MESSAGES FROM HIS HONOR THE MAYOR.

The President laid before the Board the following message from his Honor the Mayor:

CITY OF NEW YORK—OFFICE OF THE MAYOR, January 4, 1897. *To the Honorable the Board of Aldermen:*

GENTLEMEN—I return herewith, without approval, resolution of your Honorable Body permitting licensed hackmen to solicit passengers at the entrance of bridge leading to the Pennsylvania Railroad Depot, on the southeastern corner of Cortlandt and West streets, on the ground that it has been decided time and again by the courts of this State that "the City has no power to authorize any encroachment or obstruction upon any street or sidewalk, except for the temporary purpose indicated in subdivision 4, section 86 of the Consolidation Act."

Yours, respectfully, W. L. STRONG, Mayor.

Resolved, That permission be and the same is hereby given to licensed hackmen to stand on the curb of the sidewalk at the entrance of the bridge leading to the Pennsylvania Railroad Depot, on the southeastern corner of Cortlandt and West streets, for the purpose of soliciting passengers for hire.

Which was laid over, ordered to be printed in the minutes and published in full in the CITY RECORD.

The President laid before the Board the following message from his Honor the Mayor:

CITY OF NEW YORK—OFFICE OF THE MAYOR, January 4, 1897. *To the Honorable the Board of Aldermen:*

GENTLEMEN—I return herewith, without approval, resolution of your Honorable Body appointing Albert Carr a City Surveyor.

Taking into consideration the importance to this municipality as such, and to the citizens of the city themselves, of the work which City Surveyors are called upon to perform, I have come to the conclusion that these men should not be appointed in future until they shall have passed a satisfactory Civil Service examination.

Under date of December 19, 1896, I received from the Commissioners of Accounts a detailed report of an examination made by them of the work performed by Thomas J. McLaughlin, under contract for regulating and grading Hawthorne street, etc. A part of their report is as follows:

"It is customary for an engineer from the Department of Public Works to examine the work upon contracts for regulating and grading only in a very general way and without any instruments, the Department relying almost entirely upon the City Surveyor and Inspector to see that the work is performed in a proper manner and in accordance with the contract. In each case of regulating and grading the Department employs a City Surveyor, who establishes the grade of the street and who is charged with the duty of seeing that the rock is excavated to the proper subgrade, and that the work in other respects is performed in accordance with the contract. It is the duty of the Inspector to be present continuously at the work and it is the duty of the City Surveyor to show him the grades for the excavation. The Surveyor employed in this case was one A. P. Hartmann, and the Inspector was one David Simmons, the latter being a cigarmaker by trade. Both of these men have been examined under oath by us. The Inspector testified that he had been at the work six weeks before the City Surveyor ever came near it, and that the latter seldom came there more than once in three or four weeks during the progress of the work. According to the testimony of the City Surveyor himself, there were periods of more than a month at a time when he did not go near the work, although the work was actively progressing and it was his duty to see that it was done in accordance with the specifications. From April 11 to July 5, 1895, according to his own statement, he was at the work only once."

The examination shows that the City Surveyor could not have watched this work during its progress, or that if he did watch it he did not see that it was properly performed."

Such neglect of duty and personal unfitness as the above shows, convinces me that City Surveyors should be selected with greater care than heretofore, and, after appointment, should be placed under a stricter scrutiny.

Yours, very respectfully, W. L. STRONG, Mayor.

Resolved, That Albert Carr, of No. 39 Whitehall street, New York City, be and he is hereby appointed a City Surveyor.

Which was laid over, ordered to be printed in the minutes and published in full in the CITY RECORD.

REPORTS.

The Committee on Salaries and Offices, to whom was referred the annexed resolutions in favor of appointing Carl P. Severson and A. W. Stump Commissioners of Deeds, respectfully

Reister and John Torney, respectively, whose term of office has expired.

RUFUS R. RANDALL, FRANK J. GOODWIN, THOMAS M. CAMPBELL, JOSEPH T. HACKETT, THOMAS DWYER, Committee on Salaries and Offices.

The President put the question whether the Board would agree to accept said report and adopt said resolution. Which was decided in the affirmative by the following vote:

Affirmative—The President, the Vice-President, Aldermen Brown, Campbell, Clancy, Dwyer, Goetz, Goodman, Goodwin, Hackett, Keneffick, Lantry, Muh, Murphy, Oakley, O'Brien, Parker, Randall, Robinson, Schilling, School, Tait, Ware, Wines, and Wund—25.

The Committee on Law Department, to whom was referred the annexed applications for permits for stands for the sale of newspapers, periodicals, fruit and soda-water, and for stands for boot-blacking purposes, respectfully

PETITIONS.

By Alderman Kennefick—

To the Board of Aldermen of the City of New York:

GENTLEMEN—We, the undersigned, tradesmen and property-owners on Fulton street, in the City of New York, between Broadway and Pearl street, most respectfully petition your Honorable Board to modify so much of the ordinance recently passed as relates to push-cart venders standing with their push-carts on Fulton street, between the points above mentioned, at any time between 10 A. M. and 6 P. M., for the following reasons:

First—The street is narrow and has a double-track surface railway running through it, which necessarily congests the space in the street.

Second—The delivery and shipping of merchandise from our stores and places of business is injuriously retarded by reason of the push-carts standing along the sidewalk and preventing ingress and egress across the sidewalk to our places of business. This is a most serious obstacle to our business, and also most injurious, because the push-cart men will not move unless forced to do so by the Police, and they are not readily on hand.

Third—Fulton street is a great thoroughfare and business mart; the attention of people passing through the street is attracted to these push-carts and their trashy goods. This, necessarily, draws their attention from the show-windows of the business merchants along the street, which is a great detriment and serious loss to their business, more than can be readily estimated or approximated. The sidewalks are narrow and necessarily congested, and at times blocked by the assembling of people standing in front of the push-carts, so that the ingress and egress to our places of business is greatly blocked, as in the case of unloading and shipping goods.

Fourth—We, the undersigned, are taxpayers and large rent-payers, and the blocking up of the street in front of our premises affects our business most injuriously, and largely decreases our receipts.

We would most respectfully petition that your Honorable Body will relieve us in this matter and exclude these push-carts from in front of our stores and places of business between the hours above designated.

We would further respectfully request that an opportunity be afforded the undersigned to appear before your Committee on Streets and present our grievances, and explain more fully the inconvenience, injury and damage occasioned us by reason of the ordinance now in existence, permitting these push-cart men to stand in front of our premises between the hours above stated.

Notice may be conveyed to the undersigned through H. S. Dewey, of No. 138 Fulton street, New York City.

We would respectfully ask that this petition be given early consideration by your Honorable Body.

Respectfully,

NEW YORK, January, 1897. To the Honorable President JEROLMAN and Honorable Members of the Board of Aldermen of the City of New York:

GENTLEMEN—The General Council of the United Bootblacks' Protective League of the State of New York, in special meeting assembled on the 2d of January, 1897, passed and adopted the following resolutions, which are respectfully submitted for your consideration:

Whereas, We have received several complaints from the Chairman and members of the Branches of the League, and from many other bootblacks, to the effect that they cannot obtain an application for a permit because they are not yet citizens of the United States; and

Whereas, We have estimated that in the City of New York at least seventy-five per cent. of the bootblacks are not citizens of the United States, and the enforcement of this ordinance will deprive many a man of a means of earning a livelihood because he is not a citizen, leaving in a hopeless condition his family, and bring destitution to his door; and

Whereas, We believe that each and every person, citizens or those who have declared their intention to become citizens before a Circuit or District Court of the United States, or before a District or Supreme Court of this County, and, if he should present satisfactory evidence that he has been within the State for five years, he should be protected and a permit granted to him; it is accordingly

Resolved, In regard to the above-mentioned matter, to respectfully request your Honorable Board to amend subdivision 5 of section 1 of said ordinance to read as follows:

"5th. An annual license fee shall be charged on granting the permit by the Mayor for such stands as follows: Fruit stands and soda-water stands, ten dollars each; movable stands or stands for the sale of newspapers, two dollars each; stationery booths or stands for the sale of newspapers and periodicals, five dollars each; bootblack stands, five dollars for each chair thereof; such license fees, when paid, shall be deposited to the credit of the Sinking Fund for the Redemption of the City Debt.

