§318. Public Hack Licenses. 1. No public hack shall ply for hire upon the streets of the City of New York without first obtaining a license from the Department of Licenses. Such license shall be issued as of February 1, and shall expire on the 31st day of January next succeeding of each and every year hereafter, unless sooner suspended or revoked by the Commissioner of Licenses.

2. 10. Any owner or driver of a vehicle not licensed and equipped in accordance with the provisions of this section, or of a vehicle the license of which has been suspended or revoked, who engages in the business of operating a public hack as defined hereby, or attempts to engage in such business, or solicits for hire passengers upon the public streets or highways of The City of New York, shall, upon conviction before any City Magistrate, be punishable by fine of not over \$50 or imprisonment not exceeding thirty days, or both.

11. Every public hack driven by mechanical power, seating four passengers or less, shall have affixed thereto a taximeter of a size and design approved by the Commissioner of Licenses. No license shall be issued to a public hack until its taximeter shall have been inspected and found to be accurate, and no person shall use or permit to be used upon any public hack a taximeter which shall be in such condition as to be over five per cent. incorrect, to the prejudice of any passenger, under a penalty of fifty dollars for each and every offense.

12. After sundown, the face of every taximeter shall be illuminated by a suitable light, so arranged as to throw a continuous steady light upon the face thereof. A violation of this provision shall render the offender liable, upon conviction before a City Magistrate, to a fine not exceeding ten dollars, or, in default of payment thereof, to imprisonment in the City Prison for a period not exceeding ten days.

13. No taximeter affixed to a public hack propelled by steam, gasoline, electricity, or other motor power, shall be operated from any wheel to which the power is applied, under penalty of revocation of the license of said vehicle, and a fine of \$25.

14. Public hack licenses granted under this article may be revoked or suspended at any time by the Commissioner of Licenses, if the public hack be not kept at all times in good condition and appearance, clean and safe; and in the case of horse-drawn vehicles, if the horse or horses are unfit for use. The Commissioner, through his deputies and inspectors, shall maintain constant vigilance over all public hacks licensed under this section, to see that all such vehicles are kept in a condition of continued fitness for public use, and, to this end, the Commissioner, through his deputies and inspectors, shall inspect all public hacks from time to time, or on the complaint of any citizen, or as often as may be necessary. A report in writing of all such inspections shall promptly be transmitted to the Department of Licenses. Licenses when so suspended or revoked shall not be reissued until the public vehicle and all its appurtenances shall be put into fit condition for use by the public, to the satisfaction of the Commissioner of Licenses.

§319. Drivers' Licenses. 1. Every person driving a public hack must be licensed as such driver.

2. No person shall be so licensed unless he fulfills the following qualifications:

(a) He must be of the age of 21 years or over;

(c) He must be able to read and write the English language, and be clean in dress and person;

(d) He must not be addicted to the use of intoxicating liquors;

(e) He must produce, on forms to be provided by the Commissioner of Licenses for that purpose, sworn testimonials of good character from two reputable citizens of the City of New York who have known him personally and observed his conduct during one year next preceding the date of his application, and a further testimonial on a form provided for that purpose from his last employer, unless in the estimation of the Commissioner sufficient reason is given for its omission;

whether he has been summoned to court, whether he has previously been licensed as a driver of chauffeur, and if so whether his license has ever been revoked, and for what cause; which statement shall be signed and sworn to by the applicant, and filed in the Department of Licenses as a permanent record of that office. Any false statement made by applicant for a license shall be punishable by a fine of \$25, and a record of such false statement shall be sent by the Commissioner of Licenses to the District Attorney of the county in which the application was made;

(g) He must, if required by the Department of Licenses, in order to demonstrate his skill and ability to safely handle his vehicle, drive the vehicle through a crowded section of the City accompanied by an Inspector;

(h) He shall be examined, by or under the supervision of the Commissioner of Licenses, as to his knowledge of the provisions of this article, the police traffic regulations, and the geography of the City of New York, and, if the result of the examination be unsatisfactory, he shall be refused a license;

(i) Each applicant for a driver's license must file with his application two recent photographs of himself, of a size which may be easily attached to his license; one of the photographs shall be attached to his license when issued, the other to be filed with the application in the Department of Licenses. The photograph shall be attached to the license, in such a way that it cannot be removed and another photograph substituted without detection. Each licensed driver shall, upon demand of an inspector of licenses, a policeman, or passenger, exhibit his license and photograph for inspection. In case the application for a license is denied, the photograph shall be returned to the applicant by the Department.

