“Compete To Win” More Contracts!

Thanks to a new City initiative - “Compete To Win” - the NYC Department of Small Business Services offers a new set of FREE services to help create more opportunities for minority and Women-Owned Businesses to compete, connect and grow their business with the City. With NYC Construction Loan, Technical Assistance, NYC Construction Mentorship, Bond Readiness, and NYC Teaming services, the City will be able to help even more small businesses than before.

● **Win More Contracts, at nyc.gov/competetowin**

“The City of New York is committed to achieving excellence in the design and construction of its capital program, and building on the tradition of innovation in architecture and engineering that has contributed to the City’s prestige as a global destination. The contracting opportunities for construction/construction services and construction-related services that appear in the individual agency listings below reflect that commitment to excellence.”

HHS ACCELERATOR

To respond to human services Requests for Proposals (RFPs), in accordance with Section 3-16 of the Procurement Policy Board Rules of the City of New York (“PPB Rules”), vendors must first complete and submit an electronic prequalification application using the City’s Health and Human Services (HHS) Accelerator System. The HHS Accelerator System is a web-based system maintained by the City of New York for use by its human services Agencies to manage procurement. The process removes redundancy by capturing information about boards, filings, policies, and general service experience centrally. As a result, specific proposals for funding are more focused on program design, scope, and budget.

Important information about the new method

- Prequalification applications are required every three years.
- Documents related to annual corporate filings must be submitted on an annual basis to remain eligible to compete.
- Prequalification applications will be reviewed to validate compliance with corporate filings, organizational capacity, and relevant service experience.
- Approved organizations will be eligible to compete and would submit electronic proposals through the system.

The Client and Community Service Catalog, which lists all Prequalification service categories and the NYC Procurement Roadmap, which lists all RFPs to be managed by HHS Accelerator may be viewed, at <http://www.nyc.gov/html/hhsaccelerator/html/roadmap/roadmap.shtml>. All current and prospective vendors should frequently review information listed on roadmap to take full advantage of upcoming opportunities for funding.

Participating NYC Agencies

HHS Accelerator, led by the Office of the Mayor, is governed by an Executive Steering Committee of Agency Heads who represent the following NYC Agencies:

- Administration for Children’s Services (ACS)
- Department for the Aging (DFTA)
- Department of Consumer Affairs (DCA)
- Department of Corrections (DOC)
- Department of Health and Mental Hygiene (DOHMH)
- Department of Homeless Services (DHS)
- Department of Probation (DOP)
- Department of Small Business Services (SBS)
- Department of Youth and Community Development (DYCD)
- Housing and Preservation Department (HPD)
- Human Resources Administration (HRA)
- Office of the Criminal Justice Coordinator (CJC)

Pursuant to City Environmental Quality Review (CEQR), Mayoral Executive Order No. 91 of 1977, CEQR Rules of Procedure of 1991 and the regulations of Article 8 of the State Environmental Conservation Law, State Environmental Quality Review Act (SEQRA) as found in 6 NYCRR Part 617, a Draft Environmental Impact Statement (DEIS) has been prepared for the action described below. Copies of the DEIS are available for public inspection at the office of the undersigned as well as available online at www.nyc.gov/planning. The proposal involves actions by the City Planning Commission and Council of the City of New York pursuant to Uniform Land Use Review Procedures (ULURP). A public hearing on the DEIS will be held at a later date to be announced, in conjunction with the City Planning Commission's citywide public hearing pursuant to ULURP. Advance notice will be given of the time and place of the hearing. Written comments on the DEIS are requested and would be received and considered by the Lead Agency until the 10th calendar day following the close of the public hearing.

