DEPARTMENT OF WATER SUPPLY, GAS AND ELECTRICITY.

December 31, 1903.

Hon. SETH LOW, Mayor:

Sir—In accordance with section 1554 of the Greater New York Charter, I submit the following report of the transactions of this Department for the quarter ending June 30, 1903:

WATER SUPPLY.

Manhattan and The Bronx, Queens and Richmond.
Attached hereto and marked "Document I." is the report of Chief Engineer Nicholas S. Hill, Jr. I call your attention particularly to the fact that in May, a month of little rainfall in the Croton watershed, there was no waste of water over the old Croton dam, but that the total water over that dam during April and June was over 19,000,000,000 gallons. June was a month of phenomenal rainfall.

Upon starting the new engines at One Hundred and Seventy-ninth Street Station at the end of March, it was found with regret that some of the old pumps had to be shut down for repairs, thus delaying until fall the expected increase of pressure in the high service districts of Manhattan.

In Richmond during the quarter, 12,401,548 gallons were pumped from the City's wells at Tottenville to the standpipe, at an average cost of \$12.67 per million gallons. The average daily consumption was 136,280 gallons. At the end of the quarter there were 38,190½ linear feet of mains in use and 61 stop cocks and 77 fire hydrants. At the same time the Staten Island Water Supply Company was supplying 586 fire and draw hydrants, and the Crystal Water Company 450, and the South Shore Water Works Company 18.

BOROUGH OF BROOKLYN.

The report of Chief Engineer I. M. De Varona is hereto annexed and marked "Document II."

It is to be noted that the average daily consumption of water was 102,844,379 gallons, and that the consumption was greatest in May and least in June. There

was a net gain in storage of over 24,500,000 gallons. Over 1,700,000,000 gallons were wasted from the ponds east of Millburn, but it is expected to save most of this water when the new engines are started at the Millburn Pumping Station.

The report of Henry Hawkes, Superintendent of Distribution and Repairs, is hereto attached, and marked "Document II. A."

LIGHTING.

The Legislature adjourned in this quarter, having failed to take the action requested by the authorities of the City in the direction either of authorizing the construction, operation and maintenance of a municipal electric lighting plant or of so amending section 530 of the Charter as to enable lighting contracts to be made for a longer period than one year and without advertising for bids in districts where there could be no competition.

Upon the argument before you as to your approving the bill extending the franchise of the East River Gas Company of Long Island City, it developed that in connection with the proposed removal of gas manufacture from Manhattan there were issues between the City and the Consolidated Gas Company requiring settlement. You vetoed that bill and intimated that those issues and the lighting question should be matters of conference between the City authorities and the lighting interests. Accordingly, the Board of Estimate and Apportionment, to which in March I had referred the acceptance or rejection of the bids for public lighting for 1903, appointed as a committee to confer with the lighting companies yourself, the Comptroller and the President of the Board of Aldermen. At the close of the quarter this Committee had made no report.

The statistics of the lighting in Manhattan and The Bronx will be found in the report of Charles F. Lacombe, Engineer of Surface Construction, hereto annexed, and marked "Document III.," those for Brooklyn, in the report of A. E. Allen, Assistant Engineer, hereto annexed and marked "Document IV."

"Document V." is the report of G. A. Roullier, Deputy Commissioner in Queens, giving the statistics as to public lamps in that Borough.

On June 30, 1903, in Richmond the following public street lamps were in service:

Electric arc lamps	560
Electric incandescent lamps	3,588
Oil lamps	100
Total.....	4,248

ELECTRICITY.

The reports of the electrical bureaus of Brooklyn and of Manhattan and The Bronx are hereto attached and marked respectively "Document VI." and "Document VII."

In Queens, the electrical work of the quarter may be summarized as follows:

Exterior wiring permits issued	452
Interior wiring applications	363
Interior wiring certificates	420
Covering incandescent lights	12,284
Covering arc lights	55
Covering 32 motors, horse power	190.25
Covering 15 generators, kilowatt capacity	636.25
Complaints issued	354
Complaints attended to	387
Inspections	6,582
Poles removed	33
Wires removed (miles)	7.68

In Richmond, during the six months ending June 30, 1903, 599 exterior wiring applications were received. Permits for such wiring were issued as follows:

Richmond Light and Railway Company.....	233
New York and New Jersey Telephone Company.....	290
American Telephone and Telegraph Company.....	7
Staten Island Midland Railroad Company.....	5
Western Union Telegraph Company.....	2
Fire Department.....	1
Total.....	538

One hundred and fifty interior wiring applications were received and 100 certificates were issued. Inspections were made as follows:

Exterior wiring.....	1,073
Interior wiring.....	206
Total.....	1,279

Sixteen electric motors were installed, having an aggregate horse-power of one hundred and fifty-nine and five-eighths.

In Richmond, also, during the same period of six months, 298 permits were issued for laying service pipes, repairs, etc., to the New York and Richmond Gas Company.

WATER REVENUE.

The following is a statement of the revenue for the quarter as reported to me by the Water Registers in the several boroughs:

Water Revenue for the Quarter Ending June 30, 1903—Department of Water Supply, Gas and Electricity.

	Manhattan.	The Bronx.	Brooklyn.	Queens.	Richmond.	Totals.
Regular annual frontage rates.....	\$676,862 55	\$104,712 00	\$606,774 97	\$34,083 84	
Penalties, section 476, Charter.....	3,073 03	1,169 22	4,096 97	
Total	\$679,935 58	\$105,881 22	\$610,871 94	\$34,083 84	\$249 09	\$1,431,021 67
Meter Charges—						
Buildings	\$734,111 76	\$53,877 29	
Steamboats	35,658 70	
Riverdale	1,566 77	
Total	769,770 46	55,444 06	274,281 94	21,632 60	1,072 49	1,122,201 55
Permits—						
Building purposes.....	\$6,542 40	\$1,043 65	\$5,969 31	\$466 90	
Extras, boilers, etc.....	1,806 99	1,412 55	
Tugs	6,695 00	
Taps	1,587 50	971 00	3,738 75	632 25	
Street sprinkling.....	2,666 66	5 00	
Total	19,298 55	3,427 20	9,708 06	1,104 15	33,537 96
Miscellaneous	40 05	40 05
Repairs, labor, materials, etc.....	320 28	1,151 14	1,471 42

Total collections	\$1,469,324 87	\$164,752 48	\$953,489 60	\$56,860 64	\$1,321 58	\$2,645,749 17

The report of the Water Registrar, Brooklyn, J. Edward Eastmond, is hereto attached and marked "Document VIII."

CONTRACTS AND SUPPLIES.

I desire to call especially to your attention the report for the half year ending June 30, 1903, submitted by Edmond Beardsley, General Bookkeeper, and Frederick W. Shepard, in charge of the Bureau of the Central Office in Manhattan. This report is annexed and marked "Document IX." It contains a statement of all contracts for all boroughs let after advertisement for bids, a statement of all contracts entered into without such advertisement, and also a statement showing the approximate amount of purchases on open orders during the first half year (except for Brooklyn) from each business concern with which the Department has dealt. The purchases have been classified also according to the nature of the goods purchased.

The latter statement will be particularly valuable for comparison with similar statements for the last six months of this year and for the corresponding periods of 1902.

Respectfully,

ROBERT GRIER MONROE, Commissioner.

"DOCUMENT I."

Department of Water Supply, Gas and Electricity,
Bureau of Chief Engineer,
New York, December 15, 1903.

Hon. ROBERT GRIER MONROE, Commissioner:

Dear Sir—Herewith please find quarterly report of the operations of the Bureau of Chief Engineer of Manhattan, Bronx, Queens and Richmond for the quarter ending June 30, 1903.

In my first quarterly report I stated that \$125,000 of the \$600,000 originally asked for laying mains in Manhattan and The Bronx had been appropriated by the Board of Estimate and Apportionment. During the present quarter this Bureau has received appropriations as follows:

BOROUGH OF MANHATTAN AND THE BRONX.

May 8.	For laying mains, etc.....	\$500,000 00
May 22.	For purchasing and placing water meters.....	45,000 00
May 1.	For laying new 12-inch main in Forty-fourth street	9,000 00
Total		\$554,000 00

The money, however, thus appropriated will not be available for use until after the first of July. Anticipating, however, its immediate acquirement after that date, we are pushing contracts through the printers with a view to being ready to advertise at once for proposals to the amount of the appropriations received to date. The contract and specifications for water meters have also been prepared.

Including the issue of Corporate Stock and Revenue Bonds during the first quarter of the year, the total to date is as follows for Manhattan and The Bronx:

	Corporate Stock.	Revenue Bonds.
Jan. 16. For purchasing property of New York and Westchester Water Company.....	\$660,501 74	
Feb. 20. For land (chapter 189, Laws of 1893).....	200,000 00	
Mar. 13. For operating, etc., plant of New York and Westchester Water Company.....		\$70,725 00
Mar. 27. For laying mains	125,000 00	
May 8. For laying mains, etc.....	500,000 00	
May 22. For purchasing and placing water meters.....	45,000 00	
May 1. For laying new 12-inch main in Forty-fourth street	9,000 00	
Total.....	\$1,539,501 74	\$70,725 00

BOROUGH OF QUEENS.

Although great stress was laid on the condition of the pumping stations and distribution system in Queens, when submitting my request to you for additional bonds for improvements in that borough, the Board of Estimate and Apportionment only issued \$10,000, to be used for rentals of additional fire hydrants. During the quarter appropriation was made on May 8 for improvements to pumping stations, extension and reconstruction of pipe lines, etc., \$200,000, giving us \$210,000 of the \$440,000 asked for to put the water service in this borough in proper condition.

BOROUGH OF RICHMOND.

No additional appropriations have been made for this borough during this quarter. The \$70,000 appropriated for the extension of mains in the Amboy road is in hand, and the contract and specifications for this work are being pushed.

BOROUGH OF MANHATTAN AND THE BRONX.

Daily Consumption of Water.

Following will be found table giving statistics with relation to the flow of water in the Croton river, daily consumption, rainfall and waste over Old Croton Dam:

1. Observed Average Daily Flow of Croton River—

	Gallons.
Sum of aqueduct flow and waste over dam, with no correction for lowering or refilling of storage reservoir.	
April ..	666,200,000
May ..	263,200,000
June...	482,800,000

Average per day in second quarter..... 468,400,000

2. Natural Average Daily Flow—

Computed from observed flow by deducting the quantity corresponding to lowering of storage reservoir or adding quantity taken to refill, without allowing for evaporation loss from storage reservoir.	
April ..	662,600,000
May ..	134,500,000
June...	616,200,000

Average per day in second quarter..... 467,300,000

3. Average Daily Flow of Croton River at New Croton Dam, Exclusive of Storage—

Computed from natural flow at old dam for the given year and month by adding 6.4 per cent. for increase in drainage area and deducting an allowance for the evaporation loss caused by substituting water surface for land surface in the new reservoir.	
April ..	698,400,000
May ..	133,600,000
June...	645,900,000

Average per day in second quarter..... 488,700,000

4. Computed Natural Flow of Croton River at Site of New Croton Dam—

Total number of gallons delivered in each month, exclusive of storage draft. The figures here are the monthly aggregates of the daily flow given under No. 3.	
April ..	20,940,000,000
May ..	4,154,000,000
June...	19,380,000,000

Total for second quarter

5. Average Daily Flow per Square Mile of Total Drainage Area at New Croton Dam—	
Computed by dividing quantities of No. 3 by 360.4 square miles in gallons per twenty-four hours.	
April ..	1,937,000
May ..	374,000
June...	1,792,000

Average per day in second quarter..... 1,357,000

6. Average Daily Consumption of Croton Water for Each Month—

April ..	261,000,000
May ..	265,000,000
June ..	264,000,000

Average per day in second quarter..... 263,000,000

7. Waste of Water Over Old Croton Dam—

April ..	12,202,000,000
June ..	6,965,000,000

Total for quarter

8. Rainfall on Croton watershed, in total inches, depth each month, being the average of the rain gauges recorder at Croton Dam, Boyds, Carmel, Muscoot, Middle Branch, Titicus and East Branch reservoirs.	Inches.
April ..	2.07
May ..	0.93
June...	11.29

Total for quarter

In the Bronx and Byram shed the rainfall was:

April ..	4.35
May ..	0.59
June ..	11.20

Total for quarter

The average daily consumption of water from the Bronx system was:

	Gallons.
April ..	11,300,000
May ..	12,000,000
June ..	12,000,000

Adding to the amounts drawn from the Croton and Bronx system, water obtained from the City of Yonkers and the New York and Westchester Water Company, the total daily consumption in the two boroughs is:

Consumption for Second Quarter of 1903.

	April.	May.	June.
Croton water, gallons per day	261,000,000	265,000,000	264,000,000
Outflow from Kensico Reservoir	11,300,000	12,000,000	12,000,000
Westchester Water Company (Pelham Park Station), gallons per day	500,000	500,000	500,000
Yonkers Water Company	1,600,000	1,600,000	1,600,000
Total consumption.....	274,400,000	279,100,000	278,100,000

Water Waste Prevention.

The work which was inaugurated in the first quarter with regard to the prevention of water waste in the boroughs of Manhattan and The Bronx has progressed rapidly.

County Division.

In the Croton Basin the work of cleaning the swamp lands and underbrush has been rapidly pushed, and the Katonah Laboratory completed and put in operation. Daily samples are being collected from all the reservoirs and sent to this laboratory for bacteriological and biological examination, and these reports, we find, enable us to keep exact records of the condition of the water at all the reservoirs.

The condemnation proceedings in both the Croton, Bronx and Byram Watersheds are continuing, and much property has been cleaned during the quarter.

The following is a report of the work done along the aqueduct:

	Dry Stone Masonry, Cubic Yards.	Earth Excavated, Cubic Yards.	Rubble Masonry, Cubic Yards.	Filling and Grading, Cubic Yards.	Concrete Walk Laid, Square Yards.	Flagging Laid, Square Feet.	Flagging Relaid, Square Feet.	Building Stone Hauled, Loads.	Earth Hauled, Loads.	Seeding and Sodding, Square Yards.	Fence Built, Linear Feet.	Fence Repaired, Linear Feet.	Fence Painted, Linear Feet.	Fence posts Set.
Division No. 1...	20													
Division No. 2...	17										4,317

Division No. 4...	22							30	55		1,336	580	1,466	
Division No. 5...	46					492	1,947				171	4,329	300	649
Division No. 6...	150			300							1,000		500	40
Division No. 7...														
Division No. 8...														
Total	70	288	17	320	2	492	1,947	30	55	171	10,982	1,840	3,575	40

First Division—The work on this division has been, care of dam gate houses and machinery, cleaning up shore of lake, painting and repairing rowboats, cleaning screws, iron and brass work in gate houses, painting iron work in old gate house, filling and grading.

Second Division—The work on this division has been, building fences, repairs on head house, Shaft No. 5 painted, the Keeper's house and fences adjoining.

Third Division—The work on this division has been, building retaining wall on Phelps' bank, with all the necessary tearing down and excavation for same, laying a concrete walk at house, repairing and painting fences, fence gates repaired, cutting grass and cleaning line.

Fourth Division—The work on this division has been, building and repairing fences, hauling earth and stone, filling and grading, cutting grass, cleaning up the line.

Fifth Division—The work on this division has been, building, repairing and painting fences, laying and relaying bluestone flag, seeding and sodding and cutting grass.

Sixth Division—The work on this division has been, building fences, excavating filling and grading, painting fences, setting locust posts, repairing roof on barns, repairing and weeding roadway, whitewashing sheds, cutting grass and cleaning up line.

Seventh Division—The work on this division has been, hoisting coal, removing ashes, cutting grass on the reservoir banks, around the pumping stations and along the aqueduct, the walks and roadways trimmed, cleaning reservoir, cleaning the tower and greasing the screens in gate-houses.

Eighth Division—The work on this division has been, painting and repairing boats, taking lagging off of No. 3 pump, Ninety-eighth street, whitewashing the pipes in pipe vault, mason repairing furnace at Ninety-eighth street, cutting grass and keeping surface of water clean, putting lagging on No. 3 pump, cleaning stone gate-houses and screens at Ninety-third, One Hundred and Thirteenth and One Hundred and Nineteenth streets; painting in north gate-house, putting in new screens at One Hundred and Thirty-fifth street gate-house, repairing wire fences, patrolling Central Park reservoirs and pipe lines.

Pipes and Distribution.

I mentioned in the last report the handicap in starting the work of laying additional mains this year, because of lack of appropriations for this purpose. We continue to find the same difficulty, and before active work can be pushed, the proper contracts prepared, advertised and let, and the materials brought to the ground, the latter part of the summer or the early fall will have been reached. Under these circumstances, it is evident that a large proportion of the contracts let this year will be carried over until next year, on account of the short period intervening before the arrival of freezing weather. We have continued to take care of the reticulation system and make the necessary repairs. In this connection I wish to report that we have been greatly handicapped in replacing and making repairs to hydrants, as well as in the completion of such main extensions as are now under way, by reason of the poor facilities afforded by the parties furnishing this Department hydrants. We are practically unable to procure the shipment of sufficient New York Case hydrants to keep the ordinary repairs going, without considering the extensions, and the contractors for this work are far behind, although contracts were let in the fall of last year for four hundred hydrants, with a view to having the necessary hydrants on hand when the spring work commenced. On account of our experience in this line, together with the fact that the present hydrants are out of date, we are preparing plans for new hydrants, and will then be able to procure bids from several of the largest manufacturers who have sufficient capacity to meet the demands of the Department.

The following is a statement of the work done this quarter:

Contract for relaying water mains in the following location has been completed during the quarter:

West Farms Road—Home to Jennings Street.

Linear Feet of Pipe Laid—36-inch, 2,084; 20-inch, 14,443; 12-inch, 4,397; 6-inch, 4,997; total, 25,921.

Stop Cocks Set—20-inch, 2; 12-inch, 4; 6-inch, 19; total, 25.

Hydrants Placed—Double nozzle, "New York," 23; single nozzle, "New York," 1; "No. 1," 3; total, 27.

12.8 linear feet of 20-inch pipe laid.

150 linear feet of 6-inch pipe laid.

2 new 12-inch stop cocks and boxes set.

5 new 6-inch stop cocks and boxes set.

1 new 4-inch stop cock and box set.

15 additional "New York" hydrants set.

1 additional "Matthews" hydrant set.

2 AA hydrants in place of defective ones.

19 "New York" hydrants in place of defective ones.

2 12-inch stop cocks replaced.

