By order of the Board.

EMMONS CLARK,

Secretary.

Sanitary Bureau.

September 9, 1873.

To Dr. Stephen Smith, Chairman af the Sanitary Committee:

Sir.—I have respectfully to submit the following report on the condition of the streets and avenues of the City in regard to cleanliness, for the week ending Sept. 6th, 1873, compiled from the usual weekly reports of the Inspectors and Assistant Inspectors connected with this Bureau.

Inspector Judson (1st, 3d and 5th Wards) reports that he has observed no improvements in the general condition of the streets of his district, as a rule, finding them filthy with street dirt and manure.

Assistant Inspector Lockwood (2nd and 4th This will facilitate the sanitary care of local causes of disease.

The death-rate which for weeks past has varied but little from 32 per 1000, annual rate, is kept up thus high by the excessive infant mortality. Last week there were only 325 deaths in all that portion of our city population over 2 years of age and this is equivalent to a death-rate of 18 in

New York is naturally a healthful city, and the causes of excessive infant mortality, and localized unhealthfulness are not beyond the reach of preventive measures. Upon one tenement ground on Mulberry street, 75 by 100 feet in extent, there have died in five years 76 tenants

OTHER CITIES.—Twenty-five American cities that communicate officially with this Department report no epidemic, and at present, the cholera of the southwest is prevailing fatally only in towns that have no permanent sanitary police. In the 21 principal cities of Great Britain, in the third week of August, the death rate was equal to 26 per 1000 inhabitants annually. In Paris, the previous week, the rate was officially reported at 24 per 1000; in Brussels, 28; in Berlin, 38; and in Vienna at 58 per 1000,—the excess being due to cholera. Venice reports a death-rate of 71 per 1000; Rome, 33 per 1000, yearly rate. Infant mortality, in the four cities last mentioned, is nearly as excessive as in New York.

Persectfully submitted.

Toy and Ashman, accompanied by Officer Rhodes of the Sanitary Police, have seized and condemned from the schooner John H. The President of the Department of Taxes and Assessments presented the following communi-

New York, August 13th, 1873. Hon. John Wheeler, Secretary Board of Appor tionment, City and County of New York.

SIR-I have the honor to request that an early opportunity be extended to me by the Board of Apportionment, for the purpose of exhibiting to them, the merits of my safety ballot box, to the end, that if upon examination, it shall be deemed to answer fully the requirements involved, that I may have proper time to have them made for the ensuing time.

I beg leave to state, that without a single exception, my box has met with the approval of 1873, every Board to which it has been submitted, not only in the country, but in Europe, I claim absolute protection for the ballot, and against fraud.

Upon enquiry, I learn that additional boxes will be needed for the approaching elections.

I am, very respectfully,
H. C. MARSTON,

346 Broadway, Room 2.

Upon motion, the communication was received, lered on file, and the next meeting of the Board designated to examine the boxes.

The Comptroller and the President of the Department of Taxes and Assessments presented communications from Malcolm Campbell in regard to the claims of clerks and others in the Surrogate's office during the years 1868 and

Which were ordered on file.

The communication of the Commissioners of Accounts in relation to application for an appropriation for clerk hire, &c., was taken up, and upon motion, made the special order for the next regular meeting.

CITY OF NEW YORK,
DEPARTMENT OF Ph. OFFICE,
COMPTROLLER'S 1873.
NEW YORK, Sept. 4,

nd Appor To the Hon. the Board of Estimate a

Resolutions of the Board of Estima. 30th Apportionment having been adopted June and August 7th, 1873, requesting the Comptro. to obtain information in relation to the "Add. tional Alterations of Aqueduct from 93d to 113th streets, I respectfully

REPORT, That I have gathered such information as could be obtained from the documents and papers on file in the Department of Finance in relation to the subject.

I have not yet employed an engineer to examine and report upon the work.

There are on file in this Department three estimates of the cost of this work.

1st. An estimate under date of Dec. 13th, 1870, in which the Commissioner of Public Works says: "I have had the Chief Engineer make "a thorough examination and estimate, and he reports that the cost of the whole work will be " about one million five hundred thousand dollars "(\$1,500,000) exclusive of the expense of remov-"ing the present aqueduct, and trust that the "entire work will be completed during the com-"ing year 1871."

2d. Another estimate, under date of April 1 1871, in which the same officer says: "In the matter of the removal of the Croton Aqueduc "in the City of New York, between the south "erly side of 113th street and the southerly side of 93d street, and laying iron pipes to convey "the water between these points, concerning "which I addressed you a communication of the "13th Dec., 1870, stating the estimate of ex "penses to be \$1,500,000, exclusive of other ex penses then unestimated.

"I have now the opportunity to report upon more thorough examination of the Chief En-"gineer of the Croton Aqueduct that the total " cost will be two millions of dollars (\$2,000,000

3d. A report of the present Commissioner of Public Works, under date of June 21, 1873, or the time and amount necessary for the completion of certain works now in progress, in which "he makes the estimated cost of this work on June 1st, \$947,213.40, as follows:

"For alterations of aqueduct between Ninetythird and One Hundred and Thirteenth streets. "On the first of March last there was required

for the completion of this work-Hon. Andrew H. Green, Comptroller:

SIR—The following resolution was adopted

Laying pipes, 25,630 lineal feet, at \$3.

Testing and cartage, 25,630 lineal feet, at \$2.
2,000 cubic yards stone masonry under pipes, at \$12.

60,000 cubic yards filling over pipes, at 750.

60,000 cubic yards filling over pipes, at 750.

7,500 lineal feet pipes to be moved, at \$2.

40,000 cubic yards covering, at \$750.

street, at \$20.... Lands at 93d and 113th streets..... \$280,736 60

Leaving the estimated cost of the work to be done on June 1st.....

The work will be completed this year to admit the water into the pipes, and to allow of the removal of the old work in the early part of next season. \* \* \* \*." We have thus three estimates of the cost of this work.

The following statement shows the payments which have been made on this work to Sept. 3d, 1873, and the estimated total cost of the remainder of the work. Total payments on this work to Sept. 3d, 1873, \$2,637,456 41. The Commissioner of Public Works estimates the amount required to complete this work on 1st of June, 1873, (vide communication) Commissioner of Public Works June 31st, 1873, at \$947,213 40. Less payments since June 1st, \$111,876 13, \$835,337 27, \$3,472,793 68; showing total cost as per estimates of Commissioner of Public Works, No. 1, \$1,500,000 00; as per estimate, No. 2, \$2,000,000 00; as per estimate, No. 3, \$3,472,793 68.

I am unable to say whether the amount of the last estimate will complete the work, but I believe that one half the sum properly expended would have done it.

Respectfully submitted,

Andrew H. Green, Comptroller.

On motion of the Comptroller the Board then adjourned to meet on Monday the 8th inst., at

JOHN WHEELER, Secretary.
