To the Board of Aldermen:

I transmit herewith a certified copy of chapter 177 of the Laws of 1879, entitled "An act to confer power upon the Common Council of the City of New York to complete the restoration of Tompkins square," which became a law on the 16th instant.

By section 1 of this act the Common Council is authorized to direct the Department of Public Parks to complete the restoration of the square as a public park or square. In view of the fact that much of the work necessary to the completion of the improvement should be done at this season of the year, I respectfully recommend that your body take speedy action upon the subject.

EDWARD COOPER, Mayor.

CHAPTER 177.

AN ACT to confer powers upon the common council of the city of New York to complete the restoration of Tompkins square as a public park.

Passed April 16, 1879; three-fifths being present.

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

Section 1. The common council of the city of New York is hereby authorized to direct the department of public parks of the city of New York to complete the restoration of Tompkins square as a public park or square.

Sec. 2. To provide the means for the work authorized by the first section of this act, the comptroller of the city of New York is hereby authorized and directed to create and issue, after the said department of public parks has been so directed by the common council, and within twenty days after requisition is made on him to do so, by resolution of the commissioners of the department of public parks of the city of New York, or a majority of them, in the name and on behalf of the mayor, aldermen, and commonalty of the city of New York, a public fund or stock to an amount to be mentioned in said requisition, and not exceeding twenty-five thousand dollars, payable on the first day of November, one thousand eight hundred and eighty, with interest at a rate not to exceed six per cent. per annum, and the proceeds of said fund or stock shall be applied to payment for the work authorized by this act.

Sec. 3. The board of estimate and apportionment of the city of New York is hereby directed to include in the final estimates of the amounts required to pay the expenses of conducting the public business of the city and county of New York during the year eighteen hundred and eighty an amount sufficient to pay both principal and interest of the fund or stock authorized to be issued by this act.

The President pro tem. put the question whether the Board would agree with said motion.

Which was decided in the affirmative by the following vote, on a division called by Alderman Burns, viz.:

Affirmative—Aldermen Burns, Finck, R. Hall, Haughton, Hyatt, Jacobus, Kenney, Morris, Perley, Stewart, and Strack—11.

The President pro tem. laid before the Board the following message from his Honor the Mayor: MAYOR'S OFFICE, NEW YORK, April 22, 1879.

To the Board of Aldermen:

I herewith return, without my approval, the resolution adopted April 15, 1879, granting permission to M. Schwartz to erect and retain stand on curb-stone line in front of his premises No. 51 Vesey street, stand to be one and one-half feet wide by four feet in length, for the reason that on a thoroughfare so crowded, and a sidewalk so narrow as that of Vesey street, a stand of this character, I think, will be a serious obstruction.

EDWARD COOPER, Mayor.

Resolved, That permission be and the same is hereby given to M. Schwartz to erect and retain stand on curb-stone line in front of his premises No. 51 Vesey street, stand to be one and a half feet wide by four feet in length, the work to be done at his own expense, under the direction of the Commissioner of Public Works; such permission to continue only during the pleasure of the Common Council.

The paper was then laid on the table, ordered to be printed in the minutes and published in full in the CITY RECORD.

The President pro tem. laid before the Board the following message from his Honor the Mayor:

MAYOR'S OFFICE, NEW YORK, April 22, 1879.

To the Board of Aldermen:

I herewith return, without my approval, the resolution adopted April 17, 1879, that lamp-posts be erected and street-lamps lighted in Railroad avenue, from Morris street to Fordham avenue, for the reason that from an examination made under the direction of the Commissioner of Public Works, I find that this avenue runs parallel with and alongside of the easterly track of the Harlem Railroad, south of Fordham; that it is not regulated or graded, or even in the condition of an ordinary country road, the avenue running in a large part through an open field or orchard, so that there is no present necessity for the expense involved in lighting it.

EDWARD COOPER, Mayor.

Resolved, That lamp-posts be erected and street-lamps lighted in Railroad avenue, from Morris street to Fordham avenue, under the direction of the Commissioner of Public Works.

Which was laid on the table, ordered to be printed in the minutes and published in full in the CITY RECORD.

The President pro tem. laid before the Board the following message from his Honor the Mayor:

MAYOR'S OFFICE, NEW YORK, April 22, 1879.

I herewith return, without my approval, the resolution adopted April 15, 1879, granting permission to William MacBride to keep a sign in front of his premises No. 326 Grand street, not to exceed in dimensions 2 by 3 feet, for the reason that the privilege intended to be continued is not sufficiently defined in the resolution to determine therefrom its present extent, or to decide in the future whether its exercise remain in conformity with the grant.

EDWARD COOPER, Mayor.

Resolved, That permission be and is hereby given to William MacBride to keep a sign in front of his premises No. 326 Grand street, not to exceed in dimensions 2 by 3 feet; such permission to continue only during the pleasure of the Common Council.

Which was laid on the table, ordered to be printed in the minutes and published in full in the CITY RECORD.

To the Honorable the Board of Aldermen:

I herewith return, without my approval, the resolution adopted April 15, 1879, granting permission to Samuel Baer to place and keep signs in front of his place of business No. 152 Bowery, for the reason that the resolution does not describe the signs to be erected with sufficient definiteness to show the extent of the privilege sought to be conferred, or to determine whether in the future its exercise remain in conformity with the grant.

EDWARD COOPER, Mayor.

Resolved, That permission be and is hereby given to Samuel Baer to place and keep signs in front of his place of business No. 152 Bowery; such permission to continue only during the pleasure of the Common Council.

Which was laid on the table, ordered to be printed in the minutes and published in full in the CITY RECORD.

PETITIONS RESUMED.

By the President pro tem.—

Application of owners of property on Broadway in relation to the proposed railroad.