"No bootblack stands shall consist of more than three chairs; nor shall any person or persons have, receive or hold more than one permit for any stand, booth or bootblack stand; nor shall such permit be assignable or transferable to any person or persons whatsoever, and no such permit shall be granted to any person who does not produce at least two recommendations to the Board or to the Mayor of his good, moral character; that they are citizens of the United States,

and residents of the City of New York for one year; or, if not citizens, for no fault of their own, they must certify to the following facts: That their period of residence in this country has not been a sufficient length of time to become such; and if not able, in consequence, to secure naturalization papers, they must at least show that they have 'declared their intentions'; and anyone who cannot present satisfactory evidence as above required shall not be granted a permit, and anyone who, on presentation of 'first papers,' and otherwise complying with all requirements, obtains a license, shall at the proper time give full evidence of full citizenship, otherwise such licenses shall become null and void; and be it further

Resolved, That the Honorable Board of Aldermen be respectfully requested to concur in our members' requests; and be it further

Resolved, That a copy of this preamble and resolutions be forwarded to your Honorable Board, and that you be respectfully requested to take action thereon immediately.

Yours, very respectfully, G. S. CAGGIANO, President, Nos. 26 and 28 Cedar street.

The President laid before the Board the following communication from the Department of Public Works:

DEPARTMENT OF PUBLIC WORKS—COMMISSIONER'S OFFICE, No. 150 NASSAU STREET, NEW YORK, December 29, 1896. Hon. JOHN JEROLMAN, President, Board of Aldermen:

DEAR SIR—On the 8th inst. I addressed a letter to the Counsel to the Corporation, stating that experience had shown that the present system of controlling and securing the proper restoration of pavements over plumbers' excavations and making and repairing house-connections with sewer and water-mains, in accordance with sections 354 to 357 of the Revised Ordinances of 1880, is inadequate, because it fails to provide for the necessary supervision over the work of refilling the excavations. I further pointed out that the proper replacement of the soil is essential to the stability of the pavements, and that the dilatory and indifferent manner in which this work had hitherto been performed resulted in injury to the pavements and to the adjacent underground conduits. I also showed that this evil could be obviated if the Commissioner of Public Works had the power to place inspectors over the work of refilling, and to compel plumbers to pay for the services of the inspectors.

I asked the Corporation Counsel to advise me whether such power exists under the present laws and ordinances, and, if not, to prepare such draft of law or ordinance as would answer the purpose. He has prepared amendments to the existing ordinances, which I herewith inclose, and respectfully request the adoption thereof by your Board.

Very respectfully,
HOWARD PAYSON WILDS, Deputy Commissioner of Public Works.

Proposed Ordinance.

The Mayor, Aldermen and Commonalty of the City of New York do ordain as follows:

Section 1. Section three hundred and fifty-four of article thirty-seven of chapter eight of the Revised Ordinances of eighteen hundred and eighty is hereby amended so as to read as follows:

Sec. 354. It is hereby made the duty of the Commissioner of Public Works and the Commissioners of the Department of Public Parks, and the Commissioner of Street Improvements in the Twenty-third and Twenty-fourth Wards, each in their respective jurisdictions, whenever granting a permit for any excavation, opening or disturbance of the pavement of the carriage-way of any street, avenue or public place in the City of New York, or sidewalk thereof, except in cases where such opening, excavation or disturbance shall be directly authorized by law, to require of the person or persons by whom, or for whose benefit, any excavation or opening is to be made, for any purpose whatever, a deposit of such sum as shall be deemed sufficient to cover and pay all the expenses on the part of the department granting the permit, as the case may be, of furnishing such material, doing such work and taking such means as shall be required to properly restore and secure against sinkage the street and sidewalk, pavement, curb and flagging necessary to be replaced in consequence of making such excavation, opening or disturbance, including the proper inspection of all work done in connection therewith, which deposit shall be a full discharge of all liability and claim against the person or persons making such deposit and payment for the work herein provided for and required of the department aforesaid.

Sec. 2. Section three hundred and fifty-six of article thirty-seven of chapter eight of the Revised Ordinances of eighteen hundred and eighty is hereby amended so as to read as follows:

Section 356. Whenever any pavement, sidewalk, curb or gutter in any street, avenue or public place shall be taken up, it shall be the duty of the commissioner aforesaid, within whose jurisdiction said street or avenue is, to restore said pavement, sidewalk, curb or gutter to its proper condition as soon thereafter as is practicable, requiring the person or persons by whom or for whose benefit the same is removed to deposit the material composing the superstructure without breaking or injuring the same and in a manner which shall occasion the least inconvenience to the public, and to fill in any excavation made and to leave the same properly packed, rammed and repaired for the repaving required, to the satisfaction of said commissioners and subject to the supervision and direction of any inspector or inspectors acting on behalf of said commissioners. And the said commissioners are hereby authorized to establish such rules and regulations as, in their judgment, shall be deemed necessary for the purpose of carrying out the provisions of this ordinance.

Sec. 3. Section three hundred and fifty-seven of article thirty-seven of chapter eight of the Revised Ordinances of eighteen hundred and eighty is hereby amended so as to read as follows:

Sec. 357. Such sums as shall be certified by the said commissioner or commissioners to have been necessarily expended by him or them for any repaving or the inspection of any work done pursuant to the foregoing ordinances, shall be paid from the special fund hereby created upon the requisition of said commissioner or commissioners, as the case may be, after examination, audit and allowance of accounts by the Finance Department, in the same manner that payments are or shall be required by law to be made from the City Treasury, provided that the amount so certified and paid shall not exceed the aggregate amount of such special fund.

Which was referred to the Committee on Law Department.

COMMUNICATIONS.

The President laid before the Board the following communication from Otto E. Reimer:

SMITHERS & REIMER, BANKERS AND BROKERS, NOS. 50-52 EXCHANGE PLACE, NEW YORK, January 4, 1897. To the Honorable Board of Aldermen of New York City:

GENTLEMEN—Not knowing who has taken the place of Alderman of your Honorable Board of our present District Attorney, I have the honor to address your Board.

For some little time past I have been in communication with the Department of Public Works in reference to the condition of the lots on the west side of Boulevard, between Eighty-first and Eighty-second streets, and the lots on Eighty-first and Eighty-second streets, forming a part of the same plot, requesting the Department to see that a proper sidewalk in front of the lots, especially on the Eighty-first street side, was laid, and also calling their attention to the necessity of fencing the lots in. The lots are excavated for building purposes, and the absence of proper fencing on Eighty-first street and the Boulevard, and the entire absence of a fence on Eighty-second street, in front of the Public School (on Eighty-second street), is dangerous in the extreme.

I am in receipt of a communication from Deputy Commissioner of Public Works Wilds, advising me that an ordinance has been transmitted to your Honorable Board with the object of obtaining authority to have the sidewalk flagged, and suggesting that, in connection with fencing,

I communicate with your Honorable Board, requesting you to pass a resolution requiring the fencing to be done.

A number of people have been objecting to the condition of the lots for some time past, and we think that action should be taken at once. Respectfully,

OTTO E. REIMER, "Wellesley," Eighty-first and West End avenue.

The adequacy and sufficiency of the sureties offered shall be approved by the Comptroller.

The price must be written in the bid or estimate, and also stated in figures. Permission will not be given for the withdrawal of any bid or estimate, and the right is expressly reserved by the Commissioner of Street Cleaning to reject any or all the bids, or to select the bid or bids, the acceptance of which will, in his judgment, be deemed best for the interest of the City. No bid will be accepted from or contract awarded to any person who is in arrears to the Corporation upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

Each bid or proposal must be accompanied by a certified check on one of the State or National banks of the City of New York, payable to the order of the Comptroller of said city, for Five Hundred (\$500) Dollars, or money to that amount. On the acceptance of any bid, the checks or money of the unaccepted bidders will be returned to them, and upon the execution of the contract the check or money of the accepted bidder will be returned to him.

All bids must be made with reference to the form of contract and the requirements thereof on file at the Department of Street Cleaning, or they will be rejected.

The form of the agreement (with specifications), showing the manner of payment for said supplies, may be seen, and forms of proposals may be obtained at the office of the Department.

DEPARTMENT OF DOCKS.

(WORK OF CONSTRUCTION UNDER THE NEW PLAN.)

TO CONTRACTORS. (No. 560.)

PROPOSALS FOR ESTIMATES FOR FILLING BEHIND THE CRIBWORK AT SHERMAN'S CREEK, HARLEM RIVER.

ESTIMATES FOR FILLING BEHIND THE CRIBWORK at Sherman's Creek, Harlem river, will be received by the Board of Commissioners at the head of the Department of Docks, at the office of said Department, on Pier "A," foot of Battery place, North river, in the City of New York, until 12 o'clock M. of

TUESDAY, JANUARY 12, 1897, at which time and place the estimates will be publicly opened by the head of said Department. The award of the contract, if awarded, will be made as soon as practicable after the opening of the bids.

Any person making an estimate for the work shall furnish the same in a sealed envelope to said Board, at said office, on or before the day and hour above named, which envelope shall be indorsed with the name or names of the person or persons presenting the same, the date of its presentation and a statement of the work to which it relates.