3. The Commissioner of Licenses is hereby authorized and empowered to provide forms for applicants for drivers' licenses hereunder, and he may establish reasonable rules and regulations governing the issue of drivers' licenses, not inconsistent herewith.

4. Upon satisfactory fulfillment of the conditions herein established, the applicant shall be licensed by delivering to him a license, which shall be in such form as to contain a photograph of the licensee, the licensee's signature, and blank spaces upon which a record may be made of any arrest of the driver or serious complaint against him. Any licensee who defaces, removes or obliterates any official entry upon his license shall be punished by the revocation of his license. There shall also be delivered to each licensee a metal badge, of such form and style as the Commissioner of Licenses shall prescribe, with his license number thereon, which must, under penalty of revocation of the license, be constantly conspicuously displayed on the outside of the driver's coat when he is engaged in his employment. The Department of Licenses shall keep a complete record of each license issued to a driver, and of all renewals, suspensions and revocations thereof, which record shall be kept on file with the original application of the driver for a license.

5. Drivers' licenses shall be issued as of February 1 in each and every year, and shall be valid to and including the 31st day of January next succeeding. The Commissioner of Licenses may renew same from year to year, by noting the fact of such renewal on the licenses.

6. A driver, in applying for a renewal of his license under this article, may make such application upon a form to be furnished by the Department of Licenses, entitled "Application for Renewal of License," which shall be filled out with the full name and address of the applicant for such renewal, together with a statement of the date upon which his original license was granted and the number thereof.

The following license fees shall be paid for drivers' licenses:

For each original license ..... \$1 00  
For each renewal thereof ..... 50

Any person now holding a public driver's license, under the provisions of any former ordinance or regulation, shall be entitled to have the proportion of his fee for his unexpired license apply in payment of the original license issued under this article.

7. Drivers' licenses may be suspended or revoked at any time by the Commissioner of Licenses or any City Magistrate. The fact of such suspension shall be noted on the license, together with a statement of the reasons therefor, and the driver shall be deprived of his badge by the official suspending or revoking such license. When the license is suspended or revoked by an official other than the Commissioner of Licenses, the drivers badge and a note of the revocation or suspension shall be forthwith forwarded to the Department of Licenses; the badge to be returned at the expiration of the period for which the license was suspended. A second suspension for the same reason, or, in any case, a third suspension of a driver's license, shall revoke the license. No driver whose license has been revoked shall again be licensed as a public hack driver in The City of New York. Whenever a license is suspended or revoked by a City Magistrate, notice of such revocation, with the cause thereof, shall be forwarded to the Commissioner of Licenses. The Commissioner shall promptly notify the Police Department whenever a license issued under this section is revoked.

8. Any person not having been duly licensed as a public hack driver, or any person whose license as such driver has been revoked, or any person whose license has been suspended and who, during the time of such suspension, drives for hire a public hack upon the streets or highways of The City of New York, shall, upon conviction before any City Magistrate, be punished by a fine of not over \$50, or imprisonment for a term not exceeding thirty days, or both.

§320. Hack Stands. 1. All public hack stands heretofore designated by the Board of Aldermen are hereby abolished.

2. All special hack stands are hereby abolished and licenses for the same shall not be issued hereafter.

3. The Commissioner of Licenses is hereby authorized to locate and designate as public hack stands the space alongside the curb adjacent to property used as public parks, public buildings, railroad stations, steamship and ferry landings, hotels, restaurants, theatres, and the centre of any street or avenue where the roadway exclusive of the sidewalk, is 30 feet in width or more.

4. The Commissioner of Licenses may also designate spaces beside the curb adjacent to subway entrances and elevated railway steps as stands for a limited number of public hacks. He shall fix the number of public hacks that shall be allowed to stand at any of the places designated by him, and the Department of Licenses shall provide a metal sign, to be attached to a post or stanchion adjacent to the said stand, on which shall be placed the number and kind of vehicles that will be allowed on that particular stand.

