Leaving balance on contract \$32,676 10

There has been no extra expense incurred in the erection of the work, except an item of \$265 for bricking up openings in Eighth Regiment Armory wall, which was ordered by a resolution of your Board. This, added to the balance on contract, makes a total of \$32,941.10, from which should be deducted one per cent. of the contract price (\$1,316.79), under a provision of the contract, until the heating apparatus is accepted, after being tested for one winter season, leaving an amount of thirty-one thousand six hundred and twenty-four dollars and thirty-one cents (\$31,624.31).

Under a provision of the contract the contractor is to guarantee the roofs from leakage for a period of three years. This guarantee should be by a bond given to the chief financial officer of the City at the time of the payment of this last certificate, or by his retaining a sufficient amount to secure the City from loss.

I am, very respectfully yours, JOHN R. THOMAS, Architect.

The President of the Department of Taxes and Assessments called the attention of the Board to the subject of penalty for over-time on the contract with Mr. Johnson, and stated that the contract was dated March 7, 1894, and twelve months was specified as the time for its completion, and that the contractor had overrun his time some ten weeks. That, from his experience with the work, the contractor had been delayed by strikes of iron and marble workers. That the contractor has been apparently conscientious in the discharge of his duties and there has been no unnecessary delay on his part. That the building is a creditable result, and therefore recommend for consideration the following:

Resolved, That the time for the completion of the Armory Building on Madison avenue, between Ninety-fourth and Ninety-fifth streets, be extended to June 4, 1895.

Which was adopted by the following vote: Ayes—The Mayor, the President of the Department of Taxes and Assessments, the Commissioner of Public Works, Brigadier-General Fitzgerald and Colonel Seward.

General Fitzgerald offered the following:

Resolved, That the Armory Building on Madison avenue, between Ninety-fourth and Ninety-fifth streets, constructed by John F. Johnson under contract dated March 7, 1894, be and the same is formally accepted, and the contractor and architect relieved of any further responsibility in regard to the same except as provided in the contract with said contractor; that one per cent. of the amount of the contract be retained until "the perfect working and efficiency of the steam-heating apparatus has been tested during the winter following the completion of the building," and the warranty for "the roof not to leak for three years after its completion," and a guarantee for the same, to be provided for as the Comptroller may deem fit and proper.

Which was adopted by the following vote: Ayes—The Mayor, the President of the Department of Taxes and Assessments, the Commissioner of Public Works, Brigadier-General Fitzgerald and Colonel Seward.

The Secretary laid before the Board the voucher of John F. Johnson for final payment on account of his contract, amounting to thirty-one thousand three hundred and fifty-nine dollars and thirty-one cents (\$31,359.31), duly certified by the Architect.

The Commissioner of Public Works offered the following:

Resolved, That the Comptroller be authorized to pay to John F. Johnson the sum of thirty-one thousand three hundred and fifty-nine dollars and thirty-one cents (\$31,359.31), as per accompanying voucher, in full for his contract (excepting one per cent. reservation for guaranteeing the steam-heating apparatus), for the erection of an armory building on Madison avenue, between Ninety-fourth and Ninety-fifth streets.

Which was adopted by the following vote: Ayes—The Mayor, the President of the Department of Taxes and Assessments, the Commissioner of Public Works, Brigadier-General Fitzgerald, and Colonel Seward.

The Secretary laid before the Board a bill of John F. Johnson, contractor, for extra work, amounting to two hundred and sixty-five dollars (\$265.00), the same having been authorized by the Board.

Colonel Seward offered the following:

Resolved, That the bill of John F. Johnson, for extra work on the armory on Madison avenue, between Ninety-fourth and Ninety-fifth streets, in excess of the contract price, be audited and allowed, as follows: For bricking up window openings in the Eighth Regiment Armory, adjoining Troop "A" Armory, as per order, March 7, 1895, two hundred and sixty-five dollars (\$265).

Resolved, That the Comptroller be authorized to pay to John F. Johnson the sum of two hundred and sixty-five dollars (\$265) for extra work on the armory building on Madison avenue, between Ninety-fourth and Ninety-fifth streets, and that the Commissioners of the Sinking Fund be requested to concur in same.

Which was adopted by the following vote: Ayes—The Mayor, the President of the Department of Taxes and Assessments, the Commissioner of Public Works, Brigadier-General Fitzgerald, and Colonel Seward.

The following communication was received from the Architect:

NEW YORK CITY, May 22, 1895. To the Board of Armory Commissioners of the City of New York:

GENTLEMEN—I herewith present my bill for amount of \$1,267.16, balance due for professional fees in the erection of Troop "A" Armory, and request that you pass a resolution for its payment.

The President of the Department of Taxes and Assessments offered the following:

Resolved, That the Comptroller be authorized to pay to John R. Thomas, Architect, the sum of twelve hundred and sixty-seven dollars and sixteen cents (\$1,267.16), as per accompanying voucher, in full for professional services in the erection of the armory building on Madison avenue, between Ninety-fourth and Ninety-fifth streets, under contract with John F. Johnson dated March 7, 1894, and that the Commissioners of the Sinking Fund be requested to concur in the same.

Which was adopted by the following vote: Ayes—The Mayor, the President of the Department of Taxes and Assessments, the Commissioner of Public Works, Brigadier-General Fitzgerald, and Colonel Seward.

On motion, adjourned.

E. P. BARKER, Secretary.

The award of the contract will be made as soon as practicable after the opening of the bids.

No bid or estimate will be accepted from, or contract awarded to, any person who is in arrears to the Corporation upon debt or contract, or who is a defaulter as surety or otherwise upon any obligation to the Corporation.

Each bid or estimate shall contain and state the name and place of residence of each of the persons making the same; the names of all persons interested with him or them therein; and if no other person be so interested, it shall distinctly state that fact; that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud; and that no member of the Common Council, head of a department, chief of a bureau, deputy thereof or clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of this contract, over and above all his debts of every nature, and over and above his liabilities as bail, surety or otherwise; and that he has offered himself as a surety in good faith and with the intention to execute the bond required by law. The adequacy and sufficiency of the security offered is to be approved by the Comptroller of the City of New York before the award is made and prior to the signing of the contract.

No estimate will be considered unless accompanied by either a certified check upon one of the banks of the City of New York, drawn to the order of the Comptroller, or money to the amount of six hundred (\$600) dollars. Such check or money must not be inclosed in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the estimate-box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same within three days after the contract is awarded. If the successful bidder shall refuse or neglect within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited and retained by the City of New York, as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid, the amount of his deposit will be returned to him.

Should the person or persons to whom the contract may be awarded neglect or refuse to accept the contract within five days after written notice that the same has been awarded to his or their bid or proposal, or if he or they accept, but do not execute the contract and give the proper security, he or they shall be considered as having abandoned it and as in default to the Corporation, and the contract will be readvertised and relet as provided by law.

The form of the agreement, with specifications, showing the manner of payment for the work, may be seen, and forms of proposals may be obtained at the office of the Department.

Bidders must write out the amount of their estimate in addition to inserting the same in figures.

The hose is to be delivered within ninety (90) days after the execution of the contract.

The award of the contract will be made as soon as practicable after the opening of the bids.

Any person making an estimate for the hose shall present the same in a sealed envelope to said Board, at said office, on or before the day and hour above named, which envelope shall be indorsed with the name or names of the person or persons presenting the same, the date of its presentation and a statement of the work to which it relates.

The Fire Department reserves the right to decline any and all bids or estimates if deemed to be for the public interest. No bid or estimate will be accepted from, or contract awarded to, any person who is in arrears to the Corporation upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

Each bid or estimate shall contain and state the name and place of residence of each of the persons making the same; the names of all persons interested with him or them therein; and if no other person be so interested, it shall distinctly state that fact; that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud; and that no member of the Common Council, head of a department, chief of a bureau, deputy thereof or clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof. several matters stated therein are in all respects true. Where more than one person is interested, it is requisite that the verification be made and subscribed by all the parties interested.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders of the City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person making the estimate, they will, on its being so awarded, become bound as sureties for its faithful performance in the sums specified in the several forms of contracts, which are as follows:

For 10,000 feet 2 1/2-inch hose, Eureka brand... \$4,500 00

—and that if he shall omit or refuse to execute the same, they will pay to the Corporation any difference between the sum to which he would be entitled on its completion and that which the Corporation may be obliged to pay to the person or persons to whom the contract may be awarded at any subsequent letting; the amount in each case to be calculated upon the estimated amount of the work by which the bids are tested. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of this contract, over and above all his debts of every nature, and over and above his liabilities as bail, surety or otherwise; and that he has offered himself as a surety in good faith and with the intention to execute the bond required by law. The adequacy and sufficiency of the security offered is to be approved by the Comptroller of the City of New York before the award is made and prior to the signing of the contract.

