "extra strong."

The pipe shall be not less than the following average thickness and weight per lineal foot:

DIAMETERS.	THICKNESSES.	WEIGHTS PER LINEAL FOOT.	DIAMETERS.	THICKNESSES.	WEIGHTS PER LINEAL FOOT.
1½ inches.....	.14 inches.	2.68 pounds.	6 inches.....	.28 inches.	18.76 pounds.

All brass pipe for soil, waste, and vent pipes and solder nipples must be thoroughly annealed seamless drawn brass tubing of standard iron pipe gauge. Connections on brass pipe and between brass pipe and traps or iron pipe must not be made with slip joints or couplings. Threaded connections on brass pipe must be of the same size as iron pipe threads for same size of pipe and be tapered.

The following average thicknesses and weights per lineal foot will be required:

DIAMETERS.	THICKNESSES.	WEIGHTS PER LINEAL FOOT.	DIAMETERS.	THICKNESSES.	WEIGHT PER LINEAL FOOT.
1½ inches.....	.14 inches.	2.84 pounds.	4 inches.....	.23 inches.	11.29 pounds.
2 ".....	.15 "	3.82 "	4½ ".....	.24 "	13.08 "

Brass ferrules must be best quality, bell-shaped, extra heavy cast brass, not less than four inches long and two and one-quarter inches, three and one-half inches and four and one-half inches in diameter, and not less than the following weights:

DIAMETERS.	WEIGHTS.	DIAMETERS.	WEIGHTS.
2¼ inches.....	1 pound 0 ounces.	4½ inches.....	2 pounds 8 ounces.
3¼ ".....	1 " 12 "		

One and one-half inch ferrules are not permitted. Soldering nipples must be heavy cast brass or of brass pipe, iron pipe size. When cast, they must be not less than the following weights:

DIAMETERS.	WEIGHTS.	DIAMETERS.	WEIGHTS.
1½ inches.....	0 pounds 8 ounces.	3 inches.....	2 pounds 0 ounces.
2 ".....	0 " 14 "	4 ".....	3 " 8 "
2½ ".....	1 pound 6 ounces.		

Brass screw caps for cleanouts must be extra heavy, not less than one-eighth of an inch thick, and must have a flange of not less than three-sixteenths of an inch thick. The screw cap must have a solid square or hexagonal nut not less than one (1) inch high, with a least diameter of one and one-half (1½) inches. The body of the cleanout ferrule must at least equal in weight and thickness the caulking ferrule for the same size of pipe. Where cleanouts are required by rules and by the approved plans the screw cap must be of brass. The engaging parts must have not less than six (6) threads of iron pipe size and tapered. Cleanouts must be of full size of the trap up to four (4) inches in diameter and not less than four (4) inches for large traps.

The use of lead pipe is restricted to the short branches of the soil, waste and vent pipes, bends and traps, roof connection of inside leaders and flush pipes.

All lead, waste, soil, vent and flush pipes must be of the best quality drawn pipe of the quality known in commerce as "D," and of not less than the following weights per lineal foot:

DIAMETERS.	WEIGHTS PER LINEAL FOOT.	DIAMETERS.	WEIGHTS PER LINEAL FOOT.
1¼-inch (for flush pipes only).....	2½ pounds.	3 inches.....	6 pounds.
1½ inches.....	3 "	4 and 4½ inches.....	8 "
2 ".....	4 "		

All lead traps and bends must be of the same weights and thicknesses as their corresponding pipe branches. Sheet lead for roof flashings must be six-pound lead and must extend not less than six (6) inches from the pipe and the joint made water tight. Copper tubing when used for inside leader roof connections must be seamless drawn tubing not less than 22 gauge, and when used for roof flashings must be not less than 18 gauge.

II. General plan of plumbing and drainage approved by the Superintendent of Buildings.—Each building must be separately and independently connected with the public or a private sewer.

The entire plumbing and drainage system of every building must be entirely separate and independent of that of any other building.

Every building must have its sewer connections directly in front of the building unless permission is otherwise granted by the Superintendent of Buildings.

Where there is no sewer in the street or avenue, and it is possible to construct a private sewer to connect with a sewer in an adjacent street or avenue a private sewer must be constructed.

It must be laid outside the curb under the roadway of the street.

Cesspools and privy vaults will be permitted only after it has been shown to the satisfaction of the Superintendent of Buildings that their use is absolutely necessary.

When allowed they must be constructed strictly in accordance with the terms of the permit issued by the Superintendent of Buildings.

Cesspools will not be permitted under any circumstances for tenement and lodging houses. Cesspools will not be allowed outside the frame building district. As soon as it is possible to connect with a public sewer the owner must have the cesspool and privy vault emptied, cleaned and disinfected and filled with fresh earth and have a sewer connection made in the manner herein prescribed.

Old house sewers can be used in connection with the new buildings or new plumbing, only when they are found on examination by the Plumbing Inspector to conform in all respects to the requirements governing new sewers.

When a proper foundation consisting of a natural bed of earth, rock, etc., can be obtained, the house sewer can be of earthenware pipe.

Where the ground is made or filled in or where the pipes are less than three feet deep, or in any case where there is danger of settlement by frost or from any other cause, and when cess-pools are used, the house sewer must be of extra heavy cast-iron pipe with lead-caulked joints.

The house sewer and house drain must be at least 4 inches in diameter where water-closets discharge into them.

Where rain water discharges into them, the house sewer and the house drain up to the leader connections must be in accordance with the following table:

DIAMETER.	FALL ¼-INCH PER FOOT.	FALL ½-INCH PER FOOT.
6 inches.....	5,000 square feet.	7,500 square feet of drainage of area.
7 ".....	6,900 "	10,300 "
8 ".....	9,100 "	13,600 "
9 ".....	11,600 "	17,400 "

No steam exhaust, boiler blow-off or drip-pipe shall be connected with the house drain or sewer. Such pipes must first discharge into a proper condensing tank and from this a proper outlet to the house sewer outside the building must be provided. In low pressure steam systems the condensing tank may be omitted but the waste connection must be otherwise as above required.

The house drain and its branches must be of extra heavy cast-iron, when under ground, and of extra heavy cast-iron or galvanized tarred or asphalted wrought iron or steel when above ground.

The house drain must properly connect with the house sewer at a point two feet outside of the outer front vault or area wall of the building. An arched or other proper opening must be provided for the drain in the wall to prevent damage by settlement.

The house drain and sewer must be run as direct as possible, with a fall of at least one-quarter inch per foot, all changes in direction made with proper fittings, and all connections made with Y branches and one-eighth and one-sixteenth bends.

If possible the house drain must be above the cellar floor. The house drain must be supported at intervals of 10 feet by 8-inch brick piers or suspended from the floor beams or be otherwise properly supported by heavy iron pipe hangers at intervals of not more than 10 feet.