The bidder to whom the award is made shall give security for the faithful performance of the contract, in the manner prescribed and required by ordinance, in the sum of Five Thousand Dollars.

The Engineer's estimate of the nature, quantities and extent of the work is as follows:

1. Filling required, measured in the place where it is to be put behind the cribwork, about 53,000 cubic yards.
 2. Rip-rap embankment, about 1,770 cubic yards.

It is estimated that the amount of the above material for filling, to be excavated from in front of the cribwork, from its northerly to its southerly end, between the plane of mean high-water and a plane 15 feet below mean low-water, will require to be taken from an area of the whole length of the crib, extending in width about 200 feet westerly thereof.

N. B.—As the above-mentioned quantities, though stated with as much accuracy as is possible in advance, are approximate only, bidders are required to submit their estimates upon the following express conditions, which shall apply to and become a part of every estimate received:

1st. Bidders must satisfy themselves by personal examination of the location of the proposed work, and by such other means as they may prefer, as to the accuracy of the foregoing Engineer's estimate, and shall not at any time after the submission of an estimate dispute or complain of the above statement of quantities, nor assert that there was any misunderstanding in regard to the nature or amount of the work to be done.

2d. Bidders will be required to complete the entire work to the satisfaction of the Department of Docks and in substantial accordance with the specifications of the contract. No extra compensation beyond the amount payable for the work before mentioned, which shall be actually performed at the price therefor, to be specified by the lowest bidder, shall be due or payable for the entire work.

The work to be done under the contract is to be commenced within five days after the date of the receipt of a notification from the Engineer-in-Chief of the Department of Docks that the work or any part of it may be begun, and the entire work is to be fully completed on or before the 15th day of April, 1897, and the damages to be paid by the contractor for each day that the contract may be unfulfilled after the time fixed for the fulfillment thereof has expired, are, by a clause in the contract, fixed and liquidated at Fifty Dollars per day.

Bidders will state in their estimates a price for the whole of the work to be done, in conformity with the approved form of agreement and the specifications therein set forth, by which price the bids will be tested. This price is to cover all expenses of every kind involved in or incidental to the fulfillment of the contract, including any claim that may arise through delay, from any cause, in the performing of the work thereunder. The award of the contract, if awarded, will be made to the bidder who is the lowest for doing the whole of the work and whose estimate is regular in all respects.

Bidders will distinctly write out, both in words and in figures, the amount of their estimates for doing this work. The person or persons to whom the contract may be awarded will be required to attend at this office with the sureties offered by him or them and execute the contract within five days from the date of the service of a notice to that effect, and in case of failure or neglect so to do he or they will be considered as having abandoned it and as in default to the Corporation, and the contract will be readvertised and relet and so on until it be accepted and executed.

Bidders are required to state in their estimates their names and places of residence, the names of all persons interested with them therein, and if no other person be so interested the estimate shall distinctly state the fact; also, that the estimate is made without any consultation, connection or agreement with and the amount thereof has not been disclosed to any other person or persons making an estimate for the same purpose, and is not higher than the lowest regular market price for the same kind of labor or material, and is in all respects fair and without collusion or fraud; that no combination or pool exists of which the bidder is a member, or in which he is directly or indirectly interested, or of which he has knowledge, either personal or otherwise, to bid a certain price, or not less than a certain price, for said labor or material, or to keep others from bidding thereon, and also that no member of the Common Council, Head of a Department, Chief of a Bureau, Deputy thereof or Clerk therein, or any other officer or employee of the Corporation of the City of New York, or any of its Departments, is directly or indirectly interested in this estimate or in the supplies or work to which it relates, or in any portion of the profits thereof, and has not been given, offered or promised, either directly or indirectly, any pecuniary or other consideration by the bidder or anyone in his behalf with a view to influencing his action or judgment in this or any other transaction heretofore had with this Department, which estimate must be verified by the oath, in writing, of the party making the estimate, that the several matters stated therein are in all respects true. Where more than one person is interested it is requisite that the verification be made and subscribed by all the parties interested.

Each estimate shall be accompanied by the consent, in writing, of two householders or freeholders in the City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person or persons making the estimate, they will, upon its being so awarded, become bound as his or their sureties for its faithful performance, and that if said person or persons shall omit or refuse to execute the contract, they will pay to the Corporation of the City of New York any difference between the sum to which said person or persons would be entitled upon its completion and that which said Corporation may be obliged to pay to the person or persons to whom the contract may be awarded at any subsequent letting, the amount in each case to be calculated upon the estimated amount of the work to be done by which the bids are tested. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in the City of New York and is worth the amount of the security required for the completion of the contract, over and above all his debts of every nature and over and above his liabilities as bail, surety and otherwise, and that he has offered himself as a surety in good faith and with the intention to execute the bond required by law. The adequacy and sufficiency of the security offered will be subject to approval by the Comptroller of the City of New York after the award is made and prior to the signing of the contract.

No estimate will be received or considered unless accompanied by either a certified check upon one of the State or National banks of the City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of security required for the faithful performance of the contract. Such check or money must not be inclosed in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the estimate-box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited and retained by the City of New York as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid the amount of his deposit will be returned to him.

Bidders are informed that no deviation from the specifications will be allowed unless under the written instructions of the Engineer-in-Chief.

No estimate will be accepted from, or contract awarded to, any person who is in arrears to the Corporation, upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

In case there are two or more bids at the same price, which price is the lowest price bid, the contract, if awarded, will be awarded by lot to one of the lowest bidders.

THE RIGHT TO DECLINE ALL THE ESTIMATES IS RESERVED IF DEEMED FOR THE INTEREST OF THE CORPORATION OF THE CITY OF NEW YORK.

Bidders are requested, in making their bids or estimates, to use the blank prepared for that purpose by the Department, a copy of which, together with the form of the agreement, including specifications, and showing the manner of payment for the work, can be obtained upon application therefor at the office of the Department.

EDWARD C. O'BRIEN, EDWIN EINSTEIN, JOHN MONKS, Commissioners of the Department of Docks.

PROPOSALS FOR MANURE. SEALED BIDS or estimates for furnishing Manure during the year of 1897, in conformity with samples and specifications, will be received at the office of the Department of Correction, in the City of New York, until 10 o'clock A. M. of Tuesday, January 19, 1897.

To be delivered on Blackwell's Island, and weight allowed as received there.

1,500 tons No. 1 Fine Shook-out Horse Manure.

25,000 bushels Fine Old Compost Manure (well rotted), 25 lbs. to bushel.

To be delivered in installments, as may be required during the year 1897.

The person or persons making any bid or estimate shall furnish the same in a sealed envelope, indorsed "Bid or Estimate for Manure," with his or their name or names, and the date of presentation, to the head of said Department, at the said office, on or before the day and hour above named, at which time and place the bids or estimates received will be publicly opened by the Commissioner of said Department, or his duly authorized agent, and read.

THE COMMISSIONER OF CORRECTION RESERVES THE RIGHT TO REJECT ALL BIDS OR ESTIMATES IF DEEMED TO BE FOR THE PUBLIC INTEREST, AS PROVIDED IN SECTION 64, CHAPTER 410, LAWS OF 1882.

No bid or estimate will be accepted from, or contract awarded to, any person who is in arrears to the Corporation upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

The award of the contract will be made as soon as practicable after the opening of the bids.

Delivery will be required to be made from time to time, and in such quantities as may be directed by the said Commissioner.

Any bidder for this contract must be known to be engaged in and well prepared for the business, and must have satisfactory testimonials to that effect, and the person or persons to whom the contract may be awarded will be required to give security for the performance of the contract by his or their bond, with two sufficient sureties, each in the penal amount of fifty (50) per cent. of the bid for each article.

Each bid or estimate shall contain and state the name and place of residence of each of the persons making the same, the names of all persons interested with him or them therein, and if no other person be so interested it shall distinctly state that fact; also that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Common Council, head of a department, chief of a bureau, deputy thereof or clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate, that the several matters stated therein are in all respects true. Where more than one person is interested it is requisite that the VERIFICATION be made and subscribed by all the parties interested.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in the City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person making the estimate, they will, on its being so awarded, become bound as his sureties for its faithful performance, and that if he shall omit or refuse to execute the same, they shall pay to the Corporation any difference between the sum to which he would be entitled on its completion and that which the Corporation may be obliged to pay to the person or persons to whom the contract may be awarded at any subsequent letting, the amount in each case to be calculated upon the estimated amount of the work by which the bids are tested. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of this contract over and above all his debts of every nature, and over and above his liabilities, as bail, surety or otherwise, and that he has offered himself as a surety in good faith and with the intention to execute the bond required by section 12 of chapter 7 of the Revised Ordinances of the City of New York, if the contract shall be awarded to the person or persons for whom he consents to become surety. The adequacy and sufficiency of the security offered to be approved by the Comptroller of the City of New York.

