Petition for Reduction in the Width of Lurting Avenue, Between West Farms Road and the Property of the New York, New Haven and Hartford Railroad, Borough of The Bronx (Cal. No. 5).

The Secretary presented the following communication from the President of the Borough of The Bronx:

City of New York, President of the Borough of The Bronx, Office of the President, December 8, 1913.

Mr. JOSEPH HAAG, Secretary, Board of Estimate and Apportionment:

Sir—At the meeting of the Board of Estimate and Apportionment held on July 31, 1913, the petition of property owners requesting that the width of Lurting Avenue, between West Farms road and the property of the New York, New Haven and Hartford Railroad, Borough of The Bronx, be fixed at fifty feet, was referred back to me.

I have examined the property personally and have heard all the arguments in favor of lessening the width and considered all the objections to it. Lurting Avenue from Walker Avenue to the New Haven Railroad tracks, a distance of one and one-half blocks, is at present physically opened and used as a fifty-foot street. A foot bridge is proposed to carry this street over the railroad tracks.

If the present traffic on Lurting Avenue was the only thing to be considered, a width of fifty feet would be sufficient. It is necessary, however, in street planning to provide for the future. The final map of the district has been laid out and approved with Lurting Avenue between the limits named as a street of sixty feet in width. The cost of widening the street will be considerable because there is a substantial building on the corner of Lurting and Walker Avenues, which will be a total destruction.

In a few years the developments about Westchester square, in the neighborhood of this street, will make lots too valuable for the present improvements on the street. This will require that the present houses be torn down and new ones erected. The new improvements, to be adequate for the neighborhood, will require a street sixty feet in width. I think, therefore, it would be doing no favor ultimately to the owners on this street if the street were reduced in width to fifty feet.

However, it is desirable, if possible, to save the owners from heavy expenses at present. Whether this can be done or not depends upon the owners themselves. I recommend, therefore, that the petition of the property owners to reduce the width to fifty feet be denied, unless all the owners on the street and persons holding mortgages thereon, enter into a covenant with one another and with the City (such covenant to run with the land), that they will not erect any improvements on their respective properties within five feet of the street lines on each side of the street. This would leave the street fifty feet in width as it is at present, and prevent any buildings being erected nearer the center of the street than if it were sixty feet in width. When the time comes that it is necessary to acquire the extra five feet on each side, this can be done with no more expense than would be incurred at the present time. Yours very truly,

CYRUS C. MILLER, President of the Borough of The Bronx.

Mr. J. S. Arnold appeared and requested that the matter be adjourned.

On motion of the President of the Borough of The Bronx the matter was laid over for one week (December 18, 1913).

The following Public Improvement matters, not on the Calendar for this day, were considered by unanimous consent:

Petition for Relief from Assessment in the Proceeding for Acquiring Title to Amboy Road, from a Point 250 Feet Northeasterly from the Staten Island Railway to a Point 325 Feet Southwesterly from the Staten Island Railway, Borough of Richmond (No. 6).

(At the meeting of the Board on December 4, 1913, relief was granted through an extension of the area of assessment.)

Mr. Walter H. Martin appeared and presented the following petition, which was ordered printed in the minutes and filed:

In the matter of the assessment for widening Amboy road, from Foster's road to Huguenot Avenue, Borough of Richmond.

To the Honorable Board of Estimate and Apportionment of The City of New York: Gentlemen—Your petitioners, owners of property assessed for benefit in the above entitled proceeding respectfully state as follows:

That supplemental to the petition heretofore presented by your petitioners to your Honorable Board, which petition recited the history of this proceeding and showed the great injustice of placing the assessment locally, now desire to state that they believe that under chapter 26 of the Laws of 1909, entitled "An act in relation to cities constituting chapter 21 of the consolidated Laws as amended" and known as the "Home Rule Bill," your honorable Board has the power to assess the entire cost of this widening upon the Borough of Richmond, they therefore respectfully ask that you direct that such cost be assumed by said Borough. Very respectfully,

E. J. MACDONALD, W. J. PENTON and 13 Others.

Dated New York, December 11, 1913.

WALTER H. MARTIN, Atty., 99 Nassau Street, New York City.

Increasing the Limitation for the Borough of Queens for Completed Local Improvements not Returned to the Board of Assessors (No. 7).

The Secretary presented the following communication from the President of the Borough of Queens:

The City of New York, Office of the President of the Borough of Queens, Long Island City, December 11, 1913.

Honorable ARDOLPH L. KLINE, Mayor, and Chairman, Board of Estimate and Apportionment, City of New York:

Sir—By resolution of the Board of Estimate and Apportionment five hundred thousand dollars was allowed the Borough of Queens, at quarterly periods, for an excess of final work returned, for which on the same date assessment lists had not as yet been returned.

On account of the increased quantity of work, especially upon new sewers, that is now being undertaken by the Borough, over and above what was being done at the time the above limit was fixed, it is practically impossible to keep within this limit at all times and particularly during the summer months when construction is at its highest point and when the available office force for this particular purpose is obviously at its lowest point.

With large contracts, amounting to two hundred thousand to two hundred and fifty thousand dollars, the work of completing the assessment lists, even though everything possible has been done prior to the date of turning in the final certificate, is still so great as to require even months in some cases.

This condition is partly due to the nature of the work and partly to the fact that the maps of the Tax Office are constantly changing. As an illustration, at this time maps are being prepared in our Sewer Bureau for a contract that cannot be completed before next June, and we know very well that changes will be made so that the final comparison must be made just prior to the turning in of the list.

Besides the work in preparing the lists is the final accounting, which cannot be definitely determined until the close of the month when the payrolls are put through these divisions, so that it may be definitely known that there are no more charges to be brought in. Frequently also there are differences between the books of the Finance Department and the books of the Sewer Bureau, which require a comparison of all charges in order to find the reason for the differences, a matter which takes considerable time. There are other reasons which could be mentioned, particularly the fact that the assessment maps cannot be completed until the final survey has been turned in and plotted thereon, showing the locations and amounts of the different items and quantities assessable to the various parcels.

The Board of Estimate and Apportionment has recently given final authorization for work to be done in a single contract at a cost exceeding \$1,100,000, most of which work will have to be performed and a final certificate turned in before the assessment maps can be prepared.

In view of these conditions, which cannot be set aside or overcome, I consider that in the case of this Borough the excess of final work returned should be raised to a figure of not less than \$1,000,000, and urgently request that the Board fix this amount as the limit. Respectfully,

MAURICE E. CONNOLLY, President of the Borough of Queens.

On motion of the President of the Borough of Queens the matter was referred to the Chief Engineer of the Board for report.

In the matter of the application of Walter J. Salomon for an extension of time until June 1, 1914, to complete the construction of a concrete conduit under and across Sixth Avenue north of 42nd Street, Borough of Manhattan.

This consent was granted by resolution adopted by this Board October 2, 1913, approved by the Mayor October 3, 1913.

The Secretary presented the following:

Walter J. Salomon, Real Estate, 17 West 42nd Street, New York, November 7, 1913.

Board of Estimate and Apportionment, No. 277 Broadway, New York City:

Gentlemen—Referring to approved resolution No. 104, dated October 3, 1913, under which I was granted permission to construct, maintain and use a concrete conduit between properties at the northwest corner of 6th Avenue and 42nd Street and the northeast corner of 6th Avenue and 42nd Street, I beg to state that owing to some delay in getting specifications properly prepared it got so late in the season that all the contractors whom I wished to bid on the work refused to accept liability regarding freezing of any of the pipes that were to be exposed in order to run our pipe through.

The resolution provides that the work be completed on or before January 15, 1914, and I hereby request that the time for this work be extended until June 1st, 1914, and I will in the meantime see that all contracts are made and everything ready so as to complete same as quickly as Spring arrives. Will you, therefore, please get me the proper authority extending the time and oblige,

Yours very truly,

WALTER J. SALOMON.

Bureau of Franchises, December 3, 1913.

Hon. ARDOLPH L. KLINE, Mayor, Chairman of the Board of Estimate and Apportionment:

Sir—By resolution adopted by the Board of Estimate and Apportionment October 2, 1913, approved by the Mayor October 3, 1913, consent was granted to Walter J. Salomon to construct, maintain and use a concrete conduit, 17 inches by 12 inches, under and across 6th Avenue immediately north of 42nd Street, Borough of Manhattan, and Mr. Salomon duly filed with the Board the necessary formal acceptance of the consent.

The consent provided that the grantee should make payment for the privilege by December 2, 1913, and deposit a security fund with the Comptroller by the same date. It was also provided, in Section 14, that the work of constructing the conduit should be completed by January 15, 1914.

Under date of November 7, 1913, Mr. Salomon addressed a communication to the Board, reciting that the contractors whom he requested to bid on the work of constructing the conduit had refused to assume liability for damage due to the freezing of any pipes that would be exposed in 6th Avenue during the work, and he therefore requested that the Board extend the time for the completion of the conduit to June 1, 1914. At the meeting of the Board held November 13, 1913, that communication was referred to this Bureau for investigation and report. An examination failed to disclose any good reason why the requested extension of time should not be granted, but the report was withheld until such time as Mr. Salomon would have complied with the consent by making the necessary payment and depositing the security fund. The payment and deposit were both made on December 2nd, and, as the consent has thus been fully accepted, a resolution providing for the extension of time requested is herewith submitted for adoption.

In view of the fact that Mr. Salomon was afforded an opportunity to suggest any alterations in the consent before its presentation to the Board and its adoption on October 2nd, and as he then failed to request a longer time for the construction of the conduit, it has been made a condition of the resolution herewith submitted that he pay to the Comptroller the sum of Twenty-five Dollars (\$25) to cover the costs of the report and printing in connection with this extension of time.

Respectfully,

HARRY P. NICHOLS, Engineer, Chief of Bureau.

The following was offered: Whereas, By resolution adopted by the Board of Estimate and Apportionment October 2, 1913, and approved by the Mayor October 3, 1913, consent was granted to Walter J. Salomon to construct, maintain and use a concrete conduit, 17 inches by 12 inches, under and across 6th Avenue immediately north of 42nd Street, in the Borough of Manhattan; and

Whereas, The said Walter J. Salomon duly accepted the said consent and made the required payment to the Comptroller for the privilege, and deposited the required security fund; and

Whereas, Section 14 of the said consent provides that the work of constructing the conduit shall be completed by January 15, 1914; and

Whereas, The said Walter J. Salomon has presented a petition dated November 7, 1913, to the Board of Estimate and Apportionment for an extension of time to June 1, 1914, in which to construct the said conduit; now, therefore, be it

Resolved, That Walter J. Salomon be and he hereby is granted an extension of time up to and including June 1, 1914, in which to complete the construction of the conduit as required by Section 14 of the consent granted to him by resolution adopted by the Board of Estimate and Apportionment on October 2, 1913, and approved by the Mayor October 3, 1913; and be it further

Resolved, That this resolution shall not become effective unless and until the said Walter J. Salomon shall pay into the Treasury of The City of New York the sum of Twenty-five dollars (\$25) to cover the costs of printing and publication in connection with this extension of time.

Which was adopted by the following vote:

Affirmative—The Mayor, the Deputy and Acting Comptroller, the Acting President of the Board of Aldermen, the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx and Queens and the Acting President of the Borough of Richmond—16.

This consent was granted by resolution adopted by this Board October 16, 1913, approved by the Mayor October 20, 1913.

Hon. ARDOLPH L. KLINE, Mayor, Chairman of the Board of Estimate and Apportionment:

The Lebanon Hospital Association (Cal. No. 13).

In the matter of the application of the Lebanon Hospital Association for permission to install, maintain and use a two-inch steam pipe under and across Cauldwell Avenue, Borough of The Bronx, connecting the Hospital and Training School on opposite sides of said street, for the purpose of furnishing heat to the latter building.

This application was presented to the Board at the meeting of November 26, 1913, and was referred to the Bureau of Franchises.

The Secretary presented the following:

The Lebanon Hospital Association of The City of New York, Westchester, Cauldwell and Trinity Avenues, New York, November 12, 1913.
Board of Estimate and Apportionment, No. 277 Broadway, New York City:

Gentlemen—Application is herewith made for your consent for the construction, maintenance and operation of a two-inch steam pipe underneath and across Cauldwell Avenue, from the property of Lebanon Hospital on the easterly side of said Avenue to its Training School opposite.