5. Owners of any property may apply to the Commissioner of Licenses for the establishment of a public hack stand adjacent to their premises, stating the number of public hacks they desire to come on said stand, and the kind of locomotion to be used, whether gasoline or electric motor, or horses. The application shall be granted solely in the discretion of the Commissioner, and may be revoked by him at any time. If granted there shall be delivered to the applicant a metal sign, to be affixed to a stanchion on the curb or other conspicuous place, setting forth the kinds of public hacks and the number thereof that will be allowed on said stand.

6. No public hack stand shall be established in the centre of any street opposite to the premises where the owner has applied for and received the permit last above mentioned, during the time that said permit is in operation.

7. No public hack shall stand at any hack stand, located and designated by the Commissioner of Licenses in accordance with subdivision 3 of this section, adjacent to the curb of the sidewalk, within 15 feet of the entrance to any building erected on the property adjacent to the said hack stand. The restricted area shall be determined by measuring 15 feet on each side of a point on the curb opposite the middle of the entrance to the adjacent building. No hack shall stand within 5 feet of any crosswalk.

8. Only public hacks, in such numbers and of such kinds as are set forth on the metal sign, may remain at the stand while waiting for employment; and only in single file, pointed in accordance with the traffic regulations. No public hack standing at the head of any such line shall refuse to carry any orderly person applying for a hack, who agrees to pay the proper rate of fare; but this shall not prevent any person from selecting any hack he may desire on the stand, whether it be at the head of the line or not. As the hacks leave the line with passengers, those behind shall move up, and any public hack seeking a space on the stand shall only approach the same from the rear end of the stand and move up as far as possible to the last vehicle already on the line.

9. The Commissioner of Licenses may suspend or revoke the license of any public hack driver who shall violate the above provisions by standing in front of the entrance of any building, within the prohibited space, after his passengers desiring to leave have alighted, or who shall attempt to stand in said prohibited space waiting for passengers, or who shall violate any of the other provisions of this section.

§321. Rates of Fare. 1. Maximum rates of fare shall be as follows:

*Motor Vehicles.*

For not more than two passengers:  
For the first half-mile, or any fraction thereof..... \$0 30  
For each succeeding one-quarter mile, or any fraction thereof..... 10  
For three or more passengers:  
For the first half-mile, or any fraction thereof..... 40  
For each succeeding one-sixth mile, or any fraction thereof..... 10

2. Sight-seeing cars.

No rates are hereby established for sight-seeing cars, but a schedule of the rates charged for each trip shall before the trip be prominently displayed upon the car, and a charge greater, or attempt to charge any passenger a sum greater than that set forth in said schedule shall be deemed a violation of this ordinance.

3. Horse-drawn vehicles.

For cabs:  
For the first mile, or any fraction thereof..... \$0 50  
For each succeeding one-half mile, or any fraction thereof..... 20

For coaches:

For the first mile, or any fraction thereof..... 70  
For each succeeding one-half mile, or any fraction thereof..... 30

Hourly rates (applying only to horse-drawn vehicles when shopping or calling, and not including park or road driving, nor driving more than five miles from the starting point):

For the first hour, or any part thereof..... \$1 50  
For each additional one-half hour..... 50

In case of public hacks on which taximeters are not affixed, when driving on the numbered streets or numbered and lettered avenues in the Borough of Manhattan, twenty blocks north and south, and seven blocks between the numbered and lettered avenues constitute a mile for the purpose of this ordinance. The rate card, as provided for hereafter, shall state the number of blocks constituting a mile in the Borough of Manhattan.

4. Applying both to motor-driven and horse-drawn vehicles:

For waiting time at the rate of \$1.50 per hour.

For each piece of luggage carried outside, twenty cents. No charge shall, however, be made for hand bags and suit cases.

Ferriage and tolls in all cases to be paid by the party using the vehicle.

5. A copy of the foregoing rates of fare shall be furnished by the Department of Licenses to each public hack, and shall at all times be posted in a conspicuous place in the inside thereof.

6. The Department of Licenses shall provide each public hack with a printed receipt pad, and every public hackman shall keep on hand a supply of the same, and shall, whenever so requested by a passenger, give the passenger a receipt on such printed official form for the fare paid.

7. Any violation of the provisions of this article, or any charge or any attempt to charge any passenger a greater rate of fare than that to which the public hack is entitled under the provisions of this article, shall render the offender liable, upon conviction thereof before any City Magistrate, to a fine of not exceeding \$10, or, in default of payment thereof, to imprisonment in the City Prison for a period not exceeding ten days.

