JOHN J. DELANY, Corporation Counsel.

DEPARTMENT OF DOCKS AND FERRIES.

New York, July 10, 1906.

The following communication was received, action being taken thereon as noted, to wit:

From the Comptroller (68567)—Transmitting, in connection with question as to ownership of property required by this department for improvement of water front in the vicinity of Fordham road and Harlem river, copy of a grant dated March 3, 1888, which antedates the omnibus grant to The City of New York of premises at the above location, and asking whether, in view of same, it would be advisable to amend the resolution of the Sinking Fund Commission, adopted June 20, 1906, authorizing this Department to offer \$17,000 for the purchase of private property required. Notified that the opinion of the Corporation Counsel advises that the only property which is vested in private interests is the area embraced inshore of the pier and bulkhead line established in 1857, and that the remaining portion of the land under water between the line of 1857 and the lines of 1890 is vested in the City by the blanket grant of 1888; that the question as to the validity of the grant, copy of which was sent to this Department, as above mentioned, is one which must be passed upon by the Corporation Counsel; that the Department of Taxes and Assessments has given the assessed valuation (apportioned) of the property which the City is called upon to acquire, and that the resolution of the Sinking Fund Commission should be so amended as to authorize this Department to make an offer to the owners based upon the apportioned valuation of the property which is vested in private owners.

Consent was granted by the Commissioner for the substitution of the Title Guarantee and Surety Company as surety in the place of H. P. Osterhoudt and W. H. Trainer on the proposal of F. B. Smith Contracting Company for laying a new granite pavement on sand foundation on Thirteenth avenue, between West Twenty-second and West Twenty-third streets, and on part of West Twenty-second street, between Eleventh and Thirteenth avenues, in the Borough of Manhattan, under Contract No. 1006.

BOARD OF EXAMINERS.

Board of Examiners, }
August 14, 1906.

Present—Messrs. Warren A. Conover, Charles Buck, Lewis Harding, Charles G. Smith, Edward F. Croker, Henry R. Marshall and William J. Fryer, Chairman.

Meeting called to order at 2 p. m.

On motion, minutes approved as read.

Mr. Smith, having reported, was excused by the Chairman.

Appeal 30 of 1904, Alteration 425 of 1906, premises southwest corner of One Hundred and Fifty-third street and Melrose avenue, The Bronx; Gustav Schwartz, appellant. (Laid over at last meeting.)

Mr. Marshall withdrew his motion to deny this appeal (made at the last meeting).

Mr. Harding moved to approve on condition that all outside walls be filled in solidly with brickwork between the studs for the entire height of the building. Motion lost on vote. Denied.

Appeal 32 of 1906, New Building — of 1906, premises west side Rockaway avenue, about 125 feet south of Pitkin avenue, Brooklyn; Fr. Buchar, appellant.

"No. 1. That the building as proposed will occupy an area of 9,025 superficial feet in the cellar and on the ballroom floor; the remainder of the building will occupy 2,395 superficial feet. Area on each of the stories — while, under section 32 of the Building Code, such building would in certain localities come under the law requiring that not more than 8,000 square feet could be occupied."

Under the provisions of law in that under section 32 of the Building Code and in the last paragraph of same the following words appear: An area greater than herein stated may, considering location and purpose, be allowed by the Board of Buildings, when proposed building does not exceed three stories in height.

First—That applying to the amount of area of superficial feet of occupancy.

Second—Considering that frame structures, such as churches, synagogues and other large buildings of such character erected, may be altered and transformed into music halls and places of assembly, outside the fire limits, all of which would be of a much more dangerous character than the proposed building, even though said proposed building would or could assemble twice as many people as either of the above-mentioned places of assembly. Considering also that the main and bulk of the assemblage would be practically on the level of the street, and there being no seats or other obstructions in a ballroom, the possibility of accident in case of fire would not be of a necessity much impeded.

Third—That portion of the building covering 2,395 superficial feet will be used exclusively for lodge meeting rooms, and would seldom if ever have more than fifty persons assembled in each room at over any one time.

While said building is four stories in height, the front part only, viz., 25 feet by 95 feet, same is but a small proportion of the entire building, which is practically only one story high.

Whereon the ballroom is located, also adequate provisions have been made for exits, in that court 5 feet in width running through all across the rear and one side, as well as ample fire escapes.

Mr. F. Buchar appeared before the Board.