No bid or estimate will be considered unless accompanied by either a certified check upon one of the State or National banks of the City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the security required for the faithful performance of the contract. Such check or money must not be inclosed in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the estimate-box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited and retained by the City of New York as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid, the amount of his deposit will be returned to him.

Should the person or persons to whom the contract may be awarded neglect or refuse to accept the contract within five days after written notice that the same has been awarded to his or their bid or proposal, or if he or they accept but do not execute the contract and give proper security, he or they will be considered as having abandoned it and as in default to the Corporation, and the contract will be readvertised and relet as provided by law.

The quality of the articles, supplies, goods, wares and merchandise must conform in every respect to the samples of the same on exhibition at the office of the said Department, or, in the absence of samples, to the printed specifications. Bidders are cautioned to examine the specifications for particulars of the articles, etc., required before making their estimates.

Bidders will state the price for each article, by which the bids will be tested.

Bidders will write out the amount of their estimates in addition to inserting the same in figures.

Payment will be made by a requisition on the Comptroller, in accordance with the terms of the contract, or from time to time, as the Commissioner may determine.

The form of the contract, including specifications, and showing the manner of payment, will be furnished at the office of the Department, and bidders are cautioned to examine each and all of its provisions carefully, as the Commissioner will insist upon its absolute enforcement in every particular.

THE COMMISSIONER OF CORRECTION RESERVES THE RIGHT TO REJECT ALL BIDS OR ESTIMATES IF DEEMED TO BE FOR THE PUBLIC INTEREST, AS PROVIDED IN SECTION 64, CHAPTER 410, LAWS OF 1882.

No bid or estimate will be accepted from, or contract awarded to, any person who is in arrears to the Corporation upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

The award of the contract will be made as soon as practicable after the opening of the bids.

Delivery will be required to be made from time to time, and in such quantities as may be directed by the said Commissioner.

Any bidder for this contract must be known to be engaged in and well prepared for the business, and must have satisfactory testimonials to that effect, and the person or persons to whom the contract may be awarded will be required to give security for the performance of the contract by his or their bond, with two sufficient sureties, each in the penal amount of fifty (50) per cent. of the bid for each article.

Each bid or estimate shall contain and state the name and place of residence of each of the persons making the same, the names of all persons interested with him or them therein, and if no other person be so interested it shall distinctly state that fact; also that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Common Council, head of a department, chief of a bureau, deputy thereof or clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof. Where more than one person is interested, it is requisite that the verification be made and subscribed by all the parties interested.

that the verification be made and subscribed by all the parties interested.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in the City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person making the estimate, they will, on its being so awarded, become bound as his sureties for its faithful performance, and that if he shall omit or refuse to execute the same, they shall pay to the Corporation any difference between the sum to which he would be entitled on its completion, and that which the Corporation may be obliged to pay to the person or persons to whom the contract may be awarded at any subsequent letting, the amount in each case to be calculated upon the estimated amount of the work by which the bids are tested. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of this contract, over and above all his debts of every nature, and over and above his liabilities as bail, surety or otherwise, and that he has offered himself as a surety in good faith and with the intention to execute the bond required by section 12 of chapter 7 of the Revised Ordinances of the City of New York, if the contract shall be awarded to the person or persons for whom he consents to become surety. The adequacy and sufficiency of the security offered to be approved by the Comptroller of the City of New York.

No bid or estimate will be considered unless accompanied by either a certified check upon one of the State or National banks of the City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the security required for the faithful performance of the contract. Such check or money must not be included in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the estimate-box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited to and retained by the City of New York as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid, the amount of his deposit will be returned to him.

Should the person or persons to whom the contract may be awarded neglect or refuse to accept the contract within five days after written notice that the same has been awarded to his or their bid or proposal, or if he or they accept but do not execute the contract and give the proper security, he or they shall be considered as having abandoned it and as in default to the Corporation, and the contract will be readvertised and relet as provided by law.

The quality of the articles, supplies, goods, wares and merchandise must conform in every respect to the samples of the same on exhibition at the office of the said Department, or, in the absence of samples, to the printed specifications. Bidders are cautioned to examine the specifications for particulars of the articles, etc., required before making their estimates. Bidders will state the price for each article, by which the bids will be tested.

Bidders will write out the amount of their estimates in addition to inserting the same in figures.

Payment will be made by a requisition on the Comptroller, in accordance with the terms of the contract, or from time to time, as the Commissioner may determine.

The form of the contract, including specifications, and showing the manner of payment, will be furnished at the office of the Department, and bidders are cautioned to examine each and all of its provisions carefully, as the Commissioner will insist upon its absolute enforcement in every particular.

Supreme Court, County of New York—The People of the State of New York, on the relation of Jeremiah J. Sullivan, against the City and County Board of Canvassers of the City and County of New York.

November 16, 1896—Upon the annexed affidavit of Jeremiah J. Sullivan and on the papers therein referred to and the papers thereto annexed, it is

Ordered, That the City and County Board of Canvassers of the City and County of New York, and the Election Officers in the following election districts of the Tenth Assembly District, to wit:

First Election District, Second Election District, Third Election District, Fifth Election District, Sixth Election District, Seventh Election District, Eighth Election District, Ninth Election District, Eleventh Election District, Twelfth Election District, Thirteenth Election District, Nineteenth Election District, Twentieth Election District, Twenty-first Election District, Twenty-third Election District, Twenty-fourth Election District, Twenty-fifth Election District, Twenty-sixth Election District, Twenty-seventh Election District, Twenty-eighth Election District, Thirtieth Election District, Thirty-seventh Election District, Fortieth Election District,

M., or as soon thereafter as counsel can be heard, why a mandamus should not issue to the said Board of Canvassers and the said election officers to count and make proper returns for Jeremiah J. Sullivan, as candidate for member of Assembly, the ballots or votes for him, specifying in Schedule "A," annexed to the affidavit of said Sullivan, and why they should not take from the votes allowed to Otto Kempner, candidate for Assembly, the ballots or votes counted for him, as stated in Schedule "B," annexed to the affidavits of said Sullivan, and make proper return thereof, and why said Jeremiah J. Sullivan should not have such other and further relief as to the Court may deem just.

Ordered, That the Board of Police Commissioners of the City of New York and said County Board of Canvassers produce upon the argument of the motion all the ballots in their possession or return to them concerning the election held in the Tenth Assembly District, in the City of New York, on the 3d day of November, 1896.

ABM. R. LAWRENCE, Justice, Supreme Court.

Supreme Court, County of New York—The People of the State of New York, on the relation of Jeremiah J. Sullivan, against the City and County Board of Canvassers of the City and County of New York.

City and County of New York, ss.: Jeremiah J. Sullivan, being duly sworn, says that at the last general election in this city held on November 3, 1896, he was the candidate of the Republican Party for Member of Assembly in the Tenth Assembly District, and that the regular Democratic candidate for that Assembly District was one Otto Kempner; that the votes cast at that election and counted showed deponent to have been elected by a plurality of three votes over the said Kempner, the final canvass as made by the said Board of Canvassers above mentioned being as follows, to wit: Jeremiah J. Sullivan, 3,482 votes; Otto Kempner, 3,479 votes; Christian H. Loos; George Sieberg; William Retzlaff.

That at the time of the canvass of the votes by the said Board, deponent examined all of the so-called defective or void ballots returned by the different Boards of Election in each Election District of said Assembly District, and also all the ballots which were marked for identification and returned by the said Inspectors of Election, and he charges and alleges that votes were counted against him as void which were, in fact, legal votes, and that votes which were actually void and defective were counted for his opponent, Kempner.

That hereto annexed, marked "Exhibit A," is a schedule showing the ballots which were not counted for the reason that they were alleged to have been void and which should have been counted for deponent.

That hereto annexed, marked "Schedule B," is a list of ballots which were as a matter of fact and law void and which were counted for the said Kempner and should not have been counted for him.

Deponent therefore asks that a writ of mandamus issue to the Board of Canvassers directing them to count for deponent the ballots not counted as void in said schedule, and take from the count of the said Kempner the ballots counted for the said Kempner and which were void and should not have been counted as aforesaid, and that a like mandamus issue, if necessary, to the Board of Election Officers in each of the Election Districts mentioned in said schedules, and deponent makes a part of this affidavit all of the statements made in said schedules.

He further says that no previous application whatever for an order to show cause has been made herein, and he asks for an order to show cause so that the motion may be heard before the result is finally certified by the Board of County Canvassers.

JEREMIAH J. SULLIVAN.

Sworn to before me this 16th day of November, 1896.

