The Deputy Comptroller presented the following :

CITY OF NEW YORK, FINANCE DEPARTMENT, COMPTROLLER'S OFFICE, August 8, 1895.

Hon. ASHBEL P. FITCH, Comptroller :

SIR—The Commissioner of Public Works, in a communication dated August 5, 1895, to the Board of Estimate and Apportionment, states that on the report and requisition made by his predecessor on September 17, 1894, the Board "authorized and directed the Comptroller to issue bonds to the amount of \$215,000, as provided in chapter 43 of the Laws of 1892, for the

construction of a public building for the accommodation of the Seventh District Police Court and Prison, and of the District Court of the Eleventh Judicial District and other offices, the said amount to cover the contract for the erection of the building, Architect's fees and other incidental expenses."

He further says that "in the progress of the work it has been found necessary to provide by a supplementary contract for work to make thoroughly water-tight the boiler-room, coal-room and cellars of the building at an estimated expense of not exceeding \$10,000, and asks the Board to authorize and direct a further issue of said bonds to the amount of \$10,000 to enable this Department to execute the supplementary contract."

I have examined this building and am fully satisfied that it is necessary, in consequence of the water encountered in the cellar excavations, to adopt additional measures to those provided in the contract, in order to obtain dry floors and walls.

The plan adopted by the Department of Public Works to accomplish the desired result is as follows: "In the low or boiler room and stairway portion of the cellar the contractor will provide and set in place a 2-inch layer of Portland cement concrete, formed of one part Portland cement of the Dykerhoff, or some other brand equally satisfactory to the Architect, two parts clean, sharp sand and three parts broken stone. The stone not to be larger than 1 inch at its greatest diameter. This concrete to be troweled smooth on its upper surface.

"The contractor will also make drains and well so as to relieve the concrete of water, as far as possible, so that the surface can be made moderately dry to receive the water-proof lining. Then put over the floors of the boiler rooms and coal rooms niche for stairway, elevator wall and all other portions so indicated on the drawings and up the sides of the walls to a point 18 inches below the underside of the iron or steel beams overhead a water-proof lining, composed of six layers of roofing-felt solidly cemented together and coated with hot asphaltic cement.

"To protect the iron columns in the cellar carry this water-proof lining up around them 7 feet above the finished floor and put $\frac{3}{4}$ -inch boiler-iron sleeves 4 inches larger than the columns outside the water-proofing and fill in the space between the iron and the water proofing with Portland cement mortar. Over the 2-inch floor put eighteen (18) inches of Portland cement, formed of cement sand and broken stone, in the same proportions as before specified, inclosing a sufficient frame of 12-inch steel beams, each weighing forty (40) pounds per foot, to resist the upward pressure of the water.

"The last inch or top finish is to be made of one part Portland cement to two parts clean, sharp sand, which will be furnished and put on by the mason, except in front of the boilers, where a space 10 feet by 10 feet shall be finished by the contractor with best hard-burned North river bricks laid on edge and grouted with mortar formed of one-half Portland cement and one-half clean, sharp sand."

To protect the water-proofing on the walls brick walls are to be run up 16 inches, 12 inches, 8 inches and 4 inches thick to height of the water-proofing. All pipes, etc., passing through the water-proof to be made perfectly water-tight.

The balance of the cellar is supposed to be above water pressure, and if found to be so $1\frac{1}{2}$ inch of cement concrete is to be laid, on top of it 3-ply felt with asphaltic cement, turned up 5 inches on the walls, and on top of this the cement floor to be finished as per contract.

The inside of the walls is to be coated with Trinidad asphalt, so applied that it can be plastered upon.

But if this portion of the cellar is found to receive any pressure it is to be treated with sufficient additional weight of aforesaid concrete, etc., to render it absolutely water-proof.

The specifications for the above work was submitted to public letting and the one bid received was for \$9,100.

On this the estimate is based. I think the appropriation should be made as soon as possible, so that the work can be immediately prosecuted. It is necessary in the construction that these floors should be completed so that the various cellar constructions may be finished as the building advances.

Respectfully,

EUG. E. McLEAN, Engineer.

And offered the following:

Resolved, That, pursuant to chapter 43 of the Laws of 1892, the Board of Estimate and Apportionment hereby authorizes and directs the Comptroller to issue bonds in the name of the Mayor, Aldermen and Commonalty of the City of New York, to be known as "Consolidated Stock of the City of New York," as provided by section 132 of the New York City Consolidation Act of 1882, to an amount not exceeding ten thousand dollars (\$10,000), in addition to bonds heretofore authorized by this Board to be issued pursuant to said chapter 43 of the Laws of 1892; said bonds to bear interest at a rate not to exceed three per cent. per annum, and to be redeemable in not less than twenty years from the date of issue, and the proceeds thereof to be applied in payment of expenses to be incurred for the purposes mentioned in the communication of the Commissioner of Public Works to this Board, dated August 5, 1895.

