Department of Finance, City of New York,
Bureau of Municipal Investigation and Statistics,
April 19, 1910.

The Honorable Board of Estimate and Apportionment:

Gentlemen—In the matter of the proposal of the President of the Borough of Richmond for the establishment of the position of Engineer of Street Cleaning to be attached to the engineering staff of the Board of Estimate and Apportionment, which matter was referred to the Select Committee on Salaries and Grades, we report as follows:

Under the Charter arrangement the jurisdiction of the Department of Street Cleaning extends only over the Boroughs of Manhattan, The Bronx and Brooklyn. This function for the Boroughs of Queens and Richmond is exercised through a bureau in the offices of the Presidents of those Boroughs. The Board of Estimate and Apportionment is constantly called upon to appropriate money or to approve plans with regard to street cleaning and matters germane thereto, which matters to a great extent call for engineering skill and experience in order to adequately and wisely determine better, more sanitary or more economical means of collection and disposal of city wastes and the removal of snow. The latter item is a great source of difficulty each year, more particularly in the three Boroughs in which the Department of Street Cleaning has jurisdiction, and of no small consequence in the two Boroughs in which the Presidents of the Boroughs have immediate charge.

The cleaning of streets and related matters are also of great importance, and such studies and plans will require time for their development and undoubtedly will call for the services of an engineer in charge of the work, who should not be hampered by routine duties.

The President of the Borough of Richmond has stated to your committee that an Engineer of Street Cleaning should, if possible, have experience in the details of this kind of work and should be a man technically trained and of recognized standing in this particular branch of engineering skill. He should know from experience and observation the many requisites in this branch of municipal sanitation, and particularly where the present methods may be improved upon; he should know the significance of efficiency work, cost keeping and organization details so that advanced systems may be introduced when necessary and desirable; he should know what other cities are accomplishing in municipal cleaning and should be prepared to advise as to the adoption of the best practice suitable to the condition in New York; he should be an expert in the methods of reduction or incineration of refuse, particularly incineration, as this system of final disposition is urgently needed in many parts of the City, particularly in Queens and Richmond.

The Borough of Queens needs immediate technical assistance in planning and carying out a comprehensive scheme of refuse disposal; Richmond has a sucessful method of final disposition in operation and extensions are under way; in Manhattan, The Bronx and Brooklyn systems of refuse collection and disposal need examination, study and advance planning before existing contracts expire, as the Jamaica Bay improvement will probably disturb the existing system of reduction now in use on Barren Island. The snow removal problems for the more congested Boroughs must be studied and tested as to possible improvements and economies in present methods.

It does not appear that the Department of Street Cleaning has at this time an engineer, though some of the District Superintendents and an Inspector employed by the City to supervise the work of sanitary utilization are assisting the Commissioner of Street Cleaning in various investigations. The Borough of Queens has no engineer attached to its Bureau, while the Borough of Richmond has at the head of its Bureau an Engineer.

The cleaning of streets and related work in The City of New York calls for a maintenance appropriation aggregating something over $8,000,000 for 1910, not counting corporate stock or revenue bond issues. In Queens Borough alone it is estimated that it will cost over $1,000,000 to construct refuse disposal works suited to the different localities.

In the event of the removal of the Barren Island reduction works, another large plant will have to be provided for.

This Committee would deem that if the refuse and disposal question throughout the City is in need of study and advance planning in order that sanitary and economical methods may be adopted, the City will in time face large expenditures for the construction of permanent plants for various street cleaning and sanitary necessities.

The work being essentially engineering in character to be wisely and consistently executed will require a great deal of preliminary work and a high degree of expert knowledge. It would seem therefore that the creation of an engineering bureau to take charge of the matter will be necessary, unless outside assistance of consulting engineers is resorted to, and experience has proven that the latter class of service has not been altogether satisfactory.

Your Committee believes that the City will economize greatly in the expenditures by taking this matter in hand, and recommends the employment of an engineer whose duty will be to plan, construct and install various structures or methods, which past experience has shown to be necessary in order that the street cleaning may be efficiently executed.

Transmitted herewith is resolution.

Respectfully,
WM. A. PRENDERGAST, Comptroller;
JOHN PURROY MITCHEL, President, Board of Aldermen;
Select Committee.

Whereas, The Board of Estimate and Apportionment adopted the following resolution at a meeting held May 6, 1910:

Resolved, That, in accordance with the provisions of section 56 of the Greater New York Charter, the Board of Estimate and Apportionment hereby recommends to the Board of Aldermen the establishment of the position of Engineer of Street Cleaning to be attached to the engineering staff of the Board of Estimate and Apportionment, with salary at the rate of six thousand dollars ($6,000) per annum.

Resolved, That the Board of Aldermen hereby approves of and concurs in the above resolution and fixes the salary of said position as set forth therein.

No. 920.

Department of Finance, City of New York,
Bureau of Municipal Investigation and Statistics,
April 21, 1910.

The Honorable Board of Estimate and Apportionment:

Gentlemen—In the matter of the request of the Commissioner of Accounts for the establishment of a grade of Examining Engineer at $4,500, and of Stenographer at $1,800 per annum, in the office of the Commissioner of Accounts, referred by your Board at the meeting of April 15, 1910, to a Select Committee on Salaries and Grades, consisting of the Comptroller and the President of the Board of Aldermen, we report as follows:

The request is to provide, first, for an increase of $1,000 in the salary of the present Examining Engineer, now receiving $3,500 per annum, whom Commissioner Fosdick regards as an exceptionally intelligent and able man and entitled to the compensation of the new grade requested; and, second, for an increase of $300 in the salary of a Stenographer, now receiving $1,500 per annum; also a very efficient employee of the office.

Your Committee recommend approval of the request in accordance with the resolution attached hereto.

Respectfully,
WM. A. PRENDERGAST, Comptroller;
JOHN PURROY MITCHEL, President, Board of Aldermen;
Select Committee.

Whereas, The Board of Estimate and Apportionment adopted the following resolution at a meeting held May 6, 1910:

Resolved, That, in accordance with the provisions of section 56 of the Greater New York Charter, the Board of Estimate and Apportionment hereby recommends to the Board of Aldermen the establishment of the following grades of positions in the office of the Commissioner of Accounts, in addition to those already existing therein, viz.:

	Incumbents.	Per Annum.
Examining Engineer.....	1	$4,500 00
Stenographer	1	1,800 00

Resolved, That the Board of Aldermen hereby approves of and concurs in the above resolution and fixes the salaries of said positions as set forth therein.

Which were severally referred to the Committee on Salaries and Offices.

The President laid before the Board the following communication from the President, Borough of The Bronx:

No. 921.

The City of New York,
Office of the President of the Borough of The Bronx,
May 9, 1910.

Hon. JOHN PURROY MITCHEL, President of the Board of Aldermen, City Hall, New York:

Dear Sir—On January 24, 1910, a contract was made between The City of New York and George M. Dunn to construct sewers, etc., in East One Hundred and Fortieth street, between Park avenue and Canal place; and in East One Hundred and Forty-first street, between Park avenue and Canal place; and in Canal place, between East One Hundred and Thirty-eighth street and East One Hundred and Forty-fourth street.