CARRIE LEDERER, Notary Public, N. Y. Co. (74).

ASA BIRD GARDINER, Attorney for Otto Kempner; ABRAHAM GRUBER, Attorney for J. J. Sullivan.

Supreme Court, County of New York—The People of the State of New York on the relation of Jeremiah J. Sullivan against The City and County Board of Canvassers of the City and County of New York.

City and County of New York, ss.: Otto Kempner, being duly sworn, deposes and says: That, at the last general election in this city, held on November 3, 1896, he was the candidate of the Democratic party for Member of Assembly in the Tenth Assembly District, and that his opponent, on the part of the Republican party, was Jeremiah J. Sullivan; that said Sullivan has applied for a mandamus, as deponent is informed and believes, to be issued to the Board of County Canvassers, requiring a proper return of the vote cast for Member of Assembly in the Tenth Assembly District, at the last general election, that, in the order to show cause granted by this court in the premises, certain election district officers therein enumerated are required to show cause why certain alleged irregularities in the count for Member of Assembly should not be corrected, but deponent is informed and believes that, besides the election districts thus enumerated there are several others which require an inspection as to the count of certain ballots, and that such election districts are the following: Eighteenth Election District, Thirty-eighth Election District.

Deponent further states, that, at the time of the canvass of the votes by the said Board of Canvassers, he examined all of the ballots returned in said district as protested or void, and deponent further charges and alleges that a certain number of proper and legal ballots that were cast for him were excluded from the count, and that a certain number which were actually void were counted for said Sullivan.

That hereto annexed, marked Schedule "A," is a schedule showing the ballots which were not counted for deponent, on the alleged ground that they were void, but which should have been counted for him as proper and legal ballots.

That hereto annexed, marked "Schedule B," is a list of ballots which were actually void, but were counted for said Sullivan and should not have been counted for him.

Deponent therefore asks that, in the writ of mandamus to be issued, if any, to the Board of Canvassers, the said Board be directed to include in the count for deponent the ballots not counted for him in "Schedule A," and to take from the count of the said Sullivan the ballots counted for him and which were void, as shown by "Schedule B," and deponent makes the statements contained in said schedules a part of this affidavit.

Your deponent further prays, that pending the consideration of said disputed ballots and the decision thereon, that this Board order all proceedings on the part of said Board of Canvassers in making a statement of canvass or in declaring the vote for the office of Member of Assembly in the said Tenth Assembly District to be stayed, and that said Board be enjoined against granting any certificate of election to either said Sullivan or this deponent until the further order of this Court.

OTTO KEMPNER.

Sworn to before me, this 18th day of November, 1896.

CHARLES F. HAHN, Notary Public.

Alderman Olcott offered the following:

Resolved, That in obedience to an order made by Justice Abram R. Lawrence, having force and effect until and including November 22, 1896, and which was served upon the Board of County Canvassers, restraining said Board from making any statement or declaration as to the canvass of the vote for Assembly in the Tenth Assembly District in the City of New York, a copy of which must be published in the minutes of this Board, we refrain from making any such statement or declaration, and that the Secretary of this Board file in the office of the County Clerk a copy of this resolution as the reason for not filing a statement or declaration as to the canvass for Assembly in said Tenth Assembly District.

Which was adopted.

The following opinion of the Counsel to the Corporation was read in relation to the contest in the Tenth Assembly District:

LAW DEPARTMENT, OFFICE OF THE COUNSEL TO THE CORPORATION, NEW YORK, November 19, 1896. WILLIAM H. TEN EYCK, Esq., Clerk of the Board of Aldermen and Secretary of the Board of the County Canvassers:

SIR—Answering the question submitted by you on behalf of the Board of County Canvassers, I have to say:

It appears that in proceedings instituted upon the relation of Otto Kempner, a candidate for Member of Assembly at the late election in the Tenth Assembly District of the City of New York, an order was made by Mr. Justice Lawrence on November 18, 1896, which provided as follows:

"Ordered, That all proceedings on the part of said Board of Aldermen, constituting the Board of County Canvassers of the City and County of New York, in making a statement of canvass or in declaring the vote for the office of Member of Assembly in the Tenth Assembly District, of the City of New York, be stayed, and that said Board is hereby enjoined against granting any certificate of election to any candidate in said district for Member of Assembly until the further order of this Court."

Following said order appears the following stipulation:

"It is stipulated, in open court, that the above order, Court consenting, be modified to continue until November 22, 1896, inclusive, subject to any further orders of the Court on due application."

"Dated November 18, 1896. ASA BIRD GARDINER, Attorney for Otto Kempner; ABRAHAM GRUBER, Attorney for J. J. Sullivan."

It appears that the work of the Board of County Canvassers, with the exception of the final tabulation, the preparation of the statements, and declarations had been completed prior to the making and serving of said order, and that the Board had adjourned to Saturday, November 21, when their work was to be continued.

I am asked: First—Whether, at its meeting, on Saturday, the Board may proceed to make the statements and declarations based upon its canvass in all other cases than for Member of Assembly for the Tenth Assembly District.

My answer to that question is in the affirmative, as the stay is confined to the specific matter of the Member of Assembly for that District.

Second—That inasmuch as the final statements and declarations should be filed with the County Clerk by Monday, the 23d, that the power and duty of the Board would be in case no further order in the premises should be made.

To this my answer is, that by the terms of the stipulation, entered into in open court, with the consent of the Court, the stay is to continue only until the 22d of November, inclusive, that if the Board at its meeting on the 21st should adjourn over until the 23d, and if up to the time of its meeting on that day no further order of the Court should be made in the premises, the order under consideration would, by its own limitations, have lapsed, and the Board, being no longer under a stay, might proceed with its business.

Very respectfully,

FRANCIS M. SCOTT, Counsel to the Corporation.

Alderman Olcott moved that when this Board adjourns it do adjourn to meet on Monday, November 23, 1896, at 11 o'clock A. M.

Which was carried.

ABRM. R. LAWRENCE, Justice, Supreme Court.

Dated New York, November 23, 1896.

Supreme Court, City and County of New York—The People of the State of New York on the relation of Jeremiah J. Sullivan against The Board of Aldermen of the City of New York, constituting the Board of County Canvassers of the County of New York.

City and County of New York, ss.: Otto Kempner being duly sworn, deposes and says as follows:

Sworn to before me this 23d day of November, 1896.

Alderman Olcott moved that when this Board take a recess it do take such recess until Monday, November 30, 1896, at 11 o'clock A. M.
Which was carried.

Alderman Muh, Chairman of the Committee on Corrected Returns, offered the following report:

To the Board of County Canvassers of the City and County of New York:

Your Committee appointed upon corrected returns do most respectfully report that, during the canvass, a large number of the certified copies of the returns of the Inspectors of Election of the result of the canvass of the several election districts were referred to your Committee, that in each instance the Inspectors were summoned to appear before your Committee, and in all cases they promptly attended the summons, and the returns in which it was claimed that errors existed, hearings were had in explanation of these errors.

In nearly every instance satisfactory explanation was given as to the cause of the errors, and we found in no instance errors of sufficient gravity to affect the result of the votes in any districts, except possibly the Tenth Assembly District, which is hereinafter referred to.

Numerous errors occurred in consequence of ballots being delivered to the wrong election districts and which were not counted by the Inspectors of Election, and was therefore apparently not accounted for.

The Inspectors were justified under the law in refusing to count such ballots in consequence of the improper official indorsement of the same.

Your Committee begs to say, however, that the ballots above referred to were ballots intended to be voted upon the constitutional amendments.

There is a contest pending in the Supreme Court as to the action of Inspectors in certain election districts of the Tenth Assembly District with reference to the rejection of certain ballots cast for candidates for Member of Assembly in said assembly district.

With reference to those districts in said assembly districts in which errors claim to exist in the returns of the inspectors, your Committee are of the opinion that it is not in the power of your Committee or the Board of Canvassers to require the Inspectors to correct manifest errors which will change the decision of the Inspectors which were made and certified as the result of their canvass of the votes cast at the election.

The power to compel the count of votes improperly rejected or improperly counted is vested now in the Supreme Court, and the decision of the Court on the question now pending with reference to the Tenth Assembly District, we are informed, will not be reached until the end of this week.

All of which is respectfully submitted.

ROBERT MUH, WILLIAM E. BURKE, JOSEPH T. HACKETT, RUFUS R. RANDALL, THOMAS M. CAMPBELL, Committee on Corrected Returns.

Which, on motion, was received and adopted, and the Committee discharged with the thanks of the Board.

Alderman Goodwin, Chairman of the Committee on Protests, offered the following report:

To the Board of County Canvassers of the City and County of New York:

Your Committee appointed to hear and report upon such protests as might be filed against the canvass of the returns of the Inspectors of the late election, do respectfully report that no protests were filed with or referred to your Committee for consideration.