§322. Miscellaneous Provisions. 1. It shall be unlawful:

For any person to use or permit to be used, or drive for hire, a public hack equipped with a taximeter not having the case thereof sealed and the cover and gear therefor intact;

For any driver of a public hack equipped with a taximeter or other similar device, while carrying passengers or under employment, to display the signal affixed to such taximeter or other similar device in such position as to denote such vehicle is not employed, or in such position as to denote that he is employed at a rate of fare different from that to which he is entitled under the provisions of this ordinance;

For any person to drive a public hack on which has been affixed any taximeter other than one duly inspected and approved.

A violation of any of the provisions of this subdivision shall render the offender or offenders liable, upon conviction before any City Magistrate, to a fine of not more than fifty dollars for each and every offense, and, in default of payment of such fine, he may be committed to prison until the same shall be paid, but such imprisonment shall not exceed ten days;

2. Every driver of a public hack, immediately after the termination of any hiring or employment, must carefully search such hack for any property lost or left therein, and any such property, unless sooner claimed or delivered to the owner, must be taken to the nearest Police Station and deposited with the officer in charge, within twenty-four hours after the finding thereof, who shall forward a written notice to the Department of Licenses, with brief particulars and description of the property.

3. Every driver of a public hack shall have the right to demand payment of the legal fare in advance, and may refuse employment unless so prepaid, but no driver of a public hack shall otherwise refuse or neglect to convey any orderly person or persons upon request anywhere in the City, unless previously engaged or unable to do so. No driver of a licensed hack shall carry any other person than the passenger first employing him, without the consent of said passenger.

4. All disputes as to the lawful rate of fare shall be determined by the police officer in charge of the police station nearest to the place where such dispute is had; failure to comply with such determination shall subject the offending party to a charge of disorderly conduct, punishable by a fine of not exceeding ten dollars, or, in default of payment thereof, to imprisonment for not more than ten days.

5. No public hack while awaiting employment by passengers shall stand on any public street or place, other than at or upon a public hack stand designated or established, in accordance with this article, nor shall any driver of such hack seek employment by repeatedly and persistently driving his hack to and fro in a short space before, or by otherwise interfering with the proper and orderly access to or egress from any theatre, hall, hotel, public resort, railway or ferry station or other place of public gathering, but any hackman may solicit employment by driving through any public street or place without stops, other than those due to obstruction of traffic, and at such speed as not to interfere or impede traffic, and may pass and repass before any theatre, hall, hotel, public resort, railway or ferry station, or other place of public gathering, provided that after passing the same he shall not turn and repass until he shall have gone a distance of two blocks beyond such place.

6. No person shall be allowed to ride on the box with the driver.

7. No person shall solicit passengers for a public hack or hacks upon the streets and highways of The City of New York except the driver of a public hack when sitting upon the driver's box of his vehicle.

8. Any person violating any of the provisions of this article, except those where another penalty is specifically provided, upon conviction of such violation by a City Magistrate or the Commissioner of Licenses, or his Deputy, either upon confession of the party or by competent testimony, may be fined for such offense a sum not exceeding ten dollars and shall be subject to the suspension or revocation of his license, in the discretion of the Commissioner of Licenses, or a Deputy Commissioner with the approval of the Commissioner.

No. 382.

AN ORDINANCE to regulate the use of the streets of New York for processions and parades and to repeal section 1457 of the Greater New York Charter by authority of the Laws of 1901, chapter 466, section 3.

Be it Ordained by the Board of Aldermen of The City of New York as follows:

Section 1. No procession, parade or race shall be permitted upon any street, avenue or parkway in The City of New York without a written permit first obtained from the Police Commissioner. Application for such permit shall be made in writing upon a suitable form prescribed and furnished by the Police Department not less than thirty-six (36) hours previous to the forming or marching of such procession, parade or race.

Section 2. The Police Commissioner shall, after due investigation of such application, grant such permit subject to the following restrictions:

(a) He shall grant no permit where he has good reason to believe that the proposed procession, parade or race will be disorderly in character or tend to disturb the public peace.

