amend the Greater New York Charter relative to the Sinking Fund of The City of  
New York for the Redemption of the City Debt, by adding a new section to be  
known as section two hundred and twenty-two, providing for the issue of additional  
bonds of The City of New York, to be called General Fund Bonds, and by amending  
section one hundred and sixty-nine of said Charter," provides:

First—"The Board of Commissioners of the Sinking Fund, in the year 1903,  
and in each year thereafter until all of the bonds and stock which are redeemable  
from the fund known as the 'Sinking Fund of The City of New York for the Re-  
demption of the City Debt,' shall have matured, shall set apart out of the revenues  
and income of said Sinking Fund, except the income and accumulation thereof  
derived from assets held by said Sinking Fund on January 1, 1903, and except also  
the income and accumulation thereof derived from the amount to be thus annually  
set apart, a sum which, with the accumulation of interest thereon, together with the  
said assets, of said Sinking Fund and the earnings and accumulations thereof, shall  
be sufficient to redeem at maturity all the bonds and stock of the City of New York  
which are redeemable from said Sinking Fund."

Second—"At least five weeks before the annual meeting of the Board of Alder-  
men, in each and every year, for the purpose of receiving the Assessment Rolls re-  
quired to be delivered by the Board of Taxes and Assessments to the Board of

year out of such revenues and income for the Redemption of Bonds and Stock."

Third—"If in any year the said estimated amount of revenues or income of said  
Sinking Fund, excepting the income and accumulation thereof derived from the

from the amounts annually set apart for the 'Redemption of Bonds and Stock as  
by this section required shall exceed the amount required to be set apart in such  
year as in this section provided, the Board of Commissioners of the Sinking Fund  
may, in its discretion, at the time of making said certificates to the Board of Alder-  
men, determine to invest the whole or any part of the amount of such excess in  
General Fund Bonds of the City of New York for the account of the "Sinking Fund  
of the City of New York for the Redemption of the City Debt," but such invest-

The following communication was received from the Commissioner of Docks, relative to a lease of bulkhead on the northerly side of Pier (new) 52, North River, near the foot of Gansevoort street, Borough of Manhattan, to Patrick McDonald:

May 1, 1908.

Hon. GEORGE B. McCLELLAN, Mayor and Chairman of the Commissioners of the Sinking Fund:

SIR—I beg to advise that after due consideration I am of the opinion that the interest of the City would be best served by leasing to Patrick McDonald, who has made application therefor, the bulkhead commencing at the northerly side of Pier (new) 52, North River, near the foot of Gansevoort street and extending northerly a distance of 102 feet for a term of five years from May 10, 1908, or as soon thereafter as said lease shall be approved by the Commissioners of the Sinking Fund at a rental of \$1,650 per annum, the lessee to have the privilege of erecting and maintaining on said bulkhead during the term of the lease an ice-bridge, scales and tally-house, said structures to be erected under the direction and supervision of the Engineer-in-Chief of this Department; the remaining terms and conditions of the lease to be similar to those contained in the form of lease now used by this Department, a copy of which can be seen and examined at the office of the Department, Pier "A," Battery place, North River.

This bulkhead was formerly occupied as an ice-bridge by Patrick McDonald at a rental of \$522.50 per annum and until recently by Charles Mulford at a rental of \$1,500 per annum.

Yours respectfully,

ALLEN N. SPOONER, Commissioner.

In connection therewith the Comptroller presented the following report and offered the following resolution:

May 14, 1908.

I consider \$1,650 a fair rental for this bulkhead and would recommend that the lease be made as proposed by the Commissioner of Docks and Ferries.

CHANDLER WITHINGTON,  
Chief Engineer, Department of Finance.

Approved:

H. A. METZ, Comptroller.

Resolved, That the Commissioners of the Sinking Fund hereby approve of and consent to the execution, by the Commissioner of Docks, of a lease to Patrick McDonald, of the bulkhead commencing at the northerly side of Pier (new) 52, North River, near the foot of Gansevoort street, and extending northerly a distance of 102 feet, for a term of five years from May 27, 1908, at a rental of sixteen hundred and fifty dollars (\$1,650) per annum, the lessee to have the privilege of erecting and maintaining on said bulkhead during the term of the lease an ice-bridge, scales and tally-house, said structures to be erected under the direction and supervision of the Engineer-in-Chief of the Department of Docks and Ferries. The remaining terms and conditions of the lease to be similar to those contained in the form of lease now in use by the Department of Docks and Ferries and as recommended by the Commissioner of Docks in communication dated May 1, 1908.

The Committee on Buildings respectfully reports that the lease of the premises at Morris Park avenue and Lincoln street, Borough of The Bronx, formerly occupied as an annex to Public School 34, but recently turned over to the Commissioners of the Sinking Fund, will expire July 1, 1908; that the City Superintendent states that, owing to residential developments in the vicinity, and pending the erection of an addition to Public School 34, these premises should be reoccupied; that the owner has consented, in writing, to renew the lease on the same terms and conditions as at present exist; and that the Department of Health and Buildings certify that the sanitary and structural conditions are satisfactory.

The following resolution is submitted for adoption:

The rent being the same as heretofore paid, I would respectfully recommend that the Commissioners of the Sinking Fund adopt a resolution authorizing a renewal of the lease of the premises on the northeast corner of Morris Park avenue and Lincoln street, Borough of The Bronx, formerly occupied as an annex to Public School 34, for a period of three years from July 1, 1908, at an annual rental of \$1,650, payable quarterly, and upon the same terms and conditions as contained in the existing lease. Lessor, Ephraim B. Levy.

Respectfully submitted for approval.

MORTIMER J. BROWN,  
Appraiser of Real Estate, Department of Finance.

Approved:

H. A. METZ, Comptroller.

Resolved, That the Commissioners of the Sinking Fund hereby approve of and consent to the execution, by the Board of Education, of a renewal of the lease to the City from Ephraim B. Levy, of the premises on the northeasterly corner of Morris Park avenue and Lincoln street, Borough of The Bronx, for a period of three years from July 1, 1908, at an annual rental of sixteen hundred and fifty dollars (\$1,650), payable quarterly and upon the same terms and conditions as contained in the existing lease; the Commissioners of the Sinking Fund deeming the said rent fair and reasonable and that it would be for the interests of the City that such lease be made.

The report was accepted and the resolution unanimously adopted.

The following communication was received from the Commissioner of Street Cleaning relative to a lease of premises at Nos. 349 to 353 Rivington street, Borough of Manhattan:

April 30, 1908.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman, Sinking Fund Commission:

SIR—I request the consent and approval of your Board, pursuant to section 541 of the Charter, for a lease from T. Connolly (residing at No. 355 Rivington street, City) of the premises consisting of the three (3) lots known as Nos. 349, 351 and 353 Rivington street, in the Borough of Manhattan, with the brick stable erected thereon, for a term of ten (10) years from date of occupancy, at the annual rental of \$8,000, payable quarterly, the lessor, before the said occupancy, to put the premises in first-class condition and repair, and to make certain alterations, including the enlargement and fitting up of the office, the widening of the stairs and the removal of the stalls on the next to the top floor, and thereafter to make all outside repairs, the City to make the inside repairs and to pay for the Croton water used on the premises during the term of the lease.

Respectfully,

FOSTER CROWELL, Commissioner.

In connection therewith the Comptroller presented the following report and offered the following resolution:

May 8, 1908.

Hon. HERMAN A. METZ, Comptroller:

SIR—Hon. Foster Crowell, Commissioner of the Department of Street Cleaning, in a communication addressed to the Commissioners of the Sinking Fund under date of April 30, 1908, requests that a lease be authorized of the stable premises Nos. 349, 351 and 353 Rivington street, Borough of Manhattan, for a term of ten years from the date of occupancy, at an annual rental of \$8,000, payable quarterly, the lessor before said occupancy to put the premises in first-class condition and repair and to make certain alterations, including the enlargement and fitting up of the office, the widening of the stairs and the removal of the stalls on the next to the top floor, and thereafter to make all outside repairs; the City to make inside repairs and to pay for Croton water used on the premises during the term of the lease. Lessor, T. Connolly, No. 355 Rivington street.

This is a new six-story brick stable, covering a plot 66 by 75 feet in size, located on the south side of Rivington street, 22 feet west of Tompkins street. The stable now has on the second, third, fourth and fifth floors forty-eight single stalls and one double stall on each floor, or a total of two hundred stalls. The top floor is used for the storage of hay and grain, and the street floor for vehicles. The building has a large electric elevator, toilets and gas on every floor, and appears to be substantially built.

The rental asked, \$8,000 a year, is at the rate of \$40 a year for each stall, which is fair and reasonable, but the building when changed as required by the Department of Street Cleaning will have stalls on only three floors, or a total of 144 single stalls and three double or box stalls.

In my opinion the rent asked is fair and reasonable, and I would therefore respectfully recommend that the Commissioners of the Sinking Fund authorize the execution of a lease of the stable premises known as Nos. 349, 351 and 353 Rivington street, Borough of Manhattan, for a term of ten years from the date of occupancy, at an annual rental of \$8,000, payable quarterly, the lessor before said occupancy to put the premises in first-class condition and repair and to make certain alterations, including the enlargement and fitting up of the office, the widening of the stairs and the removal of the stalls on the next to the top floor, and thereafter to make all outside repairs; the City to make inside repairs and to pay for the Croton water used on the premises during the term of the lease. Lessor, T. Connolly.

Respectfully submitted for approval,

MORTIMER J. BROWN,  
Appraiser of Real Estate, Department of Finance.

Approved:

H. A. METZ, Comptroller.

Resolved, That the Commissioners of the Sinking Fund hereby approve of and consent to the execution by the Commissioner of Street Cleaning, of a lease to the City, from T. Connolly, of the stable premises known as Nos. 349, 351 and 353 Rivington street, Borough of Manhattan, for a term of ten years from the date of occupancy, at an annual rental of eight thousand dollars (\$8,000), payable quarterly, the lessor before said occupancy to put the premises in first-class condition and repair and to make certain alterations, including the enlargement and fitting up of the office, the widening of the stairs and the removal of the stalls upon the next to the top floor, and thereafter to make outside repairs; the City to make inside repairs and to pay for the Croton water used on the premises during the term of the lease; the Commissioners of the Sinking Fund deeming the said rent fair and reasonable and that it would be for the interests of the City that such lease be made.

The report was accepted and the resolution unanimously adopted.

May 5, 1908.

Hon. N. TAYLOR PHILLIPS, Secretary, Commissioners of the Sinking Fund, No. 280 Broadway, Manhattan:

DEAR SIR—I beg to advise you that at a meeting of the Committee on Buildings, held on the 4th inst., your communication, under of date of April 14, 1908, transmitting a copy of a resolution adopted by the Commissioners of the Sinking Fund on said date, relative to making all leases of property for the purposes of The City of New York payable quarterly, was considered.

The Acting Superintendent of School Buildings reported that all leases executed by the Board of Education are made payable quarterly, excepting the lease of the Hebrew Orphan Asylum, which stipulates that the nominal rental of \$1 per annum shall be paid yearly and that four other leases are on a month to month basis.

Monthly leases are executed by the Board of Education only when the expected execution of a new school building renders entering into a yearly lease inadvisable.

The Committee thereupon ordered that the Commissioners of the Sinking Fund be advised to the foregoing effect, and that they be asked to waive their requirements in regard to making all leases payable quarterly, so far as they relate to the lease of the Hebrew Orphan Asylum, and the lease of premises for the purposes of the Department of Education on a month to month basis whenever the contemplated opening of a new school building renders a renewal on a yearly basis inadvisable.

Respectfully yours,

A. EMERSON PALMER,  
Secretary, Board of Education.

In connection therewith the Comptroller offered the following resolution:

Resolved, That the Commissioners of the Sinking Fund hereby waive the requirements contained in resolution adopted April 14, 1908, in regard to making the rental of leases payable quarterly, in so far as it relates to the lease entered into by the Board of Education with the Hebrew Orphan Asylum and the leases of premises leased for the purposes of the Department of Education on a month to month basis, whenever the contemplated opening of a school building renders the rental on a yearly basis inadvisable, and as requested by the Board of Education in communication dated May 5, 1908.

Which resolution was unanimously adopted.

The following communication was received from the Bridge Department relative to a renewal of the lease of premises at No. 472 Water street, Borough of Manhattan:

May 8, 1908.

Hon. N. TAYLOR PHILLIPS, Secretary, Sinking Fund Commission, No. 280 Broadway, New York City:

SIR—The lease between The City of New York and Charles H. Meyer for the floor above the ground floor of the premises No. 472 Water street, Borough of Manhattan, expires June 1, 1908.

As these premises are necessary for the transaction of business of the Department of Bridges, the same being used for office purposes in connection with the construction of the Manhattan Bridge, and as the lease contains a clause permitting a further renewal, I therefore request the Commissioners of the Sinking Fund to authorize a renewal of the lease for the premises for a period of one year from June 1, 1908, upon the same terms and conditions at the annual rental of \$480.

Respectfully,

JOHN H. LITTLE,  
Deputy and Acting Commissioner.

In connection therewith the Comptroller presented the following report and offered the following resolution:

May 20, 1908.

The rent being the same as heretofore paid, I would respectfully recommend that the Commissioners of the Sinking Fund adopt a resolution authorizing a renewal of the lease of the floor above the ground floor of the premises No. 472 Water street, Borough of Manhattan, for a period of one year from June 1, 1908, at an annual rental of \$480, payable quarterly, and upon the same terms and conditions as contained in the existing lease. Lessor, Charles H. Meyer.

Respectfully submitted for approval,

MORTIMER J. BROWN,  
Appraiser of Real Estate, Department of Finance.

Approved:

H. A. METZ, Comptroller.

The report was accepted and the resolution unanimously adopted.

The Comptroller presented the following report and offered the following resolution relative to a renewal of the lease of premises No. 341 Pleasant avenue, Borough of Manhattan, for use of the Department of Health:

May 21, 1908.

Hon. HERMAN A. METZ, Comptroller:

SIR—The Honorable Thomas Darlington, Commissioner of the Department of Health, in a communication to the Commissioners of the Sinking Fund under date of April 22, 1908, requests that a lease of the premises No. 341 Pleasant avenue, Borough of Manhattan, used as a hospital for the treatment of diseases of the eyes among school children, be renewed for a period of two years from June 26, 1908, at a rental of \$900 a year, payable quarterly, otherwise upon the same terms and conditions as contained in the present existing lease.

This is an increase of \$300 a year in the rent, but in explanation it may be stated that when this house was first leased the plumbing was in bad condition and required to be entirely renewed, and the City then agreed to put in new plumbing and make other repairs, and for that reason the rent was fixed at \$600 a year. The house is a three-story brick corner dwelling, with twelve rooms, bath and two toilets, and is in good repair.

Deeming the rent now asked not excessive, I would respectfully recommend that the Commissioners of the Sinking Fund authorize a renewal of the lease of the premises No. 341 Pleasant avenue, Borough of Manhattan, for a period of two years from June 26, 1908, at a rental of \$900 a year, payable quarterly, otherwise upon the same terms and conditions as are contained in the present existing lease. Lessor, Christian Schneider, No. 784 Eleventh avenue, Manhattan.

Respectfully submitted for approval,

MORTIMER J. BROWN,  
Appraiser of Real Estate, Department of Finance.

Approved:

H. A. METZ, Comptroller.

Resolved, That the Comptroller be and is hereby authorized and directed to execute a renewal of the lease to the City, from Christian Schneider, of premises No. 341 Pleasant avenue, Borough of Manhattan, for use of the Department of Health, for a period of two years from June 26, 1908, at an annual rental of nine hundred dollars (\$900), payable quarterly, otherwise upon the same terms and conditions as contained in the existing lease; the Commissioners of the Sinking Fund deeming the said rent fair and reasonable, and that it would be for the interests of the City that such lease be made.

The report was accepted and the resolution unanimously adopted.

The Comptroller presented the following report and offered the following resolution, relative to an amendment to resolution authorizing a renewal of the lease to the City of premises No. 277 Avenue C, Borough of Manhattan, for use of the Department of Health:

May 21, 1908.

Hon. HERMAN A. METZ, Comptroller:

SIR—On April 17, 1907, the Commissioners of the Sinking Fund adopted a resolution authorizing a renewal of the lease of the premises No. 277 Avenue C, Borough of Manhattan, from John J. Brodbeck. Since this date Messrs. Weil & Mayer have become the owners of these premises, and I would accordingly recommend that the resolution adopted on April 17, 1907, be modified by striking out the words "John J. Brodbeck" and inserting the name "Weil & Mayer."

