DEPARTMENT OF WATER SUPPLY, GAS AND ELECTRICITY,
BUREAU OF ELECTRICAL INSPECTION,
December 29, 1909.

Mr. JOSEPH HAAG, Secretary, Board of Estimate and Apportionment:

DEAR SIR—It has been brought to my attention that St. Joseph's Hospital is maintaining across One Hundred and Forty-third street, some 35 or 40 feet north of Brook avenue, a 6-inch iron pipe containing electrical conductors.

Inasmuch as our records show no authorization for this construction, I bring the matter to your attention for such action as you may choose to take.

I understand that the architects were Ditmar & Bright, and it is barely possible that some authorization may appear under the name of this firm.

Respectfully,

JOHN H. O'BRIEN, Commissioner.

The Secretary presented the following:

REPORT NO. F-198.

BOARD OF ESTIMATE AND APPORTIONMENT,
OFFICE OF THE CHIEF ENGINEER,
January 4, 1910.

Hon. WILLIAM J. GAYNOR, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—On December 30, 1909, the Manhattan Bridge Three-Cent Line made application to the Board of Estimate and Apportionment for the right to construct and operate a line of surface cars from the North River, at Desbrosses street, across the Borough of Manhattan to the Manhattan Bridge, across this bridge to the Borough of Brooklyn, and through the Flatbush avenue extension, with a loop by way of Fulton street, Rockwell place, Flatbush avenue, Atlantic avenue, Third avenue, Livingston street and Bridge street, back to the Flatbush avenue extension. The company on the same date filed its certificate of incorporation with the Secretary of State and in the Kings County Clerk's office.

There have already been presented to the Board a number of applications for the right to maintain and operate railroad tracks across the Manhattan Bridge, and these applications have been the subject of a preliminary report to the Board of Estimate and Apportionment, under date of November 13, 1908, which report, together with the applications, were referred to a Committee consisting of the President of the Board of Aldermen, the Comptroller, and the Presidents of the Boroughs of Manhattan and Brooklyn. The questions which were raised in connection with these former applications are outlined in a report from the Engineer of the Division of Franchises, which is herewith submitted.

Upon all the other applications the necessary preliminary hearing has been given, and I beg to recommend that February 4, 1910, be fixed as the date for a preliminary hearing on the petition of the Manhattan Bridge Three-Cent Line, and that the Mayor be requested to designate two daily newspapers in which the petition and notice of such hearing shall be published, a resolution to this effect being herewith submitted.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

BOARD OF ESTIMATE AND APPORTIONMENT,
DIVISION OF FRANCHISES,
January 4, 1910.

Mr. NELSON P. LEWIS, Chief Engineer:

SIR—Under date of December 30, 1909, the Manhattan Bridge Three-Cent Line, a street surface railway corporation, petitioned the Board for the right to construct, maintain and operate a line of surface cars from the Desbrosses Street Ferry, on the North River, across the Borough of Manhattan via Canal street to the Bowery, thence upon the Manhattan Bridge and its approaches, to the Borough of Brooklyn, and upon the Flatbush avenue extension to Fulton street, and thence, with a loop, passing through Fulton street, Rockwell place, Flatbush avenue, Atlantic avenue, Third avenue, Livingston street and Bridge street, back to the Flatbush avenue extension.

The route forms nearly a direct line from the North River, Manhattan, to the Flatbush avenue station of the Long Island Railroad, in Brooklyn, and loops through the centre of the retail district on Fulton street, Brooklyn. All of the route is to be double track, except the loop in the Borough of Brooklyn, which is to be single track. The motive power is to be electricity, underground system, or gasoline, and the fare proposed is three (3) cents.

The Company filed its certificate of incorporation in the office of the Secretary of State on the 30th day of December, 1909, and in the Kings County Clerk's office on the same day.