The Lebanon Hospital is a charitable Institution, incorporated under the laws of the State of New York, and applies for this permit for the purpose of economy, as it will enable us to heat the above mentioned school from the main boiler of the Hospital instead of from a separate boiler at present in use at the Training School. The funds obtained from such economy could be used more directly for the care and maintenance of patients under our charge.

Trusting that such permit will be granted us and thanking you in anticipation of same, we beg to remain, respectfully yours,

THE LEBANON HOSPITAL ASSOCIATION.

LEWIS COON, Honorary Secretary.

Bureau of Franchises, December 3, 1913.

Hon. ARDOLPH L. KLINE, Mayor, Chairman of the Board of Estimate and Apportionment.

Sir—The Lebanon Hospital Association has presented a petition dated November 12, 1913, to the Board of Estimate and Apportionment for permission to construct, maintain and use a two-inch steam pipe under and across Cauldwell Avenue, connecting the hospital on the easterly side of the Avenue with the Nurses' Training School opposite on the westerly side for the purpose of supplying the last-mentioned building with heat from the main boiler of the hospital. The pipe is located at a point on the easterly building line of Cauldwell Avenue 310.23 feet north of Westchester Avenue and on the westerly building line 330.09 feet north of the same Avenue.

At the meeting of the Board held November 26, 1913, the petition was referred to the Bureau of Franchises for investigation and report.

Copies of the petition with accompanying plan were forwarded to the President of the Borough of The Bronx and to the Commissioner of Water Supply, Gas and Electricity, with a request that examinations be made by the various bureaus of their departments having jurisdiction with a view to ascertaining if there are any objections to the proposed pipe or any particular conditions necessary to be incorporated in the form of consent heretofore used by the Board for similar privileges. The hospital representative having stated that there was immediate and urgent necessity for the pipe, he was advised by this office to take the matter up with the Borough President and the Commissioner of Water Supply, Gas and Electricity with a view to obtaining emergency permits for the installation of the pipe pending action by the Board on the petition; such permits to be issued only under a stipulation that the consent of the Board would be granted and accepted by the hospital; otherwise the pipe to be removed by the hospital.

The hospital obtained a permit from the Department of Water Supply, Gas and Electricity on November 21, 1913, and commenced the installation of the pipe on November 24 and completed the work on November 26, without, however, obtaining a permit from the office of the Borough President. The Borough President called attention to this neglect, and the hospital represented that the failure to obtain such permit was due to a misapprehension of the necessities of the situation. In a communication dated December 1, 1913, the Borough President has stated that there are no objections to the granting of the requested consent, and it would therefore appear that the hospital has made satisfactory explanation of its failure to obtain an emergency permit. Under date of November 28, 1913, the Department of Water Supply, Gas and Electricity has advised me that there are no objections to the pipe.

The customary examination by this Bureau disclosed no objections to the project and as the administrative departments of the City have reported favorably, I can see no good reason why the requested permission should not be given should the Board see fit to do so. In such case I would suggest that consent be granted only during the pleasure of the Board, but in no case to extend beyond a period of ten (10) years from November 24, 1913, the date upon which the work of installing the pipe was begun and revocable upon sixty (60) days' notice.

In accordance with the procedure of the Board in all similar cases of consents to charitable, religious and benevolent institutions, it is suggested that the customary requirement for a security deposit be waived and that the compensation be fixed at the nominal sum of twenty-five dollars (\$25) per annum.

The customary form of resolution granting consent is herewith submitted for adoption.

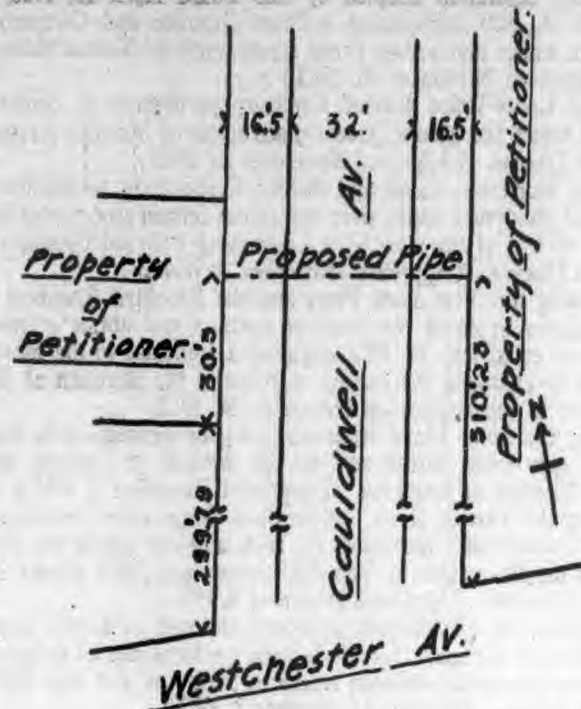

Respectfully,
HARRY P. NICHOLS, Engineer, Chief of Bureau.

The following was offered:

Whereas, The Lebanon Hospital Association has presented a petition dated November 12, 1913, to the Board of Estimate and Apportionment for permission to install, maintain and use a two-inch steam pipe under and across Cauldwell Avenue, in the Borough of The Bronx at a point on the easterly building line of the said Avenue about 310 feet north of Westchester Avenue, for the purpose of supplying steam from the boiler plant of the hospital on the easterly side of said Avenue to the Nurses' Training School opposite on the westerly side; now, therefore, be it

Resolved, That the consent of the Corporation of The City of New York be and the same is hereby given to the Lebanon Hospital Association, a domestic corporation and the owner of certain properties on opposite sides of Cauldwell Avenue, Borough of The Bronx, City of New York, to install, maintain and use a two-inch steam pipe under and across said Cauldwell Avenue, connecting the said properties at a point on the easterly building line of the said Avenue 310.23 feet north of the northerly line of Westchester Avenue, and on the westerly building line of Cauldwell Avenue

330.09 feet north of the northerly line of Westchester Avenue: the said pipe to be used for the purpose of furnishing steam from the hospital building to the training school building for the sole and exclusive use of the grantee and for no other purpose, all as shown on the plan accompanying the petition, and entitled:

Bureau of Franchises.

—and signed William Daub, Superintendent, and Lewis Coon, Honorary Secretary; a copy of which is attached hereto and made a part hereof upon the following terms and conditions:

1. This consent shall continue only during the pleasure of the Board of Estimate and Apportionment, and shall be revocable upon sixty (60) days' notice in writing to the grantee, but in no case shall it extend beyond a term of ten (10) years from November 24, 1913, and thereupon all rights of the grantee in said street by virtue of this consent shall cease and determine.

2. The grantee shall pay into the Treasury of The City of New York, as compensation for the privilege hereby granted the sum of twenty-five dollars (\$25.00) per annum. Such payments shall be made in advance on November 1 of each year, provided, however, that the first payment shall be made within sixty (60) days of the approval of this consent by the Mayor, and shall be only such proportion of the annual charge as the time between the approval of this consent by the Mayor and November 1 following bears to a whole year.

Such rate of compensation shall continue up to the date of restoration of the street pavement after the removal of the structure from the street.

Such payments shall not be considered in any manner in the nature of a tax, but shall be in addition to any and all taxes of whatsoever kind or description now or hereafter required to be paid under any ordinance of The City of New York, or by any law of the State of New York.

3. Upon the removal of the grantee from either of the premises to be connected by the structure, or upon the revocation or termination by limitation of this consent, the grantee shall cause the structure hereby authorized to be removed and all of said street affected by this permission to be restored to its proper and original condition, if required so to do by The City of New York or its duly authorized representatives, and the entire cost of such work shall be borne by the said grantee. If the structure hereby authorized shall not be required to be removed, it is agreed that it shall become the property of The City of New York.

4. This consent is for the exclusive use of the grantee and shall not be assigned either in whole or in part, or leased or sublet in any manner, nor shall title thereto, or right, interest or property therein pass to or vest in any other person, firm or corporation whatsoever, either by the acts of the grantee or by operation of law, without the consent in writing of The City of New York, acting by the Board of Estimate and Apportionment.

5. The grantee shall pay the entire cost of all work, labor and material in connection with the structure hereby authorized, and particularly—

(a) Its construction, maintenance and removal.

(b) The protection of all structures which shall in any way be disturbed by its construction or removal.

(c) All changes in sewers or other subsurface structures necessitated by its construction or removal, including the laying or relaying of pipes, conduits, sewers or other structures.

(d) The replacing or restoring of the pavement in said street which may be disturbed during its construction or removal.

(e) Each and every item of the increased cost of the installation of any future structures or repairs or alterations to any existing or future structures caused by its presence in the street.

(f) The inspection of all work during its construction or removal as herein provided, which may be required by the President of the Borough and the Commissioner of Water Supply, Gas and Electricity.

6. Before the construction or removal shall be begun, the grantee shall obtain permits to do the work from the President of the Borough and from the Commissioner of Water Supply, Gas and Electricity. The grantee shall perform all the duties which may be imposed by those officials as conditions of such permits, provided such conditions are not inconsistent with the provisions of this consent. The grantee shall submit to those officials working plans which shall include and show in detail the method of construction of the structure hereby authorized and the mode of protection or changes in all structures required by the construction or removal of the same.

Upon the completion of the work, the grantee shall furnish to the President of the Borough a plan of such character as he may direct, showing accurately and distinctly the location, size and type of construction and complete dimensions of the structure erected or installed under this consent; also the location and dimensions of all substructures encountered during the progress of the work. The depth below the street surface of the new structure and of the substructures encountered must be shown; also their location with reference to the nearest curb line and the nearest curb-line intersection.

7. The grantee shall allow to The City of New York a right of way through, under or above any part of the structure hereby authorized for any and all structures which are now or may be hereafter placed by The City of New York in said street.

If at any time it shall become necessary to replace or alter a structure in said street, the City shall have the right to break through or remove or any portion of the structure hereby authorized and the grantee shall pay the City the expense incurred by such removal.

8. The structure hereby authorized and any fixtures laid therein shall be constructed, maintained and operated subject to the supervision and control of the proper authorities of The City of New York. It shall be open at all times to the inspection of all the authorities who have jurisdiction in such matters under the Charter of The City of New York.

9. This consent is subject to whatever right, title or interest the owners of abutting property or others may have in and to said street.

10. Said grantee shall be liable for all damages to persons or property, including the street and structures therein and thereunder, by reason of the construction and

operation or maintenance of the structure hereby authorized, and it is a condition of this consent that The City of New York assumes no liability to either person or property on account of this consent.

11. This consent is granted on the further and express condition that all laws or ordinances now in force, or which may hereafter be adopted, shall be strictly complied with.

12. Said grantee shall give notice, in writing, to the President of the Borough and to the Commissioner of Water Supply, Gas and Electricity of its intention to begin the work hereby authorized at least forty-eight hours before such work commences. The grantee shall also give to the Board of Estimate and Apportionment notice, in writing, of the date on which the work is commenced and also the date on which the same is completed, not later than ten (10) days after such dates.

13. This consent shall be null and void unless said grantee shall duly execute an instrument in writing, wherein said grantee shall accept this consent and shall promise, covenant and agree to conform to, abide by and perform all the terms, conditions and requirements in this consent fixed and contained and file said instrument with the Board of Estimate and Apportionment of The City of New York within thirty (30) days after the approval of this consent by the Mayor; provided, however, that such time may be extended by the Board of Estimate and Apportionment.

Westchester Lighting Company (Cal. No. 16).

The Secretary presented the following:

Joseph Rosenzweig, Counsellor at Law, 99 Nassau Street, New York, November 24, 1913:
Board of Estimate and Apportionment, City Hall, Manhattan Borough, New York City:

Gentlemen—I represent the owner of premises 3460 and 3462 Bailey Avenue, in the Borough of the Bronx, City of New York. The premises above mentioned are new buildings and the owner has eight tenants prepared to move in on or before December 1, 1913, but they will be unable to do so unless gas is installed on or before that date. The owner expects to have other tenants prepared to go into said premises on or before that date, but the tenants will be unable to occupy the premises without gas, as I understand the cooking is to be done on gas ranges. I have further been informed that owing to some dispute over the franchise between the Bureau of Gas and Electricity and the Westchester Lighting Company of Yonkers, that permits will not be issued for the installation of gas without a special resolution from the Board of Estimate. I therefore make application for a temporary permit pending the settlement of this franchise dispute so that gas may be installed in said premises without further delay, as it can be readily seen that the owner of said premises will suffer great damage if not permitted to install gas in said premises at once. It is respectfully requested that said temporary permit be authorized by the Board with as little delay as possible. Very truly yours,

JOSEPH ROSENZWEIG.

