### STATE INDUSTRIAL COMMISSION—DEPARTMENT OF LABOR.

#### Resolutions Adopted.

Whereas, application has been filed with the State Industrial Commission for a variation from the provisions of section 8-a of the Labor Law by the Phenix Cheese Co., and

Whereas, a review of the situation now existing discloses there is in its industry in its localities an extreme shortage of labor; and

Whereas, it appears that a strict enforcement of section 8-a will result in the loss of large quantities of dairy products through the inability of the Phenix Cheese Company, Inc., to take care of said products owing to said shortage of labor, and that the products dealt in in this industry are perishable foods, the saving of which is especially essential at this time owing to the National emergency; and

Whereas, the loss of such food products, under the unusual circumstances existing, would be detrimental and disastrous, therefore

Be it resolved, That the State Industrial Commission hereby exempts and does exempt the Phenix Cheese Company from the application of this statute for the period ending Sept. 1, 1918. This variation shall apply to male employees only.

Dated, June 19, 1918.

State of New York, Office of the State Industrial Commission, ss.:  
I, WILLIAM S. COFFEY, Secretary of the State Industrial Commission of the State of New York, DO HEREBY CERTIFY that I have compared the foregoing copy of a resolution with the original thereof, duly adopted by the State Industrial Commission on the 19th day of June, 1918, and duly filed in the office of said Commission, and that the same is a true and correct copy and transcript of said resolution and of the whole thereof.

IN WITNESS WHEREOF, I have hereunto set my hand and affixed the seal of the State Industrial Commission this 21st day of June, 1918.  
W. S. COFFEY, Secretary.

(SEAL) 126

Whereas, Charles E. Eaton, of 306-307 Sherman Building, Watertown, N. Y., on behalf of the Oswego Falls Pulp & Paper Co., Fulton, N. Y., filed a petition dated May 4, 1918, for a variation from the provisions of section 79-a and 3 of the Labor Law, re construction of stairways in the proposed building, Oswego Falls Pulp and Paper Co., Fulton, N. Y.; and

Whereas, a public hearing was held on the 31st day of May, 1918, at 230 5th ave., N. Y. City, at which an opportunity of all interested persons to be heard thereon was given; and

Whereas, an examination of the plans of the said proposed building was made and a report of such examination is on file in the office of the Commission, from which examination it appears that the said proposed building will be of reinforced concrete construction two stories and basement in height, approximately 145 feet by 51 feet, with an office portion of brick construction approximately 45 feet by 51 feet and sprinklered; will be used for the manufacture of paper containers and paper tops for milk bottles and for office purposes, with an occupancy of approximately 48 persons above the ground floor; exits will consist of one interior enclosed fireproof stairway terminating at second floor level, enclosure extending to the ceiling of second story; no skylight; located adjacent to

the office of front portion. One unenclosed interior stairway from basement of office portion of building terminating at second story floor level, and one partially enclosed interior fireproof stairway in southwesterly corner of building extending from basement to second story floor level; foot of these stairs at ground floor are approximately 85 feet from nearest exit to street and approximately 75 feet from nearest horizontal exit. A brick wall with two openings and only one fire door at each opening divides main portion of building on ground floor. And there appearing from such examination and public hearing that there are practical difficulties and unnecessary hardship in carrying out the strict provisions of the law or the rules and regulations of the Industrial Code on the said proposed building, and that in the granting of a variation on said proposed building the spirit of the law and rules and regulations will be observed and public safety secured.

Be it resolved by the State Industrial Commission, That a variation be and it hereby is granted to the Oswego Falls Pulp & Paper Co., on the proposed building at Fulton, N. Y., upon the following terms:

That one interior fireproof enclosed stairway terminating at second floor, with fireproof enclosure extending to ceiling under roof, skylight omitted, one unenclosed interior fireproof stairway in office portion of building terminating at second floor level, and one interior fireproof stairway in southwesterly corner of building be permitted, provided that the stairway in southwesterly corner of building be enclosed in fireproof partitions on ground floor, with a fire door at foot of stairs on ground floor, provided also that a horizontal exit with at least one fire door at each opening be provided near southwesterly corner on first and second floors leading to adjoining building; that two horizontal exits on ground floor, with one fire door at each opening, be permitted.

Be it further resolved, That the said variation is granted only during the period that the conditions above set forth as to exits, number of occupants, nature of industry, etc., are maintained.

Dated, June 19, 1918.

