The President laid before the Board the following communication from the Commissioner of Docks:

No. 592.

Commissioner of Docks—Communication Relative to Women Employees of Dock Department Volunteering for Farm Work.

The City of New York, Department of Docks and Ferries, Office of the Commissioner, Pier A, North River, June 6, 1918.

Board of Aldermen, Municipal Building, New York City:

Gentlemen—Referring to the resolution of the Women's Lunch Club petitioning the Board of Aldermen to extend the vacation period of women in the employ of the City who were willing to volunteer for farm work, I am informed that all women employees must volunteer for at least four weeks' work.

This Department has as much business to attend to in the summer as at any other season of the year. The force of the Department was greatly reduced during the past administration; many of our men are engaged in the various war activities of the Federal Government; others have been drafted and it is difficult to properly fill these positions at the salaries to which we are limited.

Recognizing, however, the importance of securing volunteers for farm work, I can only say that endeavor will be made to arrange for the additional vacation for such of our women employees who will agree to engage in this work.

Yours very truly, MURRAY HULBERT, Commissioner of Docks.

Which was referred to the Committee on Labor and Industries.

The President laid before the Board the following communication from the President, Borough of Queens:

No. 593.

The City of New York, Office of the President of the Borough of Queens, Long Island City, June 5, 1918.

To the Honorable Board of Aldermen, City of New York:

Gentlemen—In accordance with the provisions of section 56 of the Charter of the City of New York, I desire to request of your honorable Board the establishment of the position of Inspector of Regulating, Grading and Paving at \$1,740 per annum for one employee in this department. Very truly yours,

FRANK X. SULLIVAN, Acting President of the Borough of Queens.

Which was referred to the Committee on Salaries and Offices.

The President laid before the Board the following communication from the Board of Estimate and Apportionment:

No. 594.

Board of Estimate and Apportionment—Resolution Authorizing an Issue of Corporate Stock, \$78,644.63, to Provide for Proportionate Cost of Elimination of Grade Crossings of Highways and Railroads.

City of New York, Board of Estimate and Apportionment, Office of the Secretary, Municipal Building, June 10, 1918.

To the Honorable, the Board of Aldermen:

Gentlemen—I transmit herewith certified copy of resolution adopted by the Board of Estimate and Apportionment, June 7, 1918, authorizing the issue of seventy-eight thousand, six hundred and forty-four dollars and sixty-three cents (\$78,644.63) corporate stock, to provide means for the proportionate cost of improvements to be borne by The City of New York in connection with the abolishment of grade crossings of highways and railroads, pursuant to the provisions of chapter 507 of the Laws of 1903 as amended.

I also transmit copy of report of the Comptroller relative thereto.

Yours very truly, JOSEPH HAAG, Secretary.

Resolved, That the Board of Estimate and Apportionment, pursuant to the provisions of chapter 507 of the Laws of 1903, and acts amendatory thereof, hereby approves of the issue of corporate stock of the City of New York in an amount not exceeding seventy-eight thousand, six hundred and forty-four dollars and sixty-three cents (\$78,644.63), maturing thirty (30) years after the date of issue, to provide means for paying the proportionate cost of improvements to be borne by The City of New York in connection with the abolishment of grade crossings of highways and railroads, pursuant to said laws, and that when authority thereof shall have been obtained from the Board of Aldermen, the Comptroller be and is hereby authorized to issue said corporate stock of the City of New York in the manner provided by section 169 of the Greater New York Charter, the proceeds thereof to the amount of the par value of the stock to be applied to the purposes aforesaid.

A true copy of resolution adopted by the Board of Estimate and Apportionment, June 7, 1918.

The City of New York, Department of Finance, Comptroller's Office, May 23, 1918.

To the Board of Estimate and Apportionment, The City of New York:

Gentlemen—Under date of May 13, 1918, the President of the Brooklyn Grade Crossing Commission addressed a communication to your Board, advising that, in accordance with the provisions of chapter 510 Laws of 1918, which became effective May 7, 1918, the Commission had closed its offices and had made arrangements for the delivery of all records to the County Clerk of Kings County, and the delivery to the City authorities of the complete printed report of the work accomplished by the Commission. This communication was considered by you at the meeting of May 17, 1918 (Cal. No. 108), and was ordered filed.

Chapter 510 of the Laws of 1918, amending chapter 507 Laws of 1903, and acts amendatory thereof, provided that on May 1, 1918, "the board of estimate and apportionment of the city of New York shall succeed to all the rights, powers, duties and obligations of the Brooklyn grade crossing commission, which shall then cease to exist;" and that "the duties of the general superintendent of such commission shall devolve upon the secretary of such board." Section 15 of chapter 510 Laws 1918, reads:

"Said commission and its general superintendent shall on or before May first, nineteen hundred and eighteen, certify all sums theretofore expended by either of said railroad corporations under the provisions of this act, and theretofore allow by said commission as proper charges, and one-half the amount of such certificates shall be paid in the manner provided in section five thereof."

The section 5 (of chapter 735 of the Laws of 1907) referred to, provides that the City's share of the cost of the Bay Ridge improvement on the Long Island Railroad shall not exceed \$2,500,000, plus one-half the cost of bridging streets then (1907) unopened across the railroad, and that the City's share of the cost of the Brighton Beach improvement on the Brooklyn Heights Railroad shall not exceed \$1,000,000, and states:

"When, and as often as it shall appear by the certificates of the general superintendent of the work of the said improvements, duly certified by the aforesaid board 'the Brooklyn Grade Crossing Commission' that the sum of twenty-five thousand dollars has been expended thereon by either of said railroad corporations, specifying the positions and divisions of the improvement where said expenditure has been made, the comptroller of the city of New York shall draw his warrant upon the treasury of the said city, in favor of the treasurer of the railroad corporation bearing and paying said expense, for one-half of the said sum * * *"

Section 6 of the Brooklyn Grade Crossing Laws referred to, states that: "For the purpose of raising the sum or amount of the cost of said improvements to be borne by the said city, it shall be the duty of The City of New York, from time to

time, upon the requisition of said Board, to issue corporate stock of The City of New York under the provisions of chapter 466 of the Laws of 1901 * * * (the Greater New York Charter.)

In accordance with the provisions of the laws referred to, as they existed prior to the enactment of chapter 510 of the Laws of 1918, the following amounts have been provided for meeting the City's share of the cost of the Bay Ridge and Brighton Beach improvements:

Corporate Stock Authorized by the Board of Estimate and Apportionment.	
Year.	
1905	\$750,000 00
1907	500,000 00

1916	200,000 00
Premiums on corporate stock sold	41,057 48

Total Credits	\$3,081,057 48
Payments by the City have been made as follows:	
For account of the Bay Ridge improvement, being 171 certificates of expenditures by the Long Island Railroad Co.—City's share, \$12,500 each	\$2,137,500 00
For account of the Brighton Beach improvement, being 70 certificates of expenditures by the Brooklyn Heights Railroad Company—the City's share, \$12,500, each ..	\$875,000 00
Interest on contested claims, less deductions and rebates	12,164 95
	887,164 95

Total Debits	\$3,024,664 95
Balance now available	56,392 53

In accordance with the provisions of section 15 of chapter 510 Laws 1918, above quoted, the Commission has certified the further expenditures incurred during its existence, which expenditures are represented by certificates of the following numbers and amounts:

Long Island Railroad Company (Bay Ridge Improvement)—	
6 certificates, Nos. 172 to 177, inclusive, at \$25,000 each ..	\$150,000 00
1 certificate, No. 178	20,477 01
	\$170,477 01
City's share, one-half	\$85,238 50
Brooklyn Heights Railroad Co. (Brighton Beach Improvement)—	
3 certificates, Nos. 71 to 73, inclusive, at \$25,000 each ..	\$75,000 00
1 certificate, No. 74	24,597 33
	\$99,597 33
City's share, one-half	\$49,798 66

Total of City's share of certificates awaiting disposition	\$135,037 16
Available for meeting these expenditures	56,392 53

Necessary to be provided	\$78,644 63
--------------------------------	-------------

The foregoing claims will be audited in the Department of Finance, and although it is possible that some reductions may be made, or items held for further consideration, it is advisable that funds be provided so that payment may be promptly made as soon as it has been determined that the charges are reasonable and proper. In view of the provisions of the statutes above referred to, it appears that the funds necessary to meet the City's share of the above expenditures should be raised by the issue of corporate stock.