2 6-inch stop cocks replaced.

1 20-inch stop cock replaced.

1 hydrant repaired.

2 6-inch stop cocks repaired.

1 12-inch stop cock repaired.

8 20-inch stop cocks repaired.

1 24-inch stop cock repaired.

1 48-inch main repaired.

5 48-inch stop cocks cleaned, greased and oiled.

20 36-inch stop cocks cleaned, greased and oiled.

7 30-inch stop cocks cleaned, greased and oiled.

9 24-inch stop cocks cleaned, greased and oiled.

55 20-inch stop cocks cleaned, greased and oiled.

Mechanical Division.

As before reported, we are still having great trouble with the Worthington Company in procuring deliveries. The machinery at One Hundred and Seventy-ninth Street Pumping Station, started on March 21, has been in almost continual operation since that time. So soon as this engine was started, it was found that the old pumps were in very bad repair, and, as a result, we have been continually at work endeavoring to put them in proper condition. The capacity of the station has been increased but a very small amount, as we have had to shut down as many as two of the old pumps at one time, and therefore the benefit of the increased pumpage from One Hundred and Seventy-ninth Street will not be felt until probably the fall of the year. The second 15,000,000-gallon engine, which the Worthington Company promised to deliver on May 31, has not yet arrived on the ground.

The repairs to the 10,000,000-gallon engine at the Ninety-eighth Street Pumping Station have been completed, and, as soon as possible, repairs will be started on one of the 7,500,000-gallon pumps.

The work at the Jerome Park Pumping Station is progressing at a good rate of speed.

Complaints and Services.

Below will be found a statement of the work done in this division:

New hydrants set.....	169
Old hydrants repaired.....	3,214
New stop cocks set.....	11
Stop cocks repaired.....	362
Defective mains repaired.....	213
Taps shut off at main (defective or dead service pipes).....	316
Hydrants found improperly closed (closed properly).....	490
Linear feet of Croton pipe used in repairs to mains.....	579½
Permits to tap on Croton mains, Manhattan.....	351
Permits to tap on Croton mains, The Bronx.....	233
	584
City fountains and horse troughs repaired by City Plumber.....	63
New horse troughs set.....	1
Old horse troughs replaced by new ones.....	5
Permits for 6-inch connections granted.....	1
Permits for 4-inch connections granted.....	8
Permits for 3-inch connections granted.....	3
Permits for 2-inch connections granted.....	33
	45

In addition numerous complaints have been attended to and inspections made to detect illegal use of water.

General Inspection.

The work of examining and inspecting the valves and hydrants has been continued as far as possible with the extra work entailed by the water waste investigations which have been carried on during this quarter. The water waste investigations were considered so important at this time, in view of their especial value to the studies of the Commission on Additional Water Supply, that the real work of this division has been somewhat neglected. This, however, can easily be made up during the coming winter. The card index system before reported on is now in a complete state, and every foreman is reporting regularly when a valve is inspected or changed.

Below will be found a summary of the gates used and inspected in the boroughs of Manhattan and The Bronx.

4 4-inch gates; 1,110 6-inch gates; 382 12-inch gates; 1 16-inch gate; 53 20-inch gates; 7 24-inch gates; 8 30-inch gates; 19 36-inch gates; 5 48-inch gates; total, 1,589.

Accounting Division.

Attached please find summary of expenditures for the several boroughs during the past quarter:

Summary of Expenditures for the Quarter Ending June 30, 1903.

BOROUGH OF MANHATTAN AND THE BRONX.

	Quarter Ending June 30, 1902.			Quarter Ending June 30, 1903.

BOROUGH OF QUEENS.

Pipes and Distribution.

The work of laying mains has progressed during the past quarter, and three contracts have been completed and a fourth is well under way. As before stated, this will greatly benefit the water service, and the Borough Office in Queens has already received a number of letters and telephone messages thanking them for the relief given.

The following is a statement of the work done:

	First Ward.	Third Ward.
Number of taps.....	102	53
Number of leaks repaired.....	14	7
Number of stopcocks repaired.....	17	..
Number of hydrants repaired.....	59	2
New stopcocks set.....	7	2
New gate boxes set.....	12	1
Number of hydrants set.....	8	1
Gate boxes reset.....	40	1
Hydrants reset.....	5	7
Hydrants removed.....	7	..
Private connections.....	2	..
Connections.....	5	..
Linear feet of main laid.....	46	..

Men working at Corporation Yards and at pumping stations at various times during the quarter.

Mechanical Division.

The repair work on the pumping stations has been continued and the contracts for the scales, coal bins and storehouses have been completed. Two pumps have been completely overhauled. The draughting room is busily engaged on drawings and specifications for the complete rehabilitation of all the stations, including new boilers and new pumps where needed, extension of the artesian well system, repairs to buildings, new stacks at two of the stations and other work, together with the removal of the College Point standpipe to the same level as the Flushing standpipe, and an increase in the size of the force main from Flushing and Bayside stations.

BOROUGH OF RICHMOND.

Pipes and Distribution.

Contract for extending the main on the Amboy road has been prepared and advertised, which will extend the Tottenville service for several miles in the southern end of the Island.

Mechanical Division.

Contract was let during this quarter for the installation of two new water tube boilers at Tottenville Pumping Station, the old ones having been in service a long time and too small for the station with the increased demands which it will have to meet when the extension of the main up the Amboy road is completed.

Respectfully yours,

NICHOLAS S. HILL, Jr.

"DOCUMENT II."

City of New York, Borough of Brooklyn,
Department of Water Supply, Gas and Electricity,
Chief Engineer's Office, Room 25, Municipal Building,
Brooklyn, N. Y., July 15, 1903.

ROBERT VAN IDERSTINE, Esq., Deputy Commissioner:

Sir—The following report shows the condition of the water supply in the Borough of Brooklyn, the work done in connection with the same for the quarter ending June 30, 1903, the receipts for metered and unmetered water, and the expenditures provided for under the Water Revenue Budget prepared by this Bureau, as well as those items of the Tax Levy Budget chargeable to engineering work:

Financial—Receipts and Expenditures.

Receipts.

Regular water rates	\$606,774 97
Metered water rates	274,281 94
Default, arrears, etc.	21,527 19
Total receipts	\$902,584 10

Expenditures (Water Revenue Budget).

Chief Engineer's Bureau—	
Salaries and wages	\$113,702 83
Materials and supplies	112,609 96
Repairs to Distribution and Complaints—	
Salaries and wages	\$50,353 09
Materials and supplies	3,811 75
Expenditures (Tax Levy Budget).	
Salaries—	
Office of Chief Engineer	\$462 50
Laboratory	1,674 99
Supplies—	
Contingencies	\$2,420 66
Rental of fire hydrants	6,250 00
Total expenditures	\$291,285 78

Rainfall—Inches.

Location.	April. 1902.	April. 1903.	May. 1902.	May. 1903.	June. 1902.	June. 1903.	Total. 1902.	Total. 1903.
Municipal Building	3.39	3.19	1.20	0.44	5.87	8.76	10.46	12.39
Hempstead Reservoir	3.62	3.98	1.01	0.40	6.03	9.58	10.66	13.96

General Condition of the Supply.

The heavy rainfalls of June, which commenced before the effects of the drought extending from the middle of April to the early part of June had hardly begun to be apparent, have made it unnecessary to draw any water from the Hempstead Storage Reservoir, and at the end of the quarter all the reservoirs were practically full. The maximum amount of water in storage during the quarter was 1,157,000,000 gallons, on May 11, and at the end of the quarter the amount in storage was 1,123,000,000 gallons. The large rainfall has enabled us to provide all the water required to meet the consumption without drawing from any of the driven well stations east of Millburn, and even with a reduced pumping from the driven well stations between Ridgewood and Millburn.

While the engines at Millburn have been run at their maximum safe capacity, the following amount was wasted from the ponds east of Millburn during the quarter:

	Gallons.
Millburn pond	312,413,062
East Meadow pond.....	785,950,800
Newbridge pond	91,357,600
Wantagh pond	370,469,200
Massapequa pond	206,891,700
Total.....	1,767,082,362

This shows a waste at an average rate of nearly 20,000,000 gallons per day, but upon the completion of the new engines at Millburn a portion of the water now wasted from these ponds could be saved.

In the distribution system the insufficient capacity of the present mains has caused a number of complaints to be made of lack of pressure. The trunk mains now under contract, together with those proposed, for which appropriations have been made will greatly improve these conditions. Further relief will be obtained when the plans outlined for removing the tuberculated pipe and replacing it with new and larger pipe are carried out.

Extension of Distribution.

A contract has been prepared and is about ready to forward, covering all the extensions of distribution mains favorably reported on up to June 4. This contract will cover the extension on seventy-five streets and avenues, and the cost of the work, including engineering and contingencies, will amount to approximately \$130,000. This cost will be charged against the balance from the fund for laying water mains derived from the sale of bonds authorized previous to January 1, 1902, and also from the balance of the appropriation of \$175,000 for laying water mains appropriated in May, 1902. The following work has been done in laying additional distribution pipe:

Water Mains Laid.	12 Inches.	8 Inches.	6 Inches.	Total.
Linear feet	5,539	16,258	2,934	24,731
Water gates set	12	49	17	78
Fire hydrants set (with 1,029 lin. ft. of 6-in. branches	68

Favorable reports were made on petitions for twenty-seven streets, covering a total distance of 36,074 feet, and petitions for fifteen streets were reported on unfavorably.

The contract awarded to Mr. John Hann, dated April 7, 1902, and assigned to Mr. Isaac Harris, was completed on June 30. Mr. Harris commenced work on April 25 on his contract dated April 18, 1903, and has about completed the 12-inch main to be laid in Bridge street, running from the 48-inch main on Willoughby street to 6-inch main on Sands street. This main will increase the pressure in the area bounded by Fulton street, East river, Navy street and Johnson street. He also expects to shortly commence laying the 12-inch main from the 16-inch high service main on Flatbush avenue to the Clinton avenue district, where the pressure has been extremely inadequate for a number of years.

PUMPING STATIONS.

Mt. Prospect, Gravesend and New Utrecht.

The pumping at the Mt. Prospect station has been less during this quarter than for the corresponding quarter of last year, this being mainly due to the cutting off of leakage from the high service system into the Ridgewood reservoir system. The average amount of water pumped per day during the quarter was as follows:

Year.	Reservoir. Gallons.	Tower. Gallons.
1902	5,473,700	3,212,700
1903	4,955,600	3,351,400

The third boiler has been installed and was tested on June 16, 1903, the boiler being first put under steam on May 26, and being put in use on June 3, 1903. The results of the tests showed that the boiler exceeded the contract requirements, and the temporary boiler will now be removed.

Minor repairs have been made as required at the Gravesend station, and the station has been operated at its normal rate of about 3,000,000 gallons per day; the engines and boilers at this station are in poor condition and the station will be abandoned upon the completion of the proposed new station.

The New Utrecht station was shut down on June 10, to enable necessary repairs to be made to the steam pipe, valves, etc. New well points will have to be driven before the station can be started, as the present points are so badly clogged as to render them useless. The water which was supplied from this station has been furnished by increasing the pumping at the Gravesend station and by the Ridgewood reservoir service.

Some complaint has been caused by residents in the Thirty-first Ward receiving Ridgewood water where they were receiving during the winter the New Utrecht and Gravesend supplies, the Ridgewood water being less clear and more subject to variation in temperature. The change in the supply has been due to the increased draft during the summer months on the New Utrecht and Gravesend supplies by the Coney Island, Sea Gate and Blythebourne sections, and as the systems are cross-connected the Ridgewood system has to make up the increased supply required.

Ridgewood.

A new foot valve has been placed on the Worthington triple expansion engine No. 1, and general repairs have been made to the other engines. The boilers have been washed and repaired as required. A contract has been advertised for retubing the Morris boilers, which were installed in 1895, as the tubes are badly pitted. The main engine room on the north side has had the roof repainted and the room painted, this portion of the building now being in good condition.

New Lots.

The heavy draft of water from the New Lots station during the latter part of May, due to the long drought, emptied the New Lots Reservoir. The section supplied by the New Lots station was reduced and an investigation showed that part of the trouble was due to excessive leakage through some of the valves on the engines. When this leakage was remedied no further trouble was experienced in providing for the reduced district.

We have been for sometime contemplating sinking some deep test wells at this station. This work has now been commenced and on completion of the three deep wells proposed, they will be tested and, should the results be favorable, they will be utilized, at least partially, to develop and increase the yield from this station.

Line Stations.

At the Oconee station forty 2-inch additional wells were connected on May 2 and when tested showed the capacity of this station had been increased from about 1,800,000 to 3,000,000 gallons per day.

At the Smith's Pond station the plant was shut down and the boiler fronts were removed and reset, these fronts having been in bad condition for some time.

Both of the boilers have been placed at Millburn, under the contract with Edwin Burhorn, but the boilers have not been covered. The test of the boilers will be delayed, owing to the lack of steam and water connections, which are to be furnished under the contract for new engines. One of the new engines has been set up in the shop and is now ready for shipment. The foundation work for the east engine is well under way and some work has been done on the foundation for the west engine. General repairs have been made at the other line stations as required.

Ponds, Conduits and Reservoirs.

The usual work on the conduit line has been carried on, and the streams have been patrolled and cleaned, as well as the available force permitted.

The race-track being constructed at Elmont lies on the upper part of the watershed of the Simonson's Supply Pond, and there was danger that the presence of the large number of workmen would cause the pollution of this stream. After a conference with the Health Department, it was decided to disinfect the closets and cesspools used by the men and to keep a careful watch over the work from a sanitary standpoint. The use of the stream was discontinued from May 22 to June 16 and again shut off on June 30.

The following schedule gives a summary of the work of cleaning closets and cesspools on the watershed:

Near Foster's Meadow stream	420
Near Springfield stream.	570
Near Valley Stream	169
Near Pines stream	123
Near Hempstead	2,363
Near Schodack brook.....	124
Near Millburn stream	70
East Meadow stream.	102
Near Wantagh stream.....	169
Along conduit line	691

The total cost of this work during the quarter was \$960.72.

Protection from Pollution.

The map of nuisances on our watershed has been brought up to date and a detailed survey is being made of all the present and possible sources of pollution so as to locate the latter. The parcels on this map will be classified according to the greater or lesser danger of pollution to be avoided, so that when making purchases we shall be able to select those from which the greatest danger of pollution is to be apprehended. It has already been repeatedly stated in past reports that the danger of pollution of our surface supply yearly increases with the settlement and development of our watershed, and that to prevent contamination purchases of land in some cases and filtering of the water in others will become necessary, the proper measures to be taken depending on the cost and local conditions. In the last quarterly report I stated that generally speaking it would probably be preferable to filter in the case of streams west of Rockville Centre, and, at least for some time to come, to purchase land to secure protection on the streams east of Rockville Centre.

Filter Plants at Baiseley's and Springfield.

The reconstruction of these plants is practically completed, but the controllers which are to be furnished by the City have not been delivered. The contract for these controllers was signed on June 9, 1903, the contractors being notified to begin work on them on June 27. It will not be possible to commence the test of these filters until the latter part of the summer.

Water Analyses.

The systematic analysis of our water supply, both from individual sources, reservoirs and the City taps, has been continued, 553 samples of the Brooklyn supply being collected and analyzed. The condition of the water is shown by the following table:

Locality.	Turbidity.	Color.	Alb. Am.	Free Am.	Chlorine.	Micro-organisms.	Bacteria.
Ridgewood—							
Ave. influx.....	2	21	.066	.021	10.1	129	316
Basin 1, efflux.....	3	20	.064	.012	13.2	339	270
Basin 2, efflux.....	4	22	.088	.009	13.6	1,106	253
Basin 3, efflux.....	5	22	.088	.007	13.0	1,455	234
Mount Prospect Reservoir.....	8	17	.116	.013	9.5	2,981	230
Taps, average	4	19	.075	.008	991	209

Contracts.

The following contracts have been prepared and forwarded during the quarter: For furnishing, delivering and laying water mains and removing existing water mains in Columbia, Furman, Fulton, Water, Gold, Nassau, Nevins, Smith, Bond, Willoughby, Schermerhorn and Livingston streets; in Atlantic, Flushing, Classon and Kent avenues; in Boerum, Grove, Hanover, Elm and Gallatin places and in Red Hook lane.

For retubing Morris boilers Nos. 1, 2, 3, 5, 6, 7, 8 and 9, at the Ridgewood Engine House.

For furnishing all the necessary materials and constructing two filter beds, with all their appurtenances complete, near the Hempstead Storage Reservoir, Hempstead, L. I.

For furnishing and delivering cast iron pipe and special castings.

For furnishing and delivering stop-cocks.

For furnishing and delivering sleeves and gates for tapping machines.

For furnishing and delivering caulking lead and caulking yarn.

For furnishing all the necessary materials for and constructing two filter beds, with all their appurtenances complete, at the upper pond near the Forest Stream Pumping Station, Rosedale, L. I., including the removal of muck from the bed of the ponds.

For furnishing, delivering and laying trunk water mains in Broadway, Park avenue, Sumner place and Humboldt street.

The following are the contracts for which bids were received, together with the name of the lowest bidder and the total amount of the bid, on the basis of the Engineer's estimate:

For retubing Morris boilers Nos. 1, 2, 3, 5, 6, 7, 8 and 9 at the Ridgewood Engine House.

Edwin Burhorn, \$5,498.

For furnishing and delivering single and double nozzle case fire hydrants:

Camden Iron Works, \$11,530.

For furnishing, delivering and laying a 36-inch cast iron main, including all the necessary appurtenances, on Atlantic avenue, between Carlton and Flatbush avenues.

John J. Cashman, \$24,938.50.

For furnishing and delivering controllers for Springfield and Jameco filters.

New Jersey Foundry and Machine Company, \$3,495.

For furnishing and delivering semi-bituminous and anthracite coal in the following amounts:

Section I.—22,800 gross tons of semi-bituminous coal.

Section II.—43,700 gross tons of anthracite coal.

For Section I., Morrisdale Coal Company, \$88,868.50.

For Section II., Rudolph Reimer, \$231,255.

For furnishing, delivering and laying a 48-inch cast-iron force main, together with all appurtenances complete, from the Ridgewood pumping station, along Atlantic avenue, East New York avenue and Eastern parkway to the Mt. Prospect high service tower.

J. J. Cashman, \$422,247.50.

For furnishing, delivering and laying a 48-inch water main at the Ridgewood reservoir, in Cypress Hills, Myrtle avenue and Broadway.