Although Canal place was made by filling in the old canal bed, it was assumed from the results of the soundings taken before this work was started, and on which the estimate of the quantities was based, that the mud in the bed of the old canal had been consolidated by the weight of the material placed thereon in grading the street and it was also thought that the filling had reached its final settlement. The ground at the subgrade in Canal place for a distance of about 100 feet south of One Hundred and Fortieth street was apparently good. At about 105 feet south of East One Hundred and Fortieth street very soft ground was encountered. The work was then stopped and a re-examination of the ground made. It was then found that the soft mud still existed below the filling in the street, even under that portion of the street where the sewer had already been built. In other words, the filling of Canal place is floating on soft mud.

In view of these conditions, it is considered advisable to build the sewer on a pile foundation, including the sewer which has already been built, which must be taken up and rebuilt. This involves extra work not included in the contract which amounts to about $4,000.

In view of the urgency of this work, it is respectfully requested that the Board of Aldermen give the Borough President authority to order this work without public letting, according to section 419 of the Charter, which provides:

"* * * Whenever any work is necessary to be done to complete or perfect a particular job, or any supply is needful for any particular purpose, which work and job is to be undertaken or supply furnished for the city of New York, and the several parts of the said work or supply shall, together, involve the expenditure of more than one thousand dollars, the same shall be by contract, under such regulations concerning it as shall be established by ordinance or resolution of the board of aldermen, * * * unless otherwise ordered by a vote of three-fourths of the members elected to the board of aldermen."

The conditions existing on this contract could not be foreseen. It therefore had to be suspended the moment they were discovered.

In order not to unduly delay this work I would again urge that the Board of Aldermen authorize the Borough President to order this work without public letting.

Yours truly,
CYRUS C. MILLER, President, Borough of The Brnox.

Which was referred to the Committee on Public Letting.

The President laid before the Board the following communication from the Commissioner of Public Charities:

No. 922.

Department of Public Charities, City of New York,
Foot of East Twenty-sixth Street,
May 6, 1910.

To the Honorable the Board of Aldermen:

Gentlemen—The undersigned Commissioner of Public Charities very respectfully requests the issue of special revenue bonds to the amount of nine thousand two hundred and thirty-five dollars and forty-two cents ($9,235.42), to provide the means to employ the following additional help from June 15, 1910, due to the contemplated opening on that date of the two additional tuberculosis pavilions at the Metropolitan Hospital, Blackwells Island. These pavilions will increase the capacity for patients by about 350. No provision for these employees was made in the estimate for 1910, submitted July, 1909, because it was not definitely known at that time when the buildings would be ready for occupancy.

This request is made because we understand that no accruals in the salary appropriations for the different institutions allowed to this Department for the current year can be utilized for this purpose and which would be sufficient to meet this expense.

I beg to submit the following schedule of employees required:

5 Trained Nurses, at $600 per annum each	$3,000 00
1 Supervising Nurse	850 00
20 Hospital Helpers, at $300 per annum each	6,000 00
30 Hospital Helpers, at $240 per annum each	7,200 00
	$17,050 00

Amount required for six and one-half months, $9,235.42.

Of the five Trained Nurses at $600 per annum, four are required for day duty and one for night duty. The Supervising Nurse at $850 per annum will assist the second Deputy Superintendent of the Training School in the Tuberculosis Division when these new tuberculosis buildings are opened.

Twenty Hospital Helpers at $300 per annum are necessary to perform the duties of Nurses. Thirty Hospital Helpers at $240 per annum are required as Orderlies and Ward Maids, and for the increased work in the Infirmary Nurses' Home, due to the additional Nurses employed.

Respectfully yours,
M. J. DRUMMOND, Commissioner.

Which was referred to the Committee on Finance.

The President laid before the Board the following communication from the Police Commissioner:

No. 923.

Police Department, City of New York,
May 6, 1910.

To the Honorable Board of Aldermen:

Gentlemen—The following proceedings were directed by the Police Commissioner on the 5th inst.:

Whereas, The Board of Aldermen, at a meeting held April 26, 1910, adopted a resolution, approved by the Mayor May 3, 1910, approving of and concurring in the resolution of the Board of Estimate and Apportionment of April 1, 1910, recommending to the Board of Aldermen under the provisions of section 56 of the Greater New York Charter the establishment of the grade of the position of Sergeant of Police in the Department of Police, in addition to those already existing therein, with salary at the rate of $1,750 per annum, to take effect July 1, 1910.

Ordered, That the Board of Aldermen be and are hereby respectfully requested to authorize the issue of special revenue bonds in the sum of $73,847.72 to pay the increase in salaries of 586 Sergeants of Police in the Department of Police, from $1,500 to $1,750 per annum, from July 1, 1910, to December 31, 1910.

Respectfully,
WM. F. BAKER, Police Commissioner.

Which was referred to the Committee on Finance.

The President laid before the Board the following communication from the Board of Education:

No. 924.

Board of Education,
Park Avenue and Fifty-ninth Street,
New York, May 3, 1910.

Hon. JOHN PURROY MITCHEL, President, Board of Aldermen:

Dear Sir—I have the honor to transmit herewith certified copies of reports and resolutions adopted by the Board of Education at a meeting held on April 27, 1910, as follows:

1. Relative to providing $80,000, through the issue of special revenue bonds or otherwise, for the purpose of restoring the amounts heretofore deducted from the compensation of Janitors and re-establishing former rates.

2. Relative to the issue of special revenue bonds, to the amount of $3,000, for the purpose of providing means for the transportation of crippled and blind children.

Respectfully yours,
A. E. PALMER, Secretary, Board of Education.

To the Board of Education:

The Committee on Finance respectfully reports that it has received the following preamble and resolution from the Committee on Care of Buildings:

Whereas, The appropriation for "Compensation of Janitors" for 1910 was but $1,393,141.41, which, based upon the rates of compensation paid for many years, and making due allowance for anticipated enlargement of the summer and evening activities, including a small reservation for contingencies, was approximately $80,000 less than the amount required for 1910 for cleaning, heating, ventilating and efficient care of the school plant generally; and

Whereas, In order to offset the anticipated deficit the Committee on Care of Buildings reluctantly presented a report which was adopted by the Board of Education February 7, 1910 (see "Journal," pages 328-329), which report indicated the condition of the fund for "Compensation of Janitors," and recommended that certain graded percentage deductions be made in such manner as appeared to be the least onerous; and

Whereas, In accordance with the action of the Board of Education in approving such report, the Auditor is now causing the prescribed deductions to be made from the monthly payrolls of Janitors, and the Janitors, in accordance with the terms of such report, are accepting such reduced installments "as on account of compensation"; and

Whereas, The Committee on Care of Buildings believes that the rates paid prior to January 1, 1910, were not excessive, in fact, in many instances might be considered otherwise in that such rates were established many years ago and have remained unchanged while the cost of living has constantly increased; and

Whereas, So far as is known to this Committee the public school Janitors are the only class of public servants to suffer a reduction in compensation; and

Whereas, The public school Janitors are thus placed in the predicament of either suffering such deduction from the amount left over for their own use after paying their help, or else reducing the number or calibre of subordinate help, or both, and since the first expedient works a hardship upon a worthy class of public servants, and the second and more probable expedient will result in unclean school buildings, with attendant evils; therefore be it

Resolved, That the Committee on Finance be requested to take the necessary steps to secure sufficient funds to restore the amounts already deducted from the compensation of Janitors, and to maintain, for the balance of the year, the same rates as paid prior to January 1, 1910.