Bureau of Franchises, December 5, 1913.

Hon. ARDOLPH L. KLINE, Mayor, Chairman, Board of Estimate and Apportionment: Sir—Joseph Rosenzweig, Esq., Attorney for the owner of the premises situated at 3460 and 3462 Bailey Avenue in the Borough of The Bronx, City of New York, in a communication dated November 24, 1913, states that the premises referred to are new buildings which have been completed and that the owner has obtained tenants who have agreed to move in on or before December 1, 1913. He therefore makes application that the Board authorize the Commissioner of Water Supply, Gas and Electricity to allow the Westchester Lighting Company, which operates in this territory and which the Corporation Counsel has ruled to be operating without a franchise, to lay the necessary extensions of its mains in order to connect with and to supply gas to these buildings.

After the Corporation Counsel had ruled upon the lack of franchise of the Westchester Lighting Company, it on October 16 was called upon by the Board to submit an application for a proper franchise on or before November 28 and to advise as to its intentions on or before November 14, but at the meeting held November 20 an extension of time to November 28 was granted to the Company to communicate its conclusions as to what it proposed to do. Neither the information thus asked for nor the application required was filed by the Company on that date, but a further extension of time to December 18 to comply with the resolution of October 16 was granted by the Board at its meeting held Thursday, December 4.

In view of this situation and so as not to unduly inconvenience the people resident in this territory, the Board has allowed the granting of temporary revocable permits

in three cases authorizing the Company to make connections with and to supply gas to the Montefiore Home, the New Woodlawn Heights Methodist Episcopal Church and the Church Extension Committee of the Presbytery of New York for the new church building at the northwest corner of 240th street and Martha Avenue.

In view of the precedent thus established, and pending the determination of the franchise proceedings, it is recommended that in order not to inconvenience the occupants of these buildings, the President of the Borough of The Bronx and the Commissioner of Water Supply, Gas and Electricity be authorized to grant a temporary revocable permit to the Westchester Lighting Company, allowing it to extend its mains for this purpose.

A form of resolution for this purpose similar to that heretofore used is submitted herewith.

Respectfully,

HARRY P. NICHOLS, Engineer, Chief of Bureau.

The following was offered:

Whereas, There was presented to the Board at its meeting held October 2, 1913, an opinion of the Corporation Counsel holding the Westchester Lighting Company to be without a valid franchise to lay gas mains in that portion of the Borough of The Bronx formerly the Town of Kingsbridge; and

Whereas, Joseph Rosenzweig, Esq., representing the owner of premises erected at 3460 and 3462 Bailey Avenue in the said portion of the Borough of The Bronx formerly the Town of Kingsbridge, has by a communication presented to this Board at its meeting held today, requested that the Westchester Lighting Company be granted a permit authorizing it to lay the necessary connection in order to enable it to supply gas to the said premises; and

Whereas, A supply of gas will be of great convenience and benefit to the occupants of the said premises; now, therefore, be it

Resolved, That pending the final outcome of the present situation with respect to the Westchester Lighting Company, the President of the Borough of The Bronx and the Commissioner of Water Supply, Gas and Electricity be and they are hereby authorized to grant a temporary revocable permit to the said Westchester Lighting Company, authorizing it to construct such gas mains as may be necessary for the purpose of connecting its existing gas mains with the buildings situated at 3460 and 3462 Bailey Avenue, Borough of The Bronx, upon condition, however, that before any such permit is granted, the Westchester Lighting Company enter into a stipulation in a form approved by the Corporation Counsel, binding it to remove such mains in the event of the failure on the part of the said Company to apply to this Board and obtain a proper franchise authorizing it to conduct its operations in the said portion of the Borough of The Bronx, and containing such other conditions and requirements as to the Corporation Counsel may appear proper and necessary; provided, however, that this resolution is upon the express condition that no other connections shall be made by the said Westchester Lighting Company pending the final outcome of the present franchise proceedings.

General Fund for the Reduction of Taxation—Transfer to (Cal. No. 20).

The Secretary presented the following:
Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, December 2, 1913.

To the Honorable Board of Estimate and Apportionment, City of New York:

Gentlemen—I herewith submit for your consideration a resolution providing for the transfer to the general fund for the reduction of taxation of the cash balance in the account known as "Water Meter Fund, No. 1."

An examination and audit of this fund has been made by representatives of the Division of Expert Accounting of the Department of Finance, and a report thereon dated November 25, 1913, is attached hereto and made a part of this communication. The findings set forth in said report may be briefly stated as follows:

Prior to 1880, pursuant to legislative enactments, funds were provided by appropriations and the issue of revenue bonds to the extent of \$47,555.94 for the purpose of advancing the expenses of installing water meters, such advances to be assessed upon the premises wherein said meters were installed.

By reason of errors and inadequate or improper methods of bookkeeping, the status of this fund, after it had been operated for a few years, became so much obscured that a fresh start was made. Further funds were provided from time to time by issue of revenue bonds and a new fund account was opened, known as "Water Meter Fund, No. 2," which has taken care of all transactions of this nature since, and the current collections of assessments for advances have been sufficient for several years past to meet the expenditures without further issue of revenue bonds.

Through liquidation since 1880 and by correction of errors discovered in making the audit previously referred to, Water Meter Fund, No. 1, has been adjusted, and shows a free and unencumbered cash balance of \$46,576.53.

As this balance is not required for water meter purposes—the balance in Water Meter Fund, No. 2, being now sufficient for such purposes—it becomes available for transfer to general fund, pursuant to section 237 of the Greater New York Charter, and I therefore recommend that this be done.

Respectfully,

WM. A. PRENDERGAST, Comptroller.

The following resolution was offered:

Resolved, That the Comptroller be and he is hereby authorized, pursuant to the provisions of section 237 of the Greater New York Charter, to make the following transfer on the books of the Department of Finance:

Department of Street Cleaning of The City of New York, 13-21 Park Row, New York, November 19, 1913.

Sir—I have to request that a further revision of schedules and transfer amounting to the sum of \$2,214.50 be made within the appropriation allowed this Department for the year 1913, as per attached resolutions.

The reason for the above request is that the amount allowed for the hire of trucks and drivers is insufficient, owing to the increased output of ashes, rubbish and garbage which must be removed in the Borough of The Bronx and cannot be handled by the present equipment. Respectfully, WM. H. EDWARDS, Commissioner.

Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, December 2, 1913.

The proposed transfer is to provide funds for the hire of trucks and Drivers for the remainder of the year, the present equipment in The Bronx during the winter months being insufficient to carry the increased output of ashes, etc. There are sufficient balances in Nos. 1321 and 1322 to permit of the debit transfers.

I recommend the adoption of the attached resolutions granting the request.

Respectfully, DOUGLAS MATHEWSON, Deputy and Acting Comptroller.

Yours truly,

HENRY S. THOMPSON, Commissioner.
Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, December 1, 1913.

To the Board of Estimate and Apportionment:

Gentlemen—On November 7, 1913, the Commissioner of Water Supply, Gas and Electricity requested transfer of \$9,960.65 within the appropriations made to his department for the year 1913, pursuant to the provisions of section 242 of the Greater New York Charter. In connection therewith I report as follows:

In his 1913 departmental budget estimate the Commissioner requested an appropriation of \$13,000 to provide for fitting up the Water Registrar's Bureau, in the Borough of Brooklyn, with a system of steel letter files for properly safeguarding data relating to over 205,000 accounts. The Budget Committee granted the Commissioner's request, to the extent of \$10,000, but, in the final Budget for 1913, this allowance was restricted to the purchase of "Other than Steel Furniture."

In order that the required steel filing cases may now be purchased, the Commissioner requests that the \$9,960.65 balance in account, "S-404, Purchase of Equipment, Office Equipment, Water Revenue Collection; 766-W, Other than Steel Furniture, Water Revenue Allowance," be transferred to account, "S-405, Purchase of Equipment, Office Equipment, Water Revenue Collection; 767-W, General, Water Revenue Allowance."

I recommend the adoption of the attached resolution granting the request, and modifying the existing schedules for the administration of funds.

Respectfully, DOUGLAS MATHEWSON, Deputy and Acting Comptroller.

Board of Aldermen and City Clerk—Modification of Schedules and Transfer of Appropriation (Cal. No. 21D).

The Secretary presented the following:

The City of New York, Office of the City Clerk, Borough of Manhattan, New York, November 14, 1913.

To the Honorable the Board of Estimate and Apportionment:

Gentlemen—I respectfully apply for the following transfers within the appropriation made to this department for the year 1913:

| | |
|--|----------|
| From code No. 60 to code No. 66½ | \$150 00 |
| From code No. 61 to code No. 62 | 25 00 |

Yours respectfully,

P. J. SCULLY, City Clerk.
Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, December 2, 1913.

To the Board of Estimate and Apportionment:

Gentlemen—On November 14, 1913, the City Clerk requested transfer of \$325 within appropriations to the Board of Aldermen and City Clerk for the year 1913. In connection therewith I report as follows:

It is proposed to transfer \$150 from Supplies, Office Supplies, Legislation, No. 60, President, Board of Aldermen, to Contract or Open Order Service, Communication, Telephone Service, No. 66½, President, Board of Aldermen; \$25 from Supplies, General Plant Service, Legislation, No. 61, Board of Aldermen, and \$150 from Contract or Open Order Service, Transportation, Issuance of Licenses and Keeping of Records, No. 65, City Clerk, to Supplies, Office Supplies, Issuance of Licenses and Keeping of Records, No. 62, City Clerk.

The budget allowance for 1913 for No. 66½ was \$462.84. The unexpended balance in the account on December 1, 1913, was \$27.56. The incurred liabilities up to that date and the estimated expenditures for December amount to \$175. The Clerk states that the account needs replenishing to the extent of \$150 because of unforeseen and increased expenditures for extra messenger and telephone service.

The 1913 budget allowance for No. 62 was \$800. On May 22, 1913, it was increased to \$1,300, and on October 9, 1913, to \$1,650 by transfer of funds from other accounts. On December 1, 1913, the unexpended balance was \$26.98. It is stated that investigations and special hearings on proposed legislation relating to issuance of licenses increased the expenditures for postage and supplies and that the sum of \$175 is needed to replenish the account to meet incurred liabilities and anticipated expenditures for December.

I recommend the adoption of the attached resolutions granting the request.

Respectfully,

WM. A. PRENDERGAST, Comptroller.

Department of Docks and Ferries; Municipal Civil Service Commission—Modification of Schedules and Transfer of Appropriation (Cal. No. 21E and F).

The Secretary presented the following:

Municipal Civil Service Commission of The City of New York, 299 Broadway, 11th Floor, Payroll Bureau, New York, November 18, 1913.

JOSEPH HAAG, Esq., Secretary, Board of Estimate and Apportionment:

Sir—This Commission hereby makes application to your Board to transfer the sum of two hundred dollars (\$200) from the Department of Docks and Ferries, from the unexpended balance remaining in their fund entitled Telephone Service, Ferries, Operation, Code No. 308, 1913.

This is required for the reason that necessary expenditures in connection with the moving of the office of this Commission, of an emergency nature, will have to be made; and the balance remaining in the Contingent Fund of this Commission is not sufficient to cover these bills. It is desired to have this sum transferred to our account entitled Municipal Civil Service Commission, Contingencies, General, 1913, Code No. 2057.

Attached hereto find the consent of the Department of Docks and Ferries to this transfer. Respectfully,
F. A. SPENCER, Secretary.

Department of Docks and Ferries, The City of New York, November 14, 1913.

FRANK A. SPENCER, Secretary, Municipal Civil Service Commission:

Sir—Answering your letter of the 30th ult., in which you ask the transfer of \$200 to your Contingency Fund, I beg to advise you that this department has an unexpended balance from which this amount is available in Code No. 308 of the 1913 Budget, Telephone Service, Ferries, Operation.

If you will make request upon the Board of Estimate and Apportionment for the transfer of the sum of \$200 from Code No. 308 to your Contingency Fund, the transfer of the amount will be acceptable to me.

Yours very truly,
R. A. C. SMITH, Commissioner of Docks.

Municipal Civil Service Commission of The City of New York, 299 Broadway, Eleventh Floor, Payroll Bureau, New York, November 19, 1913.