There already exists upon a large portion of the route proposed by this Company in the Borough of Manhattan street surface railway tracks owned and operated by companies which claim the exclusive right to operate a street surface railway in those streets. The same is true to some extent in the Borough of Brooklyn, though with the exception of Livingston street the lengths of route in streets where there are existing railways do not, I believe, in any case exceed one thousand feet, and for this distance, I understand, the Company can condemn the right to operate pursuant to the Railroad Law.

In Livingston street the franchise which was granted in 1906 to the Nassau Electric Railroad Company provides that another company may operate its cars over the same tracks, upon payment to that company of the fair value of such right.

In the Borough of Manhattan, however, the distances through which there must be joint operations of tracks greatly exceed one thousand feet, and the Company's right to operate the line as proposed will to a considerable extent depend upon whether the applicant can reach an agreement with the owners of the existing tracks, or whether it can secure from the courts a determination that the existing companies have

not an exclusive right to operate in those streets. There is, I understand, no law which prohibits the City from granting a franchise throughout the entire route, it resting with the applicant whether or not it obtains a right of user from the existing companies.

There are already before the Board several applications for the right to use the Manhattan Bridge, and both the Metropolitan Street Railway Company and the Third Avenue Railroad Company, operating in the Borough of Manhattan, have applied for the right to extend their lines across the Manhattan Bridge to the Brooklyn terminal, and two subsidiary companies of the Brooklyn Rapid Transit Company and the Coney Island and Brooklyn Railroad Company, operating in the Borough of Brooklyn, have applied for rights on the Flatbush avenue extension and across the Manhattan Bridge to the Manhattan terminal.

In addition to these applications, there is also one from the Triborough Railroad Company, which proposes to operate from the intersection of Flatbush avenue and Fulton street, thence upon Flatbush avenue extension across the Manhattan Bridge and upon Canal street, in the Borough of Manhattan, as far as Walker street.

All of the applications mentioned were, upon their presentation, referred to the Chief Engineer for investigation and report, and, on November 13, 1908 (see Minutes, page 4142), a preliminary report was presented by this Division, in which it was pointed out that the operation of cars from lines in Manhattan to the Brooklyn terminal of the Manhattan Bridge, and the operation of cars operating in the Borough of Brooklyn to the Manhattan end of the bridge will result in time in congestion of traffic similar to that which now exists on the Manhattan end of the New York and Brooklyn Bridge, and it was suggested that if a through line of cars could be established from some point in the Borough of Brooklyn to the westerly side of the Borough of Manhattan for a single fare of three cents, or if an arrangement could be made whereby the applicant companies could extend their lines for some distance into the Boroughs of Manhattan and Brooklyn, respectively, it would tend to prevent congestion of traffic at the terminals of the bridge, and at the same time afford a much better service to the traveling public. The report also contained a summary of the existing franchises on Canal street.

Upon presentation of this report, all applications for rights on the Manhattan Bridge and Flatbush avenue extension were referred to a Select Committee of the Board.

There has been some correspondence between the Chairman of this Committee and the Receiver of the Third Avenue Railroad Company, also with the Receivers of the Metropolitan Street Railway Company, relative to the amending of their petitions by applying for rights on the Flatbush avenue extension and waiving any exclusive rights they may claim in Canal street, but this has not resulted in any definite proposition from either company, or in the organization by the applicants of any company for the purpose of establishing an independent line, so far as I am advised.

Under date of July 26, 1909, the Receivers of the Metropolitan Street Railway Company replied to the Chairman of the Committee, in part as follows:

Inasmuch, however, as this matter concerns the permanent interests of the Metropolitan Company, and as we are merely the temporary custodians of the property, we have forwarded a copy of your letter and of our reply to the committees representing the bondholders under the mortgages now being foreclosed, and have requested that they inform us as to their views. As the interests which will have to be consulted are numerous and a number of people concerned are out of town, and as it will doubtless be impracticable to arrive at any decision prior to August 1, we would request that the time within which to file such a petition as you suggest be extended to September 1, 1909.