New York Continental Jewell Filtration Company, \$236,750.

For remodelling and extending the Wantagh pumping station, near Wantagh, L. I., including the pumping plant, pump well and infiltration gallery system, together with the necessary appurtenances.

New York Continental Jewell Filtration Company, \$130,285.

For remodelling and extending the Watts Pond pumping station, near Valley Stream, L. I., including the pumping plant, pump well and infiltration gallery system, together with the necessary appurtenances.

J. McFerran, \$125,062.50.

For furnishing and delivering lubricating and illuminating oils and lubricating grease.

William E. Burke, \$2,977.25.

Infiltration Galleries.

Complete property maps were prepared for the Wantagh and Massapequa Infiltration Galleries and forwarded to you. The Wantagh map covered a strip of land 12,200 feet in length, varying from 20 to 300 feet in width, and including 39 parcels, covering over 46,093 acres. The Massapequa strip is 19,300 feet in length and varying from 200 to 300 feet in width. It also includes the two ponds south of the line of the proposed galleries which would probably be affected by their operation.

This map included 29 parcels, covering 155.30 acres. An appropriation of \$350,000 has been asked for the construction of the Massapequa Infiltration Gallery. The lowest bids received for the Watts Pond and Wantagh galleries have already been given and were very close to the estimated cost of the galleries.

Filter Beds.

Detailed plans, specifications and contracts have been prepared for the filter beds below the Hempstead Storage Reservoir to filter the flow from Horse brook and below the Forest Stream Pumping Station to filter the flow from Simonson's stream. These beds will be constructed without any impervious bottom or sides, the collecting pipes being laid in sand below the normal water level. By placing the drains below the normal water level the filters will discharge not only the water allowed to flow on the beds, but also a portion of the water passing through the saturated sand beneath the filter bed. This form of construction is comparatively low in cost, the estimated cost per acre for the Simonson's bed being \$17,687.50, and for the Hempstead beds about \$10,000. The construction of these beds will enable us to filter the two streams and save the loss of the greater part of the water at present flowing in Horse brook, which is now wasted below Smith's pond.

New Trunk Mains.

Bids were received on June 16 for a 48-inch trunk main from Ridgewood Reservoir to Broadway and Park avenue, and on June 18 for a 48-inch force main from Ridgewood engine house to the Mount Prospect tower. As has already been stated, the lowest bid for the trunk main was submitted by the New York Continental Jewell Filtration Company, their total bid amounting to \$236,750, and the lowest bidder for the force main was Mr. John J. Cashman, his total bid amounting to \$422,247.50. As soon as these contracts are signed work can be commenced, and the completion of the mains should greatly relieve the low pressure existing in certain parts of the City. A contract has been prepared covering the extension of the trunk main from Park avenue and Broadway down Park avenue to the 20-inch main on Throop avenue, and along Broadway and through Humboldt street to the 30-inch main on Devoe street. These three contracts will utilize all the money available under the appropriation of \$750,000, made on February 20, 1903.

Removal of Old Mains.

The form of contract for the removal of the old mains along a portion of the water front and the dry goods district has been completed. The cost of this work will be charged to the appropriation of \$200,000 made for that purpose on February 20, 1903. Plans have been prepared for a contract for the removal of old pipe in all the streets (except in the outlying wards) where service mains 20 inches and larger in diameter are to be placed. The estimated cost of this work is \$450,000, and as soon as the requisite appropriation is made the contracts will be prepared.

The removal of the old pipe and the laying of the new large service mains should overcome the difficulty which has been experienced from lack of water supply throughout the borough for fire purposes, and should also increase the pressure, especially in those sections which lay at some distance from the large distribution mains.

Removal of the 48-Inch Main on Atlantic Avenue.

The contract has been advertised for laying a 36-inch main to replace the existing 48-inch main on Atlantic avenue from Carlton avenue to Fourth avenue. The existing main lays over the line of the tunnel of the Long Island Railroad and will have to be abandoned. The flow in the main is such that the 36-inch main can readily carry the water, with only an extremely slight increase in fractional loss of head.

Pitometers.

Early in the quarter observations were commenced on the various trunk mains in the City to determine the amount of water at present flowing through those sections where additional trunk mains were required. These observations have been carried on by means of the Cole-Flad pitometer, giving the actual flow in the main at a comparatively small cost. The total number of taps made on the trunk mains were 56; the total number of observations taken 77; the average cost of each tap, together with the taking of the observations, working out of the same and averaging the results, was as follows:

For materials (including boxes, taps, rental of pitometers, etc.).....	\$15 41
For labor in the field (including Engineer, Assistants, relaying of pavement, etc.)	40 87
For office work (including computations, maps, etc.)	5 76

Total, per tap

\$62 04

This work has been carried on with a field force consisting of 1 Engineer, 3 Assistants, 1 Foreman, 1 Tapper, 27 Laborers (greatest number at one time) and 1 horse and wagon. Upon the completion of the observations of the flow through the trunk mains, work was commenced on the determination of the consumption in various sections of the City. District No. 1 was a district supplied by the Mt. Prospect tower and covered an area of about 120 acres, the number of inhabitants being 4,500, and the number of buildings being 523. The first observations showed the night flow was excessive, and by cutting off the street mains one by one between the hours of 11 p. m. and 5 a. m. it was discovered that a 20-inch gate which was apparently closed, was opened sufficiently to allow about 400,000 gallons daily to flow into the Mt. Prospect reservoir service. This gate was tightly closed, and when the flow into the district was again measured the night flow was greatly reduced. Final observations have not been completed as yet on this district. Observations are also being carried on in four other districts, one representing the dry goods district, another the tenement house district, the third a mixed residential and business district, and the fourth a manufacturing district along the river front. The results of these examinations will be tabulated and complete information obtained as to the use and waste of water in the districts. In doing this work the Bureau of Water Rates has carried on a house-to-house investigation to determine the number of people supplied and the leakage in house fixtures, together with other information in the district which was being pitometered. By the end of the coming quarter the results should show the value of the pitometer observations in the Borough of Brooklyn for determining the leakage and waste.

Records.

The extraordinary increase in the work of this Bureau has compelled us to fall back considerably in keeping up our records. It is to be hoped that by a temporary increase in our office force we may bring these records to date, thus enabling our regular force to keep them up afterwards as hitherto.

Development of Underground Supply.

The observations to determine the velocity of the underground flow have been continued, and the results so far justify our expectations as to the supply to be obtained from these galleries. It is expected that the surveys for the location of additional infiltration galleries will soon be commenced.

Soil Studies.

These have been continued sufficiently to determine the effect of the soil in purifying the water, and the results obtained establish the fact that in the peculiar sand formation of the Long Island south side slope, which is practically a natural filter, the water, after passing through comparatively small depths or thicknesses of sand, is safe for consumption. In the Annual Report these results and those of analogous studies will be duly tabulated and summed up.

Yours very truly,

I. M. DE VARONA, Chief Engineer.

Respectfully submitted,

HENRY HAWKES, Superintendent of Repairs.

"DOCUMENT III."

Department of Water Supply, Gas and Electricity,
Bureau of Lamps and Gas,
New York, July 15, 1903.

Hon. ROBERT GRIER MONROE, Commissioner, Department of Water Supply,
Gas and Electricity, Nos. 13-21 Park Row, New York:

Dear Sir—I herewith submit a report of the transactions of the Bureau of Lamps and Gas for the quarter ending June 30, 1903.

In Exhibit "A" will be found a statement showing the amounts expended on vouchers for the expenditures of the Bureau, and for a supply of electricity for lighting public lamps and public offices. The condition of affairs which existed on March 31, at the end of the first quarter, to which I called your attention—the non-existence of contracts made for the public lighting for the year 1903—still exists, and no vouchers have been drawn except on orders specially issued for lighting the Law Department for the first and second quarters.

Exhibit "B" is a summary of the appropriation for "Lamps and Lighting for 1903," and this shows an expenditure during the quarter of six thousand eight hundred and sixteen dollars and ninety-five cents. There being no contracts for the year to fix the prices to be paid for public lighting no figures of outstanding liabilities are given. Approximately, at the prices paid for similar services in 1902, the liabilities for the lighting of public buildings (including Board of Education) for the second quarter would be seventy-three thousand three hundred and sixteen dollars and thirty-seven cents (\$73,316.37), and for public lamps three hundred and eighteen thousand two hundred and fifty-six dollars and seven cents (\$318,256.07), making approximately the liabilities for the second quarter for public lighting at the prices of 1902 three hundred and ninety-one thousand five hundred and seventy-two dollars and forty-four cents (\$391,572.44). There is also an outstanding liability of the first quarter to the Bronx Gas and Electric Company on their incompleting contract from March 1 to 27, of five thousand nine hundred and eighty-seven dollars and seventy cents (\$5,987.70), of which ninety dollars and sixty-seven cents (\$90.67) is for public buildings.

Exhibit "C" is a summary of the lamp account, showing the number of new lamps lighted, old lamps relighted, and lamps discontinued by each gas and electric light company during the quarter. Forty new gas lamps have been lighted; 709 old gas lamps, 4 old naphtha lamps and 9 old Welsbach lamps have been relighted; 272 gas lamps, 2 naphtha lamps, 8 Welsbach naphtha lamps and 13 electric lamps have been discontinued during the quarter. The total number of public lamps lighted June 30, 1903, was 19,457 regular gas lamps, 4,640 single Welsbach gas lamps, 394 double Welsbach gas lamps, 1,442 naphtha lamps, 854 Welsbach naphtha lamps, and 5,194 electric lamps, making a total of 31,981 lamps.

Exhibit "D" is a statement showing the candle power of the gases supplied to the City by such of the gas companies as are within reach of our photometric stations.

The following statement shows the average amount of impurities found in the gases of such of the companies as have gas mains on the lines of our photometric stations, as determined by the analyses of Dr. E. G. Love, Ph.D., our Gas Examiner, in the laboratories of this Bureau:

Of What Company.	Sulphur Grains in 100 Cubic Feet.	Ammonia Grains in 100 Cubic Feet.	Sulphuretted Hydrogen.
Consolidated Gas Company, Branch 1.....	11.16	0.18	Trace
Consolidated Gas Company, Branch 2.....	13.12	1.14
Consolidated Gas Company, Branch 3.....	9.04	0.14
Consolidated Gas Company, Branch 4.....	12.20	1.26
Consolidated Gas Company, Branch 6.....	7.96	0.20
New York Mutual Gas Light Company.....	6.14	0.10	Trace
New Amsterdam Gas Company, Equitable Branch.....	7.96	0.08
Standard Gas Light Company.....	8.20	0.18
New Amsterdam Gas Company, East River Branch.....	8.04	0.10

The following will show the specific gravity of the gases:

Consolidated Gas Company, Branch 1.....	.652
Consolidated Gas Company, Branch 2.....	.579
Consolidated Gas Company, Branch 3.....	.654
Consolidated Gas Company, Branch 4.....	.634

Summary of the lamp account, showing the number of new lamps lighted, old lamps relighted and lamps discontinued by each gas and electric light company, during the quarter ending June 30, 1903:

Consolidated Gas Company, Hester Street Branch—	
Number of lamps lighted, March 31, 1903.....	2,627
Number of old lamps relighted during the quarter.....	114
Less lamps discontinued during the quarter.....	<u>2,741</u>
	30
Number of lamps lighted June 30, 1903.....	2,711
Consolidated Gas Company, Fortieth Street Branch—	
Number of lamps lighted, March 31, 1903.....	2,646
Number of old lamps relighted during the quarter.....	108
Less lamps discontinued during the quarter.....	<u>2,754</u>
	55
Number of lamps lighted, June 30, 1903.....	2,699
Consolidated Gas Company, One Hundred and Eleventh Street Branch—	
Number of lamps lighted, March 31, 1903.....	8,380
Number of new lamps lighted during the quarter.....	30
Number of old lamps relighted during the quarter.....	159
Less lamps discontinued during the quarter.....	<u>8,569</u>
	105
Number of lamps lighted, June 30, 1903.....	8,464
Total number of lamps lighted by Consolidated Gas Company...	13,874
New Amsterdam Gas Company—	
Number of lamps lighted, March 31, 1903.....	3,131
Number of old lamps relighted during the quarter.....	183
Less lamps discontinued during the quarter.....	<u>3,314</u>
	2
Number of lamps lighted, June 30, 1903.....	3,312
Standard Gas Light Company—	
Number of lamps lighted, March 31, 1903.....	1,584
Number of old lamps relighted during the quarter.....	127
Less lamps discontinued during the quarter.....	<u>1,711</u>
	11
Number of lamps lighted, June 30, 1903.....	1,700
Central Union Gas Company—	
Number of lamps lighted, March 31, 1903.....	2,022
Number of old lamps relighted during the quarter.....	5
Less lamps discontinued during the quarter.....	<u>2,027</u>
	59
Number of lamps lighted, June 30, 1903.....	1,968
Northern Union Gas Company—	
Number of lamps lighted, March 31, 1903.....	3,280
Number of new lamps lighted during the quarter.....	4
Number of old lamps relighted during the quarter.....	18
Less lamps discontinued during the quarter.....	<u>3,302</u>
	10
Number of lamps lighted, June 30, 1903.....	3,299

DOCUMENT "IV."

Report of Bureau of Lamps and Lighting for Quarter Ending June 30, 1903.

There were received in general relation to gas and electric lamps, lighting, etc., 737 complaints and requests, of which 290 were made by citizens and others, and 447 by the Department Inspectors.

The number of lamps of each kind in service June 30, 1903, was as follows:

Gas lamps (plain).....	10,243
Welsbach lamps (gas).....	4,281
Welsbach lamps (naphtha).....	389
Electric lights (1,200 candle-power).....	4,768
Electric lights (600 candle-power).....	210
Naphtha lamps (plain).....	12
Total	19,903

Changes were made in the lighting system during the quarter as follows:

Gas lamps capped.....	3
Gas lamps uncapped.....	3
New electric lights added.....	3
Total changes	9

The companies supplying street lighting, and the number of lamps maintained by each company June 30, 1903, are as follows:

Brooklyn Union Gas Company (gas lamps).....	5,977
Brooklyn Union Gas Company (Welsbach).....	4,281
Kings County Gas and Illuminating Company (gas lamps).....	4,266
Flatbush Gas Company (electric lights, 1,200 candle-power).....	613
Edison Electric Illuminating Company (electric lights, 1,200 candle-power).....	4,155
Edison Electric Illuminating Company (electric lights, 600 candle-power).....	210
Welsbach Street Lighting Company of America (Welsbach).....	389
New York and New Jersey Globe Gas Light Company (naphtha).....	12
Total	19,903

There were received 5,642 reports from the Department of Police, in the matter of lamps and lighting, from which were tabulated 747 instances of electric lights not burning, and 318 instances of gas lamps not burning, from which tabulation deductions are made from the bills of the company supplying the lighting.

The following repairs were made to gas lampposts, upon order to gas companies:

Removed	30
Reset	57
New standpipes	3
Releaded	38
New columns refitted	5
New services installed	4
Posts straightened	29

Received at the Department Storehouse from gas companies during the quarter, incident to changes in the system, lamp stock as follows:

Square lanterns	12
Square frames	353
Gas lampposts	15
Lamppost butts	5
Lamppost columns	9
Street sign frames	102

Delivered to gas companies lamp stock as follows:

Square lanterns	27
Square frames	263
Boulevard globes	55
Boulevard domes	66
Boulevard canopies	6
Gas lampposts	4
Lamppost butts	1
Lamppost columns	7

Work accomplished by the Storehouse employees in the matter of repairs to lanterns, frames, etc., during the quarter:

Square lanterns painted and repaired	42
Square frames painted and repaired	891
Boulevard frames painted and repaired	395
Sign frames painted and repaired	135

Respectfully submitted,

A. E. ALLEN,
Assistant Engineer in Charge of Lighting.

Total.....			9 acres	397.87	

*Removed or discontinued—None.
5 arc lamps were transferred to new locations.
1 gas lamp reset.
238 complaints sent to the various companies.

Note—The Newtown Gas Company was ordered to discontinue 100 of the above naphtha lamps on and after May 1, 1901, and 200 on and after May 5, 1901. The order was ignored by the Gas Company. 67 open-flame gas lamps and 25 Welsbach gas lamps were lighted by the Newtown Gas Company on quarterly orders. The last order expired on December 31, 1901, but the lamps are still lighted.

G. A. ROULLIER,
Deputy Commissioner, Department of Water Supply, Gas and Electricity,
Borough of Queens.

Department of Water Supply, Gas and Electricity,
 Electrical Bureau, Boroughs of Manhattan and The Bronx,
 21 Park Row,
 New York, 1903.

Hon. ROBERT GRIER MONROE, Commissioner:

Sir—I submit herewith a report of work done by the Electrical Bureau of this Department for the second quarter ending June 30, 1903.

Applications received for inspection of interior wiring	5,352
Applications closed	4,938
Balance open	2,315
Certificates issued for interior wiring	4,598
Temporary certificates issued for interior wiring	173
Total certificates issued for interior wiring	4,771
Permits issued for signal wires	667
Permits issued for electric lighting	914
Permits issued for pole lines	74
Permits issued for resetting poles	2
Permits issued for city lamp posts	0
Permits issued for underground conductors	1,172
Permits issued for subsidiary connections	1,334
Permits issued for subways	116
Total permits issued for outside electrical work	4,279
Complaint notices issued	1,871
Complaint notices attended to	1,355
Balance open	1,531
Number of incandescent lamps covered by certificates	126,455
Number of arc lamps covered by certificates	2,350
Number of motors covered by certificates	1,950
Horse power capacity of motors covered by certificates.....	6,417.70
Number of generators covered by certificates	68
Kilowatt capacity of generators covered by certificates.....	6,409.70
Total number of inspections made by eighteen men	17,871

The inspectors have removed 47,400 feet, or 8.977 miles, of overhead wires without any additional expense to the city.

Respectfully submitted,
 FRANK E. BROWN, Chief Inspector.

"DOCUMENT VIII."

City of New York, Department of Water Supply, Gas and Electricity,
 Bureau of Water Rates, Borough of Brooklyn,
 June 30, 1903.

Hon. ROBERT VAN IDERSTINE, Deputy Commissioner:

Dear Sir—Herewith I submit a report of the work of the Bureau of Water Rates, Brooklyn, for the second quarter of the year 1903.

