These orders call the attention of owners, lessees and agents to violations of the Sanitary Code and Health Laws in each case, and require the necessary alteration, repairs, cleaning and improvement of the premises named within three days from the receipt of the order. If, upon reinspection, it is found that the requirements of the order have not been complied with, a suit for penalty is commenced against the delinquents under sections 1172 and 1222, chapter 466, Laws of 1901.

BOARD OF ESTIMATE AND APPORTIONMENT.

NOTICE IS HEREBY GIVEN THAT AT the meeting of the Board of Estimate and Apportionment held on June 5, 1908, the following resolutions were adopted:

Whereas, The Commissioner of Water Supply, Gas and Electricity of The City of New York, acting for and in behalf and in the name of The City of New York, in pursuance of the provisions of chapter 466 of the Laws of 1901, as amended, has selected and determined certain real estate (as the term "real estate" is defined in the said act) around Oakland Lake, in the Borough of Queens, State of New York, as and for sources of public water supply in and for The City of New York, and deems it necessary to take and acquire the same, and all the rights, titles and interests therein, and to extinguish all claims or damages on account of such rights, titles and interests, or growing out of such taking, for the purpose of maintaining, preserving and increasing the supply of pure and wholesome water for The City of New York, Borough of Queens, said lands being required for water supply purposes in the immediate neighborhood of Oakland Lake; one parcel, known as Plot No. 1, to be used for a driven well station, and the other parcel, Plot No. 2, being additional land required for a filtration plant for treating the waters from Oakland Lake.

Whereas, The said Commissioner has prepared and submitted to the Board of Estimate and Apportionment, under dates of February 20, 1908, and March 25, 1908, maps showing the said real estate to be taken and acquired as aforesaid, as provided in the said act; therefore be it

Resolved, That a public notice be given of a hearing to be held by the Board of Estimate and Apportionment of The City of New York, in the Old Council Chamber, Room 16, City Hall, Borough of Manhattan, City of New York, on the 26th day of June, 1908, at 10.30 o'clock a. m., at which time and place a full opportunity shall be afforded to any and all persons interested to be heard respecting such maps and the taking and acquisition of the real estate as shown thereon.

NOTICE IS

PUBLIC NOTICE IS HEREBY GIVEN that at a meeting of the Board of Estimate and Apportionment, held June 5, 1908, the following petition was received:

To the Honorable the Board of Estimate and Apportionment:

The petition of the Union Railway of New York City respectfully shows:

First—That your petitioner is a street surface railway company, organized and existing under the laws of the State of New York, having been formed by the filing of articles of consolidation in the office of the Secretary of State of New York on the fifth day of July, 1892.

Second—That for many years it has been engaged in the operation of a double-track street surface railroad, with extensions and branches thereof, for the carriage of passengers in the Boroughs of Manhattan and The Bronx, in The City of New York, and using the overhead trolley system of electric traction as motive power thereon.

Third—That one of the lines of the petitioner's railroad has been operated for many years upon Fordham avenue and Bailey avenue, in the Borough of The Bronx, and afforded a convenient connection for public travel between the easterly portion of the Bronx Borough, in which are operated the steam lines of the New York and Harlem Railroad, the elevated lines of the Manhattan Railway and the Kingsbridge section of the Borough of The Bronx.

An additional line of the petitioner's railroad has been operated on Broadway, between Two Hundred and Thirtieth street and the northerly line of The City of New York, affording also a convenient line of travel to and from the terminus of the subway line to many thousands of people traveling daily thereon.

Fourth—Your petitioner now proposes to connect its road upon Fordham and Bailey avenues, which now terminates at the intersection of Two Hundred and Thirtieth street and Bailey avenue, with the road upon Broadway, which now terminates at Two Hundred and Thirtieth street, by the construction of a double-track extension, or branch, in said Borough of The Bronx, in The City of New York, upon the following streets and avenues:

Beginning at and connecting with the petitioner's double-track road now constructed on Bailey avenue, at the intersection thereof with West Two Hundred and Thirtieth street; running thence westerly in or upon the surface of West Two Hundred and Thirtieth street to its intersection with Broadway, there to connect with the petitioner's double-track road now operated thereon.

Fifth—That heretofore and on or about the 23d day of August, 1892, the Common Council of The City of New York gave its consent to the construction of an extension to the petitioner's railroad upon streets described in the resolution as "thence northerly along said (Sedgwick) avenue to its intersection with Bailey avenue; thence along Bailey avenue to its intersection with Broadway at Kingsbridge."