Which was adopted by the following vote: Affirmative—The Mayor, Deputy Comptroller, President of the Department of Taxes and Assessments and Acting Counsel to the Corporation—4.

The Deputy Comptroller presented the following:

HEALTH DEPARTMENT, New York, August 21, 1895. To the Hon. Board of Estimate and Apportionment of the City of New York:

GENTLEMEN—At a meeting of the Board of Health of the Health Department, held August 20, 1895, the following resolution was adopted:

Resolved, That for the proper care and prevention of contagious disease in this city, and for the preservation of the health of the community, it is necessary to continue in the service of this Board some of the Medical Inspectors now temporarily in its service, and that the Board of Estimate and Apportionment be and is hereby respectfully requested to appropriate, pursuant to chapter 535, Laws of 1893, the sum of four thousand five hundred dollars, to pay the salaries of fifteen Medical Inspectors for three months, from August 31, 1895, at one hundred dollars per month.

A true copy.

And offered the following:

Resolved, That, pursuant to the provisions of chapter 535 of the Laws of 1893, the Board of Estimate and Apportionment hereby appropriates the sum of four thousand five hundred dollars (\$4,500) for the purpose of defraying the necessary expenses required to be incurred by the Board of Health for the preservation of the health of the community, as specified in its resolution relating thereto, adopted August 20, 1895.

Which was adopted by the following vote: Affirmative—The Mayor, Deputy Comptroller, President of the Department of Taxes and Assessments and Acting Counsel to the Corporation—4.

The following communication from the Acting Counsel to the Corporation was received: OFFICE OF THE COUNSEL TO THE CORPORATION, NEW YORK, August 9, 1895. CHARLES V. ADEE, Esq., Clerk, Board of Estimate and Apportionment:

SIR—I have received your letter of July 31, 1895, transmitting a copy of a communication from the Bronx River Valley Sewer Commission, which, as you inform me, was presented to the Board of Estimate and Apportionment at a meeting held July 31, 1895, and referred to me for examination and report.

By chapter 1021 of the Laws of 1895, authority was given to create a commission to inquire into the expediency of constructing a sewer and highway through the counties of New York and Westchester, along the Bronx river.

This Commission has been appointed; Mr. Fordham Morris is its President and Mr. James Wood is Secretary.

The principal object of this Commission is to inquire into the expediency of constructing a sewer through the Bronx river valley. It is required to prepare maps and surveys which, with its report and such proposed bills as it may recommend, shall be handed to the Legislature at the session of 1896.

The third section is as follows:

"The board of apportionment of the city of New York and the board of supervisors of the county of Westchester shall appropriate such sums of money, not exceeding ten thousand dollars, as the commissioners herein named may deem necessary to carry out the objects of this act; the county of Westchester shall be only liable for one-half of the expense thereof, and the city of New York for the remaining one-half thereof. The comptroller of the city of New York and the county treasurer of Westchester county shall pay the amount of such expenditures and such sums as may be certified by said commissioners to be necessary, on vouchers in form satisfactory to said comptroller and said county treasurer."

It appears that at a meeting of the Commission held June 9, 1895, Mr. Morris was appointed a committee to arrange with the Board of Estimate and Apportionment of the City of New York for an appropriation of \$5,000, or so much thereof as might be necessary under the act. Under date of July 9, 1895, Mr. Morris requested accordingly an appropriation of that amount.

The statute in question seems to be mandatory and the Board to be required to appropriate such sum of money, not exceeding \$5,000, as the Commissioners may deem necessary to carry out the objects of the act.

No provision is made in the act for the issuing of bonds to provide this money, and it would probably be necessary to pay the amounts out of the judgment fund, unless the people who may be employed are willing to wait for payment out of money provided in the final appropriations for the year 1896. It seems to me however, incumbent upon you by law to make the appropriation requested, and whether payment is made out of the judgment fund or out of the appropriations for next year is a matter of no practical importance.

Very respectfully,

WM. L. TURNER, Acting Counsel to the Corporation.

Referred to the Comptroller.

On motion, the Board adjourned.

E. P. BARKER, Secretary.

DEPARTMENT OF DOCKS.