While the Brooklyn Grade Crossing Laws prior to the 1918 amendment made it the duty of The City of New York to issue corporate stock from time to time upon the requisition of the Brooklyn Grade Crossing Commission, and it was customary to predicate such action upon a formal requisition from said Commission, it would appear that the Board of Estimate and Apportionment, having succeeded to the "rights, powers, duties and obligations" of the Brooklyn Grade Crossing Commission, should now proceed on its own initiative in this matter. I therefore attach a resolution for adoption by your Board approving an authorization of corporate stock in an amount not to exceed \$78,644.63.

It will be seen from the figures given that the total expenditures by the City, including the certificates now pending (\$2,222,738.50 in the case of the Bay Ridge and \$936,963.61 in the case of the Brighton Beach Improvements), have been within the limits fixed for the City's contribution. Yours very truly,

CHARLES L. CRAIG, Comptroller.

In connection with the foregoing communication, the Vice-Chairman offered the following resolution, which on his motion, was made a General Order for the day: AN ORDINANCE providing for an issue of Corporate Stock of The City of New York to an amount not exceeding seventy-eight thousand six hundred and forty-four dollars and sixty three cents (\$78,644.63), for the purpose of providing for the proportionate cost of improvements to be borne by The City of New York in connection with the abolishment of grade crossings of highways and railroads.

Be it Ordained, by the Board of Aldermen of The City of New York, as follows: Section 1. The Board of Aldermen hereby approves and concurs in the following resolution adopted by the Board of Estimate and Apportionment June 7, 1918, and authorizes the Comptroller to issue Corporate Stock of The City of New York to the amount and for the purposes therein specified:

Resolved, That the Board of Estimate and Apportionment, pursuant to the provisions of chapter 507 of the Laws of 1903, and acts amendatory thereof, hereby approves of the issue of Corporate Stock of The City of New York in an amount not exceeding seventy-eight thousand six hundred and forty-four dollars and sixty-three cents (\$78,644.63), maturing thirty (30) years after the date of issue, to provide means for paying the proportionate cost of improvements to be borne by The City of New York, in connection with the abolishment of grade crossings of highways and railroads, pursuant to said laws, and that when authority therefor shall have been obtained from the Board of Aldermen, the Comptroller be and is hereby authorized to issue said Corporate Stock of The City of New York, in the manner provided by section 169 of the Greater New York Charter, the proceeds thereof to the amount of the par value of the stock to be applied to the purposes aforesaid.

The President put the question whether the Board would agree with said resolution.

Which was unanimously decided in the affirmative by the following vote:

Affirmative—Aldermen Atwell, Bell, Braunstein, Burden, Burke, Cassidy, Collins, Colne, Cox, Cunningham, Curley, Diemer, Donnelly, Dunn, Falconer, Farley, Ferguson, Ferrand, Fowler, Fullum, Gaynor, Gilmore, Hatch, Haubert, Held, Hilke-meier, Hogan, Kenneally, Kenney, Lee, McCann, McCourt, McGarry, McManus, McNulty, Martin, Molen, Moore, Mullen, O'Brien, O'Rourke, Palitz, Quinn, Roberts, Rosenberg, Ryan, Schmitz, Schweickert, Smith, Squiers, Stapleton, Sullivan, Vladeck, Walsh, Williams, Wirth, Wise, Wolff, Zettler; President Riegelmann, by Joseph Fennelly, Assistant Commissioner of Public Works; the Vice-Chairman; the President—62.

The President laid before the Board the following communication from the Commissioner of Public Markets:

Resolved First—That the Board of Aldermen hereby approves the appropriation of Three hundred thousand dollars (\$300,000), authorized by the Board of Estimate and Apportionment by its resolution adopted May 24, 1918, for the purpose of carrying out the provisions of section 14, chapter 813 of the Laws of 1917, in such manner and under such conditions as seem to the Commissioner of Public Markets to be to the best interests of the inhabitants of the City of New York;

Second—That the Comptroller is hereby authorized and directed to raise the said sum by the sale of special revenue bonds and to place the sum of Three hundred thousand (\$300,000) dollars out of the proceeds of such sale in the "Food and Fuel

Purchase Fund, Commissioner of Public Markets" established under the resolution of this board adopted May 14, 1918, and approved by the Mayor May 21, 1918;

Fourth—That the Commissioner of Public Markets is hereby directed to furnish to the Comptroller vouchers for all expenses paid out of said fund and to account therefor at such intervals as the Comptroller may prescribe.

Report of the Committee on Finance in Favor of Filing Request of the Commissioner of Docks for Special Revenue Bonds, \$78,469.40, to Pay for Insurance of Certain Property Located on the North River.

The Committee on Finance to which was referred on March 12, 1918 (Minutes, page 555), the annexed request of the Commissioner of Docks for Special Revenue Bonds, \$78,469.40, to pay for premiums for insurance of certain property located on the North River respectfully

REPORTS:

That the Commissioner of Docks has notified the Committee that the matter be withdrawn.

Your Committee, therefore, recommends the request be placed on file.

FRANCIS P. KENNEY, B. E. DONNELLY, JNO. J. O'ROURKE, ROBERT L. MORAN, JOHN S. GAYNOR, ALGERNON LEE, EDWARD V. GILMORE, WM. P. KENNEALLY, Committee on Finance.

The City of New York, Department of Docks and Ferries, Office of the Commissioner, Pier A, North River, March 9, 1918.

Hon. ALFRED E. SMITH, President, Board of Aldermen, City Hall, New York:

Dear Sir—At a meeting of the Board of Aldermen held December 18, 1917, a resolution was adopted authorizing the Commissioner of Docks to enter into a contract without public letting for the insurance at the minimum rates fixed by the Board of Fire Underwriters and Insurance Exchange of certain property located on the North River between West 44th and West 58th streets, to be leased to the United States Government.

Pursuant to this authority a contract was made by my predecessor with John M. Riehle & Company, Inc., 68 William street, for the insurance for one year from January 1, as follows:

	Total Insurance.	Premium.
Pier at West 55th street and adjoining bulkhead, together with shed thereon	\$425,000 00	\$5,737 52
Pier at West 56th street and adjoining bulkhead, together with shed thereon	262,500 00	3,543 77
Pier at West 57th street and adjoining bulkhead, together with shed thereon	537,500 00	7,256 47
	<u>\$1,225,000 00</u>	<u>\$16,537 76</u>

Insurance will also be placed to the extent of \$1,000,000 on the pier at West 46th street and the shed thereon as soon as the work is accepted from the contractor. The premium on this parcel will amount to \$14,850.

This will make a total insurance on the four piers of \$2,225,000, for which the premium for one year is \$31,387.76.

This insurance could be placed for three years for \$78,469.40, while the cost of obtaining new policies annually will amount to \$94,163.28, making a saving of \$15,396.88 by insuring for a period of three years, which of course will carry with it the right of cancellation and rebate in case the insurance is canceled before the expiration of the three years. Or if the Government should vacate the premises before the expiration of three years there will probably be no difficulty in arranging with the new lessee for taking over the insurance and reimbursing the City for a proportionate amount of the premium.

While this insurance was contracted for and the leases made to the Government during the year 1917, there was no appropriation obtained for the payment of the premiums.

I therefore beg to recommend that an issue of revenue bonds be authorized to pay for the premiums on insurance as above set forth in the sum of \$78,469.40.

Yours respectfully, MURRAY HULBERT, Commissioner of Docks.

City of New York, Board of Estimate and Apportionment, Office of the Secretary, Municipal Building, March 18, 1918.

Mr. FRANCIS P. KENNEY, Chairman, Finance Committee, Board of Aldermen:

Dear Sir—On March 14, 1918, you requested me to report on an issue of special revenue bonds to the amount of \$78,469.40 to provide funds for the payment of insurance premiums for three years on policies amounting to \$2,225,000 on piers at 46th, 55th, 56th and 57th streets, North River, leased to the United States Government.

On December 18, 1917, the Board of Aldermen approved a resolution which

granted authority to the Dock Commissioner to enter into a contract, without public letting, for the insurance at the minimum rates fixed by the Board of Fire Underwriters and Insurance Exchange of certain property located on the North River, between West 44th and West 58th streets, to be leased to the United States Government.

The former Commissioner contracted with John M. Riehle & Co., Inc., 68 William street, for one year's insurance from January 1, 1918, on the piers at 55th, 56th and 57th street, North River, to the amount of \$1,225,000, the policies for which are now in the possession of the department. The premiums amounting to \$16,537.76 have not been paid, as there are no funds available for this purpose.

Commissioner Hulbert now desires to add the pier at foot of West 46th street and place insurance to the extent of \$1,000,000, the yearly premium for which is \$14,850, making an annual total of \$31,387.76. He further requests that the City insure the property for three years, thereby making a saving of \$15,396.88.