No estimate will be considered unless accompanied by either a certified check upon one of the banks of the City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the security required upon the contract. Such check or money must not be inclosed in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the estimate-box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. Such check or money must not be inclosed in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the estimate-box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. OPINIONS.

The reports of previous years, as well as of this, show that the preparation of opinions, at the request of the heads of the various departments and boards, is a very important branch of the Department's work. These opinions cover an immense field and wide range of subjects, frequently involving prolonged study.

During the year 1894 written opinions were given on request, as indicated below:

Comptroller	172
Commissioner of Public Works	48
Dock Commissioners	6
Park Commissioners	2
The Mayor	9
Police Commissioners	11
Commissioner of Street Cleaning	7
Board of Street Opening	8
Commissioners of Public Charities and Correction	7
Common Council	3
Board of Assessors	6
Commissioners of Taxes and Assessments	9

Commissioner of Street Improvements of the Twenty-third and Twenty-fourth Wards.....	4
Miscellaneous.....	44

Total..... 336

5,123 pages of press copying was required for the opinions and other correspondence of the Department during the year.

There were received from the Police Department 84 reports of accidents, which were examined into and filed.

There were received from the Finance Department 289 requests for the examination of claimants, in 234 of which oral examinations, under oath, were conducted. The circumstance that only 234 claimants were examined, when 289 requests for examination were received, is principally explained by the fact that a large number of the claims filed were in mechanics' liens cases and in assessment matters, where, all the facts being already within the knowledge of the City's officers, examinations were not necessary.

THE BUREAU OF STREET OPENINGS.

This Bureau has general charge of proceedings to acquire title to lands required for streets and of such other proceedings involving awards for damages or assessments for benefits to lands as may be assigned to it by the Counsel to the Corporation.

It was added to the Law Department as an additional bureau by chapter 158 of the Laws of 1893.

The cost of maintaining this bureau is divided among the different proceedings which it may have in charge, and is included in the assessments for benefit as a part of the expenses of the improvements, so that work of this character is done without expense to the general body of taxpayers, the burden being borne by the property deemed specially benefited by the improvements.

The following is a summary of the work of this Bureau:

The land for 39 new streets was acquired—in 35 by a separate condemnation proceeding in each case and in 4 by cessions from the property-owners.

The length of these 35 streets was 43,187.42 lineal feet, and of the 4 streets 3,741.52 lineal feet, making the total length of streets opened during the year 46,928.94 lineal feet, or a distance of 8.88 miles.

This is the greatest length of streets ever opened in this city in any one year.

In one case a proceeding to open a street 4,951.50 lineal feet in length was discontinued.

The amount of awards was as follows:

In proceedings where the reports were confirmed.....	\$2,250,172 35
In which the costs amounted to.....	34,739 68

In addition abstracts of estimate and assessment were completed in 11 separate proceedings. Although the reports had not been confirmed at the end of the year in these eleven cases, most of the work involved had been finished.

The awards proposed to be made in those cases amount to \$1,011,716.21.

The amount of assessments in proceedings that have been confirmed during the year was \$2,217,871.23, and in proceedings in which abstracts had been filed and reports had not been confirmed \$920,465.26.

36 proceedings were finally disposed of, 4 appeals determined and 2 additional appeals were argued but not decided.

2161 meetings of Commissioners were held during the year.

THE BUREAU OF THE PUBLIC ADMINISTRATOR.

The business transacted by this bureau during the year 1894 may be summarized as follows:

Estates reported and investigated.....	433
Estates upon which letters of administration have been granted.....	332
Estates now in the bureau held subject to trusts contained in wills.....	2
Estates in which the accounts of the proceedings of the Public Administrator have been judicially settled and allowed by the Surrogate, and estates distributed pursuant to his decree.....	104
Estates closed during the year under the Laws of 1887, providing for the settlement of estates under \$250 without judicial decree.....	70
Estates of little value received from the Coroners' Office and from the Commissioners of Public Charities and Correction and paid directly into the City Treasury.....	736
Cases in which objections were filed to the accounts above mentioned.....	2
Actions commenced in courts of record by or against the Public Administrator.....	13
Proceedings now pending to determine the validity of rejected claims.....	5
Cases in which citations were served on the Public Administrator to attend the probate of a last will and testament where his appearance was noted.....	26
Notices served on hotel or boarding-house keepers, undertakers and others, pursuant to law.....	1,010

The Public Administrator also reports that no reference is now pending before a referee relating to the question of kinship, although there have been several such references during the year, and that all reports and returns to the Comptroller, Common Council, Board of Aldermen and to the Supervisor of the City Record have been rendered.

The amount disbursed to creditors, next of kin and for expenses of Administration since letters were issued upon estates settled under decree of Court and upon estates closed pursuant to law was.....

The amount paid the City Chamberlain for commissions was.....	\$135,157 85
The amount paid the City Treasurer for the account of intestate estates was.....	8,037 96
The amount collected and received, exclusive of stocks, bonds, etc., was.....	3,824 09
	218,320 17

The amount disbursed was.....	\$192,807 09
The balance on hand at the end of the year and deposited in National banks was.....	315,633 67

The annual report for 1894 with full details filed with the Board of Aldermen, pursuant to law, as well as the monthly reports to the same body and previously filed, give the foregoing facts itemized.

THE BUREAU OF THE CORPORATION ATTORNEY.

At this bureau 43,108 complaints were received, upon 5,043 of which no action could be taken for want of jurisdiction.

Suit was brought upon 18,137 complaints, but nothing was done as to the remaining 19,928, for the reason that in many cases these complaints were duplicates, or had not been reached in their regular order, or police officers making the reports had been retired from the police force so that no evidence was obtainable.

7,745 suits were commenced (in many cases 1 suit covers several complaints), 463 were prosecuted to judgment, 731 settled and 5,208 dismissed. In 970 the defendant could not be found and in 275 decision was reserved.

62 complaints for failure to file the surveyor's certificates in connection with the building of vaults were received from the Department of Public Works.

In all of these cases the delinquents were compelled to comply with the ordinance.

84 bastardy cases were prosecuted to judgment: 37 were dismissed, there being no cause of action; 31 were withdrawn by the Commissioners of Public Charities and Correction and 25 were withdrawn upon the marriage of the parties.

In 9 bastardy cases conviction was affirmed on appeal; in 1 case it was reversed and 1 case is pending.

4 actions of bastardy bonds were prosecuted to judgment.

7 abandonment cases were also prosecuted to judgment and convictions in 10 cases were affirmed on appeal. 17 such cases were withdrawn by the Commissioners of Public Charities and Correction, 1 case on appeal was discontinued and in 2 cases orders were vacated on appeal.

12 actions on abandonment bonds were prosecuted to judgment, in 1 case only was the judgment for the defendant; 2 such actions are pending, and 5 have been discontinued.

6 actions were brought to compel children to support aged parents.

13 actions were brought to collect fees of Inspectors and Sealers of Weights and Measures.

2 ordinance cases on appeal were discontinued; 5 were appealed by the plaintiffs to the General Term of the Court of Common Pleas; 7 cases on appeal are pending, and 1 case was appealed by the defendant to the Court of Appeals.

The amount collected from all sources by the Corporation Attorney and paid in was \$13,074.51, surpassing the record of 1893 by \$2,556.20.

THE OFFICE OF THE ATTORNEY FOR THE COLLECTION OF ARREARS OF PERSONAL TAXES.

The work of the Attorney in charge of this office has been especially gratifying.

The amount collected during the year for taxes and interest was.....

The amount of costs collected was.....	\$101,337 00
The amount earned on bank deposits was.....	1,919 76
	86 52

Total..... \$103,343 28

The collections of the year 1894 exceed those of the previous year by \$28,799.23.

The aggregate amount realized by this office during a period of eight years, from January 1, 1882, to December 31, 1889, was \$172,508.90, while the amount collected by the present Attorney during the five years which he has held office aggregates \$389,218.54.

The average cost of conducting the business of the office from 1885 to 1889 was 22 3/4 per cent. of the amount appropriated, while during the past five years it has been but 8 1/4 per cent.

It is to be observed in this connection that the total appropriation for the office made by the Board of Estimate and Apportionment for the year 1894 was \$7,500, so that the cost of collecting during that year was 7 1/2 per cent. of the amount turned into the City Treasury.

The number of delinquent taxpayers returned to the office by the Receiver of Taxes during the year was.....

The undisposed of cases of the previous year was.....	3,482
	86
Total.....	3,586

All of these cases have been disposed of.

