IN THE BOARD OF ALDERMEN.

Resolved, That the Board of Estimate and Apportionment be and is hereby requested to authorize the Comptroller to issue Special Revenue Bonds to the amount of

one hundred thousand dollars, the proceeds to be used by the Board of Education for the purchase, by contract, of fuel for the public schools of The City of New York during the current year.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment hereby approves of and concurs in the resolution of the Board of Aldermen adopted September 8, 1903, and approved by the Mayor September 14, 1903, in relation to an appropriation for the purpose of purchasing, by contract, fuel for the public schools of The City of New York during the current year, and that for the purpose of providing means therefor the Comptroller be and is hereby authorized, pursuant to the provisions of subdivision 8 of section 188 of the Greater New York Charter, to issue Special Revenue Bonds of The City of New York to the amount of fifty thousand dollars (\$50,000), redeemable from the tax levy of the year succeeding the year of their issue.

The Secretary presented the following report from the Engineer of the Department of Finance, relative to an appropriation for repairing and renovating public markets in the Borough of Manhattan:

CITY OF NEW YORK—DEPARTMENT OF FINANCE, COMPTROLLER'S OFFICE,
September 11, 1903.

Hon. EDWARD M. GROUT, Comptroller:

SIR—At a meeting of the Board of Aldermen, held August 18, 1903, the following resolution was adopted, and the same took effect August 26, 1903, without the Acting Mayor's approval:

Resolved, That the Board of Estimate and Apportionment be and is hereby requested to authorize the Comptroller to issue Special Revenue Bonds, under the provisions of section 188, subdivision 8 of the amended Greater New York Charter, to the amount of one hundred and thirty-five thousand dollars (\$135,000), for the purpose of renovating and repairing the public markets, Borough of Manhattan, City of New York."

That certain of the markets are in bad condition was fully set forth in my report of October 23, 1902, and a personal inspection by the Superintendent of Markets, who reported to you on November 7, 1902, shows that extensive repairs are required on all of them.

In my original report I called attention to the division of authority, in the control of the markets, to wit, that the Charter placed the custody of the markets under the Department of Finance, with a special Bureau, whose Chief was to be known as the Superintendent of Markets, and whose duties are the making of leases and the collection of all rentals, and who is supposed to be generally responsible for their welfare, while the Superintendent of Buildings, connected with the Department of Public Works, is charged with the cleaning, maintenance and repair of the markets.

This dual system has not proved satisfactory, and has sadly interfered with an efficient and businesslike administration of the markets, and I believe is largely responsible for their present deplorable condition, in spite of the fact that during the past three years the books of the Bureau of Buildings show that over \$50,000 has been spent in repairs upon the buildings.

In view of these facts, I do not believe that an issue of Revenue Bonds in such a large sum should be appropriated for this purpose until a more satisfactory system of administration is brought about, and I shall shortly report you on a system which I believe will be much more efficient, and will bring the markets up to a higher plane than they have been upon for many years past, and which will reflect credit upon the City.

I would therefore recommend to you that the Board of Estimate and Apportionment decline to authorize the issue requested.

Respectfully,

EUG. E. McLEAN, Engineer.

IN THE BOARD OF ALDERMEN.

Resolved, That the Board of Estimate and Apportionment be and is hereby requested to authorize the Comptroller to issue Special Revenue Bonds under the provisions of section 188, subdivision 8, of the amended Greater New York Charter, to the amount of one hundred and thirty-five thousand dollars (\$135,000) for the purpose of renovating and repairing the public markets, Borough of Manhattan, City of New York.

Adopted by the Board of Aldermen August 18, 1903, three-fourths of all the members elected voting in favor thereof.

Received from his Honor the Mayor August 26, 1903, without his approval or disapproval thereof; therefore, as provided in section 40 of the Greater New York Charter, the same took effect as if he had approved it.

P. J. SCULLY, Clerk.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment hereby approves of and concurs in the resolution of the Board of Aldermen adopted August 18, 1903, in relation to an appropriation for the purpose of renovating and repairing the public markets, Borough of Manhattan, and that for the purpose of providing means therefor the Comptroller be and is hereby authorized, pursuant to the provisions of subdivision 8 of section 188 of the Greater New York Charter, to issue Special Revenue Bonds of The City of New York to the amount of three thousand dollars (\$3,000), redeemable from the tax levy of the year succeeding the year of their issue.

Which was adopted by the following vote:

The Mayor, Comptroller, President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

The Secretary presented the following communication from the Law Department relative to a request from the Fire Department for a resolution authorizing said Department to purchase certain patented articles:

LAW DEPARTMENT—OFFICE OF THE CORPORATION COUNSEL,
NEW YORK, October 15, 1903.