Hon. WM. A. PRENDERGAST, Comptroller, Department of Finance:

Sir—This Commission respectfully requests that the Comptroller recommend that the Board of Estimate and Apportionment transfer to the fund entitled Contingencies, General, Code No. 2057, of this Commission, the following amounts from the unexpended balances remaining in other funds of this Commission:

| | |
|--|----------|
| From Code No. 2046, Office Supplies..... | \$500 00 |
| From Code No. 2058, Contingencies, Traveling Expenses..... | 228 65 |

Total.....

The reason for requesting this transfer is for the purpose of enabling the Commission to pay additional expenses incurred in connection with the moving of the offices of the Commission from No. 299 Broadway, to the Municipal Building; and for which \$1,000, previously appropriated, is insufficient, on account of carpentry work in erecting shelving, etc., which could not be foreseen. The present condition of the fund for Contingencies, General, Code No. 2057, is as follows:

| | |
|---|----------|
| Budget Appropriation | \$915 00 |
| Transfer from Department of Finance, Contingencies, Code No. 93..... | 2,000 00 |
| Transfer from Code No. 2058, of the appropriation of this Commission— | |
| Traveling Expenses | 428 00 |
| Transfer from Code No. 2534, Finance Department..... | 1,000 00 |

| | |
|---|------------|
| Total appropriation for contingencies at present..... | \$4,343 00 |
| Amount asked for, as above, to be transferred..... | 728 65 |

Total.....

Respectfully,
FRANK GALLAGHER, President.
Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, December 3, 1913.

To the Board of Estimate and Apportionment:

Gentlemen—On November 18, 1913, the Secretary of the Municipal Civil Service Commission requested transfer of \$200 to the 1913 account entitled "Contingencies, No. 2057, General." On November 19, 1913, the President of the Commission requested the transfer of an additional sum of \$728.65 to the same account. In connection therewith I report as follows:

It is proposed to transfer the \$200 from the account entitled "Department of Docks and Ferries, Contract or Open Order Service, Communication, Telephone Service, Ferries, No. 308, Operation." The Commissioner of Docks has consented to the transfer. The transfer of \$728.65 is to be made from the following accounts:

| | |
|---|----------|
| 2046 Office Supplies | \$500 00 |
| 2058 Contingencies, Traveling Expenses..... | 228 65 |

\$728 65

The Secretary states that the transfers are required for the purpose of enabling the Commission to pay additional expenses incurred in connection with the moving of the offices of the Commission from No. 299 Broadway to the Municipal Building. The sum of \$1,000 previously appropriated for this purpose has proven insufficient because of carpentry work needed in erecting shelves, etc., which could not be foreseen.

The 1913 budget appropriation for "Contingencies, No. 2057, General," was \$915, which amount has been increased by transfers to \$4,343. Of this amount \$2,000 has been set aside for the payment of the salary of a First Assistant Chief Examiner. The unencumbered balance in this account, as of November 22, 1913, was \$25.39.

There are sufficient balances in the other accounts to permit of the requested transfers.

I recommend the adoption of the attached resolutions granting the request.

Respectfully,
WM. A. PRENDERGAST, Comptroller.

The Secretary presented the following:

Court of General Sessions of the Peace, City and County of New York, Clerk's Office, November 18, 1913.

Hon. WILLIAM A. PRENDERGAST, Comptroller of The City of New York, 280 Broadway, New York City:

Dear Sir—I have been informed by your office that the appropriation of \$9,000 for disbursements and fees, under section 658, Code of Criminal Procedure (Code No. 3731—1913) has been expended. This is a miscellaneous New York County fund, and charges are made against it by other departments.

I understand that before any bills for such fees can be forwarded to your office funds must be provided.

At the present time five Commissions under said section are pending. It is estimated that bills for said Commissions will amount to \$5,000.

Request is therefore made for funds to the amount of \$5,000 for the payment of said bills.

Have the kindness to notify me to which fund bills for said Commissions should be charged. Very respectfully yours,

EDWARD R. CARROLL, Clerk of Court.

Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, December 2, 1913.

To the Board of Estimate and Apportionment:

Gentlemen—On November 20, 1913, the Clerk of the Court of General Sessions requested an appropriation of \$5,000 to replenish the account entitled "Miscellaneous, New York County, No. 3731, for Disbursements and Fees under Section 658, Code of Criminal Procedure." In connection therewith I report as follows:

Section 658 of the Code of Criminal Procedure authorizes the Judges of the Court of General Sessions to appoint three disinterested persons to examine and report upon the sanity of defendants in criminal cases. Section 662A of the same Code provides as follows:

"The cost of any Commission of lunacy, pursuant to the provisions of this article, shall be a charge upon the county in which the Commission shall have been executed. The Commissioners are entitled to such compensation for their services as the Court may direct."

The 1913 Budget appropriation for No. 3731 was \$9,000. The Clerk of the Court states that the appropriation is entirely exhausted. He also states that the cost of three Commissions are ready for transmission to the Department of Finance. They aggregate \$3,229.70, and are as follows:

The Clerk further states that there are at present three Commissions hearing cases and that the expenditure for the same will become a County charge before the end of the year.

The request involves expenditures that are a mandatory county charge, and provision to the necessary extent of \$5,000 will be made by the Comptroller, pursuant to the provisions of section 658 and section 662A of the Code of Criminal Procedure and subdivision 7 of section 188 of the Greater New York Charter.

Gentlemen—On November 19, 1913, the Board of Education requested modification of the 1913 schedule entitled "Salaries, Regular Employees, No. 3436, Office of the Secretary," to take effect October 27, 1913. In connection therewith I report as follows:

To the Board of Estimate and Apportionment:

Gentlemen—On November 19, 1913, the Commissioner of Parks, Borough of The Bronx, requested modification of two schedules for Wages, Temporary Employees, in his Department for the year 1913. In connection therewith I report as follows:

In No. 1632, Wages, Temporary Employees, General, it is proposed to increase the time for Auto Lawn Mower Engineer, at \$3.50 per day, by 64 days, and Bricklayer, at \$5.60 per day, by 20 days. Owing to the unusually good weather it has been necessary to use the lawn mowers, especially on the golf links at Van Cortlandt Park, for a longer period than usual, that the grounds may be kept in proper condition. The additional days for the Bricklayer are necessary to complete work now in progress.

The \$336 necessary is provided by decreasing the time for Engineman, at \$3.50 per day, by 96 days, in No. 1635, Wages, Temporary Employees, Care of Trees in City Streets.

I recommend the adoption of the attached resolutions approving the request.

Respectfully, WM. A. PRENDERGAST, Comptroller.

Yours very truly,

Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, December 2, 1913.

To the Board of Estimate and Apportionment:

Gentlemen—On November 21, 1913, the President of the Borough of Manhattan requested modification of three special revenue bond schedules for the Municipal Building for the year 1913. In connection therewith I report as follows:

In Personal Service, Salaries, Temporary Employees, Care of Public Buildings and Offices, No. 2723½ R, Municipal Building, the line, "Janitor, at \$1,800" is changed to read Janitor, at \$1,500, and the line "Assistant Janitor, at \$900" is changed to read, Janitor, at \$1,200. These changes are made to enable the department to use existing civil service lists in filling the positions. They are in accordance with the budget schedules for 1914.

In Personal Service, Wages—Temporary Employees, Care of Public Buildings and Offices, No. 2743½ R, Municipal Building, certain changes are made to permit the employment of necessary help for the remainder of the year.

In Contract or Open Order Service, General Plant Service, Care of Public Buildings and Offices, No. 2822½ R, Municipal Building, the allowance is increased from \$3,500 to \$19,671.40 to permit of the employment of 25 Elevatormen during the month of December. So many of the departments have moved into the Municipal Building in the past month that it has been found necessary to provide for the operation of 25 elevators.

I recommend the adoption of the attached resolution granting the request.

Respectfully,

WM. A. PRENDERGAST, Comptroller.

First Brigade, National Guard and Naval Militia, County of New York—Modification of Schedule (Cal. No. 26).

The Secretary presented the following:

Headquarters First Brigade, N. G., N. Y., Park Avenue and 34th Street, New York, October 27, 1913.

The Comptroller, City of New York, 280 Broadway:

Sir—I have the honor to inform you that I have this day appointed Francis J. Schippers, vice John Doe, resigned, a Laborer in the armory of these headquarters, as provided in paragraph 188, Military Law, as amended by General Order 20, Amended General Orders, 1913, and that revenue bond funds be provided to the amount of \$198 for balance of calendar year. Very respectfully

G. R. DYER, Brigadier General.

Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, December 4, 1913.

To the Board of Estimate and Apportionment:

Gentlemen—On October 27, 1913, the Commanding Officer of the First Brigade, N. G., N. Y., requested that provision be made to provide for the compensation of a Laborer from October 27 to December 31, 1913, at the rate of \$3 per day. In connection therewith I report as follows:

Section 188 of the Military Law, as amended by chapter 558 of the Laws of 1913, provides for the employment of Laborers and reads, in part, as follows:

"To provide for the proper care and cleanliness of armories and arsenals and of the property therein deposited, the officer having control and charge of an armory or arsenal may appoint laborers, as follows: For armories or arsenals having ten thousand square feet or less of floor surface, one laborer * * *"

The headquarters of the First Brigade is quartered in the armory of the Seventy-first Regiment, but, under a certificate of the Major-General, Commanding Division, National Guard, New York, the quarters are considered a separate and independent armory.

In pursuance of the provisions of section 188, the Commanding Officer of the First Brigade has appointed a Laborer for the proper care and cleanliness of the armory. Request is made to provide for the compensation of the Laborer for the remainder of the year.

Section 189 of the Military Law provides for the compensation of Laborers and empowers the Commanding Officer to fix a rate of pay not to exceed \$3 per day. This section also provides that such compensation shall be a county charge.

Subdivision 7 of section 188 of the Greater New York Charter authorizes the Comptroller to issue special revenue bonds to provide funds for the payment of charges lawfully payable by counties wholly included within the limits of the City of New York. The Comptroller will, therefore, issue special revenue bonds to the amount of \$198 to provide funds for the compensation of the Laborer from October 27 to December 31, 1913.

The adoption of the attached resolution will modify the schedule of the organization to permit of the proper audit. Respectfully,

WM. A. PRENDERGAST, Comptroller.

District Attorney, New York County—Issue of Special Revenue Bonds (Cal. No. 28).
(On November 13, 1913, the request of the District Attorney in this matter was referred to the Comptroller.)

The Secretary presented the following:

District Attorney's Office, County of New York, November 12, 1913.

To the Honorable the Board of Estimate and Apportionment, City of New York:

Gentlemen—In accordance with the provisions of section 1542 of the Amended Greater New York Charter, I, Charles S. Whitman, District Attorney of the County of New York, do hereby certify that for the purpose of conducting an investigation to discover whether crimes triable in New York County have been committed in connection with the collection of moneys from persons having contracts with the State of New York, either in the failure to report such moneys as campaign contributions or in the failure to account for and apply the moneys so collected to the purposes for which they were received, or otherwise, and to discover the person or persons

guilty of such crimes, which investigation is of exceptional difficulty, the public interests demand that an appropriation be made by your Honorable Board to the amount of ten thousand dollars (\$10,000), and I hereby request that your Honorable Board make such appropriation and authorize the Comptroller to issue special revenue bonds to the amount of ten thousand dollars (\$10,000) to provide the necessary means therefor.

Very truly yours,

CHARLES S. WHITMAN, District Attorney.

Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, November 25, 1913.

To the Board of Estimate and Apportionment:

Gentlemen—On November 12, 1913, the District Attorney of New York County, pursuant to the provisions of section 1542 of the Greater New York Charter, certified that the public interests demand an appropriation of \$10,000 revenue bonds for the purpose of conducting an investigation to discover whether crimes triable in New York County have been committed in connection with the collection of moneys from persons having contracts with the State of New York, either in the failure to report such moneys as campaign contributions or in the failure to account for and apply the moneys so collected to the purposes for which they were received, or otherwise, and to discover the person or persons guilty of such crimes, which investigation, the District Attorney certifies, is of exceptional difficulty. In connection therewith I report as follows:

That part of section 1542 appropriate to the present request reads as follows:

"It shall be lawful, however, for the Board of Estimate and Apportionment in its discretion, and upon the certificate of the District Attorney of any such County that the public interest demand for the proper conduct of a criminal action of exceptional difficulty that an additional appropriation be made for that purpose, to make such appropriation and to authorize the Comptroller to issue special revenue bonds to provide the necessary means therefor."