Respectfully submitted for approval,

MORTIMER J. BROWN,

Appraiser of Real Estate, Department of Finance.

Approved:

H. A. METZ, Comptroller.

Resolved, That the resolution adopted by this Board at meeting held April 17, 1907, authorizing a renewal of the lease to the City, from John J. Brodbeck, of premises known as No. 277 Avenue C, in the Borough of Manhattan, for use of the Department of Health, for a period of one year from October 2, 1907, be and the same is hereby amended by substituting as the name of the lessor "Weil & Mayer," in place of "John J. Brodbeck."

The report was accepted and the resolution unanimously adopted.

The Comptroller presented the following report and offered the following resolution relative to a lease of rooms in the Park Row Building, Nos. 13 to 21 Park row, Borough of Manhattan, for the use of City Departments:

May 7, 1908.

Hon. HERMAN A. METZ, Comptroller:

SIR—The City of New York occupies a number of rooms in the Park Row Building for the use of the several municipal departments, the leases of which expired on April 1, 1908. The owners of the premises for a number of years past have held that the City was a hold-over tenant for five years under the old omnibus lease of 1899, for such rooms as were included therein, and have refused to execute a lease to the City under the renewals authorized by the Commissioners of the Sinking Fund, and the Commissioners of the Sinking Fund have been authorizing the payment of rent without the necessity of entering into a lease. Representatives of the owners of the property have now requested that a lease be entered into for a period of one year, and that if prepared by the Corporation Counsel, they will execute the same. The following are the rooms and the department occupying the same, together with the amount of rent paid in each instance:

Rooms.	Department.	Amount Per Annum.

The City has also under lease Rooms 932 to 939, used by the Department of Water Supply, Gas and Electricity, rental of which amounts to \$3,426.90, which makes a total rental paid in the building by the City of \$99,137.46 per annum.

The rent being the same as heretofore paid I would respectfully recommend that the Commissioners of the Sinking Fund approve of the lease of the above named rooms for the department set opposite thereof and the amounts designated, for a period of one year from April 1, 1908, at a total annual rental of \$95,710.56, the owners to furnish light, heat, elevator and janitor service. Lessors, Park Row Realty Company.

Respectfully submitted for approval,

MORTIMER J. BROWN,

Appraiser of Real Estate, Department of Finance.

Approved:

H. A. METZ, Comptroller.

Resolved, That the Corporation Counsel be and is hereby requested to prepare a lease to the City from the Park Row Realty Company, of the following rooms in the Park Row Building, Nos. 13 to 21 Park row, for the use of City Departments:

For the Supervisor of the City Record, Rooms 803 to 814, inclusive.

For the Department of Street Cleaning, Rooms 1401 to 1439, inclusive.

For the President of the Borough of Manhattan, Rooms 1301 to 1317, inclusive; 1331 to 1339, inclusive; 1601 to 1619, inclusive; 1622 to 1635, inclusive; 1701 to 1714, inclusive; 1736 to 1739, inclusive; 1801 to 1817, inclusive; 1832 to 1837, inclusive.

Department of Water Supply, Gas and Electricity, Rooms 915 to 931, inclusive; 1036 to 1039, inclusive; 1318 to 1330, inclusive; 1501 to 1539, inclusive; 1620 and 1621; 1636 to 1639, inclusive; 1715 to 1731, inclusive; 1907 to 1914, inclusive.

Department of Bridges, Rooms 1136, 1201 to 1239, inclusive, on the twelfth floor and hall room space.

—for a period of one year from April 1, 1908, at an annual rental of ninety-five thousand, seven hundred and ten dollars and fifty-six cents (\$95,710.56), payable quarterly; the owners to furnish light, heat, elevator and janitor service; and the Commissioners of the Sinking Fund deeming the said rent fair and reasonable, and that it would be for the interests of the City that such lease be made, the Comptroller be and is hereby authorized and directed to execute the same when prepared and approved by the Corporation Counsel, as provided by sections 149 and 217 of the Greater New York Charter.

The report was accepted and the resolution unanimously adopted.

The following communication was received from the Department of Water Supply, Gas and Electricity relative to a lease of Room 1906 in the Park Row Building, Nos. 13 to 21 Park row, Borough of Manhattan:

May 7, 1908.

N. TAYLOR PHILLIPS, Esq., Secretary, Sinking Fund Commission:

DEAR SIR—Of the suite of rooms occupied as the Commissioner's office of this Department on the nineteenth floor of the Park Row Building, Nos. 13 to 21 Park row, Manhattan, Nos. 1907 to 1914 inclusive, Room 1913 is occupied by three Stenographers. The windows of this room open on the first court of the building, and the light is very poor. The Department has tried to improve the light by placing reflectors on the windows, but this has not proved very successful.

Room 1906 has just been vacated. It faces the Park row side of the building, and would be very desirable quarters for the Stenographers. It contains 158 square feet, with two windows, and can be rented at the rate of \$1.65 per square foot, which is the special rate allowed to the City on the rooms now occupied by it in this building.

I would respectfully request that the Sinking Fund Commission authorize the lease of this room for the purposes of this Department, the lease to expire at the expiration of the lease now covering the other floors and rooms which this Department occupies in this building and subject to the same conditions.

The Department would like to take immediate possession of this room, and would therefore respectfully request your early consideration of this application.

Respectfully,

M. F. LOUGHMAN, Deputy Commissioner.

In connection therewith the Comptroller presented the following report and offered the following resolution:

May 21, 1908.

Hon. HERMAN A. METZ, Comptroller:

SIR—Mr. M. F. Loughman, Deputy Commissioner of the Department of Water Supply, Gas and Electricity, in a communication to the Commissioners of the Sinking Fund, under date of May 7, requests that a lease be authorized of Room 1906 in the Park Row Building, Nos. 13 to 21 Park row, Borough of Manhattan, for the use of the Stenographers in that Department (their present room 1913, being too dark and being required for other purposes), for a period from the date of occupation to April 1, 1909, at a rental of \$259.05 a year, payable quarterly, otherwise upon the same terms and conditions as are contained in the lease of the adjoining rooms.

The Department is now occupying Rooms 1907 to 1914, inclusive, at a rental of \$1.65 a square foot, and the area of this additional Room 1906 is 157 square feet. I also find that this room is needed as stated, and I therefore respectfully recommend that this room be leased for a period from the date of occupation until April 1, 1909, at a rental of \$259.05 a year, payable quarterly, otherwise upon the same terms and conditions as contained in the leases of the other rooms in this building occupied by the Department. Lessor, Park Row Realty Company.

Respectfully submitted for approval,

MORTIMER J. BROWN,

Appraiser of Real Estate, Department of Finance.

Approved:

H. A. METZ, Comptroller.

Resolved, That the Corporation Counsel be and is hereby requested to prepare a lease to the City from the Park Row Realty Company of Room 1906 in the Park Row Building, Nos. 13 to 21 Park row, Borough of Manhattan, for use of the Department of Water Supply, Gas and Electricity, for a period from the date of occupation until April 1, 1909, at an annual rental of two hundred and fifty-nine dollars and five cents (\$259.05), payable quarterly, otherwise upon the same terms and conditions as contained in the leases of other rooms in this building occupied by the Department; and the Commissioners of the Sinking Fund deeming the said rent fair and reasonable and that it would be for the interests of the City that such lease be made, the Comptroller be and is hereby authorized and directed to execute the same when prepared and approved by the Corporation Counsel, as provided by sections 149 and 217 of the Greater New York Charter.

The report was accepted and the resolution unanimously adopted.

The following communication was received from the Department of Water Supply, Gas and Electricity relative to a lease of Room 7 on the third floor of premises No. 122 Bowery, Borough of Manhattan:

May 11, 1908.

N. TAYLOR PHILLIPS, Esq., Secretary, Sinking Fund Commission:

DEAR SIR—Application is hereby made for the rental of Room 7, third floor of premises No. 122 Bowery. It contains about 208 square feet and can be rented at the rate of \$18 per month. The Department now occupies several rooms in this building, which are used for the purpose of conducting tests of gas. Owing to the extended examinations, the use of additional apparatus and the keeping of a number of records, the present quarters are not large enough for the proper accommodation of that Bureau.

The Department would like to take immediate possession of this room, and I would respectfully recommend that the Sinking Fund Commission authorize the Comptroller to enter into a lease with the owners of the building, the Van Norden Trust Company, the lease to expire on January 1, 1909, with the privilege of renewal, this being the date on which the lease of Rooms 10, 11 and 12 terminate, the rent to be paid at the end of each quarter. The same terms and conditions as exist under the lease affecting the other rooms shall apply to Room 7.

Respectfully,

M. F. LOUGHMAN, Deputy Commissioner.

In connection therewith the Comptroller presented the following report and offered the following resolution:

May 21, 1908.

Hon. HERMAN A. METZ, Comptroller:

SIR—Mr. M. F. Loughman, Deputy Commissioner of the Department of Water Supply, Gas and Electricity, in a communication addressed to the Commissioners of the Sinking Fund under date of May 11, 1908, requests that a lease be secured of Room 7 in the premises No. 122 Bowery, Borough of Manhattan, for a period from the date of occupation until January 1, 1909, with the privilege of renewal for a period of one year, at a rental of \$18 per month, the room being needed for the Bureau for conducting tests of gas.

Upon examination I find that this room is 17 feet 9 inches by 16 feet 9 inches, and contains 297 square feet of floor surface, not 208, as stated in Mr. Loughman's letter. I also find the present rooms occupied by this Bureau in this building, being

Room 4 on the second floor and Rooms 10, 11 and 12 on the third floor, are very much overcrowded, and therefore this additional room is necessary. The rent asked, \$18 a month, is fair and reasonable, being less than the rate per square foot now paid by the City for three other rooms on the same floor.

I would therefore respectfully recommend that the Commissioners of the Sinking Fund authorize the execution of a lease of Room 7 on the third floor of the premises No. 122 Bowery, Borough of Manhattan, for a period from the date of occupation until January 1, 1909, with the privilege of renewal for a period of one year, at an annual rental of \$216, payable quarterly, otherwise upon the same terms and conditions as contained in the existing leases of the other rooms in this building occupied by the Department. Lessor, Van Norden Trust Company.

Respectfully submitted for approval,

MORTIMER J. BROWN,  
Appraiser of Real Estate, Department of Finance.

Approved:

H. A. METZ, Comptroller.

Resolved, That the Corporation Counsel be and is hereby requested to prepare a lease to the City from the Van Norden Trust Company, of Room 7 on the third floor of premises No. 122 Bowery, Borough of Manhattan, for the use of the Department of Water Supply, Gas and Electricity, for a period from the date of occupation to November 1, 1909, with the privilege of renewal for a period of one year, at an annual rental of two hundred and sixteen dollars (\$216), payable quarterly, otherwise upon the same terms and conditions as contained in the existing lease of the other rooms in this building occupied by the Department; and the Commissioners of the Sinking Fund deeming the said rent fair and reasonable and that it would be for the interests of the City that such lease be made, the Comptroller be and is hereby authorized and directed to execute the same when prepared and approved by the Corporation Counsel, as provided by sections 149 and 217 of the Greater New York Charter.

The report was accepted and the resolution unanimously adopted.

The Comptroller presented the following report and offered the following resolution, relative to a renewal of the lease of rooms at No. 51 Chambers street, Borough of Manhattan, for use of the Department of Taxes and Assessments:

May 4, 1908.

Hon. HERMAN A. METZ, Comptroller:

SIR—The lease of rooms 26, 27, 28, 29 and 30 on the fourth floor of the Emigrant Industrial Savings Bank, No. 51 Chambers street, Borough of Manhattan, occupied by the Surveyor to the Department of Taxes and Assessments, expired on May 1, 1908.

The rent being the same as heretofore paid, and it being necessary for the business of the Department that this lease be renewed, I would respectfully recommend that the Commissioners of the Sinking Fund approve of the leasing of the rooms now occupied by the Department for the further period of one year from May 1, 1908, upon the same terms and conditions as were contained in the last existing lease.

Respectfully submitted for approval,

MORTIMER J. BROWN,  
Appraiser of Real Estate, Department of Finance.

Approved:

H. A. METZ, Comptroller.

Resolved, That the Comptroller be and is hereby authorized and directed to execute a renewal of the lease to the City, from the Emigrants Industrial Savings Bank, of rooms Nos. 26, 27, 28, 29 and 30 and the exclusive use of the hallway as now enclosed on the fourth floor of the building No. 51 Chambers street, Borough of Manhattan, for use of the Department of Taxes and Assessments, for a period of one year from May 1, 1908, at an annual rental of three thousand four hundred and thirty-five dollars (\$3,435), payable quarterly and on the same terms and conditions as contained in the existing lease; the Commissioners of the Sinking Fund deeming the said rent fair and reasonable and that it would be for the interests of the City that such lease be made.

The report was accepted and the resolution unanimously adopted.

Note—At this point the Comptroller arrived, and thereafter participated in the proceedings.

The Comptroller presented the following report and offered the following resolution, relative to a lease of space at the foot of Dock street, Borough of Brooklyn, for use of the President of the Borough of Brooklyn, for the purposes of a berth for a free floating bath:

May 21, 1908.

Hon. HERMAN A. METZ, Comptroller:

SIR—The Hon. Bird S. Coler, President of the Borough of Brooklyn, in a communication to the Commissioners of the Sinking Fund, under date of May 12, 1908, requests that a lease be secured from the New York Dock Company of a berth for a free floating bath at the foot of Dock street, Borough of Brooklyn, for the season of 1908, June 1 to October 1, at a rental of \$500.

Regarding this, I have to report that the City occupied this berth for a bath in the summer of 1906, at a rental of \$500 for the season, but did not have the bath there last year, as the premises were occupied by other people. Finding the rent fair and reasonable I would respectfully recommend that the Commissioners of the Sinking Fund authorize a lease of the berth for a free floating bath at the foot of Dock street, Borough of Brooklyn, for the season of 1908, extending from June 1 to October 1, at a rental of \$500, payable monthly. Lessor, New York Dock Company.

Respectfully submitted for approval,

MORTIMER J. BROWN,

The following communication was received from the Tenement House Department, relative to a lease of premises on the seventh floor of the Haffen Building, Nos. 2804 to 2808 Third avenue, Borough of The Bronx, and additional rooms at No. 44 Court street, Borough of Brooklyn:

April 9, 1908.

N. TAYLOR PHILLIPS, Esq., Secretary, Commissioners of Sinking Fund, No. 280 Broadway:

DEAR SIR—I wish to call your special attention to the crowded condition of the Tenement House Department, both in the Boroughs of The Bronx and Brooklyn, and at the same time place before your notice the urgent need of additional floor space in both these offices.

Below I give you extracts from letters recently received from Deputy Commissioner McKeown of Brooklyn, also Acting Superintendent Cunnion in The Bronx.

Mr. McKeown, who is in charge of the Brooklyn office, which is situated at No. 44 Court street, Temple Bar Building, says: "I herewith submit a memorandum of what we have, and the space we require in addition, to properly conduct the business of the office—the total space now at our disposal is 6,333 square feet, occupied as follows:

"Twelfth floor, 3,646 square feet.

"Southeast tower, 1,377 square feet (Bureau of Records and filing room).

"Northeast tower, 775 square feet (Stenographic Division).

"Fourth floor, 535 square feet (storage purposes).

"The Executive Division takes up 1,266 square feet of the office room on the twelfth floor. This is entirely inadequate, for in addition to the ordinary clerical work required in that division, I have had to crowd in desk room for the Vacation Division, Final Inspection on new Buildings, Dismissal Division and Public Plan Examiner.

"The space allowed for the public in the Superintendent's office is about 12 feet by 12 feet, and the space allowed for the public in the general office is not more than 12 feet by 30 feet, which is entirely inadequate.

"In order to accommodate the various desks properly as enumerated above, we should have an additional four thousand (4,000) square feet of floor space."

In re Mr. Cunnion's letter as to additional floor space required in The Bronx office, which is situated at Nos. 2804 and 2806 Third avenue, he writes as follows: "I again desire to urge upon you the necessity of providing additional floor space for this office, and I would respectfully ask you to give this matter your earliest consideration.

"In order to make clear the requirements of additional floor space, I herewith submit a statement concerning the occupancy of each room as at present arranged.

"Building Nos. 2804 and 2806 Third avenue, The Bronx, second floor.