And on October 18, 1909, the Receiver of the Third Avenue Railroad Company replied to a similar letter from the Chairman, as follows:

I have yours of the 13th inst., referring to your letter of the 20th of July. I thought I had answered that letter, but it came just prior to my leaving town and I apologize for not having answered it hitherto.

I should be disposed, if satisfactory terms in respect to payment, etc., could be arranged, to continue my application for a franchise to cross the Manhattan Bridge with a continuation to Flatbush avenue. The practical dedication of the rights which I represent on Canal street, to others for nothing, does not appear to me to be good business, and if the City desires to insist upon any such provision, will you please consider my application for a franchise to cross Manhattan Bridge withdrawn.

As no progress had been made with the Manhattan companies along the lines indicated, forms of contract for franchises to all of these companies, exactly as applied for, were prepared by this Division and forwarded by the Chief Engineer to the Select Committee on September 9, 1909, and the following questions were suggested for the Committee to determine:

First—Shall it be the policy of the Committee to insist upon a through operation of Manhattan cars into the Borough of Brooklyn, and Brooklyn cars into the Borough of Manhattan, or shall an independent through line of cars be established by a company formed by the existing companies having control of the tracks now in Canal street?

Second—If the answers to the above questions are in the negative, shall the petitions now before the Board be considered in the present form, that is that the operation of each of the lines terminate at the bridge terminals; that the Brooklyn City Railway Company be permitted to place an elevated structure in the Flatbush avenue extension, and shall the Metropolitan Street Railway Company be permitted to extend across the bridge without any legal proceedings to determine the validity of the rights of that company in the portion of Canal street between Centre street and the bridge entrance?

Third—Which companies shall be granted a franchise, provided terms and conditions can be agreed upon?

Fourth—Shall all of the companies, to which the Committee shall recommend that franchises be granted receive a grant containing exactly similar terms and conditions?

Fifth—Which company shall be permitted to construct tracks in Flatbush avenue extension, or shall the companies to which a franchise be granted be required to enter into an agreement between themselves prior to the granting of a franchise, providing for the joint construction and occupation of such tracks?

Sixth—What company or companies shall be permitted or required to furnish local bridge service for a single fare of three cents and a round trip for five cents?

The operation proposed by the Manhattan Bridge Three-Cent Line, as indicated by the petition which has just been presented, is to a considerable extent similar to that proposed in the report above referred to.

The Manhattan Bridge has been opened to general traffic, but before the Department of Bridges can award contracts for the terminals it should know what style of street railway traffic it should provide for, whether local traffic, as the companies have applied for, or through traffic, or both.

It therefore appears most important that the Board should decide upon what policy is to be pursued, at as early a date as possible, in order that this Division may prepare and submit contracts accordingly.

As all other applicants have had a preliminary hearing as required by law, it is suggested that February 4, 1910, be fixed as a date for a preliminary public hearing on the petition of the Manhattan Bridge Three-Cent Line, and that the Mayor be requested to designate two daily newspapers in which the petition and notice of such hearing shall be published. This conforms with the procedure which has been employed heretofore.

The usual resolution is herewith submitted.

Respectfully,

HARRY P. NICHOLS, Engineer in Charge.

NEW YORK CITY, December 30, 1909.

To the Honorable Board of Estimate and Apportionment:

GENTLEMEN—We transmit herewith for your consideration an application for the right to construct and operate a street surface railroad from Flatbush avenue and Fourth avenue, in the Borough of Brooklyn, City of New York, across the Manhattan Bridge and through Canal street to Desbrosses and West streets, in the Borough of Manhattan.

The road is to be double tracked across West street, through Desbrosses street to Washington street; thence single tracked through Washington to Vestry street, and through Vestry to Greenwich street; also on Desbrosses street from Washington

street to Greenwich street, and on Greenwich street from Desbrosses street to Vestry street. It is to be double tracked on Vestry street to Canal street, on Canal street to and over the Manhattan Bridge, and over Flatbush avenue extension in the Borough of Brooklyn, to Fulton street; thence single tracked upon Fulton street, Rockwell place, Flatbush avenue, Fourth avenue, Atlantic avenue, Third avenue, Livingston street, Hoyt street and Bridge street, to said Flatbush avenue extension.