THE OFFICE OF THE SPECIAL COUNSEL IN CHARGE OF PROCEEDINGS RELATING TO THE WATER SUPPLY.

Proceeding known as Patterson and Towners, Putnam County—This proceeding was instituted under the so-called Webster Water-shed Act (Chapter 189 of the Laws of 1893), for the purpose of acquiring certain interests in eighty-seven parcels of land, largely composed of village lots in the above locality, which had been condemned by the Board of Health and the Department of Public Works as existing menaces to the water supply; nineteen of these claims, aggregating \$143,100, have been presented and the claimants' attorneys are now engaged in the introduction of evidence.

Mount Kisco, Westchester County—This proceeding was instituted under the above-mentioned act for the purpose of acquiring one hundred and seven parcels of land in the Village of Mount Kisco, which had also been condemned by the Board of Health and the Department of Public Works as a source of pollution to the water supply. Evidence on behalf of the claimants has been closed in twenty-five of the claims, involving \$270,584.31, and evidence on behalf of the City is being introduced. The proceeding will probably be closed within two or three weeks. In view of the fact that a large number of the parcels involve not only the value of the land taken, but the structures thereon, the progress of the trials has been somewhat delayed on the part of the claimants. In addition to the above amounts, thirty-nine claims, involving in the aggregate \$380,322.85, have been filed against the city and the claimants are now engaged in the introduction of evidence in support of such claims. In addition to both the above amounts six claims for damages alleged to have been caused by the removal of nuisances from the water-shed, aggregating \$7,050.37, have been, by consent of counsel, referred to the Mount Kisco Commission, to avoid the expense of instituting a separate proceeding as required by the act; the trials of these cases have been closed and the result will be shown by the first report in the Mount Kisco proceeding.

First Supplemental Proceeding, Cornell Dam—This proceeding was instituted by the Aqueduct Commission to acquire lands in the construction of the New Croton Dam (Cornell Site); the map covers eight parcels acquired for highway purposes. Evidence has been closed on behalf of the claimants and of the City in these parcels, with the exception of two minor claims submitted by consent. The claims involve \$79,433.06. The submissions above mentioned were made for the reason that the cases were very small and the land not shown on the map; the damage done to the property was admitted by the City authorities and the submissions avoided the expense of the institution of separate proceedings.

Second Supplemental Proceeding, Cornell Dam—This proceeding was also instituted by the Aqueduct Commission to acquire the fee of fifteen parcels of land on the south side of Main street, west of the railroad track, in the village of Katonah. The property consisted entirely of stores and residences and the locality was thickly settled. The evidence on behalf of the land-owners has been completed in all cases, with one exception; the amount involved, with the exception of one claim not as yet filed, is \$191,291.31.

Third Supplemental Proceeding, New Croton Dam, Cornell Site—This proceeding was instituted by the Aqueduct Commission for the above-mentioned purposes, and represents a large portion of the Village of Katonah lying north of Main street and west of the railroad. Thirty parcels, composed of business places and dwellings, have been acquired; twelve of the claims, aggregating \$65,700, have been filed and the claimants are still engaged in the presentation of evidence.

Fourth Supplemental Proceeding, New Croton Dam, Cornell Site—This proceeding covers sixteen parcels of land in the Village of Croton Falls, Westchester County; the Commission, as originally appointed, included Cyrus Frost, of Peekskill, who declined to act. A motion will be made for the appointment of a Commissioner in his place and stead. The City will be vested with the title to the premises by February 14, 1895, it is expected; no claims have as yet been filed.

Matter of Reservoir "D," Putnam County—This proceeding, although instituted by the Department of Public Works, was for the purpose of acquiring real estate for the construction of the dam of Reservoir "D," which is being constructed by the Aqueduct Commission under the Aqueduct Law. The report of the Commissioners has been made on twelve parcels, covering 284.226 acres. The amount claimed against the City was \$114,679.76; the amount awarded, \$59,594, a trifle over fifty per cent. of the amount claimed, the net reduction being \$55,085.76. Aside from the question of this reduction, this report must be considered of great value to the City, as it undoubtedly establishes a favorable precedent which will probably aid the City in defending claims affecting over 1,000 acres of land yet to be acquired by the Aqueduct Commission in this valley. In relation to the last statement, it may be noted that consents of the owners of some forty-nine parcels, affecting 1,066 acres, have been procured to submit the claims in question to some of the commissions already appointed, thus saving the large expense necessarily attendant upon the institution of proceedings, service of papers and advertising.

Brewster Proceeding—This proceeding was instituted under the Webster Water-shed Act by the Commissioner of Public Works to acquire the fee of certain parcels and certain other interests in certain other parcels of land at Brewster, Putnam County, which have been condemned by the Board of Health and the Department of Public Works. The map covers one hundred and thirteen parcels of real estate; the report made on fifty of such parcels shows the amount claimed to be \$326,799, the amount awarded \$151,872.88, a reduction in favor of the City of \$174,926.12. In addition to the above, one hundred and fifteen claims have been filed against the City for parcels not covered by the report, amounting to \$593,075.47. The claims are now in process of trial.

Brewster Annex Proceeding—This proceeding affects land on both sides of the Croton river, from Sodom Dam to the line dividing Putnam and Westchester Counties, and includes forty parcels, in twenty-seven of which claims have been filed, aggregating \$149,900, the claimants being engaged at the present time in the introduction of evidence.

Matter of Lake Gleneida—This proceeding covers sixty-four parcels, including that part of the Village of Carmel lying between Lake Gleneida and the public highway, and also includes the bed of the lake and the water rights in the lake. Twenty-two of the claims in question have been closed and reported on, the amount claimed being \$173,605.96 and the amount awarded \$147,018. The parcels reported on were village lots, containing expensive improvements, and the main point in controversy was the value of the buildings on the premises in question. In addition to the above, eighty-nine claims, amounting to \$506,403.59, have been filed before the Commissioners and are now in process of trial.

Reservoir "M," Second Section, Parcels Nos. 17 to 23—This proceeding was instituted by the Aqueduct Commission to acquire the balance of the land necessary for the construction of the reservoir in the Town of North Salem, Westchester County. The proceeding includes twenty-one parcels, covering an area of 561.427 acres. Evidence has been closed on behalf of the claimants and the petitioner in fifteen of the claims. No claims have been filed or presented as to four of the parcels in question, and the remaining two cases are now being tried. The amount of the claims against the City for land and buildings taken and damage done to adjacent property is \$444,955.85.

Kensico—In addition to the number of claims disposed of by the first separate report of the Commissioners in the above-entitled matter, there are pending and in process of trial before the Commissioners seventy-five claims, involving \$278,750. Evidence in all these cases has been nearly closed on behalf of the claimants, and evidence on behalf of the City will be introduced immediately upon the closing of claimants' case. On the motion to confirm the original report in this matter, involving over \$300,000, an order was made by Chief Justice Brown, that the awards for two of the parcels, which included various so-called building lots, should be sent back to the Commissioners for the purpose of subdividing the awards among the lot-owners. Motions were also made for the increase of the awards and also to vacate and set aside the same on the ground of inadequacy, in all of which motions, so far as increase of compensation was concerned, the City was victorious.

Other Matters—In addition to the above-mentioned proceedings, surveys are being or have been made, affecting lands about to be acquired for the sanitary protection of the water supply at Reservoir "I," on the West Branch of the Croton river, additional lands at Mount Kisco, on the Muscoot river, from the Putnam County line to Reservoir "A," and from the dam at Reservoir "A" to the Cornell Dam line, at Lake Mahopac, Farmer's Mills, Byram Pond and Bear Gutter Creek. In these various proceedings, information as to boundary lines, ownership and occupation, is being or has been procured for the Engineers, to enable them to make maps in compliance with the statute. These proceedings probably represent the acquisition of or the affecting of over two hundred and fifty separate pieces of real estate, which are being made the subject of critical examination as to situation, improvements, cost and value. In the matter of the acquisition of lands for Cornell Dam, a small portion only of the land necessary has been acquired, there yet remaining upwards of two hundred parcels which will be flooded, and must, of course, be acquired in fee. Anticipating this action, the Law Department, as early as the year 1888, took, in advance of any formal action by the Aqueduct Commission, such steps as were thought necessary to secure proper evidence of the value of the land to be affected. These parcels are being examined from time to time, as occasion requires, including the examination of titles, locations and assessed values.

A summary of the work shows that, eliminating from consideration parcels for which no claims have been filed, and also eliminating the Jerome Park proceedings, there are in process of trial, for which commissioners have been appointed, five hundred and twenty-six cases, involving, in the aggregate, claims against the City of \$3,225,445.25.