The Committee on Finance is cognizant of the situation outlined in the report of the Committee on Care of Buildings, and heartily agrees with the recommendations contained therein.

The following resolution is therefore submitted for adoption:

Resolved, That the Board of Estimate and Apportionment, the Board of Aldermen and the Comptroller be and they hereby are requested to take the necessary steps to provide the sum of $80,000 through the issue of special revenue bonds or otherwise, for the purpose of restoring the amounts heretofore deducted from the compensation of Janitors and re-establishing the rates paid for many years prior to January 1, 1910.

A. E. PALMER, Secretary, Board of Education.

To the Board of Education:

The Committee on Finance respectfully reports that it is in receipt of the following communication from District Superintendent Strachan, under date of April 20, 1910:

"Your communication of April 14 received. I did gather from the remarks at the meeting of the Committee on Finance on March 9, that there was insufficient money for hiring at least one stage to carry children in Districts 33 and 35 to Public School 162, but I hoped that your Committee would ask the Board of Estimate and Apportionment for the necessary funds, and I respectfully request you to advise me what further steps to take toward getting these afflicted children in Districts 33 and 35 to Public School 162, where they may receive a common school education."

The Board has no funds wherewith to carry out the proposed request. It is therefore respectfully recommended that the Board of Aldermen and the Board of Estimate and Apportionment be requested to take the necessary action to secure the issue of special revenue bonds for the purpose, pursuant to subdivision 8 of section 188 of the Charter.

The following resolution is submitted for adoption:

Resolved, That the Board of Aldermen be and it hereby is requested to adopt a resolution requesting the Board of Estimate and Apportionment to authorize the issue of special revenue bonds to the amount of three thousand dollars ($3,000), pursuant to subdivision 8 of section 188 of the revised Charter, for the purpose of providing means for the transportation of crippled and blind children in Local School Board Districts 33 and 35, Borough of Brooklyn, or any other districts where necessity may arise; and that the Board of Estimate and Apportionment be and it hereby is respectfully requested to authorize such issue upon the request of the Board of Aldermen.

The President laid before the Board the following communication from the Department of Water Supply, Gas and Electricity:

No. 925.

Department of Water Supply, Gas and Electricity,
Commissioner's Office,
New York, May 10, 1910.

Hon. JOHN PURROY MITCHEL, President, Board of Aldermen, City Hall:

Dear Sir—On February 14, 1910, I made application to the Board of Aldermen for an issue of special revenue bonds in the sum of $70,000 to provide for the payment of State, County, Town and school taxes. This sum also included an item of $10,000 for the maintenance of the properties.

In consideration of this request the Board of Aldermen adopted a resolution on March 8 recommending an issue of special revenue bonds in the sum of $55,233.24, this money being sufficient to pay the State, County and Town taxes, and also for the employment of the necessary help to care for the properties. It was not thought advisable to authorize the money necessary for the payment of the school taxes, as the same would not become due until July 1 next.

In order that the funds may be available by that time, and to avoid any interest charges for the non-payment of the school taxes, I would respectfully request that the Honorable Board of Aldermen authorize the issue of special revenue bonds in the sum of $15,000 to provide for the payment of same.

Yours truly,
HENRY S. THOMPSON, Commissioner.

No. 835—(G. O. No. 38).

The Committee on Finance, to which was referred on April 26, 1910 (Minutes, page 263), a request from the President, Borough of Queens, for $20,000 special revenue bonds for rebuilding cribwork over sewer projecting into the East River and forming a dock at the foot of Broadway, First Ward, Borough of Queens, respectfully

REPORTS:

That Engineer Johnson and other representatives of the Borough of Queens have assured the Committee that the work of repairing this sewer is an absolute necessity and should be done at once; that the dock to be formed is more of a recreation pier than for wharfage, it being only available for the latter purpose at the outer end, and then only for vessels of light draft; that such dock is under the jurisdiction of the President of the Borough of Queens by legislative enactment, and, further, that if done by assessment this work would cost almost double the amount asked for. The details of this expenditure are appended hereto. The Committee recommends that the accompanying resolution be adopted.

Resolved, That, in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and it is hereby requested to authorize the Comptroller to issue special revenue bonds to the amount of twenty thousand dollars ($20,000), the proceeds whereof to be used by the President of the Borough of Queens for the purpose of rebuilding the cribwork over the sewer projecting into the East River and forming a dock at the foot of Broadway, First Ward, Borough of Queens.

No. 829.

The Committee on Finance, to which was referred on April 26, 1910 (Minutes, page, 251), the annexed communication from the District Attorney of Kings County asking for $5,000 special revenue bonds for extradition of fugitives, respectfully

REPORTS:

That, having examined the subject, it believes the proposed fund to be necessary so that proper steps may be taken to bring escaped criminals to justice. The details of this application are set forth in the request from the District Attorney. Heretofore police officers have been obliged to defray their own expenses and then wait months for reimbursement. The Committee recommends that the accompanying resolution be adopted.

Resolved, That, in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and it is hereby requested to authorize the Comptroller to issue special revenue bonds to the amount of five thousand dollars ($5,000), the proceeds whereof to be used by the Police Commissioner, upon requisition of the District Attorney of Kings County, for the purpose of providing means for the payment of expenses in connection with the matter of extraditing fugitive criminals from the County of Kings.

District Attorney's Office, Kings County,
Brooklyn, April 25, 1910.

Hon. JOHN PURROY MITCHEL, President of the Board of Aldermen, City Hall, Manhattan, New York:

Dear Sir—I respectfully request the Board of Aldermen by resolution to allow the issuance of special revenue bonds to create a fund of $5,000 for the purpose of defraying expenses in the matter of extraditing fugitive criminals from the County of Kings, said fund to be placed with the Comptroller of The City of New York to the credit of the Police Commissioner of The City of New York.

I have no contingent account for this purpose, and I am informed the Police Commissioner has no fund from which expenses of this character can be paid.

A separate fund for traveling expenses in extradition matters arising in this County is needed. I believe the fund should be placed with the Police Commissioner, as the persons designated in the warrants are members of that Department. The Police Department has a well equipped Cashier's Bureau, and can control the actions of its men better than I can.

I have had a conference with the Police Commissioner and he has given his approval and consent to this course.

His Honor the Mayor recently wrote me concerning a man charged with forgery, who was under indictment in this County and is now on the Pacific coast. I wrote in reply that I had no fund from which to defray the traveling expenses, and that the Commissioner of Police was also without the necessary funds. Mayor Gaynor wrote me that such a fund should be provided, hence I respectfully request that a resolution for that purpose be introduced.