"Public Room—The room is entirely too inadequate. The table in the centre used exclusively by architects and builders for amending plans and applications is very often overcrowded and is too small for the purpose, when this room is further augmented by the public who have business to transact with the various divisions of this office, it is very much overcrowded. This difficulty of conducting business is seriously hampered.

"General Office—The space devoted to the general office is also overcrowded and inadequate, so much so that we cannot find room for the extra filing cabinets and desks that are needed.

"Superintendent's Room—This space is also ample but cannot be fittingly lessened as it is also largely used by the public.

"Plan Examiner's Room—The space devoted to the examination of plans is adequate for the purpose, but as the Police Officers and Inspectors of the Final Division also occupy this room, the work of examining the plans is greatly interfered with.

"Inspector's Room—The Inspector's room is ample. This room is devoted to the filing of old building violations, plans and applications; a portion of same is also used for storage. This room will be reduced when the adjoining stock room is enlarged to meet requirements.

"Bureau of Records—The space devoted to the Bureau of Records is at present the one that is most inadequate. There is absolutely no room for the new filing cabinets that we are so much in need of, and the employees in this room are at all times crowded in their work.

"Stenographic Division—The employees in this room have not sufficient space for the proper performance of their work. The room should undoubtedly be enlarged. I respectfully recommend in order to relieve the present congested accommodations in the office, and to provide for any normal increase in the Department's business, that additional floor space of seven hundred and fifty (750) square feet be provided for the ensuing year.

"In the event of the new space being procured, the Inspector's Bureau may be readily removed to the intended space. The Stenographic Division and the Bureau of Records may then be correspondingly enlarged.

"I desire to say that at present such space is vacant on the top floor of this building at an annual rental of seven hundred and fifty dollars (\$750)."

Yours truly,

EDMOND J. BUTLER, Commissioner.

In connection therewith the Comptroller presented the following report and offered the following resolution:

April 28, 1908.

Hon. HERMAN A. METZ, Comptroller:

SIR—Hon. Edward J. Butler, Commissioner of the Tenement House Department, in a communication addressed to the Commissioners of the Sinking Fund under date of April 9, 1908, states that the branch offices of his Department in the Boroughs of Brooklyn and The Bronx are very much overcrowded and in need of more office space. He quotes from letters from Deputy Commissioner McKeown

of Brooklyn and Acting Superintendent Cunnon of The Bronx, to show the present crowded condition of their offices and their request for additional space, amounting to 4,000 square feet in the Brooklyn office and 750 square feet in The Bronx office.

The Brooklyn office of the Tenement House Department now occupies rooms in the Temple Bar Building, Court and Joralemon streets. These rooms consist of a dark room, No. 401, on the fourth floor, used for storage of supplies; the whole of the Court street front on the twelfth floor, used for general offices; one floor in the northeast tower, and two floors in the southeast tower, a total of 6,333 square feet (lease calls for 6,250 square feet), for which the City pays a total rent of \$8,311 a year. The present lease, which expires May 1, 1908, was recently renewed for one year.

Deputy Commissioner McKeown at that time had hopes of securing additional rooms on the Joralemon front, twelfth floor, but the present tenants of those rooms have decided not to remove and therefore there is no additional space in the Temple Bar Building which can now be obtained for the use of the Tenement House Department. Under these circumstances Deputy Commissioner McKeown stated, and I fully agree with him, that while the present offices are very much overcrowded and more space is needed, it will be impossible to obtain any relief until after May 1, 1909. In the meantime, unless the agents of the Temple Bar Building will agree to provide the necessary additional floor space on the twelfth floor of that building after May 1, 1909, I would suggest that the Tenement House Department seek a location in some other building where sufficient space can be obtained upon one floor for the entire needs of its Brooklyn branch.

As to The Bronx branch of the Tenement House Department, I desire to report that it now occupies two entire floors, the second and third, in the Haffen Building, Nos. 2804, 2806 and 2808 Third avenue. These rooms are somewhat crowded at the present time, but not so much as the rooms in Brooklyn. However, there seems to be need for more space. The two floors now occupied by the Department amount to 3,046 square feet of floor surface, for which the City is paying a rent of \$2,795.68, or about 91 cents a square foot. The top or seventh floor of this building is an open loft.

Mr. Cunnon's letter suggests that a room on the seventh floor, containing 750 square feet, be taken at a rental of \$750. This would be \$1 a square foot, which is more than the City is now paying for the second and third floors. Mr. Cunnon states that a room containing 500 square feet on the Third avenue front of the building would be amply sufficient for the purposes of the Department, in addition to the space now occupied, and the City should not pay more for this space than it is paying on the lower floors, namely 91 cents a square foot.

The agents of the building were informed that the City would not pay any higher price than is now being paid by it for rooms in the building, and they have agreed to partition off 500 square feet on the Third avenue front of the seventh floor and allow the City to take the same on the same terms and conditions as contained in the present lease.

I would therefore respectfully recommend that the Commissioners of the Sinking Fund approve of the request of the Commissioner of the Tenement House Department and authorize a lease of 500 square feet on the Third avenue front of the seventh floor of the Haffen Building, Nos. 2804, 2806 and 2808 Third avenue, Borough of The Bronx, for a period from the date of occupation to October 6, 1908 (the date when the lease for other rooms in the building expires), at an annual rental of \$458.50, payable quarterly. The owners to partition off the room and do all the necessary work required by the Tenement House Department; to furnish light, heat, elevator service and water. Lessor, Matthias Haffen.

Respectfully submitted for approval,

MORTIMER J. BROWN,

Appraiser of Real Estate, Department of Finance.

Approved:

H. A. METZ, Comptroller.

Resolved, That the Corporation Counsel be and is hereby requested to prepare a lease to the City, from Matthias Haffen, of 500 square feet of space on the Third avenue front of the seventh floor of the Haffen Building, Nos. 2804 to 2808 Third avenue, Borough of The Bronx, for use of the Tenement House Department, for a period from the date of occupation to October 6, 1908, at an annual rental of four hundred and fifty-eight dollars and fifty cents (\$458.50), payable quarterly; the owners to partition off the room and do all the necessary work required by the Tenement House Department and to furnish light, heat, elevator service and water; and the Commissioners of the Sinking Fund deeming the said rent fair and reasonable and that it would be for the interests of the City that such lease be made, the Comptroller be and is hereby authorized and directed to execute the same, when prepared and approved by the Corporation Counsel, as provided by sections 149 and 217 of the Greater New York Charter.

The report was accepted and the resolution unanimously adopted.

The Comptroller presented a report recommending an amendment to resolution authorizing a lease of premises at Nos. 66 to 72 Lafayette street, Borough of Manhattan, for use of the First District Municipal Court.

Which was referred back to the Comptroller.

The following communication was received from the Justice of the Sixth District Municipal Court, relative to a renewal of the lease of premises No. 611 Fulton street, Borough of Brooklyn:

April 22, 1908.

Hon. N. TAYLOR PHILLIPS, Secretary Sinking Fund Commission, No. 280 Broadway, New York:

DEAR SIR—Will you kindly take the necessary steps to procure lease for the Sixth District Municipal Court, Borough of Brooklyn, from May 1, 1908, to May 1, 1909, and forward the same to us for my signature. I have the honor to remain

Very truly yours,

GEORGE FIELDER, Justice.

In connection therewith the Comptroller presented the following report and offered the following resolution:

April 30, 1908.

The original lease containing a renewal clause for a period of two years, and the rent being the same as heretofore paid, I would respectfully recommend that the Commissioners of the Sinking Fund authorize a renewal of the lease of premises No. 611 Fulton street, Borough of Brooklyn, occupied as the Sixth District Municipal Court, for a period of two years from May 1, 1908, at an annual rental of \$2,900, payable quarterly, and on the same terms and conditions as contained in the existing lease. Lessor, Realty Associates.

Respectfully submitted for approval,

THOMAS F. BYRNES,

Appraiser of Real Estate, Department of Finance.

Approved:

H. A. METZ, Comptroller.

Resolved, That the Comptroller be and is hereby authorized and directed to execute a renewal of the lease to the City, of the front part of the second floor of premises No. 609 Fulton street, Borough of Brooklyn, for use of the Sixth District Municipal Court, for a period of two years from May 1, 1908, at an annual rental of two thousand dollars (\$2,000), payable quarterly, and on the same terms and conditions as contained in the existing lease; lessor, Realty Associates; the Commissioners of the Sinking Fund deeming the said rent fair and reasonable, and that it would be for the interests of the City that such lease be made.

The report was accepted and the resolution unanimously adopted.

A communication was received from the Justices of the Seventh District Municipal Court, relative to a lease of additional rooms in the building at the junction of

Amsterdam avenue, Manhattan street and One Hundred and Twenty-sixth street, Borough of Manhattan, and the Comptroller presented a report thereon, which was referred back to the Comptroller.

The following communication was received from the Justice of the Ninth District Municipal Court, relative to a lease of additional room in the building on the southwest corner of Madison avenue and Fifty-ninth street, Borough of Manhattan:

May 4, 1908.

Commissioners of the Sinking Fund, Room 12, Stewart Building, No. 280 Broadway, City:

GENTLEMEN—I would suggest that the room adjoining the Clerk's office in the building now occupied by this Municipal Court, be taken by the City as a filing room for papers of the court. This is the first time that this room has been vacant since the court has moved into the building, and it is highly desirable that some space be secured for the purpose of storing the records of the court, as there is now no such room, the only space being some of the wall space in the Clerk's office. Since the change in the district lines of the Municipal Courts, which went into effect on January 1 of this year, the volume of business coming into this court has about doubled, and it will not be very long but that some quarters for the proper filing of the papers, so that they will be accessible upon demand to attorneys and parties, will be absolutely requisite for the proper conduct of the business of the court. As I understand it, you are the proper parties to address on this subject, and I do so at this time so that this room may be secured if your judgment coincides with mine, before the room is rented to another party.

Yours very truly,

EDGAR J. LAUER.

In connection therewith the Comptroller presented the following report and offered the following resolution:

May 7, 1908.

Hon. HERMAN A. METZ, Comptroller:

SIR—Hon. Edgar J. Lauer, Justice of the Ninth District Municipal Court, in a communication addressed to the Commissioners of the Sinking Fund under date of May 4, 1908, requests that a lease be authorized of an additional room known as Room 303 on the top floor of the Emmet Arcade Building, southwest corner of Madison avenue and Fifty-ninth street, Borough of Manhattan, to be used as a filing and storage room for the court, for a period from the date of occupation until January 1, 1911, the date when the other City lease expires, at a rental of \$450 a year, payable quarterly; the lessor to furnish heat, water and janitor service.

After an examination I have to report that this is a room 9 by 42 feet, adjoining the present Court Clerk's room, and is needed for the purposes stated.

The rent is at the same rate as the City is now paying for the adjoining two rooms used as the Clerk's office and court library, and is, in my opinion, fair and reasonable. I would, therefore, respectfully recommend that the Commissioners of the Sinking Fund authorize the execution of a lease of Room 303 on the fourth floor of the Emmet Arcade Building, southwest corner of Madison avenue and Fifty-ninth street, Borough of Manhattan, for a period from the date of occupation until January 1, 1911, at a rental of \$450 a year, payable quarterly; the lessor to furnish heat, water and janitor service. Lessor, John D. Crimmins.

Respectfully submitted for approval,

MORTIMER J. BROWN,

Appraiser of Real Estate, Department of Finance.

Approved:

H. A. METZ, Comptroller.

The Comptroller presented the following report relative to the plans and specifications submitted by the Police Commissioner for a new station house for the First Precinct, which it is proposed to erect on the site of the former station house in Old Slip, Borough of Manhattan:

April 29, 1908.

Hon. HERMAN A. METZ, Comptroller:

SIR—Under date of March 23, 1908, the Hon. Theo. A. Bingham, Police Commissioner, forwards for approval by the Commissioners of the Sinking Fund plans and specifications for the new station house for the First Precinct, which it is proposed to erect on the site of the former station house in Old Slip, Borough of Manhattan.

I have examined the plans and specifications submitted, and beg to submit the following report thereupon:

The building is to be four stories high above the cellar and is designed to house ninety-six men, with the usual complement of officers, muster room, prisons for men and women, a morgue, room for gasoline, patrol wagon, etc.

The exterior is designed to be of Indiana limestone on all four fronts, with a limestone cornice; also calls for a bronze screen about the switchboard and a system of interior telephones.

If face brick were used for the exterior, with a metal cornice and terra cotta trimmings instead of the limestone, as specified, the saving, together with that resulting from the omission of the bronze screen and interior telephones, would be not far from \$50,000.

I estimated that the plans for the Second Precinct station, which I reported upon on March 15, 1908, provided for a building to cost not less than \$300,000, or \$100,000 more than a properly designed station should cost. My estimate therefore of the possible saving on these two stations alone is \$150,000. There are some eighty (80) new stations to be erected in the whole city, and at the present rate it will cost at least \$6,000,000 more than they should; but I desire to invite your specific attention to these plans in the light of what I had to say in my report of March 15 upon the plans for the Second Precinct.

The plans now under consideration, both in their inception and execution, illustrate in a striking degree what I said in that report upon the selection of a definite programme for the erection of the new police stations and the adoption of a typical building plan.

First—As to the programme: The station in Old Slip destroyed last year to make way for this new building of the First Precinct, was a good building, in good condition, and its replacement when many much poorer buildings needed replacement was a mistake.

Second—As to a typical design as illustrating this point, I invite your attention to the school buildings erected during the last twelve years. There has been decided progress in securing typical buildings with uniform equipment, each new building being designed to be a little better than its predecessor.

This condition I would have suggested for the Police Department, and the examination of all the police stations in the entire city, made by this Bureau in 1906, shows how urgent is the need of a systematic plan. The new school buildings illustrate in another way an important phase of this question. Each school building is so specified as to secure not only uniform facilities, but materials of construction best adapted to secure suitability, durability and low cost of construction and maintenance.

I recommended the approval of the plans for the Second Precinct on the grounds of urgency and expediency, and I feel that I am in the same position as regards these plans.

The old building was given up, and rented quarters (No. 98 John street, at \$6,000 per annum) occupied one year sooner than actually required, so delay in approving the plans for this building means additional rental.

Therefore, if the Commissioners of the Sinking Fund do not consider it expedient to withhold the approval of these plans until my suggestions as to some definite plan has been established by the Police Commissioner, or at least until these plans have been revised to effect the suggested saving of \$50,000, then I advise the adoption of these plans. I do not wish to be considered as delaying any work that is necessary, but I think it time for the Commissioners of the Sinking Fund to express its views upon this very important point.

At present each architect works out his plans irrespective of any established design of interior arrangement and materials to be used in the construction of the building. My general criticism is that the buildings proposed for the First and Second Precincts are more elaborate than school buildings, and I see no reason why such should be the case.

Respectfully,  
CHANDLER WITHINGTON,  
Chief Engineer.

Approved:  
H. A. METZ, Comptroller.

Discussion of the report was had, and owing to the necessity for immediate action, the Comptroller offered the following resolution:

Resolved, That, pursuant to the provisions of chapter 350 of the Laws of 1892, as amended by chapter 495 of the Laws of 1895, the Commissioners of the Sinking Fund hereby approve of the plans submitted by the Police Commissioner, under date of March 23, 1908, for the construction of a new station house for the First Precinct on the site of the former station house in Old Slip, Borough of Manhattan.

Which resolution was unanimously adopted.

The following petition was received from the Hahnemann Hospital for a sale of the City's interest in certain land on the easterly side of Park avenue, between Sixty-seventh and Sixty-eighth streets, Borough of Manhattan:

In the Matter

of  
The application of the Hahnemann Hospital of The City of New York to the Commissioners of the Sinking Fund of The City of New York, for a sale of the City's interest in certain land on the east side of Park avenue, between Sixty-seventh and Sixty-eighth streets, now occupied by the Hahnemann Hospital of The City of New York for its hospital and dispensary.

To the Honorable the Commissioners of the Sinking Fund of The City of New York:  
The petition of the Hahnemann Hospital of The City of New York respectfully shows:

That it is a corporation organized and existing by and under the laws of the State of New York, under the provisions of an Act of the Legislature entitled "An Act for the incorporation of benevolent, charitable, literary, scientific or missionary societies," passed April 12, 1848, and the Acts amendatory thereof.

The charter of the hospital was filed in the New York County Clerk's office on October 14, 1869, and in the office of the Secretary of State on October 15, 1869.

The objects and purposes of its incorporation, as expressed in its original charter, were as follows:

"By means of voluntary or other contributions to provide hospital accommodations for the poor who are desirous of being treated homeopathically."

