CITY OF NEW YORK—DEPARTMENT OF FINANCE,
COMPTROLLER'S OFFICE,

To the Board of Estimate and Apportionment:

GENTLEMEN—Will you kindly transfer the sum of six thousand dollars (\$6,000), to be taken from the account of moneys apportioned to The Jewish Hospital in the Charitable Institutions' Budget, in which there is a surplus, to the account of Supplies and Contingencies of the Comptroller's Office, for the purpose of duplicating the Private Charitable Institutions' Exhibit in the St. Louis Fair?

The following resolution was offered:

Resolved, That the sum of six thousand dollars (\$6,000) be and the same is hereby transferred from the appropriation made to Charitable Institutions for the year 1904, entitled "The Jewish Hospital," the same being in excess of the amount required for the purposes thereof, to the appropriation made to the Department of Finance for the same year, entitled "Supplies and Contingencies—Comptroller's Office," the amount of said appropriation being insufficient.

The Secretary presented the following report of the Engineer of the Department of Finance, relative to the form of contracts and specifications for work and materials for the erection and completion of the library stack work of the New York Public Library, Astor, Lenox and Tilden Foundations:

CITY OF NEW YORK—DEPARTMENT OF FINANCE,
COMPTROLLER'S OFFICE,
July 27, 1904.

Hon. EDWARD M. GROUT, Comptroller:

SIR—Hon. John J. Pallas, Commissioner of Parks, Boroughs of Manhattan and Richmond, in communication under date of July 21, 1904, transmits to the Board of Estimate and Apportionment for approval, as required by the provisions of chapter 556 of the Laws of 1897, as amended by chapter 627 of the Laws of 1900, form of contract and specifications in triplicate for work and materials for the erection and completion of the library stack work in the New York Public Library, Astor, Tilden and Lenox Foundations, Fifth avenue, Fortieth and Forty-second streets, in the Borough of Manhattan; I would report:

The scope of this work is to provide all of the book stack equipment for the main stack room in the library; and, also, to provide book stacks and wall shelving in the subordinate rooms; this work embracing all of the equipment of this nature required in the building. The amount of work required is fixed and determined by the contract, excepting for the possible slight variation in the quantities of material required in some of the smaller rooms. This possible variation is allowed and provided for by prices to be stated in the proposal.

The specifications have been drawn and the drawings which accompany them have been made to show in detail all of the work, both as to size, arrangement and character. In view, however, of the possibility that some of the bidders may desire to bid upon some other style of shelf and shelf supports in the stacks proper, the contract has been so drawn as to permit of alternate bids for such construction. This possible variation, however, applies only to the shelves and shelf supports, the rest of the work being strictly determined by the drawings and specifications.

The work is divided in execution into two sections, first section comprising

structural work, to include bases, columns, beams and beams for floor No. 1, columns and floor framing for the stack floors in main stack room, the floor framing and fireproofing of the reading room floor and the temporary roof. The second section of the work will include all manufacture, delivery and erection of all material in the main stack room not included in the first section, and all of the work in the miscellaneous rooms. The work in the first section must be done as soon as the walls of the stack room are up to the reading room floor level. The work in the second section will be done after the roofs are completed and plastering and floors finished.

The work included in section No. 1 is to be finished within six months, and the work included in section No. 2 within eight months, after notice is given by the architects to begin work.

The amount of surety required will be \$100,000.

The specifications have been carefully drawn, and in my opinion, will give a fair competition, and I think the Board of Estimate and Apportionment, pursuant to chapter 556 of the Laws of 1897, as amended by chapter 627 of the Laws of 1900, may properly approve the contract and specifications as requested by the Commissioner of Parks, for the Boroughs of Manhattan and Richmond.

Respectfully,

EUG. E. McLEAN, Engineer.

THE CITY OF NEW YORK—DEPARTMENT OF PARKS,
ARSENAL, CENTRAL PARK,
July 21, 1904.

To the Board of Estimate and Apportionment, City of New York:

GENTLEMEN—Herewith I beg to forward for the approval of your Honorable Board, as required by the provisions of chapter 556 of the Laws of 1897 and chapter 627 of the Laws of 1900, form of contract and specifications in triplicate for work and materials for the erection and completion of the library stack work in the New York Public Library, Astor, Tilden and Lenox Foundations, Fifth avenue, Fortieth and Forty-second streets, in the Borough of Manhattan.