These piers are leased to the Federal Government for an annual rental of \$465,312.50, in which amount the insurance premiums have been included. The United States Government will not be responsible for damage in case of fire, and will not insure against such damage. In leases to private parties, the department includes a clause making the lessee so responsible, but this cannot be provided for in dealing with the United States Government.

On April 16, 1906 (page 305 of minutes), the Sinking Fund Commission adopted resolutions, as follows:

"Resolved, That the general policy of the City in the past of carrying its own fire and marine risks should, in the judgment of this Board, be made a uniform policy, and the City should not hereafter take any further policies of either fire or marine insurance, and

"Resolved, That the Secretary be and is hereby requested to communicate with the heads of the different City departments informing them of this action, and requesting that no further policies of insurance be taken."

The present proposition will change the general policy of the City departments.

On December 27, 1917 (page 1233 of minutes), the Sinking Fund Commission passed a resolution which reads in part, as follows:

"The lessor assumes all risk of loss or damage by fire or explosion by whomsoever caused and the risk of loss or damage by the other elements, including ice. In case the premises be damaged by fire or explosion or the other elements, including ice, the lessor shall promptly repair the same at its expense and a proportionate reduction of the rent shall be made for the period between the occurrence of the damage and the completion of the repairs; in the event, however, of the destruction of the premises or a substantial part thereof, the lessee shall have the option of paying rent to the time of such destruction and of surrendering the premises and forthwith terminating this lease."

The Department has leased other piers to the Federal Government under similar conditions and has not requested the City to carry fire insurance policies on these risks.

Respectfully,

JOSEPH HAAG, Secretary.

Which report was accepted.

Report of the Committee on Finance in Favor of Adopting Resolution to Authorize an Issue of Special Revenue Bonds, \$142,770, to Provide for the Purchase of Fire Hose.

The Committee on Finance, to which was referred on June 4, 1918 (Minutes, page 316), the annexed resolution for special revenue bonds, \$142,770, to provide for the purchase of fire hose, respectfully

REPORTS:

That this matter was recommitted for the purpose of further consideration, and your Committee, after again hearing the Fire Commissioner and Mr. Roberts of the investigating bureau of the Board of Estimate and Apportionment and despite the annexed report of the said investigating bureau, is still of the opinion that the request is reasonable.

It therefore recommends the adoption of the accompanying resolution.

Resolved, That, in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and it is hereby requested to authorize the Comptroller to issue special revenue bonds to the amount of one hundred and forty-two thousand seven hundred and seventy dollars (\$142,770), the proceeds whereof to be used by the Fire Commissioner for the purpose of purchasing fire hose.

All obligations contracted for hereunder to be incurred on or before December 31, 1918.

				<u>\$142,770 00</u>

The hose situation in the Fire Department for some time back has been in somewhat perilous condition. During the past winter there were times when grave danger existed and serious fire loss was narrowly averted. Unless adequate provision is made to procure hose, and at once, a situation will develop that may be a source of very great danger. At the present time there is a shortage of 94,950 feet, taking into account that hose more than eight years old is unsafe for further use.

Long experience of the Fire Department has shown that after hose has been in use for eight years it is no longer safe or reliable. There are, of course, many instances where hose has been serviceable for more than eight years. This long service, however, is more than offset by the fact that many lengths of hose, on which the guarantee has expired, do not last eight years.

Up to about seven years ago hose manufacturers guaranteed their product against defective material and workmanship for a period of four years. Thereafter this department found it necessary to reduce the guarantee period to three years as contractors would not bid if a longer guarantee were exacted.

When it is remembered that the Fire Commissioner is willing to assume that hose is serviceable for a period of five years beyond the time which contractors consider it safe to guarantee hose, it will be admitted that fixing the service limit at eight years is about as far as it is wise or safe to go.

Getting fire hose is becoming more difficult every day. Manufacturers are confronted with many difficulties in procuring material, and skilled labor is at a premium. No matter how willing manufacturers may be, procuring fire hose will become more of a problem daily for Fire Departments.

The United States Government is a very large user of fire hose and its orders are commands and must be cared for by manufacturers to the exclusion of all other business; hence the importance of trying to procure deliveries, or at least make a contract at the earliest moment so as to reduce to a minimum the probabilities of being set back because of Federal Government orders or prior orders from other sources.

Assuring that favorable action on this request be taken at the next meeting of your board, it would be at least a month before bids could be opened for furnishing hose. The very earliest delivery that could be hoped for would be sixty days thereafter, and then only in limited quantities; thus it would be three months before any hose would be delivered and three months hence the shortage will be greater than it now is.

The general opinion among hose manufacturers is that the price of hose will continue to rise and that the procuring of yarn for making the hose jackets will become increasingly difficult. Some manufacturers are of the opinion that it will be necessary, within a short time, to procure a United States Government certificate before any yarn can be obtained from the mills.

That there will be much difficulty in procuring sufficient to meet the needs of this department, even under the most favorable conditions that may exist, cannot be questioned. It is, therefore, urged that prompt and favorable action be taken on this request to assure having a supply sufficient to meet any contingency that may arise and be protected against the possibility, in fact, the probability, that six months hence hose manufacturers may be declining orders, no matter how attractive a price the City may be willing to pay.

My experience during the past four months has convinced me that the procuring of any high grade manufactured product is one of the most serious problems that this department will have to contend with at least during the period of the war.

While this request is only for funds to take care of the current yearly requirements, I am strongly of the opinion that it would be a very wise precaution for your board to authorize an issue of \$100,000, in addition to the amount requested, which would insure the department's being well equipped in this important respect for the next three years.

This department is beset with so many problems and difficulties which require constant, and, in many cases, immediate attention, that it would greatly relieve the situation if the hose problem were properly covered for a long period and other pressing matters could receive the attention that their importance demands.

Not only would this very important requirement be properly cared for as stated, but a great saving would also be effected. From the information I have been able to gather, it is possible to assure your honorable board that \$100,000, available now, will permit contracting for a quantity of hose that would cost at least \$125,000 if making a contract were delayed a year. Respectfully,

THOMAS J. DRENNAN, Fire Commissioner.

City of New York, Board of Estimate and Apportionment, Office of the Secretary, Room 1300, Municipal Building, May 27, 1918.

No. 505—Fire Commissioner—Request for an Issue of Special Revenue Bonds, \$142,770, for the Purchase of Fire Hose.

Hon. FRANCIS P. KENNEY, Chairman, Finance Committee, Board of Aldermen:

Sir—In accordance with your request I have investigated the above matter and report thereon as follows:

The Fire Commissioner bases his request upon the theory that he should purchase enough hose to bring the quantity in stock up to the quantity of each size established as the standard for the Department and, in addition, to replace all hose over eight years of age.

Careful search has failed to reveal anything in the records of the Fire Department to indicate either that hose becomes unreliable after eight years of service or that the average life is eight years. In the absence of any evidence to support it it does not seem proper to use the assumed life of eight years as a basis for an appropriation.

On November 30, 1917, the Board of Estimate and Apportionment made a transfer of \$94,000 for the purchase of fire hose, this being the amount estimated as necessary in order that the Fire Department should have its full quota of each size of hose on July 1, 1918, and in addition be able to condemn 27,000 feet of one make of hose which was accepted in 1908 and 1909 in spite of the fact that the couplings were defective. This hose has demonstrated that it is unreliable for long continued pressures of over 200 pounds per square inch, and it should be condemned or removed from all districts where high pressures are probable. It is possible that it can be safely continued in service by being distributed in small lots to outlying fire companies where pressures of over 125 pounds are unlikely and where it will take the place of two and one-half inch hose.

Owing to the fact that the purchases of hose with the funds transferred in 1917 were confined to the 2½ and 3 inch sizes, the quantities of hose, as compared with the established quota on May 9, 1918, as stated in the Fire Commissioner's letter, were as follows:

1½ inch—Deficit, 21,100 feet;
2½ inch—Surplus, 18,850 feet on hand and due;
3 inch—Surplus, 35,450 feet on hand and due;
3½ inch—Deficit, 4,300 feet.

No action has been taken as yet with regard to the 27,000 feet of 3 inch hose which is weak at the couplings.

Statistics obtained from the Fire Department show that during the first 10½ months of 1917 the quantity of hose condemned, destroyed and lost, including the hose burst at the annual hose test in June, average for each size per month, as follows:

1½ inch, 410 feet; 2½ inch, 6,576 feet; 3 inch, 1,705 feet; 3½ inch, 429 feet.