In 1875, by an amended charter, the former corporation known as the Hahnemann Hospital of the City and County of New York, became merged with the New York Homeopathic Surgical Hospital of The City of New York, and the New York Homeopathic Hospital for Women and Children of The City of New York into the present corporation under the name of "the Hahnemann Hospital of The City of New York." The law under which this amended charter was enacted was chapter 64 of the Laws of 1875.

The objects and purposes of the Hahnemann Hospital of The City of New York, as expressed in its amended charter, were as follows:

"To provide hospital accommodations for the poor and others who are desirous of being treated homeopathically, and to establish, maintain, manage and conduct in The City of New York a hospital with proper buildings and departments, at which shall be received such persons as may respectively require medical or surgical treatment, and are desirous of being treated in accordance with the homeopathic system of medicine."

Since its incorporation the said hospital has given free medical and surgical aid to sick or disabled persons without regard to creed, color, sex, age, nationality or school of medicine at all times. The extent of such free medical treatment has steadily increased, and it has given free dispensary treatment to many thousands of patients. It has also given free treatment in its hospital to thousands of free hospital patients.

The Mayor, Aldermen and Commonalty of The City of New York, on January 14, 1871, leased to your petitioner a plot of ground on the east side of Park avenue, extending from Sixty-seventh to Sixty-eighth street, and extending to a depth of one hundred and twenty-five feet on each of said streets by the following description:

All those ten certain lots, pieces or parcels of land situate, lying or being in The City of New York, and bounded and described as follows:

Beginning at a point formed by the intersection of the northerly line or side of Sixty-seventh street with the easterly line or side of Fourth avenue, and running thence northerly along said easterly line or side of Fourth avenue two hundred feet and ten inches to the southerly line or side of Sixty-eighth street; thence easterly along the southerly line or side of Sixty-eighth street one hundred and twenty-five feet; thence southerly and parallel with Fourth avenue two hundred feet and ten inches to the northerly line or side of Sixty-seventh street; thence westerly along the northerly line or side of Sixty-seventh street one hundred and twenty-five feet to the point or place of beginning, being the premises delineated and colored pink on the map annexed to this instrument made by Edward Boyle, City Surveyor, dated December 2, 1870, and designated as Lots Nos. 55, 56, 57, 58, 59, 82, 83, 84, 85, 86, as shown on the map of property belonging to the Mayor, Aldermen and Commonalty of The City of New York, forming part of a square known as Hamilton square, made by Edward Boyle, City Surveyor, July, 1860, "Map of property leased for the term of ninety-nine years to the Trustees of 'Hahnemann Hospital,' by resolution of the Commissioners of the Sinking Fund, passed October 12, 1870."

New York, December 2, 1870.

EDWARD BOYLE, City Surveyor,  
No. 51 Liberty Street.

Which lease is recorded in the office of the Register of the County of New York, on the 14th day of March, 1871, in Liber 1158 of Conveyances, page 566, by which the premises were leased to the Hahnemann Hospital of The City of New York, to be used and occupied by your petitioner for the charitable and benevolent purposes for which your petitioner was incorporated, and which lease provided for a term of ninety-nine years from the 31st day of December, 1870, at an annual rental of one dollar.

Your petitioner, shortly after the delivery of such lease, erected upon the said premises a hospital building which, from the time of the completion thereof until the present time, has been used in accordance with the provisions of such lease. Your petitioner later on also erected on said premises a further addition or extension known as a maternity hospital, which has been solely devoted to hospital purposes since its erection.

The said hospital grounds and buildings have long since proved insufficient, both as to space and as to accommodations to supply the demand made upon the said hospital, and your petitioner is desirous for the purpose of procuring proper hospital buildings of much larger proportions and with better accommodations, to either sell and convey in fee simple, or mortgage the whole or any part of said premises or to lease the same, or any part thereof.

By chapter 345 of the Laws of 1905, the Commissioners of the Sinking Fund of The City of New York have been authorized to change the said lease above mentioned from the Mayor, Aldermen and Commonalty of The City of New York to the Hahnemann Hospital of The City of New York to a grant, so as to permit the said hospital "to sell and convey in fee simple absolute, or to mortgage the whole or any part of said premises, or to lease the said premises, or any part or portion thereof, for such term or terms as shall be deemed proper by said hospital, and in case of any such sale, mortgage, or lease the said hospital, devoting the proceeds of such sale or mortgage, the income of such lease or leases as may be made by it to the erection of new buildings upon the present site, or to the purchase of a new site within The City of New York, and the erection of new buildings, and to the maintenance and support of the said hospital, or to any two of these purposes."

The fair market value of the City's interest in said land at the present time is less than the sum of \$10,000, as your petitioner is informed and believes, and your petitioner now offers for the interest of the City in said lands the sum of \$10,000.

Your petitioner agrees to apply the proceeds of the sale of said land towards the payment of obligations that will be incurred in the purchase and erection of new hospital buildings, and to use the same for the objects and purposes of its incorporation, and in accordance with the term of said act. By chapter 321 of the Laws of 1905 the Legislature authorized and empowered in their discretion the Commissioners of the Sinking Fund to cancel and annul any and all assessments affecting the said property of the Hahnemann Hospital, a copy of which act is hereto annexed.

Your petitioner, therefore, asks that said land be sold to your petitioner for the above mentioned price, and that the property be conveyed by The City of New York to your petitioner, and that all assessments against said property may be annulled and cancelled, and that your petitioner have such other or further relief in the premises as may be just and proper.

Dated New York, June 12, 1905.

JAMES G. CANNON.

#### Resolution.

Resolved, That, pursuant to the provisions of chapter 321 of the Laws of 1905, and to the other statutes in such case made and provided, the Commissioners of the Sinking Fund, in consideration of the payment of the sum of ten thousand dollars (\$10,000) to The City of New York, sell, grant and convey to the Hahnemann Hospital of The City of New York, all the right, title and interest of The City of New York in the land or property, lying in the Borough of Manhattan, City and County of New York.

All those ten certain lots, pieces or parcels of land situate, lying and being in The City of New York, and bounded and described as follows:

Beginning at a point formed by the intersection of the northerly line or side of Sixty-seventh street with the easterly line or side of Fourth avenue, and running thence northerly along said easterly line or side of Fourth avenue 200 feet and 10 inches to the southerly line or side of Sixty-eighth street; thence easterly along the southerly line or side of Sixty-eighth street 125 feet; thence southerly and parallel with Fourth avenue 200 feet and 10 inches to the northerly line or side of Sixty-seventh street; thence westerly along the northerly line or side of Sixty-seventh street 125 feet to the point or place of beginning, being the premises delineated and colored pink on the map annexed to this instrument, made by Edward Boyle, City Surveyor, dated December 2, 1870, and designated as lots Nos. 55, 56, 57, 58, 59, 82, 83, 84, 85, 86, as shown on the map of property, belonging to the Mayor, Aldermen and Commonalty of The City of New York, forming part of a square known as Hamilton Square, made by Edward Boyle, City Surveyor, July, 1860, "Map of property leased for the term of ninety-nine years to the trustees of 'Hahnemann Hospital' by resolution of the Commissioners of the Sinking Fund, passed October 12, 1870. New York, December 2, 1870. Edward Boyle, City Surveyor, No. 51 Liberty street," heretofore leased by the Mayor, Aldermen and Commonalty of The City of New York to the Hahnemann Hospital of The City of New York; that the Corporation Counsel be and is hereby requested to prepare the necessary deed of conveyance therefor, and that upon the execution of the same by the Mayor and City Clerk, the same be delivered to the Hahnemann Hospital upon the payment of the consideration named therein; also

Resolved, That in pursuance to the provisions of chapter 321 of the Laws of 1905, the Commissioners of the Sinking Fund, in consideration of the foregoing grant, do hereby cancel and annul any and all assessments affecting the above described premises.

In the Mount Sinai case proceedings, 1904, page 401, the Corporation Counsel in his opinion said as follows:

"In my opinion, the Commissioners of the Sinking Fund will be entirely justified in accepting this offer if they are disposed to do so. It is to be observed that as the matter stands at present the hospital is in possession of the property under an unquestioned authority to hold and occupy the same for its own uses and purposes for the period of about seventy-five years, at the nominal rental of one dollar a year, and the property, if this held under the existing lease, would be free from taxation for that period."

"The City's interest is, therefore, merely the reversionary interest at the expiration of seventy-five years, the sum of ten thousand dollars, placed at interest would in that period amount, it would seem, to more than the fee value of the property at the present time. Furthermore, if, as is contemplated, the property is sold to private individuals, it will become taxable on the same basis as other property so held."

Report of Mortimer J. Brown, Appraiser of Real Estate in charge of bureau, appraised Mount Sinai property at..... \$434,000 00  
98,000 00  
158,000 00

\$690,000 00

*Re Application of Hahnemann Hospital of The City of New York for Fee of Land, Park Avenue and Sixty-seventh Street.*

Hon. JOHN J. DELANY, Corporation Counsel:

SIR—In reference to the application of the Hahnemann Hospital of The City of New York for a sale of the City's interests in lands situated at Sixty-seventh and Sixty-eighth streets and Park avenue, under the provisions of chapter 345 of the Laws of 1905, I beg to call your attention to the wording of the act, which is exactly the same as the German Hospital Act, chapter 404, Laws of 1903, substantially similar to the last Mount Sinai Act, chapter 365, Laws of 1904, viz.:

"Section 1. The Commissioners of the Sinking Fund of The City of New York are hereby authorized and empowered, in their discretion, for such consideration as they may deem proper (having in view the provisions made by the said the Hahnemann Hospital in The City of New York for the care of the sick who would otherwise become a charge upon the said City, etc.)."

In the Mount Sinai case the Corporation Counsel (proceedings Mount Sinai case, 1904, page 401) gave the opinion that the Commissioners of the Sinking Fund would be entirely justified in accepting the offer of \$10,000 if they were disposed to do so, and declared the act to be constitutional, and such transfer was made (Minutes of Sinking Fund Commissioners of May 16, 1904, pages 395 et seq.).

In the matter of the Hahnemann Hospital, that act was also pronounced constitutional by your office at the time it was before the Mayor for his approval, before being signed by the Governor.

The only question arising now appears to be that contained in the letter from the Comptroller's office to you of May 11, 1905, in the matter of the German Hospital and Dispensary, upon a similar application, in which the Comptroller says that:

"We have now presented for the first time since the change in the former practice of the City, the proposition, as stated in the Enabling Act, chapter 404, Laws of 1903 (German Hospital Act), that in fixing the consideration we should have in view the provision made by the hospital for the care of the sick poor," and desires "to be advised whether or not the Sinking Fund Commission is authorized under the Constitution and the said act to convey this property to the German Hospital for less than the money value of the property to-day subject to the sixty years of the lease, and whether or not the provision the hospital makes for the sick poor is a valid consideration in whole or in part for a conveyance of the property."

The vital distinction in the matter of consideration between the case of the German Hospital and the Hahnemann Hospital is that the German Hospital (as stated in the Comptroller's letter) received certain fixed sums from the City, as provided in the Budget, for the care of the sick poor. It is, therefore, in duty bound to provide for them to some extent, and it may be a serious question of consideration whether their promise to do what they are in duty bound to do would be a consideration for the grant, or at least to what extent, in excess of the City bounty, would they care for the City sick?

But no such circumstance arises in the Hahnemann case. This hospital has been and is a purely charitable institution. It has never asked for nor received a dollar from the City for its support, or to care for the City's poor; but since its foundation in 1869 it has extended from its own funds care and treatment to a great many thousands of the City's sick, without any compensation whatever.

Now, the fact that it will undertake to continue to do so, as well as of the long period of time in which it has done so, it is respectfully submitted, should and may properly and legally be taken in whole or part as a valid consideration by the Sinking Fund Commissioners for a conveyance of the property. It does not stand at all upon the same footing as the Mount Sinai or German Hospitals, for both of them, I believe, received the aid of the City money, for which they were bound to make proper provisions for the City sick, and yet in the Mount Sinai case the Board held that it had a sufficient consideration and made the conveyance for \$10,000. The values of the properties of the Mount Sinai and Hahnemann involved are about the same, and the same sum of \$10,000 is offered by the Hahnemann for the same grant, without free patients.

If the Sinking Fund Commissioners should desire a covenant by the Hahnemann for the future care of the City's sick, as a further part consideration for the conveyance in form, somewhat as follows:

"Provided that the said grantor shall covenant and agree as a condition of said grant that indigent sick shall be treated in said hospital in the same manner as other patients are treated, without charge, for an aggregate period of not less than (10,000) days annually," I have no doubt the hospital would agree to such a covenant.

If the hospital now is willing to extend this aid to all of the City sick, without distinction (in excess of its charter requirements), it seems to me that is sufficient and valid consideration, which will support a grant from the City. The amount, of course, to be left to the discretion of the Sinking Fund Commissioners, as provided by the act.

The fact that the hospital intends to borrow money upon the proposed grant, for the purpose of erecting more buildings for hospital purposes, and does not intend to sell the land or move elsewhere, should also be taken into consideration in the advisability of recommending the grant.

Dated New York, November 24, 1905.

Respectfully submitted,

JULIUS H. SEYMOUR, Counsel.

In connection therewith the Comptroller presented the following and offered the following resolutions:

LAW DEPARTMENT—OFFICE OF THE CORPORATION COUNSEL, }  
January 23, 1907. }

Hon. HERMAN A. METZ, Comptroller:

SIR—I have had under consideration a communication addressed by your predecessor, under date of June 20, 1905, to my predecessor, relative to the petition made to the Commissioners of the Sinking Fund by the Hahnemann Hospital of The City of New York for release to it of the City's reversionary interest in certain property situated on the easterly side of Park avenue, between Sixty-seventh and Sixty-eighth streets, in the Borough of Manhattan.

The petition is made pursuant to the provisions of chapter 345 of the Laws of 1905, the first section of which is as follows:

"The commissioners of the sinking fund of the city of New York are hereby authorized and empowered in their discretion, for such consideration as they may deem proper (having in view the provision made by the said The Hahnemann Hospital of the city of New York, for the care of the sick who would otherwise become a charge upon the said city), to change, modify or alter to a grant in fee simple absolute a certain lease dated January fourteenth, eighteen hundred and seventy-one, affecting premises on the easterly side of Fourth or Park avenue, between Sixty-seventh and Sixty-eighth streets, in the Borough of Manhattan and city of New York, made by the mayor, aldermen and commonalty for a period of ninety-nine years from the first day of December, one thousand eight hundred and seventy, at an annual rental of one dollar, and recorded in the office of the register of the city and county of New York on the fourteenth day of March, eighteen hundred and seventy-one, at one o'clock fifteen minutes in the afternoon, in liber eleven hundred and fifty-eight of conveyances, at page five hundred and sixty-six, so as to permit and authorize The Hahnemann Hospital of the city of New York, after such grant shall have been made, to sell, convey in fee simple absolute, or mortgage the whole or any part of said premises, or to lease the said premises, or any part or portion thereof, for such term or terms as shall be deemed proper by said The Hahnemann Hospital of the city of New York, and the said The Hahnemann Hospital of the city of New York, in case of any such sale, mortgage or leases shall be made by it, shall thereupon devote the proceeds of such sale or mortgage, or the income of such lease or leases as may be made by them, to the erection of new buildings upon the present site, or to the purchase of a new site within the city of New York, and the erection of new buildings, and to the maintenance and support of said The Hahnemann Hospital of the city of New York, or to any two of these purposes; but nothing herein contained shall be construed to compel the vendee, lessee or mortgagee to see to the proper application of the purchase price, loan or rent of the said The Hahnemann Hospital of the city of New York."

The premises covered by the lease mentioned in this statute comprise the following, to wit:

"All those ten certain lots, pieces or parcels of land situate, lying and being in The City of New York and bounded and described as follows:

"Beginning at a point formed by the intersection of the northerly line or side of Sixty-seventh street with the easterly line or side of Fourth avenue, and running thence northerly along said easterly line or side of Fourth avenue two hundred feet and ten inches to the southerly line or side of Sixty-eighth street; thence easterly along the southerly line or side of Sixty-eighth street one hundred and twenty-five feet; thence southerly and parallel with Fourth avenue two hundred feet and ten inches to the northerly line or side of Sixty-seventh street; thence westerly along the northerly line or side of Sixty-seventh street one hundred and twenty-five feet to the point or place of beginning."