Recommendations contained in my report for the first quarter having been carried out by the making of extensive alterations in the offices occupied by this Bureau, it is gratifying to be able to state that the conditions under which work is now done by the clerical force are vastly improved. Clerks no longer are compelled to labor under artificial light during clear weather and in midsummer, in every case each man now having a direct sidelight. By a rearrangement of stationary desks more room has been secured, especially where it was most needed, viz., in the general, cash and meter offices. It is still to be regretted that the Bureau cannot immediately have twice the floor area now provided, as it could be utilized to the benefit of the office and the public. People having business with the Bureau have benefited greatly by the alterations, as may especially be seen in the work of the Cashier.

Complaint as to lack of discipline, made in the early part of the year, is now not necessary, as the force, both clerical and inspection, has with but few exceptions attained a highly improved state of efficiency.

During the past quarter it has not been necessary to again put the time clock in service.

Cash.

The receipts for the second quarter of 1903, including arrears, were \$953,489.60, an increase of \$40,081.33 over the corresponding period of 1902 and of \$733,057.32 over the first quarter of 1903.

It is noticeable that nearly \$30,000 of the increase over the same period of last year is due to meter accounts. There is also a substantial increase shown in every account other than penalties.

The long line of people waiting to pay their bills, a detention of hours in some cases, has become a thing of the past. So long as the present methods of receiving payments by the Cashier is retained there exists no excuse for a recurrence of scenes such as for many years took place in this office annually during the extra busy season. During the rush period commencing the first of May, my estimate that the time of payment would be reduced from fifteen and twenty minutes to less than a quarter of a minute, made in the report for the first quarter, has been borne out.

An adding machine for tickler and check work was placed in the cash office just prior to May 1, and has proved of great value, both because of increased accuracy and expedition. This has permitted one Clerk to do the tickler work for two cash books operated simultaneously.

For details of financial transactions see exhibits as follows:

- "A." Water Rates Collected During the Quarter Ending June 30, 1903, and During the Same Period of 1902, for Comparison.
- "B." Water Rates Collected During the Quarter Ending June 30, 1903, Compared with Those Collected During the Same Period of 1902.
- "C." Water Rates Collected in Bureau for Collection of Assessments and Arrears.
- "D." Water Rates Collected in Bureau for Collection of Taxes.
- "E." Amount of Refunds and Cancellations of Arrears.

Meters.

From the appended exhibit, "F," it will be seen that there were 682 meters set during the second quarter and the number of discontinuances but 8, making a net setting of 674 meters, the great bulk being on 5/8-inch services. This makes the number of meters in use on June 30, 5,590, an increase since January 1 of 1,078 meters, or an increase in six months of nearly 24 per cent.

In this connection I would call attention to the number of settings and discontinuances as shown in the following table:

Year.	Settings.	Removals.	Net Settings.
1898	207	59	148
1899	387	45	342
1900	559	54	505
1901	421	156	265
1902	807	20	787
1903 (for the first six months).....	1,092	14	1,078

On the adjournment of the Legislature without their having taken the action asked for by the Department in reference to metering being done at the City's expense, other installation notices were sent to those who had received them prior to January 1 and new notices to various businesses where there is an extra consumption of water. This has resulted in the setting of an unprecedentedly large number of new meters with the consequent assurance of a great increase in revenue for the year taken as a whole.

Factories, saloons, laundries, stables and clubs have been among the principal classes in meter settings, though a considerable number of dwellings have also set meters to avoid the stopping of the privilege of using garden hose.

It is notable that of the total of 682 meters set during the second quarter, 186 were voluntarily installed in dwellings exclusively and 187 in dwellings in connection with business on ground floor, making a total of 373 settings voluntarily made for domestic purposes, which indicates, I think, that metering is becoming more generally accepted as being reasonable and proper.

On April 29 a raid was executed on the premises of Isadore Heilbrunn, of No. 375 Broadway, doing business as the Electric Home Laundry. It was found that he had a rubber hose connection from a hydrant in a rear lot, and that he secured practically all of a large supply from that source, only permitting his meter to operate when an inspector was on the premises. Heilbrunn was arrested and held for the Court of Special Sessions, action by which is now awaited with interest, as it is the first case to arise in this city under the new section 651A of the Penal Code.

There is but little doubt that much water is now stolen by illicit connections and otherwise, and I intend during the third quarter, when the pressure of routine business shall abate, to make extensive inspections of metered premises.

There has been a gratifying increase in the number of readings made daily by the Inspectors attached to the meter division, the daily average at present being about fifty per cent, greater than the number read prior to the first of January. The total number of readings made during this quarter by the six Meter Readers was 11,511, or an average of 28 per day for the 69 working days. The number of general inspections during the quarter was 530.

All Meter Readers have been supplied with electric flashlights, which add greatly to the efficiency of the Inspectors and to the safety of buildings in which candle and matches were formerly used.

I would again call attention to the fact that but one of the authorized meters—the Worthington—is what is known as non-reversible in its action, thus making it impossible to use upon it a favorite method of tampering. It seems to me that all meters now or to be authorized should be compelled to be made nonreversible, which can easily be done by either the addition of a ratchet and pawl or by some other simpler method.

Also, I would again recommend that all meters be put through a clogging test before being set, the object of this being that where a meter is clogged or has a swollen piston or disk no water may pass without registration. A large number of meters now in use and registering but a small quantity of water indicate that no such test as that I speak of was ever applied to them.

During the quarter 295 permits to repair water meters were issued to plumbers by this Bureau, the various reasons given by the applicants being as follows: Not registering, to replace with another meter, closing account, stopped up, for test, changing connection, changing location, for repairs, set wrong, out of order, leak at meter, etc., etc.

In reference to the proper sealing and testing of meters in this Borough I will soon lay before you my recommendations on these questions.

See Exhibit "G," Statement of Settings, Discontinuances and Meters in Use.
 See Exhibit "H," Schedule of Repair Permits Issued to Plumbers.
 See Exhibit "I," Schedule Showing the Nature of Business for Which Meters Were Set.

Rates.

In the regular rate work the main effort has been to get all requisitions for bills filled as promptly as possible, and in this respect the testimony of those who have dealt with this Bureau for many years is that never before have they secured bills so early in the season. A successful effort has been made to have all bills made out when ratepayers called for them. This work was very difficult and greatly hampered by the delay in getting new bills from the printer, who claimed paper mills failed in their deliveries. Under the present system, in 1904 all bills should be completed in advance of the first day of May.

The work of the Rate Clerks has been quite arduous as compared with corresponding periods of former years, they having done a very large amount of labor in connection with special work.

Much difficulty arose about May 1, when citizens learned of the charge for rear buildings, a misconception of such rule having caused Inspectors to report as rear buildings all structures—even frame sheds used to store garden tools. This was remedied by making a complete reinspection of such reported buildings, with the consequent removal from the books of a large amount of erroneous charges.

See Exhibit "J," Changes in Force During Second Quarter.

See Exhibit "K," Summary of Changes in Force During Second Quarter.

Permits.

In the report for the first quarter reference was made to the then existing division of authority between the Superintendent of Repairs and the Water Registrar in the issuance of permits of several kinds and the supervision of water consumed by shipping. You transferred to this Bureau the issuance of all permits not heretofore issued by this office, in the latter part of June, and even though consolidated under one Permit Clerk for but a few days, already a committee from the Master Plumbers' Association have expressed themselves as pleased at having all the business transacted in one office. The two Inspectors of Shipping, also transferred within a few days of the expiration of the quarter, I have not as yet had time to closely observe at work, or to make any suggestions on the improvement of methods for increasing revenue from shipping.

Under the new permit methods many builders have been detected in erecting more houses than those for which they had water permits. Being threatened with prosecution on the first offence, they are now as a rule scrupulously observing the law.

Plumbers are now required to make monthly sworn returns to me of all new fixtures that are ratable. This was required of them some years ago and was discontinued under the last administration. With over seven hundred licensed plumbers in this borough, many of them constantly setting new fixtures, an increase in the revenue necessarily results. Under the law providing for sworn returns, plumbers could legally be asked to make statements weekly, but that would be an unnecessary hardship. To avoid any objection to the increased payment for acknowledgment fees, I have had the Permit Clerk created a Commissioner of Deeds, instructing him to accept no fees and posting a conspicuous sign to that effect.

Since the consolidation of permit issuing under one Clerk and assistants efforts have been made to simplify the work, render collection of permit fee certain, and to expedite the transaction of business by the public so that they spend no more time in this office than is absolutely necessary. To this end bills which were formerly issued in connection with all fire hydrant permits have been abolished, thus saving much time of both clerks and applicants. Stubs for retention by the Cashier have for the same purpose been added to all permits which formerly lacked them.

It was formerly required that before a permit for taps or repairs could issue plumbers must see that all arrears on premises were paid. This resulted in unnecessary hardship and no increase in revenue that might not be made by simpler means. Plumbers may now secure permits without delay.

See Exhibit "L," Statement of Permits Issued and Approximate Revenue Therefrom.

Inspection.

During the quarter the general resurvey inspection of all buildings in the borough was continued. Wards 7, 19, 21, 22 and 23 were completed, in addition to which work a large number of special inspections, due to the approach of the rate-payment period, were made.

While making general inspections it has been the practice to keep a careful lookout for leakage. The number of leaks of various kinds as reported existing in the wards resurveyed during the past three months are as follows:

Ward 7, 1,000 leaks; Ward 19, 800 leaks; Ward 21, 2,500 leaks; Ward 22, 2,400 leaks; Ward 23, 1,200 leaks; total, 7,900 leaks.

About June 1 two Inspectors were dismissed on charges, making a total of nine discharged since the first of January. The great amount of new work being done occasioned the appointment of nine permanent Inspectors from the Civil Service list.

Actual use of the uniform cap with conspicuous insignia thereon, by all Inspectors, has resulted in securing much easier access to houses, a less number of citizens' complaints of various kinds, and, when such complaints are made, a greater certainty as to identification. The attainment of this result has also been helped by the adoption of new badges that can be easily read, whereas those formerly in use were scarcely legible.

The number of Inspectors working during the quarter was 42, except during the last few days of June, when there were 44, making a total number of working days of approximately 3,014, divided as follows:

	Days.
On special inspections.....	617
On resurvey inspections.....	1,495
Reading meters.....	348
Inspecting meters.....	194
In office.....	147
Absent.....	213

Total..... 3,014

Inspector William Bryan has been continuously absent during the quarter on leave of absence.

The amount of work done on resurvey inspections was as follows:

Ward.	Number of Blocks.	Number of Inspections.
7.....	108	5,650
19.....	105	4,302
21.....	100	5,721
22.....	143	6,648
23.....	90	5,538
Total.....		27,859

A district comprising about thirty blocks in the Twenty-second Ward was inspected in connection with the Engineer's Bureau in conjunction with pitometer tests.

Respectfully submitted,
J. E. EASTMOND, Water Registrar.

DOCUMENT "IX."

Department of Water Supply, Gas and Electricity,
Bureau "Central Office,"
New York, December 23, 1903.

Hon. ROBERT GRIER MONROE, Commissioner:

Dear Sir—We transmit herewith statements of important transactions of the Bureau "Central Office" for the period from January 1 to June 30, 1903.

Exhibit "A" is a statement of contracts let after advertisement for bids.

Exhibit "B" is a statement of contracts let without advertisement for bids.

Exhibit "C" is an approximate statement of supplies and services for the boroughs of Manhattan, The Bronx, Queens and Richmond obtained on open orders. This statement is arranged to show: (1) the value of the different classes of materials and services; (2) the value of orders given to each house; (3) the value of the orders charged against the various appropriations and bond accounts.

Respectfully,

E. BEARDSLEY,
General Bookkeeper.

F. W. SHEPARD,
In Charge of Central Office.

Respectfully submitted,
H. R. EMERSON, Clerk (Bookkeeping).

AN APPROVED PAPER.

Whereas, Saturday, February 20, 1904, is a half holiday, immediately preceding Sunday, February 21, 1904, and Monday, February 22, 1904 (Washington's Birthday); and

Whereas, Many people are desirous of leaving town, and do leave, on the Friday evening preceding the dates above given and remain away until the Tuesday morning following; therefore be it

Resolved, That the heads of the several Departments of the Government of The City of New York be and they are hereby requested to close their offices on Saturday, February 20, 1904, and all other offices not by law required to be kept open for public business to be kept closed on said day.

Adopted by the Board of Aldermen February 16, 1904, a majority of all the members elected voting in favor thereof.

Approved by the Mayor February 17, 1904.

P. J. SCULLY, Clerk.

POLICE DEPARTMENT.

New York, February 10, 1904.

The following proceedings were this day directed by Police Commissioner McAdoo:

Approved.

Recommendation of First Deputy Commissioner McAvoy that Roundsman Louis M. Haupt, Thirty-fifth Precinct, be transferred to the Third Precinct, and Roundsman Nicholas Pound, Sixty-eighth Precinct, to the Thirty-fifth Precinct. Request of Department of Health that Patrolman William D. Hickey be re-manded to patrol duty from the Department of Health, and that Patrolman John R. Martin, Third Precinct, be transferred to said Department.

Referred to the Chief Inspector.

Communication from George Lockhart, commending Officer No. 3347 for stopping a runaway. For report.

Communication from I. Herman, commending Patrolman August Schuep, No. 6758, for stopping a runaway. For report.

Communication from N. Reichenbach, commending Sergeant Collins for stopping a runaway. For report.

Application of Mutual Alliance Trust Company, for appointment of John Pringle as Special Patrolman.

Leave of Absence Granted.

Roundsman William F. Maher, Central Office Squad, twenty days without pay. Doorman Charles E. Rattray, Fifteenth Precinct, five days without pay.

Full Pay Granted.

Patrolman Christian H. Waldeck, Seventieth Precinct, January 20 to February 5, 1904.

Referred to Inspector, Repairs and Supplies.

Communication from Thomas Farley, asking that he be given an opportunity to estimate for goods purchased on requisition.

Resignation Accepted.

Lazzaro Dugghi, as Special Patrolman for H. & A. Chapal Freres & Co., Brooklyn.

Retired on Application.

Patrolman Alonzo Howell, Tenement House Squad, \$700 per annum.

Referred to the Bookkeeper.

Communication from the Mayor, requesting monthly trial balance of books of account of the Police Department, to be furnished to the Commissioners of Accounts not later than the fifth day of each month.

Communication from Mary Ticho, asking that balance of pension due her husband, William Schneider, be paid to her. To make payment on receipt of proper release and proof of identity.

Ordered, That Thomas J. Mear, whose name appears upon eligible list of the Municipal Civil Service Commission, dated February 2, 1904, be and is hereby employed on probation as Patrolman.

Ordered, That the Municipal Civil Service Commission be and is hereby informed as to the other names appearing on eligible list for Patrolmen dated February 2, 1904, that Michael B. Meade, was rejected for enlarged heart and varicose veins of both legs; Patrick Mullins was rejected for flat feet and rapid weak heart; William C. Hamilton reported sick, and Robert E. McDonald failed to appear for examination.

On reading and filing report of Captain William H. Shaw, Seventh Precinct, and Inspector Max F. Schmittberger, approved by First Deputy Commissioner Thomas F. McAvoy.

Ordered, That Patrolman Charles A. Elias, Seventh Precinct, be and is hereby "Commended" for prompt action at a fire on the morning of January 27, 1904, at No. 141 East Broadway.

Masquerade Ball Permits Granted.

K. W. Bernhardt, Clinton Assembly Rooms, Brooklyn, February 10; fee, \$10. F. Hottinger, Hottinger's Hall, Queens, February 13; fee, \$10. G. M. Lucas, Ariel Hall, Queens, February 11; fee, \$5.

Chief Clerk to Answer.

Maryland Casualty Company, asking for 5,000 copies of Rules of the Road. Commissioners of Accounts, relative to manner of auditing City accounts.

Referred to the Comptroller.

Payroll of George Bishop, \$32.

Referred to the Bookkeeper.

Payroll of Terence Leonard and twenty-six others, \$1,882.62.

Payroll of Ernest Harbordt and twelve others, \$166.67.

On File.

Report of Captain Henry W. Burfeind, Nineteenth Precinct, relative to alleged disorderly houses on Twenty-ninth street, between Sixth and Seventh avenues. Report of Captain Martens, Eleventh Precinct, relative to complaint of Isidore Blauner that his employees are being interfered with by strikers.

Report of Captains Shaw, Seventh Precinct; John F. Flood, Twelfth Precinct; John W. O'Connor, Thirteenth Precinct; John Daly, Fourteenth Precinct, and Stephen W. McDermott, Fifteenth Precinct, relative to complaint of Isidore Blauner that employees of certain firms who are doing work for him are being interfered with by strikers.

Communication from Amasa Thornton, thanking for action taken in granting an additional pension to Matron Fox.

Communication from R. M. Haan, thanking for prompt appointment of James Gilroy as Special Patrolman.

Acknowledgment from World Library of receipt of annual report.

Report of Surgeon John J. Quigley of contagious disease in the family of Patrolman Charles O. Nelson, Thirty-first Precinct.

Report of Surgeon M. R. Palmer of contagious disease in the family of Patrolman James Drum, Thirty-fifth Precinct.

On File—Send Copy.

Report of Captain John W. Cottrell, Seventeenth Precinct, relative to circumstances connected with the death of Patrolman Everett H. Pierson. See letter of Commissioner.

WM. H. KIPP, Chief Clerk.

DEPARTMENT OF HEALTH.

WEEK ENDING SATURDAY, 12 M., FEBRUARY 13, 1904.

Brown & Fleming Company, per cubic yard, \$0.43½.
Bouker Contracting Company, per cubic yard, \$0.43.
Above contract awarded by the Commissioner on January 26, 1904, to the Bouker Contracting Company, it being the lowest bidder, subject to approval of the Aetna Indemnity Company, as surety, by the Comptroller.

Bids were received and opened January 26, 1904, for furnishing and delivering sawed new yellow pine timber, under Contract No. 826, as follows:

East River Mill and Lumber Company, per 1,000 feet B. M., \$19.40.

Cooney, Eckstein & Co., per 1,000 feet B. M., \$18.94.

Eppinger & Russell Company, per 1,000 feet B. M., \$19.70.

Charles S. Hirsch & Co., per 1,000 feet B. M., \$18.56.

J. H. Burton, per 1,000 feet B. M., \$19.42.

Above contract awarded by the Commissioner on January 26, 1904, to Charles S. Hirsch & Co., they being the lowest bidders, subject to the approval of Samuel A. Hesslein and Louis Timm, as sureties, by the Comptroller.

