No. 543.

Hillside Civic Association, New York, April 21, 1914.

The Board of Aldermen, New York City:

Gentlemen—At a meeting of our association it was voted to support the recent draft of an ordinance requiring owners of vacant lots to remove the snow promptly from their sidewalks, or suffer a penalty for non-compliance therewith. The author of the above resolution is Mr. Jacob Krackow, of No. 1225 59th st., Brooklyn. Will you kindly advise me as to any hearing to be held by your Board on this matter and also as to any other action it may take in the premises, and oblige, yours very truly,

TIMOTHY WALSH, Secretary.

No. 544.

At a regular monthly meeting of the Woodstock Taxpayers' Association, held at the Woodstock Library, 160th street, near Forest ave., The Bronx, New York City, on the 23d day of April, 1914, the following resolutions were adopted:

"Resolved, That this association, consisting of property owners and business men of the central section of the Borough, does hereby put itself on record as unalterably opposed to the Robitzek resolution now pending in the Board of Aldermen proposing to change the names of streets surrounding Borough Hall to Municipal Square North, Municipal Square East, Municipal Square South and Municipal Square West; and be it further

"Resolved, That we consider this resolution as an effort upon the part of one locality in The Bronx to profit at the expense of other localities, and it is our opinion that the ultimate object of the proposed change of names is to place the locality in the neighborhood of Borough Hall in an advantageous position in the matter of the selection of a civic centre for the County; and be it further

"Resolved, That the selection of a civic centre should not be governed by real estate interest but by reasons of a more disinterested nature, as, for instance, facility of access and convenience to the entire community; and, in our opinion, the vicinity of Borough Hall does not present such advantages; but, on the contrary, is entirely unsuitable for a civic centre; and be it further

"Resolved, That copies of these resolutions be sent to the Board of Aldermen, the press and other civic bodies in The Bronx, and that the delegation designated at this meeting present these resolutions in person.

EDWARD ROWAN; President.

The Horse Aid Society, Incorporated, New York, April 25, 1914.

WILLIAM A. MALLETT, Bronx Manager, 117 Westchester Square, Bronx, New York City,

To the Honorable Board of Aldermen, City Hall, New York City:

Gentlemen—We would urgently request that your honorable Board make an appropriation of, say, $25,000, for the purpose of erecting standing hydrants on the curbs to replace the present unsanitary watering troughs in our City. These hydrants should be of the latest design, with automatic shut-off, which will save millions of gallons of water. They will not freeze up in winter, nor will they carry the much dreaded disease known as glanders. All drivers should be compelled to carry their own pails to water from, and by having watering equipment of the type mentioned above, the lives of many of our horses will be saved, also thousands of dollars to the horse owners. The horse is without doubt the greatest and best of animals, which we cannot get along without, and why not save him and protect him all we can?

Hoping that you will give this matter your favorable and immediate consideration before the hot weather sets in, I remain, very truly yours,

WILLIAM A. MALLETT, Manager.

No. 550.

Department of Public Charities of The City of New York, Municipal Building, April 21st, 1914.

To the Honorable the Board of Aldermen:

Gentlemen—We would respectfully request that authority be granted to this Department to purchase, without public letting, fresh fruit and vegetables in the open market to an amount not exceeding eight thousand dollars ($8,000). The funds to purchase these fruits and vegetables are to be taken from the allowance to this Department for food supplies in the budget for 1914, Code No. 1982.

In this connection I might state that Bellevue has been allowed the same privilege and I understand the results have been very satisfactory. Enclosed you will find list and approximate quantities of the fruits and vegetables which this Department wishes to purchase.

Trusting that the resolution in the enclosed form, or some other suitable form, will be adopted by the Board of Aldermen at an early date, as we think the Department can obtain better supplies at less cost by being allowed to buy in the open market than by contract, I am respectfully yours,

JOHN A. KINGSBURY, Commissioner.

Resolved, That, pursuant to section 419 of the Greater New York Charter, the Commissioner of the Department of Public Charities of the City of New York be and is hereby authorized to purchase, without public letting, for the use of said Department, fresh fruits and vegetables, the total expense of which will not exceed the sum of eight thousand dollars ($8,000).

Hon. Board of Aldermen, City of New York, City:

No. 553.

City of New York, President of the Borough of Manhattan, Municipal Building, April 22, 1914.

Hon. GEORGE McANENY, President of the Board of Aldermen:

Dear Sir—Application is hereby made for an issue of special revenue bonds, in the amount of $25,000, for the purpose of additional repairs to Washington Market, with a view of increasing the floor space in the building.

The scheme proposed by the architect under whose supervision the general repairs are now progressing appears to be feasible and economical, and it is believed will substantially increase the revenue of the building by added floor space which will be available for leasing.

A brief detail of the proposed work by the architect now in charge of the general repairs is attached herewith. Very truly yours,

MARCUS M. MARKS, President, Borough of Manhattan.

Dr. W. R. PATTERSON, Assistant Commissioner Public Works, Municipal Building, Manhattan:

Dear Sir—In regard to increasing the floor space at Washington Market, I would advise that it is entirely feasible to do this, both from a structural and economic point of view.

First—*From the Structural Point of View.* Washington Market has but a single floor. This is at about the level of the surrounding streets. The existing building is, however, sufficiently high and the plans on file indicate sufficiently extensive foundations to permit of the building of a mezzanine floor, about thirty feet wide, between the exterior wall and the next row of column along three sides and part of the fourth side of the fourth side of the building. And to do this without any serious structural change or the adding of new foundations.

Such a mezzanine would have a clear height of, at least, ten feet, while on the floor below there would be a clear height of about twelve feet. No objection can be found on the ground of either lighting or ventilation, while the refrigeration problem would be simplified. The appearance of the exterior would remain unchanged and the interior would, on the whole, be improved.

Second—*From the Economic Point of View.* There are upwards of forty-two thousand square feet of floor space, of which about twenty-four thousand—i. e., that not occupied by aisles—brought in a rental in 1912 the sum of $51,426.68. The mezzanine floor I have suggested above would add about fifteen thousand square feet or more than one-third to the former area. For many purposes for which floor space has been used, such as large refrigerators, some offices, etc., the added space would be as valuable as any. If instead of using this mezzanine for such purposes, thus making more space on the main floor available for selling, it was determined to use any part of the mezzanine floor for the latter purpose, it would be feasible to give easy access by means of a ramp.

I estimate that this mezzanine could be built, of substantial and pleasing form, for twenty-five thousand (25,000) dollars.

In 1912, Washington Market, with a gross area of forty-two thousand square feet, paid a rental, on this gross area, of one dollar and twenty-two cents ($1.22) per square foot, while operating expenses and maintenance amounted to twenty-five cents per square foot or a rental, less operating expenses and maintenance, of ninety-seven cents per square foot.

On a proportionate basis, the fifteen thousand square feet, which it is proposed to add, would pay a gross rental of $18,300 and a rental, less operating expenses and maintenance, of $14,550. Thus the mezzanine would pay interest on the investment and return the capital invested in two years, while the net income to the City, of $14,550 a year, would still continue.

Viewing the situation as a whole, we now have a building assessed at seventy-five thousand dollars, on land assessed at nine hundred and fifty thousand dollars. In other words, the improvement is not in proportion to the land value. This fact accounts for the very high return from a small additional investment on the building, as described above.

Attached hereto is data obtained from the Comptroller's office, which show the valuation, operating expenses and rental for the year 1912.

Yours very truly, CHARLES H. HIGGINS.

No. 554.

City of New York, President of the Borough of Manhattan, Municipal Building, April 22nd, 1914.

Hon. GEORGE McANENY, President of the Board of Aldermen:

Dear Sir—Request is hereby made for an issue of special revenue bonds in the amount of $12,500, for repairs to the free floating baths, which are necessary before they can be placed in commission for the use of the public during the summer.

When the Budget for this year was prepared, the item for repairs to the free floating baths was omitted, as it was assumed that the baths would not be used, owing to the objections raised by the Department of Health. Since that time, however, the Department of Health has modified its objections sufficiently to permit the use of the adjacent waters for bathing, and the free baths may again be used.

Each year it has been necessary to make numerous repairs to the baths after operation during the summer and storage during the winter, so that the present necessity is not a new one.

Your early consideration is respectfully requested. Very truly yours,

MARCUS M. MARKS, President, Borough of Manhattan.

City of New York, President of the Borough of Manhattan, Municipal Building, April 23, 1914.

Hon. GEORGE McANENY, President, Board of Aldermen:

Dear Sir—Several days ago the carriageway of 33d st., west of 5th ave., caved in through settlement, causing a break in a 12-inch and a 6-inch water main, thereby washing away a large portion of the street between the curbs.

Upon examination of the street soon after, it was found that a part of the sewer running through the street had been seriously damaged, and orders were immediately issued for repairs.

It has now developed during the progress of the work that much greater damage has been done, which will necessitate the reconstruction of about 120 linear feet of 3 by 2 foot brick sewer, and the restoration of the street pavement when the repairs are completed.

In view of the extreme emergency of the case, which requires the issuance of open market orders for the work that is to be done, I respectfully request permission from your honorable Board to contract for the work without public letting, the cost of which is estimated at $2,000.

Your early consideration will oblige, yours very truly,

MARCUS M. MARKS, President, Borough of Manhattan.

Which was referred to the Committee on Public Letting.

The President laid before the Board the following communication from the Commissioner of Bridges:

No. 556.

Department of Bridges, City of New York, Municipal Building, Manhattan, New York, April 21, 1914.

To the Honorable the Board of Aldermen of The City of New York:

Gentlemen—As per your resolution of March 17, 1914, requesting the Commissioner of Bridges to submit any and all plans of elevators at the Queensboro Bridge—

"Resolved, That the Commissioner of Bridges be and he is hereby requested to submit to the Board of Aldermen, at as early a day as practicable, any and all plans showing the construction of elevators from Blackwells Island to the span of the Queensboro Bridge."

—I am sending herewith ten drawings showing the elevators designed for the Queensboro Bridge.

For your information I am sending herewith a copy of a letter dated April 17, 1914, from Commissioner John A. Kingsbury, of the Department of Public Charities, in which he states that the elevators as designed, in accordance with the request of former Commissioner Drummond of the Department of Public Charities, are not suitable for the uses of his Department. Commissioner Kingsbury, as you will note, wishes to have elevators erected to accommodate ambulances. This will mean that the present appropriation of $107,000 will be insufficient to install these elevators.

Yours truly, F. J. H. KRACKE, Commissioner.

Department of Public Charities of The City of New York, Municipal Building, April 17, 1914.

Hon. F. J. H. KRACKE, Commissioner, Department of Bridges, Municipal Building, New York City:

Dear Commissioner Kracke—Plans prepared by your Department for the passenger elevators on Blackwell's Island Bridge have been transmitted to this Department. I understand that these plans were made in accordance with the request of this Department, made in 1913 by former Commissioner Michael J. Drummond.

As I have stated to you verbally we desire that these elevators shall be of dimensions and design suitable for carrying ambulances. We accordingly return these plans with the request that you redesign the elevators so that they will be of such dimensions and strength as to carry ambulances and at the same time passengers, and that the space now occupied by the trolley tracks outside of the trusses be planed over, so that the ambulances may run in this space and that the platforms about the elevators be of such dimensions as to allow ambulances to turn on to the platforms and wait for the elevators.

