COMMISSIONERS OF THE SINKING FUND OF THE CITY OF NEW YORK.

Proceedings of the Commissioners of the Sinking Fund at a Meeting Held in Room 16, City Hall, at 11 o'clock a. m., on Wednesday, November 14, 1906.

Present—George B. McClellan, Mayor; Herman A. Metz, Comptroller; Patrick Keenan, Chamberlain; Patrick F. McGowan, President, Board of Aldermen, and John R. Davies, Chairman Finance Committee, Board of Aldermen.

The minutes of the meeting held November 1, 1906, were approved as printed.

The following communication was received from the Commissioner of Docks, recommending the establishment of a ferry from and to a point between Desbrosses and Watts streets, North river, Borough of Manhattan, to and from Weehawken, in the State of New Jersey, and the leasing of the franchise for same by private agreement to the New York Central and Hudson River Railroad Company:

October 30, 1906.

N. TAYLOR PHILLIPS, Esq., Secretary, Commissioners of the Sinking Fund:

Sir—In accordance with the provisions of section 818 of the Greater New York Charter I respectfully request the approval of the Commissioners of the Sinking Fund to the establishment of a ferry to and from a point between Desbrosses and Watts streets, North river, Borough of Manhattan, City of New York, to and from Weehawken, in the State of New Jersey. The property at both termini is owned by private parties.

In the event of the approval of the Commissioners of the Sinking Fund being granted to the establishment of a ferry between the points named, I am of the opinion that the interests of the City would not be best promoted by leasing the franchise of this ferry by public auction and in the manner first directed by section 826 of the Greater New York Charter, and therefore beg to recommend the adoption, by unanimous vote of the Commissioners of the Sinking Fund, of a resolution authorizing the leasing of such franchise by private agreement to the New York Central and Hudson River Railroad Company for a term of two years from September 9, 1906 (the date upon which the company commenced to operate the ferry from the foot of Desbrosses street), at a rental of \$3,500 per annum.

The remaining terms and conditions of the lease to be similar to those contained in leases of ferry franchises now in use by this Department.

The New York Central and Hudson River Railroad Company has been operating a ferry from the foot of Harrison street to Weehawken under lease of a franchise from April 1, 1897, to April 1, 1902, since which time it has been holding over, at a rental of \$3,500 per annum. This ferry has been transferred to the foot of Desbrosses street, from which point it is proposed to operate it until such time as the improvements under the new plan at the foot of Cortlandt street are completed. At this latter point the ferry property is owned by the Pennsylvania Railroad Company, and it is intended to improve same under the new plan, the improvements to be completed in about two years, at which time the establishment of a ferry from Cortlandt street to Weehawken will be taken into consideration.

The West Shore Railroad (of which the New York Central and Hudson River Railroad Company is lessee) has a lease of the bulkhead at the foot of Harrison street for terms expiring October 1, 1901, and the removal of the ferry to Desbrosses street will enable this bulkhead to be used for commercial purposes.

The Pennsylvania Railroad Company, which operates a ferry from the foot of Desbrosses street to Jersey City, according to the printed time table, has 116 trips per day. The New York Central and Hudson River Railroad Company has 58 trips per day.

Very respectfully, your obedient servant,

J. A. BENSEL, Commissioner.

In connection therewith the Comptroller presented the following report and offered the following resolutions:

November 8, 1906.

Hon. HERMAN A. METZ, Comptroller:

Sir—Hon. J. A. Benschel, Commissioner, Department of Docks and Ferries, in communication under date of October 30, 1906, requests the approval by the Commissioners of the Sinking Fund to the establishment of a ferry to and from a point between Desbrosses and Watts streets, North river, Borough of Manhattan, City of New York, to and from Weehawken, in the State of New Jersey. The property at both termini is owned by private parties.

He states that in the event of the approval of the Commissioners of the Sinking Fund being granted to the establishment of a ferry between the points named he is of the opinion that the interests of the City would not be best promoted by leasing the franchise of this ferry by public auction and in the manner first directed by section 826 of the Greater New York Charter; and therefore recommends the adoption, by unanimous vote of the Commissioners of the Sinking Fund, of a resolution authorizing the leasing of such franchise by private agreement to the New York Central and Hudson River Railroad Company, for a term of two years from September 9, 1906, the date upon which the company commenced to operate a ferry from the foot of Desbrosses street, at a rental of \$3,500 per annum.

The remaining terms and conditions of the lease to be similar to those contained in leases of ferry franchises now in use by the Department of Docks and Ferries.

I would report that the New York Central and Hudson River Railroad Company has been operating a ferry from the foot of Harrison street to Weehawken under lease of a franchise sold by authorization of the Commissioners of the Sinking Fund on March 29, 1897, at public auction, for the upset price of \$3,500. The lease of this franchise was from April 1, 1897, to April 1, 1902, since which time it has been holding over at the same rental.

This ferry has been transferred to the foot of Desbrosses street, from which point it is proposed to operate it until such time as the improvements under the new plan at the foot of Cortlandt street are completed. At this latter point this ferry property is owned by the Pennsylvania Railroad Company, and it is intended to improve same under the new plan, the improvements to be completed in about two years, at which time the establishment of a ferry from Cortlandt street to Weehawken will be taken into consideration.

The West Shore Railroad (of which the New York Central and Hudson River Railroad Company is lessee) have a lease of the bulkhead and pier at the foot of Harrison street, for terms expiring October 1, 1931, and the removal of the ferry to Desbrosses street will enable this wharf property to be used for commercial purposes.

As the establishment of this ferry requested is intended to be only temporary and to replace one paying the same rental which is discontinued, it is my opinion that the Commissioners of the Sinking Fund may properly, in accordance with the provisions of section 818 of the Greater New York Charter, approve the request of the Commissioner of Docks and Ferries for the establishment of a ferry to and from a point between Desbrosses and Watts streets, North river, Borough of Manhattan, City of New York, and from Weehawken, in the State of New Jersey, and authorize the Commissioner of Docks and Ferries to lease the franchise of this ferry by private agreement to the New York Central and Hudson River Railroad Company for a term of two years, from September 9, 1906, at a rental of \$3,500 per annum.

Respectfully,

CHANDLER WITHINGTON, Chief Engineer.

Approved:

H. A. METZ, Comptroller.

Resolved, That, pursuant to the provisions of section 818 of the amended Greater New York Charter, the Commissioners of the Sinking Fund hereby approve of the establishment, by the Commissioner of Docks, of a ferry from and to a point between Desbrosses and Watts streets, North river, Borough of Manhattan, City of New York, to and from Weehawken, State of New Jersey.

Whereas, Section 826 of the Greater New York Charter, provides that the Commissioner of Docks, to lease such franchises by private agreement, for terms not exceeding twenty-five years and under such conditions as, in their judgment, will best protect and further the interests of the City and the traveling public; and

Whereas, It is further provided in said section that whenever it may be determined by the unanimous vote of the Commissioners of the Sinking Fund, upon the recommendation of the Commissioner of Docks, that the interests of the City will not be best promoted by leasing the franchise of a ferry in the manner in said section thereinbefore directed, it shall be lawful for said Commissioners of the Sinking Fund, by resolution adopted by such unanimous vote, upon the recommendation of the Commissioner of Docks, to lease such franchises by private agreement, for terms not exceeding twenty-five years and under such conditions as, in their judgment, will best protect and further the interests of the City and the traveling public; and

Whereas, Under date of October 30, 1906, the Commissioner of Docks has recommended that the interests of the City will not be best promoted by leasing the franchise of the ferry from and to a point between Desbrosses and Watts streets, North river, Borough of Manhattan, City of New York, to and from Weehawken, in the State of New Jersey, at public auction or by sealed bids, and after public advertisement and appraisal under the direction of the Commissioner of Docks; now therefore be it

Resolved, That, pursuant to the provisions of section 826 of the Greater New York Charter, the Commissioners of the Sinking Fund, by unanimous vote, determine that the interests of The City of New York will not be best promoted by leasing the franchise of the hereinbefore mentioned ferry at public auction, as provided in said section; and be it further

Resolved, That, pursuant to the provisions of section 826 of the Greater New York Charter, the Commissioners of the Sinking Fund, by unanimous vote, hereby approve of and authorize a lease to the New York Central and Hudson River Railroad Company, of a franchise to operate a ferry from and to a point between Desbrosses and Watts streets, North river, Borough of Manhattan, City of New York, to and from Weehawken, in the State of New Jersey, for a term of two years from September 9, 1906, at a rental of thirty-five hundred dollars (\$3,500) per annum.

The remaining terms and conditions of the lease to be similar to those contained in leases of ferry franchises now in use by the Department of Docks and Ferries, and as recommended by the Commissioner of Docks in communication dated October 30, 1906; and be it further

Resolved, That the Commissioner of Docks is hereby authorized to execute such lease when approved by the Corporation Counsel.

The report was accepted and the resolutions severally unanimously adopted.

The Comptroller brought up the matter of the proposed lease by the Commissioner of Docks, of land under water between Third and Lincoln avenue, Borough of The Bronx, to the Central Railroad of New Jersey, which was again laid over.

The following was received from the Board of Education relative to a lease of premises on the southeast corner of One Hundred and Eighth street and First avenue, Borough of Manhattan:

To the Board of Education:

The Committee on Buildings respectfully reports that it has received a request from the Superintendent of School Supplies that a building be leased for the purpose of storing summer school supplies and apparatus and providing adequate space for repairing such apparatus, etc. A thorough investigation has been made to secure a suitable building, and the most available premises that will answer the purpose are found to be those on the southwest corner of One Hundred and Eighth street and First avenue, Borough of Manhattan. This building is a five-story structure, with a floor space of about 22,500 square feet. It is equipped with an electric elevator, is wired throughout for electric light and is provided with ample driveways.

The Deputy Superintendent of School Buildings for the borough certifies that the floors above the first floor will sustain a weight of 54 pounds to the square foot and that the rental asked, \$6,000, is reasonable.

Your Committee therefore recommends that a lease be made of this building for a period of three years, with the privilege of renewal for an additional year, and submits the following resolution for adoption:

Resolved, That the Commissioners of the Sinking Fund be and they are hereby requested to authorize a lease of the five-story building located on the southeast corner of One Hundred and Eighth street and First avenue, Borough of Manhattan, for a period of three years from December 1, 1906, with the privilege of renewal for an additional year, at an annual rental of \$6,000; the lessor, Mrs. Josephine J. Schnurmacher, No. 165 East One Hundred and Eleventh street, New York City, to remove stalls at present in the building and keep the roof in repair; the Board of Education to make the interior alterations at its own expense and provide heat.