Franklin Ave. Acquisition LLC ("the Applicant") is requesting several discretionary actions that would facilitate the development of two mixed-use buildings comprising approximately 1,369,314 gross square feet (gsf) (1,151,671 (zsf) mixed-use commercial/residential development on the block bound by Montgomery Street, Franklin Avenue, Sullivan Place, and Washington Avenue, on the eastern side of the Franklin Avenue subway shuttle right-of-way, in the Crown Heights neighborhood of Brooklyn Community District (CD) 9. The site is comprised of Brooklyn Block 1192, Lots 41 (130 Montgomery Street), 46, 63 (124 Montgomery Street), and 66 (972 Franklin Avenue) (the "Development Site"), while the Proposed Rezoning Area also includes Lot 40 (122A Montgomery Street) and parts of Lot 1 (a portion of the MTA's Franklin Avenue subway shuttle right-of-way), Lot 77 (1015 Washington Avenue) and Lot 85 (1035 Washington Avenue) ("the Project Area").

The Proposed Actions, consisting of zoning map and text amendments, as well as a Large Scale General Development (LSGD) special permit, and special permit to waive parking are being requested as outlined below.

1. Zoning map amendment, which would rezone the Project Area from R6A to R9D and R9D/C2-4 (within 100 feet of Franklin Avenue).
2. Zoning text amendment to the Zoning Resolution (ZR) to designate the Project Area as a Mandatory Inclusionary Housing (MIH) area would require the construction of permanently affordable residential units on the Project Site.
3. Special Permit pursuant to ZR section 74-74, "Large-Scale General Development" would seek to modify location of buildings on the Development Site without regard to applicable height and setback regulations, the distance between buildings, and yard regulations. The LSGD special permit seeks to waive certain tower coverage requirements in R9D districts per the ZR.
4. Special Permit pursuant to ZR section 74-533, "Reduction of Parking Spaces to Facilitate Affordable Housing," to waive the parking requirements per ZR section 25-23, "Requirements Where Group Parking Facilities Are Provided." Per the site's proposed zoning, parking would be required for 40 percent of the non-income restricted units, with approximately 442 required parking spaces. Parking spaces for approximately 16 percent of all market-rate DUs are proposed. As such, approximately 314 parking spaces would be waived by the requested special permit.

The project approvals would also require recordation of a Restrictive Declaration (RD), Public Access Agreement (PAA) and (E) Designation. Although not known at this time, the Proposed Development may also involve the use of public financing for the development of permanently affordable housing from the New York City Department of Housing Preservation and Development (HPD), the New York State Housing Finance Agency (HFA), or other governmental or private sources.

The Proposed Actions would facilitate the development of the 120,209 sf (approximately 2.76-acre) Development Site with an approximately 1,369,314 gsf (1,151,671 zsf) mixed-use development (the "Proposed Development"). The Applicant anticipates that the Proposed Development would comprise 1,263,039 gsf of residential uses, introducing a total of 1,578 dwelling units, including either 25 percent of the total units set aside pursuant to Option 1 of the City's MIH program (395 units of affordable housing with an average 60 percent AMI, or \$46,620 per year for a family of three), or 30 percent of the total units set aside pursuant to Option 2 of the City's MIH program (473 units of affordable housing with an average of 80 percent AMI, or \$62,150 per year for a family of three). In addition to the proposed residential component, approximately 21,183 gsf of local retail space and approximately 9,678 gsf of community facility space would be provided. Parking spaces for approximately 16 percent of market-rate DUs would be allocated in two separate parking garages on the

ground- and cellar-levels of the Proposed Development. The accessory parking garages would be accessed via a curb cut on Franklin Avenue, and a curb cut located on Montgomery Street. Additionally, secondary access into the parking garages would be provided via the proposed internal roadway, which would have a driveway located between the two proposed buildings.

It is expected that the Proposed Development would be constructed over an approximately four-year period following project approval, with completion and occupancy expected to occur in 2024.

The DEIS assesses whether development resulting from the Proposed Actions could result in significant adverse environmental impacts. The DEIS identifies potential significant adverse impacts related to community facilities (child care), open space (direct shadow effects), shadows (on sunlight-sensitive open space), natural resources (direct shadows effects), transportation (traffic and pedestrian), and construction (transportation and noise).