To the Honorable the Board of Aldermen of the City of New York:

Whereas, It is deemed for the public interest that a well regulated street railroad should be constructed and put in operation on Broadway, State street, and Whitehall street, extending from the South Ferry to and around Union square; and

Whereas, Several proposals have been received by this Board from citizens to accept the franchise and to undertake the construction of a railroad upon said streets, with the apparent desire of benefiting the general public, but more particularly their own individual interests; now therefore it is

Resolved, That this Board, on behalf of the corporate authorities of the City of New York, hereby gives its consent that the property owners on Broadway, State street, and Whitehall street, from Seventeenth (17th) street to the South Ferry, may construct and operate a double track railroad, through, upon, along, and over the said streets and highways, from Seventeenth (17th) street to the South Ferry, in the City of New York, so as to form a continuous railroad route for the transportation of passengers, for hire, between the South Ferry and Seventeenth (17th) street, with the necessary connections, turnouts, switches, and convenient stands for the proper operation and accommodation of the said road, when so constructed. The said road to be equipped with palace cars of the most improved style, seating persons, and when said cars shall contain passengers the word "full" shall be conspicuously displayed on some part of said car, and no other passenger shall be allowed to enter therein until a seat shall become vacant, and on no account shall more than the number of passengers be allowed to enter therein at any one time than can be comfortably seated, nor shall any person be permitted or allowed to stand upon or occupy any part of any such car in a standing position, except the conductor and driver thereof. The seats of every such car shall be divided from each other as in the cars of the Metropolitan Elevated Railroad, and the fare shall not exceed five (5) cents for a single passenger upon said road for any distance between Seventeenth (17th) street and the foot of Whitehall street, at the South Ferry; said railroad shall be built and fully equipped as above provided within a period of two (2) years from the date of the passage of this resolution (time lost in legal proceedings, if any, excepted), and cars thereon run, both ways, as often as the public convenience may require. The Mayor of the City of New York, and as the representative of the city's interest in said road, to be the judge of the requirements of the public in this respect.

And that each owner or representative of property on Broadway, State and Whitehall streets may have the privilege of interesting himself in the management of the road to the best interests of the streets and the property thereon.

The company to be formed and stock distributed as follows:

SHARES.	
15,000	Capital stock of company, at \$100 per share
Distribution of Stock.	
SHARES.	
10,000	10 shares to each of the 1,000 pieces of property, providing the owner of property pays \$250 for track in front of each and every piece of his property, producing
850	10 shares for each of the 85 lots owned by city in Park, City Hall square, etc., to be given the city, \$85,000.

4,150 Balance (together with stock representing property, whose owner will not pay the \$250 for each lot) to be sold in lots of 100 shares to the highest bidder from among the members of the company, the cash thus derived to lay the tracks at cross-streets, by parks, etc.; also build cars and equip the road.

15,000 Shares by this plan producing \$, or more, for building and equipping road, etc. Other lines of cars running on tracks, to pay for privilege.

The 850 shares of stock of the company, representing the city's interest, to be placed in the hands of the Comptroller of the city, in trust for the city, to receive the dividends accruing therefrom, or, will be held in trust by the company, the dividends accruing therefrom to be paid into the city treasury semi-annually.

The company shall be bound to remove all snow from the carriageway of Broadway, from Fourteenth (14th) street to Bowling Green, and to keep the pavement in good repair and condition between their tracks, and for two feet on each side of the outer rails of said tracks.

The following reasons are offered why we desire the approval of you Honorable Body for the carrying out of this plan:

First—Broadway property is taxed enough to warrant the owners of said property being the first beneficiaries from a road through said thoroughfare.

Second—If franchise is granted to a few, or clique, or the Broadway and Seventh avenue and Fourth avenue roads, their interests will cause them to neglect others (and to the injury of property), by only half-cleaning and taking care of the street, as is the case with all roads now in operation.

Third—If the through roads patronize the tracks of this company, the proceeds from such right will pay their portion for keeping the street in good condition and an additional benefit to the city.

Fourth—If in the future the road proves a detriment to the street, we, as owners can remove it. Whereas, if franchise is granted to others, we shall be necessitated tolerating it, and any and all regulations they may feel warranted imposing, of a character detrimental to the interests of the property owners and the city.

Protest of executors of estate of Philip M. Lydig against flagging, etc., north side of Kingsbridge road.

To the Honorable the Board of Aldermen:

We, the undersigned executors of the estate of Philip M. Lydig, deceased, which fronts upon the Kingsbridge road for 3,000 feet, respectfully protest against the passage of a resolution presented on the 25th of March, 1879, to flag and reflag on the north side the Kingsbridge road from the junction of the Third avenue to the Boston road, in the Twenty-fourth Ward, upon the ground that it is not wanted at the present time and cannot be for some years to come, as the part which it is proposed to flag is simply a country road. There is no flagging on the north side of the said road between the spaces named so as to require any reflagging.

The Committee on Public Works, to whom were referred resolutions permitting the New York Elevated Railroad Company to straighten and alter the line of the curb-stones on the east side of Greenwich street, respectfully

REPORT :

That the proposed alteration of the line of the sidewalk should not be permitted. The carriage-way of Greenwich street is now entirely too narrow to accommodate the immense vehicle travel constantly occupying it, and to curtail the width of the present street between the lines of curb-stones from one inch to three feet as proposed would be a proceeding in the highest degree reprehensible, as the purpose for which this reduction in the width of the carriageway is intended, viz.: rebuilding the track of the New York Elevated Railway on or near a straight line can be equally well effected by the use of transverse girders made to conform to the present width of the streets, the only difference being a slightly increased expense to the railroad company. Your Committee, therefore, respectfully offer for your adoption the following resolution:

Resolved, That the application herewith accompanying to widen and straighten the sidewalk on the east side of Greenwich street, so as to permit the tracks of the New York Elevated Railroad Company to be reconstructed on a straight line or truer curve be and is hereby denied; that your Committee be discharged from the further consideration thereof, and that the papers be placed on file.