TO CONTRACTORS (No. 511). PROPOSALS FOR ESTIMATES FOR DREDGING ON THE NORTH RIVER, BETWEEN THE BATTERY AND WEST THIRTY-FOURTH STREET.

ESTIMATES FOR DREDGING ON THE NORTH river will be received by the Board of Commissioners at the head of the Department of Docks, at the office of said Department, on Pier "A," foot of Battery place, North river, in the City of New York, until 12 o'clock M. of

TUESDAY, AUGUST 27, 1895,

at which time and place the estimates will be publicly opened by the head of said Department. The award of the contract, if awarded, will be made as soon as practicable after the opening of the bids.

Any person making an estimate for the work shall furnish the same in a sealed envelope to said Board, at said office, on or before the day and hour above named, which envelope shall be indorsed with the name or names of the person or persons presenting the same, the date of its presentation, and a statement of the work to which it relates.

The bidder to whom the award is made shall give security for the faithful performance of the contract, in the manner prescribed and required by ordinance, in the sum of Sixteen Thousand Dollars.

The Engineer's estimate of the quantities of material necessary to be dredged is as follows:

Mud dredging, not to exceed 200,000 cubic yards.
N. B.—Bidders are required to submit their estimates upon the following express conditions, which shall apply to and become a part of every estimate received: 1st. Bidders must satisfy themselves by personal examination of the location of the proposed dredging, and by such other means as they may prefer, as to the accuracy of the foregoing Engineer's estimate, and shall not at any time after the submission of an estimate dispute or complain of the above statement of quantities, nor assert that there was any misunderstanding in regard to the nature or amount of the work to be done.

2d. Bidders will be required to complete the entire work to the satisfaction of the Department of Docks, and in substantial accordance with the specifications of the contract. No extra compensation, beyond the amount payable for the work before mentioned, which shall be actually performed, at the price therefor, per cubic yard, to be specified by the lowest bidder, shall be due or payable for the entire work.

The work to be done under this contract is to be commenced within five days after receiving a notification from the Engineer-in-Chief of the Department of Docks that any part or portion of the dredging herein mentioned is required. The dredging to be done under this contract will be in slips or portions of slips between the Battery and West Thirty-fourth street, on the North river, and is to be done, from time to time, and in such quantities and at such times as may be directed by the Engineer. And all the work under this contract is to be fully completed on or before the 1st day of January, 1896.

The damages to be paid by the contractor for each day that the contract, or any part thereof that may be ordered or directed by the Engineer, may be unfulfilled after the time fixed for the fulfillment thereof has expired are, by a clause in the contract, determined, fixed and liquidated at Fifty Dollars per day.

Bidders will state in their estimates a price, per cubic yard, for doing such dredging, in conformity with the approved form of agreement and the specifications therein set forth, by which price the bids will be tested. This price is to cover all expenses of every kind involved in or incidental to the fulfillment of the contract, including any claim that may arise through delay, from any cause, in the performing of the work thereunder.

Bidders will distinctly write out, both in words and in figures, the amount of their estimates for doing this work.

The person or persons to whom the contract may be awarded will be required to attend at this office with the sureties offered by him or them, and execute the contract within five days from the date of the service of a notice to that effect; and in case of failure or neglect so to do, he or they will be considered as having abandoned it, and as in default to the Corporation; and the contract will be re-advertised and relet, and so on until it be accepted and executed.

Bidders are required to state in their estimates their names and places of residence; the names of all persons interested with them therein; and if no other person be so interested, the estimate shall distinctly state that fact; also, that the estimate is made without any connection with any other person making any estimate for the same work, and that it is in all respects fair, and without collusion or fraud; and also that no member of the Common Council, head of a department, chief of a bureau, deputy thereof or clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof; which estimate must be verified by the oath, in writing, of the party making the estimate, that the several matters stated therein are in all respects true. Where more than one person is interested, it is requisite that the verification be made and subscribed to by all the parties interested.

Each estimate shall be accompanied by the consent, in writing, of two householders or freeholders of the City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person or persons making the estimate, they will, upon its being so awarded, become bound as his or their sureties for its faithful performance; and that if said person or persons shall omit or refuse to execute the contract, they will pay to the Corporation of the City of New York any difference between the sum to which said person or persons would be entitled upon its completion and that which said Corporation may be obliged to pay to the person to whom the contract may be awarded at any subsequent letting; the amount in each case to be calculated upon the estimated amount of the work to be done by which the bids are tested. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in the City of New York, and is worth the amount of security required for the completion of the contract over and above his liabilities as bail, surety and otherwise; and that he has offered himself as a surety in good faith and with the intention to execute the bond required by law. The adequacy and sufficiency of the security offered will be subject to approval by the Comptroller of the City of New York, after the award is made and prior to the signing of the contract.