Child Care Impacts: The Proposed Actions would result in significant adverse impacts on publicly funded child-care centers. According to the *CEQR Technical Manual*, a significant adverse child-care center impact could result if an action results in: (1) a collective utilization rate greater than 100 percent in the With-Action condition; and (2) the demand constitutes an increase of five percent or more in the collective capacity of child-care centers serving the study area over the No-Action condition. Under the RWDCS, the Proposed Development would introduce approximately 84 children potentially eligible for subsidized child-care to the study area. The analysis of publicly funded child-care services found that under the With-Action condition the child-care study area would experience a utilization rate of 104.2 percent, an increase of 5.6 percentage points over No-Action conditions. As such, the Proposed Actions would result in significant adverse impacts on publicly funded child-care facilities. As a possible mitigation measure, the Applicant has stated a willingness to provide child-care facility capacity, which would constitute a possible mitigation measure to this impact. Conversely, the Applicant could pay the City to provide nine child-care slots off-site to ensure that the Proposed Actions do not result in impacts to child-care services. Alternatively, the impact could be eliminated by reducing the Proposed Project from 1,578 total DUs (with 474 affordable DUs through the MIH Program) to 1,404 DUs (with 421 affordable DUs through the MIH Program), a reduction of 53 affordable DUs. The impact to child-care centers would occur above the 421st affordable unit through the MIH Program. This impact would therefore not occur until the construction the Phase II Building, which is expected to be completed in the 2024 build year. Consideration of providing additional child-care facility capacity and/or other measures is being explored in consultation with the Administration of Children's Services (ACS) and will be further explored between the DEIS and FEIS.

Open Space, Shadows, and Natural Resources Impacts: The Proposed Development would result in significant adverse impacts due to direct shadows effects on open space and natural resources in Brooklyn Botanic Garden and on open space resources in Jackie Robinson Playground. Incremental shadows from the Proposed Development would be cast over several of the affected greenhouses in the Brooklyn Botanic Garden, used to propagate plants for desert, tropical, and warm temperate climates that require full, year-round sun including sunlight during the important winter months. Therefore, due to the incremental shadows created by the Proposed Development, significant adverse impacts are likely to occur on the natural resources found within Brooklyn Botanic Garden. The Applicant has identified a 34-story version of the development that reorients the buildings bulk as a possible mitigation measure that would feature the same density as the Proposed Development. The 34-story development would result in a limited reduction to incremental shadows on all sunlight-sensitive resources on all analysis days. Incremental shadows from the Proposed Development would also result in a significant shadows impact at Jackie Robinson Playground due the size and duration of incremental shadow over the open space. Due to the proximity of Jackie Robinson Playground to the Proposed Development, no feasible mitigation measures could be identified for Jackie Robinson Playground at this time.

Consideration of other measures that could provide full or partial mitigation at these sunlight-sensitive resources are being explored by the applicant in consultation with DCP and NYC Parks, and will be further explored between the DEIS and FEIS.

Transportation Impacts: The Proposed Actions would result in significant adverse impacts at one study area intersection during one or more analyzed peak hour; specifically, two lane groups at one intersection during the weekday A.M., weekday P.M., and Saturday midday peak hours. Implementation of traffic engineering improvements, such as signal timing changes would provide mitigation for most of the anticipated traffic impacts. All significant adverse impacts would be fully mitigated during the weekday AM, weekday PM, and Saturday midday peak hours.

Incremental demand from the Proposed Development would result in significant adverse impacts to the north crosswalk at Washington Avenue and Empire Boulevard in all four peak hours. These impacts could be fully mitigated by implementing a flared crosswalk.