A true copy of report and resolution adopted by the Board of Education on October 24, 1906.

A. EMERSON PALMER,
Secretary, Board of Education.

In connection therewith the Comptroller presented the following report and offered the following resolution:

Hon. HERMAN A. METZ, Comptroller:

SIR—The Board of Education at its meeting held October 24, 1906, adopted the following resolution:

"Resolved, That the Commissioners of the Sinking Fund be and they are hereby requested to authorize a lease of the five-story building located on the southeast corner of One Hundred and Eighth street and First avenue, Borough of Manhattan, for a period of three years from December 1, 1906, with the privilege of renewal for an additional year, at an annual rental of \$6,000; the lessor, Mrs. Josephine J. Schnurmacher, No. 165 East One Hundred and Eleventh street, New York City, to remove the stalls at present in the building and keep the roof in repair; the Board of Education to make the interior alterations at its own expense and provide heat."

The preamble of the resolution states that the Committee on Buildings reports that it has received a request from the Superintendent of School Supplies that a building be leased for the purpose of storing summer school supplies and apparatus and providing adequate space for repairing such apparatus, etc., and that a thorough investigation has been made to secure a suitable building and that the most available premises that will answer the purposes are found to be those on the southeast corner of One Hundred and Eighth street and First avenue, in the Borough of Manhattan. This building is a five-story structure with a floor space of about 22,500 square feet. It is equipped with electric elevator; it is wired for electric light on the first and second floors, has gas on all floors and is provided with ample driveways.

The Deputy Superintendent of School Buildings for the borough certifies that the floors above the first floor will sustain a weight of 54 pounds to the square foot.

The attention of the Commissioners of the Sinking Fund should be called to the action of the Board of Aldermen at their meeting held October 30, 1906, when they refused to act upon the issue of Corporate Stock in the amount of \$400,000 for the acquisition at private sale of a site situated on the westerly side of First avenue, between Sixty-seventh and Sixty-eighth streets, Borough of Manhattan, for the erection thereon of a central supply depository for the Board of Education. If the property were acquired and a depository building erected thereon it would eliminate the necessity of four leases and be a great saving to the City in the purchase of supplies.

I have had an examination made of the premises and find the same to be a comparatively new five-story brick stable building, 50 feet 5½ inches by 90 feet, and is at the present time used for stable purposes. The rental asked by the owner of \$6,000 a year is in my opinion while full value not excessive. I would therefore respectfully recommend that the Commissioners of the Sinking Fund authorize a lease of the five-story building located on the southeasterly corner of One Hundred and Eighth street and First avenue, Borough of Manhattan, for a period of three years, with the privilege of renewal for an additional year upon the same terms and conditions, at an annual rental of \$6,000, payable quarterly; the lessor to remove the stalls at present in the building and keep the roof in repair; the Board of Education to make interior alterations at its own expense and provide heat. Lessor, Josephine J. Schnurmacher.

Respectfully submitted for approval,

MORTIMER J. BROWN,
Appraiser of Real Estate, Department of Finance.

Approved:

H. A. METZ, Comptroller.

Resolved, That the Commissioners of the Sinking Fund hereby approve of and consent to the execution, by the Board of Education, of a lease to the City from Josephine J. Schnurmacher, of the five-story building located on the southeast corner of One Hundred and Eighth street and First avenue, Borough of Manhattan, for a period of three years, from December 1, 1906, with the privilege of a renewal for an additional year upon the same terms and conditions, at an annual rental of six thousand dollars (\$6,000), payable quarterly; the lessor to remove the stalls at present in the building and keep the roof in repair; the Board of Education to make interior alterations at its own expense and provide heat; the Commissioners of the Sinking Fund deeming the said rent fair and reasonable and that it would be for the interests of the City that such lease be made.

Which was adopted by the following vote:

Affirmative—The Mayor, Comptroller, Chamberlain and President of the Board of Aldermen.

Present and not voting—The Chairman of the Finance Committee, Board of Aldermen.

The Comptroller presented the following report, relative to a renewal of the lease of the Hackett Building, located at the southwest corner of Jackson avenue and Fifth street, Borough of Queens, occupied by various City Departments:

November 8, 1906.

Hon. HERMAN A. METZ, Comptroller:

SIR—The City of New York holds under a lease premises known as the Hackett Building, Borough of Queens, which has been used for a number of years as the Borough Hall for the Borough of Queens. This was originally an annual lease made

under a resolution of the Commissioners of the Sinking Fund in 1898 at \$7,000 per annum, and the premises were occupied up to 1902 by the

	Square Feet.
Finance Department (Receiver of Taxes and Collector of Assessments and Arrears)	9,827
Borough President	6,059
Department of Water Supply, Gas and Electricity	2,333
Department of Taxes and Assessments	2,371
City Clerk	680
Police Department (Boiler Inspector)	242
Total	21,512

On or about the expiration of the 1902 term of the lease the owner, Christopher Hackett, served a notice upon the then Comptroller, Honorable Edward M. Grout, notifying him that the lease was about to expire and demanding possession of the building, and that the reason for such demand was to prevent the City from being a holdover tenant. At the same time, and under the same date, Mr. Hackett transmitted a communication stating that he would rent the building for a term of five years for the sum of \$8,000 per annum.

Mr. Eugene E. McLean, then Chief Engineer of the Finance Department, investigated the matter of this lease thoroughly with the intention of removing all the offices to other locations, and the matter was presented to the Commissioners of the Sinking Fund at a meeting held November 26, 1902, and Mr. Hackett agreed to accept the same rate for a period of four years from December 1, 1902, as was paid by the City under the terms of the previous lease. This four-year lease expires on December 1 next, and under date of November 5, 1906, Mr. Hackett served upon this office and upon the Borough President a notice that the lease would expire on December 1, and that he demanded the building, and did this for the purpose of providing against a holding over by the City, and stated further that he would be willing to negotiate with the City for a new lease for a term of years at a rental of \$10,000 per annum.

Mr. Hackett was notified that the different departments in his building had been notified by the Finance Department to vacate the premises before December 1, 1906, and arrangements were made to seek quarters for the different departments in Long Island City. Mr. Hackett called at this office and stated that he would be willing to negotiate for a new lease upon terms which would be satisfactory to him and to the City. After negotiation Mr. Hackett has agreed to accept \$9,000 per annum for a five-year term from December 1, 1906, the City to have the privilege of cancelling the lease at any time during the term on sixty days' notice, when the Borough Hall to be erected in the Borough of Queens is ready for the use and occupation of the Departments now located in the Hackett Building, the lease to be on the same terms and conditions as contained in the present existing lease, and that in addition the owner is to place fire-escapes on the outside of the building.

The City, by this increased rental, is placed in the same condition as confronted it in 1902. The Chief Engineer of the Finance Department (Sinking Fund Minutes, November 26, 1902, pages 1058-1059), in his report on the matter, stated that it would be advisable for the Commissioners of the Sinking Fund to accept the offer and authorize a renewal of the lease. An examination showed that there was no single building in Long Island City which could accommodate these Departments, and that if several buildings were obtained for the use of the various Departments the cost and expense of fitting up these buildings and the removal of the various Departments from the Hackett Building to the new quarters would be greater than the increased rental asked for the period named, and closed by stating that in view of all the circumstances it would be advisable for the City at this time (1902) to take the necessary steps to first acquire sufficient land, and, second, to erect a municipal building such as will meet the present demands, and at the same time with a view to future enlargements as occasion may require.

I can only therefore make the same recommendation as was made by the Chief Engineer in 1902, that it would be cheaper for the City to stand this increased rental asked rather than to attempt to lease other quarters and undergo the necessary expense in order to furnish suitable quarters for the Departments now located in the Hackett Building. Therefore, considering that under the circumstances the terms are reasonable and just, I would respectfully recommend that the Commissioners of the Sinking Fund authorize a renewal of the lease of the building known as the Hackett Building, located at the southwest corner of Jackson avenue and Fifth street, Borough of Queens, occupied by the various City Departments, for a term of five years from December 1, 1906, at an annual rental of \$9,000, payable quarterly, otherwise upon the same terms and conditions as are contained in the present existing lease, which, however, shall contain a clause permitting the City at any time during the term of the lease, upon sixty days' notice, to cancel and surrender this lease, provided that at the time of giving the notice the Borough Hall to be erected in the Borough of Queens is ready for the use and occupation of the Departments now located in the Hackett Building (lessor, Christopher Hackett), and I would further recommend that inasmuch as the City has already acquired land for a Borough Hall site in Queens, that the Commissioners of the Sinking Fund request the President of the Borough of Queens to immediately take steps looking to the preparation of plans and specifications for the erection of a public building, in order that this lease may be voided at as early a date as possible.

Respectfully submitted for approval,

MORTIMER J. BROWN,
Appraiser of Real Estate, Department of Finance.

Approved:

H. A. METZ, Comptroller.

The President of the Board of Aldermen objected to the recommendation that "the lease shall contain a clause that at any time during the term of the lease the City may upon sixty days' notice cancel and surrender the same, provided that at the time of giving the notice the Borough Hall to be erected in the Borough of Queens is ready for the use and occupation of the Departments now located in the Hackett Building," and suggested that in place thereof the lease contain a clause permitting the City to cancel and surrender the same when the City takes possession of its new Borough Hall.

The resolution with the changes suggested was then offered:

Resolved, That the Comptroller be and is hereby authorized and directed to execute a renewal of the lease to the City, from Christopher Hackett, of the building known as the Hackett Building, located at the southwest corner of Jackson avenue and Fifth street, Borough of Queens, occupied by various City departments, for a term of five years from December 1, 1906, at an annual rental of nine thousand dollars (\$9,000), payable quarterly; the lease to contain a clause permitting the City to cancel and surrender same when the City takes possession of its new Borough Hall, to be erected in the Borough of Queens; otherwise upon the same terms and conditions as are contained in the present existing lease; the Commissioners of the Sinking Fund deeming the said rent fair and reasonable and that it would be for the interests of the City that such lease be made.

Which resolution was unanimously adopted.

The Comptroller then offered the following:

Resolved, That the President of the Borough of Queens be and is hereby requested to immediately take steps looking to the preparation of plans and specifications for the erection of a public building upon the site acquired by the City for a Borough Hall in the Borough of Queens, in order that a renewal of the lease of the Hackett Building may be avoided at as early a date as possible.

Which resolution was unanimously adopted.

The Comptroller again brought up the matter of the proposed assignment of rooms in the Stewart Building for the use of the Board of Estimate and Apportionment, which, on motion, was again laid over.