The following permits were granted:

George Morton—To land the steamers "Fanny Woodhall" and "Peekskill" at Canal street, Pier 33, North river, at the rate of \$5 per day for each boat, payable at the end of each week to the Dockmaster, the privilege to terminate April 30, 1904, unless sooner revoked by the Commissioner of Docks.

Benjamin S. Peck & Co.—To load one scow-load of horse manure at the bulkhead between Ninety-sixth and Ninety-seventh streets, East river, at the rate of \$5 per day, payable to the Dockmaster.

The following permits were granted, the work to be done under the supervision of the Engineer-in-Chief:

Clarence S. Betts—To dredge in front of the platform at the foot of One Hundred and Thirtieth street, Harlem river.

Edison Electric Illuminating Company, of Brooklyn—To lay three submarine cables across Coney Island creek, from the foot of West Seventeenth to the foot of West Eighteenth street (Harway avenue), Coney Island, Borough of Brooklyn, and to construct a manhole at each terminal, the consent of the Department of Bridges having been obtained.

Estate of H. D. Brookman—To repair the crib bulkhead between Thirtieth and Thirty-first streets, East river, the work to be kept within existing lines.

John Cloughen—To erect a dumping board to cover a space 100 feet along the bulkhead between One Hundred and Seventh and One Hundred and Eighth streets, Harlem river, with runway thereto, in lieu of the dumping board heretofore maintained by him thereat, in accordance with plans to be submitted to and approved by the Engineer-in-Chief.

Central Railroad Company of New Jersey—To repair water pipe at Pier, new 46, North river, upon condition that no asphalt pavement shall be disturbed and the pier and shed to be restored to the same condition as they were prior to the granting of the permit.

The following permits were granted to make repairs from time to time, as may be required, the work to be kept within existing lines, to be done under the supervision of the Engineer-in-Chief, and to terminate July 1, 1904, unless sooner revoked by the Commissioner of Docks:

Central Vermont Railway Company, Pier, old 36, East river.

New Jersey and Hudson River Railway and Ferry Company, ferry premises at One Hundred and Thirtieth street, North river.

The Engineer-in-Chief was directed to make the following repairs in accordance with his recommendations:

Water pipe on Pier 33, East river, from time to time, as may be required, at an expenditure not to exceed \$200 in the aggregate.

Pier at the foot of West Forty-fourth street, North river, for a period of six months, at an aggregate expense not to exceed \$1,000.

The Knickerbocker Steam Towage Company, lessee, was directed to repair Pier, new 1, North river.

The Department of Water Supply, Gas and Electricity was requested to repair the hydrant on the bulkhead between Gansevoort Street Pier and Gansevoort Market Pier, North river.

The following communications were received, action being taken thereon as stated:

From Attorney General—Requesting tracings of lands under water applied for by the Department at the foot of Summerfield avenue, Tyson street and Bard avenue, in the Borough of Richmond. Secretary directed to forward tracings as requested.

From Comptroller—Stating that on January 22, 1904, his certificate was attached to Contract No. 824 for placing an electrolier at the foot of West Twenty-third street, North river. Filed.

From Corporation Counsel—

1st. Stating that the Department of Docks and Ferries has jurisdiction over the Pier erected between Fifty-first and Fifty-second streets, South Brooklyn, and can maintain such pier for public wharfage, and that it is not obliged to turn the pier over to the Second Naval Battalion. Filed.

2d. Stating that on December 18, 1903, the Commissioners of Estimate and Assessment appointed in the proceedings for the acquisition of Pier, old 18, East river, filed their oaths of office, and that title to the property will vest in the City four months after that date. Filed.

3d. Approving terms and conditions of sale of the shed on the West Fifteenth Street Pier, and for the sale of old material. Ordered sold on the dates fixed, viz., old material, February 8, and the shed on February 9, 1904.

4th. Stating that on January 22, 1904, an order was entered discontinuing the action brought by the Consolidated Gas Company against The City of New York, vacating the injunction orders obtained by said company relative to the property at the foot of West Forty-first street, North river. Filed.

From Health Department—Reporting excavation at the foot of East Forty-first street. Said Department notified that the premises have been fenced off.

From Charles McAllister—Accepting the action of the Commissioner of Docks in rejecting all bids on Contract No. 825, for furnishing manila rope. Filed.

From M. K. Neville, for the West End Board of Trade—Suggesting the necessity of providing public piers to furnish wharfage accommodations between Twenty-fourth and Sixtieth streets, South Brooklyn. Said Board notified that the Department has constructed a pier between Fifty-first and Fifty-second streets, South Brooklyn, which is to be open for public wharfage, and that there is now in preparation a contract for the laying of a suitable pavement for an approach to said pier.

From Phoenix Towing and Transportation Company—Transmitting the consent of the sureties to the waiving of the time limit on Contract No. 779, Class 1, for cobble. Time extended to and including January 6, 1904.

From George B. Spearin—Requesting an extension of time to and including January 20, 1904, for the completion of the work of building Pier, new 10, North river, under Contract No. 764. Time extended to and including January 20, 1904, provided the sureties on the contract consent.

From Empire Timber Company—Requesting an extension of time for the delivery of piles under Contract No. 801 to January 22, 1904, and enclosing consent of sureties thereto. Time extended as requested.

From J. F. Wilbert, master of the schooner "John J. Ward"—In relation to damage caused by said schooner to the East Third Street Pier, and requesting that the bill of \$204.75 for repairs to said pier be canceled. Transmitted to Corporation Counsel for his opinion.

From Engineer-in-Chief—

1st. Report for the week ending January 23, 1904, regarding progress and completion of work done under his supervision.

2d. Reporting completion of Contract No. 796 for printing and furnishing specifications and forms of contract, the Martin B. Brown Company, contractors.

3d. Reporting completion of Class 6 of Contract No. 760, for furnishing hose, rubber goods, divers' supplies, etc., J. Edward Ogden Company, contractors.

4th. Reporting heroic action on the part of Officer Muldoon of the Police Department in rescuing a drowning man at the East Twenty-fourth Street Pier. Police Commissioner notified of the facts and advised that the Commissioner of Docks recommends the promotion of Officer Muldoon for bravery.

5th. From the Engineer-in-Chief and Superintendent of Docks—Reporting damage to shed on the West Thirty-fourth Pier by fire.

6th. From the Engineer-in-Chief—Reporting that the structure purchased by Leon Sobel on November 13, 1903, and designated as lot No. 6 on the block between Little

West Twelfth and West Thirteenth streets, westerly of Tenth avenue, has been removed, and recommending that the purchaser be released from the bond furnished by him. Recommendation adopted.

7th. Submitting list of old material and recommending that same be sold at public auction. Recommendation adopted.

8th. Recommending that the Staten Island Rapid Transit Railway Company be notified to cease the dumping of ashes through the trapdoor in the deck of the ferry house at St. George, Borough of Richmond, otherwise a penalty will be imposed in accordance with the rules of the Department. Recommendation adopted and the company so notified.

9th. Stating that the City is about to obtain title to the property between Bloomfield and Little West Twelfth streets, North river, and recommending that the Comptroller be requested not to rent any of the property, as the same will be required by the Department in connection with the improvement of the water front thereat. Recommendation adopted.

10th. Recommending the sale of the shed on the West Fifteenth Street Pier at an upset price of \$1,500. Recommendation adopted.

11th. Report on Bureau Order No. 2070, submitting specifications and form of contract for 2,500 hours of towing. Approved, subject to approval of Corporation Counsel as to form, and the contract ordered printed and advertised.

From Superintendent of Docks—Submitting list of vehicles now in the Department pound which have been there for a period of six months or more, and recommending the sale thereof at public auction, pursuant to section 853 of the Greater New York Charter. Ordered advertised.

The following actions were taken in regard to employees:

Municipal Civil Service Commission—

1st. Authorizing the reinstatement of Dennis Callahan as Laborer. Said Callahan reinstated January 22, 1904, as Laborer, with compensation at the rate of 25 cents per hour while employed.

2d. Submitting list of Ship Caulkers. Benjamin Walker and Patrick Murray were appointed Ship Caulkers January 28, 1904, with compensation at the rate of 44 cents per hour while employed.

From Superintendent of Docks—

Reporting death of Joseph F. Cadley, Stenographer, on January 27, 1904. Filed. The following persons were reappointed as Machinists for a period not exceeding five days from the dates set opposite their names, respectively:

Thomas F. Cooke, No. 74 Beach street, New York, January 25, 1904.

Thomas Keeley, No. 174 East Eightieth street, January 26, 1904.

The following persons were appointed Machinists for a period not exceeding five days from the dates set opposite their names respectively:

John Flaherty, No. 514 East Eighteenth street, New York, January 26, 1904.

James Kelly, No. 803 Tenth avenue, New York, January 28, 1904.

Statement of Moneys Received and Deposited by the Cashier of the Department of Docks and Ferries for the Week Ending January 27, 1904.

MUNICIPAL CIVIL SERVICE COMMISSION.

MUNICIPAL CIVIL SERVICE COMMISSION, No. 61 ELM STREET, CITY OF NEW YORK.

FEBRUARY 18, 1904.

PUBLIC NOTICE IS HEREBY GIVEN THAT open competitive examinations will be held for the following positions:

ARCHITECTURAL DRAUGHTSMAN, THURSDAY, MARCH 10, 1904, AT 10 A. M.

The receipt of applications will close on Friday, March 4, at 4 P. M.

The subjects and weights of the examination are as follows:

Technical Knowledge..... 5

Experience..... 2

Mathematics..... 2

Handwriting and General Neatness..... 1

Candidates will be required to obtain 75 per cent. on the technical paper.

There are from 10 to 25 vacancies in the Building Bureau of the Board of Education.

Candidates will be required to furnish their own drawing materials and appurtenances.

The compensation attached to this position is from \$18 to \$35 per week.

The minimum age is 21.

The Board of Education needs Draughtsmen of different qualifications; these are mainly as follows:

Designers.

Structural Steel Draughtsmen.

General Draught men.

—with knowledge of masonry, iron and wood construction, etc.

Sanitary Draughtsmen, etc.

The papers will be so drawn as to enable candidates to choose which one of the above they prefer. At the same time an examination will be held for Draughtsmen of a lower grade (Assistant Draughtsmen). The examination for this position will be more elementary and more general.

The compensation attached to the latter position is from \$18 to \$35 per week.

The minimum age is 18.

FEBRUARY 18, 1904.

POLICE MATRON, FRIDAY, MARCH 18, 1904, AT 10 A. M.

The receipt of applications will close on Saturday, March 5, at 4 P. M.

The subjects and weights of the examination are as follows:

Duties..... 5

Experience..... 3

Handwriting..... 1

Arithmetic..... 1

Required percentage is 70. It is impossible to foretell the number of vacancies, but 6 appointments were made during 1903.

A physical examination is required as a preliminary to the mental.

The compensation attached to this position is \$1,000.

Applicants must be not less than 30 nor more than 50 years of age.

HENRY BERLINGER, Secretary.

FEBRUARY 6, 1904.

PUBLIC NOTICE IS HEREBY GIVEN THAT open competitive examinations will be held for the following positions:

HENRY BERLINGER, Secretary.

FEBRUARY 6, 1904.

MUNICIPAL CIVIL SERVICE COMMISSION, No. 61 ELM STREET, CITY OF NEW YORK.

PUBLIC NOTICE WILL BE GIVEN OF ALL competitive examinations two weeks in advance of the date upon which the receipt of applications for any scheduled examination will be received for only such examinations as are scheduled.

When an examination is advertised, a person desiring to compete in the same may obtain an application blank upon request made in writing, or by personal application at the office of the Commission.

All notices of examinations will be posted in the office of the Commission, City Hall, Municipal Building, Brooklyn, and advertised in the "City Record" for two weeks in advance of the date

upon which the receipt of applications will close for any stated position.

Public notice will also be given by advertisement in most of the City papers.

Wherever an examination is of a technical character, due notice is given by advertisement in the technical journals appertaining to the particular profession for which the examination is called.

Such notices will be sent to the daily papers as matters of news, and to the General Postoffice and stations thereof. The scope of the examination will be stated, but for more general information application should be made at the office of the Commission.

Unless otherwise specifically stated the minimum age requirement for all positions is 21.

HENRY BERLINGER, Secretary.

FINANCE DEPARTMENT.

NOTICE TO PROPERTY-OWNERS.

IN PURSUANCE OF SECTION 1018 OF THE Greater New York Charter, the Comptroller of The City of New York hereby gives public notice to all persons, owners of property, affected by the following assessments for LOCAL IMPROVEMENTS IN THE BOROUGH OF BROOKLYN:

SEVENTH WARD, SECTION 7.

EMERSON PLACE—FLAGGING SIDEWALK, west side, between Park and Myrtle avenues. Area of assessment: West side of Emerson place, between Park and Myrtle avenues, on Block 1894, Lots Nos. 32 to 36, inclusive, and 39, 40 and 41.

EIGHTH WARD, SECTION 3.

THIRTY-FOURTH STREET—LAYING CEMENT SIDEWALKS, north side, between Fourth and Fifth avenues. Area of assessment: North side of Thirty-fourth street, between Fourth and Fifth avenues, on Block 685, Lots Nos. 43, 59, 61, 62, 63, 66, 67 and 68.

THIRTY-SIXTH STREET—LAYING CEMENT SIDEWALKS, southeast corner of Fourth avenue. Area of assessment: Southeast corner of Thirty-sixth street and Fourth avenue, on Block 697, Lot No. 10.

NINTH WARD, SECTION 4.

PROSPECT PLACE—FLAGGING SIDEWALK, south side, between Underhill and Vanderbilt avenues. Area of assessment: South side of Prospect place, between Vanderbilt and Underhill avenues, on Block 1159, Lot No. 41.

TWENTY-THIRD WARD, SECTION 6.

MACON STREET—FLAGGING SIDEWALK, south side, between Lewis and Sumner avenues. Area of assessment: South side of Macon street, between Lewis and Sumner avenues, on Block 1660, Lot No. 33.

TWENTY-FOURTH WARD, SECTION 5.

ST. JOHN'S PLACE—LAYING CEMENT SIDEWALKS, south side, between Bedford and Rogers avenues. Area of assessment: South side of St. John's place, between Bedford and Rogers avenues, on Block 1253, Lots Nos. 15, 16 and 18.

thereon at the rate of seven per centum per annum, to be calculated to the date of payment from the date when such assessments became liens, as provided by section 159 of this act.

Section 159 of this act provides * * * "An assessment shall become a lien upon the real estate affected thereby ten days after its entry in the said record."

The above assessments are payable to the Collector of Assessments and Arrears at the Bureau for the Collection of Assessments, and Arrears of Taxes and Assessments and of Water Rents, in the Municipal Building, Borough of Brooklyn, between the hours of 9 A. M. and 2 P. M., and on Saturdays from 9 A. M. until 12 M., and all payments made thereon on or before April 18, 1904, will be exempt from interest, as above provided, and after that date will be subject to a charge of interest at the rate of seven per centum per annum from the date when the above assessments became liens to the date of payment.

EDWARD M. GROUT,
Comptroller.

CITY OF NEW YORK—DEPARTMENT OF FINANCE,
COMPTROLLER'S OFFICE, February 17, 1904.
fr8,m3

NOTICE OF ASSESSMENTS FOR OPENING STREETS AND PARKS.

IN PURSUANCE OF SECTION 1005 OF THE Greater New York Charter, the Comptroller of the City of New York hereby gives public notice of the confirmation by the Supreme Court, and the entering in the Bureau for the Collection of Assessments and Arrears, of the assessment for OPENING AND ACQUIRING TITLE to the following-named street in the BOROUGH OF THE BRONX:

TWENTY-FOURTH WARD, SECTION 11.
WYSE STREET—OPENING. from Boston road to the Bronx Park. Confirmed December 18, 1903; entered February 17, 1904. Area of assessment includes all those lands, tenements and hereditaments and premises situate, lying and being in the Borough of The Bronx, in The City of New York, which, taken together, are bounded and described as follows, viz.: Beginning at a point formed by the intersection of the northerly side of East One Hundred and Seventy-fourth street with a line drawn parallel to the northerly side of Wyse street and distant 100 feet northerly therefrom; running thence northerly along said parallel line and its prolongation northerly to its intersection with the southerly side of the block between Boston road and Wyse street on the southeast and Daly avenue on the northwest; thence northerly along said southerly prolongation and middle line of the block to its intersection with the middle line of the block between East One Hundred and Seventy-ninth street and East One Hundred and Eightieth street; thence northerly along said middle line of the block to the southerly side of Daly avenue; thence northerly along said southerly side of Daly avenue and its prolongation northerly to its intersection with a line drawn parallel to the northerly side of East One Hundred and Eighty-second street and distant 100 feet northerly therefrom; thence southerly along said parallel line to its intersection with the northerly prolongation of the northerly side of Bryant street; thence southerly along said northerly prolongation and northerly side of Bryant street to the middle line of the block between East One Hundred and Seventy-ninth street and East One Hundred and Eightieth street; thence northerly along said middle line of the block to its intersection with the middle line of the block between Wyse street and Bryant street; thence southerly along said middle line of the block to the northerly side of Boston road; thence southerly to the intersection of the southerly side of Boston road with the northerly side of Bryant street; thence southerly along said northerly side of Bryant street to its intersection with a line drawn parallel to the southerly side of East One Hundred and Seventy-sixth street and distant 100 feet southerly therefrom; thence northerly along said parallel line to its intersection with the southerly side of Wyse street and distant 100 feet southerly therefrom; thence southerly along said parallel line to the northerly side of East One Hundred and Seventy-fourth street; thence westerly along said northerly side of East One Hundred and Seventy-fourth street to the point or place of beginning.

The above-entitled assessment was entered on the date hereinbefore given in the Record of Titles of Assessments, kept in the Bureau for the Collection of Assessments and Arrears of Taxes and Assessments and of Water Rents, in the Municipal Building, Borough of Brooklyn, between the hours of 9 A. M. and 2 P. M., and on Saturdays from 9 A. M. until 12 M., and all payments made thereon on or before April 18, 1904, will be exempt from interest, as above provided, and after that date will be subject to a charge of interest at the rate of seven per centum per annum from the date when the above assessment became a lien to the date of payment.

Said section provides that "If any such assessment shall remain unpaid for the period of sixty days after the date of entry thereof in the said Record of Titles of Assessments, it shall be the duty of the officer authorized to collect and receive the amount of such assessment to charge, collect and receive interest thereon at the rate of seven per centum per annum, to be calculated to the date of payment from the date when such assessment became a lien as provided by section 159 of this act."