The road is to be operated by the underground electric system, or by gas engine cars.

We are willing to have the franchise provide that other railroads desiring the use of our road may run their cars over our tracks upon reasonable terms to be agreed upon, and we are also willing that the franchise should provide that we shall carry passengers for a 3-cent fare; and we enclose herewith certified copy of the certificate of incorporation of our company.

By direction of the Commissioner, pay was allowed to John Callahan, Dockbuilder (83611), and Thomas Dunne, Dockbuilder (83610), for their period of absence on account of injuries received in the course of their duty.

In accordance with the recommendations of the Superintendent of Docks, the following permits were revoked:

(83806), Thomas McLaughlin, for space for the storage of sand between One Hundred and Twenty-ninth and One Hundred and Thirtieth streets, North River, to take effect November 1, 1909.

(83808), Sea Gate Association, for landing at the Battery, to take effect October 29, 1909.

(83811), New York and Rockaway Beach Transportation Company, for landing steamer "Cimbria" at the outer end of the East Twenty-fourth Street Pier, East River, to take effect as of the date of issuance.

A communication (82905) was received from the Chief Engineer reporting that a truck owned by the Estate of Patrick H. Keahon, while carrying a heavy cable, damaged the asphalt pavement in the vicinity of Bank street, North River. Cor-

poration Counsel requested to advise whether there is any legal objection to the adoption of a rule providing for a penalty relative to damage of the marginal street area occasioned by overlaiden trucks and by the storage of an excessive amount of cargo thereon.

ALLEN N. SPOONER, Commissioner.

3 (83826). Submitting plans, specifications and form of contract for building a new pier near the foot of Thirtieth street, Gowanus Section, Brooklyn. Ordered printed as Contract 1209.

The Department of Health was requested to make a physical examination of Hubert G. Welch, Cleaner (83829); Michael F. Dwyer, Dock Laborer (83831), and Joseph F. Higgins, Cement Worker (83817).

The General Arbitration Board of the New York Building Trades was requested, in connection with the plumbers' strike on the Chelsea Section piers, North River, to take up the question as to where the plumber's work leaves off and the steamfitter's work begins.

In response to his inquiry (83786), the Comptroller was advised that there is no objection to permitting the McKeever Company to bulkhead the shore front of Barren Island, Jamaica Bay, Brooklyn, and to filling in rear of same, but that as the property could scarcely be used for wharfage purposes, it would be preferable to have it continue under the control of the Bureau of City Revenue instead of turning it over to this Department.

TERMS AND CONDITIONS.

The buildings and appurtenances thereto will be sold to the highest bidder, who must pay cash or a certified check drawn to the order of the Comptroller of The City of New York, and must also give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. Where the amount of the purchase price does not equal or exceed the sum of \$50, the sum of \$50 shall be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract, but unfinished at the expiration of the contract period.

The purchaser shall not lease, occupy, cause or permit the building or buildings, etc., purchased by him to be used or occupied for any purpose other than that of their speedy removal, nor shall he collect any rental or other revenue for the use of either the land or the buildings, etc., situated thereon. The breach of either or any of these conditions shall forthwith void the sale and cause immediate forfeiture of the purchase money and the security deposited for the faithful performance of the conditions of the sale. The placing therein or permitting the occupancy of any such building by any tenant free, for rent or otherwise, excepting the necessary watchmen or the workmen engaged in the actual demolition thereof, shall of itself be a breach of the above conditions of sale.

The sale will be as of the condition of the property on date of delivery thereof to the purchaser. The City of New York will not be responsible for any change or loss which may occur in the condition of the buildings, or their appurtenances, between the time of the sale thereof and the time of delivering possession to the purchaser, after being properly vacated of all tenants. The sale and delivery to purchaser will be made as nearly together as the circumstance of vacating the structures of their tenants will permit.