The following communication was received from the President of the Borough of Richmond, relative to the assignment of a room in the new Borough Hall to the Staten Island Association of Arts and Sciences:

NEW BRIGHTON, N. Y., October 10, 1906.

N. TAYLOR PHILLIPS, Esq., Secretary, Sinking Fund Commission, No. 280 Broadway, New York City:

DEAR SIR—Application has been made to me by the Staten Island Association of Arts and Sciences for such room or rooms in the Borough Building as may not otherwise be of use for the keeping and maintaining of the museum collection and library of the Staten Island Association of Arts and Sciences.

Section 7 of chapter 526 of the Laws of 1905 provide as follows:

"The commissioners of the sinking fund of the city of New York may authorize the president of the borough of Richmond to provide such room or rooms in the borough building, in the borough of Richmond, city of New York, as may not otherwise be in use. * * *

There is a room in the Borough Hall which has been set apart for a municipal library to contain the reports of the various City departments and reports and books upon subjects relating to municipal matters, and space in this room has been set aside for use of the Staten Island Association of Arts and Sciences, if the permission to grant such space to the association is secured from the Sinking Fund Commission. The giving of this space to the association will not inconvenience any of the City departments, as the room mentioned is a very large one. In fact, the use of the rooms by the Staten Island Association of Arts and Sciences for the purposes mentioned will be rather in harmony with the other uses to which the room is to be put. I personally can see no objection to granting this space to the association, and, in fact, believe the Borough Hall the proper place for the housing of the museum collection and library of the association. I personally favor the application of the association, and I beg respectfully to ask that the Sinking Fund Commission authorize me as President of the Borough of Richmond to grant the application of the Staten Island Association of Arts and Sciences.

Trusting this matter can be taken up at an early date, I beg to remain,

Very truly yours,

GEORGE CROMWELL,
President of the Borough of Richmond.

In connection therewith the Comptroller presented the following report and offered the following resolution:

November 8, 1906.

Hon. HERMAN A. METZ, Comptroller:

SIR—The Hon. George Cromwell, President of the Borough of Richmond, in a communication under date of October 10, 1906, requested that action be taken in relation to the application of the Staten Island Association of Arts and Sciences for such room or rooms in the Borough Hall as may not otherwise be of use for the occupying and maintaining of the museum collection and library of the Staten Island Association of Arts and Sciences, and states that there is a room in the Borough Hall which has been set apart for the Municipal Library, to contain the reports of the various city departments and reports and books upon subjects relating to municipal matters, and that space in this room has been set apart for the use of the Staten Island Association of Arts and Sciences, and that the giving of this space to the association will not inconvenience the city departments, as the room mentioned is a very large one and he sees no objection to granting this space to the association.

A report in relation to this matter under date of April 21, 1906, was made to the Commissioners of the Sinking Fund upon a petition of the Staten Island Association of Arts and Sciences, by Howard R. Bayne, President, for the assignment of a room, pursuant to the provisions of chapter 526 of the Laws of 1905, which act provided that "the Commissioners of the Sinking Fund of The City of New York may authorize the President of the Borough of Richmond to provide such room or rooms in the Borough Building in the Borough of Richmond, City of New York, as may not otherwise be in use," and it was recommended that no action on the petition be taken until after all the different departments of the City Government had found sufficient room in the Borough Hall for their needs.

After an investigation of the matter, I find that the use of a portion of the library will in no way inconvenience the other City departments in the Borough, and the use to which the room will be assigned will be in harmony with the other uses to which the room will be put, to wit: municipal library purposes.

I would therefore respectfully recommend that the Commissioners of the Sinking Fund, pursuant to the provisions of chapter 526 of the Laws of 1905, authorize the President of the Borough of Richmond to provide room No. 309 on the third floor of the Borough Hall, in the Borough of Richmond, for the use of the Staten Island Association of Arts and Sciences, for the occupying and maintaining of the museum collection and library of the said association, said permission and assignment to be at the pleasure of the Commissioners of the Sinking Fund.

Respectfully submitted for approval,

MORTIMER J. BROWN,
Appraiser of Real Estate, Department of Finance.

State and City of New York, County of Kings, ss.:

John H. Vanderveer, being duly sworn, says that he is the president of John H. Vanderveer Company, the petitioner herein; that he has read the foregoing petition and knows the contents thereof; that the same is true of his own knowledge except as to the matters therein stated to be alleged on information and belief, and that as to those matters he believes it to be true.

Sworn to before me this 8th day of June, 1906.

Commissioner of Deeds for The City of New York.

September 24, 1906.

Commissioners of the Sinking Fund, No. 280 Broadway, Manhattan, New York City:

GENTLEMEN—Referring to the petition of John H. Vanderveer Company praying that The City of New York execute and deliver to it a deed of a portion of the old Hunterfly road, in the Borough of Brooklyn, filed with you on the 23d of June, 1906, we would say that the petition is incorrect in that the first parcel of land described therein contained in Block 3536, as shown on the map attached to the petition, should be described as follows: Beginning at the southwest corner of Sutter and Saratoga avenues and running thence southerly along the west side of Saratoga avenue eighty-one (81) feet five (5) inches to the centre line of old Hunterfly road; thence northwesterly along the centre line of said Old Hunterfly road one hundred and three (103) feet three-quarters (¾) of an inch; thence northerly and parallel with Saratoga avenue thirty-six (36) feet seven and one-half (7½) inches to the south side of Sutter avenue; thence easterly along the southerly side of Sutter avenue ninety-two (92) feet nine and one-half (9½) inches to the point or place of beginning. And also it is incorrect in that the sixth parcel of land described therein in Section 3557, as shown on the map referred to, should be omitted therefrom. Therefore the description of the part of the Old Hunterfly road first described in paragraph fifth of the petition contained in Block 3536, as shown on the map referred to, should be amended so as to read as follows:

Beginning at the intersection of the northeasterly side of the Old Hunterfly road with the south side of Sutter avenue, which point is distant ninety-two (92) feet nine and one-half (9½) inches west from the southwest corner of Sutter avenue and Saratoga avenue, and running thence southeast along the northeast side of old Hunterfly road one hundred and three (103) feet three-quarters (¾) of an inch to a point on the west side of Saratoga avenue, which point is forty-four (44) feet nine and one-half (9½) inches south of the southwest corner of Sutter avenue and Saratoga avenue; thence southerly along the westerly side of Saratoga avenue thirty-six (36) feet seven and one-half (7½) inches to the centre line of the old Hunterfly road; thence northwesterly along the centre line of old Hunterfly road one hundred and three (103) feet three-quarters (¾) of an inch; thence northerly and parallel with Saratoga avenue thirty-six (36) feet seven and one-half (7½) inches to the point or place of beginning, and the portion of the old Hunterfly road, which is the sixth description contained in paragraph fifth of the petition and contained in Block 3557, as shown on the map referred to, should be omitted, and the petitioner asks that a deed be executed to it which shall conform to the petition amended as above.

Very respectfully,

CALDWELL & LOGAN,

Attorneys for John H. Vanderveer Company, Petitioner, No. 44 Court street, Brooklyn, N. Y.

In connection therewith the Comptroller presented the following report, with opinion of the Corporation Counsel, and offered the following resolution:

October 23, 1906.

Hon. HERMAN A. METZ, Comptroller:

SIR—The John H. Vanderveer Company, by John H. Vanderveer, President, in a verified petition addressed to the Commissioners of the Sinking Fund, requests a release of the interests of The City of New York in and to a portion of the old Hunterfly road, lying within the area of Blocks 3536, 3537, 3538, 3539, 3540 and 3558, in the Borough of Brooklyn.

The original petition of the petitioner requested a release of the interests of the City in portions of the old Hunterfly road within the area of Blocks 3536, 3540 and 3557, which could not be released in view of the fact that the petitioner was not the pre-emptive owner to the centre of the road in one instance, and in the other two instances, the City had good title to the property beyond the centre of the road to Blake avenue.

The amended petition was presented under date of September 24, 1906, which omits the triangular strips in question, and requests that releases be authorized of one-half of the Hunterfly road adjoining property owned by it, which is hereinafter described.

The petitioner states that it became the owner and seized in fee simple of the premises in question by a deed dated June 24, 1895, made and executed by John H. Vanderveer and Frances E. Vanderveer, his wife, recorded in the Register's office of Kings County in Liber 2, page 246 of Conveyances, in Section 12, Blocks 3536, 3537, 3538, 3539, 3540 and 3558 on June 27, 1895.

The use of the said Hunterfly road was discontinued after the new streets were opened in the locality where the old streets were situated, and is now obliterated for street purposes.

The Corporation Counsel has many times written opinions upon the status of the old Hunterfly road, and more particularly under date of April 11, 1904, the Corporation Counsel in an opinion relative to the application of Edmund H. Wright (see Sinking Fund Minutes, 1904, page 348), for a release of a portion of the old Hunterfly road, in the Borough of Brooklyn, stated:

"I hereby certify that whatever interest the City may have in the property forming part of the Hunterfly road in the former City of Brooklyn, which is included in the premises covered by the petition of Edmund H. Wright, is a mere cloud upon the title of such owner."