The use of pipe hooks for supporting drains is prohibited.

An iron running trap must be placed on the house drain near the wall of the house, and on the sewer side of all connections, except a drip pipe where one is used. If placed outside the house or below the cellar floor it must be made accessible in a brick manhole, the walls of which must be 8 inches thick, with an iron or flagstone cover. When outside the house it must never be less than 3 feet below the surface of the ground. The house-trap must have two cleanouts with brass screw cap ferrules calked in.

A fresh air inlet must be connected with the house drain just inside of the house trap. The fresh air inlet will be of extra heavy cast-iron where under ground. Where possible it will extend to the outer air and finish with a return bend at least one foot above grade, and 15 feet away from any window or furnace cold air box. When this arrangement is not possible, the fresh air inlet must open into the side of a box not less than 18 inches square placed below the sidewalk, at the curb. The bottom of the box must be 18 inches below the under side of the fresh air inlet pipe. The box may be of cast-iron or it may be constructed with 8-inch walls of brick or flagstone laid in hydraulic cement. The box must be covered by a flagstone fitted with removable metal grating, leading into the stone, having openings equal in area to the area of the fresh air inlet and not less than one-half inch in their least dimension. The fresh air inlet must be of the same size as the drain up to four (4) inches; for five (5) inch and six (6) inch drains it must be not less than four (4) inches in diameter; for seven (7) inch and eight (8) inch drains not less than six (6) inches in diameter, and for larger drains not less than eight inches in diameter.

All yards, courts, and areas must be drained. Tenement-houses and lodging-houses must have their yards, areas and courts drained into the sewer.

These drains when sewer connected must have connections not less than three inches in diameter. They should if possible be controlled by one trap—the leader trap if possible. Leader pipes must be sewer connected if possible.

All buildings shall be kept provided with proper metallic leaders for conducting water from the roofs in such manner as shall protect the walls and foundations of said buildings from injury. In no case shall the water from the said leaders be allowed to flow upon the sidewalk, but the same shall be conducted by pipe or pipes to the sewer. If there be no sewer in the street upon which such buildings front, then the water from said leader shall be conducted by proper pipe or pipes, below the surface of the sidewalk to the street gutter.

Inside leaders must be made of cast-iron, wrought-iron, or steel, with roof connections made

gas and water tight by means of a heavy lead or copper drawn tubing wiped or soldered to a brass ferrule or nipple calked or screwed into the pipe.

Outside leaders may be of sheet metal, but they must connect with the house drain by means of a cast-iron pipe extending vertically five feet above the grade level.

Leaders must be trapped with cast-iron running traps, so placed as to prevent freezing. Rain-water leaders must not be used as soil, waste or vent pipes, nor shall any such pipe be used as a leader.

Cellar drains will be permitted only where they can be connected to a trap with a permanent water seal.

Subsoil drains should discharge into a sump or receiving tank, the contents of which must be lifted and discharged into the drainage system above the cellar bottom by some approved method.

Where directly sewer connected they must be cut off from the rest of the plumbing system by a brass flap valve on the inlet to the catch basin and the trap on the drain from the catch basin must be water supplied as required for cellar drains.

Foundation walls must, where required, be rendered impervious to dampness by the use of coal tar, pitch or asphaltum.

Full size Y and T branch fittings for hand-hole cleanouts must be provided where required on house drain and its branches.

All iron traps for house drain, yard and other drains and leaders, must be running traps with hand-hole cleanouts of full size of the traps when same are less than five (5) inches. All traps under ground must be made accessible by brick manholes with proper covers.

SOIL AND WASTE PIPE LINES.

All main soil, waste or vent pipes must be of iron, steel or brass. When they receive the discharge of fixtures on any floor above the first they must be extended in full calibre at least one foot above the roof coping, and well away from all shafts, windows, chimneys, or other ventilating openings. When less than four inches in diameter, they must be enlarged to four inches at a point not less than one foot below the roof surface by an increaser not less than nine (9) inches long.

No caps, cowls or bends shall be affixed to the top of such pipe.

In tenement-houses and lodging-houses wire baskets must be securely fastened into the opening of each pipe that is in an accessible position.

All pipes issuing from extensions or elsewhere, which would otherwise open within 30 feet of the window of any building, must be extended above the highest roof and well away from and above all windows.

The arrangement of all pipe lines must be as straight and direct as possible. Offsets will be permitted only when unavoidable.

Necessary offsets above the highest fixture branch must not be made at an angle of less than 45 degrees to the horizontal.

All pipe lines must be supported at the base on brick piers or by heavy iron hangers from the cellar ceiling beams and along the line by heavy iron hangers at intervals of not more than ten feet.

All pipes and traps should, where possible, be exposed to view. They should always be readily accessible for inspection and repairing.

No trap shall be placed at the foot of main soil and waste pipe lines.

The sizes of soil and waste pipes must be not less than those given in the following table:

Main soil pipe, 4 inches in diameter; main waste pipe, 2 inches in diameter; branch soil pipe, 4 inches in diameter; branch waste for laundry tubs, 2 inches in diameter; branch waste for kitchen sink, 2 inches in diameter; soil pipe for water-closets on five or more floors, 5 inches in diameter; waste pipes for kitchen sinks on five or more floors, 3 inches in diameter; main soil pipe for three family tenement-houses exceeding three stories, 4 inches in diameter.

In every building where there is a leader connected to the drain, if there are any plumbing fixtures, there must be at least one four (4) inch pipe extending above the roof for ventilation.

Soil and waste pipes must have proper Y branches for all fixture connections.

Branch soil and waste pipe must have a fall of at least one-quarter inch per foot. Short T Y branches will be permitted on vertical lines only. Long one-quarter bends and long T Y's are permitted. Short one-quarter bends and double hubs, short roof increasers and common offsets are prohibited.

All traps must be protected from syphonage and back pressure, and the drainage system ventilated by special lines of vent pipes.

All vent pipe lines and main branches must be of iron, steel or brass. They must be increased in diameter and extended above the roof as required for waste pipes. They may be connected with the adjoining soil or waste line well above the highest fixture, but this will not be permitted when there are fixtures on more than six floors.

All offsets must be made at an angle of not less than forty-five degrees to the horizontal, and all lines must be connected at the bottom with a soil or waste-pipe or the drain in such a manner as to prevent the accumulation of rust scale.

Branch vent pipes should be kept above the top of all connecting fixtures, to prevent the use of vent pipes as soil or waste pipes. They will not be permitted lower than the outlet of the highest fixture in the group. Branch vent pipes should be connected as near to the crown of the trap as possible.