I wish to re-emphasize what I have stated to you verbally in connection with this matter that New York City is one of the most fortunate cities in the United States in having a large island practically in its centre on which may be placed hospitals. Acute service cannot be maintained on this island unless the island be made very accessible by means of the bridge which crosses it. The usefulness of this island is primarily dependent upon its accessibility and it is of the utmost importance—not only that the elevators be built, but that they be of such dimensions as to carry ambulances, so that the injured persons may arrive at the hospital without such repeated transfers as are now necessary in connection with the ferryboat service to the island.

I sincerely hope you may find it feasible to plan and install the larger elevators I am requesting and also to provide the means of access by planking over the space outside of the trusses. Very truly yours,

JOHN A. KINGSBURY, Commissioner.

No. 557.

Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, April 24th, 1914.

To the Honorable the Board of Aldermen, City of New York:

Gentlemen—I would respectfully ask that you request the Board of Estimate and Apportionment, in the manner provided in section 188, subdivision 8, of the City Charter, to authorize the Comptroller to issue special revenue bonds in the sum of $10,975.11, to defray the cost of moving the Department of Finance to the Municipal Building, and for additional equipment made necessary thereby. Of this amount, $4,106.93 is required to replenish "Account 92, Department of Finance, Purchase of Equipment," for equipment purchased.

There is further required to replenish "Account No. 99, Department of Finance, General Plant Service," the sum of $6,868.18, expended in moving.

Trusting that this matter will receive your early and favorable consideration, I am

Very truly yours, ALEX. BROUGH, Deputy and Acting Comptroller.

No. 558.

Board of Education, Park Ave. and 59th St., New York, April 23, 1914.

Hon. GEORGE McANENY, President, Board of Aldermen:

Dear Sir—I have the honor to transmit herewith certified copies of reports and resolutions adopted by the Board of Education at a meeting held on April 22, 1914, as summarized below:

1. Requesting the Board of Aldermen to adopt a resolution requesting the Board of Estimate and Apportionment to authorize the issue of special revenue bonds to the amount of $500 for the purpose of paying to Miss Nathalia Boniface, as a Statistician, the difference between salary at the rate of $1,200 and at the rate of $1,800 per annum from March 1, 1914, to December 31, 1914.

2. Recommending that a suitable exhibit of the work of the public schools of The City of New York be made at the Panama-Pacific Exposition to be held in San Francisco, Cal., in the year 1915, and requesting the Board of Aldermen to adopt a resolution requesting the Board of Estimate and Apportionment to authorize the issue of special revenue bonds to the amount of $30,000 to defray the necessary funds.

3. Requesting the Board of Aldermen to adopt a resolution requesting the Board of Estimate and Apportionment to authorize the issue of special revenue bonds to the amount of $2,820 for the purpose of paying salaries of additional Elevator Attendants, Cleaners, etc. Respectfully yours,

A. E. PALMER, Secretary, Board of Education.

To the Board of Education:

The Committee on Finance respectfully reports that it is in receipt of the following communication from the Secretary of the Board:

"April 20, 1914.

"I beg to inform you that the Committee on Bylaws and Legislation, at its meeting held on April 17, 1914, considered your communication under date of April 13, reading as follows:

"'I am in receipt of a communication from Secretary Palmer enclosing a certified copy of a preamble and resolution adopted by the Board of Education on March 25, 1914, relative to recognizing Nathalia Boniface as a Statistician and fixing her salary at $1,800 per annum, to date from March 1, 1914, subject to the execution of a release of all claims for arrears of salary down to March 1, 1914.

"'In reference to this matter I beg to call your attention to the fact that no provision was made in the salary fund for the office of the City Superintendent of Schools with which to pay the claim in question. It therefore seems necessary to request the Board of Estimate and Apportionment to issue revenue bonds for the purpose of paying to Miss Boniface the difference between the salary rates, $1,200 and $1,800, from March 1, 1914, to December 31, 1914. This amounts to $500—ten months at $600 per annum. If this course meets with the approval of your Committee, kindly advise me to that effect, and I will have a resolution prepared for presentation at the next meeting of the Board of Education.'

"It was ordered that you be authorized to take the necessary steps to the end that revenue bonds be issued by the Board of Estimate and Apportionment for the purpose of paying to Miss Boniface the difference between salary at the rate of $1,200 and at the rate of $1,800 per annum, from March 1, 1914, to December 31, 1914,"

—and submits for adoption the following resolution:

Resolved, That the Board of Aldermen be and it is hereby respectfully requested to adopt a resolution requesting the Board of Estimate and Apportionment to authorize the issue of special revenue bonds to the amount of five hundred dollars ($500), pursuant to the provisions of subdivision 8 of section 188 of the Revised Charter, for the purpose of paying to Miss Boniface the difference between salary at the rate of $1,200 and at the rate of $1,800 per annum, from March 1, 1914, to December 31, 1914; and that the Board of Estimate and Apportionment be and it is hereby respectfully requested to authorize such issue upon the request of the Board of Aldermen.

No. 560.

The Committee on Finance respectfully reports that the Committee on Care of Buildings has requested that steps be taken to provide funds for the following items, no provision therefore having been made in the Budget for 1914:

One additional Elevator Attendant for the Wadleigh High School, with compensation at the rate of $750 per annum, as there are at present two passenger elevators and only one Attendant.

One additional male Cleaner for Public School 79, Queens, with compensation at the rate of $480 per annum.

One additional male Cleaner for the Jamaica High School, with compensation at the rate of $480 per annum.

One additional Elevator Attendant for the Washington Irving High School, with compensation at the rate of $750 per annum, to act as a relief man on account of the long hours this building is in use for extra activities.

One additional Elevator Attendant for the Morris High School, with compensation at the rate of $750 per annum.

One Elevator Attendant for the Bushwick High School, with compensation at the rate of $750 per annum.

In addition to the above it was ordered that the issuance of special revenue bonds be asked for in order to increase the compensation of the Janitor of Public School 15, Queens, for the care of two portable buildings on the grounds of said school, from $10 to $25 per month, taking effect January 1, 1914.

The following resolution is, therefore, offered for adoption:

No. 563.

City of New York, Board of Estimate and Apportionment, Office of the Secretary, Municipal Building, April 28, 1914.

To the Honorable the Board of Aldermen:

Gentlemen—I transmit herewith certified copies of four resolutions adopted by the Board of Estimate and Apportionment April 24, 1914, relative to the establishment of grades of positions in the various departments as follows:

	Department and Position.	Rate of Compensation.	Incumbents.
Cal. No. 27.	Correction—Stenographer and Typewriter, per annum	$900 00	1
Cal. No. 28.	Surrogate's Court, Queens County—Custodian, per diem	2 50	2

I also transmit copies of reports of the Committee on Salaries and Grades relative thereto. Yours very truly, JOSEPH HAAG, Secretary.

Resolved, That the Board of Estimate and Apportionment, pursuant to the provisions of section 56 of the Greater New York Charter, hereby recommends to the Board of Aldermen the estiblishment in the office of the Department of Correction of the grade of position in addition to those heretofore established as follows:

A true copy of resolution adopted by the Board of Estimate and Apportionment, April 24, 1914. JOSEPH HAAG, Secretary.

City of New York, Board of Estimate and Apportionment, Bureau of Standards, April 15, 1914.

To the Board of Estimate and Apportionment:

Gentlemen—On April 1, 1914, the Commissioner of Correction requested the establishment of certain grades of positions. On April 13, 1914, the request was orally amended to read as follows:

Stenographer and Typewriter at $900 per annum for one incumbent.

The Bureau of Standards reports thereon as follows:

"At present there is no Stenographer and Typewriter attached to the office of the Commissioner. Part of the stenographic work of this office is performed by a Clerk attached to the Bureau of Audit and Accounts, which interferes with the routine work of this Bureau. There is a Typewriting Copyist temporarily assigned to the Commissioner's office by the Tenement House Department to assist in the work.

"The Commissioner states that it will be necessary to employ an experienced Stenographer to fulfill the requirements of the position. It is proposed to eliminate the position of a Clerk at $900 per annum, now vacant, in order to provide for the salary of the proposed position.

"No increase in the total sum allowed for salaries in the Budget for 1914 is involved."

In view of the above facts we recommend the adoption of the attached resolution granting the request. Respectfully,

WM. A. PRENDERGAST, Comptroller; GEORGE McANENY, President, Board of Aldermen, Committee on Salaries and Grades.

No. 564.

Title.	Rate Pier Diem.	Number of Incumbents.

The Bureau of Standards reports thereon as follows:

"The purpose is to provide for the Court two temporary Custodians, at $3 per day, and two temporary Watchmen, at $2.50 per day. The Surrogate's Court is to be temporarily removed to the Jamaica Post Office building during alterations in the present quarters of the Surrogate's Court. On account of the removal it will be necessary to appoint two temporary Custodians to take charge of the record rooms in the temporary quarters and also to employ two Watchmen to guard the office and records between the period of closing in the evening and the opening in the morning. In March, 1914, the Board of Estimate and Apportionment adopted a resolution approving a resolution of the Board of Aldermen, dated February 7, 1914, pursuant to subdivision 8 of section 188 of the Greater New York Charter, authorizing $2,400 special revenue bonds to provide funds to meet the expenses of the employment of temporary Custodians and Watchmen for the Surrogate's Court of Queens County.

"The request should be granted, limiting the compensation of Custodian to $2.50 per day."

In view of the above we recommend the adoption of the attached resolution granting the request with the limitation stated.

Respectfully, WM. A. PRENDERGAST, Comptroller; GEORGE McANENY, President, Board of Aldermen, Committee on Salaries and Grades.

No. 565.

Resolved, That the Board of Estimate and Apportionment, pursuant to the provisions of section 56 of the Greater New York Charter, hereby recommends to the Board of Aldermen the establishment in the office of the Mayor of the following grades of positions in addition to those heretofore established:

Title.	Rate Per Annum.	Number of Incumbents.
Stenographer and Typewriter	$1,350 00	2
Stenographer and Typewriter	1,200 00	2
Stenographer and Typewriter	1,050 00	2
Stenographer and Typewriter	900 00	2
Stenographer and Typewriter	750 00	2
Clerk	1,650 00	1
Clerk	1,200 00	1
Clerk	900 00	2
Clerk	750 00	2
Clerk	600 00	2
Clerk	480 00	2
Telephone Operator	1,200 00	1

A true copy of resolution adopted by the Board of Estimate and Apportionment, April 24, 1914. JOSEPH HAAG, Secretary.

City of New York, Board of Estimate and Apportionment, Bureau of Standards, April 24, 1914.

To the Board of Estimate and Apportionment:

Gentlemen—On February 10, 1914, the Mayor requested the establishment in his office of the following grades of positions:

Title.	Rate.	Number of Incumbents.
Stenographer and Typewriter	$1,350 00	2
Stenographer and Typewriter	1,200 00	2
Stenographer and Typewriter	1,050 00	2
Stenographer and Typewriter	900 00	2
Stenographer and Typewriter	750 00	2
Clerk	1,650 00	1
Clerk	1,200 00	1
Clerk	900 00	2
Clerk	750 00	2
Clerk	600 00	2
Clerk	480 00	2
Telephone Operator	1,200 00	1

The Bureau of Standards reports thereon as follows:

"The requested grades of Stenographer and Typewriter and Clerk are for the purpose of establishing intermediate grades of these positions. At present the lowest grades in the Mayor's office under these titles are $1,500 and $1,050 respectively. The present request involves no contemplated increase in salaries nor in force.