The District Attorney states that the first result of his investigation in connection with the matter of campaign contributions has been the indictment on November 14, 1913, of Everett Fowler for extortion. He further says that the requested appropriation is to be used in the prosecution of said Fowler and for the conduct of other similar criminal cases which may arise out of the investigation. The District attorney estimates that he will require \$10,000 for the investigation and proper conduct of these cases and also states that they are of exceptional difficulty.

On February 4, 1910, the Board of Estimate and Apportionment (minutes, page 418) appropriated \$25,000 in special revenue bonds to the District Attorney, pursuant to the provisions of section 1542, for "the proper conduct of investigations, and the prosecution of criminal actions which may result from certain investigations into the conduct of persons connected with the traffic in women for immoral purposes in the City and County of New York."

In view of the foregoing, I recommend the adoption of the attached resolution granting the request.

Respectfully, DOUGLAS MATHEWSON, Deputy and Acting Comptroller.

The following resolution was offered:

Resolved, That pursuant to the provisions of section 1542 of the Greater New York Charter, the Board of Estimate and Apportionment hereby appropriates the sum of ten thousand dollars (\$10,000) to provide means for the proper conduct of investigations to discover whether crimes triable in New York County have been committed in connection with the collection of moneys from persons having contracts with the State of New York, either in the failure to report such moneys as campaign contributions or in the failure to account for and apply the moneys so collected to the purposes for which they were received or otherwise, and to discover the person or persons guilty of such crimes, and the prosecution of criminal actions which may result from said investigations, and which investigations and criminal actions are certified by the District Attorney of New York County to be of exceptional difficulty, and for the purposes of providing means therefor, the Comptroller be and is hereby authorized to issue special revenue bonds of The City of New York to an amount not exceeding ten thousand dollars (\$10,000), redeemable from the tax levy of the year succeeding the year of their issue.

To the Board of Estimate and Apportionment:

Gentlemen—On November 11, 1913, the Board of Education requested approval of the form of contract, specifications, plans and estimates of cost for the following:

New Public School 56, Borough of The Bronx.

Estimated

Cost.

Item No. 1, General Construction..... \$102,000 00
Item No. 2, Plumbing and Drainage..... 10,000 00

On November 25, 1913, the Board of Education transmitted specifications and plans for Item 2, bearing the approval of the Department of Water Supply, Gas and Electricity, with the request that they be substituted for the specifications and plans for Item 2, which were first submitted without this approval.

The cost is to be charged to the corporate stock fund entitled "C. D. E.—1100, School Buildings, Construction and Equipment, The Bronx, Sub-title 13." An appropriation of \$147,800 was approved for the fund by the Board of Estimate and Apportionment on June 12, 1913, and concurred in by the Board of Aldermen on July 15, 1913. On November 29, 1913, the fund was intact.

The form of contract, specifications and plans are satisfactory and the estimates of cost are reasonable.

I recommend the adoption of the attached resolution granting the request.

Respectfully,

WM. A. PRENDERGAST, Comptroller.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment, pursuant to its resolution adopted on July 11, 1912, hereby approves of the form of contract, specifications, plans and estimates of cost for the following work under the jurisdiction of the Department of Education:

New Public School 56, Borough of The Bronx.

Item 1. General Construction, estimated cost, one hundred and two thousand dollars (\$102,000).

Item 2. Plumbing and Drainage, estimated cost, ten thousand dollars (\$10,000).

The cost to be charged to the corporate stock fund entitled "C. D. E.—110C, School Buildings, Construction and Equipment, The Bronx, sub-title 13." If no bids are received for such work within such estimated cost, the amount of such estimated cost upon the bids so received may be reconsidered, in its discretion, by the Board of Estimate and Apportionment, provided that any of said bids is within the amount authorized and available for such work.

Which was adopted by the following vote:

Department of Public Charities—Approval of Form of Contract, Etc. (Cal. No. 30).

The Secretary presented the following:

Department of Public Charities of The City of New York, Foot of East 26th Street, October 29, 1913.

Hon. W. A. PRENDERGAST, Comptroller, 280 Broadway, New York City:

Dear Sir—Under date of October 28 we forwarded you the plans, specifications and form of contract for labor and material required for the erection and completion of an addition to the Storehouse, Blackwells Island, and stated that the expenditures were chargeable to "Department of Public Charities Building Fund, C. C. H.—52A," and the estimated cost as follows:

| | |
|---|-------------|
| "1. General contract, including electrical work and elevator..... | \$50,800 00 |
| "2. Plumbing | 2,000 00 |
| "3. Heating | 2,000 00 |

"Total..... \$55,800 00"

That was a typographical error; the heating should be \$3,000, instead of \$2,000. Will you please make the correction? Respectfully yours,

J. McKEE BORDEN, Secretary.

Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, December 3, 1913.

To the Board of Estimate and Apportionment:

Gentlemen—On October 29, 1913, the Commissioner of Public Charities requested approval of the form of contracts, plans, specifications and estimates of cost for the erection and completion of an addition to Storehouse, Blackwells Island, Borough of Manhattan, as follows:

| | |
|---|-------------|
| 1. General contract, including electrical work and elevator; estimate of cost | \$50,800 00 |
| 2. Plumbing; estimate of cost..... | 2,000 00 |
| 3. Heating; estimate of cost..... | 3,000 00 |
| | \$55,800 00 |

The plans and specifications provide for the erection of an additional story to the present Storehouse and the erection of a two-story addition to the southerly end of the Storehouse. The completed building will cover an area of approximately 12,200 square feet.

The specifications also provide for replacing the present brick and bluestone flag flooring in the north wing with cement flooring. This item was taken out as not being a proper corporate stock charge. The approximate cost of this replacement is \$700, and the estimate should, therefore, be reduced by that amount.

Shelving, counters, bins and other necessary equipment is to be erected by departmental labor.

The plans and specifications have been amended in a number of details and are now satisfactory. The estimate of cost is reasonable.

The cost of the work is to be charged to the corporate stock fund entitled "C. C. H.—52A, Department of Public Charities, Construction and Equipment of Addition to Storehouse on Blackwells Island." The authorization in the sum of \$60,000 was approved by the Board of Estimate and Apportionment on June 26, 1913, and by the Board of Aldermen on July 15, 1913. On November 25, 1913, an unencumbered balance of \$55,813.95 remained in the fund.

I recommend the adoption of the attached resolution approving the request, with the amendments noted. Respectfully, WM. A. PRENDERGAST, Comptroller.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment, pursuant to its resolution of July 11, 1912, hereby approves of the plans and specifications (as amended) forms of contracts, and estimates of cost for the erection and completion of an addition to the Storehouse, Blackwells Island, Borough of Manhattan, under the jurisdiction of the Department of Public Charities, as follows:

| |
|--|
| 1. General construction, including electrical work and elevator, at an estimate of cost in the sum of fifty thousand one hundred dollars (\$50,100). |
| 2. Plumbing, at an estimate of cost in the sum of two thousand dollars (\$2,000). |

3. Heating, at an estimate of cost in the sum of three thousand dollars (\$3,000), the cost of the work to be charged to the corporate stock fund entitled "C. C. H.—52A, Department of Public Charities, Construction and Equipment of Addition to Storehouse on Blackwells Island."

—and be it further
Resolved, That, in the event that the aggregate sum of the lowest bids received for the three items of work, for the above noted building, exceeds the aggregate sum of the estimates for the three items herein approved for the building, this Board may, in its discretion, reconsider the amounts of such estimated cost upon the bids so received, provided that the sum of said bids is within the amount authorized and available for such work; no award for any item shall be made pending such reconsideration.

President, Borough of Richmond—Approval of Form of Contract, Etc. (Cal. No. 31).

(On November 13, 1913, the request of the President of the Borough of Richmond, in this matter, was referred to the Comptroller.)

The City of New York, Office of the President of the Borough of Richmond, Borough Hall, New Brighton, New York City, November 10, 1913.

Board of Estimate and Apportionment, No. 277 Broadway, New York City:

Gentlemen—We would ask authority to draw upon the corporate stock fund for the additional county court house, County and Borough of Richmond, to the extent of possibly \$9,500, so as to enter into a contract for excavating for the foundations of the proposed structure.

The specification and contract forms will be this day forwarded to Corporation Counsel for approval for printing.

Our great desire is to have this work actually begun before the end of December of this year, so we would ask for the earliest possible consideration and authorization. Yours respectfully, GEORGE CROMWELL, President of the Borough.

By LOUIS L. TRIBUS, Commissioner.

The City of New York, Office of the President of the Borough of Richmond, Borough Hall, New Brighton, New York City, December 5, 1913.

Board of Estimate and Apportionment, 277 Broadway, New York City:

Gentlemen—I send herewith blueprint showing excavation plan for the new additional County Court House, Borough of Richmond; also contract and specification form for the proposed work of excavation.

We are engaged in making test borings over the site of the new building, and information found will be furnished to prospective bidders, so that they will have no difficulty in meeting the conditions of a lump sum bid, which, under all the circumstances, seems to be the most desirable form.

With such information there will be no difficulty for bidders to present intelligent estimates.

We would ask for the earliest possible favorable report, as it is our desire to receive bids for this work on the 16th of December, and if possible, award the contract at once, so that the work can actually be begun during the current month. Yours respectfully, GEORGE CROMWELL, President of the Borough.

City of New York, Department of Finance, Bureau of Municipal Investigation and Statistics, December 5, 1913.

To the Board of Estimate and Apportionment:

Gentlemen—On December 5, 1913, the President of the Borough of Richmond transmitted for approval a form of contract, plans, specifications and estimate of cost, \$9,500, for the excavation for an additional County Court House, in the County of Richmond, at St. George, Borough of Richmond.

The cost is to be paid from the unencumbered balance of \$248,595.85 (as of December 5, 1913) in the corporate stock fund entitled "C. P. R.—12, Acquisition of Site and Construction of New County Court House, at New Brighton, Borough of Richmond."

An appropriation in the sum of \$250,000 was approved for the fund by the Board of Estimate and Apportionment on July 17, 1911, and concurred in by the Board of Aldermen on July 31, 1911.

The form of contract is satisfactory, the plans and specifications complete and satisfactory and the estimate of cost liberal but reasonable.

I recommend the adoption of the attached resolution granting the request.

Respectfully, WM. A. PRENDERGAST, Comptroller.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment, pursuant to its resolution adopted on July 11, 1912, hereby approves of the form of contract, plans, specifications and an estimate of cost in the sum of nine thousand five hundred dollars (\$9,500), for excavation for an additional County Court House in the County of Richmond, to be located on Jay Street, De Kalb Street and Stuyvesant Place, St. George, Borough of Richmond, under the jurisdiction of the President of the Borough of Richmond, the cost to be paid from the corporate stock fund entitled, "C. To the Board of Estimate and Apportionment:

Gentlemen—On November 15, 1913, the Board of Education requested approval of the form of contract, specifications, plans and estimate of cost, \$4,000, for installing electric equipment in New Public School 94, Borough of Queens.

E.—130G, School Buildings, Construction and Equipment, Queens, Subtitle 7." An appropriation of \$121,400 was approved for the fund by the Board of Estimate and Apportionment on July 17, 1911, as amended on June 27, 1912, and concurred in by the Board of Aldermen on July 25, 1911, as amended on October 15, 1912.

Department of Water Supply, Gas and Electricity—Approval of Form of Contract, Etc. (Cal. No. 33).

The Secretary presented the following:

The City of New York, Department of Water Supply, Gas and Electricity, Commissioner's Office, 13-21 Park row, New York, November 20, 1913.

Hon. WILLIAM A. PRENDERGAST, Comptroller, 280 Broadway, City:

Dear Sir—The lowest bid received November 14 for a surface condenser and air pump, with piping, valves and other appurtenances, in the Clove Pumping Station, Borough of Richmond, is \$2,636.

The Board of Estimate and Apportionment approved the making of a contract at the meeting of October 2, with an estimated cost of \$2,300.

The bids taken on October 15 for the same work were rejected because they were considered too high, and I do not think a second letting would result in any further reduction. The lowest bid of the latter letting is a reasonable one, and I request that you recommend to the Board of Estimate and Apportionment that they authorize the making of the contract at the lowest bid now received.

Yours very truly, F. T. PARSONS, Deputy and Acting Commissioner.

Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, December 1, 1913.