Thanking you in advance for any assistance you will render me in this matter, I am,

Respectfully,
JOHN F. CLARKE, District Attorney, Kings County.

Under Rule 21, consideration of this report was deferred. Subsequently Alderman Dowling moved the adoption of this report.

REPORTS:

That, on further consideration and in view of the largely increased responsibilities devolved on the incumbent of the position as emphasized in the report of the Select Committee of the Board of Estimate and Apportionment, it recommends that the accompanying substitute resolution be adopted.

(SUBSTITUTE.)

Whereas, The Board of Estimate and Apportionment adopted the following resolution at a meeting held April 15, 1910:

Resolved, That, pursuant to the provisions of section 56 of the Greater New York Charter, the Board of Estimate and Apportionment hereby recommends to the Board of Aldermen the establishment of the position of Deputy Chief Engineer in the Department of Bridges with salary at the rate of seven thousand five hundred dollars ($7,500) per annum, for one incumbent, and the establishment of the grade of position of Clerk in said Department, in addition to those already existing therein, with salary at the rate of one thousand six hundred and fifty dollars ($1,650) per annum, for one incumbent..

No. 818.

The Committee on Salaries and Offices, to which was referred, on May 3, 1910 (Minutes, page 366), the annexed report of the Committee on Laws and Legislation and resolution in favor of recommending a per diem wage of $2.50 for City Laborers, respectfully

REPORTS:

That, inasmuch as similar recommendations have already been adopted by the Board, it recommends that the said report and resolution be placed on file.

WILLIAM J. HEFFERNAN, FRANCIS P. BENT, JOHN J. WHITE, WM. C. TOWEN, RALPH FOLKS, SAMUEL MARX, JOSEPH SCHLOSS, Committee on Salaries and Offices.

The Committee on Laws and Legislation, to which was referred, on April 19, 1910 (Minutes, page 212), the annexed resolution in favor of fixing pay of per diem Laborers in municipal employ at $2.50, respectfully recommends that this matter be referred to the Committee on Salaries and Offices.

Whereas, The increased cost of living has fallen heavy upon the Laborers in the various City Departments, whose salary has not been increased in the last fifteen years; and

Whereas, It is a hardship for them to maintain their families at the rate of wages they receive from the City at the present time; and

Whereas, The amount which many of them received last year in many cases was less than $400 for the entire year owing to condition of the weather; and

Whereas, The City has no desire to pauperize its employees by paying starvation wages; and

Whereas, The employees of all the other Departments have received a substantial raise to combat the high cost of living; therefore be it

Resolved, That we, the Board of Aldermen, do hereby recommend that the Laborers receiving $2 and less per day be increased to the rate of $2.50 per diem, thereby doing justice to them and their families.

MAX S. LEVINE, JOHN J. MEAGHER, BRYANT WILLARD, JAMES H. FINNIGAN, SAMUEL MARX, JAS. E. CAMPBELL, JOHN McCANN, Committee on Laws and Legislation.

Which report was accepted.

The Committee on Salaries and Offices, to which was referred on April 26, 1910 (Minutes, page 243), the annexed resolution in favor of establishing grades for sundry police officials, respectfully

REPORTS:

That, as compared with salaries paid in other Departments and the responsible duties imposed on the proposed beneficiaries, this adjustment of grades for Deputy Police Commissioners and promotion of Clerks and Messengers of long and meritorious service is eminently proper, and, concurring with the strong endorsement by the Select Committee of the Board of Estimate and Apportionment, the Committee therefore recommends that the said resolution be adopted.

Whereas, The Board of Estimate and Apportionment adopted the following resolution at a meeting held April 22, 1910:

MESSAGES FROM HIS HONOR THE MAYOR.

The President laid before the Board the following message from his Honor the Mayor:

No. 869.

City of New York, Office of the Mayor,
May 9, 1910.

To the Honorable the Board of Aldermen of The City of New York:

Gentlemen—I return herewith, disapproved, proposed resolution No. 869, entitled "Resolution permitting H. S. Starrett to parade with ponies, dogs and wagons."

I find that this resolution would permit the parading of ponies, dogs and wagons for thirty days through the streets of Brooklyn. I consider this inadvisable and return the same disapproved. These people go into the congested streets and block the way.

Respectfully,
W. J. GAYNOR, Mayor.

Resolved, That permission be and the same is hereby given to Howard S. Starrett to parade with ponies, dogs and wagons through the streets and thoroughfares of the Borough of Brooklyn under the supervision of the Police Department. Such permission to continue only for the period of thirty days from the receipt hereof from his Honor the Mayor.

Which was laid over, ordered to be printed in the minutes and published in full in the CITY RECORD.

GENERAL ORDERS.

Alderman Cole called up General Order 36, being a report and resolution, as follows:

No. 846.

The Committee on Public Letting, to which was referred on April 25, 1910 (Minutes, page 311), the annexed resolution in favor of authorizing the President, Borough of Manhattan, to contract without public letting for resoiling of Delancey Street parkway and approach to Manhattan Bridge at a cost not to exceed $7,500, respectfully

REPORTS:

That President McAneny appeared before the Committee and stated that this work must be done within two weeks or else it will be impossible to plant the trees as proposed so that they will thrive. That he will be able to obtain this soil from the contractor for the Park Department at the same rate. That he has the money for this work. That to advertise would postpone this improvement for the season and would increase the cost by the amount paid for advertising. The Committee recommends that the said resolution be adopted.

Resolved, That, pursuant to section 419 of the Greater New York Charter, the President of the Borough of Manhattan be and he is hereby authorized to enter into a contract or contracts without public letting for all work incidental to the proposed resoiling of the Delancey Street parkway and approach to the Manhattan Bridge, in the Borough of Manhattan, the total cost of this work not to exceed the sum of seven thousand five hundred dollars ($7,500).

FRANCIS P. BENT, JAMES J. SMITH, ALEXANDER S. DRESCHER, MAX S. LEVINE, THOMAS F. BARTON, JOHN DIEMER, Committee on Public Letting.

The Vice-Chairman put the question whether the Board would agree to accept such report and adopt said resolution.

Which was decided in the affirmative by the following vote:

Affirmative—Aldermen Baldwin, Barton, Becker, Bolles, Boschen, Brush, Callaghan, Campbell, Carberry, Cole, Coleman, Cornell, Cunningham, Delaney, Desmond, Diemer, Dotzler, Dowling, Downing, A. S. Drescher, W. Negative—Alderman Ehntholt—1.

Alderman Coleman called up General Order No. 32, being a report and resolution, as follows:

No. 385 (G. O. No. 32).

The Committee on Public Letting, to which was referred on March 1, 1910 (Minutes, page 624), the annexed communication from the Commissioner of Water Supply, Gas and Electricity, asking for authority to purchase 225 high pressure hydrants without public letting at a cost not to exceed $24,412.50, respectfully

REPORTS:

That, having examined the subject, it believes the proposed authorization to be a matter to the advantage of the Department asking the permission. The details are fully set forth in the application, and so far as they relate to previous action by the Board of Aldermen, are entirely correct. The Committee recommends that the accompanying resolution be adopted.