On motion, referred to Chief Croker for examination and report with recommendation.

Adjourned.

M. M. D. CLARK, Acting Clerk.

BOARD OF EXAMINERS.

Board of Examiners, }
August 21, 1906.

Present—Messrs. Warren A. Conover, Charles Buck, Lewis Harding, Charles G. Smith, Edward F. Croker, Henry R. Marshall and William J. Fryer, Chairman.

Meeting called to order at 2 p. m.

On motion, minutes approved as read.

Appeal 32, New Building No. ... of 1906, premises west side Rockaway avenue, 125 feet south Pitkin avenue, Brooklyn; Fr. Buchar, appellant. Laid over pending report.

Appeal 33 of 1906, Alteration 2104 of 1906, premises Nos. 201-213 West Fifty-seventh street, Manhattan; A. S. G. Taylor, appellant.

"No. 1. As the building will exceed 12 stories and 150 feet in height, same should conform to all the requirements of section 105 of the Code relating to fire-proofing."

The rules and regulations of the President of the Borough of Manhattan, or the provisions of law or ordinances, do not apply; and that an equally good and more desirable form of construction can be employed.

1. In the rear portion of the new extension, which does not exceed in height 150 feet, the placing of 14 stories in order to give duplex floors to the fifth, seventh and ninth stories of the 11-story front portion of the new extension.

2. On the roof of the front portion of the new extension which is 11 stories in height, and which does not exceed 150 feet from the curb to the top of the main roof beams, to allow the placing of a pent house, to be used as an enclosure for a staircase and as a bathroom. One side of this pent house will be formed by the higher brick party wall of the main building and the other sides and ends will be of angle iron and burnt clay blocks plastered with cement on the outside and plastered on the inside. The southerly or front end of the pent house will be kept back 6 feet from the inside of the front wall, will cover an area of not more than 154 square feet, outside measurements, and not exceed 9 feet in height, the area thus being about 10 per cent. of the area of the extension roof. The front wall is carried up above the roof of the new extension simply in order to give uniformity in appearance from the street with the existing building; this wall has two uninclosed openings in the same, and the wall has no return, except for about 6 feet in length where the westerly parapet wall will be stepped up to buttress the said front wall.

The new addition to the existing Osborne Apartment House increases by only one the number of families now occupying the existing building, as on each floor above the third the rooms in the new extension are simply added to one-family apartments in the existing building. The height of the extension on the front is 11 stories, and in order to make the new and old floor correspond the clear heights of stories are greater than would otherwise be deemed necessary. The average number of stories (11 in front, 14 in rear) is really only about 12, and were it not that the upper stories are so high, 15 feet from floor to floor, 12 stories could easily have been gotten where only 11 are placed in 150 feet. Unusual light and ventilation are provided, as the open space at the extreme rear of the new extension is 20 feet to the rear line of lot, and the side court has a depth of 55 feet by an average width of about 19 feet.

The pent house covers only a small percentage of the roof area; it will have floors finished in cement; wire glass will be used wherever glass is necessary; doors and any other woodwork used will be kalsomined; and in every way will be constructed fireproof throughout. The construction will be made satisfactory to the Superintendent of Buildings.

I respectfully submit that the plans comply fully with the spirit of the Building Code, if not with its exact letter; and as the variation does not add to the fire risk this building should be subject only to the requirements of buildings not more than 150 feet, or 12 stories in height. Therefore, I respectfully ask for the approval of this application by your Honorable Board.

Mr. G. S. Wright appeared for the appellant.

On motion, approved on condition that the two doors and their trim in the partitions shown on the westerly end of the top story of the existing building be made fireproof.

Adjourned.

EDW. V. BARTON, Clerk.

PROPOSALS FOR BIDS AND ESTIMATES FOR THE CITY OF NEW YORK.

NOTICE TO CONTRACTORS.

GENERAL INSTRUCTIONS TO BIDDERS.

The person or persons making a bid or estimate for any services, work, materials or supplies for The City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope, indorsed with the title of the supplies, materials, work or services for which the bid or estimate is made, with his or their name or names and the date of presentation to the President or Board or to the head of the Department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said Department and read, and the award of the contract made according to law as soon thereafter as practicable.

Each bid or estimate shall contain the name and place of residence of the person making the same, and names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below.

No bid or estimate will be considered unless, as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 430 of the Greater New York Charter.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there.