"The purpose of the request for the grade of Telephone Operator at $1,200 is to increase the salary of Mr. Arthur H. Allen from $1,050 per annum. Although Mr. Allen's title is Telephone Operator, his actual duties include many activities in addition to the manual operation of the switchboard. He does clerical work, is entrusted with communications of a confidential nature and performs services requiring tact and special training. The Telephone Operator in the Mayor's office is seldom relieved of duty before seven or eight o'clock in the evening and on Saturday afternoons is usually detained until three and sometimes six o'clock. Mr. Allen is on duty continuously during the day, including the hour usually allowed for lunch. The duties of the Telephone Operator in the Mayor's office are exceptional, embracing conditions and activities which are not perhaps duplicated in any other department in the City."

In view of the foregoing facts we think the case of the Telephone Operator in the Mayor's office is exceptional and recommend the adoption of the attached resolution granting the request. We do not wish to be understood as suggesting or approving a rate of $1,200 per annum for Telephone Operators generally; we pass only on the merits of this individual case.

Respectfully, WM. A. PRENDERGAST, Comptroller; GEORGE McANENY, President, Board of Aldermen; Committee on Salaries and Grades.

No. 566.

Resolved, That the Board of Estimate and Apportionment, pursuant to the provisions of section 56 of the Greater New York Charter, hereby recommends to the Board of Aldermen the establishment in the office of the President of the Borough of Manhattan of the grade of position, in addition to those heretofore established, as follows:

Title.	Rate Per Annum.	Number of Incumbents.
Typewriter Accountant	$1,200 00	1

A true copy of resolution adopted by the Board of Estimate and Apportionment April 24, 1914. JOSEPH HAAG, Secretary.

City of New York, Board of Estimate and Apportionment, Bureau of Standards, April 15, 1914.

To the Board of Estimate and Apportionment:

Gentlemen—On February 28, 1914, the President of the Borough of Manhattan requested the establishment in his office of certain grades of positions. On April 11, 1914, the request was verbally modified to read as follows:

Title.	Salary.	Incumbents.
Typewriter Accountant	$1,200 00	1

The Bureau of Standards reports thereon as follows:

"The grade is requested to enable the Department to engage the services of a man qualified to operate an Elliott-Fisher machine. Heretofore a Stenographer and Typewriter at $1,350 has performed this work, but the man so employed has been transferred to the Mayor's office. Upon the establishment of the grade it is proposed to transfer a Typewriter Accountant at that rate. The rate of compensation is in keeping with the tentative appraisal made of the value of the kind of work to be done."

In view of the above facts we recommend the adoption of the attached resolution granting the request. Respectfully,

WM. A. PRENDERGAST, Comptroller; GEORGE McANENY, President, Board of Aldermen, Committee on Salaries and Grades.

Which were severally referred to the Committee on Salaries and Offices.

REPORTS OF SPECIAL COMMITTEES.

The President, on behalf of the Special Committee appointed to deal with matters before the Mayor and Governor involving charter rights of the Board of Aldermen, reported that the bill in relation to traffic regulations had already been acted upon by the Governor before the action of this Board. The bill in relation to the Municipal Explosives Commission was still before him, but in the case of each of the three measures to which exception had been taken it was pointed out by the Mayor's office that there were requirements beyond the power of the Board of Aldermen, in the opinion of the Mayor's Counsel.

The Mayor, recognizing the desirability of having whatever rules are drawn correspond with the ordinances of the Board of Aldermen, has directed his Commissioners of Docks, Fire and Police to confer with the Board of Aldermen and see to it, as far as possible, that the rules are drawn in conjunction with this body. It seemed to the Chair to be largely a question of legal opinion as to the necessity of the legislation at Albany, but at least the departments have been advised to work, as much as possible, in conjunction with the Board of Aldermen.

Alderman Pendry, a member of the Committee, stated that the resolution calling for a Committee had been introduced at the last meeting without any ulterior motive whatever.

The Chair added, that, while he had noticed one or two newspaper suggestions, the Mayor did not share that view, but regarded the action of the Board as in every way friendly and for the purpose of bringing his office and this body in better relations on this subject.

On motion of Alderman Pendry the Committee was then discharged, with thanks.

The Committee on Finance, to which was referred on March 31, 1914 (Minutes, page 1036), the annexed request from the President of the Borough of The Bronx for $35,000 special revenue bonds for repair of bridge over railroad tracks at E. 153d st., between Park ave. and Sheridan ave., respectfully

REPORTS:

That the action taken in this matter to date is fully set forth in the letter of application and accompanying papers. A bridge is an undoubted necessity at this point and the proposed repairs cannot be made at too early a date. The Consulting Engineer assured the Committee that the estimate submitted had been checked by the Engineers of the Finance Department. The Corporation Counsel has advised the borough authorities to proceed with the work.

The committee recommends that the accompanying resolution be adopted.

Resolved, That, in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and it is hereby requested to authorize the Comptroller to issue special revenue bonds to the amount of thirty-five thousand dollars ($35,000), the proceeds whereof to be used by the President of the Borough of The Bronx for the purpose of making repairs to bridge over tracks of the New York Central and Hudson River Railroad Company at E. 153d st., between Park ave. and Sheridan ave., Borough of The Bronx.

All obligations contracted for hereunder to be incurred on or before December 31, 1914.

HENRY H. CURRAN, JOHN DIEMER, FRANK J. DOTZLER, D. M. BEDELL, F. H. STEVENSON, JOHN S. GAYNOR, F. H. WILMOT, JESSE D. MOORE, C. AUGUSTUS POST, FRANCIS P. KENNEY, Committee on Finance.

City of New York, President of the Borough of The Bronx, Third avenue and 177th street, office of the President, March 25, 1914.

Hon. GEORGE McANENY, President Board of Aldermen, City Hall, New York City.

Dear Sir: The bridge across the tracks and yard of the New York Central and Hudson River Railroad Company at E. 153d st. is in a very bad condition and has been closed to traffic for several months because its use would be liable to give rise to a serious accident at any moment.

Many of the truss members, as well as the floor system, has been seriously injured by corrosion. It is desired to replace such members and restore the structure to substantially its original condition.

On account of the great number of continually used railroad tracks under the two easterly spans, which spans are in most urgent need of repair, it is believed that it will be exceedingly expensive, if not entirely impracticable, to repair these spans in place, and the following estimated cost contemplates taking down and reconstructing the trusses:

Steel, 261,000 lbs., at $0.10	$26,100
Cleaning and painting	3,000
	$29,100
Engineering and contingencies, 15%	4,365
	$33,465

The exact condition of the structure and the extent to which repairs will be necessary will be developed only in the course of the work of restoring it, and I would therefore recommend that the Board of Aldermen adopt a resolution recommending that the Board of Estimate and Apportionment authorize the Comptroller to issue special revenue bonds to the amount of thirty-five thousand dollars ($35,000), to be applied to the restoration of this bridge to its original condition.

This bridge was built under the terms of a special act, known as Chapter 650 of the Laws of 1897, which authorized the Commissioner of Street Improvements to construct a bridge and approaches in accordance with plans to be approved by the Board of Estimate and Apportionment and the entire cost of construction to be defrayed by bonds or stock of the Mayor, Aldermen and Commonalty of the City of New York, the Commissioner being authorized to acquire any easement, right of way, over, under or through, any land that might be required by law for the purposes of this act; the costs of same to be paid out of the fund for street and park openings. No provision was made for the maintenance of the bridge.

In accordance with advice from the acting Corporation Counsel, dated September 26, 1913, notice was served upon the railroad company to repair the bridge. The company disclaimed responsibility, and in further compliance with the advice of the Corporation Counsel it is desired to proceed with the work, and the city can then make claim against the railroad company.

Enclosed herewith is a copy of the opinion of the Acting Corporation Counsel, together with a copy of the form of notice served upon the railroad company, and copies of letters received from the railroad company in response to such service.

In view of its urgency I would request that immediate attention be given this matter. Yours very truly,

DOUGLAS MATHEWSON, President of the Borough of The Bronx,

New York Central & Hudson River Railroad Co., New York, October 9, 1913.

Hon. CYRUS C. MILLER, President of the Borough of The Bronx, 3d ave. and 177th st., New York City:

Dear Sir—I have your letter of October 3d, which was served upon Mr. D. W. Pardee, Secretary of this company, at 4.40 P. M. on October 9th, in regard to the condition of the bridge crossing the tracks in the yard of this company at E. 153d st., between Park ave. and Sheridan ave., Borough of The Bronx.

I attach for your information copy of a letter I wrote to you on July 21st, 1913, on this same subject, and I beg to state that our opinion to-day is the same as our opinion at the time that letter was written. Yours respectfully,

GEO. W. KITTRIDGE, Chief Engineer.

(Copy.)

Law Department, Office of Corporation Counsel, September 26, 1913.

Hon. CYRUS C. MILLER, President of the Borough of The Bronx.

Dear Sir: I am in receipt of a communication from Acting President Whittle making inquiry as to the matter of having the New York Central & Hudson River Railroad Company repair the bridge across the tracks and yard of the railroad at 153d st. and informing me that the railroad company has done nothing toward making the repairs.

The railroad claims that as the city built the bridge under a special act of the Legislature it is under no legal obligation to make the repairs.

Irrespective of how the cost will ultimately be paid, it is of course important that the bridge be repaired and opened for traffic.

I advise you therefore to serve a final notice upon the New York Central Railroad Company and also upon the New York and Harlem Railroad Company substantially in the form enclosed herewith and have affidavit made of the service of such notice on one of the officers of each company.

If the repairs be not then made it will be necessary for the city to proceed with the work and make claim against the railroad companies for the amount expended.

Respectfully yours, LOUIS H. HAHLO, Acting Corporation Counsel.

New York Central & Hudson River R. R. Co., July 21, 1913.

Hon. CYRUS C. MILLER, President Borough of The Bronx, 177th st. and 3d ave., New York:

Dear Sir—I beg to acknowledge the receipt of your favor of July 2d, enclosing a copy of opinion of Acting Corporation Counsel Louis H. Hahlo in regard to the maintenance of the bridge across the New York Central Railroad Co.'s tracks and yard at 153d st., Borough of The Bronx.

Our position as to the maintenance of this structure is the same as set forth in my letter of June 11th. The statement in the Acting Corporation Counsel's letter that this bridge was built under the agreement between the Department of Parks and the railroad company, executed June 11, 1888, is incorrect. The structure was authorized and built pursuant to a special act of the Legislature by and wholly at the expense of the city, and therefore it is not a bridge governed by the provisions of the contract of 1888 nor by the provisions of the railroad law. Respectfully yours,

GEO. W. KITTREDGE, Chief Engineer.

(Copy.)

To New York Central & Hudson River Railroad Company and New York & Harlem Railroad Company:

You will please take notice that the bridge crossing the tracks and yard of your railroad at E. 153d st., between Park ave. and Sheridan ave., Borough of The Bronx, is in a dangerous condition and in neeed of immediate repair. This condition has necessitated the closing of the bridge to traffic.

This condition has existed for over three months.

You are accordingly required to place same in repair without delay.

In case of your failure to repair said bridge so that it may be opened for traffic or commence the repair work thereon within thirty days from date I shall proceed with the work and charge the cost thereof to you. Respectfully,

....., President of the Borough of The Bronx.

The President put the question whether the Board would agree to accept said report and adopt said resolution.