Resolved, That, pursuant to the provisions of section 419 of the Greater New York Charter, the Commissioner of Water Supply, Gas and Electricity be and he is hereby authorized to purchase two hundred and twenty-five high pressure hydrants without public letting at a cost not to exceed the sum of twenty-four thousand four hundred and twelve dollars and fifty cents ($24,412.50).

FRANCIS P. BENT, JAMES J. SMITH, ALEXANDER S. DRESCHER, MAX S. LEVINE, THOMAS F. BARTON, JOHN DIEMER, Committee on Public Letting.

Department of Water Supply, Gas and Electricity,
Commissioner's Office,
New York, February 21, 1910.

Hon. JOHN PURROY MITCHEL, President, Board of Aldermen, City Hall, City:

Dear Sir—At the closing meeting of the Board of Aldermen last year a resolution was passed authorizing the Commissioner of this Department to purchase on open orders 225 high pressure hydrants from the A. P. Smith Manufacturing Company. The resolution, however, failed to receive the approval of the former Mayor.

It is a matter of much importance to the Department that the hydrants for the system be of a standard pattern, and as the hydrants manufactured by the A. P. Smith Manufacturing Company are the only ones which stood the test prescribed in the original contract for the furnishing of hydrants, I beg to renew the application for authority to expend the sum of $24,412.50 for the purchase of these hydrants without the formality of advertising for competitive bids.

On several occasions the Department has obtained authority from the Board of Aldermen to purchase on open orders the hydrants of this pattern. Contracts have already been awarded for the furnishing, delivering and laying of water mains in the new districts to which the high pressure service will be extended. No other part of the high pressure system deserved or has received more attention from the Engineering Bureau than the proper selection of a hydrant well adapted for the extraordinarily severe service for which it is intended, and on the unfailing record of which the efficiency of the whole system depends. Under the trying conditions of operation the requirements in this case are necessarily much more exacting than in that of the common and much simpler hydrant in use on our distribution system, and can only be made by high technical skill in the design and excellence of its material and workmanship.

On the Department's invitation for bids for a suitable hydrant for this service in November, 1904, five (5) of the leading manufacturers submitted hydrants for test and the only hydrant to comply with all the requirements was the one submitted by the A. P. Smith Manufacturing Company. The contract was not awarded until June 27, 1905. This delay was due, principally, to the claim made by several of the unsuccessful bidders, who requested sufficient time to readjust their hydrants and to have same retested. All the bids were rejected, and on the second bidding several hydrants

were submitted, but the A. P. Smith Manufacturing Company's hydrant was the only one which successfully passed the test. An injunction was issued, restraining the Commissioner from awarding the contract to the A. P. Smith Manufacturing Company, and two years elapsed before the final decision of the Court.

Taking these facts into consideration, as well as the obvious advantage of uniformity in hydrants, and the agreement by the company to furnish these hydrants at the same rate which governed their bid which was submitted in competitive bidding, I would respectfully ask authority from the Board of Aldermen to purchase these hydrants on open order.

Yours truly,
HENRY S. THOMPSON, Commissioner.

The Vice-Chairman put the question whether the Board would agree to accept such report and adopt said resolution.

Which was decided in the negative by the following vote, three-fourths of all the members failing to vote in favor thereof:

Affirmative—Aldermen Baldwin, Barton, Becker, Bolles, Boschen, Brady, Brush, Callaghan, Campbell, Carberry, Coleman, Cornell, Cunningham, Delaney, Desmond, Diemer, Dowling, Downing, A. S. Drescher, W. Drescher, Eichhorn, Fagan, Fink, Finley, Finnigan, Gaynor, Grimm, Heffernan, Johnson, Kenneally, Kenney, Loos, Markert, Mulhearn, Nicoll, Nugent, Potter, Reardon, Schloss, Sheridan, Snell, Sohmer, Towen, Volkmann, White, Willard; President Cromwell, President Gresser, by Joseph Sullivan, Commissioner of Public Works; President Miller, President Steers and the Vice-Chairman—51.

On motion of Alderman Towen, the above vote was reconsidered, and the paper was restored to the list of General Orders.

Alderman Coleman called up General Orders Nos. 34 and 35, being reports and resolutions, as follows:

No. 832.

The Committee on Public Letting, to which was referred on April 26, 1910 (Minutes, page 261), the annexed communication from the President, Borough of Brooklyn, asking for authority to contract with the Brooklyn Rapid Transit Company for supporting tracks at Vienna avenue at a cost not to exceed $2,550 without public letting, respectfully

REPORTS:

That Commissioner Pounds and Engineer Fort appeared in support of this proposition; it appears that the estimate of the cost is made by the engineers of the railroad which insists on doing the work with its own force. Engineer Fort states that the work will be done under his supervision, but as the railroad owns the right-of-way the City cannot insist on doing the work with City employees. The cost is assessed on the property benefited, and any delay will add to the cost. The details of the work are set forth in the application. The Committee recommends that the accompanying resolution be adopted.

Resolved, That the President of the Borough of Brooklyn be and he is hereby authorized to enter into contract without public letting with the Brooklyn Rapid Transit Company for the purpose of supporting the embankment and railroad tracks and allow for the construction of a 36-inch and a 10-inch sewer under the right-of-way of the aforesaid Brooklyn Rapid Transit Company at Vienna avenue at a cost not to exceed the sum of two thousand five hundred and fifty dollars ($2,550).

FRANCIS P. BENT, JAMES J. SMITH, ALEXANDER S. DRESCHER, MAX S. LEVINE, THOMAS F. BARTON, JOHN DIEMER, Committee on Public Letting.

The City of New York,
Office of the President of the Borough of Brooklyn,
Brooklyn, April 26, 1910.

To the Honorable Board of Aldermen, New York City:

Gentlemen—The construction of the East Ninety-eighth street sewer in this Borough (Section 3), amounting to $152,138, is now under way and nearing completion.

To complete this sewer it will be necessary to cross the right-of-way of the Brooklyn Rapid Transit Company, at Vienna avenue. This right-of-way consists of an embankment on which the above company maintains one track.

The work of supporting the tracks under which sewers are built is generally done by the railroad company owning same, which companies are reimbursed by the City. The expense of supporting these tracks must be borne as a part of the expense of building the sewer, inasmuch as the railroad company owns its right-of-way at this point in fee. In the present case, the cost of doing this work will amount approximately to $2,550.

As this work is to be done by the railroad company, I would respectfully request your Honorable Body to adopt a resolution authorizing the President of the Borough of Brooklyn to enter into, without public letting, a contract with the Brooklyn Rapid Transit Company for the purpose of supporting the embankment and railroad tracks and allow for the construction of a 36-inch and a 10-inch sewer thereunder, at a cost not to exceed $2,550.

In order that the construction of the sewer may not be delayed, and the expense to the property owners considerably increased, I would respectfully request that your Board give this matter early attention.

Yours very truly,
L. H. POUNDS, Acting Borough President.

No. 833.