MESSAGES FROM HIS HONOR THE MAYOR RESUMED.

The President pro tem. laid before the Board the following :

MAYOR'S OFFICE, NEW YORK, April 22, 1879.

To the Hon. Board of Aldermen :

General John A. Dix died in this city yesterday in the fullness of his years and honors. He has filled the most important official positions. He has been Governor of the State of New York, Senator, and Secretary of the Treasury of the United States, Minister to France, and a General high in rank and command in the United States Army. In all these and other public trusts he has deserved and had the confidence and approbation of his fellow-citizens. His public career is a part of the history of the country, and his private life has been without reproach.

Without enlarging upon the sterling qualities of this eminent man, I respectfully recommend that in addition to the usual resolutions of respect, your Body take such further action as may be appropriate to the occasion.

EDWARD COOPER, Mayor.

In connection with the foregoing the President pro tem. offered the following : Whereas, The sad intelligence of the death of Major-General John A. Dix has been communicated to this Common Council by his Honor the Mayor ; and

Whereas, In the general sorrow for the death of this great and good man, it is the mournful duty of the people of this city to participate, and to testify, in an appropriate manner, their sense of the loss they have sustained—a loss that will be equally experienced by the people of this State and nation. In all the relations the deceased held towards the people during his long eventful and useful public life, and they were more varied and important, probably, than those of any other public man now living, honesty, capability, and industry characterized his motives and actions, and he has been summoned by the Great Architect of the Universe to the rewards promised the fervent Christian, the good citizen, the honest public official, and the courageous soldier, leaving to posterity a record that will be held up for the emulation of future generations of the wise, the brave, the pure, and the good ; be it therefore

Resolved, That as an evidence of the sorrow for the death of Major-General John A. Dix, now pervading the people of this city, that the flags be displayed at half-staff on all the public buildings in this city on the day set apart for solemnizing the funeral ceremonies ; that the owners of private buildings in this city, and the masters or owners of the shipping in the harbor be requested to display their flags at half-mast on that day, and that a Special Committee of five members of this Common Council be appointed to carry into effect the provisions of this resolution, and to represent the government and people of this city on the solemn and sorrowful occasion of paying the last tribute of respect to the remains of the deceased ; and be it further

Resolved, That as a further mark of respect for the memory of the deceased, this Board do now adjourn.

And the President pro tem. appointed as such Committee, Aldermen Roberts, Burns, Haughton, Perley, and Stewart,

And declared the Board adjourned until Tuesday next, the 29th instant, at 2 o'clock P. M.
JACOB M. PATTERSON, JR., Clerk.

HEALTH DEPARTMENT.

Report on School Sinks.

SANITARY BUREAU, NEW YORK, April 1, 1879.

To the Board of Health :

GENTLEMEN—In compliance with the following resolution, passed March 11, 1879, viz. : "Resolved, That the Sanitary Superintendent report to this Board within two weeks the results of his experience on the subject of the advisability of the construction of school-sinks, or privy vaults of this pattern, in place of the present vaults for all new houses, and also give the reasons for the failure or success of those now in use."

I would respectfully submit the following report :

The "Trough Closet" is not a new subject in this city, and the apparatus has been so widely adopted in our public schools, as to have received with us the distinctive name of "School Sink." Dr. E. H. Janes, now Assistant Sanitary Superintendent, made a report in his favor, while an Inspector of the Metropolitan Board of Health, and similar commendations may be found in the Annual Report for 1873 (pages 69 and 121), and in the Reports for 1874 and 1875 (pages 193 and 222). As will be seen further on, the trough closet has been introduced into a number of tenement houses with good practical results.

The experience of the Sanitary Inspectors goes strongly against water-closets in tenement houses. Even where the Croton supply is ample, they are apt to get out of repair from bad construction, or careless use, and to become a nuisance. A privy vault in the yard is preferable, located between the front and rear house, where the lot is not entirely built on, but this too is objectionable. Often the vault is laid up with loose stones, allowing its contents to saturate the surrounding soil. Even when cemented, the wall often becomes defective, and complaints are frequently made of night-soil breaking into adjoining yards, areas and cellars. Nor has the sewer-connected vault much advantage over that which is not sewer-connected. The utmost vigilance of the housekeeper, where one exists, cannot always prevent tenants from throwing ashes, garbage and other foreign substances into the vault, thereby obstructing the drain. Even under the most favorable circumstances the privy vault is offensive, its odors often permeating the halls and living rooms, and are sometimes perceptible to the experienced nose in the street itself. To mitigate this evil, many thousand privy vaults, within the last five years, have been ventilated by means of metallic shafts reaching above the roof of the highest adjoining house, but as the shafts are usually uncovered the relief has been but partial, and in damp weather the shaft has often been inoperative. Much of the time of our handful of Inspectors has been necessarily devoted to making complaints against defective privy vaults, or vaults full of night-soil, or against careless and tricky scavengers, and a special corps of disinfectors has been necessary, in the summer months, to disinfect the tenement privies. The inspection and disinfection of these vaults is an expense to the city, and the continued emptying of them is an expense to their owners.

The present system of tenement privies conspires with the bad ventilation of the tenement houses themselves, and their filthy streets to produce our large tenement mortality. I have requested the Inspectors to report their experience with the trough closets in their districts, but before giving an abstract of their reports, I beg to call attention to the following extracts from the distinguished authorities E. A. Parkes, M. D., F. R. S., and J. Burden Sanderson, M. D., F. R. S., on the Sanitary condition of Liverpool in 1871 :

"Middens have now been practically abolished throughout the greater part of Liverpool. In all of the courts of which we have been speaking, trough water-closets have been constructed in their place. As an apparatus for the speedy and safe discharge of large quantities of excreta into a drain, we regard the trough closet as superior to any other with which we are acquainted. So long as the trough is full of water, the solid matters which fall into it are completely covered, and are flooded away into the sewer at the moment that the trough is discharged. Obstructive objects of an improper kind, introduced by carelessness or mischievous design, are easily removed by the scavengers in charge, so that blockage of court drains is an uncommon occurrence. The troughs are of extremely simple construction, not easily deranged, and can be worked at a comparatively small expense."