The said forms have been prepared by the architects, Carrere & Hastings, under the guidance of the Corporation Counsel, who has indorsed thereon his approval as to legal form.

Respectfully,

JNO. J. PALLAS,

Commissioner of Parks, Boroughs of Manhattan and Richmond.

The following resolution was offered:

Resolved, That, pursuant to the provisions of chapter 556 of the Laws of 1897 and chapter 627 of the Laws of 1900, the Board of Estimate and Apportionment hereby approves of the terms and conditions contained in the form of contract submitted in triplicate by the Commissioner of Parks, Boroughs of Manhattan and Richmond, under date of July 21, 1904, for work and materials for the erection and completion of the library stack work in the New York Public Library, Astor, Tilden and Lenox Foundations, Fifth avenue, Fortieth and Forty-second streets, Borough of Manhattan.

Which was adopted by the following vote:

Affirmative—The Mayor, the Deputy Comptroller, the President of the Board of Aldermen, the President of the Borough of Manhattan, the President of the Borough of The Bronx, the President of the Borough of Queens, the President of the Borough of Richmond and the Acting President of the Borough of Brooklyn—16.

The President of the Borough of Richmond called up the matter of an appropriation of \$15,000 Special Revenue Bonds for street signs in the Borough of Richmond, pursuant to a resolution adopted by the Board of Aldermen, and requested an appropriation of \$7,500 for present use.

Laid over.

The Secretary presented the following resolution of the Board of Aldermen requesting an appropriation of \$67,000 Special Revenue Bonds for the construction of a boat for the Department of Health:

Resolved, That, pursuant to the provisions of subdivision 8 of section 188 of chapter 466 of the Laws of 1901, the Board of Estimate and Apportionment are hereby requested to authorize the Comptroller to issue Special Revenue Bonds to the amount of sixty-seven thousand dollars (\$67,000), for the purpose of defraying the necessary expenses required to be incurred by the Board of Health in providing proper means for the transportation of patients affected with contagious diseases from the Borough of Manhattan, The Bronx, Brooklyn, Queens and Richmond to the Riverside Hospital of the Department of Health, situated on North Brother Island, in the East river, Borough of The Bronx.

Adopted by the Board of Aldermen July 26, 1904, three-fourths of all the members elected voting in favor thereof.

Approved by the Mayor August 2, 1904.

P. J. SCULLY, Clerk.

The President laid before the Board the following communication from the Department of Health:

No. 174.
DEPARTMENT OF HEALTH—CITY OF NEW YORK,
SOUTHWEST CORNER 55TH STREET AND SIXTH AVENUE, BOROUGH OF MANHATTAN,
New York, February 8, 1904.

Hon. P. J. SCULLY, City Clerk:

DEAR SIR—Inclosed herewith you will find a copy of a report submitted to the Board of Health by the Sanitary Superintendent of the Department of Health, calling the attention of said Board to the requirements of the Department for transportation by steamboat, and a copy of the preambles and resolution adopted by the Board of Health at its meeting held on Wednesday, February 3, 1904, petitioning the Board of Aldermen to request the Board of Estimate and Apportionment to authorize the Comptroller to issue Special Revenue Bonds to the amount of sixty-seven thousand dollars (\$67,000) for the construction of a new steamboat to convey patients affected with contagious diseases to the Riverside Hospital of the Department of Health, situated on North Brother Island, in the East river, Borough of The Bronx, from the different boroughs of The City of New York. And you are especially requested to cause said report and preambles and resolution to be submitted to the Board of Aldermen at its first meeting to be held after this date, in order that the matter may receive prompt action on the part of said Board.

Respectfully yours,

EUGENE W. SCHEFFER, Secretary.

DEPARTMENT OF HEALTH—CITY OF NEW YORK,
SOUTHWEST CORNER 55TH STREET AND SIXTH AVENUE, BOROUGH OF MANHATTAN,
New York, January 23, 1904.

To the Honorable Board of Health:

SIRS—I have the honor to again call your attention to the requirements of the Department of Health for transportation by steamboat. Patients affected with contagious diseases must be conveyed from the boroughs of Manhattan, The Bronx, Brooklyn and Richmond by water to Riverside Hospital of the Department of Health, situated on North Brother Island, in the East river. This service requires a special boat, arranged that cases of contagious diseases may be segregated, so that the patients affected with different contagious diseases will not come in contact with one another; also at the time when the naphtha launch and row-boats are unable to maintain communication without danger between the docks in the Borough of The Bronx and North Brother Island.