The Committee on Public Letting, to which was referred on April 26, 1910 (Minutes, page 262), the annexed communication from the President, Borough of Brooklyn, asking for authority to contract with the New York, Brooklyn and Manhattan Beach Railroad Company for supporting tracks at Vienna avenue at a cost not to exceed $12,000, respectfully

REPORTS:

That Commissioner Pounds and Engineer Fort appeared in support of this proposition; the estimate of the cost is made by the engineers of the railroad and is in excess of the estimate of Mr. Fort, but as the railroad owns the right of way the City's officers state that it must be done, as the company insists, by its own force, of course, under the supervision of the Engineer in charge of the Department of Sewers. Any delay will add to the cost which is assessed on the property benefited. The Committee recommends that the accompanying resolution be adopted.

Resolved, That the President of the Borough of Brooklyn be and he is hereby authorized to enter into contract without public letting with the Long Island Railroad Company for the purpose of supporting the embankment and railroad tracks and allow for the construction of a 36-inch and a 10-inch sewer under the right of way of the New York, Brooklyn and Manhattan Beach Railway at a cost not to exceed the sum of twelve thousand dollars ($12,000).

FRANCIS P. BENT, JAMES J. SMITH, ALEXANDER S. DRESCHER, MAX S. LEVINE, JOHN DIEMER, THOMAS F. BARTON, Committee on Public Letting.

The City of New York,
Office of the President of the Borough of Brooklyn,
Brooklyn, April 26, 1910.

To the Honorable Board of Aldermen, New York City:

Gentlemen—The construction of the East Ninety-eighth street sewer in this Borough (Section 3), amounting to $152,138, is now under way and nearing completion.

To complete this sewer it will be necessary to cross the right of way of the New York, Brooklyn and Manhattan Beach Railroad Company at Vienna avenue. This right of way consists of an embankment on which the above company maintains three tracks.

The work of supporting the tracks under which sewers are built, is generally done by the railroad company owning same, which companies are reimbursed by the City. The expense of supporting these tracks must be borne as a part of the expense of building the sewer, inasmuch as the railroad company owns its right of way at this point in fee. In the present case, the cost of doing this work will amount approximately to $12,000.

As this work is to be done by the railroad company, I would respectfully request your Honorable Body to adopt a resolution authorizing the President of the Borough of Brooklyn to enter into, without public letting, a contract with the Long Island Railroad Company, for the purpose of supporting the embankment and railroad tracks and allow for the construction of a 36-inch and a 10-inch sewer thereunder, at a cost not to exceed $12,000.

In order that the construction of the sewer may not be delayed, and the expense to the property owners considerably increased, I would respectfully request that your Board give this matter early attention.

Yours very truly,
L. H. POUNDS, Acting Borough President.

Which, on motion of Alderman Grimm, were recommitted to the Committee on Public Letting.

Alderman Cunningham called up General Order No. 26, being a report and resolution as follows:

No. 592—(G. O. No. 26).

The Committee on Finance, to which was referred on March 22, 1910 (Minutes page 1205), the annexed communication from the Commissioner of Parks, Borough of The Bronx, asking for $1,000 special revenue bonds for the purchase of an automobile for use of the Superintendent of Parks, respectfully

REPORTS:

That the necessity for this automobile is set forth in the communication. The Commissioner has informed the Committee that the Superintendent will operate this machine himself. It seems to the Committee that such a mode of conveyance for this officer is more modern and efficient than the use of two horses, and it therefore recommends that the accompanying resolution be adopted.

Resolved, That, in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and it is hereby requested to authorize the Comptroller to issue special revenue bonds to the amount of one thousand dollars ($1,000), the proceeds whereof to be used by the Commissioner of Parks, Borough of the Bronx, for the purpose of purchasing a runabout automobile for the use of the Superintendent of Parks.

FRANK L. DOWLING, WILLIAM J. HEFFERNAN, CHARLES P. COLE, JOHN F. WALSH, THOMAS J. McALEER, JOHN DIEMER, FRANCIS P. KENNEY, Committee on Finance.

The City of New York,
Department of Parks, Borough of The Bronx,
March 16, 1910.

Hon. JOHN PURROY MITCHEL, President of the Board of Aldermen, City Hall, New York City:

Sir—Request is hereby made that your honorable Board request the Board of Estimate and Apportionment to authorize an issue of special revenue bonds, under the provisions of subdivision 8 of section 188 of the Charter, to the amount of one thousand dollars ($1,000) in order that I may purchase a runabout automobile for the use of the Superintendent of Parks, Borough of The Bronx.

It is utterly impossible for the Superintendent at the present time to cover the vast area of the park system of The Bronx, comprising upwards of 4,142 acres, with a horse and wagon. The distance to be covered daily being from twenty-five (25) to thirty (30) miles, requiring the use of two (2) horses daily. It is necessary, in order to make his work more efficient, and that proper supervision might be given, that the Superintendent get over the ground quickly so that he may cover the entire system each day.

Permission is also requested to purchase the above runabout automobile without public letting at a cost not to exceed one thousand dollars ($1,000).

Trusting this will have your prompt consideration, I am,

Respectfully,
T. J. HIGGINS, Commissioner.

The Vice-Chairman put the question whether the Board would agree to accept such report and adopt said resolution.

Which was decided in the negative by the following vote, three-fourths of all the members failing to vote in favor thereof:

Affirmative—Aldermen Baldwin, Becker, Boschen, Brady, Campbell, Carberry, Cunningham, Desmond, Dotzler, Dowling, Downing, A. S. Drescher, W. Drescher, Eichhorn, Fink, Finley, Hannon, Heffernan, Hickey, Kenneally, Kenney, Levine, McAleer, McCann, Markert, Marx, Mulhearn, Nicoll, Nugent, Reardon, Schloss, Sheridan, Snell, Sohmer, Towen, Weston, White; President Gresser, by Joseph Sullivan, Commissioner of Public Works; President Miller and the Vice-Chairman—40.

On motion of Alderman Hickey, the above vote was reconsidered, and the paper was replaced on the list of General Orders.

Alderman Cunningham called up General Order No. 37, being a report and resolution, as follows:

No. 472—(G. O. No. 37).

The Committee on Public Letting, to which was referred on March 8, 1910 (Minutes, page 1014), the annexed resolution in favor of permitting the Commissioner of Parks for the Boroughs of Manhattan and Richmond to purchase special exhibition cases for the Museum of Art without public letting at a cost not to exceed $15,000, respectfully

REPORTS:

That, having examined the subject, it believes the proposed permission to be necessary in order that cases exactly in conformity with the needs of the Museum may be secured. The Commissioner of Parks and the Superintendent of the Museum appeared before the Committee and urged a favorable report on this resolution. The Committee recommends that the said resolution be adopted.

Resolved, That, pursuant to the provisions of section 419 of the Greater New York Charter, the Commissioner of Parks for the Boroughs of Manhattan and Richmond be and he hereby is authorized and empowered to enter into a contract without public letting for the purchase of exhibition cases for the Metropolitan Museum of Art in Central Park at a cost not to exceed the sum of $15,000.