To the Board of Estimate and Apportionment:

Gentlemen—On November 20, 1913, the Deputy and Acting Commissioner of Water Supply, Gas and Electricity requested approval of \$2,636 as a new estimate of cost for furnishing, delivering and installing a surface condenser and air pump, together with all piping, etc., in the Clove Pumping Station, Borough of Richmond.

On October 2, 1913, the Board of Estimate and Apportionment approved the form of contract, plans, specifications and estimate of cost for this work in the sum of \$2,300.

The four bids for this work, opened October 15, 1913, were all rejected as being considered too high. The work was readvertised and of the three bids received November 14, 1913, the lowest was \$2,636. This figure is reasonable.

The cost of the work is to be charged to the corporate stock fund entitled "C. D. W.—38G, Water Supply System, Borough of Richmond, Improvement of Pumping Stations."

An appropriation of \$29,000 for this fund was authorized by the Board of Esti-

mate and Apportionment on June 26, 1913, and concurred in by the Board of Aldermen on July 15, 1913. On November 28, 1913, the fund was intact.

I recommend the adoption of the attached resolution granting the request.

Respectfully,

WM. A. PRENDERGAST, Comptroller.

President, Borough of Queens—Amendment of Issue of Corporate Stock (Cal. No. 40).

The Secretary presented the following:

Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, October 27, 1913.

To the Board of Estimate and Apportionment:

Gentlemen—At a meeting of the Board of Estimate and Apportionment on June 27, 1912, the roadway of Myrtle avenue, from the Brooklyn Borough line to Cooper street, was established and fixed at 45 feet; it had previously been 35 feet, its present width. On November 8, 1912, the President of the Borough of Queens received and opened four bids for regulating, grading and paving Myrtle avenue from the Brooklyn Borough line to Cooper street. The lowest bid received was from the Eon Engineering and Contracting Company, at an estimated cost of \$178,743.80.

On April 3, 1913, the Board of Estimate and Apportionment denied the petition of certain property owners, who requested that the roadway width be fixed at 40 feet, but directed that the width be fixed at 35 feet. On April 3, 1913, the Borough President notified the contracting company to commence work. The company upon requesting a permit for the work was given a permit for a roadway of 35 feet in width, which was contrary to the terms of the contract, which called for a width of 45 feet. The contractor, therefore, could not proceed in accordance with the terms and conditions of the contract.

On May 22, 1913, after a number of conferences between the Comptroller, the President of the Borough of Queens and the President of the Eon Engineering and Contracting Company, the Board of Estimate and Apportionment, upon the recommendation of the Comptroller, adopted a resolution directing the President of the Borough of Queens to pave the roadway of Myrtle avenue for a width of 35 feet. On May 22, 1913, the President of the Borough notified the Eon Engineering and Contracting Company that it was not the intention of the City to proceed further with this work, and he declared the contract cancelled.

The Eon Engineering and Contracting Company filed a claim with the Comptroller for certain expenditures on account of the contract and for 10 per cent. prospective profits. This claim was allowed in the sum of \$18,550.57, and was paid out of the account entitled, "Revenue Bond Fund for Claims." To offset this loss, as per agreement with the President of the Borough of Queens, it is proposed to rescind corporate stock in this amount for the repaving of streets in the Borough of Queens.

We recommend, therefore, the adoption of the attached resolution rescinding corporate stock in this amount. Respectfully,

WM. A. PRENDERGAST, Comptroller; GEORGE McANENY, President, Borough of Manhattan; LEWIS H. POUNDS, President, Borough of Brooklyn; CYRUS C. MILLER, President, Borough of The Bronx; Corporate Stock Budget Committee.

The following resolution was offered:

Resolved, That the following resolution adopted by the Board of Estimate and Apportionment on January 9, 1913:

"Resolved, That, pursuant to the provisions of sections 169 and 176 of the Greater New York Charter, as amended by chapter 563 of the Laws of 1902, the Board of Estimate and Apportionment hereby authorizes the Comptroller to issue corporate stock of The City of New York, in the manner provided by said section 169, to the amount of three million dollars (\$3,000,000), maturing not more than ten (10) years after date of issue, the proceeds to the amount of the par value thereof to be applied to the repaving of streets and avenues of The City of New York, as follows:

| | |
|----------------------------|----------------------|
| Borough of Manhattan | \$1,000,000 00 |
| Borough of Brooklyn | 1,000,000 00 |
| Borough of The Bronx | 350,000 00 |
| Borough of Queens | 350,000 00 |
| Borough of Richmond | 300,000 00 |
| | <hr/> \$3,000,000 00 |

"Provided, however, that no contract shall be made for repaving any street or avenue unless the Borough President having charge thereof submits to the Comptroller with such contract evidence showing that the original pavement on such street or avenue was laid at the expense of the abutting property owners or by local taxation or by bond issues paid by the locality before consolidation, unless the Board of Estimate and Apportionment shall otherwise determine upon presentation of the facts and circumstances affecting such street and avenue."

—be and is hereby amended to make the amount authorized two million nine hundred and eighty-one thousand four hundred and forty-nine dollars and forty-three cents (\$2,981,449.43), and the amount to be applied to the Borough of Queens three hundred and thirty-one thousand four hundred and forty-nine dollars and forty-three cents (\$331,449.43).

Which was adopted by the following vote:

Affirmative—The Mayor, the Deputy and Acting Comptroller, the Acting President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

Department of Parks, Borough of Queens—Issue of Corporate Stock (Cal. No. 41).

The Secretary presented:

Report of the Corporate Stock Budget Committee returning application of the Commissioner of Parks, Borough of Queens, for an issue of \$1,000 corporate stock to provide means for making repairs to the Barclay Mansion, in Gaynor Park, Astoria, Borough of Queens.

(On November 13, 1913, the above application was referred to said Committee, as was also, on November 20, 1913, a communication from the Commissioner of Parks, withdrawing same.)

Which was ordered filed, and the Secretary directed to return the application to the Commissioner of Parks, Borough of Queens.

Fire Department—Modification of Contract (Cal. No. 42).

(On November 27, 1912, this matter was referred to the Comptroller.)

The Secretary presented the following:

Fire Department of The City of New York, Office of the Commissioner, November 23, 1912.

Hon. WILLIAM J. GAYNOR, Mayor and Chairman of Board of Estimate and Apportionment:

Sir—The Nott Fire Engine Company, under date of December 4, 1909, contracted to furnish a second size horse drawn steam fire engine to this Department. Under date of January 28, 1910, a subsequent contract was entered into with this concern to leave off the horse equipment and substitute a gasoline tractor.

The converted steamer delivered under these contracts did not meet the requirements. Every effort was made by the contractors to keep this piece of apparatus in service without, however, any lasting success. This class of apparatus was at that time largely, in fact wholly, in an experimental stage, and for that reason the original specifications were changed and modified from time to time in the hope that a serviceable piece of apparatus might be procured.

The steamer, aside from the motive power, will meet the requirements of this Department in every particular, there being no fault whatever to be found with the boiler or pumps.

Since the delivery of this converted steamer, a new two-wheel front drive tractor has been perfected which is a proven success. Plans have been approved by the Board of Estimate and Apportionment for fifty-four pieces of fire apparatus permitting this type of tractor.

The Nott Fire Engine Company have offered to remove the present tractor from the converted steamer and attach a modern front drive tractor which has proven equal to our requirements.

Under date of May 23, 1912, the Comptroller was informed by me that this concern was ready to substitute a good serviceable tractor for the tractor which failed subject to such adjustments as would seem proper to him. I have as yet received no reply.

Mr. Wilkinson, representing the Nott concern, however, has been in touch with the Finance Department on several occasions in connection with this matter, and while he was given to understand that there would be no objection to the change, guarantee of payment, if it was carried out, would not be assured, however.

To the end that the matter be cleared up and the services of this engine be made available, the Department being in urgent need of more apparatus, it is requested that a resolution be adopted by the Board of Estimate and Apportionment permitting this change by modifying the contracts and specifications under which the present converted engine was delivered, to the extent that any part of said specifications or contracts which would be in conflict with the converted steamer when redelivered with approved tractor be not considered as binding; no liquidating damages to be assessed. The guarantee and amount of bond are to be as at present provided in contracts.

Respectfully,

JOS. JOHNSON, Fire Commissioner.

The City of New York, Department of Finance, Comptroller's Office, December 5, 1913.

To the Honorable the Board of Estimate and Apportionment:

Sirs—Under date of November 23, 1912, you referred to me an application filed by Joseph Johnson, Fire Commissioner, requesting permission to modify Contract No. 26314, entered into with the Nott Fire Engine Company December 4, 1909, for the furnishing of two second size steam fire engines, and Contract No. 27111, entered into by the company aforesaid June 28, 1910, for additions to and alterations of one second size Nott fire engine.

In his communication the Fire Commissioner states in part as follows:

"The converted steamer delivered under these contracts did not meet the requirements. Every effort was made by the contractors to keep this piece of apparatus in service, without, however, any lasting success. This class of apparatus was at that time largely, in fact, wholly, in an experimental stage, and for that reason the original specifications were changed and modified from time to time in the hope that a serviceable piece of apparatus might be procured.

"The steamer, aside from the motive power, will meet the requirements of this Department in every particular, there being no fault whatever to be found with the boiler or pumps.

"Since the delivery of this converted steamer, a new two-wheel front drive tractor has been perfected which is a proven success. Plans have been approved by the Board of Estimate and Apportionment for fifty-four pieces of fire apparatus permitting this type of tractor.

"The Nott Fire Engine Company have offered to remove the present tractor from the converted steamer and attach a modern front drive tractor which has proven equal to our requirements. * * *

"To the end that the matter be cleared up and the services of this engine be made available, the Department being in urgent need of more apparatus, it is requested that a resolution be adopted by the Board of Estimate and Apportionment permitting this change by modifying the contracts and specifications under which the present converted engine was delivered, to the extent that any part of said specifications or contracts which would be in conflict with the converted steamer when redelivered with approved tractor, be not considered as binding; no liquidating damages to be assessed."

The object endeavored to be attained by the Fire Commissioner has been accomplished through a different method of procedure, it appearing that under date of

October 23, 1913, you adopted a resolution pursuant to section 246 of the Greater New York Charter, authorizing the payment by the Comptroller of the sum of \$7,280.64 in full settlement of a claim presented by the Nott Fire Engine Company in connection with the contracts mentioned above. Payment has been made by the Department of Finance in accordance with the terms of the resolution in question. In view of said fact, no necessity now exists for the granting of the request of the Fire Commissioner, which, consequently, should be denied. Respectfully,

WM. A. PRENDERGAST, Comptroller.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment hereby denies the request of the Fire Commissioner, as specified in a communication dated November 23, 1912, for permission to modify contract No. 26,314 entered into with the Nott Fire Engine Company December 4, 1909, for furnishing two 2d size steam fire engines, and contract No. 27,111 entered into on June 28, 1910, for additions to and alterations of one 2d size Nott fire engine.

Which was adopted by the following vote:

Affirmative—The Mayor, the Deputy and Acting Comptroller, the Acting President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

The Secretary was directed to transmit a copy of the report of the Comptroller to the Fire Commissioner.

Department of Docks and Ferries—Discontinuance of Condemnation Proceedings for the Acquisition of Parcels 1, 2, 3 and 4, Between 57th and 61st Streets, Brooklyn (Cal. No. 43).

The Secretary presented:

Communication from the Commissioner of Docks recommending the discontinuance of the condemnation proceedings authorized February 8, 1907, for the acquisition of property known as Parcels Nos. 1, 2, 3 and 4, between 57th and 61st streets, Brooklyn, until such time as the marginal railway is in operation and the water-front conditions in that vicinity have been readjusted, and stating that Parcel No. 2 was purchased by the City in 1907, at private sale, for \$848,520.43; as nothing has been done with it since its acquisition, and in view of the enormous cost of acquiring the remainder of the property, the above recommendation is made.

(On November 20, 1913, the above matter was referred to the Comptroller for a report.)

(On November 26, 1913, the matter was laid over two weeks.)

The matter was laid over one week (December 18, 1913).

Department of Parks, Borough of Brooklyn—Approval of Form of Contract, etc. (Cal. No. 44).

The Secretary presented the following:

To the Board of Estimate and Apportionment:

Gentlemen—On November 6, 1913, the Commissioner of Parks, Borough of Brooklyn, requested approval of the form of contract, plans, specifications and estimate of cost in the sum of \$26,084.55, for the construction of walks, etc., in the Brooklyn Botanic Garden, Borough of Brooklyn.