I would respectfully recommend that this application be transmitted to the Corporation Counsel for his opinion as to whether the City's interest in the old Hunterfly road crossing the petitioner's property, more particularly described as follows:

Beginning at the intersection of the southeasterly side of old Hunterfly road with the southerly side of Sutter avenue, which point is 92 feet 9½ inches west from the southwest corner of Sutter avenue and Saratoga avenue; running thence southerly and at right angles with Sutter avenue to the centre line of Hunterfly road; running thence southeasterly along the centre line of the old Hunterfly road to a point on the westerly side of Saratoga avenue, which is 81 feet 5 inches south of the southwest corner of Sutter avenue and Saratoga avenue; thence northerly along the westerly side of Saratoga avenue 36 feet 7½ inches to the point or place of beginning; and also

Beginning at the intersection of the northeast line of the old Hunterfly road with the east side of Saratoga avenue, which point is 83 feet 5 inches south from the southeasterly corner of Sutter and Saratoga avenues, and running thence southeasterly along the northeasterly side of old Hunterfly road 222 feet 1 inch to the west side of Douglass street at a point 179 feet 11½ inches southerly from the southwest corner of Sutter avenue and Douglass street; thence southerly along the westerly side of Douglass street 36 feet 7½ inches to the centre line of the old Hunterfly road; thence northwesterly along said centre line of old Hunterfly road 222 feet 1 inch to the easterly side of Saratoga avenue; thence northerly along the easterly side of Saratoga avenue 36 feet 7½ inches to the point or place of beginning; and also

Beginning at the intersection of the northeasterly line of old Hunterfly road with the easterly side of Douglass street, which point is 208 feet 11¼ inches southerly from the southeasterly corner of Sutter avenue and Douglass street; thence southeasterly along the northeasterly line of old Hunterfly road 222 feet 1 inch to the westerly side of Ames street at a point 305 feet 5¼ inches southerly from the southwest corner of Sutter avenue and Ames street; thence southerly along the westerly side of Ames street 36 feet 7½ inches to the centre line of old Hunterfly road; thence northwesterly along the centre line of Hunterfly road 222 feet 1 inch to the easterly side of Douglass street and thence northerly along the easterly side of Douglass street 36 feet 7½ inches to the point or place of beginning; and also

Beginning at the intersection of the northeast line of old Hunterfly road with the easterly side of Ames street, which point is 334 feet 5¼ inches southerly from the southeasterly corner of Sutter avenue and Ames street; running thence southeasterly along the northeasterly line of old Hunterfly road 222 feet 1 inch to the westerly side of Amboy street at a point 430 feet 11½ inches south from the southwest corner of Sutter avenue and Amboy street; thence southerly along the westerly side of Amboy street 36 feet 7½ inches to the centre line of old Hunterfly road; thence northwesterly along the centre line of old Hunterfly road 222 feet 1 inch to the easterly side of Ames street and thence northerly along the easterly side of Ames street 36 feet 7½ inches to the point or place of beginning; and also

Beginning at the intersection of the northeasterly line of old Hunterfly road with the easterly side of Amboy street, which point is 459 feet 11½ inches southerly from the southeasterly corner of Sutter avenue and Amboy street; thence southeasterly along the northeasterly line of the old Hunterfly road 93 feet 3 inches to the northerly

side of Blake avenue at a point 116 feet 1 inch west of the northwest corner of Blake avenue and Hopkinson avenue; thence westerly along the northerly side of Blake avenue 76 feet 1½ inches to the centre line of the old Hunterfly road; thence northwesterly along the centre line of the old Hunterfly road 4 feet 3 inches to the easterly side of Amboy street, and thence northerly along the easterly side of Amboy street 36 feet 7½ inches to the point or place of beginning; and also

Beginning at the intersection of the northeasterly line of old Hunterfly road with the easterly side of Hopkinson avenue, which point is 24 feet 7½ inches southerly from the southeasterly corner of Hopkinson and Blake avenues, and running thence southeasterly along the northeasterly side of old Hunterfly road 222 feet 1 inch to the easterly side of Bristol street at a point 121 feet 1½ inches south of the southwesterly corner of Blake and Bristol streets; thence southerly along Bristol street 36 feet 7½ inches to the centre line of old Hunterfly road; thence northwesterly along the centre line of old Hunterfly road 222 feet 1 inch to the easterly side of Hopkinson avenue, and thence northerly along the easterly side of Hopkinson avenue 36 feet 7½ inches to the point or place of beginning.

—is material or simply nominal and a mere cloud upon the title of a private owner. If he should certify that the interest of the City is nominal and a mere cloud upon the title of a private owner, the Commissioners of the Sinking Fund, pursuant to section 205 of the amended Greater New York Charter, may properly authorize a release or quit-claim for a nominal consideration to the said John H. Vanderveer Company, a corporation organized and created under the laws of the State of New York, of all the right, title and interest of The City of New York in and to all that portion of the old Hunterfly road included within the lines of the premises heretofore described, upon the condition that the petitioner shall produce evidence that all taxes, assessments and water rates now a lien upon said premises, or any portion thereof, or any sale for the non-payment of taxes, assessments and water rates upon said property, or any portion thereof, shall have been paid before receiving such release from the City.

I would also recommend that if the Corporation Counsel shall decide that the interest of the City is not material and purely a cloud upon the title of a private owner, that the interest of the City be appraised at the nominal sum of \$1, and that the expense of such release, examination, etc., be fixed at \$600, to be paid by said petitioner before the delivery of such release.

Respectfully submitted for approval,

MORTIMER J. BROWN,

Appraiser of Real Estate, Department of Finance.

H. A. METZ, Comptroller.

NEW YORK, November 5, 1906.

Hon. HERMAN A. METZ, Comptroller:

SIR—I have received your communication of October 23, 1906, transmitting for my consideration an application made to the Commissioners of the Sinking Fund by the John H. Vanderveer Company for a release of a portion of the old Hunterfly road, in the Borough of Brooklyn, together with a report made to you on the subject by the Bureau of Real Estate of the Department of Finance.

I am requested to advise you whether the interest of The City of New York in this piece of property is material or simply nominal and a mere cloud upon the title of a private owner, and if the latter, so to certify that the matter may be presented to the Commissioners of the Sinking Fund, pursuant to section 205 of the amended Greater New York Charter.

The status of this old road in the Borough of Brooklyn has been the subject of many communications between the Corporation Counsel and the Comptroller, wherein the opinion was given that the interest of The City of New York in the property included within its limits was a mere cloud upon the property of a private owner. I respectfully refer you to those opinions for the reasons leading to this conclusion, and in accordance therewith I hereby certify that the interest of The City of New York in the old Hunterfly road, in the Borough of Brooklyn, crossing the petitioner's property, more particularly described as follows, is a mere cloud upon the title of a private owner, to wit:

Beginning at the intersection of the southeasterly side of the old Hunterfly road with the southerly side of Sutter avenue, which point is 92 feet 9½ inches west from the southwest corner of Sutter avenue and Saratoga avenue; running thence southerly and at right angles with Sutter avenue to the centre line of Hunterfly road; running thence southeasterly along the centre line of the old Hunterfly road to a point on the westerly side of Saratoga avenue, which is 81 feet 5 inches south of the southwesterly corner of Sutter and Saratoga avenues; thence northerly along the westerly side of Saratoga avenue 36 feet 7½ inches to the point or place of beginning; and also

The following petition was received from Caroline W. Astor for a release or quit-claim of the City's interest in a portion of the old Gowanus road in the Borough of Brooklyn:

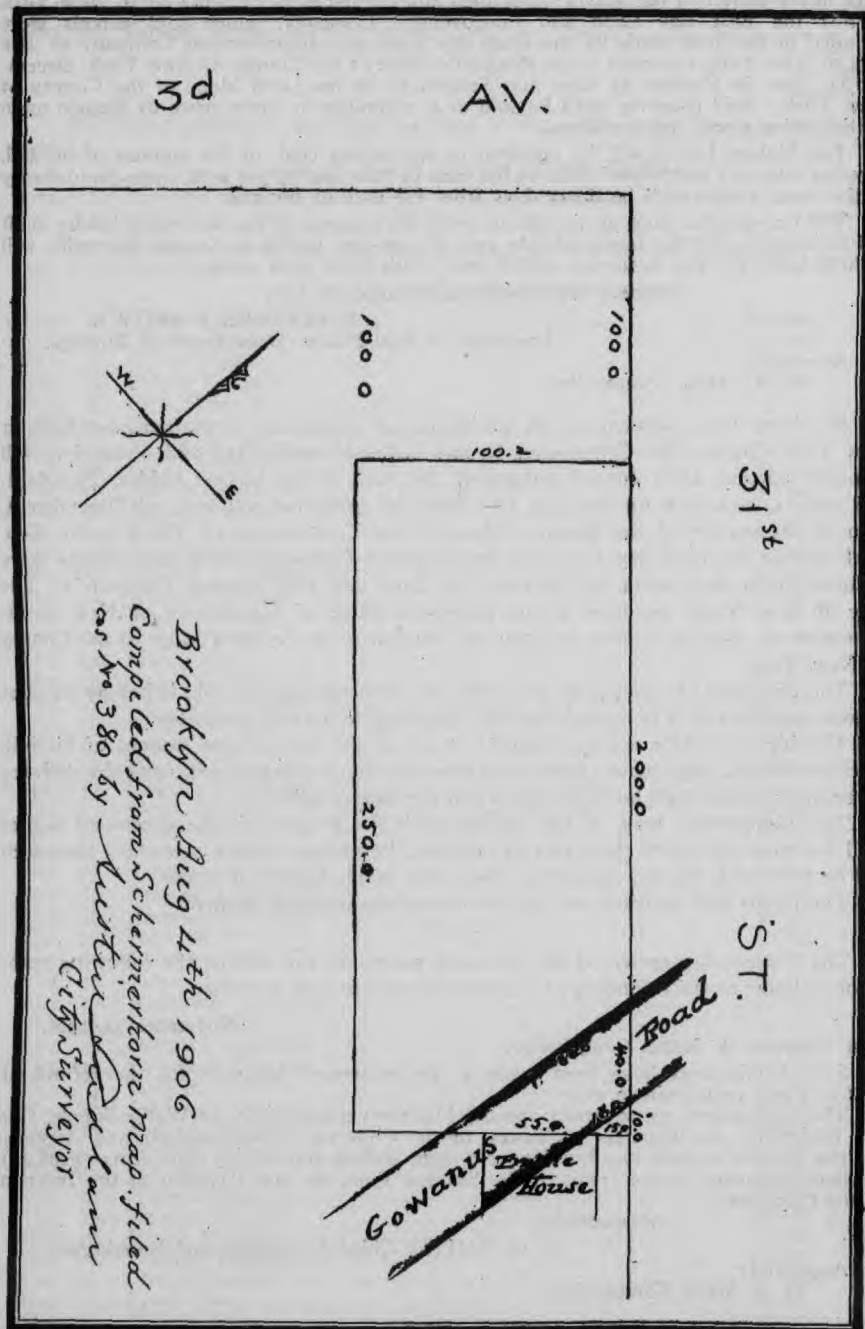

To the Honorable Commissioners of the Sinking Fund of The City of New York:

The petition of Caroline W. Astor shows:

First—That your petitioner is now and for a number of years past has been in possession under claim of ownership of the premises in the Borough of Brooklyn, City of New York, shown on the annexed diagram and described as follows:

All that certain lot, piece or parcel of land, situate, lying and being in the Borough of Brooklyn, City of New York, bounded and described as follows:

Beginning at a point on the southerly line of Thirty-first street distant one hundred feet (100') easterly from the southeasterly corner of said Thirty-first street and Third avenue; running thence southerly and parallel with Third avenue one hundred feet two inches (100' 2") to the middle line of the block between Thirty-first and

Thirty-second streets; thence eastwardly along said middle line of the block two hundred and fifty feet (250'); thence northwardly and again parallel with Third avenue one hundred feet two inches (100' 2") to the southerly line of Thirty-first street and thence westwardly along said southerly line of Thirty-first street two hundred and fifty feet (250') to the point or place of beginning.