Resolved, That we, the members of the Board of Aldermen, hereby recommend to the Board of Education that they investigate the complaints contained in the attached petition herein, with a view to relieving the deplorable conditions therein referred to, and that the property both on the east and west of Public School 163, located at No. 509 East One Hundred and Twentieth street, be purchased by the City for the extension of said public school, and that a sufficient portion of said property be set aside for a playground and athletic field for the children attending said school and residing in the neighborhood adjacent thereto.

Ladies' Protective League of Public School 163, Manhattan,
April 25, 1910.

Board of Aldermen:

Gentlemen—We beg leave to call your attention to the astonishing fact that in School District No. 20, extending from Fifth avenue to the Harlem River, and from One Hundred and Twelfth street to One Hundred and Twenty-second street, there is no full grade, eight-year boys' school. Our boys are obliged to attend three different schools before they can graduate. These schools are Public School 163 at No. 509 East One Hundred and Twentieth street; Public School 39B at One Hundred and Twenty-sixth street, between Second and Third avenues, and Public School 24, One Hundred and Twenty-eighth street, between Fifth and Madison avenues. This state

of affairs causes much truancy, makes our sons have a long distance to travel and lessens very much that valuable personal contact with teachers which is so valuable to boys of elementary school age.

In Public School 163 there are between thirteen and fourteen hundred boys. In Public School 85, at One Hundred and Seventeenth street and First avenue; Public School 159, at One Hundred and Nineteenth street, between Second and Third avenues; Public School 57, at One Hundred and Fifteenth street, between Lexington and Third avenues, and at Public School 103, at One Hundred and Nineteenth street and Madison avenue, there are about four thousand boys in all. All of these boys are obliged to leave the district at the end of the fourth year.

The parents of this district are very much dissatisfied over this matter. Therefore we appeal to you to do the following things:

First—To gradually raise Public School 163 two grades a year until it becomes a full grade boys' school. Public School 163, for about twenty-five years, has been rented by the City. It, with the property adjoining it on the east and west, could be bought for a little less than $100,000, a very low rate, as the price paid by the City for the adjoining property as a Harbor Police Station will attest.

Second—To lay out the yard of this new boys' school as a playground. The boys of this district have no place in which to play. They are continually being arrested for playing ball in the street.

Third—The Board of Education owns lots on both sides of Public School 78 at the corner of One Hundred and Nineteenth street and Pleasant avenue. It is proposed to build an addition to Public School 78, a girls' school, and to transfer to that addition the boys from Public School 163. For moral reasons, on account of a mixed foreign colony, we, the parents of these boys, are unalterably opposed to having the boys and girls in the same building.

Fourth—The site of Public School 163, removed from close contact with tenements and close to the river, is an ideal one for a boys' school.

Fifth—To sell this extra ground adjoining Public School 78 and to build at Public School 163, would cost no more than to combine the two schools, which would be very unwise.

May we not hope that you will remember that, under these unsatisfactory conditions, we have been patient many years, and that you will send a committee to inspect and investigate in order that conditions may be arranged according to our children's interests. Thanking you, we are,

Respectfully yours,

LADIES' PROTECTIVE LEAGUE,

Mrs. Chas. C. Watkins, President.

RE: BOYS' SCHOOL, SCHOOL DISTRICT No. 20.

The Globe, April 19, 1910.

Parents Meet at Public School 163, Manhattan.

Last Friday the Parents' Protective League of Public School 163, Manhattan, held its first meeting in the auditorium of the school. The meeting was remarkable for the number which attended. Between six and seven hundred parents were present. Among them was a large number of the fathers of the children. The programme consisted of an address of welcome by the principal, Louise E. Tucker; address by Mrs. Charles Watkins, president of the league; two songs by Mrs. Ruckert, whose daughter, Miss Edith Ruckert, is a teacher in the school; address regarding medical attendance and cleanliness in school by Miss McGroarty, the school nurse; piano selections by Miss Pabst; address, "Co-operation of Parents and Teachers," by Dr. James Lee, district superintendent; address by Father Stephen of Capuchin, One Hundred and Twelfth street, Church, and principal of the nearest parochial school; song, "My Country, 'tis of Thee," by the assembled audience.

Twenty-five of the teachers of the school were present. They served a light collation and helped to make the meeting a great social success. At the next meeting, on May 13, about double the number of parents is expected to attend.

It was remarked by the league that there is no full grade boys' school in the Twentieth District of Manhattan. The boys are obliged to attend three schools before they can graduate Of course, this is unfortunate, and much truancy is thereby caused. The league has appealed to the Board of Education, through the Local Board of the district, to remedy this state of affairs.

Mr. William Crawford having reported to this Board, that at a meeting of the Joint Committee of the New York Chapter of Architects and the Building Trades Employers' Association on "City Departments," held March 30, 1910, it was moved, "That the Committee on City Departments recommend for approval to the New York Chapter for favorable action the changes in the bill suggested by the Board of Examiners' report, but in addition that the Chapter authorize the Committee on Legislation to urge that the bill be further amended so that there be added to the membership of the Board of Examiners a representative of the Brooklyn Chapter of the American Institute of Architects, in place of the representative now allowed the Real Estate Owners and Builders' Association"; therefore

Resolved, That the Board of Examiners advise said Joint Committee and the New York Chapter of the American Institute of Architects, that while it heartily approves the recommendation that the Brooklyn Chapter of the American Institute of Architects secure representation on this Board, and while it is prepared to lend its efforts to secure legislation to this end, yet the Board of Examiners is unanimously opposed to any change in the Greater New York Charter which would deprive the Real Estate Owners and Builders' Association from representation on the Board, or to any change which would in any manner alter the present representation, excepting only that it welcomes the addition of a member from the Brooklyn Chapter of the American Institute of Architects; be it further

Resolved, That Messrs. Boring and Crawford be respectfully requested to communicate to their respective organizations the sense of this Board as expressed in these resolutions.

Communication from Assistant Secretary Skelly of the Municipal Civil Service Commission, dated April 7, 1910, was referred to the Clerk.

Each parcel must be bid for separately and will be sold in its entirety, as described in above advertisement.

Each and every bid must be accompanied by a deposit of cash or certified check in a sum equal to 25 per cent. of the amount of the bid, except that a minimum deposit of $50 will be required with all bids.

Deposits of unsuccessful bidders will be returned within twenty-four hours after successful bidders have paid purchase price in full and given security, and those of successful bidders may be declared forfeited to The City of New York by the Comptroller upon the failure of the successful bidder to further comply with the requirements of the terms and conditions of the sale, as set forth hereinafter.

Successful bidders will be required to pay the purchase money and deposit the required security within twenty-four hours of the receipt of notification of the acceptance of their bids.

The Comptroller reserves the right to reject any and all bids and to waive any defects or informalities in any bid should it be deemed in the interest of The City of New York to do so.

The sale and delivery to purchaser will be made as nearly together as the circumstance of vacating the structures of their tenants will permit.