Section 159 of this act provides * * * "An assessment shall become a lien upon the real estate affected thereby ten days after its entry in the said record."

The above assessment is payable to the Collector of Assessments and Arrears, at the Bureau for the Collection of Assessments and Arrears of Taxes and Assessments and of Water Rents, in the Municipal Building, corner of One Hundred and Seventy-seventh street and Third avenue, Borough of The Bronx, between the hours of 9 A. M. and 2 P. M., and on Saturdays from 9 A. M. to 12 M., and all payments made thereon on or before April 18, 1904, will be exempt from interest, as above provided, and after that date will be subject to a charge of interest at the rate of seven per centum per annum from the date when the above assessment became a lien to the date of payment.

EDWARD M. GROUT,
Comptroller.

CITY OF NEW YORK—DEPARTMENT OF FINANCE,
COMPTROLLER'S OFFICE, February 17, 1904.
fr8,m3

NOTICE TO PROPERTY-OWNERS.

IN PURSUANCE OF SECTION 1018 OF THE Greater New York Charter the Comptroller of the City of New York hereby gives public notice to all persons, owners of property, affected by the following assessments for LOCAL IMPROVEMENTS in the BOROUGH OF BROOKLYN:

TWENTY-FIFTH WARD, SECTION 6.
CHAUNCEY STREET—LAYING CEMENT SIDEWALKS. south side, between Howard and Saratoga avenues. Area of assessment: South side of Chauncey street, between Howard and Saratoga avenues, on Block 1514, Lots Nos. 1, 11 and 12.

HALEY STREET—LAYING CEMENT SIDEWALK. north side, between Saratoga avenue and Broadway. Area of assessment: North side of Haley street, between Saratoga avenue and Broadway, on Block 1492, Lots Nos. 28 and 31.

HALEY STREET—LAYING CEMENT SIDEWALK. south side, between Saratoga avenue and Broadway. Area of assessment: South

side of Haley street, between Saratoga avenue and Broadway, on Block 1495, Lots Nos. 12 and 26.

HOWARD AVENUE—LAYING CEMENT SIDEWALKS. east side, between Chauncey and Bainbridge streets. Area of assessment: East side of Howard avenue, between Chauncey and Bainbridge streets, on Block 1509, Lots Nos. 1 and 6.

HOWARD AVENUE—LAYING CEMENT SIDEWALKS. west side, between Chauncey and Bainbridge streets. Area of assessment: West side of Howard avenue, between Chauncey and Bainbridge streets, on Block 1508, Lot No. 49.

HOWARD AVENUE—LAYING CEMENT SIDEWALK. east side, between Fulton and McDougall streets. Area of assessment: East side of Howard avenue, from Fulton to McDougall street, on Block 1531, Lots Nos. 1 and 71.

HOWARD AVENUE—LAYING CEMENT SIDEWALKS. east side, between Madison and Monroe streets. Area of assessment: East side of Howard avenue, between Madison street and Broadway, on Block 1482, Lot No. 1.

HOWARD AVENUE—LAYING CEMENT SIDEWALK. east side, between Sumpter and Marion streets. Area of assessment: East side of Howard avenue, between Sumpter and Marion streets, on Block 1519, Lot No. 7.

SARATOGA AVENUE—LAYING CEMENT SIDEWALKS. west side, between Fulton and Hull streets; **FULTON STREET—LAYING CEMENT SIDEWALKS.** north side, between Saratoga avenue and Hull street. Area of assessment: West side of Saratoga avenue, between Fulton and Hull streets, on Block 1536, Lot No. 1.

SARATOGA AVENUE—LAYING CEMENT SIDEWALKS. northeast corner of Haley street. Area of assessment: Northeast corner of Saratoga avenue and Haley street, on Block 1492, Lot No. 47.

SARATOGA AVENUE—LAYING CEMENT SIDEWALKS. west side, between Haley and Hancock streets. Area of assessment: West side of Saratoga avenue, between Haley and Hancock streets, on Block 1491, Lot No. 35.

—that the same were confirmed by the Board of Assessors on February 9, 1904, and entered on February 10, 1904, in the Record of Titles of Assessments, kept in the Bureau for the Collection of Assessments, and Arrears of Taxes and Assessments and of Water Rents, and unless the amount assessed for benefit on any person or property shall be paid within sixty days after the date of said entry of the assessments interest will be collected thereon, as provided in section 1019 of said Greater New York Charter.

Said section provides that "If any such assessment shall remain unpaid for the period of sixty days after the date of entry thereof in the said Record of Titles of Assessments, it shall be the duty of the officer authorized to collect and receive the amount of such assessment to charge, collect and receive interest thereon at the rate of seven per centum per annum, to be calculated to the date of payment from the date when such assessment became a lien, as provided by section 159 of this act."

Section 159 of this act provides * * * "An assessment shall become a lien upon the real estate affected thereby ten days after its entry in the said record."

The above assessments are payable to the Collector of Assessments and Arrears, at the Bureau for the Collection of Assessments, and Arrears of Taxes and Assessments and of Water Rents, in the Municipal Building, Borough of Brooklyn, between the hours of 9 A. M. and 2 P. M., and on Saturdays from 9 A. M. until 12 M., and all payments made thereon on or before April 18, 1904, will be exempt from interest as above provided, and after that date will be subject to a charge of interest at the rate of seven per centum per annum from the date when the above assessments became liens to the date of payment.

BOROUGH OF BROOKLYN.

NOTICE OF SALE BY PUBLIC AUCTION.

ON FRIDAY FEBRUARY 26, 1904, AT 1 o'clock P. M., the Commissioner of Public Works, Borough of Brooklyn, will sell at public auction the buildings, or parts of buildings, within the lines of Clarkson street, between East Forty-eighth street and East Forty-ninth street, and within the lines of Clarkson street, between Rockaway parkway and East Ninety-eighth street, Borough of Brooklyn.

The sale will take place on the ground. Plan and description of the buildings may be examined at the office of the Assistant Commissioner of Public Works, Room 15, Municipal Building, Borough of Brooklyn.

TERMS OF SALE.

Cash payment in bankable funds at the time and place of sale, and the entire removal of buildings, or parts of buildings, from the street by the purchaser or purchasers within twenty days after the sale. If the purchaser or purchasers fails or fail to effect the removal within that time, he or they shall forfeit his or their purchases and the ownership of the buildings, or parts of buildings.

JAMES S. REGAN,
fr16,26

OFFICE OF THE PRESIDENT OF THE BOROUGH OF BROOKLYN, ROOM 15, MUNICIPAL BUILDING, BOROUGH OF BROOKLYN, THE CITY OF NEW YORK.

SEALED BIDS OR ESTIMATES WILL BE RECEIVED by the President of the Borough of Brooklyn at the above office until 11 o'clock A. M., on

WEDNESDAY, MARCH 2, 1904.

FOR FURNISHING ALL THE LABOR AND MATERIALS REQUIRED FOR CONSTRUCTING A SEWER THROUGH THE NORTHERN PORTION OF DYKER BEACH PARK, from Fourteenth avenue to Eleventh avenue, in the Borough of Brooklyn.

The Engineer's estimate of the quantities is as follows:

984 linear feet 120-inch brick sewer, section "A."

No. 18. North side of Twenty-ninth street, between Fourth and Fifth avenues, on Block 665, Lot No. 1.

No. 19. South side of Twenty-ninth street, between Fourth and Fifth avenues, on Block 669, Lot No. 36.

BOARD OF ESTIMATE AND APPORTIONMENT.

NOTICE IS HEREBY GIVEN THAT THE Board of Estimate and Apportionment of The City of New York, deeming it for the public interest so to do, proposes to change the map or plan of The City of New York so as to close and discontinue so much of the public park in the block bounded by Water, Broad and Pearl streets and Coenties slip as is not occupied by the building known as Fraunces' Tavern, in the Borough of Manhattan, City of New York, and that a meeting of said Board will be held in Room 16, City Hall, Borough of Manhattan, City of New York, on the 26th day of February, 1904, at 10.30 o'clock A. M., at which such proposed change will be considered by said Board; all of which is more particularly set forth and described in the following resolutions, adopted by the Board on the 29th day of January, 1904, notice of the adoption of which is hereby given, viz.:

Resolved, That the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of section 442, of the Greater New York Charter, as amended, deeming it for the public interest so to do, proposes to change the map or plan of The City of New York by closing and discontinuing so much of the public park in the block bounded by Water, Broad and Pearl streets and Coenties slip as is not occupied by the building known as Fraunces' Tavern, in the Borough of Manhattan, City of New York, more particularly described as follows:

Beginning at a point on the northerly side of Water street 102.28 feet westerly from the intersection of the northerly line of Water street with the westerly line of Coenties slip; running

Thence westerly along the northerly side of Water street for a distance of 131.75 feet to the intersection of the northerly line of Water street with the easterly line of Broad street; running

Thence northerly along the easterly side of Broad street 71.64 feet, more or less, to the southerly side of the lot occupied by Fraunces' Tavern; running

Thence easterly along the southerly line of the said Fraunces' Tavern 37.25 feet, more or less; running

Thence northerly along the said Fraunces' Tavern 3.7 feet, more or less; running

Thence easterly along the southerly side of the said Fraunces' Tavern 26.08 feet, more or less, to the southeasterly corner of the said Fraunces' Tavern; running

Thence northerly along the easterly side of the said Fraunces' Tavern 37.42 feet, more or less, to the southerly side of Pearl street; running

Thence easterly along the southerly side of Pearl street 57.5 feet, more or less, to a point on the southerly side of Pearl street distant 102.94 feet westerly from the intersection of the southerly side of Pearl street with the westerly side of Coenties slip; running

Thence southerly a distance of 108.05 feet to the point or place of beginning.

Resolved, That the President of the Borough of Manhattan cause to be prepared for submission to this Board three similar maps or plans for certification and filing in the manner required by law, showing as nearly as possible the nature and extent of the proposed change and the location of the immediate adjacent or of intersecting open or established streets, roads, squares, or places, sufficient for the identification and location thereof.

Resolved, That this Board consider the proposed change at a meeting of this Board to be held in the Old Council Chamber (Room 16), City Hall, Borough of Manhattan, City of New York, on the 26th day of February, 1904, at 10.30 o'clock A. M.

Resolved, That the Secretary of this Board cause these resolutions and a notice to all persons affected thereby that the proposed change will be considered at a meeting of the Board to be held at the aforesaid time and place, to be published in the CITY RECORD for ten days continuously, Sundays and legal holidays excepted, prior to the 26th day of February, 1904.

JOHN H. MOONEY,
Assistant Secretary.
11,25

NOTICE IS HEREBY GIVEN THAT THE Board of Estimate and Apportionment of The City of New York, deeming it for the public interest so to do, proposes to change the map or plan of The City of New York so as to change the grade of streets in the territory bounded by Thatford avenue, Newport street, Amboy street and Blake avenue, in the Borough of Brooklyn, City of New York, and that a meeting of said Board will be held in Room 16, City Hall, Borough of Manhattan, City of New York, on the 26th day of February, 1904, at 10.30 o'clock A. M., at which such proposed change will be considered by said Board; all of which is more particularly set forth and described in the following resolutions adopted by the Board on January 22, 1904, notice of the adoption of which is hereby given, viz.:

Resolved, That the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of section 442 of the Greater New York Charter, as amended, deeming it for the public interest so to do, proposes to change the map or plan of The City of New York by changing the grade of streets in the territory bounded by Thatford avenue, Newport street, Amboy street and Blake avenue, in the Borough of Brooklyn, City of New York, more particularly described as follows:

Rockaway Avenue.

Beginning at the intersection of Blake avenue and Rockaway avenue, the elevation to be 31.46 feet as heretofore;

Thence southerly to the intersection of Dumont avenue, the elevation to be 25.88 feet;

Thence southerly to a summit, distant 225 feet from the northerly line of Livonia avenue, the elevation to be 27.35 feet;

Thence southerly to the intersection of Livonia avenue, the elevation to be 26.13 feet;

Thence southerly to the intersection of Riverdale avenue, the elevation to be 23.85 feet;

Thence southerly to a summit, distant 208 feet from the southerly line of Riverdale avenue, the elevation to be 24.98 feet;

Thence southerly to the intersection of Newport street, the elevation to be 23.43 feet as heretofore.

Chester Street.

Beginning at the intersection of Dumont avenue and Chester street, the elevation to be 28.73 feet as heretofore;

Thence southerly to a summit, distant 143 feet from the northerly line of Livonia avenue, the elevation to be 30.60 feet;

Thence southerly to the intersection of Livonia avenue, the elevation to be 29.80 feet;

Thence southerly to the intersection of Riverdale avenue, the elevation to be 27.55 feet;

Thence southerly to the intersection of Newport street, the elevation to be 23.64 feet as heretofore.

Bristol Street.

Beginning at the intersection of Blake avenue and Bristol street, the elevation to be 35.25 feet as heretofore;

Thence southerly to the intersection of Dumont avenue, the elevation to be 30.00 feet;

Thence southerly to a summit, distant 138 feet from the northerly line of Livonia avenue, the elevation to be 31.90 feet;

Thence southerly to the intersection of Livonia avenue, the elevation to be 31.12 feet;

Thence southerly to the intersection of Riverdale avenue, the elevation to be 28.87 feet;

Thence southerly to the intersection of Newport street, the elevation to be 23.85 feet as heretofore.

Hopkinson Avenue.

Beginning at the intersection of Dumont avenue and Hopkinson avenue, the elevation to be 28.20 feet as heretofore;

Thence southerly to a summit, distant 200 feet from the southerly line of Dumont avenue, the elevation to be 29.29 feet;

Thence southerly to the intersection of Livonia avenue, the elevation to be 27.70 feet as heretofore;

Thence southerly to a summit, distant 230 feet from the northerly line of Riverdale avenue, the elevation to be 29.14 feet;

Thence southerly to the intersection of Riverdale avenue, the elevation to be 27.90 feet;

Thence southerly to the intersection of Newport street, the elevation to be 24.06 feet as heretofore.

Dumont Avenue.

Beginning at the intersection of Hopkinson avenue and Dumont avenue, the elevation to be 28.20 feet as heretofore;

Thence easterly to the intersection of Bristol street, the elevation to be 30 feet;

Thence easterly to the intersection of Chester street, the elevation to be 28.73 feet as heretofore;

Thence easterly to the intersection of Rockaway avenue, the elevation to be 25.88 feet;

Thence easterly to the intersection of Thatford avenue, the elevation to be 28.42 feet as heretofore.

Livonia Avenue.

Beginning at the intersection of Hopkinson avenue and Livonia avenue, the elevation to be 27.70 feet as heretofore;

Thence easterly to the intersection of Bristol street, the elevation to be 31.12 feet;

Thence easterly to the intersection of Chester street, the elevation to be 29.80 feet;

Thence easterly to the intersection of Rockaway avenue, the elevation to be 26.13 feet;

Thence easterly to the intersection of Thatford avenue, the elevation to be 25.66 feet as heretofore.

Riverdale Avenue.

Beginning at the intersection of Amboy street and Riverdale avenue, the elevation to be 26.93 feet as heretofore;

Thence easterly to the intersection of Hopkinson avenue, the elevation to be 27.90 feet as heretofore;

Thence easterly to the intersection of Bristol street, the elevation to be 28.87 feet;

Thence easterly to the intersection of Chester street, the elevation to be 27.55 feet;

Thence easterly to the intersection of Rockaway avenue, the elevation to be 23.85 feet;

Thence easterly to the intersection of Thatford avenue, the elevation to be 20.82 feet as heretofore.

NOTE—All elevations refer to mean high-water datum as established by the Bureau of Highways, Borough of Brooklyn.

Resolved, That the President of the Borough of Brooklyn cause to be prepared for submission to this Board three similar maps or plans for certification and filing in the manner required by law, showing as nearly as possible the nature and extent of the proposed change and the location of the immediate adjacent or of intersecting open or established streets, roads, squares, or places, sufficient for the identification and location thereof.

Resolved, That this Board consider the proposed change at a meeting of this Board, to be held in the Old Council Chamber (Room 16), City Hall, Borough of Manhattan, City of New York, on the 26th day of February, 1904, at 10.30 o'clock A. M.

Resolved, That the Secretary of this Board cause these resolutions and a notice to all persons affected thereby that the proposed change will be considered at a meeting of the Board, to be held at the aforesaid time and place, to be published in the CITY RECORD and the corporation newspapers for ten days continuously, Sundays and legal holidays excepted, prior to the 26th day of February, 1904.

JOHN H. MOONEY,
Assistant Secretary.
11,25

NOTICE IS HEREBY GIVEN THAT THE Board of Estimate and Apportionment of The City of New York, deeming it for the public interest so to do, proposes to change the map or plan of The City of New York so as to change the grade of certain streets in the territory bounded by Third avenue, Gowanus canal, Fifteenth street and Hamilton avenue, in the Borough of Brooklyn, City of New York, and that a meeting of said Board will be held in Room 16, City Hall, Borough of Manhattan, City of New York, on the 26th day of February, 1904, at 10.30 o'clock A. M., at which such proposed change will be considered by said Board; all of which is more particularly set forth and described in the following resolutions adopted by the Board on the 29th day of January, 1904, notice of the adoption of which is hereby given, viz.:

Resolved, That the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of section 442 of the Greater New York Charter as amended, deeming it for the public interest so to do, proposes to change the map or plan of The City of New York by changing the grades of certain streets in the territory bounded by Third avenue, Gowanus canal, Fifteenth street and Hamilton avenue, in the Borough of Brooklyn, City of New York, more particularly described as follows:

Second Avenue.

Beginning at the intersection of Second avenue and Gowanus canal the grade to be 5.00 feet; thence to the intersection of Second avenue and Sixth street the grade to be 7.00 feet; thence to a point distant 100 feet northerly from the north building line of Seventh street the grade to be 6.30 feet; thence to the intersection of Second avenue and Seventh street the grade to be 8.00 feet; thence to a point distant 80 feet northerly from the north building line of Eighth street the grade to be 9.00 feet; thence to the intersection of Second avenue and Eighth street the grade to be 8.50 feet; thence to the intersection of Second avenue and Ninth street the grade to be 7.45 feet; thence to the intersection of Second avenue and Tenth street the grade to be 10.60 feet; thence to the intersection of Second avenue and Eleventh street the grade to be 11.30 feet; thence to the intersection of Second avenue and Twelfth street the grade to be 10.40 feet; thence to the intersection of Second avenue and Thirteenth street the grade to be 12.30 feet; thence to the intersection of Second avenue and Fourteenth street the grade to be 13.75 feet; thence to the intersection of Second avenue and Fifteenth street the grade to be 11.90 feet; thence to the intersection of Second avenue and Hamilton avenue the grade to be 9.83 feet as heretofore.