Respectfully yours,

FRANK J. GOODWIN, ANDREW ROBINSON, CHRISTIAN GOETZ, ANDREW A. NOONAN, Committee on Protests.

Which, on motion, was received and adopted, and the Committee discharged with the thanks of the Board.

Chairman Oakley congratulated the members of the Board for the prompt and efficient manner in which the canvass had been conducted, and remarked that the thanks of the Board were due to the Secretary for the able and efficient manner in which he had discharged his duty, it being the first time the functions of acting in such capacity had been vested in him by law. The Chairman also extended the thanks of the Board to Thomas P. Burke for the thorough and able manner in which he had performed the services of Accountant and Tabulator.

LAW DEPARTMENT—OFFICE OF THE COUNSEL TO THE CORPORATION, NEW YORK, December 23, 1896. WILLIAM TEN EYCK, Esq., Clerk, Board of Aldermen:

DEAR SIR—Section 137 of chapter 909 of the Laws of 1896 provides:

"The detailed canvass of votes at every election shall be published in the CITY RECORD."

Under certain provisions of chapter 909 of the Laws of 1896 an application has heretofore been made to the Supreme Court for its decision upon certain disputed ballots cast at the late election for Member of Assembly in the Tenth Assembly District in this city, which ballots in some instances were counted by the inspectors and in some not.

In such proceeding an injunction was issued out of the Supreme Court addressed to the Board of County Canvassers forbidding it, until the further order of the Court, to canvass or declare the result of the election for Assemblyman in said assembly district.

The Board has obeyed such order and has therefore not been able to complete its official canvass by election districts of the City and County of New York for the last election, and accordingly has not been able to file, as required by law, certified copy of such canvass with the County Clerk, nor has the County Clerk been able, as required by the section first hereinbefore cited, to forward the certified copy thereof to the Secretary of State within the time limited by law, and you now inform me that the Secretary of State has forwarded an inquiry as to why the law has not been obeyed in this matter and ask for my advice in the premises.

I beg herewith to advise you that the provisions requiring the filing and forwarding within the time limited of a certified copy of the canvass by election districts is directory, and as the completion of such canvass and the filing of certified copies thereof has been prevented only by order of the Court, which the County Board of Canvassers was obliged to obey, the spirit and purpose of the law will be entirely complied with, in my judgment, if the Board will file its canvass and the County Clerk shall forward certified copy thereof as soon as the Court shall have acted in the matters now under consideration before it and a copy of its final order shall be served upon the Board.

As the statute permits decision of these cases to be taken into Court, of course, all provisions as to filing within limited time of certified copies must depend upon the action of the Court in the premises. The injunction must be observed.

Very respectfully yours, FRANCIS M. SCOTT, Counsel to the Corporation.

On motion of Alderman Goodman, the opinion was made a part of the record of the Board, and ordered on file.

The Chairman then presented the following communication from the County Clerk, which was read, and on motion, made a part of the record of the Board and ordered on file:

COUNTY CLERK'S OFFICE, NEW COUNTY COURT-HOUSE, NEW YORK, December 22, 1896.
WILLIAM H. TEN EYCK, Esq., Clerk, Board of County Canvassers:

DEAR SIR—I have the honor to inform you that the "corrected returns" sent me by the Board of County Canvassers on December 16, and forwarded by me to the Secretary of State on the same day, have been returned by the Secretary of State to this office, and are now on file therein.

Very respectfully, HENRY D. PURROY, County Clerk.

Alderman Marshall having signed the sheet for Member of Assembly for the Tenth Assembly District, the Secretary proceeded with the reading of the official statement of votes cast at the General Election for such office held in the City of New York on the 3d day of November, 1896.

The reading of the official statement being completed, the Secretary proceeded with the reading of the official declaration.

The reading of the official declaration being completed, Alderman Goodwin moved that the statement and declaration of the Board of County Canvassers in relation to Member of Assembly in the Tenth Assembly District, as read by the Secretary, be confirmed. Which was decided in the affirmative.

Alderman Goodman moved that a vote of thanks be tendered to Alderman Oakley for the able, efficient, and impartial manner in which he had presided over the deliberations of the Board of County Canvassers, and that a vote of thanks be tendered Mr. Ten Eyck for the efficient manner in which he had performed his duties as Secretary. Which was unanimously adopted.

The minutes of the meetings not heretofore approved were then read and, on motion, adopted. There being no further business, the Board of County Canvassers, on motion of Alderman Goodwin, adjourned sine die.

WILLIAM H. TEN EYCK, Clerk of the Board of Aldermen of the City of New York, acting as Secretary to the Board of County Canvassers.

BUILDING DEPARTMENT.

Rules and Regulations for Plumbing, Drainage, Water Supply and Ventilation of Buildings.

Drawings and triplicate descriptions on forms furnished by the Department of Buildings for all plumbing and drainage shall be filled in with ink and filed by the owner, architect or plumber in the said Department.

And the said plumbing and drainage shall not be commenced or proceeded with until said drawings and descriptions shall have been so filed and approved by the Superintendent of Buildings.

No modification of the approved drawings and descriptions will be permitted unless either amended drawings and triplicate descriptions, or an amendment to the original drawings and descriptions, covering the proposed change or changes, are so filed and approved by the Superintendent of Buildings.

It shall not be lawful to do said plumbing and drainage except pursuant to said approved drawings and descriptions or approved amendments thereof.

Repairs or alterations of plumbing and drainage may be made without the filing and approval of drawings and descriptions in the Department of Buildings. But said repairs or alterations shall not be construed to include cases where new vertical and horizontal lines of soil, waste, vent or leader pipes are proposed to be used.

Notice of said repairs or alterations shall be given to the said Department, before the same are commenced, in all cases except where leaks are stopped or obstructions are removed.

Said notice shall consist of a description in writing of the work to be done, of the location of the property where the same is executed, and of the names and addresses of the owner and of the plumber.

Said notice shall not, however, be required when repairs or alterations are ordered by the Board of Health for sanitary reasons.

Said repairs and alterations shall comply in all respects with the weight, quality, arrangement and venting of the rest of the work in the building.

The plans must be drawn to scale in ink on cloth, or they must be cloth prints of such scale drawings, and shall consist of such floor plans and sections as may be necessary to show clearly all plumbing work to be done, and must show partitions and the method of ventilating water-closet apartments.

Written notice must be given to the Department of Buildings by the plumber when any work is begun, and from time to time when any work is ready for inspection. No part of the work shall be covered until it has been examined, tested and approved by the Inspector.

Definition of Terms.—The term "private sewer" is applied to main sewers that are not constructed by and under the supervision of the Department of Public Works or the Department of Street Improvements of the Twenty-third and Twenty-fourth Wards.

Copper tubing when used for inside leader roof connections must be seamless drawn tubing not less than 22 gauge, and when used for roof flashings must be not less than 18 gauge.

II. General plan of plumbing and drainage approved by the Superintendent of Buildings.—Each building must be separately and independently connected with the public or a private sewer.

The entire plumbing and drainage system of every building must be entirely separate and independent of that of any other building.

Every building must have its sewer connections directly in front of the building unless permission is otherwise granted by the Superintendent of Buildings.

Where there is no sewer in the street or avenue, and it is possible to construct a private sewer to connect with a sewer in an adjacent street or avenue a private sewer must be constructed.

It must be laid outside the curb under the roadway of the street.

Cesspools and privy vaults will be permitted only after it has been shown to the satisfaction of the Superintendent of Buildings that their use is absolutely necessary.

When allowed they must be constructed strictly in accordance with the terms of the permit issued by the Superintendent of Buildings.

Cesspools will not be permitted under any circumstances for tenement and lodging houses. Cesspools will not be allowed outside the frame building district. As soon as it is possible to connect with a public sewer the owner must have the cesspool and privy vault emptied, cleaned and disinfected and filled with fresh earth and have a sewer connection made in the manner herein prescribed.

Old house sewers can be used in connection with the new buildings or new plumbing, only when they are found on examination by the Plumbing Inspector to conform in all respects to the requirements governing new sewers.

When a proper foundation consisting of a natural bed of earth, rock, etc., can be obtained, the house sewer can be of earthenware pipe.

Where the ground is made or filled in or where the pipes are less than three feet deep, or in any case where there is danger of settlement by frost or from any other cause, and when cess-pools are used, the house sewer must be of extra heavy cast-iron pipe with lead-caulked joints.

The house sewer and house drain must be at least 4 inches in diameter where water-closets discharge into them.