Failure to remove said appurtenances, or any part thereof, within thirty days from the day of possession will work forfeiture of ownership of such appurtenances or portion as shall then be left standing, together with all moneys paid by said purchaser on account thereof at the time of the sale, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and The City of New York will, without notice to the purchaser, cause the same to be removed, and the costs and expense thereof charged against the security above mentioned.

Borough of Brooklyn.

Being the one-story building and all its appurtenances situated on the southeast corner of Atlantic and New York avenues, particulars of which may be obtained at the office of the Collector of City Revenue, Department of Finance, No. 280 Broadway, Borough of Manhattan.

Pursuant to a resolution of the Commissioners of the Sinking Fund, adopted at a meeting held March 16, 1910, the sale by sealed bids of the above described building and appurtenances thereto will be held by direction of the Comptroller on

THURSDAY, MAY 26, 1910,

Parcel No. 1. One-story corrugated iron building and appurtenances thereto on the southeast corner of Atlantic and New York avenues.

Sealed bids (blank forms of which may be obtained upon application) will be received by the Comptroller at the office of the Collector of City Revenue, Room 141, No. 280 Broadway, Borough of Manhattan, until 11 a. m., on the 26th day of May, 1910, and then publicly opened for the sale for removal of the above described buildings and appurtenances thereto, and the award will be made to the highest bidder within twenty-four hours, or as soon as possible thereafter.

Each parcel must be bid for separately and will be sold in its entirety, as described in above advertisement.

Each and every bid must be accompanied by a deposit of cash or certified check in a sum equal to 25 per cent. of the amount of the bid, except that a minimum deposit of $50 will be required with all bids, and that a deposit of $500 will be sufficient to entitle bidders to bid on any or all of the buildings.

Deposits of unsuccessful bidders will be returned within twenty-four hours after successful bidders have paid purchase price in full and given security, and those of successful bidders may be declared forfeited to The City of New York by the Comptroller upon the failure of the successful bidder to further comply with the requirements of the terms and conditions of the sale as set forth hereinafter.

Successful bidders will be required to pay the purchase money and deposit the required security within twenty-four hours of the receipt of notification of the acceptance of their bids.

The Comptroller reserves the right to reject any and all bids and to waive any defects or informalities in any bid should it be deemed in the interest of The City of New York to do so.

All bids must state clearly (1) the number or description of the building or buildings bid for, (2) the amount of the bid, (3) the full name and address of the bidder.

All bids must be inclosed in properly sealed envelopes, marked "Proposals to be opened May 26, 1910," and must be delivered, or mailed in time for their delivery, prior to 11 a. m. of that date to the "Collector of City Revenue, Room 141, No. 280 Broadway, New York City," from whom any further particulars regarding the building to be disposed of may be obtained.

Possession of the above building will be given purchaser at once.

The building will be sold for immediate removal only, subject to the following

TERMS AND CONDITIONS.

The buildings and appurtenances thereto will be sold to the highest bidder, who must pay cash or a certified check drawn to the order of the Comptroller of The City of New York, and must also give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. Where the amount of the purchase price does not equal or exceed the sum of $50, the sum of $50 shall be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract, but unfinished at the expiration of the contract period.

The purchaser shall not lease, occupy, cause or permit the building or buildings, etc., purchased by him to be used or occupied for any purpose other than that of their speedy removal, nor shall he collect any rental or other revenue for the use of either the land or the buildings, etc., situated thereon. The breach of either or any of these conditions shall forthwith void the sale and cause immediate forfeiture of the purchase money and the security deposited for the faithful performance of the conditions of the sale. The placing therein or permitting the occupancy of any such building by any tenant free, for rent or otherwise, excepting the necessary watchmen or the workmen engaged in the actual demolition thereof, shall of itself be a breach of the above conditions of sale.

The sale will be as of the condition of the property on date of delivery thereof to the purchaser. The City of New York will not be responsible for any change or loss which may occur in the condition of the buildings, or their appurtenances, between the time of the sale thereof and the time of delivering possession to the purchaser, after being properly vacated of all tenants. The sale and delivery to purchaser will be made as nearly together as the circumstance of vacating the structures of their tenants will permit.

All the material of the buildings, sheds, walks, structures and cellars of whatsoever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds, except the exterior walls of the buildings and their foundations and the sidewalks and curb in front of said buildings, extending within the described area shall be torn down and removed from the premises. None of the dirt, debris or waste resulting from demolition shall be allowed to remain on the premises, except old mortar or plaster only, which may be left, but not higher at any point than two feet below the curb opposite that point. The exterior walls and their foundations shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building. Where there is no curb the elevation of the surrounding ground shall be considered curb level. All wells, cesspools, sinks, etc., existing on the property must be filled to the level of the surrounding ground with clean earth.

The purchaser at the sale shall also withdraw and remove all abandoned water taps and old service mains, and in place thereof cause to be inserted a brass plug in the main water pipe in the street, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and furnish the Department of Finance with a certificate from the Department of Water Supply, Gas and Electricity that this has been performed.

The purchaser at the sale shall also remove all house sewer connections to the main sewer in the street, and the opening of the main sewer in street shall be properly closed in compliance with the directions of the Bureau of Sewers, Borough of Brooklyn, and furnish the Department of Finance with a certificate from the Bureau of Sewers that the work has been properly performed.

The permit for all opening in the street to be obtained by and at the expense of the purchaser of the building.

Failure to remove said buildings, appurtenances or any part thereof within thirty days from the day of possession will work forfeiture of ownership of such buildings, appurtenances or portion as shall then be left standing, together with all moneys paid by said purchaser on account thereof at the time of the sale, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and The City of New York will, without notice to the purchaser, cause the same to be removed, and the costs and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and must be completed within thirty days from the day of possession, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damage and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of said buildings.

Where party walls are found to exist between buildings purchased by different bidders, the materials of said party walls shall be understood to be equally divided between the separate purchasers.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down. All furrings, plaster, chimneys, projecting brick, etc., on the faces of such party walls are to be taken down and removed. The walls shall be made permanently self-supporting, beam-holes, etc., bricked up, and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs of adjacent buildings shall be properly flashed and painted and made water-tight where they have been disturbed by the operations of the contractor.

The Comptroller of The City of New York reserves the right on the day of sale to withdraw from sale any of the buildings, parts of buildings and machinery included therein, or to reject any and all bids; and it is further

Resolved, That, while the said sale is held under the supervision of the Commissioners of the Sinking Fund, the Comptroller is authorized to cause the sale to be advertised and to direct the sale thereof as financial officer of the City.

PROPOSALS FOR BIDS AND ESTIMATES FOR THE CITY OF NEW YORK.

NOTICE TO CONTRACTORS.

GENERAL INSTRUCTIONS TO BIDDERS.

The person or persons making a bid or estimate for any services, work, materials or supplies for The City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope, indorsed with the title of the supplies, materials, work or services for which the bid or estimate is made, with his or their name or names and the date of presentation to the President or Board or to the head of the Department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said Department and read, and the award of the contract made according to law as soon thereafter as practicable.

Each bid or estimate shall contain the name and place of residence of the person making the same, and names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below.

No bid or estimate will be considered unless, as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately.

The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there.
