DEPARTMENT OF PUBLIC WORKS, COMMISSIONER'S OFFICE, NO. 31 CHAMBERS STREET, NEW YORK, November 10, 1886.

NOTICE TO CROTON WATER CONSUMERS.

NUMEROUS APPLICATIONS HAVE BEEN made to this Department by citizens claiming reductions or rebates on bills for water supplied through meters, on the alleged ground of leakage caused by defective plumbing and worn-out service pipes, or by willful waste of water by tenants allowing the faucets to be turned on in full force in water-closets, sinks, etc., without the knowledge or consent of the owners of the premises.

turned on in full force in water-closets, sinks, etc., without the knowledge or consent of the owners of the premises.

The main object of the use of water-meters is to enable this Department to detect and check the useless and unwarrantable waste of an element so valuable and essential to the health and comfort of all the citizens, and this object can only be accomplished by enforcing payment for the water wasted.

Under the law all charges for water supplied through meters are a lien against the respective premises, and the law therefore holds the owner of the premises responsible for the amount of water used or wasted.

Notice is therefore iven to all householders that, in all further applications for reduction of water rents, no allowance will be made on account of waste of water occurring through leaks, from defective service pipes or plumbing, or wasteful use of water by tenants or occupants of buildings, though such leakage or waste may have occurred without the knowledge or consent of the owners of the buildings.

House-owners are further notified that whenever their premises become vacant, and are likely to remain vacant, they must notify this Department in writing, and that unless this requirement is complied with no deductions in extra water rents will he allowed for any portion of one year.

GRANTS OF LANDS UNDER WATER.

THE OWNERS OF LANDS IN THE CITY OF
New York, which were formerly under water, and
which were granted by the City of New York, are notified that nearly all of the grants of such lands contain
covenants, on the part of the grantees, and their successors and assigns, to maintain and keep in repair the
adjacent streets. The condition of many of these streets
is such as to make it necessary that they should be repaired and repaved, and that the obligation resting upon
the present owners of adjacent lots to do this work should
now be enforced. Many of such owners have requested
that such covenants be commuted, and wholly released,
upon the payment by them of a certain sum per lot.
The natter will shortly be presented to the Commis
sioners of the Sinking Fund for their consideration, and
the adjustment of the basis of commutation, and application for releases should therefore be made at once.
They may be sent to the undersigned.
Dated New York City, August 7, 1888.

JOHN NEWTON,
Commissioner of Public Works.