The sizes of vent pipes throughout must not be less than the following:

For main vents and long branches, two inches in diameter; for water-closets on three or more floors, three inches in diameter; for other fixtures on less than seven floors, two inches in diameter; three-inch vent pipe will be permitted for less than nine stories; for more than eight and less than sixteen stories, four inches in diameter; for more than fifteen and less than twenty-two stories, five inches in diameter; for more than twenty-one stories, six inches in diameter; branch vents for traps larger than two inches, 2 inches in diameter; branch vents for traps two inches or less, one and one-half inches in diameter.

For fixtures other than water-closets and slop sinks and for more than eight (8) stories, vent pipes may be one (1) inch smaller than above stated.

No sheet metal, brick or other flue shall be used as a vent pipe.

Earthenware traps for water-closets and slop sinks, must be ventilated from the branch soil or waste pipe just below the trap, and this branch vent pipe must be so connected as to prevent obstruction, and no waste pipe connected between it and the fixture. Earthenware traps must have no vent horns.

Every fixture must be separately trapped by a water-sealing trap placed as close to the fixture outlet as possible.

A set of wash trays may connect with a single trap, or into the trap of an adjoining sink, provided both sink and tub-waste outlets are on the same side of the waste line, and the sink is nearest the line. When so connected the waste pipe from the wash trays must be branched in below the water seal.

The discharge from any fixture must not pass through more than one trap before reaching the house drain.

All traps must be well supported and set true with respect to their water levels.

All traps must have a water seal of at least one and one-half inches.

No masons, cesspool, bell, pot, bottle or D trap will be permitted, nor any form of trap that is not self-cleaning, nor that has interior chamber or mechanism, nor any trap, except earthenware ones that depend upon interior partitions for a seal.

All fixtures, other than water-closet and urinals must have strong metallic strainers or bars over the outlets to prevent obstruction of the waste-pipe.

All exposed or accessible traps, except water-closet traps, must have brass trap screws for cleaning the trap, placed on the inlet side, or below the water level.

Traps for water-closets must not be less than four inches in diameter; traps for slop sinks must not be less than two inches in diameter; traps for kitchen sinks must not be less than two inches in diameter; traps for wash trays must not be less than two inches in diameter; traps for urinals must not be less than two inches in diameter; traps for other fixtures must not be less than one and one-half inches in diameter.

Overflow pipes from fixtures must in all cases be connected on the inlet side of traps.

All earthenware traps must have heavy brass floor plates soldered to the lead bends and bolted to the trap flange, and the joint made gas tight with red or white lead. The use of rubber washers for floor connections is prohibited.

Earthenware water-closets must be set on marble or slate in all new work, and when it is not impossible to use it because of water-pipes or other obstructions in all alterations of old work.

Safe and refrigerator waste-pipes must be of galvanized iron, and be not less than one (1) inch in diameter with lead branches of the same size with strainers over the inlets secured by a bar soldered to the lead branch.

Safe waste-pipes must not connect directly with any part of the plumbing system.

Safe waste-pipes must either discharge over an open, water supplied, publicly placed, ordinarily used sink, placed not more than three and one-half feet above the cellar floor, or they may discharge upon the cellar floor.

The safe waste-pipe from a refrigerator cannot discharge upon the ground or floor. It must discharge over an ordinary portable pan, or over some properly trapped water-supplied sink, as above.

The branches on vertical lines must be made by Y fittings and be carried up to the safe with as much pitch as possible.

Lead safes must be graded and neatly turned over bevel strips at their edges.

Where there is an offset on a refrigerator waste-pipe in the cellar, there must be cleanouts to control the horizontal part of the pipe.

In tenement-houses and lodging-houses the refrigerator waste-pipes must extend above the roof and must not be larger than one and one-half inches, nor the branches smaller than one and one-quarter inches. These branches must have full size accessible traps.

Refrigerator waste-pipes, except in tenement-houses, and all safe waste-pipes, must have brass flap valves at their lower ends.

Fixtures—In tenement-houses, lodging-houses, factories and workshops the water-closets must be set on marble, slate or tile and the back and ends of the water-closet apartment must be made water-proof with some similar non-absorbent material.

The closets must be set open and free from all inclosing woodwork.

Where water-closets will not support a rim seat, the seat must be supported on galvanized-iron legs, and a drip tray must be used.

The general water-closet accommodations for a tenement or lodging house cannot be placed in the cellar and no water-closet can be placed outside of the building.

In tenement-houses and lodging-houses there must be one water-closet on each floor, and when there is more than one family on a floor there will be one additional water-closet for every two additional families.

In lodging-houses where there are more than 15 persons on any floor there must be an additional water-closet on that floor for every 15 additional persons or fraction thereof.

In all other sewer-connected occupied buildings there must be at least one water-closet, and there must be additional closets so that there will never be more than 15 persons per closet.

In tenement-houses and lodging-houses the water closet and urinal apartments must have a window opening to the outer air, or to a ventilating shaft, not less than 10 square feet in area.

In all buildings the outside partition of such apartment must extend to the ceiling or be independently ceiled over, and these partitions must be airtight, except at the bottom of the door, which must be cut away or provided with openings to promote ventilation. The outside partitions must include a window opening to outer air on the lot whereon the building is situated, or some other approved means of ventilation must be provided. When necessary to properly light such apartments the upper part of the partitions must be made of glass. The interior partitions of such apartments must be dwarf partitions.

Pan, valve, plunger and other water-closets having an unventilated space, or whose walls are not thoroughly washed at each discharge, will not be permitted.

All water-closets must have earthenware flushing rim bowls. "Pipe wash" bowls or hoppers will not be permitted.

Long hoppers will not be permitted except where there is an exposure to frost.

Where water-closet or other fixture traps are of iron they must be porcelain lined.

Drip trays must be enameled on both sides and secured in place.

Water-closets and urinals must never be connected directly with or flushed from the water supply pipes.

Water-closets and urinals must be flushed from a separate cistern, the water from which is used for no other purpose.

The overflow of cisterns may discharge into the bowls of the closet, but in no case connect with any part of the drainage system.

Iron water-closet cisterns and automatic urinal cisterns are prohibited.

The copper lining of water-closet and urinal cisterns must be not lighter than ten (10) ounce copper.

Water-closet flush pipes must not be less than one and one-fourth inches and urinal flush pipes one (1) inch in diameter, and if of lead must not weigh less than two and one-half pounds and two pounds per lineal foot. Flush couplings must be of full size of the pipe.

Latrine's trough water-closets and similar appliances may be used only on written permit from the Superintendent of Buildings, and must be set and arranged as may be required by the terms of the permit.

All urinals must be constructed of materials impervious to moisture that will not corrode under the action of urine. The floor and walls of the urinal apartments must be lined with similar non-absorbent and non-corrosive material.

The platforms or treads of urinal stalls must never be connected independently to the plumbing system, nor can they be connected to any safe waste-pipe.