Hon. EDWARD M. GROUT, Comptroller:

SIR—I am in receipt of a letter signed by Mr. Hubert L. Smith, Assistant Deputy Comptroller, inclosing fourteen forms of contract forwarded to the Board of Estimate and Apportionment on September 22, 1903, for the purchase of apparatus, wagons and supplies for the Fire Department. These contracts have been approved as to form by me, and the specifications, which were drawn after consultation with me, have had my approval in each case. The Commissioner, however, desires that before advertising for proposals, these specifications be approved of by the Board of Estimate and Apportionment, and I am requested to examine them and advise you if any action is necessary by that Board. I am further requested to furnish you with a form of such resolution if it should be adopted by the Board.

I know of no provisions of the statute which would prevent the adoption of

such a resolution in any case if the Board desire to adopt it. The only requirement of the statute is in section 1554 of the Charter, which makes it necessary that a resolution of the Board of Estimate and Apportionment should be adopted in the case of the purchase of patented articles. I understand that in the present case a question may be raised as to a number of the articles intended to be purchased, because there are some features of the apparatus that may be claimed to be covered by patents, and it is to avoid any possible question upon that point that the Commissioner has requested the approval of the Board of Estimate and Apportionment. This seems to me entirely proper and reasonable.

In accordance with the request I have prepared and herewith inclose a form of resolution to be submitted to the Board of Estimate and Apportionment. This resolution is not prepared for the particular purpose of covering a patented article, but has in view all possible contingencies where different articles are specified.

Respectfully yours,

G. L. RIVES, Corporation Counsel.

Before advertising for proposals, however, I shall be glad to know that these specifications meet with the approval of your Honorable Board also, and therefore have to request your early consideration and approval of the same.

Kindly return inclosures.

The interests of the Department would be subserved by prompt action.

Respectfully,

THOS. STURGIS, Fire Commissioner.

Resolved, That the Fire Commissioner be and he hereby is authorized to advertise for bids for furnishing and delivering all the supplies heretofore enumerated in accordance with the said forms of "proposals for bids or estimates, bid or estimate, bond, contract and specifications," this Board being of the opinion that the conditions set forth in the said forms of contract and specifications will secure a fair and reasonable opportunity for competition, and accordingly this Board prescribes the conditions set forth in said forms of "proposals for bids or estimates, bid or estimate, bond, contract and specifications," shall be the conditions under which the said articles shall be advertised for.

Which was adopted by the following vote:

The Mayor, Comptroller, President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

Section 2. The grant of this franchise is subject to the following conditions:

First—The consent, in writing, of the owners of half in value of the property bounded or said streets and highways and bridges to the construction and operation of said railway shall be obtained by the grantee, or in the event that such consent cannot be obtained, the grantee shall obtain the favorable determination, confirmed by the Court, of three Commissioners, appointed by the Appellate Division of the Supreme Court, in the manner provided by the Railroad Law, before said railway is built or operated.

Second—The said right, privilege and franchise to construct and operate said railway shall be held and enjoyed by said railway company, its lessees or successors, for the term of twenty-five years from the date when this ordinance is signed by the Mayor, with the privilege of renewal of said grant for a further period of twenty-five years upon a fair revaluation of said right, privilege and franchise, but such renewal shall not provide for any further renewal. Such revaluation shall be of the right, privilege and franchise to maintain and operate said railway by itself, and shall not include any valuation derived from the ownership, operation or control of any other railroad by the grantee, its successors or assigns, it shall be made in the following manner:

One disinterested freeholder shall be chosen by the Board of Estimate and Apportionment, or its successors in authority; one disinterested freeholder shall be chosen by the railway company; these two shall choose a third disinterested freeholder; and the three so chosen shall act as appraisers and shall make the revaluations aforesaid. Such appraisers shall be chosen at least six months prior to the expiration of the grant, and their report shall be filed with the Comptroller, or his successor in authority within three months after they are chosen. They shall act as appraisers and not as arbitrators. They may base their judgment upon their own experience, and upon such information as they may obtain by inquiries and investigations without the presence of either party. They shall have the right to examine the books of the railway company. The valuations so ascertained, fixed and determined shall be conclusive upon both parties, but shall not in any event be less than the minimum amount fixed as the sum to be paid annually for the last five years of the original franchise.