Implementation of the recommended traffic engineering and pedestrian improvements is subject to review and approval by the New York City Department of Transportation (DOT) and will be further refined between the DEIS and FEIS. If, prior to implementation, DOT determines that an identified mitigation measure is infeasible, an alternative mitigation measure will be identified, if possible. In the absence of the application of mitigation measures, the impacts would remain unmitigated.

Construction-related Impacts: Six lane groups are expected to have the potential for significant adverse traffic impacts as a result of construction activities in the 3 to 4 peak hour, namely the northbound left-through and southbound left at Eastern Parkway & Washington Avenue, the westbound left at Washington Avenue & Empire Boulevard, the southbound right at Franklin Avenue & Empire Boulevard, the southbound through-right at Franklin Avenue & Sullivan Place, and the westbound left-right at Washington Avenue & Carroll Street.

Significant adverse impacts at the intersections of Washington Avenue & Empire Boulevard, and Franklin Avenue & Empire Boulevard could be fully mitigated through traffic engineering improvements (signal timing changes). Significant adverse impacts at three intersections (Eastern Parkway & Washington Avenue, Franklin Avenue & Sullivan Place, and Washington Avenue & Carroll Street) could not be mitigated. Implementation of the recommended traffic engineering improvements is subject to review and approval by DOT prior to implementation. If, prior to implementation, DOT determines that an identified mitigation measure is infeasible, an alternative mitigation measure may be identified. In the absence of the application of mitigation measures, the impacts would remain unmitigated.

The proposed actions would result in significant adverse construction noise impacts at several locations throughout the surrounding area including the Jackie Robinson Playground, the Brooklyn Botanic Garden and portions of the following existing residential buildings: 921, 941, 961, 975, 995, 1015 and 1035 Washington Avenue; 12 Crown Street; 1720 Bedford Avenue; and 104 and 109 Montgomery Street. The No-Action development site at 54 Crown Street may also experience significant adverse construction noise impacts.

Mitigation measures have been identified which would partially mitigate the significant adverse impact related to construction noise. The City will require a noise mitigation plan, as required by the New York City Noise Control Code, for the Proposed Development prior to the start of work that would outline the ways the contractor intends to lessen the noise from each type of construction equipment—for example, contractors could state that jackhammers would be outfitted with noise-reducing mufflers and/or portable street barriers would be installed to reduce the sound impact on the area. Every construction site must have a noise mitigation plan on location at the time of construction. Additionally, in order to reduce construction noise levels and dust at surrounding residential properties, the Applicant would commit to providing an 8-foot-high perimeter noise wall that would be lined with quilted fiberglass to improve sound absorption.

These commitments would constitute partial mitigation and would be memorialized in an enforceable legal mechanism such as a Restrictive Declaration. Additional mitigation measures will be explored further by the Applicant in consultation with the lead agency between the DEIS and FEIS. If no additional feasible mitigation measures have been identified, the impacts would be considered unmitigated.

The DEIS considers two alternatives: the No Action Alternative and the No Unmitigated Impact Alternative. The No-Action Alternative examines future conditions within the Project Area, but assumes the absence of the Proposed Actions (i.e., none of the discretionary approvals proposed as part of the Proposed Actions would be adopted). The No-Action Alternative would avoid significant adverse impacts particularly related to transportation and construction, but would not meet the goals and objectives of the Proposed Development. The No Unmitigated Impacts Alternative examines a scenario in which the density and other components of the Proposed Development are changed specifically to avoid the unmitigated significant adverse impacts associated with the Proposed Development. Overall, in order to eliminate all unmitigated significant adverse impacts, the Proposed Development would have to be modified to a point where the principal goals and objectives would not be realized.

Copies of the DEIS may be obtained from the Environmental Assessment and Review Division, New York City Department of City Planning, 120 Broadway, 31st Floor, New York, NY 10271, Olga Abinader, Director (212) 720-3493; and on the New York City Department of City Planning's website, located at, <https://www1.nyc.gov/site/planning/applicants/env-review/960-franklin.page>.