Eliminating the 27,000 feet of 3 inch hose mentioned from consideration, the quantity of hose necessary up to January 8, 1919, at the above rates of loss may be calculated as follows:

Condition on May 9, 1918.	Probable Loss in 8 Months to January 8, 1919.	Total Quantity Needed.
1½ inch, deficit, 21,100 feet	3,280	24,380
2½ inch, surplus, 18,850 feet	52,608	33,758
3 inch, surplus, 35,450 feet	13,640	5,190
3½ inch, deficit, 4,300 feet	3,432	7,732

The unit prices estimated by the Fire Commissioner, as compared with the last prices paid, together with the dates of previous orders or contracts, is shown by the following tabulation:

Size.	Price Estimated.	Last Price Paid.	Date.
1½ inch.....	\$0 60	\$0 4889	May 18, 1917
2½ inch.....	1 20	95	Dec. 14, 1917
3 inch.....	2 40	2 10	Dec. 14, 1917
3½ inch.....	3 00	1 84	Oct., 1916

It would appear that the estimated unit prices might be slightly reduced and the appropriation required estimated as follows:

Size.	Quantity.	Price.	Total.
1½ inch.....	24,400	\$0 55	\$13,420 00
2½ inch.....	33,750	1 00	33,750 00
3 inch.....	5,200	2 25	11,700 00
3½ inch.....	7,750	2 60	20,050 00
Total			\$78,920 00

If it is desired to make an appropriation to give the department its standard quantity of each size of hose for an extra month in 1919, after January 8, the amount to be added by the same method of calculation would be \$11,820.50.

Respectfully,

W. H. ROBERTS, Assistant Engineer.

Which was laid over.

No. 518.

Report of the Committee on Finance in Favor of Adopting Substitute Resolution Recommending to the Board of Estimate and Apportionment an Increase in Compensation for All City and County Employees Receiving \$2,000 or Less Per Annum.

The Committee on Finance, to which was referred on May 14, 1918 (Minutes, page 201, the annexed resolution providing for increase in compensation of all City and County employees receiving \$2,000 per annum or less, respectfully

REPORTS:

On May 14, 1918, there was referred to the Committee on Finance the following resolution:

"Whereas, The Governor of the State of New York has signed a bill automatically increasing the compensation of all State employees receiving \$2,000 or less per annum; and

"Whereas, Present living conditions in the City of New York are proportionately higher than any where else in the United States;

"Resolved, That all employees in the City and County service (paid entirely out of the City Treasury) receiving compensation at the rate of \$2,000 or less per annum be increased as follows:

"Employees receiving \$1,000 or less per annum to be increased twenty per centum additional to their present compensation.

"Employees receiving over \$1,000 and not over \$2,000 per annum to be increased ten per centum additional to their present compensation.

"This resolution to take effect July 1, 1918."

Relative thereto, the Committee have received numerous communications from many committees representing the various departments of the City government, and portrayed the hardships under which many City employees are laboring at the present time. They have also submitted statistics showing the greatly increased cost of commodities of life. The same conditions prevail in all walks of commercial and industrial life, due to abnormal conditions during a state of war. A general increase in wage is going on throughout the entire country to meet this new economic condition. The City must compete with this condition and provide a living wage so that employees of cities and counties may meet their added obligations.

After careful investigation, the Committee advises that under section 56 of the Charter the Board of Aldermen are without power to increase salaries without the Board of Estimate initiating them, and that, further, it is beyond the power of the City to provide a general increase in salaries of this kind except by including the same in the budget for the ensuing year and paid from tax levy. The Board of Aldermen is empowered under section 188 of the Charter to issue special revenue bonds not to exceed the sum of two millions of dollars to meet deficiencies not anticipated at the time of the making of the budget. To date, due to the increasing cost of supplies and commodities, the Board of Aldermen has authorized issues totaling nearly one million dollars, and fear the balance will not carry over the remaining period of the year. Therefore be it

Resolved, That the Board of Aldermen strongly urges the Board of Estimate to consider in the preparation of the budget for the year 1919 a reasonable and adequate increase to all City and County employees who are suffering a condition of low wage, to the end that the City may maintain a standard of efficiency necessary to the proper conduct of the City's business.

The Committee, therefore, recommends the adoption of the following substitute resolution as submitted to the Committee by Alderman Mullen:

Resolved, That the Board of Aldermen recommend to the Board of Estimate and Apportionment that all employees in the City and County Service receiving compensation at the rate of \$2,000 or less per annum be increased as follows:

Employees receiving \$1,000 or less per annum to be increased twenty per centum additional to their present compensation.

Employees receiving more than \$1,000 and not over \$2,000 per annum to be increased ten per centum additional to their present compensation. Employees receiving over \$2,000, increases shall be considered on a basis of years of service and nature of duties performed.

—be it further

Resolved, That a copy of this resolution, together with a copy of the report of the Committee, be forwarded to the Board of Estimate and Apportionment immediately.

FRANCIS P. KENNEY, B. E. DONNELLY, JNO. J. O'ROURKE, ROBERT L. MORAN, JOHN S. GAYNOR, ALGERNON LEE, EDWARD V. GILMORE, WM. P. KENNEALLY, Committee on Finance.

In connection herewith Alderman Lee presented the following amendment:

Amend Int. No. 518, by striking out the last three paragraphs and inserting in place thereof the following:

Employees receiving more than \$1,000 and not over \$2,000 per annum to be increased ten per centum over their present rates of compensation.

Employees receiving \$1,000 or less per annum to be increased at least twenty per centum over their present rates of compensation, but in such manner that the compensation of regular employees above twenty-one years of age, employed for full-time service of eight hours or more per day, and without maintenance, shall in no case be less than \$1,200 per annum; and be it further

Resolved, That on and after the first day of November, 1918, the said Board of Aldermen, pursuant to the powers granted to it under section 56 of the City Charter, will not fix the compensation of any such employees at rates lower than those indicated in the foregoing paragraphs.

After discussion by Alderman Lee, Beckerman, Wolff and the Vice-Chairman, the President put the question whether the Board would agree with said amendment of Alderman Lee.

Which was decided in the negative by the following vote:

Affirmative—Aldermen Beckerman, Braunstein, Calman, Held, Lee, Vladeck and Wolff—7.

Negative—Aldermen Atwell, Bell, Bostwick Buckley, Burden, Burke, Cassidy, Collins, Colne, Cox, Cunningham, Curley, Diemer, Donnelly, Dunn, Falconer, Farley, Ferguson, Ferrand, Fowler, Friedman, Fullum, Gaynor, Gilmore, Hatch, Haubert, Hilkemeier, Hogan, Kenneally, Kenney, McCann, McCourt, McGarry, McManus, McNulty, Martin, Molen, Moore, Mullen, O'Brien, O'Rourke, Quinn, Roberts, Rosenberg, Ryan, Schmitz, Schweickert, Smith, Squiers, Stapleton, Walsh, Williams, Wirth, Wise, Zettler; President Van Name; President Connolly; by W. Augustus Shipley, Assistant Commissioner of Public Works; President Bruckner, by William J. Flynn, Commissioner of Public Works; the Vice-Chairman; the President—60.

The President then put the question whether the Board would agree to accept said report and adopt such resolution.

Which was adopted by a *viva voce* vote.

To the Honorable Board of Aldermen of The City of New York:

At a meeting of the Board of Trustees of the Queens Borough Public Library, held at Jamaica, L. I., on Thursday, May 9, 1918, the following action was taken:

(Extract from the Minutes.)

"(61) Resolved, That the Board of Aldermen of The City of New York be and hereby is requested to authorize an issue of special revenue bonds, in the

amount of \$6,900, to be applied to the purpose of maintaining Grandview Branch during the year 1918."

No. 536—The Queens Borough Public Library—Request for Special Revenue Bonds, \$6,900, for Maintaining the Grandview Branch Library.

Hon. FRANCIS P. KENNEY, Chairman, Committee on Finance, Board of Aldermen:

Sir—In accordance with your request I have investigated the above matter.

In the departmental estimate for the Queens Borough Public Library request was made for funds to continue this particular branch, which was disallowed by the Board of Estimate and Apportionment.

It developed at the hearing before the Sub-Budget Committee that this branch had been started during the year 1917 by the Board of Trustees without the Trustees having submitted to any of the appropriating bodies of The City of New York, or their committees, any data as to the wisdom or necessity of establishing a branch library at this particular point. It also developed that in considering the appropriation for libraries for the year 1917 a request for the establishment of branches at Evergreen, Maspeth and Leonia had been denied and after denial the Board of Trustees moved their Ridgewood branch down toward Evergreen, and then established this Grandview branch, for which no provision had ever been asked.