Said property is designated on the tax map of the Borough of Brooklyn as follows: Section 3, Block 676, Lot No. 11.

Second—That a small portion of said premises lies in what was once the bed of an old road known as Gowanus road. That said Gowanus road was closed and ceased to be a public highway many years ago; that when said road was so discontinued, as your petitioner is informed and believes, the owners of lands lying adjacent to the said road went into possession of such parts of said road as lay in front of their respective lands, and still remain in possession thereof, and the predecessors in title of your petitioner went into possession of that portion of said road running through the above described premises and the predecessors in title of your petitioner and your petitioner have been ever since said entry in continuous and undisturbed possession thereof.

Third—Your petitioner and William Astor, her husband, acquired title to the said premises above described, as tenants by the entirety, by virtue of a deed made by Gerard M. Stevens, referee, dated March 13, 1878, and recorded in the office of the Register of the County of Kings, in Liber 1309 of Deeds, page 505, March 18, 1878, and by the death of the said William Astor on April 25, 1892, your petitioner became seized of the said premises in her own right and has ever since been the sole owner thereof.

Fourth—Your petitioner is informed that there may be claimed to be some outstanding right in The City of New York to that portion of said premises which formerly lay in the bed of said Gowanus road which right, if any, may be a cloud on her title to that portion of said premises. That said portion of the old road has been for many years included in the annual assessment roll as a part of the entire parcel shown on annexed diagram and taxes have been levied on said entire parcel and your petitioner and her predecessors in title have paid the taxes on the said entire parcel including that portion of the premises which was once the old Gowanus road.

Fifth—For the purpose of perfecting the title of your petitioner beyond question, to the land formerly lying in the old road, and to remove any cloud upon your petitioner's title, your petitioner desires a quit-claim from The City of New York. The interest therein, if any, of The City of New York, is not of substantial value and your petitioner is informed and believes that in applications similar to this, relating to property in other parts of the same road, the City has appraised the like interest at a nominal sum.

Wherefore your petitioner prays that all the right, title and interest of The City of New York, in and to that part of the old Gowanus road, included within the boundary of the parcel above described may be released to your petitioner; that the interest of The City of New York therein and the expense of such release, etc., be appraised and fixed; that a sale by auction be dispensed with and your petitioner be allowed to purchase said interest in such manner and upon such terms as in the judgment of the Commissioners of the Sinking Fund of The City of New York shall seem proper, pursuant to the provisions of section 205, chapter 466, Laws of 1901.

THOS. W. GANNON,

Commissioner of Deeds (No. 32), in and for The City of New York.

In connection therewith the Comptroller presented the following report, with opinion of the Corporation Counsel, and offered the following resolution:

October 25, 1906.

Hon. HERMAN A. METZ, Comptroller:

SIR—Caroline W. Astor, under date of October 19, 1906, through her attorneys, Lord, Day & Lord, petitions the Commissioners of the Sinking Fund for a release of the interests of The City of New York in and to so much of the old Gowanus road which runs through her property located on the southerly side of Thirty-first street, distant 100 feet easterly from the southeasterly corner of Thirty-first street and Third avenue, in the Borough of Brooklyn, and presents, attached to the petition, a survey dated August 4, 1906, made by Austin Ludlam, City Surveyor, showing a diagram of the property and the location of the old Gowanus road.

The petitioner states that the property owned by her, known on the tax maps for the purposes of taxation in the Borough of Brooklyn as Lot No. 11 in Block 676, Section 3, was acquired by virtue of a deed made by Gerard M. Stevens, referee, dated March 13, 1878, recorded in the office of the Register of the County of Kings, in Liber 1309 of Deeds, page 505, March 18, 1878, by William Astor and herself as tenants by the entirety. That said William Astor died April 25, 1892, and that she became seized in her own right of the premises and has remained the sole owner ever since.

That said old Gowanus road, by the opening of Third avenue and Thirty-first street, and the various streets adjacent thereto, was closed and ceased to be used as a public highway, and that she is informed and believes that by the closing thereof the owners of property fronting on said road went into possession of such parts fronting thereon to the centre thereof, and that she has been ever since such closing in continuous and undisturbed possession thereof. That taxes have been levied thereon and have been paid by her. Therefore she requests a release to her, in accordance with the provisions of section 205 of the amended Greater New York Charter, of all the right, title and interest of The City of New York in and to said road.

The matter of the release of the interest of the City to portions of this old road has been before the Commissioners of the Sinking Fund a number of times, and the Corporation Counsel in several opinions has previously stated that the Gowanus road is an old Dutch road, and upon its abandonment the title to the same reverted to the Government. That the interest of The City of New York in the land included within the limits is very slight and in no way substantial, and that a nominal sum would be sufficient for a quit-claim deed (see Sinking Fund, Minutes, 1905, pages 711 and 1094).

I would therefore respectfully recommend that this matter be referred to the Corporation Counsel for his opinion as to whether the interest of the City in the premises is material or a mere cloud upon the title of a private owner. If he certifies that the interest of The City of New York is nominal and a mere cloud upon the title of a private owner, pursuant to section 205 of the amended Greater New York Charter, the Commissioners of the Sinking Fund may properly authorize a release or quit-claim for a nominal consideration to Caroline W. Astor of all the right, title and interest of The City of New York in and to all that portion of the old Gowanus road included within the lines of the following-described premises:

Beginning at a point on the southerly line of Thirty-first street distant 100 feet easterly from the southeasterly corner of said Thirty-first street and Third avenue; running thence southerly and parallel with Third avenue 100 feet 2 inches to the middle line of the block between Thirty-first and Thirty-second streets; thence eastwardly along said middle line of the block 250 feet; thence northwardly and again parallel with Third avenue 100 feet 2 inches to the southerly line of Thirty-first street, and thence westwardly along said southerly line of Thirty-first street 250 feet to the point or place of beginning. Excepting and reserving therefrom any portion of the above-described premises which may lie in the bed of either Third avenue or Thirty-first street.

—upon the condition that the petitioner shall produce evidence that all the taxes, assessments and water rates now a lien upon said premises, or any portion thereof, or any sale for the non-payment of taxes, assessments and water rates upon said property, or any portion thereof, shall have been paid before receiving such release from the City.

I would also recommend that if the Corporation Counsel shall decide that the interest of the City is not material and purely a cloud upon the title, that the interest of the City be appraised at the nominal sum of \$1, and that the expense of such release, examination, etc., be fixed at \$100, to be paid by said petitioner before the delivery of such release.

Respectfully submitted for approval,

MORTIMER J. BROWN,

Appraiser of Real Estate, Department of Finance.

Approved:

H. A. METZ, Comptroller.

NEW YORK, November 7, 1906.

Hon. HERMAN A. METZ, Comptroller:

SIR—I have received your communication of October 26, 1906, transmitting for my consideration an application made to the Commissioners of the Sinking Fund by Caroline W. Astor for a release of a portion of the old Gowanus road, in the Borough of Brooklyn, together with a report made to you on the subject by the Bureau of Real Estate of the Department of Finance.

I am requested to advise you whether the interest of The City of New York in this piece of property is material or simply nominal and a mere cloud upon the title of a private owner, and if the latter so to certify, that the matter may be presented to the Commissioners of the Sinking Fund, pursuant to section 205 of the amended Greater New York Charter.

The status of this old road has been the subject of many communications from the Corporation Counsel to the Comptroller, wherein it has been held that the interest of The City of New York in the property included therein is a mere cloud upon the title of a private owner. I respectfully refer you to those communications for the reason of the conclusions reached therein, and in accordance therewith I hereby certify that the interest of The City of New York in that portion of the old Gowanus road in the Borough of Brooklyn included within the lines of the following described premises is a mere cloud upon the title of a private owner, to wit:

Beginning at a point on the southerly line of Thirty-first street distant 100 feet easterly from the southeasterly corner of Thirty-first street and Third avenue, running thence southerly and parallel with Third avenue 100 feet 2 inches to the middle line of the block between Thirty-first and Thirty-second streets; thence eastwardly along said middle line of the block 250 feet; thence northwardly and again parallel with Third avenue 100 feet 2 inches to the southerly line of Thirty-first street, and thence westwardly along said southerly line of Thirty-first street 250 feet to the point or place of beginning. Excepting and reserving therefrom any portion of the above-described premises which may lie in the bed of either Third avenue or Thirty-first street.

In accordance with your request I have prepared a proper release of the interest of the City in said premises, which I transmit herewith, duly approved by me as to form, together with two copies thereof.

Respectfully yours,

G. L. STERLING, Acting Corporation Counsel.

Resolved, That, pursuant to the provisions of section 205 of the amended Greater New York Charter, the Commissioners of the Sinking Fund, by unanimous vote, hereby authorize a release or quit-claim to Caroline W. Astor, of all the right, title and interest of The City of New York in and to all that portion of the old Gowanus road, in the Borough of Brooklyn, included within the lines of the following described premises:

Beginning at a point on the southerly line of Thirty-first street distant 100 feet easterly from the southeasterly corner of said Thirty-first street and Third avenue; running thence southerly and parallel with Third avenue 100 feet 2 inches to the middle line of the block between Thirty-first and Thirty-second streets; thence eastwardly along said middle line of the block 250 feet; thence northwardly and again parallel with Third avenue 100 feet 2 inches to the southerly line of Thirty-first street and thence westwardly along said southerly line of Thirty-first street 250 feet to the point or place of beginning. Excepting and reserving therefrom any portion of the above described premises which may lie in the bed of either Third avenue or Thirty-first street,

—the Corporation Counsel having certified under date of November 7, 1906, that whatever interest the City may have in the property is a mere cloud upon the title of a private owner.

Resolved, That the interest of The City of New York in and to the same be and is hereby appraised at the nominal sum of \$1, and the expense of such release, examination, etc., be and is hereby fixed at \$100, to be paid by the petitioner, and evidence produced that all taxes, assessments and water rates now a lien upon said premises or any portion thereof, or any sale for the non-payment of taxes, assessments and water rates upon said property or any portion thereof have been paid before the delivery of said release.

Which resolution was unanimously adopted.

The Comptroller presented the following report and offered the following resolution, relative to a sale at public auction, of four parcels of land east of the Eastern boulevard and between Truxton and Tiffany streets, in the Borough of The Bronx (application of the Old Point Land and Dock Company):

October 29, 1906.