For these services the steamboat "Franklin Edson," especially constructed for the use of the Department of Health, has been in service since May, 1885. Although repaired and kept in as good condition as possible when the requirements of the service are considered, that is, always in commission twelve hours a day and sometimes twenty-four for every day in the year, Sunday included, this boat is rapidly

deteriorating, and at any time liable to break down and be totally unfit for the services of the Department of Health, without extensive repairs.

The Board cannot charter a boat suitable for this service, as boats once used for the transportation of contagious diseases by the Department of Health will not be accepted for other work afterward, as a prejudice always remains against a boat so used. It is therefore absolutely necessary that an additional boat, built on proper lines, should be purchased or reconstructed for the use of this Department, as at any time the failure of the present boat to perform the work required would leave the Department unable to transport cases of contagious diseases.

I therefore recommend that the Board of Estimate and Apportionment of The City of New York be requested to furnish means to purchase another boat for the use of the Department of Health.

Respectfully submitted,

CHAS. F. ROBERTS, M. D., Sanitary Superintendent.

A true copy.

EUGENE W. SCHEFFER, Secretary.

The following resolution was offered:

Resolved, That, pursuant to the provisions of section 47 of the Greater New York Charter, as amended by chapter 409 of the Laws of 1904, the Board of Estimate and Apportionment hereby approves of the issue of Corporate Stock of The City of New York, to an amount not exceeding sixty-seven thousand dollars (\$67,000), for the purpose of defraying the necessary expenses required to be incurred by the Board of Health in order to provide means for the construction of a steamboat for the transportation of patients affected with contagious diseases from the boroughs of Manhattan, The Bronx, Brooklyn, Queens and Richmond to the Riverside Hospital of the Department of Health, situated on North Brother Island in the East River, Borough of The Bronx, and that when authority therefor shall have been obtained from the Board of Aldermen, the Comptroller is authorized to issue Corporate Stock of The City of New York, in the manner provided by section 169 of the Greater New York Charter, to an amount not exceeding sixty-seven thousand dollars (\$67,000), the proceeds whereof to be applied to the purposes aforesaid.

Which was adopted by the following vote:

Affirmative—The Mayor, the Deputy Comptroller, the President of the Board of Aldermen, the President of the Borough of Manhattan, the President of the Borough of The Bronx, the President of the Borough of Queens, the President of the Borough of Richmond and the Acting President of the Borough of Brooklyn—16.

The President of the Borough of Queens presented the following communications from the United States District Attorney and the Acting Corporation Counsel, also resolution of the Board of Aldermen relative to an appropriation of \$5,000 Special Revenue Bonds for the cost and expense of dredging Flushing creek, in the vicinity of Jones' coal dock, in the Third Ward, Borough of Queens:

DEPARTMENT OF JUSTICE,
OFFICE OF THE UNITED STATES ATTORNEY FOR THE EASTERN DISTRICT OF NEW YORK,
FEDERAL BUILDING,
BROOKLYN, N. Y., March 22, 1904.

Hon. GEORGE B. McCLELLAN, Mayor:

SIR—Complaint has been made to me by the War Department that there are certain deposits in Flushing creek made from a sewer maintained by the Third Ward, Borough of Queens, and emptying into Flushing creek, near or at the lower end of a dock occupied by Messrs. D. S. Jones & Co. and C. W. Copp, which deposits are illegal and in violation of section 13 of the River and Harbor Act approved March 3, 1899. I have been requested to institute proceedings against the proper authorities of The City of New York, as provided in section 16 and 17 of the said River and Harbor Act, but before taking any steps, I deem it but courteous to bring this matter to your attention, in order that, if possible, unnecessary litigation may be avoided.

I have the honor to be, sir,

Yours with great respect,

WM. J. YOUNG, United States Attorney.

LAW DEPARTMENT,
OFFICE OF THE CORPORATION COUNSEL,
NEW YORK, July 7, 1904.