"In the presence of an 'epidemic,' either of enteric fever or cholera, in a court, it will be easy to put disinfectants into the trough water-closets, and thus to destroy the noxious power of the discharges before they enter the sewers. We strongly advise that this should be done in case cholera should again visit us."

Dr. French, Health Officer of Liverpool, says of an epidemic of enteric fever which prevailed there in 1868 : "The only localities which seemed exempt from it were the places occupied by the poor, in which we had removed all the privies and substituted trough closets."

With the view of putting the experiences of this bureau with the trough closet into a permanent form, I have desired reports on the subject from the Sanitary Inspectors, extracts from which I beg to present to the Board.

Inspector J. D. Bryant, M. D., says : "I am in favor of school-sinks, considering them to be better than all other arrangement now employed, provided they be flushed daily and prevented from freezing." He refers to one at 163 and 165 Seventh avenue : "Constructed about two years ago. But one complaint has been made against it, though the privy vault it supplanted was a constant cause for complaint."

Inspector A. Viele, M. D., remarks that they require proper care, and submits a plan of a "model privy," similar to that described by T. J. Nealis, our Sanitary Engineer, in the report for 1873. It can be seen in operation at east side of Tenth avenue, between Fifty-first and Fifty-second streets ; south side of Fifty-second street, east of Tenth avenue, and at the northeast corner of Seventieth street and Third avenue. The Inspector adds : "Within the past five years I have, in the case of offensive and defective vaults, suggested the substitution of these privies with perfectly satisfactory results. It is never offensive, is readily flushed, and the original constructor has not paid a dollar for scavenging for ten years."

Inspector Charles E. Lockwood, M. D., refers to premises 204 Broome street, consisting of two tenement houses, front and rear, accommodating nineteen families. No offensive odors were perceptible, but the Inspector was informed that the sink sometimes froze in winter, requiring the use of hot water to thaw it out, otherwise its working was very satisfactory.

"There is also a school-sink of the same construction at No. 202 Broome street. The premises consist of two front and rear tenement houses with thirteen families. My own experience with school-sinks leads me to regard them, when properly cared for, as the most desirable form of closet for tenement houses."

Inspector A. McL. Hamilton, M. D., prefers the school-sink to any other arrangement when properly cared for.

Inspector W. A. Ewing, M. D., reports as follows, on the three school-sinks in the Fourteenth Ward :

"At 143 and 145 Elm street, dilapidated front and rear tenement houses, occupied by sixteen families of the poorer class, there was formerly a privy vault in the yard between the houses, which was almost constantly offensive and required frequent emptying. Two years ago there was substituted a school or trough-sink of very imperfect construction, the trough being situated considerably above the level of the yard, so as to increase the danger of freezing. Notwithstanding this serious error in construction, and the fact that no competent housekeeper has been employed to care for the sinks, there has been a marked improvement in the odors of the yard, even when the trough was filled with night-soil and garbage, as it was last week. At 155 and 157 Elm street, there is a trough-sink, also imperfectly constructed and totally neglected, but even under these adverse circumstances, this sink is to be preferred to the common privy vault, for it must be emptied before there is a large accumulation of night-soil, and it is readily cleaned and disinfected. At 21 East Houston street, is a well-constructed and well-cared for trough-sink in the yard, used by at least twenty-five families. The housekeeper who has had charge of the premises for eight years, tells me that there has not been expended on the premises more than five dollars for repairs, that it has never been frozen, nor given any trouble in any way ; that the old privy vault was always offensive, besides giving the owner considerable expense each year in having it emptied."

Inspector C. P. Russell, M. D., considers school-sinks in tenement houses a most valuable improvement on the ordinary privy vault, and much superior to the water-closet in ordinary tenement houses.

Assistant Inspector E. B. Murtha says : "In these sinks there is an absence of the foul odors which are attendant on the privy vault, particularly during the summer months, and which, even under the most favorable circumstances, are only partially relieved by the privy vault ventilator. School-sinks possess the advantage over water-closets of being more readily flushed, on account of the superior water supply, which, under ordinary circumstances, can be obtained best at a low level. Again, they are less easily disarranged and, with proper attention, any disarrangement can usually be repaired before any marked nuisance occurs. The main things to be guarded against in the school-sink are frost and obstructions. The former can be avoided in some cases by placing the sink at a

distance below the surface of the ground sufficient to protect it, and by attention to the water pipes and their supply. The prevention of the latter is entirely a matter of local superintendence. Special attention has been paid to school-sinks in the following houses:

"52 Frankfort street. Sink in yard; has been out of order of late from want of proper supervision. In fact, little attention has been paid to the property generally, as it is expected to be torn down shortly for the Brooklyn bridge.

"No. 3 Vandewater street. I have always found the school-sink in order at this place.
"No. 128 Monroe street. The school-sink attached to this house is in the rear area not much below the level of the yard. No trouble has arisen in its management during the warmer months, though in the winter the frost has sometimes interfered with its proper working.

"Gotham court (Cherry street). For the eighty families of this court seven school-sinks have been provided and, although foreign substances are sometimes deposited in them, I have never found any serious disarrangement. A janitor is constantly on hand and the prevention of accidents to the sinks depends upon his vigilance. I do not think it possible for school-sinks to be put to a severer test than they are at this court."

I beg to forward with this report one from Inspector Tracy and one from Mr. T. J. Nealis, Sanitary Engineer, which are given with so much detail that no abstract could do them justice. I am personally familiar with the various localities mentioned in these reports and can endorse whatever has been said in favor of the school-sink. With ordinary care it can readily be prevented from freezing, it is not liable to get out of order, it is inoffensive, and can be readily disinfected if necessary. It does not require emptying by the scavenger nor airing by the ventilating shaft, and although its first cost may be slightly in excess of that of the old fashioned privy vault, this will soon be counterbalanced by avoiding the annual bill of the scavenger and the expenses attending the erection of a ventilating shaft and the keeping it in repair.