The maintenance of this branch to date has been paid from the corporate funds of the Queensboro Public Library, which are made up of fines and money received from the State. The request proposed to discontinue this method, as the corporate funds are becoming depleted, and to have the City appropriate funds for the purpose.

The details of the request are as follows:

To Maintain Grandview Branch, 1918, \$6,900.

It has been ascertained that sufficient allowance was made in the budget of 1918 to care for all expenditures of this branch, exclusive of "Salaries Regular Employees," "Books and Periodicals" and "Rent." These three items in this request amount to \$5,873, but the salaries item in the budget estimate was \$120 less, due to the intention of paying only \$600 to each of the Grade C Assistants.

As to the item of "Books and Periodicals, \$2,800," attention is invited to the fact that on May 3, 1916, the Secretary of the Board of Estimate and Apportionment communicated with the Secretary of the Queens Borough Public Library, advising and requesting him to return to the Comptroller \$8,694.96, which consisted of unexpended salary balances from appropriations of former years, in accordance with an opinion of the Corporation Counsel, which opinion was solicited indirectly by resolutions of the Queens Borough Public Library Trustees on December 9, 1915.

Instead of returning this money, as requested, I am informed the Trustees have transferred it to the Library's account for the purchase of "Books and Periodicals."

In view of this, I am of the opinion that your honorable Board should consider the denial of the entire request until such time as the money is returned to me General Fund of the City.

In any event, as practically five months of the year have elapsed, during which time this branch has been supported out of corporate stock funds and as the estimate of \$6,900 is based upon a year's needs, all that would be necessary, if you decide to recommend the continuance of the branch, would be sufficient for the remainder of the year.

The total sum necessary for all purposes in that event would be:

Salaries, Regular Employees	\$1,322 00
Rent	245 00
Books and Periodicals	2,800 00

\$4,367 00

Report of the Committee on Finance in Favor of Filing Request of the President, Borough of Queens, for Special Revenue Bonds, \$2,500, to Meet Deficit in Account, "Contingent Expenses, Supreme Court, Queens County."

The Committee on Finance to which was referred on May 28, 1918 (Minutes, page 261), the annexed request of the President, Borough of Queens, for special Revenue Bonds, \$2,500, to meet deficit in account "Contingent Expenses, Supreme Court, Queens County," respectfully

REPORTS:

That your Committee is of the opinion that this matter properly belongs before the Comptroller to be provided for under subdivision 7 of section 188 of the Charter.

It, therefore, recommends the request be placed on file.

FRANCIS P. KENNEY, B. E. DONNELLY, JNO. J. O'ROURKE, ROBERT L. MORAN, JOHN S. GAYNOR, ALGERNON LEE, EDWARD V. GILMORE, WM. P. KENNEALLY, Committee on Finance.

The City of New York, Office of the President of the Borough of Queens, Long Island City, May 21, 1918.

To the Honorable Board of Aldermen, City of New York:

Gentlemen—Application is hereby made, with the approval of your Honorable Board, for the issuance of Special Revenue Bonds in the sum of two thousand

five hundred dollars (\$2,500), proceeds of which are to be applied to contingent expenses of the Supreme Court in the County of Queens.

In support of this application, I am in receipt of a letter from Mr. John D. Peace, Special Deputy Clerk, in charge, a copy of which follows:

"In looking over our expenses incurred under Code No. 734, Contingencies, Care of Supreme Court, I find that the fund is about exhausted for the year 1918.

"I respectfully suggest that your office make an application for the transfer of \$2,500.00 from some other fund or the issue of Special Revenue Bonds for said amount.

"It is necessary that this amount be appropriated for the use of the Supreme Court, Queens County.

"I estimate that this money will be needed as follows:

For meals furnished to jurors from May 1 to December 31, 1918 \$1,000 00

For printing calendars, both of trial and special

1,000 00

A rearranged calendar is to be issued as of October 1, 1918, which will probably contain over 200 pages and about 500 copies will be needed.

For supplies of all kinds

500 00

\$2,500 00"

Supplementing the above letter, I wish to state that for a few years prior to 1918, payment for meals furnished to jurors has been paid out of an account entitled "Funds and Expenses of Jurors, Sheriff of Queens County." This year, however, and by direction of the Comptroller's office, payment for meals furnished to jurors has been paid out of a contingency appropriation of \$2,000 and included in the budget appropriations of this department. When the budget was being considered, this item was not included nor was any allowance made therefor; hence the lack of sufficient money to meet this unexpected contingency.

Very truly yours,

FRANK X. SULLIVAN, Commissioner of Public Works.

No. 551—President, Borough of Queens—Request for Special Revenue Bonds, \$2,500, to Meet Deficit in Account, "Contingent Expenses, Supreme Court, Queens County."

Hon. FRANCIS P. KENNEY, Chairman, Committee on Finance, Board of Aldermen:

Sir—In accordance with your request I have investigated into this matter and report thereon as follows:

Section 402 of the Charter provides that the president of a borough must supply the Supreme Court with supplies, equipment and expenses for juries. Subdivision 7 of section 188 of the Charter provides that the Comptroller is authorized to issue certificates of indebtedness or other evidences of indebtedness to be redeemed out of the tax levy for the next year succeeding the year of their issue to provide for the payment of claims, charges, expenses and appropriations which have been or may be lawfully payable by the City of New York and the several counties wholly included within its limits and for which no other provision for payment has been made.

As to the items of meals and supplies aggregating \$1,500, it has been the practice in the past, in view of the Charter provisions, for the Borough Presidents to make application to the Comptroller for an issue of "subdivision seven" revenue bonds to meet anticipated deficits.

Application for funds for printing the court calendar should be similarly made to the Comptroller by the County Clerk of Queens County. In an opinion, dated June 1, 1917, the Corporation Counsel decided that the duty of printing the calendar of the Supreme Court is expressly placed upon the Clerk of the County where the supply is furnished, with the exception of the County of New York. Respectfully,

THOMAS J. PATTERSON, Examiner.

Report of the Committee on Finance in Favor of Adopting Resolution to Authorize an Issue of Special Revenue Bonds, \$2,160, to Provide for Four Temporary Stenographers in the City Magistrates' Courts.

The Committee on Finance, to which was referred on June 4, 1918 (Minutes, page 308), the annexed request of the City Magistrates' Courts for special revenue bonds, \$2,160, to provide for four temporary Stenographers, respectfully

REPORTS:

That, having examined the subject, your Committee believes the request reasonable and the funds should be provided. The attached communication and letter of request explain the matter in detail.

Your Committee recommends the adoption of the accompanying resolution.

Resolved, That, in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and it is hereby requested to authorize the Comptroller to issue special revenue bonds to the amount of two thousand one hundred and sixty dollars (\$2,160), the proceeds whereof to be used by the Board of City Magistrates, for the purpose of providing for the services of four temporary Stenographers from July 1 to September 30, 1918.

City of New York, City Magistrates' Courts, 300 Mulberry Street, May 31, 1918.

To the Honorable Board of Aldermen, City Hall, New York City, N. Y.:

Gentlemen—At the suggestion of the Board of Estimate and Apportionment, I respectfully request your Honorable Board that special revenue bonds be issued in the sum of twenty-one hundred and sixty dollars (\$2,160), to provide for four (4) temporary Court Stenographers for a period of three (3) months, beginning July 1, and ending Sept. 30, 1918, in order that the regular Court Stenographers in the City Magistrates' Courts may be given a reasonable vacation during the foregoing period.

The facts and circumstances pertinent to this request are fully set forth in the accompanying request to the Board of Estimate and Apportionment, and the report to the Chief Clerk of the City Magistrates' Courts, which are hereto annexed and made a part of this request.

In the request to the Board of Estimate and Apportionment dated May 2, 1918, three temporary Stenographers for four months were asked, but in view of the fact that the said Board has suggested that this request be made to your Honorable Board, and owing to the delay occasioned thereby, it is now desired that four Stenographers for three months be granted, in order that the vacation schedule for the regular Stenographers may begin July 1, 1918. This involves no additional cost.

It is respectfully urged that speedy action upon this request be taken.

Respectfully yours, WILLIAM McADOO, Chief City Magistrate.

City of New York, City Magistrates' Courts, 300 Mulberry St., May 2, 1918.

To the Honorable Board of Estimate and Apportionment, New York City:

Gentlemen—I respectfully request that your Honorable Board provide funds, by transfer or otherwise, to permit the Board of City Magistrates to obtain the services of three temporary Court Stenographers for a period of four months, from June 1 to Sept. 30, 1918, inclusive.