No estimate will be received or considered unless accompanied by either a certified check upon one of the State or National banks of the City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of security required for the faithful performance of the contract. Such check or money must not be included in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the estimate-box; and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited to and retained by the City of New York as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid the amount of his deposit will be returned to him.

Bidders are informed that no deviation from the specifications will be allowed, unless under the written instructions of the Engineer-in-Chief.

No estimate will be accepted from, or contract awarded to, any person who is in arrears to the Cor-

of Docks.
Dated NEW YORK, July 12, 1895.

N. B.—As the above-mentioned quantities, though stated with as much accuracy as is possible, *in advance*, are approximate only, bidders are required to submit their estimates upon the following express conditions, which shall apply to and become a part of every estimate received:

1st. Bidders must satisfy themselves by personal examination of the location of the proposed work, and

by such other means as they may prefer, as to the accuracy of the foregoing Engineer's estimate, and shall not at any time after the submission of an estimate, dispute or complain of the above statement of quantities, nor assert that there was any misunderstanding in regard to the nature or amount of the work to be done.

ad. Bidders will be required to complete the entire work to the satisfaction of the Department of Docks, and in substantial accordance with the specifications of the contract and the plans therein referred to. No extra compensation, beyond the amount payable for the work before mentioned, which shall be actually performed, at the price therefor to be specified by the lowest bidder, shall be due or payable for the entire work.

The work to be done under the contract is to be commenced within five days after the date of the contract, and all the work to be done under the contract is to be fully completed on or before the day of August 27, 1895, and the damages to be paid by the contractor for each day that the contract, or any part thereof, may be unfulfilled after the time fixed for the fulfillment thereof has expired, are, by a clause in the contract, determined, fixed and liquidated at Fifty Dollars per day.

All the old material to be removed under this contract by the contractor will be relinquished by the contractor to the Department of Docks.

All surplus material excavated will be removed by the contractor.

Where the City of New York owns the wharf, pier or bulkhead, and the same is not leased, at which materials under this contract are to be delivered, no charge will be made to the contractor for wharfage upon vessels conveying said materials.

Bidders will state in their estimates a price for the whole of the work to be done, in conformity with the approved form of agreement and the specifications therein set forth, by which price the bids will be tested. This price is to cover all expenses of every kind involved in or incidental to the fulfillment of the contract, including any claim that may arise through delay, from any cause, in the performing of the work thereunder. The award of the contract, if awarded, will be made to the bidder who is the lowest for doing the whole of the work, and whose estimate is regular in all respects.

Bidders will distinctly write out, both in words and in figures, the amount of their estimates for doing this work.

The person or persons to whom the contract may be awarded will be required to attend at this office with the sureties offered by him or them, and execute the contract within five days from the date of the service of a notice to that effect; and in case of failure or neglect so to do, he or they will be considered as having abandoned it, and as in default to the Corporation; and the contract will be readvertised and relet, and so on until it be accepted and executed.

Bidders are required to state in their estimates their names and places of residence; the names of all persons interested with them therein; and if no other person be so interested, the estimate shall distinctly state the fact; also, that the estimate is made without any connection with any other person making an estimate for the same work, and that it is in all respects fair and without collusion or fraud; and also that no member of the Common Council, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof, which estimate must be verified by the oath, in writing, of the party making the estimate, that the several matters stated therein are in all respects true. *Where more than one person is interested, it is requisite that the verification be made and subscribed to by all the parties interested.*

Each estimate shall be accompanied by the consent, in writing, of two householders or freeholders in the City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person or persons making the estimate, they will, upon its being so awarded, become bound as his or their sureties for its faithful performance; and that if said person or persons shall omit or refuse to execute the contract, they will pay to the Corporation of the City of New York any difference between the sum to which said person or persons would be entitled upon its completion, and that which said Corporation may be obliged to pay to the person to whom the contract may be awarded at any subsequent letting; the amount, in each case, to be calculated upon the estimated amount of the work to be done by which the bids are tested. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of the contract over and above all his debts of every nature, and over and above his liabilities as bail, surety and otherwise; and that he has offered himself as surety in good faith and with the intention to execute the bond required by law. The adequacy and sufficiency of the security offered will be subject to approval by the Comptroller of the City of New York after the award is made and prior to the signing of the contract.

No estimate will be received or considered unless accompanied by either a certified check upon one of the State or National banks of the City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the security required for the faithful performance of the contract. Such check or money must not be inclosed in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the estimate-box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited to and retained by the City of New York as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid, the amount of his deposit will be returned to him.