Where rain water discharges into them, the house sewer and the house drain up to the leader connections must be in accordance with the following table:

DIAMETER.	FALL ¼-INCH PER FOOT.	FALL ½-INCH PER FOOT.
6 inches	5,000 square feet.	7,500 square feet of drainage of area.
7 "	6,900 "	10,300 "
8 "	9,100 "	13,600 "
9 "	11,600 "	17,400 "

No steam exhaust, boiler blow-off or drip-pipe shall be connected with the house drain or sewer. Such pipes must first discharge into a proper condensing tank and from this a proper outlet to the house sewer outside the building must be provided. In low pressure steam systems the condensing tank may be omitted but the waste connection must be otherwise as above required.

The house drain and its branches must be of extra heavy cast-iron, when under ground, and of extra heavy cast-iron or galvanized tarred or asphalted wrought iron or steel when above ground.

The house drain must properly connect with the house sewer at a point two feet outside of the outer front vault or area wall of the building. An arched or other proper opening must be provided for the drain in the wall to prevent damage by settlement.

The house drain and sewer must be run as direct as possible, with a fall of at least one-quarter inch per foot, all changes in direction made with proper fittings, and all connections made with Y branches and one-eighth and one-sixteenth bends.

If possible the house drain must be above the cellar floor. The house drain must be supported at intervals of 10 feet by 8 inch brick piers or suspended from the floor beams or be otherwise properly supported by heavy iron pipe hangers at intervals of not more than 10 feet.

The use of pipe hooks for supporting drains is prohibited.

An iron running trap must be placed on the house drain near the wall of the house, and on the sewer side of all connections, except a drip pipe where one is used. If placed outside the house or below the cellar floor it must be made accessible in a brick manhole, the walls of which must be 8 inches thick, with an iron or flagstone cover. When outside the house it must never be less than 3 feet below the surface of the ground. The house-trap must have two cleanouts with brass screw cap ferrules calked in.

A fresh air inlet must be connected with the house drain just inside of the house trap. The fresh air inlet will be of extra heavy cast-iron where under ground. Where possible it will extend to the outer air and finish with a return bend at least one foot above grade, and 15 feet away from any window or furnace cold air box. When this arrangement is not possible, the fresh air inlet must open into the side of a box not less than 18 inches square placed below the sidewalk, at the curb. The bottom of the box must be 18 inches below the under side of the fresh air inlet pipe. The box may be of cast-iron or it may be constructed with 8-inch walls of brick or flagstone laid in hydraulic cement. The box must be covered by a flagstone fitted with removable metal grating, leaded into the stone, having openings equal in area to the area of the fresh air inlet and not less than one-half inch in their least dimension. The fresh air inlet must be of the same size as the drain up to four (4) inches; for five (5) inch and six (6) inch drains it must be not less than four (4) inches in diameter; for seven (7) inch and eight (8) inch drains not less than six (6) inches in diameter, and for larger drains not less than eight inches in diameter.

All yards, courts, and areas must be drained. Tenement-houses and lodging-houses must have their yards, areas and courts drained into the sewer.

These drains when sewer connected must have connections not less than three inches in diameter. They should if possible be controlled by one trap—the leader trap if possible. Leader pipes must be sewer connected if possible.

All buildings shall be kept provided with proper metallic leaders for conducting water from the roofs in such manner as shall protect the walls and foundations of said buildings from injury. In no case shall the water from the said leaders be allowed to flow upon the sidewalk, but the same shall be conducted by pipe or pipes to the sewer. If there be no sewer in the street upon which such buildings front, then the water from said leader shall be conducted by proper pipe or pipes, below the surface of the sidewalk to the street gutter.

Inside leaders must be made of cast-iron, wrought-iron, or steel, with roof connections made gas and water tight by means of a heavy lead or copper drawn tubing wiped or soldered to a brass ferrule or nipple calked or screwed into the pipe.

Outside leaders may be of sheet metal, but they must connect with the house drain by means of a cast-iron pipe extending vertically five feet above the grade level.

Leaders must be trapped with cast-iron running traps, so placed as to prevent freezing. Rain-water leaders must not be used as soil, waste or vent pipes, nor shall any such pipe be used as a leader.

Cellar drains will be permitted only where they can be connected to a trap with a permanent water seal.

Subsoil drains should discharge into a sump or receiving tank, the contents of which must be lifted and discharged into the drainage system above the cellar bottom by some approved method.

Where directly sewer connected they must be cut off from the rest of the plumbing system by a brass flap valve on the inlet to the catch basin and the trap on the drain from the catch basin must be water supplied as required for cellar drains.

Foundation walls must, where required, be rendered impervious to dampness by the use of coal tar, pitch or asphaltum.

Full size Y and T branch fittings for hand-hole cleanouts must be provided where required on house drain and its branches.

All iron traps for house drain, yard and other drains and leaders, must be running traps with hand-hole cleanouts of full size of the traps when same are less than five (5) inches. All traps under ground must be made accessible by brick manholes with proper covers.

SOIL AND WASTE PIPE LINES.

All main soil, waste or vent pipes must be of iron, steel or brass. When they receive the discharge of fixtures on any floor above the first they must be extended in full calibre at least one foot above the roof coping, and well away from all shafts, windows, chimneys, or other ventilating openings. When less than four inches in diameter, they must be enlarged to four inches at a point not less than one foot below the roof surface by an increaser not less than nine (9) inches long.

No caps, cowl or bends shall be affixed to the top of such pipe.

In tenement-houses and lodging-houses wire baskets must be securely fastened into the opening of each pipe that is in an accessible position.

All pipes issuing from extensions or elsewhere, which would otherwise open within 30 feet of the window of any building, must be extended above the highest roof and well away from and above all windows.

The arrangement of all pipe lines must be as straight and direct as possible. Offsets will be permitted only when unavoidable.

Necessary offsets above the highest fixture branch must not be made at an angle of less than 45 degrees to the horizontal.

All pipe lines must be supported at the base on brick piers or by heavy iron hangers from the cellar ceiling beams and along the line by heavy iron hangers at intervals of not more than ten feet.

All pipes and traps should, where possible, be exposed to view. They should always be readily accessible for inspection and repairing.

No trap shall be placed at the foot of main soil and waste pipe lines.

The sizes of soil and waste pipes must be not less than those given in the following table:

Main soil pipe, 4 inches in diameter; main waste pipe, 2 inches in diameter; branch soil pipe, 4 inches in diameter; branch waste for laundry tubs, 2 inches in diameter; branch waste for kitchen sink, 2 inches in diameter; soil pipe for water-closets on five or more floors, 5 inches in diameter; waste pipes for kitchen sinks on five or more floors, 3 inches in diameter; main soil pipe for three family tenement-houses exceeding three stories, 4 inches in diameter.

In every building where there is a leader connected to the drain, if there are any plumbing fixtures, there must be at least one four (4) inch pipe extending above the roof for ventilation.

Soil and waste pipes must have proper Y branches for all fixture connections.

Branch soil and waste pipe must have a fall of at least one-quarter inch per foot. Short T Y branches will be permitted on vertical lines only. Long one-quarter bends and long T Y's are permitted. Short one-quarter bends and double hubs, short roof increasers and common offsets are prohibited.

All traps must be protected from syphonage and back pressure, and the drainage system ventilated by special lines of vent pipes.

All vent pipe lines and main branches must be of iron, steel or brass. They must be increased in diameter and extended above the roof as required for waste pipes. They may be connected with the adjoining soil or waste line well above the highest fixture, but this will not be permitted when there are fixtures on more than six floors.

All offsets must be made at an angle of not less than forty-five degrees to the horizontal, and all lines must be connected at the bottom with a soil or waste-pipe or the drain in such a manner as to prevent the accumulation of rust scale.

Branch vent pipes should be kept above the top of all connecting fixtures, to prevent the use of vent pipes as soil or waste pipes. They will not be permitted lower than the outlet of the highest fixture in the group. Branch vent pipes should be connected as near to the crown of the trap as possible.

The sizes of vent pipes throughout must not be less than the following:

For main vents and long branches, two inches in diameter; for water-closets on three or more floors, three inches in diameter; for other fixtures on less than seven floors, two inches in diameter; three-inch vent pipe will be permitted for less than nine stories; for more than eight and less than sixteen stories, four inches in diameter; for more than fifteen and less than twenty-two stories, five inches in diameter; for more than twenty-one stories, six inches in diameter; branch vents for traps larger than two inches, 2 inches in diameter; branch vents for traps two inches or less, one and one-half inches in diameter.

For fixtures other than water-closets and slop sinks and for more than eight (8) stories, vent pipes may be one (1) inch smaller than above stated.

No sheet metal, brick or other flue shall be used as a vent pipe.

Earthenware traps for water-closets and slop sinks, must be ventilated from the branch soil or waste pipe just below the trap, and this branch vent pipe must be so connected as to prevent obstruction, and no waste pipe connected between it and the fixture. Earthenware traps must have no vent horns.