The question presented by your communication is similar to that treated in my communication of December 24 respecting the application of the German Hospital, passed upon by the Sinking Fund Commission at their meeting of December 26, 1906.

I am of opinion that no objection may be urged against the statute itself upon constitutional grounds, and that no objection arises by reason of the provisions of the constitution of the State of New York which will preclude the Commission in making its determination of the selling price from taking into consideration "the provision made by the said The Hahnemann Hospital of The City of New York for the care of the sick who would otherwise become a charge upon the said city."

It is proper to add, in this connection, that the leases in question do not contain any covenant whereby such provision for the care of the sick poor, as is manifestly contemplated by the statute herein under consideration, may be enforced against the hospital, as was the situation in the case of the German Hospital before mentioned. However, in a communication addressed by counsel for the petitioner to my predecessor, under date of November 24, 1905, it was suggested that:

"If the Sinking Fund Commissioners should desire a covenant by the Hahnemann Hospital for the future care of the City's sick, as a further part consideration for the conveyance, in form somewhat as follows:

"Provided that the said grantee shall covenant and agree as a condition of said grant that indigent sick shall be treated in said hospital in the same manner as other patients are treated, without charge, for an aggregate period of not less than ten thousand days annually."

"I have no doubt the hospital would agree to such a covenant."

It is my opinion that if the Commissioners of the Sinking Fund shall determine that it is advisable to authorize a grant in fee simple absolute of the premises held under these leases that there should be reduced to definite form, as a condition precedent, such an agreement under this head as will be satisfactory to the Commission and sufficient (when taken in connection with such pecuniary consideration price as may commend itself to the discretion of the Commission) to furnish an adequate consideration and support the conveyance. This is a matter wholly within the domain of the Commissioners of the Sinking Fund and committed to them by the provisions of the act.

It is further noted in examining the petition presented on behalf of this institution that in addition to the release desired it is requested that the City cancel and annul any and all assessments affecting the property in question; this section of the petition being based upon chapter 321 of the Laws of 1905, the provisions of section 1 of which act are as follows:

"The commissioners of the sinking fund of the city of New York are hereby authorized and empowered, in their discretion, and in such terms as they deem proper, to cancel and annul any and all assessments affecting property in the city of New York now belonging or now leased by the city of New York to The Hahnemann Hospital of the city of New York; and the comptroller of the city of New York is hereby directed to make such assessments upon the assessment books of the city of New York in accordance with the determination of the said commissioners."

I am of the opinion that as the property in question is held in fee by the City, although encumbered by leasehold, and as there is no provision in the leases in question whereby The Hahnemann Hospital may be required to meet these assessments out of its own funds, that there is no legal objection to their payment by the City, either in whole or in part, from funds available for that purpose, if such disposition of the matter shall seem proper to the Commissioners of the Sinking Fund.

The papers transmitted are herewith returned.

Respectfully yours,

G. L. STERLING, Acting Corporation Counsel.

April 24, 1908.

Hon. HERMAN A. METZ, Comptroller:

SIR—In the matter of the Hahnemann Hospital, held under consideration for a long time past, I beg to report that, following the precedent established in the German Hospital settlement, the Hahnemann Hospital proposes to make a similar arrangement for a deed of their property.

First—They propose to pay \$5,000 cash.

Second—They propose to enter into an agreement to run with their deed that "said grantee shall covenant and agree, as condition of said grant, that indigent sick shall be treated in said hospital in the same manner as other patients are treated, without charge, for an aggregate period of not less than 3,650 days annually."

This number of days is specified at the present time because it will require one-third of the hospital's bed capacity to render such service, but with the increased accommodations to be made immediately after the property comes into the possession of the hospital they will agree to double the number of days as soon as suitable accommodations can be provided.

In just what form this last provision can be legally stated I do not know.

Our Examiners went over the facilities and records of the institution with as much detail as seemed necessary to provide the basis of statement which is herewith attached.

It seems to me proper that this institution should be treated precisely as was the German Hospital, and I would make such recommendation.

Respectfully submitted,

D. C. POTTER,  
Chief Examiner of Accounts of Institutions.

## CHARITABLE INSTITUTIONS DIVISION.

May 21, 1907.

## Hahnemann Hospital.

Dr. D. C. POTTER, Chief Examiner of Accounts of Institutions, Department of Finance,  
New York City:

SIR—We submit herewith a report of a tentative examination made to-day by your instructions of the work, capacity, etc., of the Hahnemann Hospital of New York City.

Yours respectfully,  
EDWARD G. KIDDER,  
Examiner of Accounts of Institutions.

HENRY GLASSFORD, Examining Inspector.

## Incorporation—

"The Hahnemann Hospital of the City and County of New York" was incorporated on October 8, 1869, under the General Law of 1848.

## Object—

"By means of voluntary or other contributions to provide hospital accommodations for the poor who are desirous of being treated homeopathically."

## Amendment—

The original charter was subsequently amended by chapter 64 of the Laws of 1875, principally to permit the absorption of the "New York Homeopathic Surgical Hospital" and the "New York Homeopathic Hospital for Women and Children."

It is specifically stated in section 11 of this act "that nothing in this act contained is intended to nor shall be construed to affect in any way the lease of the lots to the said Hahnemann Hospital from the city of New York, made pursuant to chapter 439 of the laws of 1870."

## Patients—

Accepts all kinds of patients, including maternity cases, except contagious diseases and consumptives.

## Superintendent—

The present Superintendent is Mr. A. W. Weismann, a layman, and to whom we are indebted for a portion of our information.

## Capacity—

The capacity is 81 beds, and careful personal examination convinced us it could not be increased under present conditions. The beds are distributed in six wards and thirty-two private rooms as follows:

	Beds.
<b>Wards—</b>	
Surgical, female, pay patients.....	12
Surgical, female, free patients.....	6
Medical, female, both pay and free.....	6
Surgical and medical, male patients.....	9
Maternity .....	7
Children's ward .....	4
	44
<b>Private Rooms—</b>	
1 room with .....	3
3 rooms, with two beds each.....	6
28 rooms with one bed each.....	28
	37
<b>Total .....</b>	<b>81</b>

There is also a nursery exclusively for infants born in the hospital, with a capacity for ten. Nursing mothers are not retained, all maternity cases being discharged when sufficiently recovered to leave the hospital.

## Physicians—

Four resident physicians and a visiting staff.

## Nurses—

A training school is maintained under the supervision of a head nurse, an assistant and a night nurse. There are at present 12 graduates and 24 pupils, who, together with 2 orderlies, constitute the nursing staff of the hospital.

No ambulance service or accident ward is maintained and, in fact, emergency cases are not catered to or desired.

## Charges for Patients—

Pay patients, in wards, \$1 per day.

Private rooms, from \$12 to \$50 per week.

It will be observed that all female medical ward patients, both pay and free, are placed in one ward. Such is the case also with all maternity cases. The female surgical cases are separated, there being a ward for each, both pay and free.

Endowed Beds (included in capacity already stated)—

The hospital advertises that the annual charge for the support of an adult's bed is \$300. The records show a list of 27 endowed beds, but we were informed that some of the endowments had lapsed. Investigation satisfied us, however, that the following remain:

	Beds.
Police Fund .....	2
Firemen's Fund .....	2
National Guard Fund .....	2
	6

As to the remainder, we resorted to the endowment fund account for 1906, which showed a balance of \$99,098.74 invested at 5 per cent, producing an annual income of \$4,954.94, sufficient to support 16.5 beds at \$300 a year each.

This demonstrated that at least 22.5 beds are endowed, and, therefore, cannot be used for public purposes.

## Classification of Patients—

The great majority of all are private pay patients and, in fact, the hospital has constantly a waiting list desiring private rooms, the demand being far greater than the supply.

Of free patients practically all are sent in by the medical staff, only a small percentage applying personally.

But a few free maternity cases are received, merely about 5 for a total of 100 days during the year.

The census of to-day shows 10 free cases in all divisions, and we are told this is a fair average.

## Statement of All Patients During the Year 1905-1906 Shows—

Surgical patients .....	608
Medical patients .....	172
Maternity .....	75
	855

## Thus distributed—

	Days.
Pay patients .....	674 for 12,815
Free patients .....	181 for 3,610
<b>Total .....</b>	<b>855 for 16,425</b>

## Summary—

	Beds.
Eliminating endowed beds.....	22.5
Eliminating private rooms .....	37.
Eliminating surgical ward, reserved exclusively for pay patients.....	12.0
	71.5

Total capacity of hospital .....	81.
Less above .....	71.5
	9.5

If all these beds were utilized for City cases each of the 365 days in the year, it would give a total of less than 3,500 days.

## Conclusion—

The hospital is so built as to preclude the possibility of increasing the ward capacity without removing the nurses' quarters to another building and making extensive and expensive alterations. The suggested extension, due to the limited available ground space, if devoted entirely to wards, might possibly increase the capacity by 40 beds, or 14,600 patients' days per year, not allowing for necessary lapses for either fumigation or renovation.

## To the Commissioners of the Sinking Fund:

GENTLEMEN—The Hahnemann Hospital of The City of New York, in a verified petition addressed to the Commissioners of the Sinking Fund, request that the said Commissioners, pursuant to the provisions of chapter 345 of the Laws of 1905, change, modify and alter to a grant in fee simple absolute, a certain lease of land situated on the easterly side of Park avenue, between Sixty-seventh and Sixty-eighth streets, Borough of Manhattan, belonging to The City of New York, which lease expires December 31, 1969, and also requests that pursuant to the provisions of chapter 321 of the Laws of 1905, all assessments against said property be annulled and cancelled, in consideration for which the petitioners offer the sum of ten thousand dollars (\$10,000).

It appears from the papers which are attached hereto that a certain lease, dated January 14, 1871, was entered into between the City and the Hahnemann Hospital, pursuant to a resolution of the Commissioners of the Sinking Fund adopted October 12, 1870, which lease was at an annual rental of \$1 and was to run for a period of ninety-nine years.

This matter was referred to the Corporation Counsel, and, in an opinion dated January 23, 1907, he advises:

"I am of the opinion that no objection may be urged against the statute itself upon constitutional grounds, and that no objection arises by reason of the provisions of the Constitution of the State of New York which will preclude the Commission in making its determination of the selling price from taking into consideration, 'the provision made by the said the Hahnemann Hospital of The City of New York for the care of the sick who would otherwise become a charge upon the said City.'"

"It is proper to add, in this connection, that the leases in question do not contain any covenant whereby such provision for the care of the sick poor, as is manifestly contemplated by the statute herein under consideration, may be enforced against the hospital, as was the situation in the case of the German Hospital, before mentioned. However, in a communication addressed by counsel for the petitioner to my predecessor, under date of 24th of November, 1905, it was suggested that:

"If the Sinking Fund Commissioners should desire a covenant by the Hahnemann Hospital for the future care of the City's sick as a further part consideration for the conveyance, in form somewhat as follows:

"Provided that the said grantee shall covenant and agree as a condition of said grant that indigent sick shall be treated in said hospital in the same manner as other patients are treated, without charge, for an aggregate period of not less than ten thousand days annually."

"I have no doubt that the hospital would agree to such a covenant."

"It is my opinion that if the Commissioners of the Sinking Fund shall determine that it is advisable to authorize a grant in fee simple absolute of the premises held under these leases that there should be reduced to definite form, as a condition precedent, such an agreement under this head as will be satisfactory to the Commission and sufficient (when taken in connection with such pecuniary consideration price as may commend itself to the discretion of the Commission) to furnish an adequate consideration and support the conveyance. This is a matter wholly within the domain of the Commissioners of the Sinking Fund and committed to them by the provisions of this act.

"It is further noted, in examining the petition presented on behalf of this institution, that in addition to the release desired it is requested that the City cancel and annul any and all assessments affecting the property in question; this section of the petition being based upon chapter 321 of the Laws of 1905, the provisions of section 1 of which act are as follows:

"The commissioners of the sinking fund of the city of New York are hereby authorized and empowered, in their discretion, and in such terms as they deem proper, to cancel and annul any and all assessments affecting property in the city of New York now belonging, or now leased by the city of New York to the Hahnemann Hospital of the city of New York; and the comptroller of the city of New York is hereby directed to make such assessments upon the assessment books of the city of New York in accordance with the determination of the said commissioners."

"I am of the opinion that as the property in question is held in fee by the City—although encumbered by leasehold—and as there is no provision in the leases in question whereby the Hahnemann Hospital may be required to meet these assessments out of its own funds, that there is no legal objection to their payment by the City, either in whole or in part from funds available for that purpose, if such disposition of the matter shall seem proper to the Commissioners of the Sinking Fund."

In a recent transaction with the German Hospital under similar conditions, it was determined that an adequate consideration for the City to receive as a purchase price for the property conveyed to the hospital was the sum of five thousand dollars (\$5,000) and free medical attendance equivalent to 10,000 days per annum.

Following the precedent established in the German Hospital settlement, the Hahnemann Hospital now proposes to make a similar arrangement for a deed of the property.

First—They propose to pay \$5,000 cash.

Second—They propose to enter into an agreement to run with their deed that "said grantee shall covenant and agree as a condition of said grant that upon request of The City of New York any indigent sick shall be treated in said hospital in the same manner as other patients are treated, without charge, for an aggregate period of not less than 3,650 days annually, for three years from the delivery of the deed of said property by the City to the Hahnemann Hospital and 10,000 days per annum thereafter, unless at the end of such three years, the time when said 10,000 days shall commence, shall be extended by the Commissioners of the Sinking Fund."

The reason that the hospital cannot furnish the 10,000 days immediately, as did the German Hospital under similar circumstances, is that it is physically impossible to do so on account of the size of the present buildings, but the new buildings contemplated to be erected, if this conveyance is made, and which buildings they intend shall be finished before the expiration of three years, will contain enough rooms to permit of the giving of the 10,000 days in question.

I am of the opinion that this proposition would be a sufficient consideration for the City to receive in this case and recommend that it be accepted.

With reference to that part of the petition which relates to the cancellation of all assessments affecting the property in question, the Corporation Counsel advises that as the property in question is held in fee by the City—although encumbered by leasehold—and as there is no provision in the lease whereby the Hahnemann Hospital may be required to meet these assessments out of its own funds, that there is no legal objection to their payment by the City, either in whole or in part from funds available for that purpose, if such disposition of the matter shall seem proper to the Commissioners of the Sinking Fund. I therefore recommend the cancellation of all assessments affecting the property, pursuant to the provisions of chapter 321 of the Laws of 1905.

The following resolutions annexed hereto are offered to carry out the recommendations aforesaid.

Respectfully,  
H. A. METZ, Comptroller.

Whereas, The Hahnemann Hospital, of The City of New York, by its President, James G. Cannon, did, on the 12th day of June, 1905, pursuant to the provisions of chapter 345 of the Laws of 1905, make application to the Commissioners of the Sink-

ing Fund by its petition in writing, dated on that day, for a grant in fee simple absolute of the premises in said act designated, and which are more particularly described as follows, viz.:

"All those certain ten lots, pieces or parcels of land situate, lying and being in The City of New York and bounded and described as follows:

"Beginning at a point formed by the intersection of the northerly line or side of Sixty-seventh street with the easterly line or side of Fourth avenue, and running thence northerly along said easterly line or side of Fourth avenue 200 feet 10 inches to the southerly line or side of Sixty-eighth street; thence easterly along the southerly line or side of Sixty-eighth street 125 feet; thence southerly and parallel with Fourth avenue 200 feet 10 inches to the northerly line or side of Sixty-seventh street; thence westerly along the northerly line or side of Sixty-seventh street 125 feet to the point or place of beginning;" and

Whereas, Under the provisions of such statute (chapter 345 of the Laws of 1905) the Commissioners of the Sinking Fund are authorized and empowered for such consideration as they may deem proper (having in view the provision made by the Hahnemann Hospital of The City of New York, for the care of the sick who would otherwise become a charge upon The City of New York) to change, modify or alter to a grant in fee simple absolute, a certain lease of the premises above described, which lease is dated January 14, 1871, and recorded in the office of the Register of the City and County of New York on the 14th day of March, 1871, in Liber 1158 of Conveyances at page 566; and

Whereas, Having in view such provision made by the Hahnemann Hospital of The City of New York, for the care of sick, wounded and disabled persons who would otherwise become a public charge, and having in view the agreement offered by the application of the petitioner aforesaid whereby the proceeds of sale of such land shall be devoted to the payment of the obligations to be incurred in the cost of erecting the necessary buildings for its accommodation upon its present site, or in the purchase and erection of a new hospital site; with the proviso here added that such new site as may hereafter be selected, shall be within the Borough of Manhattan of The City of New York, the Commissioners of the Sinking Fund have, in the exercise of the discretion vested in them by the provisions of this act, deemed the sum of five thousand dollars (\$5,000) to be a fair and pecuniary consideration for the grant in fee simple absolute of the premises above described, upon condition that the said grantee shall covenant and agree as a condition of said grant that upon request of The City of New York any indigent sick shall be treated in said hospital in the same manner as other patients are treated without charge for an aggregate period of not less than three thousand six hundred and fifty (3,650) days annually for three years from the delivery of the deed of said property by the City to the Hahnemann Hospital, and ten thousand (10,000) days per annum thereafter, unless at the end of said three years the time when said ten thousand (10,000) days shall commence shall be extended by the Commissioners of the Sinking Fund; now, therefore, be it

Resolved, That the Mayor and City Clerk be and they are hereby authorized and directed to make, execute and deliver on behalf of The City of New York its deed of release, conveying such premises in fee simple absolute to the Hahnemann Hospital of The City of New York; upon the delivery to the Comptroller of The City of New York of the consideration price of five thousand dollars (\$5,000), together with an agreement in writing under seal, and executed pursuant to resolution of the Board of Trustees of such corporation, indicating its acceptance of the terms and provisos in the foregoing preamble to this resolution contained. The deed of release to the petitioner, together with the agreement and other papers to be approved as to form by the Corporation Counsel; such deed or release to contain a provision expressly cancelling each and every of the covenants in the lease of such premises above described.