Which was decided in the affirmative by the following vote:

Affirmative—Aldermen Bartscherer, Bedell, Benninger, Bosse, Brush, Burden, Burns, Carberry, Carroll, Chorosh, Cole, Curran, Delaney, Dostal, Dowling, Duggan, Dujat, Eichhorn, Ferguson, Ferrand, Fink, Gaynor, Hamilton, Hogan, Jacobson, Kenneally, Kenney, Kochendorfer, Lein, Levy, McCourt, McNally, Molen, Moore (Chas. The Committee on Finance, to which was referred on April 14, 1914 (Minutes, page 8), the annexed request from the Commissioner of Docks for $30,000 Special Revenue Bonds for repairs to pier at foot of West 96th street, Borough of Manhattan, respectfully

REPORTS:

That the reasons for this request are set forth in the letter of application. The Commissioner has furnished the committee with an estimate of the material to be used in this work, which is also attached. This pier is practically the only outlet from 72d to 129th street on the West Side, and it is an essential matter to get it in condition for the uses to which it is proposed to be put at the earliest possible moment.

The committee recommends that the accompanying resolution be adopted.

Resolved, That in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and it is hereby requested to authorize the Comptroller to issue Special Revenue Bonds to the amount of thirty thousand dollars ($30,000), the proceeds whereof to be used by the Department of Docks and Ferries for the purpose of making necessary repairs to dock at foot of West 96th street, Borough of Manhattan. All obligations contracted for hereunder to be incurred on or before December 31, 1914.

The City of New York, Department of Docks and Ferries, Office of the Commissioner, Pier A, North River, April 7, 1914.

Hon. GEORGE McANENY, President, Board of Aldermen:

Sir—The pier at the foot of W. 96th st., North River, Borough of Manhattan, is badly in need of repairs, and under a lease of a portion of the structure the City is obligated to make such repairs.

The New York Contracting and Trucking Company held a lease of the entire pier at the foot of W. 96th st., 100 feet by 500 feet in dimensions. After considerable negotiation I have been able to effect a cancellation of this lease of the entire pier, the New York Contracting and Trucking Company accepting a lease covering only the inner 340 feet of the south side of the pier. A condition of this arrangement is that the City will make the necessary repairs to the pier, but the company is obligated to pay to the City the sum of $31,000 to cover this repair work, this amount to be paid in yearly installments of $3,100 for ten consecutive years, with interest at the rate of 4½ per cent. per annum each year on the unpaid balance. This new lease, which is, of course, most advantageous to the City, has been approved by the Commissioners of the Sinking Fund in resolution adopted by said Commission on April 1, 1914.

The repairs to the pier are estimated at $40,000, but about $9,000 of this amount represents the cost of bringing the pier to proper grade, for which the lessees are not responsible. A portion of the repairs will be made by the force of this Department to the extent of about $10,000.

Under the new lease the City will obtain possession of a very large portion of the pier.

The amount of money allowed to this Department in the 1914 tax Budget for contract repairs to piers along the water-front is almost completely encumbered with contracts already entered into or about to be entered into.

In order that this work of repairing the pier at the foot of W. 96th st. can be proceeded with without delay, and as the condition of the pier is such that repairs must be done promptly, I request that, pursuant to the provisions of subdivision 8 of section 188 of the Greater New York Charter, a resolution be adopted by the Board of Aldermen requesting the Board of Estimate and Apportionment to authorize the Comptroller to issue special revenue bonds to the amount of $30,000 to provide the necessary funds for the work. It is estimated that the work can be done for this amount.

Very truly yours, R. A. C. SMITH, Commissioner of Docks.

That, having carefully examined the subject, it believes a portion of the amount requested to be necessary. The request is based on an estimate of what may be required. The Committee has made its own calculations and believes that one-half the amount may be granted at this time.

It therefore recommends that the accompanying substitute resolution be adopted.

The City of New York, Board of City Record, Office of the Supervisor, 13-21 Park Row, April 10, 1914.

Hon. GEORGE McANENY, President of the Board of Aldermen:

Dear Sir—I respectfully request that the Board of Aldermen authorize the issue of Special Revenue Bonds in the sum of Five thousand dollars ($5,000) to provide the necessary funds to meet the expense of supplying the needs of the offices in the County of The Bronx for the remainder of the current year.

In explanation of this request I wish to submit the following facts:

The budgetary appropriation for Bronx County made to the Board of City Record for the year 1914 was as follows:

1914—3350	Printing, etc.	$3,500 00
1914—3351	Stationery, etc.	1,700 00
1914—3352	Blank books	5,000 00
		$10,200 00
	During March a transfer of $1,600 was obtained from Code No. 3357—Contingencies—Bronx County	1,600 00
	making a total appropriation of	$11,800 00

The requirements of the various county offices of The Bronx for blank books, printing and stationery supplies have far exceeded expectations. This office, with the assistance of the Commissioner of Accounts and the Department of Finance, has made several material reductions of the quantity and variety of printed forms and blank books requisitioned by some of the Bronx County offices, but these measures have failed to make the appropriations do more than pay for the supplies allowed up to April 1.

Since that date, requisitions calling for supplies which will cost about $1,000 have been received and are still pending, and during the remainder of the year additional supplies will be called for. It is the belief of this office that the five thousand dollars ($5,000) herein asked for should be sufficient for the balance of the year.

A form of resolution applicable to the foregoing request is enclosed herewith.

Respectfully, DAVID FERGUSON, Supervisor of the City Record.

The President put the question whether the Board would agree to accept said report and adopt said resolution.

Which was decided in the affirmative by the following vote:

Affirmative—Aldermen Bartscherer, Bedell, Benninger, Bosse, Brush, Burden, Burns, Carberry, Carroll, Chorosh, Cole, Curran, Delaney, Dostal, Dowling, Duggan, Dujat, Eichhorn, Ferguson, Ferrand, Fink, Gaynor, Hamilton, Hogan, Jacobson, Kenneally, Kenney, Kochendorfer, Lein, Levy, McCourt, McNally, Molen, Moore (Chas. The Committee on Finance, to which was referred on April 14, 1914 (Minutes, page 49), the annexed request from the Borough President of Manhattan for $34,000 special revenue bonds for the rehabilitation and refurnishing of additional parts of the City Hall, respectfully

City of New York, President of the Borough of Manhattan, Municipal Building, April 14, 1914.

Hon. GEORGE McANENY, President, Board of Aldermen, City Hall, New York:

Dear Sir—Application is hereby made for an issue of special revenue bonds in the amount of $34,000 for the rehabilitation and refurnishing of additional parts of the City Hall.

The estimated cost of the work has been conservatively placed at $48,500, and as there remains on hand an unexpended balance of $14,510 from a revenue bond issue of last year, I would respectfully request that the resolution adopted by your Honorable Board under date of October 2, 1913, be modified by extending the time for the expenditure of the funds until December 31, 1914. This will make the existing balance available for the work this year, which, added to the new issue above requested, will provide sufficient funds for the work contemplated.

Yours very truly, MARCUS M. MARKS, President, Borough of Manhattan.

GENERAL ORDERS.

No. 95—Int. No. 261.

The Committee on General Welfare, to which was referred on February 10, 1914 (Minutes, page 487), the annexed "ordinance relating to places of public amusement," respectfully

REPORTS:

That a public hearing was held thereon at which appeared advocates in favor of the proposition, but none in real opposition thereto. The trend of opinion was all for a suppression of the existing ticket speculating evil, and those in attendance felt that the suggested ordinance will prove a remedy for and abate existing conditions. The ordinance herewith recommended contemplates agreements with licensees of places of public amusement and the Police Department, else no license will issue, and under the provisions of which a license shall become null and void for any infraction of said agreements.

The Committee believes this ordinance a direct step to the suppression of this long complained of infliction on the public, and therefore recommends that the same be adopted.

AN ORDINANCE relating to places of public amusement.

Be it Ordained, by the Board of Aldermen of The City of New York, as follows:

Section 1. No license shall be granted for any or all of the purposes set forth in section 1472 of the Greater New York Charter unless an application therefor, subscribed by the person or corporation seeking said license, shall first be made to the Police Department upon a printed form of application to be furnished by said department, which said application shall contain plainly printed therein the following agreements on the part of the licensee, to wit:

First—That the price of each and every ticket of admission issued by or on behalf of the licensee herein shall be plainly and legibly printed on such ticket, and no price in excess of that so designated shall be asked or accepted by or on behalf of the licensee.

Second—That no ticket of admission shall be issued, sold or offered for sale by or on behalf of the licensee or by or on behalf of any manager, agent, servant or employee of the licensee at a price in excess to that designated thereon or with the knowledge, purpose or intention that such ticket is to be resold or offered for resale, and no licensee and no manager, officer, agent or employee of any licensee shall, directly or indirectly, receive any consideration of any nature whatsoever upon the sale of any such ticket beyond or in excess of the price designated thereon, or directly or indirectly enter into any arrangement, agreement or understanding for the receipt of any such consideration.

Third—This license shall be and become null and void upon the entry of a judgment for the penalty prescribed in section 3 of this ordinance for a violation of any of the foregoing agreements by such licensee, or his agents or employees.

Section 2. Every such license shall contain plainly printed therein the agreement on the part of the licensee prescribed in section 1 of this ordinance.

Section 3. In addition to any other penalty prescribed by law or ordinance, every person violating any of the provisions of the foregoing section of this ordinance shall be liable to a penalty of $50 for each offense, to be recovered in an action to be brought therefor in the name of The City of New York.

Section 4. This ordinance shall take effect thirty days after approved by the Mayor.

WILLIAM D. BRUSH, HYMAN POUKER, LAUREN CARROLL, ROBERT H. BOSSE, JOHN J. REARDON, ARNON L. SQUIERS, OSCAR IGSTAEDTER, Committee on General Welfare.

REPORTS:

That, having examined the subject, together with having held a well attended public hearing thereon, it believes the said ordinance should be adopted. The Committee on Salaries and Offices, to which was referred on March 24, 1914 (Minutes, page 942), the annexed resolution in favor of establishing grades of Farm Superintendent, with maintenance at $1,800, and Farm Instructor, with maintenance at $900 per annum, Department of Public Charities, respectfully

Department of Correction of The City of New York, Commissioner's Office, Municipal Building, Centre and Chambers St., New York, March 30, 1914.

To the Chairman, Committee on Salaries and Grades, Board of Aldermen, City of New York:

My Dear Sir—I have received a notice of the meeting of the Commission on Salaries and Offices which will consider application of the Department of Correction for one Farm Superintendent at a salary of $1,800 per year and maintenance, and four Farm Instructors, at a salary of $900 per year to $1,200 per year, with maintenance, with an increase of $100 per year.

It is impossible for me to be present at the meeting, and, therefore, I desire to transmit to your honorable body the following information:

These officers are for the new farm at New Hampton which is connected with the New York City Reformatory for Male Misdemeanants at Harts Island. The salary of the Farm Superintendent has been provided for by a gift for the balance of the year; that of the Farm Instructors will be provided for by transfers within the departmental budget. If the farm colony is to be a success, it will be necessary to have in charge as Superintendent and Farm Instructors men who have received special training in agricultural methods and who can impart this instruction in a practical way These Instructors will take the place and make unnecessary the employment of Keepers who would otherwise be necessary and whose salaries would be equal to that of Farm Instructors. Very respectfully yours,

KATHARINE BEMENT DAVIS, Commissioner.

The President put the question whether the Board would agree to accept said report and adopt said resolution.

City of New York, Office of the Mayor, March 24, 1914.

To the Honorable the Board of Aldermen:

Gentlemen—Unemployment is a persistent problem. While it is not a function of government directly to provide employment for those out of work, the establishment of free labor agencies, where employers may obtain workers and the unemployed obtain work, is a well recognized governmental function.

America is far behind the European countries in the establishment of labor agencies. For a number of years past both England and Germany have had systems of free employment agencies. In America a few states have established agencies which are modeled after those in operation abroad. The results thus far appear to be satisfactory. Free agencies have also been introduced into a few American municipalities, and while in many cases they have proved their worth, in other instances, perhaps due to lack of aggressive management, the good results have not been commensurate with the money expended.