Section 119 of the Sanitary Code gives the Board of Health control over the construction of all vaults, privies, sinks, cisterns, or cesspools, hereafter made, or rebuilt in this city, and I would respectfully recommend that hereafter the Board require all new tenement houses, exclusive of "French flats," and all manufactories hereafter to be built, to be provided with the school-sink or some modification of it in place of the privy vault.

Respectfully submitted,
WALTER DE F. DAVY, M. D., Sanitary Superintendent.

From Martin Karl—To place office and scales for weighing ice on pier at Fifty-first street, North river, leased by him. Applicant informed that this Department has no objection to his placing and retaining upon pier at Fifty-first street, North river, leased by him, a small office and platform scales as per diagram filed in this office, provided said office is placed on wheels so as to be easily moved, but the Department reserves the right to cause their removal at any time it may so elect.

The Chief Clerk directed to have said blanks filled up and forwarded to said Commissioners of Accounts as soon as completed.

RELIEF FUND.

Sec. 14. All fines imposed by the board of commissioners of the fire department in the city of New York, upon members of the fire department force, by way of discipline, and collectible from pay or salary, and all rewards in money, fees, gifts, and emoluments that may be paid or given for account of extraordinary services by any member of said force (except when allowed to be retained by said member, or given to endow a medal, or other permanent or competitive reward), and all proceeds of suits for penalties under this act, and all license fees payable under the same, or under the law with the execution of which the fire department is now or may hereafter be charged, shall be received by the treasurer of the said board for the time being, and applied by him for the purposes of the trust fund hereinafter created. The commissioners of the fire department in the city of New York for the time being, and their successors in office, are hereby created and declared to be the trustees of the fund to be known as "the New York fire department relief fund," and the treasurer of the said board, for the time being, who shall be the treasurer ex-officio of said relief fund, shall receive all moneys applicable to the same, and deposit the same as such treasurer of such relief fund, to the credit of such relief fund, in a savings bank to be selected by said trustees, and continue to receive and deposit funds applicable to the same as received, to the credit of said fund, or to invest the same on bond and mortgage on improved property worth twice the amount loaned, or in public stocks, as said trustees may deem most advantageous for the object of such fund; and said trustees are empowered to make all necessary contracts, and to take all necessary remedies in the premises. And the said treasurer of the said relief fund shall receive from the treasurer of the relief fund of the metropolitan fire department the amounts of money to the credit of that fund, and apply the same to the purposes of the fund herein created. And the said trustees, for and on behalf of the uses and purposes of said fund, shall be entitled to receive, and there shall be paid to them all duties, taxes, allowances, fines, penalties and fees to which the fire department of the city of New York, as at any time heretofore established, has been or is entitled, and the said trustees may take, by gift, grant, demise or bequest, any money, real or personal property, rights of property, or other valuable thing, the annual income of which shall not exceed thirty thousand dollars in the whole; and if, in any year, when the condition of the said relief fund shall render it, in the judgment of the said trustees, necessary, the board of fire commissioners may receive from the authorities of the city of New York a sum of not exceeding five thousand dollars, to be included in the annual estimate of the board, and drawn and collected by them in like manner as the other moneys applicable to their expenses; and such amounts so obtained shall, in like manner, be paid to and applied by the treasurer to the use of said fund, by deposit or investment as hereinbefore provided, as the trustees thereof shall direct; provided that the sum of two hundred thousand dollars, which may be received and accumulated under the provisions of this act, shall be reserved and retained as a permanent fund, the annual income of which may be made available for the use and purposes of said relief fund. The said treasurer of the relief fund hereby created shall execute a bond for the faithful performance of his duties, in like manner as his present official bond is drawn, executed and filed, and in such penal sum as the said board of commissioners shall direct. The board of fire commissioners shall have the power by a unanimous vote to retire from all service in the said fire department, or to relieve from service at fires, any officer or member of the uniformed force of the said department who may, upon an examination by the medical officer, ordered by the said fire commissioners, be found to be disqualified, physically or mentally, for the performance of his duties; and the said officer or member so retired from service shall receive from the said relief fund an annual allowance as pension in case of the total disqualification for service, or as compensation for limited service, in case of partial disability; in every case the said board of fire commissioners to determine the circumstances thereof; and said pension or allowance so allowed to be in lieu of any salary received by such officer or member at the date of his being so relieved or retired from fire duty in said department; and the said department shall not be held liable for the payment of any claim or demand for services thereafter rendered; and the amount of such pension or allowance shall be determined upon the following conditions: In case of total permanent disability, caused in or induced by the actual performance of the duties of his position, or which may occur after ten years' active and continuous service in the said fire department, the amount of annual pension to be allowed shall be one-half of the annual compensation allowed such officer or member as salary at the date of his retirement from the service, or such less sum in proportion to the number of officers and members so retired, as the condition of the fund will warrant. In case of total permanent disability not caused in or induced by the actual performance of the duties of his position, or which shall have occurred before the expiration of ten years' active and continuous service in the said fire department, the amount of annual pension to be allowed shall be one-third of the annual compensation allowed such officer or member as salary, at the date of his retirement from the service, or in proportion to the number of officers and members so retired as the condition of the fund will warrant. In case of partial permanent disability, caused in or induced by the actual performance of the duties of his position, or which may occur after ten years' active and continuous service in the said fire department, the officer or member so disabled shall be relieved from active service at fires, but shall remain a member of the uniformed force, subject to the rules governing said force, and to the performance of such light duties as the medical officer of the said department may certify him to be qualified to perform; and the annual allowance to be paid such officer or member shall be one-half of the annual compensation allowed as salary at the date of his being so relieved, or such less sum, in proportion to the number of officers and members so retired, as the condition of the fund will warrant. In case of partial permanent disability not caused in or induced by the actual performance of the duties of his position, or which may occur before ten years' active and continuous service in the said fire department, the officer or member so disabled shall be relieved from active service at fires, but shall remain a member of the uniformed force, subject to the rules governing said force, and to the performance of such light duties as the medical officer of the said department may certify him to be qualified to perform, and the annual allowance to be paid such officer or member shall not exceed one-third of the annual compensation allowed as salary at the date of his being so relieved, or such less sum as the said board may, in their discretion, determine, or as the condition of the fund will warrant. If any officer or member of the said fire department or retired officer or member of the same shall die while in the service of the same or while so retired, and shall leave a widow, or if no widow, any child or children under the age of sixteen years, a sum of not exceeding three hundred dollars, or such less sum as, in the opinion of the trustees, the condition of the fund will justify, by way of annuity, shall be paid to such widow so long as she remains unmarried, or to such child or children so long as the youngest of said children continues under the age of sixteen years. In every case the board of fire commissioners shall determine the circumstances thereof, and order payment of the annuity to be made in such proportion to the various representatives (in case there shall be more than one) as they may deem just, by drafts to be signed by each trustee; but nothing herein contained shall render any payment of said annuity obligatory upon the said board or upon said trustees, or chargeable as a matter of legal right; and the board of commissioners may, at any time, order such annuity to be reduced or to cease.