Resolved, That pursuant to the provisions of chapter 321 of the Laws of 1905, the Commissioners of the Sinking Fund hereby approve of the cancellation of any and all assessments affecting property owned by The City of New York, and leased to the Hahnemann Hospital of The City of New York, situated on the easterly side of Park avenue, between Sixty-seventh and Sixty-eighth streets, in the Borough of Manhattan, bounded and described as follows:

"All those certain ten lots, pieces or parcels of land situate, lying and being in The City of New York and bounded and described as follows:

"Beginning at a point formed by the intersection of the northerly line or side of Sixty-seventh street with the easterly line or side of Fourth avenue, and running thence northerly along said easterly line or side of Fourth avenue 200 feet 10 inches to the southerly line or side of Sixty-eighth street; thence easterly along the southerly line or side of Sixty-eighth street 125 feet; thence southerly and parallel with Fourth avenue 200 feet 10 inches to the northerly line or side of Sixty-seventh street; thence westerly along the northerly line or side of Sixty-seventh street 125 feet to the point or place of beginning."

—and the Comptroller of The City of New York is hereby directed to cancel such assessments upon the proper assessment books of The City of New York accordingly.

The report was accepted and the resolutions severally unanimously adopted.

A petition was received from George W. Pearsall for a release or quit-claim of the City's interest in Lots Nos. 35, 36 and 37, on Map 2 on the Southfield Tax Map, in the Borough of Richmond, and the Comptroller presented a favorable report thereon.

Which was laid over owing to the absence of one of the members, a unanimous vote being necessary.

The Comptroller presented the following report and offered the following resolution, relative to a sale at public auction of the interest of the City, which it has by virtue of a lease from the Supervisor of the Town of New Utrecht, to the City of Brooklyn, in Lot 23, Block 6082, Section 19, on the land maps for the purposes of taxation formerly known as Lot 19, in Block 134, in the former Thirtieth Ward, Borough of Brooklyn. (Application of Oliver Johnston.)

April 17, 1908.

Hon. HERMAN A. METZ, Comptroller:

SIR—Oliver Johnston of No. 141 South Elliott place, Borough of Brooklyn, petitions the Commissioners of the Sinking Fund for a release of the interest of the City in and to Lot 23, in Block 6082, Section 18, on the land maps for the purposes of taxation, formerly known as Lot 19, in Block 134, of the former Thirtieth Ward of said City. He states that the above premises were sold to the former Town of New Utrecht on or about September 6, 1884, and the certificate was issued to said town, giving said town a lease on said premises for a term of one hundred years. He therefore prays that the interest of the City in and to said premises be released to him, the owner of the fee title, on the payment of the amount for which said property was leased to the said Town of New Utrecht, together with interest and charges thereon.

The premises for which Mr. Johnston desires to have the interest of the City released to him are situated on the westerly side of Fifth avenue, 25 feet south of Ninetieth street, and were sold September 6, 1884, for the opening of Fifth avenue under assessment number 55, for the sum of \$29.34. That thereafter a deed was

given thereon, which was recorded in the office of the Register of the County of Kings in Liber 1715 of Conveyances at page 151.

It has been the custom of the City of Brooklyn and of The City of New York to release to the owners of the premises the interest of the City derived through and by virtue of these tax sale certificates.

At the meeting of the Commissioners of the Sinking Fund held December 27, 1905, acting under a request of Elizabeth Nunez, the Commissioners released the right, title and interest of the City in and to a similar lease, recorded in the same liber and page. This sale was made by assessment number 228 for the opening and grading of Ninety-second street. The proposition having been heretofore presented to the Corporation Counsel for his opinion as to the interests of the City and as to the method of procedure, he stated that the body having authority in the old City of Brooklyn to dispose of the City's interest in this class of property was the former Common Council, that being the legislative body of the City, but upon annexation power was divested by the Greater New York Charter and placed in the Commissioners of the Sinking Fund.

Section 205 of the Charter of The City of New York provides that the Commissioners of the Sinking Fund must sell said property at public auction for the highest marketable price after due advertisement and appraisal under the direction of said Board.

I am of the opinion that in accordance with this provision it is necessary for the Commissioners of the Sinking Fund to appraise the City's interest in and to said lease of one hundred years, which now has about eighty years to run. This might be determined by computing an annual rental based upon the value of the property, but it is my opinion that should the City receive the sum paid by the former Town of New Utrecht, with interest on the same to the date of the delivery of the deed, together with a sufficient sum to pay for the expenses which have been incurred for the purpose of examination, drawing of papers and the advertisement, that the interest of the City will be fully protected without hardship upon the owner of the property.

I would therefore respectfully recommend that the Commissioners of the Sinking Fund authorize the sale at public auction of all the right, title and interest of The City of New York in and to that property which it has by virtue of a lease from Cornelius Ferguson, Supervisor of the Town of New Utrecht, to the City of Brooklyn, under the assessment number 55, which lease containing the property herein mentioned is recorded with other property in the Register's office of the County of Kings, in Liber 1715, of Conveyances, page 143, being all that certain lot situate, lying and being in the Thirtieth Ward of the Borough of Brooklyn, City of New York, which was designated on the assessment map for the opening of Fifth avenue in the Town of New Utrecht, by the assessment number 55, which was sold September 6, 1884, for one hundred years to the Town of New Utrecht, for the sum of \$29.34; that the interest of The City of New York in and to the same be appraised at the sum of \$71.15, which amount is the principal of said sale, together with the interest thereon at the rate of 6 per cent. per annum from the date of sale to the date of the delivery of the deed; that in addition thereto the purchaser should pay the auctioneer's fee and \$100 for the expense of examination, advertising, etc.

Respectfully submitted for approval.

MORTIMER J. BROWN,  
Appraiser of Real Estate, Department of Finance.

Approved:

H. A. METZ, Comptroller.

Resolved, That pursuant to the provisions of section 205 of the amended Greater New York Charter, the Comptroller be and is hereby authorized and directed to sell at public auction, after due advertisement, for cash to the highest bidder, of all the right, title and interest of The City of New York, in and to that property which it has by virtue of a lease from Cornelius Ferguson, Supervisor of the Town of New Utrecht to the City of Brooklyn, under the assessment number 55, which lease containing the property herein mentioned is recorded with other property in the Register's office of the County of Kings, in Liber 1715 of Conveyances, page 143, being all that certain lot, situate, lying and being in the Thirtieth Ward of the Borough of Brooklyn, City of New York, which was designated on the assessment map for the opening of Fifth avenue, in the Town of New Utrecht, by the assessment No. 55, which was sold September 6, 1884, for 100 years to the Town of New Utrecht, for the sum of twenty-nine dollars and thirty-four cents (\$29.34); and be it further

Resolved, That the minimum or upset price for such land be and is hereby appraised at the sum of seventy-one dollars and fifteen cents (\$71.15), the purchaser in addition thereto to pay the auctioneer's fee and one hundred dollars (\$100) for the expense of examination, advertising, etc.

The report was accepted and the resolution unanimously adopted.

The Comptroller presented the following report relative to the petition of Alfred G. Ely *et al.* for a release or quit-claim of the City's interest in a portion of Bennetts or Van Brunts lane:

May 12, 1908.

Hon. HERMAN A. METZ, Comptroller:

SIR—Some months ago Hubbard & Rushmore, attorneys, of No. 26 Court street, Brooklyn, filed a petition with the Commissioners of the Sinking Fund on behalf of Alfred G. Ely *et al.* for a release of the interest of the City in and to a portion of Bennetts or Van Brunts lane.

The petition as filed did not contain all the data now required in such cases and the attorneys were requested to furnish additional information. There was no response and, under date of May 8, 1908, this office notified the attorneys that, unless the information requested was furnished on or before May 22, 1908, the application would be placed before the Commissioners of the Sinking Fund that the application be denied.

Under date of May 11, Messrs. Hubbard and Rushmore forwarded the following communication:

"In reply to yours of May 8, 1908, in the matter of the application of Alfred G. Ely and others for the release of the interest of the City to a portion of Bennetts or Van Brunts lane.

"Last October Messrs. Ely informed us that they had made certain dispositions of their property and did not desire to proceed with the application, and said they would notify your department.

"We regret that this was not done."

In view of the fact that the petitioner does not desire to proceed in the matter, I would respectfully recommend that the papers be printed in the minutes of the Sinking Fund for future reference.

Respectfully,

ROBERT JORDAN, Examiner.

Approved:

H. A. METZ, Comptroller.

Supreme Court, County of Richmond:

We, the Grand Jury of the County of Richmond, for the Trial Term of the Supreme Court commencing January 6, 1908, having been charged by the Justice presiding at the said term to investigate the matter of offices for the use of the District Attorney of said County, and to report our findings thereon to the Court, at said term, having duly inquired into the matter, as directed, do find:

That offices for the use of the District Attorney of said County, which were provided in the municipal building known as the Borough Hall, were, on the completion of the said building, offered to the then District Attorney of said County, but were not accepted for the reason that the sinking Fund Commission had rented offices at No. 400 Richmond terrace, New Brighton, for the use of the District Attorney, under a lease, which lease did not expire until December 31, 1907, and that the said District Attorney was then in actual occupation of the said offices.

Thereafter, and prior to the 1st day of January, 1908, the said offices in the said Borough Hall, provided for the use of the District Attorney, as aforesaid, were turned over to the Inspector of the Thirteenth Police Inspection District, who still occupies the same.

There is no other available space suitable for the use of the District Attorney in said Borough Hall, nor is there any place at St. George available for the use of the said Inspector of Police.

We find that the only available space suitable for the use of the District Attorney at St. George, in said Borough, is the space in the Corn Exchange Bank Building now rented by the Sinking Fund Commission for the use of the Court of Special Sessions.

This space is not, in our opinion, suitable for the use of the Court of Special Sessions and has never been occupied by said Court, although the same has been leased for the use of said Court since the 1st of last June:

We, therefore, respectfully recommend:

That suitable quarters be provided for the use of the District Attorney in the said Borough Hall as soon as practicable, and that in the meantime the Sinking Fund Commission shall permit the said offices in the said Corn Exchange Bank Building to be used by the District Attorney.

SAMUEL ANDERSON, Foreman;  
W. H. SCOTT, Clerk.

In connection therewith the Comptroller presented the following report:

May 14, 1908.

Hon. HERMAN A. METZ, Comptroller:

SIR—In the matter of the presentment of the Grand Jury of Richmond County herewith, in which the Jury requests that the rooms in the Corn Exchange Bank Building at St. George, in that Borough, leased last year for the use of the Court of Special Sessions, but never occupied as such, be turned over as offices to the District Attorney of Richmond, the premises in question being rooms 5, 6 and 7 in the bank building, were leased last year under a resolution of the Commissioners of the Sinking Fund, dated June 5, 1907, at a rental of \$1,000 a year, from the date of occupation until May 1, 1908. The lessors were required to tear down certain partitions so as to throw the three rooms into one for court purposes, and this work was done and the rooms made ready for occupation so far as the lessors were concerned, early in June. The bank did not begin to charge rental until July 1, 1907. On July 12, 1907, Borough President Cromwell, claiming that he had no funds available for the fitting up of the new courtroom, applied to the Board of Estimate and Apportionment for the issue of \$1,000 of Corporate Stock for this purpose. It was decided that the money should be provided, not by Corporate Stock, but by the issue of Special Revenue Bonds, and on October 14, 1907, he applied to the Board of Aldermen for such an issue, which was not granted. Therefore, the rooms were never furnished for use as a courtroom.

In the front part of the same building there is a room about 20 feet square which is leased by the City as an office for the Clerk of the Court of Special Sessions under a separate lease at \$500 a year. The Clerk moved into this room on March 1, 1907, and the lease expired May 1, 1908. No request has yet been made for a renewal of this lease, but Mr. Robert Brown, Clerk of the Court, states that a renewal will be necessary.

The three rooms intended for the Court were taken possession of by District Attorney Samuel H. Evans in January or February of this year. By what authority I have been unable to ascertain, as Mr. Evans was not in his office when I called, and no one there or in the Borough Hall appeared to be able to give any definite information on this point. I learned, however, that the walls removed by the bank were replaced by the Bureau of Public Buildings and Offices at an expense of upwards of \$200, and that the rooms were fitted up and furnished by said Bureau for Mr. Evans, who is now occupying them.

The Clerk's office, or room 1, although occupied by the City since March 1, 1907, was never provided with furniture by the Bureau of Public Buildings and Offices until a month or two ago. The furniture of the room before that time was furniture borrowed from the bank.

The Court of Special Sessions up to last January or thereabouts held its sessions in the Village Hall at New Brighton, but since that time, by permission of President Cromwell, with the consent of the Supreme Court and the County Court Judges, it has been occupying a courtroom in the Borough Hall on Wednesdays of each week. This occupancy is only about two hours a week, and when the courtroom is needed by any of the other Judges, as occasionally happens, the Special Sessions meets in the Local Board room in the same building. I find also in investigating this subject that on April 9, 1906, the Borough President notified John J. Kenney, the then District Attorney, and Matthew J. Cahill, the then Coroner of Richmond County, that rooms had been set apart for them in the new Borough Hall and requesting information as to the furniture for the same. The Coroner and District Attorney were then occupying rented

quarters in New Brighton under a lease which had not expired, and no attention appears to have been paid to these letters. On December 14, 1906, Mr. Cromwell again wrote to Messrs. Kenney and Cahill, notifying them that the rooms in the Borough Hall were ready for occupancy and desired to know when they would move in, but these letters also remained unanswered. The Coroner still occupies rented quarters in Second street, New Brighton, and District Attorney Kenney did occupy rented quarters on Richmond terrace until he went out of office on January 1, 1908. The rooms that had been reserved in the Borough Hall for the District Attorney and Coroner, I am informed, were furnished, but remained unoccupied for several months. Those intended for the District Attorney were finally turned over to the Inspector of Police, who is still in possession, while the rooms intended for the Coroner were given to the Board of Elections, which is still in possession.

The Corporation Counsel had three small rooms in the Borough Hall, but gave up two of them to the Police Detective Bureau, which has occupied them since, but this Bureau now contemplates removing to rooms over the post office in New Brighton. These rooms, however, will not be available, I am informed, for the District Attorney, as they must be returned to the Corporation Counsel.

I desire to call the attention of the Commissioners of the Sinking Fund to a provision of section 205 of the amended Greater New York Charter, which provision reads as follows:

"The Commissioners of the Sinking Fund may by resolution assign places where the several municipal courts shall be held within their respective districts, and may assign such place in said City as may seem most conducive to the public convenience for the holding of Courts of General and Special Sessions. \* \* \*

"Notice of any change of the place of holding of such courts shall, before the same takes effect, be published in the CITY RECORD and the corporation newspapers for a period of not less than two weeks."