Soon after the present City administration took office the Mayor's attention was directed to the acute situation in this community with respect to unemployment. An experimental employment bureau was opened at No. 29 Lafayette st., Manhattan. The establishment of this bureau had the effect of directing the attention of the entire country to the subject of unemployment.

The City's experimental bureau began operation February 14, 1914. During the month of its operation it has found employment for 3,973 persons. I call your attention to a memorandum of the Committee on Unemployment attached hereto which makes the recommendation that the agency be made permanent. The report of Mr. Adolphus Ragan, who has been in immediate charge of the bureau, also attached, shows what has been accomplished.

I am submitting a suggested ordinance providing for the establishment of a public employment bureau in the office of the Commissioner of Licenses. I trust that your honorable body will give the matter your careful consideration, and if, in your judgment, this proposal is wise, that you will provide for the establishment of such an agency by ordinance.

Respectfully, JOHN PURROY MITCHEL, Mayor.

Commissioners Kingsbury and Moscowitz, and Chamberlain Bruere advocated this measure before the Board.

The President put the question whether the Board would agree to accept said report and adopt said ordinance.

The Committee on Finance, to which was referred on March 24 and 31, 1914 (Minutes, pages 1030 and 1045), certain papers known as Introductory Nos. 441 and 451, respectfully

REPORTS:

That No. 441, a resolution calling for $50,000 for a celebration of the 250th anniversary of the appointment of the first Mayor of New York, has been withdrawn by the introducer.

That 451, a request for $1,500 special revenue bonds for street signs, Borough of Richmond, is a matter, in the opinion of the Committee, more appropriately covered by corporate stock.

It therefore recommends that the said papers be ordered on file.

Whereas, In 1665, one Thomas Willett was appointed the first Mayor of New York City by Governor Richard Nicolls, under a patent granted by James, Duke of York; and

Whereas, We believe it to be fitting and proper for the citizens of this City to commemorate the 250th anniversary of this important historical event by appropriate celebrations.

Resolved, That in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and it is hereby requested to authorize the Comptroller to issue special revenue bonds to the amount of fifty thousand ($50,000) dollars, the proceeds whereof to be used by a special committee of the Board of Aldermen for the purpose of meeting expenses of a celebration in 1915 of the 250th anniversary of the appointment of the first Mayor of the City of New York.

The City of New York, Office of the President of the Borough of Richmond, Borough Hall, New Brighton, New York City, March 23, 1914.

Hon. GEORGE McANENY, President Board of Aldermen, City Hall, New York City:

Dear Sir—I would request that special revenue bonds to the amount of $1,500 be authorized for replacing damaged and missing street signs and for erecting new signs where needed in this borough. About five years ago street signs were erected from funds furnished by the Board of Aldermen and since then several hundred of these signs have been mutilated and some destroyed by vandals, and there have been accumulating for several years requests for signs where new streets have been opened since the signs were put in position.

We estimate that we would need for repairing the present ones $800 and for erecting new ones $700, a total of $1,500.

Will you kindly bring this matter to the attention of the Board of Aldermen?

Very truly yours, C. J. McCORMACK, President of the Borough.

Which report was accepted.

The Committee on Finance, to which was referred on April 14, 1914 (Minutes, page 8), the annexed resolution in favor of authorizing the Department of Bridges to draw up to the sum of $100 at a time from one of its contingent accounts, respectfully

REPORTS:

That, having examined the subject, it believes the proposed authorization to be advisable. The accompanying letter explains the reasons for the request.

It therefore recommends that the said resolution be adopted.

Resolved, That for the purpose of defraying minor and incidental expenses, the Commissioner of Bridges may, by requisition, draw upon the Comptroller for a sum not exceeding one hundred dollars ($100), to be accounted for by vouchers subsequently submitted for approval, and may in like manner renew the draft as often as may be deemed necessary to the extent of the appropriation entitled "Supplies, No. 2769, Office Supplies," Department of Bridges Budget for 1914.

Department of Bridges, City of New York, Municipal Building, Manhattan, N. Y., April 6th, 1914.

To the Honorable Board of Aldermen of The City of New York:

Gentlemen—I transmit herewith for adoption by your honorable body a resolution authorizing the defraying of minor or incidental expenses of the Department of Bridges to an extent of $100.

The purpose for which this contingent fund is desired is to have a small amount of currency on hand to pay for postage stamps, carfares and other incidental expenses which must be paid in cash.

The Department of Bridges has heretofore had a contingent fund of several thousand dollars, which had been duly authorized by your honorable Board, used principally to pay the wages of Laborers temporarily employed to remove snow and ice from the several structures under its care and jurisdiction. While this fund was in existence the amount of $100 had been kept in the office and used as a petty cash fund and reimbursed from time to time by filing vouchers for expenditures made therefrom with the Department of Finance.

The Comptroller recently took up with me this matter of the Department of Bridges maintaining this snow fund and paying the emergency rolls itself, and upon his suggestion and request the amount withdrawn under the authority of said resolutions of your honorable Board was returned to the Comptroller for redistribution into the proper funds or accounts under his jurisdiction, and the emergency snow rolls will now be paid the same as any other payrolls, through the Department of Finance.

The refund of this money has left the Department of Bridges without any contingent fund whatsoever, and I would therefore ask your honorable Board to adopt a resolution authorizing the establishment of such a fund for the Department of Bridges in an amount of $100.

Respectfully, F. J. H. KRACKE, Commissioner.

The President put the question whether the Board would agree to accept said report and adopt said resolution.

REPORTS OF STANDING COMMITTEES, RESUMED.

Report of Committee on Public Letting—

No. 499—(S. O. No. 35).

The Committee on Public Letting, to which was referred on April 14, 1914 (Minutes, page 21), the annexed resolution in favor of authorizing the Department of Taxes and Assessments to contract for moving into the Municipal Building and purchase certain furniture without public letting, at a cost not to exceed $10,000, respectfully

REPORTS:

That, having examined the subject, it believes the proposed authorization to be necessary in order to facilitate the transfer of this department into its new quarters, and to provide the requisite furniture to replace permanent desks, etc., which must be left in the old building, there being insufficient time to prepare specifications and advertise.

The committee recommends that the said resolution be adopted.

Resolved, That, in pursuance of the provisions of section 419 of the Greater New York Charter, the Department of Taxes and Assessments be and hereby is authorized and empowered to enter into a contract or contracts, without public letting, for the following items necessary and the expense incident to the moving of said Department to the new Municipal Building, the total cost thereof not to exceed the sum indicated:

Department of Taxes and Assessments of The City of New York, Borough of Manhattan, Hall of Records, April 4th, 1914.

The Honorable the Board of Aldermen, City of New York:

Gentlemen—The office of this Department is to be moved to the Municipal Building. The Board of Aldermen has authorized an issue of $10,000 of special revenue bonds to pay the expense. It costs the City $1,466 rent for every month removal is delayed; $1,041.66 for the Sheriff and $425 for the Surveyor of this Department. Both time worth money and actual outlay can be reduced by contracting upon the basis of informal bids without advertising.

We respectfully request, therefore, that permission be given to dispense with public letting. Respectfully, LAWSON PURDY, President.

Which was laid over.

No. 567—(G. O. No. 211).

A statement is herewith submitted of all vouchers filed in the Department of Finance on this date, in which is shown the Department of Finance voucher number, the date of the invoices or the registered number of the contract, the name of the payee and the amount of the claim. If the vouchers are found to be correct and properly payable to the respective claimants it will be my endeavor to have the warrants therefor made ready for payment within the next seven days.

If any claimant within the time stated does not receive his warrant or a written notice in relation thereto then written or verbal inquiry may be made at this office, using the Department of Finance voucher number as a ready means of reference.

The method of construction will be generally by tunneling and partly by excavation from the surface.
Sites for permanent shafts to be used as working shafts, sites for the contractor's air-compressing plant, and water-front facilities, as indicated on the contract drawings, will be furnished to the contractor for his use.
Bidders must examine the form of contract and the specifications and the contract drawings, must visit the location of the work and inform themselves of the conditions along the line of the work and must make their own estimates of the facilities and difficulties attending the execution of the work.
The attention of bidders is especially directed to the contract requirements as to an adequate plant, the use of compressed air, the methods of tunneling in soft ground, the contractor's responsibility for damage to property, the order of progress of work, and the damages for non-completion within the time prescribed.
A fuller description of the work and other requirements, provisions, details and specifications are given in the form of contract and in the contract drawings therein referred to. Copies of the forms of contract, bond and contractor's proposal and of the contract dawings may be inspected and purchased at the office of the Commission, No. 154 Nassau street, Borough of Manhattan, New York City. The forms of contract, bond and contractor's proposal and the contract drawings are to be deemed a part of this Invitation.
Partial payments to the contractor will be made as the work proceeds.
The contractor must complete the work within forty-two (42) months from the delivery of the contract.
At the time of delivery of the contract, the contractor must furnish security to the City by depositing a bond, cash or securities in the sum of five hundred thousand ($500,000) dollars. As further security ten (10) per centum of the amounts certified from time to time to be due to the contractor will be deducted.

Sealed bids or proposals will be received at the office of the Commission, No. 154 Nassau street, Borough of Manhattan, New York City, until the 22d day of May, 1914, at twelve fifteen (12.15) o'clock p. m., at which time, or at a later date to be fixed by the Commission, the proposals will be publicly opened.

Proposals must be in the form or forms prescribed by the Commission. Proposals are invited in either or both of two forms. In Form "A" the bidder is to state his prices for the work pro-

posed without dependence upon the award of any other contract. In Form "B" the bidder is to state his prices for the work proposed in case he should be awarded the contract, advertised concurrently herewith, for the construction of Section No. 3 of Route No. 48, being that portion of the Park Place, William and Clark Street Rapid Transit Railroad extending from a point under Old Slip near Pearl street in the Borough of Manhattan to a point under Fulton street near Clinton street in the Borough of Brooklyn. Proposals in Form "B" must be accompanied by a proposal or proposals for the construction of said Section No. 3 of Route No. 48.

A statement, based upon the estimate of the Chief Engineer of the Commission, of the quantities of the various classes of the work and of the nature and extent as near as practicable of the work required is to be found in the schedule forming a part of the form or forms of contractor's proposal. The quantities given in such schedule are approximate only, being given as a basis for the uniform comparison of bids, and no claim is to be made against the City for damages or anticipated profit or loss of profit on account of any excess or deficiency, absolute or relative in the same.

Every proposal must, when submitted, be enclosed in a sealed envelope endorsed *"Proposal for Constructing Part of Rapid Transit Railroad —Route No. 33, Section No. 2,"* and must be delivered to the Commission or its Secretary; and in the presence of the person submitting the proposal, it will be deposited in a sealed box in which all proposals will be deposited. No proposal will be received unless accompanied by a separate certified check for the sum of one hundred thousand dollars ($100,000) payable to the order of the Comptroller of the City and drawn upon a national or state bank or trust company satisfactory to the Commission and having its principal office in New York City. Such check must not be enclosed in the envelope containing the proposal. One such check will be sufficient to enable a bidder to submit proposals in both Forms "A" and "B."

The Unit Prices must not be improperly balanced, and any bid which the Commission considers detrimental to the City's interests may be rejected.

No proposal, after it shall have been deposited with the Commission, will be allowed to be withdrawn.

The award of the contract will be made as soon as practicable after the opening of the proposals.