Iron troughs or urinals must be enameled or galvanized. In tenement-houses and lodging-houses sinks must be entirely open on iron legs or brackets without any inclosing woodwork. Wooden and cement washubs are prohibited.

All water-closets and other plumbing fixtures must be provided with a sufficient supply of water for flushing, to keep them in a proper and cleanly condition.

When the water-pressure is not sufficient to supply freely and continuously all fixtures, a house-supply tank must be provided, of sufficient size to afford an ample supply of water to all fixtures at all times. Such tanks must be supplied from the pressure or by pumps, as may be necessary; when from the pressure ball-cocks must be provided.

If water-pressure is not sufficient to fill house-tank, power-pumps must be provided for filling them in tenement-houses, lodging-houses, factories and workshops.

Tanks must be covered so as to exclude dust, and must be so located as to prevent water contamination by gases and odors from plumbing fixtures.

House supply-tanks must be of wood or iron or of wood lined with tinned and planished copper.

House-tanks must be supported on iron beams.

The overflow pipe should discharge upon the roof where possible, and in such cases should be brought down to within six (6) inches of the roof, or it must be trapped and discharged over an open and water-supplied sink not in the same room, not over 3½ feet above the floor. In no case shall the overflow be connected with any part of the plumbing system.

Emptying-pipes for such tanks must be provided and be discharged in the manner required for overflow-pipes, and may be branched into overflow pipes.

No service-pipes or supplying-pipes should be run, and no tanks, flushing-cisterns or water-supplied fixtures should be placed where they will be exposed to frost.

Where so placed they shall be properly packed and boxed in such a manner as to prevent freezing and to the satisfaction of the plumbing inspector.

The entire plumbing and drainage system within the building must be tested by the plumber, in the presence of a plumbing inspector, under a water or air test, as directed. All pipes must remain uncovered in every part until they have successfully passed the test. The plumber must securely close all openings as directed by the inspector of plumbing. The use of wooden plugs for this purpose is prohibited.

The water test will be applied by closing the lower end of the main house drain and filling the pipes to the highest opening above the roof with water. If the drain or any part of the system is to be tested separately, there must be a head of water at least six (6) feet above all parts of the work so tested, and special provision must be made for including all joints and connections in at least one test.

The air test will be applied with a force-pump and mercury column under ten pounds pressure equal to 20 inches of mercury. The use of spring gauges is prohibited.

After the completion of the work, when the water has been turned on and the traps filled, the plumber must make a peppermint or smoke test in the presence of a plumbing inspector and as directed by him.

The material and labor for the tests must be furnished by the plumber. Where the peppermint test is used two ounces of oil of peppermint must be provided for each line up to five stories and basement in height, and for each additional five stories or fraction thereof one additional ounce of peppermint must be provided for each line.

HOWARD PAYSON WILDS, Deputy Commissioner of Public Works.

APPROVED PAPERS.

The Mayor, Aldermen and Commonalty of the City of New York do ordain as follows:

Section 1. The Mayor of the City of New York may, subject to the restrictions hereinafter mentioned, grant a license to any peddler, hawker, vender or huckster of any kind of merchandise using a horse and wagon, hand-cart, push-cart, or other vehicle, for the use of streets of this city, excepting such as are specially restricted by ordinance.

Sec. 2. All applicants for such license shall produce satisfactory evidence to the Mayor of his or her good, moral character; that they are citizens of the United States and residents of the State of New York one year; or, if not citizens, for no fault of their own, they must certify to the following facts: That their period of residence in this country has not been a sufficient length of time to become such; and if not able, in consequence, to secure naturalization papers, they must at least show that they have "declared their intentions." Anyone who cannot present satisfactory evidence as above required shall not be granted a license; and anyone who, on presentation of "first papers," and otherwise complying with all requirements, obtains a license, shall at the proper time give evidence of full citizenship, otherwise such license shall become null and void.

Sec. 3. The license fees shall be as follows: To fish dealers, twenty-five dollars; to all vendors plying their trade with horse and wagon, twenty-five dollars; and all others, contemplated by this act, using a wagon, push-cart, or other vehicle of like character, fifteen dollars. Vendors of merchandise carrying upon their persons a basket, tray, or other receptacle for their goods, shall pay five dollars; and the license granted shall be in force and effect for one year only, unless revoked. Applications for new licenses, under the same conditions as originally granted, may be made annually. No one person shall be granted more than one license per year.

Sec. 4. Application for licenses shall be made on a blank form, specially prepared by the Clerk of the Common Council, after a letter or authorization for such application shall have been signed by the Alderman of the district in which said applicant resides, and which shall set forth the full name of applicant, place of residence, length of time resident in this State, if a citizen of the United States, and if not, why not, and if not a citizen, whether application has been made for first papers and the same obtained, whether license for the same privilege has been previously obtained, and if so, where and for what period, and such other data or information as the Mayor may desire. All must be certified to under oath.

Sec. 5. The Mayor shall have power to grant licenses, subject to the conditions contained in section 4.

Sec. 6. No license under this act shall be transferable.

Sec. 7. All licenses under this act shall contain a full text of this ordinance, printed at least in English, German, Italian and Hebrew.

Sec. 8. The Mayor shall furnish each licensee with a tin sign, duly and conspicuously numbered, bearing the words "Merchandise No. —," and a metal badge containing the same wording. The number of the license, the sign and the badge must correspond. The sign shall be attached to the wagon, cart or vehicle, where it can be readily seen, near the front thereof, and the badge must be worn on the left breast of the outer garment of the licensee at all times when conducting his or her business on the public streets.

Sec. 9. Anyone using either the sign or badge, as referred to in the preceding section, without authority, shall be punishable, upon conviction, of a fine of not more than twenty-five dollars or a fine and imprisonment of not less than five nor more than ten days. Anyone failing to return to the Mayor the sign and badge legally obtained at the expiration of the term of license shall pay a penalty of one dollar for each or either, collectible by the Mayor's Marshal.

Sec. 10. No licensed peddler, vender, hawker or huckster shall permit any cart, wagon or vehicle, owned or controlled by him or her, to stop, remain upon or otherwise encumber any street, avenue or highway for a longer period than thirty minutes at one time on any one block. Nor shall any such peddler, vender, hawker or huckster stand in front of any premises, the owner of or the lessee of the ground floor thereof objecting thereto. At the expiration of the thirty minutes aforesaid, the cart, wagon or vehicle must be removed to a point at least one block distant.

Sec. 11. No licensed peddler, vender, hawker or huckster shall permit his or her cart, wagon or vehicle to stand on any street, avenue or highway within twenty-five feet of any corner of the curb, nor within ten feet of any other peddler, vender, hawker or huckster.