Hon. HERMAN A. METZ, Comptroller:

SIR—At a meeting of the Board of Estimate and Apportionment held June 29, 1906, there were two resolutions adopted, one discontinuing the proceedings for the opening of Dupont street, between the East river and Leggett avenue, in the Borough of The Bronx; the other changing the map or plan of The City of New York by closing Dupont street, East Bay avenue, Craven street, Worthen street and Edgewater road, from Truxton street to Tiffany street, including a public place at the intersection of Edgewater road, East Bay avenue and Craven street, in the Borough of The Bronx.

A report (No. 4065) of the Chief Engineer of the Board of Estimate and Apportionment, upon which the Board of Estimate and Apportionment acted, states in substance that the Local Board of the Morrisania District recommended that the Board of Estimate and Apportionment change the map or plan of The City of New York by discontinuing and closing the following streets:

1. Dupont street, from Leggett avenue to the bulkhead line of the East river;
2. East Bay avenue, from the land of the New York, New Haven and Hartford railroad to Tiffany street;
3. Craven street, from Eastern boulevard to Edgewater road;
4. Worthen street, from Eastern boulevard to Edgewater road;
5. Edgewater road, from Truxton street to Tiffany street, including the public place at the intersection of Edgewater road, East Bay avenue and Craven street,

—and further shows that the Board of Estimate and Apportionment, in accordance with section 442 of the Charter, has full power to initiate the changes without the resolutions of the Local Board, and that the whole proceedings should be taken up and treated as a single plan. He states in his report that "the portion of Edgewater road which it is proposed to discontinue and close is stated in the report of the Topographical Bureau to have been acquired," and further states that if that is the case the owners of the abutting property, all of which is owned by the Oak Point Land and Dock Company, should agree to pay to the City the value of the land in Edgewater road, or in other streets, the fee of which has been acquired by the City, and finally recommends that the plan submitted be approved after a public hearing, but that the approval of the resolution by the Mayor be deferred until a satisfactory agreement shall have been entered into between the petitioners (Oak Point Land and Dock Company) and the City for the payment to the City of proper compensation for the land lying within the streets already opened and which it is proposed to close, and that the question of such compensation be referred to the Comptroller.

The Oak Point Land and Dock Company, under date of July 5, 1906, addressed a letter to you in which they offer the sum of \$20,000 for the 72,702 square feet of land lying within the streets discontinued and closed, and stated that it is the approximate price which the East Bay Land and Improvement Company sold property for, just north of this tract. The matter was referred to the Bureau of Real Estate, and under date of July 11, this office reported that in their opinion the property was worth \$43,621.20, being at the rate of 60 cents per square foot. The Oak Point Land Company, in order to establish their position in regard to their offer of \$20,000, submitted two appraisals, one from James L. Wells, in which he places the value of the four parcels at \$14,298.08; the other from Jacob Leitner, in which he places the value at \$18,750. Both appraisals on their faces show that the offer of the Oak Point Land Company was extremely liberal. You, however, refused to be bound by the appraisals submitted, for the reason that from the best advice that you could obtain the original price which we named, 60 cents a square foot, was a fair and reasonable one. After several interviews with the President of the Oak Point Land and Dock Company he finally agreed to pay the sum of \$40,000, which was accepted by the City, subject to the approval of the Commissioners of the Sinking Fund.

The City acquired title to this property and other property in the vicinity through a settlement of a judgment between the East Bay Land and Improvement Company and the Mayor, Aldermen, etc., of The City of New York, entered December 1, 1899, and the deed from the East Bay Land and Improvement Company to the thirteen parcels owned by The City of New York is recorded in Section 10, Volume 23, page 211, in the office of the Register of the County of New York.

Parcel No. 1, in Edgewater road, at the junction of Craven street, contains 18,117.55 square feet.

Parcel No. 2, located in East Bay avenue, between Craven street and Worthen street, contains 12,176.7 square feet.

Parcel No. 8, located in Worthen street, extending southerly from the southerly side of Eastern boulevard, and contains 16,788.5 square feet.

Parcel No. 11, located in Craven street, extending southerly from the southerly side of Eastern boulevard to nearly East Bay avenue, contains 25,620 square feet.

The balance of the nine parcels is located in Truxton street, Eastern boulevard, Craven street north of Eastern boulevard, Randall avenue at Tiffany street, and

Cazzenova street north of Eastern boulevard. As the parcels last mentioned are not included in the part to be released, they are not considered at all except for the purpose of having them put on the public records for street opening proceedings.

There is mention made of the public place at the junction of East Bay avenue, Edgewater road and Craven street. This public place is triangular in shape, being 62.40 feet on the perpendicular line, 58 feet 10 inches on the base, the hypotenuse being 85.22 feet, containing 1,812.72 square feet.

If the contention of the Topographical Bureau is correct, the Oak Point Land and Dock Company should pay to the City an amount of money for the closing of Edgewater road from Tiffany street to East Bay avenue, and should also pay for this public place at the junction aforesaid. Assuming by the term "public place" that the City is vested with the ownership thereof, the amount of money which the Oak Point Land Company should pay for this public place, at the same rate of 60 cents per square foot, would be \$1,087.63.

However, I can find no record showing the ownership of the City in and to the public place or to Edgewater road other than is shown by Parcel No. 1. The City, of course, will only release to the Oak Point Land and Dock Company such parcels as are sold to them. I would therefore respectfully recommend that the Commissioners of the Sinking Fund adopt a resolution, in accordance with the provisions of section 205 of the amended Greater New York Charter, authorizing the sale at public auction of Parcels 1, 2, 8 and 11, as shown on the map filed with the judgment roll, entered December 1, 1899, in the matter of the Mayor, Aldermen and Commonalty of The City of New York against the East Bay Land and Improvement Company, which said parcels were included in the deed made by the East Bay Land and Improvement Company to The City of New York, recorded in the Register's office of the County of New York, December 11, 1899, in Volume 23, page 211, Section 10 on the Land Maps of the County of New York. Said property shall be sold at a minimum or upset price of \$40,000 upon the following terms and conditions:

The highest bidder will be required to pay 10 per cent. of the amount of his bid, together with the auctioneer's fees at the time of sale, and 90 per cent. upon the delivery of the deed, which shall be thirty days from the date of sale.

The Comptroller may, at his option, resell the property if the successful bidder shall fail to comply with the terms of sale and the persons failing to comply therewith will be held liable for any deficiency which may result from such resale.

Respectfully submitted for approval,

MORTIMER J. BROWN,

Appraiser of Real Estate, Department of Finance.

Approved:

H. A. METZ, Comptroller.

Resolved, That, pursuant to the provisions of section 205 of the amended Greater New York Charter, the Comptroller be and is hereby authorized and directed to sell at public auction, after due advertisement, for cash to the highest bidder, Parcels 1, 2, 8 and 11, as shown on the map filed with the judgment roll, entered December 1, 1899, in the matter of the Mayor, Aldermen and Commonalty of The City of New York against the East Bay Land and Improvement Company, which said parcels were included in the deed made by the East Bay Land and Improvement Company to The City of New York, recorded in the Register's office of the County of New York, December 11, 1899, in Volume 23, page 211, Section 10 on the Land Maps of the County of New York.

The minimum or upset price at which said property shall be sold is hereby fixed at \$40,000, and the sale is to be had upon the following terms and conditions:

The Comptroller presented the following report relative to the providing of court rooms for the newly-elected Judges of the Supreme Court for the First and Second Departments:

November 13, 1906.

To the Commissioners of the Sinking Fund:

GENTLEMEN—Pursuant to the provisions of chapter 693 of the Laws of 1906, it was authorized that eight additional Supreme Court Judges be elected for the First Department and seven additional Supreme Court Judges be elected for the Second Department of the State of New York, and it appears that there is not sufficient room in order to properly hold court for the Judges elected on November 6, 1906, who will take office on January 1, 1907. I would therefore suggest that a committee be appointed in order to investigate the conditions existing and to communicate with

the Presidents of the boroughs in which the Judges will sit, and also the Presiding Judge of the Appellate Division in the respective districts, in order that the courts may be ready for business on January 1, 1907.

Respectfully,

H. A. METZ, Comptroller.

The Comptroller moved that a committee be appointed by the Chair as recommended in the report. Motion carried.

The Chair thereupon appointed the Comptroller, President of the Board of Aldermen, and Chairman of the Finance Committee, Board of Aldermen, as such committee.

The following was received from the Board of Education relative to a lease of premises at Nos. 530 to 534 East Eightieth street, Borough of Manhattan:

To the Board of Education:

The Committee on Buildings respectfully reports that the lease of the premises occupied by the Bureau of School Buildings for storage purposes at No. 426 East One Hundred and Tenth street, Borough of Manhattan, will expire January 6, 1907, and that the Superintendent of School Buildings states that these premises have been totally inadequate in size for some time past, and that it has become a matter of necessity to obtain new quarters, which should be not only of large dimensions but also more centrally located.

Your Committee has been offered accommodations in the three-story building Nos. 530 to 534 East Eightieth street, Manhattan, which is a structure 75 feet front by 97 feet deep, with light on all sides, and having the two upper floors unoccupied. There are no partitions on these floors. The building is heated by steam, has an electric elevator seven feet square, and the area of floor space provided on the two floors mentioned will be about 12,800 square feet. The Deputy Superintendent of School Buildings for the Borough has caused an inspection of the premises to be made, and certifies that the same are suitable for storage purposes, and that the rental asked, \$3,200 per annum, is reasonable.

It is therefore recommended that the lease of the present storehouse be not renewed, and that the premises at Nos. 530 to 534 East Eightieth street, Manhattan, be leased for a term of three years, with the privilege of a renewal for a like term.

The following resolutions are submitted for adoption:

Resolved, That the lease of the premises occupied for storage purposes at No. 426 East One Hundred and Tenth street, Borough of Manhattan, which will expire January 6, 1907, be terminated on said date, and that the property of the Board of Education be removed prior thereto; and be it further

Resolved, That the Secretary be and he is hereby requested to notify the owner of the said premises that the lease thereof will not be renewed after the date mentioned; and be it further

Resolved, That the Commissioners of the Sinking Fund be and they are hereby requested to authorize a lease of the second and third lofts in the building known and designated as Nos. 530 to 534 East Eightieth street, Borough of Manhattan, as a storage warehouse for the Bureau of School Buildings, Department of Education, for a period of three years from January 1, 1907, with the privilege of renewal for a like term, at an annual rental of \$3,200; the lessors, the Dry Dock Realty Company, incorporated, Mr. A. Schwoerer, Jr., secretary, No. 530 East Eightieth street, Manhattan, to furnish heat, to permit the use by this Department of the electric elevator, to keep the halls and stairways clean, to maintain the roof in good repair, and to give possession of the premises to the Board of Education on December 15, 1906; the Board of Education to make the necessary interior alterations.

