Semi-Annual Staff on Visitor Sexual Abuse & Harassment Report
July 1, 2022 – December 31, 2022**

Pursuant to Local Law 23 of 2019, the Department is required to report on allegations of sexual abuse, sexual harassment, and interventions on visitors to Departmental facilities for cases that lasted longer than 90 days within the preceding six-month period, (July 2022 to December 2022), and for cases that were concluded within the preceding six months. The following report outlines the number and percentage of the information required by subdivisions c and d of the law. Data that cannot be aggregated has been provided to the Council and BOC but has not been included in this report. Data on interventions has been separated and is included in the last section of this report to clarify the difference between an alleged incident and interventions. To avoid identifying unique instances of incidents which may risk re-identification, certain data is reported as “<6”.

Subdivision c – Data related to staff on visitor incident investigations that lasted longer than 90 days within the preceding six-month period:

Subdivision c (Interventions)

For the purposes of this report, the Department understands incidents of “interventions” to mean verified instance in which staff use their hands, other parts of their body, or other physical method to restrain, subdue, or compel a visitor to act or stop acting in a particular manner. The only verified information that speaks to this provision are interventions that occur over the course of an arrest of a visitor.

Arrests are authorized as a result of visitor behavior violates city, state, or federal law. Arrests may occur as a result of a visitor’s attempt to introduce weapon or drug contraband into the facility or an assault on a staff member. For the purposes of this section, perpetrators are instead referred to as “members of service” and victims are referred to as “individuals subject to arrest”.

4. Whether the involved members of service completed staff training pursuant to subdivision f, and the last date such training was received.

In May 2019, the Department contracted with the Osborne Association to provide a customer service and community sensitivity training to all Department visit captains and officers. The training was additionally provided to visitor shuttle bus drivers, bail window facilitators, and K9 officers who interact with visitors, bringing the total to 242 staff members scheduled to participate. The full-day training was specifically designed for public-facing Department staff and covered a range of topics, including implicit bias, de-escalation strategies, and stress management.

The Department has worked with the Osborne Association to develop a follow-up refresher course based on trainings conducted in May & June 2019 that focused on customer service, de-escalation strategies, implicit bias, and stress management. This fall, the Department finalized a half day refresher training that will be rolled out for the same staff members who participated in the initial Osborne Association training. The in-house refresher module is entitled “Facilitating Successful Visits,” and covers the importance of visits to people in custody and the central role visits play in the Department’s rehabilitation-centered correctional mission. The refresher includes activities for participants which highlight the perspective of friends and family members who visit people in custody. In October 2020 the Training Division formally rolled out the in-person “Facilitating Successful Visits” training for related personnel.

In December 2021, the Department initiated development of an 8-hour refresher course that combines the topics and performance objectives covered in both the Visitor Pat Frisk and Facilitating Successful Visits courses, but also includes additional information on working with LGBTQ+ visitors, as well as a practical application refresher of the most commonly used security devices, including the magnetometer and line-scan machines. The Department has finalized this one-day training course, titled “The Visit Process,” and began training all staff identified as having frequent interactions with visitors in