Sec. 12. No licensed peddler, vender, hawker or huckster shall use any part of a sidewalk or crosswalk for conducting his or her business, and shall not cast or throw any thing or article of any kind or character upon the street, nor interfere with or prevent to any degree the Street Cleaning Department from sweeping or cleaning, or from gathering street sweepings, etc., from the streets or avenues.

Sec. 13. No licensed peddler, vender, hawker or huckster shall blow upon or use or suffer or permit to be blown upon or used any horn or other instrument for the purpose of giving notice of the approach of any cart, wagon or vehicle in order to sell thereout any article of merchandise.

Sec. 14. No licensed peddler, vender, hawker or huckster shall cry or sell his or her wares or merchandise on Sunday, nor after 9 o'clock P. M., nor cry his or her wares before 8 o'clock in the morning of any day except Saturdays, when they shall be allowed to cry or sell their wares or merchandise until 11.30 o'clock P. M.

Sec. 15. No licensed peddler, vender, hawker or huckster shall be allowed to cry his or her wares within two hundred and fifty feet of any school, court-house, church or hospital, between the hours of 8 o'clock A. M. and 4 o'clock P. M. on school days; or stop or remain in Nassau street, between Spruce and Wall streets, from 8 o'clock A. M. to 6 o'clock P. M.

Sec. 16. All licensed peddlers, vendors, hawkers or hucksters who shall locate on any street or avenue under the provisions of this ordinance with intention to remain thirty minutes or part thereof, shall use the east and the north sides of streets and avenues up to noon, and the west and south sides after noon of any day so using them. This section shall not apply to such vendors who are moving along the streets, avenues or highways, without intention to locate at any one point,

for thirty minutes, or who may be called on by the resident of any building, for the purpose of making a purchase.

Sec. 17. The violation of any of the provisions of this ordinance, or any part thereof, shall be deemed a misdemeanor; and the offender shall, upon conviction, be fined or imprisoned, or both.

Sec. 18. All ordinances or parts of ordinances inconsistent with this ordinance, or in conflict therewith, are hereby repealed.

Sec. 19. This act shall take effect immediately.

Adopted by the Board of Aldermen, September 29, 1896. Approved by the Mayor, October 13, 1896.

Bidders must satisfy themselves by personal examination of the location of the proposed work, and by such other means as they may prefer, as to the nature and extent of the work, and shall not, any time after the submission of an estimate, dispute or complain of such statement, nor assert that there was any misunderstanding in regard to the nature or amount of the work to be done.

The estimates received will be publicly opened by the head of the said Department at the place and hour last above mentioned and read.

Each bid or estimate shall contain and state the name and place of residence of each of the persons making the same; the names of all persons interested with him or them therein; and if no other person be so interested, it shall distinctly state that fact; that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Common Council, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate, that the several matters stated therein are in all respects true. Where more than one person is interested it is requisite that the verification be made and subscribed by all the parties interested.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in the City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person making the estimate, they will, on its being so awarded, become bound as his or her sureties for its faithful performance, and that if he shall omit or refuse to execute the same, they will pay to the Corporation any difference between the sum to which he would be entitled on its completion and that which the Corporation may be obliged to pay to the person or persons to whom the contract may be awarded at any subsequent letting; the amount in each case to be calculated upon the estimated amount of the work by which the bids are tested. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of this contract, over and above all his debts of every nature and over and above his liabilities as bail, surety or otherwise, and that he has offered himself as a surety in good faith and with the intention to execute the bond required by section 27 of chapter 8 of the Revised Ordinances of the City of New York, if the contract shall be awarded to the person or persons for whom he consents to become surety. The adequacy and sufficiency of the security offered to be approved by the Comptroller of the City of New York.

No bid or estimate will be received or considered unless accompanied by either a certified check upon one of the State or National banks of the City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the security required for the faithful performance of the contract. Such check or money must not be included in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the estimate-box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited to and retained by the City of New York as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid the amount of his deposit will be returned to him.

N. B.—The prices must be written in the estimate and also stated in figures, and all estimates will be considered as informal which do not contain bids for all items for which bids are herein called, or which contain bids for items for which bids are not herewith called for. Permission will not be given for the withdrawal of any bid or estimate. No bid will be accepted from, or contract awarded to, any person who is in arrears to the Corporation upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

The Department of Public Parks reserves the right to reject any or all the bids received in response to this advertisement if it should deem it for the interest of the City so to do, and to readvertise until satisfactory bids or proposals shall be received, but the contract when awarded will be awarded to the lowest bidder.

Blank forms for proposals and forms of the several contracts which the successful bidders will be required to execute, can be had, the plans can be seen and information relative to them can be had at the office of the Department, Arsenal, Central Park.

Persons desirous of removing any remains therein interred will, upon application to this Department, be given permits to make such removals until November 15, 1896. THE ARSENAL, CENTRAL PARK, September 10, 1896.

DEPARTMENT OF DOCKS.

TO CONTRACTORS. (No. 553.)

PROPOSALS FOR ESTIMATES FOR DREDGING AT AND IN SHERMAN'S CREEK, ON THE HARLEM RIVER.

ESTIMATES FOR DREDGING AT AND IN Sherman's Creek, on the Harlem river, will be received by the Board of Commissioners at the head of the Department of Docks, at the office of said Department, on Pier "A," foot of Battery place, North river, in the City of New York, until 12 o'clock M. of

TUESDAY, NOVEMBER 10, 1896, at which time and place the estimates will be publicly opened by the head of said Department. The award of the contract, if awarded, will be made as soon as practicable after the opening of the bids.

Any person making an estimate for the work shall furnish the same in a sealed envelope to said Board, at said office, on or before the day and hour above named, which envelope shall be indorsed with the name or names of the person or persons presenting the same, the date of its presentation and a statement of the work to which it relates.

The bidder to whom the award is made shall give security for the faithful performance of the contract, in the manner prescribed and required by ordinance, in the sum of Seven Thousand Five Hundred Dollars.

The Engineer's estimate of the quantities of material necessary to be dredged is as follows:

Mud and sand dredging, about85,000 cubic yards.

N. B.—Bidders are required to submit their estimates upon the following express conditions, which shall apply to and become a part of every estimate received:

1st. Bidders must satisfy themselves, by personal examination of the location of the proposed dredging, and by such other means as they may prefer, as to the accuracy of the foregoing Engineer's estimate, and shall not at any time after the submission of an estimate dispute or complain of the above statement of quantities, nor assert that there was any misunderstanding in regard to the nature or amount of the work to be done.

2d. Bidders will be required to complete the entire work to the satisfaction of the Department of Docks and in substantial accordance with the specifications of the contract. No extra compensation beyond the amount payable for the work before mentioned, which shall be actually performed at the price therefor per cubic yard, to be specified by the lowest bidder, shall be due or payable for the entire work.