Deposits made by bidders whose proposals are not accepted will be returned within three (3) days after the contract is executed and delivered and its provisions in respect of the bond or deposit are complied with, unless all proposals shall be rejected, in which event such deposits will be returned within three (3) days after such rejection. PUBLIC SERVICE COMMISSION FOR THE FIRST DISTRICT,
By EDWARD E. McCALL, Chairman.
TRAVIS H. WHITNEY, Secretary. a24,m22

INVITATION TO CONTRACTORS.

Part of the Broadway-Fourth Avenue Rapid Transit Railroad.

The Public Service Commission for the First District (hereinafter called the "Commission"), acting for and in behalf of The City of New York (hereinafter called the "City"), invites proposals to construct Section No. 2 of Route No. 20, a part of the Broadway-Fourth Avenue Rapid Transit Railroad.

The points within The City of New York between which the said part is to run and the route or routes to be followed are briefly as follows:

Section No. 2. Beginning at a point under Canal street, in the Borough of Manhattan, about thirty (30) feet east of the easterly building line of Broadway and extending thence easterly under Canal street to a point about thirty-five (35) feet east of the easterly building line of the Bowery.

The general plan of construction calls for a subsurface railroad having two tracks.

The Contractor will not be required to provide or lay tracks, ties or ballast, nor to do station finish work.

The work under the contract will include the care and support of buildings, vaults, sewers, pipes, railroads and other surface, subsurface and overhead structures, the maintenance of traffic and the restoration of pavements and other surfaces.

Two alternative designs for the Failroad have been prepared, which are known as Alternative S and Alternative T, respectively. The design for Alternative S calls for a steel beam and concrete structure, and the design for Alternative T calls for a structure partly of steel beam and concrete construction and partly of cast iron tunnel construction. The method of construction for Alternative S is by trench excavation under cover, unless otherwise permitted by the Commission, and the method of construction for Alternative T is partly by trench excavation under cover and partly by tunneling, unless otherwise permitted by the Commission, as set forth in the forms of contract. Proposals may be submitted for either or both of such Alternatives.

Partial payments to the Contractor will be made as the work proceeds, as provided in the forms of contract.

The Contractor must complete the work within thirty-two (32) months from the delivery of the contract.

At the time of the delivery of the contract the Contractor must furnish security to the City by depositing a bond, cash or securities in the sum of three hundred thousand dollars ($300,000). As further security fifteen (15) per centum of the amounts certified from time to time to be due to the Contractor will be deducted until the amounts so deducted and retained shall equal ten (10) per centum of the total estimated amount to be paid to the Contractor under the contract. Thereafter there shall be so deducted and retained for such purpose ten (10) per centum of the amounts certified from time to time to be due to the Contractor.

A fuller description of the work to be done in the case of each Alternative and other requirements, provisions, details and specifications are given in the form of contract for each Alternative and in the contract drawings therein referred to. A separate form of contract has been prepared for each Alternative. Copies of the forms of contract, contract drawings, and forms of bond and contractor's proposal may be inspected and purchased at the office of the Commission, No. 154 Nassau street, Borough of Manhattan, New York City. The forms of contract and the contract drawings and the forms of bond and contractor's proposal are to be deemed a part of this Invitation.

Bidders must examine the forms of contract and the specifications and contract drawings, must visit the location of the work and inform themselves of the conditions along the line of the work and make their own estimates of the facilities and difficulties attending the execution of the work.

Sealed bids or proposals will be received at the office of the Commission at No. 154 Nassau street, Borough of Manhattan, City of New York, until the 12th day of May, 1914, at twelve fifteen (12.15) o'clock p. m., at which time, or at a later date to be fixed by the Commission, the proposals will be publicly opened.

Separate forms of proposal have been prepared for Alternatives S and T. Proposals for each Alternative must be in the form prescribed for such Alternative by the Commission. The Commission may award the contract for either Alternative.

A statement based upon the estimate of the Chief Engineer of the Commission of the quantities of the various classes of the work and of the nature and extent as near as practicable of the work required in the case of each Alternative is to be found in the Schedule in the form of contractor's proposal for such Alternative. The quantities given in such Schedule are approximate only, being given as a basis for the uniform comparison of bids, and no claim is to be made against the City on account of any excess or deficiency, absolute or relative, in the same, except as provided in the specifications and forms of contract.

Every proposal must when submitted be enclosed in a sealed envelope endorsed *"Proposal for Constructing Part of Rapid Transit Railroad —Route No. 20, Section No. 2, Alternative* "*, and must be delivered to the Commission or its Secretary; and in the presence of the person submitting the proposal, it will be deposited in a sealed box in which all proposals will be deposited. If any bidder shall submit proposals for both Alternatives, the proposal for each Alternative shall be in a separate sealed envelope properly endorsed as aforesaid. No proposal will be received unless accompanied by a separate certified check for thirty thousand dollars ($30,000) payable to the order of the Comptroller of the City and drawn upon a National or State bank or trust company satisfactory to the Commission and having its principal office in New York City. One such certified check for thirty thousand dollars ($30,000) will be sufficient to enable a bidder to bid upon both alternatives. Such check must not be enclosed in the envelope or envelopes containing the proposal or proposals.

The Unit Prices must not be improperly balanced, and any bid which the Commission considers detrimental to the City's interests may be rejected.

No proposal, after it shall have been deposited with the Commission, will be allowed to be withdrawn for any reason whatever.

The award of the contract will be made by the Commission as soon as practicable after the opening of the proposals.

Deposits made by bidders whose proposals are not accepted will be returned within three (3) days after the contract is executed and delivered and its provisions in respect of the bond or deposit are complied with, unless all proposals shall be rejected, in which event such deposits will be returned within three (3) days after such rejection. The deposit of the successful bidder will be returned when the contract is executed and its provisions in respect of the bond or deposit are complied with.

The right to reject any and all bids is reserved.

To accompany petition verified December 10, 1913, to the Board of Estimate and Apportionment,"

—and signed by Alfred A. Stuart, President, and Norman G. Degnon, Engineer; a copy of which is attached hereto, is to be deemed a part of this contract, is to be construed with the text thereof, and is to be substantially followed, provided that deviations therefrom and the description thereof which are not inconsistent with the other provisions of this contract may be permitted by resolution of the Board.

This grant is made with the understanding that the tracks herein authorized are to be operated as a necessary part of the railroad of the Company, as shown by the layout upon the map attached hereto, and is only granted upon condition that all of the tracks shown upon said map whether upon private property or upon streets or avenues shall be operated as one railroad.

Sec. 2. The grant of this privilege is subject to the following conditions, which shall be complied with by the Company:

First—The consent in writing of the owners of half in value of the property bounded on said streets and avenues to the construction and operation of said railroad shall be obtained by the Company within three (3) months from the signing of this contract by the Mayor, and a copy of such consents shall be filed with the Board within such time, or in the event that such consents cannot be obtained within such time, the Company shall, within said three (3) months or within one (1) month thereafter, make application to the Appellate Division of the Supreme Court for the appointment of Commissioners in the manner provided by the Railroad Law to determine if said railroad ought to be constructed; otherwise this grant shall cease and determine.

Second—The said right to construct, maintain and operate said railroad shall be held and enjoyed by the Company from the date upon which this contract is signed by the Mayor, until January 1, 1929, with the privilege of renewal of said contract for the further period of ten (10) years, upon a fair revaluation of such right and privilege.

If the Company shall determine to exercise its privilege of renewal it shall make application to the Board, or any authority which shall be authorized by law to act for the City in place of the Board. Such application shall be made at any time not earlier than two (2) years and not later than one (1) year before the expiration of the original term of this contract. The determination of the revaluation shall be sufficient if agreed to in writing by the Company and the Board, but in no case shall the annual rate of compensation to the City be fixed at a less amount than the sum required to be paid during the last year prior to the termination of the original term of this contract.

If the Company and the Board shall not reach such agreement on or before the day one (1) year before the expiration of the original term of this contract, then the annual rate of compensation for such succeeding ten (10) years shall be reasonable, and either the City (by the Board) or the Company shall be bound upon request of the other to enter into a written agreement with each other fixing the rate of such compensation at such amount as shall be reasonable, but in no case shall the annual rate so fixed be less than the sum required to be paid for the last year prior to the termination of the original term of this contract, and if the parties shall not forthwith agree upon what is reasonable, then the parties shall enter into a written agreement fixing such annual rate and at such amount as shall be determined by three disinterested freeholders selected in the following manner:

One disinterested freeholder shall be chosen by the Board; one disinterested freeholder shall be chosen by the Company; these two shall choose a third disinterested freeholder, and the three so chosen shall act as appraisers and shall make the revaluation aforesaid. Such appraisers shall be chosen at least six (6) months prior to the expiration of this original contract, and their report shall be filed with the Board within three (3) months after they are chosen. They shall act as appraisers and not as arbitrators. They may base their judgment upon their own experience and upon such information as they may obtain by inquiries and investigations, without the presence of either party. They shall have the right to examine any of the books of the Company and its officers under oath. The valuations so ascertained, fixed and determined shall be conclusive upon both parties, but no annual sum shall, in any event, be less than the sum required to be paid for the last year of the original term of this contract. If in any case the annual rate shall not be fixed prior to the termination of the original term of this contract, then the Company shall pay the annual rate theretofore prevailing until the new rate shall be determined, and shall then make up to the City the amount of any excess of the annual rate then determined over the previous annual rate. The compensation and expenses of the said appraisers shall be borne jointly by the City and the Company each paying one-half thereof.

Third—Upon the termination of this original contract, or if the same be renewed, then at the termination of the said renewal term, or upon the termination of the rights hereby granted for any cause, or upon the dissolution of the Company before such termination, the tracks and equipments of the Company constructed pursuant to this contract within the streets and avenues shall become the property of the City without cost, and the same may be used or disposed of by the City for any purpose whatsoever, or the same may be leased to any company or individual.

Fourth—The Company shall pay to the City for the privilege hereby granted the following sums of money:

(*a*) The sum of fifteen thousand dollars ($15,000) in cash within thirty (30) days after the date on which this contract is signed by the Mayor and before anything is done in exercise of the privilege hereby granted.

(*b*) During the first term expiring January 1, 1924, an annual sum of two thousand five hundred dollars ($2,500).

During the remainder term of five (5) years an annual sum of ten thousand dollars ($10,000).

The annual charges shall commence from January 1, 1914.

All annual charges as above shall be paid into the treasury of the City on November 1 of each year, and shall be for the amount due to September 30 next preceding. Provided that the first annual payment shall be only for that proportion of the first annual charge as the time between the date upon which this contract is signed by the Mayor and September 30 following shall bear to the whole of one year.

Any and all payments to be made by the terms of this contract to the City by the Company, shall not be considered in any manner in the nature of a tax, but such payments shall be made in addition to any and all taxes of whatsoever kind or description, now or hereafter required to be paid by any ordinance of the City, or resolution of the Board, or any law of the State of New York.

Fifth—The annual charges or payments shall continue throughout the whole term of this contract (whether original or renewal), notwithstanding any clause in any statute or in the charter of any other railway or railroad company providing for payment for railway or railroad rights or franchises at a different rate, and no assignment, lease or sublease of the rights or privileges hereby granted (whether original or renewal), or of any part thereof, or of any of the routes mentioned herein, or of any part thereof shall be valid or effectual for any purpose unless the said assignment, lease or sublease shall contain a covenant on the part of the assignee or lessee that the same is subject to all the conditions of this contract; and that the assignee or lessee assumes and will be bound by all of said conditions, and especially said conditions as to payments, anything in any statute or in the charter of such assignee or lessee to the contrary notwithstanding, and that the said assignee or lessee waives any more favorable conditions created by such statute or its charter, and that it will not claim by reason thereof or otherwise exemption from liability to perform each and all of the conditions of this contract.

