

Sampling of Safety Enhancements Installed Within 1/2 Mile of NYC Schools in 2020-2021

New York City Department of Transportation

March 29, 2022

Macombs Road and University Ave, Bronx: Asphalt art mural at newly closed slip lane, new traffic signal, crosswalks, bus boarding island adjacent to Academy for Language and Technology, IS 232, IS 303, PS 204, and PS 723X

Introduction

The New York City Department of Transportation is committed to enhancing street safety for children throughout the five boroughs. Section 19-199 of the NYC Administrative Code as enacted by Local Law 241 of 2017 requires the agency to develop strategies for enhancing safety within a half mile of at least 50 schools by March 30, 2018 and every two years

thereafter until 2024, and report on their implementation. DOT currently implements over 100 street redesign projects annually which span the city and collectively fall within a half mile radius of hundreds of schools. In addition, each year the agency installs at least 250 speed bumps, at least 50 School Slow Zones, hundreds of traffic signal projects, and sponsors dozens of safety-related capital projects.

The following report is a sampling of street redesign projects installed within one quarter of a mile of 100 schools around the city, a tighter radius than required in the local law. This list includes projects that added pedestrian islands, turn lanes, bicycle lanes, and left turn traffic signals- all proven traffic safety techniques. Details on these projects are available in the hyperlinks provided in the following table. DOT looks forward to developing additional safety enhancements in the coming two years and will report on these initiatives in the 2024 report.

Sampling of Safety Improvements Installed Within 1/2 Mile of NYC Schools in 2020-2021

School	Address	Borough	ZIP	Project	Project Status
P.S. 011 Kathryn Phelan	54-25 SKILLMAN AVENUE	Queens	11377	39th Ave Bike Blvd	Complete