These Stenographers are to be employed in the various City Magistrates' Courts in the Boroughs of Manhattan, Bronx, Brooklyn, Queens and Richmond. This will entail an expense of twenty-one hundred and sixty dollars (\$2,160), which may be transferred from the Miscellaneous Account, Code No. 3048, Accruals of Salaries and Wages, 1918. If this is not possible, I would respectfully request that revenue bond funds in the amount of \$2,160, be issued and that our account No. 2932, Wages, Temporary Employees, be modified to conform with the above.

The Stenographers in the Magistrates' Courts get less vacation period than those of any other Court in Greater New York. Their work is of the most exacting character and the hours in the Courts are long. Each Stenographer has to do his turn in the Night Courts. The Courts do not close any day in the year, Sundays and holidays not excepted.

In 1916 and 1917, upon a similar request, the Honorable Board of Estimate and Apportionment granted an allowance of four temporary Stenographers for a period of three months, it being the judgment of the Board that this would provide for a three weeks vacation for the Stenographers in these Courts. However, upon arranging the schedule for the summer vacation, it was found that the very best possible allowance of vacation time for each Stenographer was between fourteen to sixteen days in 1916, and sixteen to eighteen days in 1917.

It may be stated that the situation for the summer period of 1918 is in all respects similar to that of 1916 and 1917. It is estimated that the allowance of three tem-

porary Stenographers for a period of four months will make possible a vacation of about three weeks for each of the regular Stenographers.

In order to demonstrate to your Honorable Board that a genuine effort has been made to provide a vacation for the Court Stenographers, a series of tentative schedules have been drafted in a report to the Chief Clerk of the Department, copy of which is hereto annexed and made a part of this request. An examination of this report will show that it is impossible, without the additional help requested, to provide a reasonable vacation during the summer months.

In view of the fact that the vacation period in these Courts commences on June 1, it is earnestly hoped that your Honorable Board will see its way clear to act favorably upon this request at an early date, in order that schedules may be arranged. Very respectfully,

WILLIAM McADOO, Chief City Magistrate.
New York, April 18, 1918.

FRANK OLIVER, Esq., Chief Clerk, 300 Mulberry St., New York City:

Dear Sir—Pursuant to your direction, Mr. Berl and myself have prepared a series of possible vacation schedules for the Magistrates' Court Stenographers, for the summer period of 1918, and in order to present the situation as clearly as possible, it will be necessary to set before you what each tentative schedule entails.

The Magistrates' Courts are in session 365 days in the year. They do not close Sundays or Holidays.

Schedule "A."

There are fourteen courts in the Boroughs of Manhattan and The Bronx, to be covered by a full staff of eighteen Stenographers (assuming that the present vacancy is filled in time to make operative whatever schedule may be adopted).

By fixing the vacation period from May 1 to Oct. 31, utilizing every one of the eighteen Stenographers, it will be possible to give each Stenographer twenty-one (21) consecutive days' vacation, and a relief day out of every seven days, but providing for no reserve Stenographer to cover possible sickness or absence due to subpoenas or other cause. (This plan contemplated taking Miss Shuster from Headquarters and assigning her to the Traffic Court.)

Schedule "B."

This schedule, covering the period from June 1 to Oct. 4, provides for a vacation period of fourteen consecutive days, and at the same time providing one relief day in every seven days, but provides no reserve Stenographer.

Schedule "C."

By fixing the vacation period from June 1 to Sept. 30, utilizing the full staff of Stenographers as set forth in "A," it would be possible to give each Stenographer a vacation of twenty-one (21) consecutive days, followed or preceded by a straight assignment of 102 days' work, without any relief, or three periods of seven (7) days off, with intervening periods of approximately thirty-five days constant work, without relief. This plan, however, would provide for a reserve Stenographer.

Schedule "D."

Taking the period from June 16 to Sept. 30, and again utilizing the full staff, would provide a vacation of twenty-four (24) days, to be taken either in four periods at six (6) days, with intervening periods of eighteen (18) to twenty-four (24) working days, without relief, and no reserve Stenographer to cover emergency, or, if it is desired to take the twenty-four (24) days consecutively as a vacation, it will necessitate working eighty-four (84) days continuously, without relief.

The foregoing tentative schedules show the best possible provision that can be made with the present staff (including the appointment to fill present vacancy), without asking for additional help.

Schedule "E."

This schedule is the one put in operation during the summer period of 1917, which, with additional help of four substitute Stenographers for a period of three months, provides a vacation period of sixteen to eighteen days consecutively, and a relief day out of every seven days, and in addition provided for one reserve Stenographer. This reserve Stenographer, in addition to covering "Reserve," took regular periods of assignment in various courts during the vacation period. This plan provided for Miss Shuster covering as reserve.

None of the foregoing schedules provide for covering the Richmond Magistrates' Court during the vacation period of the Stenographer regularly assigned to that Court. The Brooklyn Stenographic staff, in arranging their vacation schedule, find themselves unable to cover this Richmond Court, and if it falls to the lot of the New York stenographic staff to take up this relief in Richmond, it will necessitate a complete rearrangement of the Schedules A, B, C, D, involving further curtailment of time off, and imposing additional hardship on an already fully occupied staff.

It will readily be seen that the adoption of any one of the schedules A, B, C and D, involves not only the breaking up of the vacation period into three parts, with variously long periods of days of constant work without relief, but practically nullifies the beneficial character of a vacation, namely, the opportunity to leave the City for rest and change of scene for any length of time. It is out of the question for men with families to arrange their vacations, unless it is granted during the closed school season, and for one straight period.

It may be suggested further, that the character and volume of work done by the official Stenographers in the Magistrates Courts during the year require a high state of physical and mental efficiency, consequently the imperative need for a reasonable period of rest and recreation during the hot summer months, in order that they may return to duty better equipped for the important and exacting work of the fall and winter months.

It is, therefore, respectfully recommended that a request be made of the Board of Estimate and Apportionment for the granting of three additional Stenographers for a period of four months, at a cost of \$2,160.

In order that the schedule for the vacation period may be put in operation, it is respectfully suggested that this matter be presented to the Board of Estimate and Apportionment at the earliest possible moment. Respectfully submitted,

JAMES GRAHAM, Chairman, Stenographer's Committee; SAMUEL BERL, Assignment Clerk.

Which was laid over.

Sheriff's Office, New York County, 51 Chambers Street, New York, May 22nd, 1918.

To the Honorable ALFRED E. SMITH, President, the Board of Aldermen, City Hall, New York City, N. Y.:

My Dear Mr. President—The enclosed application to the Board of Aldermen is made upon the suggestion of the Board of Estimate and Apportionment, to whom I applied last week for an additional appropriation for the purchase of coal for the county jail, to cover the remainder of this year.

The supply now on hand is already practically exhausted.

May I invoke your aid for speedy action upon the request to the Board of Aldermen? Respectfully yours,

DAVID H. KNOTT,
Sheriff's Office, New York County, 51 Chambers Street, New York, May 22nd, 1918.

To the Honorable Board of Aldermen, City Hall, New York City, N. Y.:

Gentlemen—I respectfully request your Honorable Board to recommend to the Board of Estimate and Apportionment, under section 188 of the Charter, the issue

of special revenue bonds in the sum of six hundred dollars (\$600) for the purchase of coal required in the county jail for the remainder of the current year, the budget appropriation for 1918 having already been exhausted.

Respectfully yours, DAVID H. KNOTT, Sheriff of New York County.

Office of the Secretary, Room 1300, June 1, 1918.

No. 550—Sheriff, New York County—Request for Special Revenue Bonds, \$600, for the Purchase of Coal for Use in the County Jail.

Hon. FRANCIS P. KENNEY, Chairman, Committee on Finance, Board of Aldermen:

Sir—In accordance with your request, I have investigated this matter, and report thereon as follows:

The allowance in the 1918 budget to the Sheriff for the purchase of fuel supplies is \$650, based on an estimated consumption of 72 2-9 tons at \$9 per ton, as requested by the Sheriff in his departmental estimate.

Of this appropriation there is at present a balance of only \$8.12. Since January 6 1/2 tons, costing \$641.88, or an average price of \$9.97 per ton, was delivered, nearly all of which has been consumed. The Sheriff estimates his requirements for the balance of the year at 60 tons at an average price of \$10 per ton. From April 17, 1917, to the end of the year there was delivered about 56 tons, 40 tons of which was delivered in October and December. The present estimate is based on a need for 40 tons for the last three months of the year and for 20 tons from now until the fall. The latter is to be used principally for cooking purposes. The price per gross ton of egg coal on the last lot delivered was \$9.80. The requested price of \$10 appears reasonable. Respectfully,

THOS. P. SMITH, Examiner.