While this section of the Charter is possibly permissive and not mandatory, it seems to me that the holding of the Court of Special Sessions in the Borough Hall of Richmond without such assignment might possibly jeopardize the convictions and sentences in the Court. I would, therefore, respectfully suggest that the Secretary of the Commissioners of the Sinking Fund be requested to notify the Magistrate in charge of the Court and obtain from him his opinion thereon. This office acts upon the requests of the various heads of Departments who apply to the Commissioners of the Sinking Fund for renewals of leases for departmental purposes. All that we determine is whether the rent is reasonable and just, as required by the Charter. It is impossible for us to go into the fact whether the lease is necessary or essential, as has been shown in this case, that it was practically a waste of the City's money. It seems to me that the Commissioners of the Sinking Fund are justified in requesting the appearance before them of the Magistrate in charge and of the Coroner as to why the Magistrate did not take possession of the rooms rented for his use, and why the Coroner did not take possession of the rooms in the Borough Hall and thus make it unnecessary to lease rooms for their use.

I would also respectfully recommend that the Secretary of the Commissioners of the Sinking Fund be requested to notify the Coroner that the lease for the premises now occupied by him will not be renewed upon its expiration.

Respectfully submitted for approval,

MORTIMER J. BROWN,

Appraiser of Real Estate, Department of Finance.

The Comptroller presented the following report and offered the following resolutions relative to the sale of buildings on Seventy-first street, extending from Sixth avenue to Seventh avenue, in the Borough of Brooklyn, and buildings on Washington avenue, from Vernon avenue to the East River, Borough of Queens, acquired for street opening purposes:

NEW YORK, April 29, 1908.

Hon. HERMAN A. METZ, Comptroller:

DEAR SIR—Pursuant to the provisions of section 1553 of the revised Charter, the authority to sell the buildings situated upon land owned by The City of New York is vested in the Commissioners of the Sinking Fund.

This office is in receipt of a communication from the President of the Borough of Brooklyn, and one from the President of the Borough of Queens requesting the sale of buildings upon property acquired for departmental purposes.

1. The President of the Borough of Brooklyn has requested the sale of buildings on Seventy-first street, extending from Sixth avenue to Seventh avenue, Borough of Brooklyn, which were acquired for street opening purposes.

2. The President of the Borough of Queens has requested the sale of buildings on Washington avenue, from Vernon avenue to the East River, Borough of Queens, which were acquired for street opening purposes.

I would therefore respectfully recommend that the Commissioners of the Sinking Fund adopt two resolutions authorizing the sale of the above buildings, and resolutions for adoption are herewith transmitted.

Respectfully submitted for approval,

JOHN M. GRAY, Collector of City Revenue.

Approved:

H. A. METZ, Comptroller.

Whereas, The President of the Borough of Brooklyn has requested the sale of all buildings, parts of buildings, etc., now standing upon property owned by The City of New York, located in the Borough of Brooklyn, acquired by it for street opening purposes, said buildings being situated upon land more particularly described as follows:

Being all those buildings, parts of buildings, etc., upon Seventy-first street, extending from Sixth avenue to Seventh avenue, in the Thirty-first Ward, Borough of Brooklyn, and which are more particularly described on a certain map on file in the office of the Collector of City Revenue, Department of Finance, No. 280 Broadway, Borough of Manhattan.

Resolved, That the Commissioners of the Sinking Fund, by virtue of the powers vested in them by law, hereby authorize and order the sale, at public auction, for the highest marketable price, of all the buildings, parts of buildings, etc., upon the following terms and conditions:

The buildings and appurtenances thereto will be sold to the highest bidder, who must pay immediately cash or a certified check drawn to the order of the Comptroller of The City of New York, and must also at the time of sale give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. Where the amount of the purchase price does not equal or exceed the sum of fifty dollars, the sum of fifty dollars shall be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract but unfinished at the expiration of the contract period.

All the material of the buildings, sheds, walks, structures and cellars of whatsoever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds, except the sidewalk and curb in front of said buildings extending within the described area and down to the level of the cellar bottom, shall be torn down and removed from the premises. None of the dirt, debris or waste resulting from demolition shall be allowed to remain on the premises, except old mortar or plaster only, which may be left, but not higher at any point than two feet below the curb opposite that point; also the foundation walls of all classes shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building.

The purchaser at the sale shall also withdraw and remove all abandoned water taps and old service mains, and in place thereof cause to be inserted a brass plug in the main water pipe in the street in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and furnish the Department of

Finance with a certificate from the Department of Water Supply, Gas and Electricity that this has been performed.

The purchaser at the sale shall also remove all house sewer connections to the main sewer in the street, and the opening of the main sewer in street shall be properly closed in compliance with the directions of the Bureau of Sewers, Borough of Brooklyn, and furnish the Department of Finance with a certificate from the Bureau of Sewers that the work has been properly performed.

The permit for all openings in the street to be obtained by and at the expense of the purchaser of the building.

Failure to remove said buildings, appurtenances, or any part thereof, within sixty days from the day of the sale will work forfeiture of ownership of such buildings, appurtenances, or portion as shall then be left standing, together with all moneys paid by said purchaser on account thereof at the time of the sale, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and The City of New York will, without notice to the purchaser, cause the same to be removed and the costs and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner and must be completed within sixty days from the day of sale, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damage and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of said buildings.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down. All furrings, plaster, chimneys, projecting brick, etc., on the faces of such party walls, are to be taken down and removed. The walls shall be made permanently self-supporting, beam-holes, etc., bricked up, and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs of adjacent buildings shall be properly flashed and painted and made watertight where they have been disturbed by the operations of the contractor.

The Comptroller of The City of New York reserves the right on the day of sale to withdraw from sale any of the buildings, parts of buildings and machinery included therein, or to reject any and all bids; and it is further

Resolved, That, while the said sale is held under the supervision of the Commissioners of the Sinking Fund, the Comptroller is authorized to cause the sale to be advertised and to direct the sale thereof as financial officer of the City.

Whereas, The President of the Borough of Queens has requested the sale of all buildings, parts of buildings, etc., now standing upon property owned by The City of New York, located in the Borough of Queens, acquired by it for street opening purposes, said buildings being situated upon land more particularly described as follows:

Being all those buildings, parts of buildings, etc., on Washington avenue, from Vernon avenue to East River, First Ward, Borough of Queens, and which are more particularly described on a certain map on file in the office of the Collector of City Revenue, Department of Finance, No. 280 Broadway, Borough of Manhattan.

Resolved, That the Commissioners of the Sinking Fund, by virtue of the powers vested in them by law, hereby authorize and order the sale, at public auction, for the highest marketable price, of all the buildings, parts of buildings and contents thereof, upon the following terms and conditions:

any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damage and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of said buildings.

The committee to whom was referred the matter of the proposed sale by the Commissioner of Docks of the old ferryboats Southfield, Westfield and Middletown, submitted the following report:

May 26, 1908.

To the Hon. Commissioners of the Sinking Fund:

GENTLEMEN—Your committee, to whom was referred at a meeting held March 25, 1908, a communication from the Commissioner of Docks, requesting authority to sell at public auction, pursuant to the provisions of section 1553 of the charter, the old ferryboats Southfield, Westfield and Middletown, respectfully report that after having given the matter careful consideration they are of the opinion that in view of the fact if the boats were sold at public auction they would only bring the price of old junk, it would be far better if one of the boats were assigned to the trustees of Bellevue and Allied Hospitals, in order that it may be used by patients suffering with tuberculosis.

Your committee has also received a communication from Florence J. Harriman, Chairman of the Presbyterian Tuberculosis Clinic, making application for the use of one of the boats to be open to all tuberculosis City patients living between Fiftieth and Seventy-second streets on the East Side.

Your committee therefore respectfully recommends that the matter be referred back to the Commissioner of Docks, with a suggestion that he turn one of the boats over to the Commissioners of the Sinking Fund as being no longer required for the uses and purposes of his Department, pursuant to the provisions of section 205 of the charter, in order that it may be assigned to the trustees of Bellevue and Allied Hospitals, and that the application of Mrs. Harriman be referred to the Commissioner of Docks for such action as he may deem proper.

Respectfully,  
H. A. METZ, Comptroller;  
JAMES J. MARTIN, Chamberlain;  
Committee, Commissioners of the Sinking Fund.

The report was accepted and the matter referred back to the Commissioner of Docks as recommended in the report.

The following correspondence was received from the Public Service Commission, relative to the sale of buildings on property acquired for rapid transit purposes:

April 25, 1908.

N. TAYLOR PHILLIPS, Esq., Deputy Comptroller, Secretary to the Sinking Fund Commission, Department of Finance, No. 280 Broadway, New York City:

DEAR SIR—We send you herewith a certified copy of a resolution adopted by the Public Service Commission at its session on April 24 with regard to the disposal of the buildings on certain premises purchased for the rapid transit purposes in connection with the Brooklyn Loop Line.

For your information I also send you a copy of the communication of George S. Coleman, Counsel to the Commission, addressed to the Commission and upon which the Commission adopted the resolution referred to above.

In view of the great importance of hastening in every possible way the work on Brooklyn Loop Lines, and in obtaining possession of real estate needed by contractors, the Commission will appreciate any action that the Sinking Fund Commission can take that will facilitate prompt and complete possession of these premises.

Very respectfully,  
TRAVIS H. WHITNEY, Secretary.

Whereas, The Public Service Commission for the First District having deemed it to be necessary and proper that The City of New York should acquire certain parcels of property situated in The City of New York, Borough of Manhattan, required for the construction, maintenance and operation of a part of the Brooklyn Loop Lines of the Rapid Transit Railroad to be constructed by the Degnon Contracting Company in pursuance of a contract bearing date the 9th day of May, 1907, made between it and The City of New York acting by the Board of Rapid Transit Railroad Commissioners, said parcels of property consisting of certain lots designated on said maps or plans as

follows: Lot No. 3, known as No. 142 Centre street; Lot No. 4, known as No. 144 Centre street; Lot No. 5, known as Nos. 146, 148 and 150 Centre street and Nos. 111, 113 and 115 Walker street; Lot No. 7, known as No. 117 Walker street; and Lots Nos. 8 and 9, known as Nos. 119 and 121 Walker street; and the Commission having for the purpose of acquiring said parcels of property duly made maps or plans and memoranda specifying and defining said parcels of property so to be acquired, and having duly certified, filed and transmitted the several copies of said maps or plans, and having duly directed the Corporation Counsel to take legal proceedings to acquire said parcels of property for The City of New York, and said Corporation Counsel having thereupon duly taken legal proceedings to acquire the same and such proceedings having been duly had that on the 13th day of April, 1908, an order was duly made and entered at a Special Term of the Supreme Court, in and for the County of New York, appointing three disinterested freeholders, residents of The City of New York, as Commissioners of Appraisal to ascertain and appraise the compensation to be made to the owners of said parcels of property, and fixing the time and place for the first meeting of the Commissioners, and said Commissioners having duly taken and subscribed the oath required by the Twelfth Article of the Constitution of the State of New York, and having forthwith filed the same in the office of the Clerk of the County of New York, and The City of New York having thereupon become seized and possessed in fee or absolute ownership of all of said parcels of property, and

Whereas, Certain of said property, so acquired as aforesaid, has become unnecessary for rapid transit purposes, to wit: the buildings erected on said parcels of property, which in order to construct said Brooklyn Loop Lines must be torn down and the material thereof removed, and for that purpose the Commission desires to sell said buildings, on condition that the same be torn down and the material thereof removed speedily; now therefore it is

Resolved, That the approval of the Commissioners of the Sinking Fund of The City of New York of the sale of said buildings erected on said parcels of property, be and the same hereby is requested; and it is further

Resolved, That if such approval is given, said Commissioners be and they hereby are requested to supervise such sale, and that the proceeds thereof be applied, under the direction of the Commission, to the purchase of other property necessary for rapid transit purposes, or be applied in all respects as the payment of rental to be made by the contractor, as provided in chapter 4 of the Laws of 1891, and its amendments.

STATE OF NEW YORK, COUNTY OF NEW YORK, ss.:

I, Travis H. Whitney, Secretary of the Public Service Commission for the First District, do hereby certify, that I have compared the above with the original resolution adopted by said Commission at its meeting on April 24, 1908, and that it is a correct transcript therefrom and of the whole of the original.

In testimony whereof, I have hereunto subscribed my hand and affixed the seal of the Commission this 24th day of April, 1908.

TRAVIS H. WHITNEY, Secretary.

April 23, 1908.

Public Service Commission for the First District:

SIRS—The Commissioners of Appraisal recently appointed by the Court in the proceeding to condemn certain property in The City of New York, Borough of Manhattan, known as Nos. 142, 144, 146, 148 and 150 Centre street, and Nos. 117, 119 and 121 Walker street, required for the Brooklyn loop lines, having taken and filed their oaths, the title to the property, under section 47 of the Rapid Transit Act, is now vested in the City.

As the Chief Engineer, in his letter of March 2 last, advised the Commission that it is important that all property required for the subway now building should be put into the possession of the contractors at "the earliest possible moment," it becomes necessary that the buildings erected on the lots mentioned should be torn down and the building material removed without delay.

The Rapid Transit Act, section 39, provides as follows:

"It shall be the duty of the Board, whenever any property which the City shall have acquired as provided in this act shall be unnecessary for rapid transit purposes, to sell and convey the same in behalf of said City, provided, however, that no such sale or conveyance shall be made except with the approval of the Commissioners of the Sinking Fund of such City: \* \* \* and provided further, that the proceeds of any such sale or conveyance shall, under the direction of the said Board of Rapid Transit Railroad Commissioners, be applied either to the purchase of other property necessary for rapid transit purposes or shall be applied in all respects as the payments of rental to be made by the contractor, as provided in this act."

These buildings are certainly unnecessary property, and as such may be sold by the Commission, subject to the approval of the Sinking Fund Commissioners. There is, however, no direction in the act as to how the buildings are to be sold, whether at auction or by private sale. The Commission has no machinery to conduct an auction sale nor any independent fund out of which to pay its necessary expenses.

Section 1553 of the Charter provides that real property belonging to the City, including buildings, shall not be disposed of except upon the sale thereof "at public auction, after previous public notice, pursuant to a resolution adopted by the Commissioners of the Sinking Fund, and such sale shall be under the supervision of said Commissioners, and not otherwise."

Obviously this provision was not intended to apply to the Commission, because section 205 of the Charter directs that "The proceeds of said sale or leasing shall \* \* \* be paid to the credit of the Sinking Fund for the Redemption of the City Debt."

At an informal conference had at the suggestion of Mr. Phillips, Deputy Comptroller, on Friday last, between Commissioner Eustis, Mr. Phillips, Mr. Sterling, Assistant Corporation Counsel, and Mr. Whitman, this and other questions involving the conflict between the provisions of the Rapid Transit Act and those of the Charter were discussed. It was stated by Mr. Phillips, and the statement was assented to by Mr. Sterling, that the Board of Rapid Transit Railroad Commissioners, after some hesitation, had adopted the policy of availing of the various City Departments whenever it was found convenient so to do in the progress of their work, and that to have pursued a different course would have involved constant if not serious friction, as well as vexatious delays. It was also stated that it is a fact that sales of unnecessary property had been made by the Board under the direction of the Sinking Fund Commissioners.

Commissioner Eustis seemed to be of the opinion that it would be well for the Commission to follow this general practice of the Board, whenever it could properly do so without surrendering its rights or shirking its duties, and that in the present emergency the Commission should not only ask the consent of the Sinking Fund Commissioners to the sale of these buildings, but also request that such sale be had under their supervision.

Accordingly, at the request of Commissioner Eustis, I have drawn and transmit herewith a proposed resolution to that effect, in which I have incorporated a provision that the proceeds of the sale be applied as provided in section 39 of the Rapid Transit Act.

Respectfully yours,  
GEO. S. COLEMAN,  
Counsel to the Commission.

May 7, 1908.

TRAVIS H. WHITNEY, Esq., Secretary, Public Service Commission, No. 154 Nassau Street, City:

DEAR SIR—Your communication of the 25th ult., relative to the sale of buildings upon property purchased for rapid transit purposes in connection with the Brooklyn loop line, received.

If you desire the Commissioners of the Sinking Fund to sell the buildings, I beg to advise you that all buildings upon property acquired for public purposes are sold by the Commissioners of the Sinking Fund, pursuant to the provisions of section 1553 of the Charter, and the proceeds of such sales immediately deposited with the Chamberlain, as provided in said section.

I cannot find any authority in law that would justify the Commissioners of the Sinking Fund in turning over the proceeds of said sale to the Public Service Commission, or utilize it in any way except payment into the Sinking Fund for the Redemption of the City Debt.