(b) He shall grant no permit for the use of any street, avenue or parkway or material portion thereof which is ordinarily subject to great congestion of traffic and is chiefly of a business or mercantile character except upon those holidays when the places of business along the route proposed are closed, or on Sunday when permitted by law on that day, or on other days between the hours of 6.30 p. m. and 9 a. m.

(c) Each such permit shall designate specifically the route through which the procession, parade or race shall move, and it may also specify the width of the roadway to be used, and may include such rules and regulations as the Police Commissioner may deem necessary.

(d) Special permits for occasions of extraordinary public interest, not annual or customary, or not so intended to be, may be granted by the Police Commissioner for any street, avenue or parkway and for any day or hour, with the written approval of the Mayor.

Section 3. The chief officer of any procession, parade or race for which a permit shall hereafter be granted by the Police Commissioner shall be responsible for the strict observance of all rules and regulations included in said permit.

Section 4. This ordinance shall not apply

(a) To the ordinary and necessary movements of the United States Army, United States Navy, National Guard, Police Department and Fire Department, or

(b) To such portion or portions of any street, avenue or parkway in The City of New York which may have already been or may hereafter be duly set aside as a speedway or as speedways, or

(c) To processions or parades which have marched annually upon the streets or avenues of The City of New York for more than ten years previous to the adoption of this ordinance.

Section 5. Every person participating in any procession, parade or race which shall or may take place, except in accordance with the provisions of this ordinance, shall be punishable with a fine not exceeding twenty-five dollars (\$25) or imprisonment not exceeding ten (10) days, or both, in the discretion of the Court.

Section 6. This ordinance shall take effect immediately.

Adopted by the Board of Aldermen July 7, 1914.

Approved by the Mayor July 7, 1914.

## VOUCHERS RECEIVED IN DEPARTMENT OF FINANCE, FRIDAY, JULY 17, 1914.

A statement is herewith submitted of all vouchers filed in the Department of Finance on this date, in which is shown the Department of Finance voucher number, the date of the invoices or the registered number of the contract, the name of the payee and the amount of the claim. Where two or more bills are embraced in one voucher the date of the earliest is given, excepting that when such vouchers are submitted under a contract the registered number of the contract is shown instead.

If the vouchers are found to be correct and properly payable to the respective claimants it will be my endeavor to have the warrants therefor made ready for payment within the next seven days.

If any claimant within the time stated does not receive his warrant or a written notice in relation thereto then written or verbal inquiry may be made at this office, using the Department of Finance voucher number as a ready means of reference.

WILLIAM A. PRENDERGAST, Comptroller.

#### Notice of Public Hearing.

##### FRANCHISE MATTERS.

PUBLIC NOTICE IS HEREBY GIVEN PURSUANT to law that at a meeting of the Board of Estimate and Apportionment held July 2, 1914, the following petition was received:

Kings County Refrigerating Co. (Wallabout Stores), 22-38 Hall Street at Wallabout Market, Brooklyn, N. Y., June 23, 1914.  
Board of Estimate and Apportionment, New York City.

Gentlemen—On August 13, 1907, we entered into a contract under a franchise granted by your Honorable Board for laying certain pipes and supplying refrigeration to the Wallabout Market District. This franchise was for a period of 15 years with certain privileges of renewal for ten years on the following basis: \$500 cash payment.

An annual payment for the first five years, 5% of gross earnings with a minimum of \$750.  
An annual payment for the second five years, 6% of gross earnings with a minimum of \$1,000.  
An annual payment for the third five years, 7% of gross earnings with a minimum of \$1,300.  
25 cts. per running foot of conduit laid.  
\$2 for each manhole.

At the time this contract was made our Company had no way of ascertaining as to whether this contract would be favorable one or not other than the fact that it was the best that could be obtained from your Honorable Board on the recommendations of the Bureau of Franchises.

The Bureau of Franchises undoubtedly at that time were not fully conversant with the value to the grantee of such a franchise and especially as applied to a scattered district.

Our Company installed machinery and equipment at the expense of about \$100,000 and have given to the district in the territory covered by our franchise good service to all that have asked for it.

This operation has resulted in a loss to the Company in direct operation during the six years of over \$110,000, as shown by an audit made by Certified Public Accountants employed at the direction of a committee, independent of the officers, which was appointed by the stockholders to investigate the causes of the Company's depressed financial condition. There is over and above this amount a considerable additional loss on depreciation of machinery and equipment.