The work to be done under this contract is to be commenced within five days after receiving a notification from the Engineer-in-Chief of the Department of Docks that any part or portion of the dredging therein mentioned is required. The dredging to be done under this contract will be in the bed of the Harlem river and in the bed of Sherman's Creek, on the Harlem river, in conformity with the accompanying drawing, marked "Dredging at Sherman's Creek, H. R." and is to be done from time to time, and in such quantities and at such times as may be directed by the Engineer, and all the work under this contract is to be fully completed on or before the 15th day of January, 1897.

The damages to be paid by the contractor for each day that the contract, or any part thereof, that may be ordered or directed by the Engineer, may be unfulfilled after the time fixed for the fulfillment thereof has expired are, by a clause in the contract, determined, fixed and liquidated at Fifty Dollars per day.

Bidders will state in their estimates a price, per cubic yard, for doing such dredging, in conformity with the approved form of agreement and the specifications therein set forth, by which prices the bids will be tested. This price is to cover all expenses of every kind involved in or incidental to the fulfillment of the contract, including any claim that may arise through delay, from any cause, in the performing of the work thereunder.

Bidders will distinctly write out, both in words and in figures, the amount of their estimates for doing this work.

The person or persons to whom the contract may be awarded will be required to attend at this office with the sureties offered by him or them and execute the contract within five days from the date of the service of a notice to that effect, and in case of failure or neglect so to do he or they will be considered as having abandoned it and as in default to the Corporation, and the contract will be readvertised and relet and so on until it be accepted and executed.

Bidders are required to state in their estimates their names and places of residence, the names of all persons interested with them therein, and if no other person be so interested the estimate shall distinctly state the fact; also that the estimate is made without any consultation, connection or agreement with and the amount thereof has not been disclosed to any other person or persons making an estimate for the same purpose, and is not higher than the lowest regular market price for the same kind of labor or material, and is in all respects fair and without collusion or fraud; that no combination or pool exists of which the bidder is a member, or in which he is directly or indirectly interested, or of which he has knowledge, either personal or otherwise, to bid a certain price, or not less than a certain price, for said labor or material, or to keep others from bidding thereon, and also that no member of the Common Council, Head of a Department, Chief of a Bureau, Deputy thereof or Clerk therein, or any other officer or employee of the Corporation of the City of New York, or any of its Departments, is directly or indirectly interested in this estimate or in the supplies or work to which it relates, or in any portion of the profits thereof, and has not been given, offered or promised, either directly or indirectly, any pecuniary or other consideration by the bidder or anyone in his behalf with a view to influencing the action or judgment of such officer or employee in this or any other transaction heretofore had with this Department, which estimate must be verified by the oath, in writing, of the party making the estimate, that the several matters stated therein are in all respects true. *Where more than one person is interested, it is requisite that the verification be made and subscribed to by all the parties interested.*

Each estimate shall be accompanied by the consent, in writing, of two householders or freeholders in the City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person or persons making the estimate, they will, upon its being so awarded, become bound as his or her sureties for its faithful performance, and that if said person or persons shall omit or refuse to execute the contract, they will pay to the Corporation of the City of New York any difference between the sum to which said person or persons would be entitled upon its completion and that which said Corporation may be obliged to pay to the person to whom the contract may be awarded at any subsequent letting, the amount in each case to be calculated upon the estimated amount of the work to be done by which the bids are tested. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in the City of New York and is worth the amount of the security required for the completion of the contract, over and above all his debts of every nature and over and above his liabilities as bail, surety or otherwise, and that he has offered himself as a surety in good faith and with the intention to execute the bond required by law. The adequacy and sufficiency of the security offered will be subject to approval by the Comptroller of the City of New York after the award is made and prior to the signing of the contract.

No estimate will be received or considered unless accompanied by either a certified check upon one of the State or National banks of the City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the security required for the faithful performance of the contract. Such check or money must not be included in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the estimate-box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be

returned to the persons making the same within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited to and retained by the City of New York as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid the amount of his deposit will be returned to him.

Bidders are informed that no deviation from the specifications will be allowed unless under the written instructions of the Engineer-in-Chief.

No estimate will be accepted from, or contract awarded to, any person who is in arrears to the Corporation, upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

In case two or more bids are received at the same price, which price is the lowest price bid, the contract, if awarded, will be awarded by lot to one of the lowest bidders.

THE RIGHT TO DECLINE ALL THE ESTIMATES IS RESERVED IF DEEMED FOR THE INTEREST OF THE CORPORATION OF THE CITY OF NEW YORK.

Bidders are requested, in making their bids or estimates, to use the blank prepared for that purpose by the Department, a copy of which, together with the form of the agreement, including specifications, and showing the manner of payment for the work, can be obtained upon application therefor at the office of the Department.

FRIDAY, OCTOBER 30, 1896, at which time and place the estimates will be publicly opened by the head of said Department. The award of the contract, if awarded, will be made as soon as practicable after the opening of the bids.

Any person making an estimate for the work shall furnish the same in a sealed envelope to said Board, at said office, on or before the day and hour above named, which envelope shall be indorsed with the name or names of the person or persons presenting the same, the date of its presentation and a statement of the work to which it relates.

The bidder to whom the award is made shall give security for the faithful performance of the contract, in the manner prescribed and required by ordinance, in the sum of Three Hundred and Fifty Dollars.

The Engineer's estimate of the nature, quantities and extent of the work is as follows:

Labor of removing the existing pier and dumping board covering an area of about 7,588 square feet, including about 115 lineal feet of sewer.

N. B.—Bidders are required to submit their estimates upon the following express conditions, which shall apply to and become a part of every estimate received: 1st. Bidders must satisfy themselves by personal examination of the location of the proposed work, and by such other means as they may prefer, as to the accuracy of the foregoing Engineer's estimate, and shall not at any time after the submission of an estimate dispute or complain of the above statement of quantities, nor assert that there was any misunderstanding in regard to the nature or amount of the work to be done.

2d. Bidders will be required to complete the entire work to the satisfaction of the Department of Docks, and in substantial accordance with the specifications of the contract. No extra compensation, beyond the amount payable for the work before mentioned, which shall be actually performed at the price therefor to be specified by the lowest bidder, shall be due or payable for the entire work.

The work to be done under the contract is to be commenced within five days from the date of the receipt of a notice from the Engineer-in-Chief of the Department of Docks that the work may be begun, and the entire work is to be fully completed on or before the expiration of three weeks after said date, and the damages to be paid by the contractor for each day that the contract may be unfulfilled after the time fixed for the fulfillment thereof has expired, are, by a clause in the contract, fixed and liquidated at One Hundred Dollars per day.