A true copy of report and resolutions adopted by the Board of Education on October 24, 1906.

A. EMERSON PALMER, Secretary, Board of Education.

In connection therewith the Comptroller presented the following report and offered the following resolution:

November 9, 1906.

Hon. HERMAN A. METZ, Comptroller:

SIR—The Board of Education, at its meeting held October 24, 1906, adopted the following resolution:

"Resolved, That the Commissioners of the Sinking Fund be and they are hereby requested to authorize a lease of the second and third lofts in the building known and designated as Nos. 530 to 534 East Eightieth street, Borough of Manhattan, as a storage warehouse for the Bureau of School Buildings, Department of Education, for a period of three years from January 1, 1907, with the privilege of renewal for a like term, at an annual rental of \$3,200; the lessors, the Dry Dock Realty Company, Incorporated, Mr. A. Schwoerer, Jr., Secretary, No. 530 East Eightieth street, Manhattan, to furnish heat, to permit the use by this Department of the electric elevator, to keep the halls and stairways clean, to maintain the roof in good repair, and to give possession of the premises to the Board of Education on December 15, 1906; the Board of Education to make the necessary interior alterations."

It appears from the preamble of the resolution that the Committee on Buildings reports that the lease of the premises occupied by the Bureau of School Buildings for storage purposes at No. 426 East One Hundred and Tenth street, Borough of Manhattan, will expire on January 6, 1907, and that the Superintendent of School Buildings states that the premises have been totally inadequate in size for some time past, and that it has become a matter of necessity to obtain new quarters which should be not only of large dimensions, but also more centrally located.

I have had an examination made of the premises and find the same to be a new three-story loft building located on the southerly side of East Eightieth street, east of Avenue A, size 75 feet front with a depth of 97 feet, well lighted on all sides. The building has steam heat and electric elevator and contains 12,800 square feet of floor surface. The rental asked of \$3,200 per annum is, in my opinion, while full value, not excessive.

The attention of the Commissioners of the Sinking Fund should be called to the recent action by the Board of Aldermen in the refusal to act upon the issue of Corporate Stock for the acquisition of a parcel of land on the easterly side of First avenue, between Sixty-seventh and Sixty-eighth streets, in the Borough of Manhattan, for the erection thereon of a depository for school supplies. If a building of the nature desired by the Board of Education were erected it would be a great saving, both in the elimination of leased premises for storage warehouse purposes as well as in the purchase of school supplies.

I would respectfully recommend that the Commissioners of the Sinking Fund authorize a lease of the second and third lofts in the building known and designated as Nos. 530 to 534 East Eightieth street, Borough of Manhattan, for a period of three years from January 1, 1907, with the privilege of renewal for an additional term of three years upon the same terms and conditions, at an annual rental of \$3,200, payable quarterly; the lessor to furnish heat, to permit the use by the Board of Education of the electric elevator and to keep the halls and stairways clean; to maintain the roof in good repair and to give possession of the premises to the Board of Education on December 15, 1906; the Board of Education to make the necessary interior alterations. Lessors, the Dry Dock Realty Company, Incorporated, A. Schwoerer, Jr., Secretary.

Respectfully submitted for approval,

MORTIMER J. BROWN,

Appraiser of Real Estate, Department of Finance.

Approved:

H. A. METZ, Comptroller.

Resolved, That the Commissioners of the Sinking Fund hereby approve of and consent to the execution, by the Board of Education, of a lease to the City, from the Dry-Dock Realty Company, Incorporated, A. Schwoerer, Jr., Secretary, of the second and third lofts, in the building known and designated as Nos. 530 and 534 East Eightieth street, Borough of Manhattan, for a period of three years, from January 1, 1907, with the privilege of renewal for an additional term of three years, upon the same terms and conditions, at an annual rental of three thousand two hundred dollars (\$3,200), payable quarterly; the lessor to furnish heat, to permit the use by the Board of Education of an electric elevator and to keep the halls and stairways clean; to

maintain the roof in good repair and to give possession of the premises to the Board of Education on December 15, 1906; the Board of Education to make the necessary interior alterations; the Commissioners of the Sinking Fund deeming the said rent fair and reasonable and that it would be for the interests of the City that such lease be made.

Which was adopted by the following vote:

Affirmative—The Mayor, Comptroller, Chamberlain and President of the Board of Aldermen.

Present and not voting—The Chairman of the Finance Committee, Board of Aldermen.

The following communication was received from the Law Department relative to a lease of rooms in the Franklin Trust Company Building, No. 166 Montague street, Borough of Brooklyn, for the use of the Bureau of Street Openings:

NEW YORK, October 25, 1906.

To the Commissioners of the Sinking Fund:

SIRS—The branch office of the Bureau of Street Openings, Law Department, now occupies offices in the Franklin Trust Building, No. 166 Montague street, Brooklyn.

Owing to the increase in the number of street opening proceedings now being conducted in that borough, additional room is necessary for the proper conduct of these proceedings.

The Franklin Trust Company will lease rooms 35, 36, 37 and 38 in its building at the rate of \$1,150 per annum.

I recommend that your commission pass the necessary resolution to have a lease made for the above mentioned rooms, dating from November 1, 1906, to March 1, 1909, the date on which the lease of the premises now occupied by the branch office of the Bureau expires.

Respectfully yours,

G. L. STERLING, Acting Corporation Counsel.

In connection therewith the Comptroller presented the following report and offered the following resolution:

November 9, 1906.

Hon. HERMAN A. METZ, Comptroller:

SIR—The Corporation Counsel requests the Commissioners of the Sinking Fund to approve of and authorize a lease of rooms 35, 36, 37 and 38 in the Franklin Trust Company Building, No. 166 Montague street, Borough of Brooklyn, for the use of his Department—branch office of the Bureau of Street Openings, for a period from November 1, 1906, to March 1, 1909.

The Law Department now occupies rooms 81 to 85, 87, 89 and 92, in the Franklin Trust Company Building, the leases of which were authorized by the Commissioners of the Sinking Fund and expires March, 1909, with the exception of room 92, which expires February 1, 1909.

The rate that the City has been paying for rooms in this building has been practically \$1.12 a square foot. The price which the building now asks for the occupation of these rooms is \$1.15, or about \$1.36 a square foot, the rooms containing 844 square feet. The reason of the low rate that the City is now paying for the old rooms is occasioned by the fact that in the original lease there was a privilege of renewal for another term upon the same terms and conditions.

The rental for office room in office buildings in Brooklyn has increased in the last year, and I am of the opinion that while the price asked by the owners is full value, it is not excessive. I would therefore respectfully recommend that the Commissioners of the Sinking Fund approve of and authorize a lease of rooms 35, 36, 37 and 38 (containing 844 square feet) in the Franklin Trust Company Building, No. 166 Montague street, corner Clinton street, in the Borough of Brooklyn, at an annual rental of \$1,150, payable monthly, for a period from November 1, 1906, to March 1, 1909, the owners to furnish light, heat, elevator and janitor service, said rooms to be occupied as a branch office of the Bureau of Street Openings of the Law Department. The Franklin Trust Company, lessor.

Respectfully submitted for approval,

MORTIMER J. BROWN,

Appraiser of Real Estate, Department of Finance.

Approved:

H. A. METZ, Comptroller.

Resolved, That the Corporation Counsel be and is hereby requested to prepare a lease to the City, from the Franklin Trust Company, of rooms 35, 36, 37 and 38, in the Franklin Trust Company Building, No. 166 Montague street, corner of Clinton street, in the Borough of Brooklyn, for the use of the Law Department, for a period from November 1, 1906, to March 1, 1909, at an annual rental of eleven hundred and fifty dollars (\$1,150), payable monthly; the owners to furnish light, heat, elevator and janitor service; and the Commissioners of the Sinking Fund deeming the said rent fair and reasonable and that it would be for the interests of the City that such lease be made, the Comptroller be and is hereby authorized and directed to execute the same when prepared and approved by the Corporation Counsel, as provided by sections 149 and 217 of the Greater New York Charter.

Communication No. 434 was received from the Chief Engineer, stating that, of the eight men appointed Laborers from the Westchester County list on October 3, to dig test pits and make soundings on the Peekskill Division, four have notified the Board that they will not accept, two agreed to report for duty October 9, but failed to do so, and the remaining two have not been heard from.

The Chief Engineer suggested that arrangements be made with outside parties to do the necessary test pit and sounding work under the form of agreement for preliminary surveys, as it is difficult to secure men from the Civil Service list. On recommendation of the Chief Engineer the following resolutions were adopted:

The Chief Engineer also stated that he had asked for bids from various firms equipped for making these borings, and that he considers the bid of Roy S. Barker the one which will best serve the interests of the City and the work.

On motion, it was Resolved, That agreement, in triplicate, be executed with Roy S. Barker, No. 141 Allens avenue, Providence, R. I., for making core borings in Orange County, N. Y., along one or more lines in the watershed of Moodna Creek, and such tributary streams as may be directed by the Engineer, the Board of Water Supply to pay for the same as follows:

Resolved, That agreement, in triplicate, be executed with J. W. Randall, No. 19 Post Road, White Plains, N. Brink, Assistant Engineer, addressed to Mr. Robert Ridgway, Department Engineer, in the matter of the use of saddle horses in place of teams, under certain conditions, advising that such use would reduce the cost to the Board of Water Supply about one-half, and offering the use of his saddle horse for the service of the Board for the cost of stabling, at a sum not to exceed fifteen dollars (\$15) per month.

PUBLIC NOTICE IS HEREBY GIVEN that at a meeting of the Board of Estimate and Apportionment, held November 9, 1906, the following petition was received:

In the matter of the application of the Long Island Railroad Company, as lessee of the Nassau Electric Railroad Company, and said Nassau Electric Railroad Company, for the construction of an electric railroad on portions of Atlantic avenue, in the Borough of Brooklyn, City of New York.

To the Board of Estimate and Apportionment:

The petition of the undersigned respectfully shows:

First—By chapter 256 of the Laws of 1832, the Brooklyn and Jamaica Railroad Company was organized and empowered to construct a railroad, "with such appendages as may be deemed necessary for the convenient use of the same," between Brooklyn and Jamaica.

In addition to the general powers given by law, the corporation was authorized to prescribe the manner in which the railroad should be used, and by what force the carriages to be used thereon may be propelled.