THE OFFICE OF THE ATTORNEY TO THE DEPARTMENT OF STREET IMPROVEMENTS OF THE TWENTY-THIRD AND TWENTY-FOURTH WARDS.

By chapter 331 of the Laws of 1893, the Counsel to the Corporation was required to appoint an attorney to the Department of Street Improvements of the Twenty-third and Twenty-fourth Wards, whose duty should be to render such legal services, subject to the control of the Counsel to the Corporation, appertaining to the public business conducted by that Department, as might be assigned to him by the Counsel to the Corporation, and to conduct various actions to recover penalties in those wards.

The attorney reports that during the year 1894 he has prepared legal documents to the number of 88, embracing 75 written opinions relating to the public business. He prepared and drew, at the request of the Commissioner of Street Improvements, nine bills or amendments relating to the public interests of the City of New York for introduction into the Legislature of 1894. Among them were the bills relating to the Mott Haven Canal.

In 119 cases oral advice was given. He also examined, corrected and approved printer's proofs of contracts and specifications in 67 cases.

The attorney, in his report to me, dated December 29, 1894, writes as follows:

"It may be also important to acquaint you with the following facts, which may serve to demonstrate the wisdom of having created the office of Attorney to the Department of Street Improvements.

"Prior to the establishment of the office, one year and a half ago, there existed several actions against the City and several alleged causes of action which have since been put into suit, arising out of controversies between the officials of the Department and contractors. The aggregate claims of these suits amounted to over \$160,000.

"During the eighteen months I have been in office there has not been a single suit brought against the City, nor do there exist any alleged causes of action, or claims against the City, that I am aware of, arising out of any subject matter which has had its origin under the present administration. This I believe to be due to the fact that when controversies arose legal advice was immediately available, and that a course of procedure was adopted which either led to an amicable adjustment of the questions involved, or which checkmated designing persons in their schemes to place the City in a false position with reference to the matters in dispute.

"In this connection must be borne in mind the magnitude and variety of the public improvements now under the control of said department, aggregating as they do in amount over three millions of dollars. In addition to the regular work of carrying on the many contracts for these improvements, there have been those of laying out, monumenting and surveying extensive territories, maintaining the public highways, and of preparing the final maps of the district.

"Questions of more or less difficulty constantly arise which have often to be determined without delay, while not a few of the problems to be solved require considerable investigation and close examination of the statutes. Owing to the fact that since the annexation of these wards to the City in 1874, there have been enacted a large number of special laws affecting the public interests of the district, some of which are apparently irreconcilable, the difficulty of these examinations has in many instances been increased. During the past year, however, I have prepared several bills which have been enacted into laws whereby some of the former discrepancies have been removed and harmony established between apparently conflicting statutes."

MATTERS SPECIALLY MENTIONED.

Assessments for Local Improvements—The reduction or vacation of assessments for local improvements in special proceedings has been lessening during the past few years, so that the amount of loss to the City from that source has become comparatively insignificant.

The following table shows the number of such special proceedings in which reductions were ordered for the several years from 1885 to 1894, inclusive, and the amounts of the reductions, together with the number pending at the end of each year:

YEAR.	Number of Proceedings Pending at the end of the Year.	Number of Orders of Reduction.	Amount of Reduction.
1894	370	41	\$27,102 04
1893	489	18	2,422 69
1892	522	3	1,127 02
1891	1,630	51	21,692 25
1890	2,057	94	94,181 30
1889	2,045	92	26,464 89
1888	2,407	78	36,265 68
1887	2,804	54	290,510 12
1886	3,344	711	568,317 64
1885	3,991	617	188,517 61
Total	2,229	\$1,257,099 24

The increase in the year 1894 was due mainly to the mandatory act of the Legislature (Laws of 1892, chapter 554), requiring the reduction of an assessment for a sewer in Tenth avenue, in the vicinity of One Hundred and Sixty-seventh street. Excepting this the amount of reduction for that year was only \$4,072.34. Late in the year a decision was handed down in the proceeding of *The People ex rel. James W. Pringle and another vs. Theodore W. Myers and others*, composing the Board of Revision and Correction of Assessment Lists, denying an application for a writ of prohibition to restrain the Board from confirming an assessment for paving Liberty street, between Greenwich and West streets. Numerous assessments during the past few years have been made under authority of chapter 449 of the Laws of 1889, which in substance authorized the City to repave streets, the land of which originally was under water and owned by the City. Large sums of money have been expended by the City in such cases with the expectation of recovering the same by means of assessments upon the property deemed benefited. The proceeding referred to above was instituted to test the validity of the act and to determine whether a writ of prohibition would lie to restrain the laying of such assessments. The court denied the application and declined to hold the act unconstitutional. As a result of this decision, about 200 of the 570 proceedings pending at the end of the year to vacate or reduce assessments, will be dismissed.

Admiralty Matters—In the proceedings brought in the Admiralty Courts the amounts involved have been trifling where the City has been adjudged in fault. In the only proceeding in which the amount was considerable, springing from damage to a number of vessels by Public Bath-house No. 13, in the great August gale of 1893, the City was successful in establishing two propositions of law: First, that Rule 59 of the Rules in Admiralty of the United States Supreme Court is broad enough to admit the bringing in by petition of third parties where the cause of action alleged springs out of other liabilities than such as by the terms of the rule would appear to be limited to cases of collision; and, second, that the common law doctrine of the responsibility of a bailee will, in an Admiralty Court, be made to apply to the parties who may have property in their hands subject to Admiralty process based upon negligence. In the case of *Workman vs. The Mayor*, the United States District Court held that the City of New York was responsible for acts arising from the negligence of the servants of the Fire Department engaged in navigating the fire-boats. The decision seemed so contradictory of the law, as laid down by the courts in this and other States, that an appeal has been taken to the United States Circuit Court of Appeals.

Delinquent Juror Proceedings.

Number of delinquent jurors transmitted by the Commissioner of Jurors as fined during the year 1894, in all of which cases motion papers were prepared	3,868

Number of proceedings in which the fines imposed were remitted because of the non-service of the jury summons by the Sheriff	1,568

Number of proceedings in which the fines imposed were enforced	87
Number of pending proceedings	6
Number of proceedings begun prior to the current quarter and disposed of during this year	18
The amount of judgments for the enforcement of fines imposed, obtained during the year, is	\$7,605 00
Amount collected	1,267 05

The Dinsmore Claim—Among the most important cases of the year are the two proceedings brought by Bryant W. Dinsmore to review the action of the Board of Estimate and Apportionment in auditing his claim against the City for advertising in "The Stockholder," now amounting to \$80,000, at a nominal amount. Mr. Dinsmore applied for a writ of mandamus to compel the Board to audit the claim at a fixed sum. This being refused, he appealed from the order of denial to the General Term of the Supreme Court, and also obtained a writ of certiorari to review the determination of the Commissioners. These two matters came on in the General Term for argument and in both cases the City was successful.

The Constitutionality of the Water-shed Act—Chapter 189 of the Laws of 1893, commonly known as the Water-shed Act, authorized the Commissioner of Public Works to take such measures as might be necessary to preserve from pollution all the sources of the water supply. Under authority of this act he took possession of certain real estate in Putnam County and abated nuisances in a summary manner. The constitutionality of the act was questioned on the theory that it involved the taking of private property without due process of law and without making just compensation to the owners. The question was tested in Putnam County in the suit in which Roxanna Kelley was plaintiff. Judge Dyckman held the act constitutional and sustained the action of the City authorities.

Matters Relating to the Ferries—As the term of the Staten Island and Bay Ridge Ferries expired in May, 1893, steps were taken by the Comptroller to sell the franchises of said ferries. Prior to the date of the sale a suit was begun to restrain the same, and afterwards several others were also begun for the same purpose. The suits were brought by taxpayers on the ground that the action of the Sinking Fund Commissioners in fixing the terms of sale was illegal and void for want of power, and that the manner of fixing the basis of calculation for the City's percentage was injudicious and constituted waste of the City's funds. All of these motions for temporary injunctions were argued during the past year in the Courts. The decisions were favorable to the City; in each case the injunction was vacated. Subsequently a suit was instituted in the name of the People, through the Attorney General, having regard to the same matters, and an injunction was issued by the County Judge of Albany, but on motion of the Corporation Counsel, the Attorney General ordered a discontinuance of the action, and after several ineffectual attempts had been made by various other motions to stay the sale, it finally took place and the ferry franchises were sold, thus disposing of a very troublesome matter. Leases for the Twenty-third Street Ferry, East river, and for the Astoria Ferry from Ninety-second street, East river, were also prepared.