Early this spring the stockholders and directors of the Company found themselves in financial difficulties, their quick liabilities being several times more than their quick assets, and the fixed assets being fully covered by mortgage and their first mortgage bonds being sold as low as 50 cts. on the dollar.

The Company at that time was indebted to the City in Taxes on its real estate, and on this franchise to the extent of about \$13,000. While it was argued by a great many that the Company should be liquidated, it was finally decided by men who were active in the welfare of Brooklyn and Wallabout Market to get together and pay off the indebtedness of the Company and endeavor to put the business on a paying basis; such a Committee has been actively at work for the last three months, and on June 11, 1914, the committee turned over to the Honorable W. H. Prendergast, Controller, the last payment of the taxes on this franchise amounting to about \$3,600, covering 25 cts. per running foot for four years, from 1910 to 1914.

In consideration of the foregoing and in view of the terms under which other franchises are now being granted in more densely built up sections of New York City, we hereby request that your Honorable Board grant us a franchise for a term of fifteen (15) years, with the privilege of renewal on re-valuation of ten years, based on the following principal points:

Annual payment 1st 5 years: 2% of gross earnings with a minimum of \$500.  
Annual payment 2nd 5 years: 3% of gross earnings with a minimum of \$600.  
Annual payment 3rd 5 years: 3% of gross earnings with a minimum of \$700.  
Payment for conduit per linear foot: 10c.  
Payment for each manhole: \$2.

Maximum rates to be charged for refrigeration to be furnished under properly insulated conditions: 32 degrees Fahrenheit, freezing: 500 cu. ft. or less, 4c. per month.  
500 to 1,500 cu. ft. 2c. per month.  
1,500 to 2,500 cu. ft., 1½c. per month.  
2,500 cu. ft. and over, 1c. per month.

The basis of percentage on gross earnings noted above is in line with the franchises that are at present being given by the City in the densely populated section of lower Manhattan, and the minimum payments specified are greater than are provided for in those franchises.

The rate of 10c. per linear foot is asked for as equitable on account of the long distances of pipe which are required in this district as compared with the densely built up section of lower Manhattan; for instance, on one section of our line 1,300 feet long, there are only four customers, and on another section 700 feet long, there is only one customer. Many of these boxes are very small and the franchise tax per running foot of piping is entirely out of proportion to the returns.

It will be necessary in the near future to replace the present pipe line system with a new brine pipe line of larger diameter, to overcome the friction consequent upon the long distances the pipe is carried; and a large amount will have to be expended for new machinery.

It is generally admitted that the pipe line refrigeration which we have supplied to Wallabout Market is a public necessity, and it has been the most important single factor in the success of this Market, and if the service can be continued, it will still further aid in the growth of a very important public institution.

As before stated the men connected with this reorganization are paying to the City the full amount agreed upon, and are making an endeavor to keep the Company a going concern in the belief that your Honorable Board will give relief from the burden of the onerous terms of the franchise which has resulted in such great losses to the Company.

Very truly yours,  
KINGS COUNTY REFRIGERATING CO.  
P. MAXWELL SAYFORD,  
Treasurer.

State of New York, County of New York, City of New York, ss.:

#### INVITATION TO CONTRACTORS

FOR THE STATION FINISH WORK FOR PART OF THE BROADWAY-FOURTH AVENUE RAPID TRANSIT RAILROAD

The Public Service Commission for the First District (hereinafter called the "Commission") acting for and in behalf of The City of New York (hereinafter called the "City") invites proposals to construct station finish for the six stations on Sections Nos. 1 and 2 of Route No. 11-B, a part of the Broadway-Fourth Avenue Rapid Transit Railroad.

The location within the City at which the said work is to be performed is on Fourth Avenue in the Borough of Brooklyn, between Fortieth and Ninetieth Streets.

The Railroad for which the station finish is to be provided is now under construction. The Contractor shall begin actual work within thirty (30) days after the delivery of the contract on such stations and other parts of said Railroad as the Chief Engineer of the Commission may direct and shall begin actual work on any of the remaining stations or other parts of the Railroad within ten (10) days after notice and shall complete the entire work covered by the contract within six (6) months from the delivery of the contract, provided that an extension of time will be granted for completing the work at any station or other part of the Railroad upon which the Contractor shall not have been directed, within four (4) months after the delivery of the contract, to begin work, as provided in the contract. The City has also entered into a contract for the installation of tracks in the Railroad and the work of installation will be in progress at the time that the station finish work is in progress. It will also be necessary for the New York Municipal Railway Corporation, its contractors or employees, to do work in the Railroad in connection with the equipment of the Railroad at the time that the station finish work is in progress. The Contractor must conduct his work so as not to impede or interfere with such other work, as provided in the contract.