Hon. GEORGE B. McCLELLAN, Mayor:

SIR—I am in receipt of a communication signed by G. T. Goldthwaite, Assistant Secretary, dated the 24th day of March, 1904, inclosing a communication from W. J. Young, Esq., United States Attorney for the Eastern District of New York, referring to certain deposits in Flushing creek, Third Ward, Borough of Queens, made by a sewer emptying into Flushing creek at or near the lower end of a dock occupied by D. S. Jones & Co. and C. W. Copp.

In answer, I beg to say that I am informed by the Deputy Sewer Commissioner of the Borough of Queens, that this sewer is a main sewer of the former Village of Flushing and was constructed and in operation for a considerable period of time, in fact, some years before the construction of the dock, access to which it is claimed is impeded by the deposits from this sewer. It is claimed that the sewer has been in operation over twenty years, and that it is but recently that the amount of deposit therefrom has become in any wise a hindrance to navigation. For the purposes of this communication it is assumed that Flushing creek is a navigable water. Vessels of considerable tonnage ply its waters at the higher stages of the tide for a distance of one or two miles above the point at which the sewer empties. The creek is the natural outlet for the flow of surface waters and drainage waters from the height of land upon which the Village of Flushing is located and is the natural depository and only accessible natural depository for the sewage of that place. Its waters empty into the tide waters of Flushing Bay of which it is a tributary.

So much of the United States Laws as apply to this matter is found in section 13 of the River and Harbor Act, approved March 3, 1899, which reads in substance as follows:

"Section 13. That it shall not be lawful to throw, discharge or deposit or cause, suffer or procure to be thrown, discharged or deposited from or out of any ship, barge or other floating craft of any kind or from the shore, wharf, manufacturing establishment or mill of any kind, any refuse matter of any kind or description whatever, other than that flowing from streets or sewers and passing therefrom in a liquid state, into any navigable water of the United States,

Section 16, provides that "a violation of the provisions of section 13 shall be a misdemeanor, punishable by a fine of not less than \$500 or more than \$2,500, or in the case of a natural person by imprisonment for not less than thirty days nor more than one year, or by both fine and imprisonment."

Undoubtedly from its context this act was passed to prevent the discharge of ashes, garbage or other like materials into the waters of navigable rivers and harbors. In its language, however, it is capable of a construction similar to that claimed for it by the learned United States Attorney.

It may be said that its language does not forbid the emptying into such waters of the refuse from a sewer so long as such refuse "passes therefrom in a liquid state," but it is evident that if such refuse held in solution in the liquid sewage is after its discharge the cause of the formation of a bar or obstruction to navigation, the statute applies.

The City has no more right than a natural person to create or maintain a nuisance, and is liable for injuries occasioned thereby in any case where a private person would be liable under like circumstances.

Harper vs. Milwaukee, 30 Wisc., 365.

In my opinion if the deposits from this sewer have obstructed navigation the City is liable and should abate the nuisance. The trend of authorities and decisions is along this line.

"Although a municipality having the power to construct drains and sewers may lawfully cause them to be built so as to discharge their refuse matter into the sea or natural stream of water, yet this right must be so exercised as not to create a nuisance, public or private."

Dillon on Mun. Corp., 4th ed., vol. 2, sec. 1047.

In Franklin Wharf Company vs. Portland, 67 Me., 46, Dickerson, J., treats the public right of navigation as paramount to the right of sewerage, recognizes both the wharf and the sewer as lawful and authorized structures, and concludes by holding that the City, under the statute empowering it to construct sewers, "has the right to construct their opening into the public docks, and to use them in a reasonable manner for conducting and depositing therein refuse matters and impurities; but it is its duty to cause such docks to be cleared of such deposits whenever they become an obstruction to navigation or injurious to the public health."

In Richardson vs. Boston, 19 How. (U. S.), 270, it was held that the City was liable for a drain at end of wharf. "The public right of navigation is not limited at common law by any private or municipal right of sewerage."

Gould on Waters, p. 177.

I therefore advise that the City remove the deposits, if any exist, that form an obstruction to navigation.

The papers in connection with this communication are returned herewith.

Respectfully yours,

THEODORE CONNOLLY, Acting Corporation Counsel.

The Secretary presented the following report of the Engineer of the Department of Finance, relative to additional appropriations for extra work in the new Hall of Records Building:

CITY OF NEW YORK—DEPARTMENT OF FINANCE,
COMPTROLLER'S OFFICE,
August 1, 1904.