Sixth Street.

Beginning at the intersection of Third avenue and Sixth street the grade to be 14.33 feet as heretofore; thence to the intersection of Second avenue and Sixth street the grade to be 7.00 feet.

Seventh Street.

Beginning at the intersection of Third avenue and Seventh street the grade to be 14.42 feet as heretofore; thence to the intersection of Seventh street and Second avenue the grade to be 8.00 feet.

Eighth Street.

Beginning at the intersection of Third avenue and Eighth street the grade to be 15.83 feet as heretofore; thence to the intersection of Second avenue and Eighth street the grade to be 8.50 feet; thence to the intersection of Eighth street and the bulkhead-line of Gowanus canal the grade to be 5.00 feet.

Ninth Street.

Beginning at the intersection of Third avenue and Ninth street the grade to be 18.00 feet as heretofore; thence to the intersection of Second avenue and Ninth street the grade to be 7.45 feet; thence to a point distant 620 feet westerly from the westerly building line of Second avenue the grade to be 4.40 feet; thence to the intersection of Ninth street and the bulkhead-line of Gowanus canal the grade to be 10.00 feet.

Tenth Street.

Beginning at the intersection of Third avenue and Tenth street the grade to be 20.17 feet as heretofore; thence to a point distant 140 feet easterly from the eastern building line of Second avenue the grade to be 11.90 feet; thence to the intersection of Second avenue and Tenth street the grade to be 10.60 feet; thence to the intersection of Tenth street and the bulkhead-line of Gowanus canal the grade to be 5.00 feet.

Eleventh Street.

Beginning at the intersection of Third avenue and Eleventh street the grade to be 22.33 feet as heretofore; thence to the intersection of Second avenue and Eleventh street the grade to be 11.30 feet; thence to the intersection of Eleventh street and the bulkhead-line of Gowanus canal the grade to be 5.00 feet.

Twelfth Street.

Beginning at the intersection of Third avenue and Twelfth street the grade to be 24.50 feet as heretofore; thence to the intersection of Second avenue and Twelfth street the grade to be 10.40 feet; thence to the intersection of Twelfth street and the bulkhead-line of Gowanus canal the grade to be 5.00 feet.

Thirteenth Street.

Beginning at the intersection of Third avenue and Thirteenth street the grade to be 24.50 feet as heretofore; thence to the intersection of Second avenue and Thirteenth street the grade to be 12.30 feet; thence to the intersection of Thirteenth street and the bulkhead-line of Gowanus canal the grade to be 5.00 feet.

Fourteenth Street.

Beginning at the intersection of Third avenue and Fourteenth street the grade to be 22.33 feet as heretofore; thence to the intersection of Second avenue and Fourteenth street the grade to be 13.75 feet; thence to a point distant 50 feet easterly from the intersection of the northerly building line of Hamilton avenue the grade to be 8.50 feet; thence to the intersection of Fourteenth street and Hamilton avenue the grade to be 10.80 feet as heretofore.

Fifteenth Street.

Beginning at the intersection of Third avenue and Fifteenth street the grade to be 20.17 feet as heretofore; thence to the intersection of Second avenue and Fifteenth street the grade to be 11.90 feet; thence to the intersection of Fifteenth street and Hamilton avenue the grade to be 9.00 feet as heretofore.

All grades are referred to mean high-water datum as established by the Bureau of Highways, Borough of Brooklyn, City of New York.

Resolved, That the President of the Borough of Brooklyn cause to be prepared for submission to this Board three similar maps or plans for certification and filing in the manner required by law, showing as nearly as possible the nature and extent of the proposed change and the location of the immediate adjacent or of intersecting open or established streets, roads, squares, or places, sufficient for the identification and location thereof.

Resolved, That this Board consider the proposed change at a meeting of this Board, to be held in the Old Council Chamber (Room 16), City Hall, Borough of Manhattan, City of New York, on the 26th day of February, 1904, at 10.30 o'clock A. M.

Resolved, That the Secretary of this Board cause these resolutions and a notice to all persons affected thereby that the proposed change will be considered at a meeting of the Board to be held at the aforesaid time and place, to be published in the CITY RECORD and the corporation newspapers for ten days continuously, Sundays and legal holidays excepted, prior to the 26th day of February, 1904.

JOHN H. MOONEY,
Assistant Secretary.
11,25

NOTICE IS HEREBY GIVEN THAT THE Board of Estimate and Apportionment of The City of New York, deeming it for the public interest so to do, proposes to change the map or plan of The City of New York so as to change the lines of streets in the territory bounded by Coney Island avenue, Church avenue and Ocean parkway, in the Borough of Brooklyn, City of New York, and that a meeting of said Board will be held in Room 16, City Hall, Borough of Manhattan, City of New York, on the 26th day of February, 1904, at 10.30 o'clock A. M., at which such proposed change will be considered by said Board; all of which is more particularly set forth and described in the following resolutions, adopted by the Board on the 29th day of January, 1904, notice of the adoption of which is hereby given, viz.:

Resolved, That the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of section 442 of the Greater New York Charter as amended, deeming it for the public interest so to do, proposes to change the map or plan of The City of New York by changing the lines of Jay street, between Hamilton avenue and Stuyvesant place, First Ward, in the Borough of Richmond, City of New York, more particularly described as follows:

Additional Property Included in the Layout of Jay Street.

Beginning at a point on the westerly line of Jay street 111.21 feet northerly from the intersection of the above line with the northerly line of Hamilton avenue.

1. Thence northerly along the first-mentioned line for 64.08 feet.

2. Thence northwesterly deflecting 32 degrees 27 minutes 14 seconds to the left for 64.08 feet.

3. Thence southeasterly curving right, on the arc of a circle of 220.17 feet radius, and tangent to both above-mentioned courses for 124.71 feet to the point of beginning.

Property to Be Abandoned in the Layout of Jay Street.

Beginning at a point on the easterly line of Jay street 111.21 feet northerly from the intersection of the above line with the easterly prolongation of the northerly line of Hamilton avenue.

1. Thence northerly along the first-mentioned line for 93.18 feet.

2. Thence northwesterly deflecting 32 degrees 27 minutes 14 seconds to the left for 93.18 feet.

3. Thence southeasterly, curving to the right, on the arc of a circle of 320.17 feet radius, and tangent to both above-mentioned courses for 181.35 feet to the point of beginning.

Resolved, That the President of the Borough of Richmond cause to be prepared for submission to this Board three similar maps or plans for certification and filing in the manner required by law, showing as nearly as possible the nature and extent of the proposed change and the location of the immediate adjacent or of intersecting open or established streets, roads, squares, or places, sufficient for the identification and location thereof.

Resolved, That this Board consider the proposed change at a meeting of this Board, to be held in the Old Council Chamber (Room 16), City Hall, Borough of Manhattan, City of New York, on the 26th day of February, 1904, at 10.30 o'clock A. M.

Resolved, That the Secretary of this Board cause these resolutions and a notice to all persons affected thereby that the proposed change will be considered at a meeting of the Board to be held at the aforesaid time and place, to be published in the CITY RECORD for ten days continuously, Sundays and legal holidays excepted, prior to the 26th day of February, 1904.

JOHN H. MOONEY,
Assistant Secretary.
11,25

NOTICE IS HEREBY GIVEN THAT THE Board of Estimate and Apportionment of The City of New York, deeming it for the public interest so to do, proposes to change the map or plan of The City of New York so as to lay out and establish grades of East Two Hundred and Forty-first street (Becker avenue) from the New York and Harlem Railroad to the centre line of the Bronx river, as an approach to the bridge over the Bronx river, opposite Wakefield, City of Yonkers, in the Twenty-fourth Ward, Borough of The Bronx, City of New York, and that a meeting of said Board will be held in Room 16, City Hall, Borough of Manhattan, City of New York, on the 26th day of February, 1904, at 10.30 o'clock A. M., at which such proposed change will be considered by said Board; all of which is more particularly set forth and described in the following resolutions, adopted by the Board on the 29th day of January, 1904, notice of the adoption of which is hereby given, viz.:

Resolved, That the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of section 442 of the Greater New York Charter, as amended, deeming it for the public interest so to do, proposes to change the map or plan of The City of New York by laying out and establishing grades of East Two Hundred and Forty-first street (Becker avenue), from the New York and Harlem Railroad to the centre line of the Bronx river, as an approach to the bridge over the Bronx river, opposite Wakefield, City of Yonkers, in the Twenty-fourth Ward, in the Borough of The Bronx, City of New York, more particularly described as follows:

I.—Location of Bridge Approach.

The centre line of the bridge approach to be the prolongation westerly of the centre line of Becker avenue (or East Two Hundred and Forty-first street) as the same is located on the ground, from White Plains road to First street, the width of the bridge approach to be 50 feet, extending 25 feet on each side of the said prolongation of the centre line of Becker avenue (or East Two Hundred and Forty-first street).

II.—Grades of the Bridge Approach Within the Lines of East Two Hundred and Forty-first Street (or Becker Avenue).

The elevation of the bridge approach at the westerly property line of the New York and Harlem Railroad to be 68 feet above mean high-water datum;

The elevation at the intersection of the northerly line of the said bridge approach with the easterly line of the Bronx river to be 71 feet above mean high-water datum.

Resolved, That the President of the Borough of The Bronx cause to be prepared for submission to this Board three similar maps or plans for certification and filing in the manner required by law, showing as nearly as possible the nature and extent of the proposed change and the location of the immediate adjacent or of intersecting open or established streets, roads, squares, or places, sufficient for the identification and location thereof.

Resolved, That this Board consider the proposed change at a meeting of this Board, to be held in the Old Council Chamber (Room 16), City Hall, Borough of Manhattan, City of New York, on the 26th day of February, 1904, at 10.30 o'clock A. M.

Resolved, That the Secretary of this Board cause these resolutions and a notice to all persons affected thereby that the proposed change will be considered at a meeting of the Board, to be held at the aforesaid time and place, to be published in the CITY RECORD for ten days continuously, Sundays and legal holidays excepted, prior to the 26th day of February, 1904.

JOHN H. MOONEY,
Assistant Secretary.
11,25

NOTICE IS HEREBY GIVEN THAT THE Board of Estimate and Apportionment of The City of New York, deeming it for the public interest so to do, proposes to change the map or plan of The City of New York so as to change the lines of streets in the territory bounded by Coney Island avenue, Church avenue and Ocean parkway, in the Borough of Brooklyn, City of New York, and that a meeting of said Board will be held in Room 16, City Hall, Borough of Manhattan, City of New York, on the 26th day of February, 1904, at 10.30 o'clock A. M., at which such proposed change will be considered by said Board; all of which is more particularly set forth and described in the following resolutions, adopted by the Board on the 29th day of January, 1904, notice of the adoption of which is hereby given, viz.:

Resolved, That the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of section 442 of the Greater New York Charter as amended, deeming it for the public interest so to do, proposes to change the map or plan of The City of New York by changing the lines of streets in the territory bounded by Coney Island avenue, Church avenue and Ocean parkway, in the Borough of Brooklyn, City of New York, more particularly described as follows:

A.—Locating and Laying Out.

1. Montgomery street, from Coney Island avenue to East Seventh street; Montgomery street to be 50 feet wide, and to agree with the street as at present in use.

2. Johnson street, from Coney Island avenue to Ocean parkway; Johnson street to be 60 feet wide, and to agree with the street as in use at present from Coney Island avenue to Bowne street. Thence to be prolonged westerly in a straight line to Ocean parkway.

3. Henry street, from East Eighth street to Ocean parkway; Henry street to be 50 feet wide, and to agree with the street as in use from East Eighth street to Bowne street. Thence to be prolonged westerly in a straight line to Ocean parkway.

4. Caton place, from Coney Island avenue to Ocean parkway; Caton place to be 70 feet wide, and to agree with the street as in use.

5. East Eighth street, from Church lane to Johnson street, and from Johnson street to north line of former Caton avenue; East Eighth street to be 50 feet wide, and to agree with the street as in use.

B.—Striking from the Map of the City.

East Seventh street, from Henry street to Ocean parkway; East Eighth street, from Church lane to Caton avenue; Caton avenue, from Coney Island avenue to Ocean parkway.

The lines of these streets to be taken from the City map as indicated on the accompanying map.

Resolved, That the President of the Borough of Brooklyn cause to be prepared for submission to this Board three similar maps or plans for certification and filing in the manner required by law, showing as nearly as possible the nature and extent of the proposed change and the location of the immediate adjacent or of intersecting open or established streets, roads, squares, or places, sufficient for the identification and location thereof.

squares, or places, sufficient for the identification and location thereof.

Resolved, That this Board consider the proposed change at a meeting of this Board, to be held in the Old Council Chamber (Room 16), City Hall, Borough of Manhattan, City of New York, on the 26th day of February, 1904, at 10.30 o'clock A. M.

Resolved, That the Secretary of this Board cause these resolutions and a notice to all persons affected thereby that the proposed change will be considered at a meeting of the Board, to be held at the aforesaid time and place, to be published in the CITY RECORD and the corporation newspapers for ten days continuously, Sundays and legal holidays excepted, prior to the 26th day of February, 1904.

(Signed) JOHN MCGAW WOODBURY, Commissioner.

MAIN OFFICE OF THE DEPARTMENT OF STREET CLEANING, ROOM 1421, NOS. 13-21 PARK ROW, BOROUGH OF MANHATTAN, THE CITY OF NEW YORK.

SEALED BIDS OR ESTIMATES WILL BE RECEIVED by the Commissioner of Street Cleaning at the above office until 2 o'clock p. m., on

THURSDAY, FEBRUARY 25, 1904.

Boroughs of Manhattan and The Bronx.

CONTRACT FOR FURNISHING ALL THE LABOR AND MATERIALS REQUIRED FOR TOWING SCOWS AND UNLOADING THEM AT RIKER'S ISLAND.

The time for the completion of the work and the full performance of the contract is one year.

The amount of security required is Thirty Thousand Dollars.

Bids will be compared and the contract awarded at a lump or aggregate sum.

Each bid must state the price per scow load (per "small" scow, per "large" scow, per "extra large" scow, and per "special extra large" scow), and these prices must be written out, and must also be given in figures.

Each bid must be accompanied by a certified check on a solvent banking corporation in The City of New York, payable to the order of the Comptroller of The City of New York, for five per centum of the amount for which the work bid for is proposed in one year to be performed.

From the bids received the Commissioner of Street Cleaning may select the bid the acceptance of which will in his judgment best secure the efficient performance of the work, or he may reject any or all of said bids.

Blank forms and further information may be obtained at the office of the Department of Street Cleaning, the Borough of Manhattan, Nos. 13-21 Park row.

JOHN MCGAW WOODBURY, Commissioner of Street Cleaning.

Dated 1904.

See General Instructions to Bidders on the last page, last column, of the "City Record."

ASHES, ETC., FOR FILLING IN LANDS. PERSONS HAVING LANDS OR PLACES in the vicinity of New York Bay to fill in can procure material for that purpose—ashes, street sweepings, etc., collected by the Department of Street Cleaning—free of charge by applying to the Commissioner of Street Cleaning, Nos. 13 to 21 Park Row, Borough of Manhattan.

JOHN MCGAW WOODBURY, Commissioner of Street Cleaning.

BOROUGH OF MANHATTAN.

OFFICE OF THE PRESIDENT OF THE BOROUGH OF MANHATTAN, CITY HALL, THE CITY OF NEW YORK.

SEALED BIDS OR ESTIMATES WILL BE RECEIVED by the President of the Borough of Manhattan, at the City Hall, Room No. 16, until 3 o'clock p. m., on

WEDNESDAY, MARCH 2, 1904.

FOR FURNISHING ALL THE LABOR AND MATERIALS REQUIRED FOR BUILDING SEWER IN WEST FIFTEENTH STREET, between Ninth and Tenth avenues.

The Engineer's estimate of the quantity and quality of the material and the nature and extent, as near as possible, of the work required, is as follows:

- 350 linear feet of brick sewer of 3 feet 6 inches by 2 feet 4 inches interior diameter, class I.
- 400 linear feet of brick sewer of 3 feet 6 inches by 2 feet 4 inches interior diameter, class II.
- 40 linear feet of salt glazed vitrified stone-ware pipe culvert of 12 inches interior diameter.
- 10 cubic yards of rock to be excavated and removed.
- 35,000 feet B. M. of timber and planking for bracing and sheet piling.

The time allowed to complete the whole work will be one hundred (100) working days.

The amount of the security required is Thirty-five Hundred Dollars (\$3,500).

The plans and drawings may be seen and other information obtained at the office of the Commissioner of Public Works, Bureau of Sewers, Nos. 13-21 Park row, Borough of Manhattan.

JOHN F. AHEARN, Borough President.

THE CITY OF NEW YORK, February 18, 1904.

SUPREME COURT.

SECOND DEPARTMENT.

In the matter of the application of The City of New York, relative to acquiring title to the lands, tenements and hereditaments required for the purpose of opening EIGHTY-SEVENTH STREET, between Fifth avenue and Narrows avenue, in the thirtieth Ward, in the Borough of Brooklyn, in The City of New York.

NOTICE IS HEREBY GIVEN THAT AN application will be made to the Supreme Court of the State of New York, at a Special Term of said Court for the hearing of motions, to be held in and for the County of Kings, in the County Court-house, in the Borough of Brooklyn, in The City of New York, on the 3d day of March, 1904, at the opening of court on that day, or as soon thereafter as counsel can be heard for the appointment of Commissioners of Estimate and Assessment in the above-entitled proceeding.

The nature and the extent of the improvement hereby intended is the acquisition of title by The City of New York, for the use of the public, to all the lands and premises, with the buildings thereon and appurtenances thereto belonging, required for the opening of a street known as Eighty-seventh street, between Fifth avenue and Narrows avenue, in the thirtieth Ward, in the Borough of Brooklyn, in The City of New York.