The Railroad or a portion thereof may also be opened and operated for passenger traffic before the completion of the station finish work. In such event the Contractor must conduct his work so as to avoid interference with the operation of the Railroad and injury to passengers, as provided in the contract; and payment for all additional expense, loss, risk and damage due to such opening and operating for traffic will be made by increasing by the percentage stipulated in Item X in the Schedule contained in the Contractor's Proposal, the prices stipulated in said Schedule for the station finish work performed after the date of such opening and operating for passenger traffic at each station so opened and used for passenger traffic and at each portion of the Railroad between stations so opened and operated for passenger traffic, except as provided in the contract. Each bidder shall state in said Item X in the Schedule contained in the form of Contractor's Proposal the percentage required on such prices in payment for the additional expense, loss, risk and damage in the event of such opening and operating for traffic. For the purpose of comparing the bids only, and not for any other purpose, it will be assumed that the percentage so bid will be required to be paid on one-quarter (¼) of the estimated amount of the station finish work. If any bidder shall not desire any such increase in said prices on account of such opening and operating for traffic, he shall strike out said Item X in said Schedule contained in his Proposal.

Bidders must examine the form of contract and the specifications and the contract drawings and must visit the location of the work and inform themselves of the conditions and make their own estimates of the facilities and difficulties attending the execution of the work.

A fuller description of the work and other requirements, provisions, details and specifications are given in the form of contract and in the contract drawings therein referred to. Copies of the forms of contract, bond and contractor's proposal and of the contract drawings may be inspected and purchased at the office of the Commission, No. 154 Nassau street, Borough of Manhattan, New York City. The forms of contract and the contract drawings and the form of bond and contractor's proposal are to be deemed a part of this invitation.

Partial payments to the Contractor will be

made as the work proceeds, as provided in the forms of contract.

At the time of the delivery of the contract the Contractor must furnish security to the City by depositing a bond, cash or securities in the sum of fifty thousand dollars (\$50,000). As further security ten (10) per centum of the amounts certified from time to time to be due to the Contractor will be deducted.

**Sealed bids or proposals will be received at the office of the Commission, No. 154 Nassau street, Borough of Manhattan, New York City, until the 24th day of July, 1914, at twelve fifteen (12.15) o'clock p. m., at which time, or at a later date to be fixed by the Commission, the proposals will be publicly opened.**

Proposals must be in the form prescribed by the Commission.

A statement based upon the estimate of the Chief Engineer of the Commission of the quantities of the various classes of the work and of the nature and extent as near as practicable of the work is to be found in the schedule in the form of contractor's proposal. The quantities given in such schedule are approximate only, being given as a basis for the uniform comparison of bids, and no claim is to be made against the City on account of any excess or deficiency, absolute or relative, in the same, except as provided in the specifications and form of contract.

Every proposal must when submitted be enclosed in a sealed envelope endorsed "Proposal for Constructing Station Finish for Part of Rapid Transit Railroad—Route No. 11-B, Section Nos. 1 and 2," and must be delivered to the Commission or its Secretary; and in the presence of the person submitting the proposal, it will be deposited in a sealed box in which all proposals will be deposited. No proposal will be received unless accompanied by a separate certified check for ten thousand dollars (\$10,000), payable to the order of the Comptroller of the City and drawn upon a national or state bank or trust company satisfactory to the Commission and having its principal office in New York City. Such check must not be enclosed in the envelope containing the proposal.

*The Unit Prices must not be improperly balanced, and any bid which the Commission considers detrimental to the City's interests may be rejected.*

No proposal, after it shall have been deposited with the Commission, will be allowed to be withdrawn for any reason whatever.

The award of the contract will be made by the Commission as soon as practicable after the opening of the proposals.