## NOTICE TO BIDDERS AT SALES OF OLD BUILDINGS, ETC.

TERMS AND CONDITIONS UNDER WHICH BUILDINGS, ETC., WILL BE SOLD FOR REMOVAL FROM CITY PROPERTY.

THE BUILDINGS AND APPURTENANCES thereto will be sold to the highest bidder, who must pay cash or certified check drawn to the order of the Comptroller of The City of New York, and must also give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. Where the amount of the purchase price does not equal or exceed the sum of \$50, the sum of \$50 will be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract, but unfinished at the expiration of the contract period.

The purchaser shall not lease, occupy, cause or permit the building or buildings, etc., purchased by him to be used or occupied for any purpose other than that of their speedy removal, nor shall he collect any rental or other revenue for the use of either the land or the buildings, etc., situated thereon. The breach of either or any of these conditions shall forthwith void the sale and cause immediate forfeiture of the purchase money and the security deposited for the faithful performance of the conditions of the sale. The placing therein or permitting the occupancy of any such building by any tenant free, for rent or otherwise, excepting the necessary watchmen or the workmen engaged in the actual demolition thereof, shall of itself be a breach of the above conditions of sale.

The sale will be as of the condition of the property on date of delivery thereof to the purchaser. The City of New York will not be responsible for any change or loss which may occur in the condition of the buildings, or their appurtenances between the time of the sale thereof and the time of delivering possession to the purchaser, after being properly vacated of all tenants. The sale and delivery to purchaser will be made as nearly together as the circumstances of vacating the structures of their tenants will permit.

All the material of buildings, sheds, walks, structures and cellars of whatsoever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds, except the exterior walls of the buildings and their foundations, and the sidewalks and curb in front of said buildings, extending within the described area, shall be torn down and removed from the premises. None of the dirt, debris or waste resulting from the demolition shall be allowed to remain on the premises, except old mortar or plaster only, which may be left, but not higher at any point than two feet below the curb opposite that point. The exterior walls and their foundations shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building. Where there is no curb the elevation of the surrounding ground shall be considered curb level. All wells, cesspools, sinks, etc., existing on the property must be filled to the level of the surrounding ground with clean earth.

The purchaser at the sale shall also withdraw and remove all abandoned water taps and old service mains and in place thereof cause to be inserted a brass plug in the main water pipe in the street, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and furnish the Department of Finance with a certificate from the Department of Water Supply, Gas and Electricity that this has been performed.

The purchaser at the sale shall also remove all house sewer connections to the main sewer in the street, and the openings of the main sewer in street shall be properly closed in compliance with the directions of the Bureau of Sewers in the Borough in which the buildings are situated, and furnish the Department of Finance with a certificate from the Bureau of Sewers that this has been properly performed.

The permit for all opening in the street to be obtained by and at the expense of the purchaser of the building.

Failure to remove said buildings, appurtenances, or any part thereof, within thirty days from the day of possession will work forfeiture

of ownership of such buildings, appurtenances or portions as shall then be left standing, together with all moneys paid by said purchaser on account thereof at the time of the sale, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and The City of New York will, without notice to the purchaser, cause the same to be removed and the cost and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and must be completed within thirty days from the date of possession, and the successful bidder will provide and furnish all materials or labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damage and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of said buildings.

Where party walls are found to exist between buildings purchased by different bidders, the materials of said party walls shall be understood to be equally divided between the separate purchasers.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down. All furrows, plaster, chimneys, projecting brick, etc., on the faces of such party walls are to be taken down and removed. The walls shall be made permanently self-supporting, beam holes, etc., bricked up, and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs and adjacent buildings shall be properly flashed and painted and made watertight where they have been disturbed by the operations of the Contractor.

No buildings, parts of buildings, fixtures or machinery sold for removal under these terms and conditions shall in any case be relocated or re-erected within the lines of any proposed street or other public improvement, and if any such buildings, parts of buildings, fixtures or machinery, etc., shall be relocated or re-erected within the lines of any proposed street or other public improvement, title thereto shall thereupon become vested in The City of New York and a resale at public or private sale may be made in the same manner as if no prior sale thereof had been made.

The Comptroller of The City of New York reserves the right on the day of sale to withdraw from sale any of the buildings, parts of buildings and machinery included therein, or to reject any and all bids, and be it further

Resolved, That while the said sale is held under the supervision of the Commissioners of the Sinking Fund, the Comptroller is authorized to cause the sale to be advertised and to direct the sale thereof as financial officer of the City.