The lands required for the purpose of opening Eighty-seventh street, between Fifth avenue and Narrows avenue, as aforesaid, are shown on a map entitled "The General Map or Plan of the Towns of New Utrecht, Flatbush, Gravesend, Flatlands and New Lots, in the County of Kings," prepared by the Town Survey Commissioners pursuant to an act of the Legislature passed May 1, 1869, and the several acts amendatory thereof, and filed in the office of the Register of the County of Kings in the year 1874, now incorporated with and forming a part of the map of The City of New York, and also shown on a map of that portion of said street affected by these proceedings made by the Topographical Division of the Bureau of Highways of the Borough of Brooklyn, and signed by William C. Redfield, Commissioner of Public Works; George W. Tillson, Chief Engineer, and George J. Bischof, Assistant Engineer in charge, and dated December 12, 1903, which map was filed in the office of the Corporation Counsel of The City of New York, in the Borough of Brooklyn, on the 16th day of December, 1903.

Dated Borough of Brooklyn, City of New York, the 18th day of February, 1904.

JOHN J. DELANY, Corporation Counsel.

No. 166 Montague street, Brooklyn, N. Y.

SECOND DEPARTMENT.

In the matter of the application of The City of New York, relative to acquiring title to the lands, tenements and hereditaments required for the purpose of opening AV. NUE S, between Coney Island avenue and Ocean parkway, in the Thirty-first Ward, in the Borough of Brooklyn, in The City of New York.

NOTICE IS HEREBY GIVEN THAT AN application will be made to the Supreme Court of the State of New York, at a Special Term of said Court for the hearing of motions, to be held in and for the County of Kings, in the County Court-house, in the Borough of Brooklyn, in The City of New York, on the 3d day of March, 1904, at the opening of court on that day or as soon thereafter as counsel can be heard, for the appointment of Commissioners of Estimate and Assessment in the above-entitled proceeding.

The nature and the extent of the improvement hereby intended is the acquisition of title by The City of New York, for the use of the public, to all the lands and premises, with the buildings thereon and appurtenances thereto belonging, required for the opening of a street known as Avenue S, between Coney Island avenue and Ocean parkway, in the Thirty-first Ward, in the Borough of Brooklyn, in The City of New York.

The lands required for the purpose of opening Avenue S, between Coney Island avenue and Ocean parkway, as aforesaid, are shown on a map entitled "The General Map or Plan of the Towns of New Utrecht, Flatbush, Gravesend, Flatlands and New Lots, in the County of Kings," prepared by the Town Survey Commissioners pursuant to an act of the Legislature passed May 1, 1869, and the several acts amendatory thereof and filed in the office of the Register of the County of Kings in the year 1874, now incorporated with and forming a part of the map of The City of New York, and also shown on a map of that portion of said street affected by these proceedings made by the Topographical Division of the Bureau of Highways of the Borough of Brooklyn, and signed by George W. Tillson, Chief Engineer, and George J. Bischof, Assistant Engineer in charge, and dated November 27, 1903, which map was filed in the office of the Corporation Counsel of The City of New York, in the Borough of Brooklyn, on the 30th day of November, 1903.

Dated Borough of Brooklyn, City of New York, the 18th day of February, 1904.

In the matter of acquiring title by The City of New York to certain lands and premises situated on the westerly side of ALLEN STREET, one hundred and sixteen (116) feet and eight (8) inches south of Rivington street, in the Borough of Manhattan, in The City of New York, duly selected as a site for a public bath, according to law.

WE, THE UNDERSIGNED, COMMISSIONERS of Estimate and Appraisal in the above-entitled matter, do hereby give notice to the owner or owners, lessee or lessees, parties or persons respectively entitled to or interested in the lands, tenements, hereditaments and premises, title to which is sought to be acquired in this proceeding, and to all others whom it may concern, to wit:

First—That we have completed our estimate of the loss and damage to the respective owners, lessees, parties and persons respectively entitled to or interested in the lands and premises affected by this proceeding, or having any interest therein, and have filed a true report or transcript of such estimate in the office of the Board of Estimate and Apportionment of The City of New York, at their office in the City Hall, in the Borough of Manhattan, City of New York, for the inspection of whomsoever it may concern.

Second—That all parties or persons whose rights may be affected by the said estimate, or who may object to the same, or any part thereof, may within ten days after the first publication of this notice, February 13, 1904, file their objections to such estimate, in writing, with us, at our office, Room No. 401, No. 258 Broadway, in the Borough of Manhattan, in the said city; and that we, the said Commissioners, will hear parties so objecting, at our office, on the 26th day of February, 1904, at 3 o'clock in the afternoon, and upon such subsequent days as may be found necessary.

Dated New York, February 11, 1904.

FIRST JUDICIAL DISTRICT.

In the matter of the application of The City of New York, acting by and through the Commissioner of Docks, relative to acquiring right and title to and possession of certain lands, lands under water, lands under water filled in, wharf property, wharfage rights, terms, easements, emoluments and privileges necessary to be taken for the improvement of the water front of The City of New York, on the North river, BETWEEN WEST FORTY-FIRST AND WEST FORTY-SECOND STREETS, extended, pursuant to the plan heretofore adopted by the Board of Docks, and approved by the Commissioners of the Sinking Fund.

NOTICE IS HEREBY GIVEN THAT WE, THE undersigned, were appointed by an order of the Supreme Court, bearing date the 31st day of December, 1903, and filed and entered in the office of the Clerk of the County of New York on the same day, Commissioners of Estimate and Assessment in the above-entitled proceeding, for the purpose of making a just and equitable estimate of the loss and damage to the respective owners, lessees, parties and persons entitled to or interested in the lands, lands under water, lands under water filled in, wharf property, wharfage rights, terms, easements, emoluments and privileges to be taken herein for the improvement of the water front on the North river, and which said lands, lands under water, lands under water filled in, wharf property, wharfage rights, terms, easements, emoluments and privileges which are to be taken, are described as follows:

Beginning at a point formed by the intersection of the westerly side of Twelfth avenue with the northerly side of West Forty-first street; running thence westerly along the northerly side of West Forty-first street, extended, to the easterly side of Thirteenth avenue, as the same was established by chapter 82 of the Laws of 1837; running thence northerly along said easterly side of Thirteenth avenue to the southerly side of West Forty-second street, extended; running thence easterly along the southerly side of West Forty-second street, extended, to the westerly side of Twelfth avenue, and running thence southerly along the westerly side of Twelfth avenue to the northerly side of West Forty-first street, to the point or place of beginning.

Together with all wharfage rights, terms, easements and privileges and appurtenances or emoluments of any kind whatsoever in and to the above-described premises, including the bulkhead westerly of the westerly side of Twelfth avenue, between West Forty-first and West Forty-second streets.

All parties and persons interested in the said lands, lands under water, lands under water filled in, wharf property, wharfage rights, terms, easements, emoluments and privileges taken, or to be taken for the said improvement of the water front of The City of New York on the North river, or affected thereby, and having any claim or demand on account thereof, are hereby required to present the same, duly verified, to us, the undersigned Commissioners of Estimate and Assessment, at our office, Room No. 401, on the fourth floor of the building No. 258 Broadway, in The City of New York, Borough of Manhattan, with such affidavits or other proofs as the said owners or claimants may desire, within twenty days after the date of this notice, and we, the said Commissioners, will be in attendance at our office above specified on the 11th day of March, 1904, at 10.30 o'clock in the forenoon of that day, to hear the said parties and persons in relation thereto; and at such time and place, or at such other or further times and places as we may appoint, we will hear such owners in relation thereto and examine the proofs of such claimant or claimants, or such additional proofs or allegations as may be then offered by such owners, or on behalf of The City of New York.

Dated, BOROUGH OF MANHATTAN, CITY OF NEW YORK, February 11, 1904.

FIRST DEPARTMENT.

In the matter of the application of The City of New York, relative to amending its application heretofore made in the matter of acquiring title, wherever the same has not been heretofore acquired, to EXTERIOR STREET (although not yet named by proper authority), from East One Hundred and Thirty-fifth street to Girard avenue at Cheever place, in the Twenty-third Ward, Borough of The Bronx, City of New York, by excluding from said proceeding certain property not required for said street.

PURSUANT TO THE STATUTES IN SUCH cases made and provided, notice is hereby given that an application will be made to the Supreme Court of the State of New York, First Department, at a Special Term of said Court, to be held at Part III, thereof, in the County Court-house, in the Borough of Manhattan, in The City of New York, on the 17th day of February, 1904, at the opening of the Court on that day, or as soon thereafter as counsel can be heard thereon, for an order amending the proceeding entitled "In the matter of the application of The City of New York, relative to acquiring title, wherever the same has not been heretofore acquired, to Exterior street, from East One Hundred and Thirty-fifth street to Girard avenue at Cheever place, in the Twenty-third Ward, Borough of The Bronx, City of New York," and the petition and order appointing Commissioners of Estimate and Assessment therein, heretofore duly entered and filed in the office of the Clerk of the County of New York, in the Borough of Manhattan, City of New York, on the 8th day of May, 1903, by excluding therefrom certain property not required for said street, being the following described lots, pieces or parcels of land, viz.:

Beginning at a point in the western line of Exterior street (as now being acquired) distant 51.67 feet southerly from the intersection of said line with the southern line of East One Hundred and Thirty-eighth street as legally opened;
1st. Thence easterly parallel with the southern line of East One Hundred and Thirty-eighth street for 20.67 feet;
2d. Thence southerly deflecting 75 degrees 24 minutes to the right for 743.30 feet;
3d. Thence northwesterly deflecting 135 degrees 8 minutes 30 seconds to the right for 54.05 feet;
4th. Thence southwesterly deflecting 73 degrees 14 minutes to the left for 21.81 feet;
5th. Thence southwesterly deflecting 1 degree 19 minutes 20 seconds to the right for 53.16 feet;
6th. Thence southwesterly deflecting 2 degrees 10 minutes 40 seconds to the right for 8.22 feet to the pierhead and bulkhead-line of the Harlem river;
7th. Thence northerly along said line deflecting 104 degrees 36 minutes 5 seconds to the right for 77.15 feet;
8th. Thence northerly still along said line deflecting 0 degrees 57 minutes 28 seconds to the left for 62.85 feet;
9th. Thence easterly deflecting 90 degrees to the right for 119.35 feet;
10th. Thence northerly deflecting 79 degrees 13 minutes 7 seconds to the left for 587.71 feet to the point of beginning.

The land excluded from Exterior street is shown on a map entitled "Map or plan showing change of lines of Exterior street, between East One Hundred and Thirty-eighth street and East One Hundred and Thirty-fifth street, and change of grades of East One Hundred and Thirty-fifth street and Exterior street, between Park avenue and Cheever place, in the Twenty-third Ward, Borough of The Bronx, City of New York, prepared by the President of the Borough of The Bronx under authority of chapter 466 of the Laws of 1902," which was filed in the office of the President of the Borough of The Bronx, in the office of the Counsel to the Corporation of The City of New York, and in the office of the Register of the City and County of New York on or about the 6th day of October, 1903.

Dated New York, February 4, 1904.

SECOND DEPARTMENT.

In the matter of the application of The City of New York relative to acquiring title, wherever the same has not been heretofore acquired, to the lands, tenements and hereditaments required for the opening and extending of WESTCHESTER AVENUE, (although not yet named by proper authority), from the Bronx river to Main street, in the Twenty-fourth Ward, Borough of The Bronx, in The City of New York.

NOTICE IS HEREBY GIVEN THAT WE, the undersigned, were appointed by an order of the Supreme Court, bearing date the 31st day of December, 1903, and duly entered in the office of the Clerk of the County of Kings, at his office in the Borough of Brooklyn, in The City of New York, on the 6th day of January, 1904, and in the office of the Clerk of the County of New York, at his office in the

Borough of Manhattan, in The City of New York, on the 17th day of January, 1904, and in the office of the Clerk of the County of Westchester at his office at White Plains, Westchester County, in the State of New York, on the 17th day of January, 1904, a copy of which order was duly filed in the office of the Register of the County of New York, and indexed in the Index of Conveyances, No. 172, Annexed Territory, Commissioners of Estimate and Assessment, for the purpose of making a just and equitable estimate and assessment of the loss and damage, if any, or of the benefit and advantage, if any, as the case may be, to the respective owners, lessees, parties and persons respectively entitled unto or interested in the lands, tenements, hereditaments and premises required for the purpose by and in consequence of opening the above-mentioned street or avenue, the same being particularly set forth and described in the petition of The City of New York, and also in the notice of the application for the said order thereto attached, filed herein in the office of the Clerk of the County of New York on the 17th day of January, 1904, in the office of the Clerk of the County of Kings on the 6th day of January, 1904, and in the office of the Clerk of the County of Westchester on the 17th day of January, 1904, and a just and equitable estimate and assessment of the value of the benefit and advantage of said street or avenue so to be opened or laid out and formed, to the respective owners, lessees, parties and persons respectively entitled to or interested in the said respective lands, tenements, hereditaments and premises not required for the purpose of opening, laying out and forming the same, but benefited thereby, and of ascertaining and defining the extent and boundaries of the respective tracts or parcels of land to be taken or to be assessed therefor, and of performing the trusts and duties required of us by chapter 17, title 4 of the Greater New York Charter, as amended, and the acts or parts of acts supplementary thereto or amendatory thereof.

Notice is hereby further given that by an order of the Supreme Court, duly filed and entered in the office of the Clerk of the County of Westchester on January 6, 1904; in the office of the Clerk of the County of Kings on January 6, 1904, and in the office of the Clerk of the County of New York on January 7, 1904, and a copy of which order was filed in the office of the Register of the County of New York on the 7th day of January, 1904, the above-entitled proceeding was duly and regularly amended by excluding therefrom the property not required for the opening of said avenue and by including therein certain additional pieces of land, which, together with the lands to be excluded, are more particularly described and bounded in the petition attached to said order.

All parties and persons interested in the real estate taken or to be taken under this order for the purpose of acquiring said street or avenue or affected thereby, and having any claim or demand on account thereof, are hereby required to present the same, duly verified, to us, the undersigned, Commissioners of Estimate and Assessment, at our office, fourteenth floor, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in The City of New York, with such affidavits or other proofs as the said owners or claimants may desire, within twenty days after the date of this notice.

And we, the said Commissioners, will be in attendance at our said office on the 3d day of March, 1904, at 10 o'clock in the forenoon of that day, to hear the said parties and persons in relation thereto. And at such time and place, and at such further or other time and place as we may appoint, we will hear such owners in relation thereto and examine the proofs of such claimant or claimants, or such additional proofs and allegations as may then be offered by such owners or on behalf of The City of New York.

Dated BOROUGH OF MANHATTAN, CITY OF NEW YORK, February 3, 1904.

FIRST JUDICIAL DISTRICT.

In the matter of the application of The City of New York, acting by and through the Commissioner of Docks, relative to acquiring right and title to and possession of the wharfage rights, terms, easements, emoluments and privileges appurtenant to Pier, old No. 18, East river, in the Borough of Manhattan, The City of New York, not now owned by The City of New York, and all right, title and interest in and to said pier, or any portion thereof, not now owned by The City of New York, for the improvement of the water front of The City of New York on the East river, pursuant to the plan heretofore adopted by the Board of Docks and approved by the Commissioners of the Sinking Fund.

NOTICE IS HEREBY GIVEN THAT WE, the undersigned, were appointed by an order of the Supreme Court, bearing date the 19th day of November, 1903, and filed and entered in the office of the Clerk of the County of New York on the 1st day of December, 1903, Commissioners of Estimate and Assessment in the above-entitled proceeding for the purpose of making a just and equitable estimate of the loss and damage to the respective owners, lessees, parties and persons entitled to or interested in the wharf property, wharfage rights, terms, easements, emoluments and privileges to be taken herein for the improvement of the water front on the East river, in the Borough of Manhattan, and which said wharf property, wharfage rights, terms, easements, emoluments and privileges so to be taken, are described as follows:

All the interest in the pier known as Pier, old No. 18, East river, near the foot of Maiden lane, in the Borough of Manhattan, City of New York, not now owned by The City of New York, said pier interest being an undivided half interest; said pier is situated about 7 feet westerly of Maiden lane, and is bounded and described as follows, to wit: Beginning at a point in the old bulkhead at the foot of Maiden lane, between Piers, old No. 18 and old No. 19, East river, distant 12.5 feet westerly from that point in said bulkhead where the southerly extension of the westerly line of Maiden lane intersects the same, and running thence southerly along the easterly side of Pier, old No. 18, a distance of about 139.5 feet;

Thence deflecting to the west and running still southerly along the easterly side of said pier a distance of 75 feet;

Thence deflecting to the west and running still southerly along the easterly side of said pier a distance of 125 feet;

Thence deflecting to the east and running still southerly along the easterly side of said pier a distance of 50 feet;

Thence deflecting to the east and running still southerly along the easterly side of said pier a distance of 59 feet to the outer end of said pier;

Thence westerly along the outer end of said pier 35 feet to the westerly side of Pier, old No. 18;

Thence northerly along the westerly side of said pier a distance of 60 feet;

Thence deflecting to the east and running still northerly along the westerly side of said pier a distance of 175 feet;

Thence deflecting to the west and running still northerly along the westerly side of said pier a distance of about 211 feet to the present bulkhead between Piers, old No. 17 and old No. 18;

Thence easterly along the present bulkhead or northerly end of said pier 23.75 feet to the point or place of beginning.

All parties and persons interested in the said wharf property, wharfage rights, terms, easements, emoluments and privileges taken or to be taken for the said improvement of the water front of The City of New York on the East river, or affected thereby, and having any claim or demand on account thereof, are hereby required to present the same, duly verified, to us, the undersigned Commissioners of Estimate and Assessment, at our office, Room No. 401, on the fourth floor of the building No. 258 Broadway, in The City of New York, Borough of Manhattan, with such affidavits or other proofs as the said owners or claimants may desire, within twenty days after the date of this notice, and we, the said Commissioners, will be in attendance at our office above specified on the 25th day of February, 1904, at 10.30 o'clock in the forenoon of that day, to hear the said parties and persons in relation thereto; and at such time and place, or at such other or further times and places as we may appoint, we will hear such owners in relation thereto, and examine the proofs of such claimant or claimants, or such additional proofs or allegations as may be then offered by such owners, or on behalf of The City of New York.

Dated BOROUGH OF MANHATTAN, THE CITY OF NEW YORK, January 29, 1904.

NOTICE TO CONTRACTORS.

GENERAL INSTRUCTIONS TO BIDDERS. The person or persons making a bid or estimate for any services, work, materials or supplies for The City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope, indorsed with the title of the supplies, materials, work or services for which the bid or estimate is made, with his or their name or names and the date of presentation to the President or Board or to the head of the Department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said Department and read, and the award of the contract made according to law as soon thereafter as practicable.

Each bid or estimate shall contain the name and place of residence of the person making the same, the names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below. No bid or estimate will be considered unless, as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either enclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there.