Deposits made by bidders whose proposals are not accepted will be returned within three (3) days after the contract is executed and delivered and its provisions in respect of the bond or deposit are complied with, unless all proposals shall be rejected, in which event such deposits will be returned within three (3) days after such rejection. The deposit of the successful bidder will be returned when the contract is executed and its provisions in respect of the bond or deposit are complied with.

The right to reject any and all bids is reserved. New York, June 27, 1914.

#### NOTICE TO BIDDERS AT SALES OF OLD BUILDINGS, ETC.

TERMS AND CONDITIONS UNDER WHICH BUILDINGS, ETC., WILL BE SOLD FOR REMOVAL FROM CITY PROPERTY.

THE BUILDINGS AND APPURTENANCES thereto will be sold to the highest bidder, who must pay cash or certified check, drawn to the order of the Comptroller of The City of New York, and must also give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. Where the amount of the purchase price does not equal or exceed the sum of \$50, the sum of \$50 shall be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract, but unfinished at the expiration of the contract period.

The purchaser shall not lease, occupy, cause or permit the building or buildings, etc., purchased by him to be used or occupied for any purpose other than that of their speedy removal, nor shall he collect any rental or other revenue for the use of either the land or the buildings, etc., situated thereon. The breach of either or any of these conditions shall forthwith void the sale and cause immediate forfeiture of the purchase money and the security deposited for the faithful performance of the conditions of the sale. The placing therein or permitting the occupancy of any such building by any tenant free, for rent or otherwise, excepting the necessary watchmen or the workmen engaged in the actual demolition thereof, shall of itself be a breach of the above conditions of sale.

The sale will be as of the condition of the property on date of delivery thereof to the purchaser. The City of New York will not be responsible for any change or loss which may occur in the condition of the buildings, or their appurtenances between the time of the sale thereof and the time of delivering possession to the purchaser, after being properly vacated of all tenants. The sale and delivery to purchaser will be made as nearly together as the circumstances of vacating the structures of their tenants will permit.

All the material of the buildings, sheds, walks, structures and cellars of whatsoever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds, except the exterior walls of the buildings and their foundations and the sidewalks and curb in front of said buildings, extending within the described area shall be torn down and removed from the premises. None of the dirt, debris or waste resulting from demolition shall be allowed to remain on the premises, except old mortar or plaster only, which may be left, but not higher at any point than two feet below the curb opposite that point. The exterior walls and their foundations shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building. Where there is no curb the elevation of the surrounding ground shall be considered curb level. All wells, cesspools, sinks, etc., existing on the property must be filled to the level of the surrounding ground with clean earth.

The purchaser at the sale shall also withdraw and remove all abandoned water taps and old service mains, and in place thereof cause to be inserted a brass plug in the main water pipe in the street, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and furnish the Department of Finance with a certificate from the Department of Water Supply, Gas and Electricity that this has been performed.

The purchaser at the sale shall also remove all house sewer connections to the main sewer in the street and the openings of the main sewer

in street shall be properly closed in compliance with the directions of the Bureau of Sewers in the Borough in which the buildings are situated, and furnish the Department of Finance with a certificate from the Bureau of Sewers that the work has been properly performed.

The permit for all opening in the street to be obtained by and at the expense of the purchaser of the building.

Failure to remove said buildings, appurtenances, or any part thereof, within thirty days from the day of possession will work forfeiture of ownership of such buildings, appurtenances, or portion as shall then be left standing, together with all moneys paid by said purchaser on account thereof at the time of the sale, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and The City of New York will, without notice to the purchaser, cause the same to be removed, and the cost and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and must be completed within thirty days from the day of possession, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damage and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of said buildings.

Where party walls are found to exist between buildings purchased by different bidders, the materials of said party walls shall be understood to be equally divided between the separate purchasers.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down. All furnishings, plaster, chimneys, projecting brick, etc., on the faces of such party walls are to be taken down and removed. The walls shall be made permanently self-supporting, beam-holes, etc., bricked up, and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs and adjacent buildings shall be properly flashed and painted and made watertight where they have been disturbed by the operations of the Contractor.

The Comptroller of The City of New York reserves the right on the day of sale to withdraw from sale any of the buildings, parts of buildings and machinery included therein, or to reject any and all bids; and it is further

Resolved, That, while the said sale is held under the supervision of the Commissioners of the Sinking Fund, the Comptroller is authorized to cause the sale to be advertised and to direct the sale thereof as financial officer of the City.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.