The cost is to be paid from a corporate stock fund of \$30,000 approved by the Board of Estimate and Apportionment on July 17, 1911, and by the Board of Aldermen on July 25, 1911, entitled, "C. D. P.—200K, Department of Parks, Boroughs of Brooklyn and Queens, Construction of Roads, Walks, etc., in Botanic Gardens and Arboretum." On December 4, 1913, an unencumbered balance of \$29,400 remained in the fund.

The form of contract and specifications have been amended in accordance with suggestions of the Department of Finance and are now satisfactory. The plans are satisfactory, and the estimate of cost is reasonable.

I recommend the adoption of the attached resolution granting the request with the amendments noted. Respectfully,

WM. A. PRENDERGAST, Comptroller.

The following resolution was offered:

Yours very truly, MAURICE E. CONNOLLY, President of the Borough of Queens.

Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, December 5, 1913.

To the Board of Estimate and Apportionment:

Gentlemen—On November 24, 1913, the President of the Borough of Queens requested transfer of \$13.55 within appropriation to his office for the year 1913. In connection therewith I report as follows:

It is proposed to transfer the above amount from Repairs and Replacements by Contract or Open Order, Highways, Maintenance, No. 2034, Erection of Street Signs; \$12.75 of the amount is to go to Housing, Storage and Repairs of Apparatus, Machines, Harness and Vehicles, except Automobiles, No. 2047, Highways, and 80 cents to Contingencies, No. 2072, Highways.

The transfer to No. 2047 is necessary in order to liquidate the claim of the Doyle's Garage, amounting to \$32.75, for repairs to a pumping engine in the 4th Ward. The repairs had been estimated to cost \$20, and provision was made accordingly. There is consequently a deficit of \$12.75 in this account. The transfer to No. 2072 is requested so as to provide a sufficient cash balance to equal the amount of Reserve for Open Market Orders.

I recommend the adoption of the attached resolution granting the request.

Respectfully,

The City of New York, Office of the President of the Borough of Queens, Long Island City, November 22, 1913.

Hon. ARDOLPH L. KLINE, Mayor, Chairman, Board of Estimate and Apportionment, City of New York:

Yours respectfully, JOSEPH FLANAGAN, Commissioner of Public Works and Acting President of the Borough of Queens.

Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, December 5, 1913.

To the Board of Estimate and Apportionment:

Gentlemen—On November 22, 1913, the Acting President of the Borough of Queens requested transfer of \$250 within appropriations to his office for the year 1913. In connection therewith I report as follows:

It is proposed to transfer \$100 from Motor Vehicle Supplies, Supervision of Building Construction and Alteration, No. 3175, Executive, and \$150 from Carfare, Supervision of Building Construction and Alteration, No. 3256, Executive, a total of \$250, to Carfare, Supervision of Building Construction and Alteration, No. 3257, Inspection.

The allowance in No. 3257 has proved to be inadequate. The account is now practically exhausted and the transfers are requested in order to provide for the carfare expenditures of employees for the months of October and November. Sufficient balances remain in Nos. 3175 and 3256 to permit of these debit transfers.

I recommend the adoption of the attached resolutions granting the request.

Respectfully,

WM. A. PRENDERGAST, Comptroller.

President, Borough of Queens—Construction of Garbage Incinerator (Cal. No. 46).

The Secretary presented:

Report of the Comptroller referring to protests against the construction of a Garbage Incinerator on Flushing avenue, near Metropolitan avenue, Maspeth, Borough of Queens, for the Bureau of Street Cleaning, and stating that the erection of this plant should not be delayed, for the reason that the question of the disposal of garbage in said Borough is serious and the location of the proposed incinerator is good for the purpose, in view of the character of the neighborhood, and the erection of the plant should not be objectionable.

(On September 25, 1913, this matter was referred to the Comptroller.)

Which was laid over one week (December 18, 1913).

President, Borough of Brooklyn—Modification of Schedule (Cal. No. 47).
The Secretary presented the following:
The City of New York, Office of the President of the Borough of Brooklyn, Brooklyn, November 26, 1913.

Hon. WM. A. PRENDERGAST, Comptroller, Department of Finance, City of New York:
Dear Sir—I transmit herewith copy of proposed schedule No. 3055TS, Bureau of Highways, which is Horse and Vehicle account in that Department. The total amount of this schedule was \$144,465.25. Of this amount, \$22,250 was to be charged to Special and Trust Fund.

The great amount of work that has been done for which this Bureau has been reimbursed by corporations, plumbers, etc., has exceeded this appropriation, so that at the present time the balance of the fund is but \$904.19. In order to restore the openings which now exist in the pavements, and for which it will be necessary to employ vehicles to the end of the year, it will require the additional expenditure of \$5,000, and I would therefore request that this non-budgetary line be increased from \$22,250 to \$27,250.

I would thank you to have your Bureau of Statistics prepare for adoption by the Board of Estimate and Apportionment a resolution modifying this schedule in accordance with the proposed statement. This does not increase the Budget fund and allows us to use more money out of the restoring and repaving fund, which is deposited by plumbers, corporations and others to replace pavements after being opened by them. Yours very truly,

GEORGE W. TILLSON, Acting Commissioner of Public Works.
Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, December 5, 1913.

To the Board of Estimate and Apportionment:

Gentlemen—On November 26, 1913, the President of the Borough of Brooklyn requested modification of a 1913 schedule involving an increase in the Special and Trust Fund Allowance. In connection therewith I report as follows:

In Contract or Open Order Service, Transportation, Hire of Horses and Vehicles with Drivers, Care of Highways, Roadways, Viaducts and Streets, No. 3055, Tax Levy and Special and Trust Fund Force, the line "Driver with Horse and Vehicle at \$3.75 per day" is increased from 10,631 days to 11,001 days; the line "Driver with Horse and Vehicle at \$3.50 per day" is increased from 2,394 days to 2,479 days; the line "Driver with Team and Vehicle at \$6 per day" is increased from 1,470 days to 1,520 days, and the line "Driver with Team and Vehicle at \$5 per day" is increased from 17,480 days to 18,083 days. These changes increase the schedule total by \$5,000 from \$144,465.25 to \$149,465.25. The \$5,000 is added to the Special and Trust Fund Allowance, increasing it from \$22,250 to \$27,250.

The requested increase in the other than budgetary allowance is to enable the Bureau of Highways to continue to the end of the year the work of restoring openings in the pavements made by plumbers and corporations.

I recommend the adoption of the attached resolutions granting the request. Respectfully,
WILLIAM A. PRENDERGAST, Comptroller.

The following resolution was offered:

A true copy of a resolution adopted by the Board of Education on November 12, 1913.

A. E. PALMER, Secretary, Board of Education.
Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, December 5, 1913.

To the Board of Estimate and Apportionment:

Gentlemen—On November 12, 1913, the Board of Education requested the establishment of rates of compensation for Janitors of sundry public schools, pursuant to the provisions of section 56 of the Greater New York Charter. On November 25,

1913, your Board held in abeyance four items of a previous request relating to rates for the care of portable buildings in Public Schools 8, 14, 34 and 36, The Bronx pending corrections which are incorporated in the November 12 request. In connection with these matters, we report as follows:

No action is necessary on the rates requested for Public Schools 11, Manhattan, and 62, Brooklyn, as they have already been established.

The rates requested for Public Schools 16, 73 and 61, Brooklyn, and 124 and the Julia Richman High School, Manhattan, represent existing rates with rent allowances deducted. They are for Janitors regularly employed in other schools and temporarily assigned to the care of these schools to fill vacancies.

Rates are also requested for the care of temporary buildings, Public Schools 8, 14, 26, 34 and 36, The Bronx, and 53, Queens.

The request further provides for increasing the compensation of the Janitor of Public School 5, Queens, from \$1,080 to \$1,500 per annum. This is in error. The request should read Public School 1, instead of 5, and the record will be so corrected at the next meeting of the Board of Education. The School Inquiry Report, made by Professors Baskerville and Winslow, after an investigation of heating, ventilating and other conditions in thirty-two public schools of the City, states that Public School 1, Queens, has one of the most poorly operated plants in the entire system.

The Supervisor of Janitors who investigated the causes of such conditions, reports that Public School 1 has 80½ M. square feet of floor surface and 14½ M. square feet of paved surface. Its heating and ventilating equipment consists of four high pressure boilers, three steam engines and blowers and seven pumps. To care for these, there is one Janitor-Engineer at \$1,080 per annum, one Fireman, and four Cleaners. Each Cleaner has approximately 20 M. square feet of floor surface and 3½ M. square feet of paved surface to care for. This is about three times the amount of space covered by Cleaners in the Bryant High School, and almost double that by Cleaners in No. 6, Queens, Morris High School, and the Manual Training High School. It is impossible for the Engineer and Fireman to get the assistance of a Cleaner in handling coal, ashes, etc.

The Janitor is overworked, underpaid, and consequently dissatisfied. It is, therefore, proposed to increase his compensation to \$1,500 per annum.

It is further proposed to increase the compensation of the Janitor of the De Witt Clinton Evening High School from \$4 to \$9.50 per session. The Budget estimate of the Board of Education for 1914 included a request for funds to provide for new schedules at increased rates for all evening service rendered by Janitors, but the request was denied.

We recommend that the request for an increase in compensation of the Janitor of the De Witt Clinton Evening High School be disapproved, and that the other requests, as corrected, be granted by the adoption of the attached resolution. Respectfully,

WM. A. PRENDERGAST, Comptroller; O. GRANT ESTERBROOK, Acting President, Board of Aldermen, Committee on Salaries and Grades.

The following was offered:

Whereas, By opinions of the Corporation Counsel as of June 28, and July 30, 1910, the Comptroller was advised that the payment of salaries of Janitors in the Department of Education was illegal unless such salary shall have been established under the provisions of Section 56 of the Greater New York Charter; and

Whereas, The Special Committee on Janitorial Compensation and the Committee on School Inquiry, Board of Estimate and Apportionment, submitted a joint report on March 27, 1913, which contained detailed suggestions and recommendations for the reorganization of the janitorial force of the Board of Education; therefore, be it

Resolved, That, pursuant to the provisions of Section 56 of the Greater New York Charter, the Board of Estimate and Apportionment hereby recommends to the Board of Aldermen, pending action by the Board of Education on the aforesaid report, the compensation of janitors in the Department of Education be fixed temporarily and until further modified in accordance with the following list:

To the Board of Estimate and Apportionment:

Gentlemen—On September 8, 1913, the Commissioner of Docks requested \$850,000 in corporate stock for the construction of a long pier at the foot of West 46th street, North River. In connection therewith we report as follows:

The request was approved by the Commissioners of the Sinking Fund on October 29, 1913. It is proposed to construct a pier 1,000 feet long. This is part of the proposed plan for the development of the waterfront of the North River.

On July 31, 1913, \$164,000 corporate stock was authorized for hard dredging in connection with the construction of this pier. An Engineer of the Department of Finance has examined the plans and estimates prepared by the Commissioner of Docks and reports that the pier will cost about \$850,000.

It is desired to have funds for the pier construction available at once that work may be started as soon as the dredging is completed.

The Trustees of the New York Public Library, Astor, Lenox and Tilden Foundations, October 31, 1913.

Hon. ARDOLPH L. KLINE, Chairman, Board of Estimate and Apportionment, City Hall, New York:

Dear Sir—I have just been informed that my letter of September 6, on behalf of the Trustees of the New York Public Library, and addressed to Mayor Gaynor, as Chairman of the Board of Estimate and Apportionment, never reached its destination or has been mislaid. On behalf of the Trustees, therefore, I have to request that the sum mentioned may be provided promptly in accordance with the provisions of chapter 296 of the Laws of 1905, in order that there may be no delay in opening this Library to the public. Respectfully yours,

The library building was erected pursuant to that act and will probably be ready for occupancy early in 1914. It is necessary that provision for the purchase of books be made at this time that they may be properly catalogued, etc., and made available to the public as soon as the building is completed.

We recommend the adoption of the attached resolution granting the request.

Department of Parks, Borough of The Bronx—Modification of Schedules and Transfer of Appropriation (Cal. No. 62D).

The Secretary presented the following:

The City of New York, Department of Parks, Office of Commissioner for the Borough of The Bronx, Zbrowski Mansion, Claremont Park, November 25, 1913.