Sixth—Nothing in this contract shall be deemed to affect in any way the right of the City to grant to any person or corporation a franchise or right to use the streets hereinbefore mentioned, or any part of them, for railroad purposes, and the Company shall not at any time oppose, but shall consent to the construction and operation of a railroad by any such other corporation or individual which may receive a franchise therefor from the City; provided, however, that nothing in this clause contained shall estop the Company from appearing before the Board and being heard on any application for rights in said streets.

Seventh—If the right of way on private property upon which the Company proposes to operate or any location of track herein authorized (all as shown on the map hereto attached) shall

be crossed, intersected or joined by the right of way or tracks of another railroad corporation, then the Company shall unite with such corporation in forming the necessary connections between the railroads of the Company and such corporation, and shall grant the requisite facilities therefor, whether the tracks on the right of way of such corporation are at the same or a different grade from the tracks of the Company at the point of such crossing or intersection.

In case the Company and such corporation cannot agree upon the amount of compensation to be paid therefor, such compensation shall be fixed in the manner provided in section 22 of the Railroad Law.

When such railroads shall be so connected, the Company shall receive from such other corporation, and forward to their destination, all goods, merchandise and other property intended for points on its railroad, and receive and forward to the railroad of such other corporation all goods, merchandise and other property shipped by way of the Company's railroad and intended for points thereon, with the same despatch and at a rate of freight not exceeding the local tariff rate charged for similar goods, merchandise and other property received at or forwarded from the same points for individuals and other corporations.

The intent and purpose of the foregoing is to provide for the use of the Company's railroad by any other railroad which may be constructed in the vicinity, so that such other railroad may be afforded an outlet and rail connection with a trunk line railroad or a water connection with the Dutch Kills Creek by means of the railroad of the Company.

Eighth—The rights and privileges hereby granted shall not be assigned, either in whole or in part, or leased or sublet in any manner, nor shall the title thereto, or right, interest or property therein, pass to or vest in any other person or corporation whatsoever, either by the act of the Company, or by operation of law, whether under the provisions of the statutes relating to the consolidation or merger of corporations or otherwise, without the consent of the City, acting by the Board, evidenced by an instrument under seal, anything herein contained to the contrary thereof in anywise notwithstanding, and the granting, giving or waiving of any one or more of such consents shall not render unnecessary any subsequent consent or consents.

Ninth—Should it be deemed advisable by the Board at any time during the term of this contract to require the extension of the tracks of the Company to reach property owned by any individual or corporation making application to the Board for such extension, and the Board shall so order, then the Company shall, immediately after reaching an agreement with such applicants with respect to the terms upon which such extension shall be constructed, or in lieu thereof a determination of the arbitrators, as herein provided apply for and accept a franchise upon terms and conditions similar to those contained herein to extend its tracks beyond the tracks now planned by the Company, as indicated by the layout of track shown upon the map attached hereto, to the property of such applicant, and upon receiving such a franchise the Company shall, upon terms to be agreed upon between the petitioner and the Company, so extend its tracks and deliver and receive freight for shipment to all persons desiring such service along the line of such extension or extensions; such service to be performed at the rates charged for similar service upon the railroad herein authorized, or as may be fixed by the Board.

In case the Company and the applicants for such extension cannot agree upon the terms upon which such extension shall be constructed, including the division, if any, of the cost of the extension and of the maintenance thereof, then such terms shall be determined and fixed by three arbitrators selected in the following manner:

One fit and impartial person shall be chosen by the Company; one fit and impartial person shall be chosen by the applicant or applicants for such extension, and the two so chosen shall choose a third fit and impartial person. The decision under oath of any two of such persons who shall be so selected shall be final and conclusive. If either the Company or such applicant fails to appoint an arbitrator, as herein provided, or should the first two arbitrators fail to agree on the selection of a third arbitrator within thirty days after the first two arbitrators shall be chosen, or if no two arbitrators so selected shall agree upon the terms upon which such extension shall be constructed and maintained within sixty (60) days after the arbitrators shall be so selected, then such may be fixed by a commissioner appointed by the Supreme Court on the application of either party.

Tenth—The Company shall commence construction of any portion of the railroad herein authorized which shall be necessary to transport freight to or from property proposed to be so served, as indicated by the layout of the railroad shown upon a map attached hereto, within thirty (30) days from the date upon which application for service shall be made by the owner or occupier of such property, provided that the consents of the property owners, as herein required have been obtained, or, in lieu thereof, an order of the Appellate Division of the Supreme Court made pursuant to section 174 of the Railroad Law confirming the determination of the commissioners appointed thereunder that such railroad ought to be constructed, has been issued. If the consents of property owners have not been obtained, nor the order of the Appellate Division issued, at the time when application for the use of such railroad is made by such owner or occupier of such property, then, the Company shall commence the construction of that portion of the railroad for which application has been so made within thirty (30) days after the obtaining of such consents or the issuance of such order. The Company shall complete such portion of said railroad and place the same in operation within sixty (60) days after such application has been made by such owner or occupier of said property, or if neither the consents of the property owners or said order of the Appellate Division of the Supreme Court has been obtained at the time such application is made, then within sixty (60) days from the date of filing such consents or the date of such order. If the Company shall fail to complete the construction of the railroad and put the same in operation as herein required, all rights hereunder shall cease and determine, and all sums paid, or which may be deposited with the Comptroller of the City, as hereinafter provided, shall thereupon be forfeited to the City. Provided, however, that the period for commencement and the period for completion and placing the railroad in operation may be extended by the Board; and provided, further, that when the commencement or completion of said construction shall be prevented by legal proceedings in any court or by works of public improvement, or from other causes not within control of the Company, the time for the commencement or completion of such construction may be extended for the period of such prevention, but no delay shall be allowed for unless the court proceedings shall be diligently prosecuted by the company, and provided further, that in no case shall such delay be deemed to begin until the Company shall have given written notice to the Board of any such court proceedings or other occasion of delay, and deliver to the Board copies of any injunction or other orders, and the papers upon which the same shall have been granted, and unless upon the request of the Board the Company shall, in writing, consent that the Board either in its own name as a party, or in the name of the City as a party, may intervene in any such proceedings.

Eleventh—If the grade of the tracks or any portion thereof herein authorized be at any time during the existence of this contract changed to a position either above or below the surface of the streets or avenues, then the Company shall pay to the City any sum or sums which the City may be required by law to pay toward the change of grade of such tracks.

Twelfth—Said railroad shall be constructed, maintained and operated subject to the supervision and control of all the authorities of the City who have jurisdiction in such matters, as provided by the Charter of the City.

No construction upon said railroad shall be commenced until written permits have been obtained from the proper City officials.

In any permits so issued such officials may also impose such conditions, as a condition of the granting of the same, as are necessary for the purpose of protecting any structures, in the streets and avenues, over which such officials have jurisdiction, and the Company shall comply with such conditions.

The electrical equipment to be installed by the Company for the operation of the railroad within the limits of the City, whether the same be upon streets and avenues or upon private property, shall be constructed and maintained under the supervision and control of the Commissioner of Water Supply, Gas and Electricity.

Thirteenth—The work of construction of the tracks hereby authorized shall be done in such manner as shall not substantially interfere with the ordinary use of any street or avenue as a public highway.

Fourteenth—During the period prior to January 1, 1916, cars may be operated upon said tracks by steam locomotives which shall be housed or boxed so as to conform with the type commonly known as the "dummy engine." On or before January 1, 1916, the Company shall discontinue the use of said dummy steam locomotives and operate said tracks by electric power or any other motive power which may be approved by the Board and consented to by the abutting property owners in accordance with the provisions of law and by the Public Service Commission for the First District of the State of New York. It is understood, however, that no overhead wires except trolley wires shall be permitted for the operation of said tracks by the electric power.

Fifteenth—Neither pedestrians nor vehicles shall be prevented from crossing the tracks hereby authorized by the occupation of such tracks by cars or trains operated thereon, for a greater period than five (5) consecutive minutes at any time, and the aggregate of such periods shall not exceed ten (10) minutes in any hour between 7 o'clock a. m. and 6 o'clock p. m.

Sixteenth—Should the Company be allowed to operate at the same grade as the streets and avenues, the Company shall station flagmen at such points as shall be necessary to exclude pedestrians and vehicles from the tracks at all times when cars or trains shall be operated thereon. Should it seem necessary in the opinion of the Board at any time during the term of this contract that gates be erected, maintained and operated across any of the streets or avenues for the purpose of excluding pedestrians and vehicles from the tracks hereby authorized, then the Company shall erect, maintain and operate such gates as may be designated upon thirty (30) days' notice by the Board to the Company.

Seventeenth—As long as the said tracks or any portion thereof shall remain in the streets and avenues during the term of this contract the Company shall, at its own expense, set the curbs and pave the entire roadway and sidewalk and keep the same in permanent repair upon that portion of Nott avenue between the southeasterly side of Meadow street and the westerly side of School street, that portion of Anable avenue between the easterly side of Orton street and the westerly side of School street and those portions of Davis street, Pearson street, Creek street, Orton street, Manly street, Mount street and Anable avenue, except Anable avenue between Orton street and School street, between the tracks and the rails of the tracks hereby authorized in said streets and avenues and for a distance of two (2) feet beyond such rails on either side thereof; all of the work to be done under the supervision of the local authorities in such manner and at such time as they may prescribe. In case of the neglect of the Company to make pavement or repairs after the expiration of twenty (20) days' notice to do so from the President of the Borough of Queens, said President may make the same at the expense of the Company, and the City shall have the right to change the material or character of the pavement of any street or avenue, and in that event the Company shall be bound to replace such pavement in the manner directed by the proper City official, at its own expense, and the provisions as to repairs herein contained shall apply to such renewed or altered pavement.

Eighteenth—Should the Company be allowed to operate at the same grade as the streets and avenues, it shall at all times keep that portion of Nott avenue between the southeasterly side of Meadow street and the westerly side of School street, that portion of Anable avenue between the easterly side of Orton street and the westerly side of School street and those portions of Davis street, Pearson street, Creek street, Orton street, Manly street, Mount street and Anable avenue (except Anable avenue between Orton street and School street), between its tracks, the rails of its tracks and for a distance of two (2) feet beyond the rails, on either side thereof, free and clear from ice and snow; provided, however, that the Company shall, at the option of the President of the Borough of Queens, enter into an agreement for each winter season, or part thereof, to clean an equivalent amount of street surface from house line to house line.

Nineteenth—Should the grades or lines of the streets and avenues in which the railroad is hereby authorized be changed at any time after the railroad has been constructed and during the term of this contract, the Company shall, at its own expense, change its tracks and appurtenances to conform with such new grades and lines, and during the construction of any public improvement upon said streets or avenues the Company shall take care of and protect the tracks and appurtenances at its own expense, all to be done subject to the direction of the City official having jurisdiction over the construction of such change.

Twentieth—It is agreed that the right hereby granted to operate a railroad shall not be in preference or in hindrance to public work of the City, and should the said railroad in any way interfere with the construction of public works in the streets and avenues, whether the same is done by the City directly or by a contractor for the City, the Company shall, at its own expense, protect or move the tracks and appurtenances in the manner directed by the City officials having jurisdiction over such public work.

