W. DE F. DAY, M. D., Sanitary Superintendent and Register:

SIR—482 deaths were reported to have occurred in this city during the week ending April 7, 1877, which is an increase of 40 as compared with the preceding week, and 96 less than the number reported during the corresponding week of 1876. The actual mortality for the week ending March 31 was 466, which is 104.4 below the average number of deaths for the corresponding week of the past five years, and represents an annual death-rate of 22.57 per 1,000 persons living, the population estimated at 1,073,296.

The increase of deaths during the past compared with the previous week was from the following causes, viz.: Small-pox, 1; measles, 2; membranous croup, 5; typhus fever, 1; cerebro-spinal fever, 5; malarial fevers, 6; diarrhoeal diseases, 5; inanition, 3; intemperance, 3; rheumatism and gout, 3; phthisis pulmonalis, 16; bronchitis, 4; aneurism, 5; hydrocephalus and tubercular meningitis, 8; cirrhosis and hepatitis, 3, and Bright's disease, 10; while scarlatina decreased 2; diphtheria, 1; whooping cough, 1; erysipelas, 2; puerperal diseases, 7; pneumonia, 8; diseases of the heart, 5; 4 from diseases of the brain and nervous system, 8 from enteritis, gastritis, peritonitis, and 3 from cyanosis and atelectasis.

The mean temperature for the week was 42.4 Fahr., the mean reading of the barometer was 29.915 inches; the mean humidity was 70, saturation being 100; the number of miles traveled by the wind was 1,329, and the total amount of rain-fall was .48 inches.

The annual death-rate per 1,000 persons living of the estimated or enumerated population, according to the most recent weekly returns, of the following American cities, was: Brooklyn, 21.53; Chicago, 15; Boston, 21.52; Cincinnati, 16.90; Richmond, 15.25; Charleston, 28.67; Lowell, 23.38; Worcester, 16.85; Cambridge, 23.46; Fall River, 23.79; Lawrence, 18.12; Lynn, 33.44; Springfield, 11.13. Monthly returns—Milwaukee, 25.83; Providence, 16.3; New Haven, 19.60; Petersburg, Va., 28.12. Annual return—Louisville, 16.81. Foreign cities—weekly returns—London, 26.6; Liverpool, 30.6; Birmingham, 33.3; Manchester, 31.7; Glasgow, 37; Edinburgh, 23; Dundee, 26.55; Dublin, 40; Belfast, 44; Cork, 25; Brussels, 26.5; Buda-Pesth, 44.7; Paris, 29.5; Naples, 44.12; Munich, 43; Breslau, 32.2; Copenhagen, 26.2; Stockholm, 28.1; Christiania, 29.6; Amsterdam, 29.80; Rotterdam, 25.9; The Hague, 21.5; Calcutta, 30.3; Bombay, 47.0; Madras, 132.8.

During the three months ending March 31, 1877, 6,002 deaths occurred in this city, of which 1,068 or 17.79 per cent of the total were in public institutions; this is equal to an annual death-rate of 22.28 per 1,000 of the population, which is estimated at 1,077,228 for the middle of the year. This death-rate compares favorably with the latest returns received from American and foreign cities. The latest quarterly returns from London show an annual death-rate of 21.06 per 1,000 inhabitants of the population estimated to be living in the middle of the year. Paris, 25.8; Berlin, 25.3; Vienna, 24.5; Liverpool, 25.1; Manchester, 26.2; Glasgow, 23.2; Dublin, 22.4; Calcutta, 33.5; Bombay, 28.0; Madras, 39.0; Brussels, 22.5; Geneva, 20.7; Amsterdam, 24.9; Rotterdam, 25.4; The Hague, 27.0; Copenhagen, 22.9; Stockholm, 26.7; Christiania, 19.8; Hamburg, 23.4; Breslau, 25.2; Munich, 33.3; Buda-Pesth, 36.3; Rome, 23.9; Naples, 26.8; Turin, 21.5; Alexandria, 45.7. Although the population of New York City is steadily increasing, the mortality for the quarter ending March 31, 1877, was 1,298—8 less than the average number of deaths for the corresponding quarter of the past five years. A comparison of the deaths for the last three months with the corresponding period of the past five years shows that there were 1,631 deaths less than in 1876, 1,840 less than in 1875, 550 less than in 1874, 965 less than in 1873, and 1,508 less than in 1872. This decrease was particularly noticed in deaths from contagious diseases which, with one exception, were below the average number of deaths for the corresponding quarter of the preceding five years, viz.:

	Quarter ending March 31, 1877.	Average First Quarter 5 years preceding.
Small-pox.....	5	196
Measles.....	9	92.8

The accompanying tables will show the principal causes of death during the three months ending March 31, 1877, and for the corresponding quarter of 1872-'3-'4-'5-'6, together with the mortality by Wards, etc.

Respectfully submitted,

JOHN T. NAGLE, M. D.,

DEPARTMENT OF DOCKS,
117 AND 119 DUANE STREET,
NEW YORK, April 10, 1877.

TO CONTRACTORS.

PROPOSALS FOR FURNISHING SMALL COBBLE, RIP-RAP AND BROKEN STONE, AND SAND.

SEALED PROPOSALS FOR FURNISHING THESE materials, indorsed with proper title, and addressed "Salem H. Wales, President of the Department of Docks," will be received at this office, until 12 o'clock M., of

MONDAY, APRIL 23, 1877,

at which time and place the bids will be publicly opened by the head of said Department and read. The award of the contract or contracts will be made as soon as practicable after the opening of the bids.

THE ENGINEER'S ESTIMATE OF THE QUANTITIES TO BE FURNISHED IS AS FOLLOWS:

Class 1.—Small Cobble and Rip-rap Stone for Bulkhead or River Wall, to be deposited in place by Contractor.
A—About 16,000 cubic yards of Small Cobble Stone.
B— " 23,000 " Rip-rap Stone.

Class 2.—Broken Stone for Concrete.
About 3,200 cubic yards of Broken Stone.

Class 3.—Sand.
About 1,800 cubic yards of Sand.

Proposals may be made for one or more of the above three classes.

The above material to be furnished in accordance with specifications and to be delivered as called for by orders from the Engineer-in-Chief.

The small cobble and rip-rap stone for the bulkhead or river wall, is to be delivered and properly deposited around and between the piles, and in front and rear of the work. The small cobble only is to be placed between the piles, and the rip-rap is to be placed in front and rear of the foundation, and is to be properly mixed with small cobble.

The broken stone and sand are to be delivered and unloaded upon the scows of the Department or upon piers or bulkheads, at any point along the North river waterfront, south of Fourteenth street, as shall be designated, from time to time, by the Engineer.

All material will be measured, in bulk, on board the vessels, at the place of delivery.

The foregoing are the quantities which have been estimated approximately for the construction of that part of the bulkhead or river wall proposed to be completed during the present calendar year. They form, however, no part of the contract, and persons bidding are cautioned that the Department of Docks do not hold themselves responsible that any of them shall strictly obtain in the construction of the work, and reserve the right to terminate the contract at any time after the delivery of the following quantities, to wit:

Class 1. A—5,000 cubic yards.
B—5,000 cubic yards.
Class 2. 1,500 cubic yards.
Class 3. 1,000 cubic yards.

Any bidder for this contract must be known to be engaged in and well prepared for the business, and shall give security for the faithful performance of his contract, in the manner prescribed and required by ordinance, in the sum of ten thousand dollars, in case the whole contract shall be awarded to him; or in the sum of eight thousand dollars for the contract for small cobble and rip-rap stone only, or in the sum of two thousand dollars for the contract for broken stone only; or in the sum of five hundred dollars for the contract for sand only.

This contract is to cease and terminate on the 27th day of December, 1877, and a penalty of fifty dollars per day, as liquidated damages, will be exacted for each day that the delivery of any part of the said materials has been delayed through neglect to furnish the same within five days after the receipt of the necessary order therefor, Sundays and holidays not to be excepted.

Bidders will state in their proposals the price per cubic yard, for either or all of the above three classes of materials respectively, by which the bids will be tested. The price is to cover the expenses of freight, loading and unloading, towing, tools, run-ways, and all other expenses necessary for the complete fulfillment of the contract.