All the material of the buildings, sheds, walks, structures and cellars of whatsoever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds, except the exterior walls of the buildings and their foundations and the sidewalks and curb in front of said buildings, extending within the described area shall be torn down and removed from the premises. None of the dirt, debris or waste resulting from the demolition shall be allowed to remain on the premises, except old mortar or plaster only, which may be left, but not higher at any point than two feet below the curb opposite that point. The exterior walls and their foundations shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building. Where there is no curb the elevation of the surrounding ground shall be considered curb level. All wells, cesspools, sinks, etc., existing on the property must be filled to the level of the surrounding ground with clean earth.

The purchaser at the sale shall also withdraw and remove all abandoned water taps and old service mains, and in place thereof cause to be inserted a brass plug in the main water pipe in the street, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and furnish the Department of Finance with a certificate from the Department of Water Supply, Gas and Electricity that this has been performed.

The purchaser at the sale shall also remove all house sewer connections to the main sewer in the street, and the opening of the main sewer in street shall be properly closed in compliance with the directions of the Bureau of Sewers, Borough of The Bronx, and furnish the Department of Finance with a certificate from the Bureau of Sewers that the work has been properly performed.

The permit for all opening in the street to be obtained by and at the expense of the purchaser of the building.

Failure to remove said buildings, appurtenances, or any part thereof within thirty days from the day of possession will work forfeiture of ownership of such buildings, appurtenances, or portion as shall then be left standing, together with all moneys paid by said purchaser on account thereof at the time of the sale, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and The City of New York will, without notice to the purchaser, cause the same to be removed, and the costs and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and must be completed within thirty days from the day of possession, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damage and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of said buildings.

Where party walls are found to exist between buildings purchased by different bidders, the materials of said party walls shall be understood to be equally divided between the separate purchasers.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down. All furrings, plaster, chimneys, projecting brick, etc., on the faces of such party walls are to be taken down and removed. The walls shall be made permanently self-supporting, beam-holes, etc., bricked up, and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs of adjacent buildings shall be properly flashed and painted and made watertight where they have been disturbed by the operations of the contractor.

The Comptroller of The City of New York reserves the right on the day of sale to withdraw from sale any of the buildings, parts of buildings and machinery included therein, or to reject any and all bids; and it is further

Resolved, That, while the said sale is held under the supervision of the Commissioners of the Sinking Fund, the Comptroller is authorized to cause the sale to be advertised and to direct the sale thereof as financial officer of the City.

NOTICE IS HEREBY GIVEN THAT, PURSUANT to the provisions of chapter 724 of the Laws of 1905 and the acts amendatory thereof and supplemental thereto, and to article 2 of the State Boards and Commissions Law, being chapter 56 of the Laws of 1909, the State Water Supply Commission will meet at the office of the Board of Water Supply, No. 299 Broadway, in the Borough of Manhattan, City of New York, on the 12th day of January, 1910, at 11 o'clock in the forenoon of that day, for the purpose of hearing all persons, municipal corporations or other civil divisions of the State of New York that may be affected by the execution of the modification, or amendment, dated November 15, 1909, of the plans of The City of New York for securing a new and additional supply of water, plans for which modification or amendment have been filed with the New York State Water Supply Commission, at its office, Lyon Block, Albany, N. PROPOSALS FOR BIDS AND ESTIMATES FOR THE CITY OF NEW YORK.

NOTICE TO CONTRACTORS.

GENERAL INSTRUCTIONS TO BIDDERS.

The person or persons making a bid or estimate for any services, work, materials or supplies for The City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope, indorsed with the title of the supplies, materials, work or services for which the bid or estimate is made, with his or their name or names and the date of presentation to the President or Board or to the head of the Department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said Department and read, and the award of the contract made according to law as soon thereafter as practicable.

Each bid or estimate shall contain the name and place of residence of the person making the same, and names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below.

No bid or estimate will be considered unless, as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate. For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there.