The College Place Widening—The report in this proceeding was confirmed May 8, 1894, and in October the appeals were dismissed, so that the City became the owner of the land required for the widening and extension during the year 1894. The total cost of the improvement was \$1,431,693.17. Of this amount \$652,920.81 was assessed upon private property deemed benefited. The balance, to wit: \$778,772.36 is the only portion that the City will be called upon to pay.

The Elm Street Widening—This much-talked-of improvement was begun during the year, and on the 14th of December a motion was made for the appointment of Commissioners of Estimate and Assessment. A large number of property-owners appeared upon the motion, but only a few were opposed. A decision had not been reached at the end of the year. The intended improvement involves the widening and straightening of Elm street, from Worth to Spring street, so as to make it of the uniform width of 80 feet; also the cutting through of the blocks from Worth to Duane street, the taking of property on the westerly side of Centre street, between Duane and Reade streets, the taking of the whole block bounded by Centre, Reade and Chambers streets, the widening of Marion street, from Spring street to its northerly terminus, and the cutting through of the blocks from Prince to Great Jones street, so that at that point the westerly line of the proposed Elm street will be a continuance of the westerly line of Lafayette place.

The Harlem Speedway—The proceedings to ascertain the value of the property taken for the driveway and the damages to the adjacent property have been carried on during the year. The Commissioners have held three meetings each week and over 1,300 pages of testimony have been taken. The testimony on the part of the property-holders has been completed, and the City's side of the case is now being considered.

The Jerome Park Reservoir—The proceedings to acquire title to the land required for the proposed Jerome Park Reservoir were instituted by the motion for the appointment of Commissioners of Appraisal which was made before Judge Dyckman at White Plains on December 29, 1894. The land proposed to be taken is 298 acres, and the matter is one of extreme importance to the citizens of New York.

The Mulberry Bend Park—The report in this case was confirmed July 20, 1894. The amount awarded for the land with the cost of the proceeding was \$1,522,056.60. The City thus became the owner of the land bounded by Mulberry, Park, Bayard and Baxter streets, which it is proposed to convert into one of the small parks.

The Proceedings Before the Commissioners to Award Damages for Changes of Grade of Certain Streets in the Twenty-third and Twenty-fourth Wards—At the date of the last annual report the importance of these proceedings was rather suggested than stated, as at that time the claimants had closed their testimony in only 49 cases and the City had not opened for the defense. Since the date of that report the 49 claims referred to were amended, as to the amounts claimed, so that they aggregated in claims \$223,309. The Commission made their award in these claims, allowing \$101,150. The Comptroller refusing to issue bonds, upon an application for a peremptory writ of mandamus in the Rachel Purdy claim, the Special Term directed such writ to issue. From this order appeal is now pending to the General Term of this Department. I have also sued out a writ of certiorari to review the proceedings of the Commissioners in that claim, and in this proceeding, as well as upon the appeal from the order granting the mandamus, the fundamental questions of law which affect the existence and jurisdiction of the Commission itself will be finally determined.

REAL ESTATE MATTERS, TITLES EXAMINED AND CONDEMNATION PROCEEDINGS INSTITUTED AND CONDUCTED.

SCHOOL SITES.

Titles Examined—The title to twelve lots of land on East One Hundred and Sixty-seventh street, Fox and Simpson streets, has been examined, approved and passed, and the title is now vested in the City.

Condemnation Proceedings—The two proceedings referred to in the report for 1893, namely: (1.) One lot on Fourth street, between Avenues B and C; (2.) Seven lots at the northeasterly corner of Madison avenue and One Hundred and Nineteenth street; have been concluded, the report of the Commissioners of Estimate in each proceeding having been confirmed by the court and the title to the property involved having been acquired by the City.

In these two proceedings the amount claimed by the owners of the property (that is, the highest value testified to by experts under oath) was \$149,500, while the amount awarded by the Commissioners and confirmed by the Court was \$94,500, or 63.23 per cent. of the amount claimed. The City also acquired by condemnation proceedings the title to eight lots on the southerly side of Eighty-eighth street, between Second and Third avenues.

Condemnation proceedings have been commenced and are now pending for the purpose of acquiring title to lands located as follows:

- (1.) Eight lots of land on Henry, Catharine and Oliver streets, in the Fourth Ward.
- (2.) Ten lots of land on St. Ann's avenue, One Hundred and Forty-seventh and One Hundred and Forty-eighth streets, in the Twenty-third Ward.
- (3.) One lot of land on the northerly side of Second street, between Avenues C and D, in the Eleventh Ward.

(4.) Two lots of land on the southerly side of Thirteenth street, between Seventh and Greenwich avenues, in the Ninth Ward.

Commissioners of Estimate have been appointed in all of the above proceedings, and testimony is now being taken before them. A motion has also been made for the appointment of Commissioners of Estimate in the matter of acquiring title to a tract of land on Mosholu Parkway, Briggs and Bainbridge avenues, in the Twenty-fourth Ward. The motion was granted, but the order appointing Commissioners has not as yet been signed.

Parks.—The Commissioners of Appraisal in the proceeding referred to in the report for 1893 as the Washington Bridge Park or Highbridge Park, have made and filed their report, and a motion to confirm the same has been noticed for the 9th day of January, 1895. The amount claimed here was about \$1,300,000, while the amount allowed by the Commissioners was \$548,755, or about 42 per cent. of the amount claimed. During the year the following proceedings were instituted under various special acts passed by the Legislature in 1894 for the purpose of acquiring title by the City to lands for park purposes, as follows:

(1.) St. Nicholas Park, bounded by One Hundred and Thirtieth street, St. Nicholas avenue, One Hundred and Forty-first street, Convent avenue, One Hundred and Thirty-eighth street, Amsterdam avenue, One Hundred and Thirty-sixth street and St. Nicholas terrace, and embracing about 657 City lots of 2,500 square feet each (Laws of 1894, chapter 366).

(2.) Fort Washington Park on the Hudson river, extending from about One Hundred and Seventy-first street to about One Hundred and Eighty-fourth street, and from the Hudson river on the West to the Boulevard Lafayette or French Boulevard on the East, and embracing about 706 City lots (Laws of 1894, chapter 581).

(3.) Colonial Park (so-called), extending from One Hundred and Forty-fifth to One Hundred and Fifty-fifth street and from Edgecombe to Bradhurst avenues, embracing about 224 City lots (Laws of 1894, chapter 56). The order appointing Commissioners was appealed to the Court of Appeals, but that court sustained the court below.

(4.) The Riverside Park extension, embracing all the lands and land under water, or rights therein not owned by the City or State between the southerly line of Seventy-second street extended westerly and the southerly line of One Hundred and Twenty-ninth street extended westerly; the westerly line of the route or roadway of the Hudson River Railroad Company and the easterly line of the Thirteenth avenue, as laid out in 1837, including all lands heretofore granted by the State or the Mayor, Aldermen and Commonalty of the City of New York, between Seventy-second and One Hundred and Twenty-ninth streets (Laws of 1894, chapter 152).

(5.) A park on the Harlem river, embracing all the lands between the northerly line of One Hundred and Eleventh street, the southerly line of One Hundred and Fourteenth street, the easterly line of First avenue and the bulkhead-line of the Harlem river (Laws of 1894, chapter 746).

Commissioners of Estimate or Appraisal have been appointed in all of the above proceedings, and in some of them a large amount of testimony has been taken.

SITES FOR THE USE OF THE FIRE DEPARTMENT.

Titles Examined.—The examination of the titles to the lot of land on the southerly side of One Hundred and Thirty-seventh street, east of Alexander avenue, and to the lot of land on the southerly side of One Hundred and Fiftieth street, west of Courtlandt avenue, referred to in the report for 1893 as having been commenced, has been concluded, and the titles approved and passed to the City. The examination of the title to the two lots of land on the northerly side of Buckhout street, east of Morris avenue, referred to in the report of 1893 as having been commenced, has been concluded, and the title rejected. The title to two lots of land on the northerly side of Tremont avenue, between Morris and Anthony avenues, in the Twenty-fourth Ward, has been examined and rejected. The title to the land on the easterly side of Ogden avenue, 195 feet north of Devoe street, has been examined, approved and passed.

Condemnation Proceedings.—Condemnation proceedings have been instituted for the purpose of acquiring title to lands located as follows:

(1.) Four lots of land at the northeast corner of Tremont and Morris avenues, in the Twenty-fourth Ward.

(2.) Two lots of land at the northwest corner of Prospect avenue and Kelly or One Hundred and Fifty-second street, in the Twenty-third Ward.

(3.) Two lots of land on the northeast corner of Railroad avenue and One Hundred and Fifty-ninth street, in the Twenty-third Ward.