Bidders will write out the price bid, in addition to inserting the same in figures. Should the lowest bidder or bidders neglect or refuse to accept this contract within forty-eight (48) hours after written notice that the same has been awarded to his or their bid, he or they shall be considered as having abandoned it, and as in default to the Corporation; and the contract will be readvertised and relet, and so on until it be accepted and executed.

Bidders are required to state in their proposals their names and places of residence, the names of all persons interested with them therein; and if no other person be so interested, the proposal shall distinctly state that fact; also that the bid is made without any connection with any other person making any estimate for the same material, and that it is in all respects fair, and without collusion or fraud; and also that no member of the Common Council, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of the Corporation is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof; which proposals must be verified by the oath, in writing, of the party making the estimate, that the several matters stated therein are in all respects true. Where more than one person is interested, it is requisite that the verification be made and subscribed by all the parties interested.

Each proposal shall be accompanied by the consent, in writing, of two householders or freeholders of the City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person or persons making the bid, they will, on its being so awarded, become bound as his or their sureties for its faithful performance; and that if said person or persons shall omit or refuse to execute the contract, they will pay to the Corporation any difference between the sum to which said person or persons would be entitled on its completion, and that which the Corporation may be obliged to pay to any higher bidder to whom the contract may be awarded at any subsequent letting; the amount in each case to be calculated upon the estimated amount of the work by which the bids are tested. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the contract, over and above all his debts of every nature, and over and above his liabilities as bail, surety and otherwise; and that he has offered himself as surety in good faith and with the intention to execute the bond required by section 27 of chapter VIII. of the Revised Ordinances of the City of New York, if the contract shall be awarded to the person for whom he consents to become surety. The adequacy and sufficiency of the sureties offered are to be approved by the Comptroller of the City of New York after the award is made and prior to the signing of the contract.

Bidders are informed that no deviation from the specifications will be allowed, unless under the written instructions of the Engineer-in-Chief.

No proposal will be accepted from, or contract awarded to, any person who is in arrears to the Corporation, upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

The right to decline all the proposals is reserved, if deemed for the interest of the Corporation.

Bidders are requested, in making their bids, to use the blank prepared for that purpose by the Department, a copy of which, together with the form of the agreement, including specifications, and showing the manner of payment for the material, can be had upon application at the office of the Department, Room No. 6.

JURORS.

NOTICE
IN RELATION TO JURORS FOR STATE COURTS.

OFFICE OF THE COMMISSIONER OF JURORS,
NEW COUNTY COURT-HOUSE,
NEW YORK, June 1, 1876.

APPLICATIONS FOR EXEMPTIONS WILL BE heard here, from 9 to 4 daily, from all persons hitherto liable or recently serving who have become exempt, and all needed information will be given.

Those who have not answered as to their liability, or proved permanent exemption, will receive "jury enrollment notice," requiring them to appear before me this year. Whether liable or not, such notices must be answered (in person, if possible, and at this office only) under severe penalties. If exempt, the party must bring proof of exemption; if liable, he must answer in person, giving full and correct name, residence, etc., etc. No attention paid to letters.

Persons "enrolled" as liable must serve when called or pay their fines. No mere excuse will be allowed or interference permitted. The fines, received from those who, for business or other reasons, are unable to serve at the time selected, pay the expenses of this office, and if unpaid will be entered as judgments upon the property of the delinquents.

All good citizens will aid the course of justice, and secure reliable and respectable juries, and equalize their duty by serving promptly when summoned, allowing their clerks or subordinates to serve, reporting to me any attempt at bribery or evasion, and suggesting names for enrollment. Persons between sixty and seventy years of age, summer absentees, persons temporarily ill, and United States and District Court jurors are not exempt.

Every man must attend to his own notice. It is a misdemeanor to give any jury paper to another to answer. It is also punishable by fine or imprisonment to give or receive any present or bribe, directly or indirectly, in relation to a jury service, or to withhold any paper or make any false statement, and every case will be fully prosecuted.