LIFE INSURANCE FUND.

There shall be deducted from the monthly pay of each officer and fireman of said department, and from the monthly pension of retired members of said department, and from the pay of such of the other employees of said department, as shall desire to avail themselves of this provision, the monthly sum of one dollar, which shall be received and held by the treasurer of the relief fund herein created, in the like manner as the other moneys herein provided to be paid to him; and which shall be known as the New York fire department life insurance fund; and in the case of the death of any member or employee of said department, in the service thereof, or of any pensioned or retired member of said department, and so contributing, there shall be paid to the widow, or if there be no widow then to the legal representatives of such deceased member or employee or pensioned and retired member, the sum of one thousand dollars out of the moneys so assessed; and in the case by reason of the number of deaths the aggregate amount of moneys so provided to be assessed and collected should prove inadequate to make such payment, then the assessment may, in the discretion of said trustees, be increased to not exceeding the sum of two dollars in each month's pay or each month's pension of pensioned and retired members of said department; and if in any year, owing to an excessive mortality in the uniformed force, the condition of said life insurance fund shall render it, in the judgment of the said trustees, necessary, a sum not exceeding five thousand dollars may be transferred and paid over from the said relief fund to the said life insurance fund, for the use and purpose of said life insurance fund. Chapter seven hundred and fifty-six of the laws of eighteen hundred and sixty-six is hereby repealed.

Sec. 2. This act shall take effect immediately.

corner of Grand and Elm streets, until Friday, May 2,
1879, at 4 P. M., for supplying the coal and wood required
for the public schools in this city, for the ensuing year—
say ten thousand (10,000) tons of coal, more or less, and
eight hundred and fifty (850) cords of oak, and five hun-
dred and fifty (550) cords of pine wood, more or
less. The coal must be of the best quality of white ash,
furnace, egg, stove, and nut sizes, clean and in good order,
two thousand two hundred and forty (2,240) pounds to the
ton, and must be delivered in the bins of the several school
buildings at such times and in such quantities as required
by the Committee on Supplies.

The proposals must state the mines from which it is
proposed to supply the coal (to be furnished from the
mines named, if accepted), and must state the price per
ton of two thousand two hundred and forty (2,240)
pounds.

The quantity of the various sizes of coal required will
be about as follows, viz.: Eight thousand one hundred
(8,100) tons of furnace size, nine hundred and fifty (950)
tons of stove size, three hundred and fifty (350) tons of
egg size, and six hundred (600) tons of nut size.

The oak wood must be of the best quality, the stick not
less than three (3) feet long. The pine wood must be of
the best quality, Virginia, and not less than three (3) feet
six (6) inches long. The proposal must state the price per
cord of one hundred and twenty-eight (128) cubic feet,
solid measure, for both oak and pine wood, and also the
price per cord per load for sawing, and the price per cord per
load for splitting, the quantity of oak wood to be split only
as required by the Committee on Supplies. The wood
will be inspected and measured under the supervision of
the Inspector of Fuel of the Board of Education, and must
be delivered at the schools as follows: Two-thirds of the
quantity required from the 1st of June to the 15th of
September, and the remainder as required by the Com-
mittee on Supplies; said wood, both oak and pine, must be
delivered sawed, and, when required, split, and must be
piled in the yards, cellars, vaults, or bins of the school
buildings, as may be designated by the proper authority.
The contracts for supplying said coal and wood to be

the faithful performance of the contract will be required,
and each proposal must be accompanied by the signatures
and residences of the proposed sureties. No compensation
will be allowed for delivering said coal and wood at any of
the schools, nor for putting and piling the same in the
yards, cellars, vaults, or bins of said schools.

Proposals must be directed to the Committee on Sup-
plies of the Board of Education, and should be indorsed

TERMS AND CONDITIONS OF THE SALE.

The Department will make, prior to the commence-
ment of the term of lease in each case, such repairs to
any of the above-named premises, in the judgment of the
Commissioners, needing them, as they may consider nec-
essary to place the premises in suitable condition for
service during the terms for which leases are to be sold,
except that no repairs will be made to any of the above-
named premises where it is stated that they will not be
repaired by the Department; but all the premises must
be taken in the condition in which they may be on
the date of commencement of said terms, respectively;
and no claim that the property is not in suitable condition
at the commencement of the lease, will be allowed by
the Department; and all repairs and rebuilding required
and necessary, during the terms leased, are to be done at
the expense and cost of the lessees.