Commissioners of Appraisal have been appointed in all of the foregoing proceedings, and testimony is now being taken before them. Motions have also been made for the appointment of Commissioners of Appraisal for the purpose of acquiring title to lands located as follows:

(1.) Two lots on the southerly side of One Hundred and Thirty-eighth street, between St. Ann's and Cypress avenues, in the Twenty-third Ward.

(2.) One lot of land on the northerly side of Forty-third street, between Fifth and Sixth avenues, in the Nineteenth Ward.

Such motions have been granted, but the orders appointing Commissioners of Appraisal have not as yet been signed.

SITES FOR THE USE OF THE POLICE DEPARTMENT.

Titles Examined.—The title to the three lots of land on the northerly side of Charles street, between Greenwich and Washington streets, referred to in the report for 1893 as having been examined and approved, has been passed and the property is now owned by the City.

Condemnation Proceedings.—A proceeding was instituted during the year for the purpose of acquiring title to the three lots of land and premises on the westerly side of Ridge street, between Broome and Delancey streets, known as Nos. 49, 51 and 53 Ridge street, as a site for a new station-house, lodging-house and prison, etc., for the Twelfth Police Precinct.

The Commissioners of Estimate in said matter have made and filed their report, and a motion to confirm the same has been noticed for January 28, 1895.

The amount claimed here was about \$91,000, while the amount awarded by the Commissioners was \$55,900.

BRIDGES.

A proceeding was instituted during the year for the purpose of acquiring title to the lands necessary for the construction of a new drawbridge and approaches thereto over the Harlem river, at Third avenue. Commissioners of Estimate have been appointed in said matter and about 700 pages of testimony have been taken before them. The order appointing Commissioners was appealed to the Court of Appeals, but that court sustained the court below.

BRONX RIVER PROCEEDINGS.

During the year 1894 the report of the Commissioners appointed in 1892 was confirmed by the Court. Their duty was to pass upon claims for damages to property from Williamsbridge, south, through the Bronx Park. Damages were claimed upon the theory that by the construction of the dam at Kensico the flow of water had been diminished and riparian rights consequently injured. The claims presented amounted to over \$500,000, but the City was successful in getting the awards confirmed at about \$17,000. Some of the claimants have appealed to the General Term of the Second Department. The appeal papers are being prepared, and the case will be argued at the February Term of court. The titles to about one hundred and twenty-five different plots of land along the Bronx river, south, from Woodlawn, have been in process of examination for the purpose of the institution of proceedings under chapter 445 of the Laws of 1877 for the purpose of vesting in the City the legal right of diverting the flow of the waters of the Bronx river. These proceedings will be similar to those that have already been instituted and closed on all the other parts of the river between Kensico and the Sound.

WATER-FRONT MATTERS.

During the past year agreements were drawn for the purchase of wharf property in the following localities on the North river:

Near Perry street.
Between Twenty-second and Twenty-third streets.
Between Fifty-first and Fifty-second streets.
Northerly half of Pier, old 14, and southerly half of Pier, old 12, together with about 58 feet of bulkhead.

And on the Harlem river at One Hundred and Fourteenth street.

The title to wharfage rights appurtenant to 533 feet of bulkhead on West street was examined by the Law Department, and as to 358 feet became vested in the City during the year. Certain matters were not entirely disposed of as to the balance and title thereto has not yet passed.

By the passing of these titles all except 5 or 6 suits, brought to recover damages for the destruction of wharfage rights by the carrying into effect of the new plan adopted by the Department of Docks in 1871, have been terminated at a cost proportionately much less than the amount awarded by the courts in the Langdon cases. The terms of settlement varied from about \$475 to \$500 per foot, with interest at 4 or 5 per cent. per annum for the last 10 to 15 years, while \$600 per foot and 6 per cent. interest were awarded in the Langdon cases. Leases were prepared for 18 different piers and bulkheads on the North and East rivers. The cases of the City against the Roach estate to recover possession of one-half of the pier at the foot of Eighth street, the pier at the foot of Ninth street and one-half of the pier at the foot of Tenth street, East river, were finally terminated by the entry of judgments in favor of the City for the possession of said piers and about forty thousand dollars for damages. These judgments have been paid, the possession of the piers delivered to the Dock Department and leases have been executed by the Roach estate under which rent is paid to the City. A suit brought to recover possession of 250 feet of bulkhead in East Fourth street was practically settled during the year by an offer of judgment in favor of the City, although the judgment had not been entered at the end of the year. A suit was brought in the United States Circuit Court against The Pennsylvania Railroad Company and others to recover possession of lands under water west of West street, between Watts and Vestry streets, and was settled by a judgment in favor of the City for the land sued for. In connection with this settlement an agreement was drawn and executed under which the owners of the wharfage rights on West street, between said streets,

are to build the new bulkhead wall according to the new plan for the improvement of the water-front at their own expense, under the provisions of chapter 397 of the Laws of 1893.

Two suits were brought to trial at Special Term in December, commenced by the owners of uplands adjoining the Harlem Flats, between Ninety-fourth and Ninety-fifth streets, East river, who derived their title under a grant made in the year 1666, in which it is claimed that the City's title under a later grant, made in the year 1686, is at all times subject to riparian rights in favor of such owners, and as a consequence that the land recently made out of the East river under the Dock Department plan by filling-in is owned by such owners on the principle of accretion. The question is a complicated one and of great importance to the City. A favorable result is confidently expected. Applications were made to the Court in December for the appointment of Commissioners of Estimate and Assessment in ten proceedings to acquire water-front property which is needed in order to complete in various parts of the City the permanent water-front. The property sought to be acquired is in the following localities:

On the North river—

Between West Eleventh and Bank streets, West street and Thirteenth avenue.

Between Bank and Bethune streets, West street and Thirteenth avenue.

Between Thirty-third and Thirty-fourth streets, Twelfth and Thirteenth avenues.

Between Thirty-fourth and Thirty-fifth streets, Twelfth and Thirteenth avenues.

Between Thirty-fifth and Thirty-sixth streets, Twelfth and Thirteenth avenues.

Between Thirty-ninth and Forty-first streets, Twelfth and Thirteenth avenues.

Between Forty-first and Forty-second streets, Twelfth and Thirteenth avenues.

Between Forty-second and Forty-third streets, Twelfth and Thirteenth avenues.

On the East river—

Between Pike and Rutgers streets.

On the Harlem river—

Between One Hundred and Fourth and One Hundred and Fifth streets.

TAX MATTERS.

Tax litigation for the year 1894 has been of unusual importance in the questions of law and practice involved, and the amount of assessments sought to be vacated. The registers of this Department showed that 73 writs of certiorari had been sued out to review assessments for taxation for the year 1893, amounting to \$23,945,600, classified as indicated in the annual report for that year.

In 1894 seventy-four writs were allowed to review assessments, aggregating \$71,934,019, classified as follows: 23 writs by Connecticut savings banks to review the assessments on bank stocks held by them in National banks located in the City of New York, amounting to \$964,785. These proceedings involve, however, only a single question of law identical with the propositions in controversy in the 27 proceedings by foreign savings banks in 1893. The law has not as yet been passed upon by the courts even in the first instance. The fire and marine insurance companies, as against 11 writs sued out in 1893 to review assessments of bank stock held by them, located in National banks in this City, aggregating \$618,894, brought 5 writs in 1894 to review assessments, aggregating \$217,366. The controversy is upon the same lines, but has not yet been adjudicated.

36 writs in 1893 were sued out by foreign and domestic corporations and individuals to review assessments against their personal property, or bank shares, or both, aggregating for that year \$22,313,578 as against 27 writs in 1894 to review assessments amounting to \$38,889,068.

17 writs were allowed surface railroads to review assessments against their personal property for the year 1894, aggregating \$31,862,800. The assessment against the Manhattan Railway Company, amounting to the sum of \$17,860,712, is still in litigation. The assessments against the Third Avenue Railroad Company and the Union Railway Company have not yet been reached for trial. With these exceptions the 3 assessments, aggregating \$20,585,945—litigation with the surface railroads affecting assessments for 1894 is closed.

Of the miscellaneous proceedings, assessments aggregating \$14,751,395 have been tried or otherwise disposed of. 3 cases brought by the electric-light companies, and 5 proceedings brought by the children of the late Jay Gould, as executors, and in their individual capacity, are still pending. As the proceedings involve not only large sums but grave questions of law, litigation is likely to be long continued before the rights of the parties are finally settled.