Hon. EDWARD M. GROUT, Comptroller:

SIR—Hon. John F. Ahearn, President of the Borough of Manhattan, in communication under date of July 13, 1904, transmits for the consideration of the Board of Estimate and Apportionment,

—“original letter from Horgan & Slattery, Architects for the New Hall of Records, requesting the Board's approval of an extra order in the amount of \$1,027, for work performed by John Peirce on the above-mentioned building, in furnishing labor and additional steel in and around the elevator shafts, and also requesting the Board's approval of an extra order in the amount of \$75 for work performed by John Peirce in the sump room in the same building.”

—I would report:

First—Additional steel in and around the elevator shafts..... \$1,027 00

This additional steel is due to the increased loads, as shown on final calculations for elevator loads, in excess of the loads as originally provided for. Since the final calculations show a much greater load, the beams, etc., about the elevator shafts had to be increased in weight. This work has been done, and I consider the price charged, \$1,027, just and reasonable.

The laws and terms of the contract of John Peirce for the erection of the Hall of Records, state that the contract may be modified or altered, but in no case to involve an increased expense greater than five per cent. of the whole expenditure provided for in said contract. The contract of John Peirce for the erection of the building (known as Contract No. 17318), is for \$1,997,900, and five per cent. of this amount is \$99,895. Against this amount the following has been authorized: \$4,432 for wood strips, etc., on mansard roof. Adding the cost, \$1,027, of the work in question, it will only make \$5,459, which is greatly below the amount, \$99,895, allowed by the provisions of the contract.

The contract allowing the modification without public letting, I would recommend that the Board of Estimate and Apportionment order and authorize the President of the Borough of Manhattan to enter into an agreement with John Peirce to modify and alter his contract for the erection of the Hall of Records Building, in an amount not to exceed \$1,027, for placing additional steel in and around the elevator shafts.

Second—Work in sump room..... \$75 00

This work consists in removing the rough plumbing for Engineer's toilet and sump pumps, and replacing it in a new location in cellar. The price charged I consider just and reasonable, and see no reason why it should not be allowed.

As previously stated, the laws and terms of the contract of John Peirce for the completion of the Hall of Records Building state that the contract may be modified or altered, but in no case to involve an increased expense greater than five per cent. of the whole expenditure provided for in said contract. The contract of John Peirce for the completion of the building (known as Contract No. 4095), is for \$1,959,000, and five per cent. of this amount is \$97,950. Against this amount the following have been allowed and authorized:

United States mail chutes \$7,300 00
Marble trim around register openings..... 2,771 00
Mahogany doors 175 00
\$10,246 00

If to this is added the cost, \$75, of the work in question, it will only make \$10,321, an amount greatly below the amount of \$97,950 allowed by the provisions of the contract.

The contract allowing the modification without public letting, I would recommend that the Board of Estimate and Apportionment order and authorize the President of the Borough of Manhattan to enter into an agreement with John Peirce to modify and alter his contract for the completion of the Hall of Records Building in an amount not to exceed \$75, for making certain changes in the plumbing work in the sump room of the cellar of the Hall of Records Building.

Respectfully,
EUG. E. McLEAN, Engineer.

THE CITY OF NEW YORK,
OFFICE OF THE PRESIDENT OF THE BOROUGH OF MANHATTAN,
CITY HALL, July 13, 1904.

Hon. JAMES W. STEVENSON, Secretary, Board of Estimate and Apportionment:

DEAR SIR—Herewith is transmitted for the consideration of the Board of Estimate and Apportionment, original letter from Horgan & Slattery, architects for the new Hall of Records, requesting the Board's approval of an extra order in the amount of \$1,027 for work performed by John Peirce on the above-mentioned building, in furnishing labor and additional steel in and around the elevator shafts; and also requesting the Board's approval of an extra order in the amount of \$75 for work performed by John Peirce in the sump room in the same building.

Yours truly,
JOHN F. AHEARN, President.

HALL OF RECORDS, July 12, 1904.

Hon. JOHN F. AHEARN, Borough President, City Hall, New York:

DEAR SIR—The following is a copy of letter received from Mr. John Peirce relative to extra work at the Hall of Records:

“MARCH 30, 1904.