Purchasers will be allowed three months, from date of
commencement of their leases, in which to notify the De-
partment that dredging is required at the premises leased;
and the Commissioners guarantee to do all possible dredg-
ing, as soon after being notified of the necessity thereof,
as the work of the Department will permit, except that no
dredging will be done at any of the above-named premises
where it is stated that they will not be dredged by the De-
partment; but in no case will the Department dredge
where a depth of ten feet at mean low water already exists,
nor after that depth shall have been obtained by dredg-
ing; and no claim will be received or considered by the
Department, for loss of wharfage or otherwise, consequent
upon any delay in doing the work of such dredging, or
consequent upon the premises being occupied for dredging
purposes. All dredging required at any of the above
premises, of which the purchaser of the lease there-
of shall neglect or omit to notify the Department during
the first three months of the term of the lease, and all dredg-
ing necessary during the remainder of such term, is to be
done at the expense and cost of the lessee.

The up-set price for each of the above-named premises
will be fixed by the Department of Docks, and announced
by the auctioneer at the time of the sale.

Each purchaser of a lease will be required, at the time
of the sale, and in addition to the auctioneer's fees, to pay
to the Department of Docks twenty-five per cent. of the
amount of annual rent bid, as security for the execution
of the lease, and which twenty-five per cent. will be
applied to the payment of the rent first accruing under
the lease, when executed, or forfeited if the purchaser
neglects or refuses to execute the lease and bond within
five days after being duly notified that the lease is pre-
pared and ready for signature. The Commissioners
reserve the right to resell the leases bid off by those failing
to comply with these terms; the party so failing to be
liable for any deficiency which may result from such
resale.

Lessees will be required to pay their rent quarterly, in
advance, in compliance with a stipulation therefor in the
form of lease adopted by the Department.

Two sureties, each a freeholder and householder in the
City of New York, and to be approved by the Commis-
sioners of Docks, will be required, under each lease, to

enter into a bond jointly with the lessee in the sum of an
amount double the annual rent for the faithful per-
formance of all the covenants of the lease; and each pur-
chaser will be required to submit, at the time of the sale,
the names and address of his proposed sureties.

Each purchaser will be required to agree that he will,
upon being notified so to do, execute a lease prepared
upon the printed form adopted by the Department, which
can be seen upon application to the Secretary, at the
office, 119 Duane street.

No person will be received as lessee or surety who is
delinquent on any former lease from the Corporation; and
no bid will be accepted from any person who is in arrears
to the Corporation upon debt or contract, or who is a de-
fault, as surety or otherwise, upon any obligation to the
Corporation.

JACOB VANDERPOEL,
Commissioners of Docks.

The Engineer's estimate of the quantities to be furnished
is as follows:

Class 1.—Small Cobble and Rip-rap Stone for Bulkhead
or River Wall, to be deposited in place by Con-
tractor.

A. About 13,500 cubic yards of Small Cobble
Stone.

B. About 14,500 cubic yards of Rip-rap Stone.

Class 2.—Broken Stone for Concrete.

About 2,400 cubic yards of broken stone.

specifications, and to be delivered as called for by orders
from the Engineer-in-Chief.

The small cobble and rip-rap stone for the bulkhead or
river wall is to be delivered and properly deposited around
and between the piles, and in front and rear of the work,
at such points on the North river, south of Fourteenth
street, as may be designated by the Engineer. The small
cobble only is to be placed between the piles, and the rip-
rap is to be placed in front and rear of the foundation, and
is to be properly mixed with small cobble.

The broken stone and sand are to be unloaded and de-

vessels of the contractor, at the place of delivery.

The foregoing are the quantities which have been esti-
mated approximately for the construction of the bulk-
head or river wall proposed to be built during the year.
They form, however, no part of the contract, and persons
bidding are cautioned that the Department of Docks
does not hold itself responsible that any of them shall
strictly obtain in the construction of the work, and reserves
the right to terminate the contract at any time after the
delivery of the following quantities, to wit:

B. 5,000 cubic yards.

Class 2.—800 cubic yards.

Class 3.—350 cubic yards.

Any bidder for this contract must be well prepared for
the business, and the bidder to whom the award is made
shall give security for the faithful performance of the
contract, in the manner prescribed and required by or-
dinance, in the sum of seven thousand dollars, in case the
whole contract shall be awarded to him; or in the sum of
five thousand dollars for the contract for small Cobble and
Rip-rap Stone only; or in the sum of one thousand five
hundred dollars for the contract for Broken Stone only; or
in the sum of two hundred dollars for the contract for
Sand only.

This contract is to cease and terminate on the 27th day
of December, 1879, and fifty dollars per day is fixed as the
liquidated damages, and will be exacted for each day that
the delivery of any part of the said materials shall be de-
layed for ten days after the receipt of the necessary order
therefor, Sundays and holidays not to be excepted.

Bidders will state in their proposals the price per cubic
yard for either or all of the above three classes of materials
respectively, by which the bids will be tested. The price
is to cover all expenses of every kind, involved in or in-
cidental to the delivery, including any claim that might
arise through delay from any cause in the receiving of the
material by the Department.

Bidders will write out the price bid, in addition to insert-
ing the same in figures.

If the lowest bidder or bidders neglect or refuse to
accept to contract within forty-eight (48) hours after writ-
ten notice that the same has been awarded to him, or their
bid or proposal, or if he or they shall accept, but shall
refuse or neglect to execute the contract and give the
proper security for forty-eight hours after notice that the
same is ready for execution, he or they shall be considered
as having abandoned it, and as in default to the Corpora-
tion; and the contract will be re-advertised and relet, and
so on until it be accepted and executed.