The President put the question whether the Board would agree with said report and adopt such resolution.

Which was decided in the affirmative by the following vote:

Affirmative—Aldermen Atwell, Bassett, Beckerman, Bell, Bostwick, Braunstein, Buckley, Burden, Burke, Calman, Cassidy, Collins, Colne, Cox, Cunningham, Curley, Diemer, Donnelly, Dunn, Falconer, Farley, Ferguson, Ferrand, Fowler, Friedman, Fullum, Gaynor, Gilmore, Hatch, Haubert, Held, Hilkemeier, Hogan, Kenneally, Kenney, Lee, McCann, McCourt, McGarry, McManus, McNulty, Martin, Molen, Moore, Mullen, O'Brien, O'Rourke, Palitz, Quinn, Roberts, Rosenberg, Ryan, Schmitz, Smith, Squiers, Stapleton, Vladeck, Walsh, Williams, Wirth, Wise, Wolff, Zettler; President Van Name; President Connolly, by W. Report of the Committee on Public Letting in Favor of Adopting Resolution to Authorize the Commissioner of Docks to Contract for Insuring Ferryboats Operated by the City Without Public Letting.

The Committee on Public Letting, to which was referred on May 21, 1918 (Minutes, page 231), the annexed request of the Commissioner of Docks for authority to contract without public letting for insuring of ferryboats operated by the City, respectfully

REPORTS:

That Commissioner Hulbert appeared before the Committee and explained the reason for this request, and that bids were asked for and none received. The attached memorandum submitted by the Commissioner explains the matter in detail.

Your Committee believing it to the City's interest to grant the request, recommends the adoption of the accompanying resolution.

Resolved, That, in pursuance of the provisions of section 419 of the Greater New York Charter, the Commissioner of Docks is hereby authorized and empowered to enter into a contract, without public letting, for insuring ferryboats operated by The City of New York at a cost not exceeding \$64,500.

JOHN McCANN, GEORGE HILKEMEIER, CHAS. MOORE, JOHN F. McCOURT, WILLIAM K. WALSH, STEPHEN F. ROBERTS, EDWARD W. COX, THOMAS M. FARLEY, Committee on Public Letting.

The City of New York, Department of Docks and Ferries, Office of the Commissioner, Pier A, North River, May 20, 1918.

Hon. ALFRED E. SMITH, President of the Board of Aldermen, City Hall, New York City:

Sir—I transmit herewith memorandum in relation to the policy of carrying for the benefit of the City of New York, Fire, Accident and Collision insurance on the ferryboats operated by the City.

Pursuant to the provisions of Section 419 of the Greater New York Charter, I respectfully request that the Board of Aldermen adopt a resolution authorizing

and empowering me as Commissioner of Docks, to enter into a contract without public letting for insuring ferryboats belonging to the City of New York at a cost not to exceed \$64,500, pursuant to Proposition "B" contained in the said memorandum. Respectfully yours, MURRAY HULBERT, Commissioner of Docks. May 18, 1918.

Memorandum in relation to insurance of ferryboats.

At a meeting of the Commissioners of the Sinking Fund held July 8, 1907, a resolution was adopted authorizing the Commissioner of Docks to secure and carry for the benefit of the City of New York fire, accident and collision insurance on the ferryboats which are now or may hereafter be operated by the City.

Insurance was accordingly secured and carried on ferryboats operating on the Municipal Ferries between the foot of Whitehall Street, Manhattan, and the 39th Street, Brooklyn, and St. George, Staten Island, until July 16, 1914, when it was discontinued by the previous City Administration.

In my opinion it is absolutely necessary that the ferryboats should be insured. They are, owing to the nature of their construction and operation, subject to unforeseen damage which must be repaired immediately if the successful operation of the ferries is to be continued.

The preparation of contracts, the approval of forms by the Corporation Counsel, advertising, awarding, attaching certificates and approval of sureties by the Comptroller consumes about two months, even if these preliminaries are pushed vigorously, and in the meantime the damaged boats are lying idle, which means a serious derangement of the ferry service.

The dry docks in this port are now working to their full capacity night and day and extraordinary wages are paid to workers. Besides the natural increase in the number of commercial craft in this harbor, there is an ever increasing number of United States Army and Navy vessels requiring repairs and overhauling, which will make the dry dock repair situation daily more acute. I am informed that in the near future it will be impossible to secure bids on a contract calling for a lump sum for repairs to vessels, including ferryboats, so that no damage can be made good by contract after advertised bids except on a cost and percentage basis, which means that all such work must be done practically without public letting. In my opinion, the best way to overcome these difficulties is to insure the ferryboats. In the past when insurance was carried, the companies upon notice of damage immediately ordered the boats to a dry dock and the work was expeditiously completed.

A tentative proposition for fire, marine and collision insurance on the ferryboats belonging to the City has been received as follows:

	Proposition A.		Proposition B.	
"Manhattan"	\$300,000	\$7,500	\$400,000	\$8,000
"Brooklyn"	300,000	7,500	400,000	8,000
"Bronx"	300,000	7,500	400,000	8,000
"Queens"	300,000	7,500	400,000	8,000
"Richmond"	300,000	7,500	400,000	8,000
"Mayor Gaynor"	300,000	7,500	400,000	8,000
"Bay Ridge"	200,000	5,000	275,000	5,500
"Nassau"	200,000	5,000	275,000	5,500
"Gowanus"	200,000	5,000	275,000	5,500
	\$2,400,000	\$60,000	\$3,225,000	\$64,500

It will be noted that the quotations above involve a lower rate under Proposition "B", which is based upon insuring each of the boats for a larger amount than they have heretofore been insured for. Owing to the increased cost of labor and material, the boats cannot be replaced or rebuilt in case of total loss for the amounts set forth in Proposition "A."

It will also be noted that Proposition "B" provides for \$825,000 more insurance than is provided for in Proposition "A" for a premium only \$4,500 in excess of that quoted in Proposition "A." \$100,000 additional insurance is provided for the six large boats and \$75,000 additional insurance is provided for the three small boats. These amounts of insurance can be collected in case of total loss by fire or marine disaster.

Boat insurance rates are governed largely by the amount of insurance carried in proportion to the reproducible value, hence the lower rates for the larger amounts of insurance.

The City has heretofore insured these boats at rates varying from \$1.53 to \$2.11. In view of the fact that the losses sustained by the City heretofore have consisted entirely of damage to the boat by collision, etc., and that if these boats were to be damaged during the ensuing year to the same extent physically, it would cost the insurance companies twice as much to make the repairs at the present time as it cost them while the former insurance existed, it is apparent that the rates quoted above are much lower than the City has heretofore paid.

The policies which it is proposed to furnish will cover all the hazards included in the former policy with additional features of coverage, as follows:

"Loss or damage to hull or machinery through negligence, bursting of boilers, breakage of shafts or any latent defect in the machinery or hull or from other causes."

The policies formerly used restricted coverage of this nature unless caused by stranding.

In brief, the advantages which will be gained by insuring the ferryboats are as follows:

- (1) The City will not be liable for damages resulting from collision or accident.
- (2) It enables this Department to make immediate repairs to damages in excess of \$1,000, and avoids the delays under the present system caused by the preparation and advertising for contracts, and in addition the obtaining of appropriations by the action of the Commissioners of the Sinking Fund and the Board of Estimate and Apportionment.
- (3) It affords the public the quickest relief in the matter of bringing transportation service back to normal.
- (4) The adjustment of claims against the Municipal ferryboats are more readily made and greatly facilitated through the medium of the insurance adjusters.

For your information I submit herewith a statement of the most recent collision and accidents to the ferryboats:

		Estimated Damage to Ferryboats	Estimated Damage to Other Boats
Aug. 18, 1917	Ferryboat "Mayor Gaynor" in collision with the Murray		\$5,265 00
Nov. 25, 1917	Ferryboat "Manhattan," lost propeller	\$6,000 00	
Nov. 27, 1917	Ferryboat "Gowanus" in collision with schooner, "Priscilla"	200 00	3,240 00
Dec. 13, 1917	Ferryboat "Richmond" in collision with S. S. "Boston"	5,250 00	13,000 00
Feb. 3, 1918	Ferryboat "Brooklyn" in collision with tug "Leader"		2,500 00
Feb. 3, 1918	Ferryboat "Gowanus" in collision with tug "H. McCord"		4,780 00
		\$11,450 00	\$28,785 00

The amount of damage liable to occur in any one year is problematical, but it is reasonable to assume that the cost of insurance will be in excess of the claims paid, but there is always the risk of a disaster or complete loss.