Third—Upon the termination of the said franchise, right or privilege, whether original or renewal, if the Board of Estimate and Apportionment of The City of New York, or its successors in authority, shall so desire, there shall be a fair valuation of the plant and property of the grantee necessary for traction purposes upon the said streets and highways and bridges, and of the land in private ownership upon which the said railway shall be operated or the easements of right-of-way or other necessary easements in such lands, as the case may be, including power-house, equipment, tracks and appurtenances, which plant and property shall be and become the property of The City of New York at the option of the said Board of Estimate and Apportionment, or its successors in authority, on the termination of this grant and the payment to the grantee of such valuation. The valuation shall be based upon a fair appraisal of the property, excluding any value derived from the franchise, and such value

shall be determined by the Board of Estimate and Apportionment, or its successors in authority; provided that in the valuation of the land in private ownership, on which such railway is constructed, or the easements affecting such land, as the case may be, their value shall not be fixed at an amount in excess of the original cost thereof, to the grantee of said franchise, its successors or assigns. A sworn statement of such cost executed by such grantee and verified by the affidavit of one of its officers, shall be filed with the Comptroller of The City of New York before any act is done by the grantee, or its successors or assigns, in the construction or operation of the railway upon any route hereinbefore mentioned, which includes private property.

Fourth—The New York and Long Island Traction Company, its successors or assigns, shall pay for this franchise to The City of New York the following sums of money: During the first term of five years an annual sum which shall, in no case be less than \$1,000, and which shall be equal to three per cent. of its gross annual receipts derived from passenger and freight traffic within the limits of The City of New York, if such percentage shall exceed the sum of \$1,000; during the remaining twenty years of the term, an annual sum which shall not be less than \$2,000, and which shall be equal to five per cent. of its gross annual receipts as above, if such percentage shall exceed the sum of \$2,000.

In computing the amount of the gross receipts derived from passenger traffic and above referred to, the routes hereinbefore mentioned shall be considered, and the persons who are upon the cars of the company at any point upon such routes shall be deemed to have paid the fare provided to be paid by the ordinance granting the franchise aforesaid, whether they enter or leave the car upon such route or upon any other route upon which the grantee, or its successors or assigns, operates its cars.

Such sums shall be paid into the Treasury of The City of New York on November 1 in each year; provided, however, that the first payment shall only be for that proportion of the above sums as the time from the signing of this ordinance by the Mayor to September 30 next preceding, shall bear to the whole of one year. The fiscal year shall end on September 30 next preceding said date of payment, and the provisions of the Railroad Law as it existed at the time of the adoption of this ordinance relating to the manner of payments and statements of percentages of gross receipts of street railway companies shall, as to said railway, be strictly followed. The intention of this paragraph is to fix an annual charge to be paid by the grantee, its successors or assigns, to The City of New York for the rights and franchise hereby granted, and it shall not be construed as providing for the payment by the grantee, its successors or assigns, for said franchise, of a percentage of gross receipts within the meaning of any general or special statute.

Fifth—The said annual charge or payments shall continue throughout the whole term of the franchise hereby granted, whether original or renewal, notwithstanding any clause in any statute or in the charter of any other railway company providing for payments for street railway rights or franchises at a different rate, and no assignment, lease or sublease of the rights or franchises hereby granted, whether original or renewal, or of any part thereof, or of any of the routes mentioned herein, or of any part thereof, shall be valid or effectual for any purpose unless the said assignment, lease or sublease shall contain a covenant on the part of the assignee or lessee that the same is subject to all the conditions of this grant, and that the assignee or lessee assumes and will be bound by all of said conditions, and especially said condition as to payments, anything in any statute or the charter of such assignee or lessee to the contrary notwithstanding, and that the said assignee or lessee waives, so far as this franchise is concerned, any more favorable conditions created by such statute or its charter, and that it will not claim by reason thereof, or otherwise, exemption from liability to perform each and all of the conditions of this grant.

Sixth—The rights and franchises granted here shall not be assigned, either in whole or in part, or leased or sublet in any manner, nor shall title thereto, or right, interest or property therein pass to or vest in any other person or corporation whatsoever, either by the act of the New York and Long Island Traction Company, its successors or assigns, or by operation of law, whether under the provisions of the statutes relating to the consolidation or merger of corporations or otherwise, without the consent of The City of New York acting by the Board of Estimate and Apportionment, or its successors in authority, evidenced by an instrument under seal, anything herein contained to the contrary thereof in anywise notwithstanding, and the granting, giving or waiving of any one or more of such consents shall not render unnecessary any subsequent consent or consents.

Seventh—The said railway may be operated by overhead electrical power, substantially similar to the system of overhead electrical traction now in use by the New York and North Shore Railway Company, or by the underground electric system now in use by the Interurban Street Railway Company in the Borough of Manhattan, and by any other motive power, except locomotive steam power or horse-power, which may be approved by the Board of Railroad Commissioners, and consented to by the owners of property, in accordance with the provisions of the Railroad Law.