Bidders will state in their estimates a price for the whole of the work to be done, in conformity with the approved form of agreement and the specifications therein set forth, by which price the bids will be tested. This price is to cover all expenses of every kind involved in or incidental to the fulfillment of the contract, including any claim that may arise through delay from any cause in the performing of the work thereunder.

Bidders will distinctly write out, both in words and in figures, the amount of their estimates for doing this work.

The person or persons to whom the contract may be awarded will be required to attend at this office with the sureties offered by him or them, and execute the contract within five days from the date of the service of a notice to that effect; and in case of failure or neglect so to do, he or they will be considered as having abandoned it, and as in default to the Corporation, and the contract will be readvertised and relet, and so on until it be accepted and executed.

Bidders are required to state in their estimates their names and places of residence, the names of all persons interested with them therein, and if no other person be so interested the estimate shall distinctly state the fact; also that the estimate is made without any consultation, connection or agreement with, and the amount thereof has not been disclosed to any other person or persons making an estimate for the same purpose, and is not higher than the lowest regular market price for the same kind of labor or material, and is in all respects fair and without collusion or fraud; that no combination or pool exists of which the bidder is a member, or in which he is directly or indirectly interested, or of which he has knowledge, either personal or otherwise, to bid a certain price, or not less than a certain price, for said labor or material, or to keep others from bidding thereon; and also that no member of the Common Council, Head of a Department, Chief of a Bureau, Deputy thereof or Clerk therein, or any other officer or employee of the Corporation of the City of New York, or any of its departments, is directly or indirectly interested in this estimate, or in the supplies or work to which it relates, or in any portion of the profits thereof, and has not been given, offered or promised, either directly or indirectly, any pecuniary or other consideration by the bidder or anyone in his behalf with a view to influencing his action or judgment in this or any other transaction heretofore had with this Department, which estimate must be verified by the oath, in writing, of the party making the estimate, that the several matters stated therein are in all respects true. *Where more than one person is interested it is requisite that the verification be made and subscribed to by all the parties interested.*

Each estimate shall be accompanied by the consent, in writing, of two householders or freeholders in the City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person or persons making the estimate, they will, upon its being so awarded, become bound as his or their sureties for its faithful performance; and that if said person or persons shall omit or

refuse to execute the contract, they will pay to the Corporation of the City of New York any difference between the sum to which said person or persons would be entitled upon its completion and that which said Corporation may be obliged to pay to the person to whom the contract may be awarded at any subsequent letting, the amount in each case to be calculated upon the estimated amount of the work to be done, by which the bids are tested. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him to execute the same, the amount of the deposit made by him shall be forfeited to and be retained by the City of New York as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid, the amount of his deposit will be returned to him.

Bidders are informed that no deviation from the specifications will be allowed unless under the written instructions of the Engineer-in-Chief.

No estimate will be accepted from, or contract awarded to, any person who is in arrears to the Corporation upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

The award of the contract will be made as soon thereafter as practicable.

Each estimate must state the name and place of residence of the person making the same, and his place of business, the names of all persons interested with him therein, and, if no other be so interested it shall distinctly state that fact; that it is made without any connection with any other person making an estimate for the same work, and without collusion or fraud, and that no member of the Common Council or other officer of the Corporation is directly or indirectly interested therein or in any portion of the profits thereof.

Each estimate must be made in strict conformity to the ordinances of the City and the specifications; it must be verified by the oath of the party making the same, accompanied by the consent and oath or affirmation of two sureties, householders or freeholders of the City of New York and placed in a sealed envelope. The envelope must be indorsed, "Estimate for Printing and Distributing the City Record," together with the name and place of business of the party making the estimate, and the date of its presentation. The security required on the contract will be Twenty-five Thousand (\$25,000) Dollars.

No estimate will be considered unless accompanied by either a certified check upon one of the National or State banks of the City of New York, drawn to the order of the Comptroller, or money to the amount of One Thousand Two Hundred and Fifty (1,250) Dollars. Such check or money must not be inclosed in the sealed envelope containing the estimate, but must be handed to the Supervisor of the City Record or clerk who has charge of the estimate-box, at the office of the City Record, No. 2 City Hall, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited to and be retained by the City of New York as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid, the amount of the deposit will be returned to him.

The Record to be a paper in size and general form like the publication of 1896, and to contain such matter only as is authorized and required by law to be published therein, and at the times and in the manner required by the present laws, and matter that may be required during the year by any new or amended laws.

BIDS ARE INVITED AS FOLLOWS:

First—A price per thousand ems of plain or ordinary composition (which shall include the compiling, correcting, arranging and classifying of and type-setting on the registry lists), and a price per thousand ems of rule and figure work, which prices shall include the entire cost of printing, furnishing, folding, binding and distributing during the year 1897, commencing on the second day of January, 1,050 copies of each issue and supplements, and such number of the registry lists and indices, as may be required (not exceeding 1,050 of each), of the paper known as the CITY RECORD, in conformity with the specifications given, and in conformity with the laws as they now exist or as they may exist during 1897, except what may be paid under the terms of the contract for changes and alterations.

Second—For changes and alterations per hour.
Third—The total price per token of four pages for all additional expense incurred in printing, furnishing, folding, binding and distributing any additional number of copies of the CITY RECORD and supplements that may be required beyond the stipulated number of 1,050, said additional copies to conform in every respect to the specifications of the regular authorized edition.

Fourth—The price per volume for binding, in quarterly volumes, one hundred, or less, of the copies of the CITY RECORD and indices, for which the contractor is to set aside and preserve for each quarter during the year, said binding to be similar and equal in kind and quality to the binding of the CITY RECORD volumes during the present year. The bound volumes of each quarter are to be delivered within six weeks after the copy for the index for that quarter has been given to the contractor.

Fifth—Reprinting in pamphlet form, as directed, from types used in the CITY RECORD, 475 copies of the Proceedings of the meetings of the Board of Aldermen and 250 copies of the Approved Papers of the same, in style of samples shown in the office of the Supervisor of the City Record, including corrections, overrunning, making-up, paper, presswork, folding, stitching, trimming, and all other charges, the price per printed page.

A contract will not be made upon an estimate unless it appears that the party making the estimate has a printing establishment, with adequate facilities, in the City of New York.

The undersigned officers reserve the right to reject any or all proposals if in their judgment the same may be for the best interests of the City.

Copies of the specifications and the form of contract to be entered into may be had at the office of the Supervisor of the City Record, No. 2 City Hall.

By order of
WILLIAM L. STRONG, Mayor; FRANCIS M. SCOTT, Counsel to the Corporation; C. H. T. COLLIS, Commissioner of Public Works.

JOHN A. SLEICHER, Supervisor of the City Record.

OFFICE OF THE CITY RECORD, NO. 2 CITY HALL, NEW YORK, October 30, 1896.