The inconvenience and delay caused by public letting is exemplified in the case of the ferryboat "Manhattan" which was out of use from November 25, 1917, to March 6, 1918, due to loss of propeller wheel and consequent damage to the tail shaft. In this case, after all the preliminaries had been gone through, extending over a period of some months, the contract was advertised and no bids received, which made it necessary to obtain permission from the Board of Aldermen to award this work without public letting. Meanwhile the loss of the services of the boat made it impossible to maintain the schedule.

The loss of the services of the ferryboat "Manhattan" made it necessary to place the ferryboat "Mayor Gaynor" on the Staten Island Division. As this boat is comparatively small-built for the 39th Street service,—it has not the speed of the larger boats and the result was the disruption of the running schedule.

A resolution was adopted by the Commissioners of the Sinking Fund, May 9, 1918, approving of the policy of authorizing this Department to secure and carry for the benefit of the City, fire, accident and collision insurance on its ferryboats.

The President put the question whether the Board would agree with said report and adopt such resolution.

Which was decided in the negative by the following vote, three-fourths of all the elected members of the Board having failed to vote in favor thereof:

Affirmative—Aldermen Atwell, Bell, Bostwick, Buckley, Burden, Burke, Cassidy, Collins, Colne, Cox, Cunningham, Curley, Donnelly, Dunn, Farley, Ferguson, Fowler, Fullum, Gilmore, Hilkemeier, Hogan, Kenneally, Kenney, McCann, McCourt, McManus, McNulty, Martin, Molen, O'Brien, O'Rourke, Palitz, Roberts, Rosenberg, Ryan, Schmitz, Stapleton, Sullivan, Walsh, Williams, Wise; the Vice-Chairman—42.

Negative—Aldermen Beckerman, Braunstein, Calman, Diemer, Falconer, Gaynor, Hatch, Held, Lee, McGarry, Moore, Quinn, Smith, Squiers, Vladeck, Wirth, Wolff, Zettler—18.

The Vice-Chairman moved that the vote by which the foregoing report and resolution was lost be reconsidered.

Which was adopted.

The proposition was then, on motion of the Vice-Chairman, restored to the Calendar of Special Orders.

Report of the Committee on Public Letting in Favor of Adopting Resolution to Authorize the Board of Education to Purchase Sewing Machines and Necessary Equipment Without Public Letting.

The Committee on Public Letting, to which was referred on May 28, 1918 (Minutes, page 262), the annexed request of the Board of Education for authority to purchase sewing machines and necessary equipment without public letting, respectfully

REPORTS:

That Commissioner of Education, Mr. F. D. Wilsey, appeared before the Committee and stated the reason for this request is, that past experience has proven it to be the City's interest to purchase such equipment direct from the manufacturers, as not only are the best machines obtained, but also better prices than by advertising.

Your Committee accordingly recommends the adoption of the accompanying resolution:

Resolved, That, in pursuance of the provisions of section 419 of the Greater New York Charter, the Board of Education is hereby authorized and empowered to purchase foot-power sewing machines, special power sewing machines and tables for the same, equipped with necessary shafting, pulleys, guards, etc., without public letting, at a cost not exceeding \$16,600.

NOTICE TO BIDDERS AT SALES OF OLD BUILDINGS, ETC.

TERMS AND CONDITIONS UNDER WHICH BUILDINGS, ETC., WILL BE SOLD FOR REMOVAL FROM CITY PROPERTY.

THE BUILDINGS AND APPURTENANCES thereto will be sold to the highest bidder, who must pay cash or certified check drawn to the order of the Comptroller of The City of New York, and must also give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. Where the amount of the purchase price does not equal or exceed the sum of \$50, the sum of \$50 will be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract, but unfinished at the expiration of the contract period.

The purchaser shall not lease, occupy, cause or permit the building or buildings, etc., purchased by him to be used or occupied for any purpose other than that of their speedy removal, nor shall he collect any rental or other revenue for the use of either the land or the buildings, etc., situated thereon. The breach of either or any of these conditions shall forthwith void the sale and cause immediate forfeiture of the purchase money and the security deposited for the faithful performance of the conditions of the sale. The placing therein or permitting the occupancy of any such building by any tenant free, for rent or otherwise, excepting the necessary watchmen or the workmen engaged in the actual demolition thereof, shall of itself be a breach of the above conditions of sale.

The sale will be as of the condition of the property on date of delivery thereof to the purchaser. The City of New York will not be responsible for any change or loss which may occur in the condition of the buildings, or their appurtenances between the time of the sale thereof and the time of delivering possession to the purchaser, after being properly vacated of all tenants. The sale and delivery to purchaser will be made as nearly together as the circumstances of vacating the structures of their tenants will permit.

All the material of buildings, sheds, walks, structures and cellars of whatever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds, except the exterior walls of the buildings and their foundations, and the sidewalks and curb in front of said buildings, extending within the described area, shall be torn down and removed from the premises. None of the dirt, debris or waste resulting from the demolition shall be allowed to remain on the premises, except old mortar or plaster only, which may be left, but not higher at any point than two feet below the curb opposite that point. The exterior walls and their foundations shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building. Where there is no curb the elevation of the surrounding ground shall be considered curb level. All wells, cesspools, sinks, etc., existing on the property must be filled to the level of the surrounding ground with clean earth.

The purchaser at the sale shall also withdraw and remove all abandoned water taps and old service mains and in place thereof cause to be inserted a brass plug in the main water pipe in the street, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and furnish the Department of Finance with a certificate from the Department of Water Supply, Gas and Electricity that this has been performed.

The purchaser at the sale shall also remove all house sewer connections to the main sewer in the street, and the openings of the main sewer in street shall be properly closed in compliance with the directions of the Bureau of Sewers in the Borough in which the buildings are situated, and furnish the Department of Finance with a certificate from the Bureau of Sewers that the work has been properly performed.

The permit for all opening in the street to be obtained by and at the expense of the purchaser of the building.

Failure to remove said buildings, appurtenances, or any part thereof, within thirty days from the day of possession will work forfeiture

of ownership of such buildings, appurtenances or portions as shall then be left standing, together with all moneys paid by said purchaser on account thereof at the time of the sale, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and The City of New York will, without notice to the purchaser, cause the same to be removed and the cost and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and must be completed within thirty days from the date of possession, and the successful bidder will provide and furnish all materials or labor and machinery necessary thereto, and will place proper and sufficient guards, and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damage and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of said buildings.

Where party walls are found to exist between buildings purchased by different bidders, the materials of said party walls shall be understood to be equally divided between the separate purchasers.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down. All furrings, plaster, chimneys, projecting brick, etc., on the faces of such party walls are to be taken down and removed. The walls shall be made permanently self-supporting, beam holes, etc., bricked up, and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs and adjacent buildings shall be properly flashed and painted and made watertight where they have been disturbed by the operations of the Contractor.

No buildings, parts of buildings, fixtures or machinery sold for removal under these terms and conditions shall in any case be relocated or re-erected within the lines of any proposed street or other public improvement, and if any such buildings, parts of buildings, fixtures or machinery, etc., shall be relocated or re-erected within the lines of any proposed street or other public improvement, title thereto shall thereupon become vested in The City of New York and a resale at public or private sale may be made in the same manner as if no prior sale thereof had been made.

The Comptroller of The City of New York reserves the right on the day of sale to withdraw from sale any of the buildings, parts of buildings and machinery included therein, or to reject any and all bids, and be it further

Resolved, That while the said sale is held under the supervision of the Commissioners of the Sinking Fund, the Comptroller is authorized to cause the sale to be advertised and to direct the sale thereof as financial officer of the City.

The bid must be verified by the oath, in writing, of the party or parties making the bid that the several matters stated therein are in all respects true.

No bid will be considered unless, as a condition precedent to the reception or consideration of such bid, it be accompanied by a certified check upon one of the State or National banks or trust companies of The City of New York, or a check of such bank or trust company signed by a duly authorized officer thereof, drawn to the order of the Comptroller, or money or corporate stock or certificates of indebtedness of any nature issued by The City of New York, which the Comptroller shall approve as of equal value with the security required in the advertisement to the amount of not less than three nor more than five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

For particulars as to the quantity or quality of the supplies, or the nature and extent of the work, reference may be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter as surety or otherwise, upon any obligation of the City.

The contract must be bid for separately.

The right is reserved in each case to reject all bids if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids in addition to inserting the same in figures.

Bidders are requested to make their bids upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done or the supplies are to be furnished. Plans and drawings of construction work may be seen there.