With this information before you, will you kindly let me know if you desire the Commissioners of the Sinking Fund to sell the buildings in question?

Respectfully,  
(Signed) N. TAYLOR PHILLIPS,  
Deputy Comptroller, and Secretary, Commissioners of the Sinking Fund.

No answer having been received to the above communication of the Deputy Comptroller, the Comptroller submitted all the papers to the Board.

Discussion of the matter followed, after which the Comptroller offered the following resolution:

Resolved, That the Commissioners of the Sinking Fund hereby decline to authorize or approve the sale of any buildings upon property acquired for rapid transit purposes, at the request of the Public Service Commission, whenever the application contains a request that the proceeds of such sale be turned over to the Public Service Commission.

Which resolution was unanimously adopted.

The following communication was received from the Fire Department relative to resolution adopted by the Commissioners of the Sinking Fund, directing that the rental of all property leased for the purposes of The City of New York be made payable quarterly:

May 21, 1908.

Honorable Commissioners of the Sinking Fund, Finance Department, No. 280 Broadway, Manhattan:

DEAR SIRS—At a meeting of your Board held on April 14, 1908, a resolution was adopted which reads as follows:

"Resolved, That all the boards, commissioners and officers of the City Government, in arranging for the hiring or leasing of any property for the purposes of The City of New York, are hereby directed to make arrangements with the lessor of the property so to be leased, that the rent shall be made payable quarterly at the end of each quarter."

This Department has several contracts let and to be let for repairs to buildings, which will require that temporary quarters be provided for the men. These generally are in stores or tenements in proximity to the company quarters and of such a character that the rent would be expected monthly, and as the hired premises would only be used for a few months, I have the honor to request that the resolution be modified in so far as it will apply to the quarters required for the use of this Department for a limited period.

Respectfully,

NICHOLAS J. HAYES, Fire Commissioner.

Resolved, That the Commissioners of the Sinking Fund hereby waive the requirements of the resolution adopted April 14, 1908, relative to the making of all leases payable quarterly, in so far as it relates to leases of premises for use of the Fire Department for a short period on a month to month basis.

Which resolution was unanimously adopted.

The following communication was received from the President of the Borough of Brooklyn turning over to the Commissioners of the Sinking Fund as no longer required for the uses and purposes of his Department, property in Third street and Neptune avenue, in the Borough of Brooklyn:

BROOKLYN, May 18, 1908.

Sinking Fund Commission, No. 280 Broadway, Manhattan:

DEAR SIRS—I hereby resign jurisdiction and control of this tract, piece or parcel of land bounded and described as follows:

"Beginning at a point in the easterly line of East Third street and distant five hundred and forty-six feet eight inches, more or less, northerly from the northerly line of Neptune avenue as measured along the easterly line of East Third street, which point of beginning is fifteen feet (as measured along the easterly line of East Third street) northerly from the intersection of the easterly line of East Third street and the southerly property line of the property of The City of New York at caisson No. 3 of the Thirty-first Ward Disposal Works in Coney Island; thence northerly along the easterly line of East Third street one hundred and twenty-one feet six inches, more or less, to the intersection of the easterly line of East Third street with the westerly property line of aforesaid property of The City of New York; thence along said westerly property line to its intersection with the southerly line of Canal avenue; thence along said southerly line of Canal avenue to a point distant eighty feet as measured on a line at right angles to the extension of the easterly line of East Third street; thence southerly along a line parallel to and distant eighty feet from the easterly line of East Third street to a point distant fifteen feet (as measured along the extension of this easterly boundary line) from the southerly property line of the aforesaid property of The City of New York; thence westerly along a line parallel to the aforesaid southerly property line of the property of The City of New York to the point or place of beginning."

Which was assigned to the President of the Borough for use by the Bureau of Sewers, the same not being now required by this office for the use of that Bureau, it being required for the Department of Street Cleaning, and I hereby request that you formally transfer jurisdiction and control over said parcel of land to said Department of Street Cleaning of The City of New York.

Yours truly,

BIRD S. COLER, President of the Borough.

The property was accepted and the communication ordered on file.

The Comptroller presented the following report and offered the following resolution relative to an assignment to the Department of Street Cleaning of the property turned over by the President of the Borough of Brooklyn, on Third street and Neptune avenue, Borough of Brooklyn, known as Disposal Works No. 3:

May 7, 1908.

Hon. HERMAN A. METZ, Comptroller:

SIR—The Commissioner of the Department of Street Cleaning has made application to the Commissioners of the Sinking Fund for assignment of the land now used by the Bureau of Sewers as disposal works at Twelfth street and Neptune avenue, Borough of Brooklyn.

Under date of January 21, 1908, the President of the Borough points out to this office that there is a large plot known as Disposal Works No. 3, near the Boulevard, which is not in use and which could, he believed, be utilized very well for the Department of Street Cleaning.

Under date of February 5, 1908, this office notified the President of the Borough of Brooklyn that it would be necessary, in accordance with the provisions of section 205 of the amended Greater New York Charter, for the President of the Borough of Brooklyn to turn over to the Commissioners of the Sinking Fund the property as being no longer required, in order that the same might be assigned to the Commissioner of the Department of Street Cleaning. We also asked for two detailed diagrams of the disposal works at Twelfth street and Neptune avenue (the one which the Street Cleaning Commissioner desired in the first instance, and the one known as Disposal Works No. 3, near the Boulevard, which the Borough President stated he would turn over to the Commissioners of the Sinking Fund).

The President of the Borough, in a communication dated February 3, 1908, states that he has been in communication with the Commissioner of Street Cleaning and was informed by said Commissioner that the disposal works would be perfectly satisfactory to him.

Under date of February 7, 1908, the President of the Borough acknowledges the receipt of our communication of the 5th, and states that he has asked the Sewer Bureau to prepare for the use of the Commissioners of the Sinking Fund the maps in question. Under date of April 27 the Acting President of the Borough of Brooklyn transmits the maps in question, and also extracts from the City Record.

It seems that the Commissioners of the Sinking Fund at a meeting held May 2, 1902 (see Minutes, page 392), adopted a resolution assigning to the Department of Street Cleaning property on the northerly side of Neptune avenue, Coney Island Creek and Stillwell avenue, adjoining the Brooklyn Heights Railroad right of way, which resolution was rescinded at the request of then Borough President Swanstrom at a meeting held May 21, 1902 (see Minutes, page 493).

Inasmuch as the President of the Borough states in his communication of February 3 that the Commissioner of the Department of Street Cleaning and he have agreed upon a satisfactory site for the use of the Street Cleaning Department, said site being wholly within the lines of the property of The City of New York and located within the lines of Disposal Works No. 3, at Gravesend, I would respectfully recommend that the Commissioners of the Sinking Fund accept from the President of the Borough of Brooklyn, in accordance with the provisions of section 205 of the amended Greater New York Charter, the following-described property:

Beginning at a point in the easterly line of East Third street, distant 546 feet 8 inches, more or less, northerly from the northerly line of Neptune avenue, as measured along the easterly line of East Third street, which point of beginning is 15 feet (as measured along the easterly line of East Third street) northerly from the intersection of the easterly line of East Third street and the southerly property line of the property of The City of New York at Caisson No. 3 of the Thirty-first Ward Disposal Works in Coney Island; thence northerly along the easterly line of East Third street 121 feet 6 inches, more or less, to the intersection of the easterly line of East Third street with the westerly property line of aforesaid property of The City of New York; thence along said westerly property line to its intersection with the southerly line of Canal avenue; thence along the southerly line of Canal avenue to a point distant 80 feet, as measured on a line at right angles to the extension of the easterly line of East Third street; thence southerly along a line parallel to and distant 80 feet from the easterly line of East Third street to a point distant 15 feet (as measured along the extension of this easterly boundary line) from the southerly property line of the aforesaid property of The City of New York; thence westerly along a line parallel to the aforesaid southerly property line of the property of The City of New York to the point or place of beginning,

—and turn the same over to the Commissioner of the Department of Street Cleaning for the purposes of said Department.

Respectfully submitted for approval,

MORTIMER J. BROWN,

Appraiser of Real Estate, Department of Finance.

Approved:

H. A. METZ, Comptroller.

Resolved, That, pursuant to the provisions of section 205 of the amended Greater New York Charter, the Commissioners of the Sinking Fund hereby assign to the Department of Street Cleaning the following property in the Borough of Brooklyn, turned over to the Commissioners of the Sinking Fund by the President of the Borough of Brooklyn as being no longer required for the uses and purposes of his Department:

"Beginning at a point in the easterly line of East Third street, distant 546 feet 8 inches, more or less, northerly from the northerly line of Neptune avenue, as measured along the easterly line of East Third street, which point of beginning is 15 feet (as measured along the easterly line of East Third street) northerly from the intersection of the easterly line of East Third street and the southerly property line of the property of The City of New York at Caisson No. 3 of the Thirty-first Ward Disposal Works in Coney Island; thence northerly along the easterly line of East Third street 121 feet 6 inches, more or less, to the intersection of the easterly line of East Third street with the westerly property line of aforesaid property of The City of New York; thence along said westerly property line to its intersection with the southerly line of Canal avenue; thence along said southerly line of Canal avenue to a point distant 80 feet, as measured on a line at right angles to the extension of the easterly line of East Third street; thence southerly along a line parallel to and distant 80 feet from the easterly line of East Third street to a point distant 15 feet (as measured along the extension of this easterly boundary line) from the southerly property line of the aforesaid property of The City of New York; thence westerly along a line parallel to the aforesaid southerly property line of the property of The City of New York to the point or place of beginning."

The report was accepted and the resolution unanimously adopted.

Adjourned.

N. TAYLOR PHILLIPS, Secretary.

## POLICE DEPARTMENT.

May 25, 1908.

The following proceedings were this day directed by the Police Commissioner:

Whereas, The exigencies of the Police service urgently require the employment of ten additional Hostlers, and the sum required to pay such Hostlers from June 1, 1908, to December 31, 1908, namely, 214 days, at \$3 per day, will be \$6,420; and

Whereas, The Board of Estimate and Apportionment in the appropriation for the Police Department for 1908 appropriated \$7,000 for increases in the salaries of Deputy Police Commissioners and for salaries of Police Chaplains, which increases the Board of Estimate and Apportionment have so far refused to make operative, and which increases could not now be made operative before June 1, 1908; and

Whereas, The pro rata proportion of said increases already appropriated for the five months from January 1, 1908, to June 1, 1908, amount to about \$3,000; and

Whereas, The Board of Estimate and Apportionment appropriated for the Police Department for 1908 under the heading "Police Fund—Salaries of Clerical Force, etc.," about \$15,000 for increases of salaries; which increases of salaries the Board of Estimate and Apportionment have not so far permitted to be used; and since the proportionate amount of said increased appropriation for said increases of salaries from January 1 to June 1, 1908, cannot now be used otherwise, thus leaving a certain amount of appropriated money available amounting to not less than \$3,520; therefore it is

Ordered, That the Board of Estimate and Apportionment be and is hereby respectfully requested to authorize the employment of ten additional Hostlers as above said; and is hereby respectfully requested to transfer the sum of \$2,900 for such purpose from the appropriation made to the Police Department for the year 1908, entitled Police Fund—Salaries of Police Commissioner, Deputy Police Commissioners and Chaplains, which is in excess, as above explained, of the amount required for the purposes and objects thereof, to the appropriation made to the Police Department for the year 1908, entitled Police Fund—Salaries of Clerical Force and Employees; also

Ordered, That the Board of Estimate and Apportionment be and is hereby respectfully requested, for the purposes above mentioned, to authorize the Police Commissioner to use the sum of \$3,520 of the appropriation made to the Police Department for the year 1908, entitled Police Fund—Salaries of Clerical Force and Employees, the said sums of \$2,900 and \$3,520, making a total of \$6,420 to be applied to the payment for the employment of ten additional Hostlers as above stated, from June 1, 1908, to December 31, 1908, or 214 days, at \$3 per day.

Where the amount of the purchase price does not equal or exceed the sum of fifty dollars, the sum of fifty dollars shall be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract, but unfinished at the expiration of the contract period.

All the material of the buildings, sheds, walks, structures and cellars of whatsoever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds, except the sidewalk and curb in front of said buildings extending within the described area and down to the level of the cellar bottom, shall be torn down and removed from the premises. None of the dirt, debris or waste resulting from demolition shall be allowed to remain on the premises, except old mortar or plaster only, which may be left, but not higher at any point than two feet below the curb opposite that point; also the foundation walls of all classes shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building.

The permit for all openings in the street to be obtained by and at the expense of the purchaser of the building.

Failure to remove said buildings, appurtenances or any part thereof within sixty days from the day of the sale will work forfeiture of ownership of such buildings, appurtenances or portion as shall then be left standing, together with all moneys paid by said purchaser on account thereof at the time of the sale, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and The City of New York will, without notice to the purchaser, cause the same to be removed and the costs and and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner and must be completed within sixty days from the day of sale, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damage and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of said buildings.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down. All furings, plaster, chimneys, projecting brick, etc., on the faces of such party walls are to be taken down and removed. The walls shall be made permanently self-supporting, beamholes, etc., bricked up, and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs of adjacent buildings shall be properly flashed and painted and made watertight where they have been disturbed by the operations of the contractor.

The Comptroller of The City of New York reserves the right on the day of sale to withdraw from sale any of the buildings, parts of buildings and machinery included therein, or to reject any and all bids. And it is further

Resolved, That, while the said sale is held under the supervision of the Commissioners of the Sinking Fund, the Comptroller is authorized to cause the sale to be advertised and to direct the sale thereof as financial officer of the City.

Pursuant to a resolution of the Public Service Commission for the First District, adopted on May 26, 1908, the sale of the above described buildings will be held by said Commission on the premises on

**THURSDAY, JUNE 18, 1908,**

at 11 o'clock a. m., upon the following terms and conditions and subject to the approval of the Commissioners of the Sinking Fund:

The buildings and appurtenances thereto will be sold to the highest bidder, who must pay immediately cash or a certified check drawn to the order of the Comptroller of The City of New York and must also, at the time of the sale, give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. Where the amount of the purchase price does not equal or exceed the sum of fifty dollars the sum of fifty dollars shall be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by The City of New York to the cost of completing any of the work required under the contract, but unfinished at the expiration of the contract period.

All the materials of the buildings, sheds, walks, structures and cellars of whatsoever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds, except the sidewalk and curb in front of said buildings extending within the described area and down to the level of the cellar bottom, shall be torn down and removed from the premises. None of the dirt, debris or waste resulting from demolition shall be allowed to remain on the premises, except old mortar or plaster only, which may be left, but not higher at any point than two feet below the curb opposite that point; also the foundation walls of all classes shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building.

The purchaser at the sale shall also withdraw and remove all abandoned water taps and old service mains, and in place thereof cause to be inserted a brass plug in the main water pipe in the street, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and furnish the Department of Finance with a certificate from the Department of Water Supply, Gas and Electricity that this has been performed.

The purchaser at the sale shall also remove all house sewer connections to the main sewer in the street, and the opening of the main sewer in street shall be properly closed in compliance with the directions of the Bureau of Sewers, Borough of Manhattan, and furnish the Department of Finance with a certificate from the Bureau of Sewers that the work has been properly performed.

The permits for all openings in the street to be obtained by and at the expense of the purchaser of the building.

Failure to remove said buildings, appurtenances, or any portion thereof, within sixty days from the day of the sale, will work forfeiture of ownership of such buildings, appurtenances, or portion as shall then be left standing, together with all moneys paid by said purchaser on account thereof at the time of the sale, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and the City of New York will, without notice to the purchaser, cause the same to be removed and the costs and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner and must be completed within sixty days from the day of sale, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damage and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of the said buildings.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down. All furnishings, plaster, chimneys, projecting brick, etc., on the faces of such party walls, are to be taken down and removed. The walls shall be made permanently self-supporting, beam holes, etc., bricked up, and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs of the adjacent buildings shall be properly flashed and painted and made water-tight where they have been disturbed by the operations of the contractor.

##### GENERAL INSTRUCTIONS TO BIDDERS.

The person or persons making a bid or estimate for any services, work, materials or supplies for The City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope, indorsed with the title of the supplies, materials, work or services for which the bid or estimate is made, with his or their name or names and the date of presentation to the President or Board or to the head of the Department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said Department and read, and the award of the contract made according to law as soon thereafter as practicable.

Each bid or estimate shall contain the name and place of residence of the person making the same, and names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, or the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below.

No bid or estimate will be considered unless, as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done.