PROPOSALS TO FURNISH THE COURTS AND DEPARTMENTS OF THE GOVERNMENT OF THE CITY OF NEW YORK WITH BLANK, PRINTED OR LITHOGRAPHED BOOKS, DOCKETS, LIBERS, BINDING COVERS, BINDING, ETC., FOR 1897.

SEALED ESTIMATES FOR SUPPLYING THE City Government with Blank, Printed or Lithographed Books, Dockets, Libers, etc., will be received at this office until 12 M. on Tuesday, November 24, 1896, at or about which time said estimates will be publicly opened and read at a meeting of the Board of City Record, to be held in the Mayor's Office.

Each person making an estimate shall inclose it in a sealed envelope, sealed with sealing-wax, marked "Estimate for Furnishing Blank Books, etc.," and with his name and the date of its presentation.

Each estimate shall state the name and place of residence of the person making it; if there is more than one such person their names and residences must be given; and if only one person is interested in the estimate it must distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose and is in all respects fair and without collusion or fraud; and that no member

of the Common Council, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof. The estimate must be verified by the oath, in writing, of the party or parties making it, that the several matters stated therein are in all respects true. Where more than one person is interested it is requisite that the verification be made and subscribed by all the parties interested.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in the City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person making the estimate, they will, upon its being so awarded, become bound as his sureties for its faithful performance, and that if he shall omit or refuse to execute the same they will pay to the Corporation any difference between the sum to which he would be entitled upon its completion and that which the Corporation may be obliged to pay to the person to whom the contract may be awarded at any subsequent letting; the amount in each case to be calculated upon the estimated amount of the work by which the bids are tested. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in the City of New York and is worth the amount of the preliminary security required, and in the proposals stated, over and above all his debts of every nature and over and above his liabilities as bail, surety and otherwise, and that he has offered himself as a surety in good faith and with the intention to execute the bond required by law. The adequacy and sufficiency of the security offered will be subject to approval by the Comptroller of the City of New York after the award is made and prior to the signing of the contract.

The amount of security required upon the execution of the contract will be in each case fifty per cent. of the estimated cost of the articles awarded to each contractor; the amount of preliminary security to be given until each award, and in which the sureties shall justify, shall be One Thousand Dollars.

Should the person to whom the contract may be awarded neglect or refuse to accept the contract within five days after written notice that the same has been awarded to his bid or proposal, and that the adequacy and sufficiency of the security offered has been approved by the Comptroller, or if he accepts but does not execute the contract and give the proper security, he shall be considered as having abandoned it and as in default to the Corporation, and the contract will be readvertised and relet, as provided by law.

No estimate will be accepted from, or a contract awarded to, any person who is in arrears to the Corporation upon debt or contract, or who is a defaulter as surety or otherwise upon any obligation to the Corporation, and no estimate will be accepted from, or a contract awarded to, any person not having at the time of making his estimate full, suitable and sufficient facilities for performing the work specified in his estimate.

No estimate will be received or considered unless accompanied by either a certified check upon one of the National or State banks of the City of New York, drawn to the order of the Comptroller, or money, to the amount of Five Hundred Dollars, fifty per centum of the amount of the preliminary security required for the faithful performance of the contract. Such check or money must not be inclosed in the sealed envelope containing the estimate, but must be handed to the Supervisor of the City Record, who has charge of the estimate-box; and no estimate can be deposited in said box until such check or money has been examined by said Supervisor and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited to and be retained by the City of New York as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid, the amount of his deposit will be returned to him.

Permission will not be given for the withdrawal of any bid or estimate, and the right is expressly reserved by the undersigned city officers to reject any or all bids which may be deemed prejudicial to the public interests.

A contract will be made with the lowest bidder for the books required by any Court or Department, or for any item in the specifications involving an expenditure of more than Five Hundred Dollars, or for any item or items for which the Board of City Record may decide to let a separate contract or contracts. Bidders must therefore give not only their bids by items, but also the aggregate bid for the work for any department or departments on which bids are offered.

The making and delivery of all the books must be completed within ninety days from the execution of the contract, unless delayed by the Courts, Departments, or Bureaus. They must be made and delivered in the order to be prescribed by the Supervisor of the City Record, to the end that the immediate needs of the Departments shall be supplied. Such of them as are indicated on or before January 2, 1897.

For particulars of the quantities of books required resort must be had to the specifications on file in the Department of Public Works, or to be procured from the Supervisor of the City Record.

All the books in the Departments for which bids are asked, and unless specially excepted, are to be bound in the style indicated by the descriptive sheets of such book or books on file in the office of the Supervisor of the City Record, No. 2, City Hall, or according to instructions to be given by the Supervisor of the City Record.

When L. L. Brown's, Crane Brothers' or Weston's Ledger Paper, Crane & Co.'s Bond or Parchment Deed, has been used in the making of any book or books, the duplicates called for shall be made of paper of corresponding make and grades, unless otherwise directed by the Supervisor of the City Record. When other paper has been used the contractor can use Whiting's, Crane Brothers', L. L. Brown's Advance, or any other paper of equal quality corresponding with the sizes and weights of paper called for by these specifications or as may be directed by the Supervisor of the City Record.

For books from 7½ x 9½ to 10 x 17 inches, the weight of the paper shall be the equivalent of Flat Cap, 14 x 17, 18 lbs.; of Crown, 15 x 19, 22 lbs.; of Demy, 16 x 21, 28 lbs.; of Medium, 18 x 23, 36 lbs.; of Royal, 19 x 24, 44 lbs.; of Super Royal, 20 x 28, 54 lbs.

The books must contain printed headings, and such additional printed matter in the body as may be required; they shall be ruled and paged consecutively, or otherwise, as ordered, lettered on back or side, or both, as required, and shall be tagged with alphabetical or extended tags, of color and size as specified in requisitions therefor.

Special ruling and special printing when called for, as indicated in the specifications.

The contractor will be required to deliver, with the books, at the City Record office, as well as with the bill when rendered to the CITY RECORD, a perfect and complete page from each book, and written thereon, its title, a description of its binding, a statement of how it is to be paged and indexed, the amount of lettering on the back and side, and the number of pages in the book, embracing details sufficient to accurately describe the manner in which the book was made and bound.

Each book shall contain a small label, of a style to be given by the Supervisor, which label shall be furnished without charge and be pasted on the inside of the cover of the book, stating that it was made for the CITY RECORD, and giving the number of the book, as indicated in the sample, the specifications, or by the Supervisor. No other label shall be placed in the book, and it shall contain no other printing except that which is ordered by the Department.

By order of
WILLIAM L. STRONG, Mayor; FRANCIS M. SCOTT, Counsel to the Corporation; C. H. T. COLLIS, Commissioner of Public Works.