Bidders are required to state in their proposals their
names and places of residence, the names of all persons
interested with them therein; and if no other person be so
interested, the proposal shall distinctly state the fact; also
that the bid is made without any connection with any
other person making any estimate for the same purpose,
and that it is in all respects fair, and without collusion or
fraud; and also that no member of the Common Council,
head of a department, chief of a bureau, deputy thereof,
or clerk therein, or other officer of the Corporation is
directly or indirectly interested therein, or in the supplies
or work to which it relates, or in any portion of the profits
thereof; which proposals must be verified by the oath, in
writing, of the party making the estimate, that the several
matters stated therein are in all respects true. Where
more than one person is interested, it is requisite that the
verification be made and subscribed by all the parties
interested.

Each proposal shall be accompanied by the consent, in
writing, of two householders or freeholders in the City of
New York, with their respective places of business or
residence, to the effect that if the contract be awarded to
the person or persons making the bid, they will, on its
being so awarded, become bound as his or their sureties
for its faithful performance; and that if said person or
persons shall omit or refuse to execute the contract, they
will pay to the Corporation any difference between the
sum to which said person or persons would be entitled on
its completion and that which the Corporation may be
obliged to pay to the person to whom the contract shall be
awarded at any subsequent letting; the amount in each
case to be calculated upon the estimated amount of the
work by which the bids are tested. The consent above men-
tioned shall be accompanied by the oath or affirmation, in
writing, of each of the persons signing the same, that he is
a householder or freeholder in the city of New York, and
is worth the amount of the security required for the com-
pletion of the contract, and stated in the proposals, over
and above all his debts of every nature,

for whom he consents to become surety. The adequacy and sufficiency of the sureties offered are to be approved by the Comptroller of the City of New York, after the award is made and prior to the signing of the contract.

Bidders are informed that no deviation from the specifications will be allowed, unless under the written instructions of the Engineer-in-Chief.

No proposal will be accepted from, or contract awarded to, any person who is in arrears to the Corporation upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

The right to decline all the proposals is reserved, if deemed for the interest of the Corporation.

Bidders are requested, in making their bids, to use the blank prepared for that purpose by the Department, a copy of which, together with the form of the agreement, including specifications, and showing the manner of payment for the material, can be obtained upon application at the office of the Department, Room No. 6.

SEALED BIDS OR ESTIMATES FOR REPAIRING the hull and joiner work, and for repairing the engine and boilers of Steamboat Bellevue, or for either, will be received at the office of the Department of Public Charities and Correction, in the City of New York, until 9 o'clock A. M., of Tuesday, the 29th day of April, 1879. The person or persons making any bid or estimate shall furnish the same in a sealed envelope, indorsed "Bid or Estimate" for repairing the hull and joiner work, and the engine and boiler, or for repairing either, as the case may be, and with his or their name or names, to the head of said Department, at the said office, on or before the day and hour above named, at which time and place the bids or estimates received will be publicly opened by the head of said Department and read.

The award of the contract will be made as soon as practicable after the opening of the bids.

The entire work will be required to be finished within fifteen (15) days after the date of the contract.

Any bidder for this contract must be known to be engaged in and well prepared for the business, and must have satisfactory testimonials to that effect; and the person or persons to whom the contract may be awarded will be required to give security for the performance of the contract by his or their bond, with two sufficient sureties, in the penal sum of an amount equal to one-half of the amount of the bid.

Each bid or estimate shall contain and state the name and place of residence of each of the persons making the same; the names of all persons interested with him or them therein; and if no other person be so interested, it shall distinctly state that fact; that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud; and that no member of the Common Council, head of a Department, Chief of a Bureau, Deputy thereof or Clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath in writing, of the party or parties making the estimate, that the several matters stated therein are in all respects true. Where more than one person is interested, it is requisite that the verification be made and subscribed by all the parties interested.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in the City of New York, with their respective places of business or residence, to the effect, that if the contract be awarded to the person making the estimate, they will, on its being so awarded, become bound as his sureties for its faithful performance; and that if he shall omit or refuse to execute the same, they will pay to the Corporation any difference between the sum to which he would be entitled on its completion, and that which the Corporation may be obliged to pay to the person or persons to whom the contract may be awarded at any subsequent letting; the amount in each case to be calculated upon the estimated amount of the work by which the bids are tested. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of this contract, over and above all his debts of every nature, and over and above his liabilities, as bail, surety, and otherwise; and that he has offered himself as a surety in good faith and with the intention to execute the bond required by section 27 of chapter 8 of the Revised Ordinances of the City of New York, if the contract shall be awarded to the person or persons for whom he consents to become surety. The adequacy and sufficiency of the security offered to be approved by the Comptroller of the City of New York.

Should the person or persons to whom the contract may be awarded neglect or refuse to accept to contract within forty-eight (48) hours after written notice that the same has been awarded to his or their bid or proposal, or if he or they accept but do not execute the contract, and give the proper security, he or they shall be considered as having abandoned it and as in default to the Corporation, and the contract will be readvertised and relet as provided by law.

The quality of the articles, supplies, goods, wares, and merchandise must conform in every respect to the samples of the same respectively at the office of the said Department. Bidders are cautioned to examine the specifications for particulars of the work required, before making their estimates.

Bidders will state the price for repairing the hull and joiner work and the price for repairing the engine and boilers, by which the bids will be tested.

Bidders will write out the amount of their estimate in addition to inserting the same in figures.

Payment will be made by a requisition on the Comptroller issued on the completion of the contract, or from time to time as the Commissioners may determine.

Bidders are informed that no deviation from the specifications will be allowed, unless under the written instruction of the Commissioners of Public Charities and Correction.

The Department of Public Charities and Correction reserves the right to decline any and all bids or estimates if deemed to be for the public interest, and to accept any bid or estimate as a whole, or for any one or more articles included therein. No bid or estimate will be accepted from, or a contract awarded to, any person who is in arrears to the Corporation upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

The form of the agreement, including specifications, and showing the manner of payment, can be obtained at the office of the Department.

Dated April 15, 1879.