Bidders are informed that no deviation from the specifications will be allowed, unless under the written instructions of the Engineer-in-Chief.

No estimate will be accepted from, or contract awarded to, any person who is in arrears to the Corporation, upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

THE RIGHT TO DECLINE ALL THE ESTIMATES IS RESERVED IF DEEMED FOR THE INTEREST OF THE CORPORATION OF THE CITY OF NEW YORK.

Bidders are requested, in making their bids or estimates, to use the blank prepared for that purpose by the Department, a copy of which, together with the form of the agreement, including specifications, and showing the manner of payment for the work, can be obtained upon application therefor at the office of the Department.

CHARITIES AND CORRECTION.

NEW YORK, August 22, 1895.
MATERIALS AND WORKMANSHIP REQUIRED FOR THE MEDICAL BATH AT BELLEVUE HOSPITAL, NEW YORK CITY.

SEALED BIDS OR ESTIMATES FOR THE aforesaid work and materials, in accordance with the specifications and plans, will be received at the office of the Department of Public Charities and Correction, No. 66 Third avenue, in the City of New York, until Wednesday, September 4, 1895, until 10 o'clock A. M. The person or persons making any bid or estimate shall furnish the same in a sealed envelope, indorsed "Bid or Estimate for the Medical Bath at Bellevue Hospital," and with his or their name or names, and the date of presentation, to the head of said Department, at the said office, on or before the day and hour above named, at which time and place the bids or estimates received will be publicly opened by the President of said Department and read.

THE BOARD OF PUBLIC CHARITIES AND CORRECTION RESERVES THE RIGHT TO REJECT ALL BIDS OR ESTIMATES IF DEEMED TO BE FOR THE PUBLIC INTEREST, AS PROVIDED IN SECTION 64, CHAPTER 410, LAWS OF 1882.

No bid or estimate will be accepted from, or contract awarded to, any person who is in arrears to the Corporation upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

The award of the contract will be made as soon as practicable after the opening of the bids.

Any bidder for this contract must be known to be engaged in and well prepared for the business, and must have satisfactory testimonials to that effect; and the person or persons to whom the contract may be awarded will be required to give security or the performance of the contract by his or their bond, with two sufficient sureties, each in the penal amount of FIVE THOUSAND (\$5,000) DOLLARS.

Each bid or estimate shall contain and state the name and place of residence of each of the persons making the same; the names of all persons interested with him or them therein; and if no other person be so interested, it shall distinctly state that fact; also that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud; and that no member of the Common Council, head of a department, chief of a bureau, deputy thereof or clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in the supplies to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate, that the several matters stated therein are in all respects true. Where more than one person is interested, it is requisite that the verification be made and subscribed by all the parties interested.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in the City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person making the estimate, they will, upon its being so awarded, become bound as his sureties for its faithful performance; and that if he shall omit or refuse to execute the same, they will pay to the Corporation any difference between the sum to which he would be entitled on its completion and that which the Corporation may be obliged to pay to the person or persons to whom the contract may be awarded at any subsequent letting; the amount in each case to be calculated upon the estimated amount of the supplies by which the bids are tested. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of this contract over and above all his debts of every nature, and over and above his liabilities, as bail, surety or otherwise; and that he has offered himself as a surety in good faith and with the intention to execute the bond required by section 12 of chapter 7 of the Revised Ordinances of the City of New York, if the contract shall be awarded to the person or persons for whom he consents to become surety. The adequacy and sufficiency of the security offered is to be approved by the Comptroller of the City of New York.

No bid or estimate will be received or considered unless accompanied by either a certified check upon one of the State or National banks of the City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the security required for the faithful performance of the contract. Such check or money must not be inclosed in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the estimate-box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same, within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited to and retained by the City of New York as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid, the amount of his deposit will be returned to him.

Should the person or persons to whom the contract may be awarded neglect or refuse to accept the contract within five days after written notice that the same has been awarded to his or their bid or proposal, or if he or they accept but do not execute the contract and give the proper security, he or they shall be considered as having abandoned it, and as in default to the Corporation, and the contract will be readvertised and relet as provided by law.

Bidders will write out the amount of their estimate in addition to inserting the same in figures.

Payment will be made by a requisition on the Comptroller, in accordance with the terms of the contract.

The form of the contract, including specifications, and showing the manner of payment, can be obtained at the office, No. 66 Third avenue; and bidders are cautioned to examine each and all of their provisions carefully, as the Board of Public Charities and Correction will insist upon their absolute enforcement in every particular.