Twenty-first—Any alteration to the sewerage or drainage systems, or to any other subsurface or to any surface structures in the streets, required on account of the construction or operation of the railroad, shall be made at the sole cost of the Company, and in such manner as the proper City officials may prescribe.

Twenty-second—Said railroad shall be constructed and operated in the latest approved manner of railroad construction and operation, and it is hereby agreed that the Board may require the Company to improve or add to the railroad equipment, including rolling stock and railroad appurtenances, from time to time, as such additions and improvements are necessary, in the opinion of the Board. Upon failure on the part of the Company to comply with the direction of the Board within a reasonable time, the rights hereby granted shall cease and determine.

Twenty-third—The rates for carrying property upon the tracks hereby authorized shall in all cases be reasonable in amount, subject to the control of the Board, and may be fixed by the Board after notice to the Company, and a hearing had thereon, and when so fixed such rates shall be binding upon the Company, and no rates in excess of those fixed shall be charged for such service.

Twenty-fourth—The Company shall submit to the Board a report not later than November 1 of each year for the year ending September 30 next preceding and at any other time upon request of the Board, which shall give the result of the operations of the railroad during the year and such other information in regard to the business of the Company as may be required by the Board.

Twenty-fifth—The Company shall at all times keep accurate books of account of the gross receipts from all sources within the limits of the City, and shall, on or before November 1 of each year, make a verified report to the Comptroller of the City of the business done by the Company, for the year ending September 30 next preceding, in such form as he may prescribe. Such report shall contain a statement of such gross receipts, the total length of track in operation within the limits of the City and the length of track constructed and operated under this contract and such other information as the Comptroller may require. The Comptroller shall have access to all books of the Company for the purpose of ascertaining the correctness of its report, and may examine its officers under oath.

Twenty-sixth—In case of any violation or breach or failure to comply with any of the provisions herein contained, or with any orders of the Board acting under the powers herein reserved, the franchise or consent herein granted, may be forfeited by a suit brought by the Corporation Counsel, on notice of ten (10) days to the Company, or at the option of the Board by resolution of said Board, which said resolution may contain a provision to the effect that the railroad constructed and in use by virtue of this contract shall thereupon become the property of the City without proceedings at law or in equity. Provided, however, that such action by the Board shall not be taken until the Board shall give notice to the Company to appear before it on a certain day not less than ten (10) days after the date of such notice, to show cause why such resolution declaring the contract forfeited should not be adopted. In case the Company fails to appear, action may be taken by the Board forthwith.

Twenty-seventh—If the Company shall fail to give efficient public service at the rates herein provided, or fail to maintain its structures and equipment as herein provided in good condition throughout the whole term of this contract, the Board may give notice to the Company specifying any default on the part of the Company, and requiring the Company to remedy the same within a reasonable time; and upon failure of the Company to remedy such default within a reasonable time the Company shall, for each day thereafter during which the default or defect remains, pay to the City the sum of two hundred and fifty dollars ($250) as fixed or liquidated damages, or the Board, in case such structures or equipment which may affect the surface of the streets shall not be put in good condition within a reasonable time after notice by the Board as aforesaid shall have the right to make all needed repairs at the expense of the Company, in which case the Company shall pay to the City the amount of the cost of such repairs, with legal interest thereon, all of which sums may be deducted from the fund hereinafter provided for.

Twenty-eighth—The Company shall assume all liability to persons or property by reason of the construction or operation of the railroad authorized by this contract, and it is a condition of this contract that the City shall assume no liability whatsoever to either persons or property on account of the same, and the Company hereby agrees to repay to the City any damage which the City shall be compelled to pay by reason of any acts or default of the Company.

Twenty-ninth—This grant is upon the express condition that the Company, within thirty (30) days after the signing of this contract by the Mayor, and before anything is done in exercise of the rights conferred hereby, shall deposit with the Comptroller of the City the sum of ten thousand dollars ($10,000), either in money or securities, to be approved by him, which fund shall be security for the performance by the Company of all of the terms and conditions of this contract and compliance with all orders of the Board acting under the powers herein reserved, especially those which relate to the payment of the annual charges for the privilege hereby granted, the rendering of efficient public service at reasonable rates, the repairs of the street pavement, the removal of snow and ice, the quality of construction of the railroad, and the maintenance of the property in good condition throughout the whole term of this contract; and in case of default in the performance by the Company of such terms and conditions, or compliance with such orders or either or any of them, the City shall have the right to cause the work to be done and the materials to be furnished for the performance thereof after due notice, and shall collect the reasonable cost thereof from the said fund without legal proceedings; or after default in the payment of the annual charges, shall collect the same, with interest, from the said fund after ten (10) days' notice to the Company; or in case of failure to observe the said terms and conditions of this contract and orders of the Board acting hereunder relating to the obstruction of traffic and the maintenance of gates and flagmen, the Company shall pay a penalty of fifty dollars per day for each day of violation, all of which sums may be deducted from said fund.

The procedure for the imposition and collection of the penalties in this contract shall be as follows:

The Board, on complaint made, shall give notice to the Company, directing its President, or other officer, to appear before the Board on a certain day not less than ten (10) days after the date of such notice, to show cause why the Company should not be penalized in accordance with the foregoing provisions. If the Company fails to make an appearance, or, after a hearing appears in the judgment of the Board to be in fault, said Board shall forthwith impose the prescribed penalty, or where the amount of the penalty is not prescribed herein, such amount as appears to the Board to be just, and without legal procedure direct the Comptroller to withdraw the amount of such penalty from the security fund deposited with him. In case of any drafts made upon the security fund the Company shall, upon ten (10) days' notice pay to the City a sum sufficient to restore said security fund to the original amount of ten thousand dollars ($10,000), and in default thereof this contract shall be cancelled and annulled at the option of the Board, acting in behalf of the City. No action or proceeding or right under the provisions of this contract shall affect any other legal rights, remedies or causes of action belonging to the City.

Thirtieth—The grant of this privilege is subject to whatever right, title or interest the owners of abutting property or others may have in and to the streets and avenues in which the Company is hereby authorized to operate.

Thirty-first—The Company hereby agrees that it will not institute any proceedings to acquire by condemnation any land, property, appurtenances or rights pursuant to any law, unless and until permitted to do so by resolution of the Board, otherwise this grant shall cease and determine.

Thirty-second—The words "notice" or "direction," wherever used in this contract, shall be deemed to mean a written notice or direction. Every such notice or direction to be served upon the Company shall be delivered at such office in the City as shall have been designated by the Company, or if no such office shall have been designated, or if such designation shall have for any reason become inoperative, shall be mailed in the City, postage prepaid, addressed to the Company at the City. Delivery or mailing of such notice or direction as and when above provided shall be equivalent to direct personal notice or direction, and shall be deemed to have been given at the time of delivery or mailing.

Thirty-third—If at any time the powers of the Board or any other of the authorities herein mentioned or intended to be mentioned, shall be transferred by law to any other board, authority, officer or officers, then and in such case such other board, authority, officer or officers shall have all the powers, rights and duties herein reserved to or prescribed for the Board or other authorities, officer or officers.

Sec. 3. Nothing in this contract shall be construed as in any way limiting the present or future jurisdiction of the Public Service Commission under the Laws of the State of New York.

Sec. 4. The Company promises, covenants and agrees on its part and behalf to conform to and abide by and perform all the terms, conditions and requirements in this contract fixed and contained.

In witness whereof, the party of the first part, by its Mayor, thereunto duly authorized by the Board of Estimate and Apportionment of said City, has caused the corporate name of said City to be hereunto signed and the corporate seal of said City to be hereunto affixed; and the party of the second part, by its officers, thereunto duly authorized, has caused its corporate name to be hereunto signed and its corporate seal to be hereunto affixed, the day and year first above written.

NOTICE TO BIDDERS AT SALES OF OLD BUILDINGS, ETC.

TERMS AND CONDITIONS UNDER WHICH BUILDINGS, ETC., WILL BE SOLD FOR REMOVAL FROM CITY PROPERTY.

THE BUILDINGS AND APPURTENANCES thereto will be sold to the highest bidder, who must pay cash or certified check, drawn to the order of the Comptroller of The City of New York, and must also give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. Where the amount of the purchase price does not equal or exceed the sum of $50, the sum of $50 shall be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract, but unfinished at the expiration of the contract period.

The purchaser shall not lease, occupy, cause or permit the building or buildings, etc., purchased by him to be used or occupied for any purpose other than that of their speedy removal, nor shall he collect any rental or other revenue for the use of either the land or the buildings, etc., situated thereon. The breach of either or any of these conditions shall forthwith void the sale and cause immediate forfeture of the purchase money and the security deposited for the faithful performance of the conditions of the sale. The placing therein or permitting the occupancy of any such building by any tenant free, for rent or otherwise, excepting the necessary watchmen or the workmen engaged in the actual demolition thereof, shall of itself be a breach of the above conditions of sale.

The sale will be as of the condition of the property on date of delivery thereof to the purchaser. The City of New York will not be responsible for any change or loss which may occur in the condition of the buildings, or their appurtenances between the time of the sale thereof and the time of delivering possession to the purchaser, after being properly vacated of all tenants. The sale and delivery to purchaser will be made as nearly together as the circumstances of vacating the structures of their tenants will permit.

All the material of the buildings, sheds, walks, structures and cellars of whatsoever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds, except the exterior walls of the buildings and their foundations and the sidewalks and curb in front of said buildings, extending within the described area shall be torn down and removed from the premises. None of the dirt, debris or waste resulting from demolition shall be allowed to remain on the premises, except old mortar or plaster only, which may be left, but not higher at any point than two feet below the curb opposite that point. The exterior walls and their foundations shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building. Where there is no curb the elevation of the surrounding ground shall be considered curb level. All wells, cesspools, sinks, etc., existing on the property must be filled to the level of the surrounding ground with clean earth.

The purchaser at the sale shall also withdraw and remove all abandoned water taps and old service mains, and in place thereof cause to be inserted a brass plug in the main water pipe in the street, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and furnish the Department of Finance with a certificate from the Department of Water Supply, Gas and Electricity that this has been performed.

The purchaser at the sale shall also remove all house sewer connections to the main sewer in the street, and the opening of the main sewer in street shall be properly closed in compliance with the directions of the Bureau of Sewers in the Borough in which the buildings are situated, and furnish the Department of Finance with a certificate from the Bureau of Sewers that the work has been properly performed.

The permit for all opening in the street to be obtained by and at the expense of the purchaser of the building.

Failure to remove said buildings, appurtenances, or any part thereof, within thirty days from the day of possession will work forfeiture of ownership of such buildings, appurtenances, or portion as shall then be left standing, together with all moneys paid by said purchaser on account thereof at the time of the sale, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and The City of New York will, without notice to the purchaser, cause the same to be removed, and the cost and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and must be completed within thirty days from the day of possession, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damage and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of said buildings.

Where party walls are found to exist between buildings purchased by different bidders, the materials of said party walls shall be understood to be equally divided between the separate purchasers.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down. All furrings, plaster, chimneys, projecting brick, etc., on the faces of such party walls are to be taken down and removed. The walls shall be made permanently self-supporting, beamholes, etc., bricked up, and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs and adjacent buildings shall be properly flashed and painted and made watertight where they have been disturbed by the operations of the Contractor.

The Comptroller of The City of New York reserves the right on the day of sale to withdraw from sale any of the buildings, parts of buildings and machinery included therein, or to reject any and all bids; and it is further

Resolved, That, while the said sale is held under the supervision of the Commissioners of the Sinking Fund, the Comptroller is authorized to cause the sale to be advertised and to direct the sale thereof as financial officer of the City.