“I inclose herewith copy of a letter dated December 3, 1902, covering an order for extra work in the sump room, in amount \$75, also copy of a letter under date of September 24, 1902, transmitting an order dated September 25 for supplying additional steel work in connection with the beams about the elevator shafts at the Hall of Records, in amount \$1,027.

“You will note from your letters that both of these extras have received your approval, but they have not yet been approved by the Board of Estimate.

“Will you please send them forward through the proper channels, so that I may collect my bill from the City.

“Yours truly,
“JOHN PEIRCE.”

We beg to report to you the facts leading to the issuing on September 25, 1902, of an extra order for \$1,027 to cover the cost of additional steel, cutting and fitting

old beams, repairing others, etc., in and around the elevator shafts, new Hall of Records, as follows:

On November 4, 1897, the late Mr. John R. Thomas, architect for the new Hall of Records, furnished Messrs. Lewinson & Just, Consulting Engineers for The City of New York, with a diagram of elevator loads for them to provide the necessary beams to carry these loads. With this data on hand the Consulting Engineers designed the beams around the elevator well, attic floor, of sufficient strength to carry these loads plus 100 per cent. for impact.

On April 26, 1902, we received from Mr. John Peirce, general contractor, a diagram of elevator loads required according to the final calculations. Both diagrams are shown on the prints attached. By comparing the two diagrams it is plainly to be seen that not only the position of the sheave beams had been changed but the loading had been increased and in some cases doubled. The elevator layouts furnished by Mr. Peirce also showed additional beams or channels required for the support of the intermediate sheaves and guides in the elevator shaft at the 2d, 3d, 4th, 5th, 5th mezzanine, 6th and 7th floors, not provided for in the original contract.

On June 26, 1902, we received at this office a letter from Mr. Peirce calling our attention to the fact that extra beams and channels were required for the support of the intermediate sheaves and guides of the elevators, also asking us to design a method of supporting them from the steel work (which was already in place or waiting to be erected). We referred this matter to Messrs. Lewinson & Just, Consulting Engineers for the City, and they furnished us with a drawing showing the required beams and channels on the 2d, 3d, 4th, 5th, 5th mezzanine, 6th, 7th and attic floors. As this was clearly an extra we asked Mr. John Peirce for an estimate to cover the cost of these changes, and on September 18, 1902, we received from him the following estimate:

For 10,600 pounds of additional steel to be bought from stock for prompt delivery and field work connected with same.....	\$727 00
Shoring up beams, cutting floor arches, recentring and rebuilding floor arches	206 63
Commission, superintendence, etc.....	93 36
Total.....	\$1,027 00

As this amount was reasonable, considering all the field work to be done, we issued the certificate for this amount on September 25, 1902, which is as follows:

“EXTRA ORDER NUMBER 1001.

“OFFICE OF HORGAN & SLATTERY, ARCHITECTS,
NEW YORK, September 25, 1902.”

“MR. JOHN PEIRCE, No. 277 Broadway, New York City:

“Please furnish the necessary materials and labor to completely perform the following extra work not included in your contract in the premises:

“New Hall of Records Building.

“Such extra work to be in accordance with the plans and specifications and satisfactory to Horgan & Slattery, architects.

“Complete the changes involving the supplying of 10,600 pounds of additional steel necessary for changing the beams about the elevator shafts, including the shoring up of the beams, cutting out the floor arches, resetting and rebuilding floor arches.

“The amount mutually agreed upon for the above work is the sum of one thousand and twenty-seven dollars (\$1,027).

“HORGAN & SLATTERY, Architects.

“City of New York, Owner.”

A diagram showing the size and location of the additional steel required accompanies this report.

We would respectfully request that you take such action as may seem proper to you in relation to the above-mentioned order.

Respectfully yours,
HORGAN & SLATTERY.

NOTICE TO CONTRACTORS.

GENERAL INSTRUCTIONS TO BIDDERS.

The person or persons making a bid or estimate for any services, work, materials or supplies for The City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope, indorsed with the title of the supplies, materials, work or services for which the bid or estimate is made, with his or their name or names and the date of presentation to the President or Board or to the head of the Department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said Department and read, and the award of the contract made according to law as soon thereafter as practicable.

Each bid or estimate shall contain the name and place of residence of the person making the same, the names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below.

No bid or estimate will be considered unless, as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures. Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, can be obtained upon application therefor at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there