Besides the tax proceedings for 1894, 58 proceedings relating to assessments in litigation between 1891 and 1894, aggregating in amount \$32,994,524, have been tried or otherwise disposed of and the litigation closed. Among the assessments reviewed by the courts, and in which new and controverted points of law have been decided, the more important were the Equitable Gas-light proceeding for 1893, reversing the decisions at Special and General Terms, vacating the assessment against the company; the India Rubber and Gutta Percha Company proceeding, wherein the law affecting a change of residence by a corporation was decided; the Union Trust Company against The Mayor, wherein the judgment of the General Term, dismissing the complaint, was affirmed by the Court of Appeals, and in which the law affecting the proper procedure to review assessments, as well as the effect of voluntary payments, was decided; the Hecker-Jones-Jewell Milling Company proceeding for 1894, affecting the construction of chapter 37 of the Laws of 1855, and the mandamus proceeding brought against the Tax Commissioners by the American Bible House, in which the Court of Appeals finally gave construction to chapter 498 of the Laws of 1893. The decision of the Court of Appeals disposed of a number of mandamus proceedings brought under the same act.

In a number of tax proceedings questions of practice and pleading, which have long been in controversy, arising under chapter 269 of the Laws of 1880, have been finally settled, and, with one exception, the points made by the City have been sustained by the courts. In the proceedings brought by the executors of Jay Gould, deceased, the courts have held, in the first instance, that a failure to comply with a writ of certiorari, under chapter 269 of the Laws of 1880, made returnable at other than the regular trial, Special Term, may be punished as a contempt of court. That question is now on appeal.

Schedule "A," which follows, is a synopsis of the tax proceedings in which issue has been joined, and which are either shortly to be tried or have been tried or settled during the last twelve months. The schedule indicates the amount of the original assessment, and, where the matter has been finally disposed of, the amount at which the original assessment has been finally fixed.

SCHEDULE "A." Tax Litigation, 1894.

Office of Attorney for Collection of Arrears of Personal Taxes.

OFFICE OF ATTORNEY FOR COLLECTION OF ARREARS OF PERSONAL TAXES, NEW YORK, December 31, 1894. Hon. WILLIAM H. CLARK, Counsel to the Corporation:

DEAR SIR—This day closes my fifth year as the Attorney in charge of this Bureau and herewith submitted in my report for the year 1894.

Amount collected for taxes and interest

Amount of costs collected

Interest earned on bank deposits

Total

The collections this year exceed those of last year by \$28,799.23. The aggregate amount realized by my predecessors during a period of eight years from January 1, 1882, to December 31, 1889, was \$172,508.90, while the amount collected by me in five years aggregates \$389,218.54.

The average cost for conducting the business of the Bureau from 1885 to 1889 was 22¼ per cent., while during my term it has been but 8¼ per cent.

I wish at this time to acknowledge my appreciation of the courtesy and assistance which you have extended to me and also to avail myself of the privilege and pleasure of emphasizing the fact that without the aid of the Judges of our Courts and especially the Justices of the Supreme Court, I would not be able this day to present these figures.

The Receiver of Taxes remitted to me during the year the names of 3,482 delinquents, which, with 86 undisposed of last year, makes me chargeable with a total of 3,568 delinquents. The details of this report and the recapitulation at the end thereof shows the disposal of 3,628 delinquents, this apparent surplus of 60 is accounted for by the fact that in some instances a delinquent will appear named in several schedules, because of the several proceedings had against him.

Again I commend to you the clerks and process servers for their energy and fidelity, which is shown in the results as above set forth. Trusting that this report may meet with your approval, I remain,

Very respectfully yours,

JOHN G. H. MEYERS.

Bureau of the Public Administrator.

Hon. WILLIAM H. CLARK, Counsel to the Corporation:

SIR—In compliance with the regulation of your Department, requiring the Public Administrator to render to you annually a full and complete report of all the proceedings of this Bureau, I beg to submit the following report for the year ending December 31, 1894:

Number of estates reported and investigated, 433.
Total number of estates upon which letters of administration have been granted, 166.

Number of estates upon which letters with the will annexed have been granted, 2.
Number of estates upon which letters of administration were granted upon application of creditors or next of kin, 70.

Number of estates upon which letters were granted upon application of the Public Administrator, 94.

There are two estates now in the Bureau held subject to trusts contained in wills. The accounts of proceedings of the Public Administrator have been judicially settled and allowed by the Surrogate in one hundred and four estates, and the estates distributed pursuant to the decree of the Surrogate.

Under the Laws of 1887, providing for the settlement of estates under \$250 without judicial decree, seventy estates have been closed during the year.

Seven hundred and thirty-six estates of little value were received from the Coroners' office and from Commissioners of Charities and Correction, and paid directly into the City Treasury. In two cases objections were filed to the accounts above mentioned. No references are now pending before referees relating to the question of kinship, though there have been several during the year.

Thirteen actions were commenced in courts of record by and against the Public Administrator. Five proceedings are now pending to determine the validity of rejected claims. In twenty-six cases citations were served on the Public Administrator to attend the probate of a last will and testament and his appearance noted. Ten hundred and ten notices were served on hotels, boarding-house keepers, undertakers and others, pursuant to law.

All reports and returns to the Comptroller, Common Council, Board of Aldermen and to the Supervisor of the CITY RECORD have been rendered. The amount disbursed to creditors, next of

kin, and for expenses of administration since letters were issued, upon estates settled under decree of Court and upon estates closed pursuant to law, was one hundred and thirty-five thousand one hundred and fifty-seven dollars and eighty-five cents.

Amount paid City Treasury for commissions in the year 1894, \$8,037.96.
Amount paid City Treasury for account intestate estates, \$3,824.09.

Amount collected and received exclusive of stocks, bonds, etc., \$218,320.17.
Amount disbursed, \$192,807.06.

Balance on hand, December 31, 1894, \$315,633.67.
Deposited in Continental National Bank, \$124,635.99.
Deposited in National Union Bank, \$190,997.68.

The annual report for 1894, with full details, to be filed with the Board of Aldermen pursuant to law, as well as the monthly reports of the same body already filed, give the foregoing facts itemized.

December 31, 1894. Respectfully,
WM. M. HOES, Public Administrator in the City of New York.

The Office of the Special Counsel in Charge of Proceedings Relating to the Water Supply.

Proceeding known as Patterson and Towners, Putnam County—This proceeding was instituted under the so-called Webster Water-shed Act (chapter 189 of the Laws of 1893), for the purpose of acquiring certain interests in eighty-seven parcels of land, largely composed of village lots in the above locality, which had been condemned by the Board of Health and the Department of Public Works as existing menaces to the water supply; nineteen of these claims, aggregating \$143,100, have been presented and the claimants' attorneys are now engaged in the introduction of evidence.

Mount Kisco, Westchester County—This proceeding was instituted under the above-mentioned act for the purpose of acquiring one hundred and seven parcels of land in the Village of Mount Kisco, which had also been condemned by the Board of Health and the Department of Public Works as a source of pollution to the water supply. Evidence on behalf of the claimants has been closed in twenty-five of the claims, involving \$270,584.31, and evidence on behalf of the City is being introduced. The proceeding will probably be closed within two or three weeks. In view of the fact that a large number of the parcels involve not only the value of the land taken, but the structures thereon, the progress of the trials has been somewhat delayed on the part of the claimants. In addition to the above amounts, thirty-nine claims, involving in the aggregate \$380,322.85, have been filed against the City and the claimants are now engaged in the introduction of evidence in support of such claims. In addition to both the above amounts six claims for damages alleged to have been caused by the removal of nuisances from the water-shed, aggregating \$7,050.37, have been, by consent of counsel, referred to the Mount Kisco Commission, to avoid the expense of instituting a separate proceeding as required by the act; the trials of these cases have been closed and the result will be shown by the first report in the Mount Kisco proceeding.

First Supplemental Proceeding, Cornell Dam—This proceeding was instituted by the Aqueduct Commission to acquire lands in the construction of the New Croton Dam (Cornell site); the map covers eight parcels acquired for highway purposes. Evidence has been closed on behalf of the claimants and of the City in these parcels, with the exception of two minor claims submitted by consent. The claims involve \$79,433.06. The submissions above mentioned were made for the reason that the cases were very small and the land not shown on the map; the damage done to the property was admitted by the City, authorities and the submissions avoided the expense of the institution of separate proceedings.

Second Supplemental Proceeding, Cornell Dam—This proceeding was also instituted by the Aqueduct Commission to acquire the fee of fifteen parcels of land on the south side of Main street, west of the railroad track, in the village of Katonah. The property consisted entirely of stores and residences and the locality was thickly settled. The evidence on behalf of the land-owners has been completed in all cases, with one exception; the amount involved, with the exception of one claim not as yet filed, is \$191,291.31.