Every fixture must be separately trapped by a water-sealing trap placed as close to the fixture outlet as possible.

A set of wash trays may connect with a single trap, or into the trap of an adjoining sink, provided both sink and tub-waste outlets are on the same side of the waste line, and the sink is nearest the line. When so connected the waste pipe from the wash trays must be branched in below the water seal.

The discharge from any fixture must not pass through more than one trap before reaching the house drain.

All traps must be well supported and set true with respect to their water levels.

All traps must have a water seal of at least one and one-half inches.

No masons, cesspool, bell, pot, bottle or D trap will be permitted, nor any form of trap that is not self-cleaning, nor that has interior chamber or mechanism, nor any trap, except earthenware ones that depend upon interior partitions for a seal.

All fixtures, other than water-closet and urinals must have strong metallic strainers or bars over the outlets to prevent obstruction of the waste-pipe.

All exposed or accessible traps, except water-closet traps, must have brass trap screws for cleaning the trap, placed on the inlet side, or below the water level.

Traps for water-closets must not be less than four inches in diameter; traps for slop sinks must not be less than two inches in diameter; traps for kitchen sinks must not be less than two inches in diameter; traps for wash trays must not be less than two inches in diameter; traps for urinals must not be less than two inches in diameter; traps for other fixtures must not be less than one and one-half inches in diameter.

Overflow pipes from fixtures must in all cases be connected on the inlet side of traps.

All earthenware traps must have heavy brass floor plates soldered to the lead bends and bolted to the trap flange, and the joint made gas tight with red or white lead. The use of rubber washers for floor connections is prohibited.

Earthenware water-closets must be set on marble or slate in all new work, and when it is not impossible to use it because of water-pipes or other obstructions in all alterations of old work.

Safe and refrigerator waste-pipes must be of galvanized iron, and be not less than one (1) inch in diameter with lead branches of the same size with strainers over the inlets secured by a bar soldered to the lead branch.

Safe waste-pipes must not connect directly with any part of the plumbing system.

Safe waste-pipes must either discharge over an open, water supplied, publicly placed, ordinarily used sink, placed not more than three and one-half feet above the cellar floor, or they may discharge upon the cellar floor.

The safe waste-pipe from a refrigerator cannot discharge upon the ground or floor. It must discharge over an ordinary portable pan, or over some properly trapped water-supplied sink, as above.

The branches on vertical lines must be made by Y fittings and be carried up to the safe with as much pitch as possible.

Lead safes must be graded and neatly turned over bevel strips at their edges.

Where there is an offset on a refrigerator waste-pipe in the cellar, there must be cleanouts to control the horizontal part of the pipe.

In tenement-houses and lodging-houses the refrigerator waste-pipes must extend above the roof and must not be larger than one and one-half inches, nor the branches smaller than one and one-quarter inches. These branches must have full size accessible traps.

Refrigerator waste-pipes, except in tenement-houses, and all safe waste-pipes, must have brass flap valves at their lower ends.

Fixtures—In tenement-houses, lodging-houses, factories and workshops the water-closets must be set on marble, slate or tile and the back and ends of the water-closet apartment must be made water-proof with some similar non-absorbent material.

The closets must be set open and free from all inclosing woodwork.

Where water-closets will not support a rim seat, the seat must be supported on galvanized-iron legs, and a drip tray must be used.

The general water-closet accommodations for a tenement or lodging house cannot be placed in the cellar and no water-closet can be placed outside of the building.

In tenement-houses and lodging-houses there must be one water-closet on each floor, and when there is more than one family on a floor there will be one additional water-closet for every two additional families.

In lodging-houses where there are more than 15 persons on any floor there must be an additional water-closet on that floor for every 15 additional persons or fraction thereof.

In all other sewer-connected occupied buildings there must be at least one water-closet, and there must be additional closets so that there will never be more than 15 persons per closet.

In tenement-houses and lodging-houses the water closet and urinal apartments must have a window opening to the outer air, or to a ventilating shaft, not less than 10 square feet in area.

In all buildings the outside partition of such apartment must extend to the ceiling or be independently ceiling over, and these partitions must be airtight, except at the bottom of the door, which must be cut away or provided with openings to promote ventilation. The outside partitions must include a window opening to outer air on the lot whereon the building is situated, or some other approved means of ventilation must be provided. When necessary to properly light such apartments the upper part of the partitions must be made of glass. The interior partitions of such apartments must be dwarf partitions.

Pan, valve, plunger and other water-closets having an unventilated space, or whose walls are not thoroughly washed at each discharge, will not be permitted.

All water-closets must have earthenware flushing rim bowls. "Pipe wash" bowls or hoppers will not be permitted.

Long hoppers will not be permitted except where there is an exposure to frost.

Where water-closet or other fixture traps are of iron they must be porcelain lined.

Drip trays must be enameled on both sides and secured in place.

Water-closets and urinals must never be connected directly with or flushed from the water supply pipes.

Water-closets and urinals must be flushed from a separate cistern, the water from which is used for no other purpose.

The overflow of cisterns may discharge into the bowls of the closet, but in no case connect with any part of the drainage system.

Iron water-closet cisterns and automatic urinal cisterns are prohibited.

The copper lining of water-closet and urinal cisterns must be not lighter than ten (10) ounce copper.

Water-closet flush pipes must not be less than one and one-fourth inches and urinal flush pipes one (1) inch in diameter, and if of lead must not weigh less than two and one-half pounds and two pounds per lineal foot. Flush couplings must be of full size of the pipe.

Latrines trough water-closets and similar appliances may be used only on written permit from the Superintendent of Buildings, and must be set and arranged as may be required by the terms of the permit.

All urinals must be constructed of materials impervious to moisture that will not corrode under the action of urine. The floor and walls of the urinal apartments must be lined with similar non-absorbent and non-corrosive material.

The platforms or treads of urinal stalls must never be connected independently to the plumbing system, nor can they be connected to any safe waste pipe.

Iron troughs or urinals must be enameled or galvanized. In tenement-houses and lodging-houses sinks must be entirely open on iron legs or brackets without any inclosing woodwork. Wooden and cement washtrubs are prohibited.

All water-closets and other plumbing fixtures must be provided with a sufficient supply of water for flushing, to keep them in a proper and cleanly condition.

When the water-pressure is not sufficient to supply freely and continuously all fixtures, a house-supply tank must be provided, of sufficient size to afford an ample supply of water to all fixtures at all times. Such tanks must be supplied from the pressure or by pumps, as may be necessary; when from the pressure ball-cocks must be provided.

If water-pressure is not sufficient to fill house-tank, power-pumps must be provided for filling them in tenement-houses, lodging-houses, factories and workshops.

Tanks must be covered so as to exclude dust, and must be so located as to prevent water contamination by gases and odors from plumbing fixtures.

House supply-tanks must be of wood or iron or of wood lined with tinned and planished copper.

House-tanks must be supported on iron beams.

The overflow pipe should discharge upon the roof where possible, and in such cases should be brought down to within six (6) inches of the roof, or it must be trapped and discharged over an open and water-supplied sink not in the same room, not over 3½ feet above the floor. In no case shall the overflow be connected with any part of the plumbing system.

Emptying-pipes for such tanks must be provided and be discharged in the manner required for overflow-pipes, and may be branched into overflow pipes.

No service-pipes or supplying-pipes should be run, and no tanks, flushing-cisterns or water-supplied fixtures should be placed where they will be exposed to frost.

Where so placed they shall be properly packed and boxed in such a manner as to prevent freezing and to the satisfaction of the plumbing inspector.

The entire plumbing and drainage system within the building must be tested by the plumber, in the presence of a plumbing inspector, under a water or air test, as directed. All pipes must remain uncovered in every part until they have successfully passed the test. The plumber must securely close all openings as directed by the inspector of plumbing. The use of wooden plugs for this purpose is prohibited.

The water test will be applied by closing the lower end of the main house drain and filling the pipes to the highest opening above the roof with water. If the drain or any part of the system is to be tested separately, there must be a head of water at least six (6) feet above all parts of the work so tested, and special provision must be made for including all joints and connections in at least one test.

The air test will be applied with a force-pump and mercury column under ten pounds pressure equal to 20 inches of mercury. The use of spring gauges is prohibited.

After the completion of the work, when the water has been turned on and the traps filled, the plumber must make a peppermint or smoke test in the presence of a plumbing inspector and as directed by him.

The material and labor for the tests must be furnished by the plumber. Where the peppermint test is used two ounces of oil of peppermint must be provided for each line up to five stories and basement in height, and for each additional five stories or fraction thereof one additional ounce of peppermint must be provided for each line.
