MUNICIPAL CIVIL SERVICE COMMISSION.

Notice of Public Hearing.

Proposed amendments to clauses 20, 21 and 22 of rule XV to read as follows:

Clause 20: The subjects of rating and the relative weights thereof in any competitive promotion examination shall be as follows: For comparative conduct, seniority and efficiency in previous service, as may be determined from the transcript of the efficiency or service record (or as may be otherwise determined under paragraph 21 of this rule), between the date of the original appointment of the candidate and the final date for the receiving of applications for any stated examination, 50; and for mental examination on pertinent subjects, 50. (In cases where the candidate has obtained a promotion as the result of a competitive examination, the record shall be a continuation of the last record furnished; but if the promotion be obtained without competitive examination, the record shall commence from the date of his promotion to the position or grade.)

In rating records where more than one grade is opened, such rating shall be based upon the service of the candidate in all of such positions or grades.

Clause 21: To provide a basis of rating for previous service, there shall be kept in each department or office continuous and permanent records of the efficiency, character and conduct of all persons employed in "positions in the competitive class." Such records shall be known as "efficiency records" or "service records," and the entries made therein shall have reference to such factors or sub-factors as the Commission may, by resolution duly recorded in its minutes, direct.

Clause 22: The entries upon an efficiency record or service record shall be made under the direction of a board to be known as the board of promotions or departmental personnel board to be established in each department, which shall consist of not less than three and not more than nine superior officers or employees of such department, who shall be designated by the appointing officer therein, subject to confirmation by the Commission. Such entries shall be based upon reports submitted by the administrative officer most closely in touch with the work of the officer or employee to be rated and shall be made three times a year on or about the tenth day of January, May and September of each year, and shall be a record for the four months' period immediately preceding. Such reports shall be made on a form to be prescribed by the Commission. After the board of promotions or departmental personnel board has passed upon

the terms or percentages to be used to indicate the degree of efficiency of the several employees, the original reports and the recommendations made in accordance shall be transmitted to the Commission for its approval before any entries are made upon the efficiency or service record.

Whenever, in the judgment of the Commission, more exact information is required than that given in such reports, the original records of the department may be consulted or such action taken as may be deemed advisable.

The Commission shall have power to change or amend any of the recommendations made by the board of promotions or the departmental personnel boards as to the terms or percentages to be used to indicate degrees of efficiency where it shall find that such terms or percentages are not warranted by the report submitted or that such reports do not contain a fair and true account of the comparative efficiency of the several employees whose names appear therein.

Where such changes are made, the reasons shall be given in writing to the department concerned.

When the Commission has considered the recommendations made in the reports, it shall transmit an account of its findings to the several departments, after which the entries shall be made upon the efficiency records or the service records.

The terms to be employed to indicate the degree of efficiency shall be such as the Commission may, by resolution duly recorded in its minutes, prescribe. For periods of service prior to the establishment or in the absence of any such record, such ratings shall be based on such certificates covering the several elements of service specified by the Commission in such forms as the Commission may require.

The efficiency records or service records shall be open to either the Chief Examiner or to any examiner designated by him and at reasonable times to any officer or employee whose conduct is noted therein.

A PUBLIC HEARING WILL BE ALLOWED, at the request of any interested persons, in accordance with Rule III, at the Commission's offices, Room 1443, Municipal Building, on

WEDNESDAY, JULY 12, 1916,

at 10:30 a. m.
