BOARD OF EXAMINERS.

December 31, 1907.

Present—Messrs. Warren A. Conover, Charles Buek, Lewis Harding, Charles G. Smith, Edward F. Croker and George A. Just, Chairman.

Meeting called to order at 2 p. m.

On motion, minutes approved as read.

Appeal 79, laid over at last meeting.

Letter from appellant, dated 26th instant, requesting that appeal be laid over until January 7. Granted.

Appeal 80 of 1907, southeast corner of Rockaway avenue, Brooklyn, new frame hotel, Shampan & Shampan, appellants.

Denied, being contrary to section 109 of the Building Code.

Building is a hotel and therefore should not comply to section 109 of the Building Code.

Wish hotel to conform to Building Law, but not to section 109 of the Building Code.

Would like to have plans passed as a hotel, but not to conform to section 109 of the Building Code.

Mr. Shampan appeared before the Board.

On motion, denied.

Appeal 81 of 1907, new building 559 of 1907, north side of John street, 244 feet east of Jay street, Brooklyn, Wm. Higginson, appellant.

Being contrary to section 143 of the Building Code.

The ordinary construction of a coal pocket is wood and that the Building Code does not specifically cover a building of this description.

Erection of a wood frame coal pocket within the fire limits adjacent to the East river.

That the present coal pocket now on the property which is constructed of wood is higher and covers a greater area than proposed new coal pocket that is to be demolished. The reason for demolishing this coal pocket is, that it is not suitable for handling coal as proposed and the site is to be occupied by railroad tracks.

That section 81 permits erection of grain elevators of wood when adjacent to river front.

That a coal pocket is not as great a fire risk as a grain elevator.

That the structure as shown on plans will not have a roof or any covering, thereby lessening the fire risk.

That the property on each side is owned by the same owner.

Mr. Higginson appeared before the Board.

On motion, laid over for one week, the matter being referred to Chief Croker for examination and report.

Appeal 82 of 1907, new building northeast corner of Kent avenue and Hewes street, Brooklyn, Helme & Huberty, appellants.

That proposed building would be a frame building within the fire limits, over 15 feet in height, covering more than 2,500 square feet, enclosed on its four sides, all contrary to section 144 of the Building Code.

Under the law we have the right to have an open lumber shed and stack the lumber as high as we wish. We consider such a building covered with sheet iron a better fire risk than an open lumber yard. We have the adjoining property owners' consent to such a building, which consents are filed with the Building Department.

That he be allowed to erect frame building or shed covered on the outside with galvanized corrugated iron; said building to be of dimensions and description shown on accompanying drawing, and, if deemed desirable by your Board, he would agree to sheath the inner face of wall with galvanized iron sheathing and fill in the space between outer and inner sheathing with mineral wool.

The major part of shed is to cover hard wood lumber which ordinarily would be uncovered, and in case of fire would prove a menace to adjoining property; therefore the erection of such enclosure as is contemplated would prove of advantage to the neighborhood.

Mr. Huberty appeared before the Board.

On motion, denied.

The Chairman presented and read a communication from the Fire Commissioner, forwarding new Fire Department regulations relative to standpipes, which was ordered on file.

Adjourned.

EDWARD V. BARTON, Clerk.

PUBLIC NOTICE IS HEREBY GIVEN that at a meeting of the Board of Estimate and Apportionment held October 18, 1907, the following petition was received:

To the Board of Estimate and Apportionment of The City of New York:

Gentlemen—The Long Island Railroad Company, for the purpose of facilitating travel over

its line, promoting the safety and comfort of its passengers, and to avoid the crossing at grade of the Union turnpike and several other streets, has had, by vote of two-thirds of its directors, altered or changed its route between a point about four hundred (400) feet west of Ascan avenue and a point about seven hundred (700) feet east of Lefferts avenue, in Richmond Hill, in the Second Ward of the Borough of Queens, City of New York, so that the same shall be a straight line between these points instead of the existing curve (which constitutes an element of delay and danger in operation), and had adopted a survey map and profile (of which a copy is hereto annexed), which survey map and profile was duly filed in the office of the Clerk of the County of Queens on October 4, 1907. The new route between these points will be constructed entirely upon property which is the property of the railroad. It will not cross any streets at grade, as the existing curve does; it will be carried over all intersecting streets by bridges. It will therefore be a public improvement.

It respectfully requests the consent of The City of New York to the said alteration and change of this portion of its route.

Dated New York, October 7, 1907.

PROPOSALS FOR BIDS AND ESTIMATES FOR THE CITY OF NEW YORK.

NOTICE TO CONTRACTORS.

GENERAL INSTRUCTIONS TO BIDDERS.

The person or persons making a bid or estimate for any services, work, materials or supplies for The City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope, indorsed with the title of the supplies, materials, work or services for which the bid or estimate is made, with his or their name or names and the date of presentation to the President or Board or to the head of the Department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said Department and read, and the award of the contract made according to law as soon thereafter as practicable.

Each bid or estimate shall contain the name and place of residence of the person making the same, and names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below.

No bid or estimate will be considered unless, as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there.