Provided that the Board of Estimate and Apportionment, or its successors in authority, upon giving to the grantee, its successors or assigns, one year's notice, in writing, may require it or them to operate its railway upon the whole or upon any portion of its route by underground electrical power substantially according to the system now in use on the railways in the Borough of Manhattan above referred to, and thereon to discontinue the use of the overhead trolley system, and to remove its poles, wires and other structures used by it for that purpose from the streets and highways and bridges of The City of New York.

Eighth—The said railway shall be constructed, maintained and operated subject to the supervision and control of all the authorities of The City of New York, who have jurisdiction in such matters under the Charter of the City.

Ninth—Said railway shall be constructed and operated in the latest improved manner of street railway construction and operation, and the railway and property of said company shall be maintained in good condition throughout the term of this grant.

Tenth—The rate of fare for any passenger upon said railway shall not exceed five cents within the limits of The City of New York; the said company shall not charge any passenger more than said sum for one continuous ride from any point on said railway, or a line or branch operated in connection therewith to any point thereof, or of any connecting line or branch thereof within the limits of The City of New York. The rates for the carrying of property upon the cars of the grantee shall in all cases be reasonable in amount, and shall be subject to the control of the Board of Estimate and Apportionment, or its successors in authority, and may be fixed by such Board after notice and hearing to the grantee, and when so fixed such rate shall be binding upon said grantee, its successors or assigns, and no greater sum shall be charged for such services than provided for by it.

Eleventh—The cars on the said lines as proposed shall run at intervals of not more than one hour, both day and night, and as much oftener as the

reasonable convenience of the public may require or as may be directed by the City ordinances; provided, however, that said railway company during the first five years of this franchise shall not be required to operate its cars on any of its lines within The City of New York between the hours of twelve o'clock midnight and five o'clock a. m. each day, unless the Board of Estimate and Apportionment of said City shall determine after a hearing had thereon that public convenience requires the operation of its cars during said hours.

Twelfth—The said railway company shall apply to each car run over said railway a proper fender and wheelguard in conformity to such laws and ordinances as are now in force or may hereafter be enacted or adopted by the State or City authorities.

Thirteenth—All cars on said railway shall be heated through the cold weather in conformity to such laws and ordinances as are now in force, or may hereafter be enacted or adopted by the State or City authorities, and each car shall be well lighted either by the Pintsch gas system or by electricity, or by some system of lighting equally efficient.

Fourteenth—The said company shall at all times keep the street between its tracks, and for a distance of two feet beyond the rails upon either side of said streets, free and clear from ice and snow.

Fifteenth—The said railway company, as long as it shall continue to use any of the tracks upon said streets and highways and bridges, shall have and keep in permanent repair that portion of the surface of said streets and highways and bridges, between its tracks, the rails of its tracks and two feet in width outside of its tracks, under the supervision of the proper local authorities, and whenever required by them to do so, and in

tion Company, within thirty days after the said company has been duly authorized to operate its railway and before anything is done in exercise of the rights conferred thereby, shall deposit with the Comptroller of The City of New York the sum of three thousand dollars, either in money or in securities to be approved by him, which fund shall be security for the performance by such company of the terms and conditions of this grant, especially those which relate to the payment of the annual charge for the franchise, the repairs of the street pavement and the removal of snow and ice, and the quality of construction of the railway and, in case of default in the performance by said company of such terms and conditions, The City of New York shall have the right to cause the work to be done and the materials to be furnished for the performance thereof after due notice, and shall collect the reasonable cost thereof from the said fund without legal proceedings, or after default in the payment of the annual charges shall collect the same with interest from such fund after ten days' notice in writing to the said company. Or in case of failure to keep the said terms and conditions of this grant relating to the headways of cars, fenders and wheel guards and the heating of the cars and the watering of the streets, the said company shall pay a penalty of \$50 a day for each day of violation, and the further sum of \$10 a day for each car which shall not properly be heated or supplied with fenders and wheel guards in case of the violation of the provisions relating to those matters. In case of any drafts so made upon this security fund, the said company shall, upon thirty days' notice, in writing, pay to the Comptroller of The City of New York a sum of money sufficient to restore the said fund to the original amount of three thousand dollars, and in default thereof the grant hereby made may be cancelled and annulled at the option of the Comptroller of The City of New York, acting on behalf of said City. No action or proceeding or rights under the provisions of this section shall affect any other legal rights, remedies or causes of action belonging to The City of New York.

Section 8. This grant shall not become operative until said railway company shall duly execute, under its corporate seal, an instrument in writing wherein said company shall promise, covenant and agree on its part and behalf to conform to and abide by and perform all the terms and conditions and requirements in this ordinance fixed and contained, and file the same in the office of the Comptroller of The City of New York within ten days after the adoption of this ordinance.

Section 9. This ordinance shall take effect immedately.