Second—That thereafter it constructed a steam surface railroad upon a right of way which it acquired by purchase or condemnation proceedings, portions of which line were included within the limits of what is now Atlantic avenue.

Third—By chapter 178 of the Laws of 1834 the Long Island Railroad Company was organized and empowered to construct a railroad from Greenport to a point on the waters adjacent to Brooklyn, "with such appendages as may be deemed necessary for the convenient use of the same," with power to prescribe the manner in which its road shall be used, and by what force the carriages to be used thereon may be propelled.

Fourth—By chapter 94 of the Laws of 1836 the Brooklyn and Jamaica Railroad Company was authorized to lease its railroad from Brooklyn to Jamaica to the Long Island Railroad Company, and it was provided that the use of the said Brooklyn and Jamaica Railroad, under such lease, should be taken as a performance of the obligations on the part of the Long Island Railroad Company to construct its road from Greenport to Brooklyn.

Fifth—This lease was made of all the corporate rights and franchises of the said Brooklyn and Jamaica Railroad Company, and has been extended from time to time, and now has seventy (70) years to run. The Long Island Railroad Company under it and under its own charter has been for many years operating a double-track steam railroad over the right of way formerly of the Brooklyn and Jamaica Railroad Company, situated in the centre of what is now Atlantic avenue, from the junction of Atlantic and Flatbush avenues, in the Borough of Brooklyn to Jamaica and points eastward thereof.

Sixth—The Brooklyn and Jamaica Railroad Company was foreclosed and its property conveyed to the Atlantic Avenue Railroad Company of Brooklyn, and said Atlantic Avenue Railroad Company of Brooklyn was, on or about January 26, 1899, merged with the Nassau Electric Railroad Company, and the Nassau Electric Railroad Company is now possessed of all its property and franchises.

Seventh—By chapter 499 of the Laws of 1897, for the improvement of Atlantic avenue and for the removal of the steam railroad of the Long Island Railroad Company from the surface, it was provided that the railroad of the Atlantic Avenue Railroad Company of Brooklyn, "now leased and operated by the Long Island Railroad Company," between Flatbush avenue and Atkins avenue, should be changed by said companies "by depressing the same from Flatbush avenue to near the easterly side of Bedford avenue, so as to leave the surface free from the steam railroad tracks, fences and gates of the steam railroad of the Long Island Railroad Company then existing thereon." From this point the right of way of the railroad should be operated in an open cut, to a point between Bedford and Nostrand avenues. From there running east the tracks should be raised and run on an elevated structure to the easterly side of Ralph avenue. From Ralph avenue the tracks were to descend to the grade of Atlantic avenue, at a point between Ralph and Howard avenues. From there they were to be operated in an open cut to the west side of Cooper place. From there they were to be placed below the surface of the street to a point near the east side of Stone avenue. From there the right of way should be through an open cut to a point near the westerly side of Jardine place, where it should coincide with the grade of Atlantic avenue. From there eastward it should be operated on a surface grade to near the easterly side of Snediker avenue. At this point the tracks were to be elevated, passing over Williams avenue at a height of eight feet, and over Alabama avenue at a height of twelve feet, and from the easterly side of Alabama avenue the tracks should be operated over an elevated structure to a point near Linwood avenue. From there they should descend to the grade of Atlantic avenue, near Atkins avenue, and from that point eastward should be operated on the existing grade.

Eighth—Said act also provided that when completed the Long Island Railroad Company, as lessee of the Atlantic Avenue Railroad Company of Brooklyn, was authorized and directed to run its trains "over such improvement and the road of such railroad as constructed and authorized by law," and no cars of other companies, without permission of the said Long Island Railroad Company, shall be run thereon or thereunder.

Ninth—By chapter 497 of the Laws of 1899 it is provided that whenever any right of way, grade or tracks of any steam railroad in any street, in any city of the first class, are required by law to be changed or altered by elevating or depressing the same for the purpose of discontinuing the use of steam power upon the surface of said highway or street, such alteration or

change of grade shall not be deemed to curtail or affect any right which such company, or its lessees or assigns, may have to maintain and operate a surface passenger railroad within the limits of the right of way so depressed or elevated, and over or under the railroad tracks so depressed or elevated, with all turnouts, sidings or tracks necessary to secure the continuous connection of portions of such surface railroad. In the event that any such turnouts, sidings or tracks shall extend beyond the lines of the right of way of such railroad corporation whose tracks have been so depressed or elevated in or upon any of the streets or highways aforesaid, such turnouts, sidings or tracks so extending beyond the lines of such right of way shall only be constructed upon condition that the consent of the owners of one-half in value of the property bounded, and the consent also of the local authorities having the control of that portion of such street or highway upon which it is proposed to construct such turnout, siding or tracks, shall be first obtained. No such railroad shall be operated by steam locomotives, and shall not be used except for passenger traffic.

Tenth—That the change of grade provided in and by the aforesaid acts for the improvement of Atlantic avenue has been duly made, such portions of the aforesaid track required by said act to be depressed below the surface of the street have been so depressed, and such portions as were required to be elevated have been elevated, that the connections between the same have been constructed, and the trains of the Long Island Railroad Company are now being operated thereon by electricity.

Eleventh—That the tracks for an electrical railroad have been laid upon the aforesaid right of way of the said railroad, over or under the said improvement, with the exception of the following portions thereof, viz.:

1. From the westerly side of Bedford avenue to a point midway between Nostrand avenue and New York avenue.

2. From a point opposite Columbus place to a point near Louis place.

3. From a point opposite Olive place to a point nearly opposite Alabama avenue, with the exception of the portion of the south side of Atlantic avenue, between Snediker and Georgia avenues, occupied by the tracks of the Brooklyn and Rockaway Beach Railroad Company, over which the Long Island Railroad Company has the right to operate.

At these points, where either the cuts are located (being the portions of said right of way by which the trains from the depressed subway reach the surface), or the inclined portion of the elevated structure extends from the grade of the avenue to a place where there is sufficient headroom for the cars to pass thereunder. At these points the existence of these obstacles make it impossible to operate a continuous railroad upon the surface of said right of way.

Twelfth—That in order to secure a continuous connection and operation of said surface railroad, it is necessary that a turnout or siding, consisting of a single track on each side of said right of way, should be constructed in the various portions of Atlantic avenue lying between the points aforesaid, and also that the same should be connected with the tracks of the street surface railroads intersecting the same. That such sidings and connections have been duly located, and that the portions of the streets proposed to be occupied thereby are, and the general line of the improvement is designated on the blue print hereto annexed, marked "A," Drawing No. R-4. Maps showing each one of such sidings in detail are also hereto annexed, marked "B," "C," "D"; maps "E" and "F" show the location of the poles carrying the electric wires.

Thirteenth—That your petitioners are advised and believe that under the statutes aforesaid, and under the provisions of law relative to the subject, your petitioners are authorized to construct said turnouts and sidings and to operate an electric railroad over the same in connection with the line constructed upon the surface of the aforesaid right of way as aforesaid, upon obtaining the consent of the local authorities of The City of New York, and the consent of the majority of the owners of the property abutting on said sidings, or, in lieu of the latter, the consent of the Appellate Division of the Supreme Court.

Fourteenth—That your petitioners have used diligent efforts to obtain the consent of the majority of said abutting owners, but have been unable so to do, and are now about to apply to the Appellate Division for its consent in lieu thereof.

Fifteenth—That the portions of Atlantic avenue over which the petitioners desire to obtain the consent of the City to operate is only a very small portion of the entire route of the proposed railroad, the remainder being upon the property of your petitioners.

That this proposed railroad will be a trolley railroad of the most modern character, and its construction and operation will be a great public convenience, and will, as your petitioners are informed and believe, largely enhance the value of the property abutting on Atlantic avenue and of that in the vicinity. That your petitioners believe that a rental of one hundred dollars (\$100) a year for a franchise to operate each of four turnouts, or the aggregate annual rent of four hundred dollars (\$400) (which represents a capitalization of four per centum of \$10,000), would be a reasonable rent to pay for such privileges, and your petitioners hereby offer to pay the same to the City for its consent to such construction.

Wherefore, your petitioners respectfully pray that the Board of Estimate and Apportionment will grant to the Nassau Electric Railroad Company and the Long Island Railroad Company, as lessee of the Nassau Electric Railroad Company, the consent of The City of New York for the construction of a double track electrical railroad to be laid on the surface of Atlantic avenue in the Borough of Brooklyn, City of New York, one track thereof to be laid on each side of said avenue in the portions thereof adjoining the places where the right of way of the Long Island Railroad Company above mentioned is obstructed by the elevated and depressed tracks, to wit:

1. Leaving the said right of way at a point forty (40) feet westerly from the westerly side of Bedford avenue, and thence running with a single track on each side of the line of the said right of way and the inner rail of said tracks to be about four (4) feet distant therefrom, to a point about one hundred and fifty (150) feet easterly from the easterly line of Nostrand avenue, and thence curving inward, intersecting the said right of way and connecting with the tracks thereon.

2. Leaving the said right of way at a point about opposite the easterly line (if extended) of Columbus place, and running with a single track on each side of the line of the said right of way and the inner rail of said tracks to be about four (4) feet distant therefrom, to a point about opposite to the easterly side of Cooper place (if extended), and thence curving inward, intersecting the said right of way, and connecting with the tracks thereon.

3. Leaving the said right of way at a point approximately at the centre of Stone avenue, or Eastern Parkway Extension, and running with a single track on each side of the line of the said right of way, to a point about opposite the easterly curb line of Alabama avenue (excepting the

portion of the southern side of Atlantic avenue between Snediker and Alabama avenues, occupied by the existing tracks of the Brooklyn and Rockaway Beach Railroad Company, over which the Long Island Railroad Company has the right to operate; thence curving inward into the said right of way and connecting with the tracks laid thereon.

4. Together with the right to erect and maintain the necessary poles, wires and appurtenances, the poles supporting the wires by which said cars are to be operated to be placed as far as practicable within the limits of the right of way aforesaid.

PROPOSALS FOR BIDS AND ESTIMATES FOR THE CITY OF NEW YORK.

NOTICE TO CONTRACTORS.

GENERAL INSTRUCTIONS TO BIDDERS.

The person or persons making a bid or estimate for any services, work, materials or supplies for The City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope, indorsed with the title of the supplies, materials, work or services for which the bid or estimate is made, with his or their name or names and the date of presentation to the President or Board or to the head of the Department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said Department and read, and the award of the contract made according to law as soon thereafter as practicable.

Each bid or estimate shall contain the name and place of residence of the person making the same, and names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below.

No bid or estimate will be considered unless, as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures. Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done.