Your petitioner believes that by such description the Common Council giving such consent intended to include the right to construct upon Two Hundred and Thirtieth street the extension herein applied for, but said resolution was not effective for such purpose by reason of failure to specifically describe the said street.

Sixth—That such extension or branch will be 750 feet in length and, when constructed, will enable the petitioner to operate a continuous line of cars upon and over its Bailey avenue and Broadway lines above described.

Seventh—That your petitioner proposes to operate said extension or branch by the overhead system of electricity, similar in all respects to that now in use on its other lines of road.

Eighth—That for the purpose of constructing and operating such branch or extension of its road, your petitioner desires to obtain from your Honorable Board, and hereby applies for its consent to and a grant of the franchise or right for the construction, maintenance and operation of a double-track extension or branch of its existing railroad for public use in the conveyance of persons and property for compensation over the street and avenues above mentioned.

Wherefore your petitioner prays that public notice of this application and of the time and place when and where the same will be first considered be given, as required by law, and that a franchise or right be granted in accordance with the provisions of the Greater New York Charter.

Dated New York, May 28, 1908.

EDWARD A. MAHER.

Whereas, The foregoing petition from the Union Railway Company of New York, dated May 28, 1908, was presented to the Board of Estimate and Apportionment at a meeting held June 5, 1908;

Resolved, That, in pursuance of law, this Board sets Friday the 26th day of June, 1908, at 10.30 o'clock in the forenoon and Room 16 in the City Hall, Borough of Manhattan, as the time and place when and where such petition shall be first considered, and a public hearing be had thereon, at which citizens shall be entitled to appear and be heard; and be it further

Second—That for many years it has operated a double-track street surface railroad for the carriage of passengers in the Borough of Manhattan, City of New York, from the City Hall, in said City, upon Park row, Bowery and Third avenue to the Harlem River; upon One Hundred and Twenty-fifth street and Manhattan street, from East River to North River, and upon Amsterdam avenue, from One Hundred and Twenty-fifth street to the northerly terminus thereof at Fort George, at or near the intersection of Fort George avenue, using the underground system of electrical traction as motive power for such operation.

Third—That your petitioner proposes to extend its road on Amsterdam avenue and construct a branch thereof with double tracks and such connections, switches and appurtenances as may be necessary for the accommodation and operation of the said extension or branch in, through and upon the surface of such streets, avenues and highways in the Borough of Manhattan, City of New York, as are described as follows: Beginning at and connecting with the double track road upon Amsterdam avenue, owned by the Third Avenue Railroad Company, at or near the connection of said avenue with Fort George avenue, running thence northerly, westerly and southerly in, upon and along said Fort George avenue, as it winds and turns to the connection thereof with St. Nicholas avenue, running thence southerly in, upon and along St. Nicholas avenue to the intersection of One Hundred and Ninetieth (190th) street, and running thence easterly in, upon and along said One Hundred and Ninetieth (190th) street to the intersection of said street with Amsterdam avenue, there to connect with the existing railroad on said avenue, now owned by the said company.

Fourth—That such extension or branch will be 3,500 feet or thereabouts in length. When constructed it will enable the petitioner to operate cars over a continuous line of road, and avoid the inconvenience arising from the use of a stub end railroad terminal. The present operation will be accelerated thereby and quicker transportation given to the public seeking to depart from the Fort George territory.

Fifth—That your petitioner proposes to operate said extension or branch by the underground system of electrical operation, of the character now used on the petitioner's road on Third avenue, Amsterdam avenue and other streets above referred to.

Sixth—That for the purpose of constructing and operating said extension or branch of its road your petitioner desires to obtain from your Honorable Board and hereby applies for its consent to, and a grant of, the franchise or right for the construction, maintenance and operation of a double-track extension branch of its existing railroad, for public use in the conveyance of persons and property for compensation, in or upon the avenues, streets and highways above described.

Wherefore, your petitioner prays that public notice of this application and of the time and place when and where the same will be first considered, be given, as required by law, and that a franchise or right be granted for the construction, maintenance and operation of said above described extension and branch be granted in accordance with the provisions of the Greater New York Charter.

The permits for all openings in the street to be obtained by and at the expense of the purchaser of the building.

Failure to remove said buildings, appurtenances, or any portion thereof, within sixty days from the day of the sale, will work forfeiture of ownership of such buildings, appurtenances, or portion as shall then be left standing, together with all moneys paid by said purchaser on account thereof at the time of the sale, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and the City of New York will, without notice to the purchaser, cause the same to be removed and the costs and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner and must be completed within sixty days from the day of sale, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damage and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of the said buildings.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down. All furrings, plaster, chimneys, projecting brick, etc., on the faces of such party walls, are to be taken down and removed. Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.