Third Supplemental Proceeding, New Croton Dam, Cornell Site—This proceeding was instituted by the Aqueduct Commission for the above-mentioned purposes, and represents a large portion of the Village of Katonah lying north of Main street and west of the railroad. Thirty parcels, composed of business places and dwellings, have been acquired; twelve of the claims, aggregating \$65,700, have been filed and the claimants are still engaged in the presentation of evidence.

Fourth Supplemental Proceeding, New Croton Dam, Cornell Site—This proceeding covers sixteen parcels of land in the Village of Croton Falls, Westchester County; the Commission, as originally appointed, included Cyrus Frost, of Peekskill, who declined to act. A motion will be made for the appointment of a commissioner in his place and stead. The City will be vested with the title to the premises by February 14, 1895, it is expected; no claims have as yet been filed.

Matter of Reservoir "D," Putnam County—This proceeding, although instituted by the Department of Public Works, was for the purpose of acquiring real estate for the construction of the dam of Reservoir "D," which is being constructed by the Aqueduct Commission under the Aqueduct Law. The report of the Commissioners has been made on twelve parcels, covering 284.226 acres. The amount claimed against the City was \$114,679.76; the amount awarded, \$59,594, a trifle over fifty per cent. of the amount claimed, the net reduction being \$55,085.76.

Aside from the question of this reduction, this report must be considered of great value to the City, as it undoubtedly establishes a favorable precedent which will probably aid the City in defending claims affecting over 1,000 acres of land yet to be acquired by the Aqueduct Commission in this valley. In relation to the last statement, it may be noted that consents of the owners of some forty-nine parcels, affecting 1,066 acres, have been procured to submit the claims in question to some of the commissions already appointed, thus saving the large expense necessarily attendant upon the institution of proceedings, service of papers and advertising.

Brewster Proceeding—This proceeding was instituted under the Webster Water-shed Act by the Commissioner of Public Works to acquire the fee of certain parcels and certain other interests in certain other parcels of land at Brewster, Putnam County, which have been condemned by the Board of Health and the Department of Public Works. The map covers one hundred and thirteen parcels of real estate; the report made on fifty of such parcels shows the amount claimed to be \$326,799, the amount awarded \$151,872.88, a reduction in favor of the City of \$174,926.12. In addition to the above, one hundred and fifteen claims have been filed against the City for parcels not covered by the report, amounting to \$593,075.47. The claims are now in process of trial.

Brewster Annex Proceeding—This proceeding affects land on both sides of the Croton river, from Sodom Dam to the line dividing Putnam and Westchester Counties, and includes forty parcels, in twenty-seven of which claims have been filed, aggregating \$149,900, the claimants being engaged at the present time in the introduction of evidence.

Matter of Lake Glenside—This proceeding covers sixty-four parcels, including that part of the Village of Carmel lying between Lake Glenside and the public highway, and also includes the bed of the lake and the water rights in the lake. Twenty-two of the claims in question have been closed and reported on, the amount claimed being \$173,605.96 and the amount awarded \$147,018. The parcels reported on were village lots, containing expensive improvements, and the main point in controversy was the value of the buildings on the premises in question. In addition to the above eight-nine claims, amounting to \$506,403.59, have been filed before the Commissioners and are now in process of trial.

Reservoir "M," Second Section, Parcels Nos. 17 to 23—This proceeding was instituted by the Aqueduct Commission to acquire the balance of the land necessary for the construction of the reservoir in the Town of North Salem, Westchester County. The proceeding includes twenty-one parcels, covering an area of 561,427 acres. Evidence has been closed on behalf of the claimants and the petitioner in fifteen of the claims. No claims have been filed or presented as to four of the parcels in question, and the remaining two cases are now being tried. The amount of the claims against the City for land and buildings taken and damage done to adjacent property is \$444,955.85.

Kensico—In addition to the number of claims disposed of by the first separate report of the Commissioners in the above-entitled matter, there are pending and in process of trial before the Commissioners seventy-five claims, involving \$278,750. Evidence in all these cases has been nearly closed on behalf of the claimants, and evidence on behalf of the City will be introduced immediately upon the closing of claimants' case. On the motion to confirm the original report in this matter, involving over \$300,000, an order was made by Chief Justice Brown that the awards for two of the parcels, which included various so-called building lots, should be sent back to the Commissioners for the purpose of subdividing the awards among the lot owners. Motions were also made for the increase of the awards and also to vacate and set aside the same on the ground of inadequacy, in all of which motions, so far as increase of compensation was concerned, the City was victorious.

Other Matters—In addition to the above-mentioned proceedings, surveys are being or have been made affecting lands about to be acquired for the sanitary protection of the water supply at Reservoir "I," on the West Branch of the Croton river; additional lands at Mount Kisco, on the Muscoot river, from the Putnam County line to Reservoir "A," and from the dam at Reservoir "A" to the Cornell dam line, at Lake Mahopac, Farmer's Mills, Byram Pond and Bear Gutter Creek. In these various proceedings information as to boundary lines, ownership and occupation is being or has been procured for the Engineers, to enable them to make maps in compliance with the statute. These proceedings probably represent the acquisition of, or the affecting of, over two hundred and fifty separate pieces of real estate, which are being made the subject of critical examination as to situation, improvements, cost and value. In the matter of the acquisition of lands for Cornell Dam, a small portion only of the land necessary has been acquired, there yet remaining upwards of two hundred parcels which will be flooded, and must, of course, be acquired in fee. Anticipating this action, the Law Department, as early as the year 1888, took, in advance of any formal action by the Aqueduct Commission, such steps as were thought necessary to secure proper

evidence of the value of the land to be affected. These parcels are being examined from time to time, as occasion requires, including the examination of titles, locations and assessed values.

A summary of the work shows that, eliminating from consideration parcels for which no claims have been filed, and also eliminating the Jerome Park proceedings, there are in process of trial, for which commissioners have been appointed, five hundred and twenty-six cases, involving, in the aggregate, claims against the City of \$3,225,445.25.

Office of the Attorney to the Department of Street Improvements of the Twenty-third and Twenty-fourth Wards.

OFFICE OF THE ATTORNEY TO THE DEPARTMENT OF STREET IMPROVEMENTS OF THE TWENTY-THIRD AND TWENTY-FOURTH WARDS, NEW YORK, December 29, 1894.

Hon. WILLIAM H. CLARK, Counsel to the Corporation:

SIR—In submitting my report, hereto annexed, of the transactions of my office relating to the Department of Street Improvements of the Twenty-third and Twenty-fourth Wards for the year 1894, it is necessary to state that the enclosed record is general in its character and that there are omitted from it the numerous details of services rendered in giving oral advices, in personal consultations and interviews with the Commissioner of Street Improvements, and subordinate officers and employees of the said Department, as well as with contractors and other persons having official and business relations with the Department, a detailed record of which services is kept in my daily register. Besides these, various other services were rendered of minor importance, of which it is impracticable to keep any record.

It may be also important to acquaint you with the following facts, which may serve to demonstrate the wisdom of having created the office of Attorney to the Department of Street Improvements. Prior to establishment of the office, one year and a half ago, there existed several actions against the City, and several alleged causes of action which have since been put into suit, arising out of controversies between the officials of the Department and contractors. The aggregate claims of these suits amounted to over \$160,000. During the eighteen months I have been in office there has not been a single suit brought against the City, nor does there exist any alleged causes of action or claims against the City, that I am aware of, arising out of any subject matter which has had its origin under the present administration. This, I believe, to be due to the fact that when controversies arose legal advice was immediately available, and that a course of procedure was adopted which either led to an amicable adjustment of the questions involved, or which checkmated designing persons in their schemes to place the City in a false position with reference to the matters in dispute. In this connection must be borne in mind the magnitude and variety of the public improvements now under the control of said Department, aggregating, as they do, in amount over three millions of dollars. In addition to the regular work of carrying on the many contracts for these improvements there have been those of laying out, monumenting and surveying extensive territories, maintaining the public highways, and of preparing the final maps of the district. Questions of more or less difficulty constantly arise which have often to be determined without delay, while not a few of the problems to be solved required considerable investigation and close examination of the statutes. Owing to the fact that since the annexation of these wards to the City in 1874 there have been enacted a large number of special laws affecting the public interests of the district, some of which are apparently irreconcilable, the difficulty of these examinations has in many instances been increased. During the past year, however, I prepared several bills which have been enacted into laws, whereby some of the former discrepancies have been removed and harmony established between apparently conflicting statutes.

The legal documents prepared by me during the year number eighty-eight (88), embracing seventy-five (75) written opinions relating to the public business.

Respectfully,

MATTHEW R. BREEN, Attorney to the Department of Street Improvements.