Honorable ADOLPH L. KLINE, Mayor, and Chairman, Board of Estimate and Apportionment, City Hall, New York City:

Sir—Application is hereby respectfully made for the transfer of funds appropriated to this department for the year 1913, as follows:

| FROM | |
|---|----------|
| 1637 Supplies, Forage and Veterinary Supplies, Care of Parks and Boulevards, Operation of Stables | \$350 00 |
| TO | |
| 1654 Purchase of Equipment, Motor Vehicles and Equipment, Administration, Executive | \$150 00 |

1686 Contract or Open Order Service, Motor Vehicle Repairs, Administration, Executive

200 00

First (to 1654)—To provide funds for the purchase of shoes, tires and inner tubes required by the automobiles owned by the department. At this date, the unencumbered balance on this account is \$41.72, but there are open market orders being prepared, the sum of which will reduce this balance to 16 cents.

Second (to 1686)—For the purpose of meeting necessary expenditures in the repair of the automobiles, which repairs are necessary in order to keep the machines in running condition. At this writing, the unencumbered balance on this account is \$76.60. There are, however, several bills which have been in the course of adjustment for some time, and which will amount to considerable more than the unencumbered balance. Whatever excess the requested transfer will leave in the account will all be needed to provide for additional repairs the balance of the year. Respectfully,

T. J. HIGGINS, Commissioner of Parks, Borough of The Bronx.

Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, December 9, 1913.

To the Board of Estimate and Apportionment:

Gentlemen—On November 25, 1913, the Commissioner of Parks, Borough of The Bronx, requested transfer of \$350 within appropriations to his Department for the year 1913.

In connection therewith I report as follows:

The transfers requested are as follows:

| TO | |
| 1654 Purchase of Equipment, Motor Vehicles and Equipment, Administration, Executive | \$150 00 |
| 1686 Contract or Open Order Service, Motor Vehicle Repairs, Administration, Executive | 200 00 |

The \$150 requested for No. 1654 is needed to provide shoes, inner tubes and tires for departmental automobiles. The appropriation was \$1,472.50, and the expenditures and liabilities thus far amount to \$1,472.34, leaving a balance of 16 cents.

The \$200 requested for account No. 1686 is for necessary repairs to automobiles and to meet outstanding liabilities. The appropriation was \$200 and the expenditures and liabilities on November 30, 1913, exceeded this amount.

There is a sufficient balance in the account to be debited for the proposed transfer.

I recommend the adoption of the attached resolutions granting the request.

Respectfully, WM. A. PRENDERGAST, Comptroller.

Department of Health—Modification of Schedule (Cal. No. 63).

The Secretary presented:

Report of the Comptroller recommending the modification of salary schedule No. 525 for the Department of Health for the year 1913, providing for the substitution of the title of Examiner, at \$3,000 per annum, to Auditor, at the same rate, in accordance with the Budget schedules for the year 1914, said modification to take effect as of December 1, 1913.

Which was withdrawn by the Deputy and Acting Comptroller.

Department of Water Supply, Gas and Electricity—Modification of Schedule (Cal. No. 64).

The Secretary presented the following:

The City of New York, Department of Water Supply, Gas and Electricity, Commissioner's Office, 13-21 Park row, New York, November 21, 1913.

Hon. WILLIAM A. PRENDERGAST, Comptroller:

Dear Sir—My request for a modification of schedule supporting account No. 707CW, Distribution, Corporate Stock and Water Revenue Force, to permit the employment of three Automobile Enginemen, was not approved for the reason that the schedule as modified did not agree with the schedule proposed for 1914.

Permit me to renew the request for the modification of the same schedule, adding only one Automobile Engineman, but dropping at the same time a vacancy for Foreman, which has existed since before October 1, from which date the modification should be effective.

Before the appropriations for 1914 are made out of the water revenue for the maintenance, extension and improvement of the water supply system of the Borough of Brooklyn, a modification of next year's schedules can be made to provide for additional Automobile Enginemen.

Yours very truly,
HENRY S. THOMPSON, Commissioner.
City of New York, Department of Finance, Bureau of Municipal Investigation and Statistics, December 9, 1913.

The request is in Personal Service, Wages, Regular Employees, Water Supply, Distribution, 707CW, Corporate Stock and Water Revenue Force.

It is proposed to change the line "Foreman, 4 at \$4 per day (303 days)" to "Foreman, 3 at \$4 per day (303 days)" and "Automobile Engineman, 1 at \$1,200 (A. S. I., \$400)." The \$12 balance is to be added to the present balance unassigned. Modification as of October 1, 1912, is requested.

The Commissioner's representative states that an Automobile Engineman at \$1,200, now attached to the Coney Island Repair Yard in the Borough of Brooklyn, was granted a six months' leave of absence without pay on account of illness on April 1, 1913. During his absence an Automobile Engineman at the same rate was appointed.

The absentee returned to work on October 1, 1913, and as an auto truck had recently been purchased for the Coney Island Repair Yard, he was reassigned to work, at that yard and modification of the existing schedule was requested. This request

was denied by your Board on the ground that the proposed schedule did not conform to the 1914 Budget Schedules established by the Budget Committee.

It is now stated that the auto truck was purchased subsequent to the preparation of the Commissioner's 1914 budget estimate for Personal Service and, as the additional Automobile Enginemen was not included in the departmental estimate, he was not considered by the Budget Committee. It is also stated that the additional Automobile Engineman can be provided for in 1914 by dropping two of the Laborers, assigned as Drivers, and allowed in the schedules for that year.

The necessary line item changes in detail are as follows:

| Code No. | Line Item. | Schedule Transfer. | | Cash Transfer. | |
|----------|--------------------------------------|--------------------|------------|----------------|-----------|
| | | Decrease. | Increase. | Decrease. | Increase. |
| 707CW | Automobile Engineman | | \$1,200 00 | | \$300 00 |

I recommend the adoption of the attached resolution granting the request.

Respectfully,
WM. A. PRENDERGAST, Comptroller.

Hon. ARDOLPH L. KLINE, Mayor, and Chairman of the Board of Estimate and Apportionment:

Sir—In order to provide for the continuation of the employment of two Machinist's Helpers in the Bureau of Ferries for the remainder of the year 1913 I request a modification of the wage schedule and transfer of funds as follows:

Personal Service, Wages, Temporary Employees, Ferries, 251, Maintenance.

Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, December 9, 1913.

To the Board of Estimate and Apportionment:

Gentlemen—On November 19, 1913, the Commissioner of Docks requested modification of two wage schedules in his department for the year 1913. In connection therewith I report as follows:

In Personal Service, Wages Temporary Employees, Ferries, No. 251, Maintenance, the line, "Machinist's Helper at \$3 per day, 606 days," is changed to read 682 days. The amount necessary for this increase, \$228, is obtained by transfer from Ferries, No. 252, Operation, in which the number of days in the line "Marine Stoker at \$3 per day, 1,080 days," is reduced to 1,004 days.

The increase in the number of days of Machinist's Helper is necessary in order to continue the work of the Ferry Bureau for the remainder of the year.

I recommend the adoption of the attached resolutions granting the request.

Respectfully,
WM. A. PRENDERGAST, Comptroller.

Department of Water Supply, Gas and Electricity—Appropriation from Water Revenues Received in Brooklyn During 1913 (Cal. No. 68).

The Secretary presented the following:

The City of New York, Department of Water Supply, Gas and Electricity, Commissioner's Office, 13-21 Park Row, New York, November 21, 1913.

Mr. JOSEPH HAAG, Secretary, Board of Estimate and Apportionment:

Dear Sir—The schedule supporting account No. 723W, Wages, Temporary Employees, Water Revenue Force, was modified in May last by adding additional days for Drivers and for Laborers, making a net increase of \$2,654.50. No further appropriation, however, was made under section 242 of the Charter to provide for this increase in the schedule, for the reason that there was no immediate necessity for the money, and it was possible that the amount would change before the end of the year.

It has now been definitely determined that the full amount will be required, and I respectfully request that the Board of Estimate and Apportionment make a further appropriation of \$2,654.50 under section 242 of the Charter, crediting the amount to account No. S-380. Yours very truly,

HENRY S. THOMPSON, Commissioner.

Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, December 9, 1913.

To the Board of Estimate and Apportionment:

Gentlemen—On November 21, 1913, the Commissioner of Water Supply, Gas and Electricity requested an appropriation of \$2,654.50 from the 1913 Brooklyn water revenues, pursuant to the provisions of section 242 of the Greater New York Charter, to replenish the account established for his Department entitled "S-380, Personal Service, Wages, Temporary Employees, Water Supply, Distribution, 723W, Water Revenue Force, Water Revenue Allowance."

On May 8, 1913, your Board approved a modification of schedule 723W, increasing the total thereof from \$16,665 to \$19,319.50, an increase of \$2,654.50. No additional appropriation was, however, requested at that time as the actual needs of the Department could not be foreseen. The Commissioner now states that it has been definitely determined that the full amount of the schedule total will be required.

In order that the appropriation for account S-380 may be equal to the requirements of the schedule approved by your Board for that account, I recommend the adoption of the attached resolution granting the request.

Respectfully, WM. A. PRENDERGAST, Comptroller.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment, pursuant to the provisions of subdivision 1 of section 242 of the Greater New York Charter, hereby appropriates from the water revenues received in the Borough of Brooklyn during the year 1913 the sum of two thousand six hundred and fifty-four dollars and fifty cents (\$2,654.50) for the use of the Department of Water Supply, Gas and Electricity in the maintenance, improvement and extension of the water supply system in the Borough of Brooklyn during the year 1913, said appropriation to be in addition to all appropriations hitherto made for said purpose, and to be used to replenish the account entitled "S-380, Personal Service, Wages, Temporary Employees, Water Supply, Distribution, 723W, Water Revenue Force, Water Revenue Allowance."

Which was adopted by the following vote:

Affirmative—The Mayor, the Deputy and Acting Comptroller, the Acting President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

Department of Water Supply, Gas and Electricity—Modification of Schedule (Cal. No. 69).

The Secretary presented the following:

The City of New York, Department of Water Supply, Gas and Electricity, Commissioner's Office, 13-21 Park Row, New York, December 1, 1913.

Hon. WILLIAM A. PRENDERGAST, Comptroller:

Dear Sir—A vacancy occasioned by the death of an employee of the Water Registrar's Bureau, for which position provision is made in next year's schedule, leaves available money which can be used for rewarding deserving employees.

In order that I may do so, will you kindly recommend to the Board of Estimate and Apportionment their approval of the enclosed modification of the schedule supporting account No. 683. Yours truly,

HENRY S. THOMPSON, Commissioner.

Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, December 9, 1913.

The change from the present schedule consists in the reduction of the number of Topographical Draftsmen at \$1,200 from three to two, and the addition of a Junior Draftsman at \$1,050, and the addition of an item unassigned of \$150. No increase in the schedule total is required. The object of the modification is to permit of the transfer of a Junior Draftsman from another department of the City, whom we find it necessary to employ to take the place of a Topographical Draftsman now vacant. The schedule of the Bureau of Topography for the year 1914 provides for this position and no change will be required in that schedule.

Yours truly, GEORGE CROMWELL, President of the Borough.

Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, December 9, 1913.

To the Board of Estimate and Apportionment:

Gentlemen—On December 4, 1913, the President of the Borough of Richmond requested modification of one salary schedule within appropriation for the year 1913. In connection therewith I report as follows:

It is proposed in account Personal Services, Engineering, No. 3285C, Topographical, to change the line "Topographical Draftsman, 3 at \$1,200" to read "Topographical Draftsman, 2 at \$1,200; *Junior Draftsman, 1 at \$1,050 (A. S. I., \$250)," the \$150 difference to be balance unassigned (A. S. I.).

The purpose of this change is to enable the President to secure the services of Mr. Henry Decker, by transfer from the Department of Water Supply, Gas and Electricity, where he now receives \$900 per annum.

This request if approved is in accordance with the proposed schedule for the year 1914.

I recommend the adoption of the attached resolution granting the request.

Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, December 9, 1913.

To the Board of Estimate and Apportionment:

Gentlemen—On November 14, 1913, the Commissioner of Docks requested modification of one salary schedule in his department for the year 1913. In connection therewith I report as follows:

The modification requested was to permit an increase in the salary of George R. Murphy, Stenographer and Typewriter, from \$900 to \$1,100 per annum. This increase would not conform with the schedule allowance of the 1914 budget. The position of Mechanical Engineer which it is proposed to drop to provide for the increase was not allowed in the 1914 budget.

I recommend that the request be denied.

Respectfully, WM. A. PRENDERGAST, Comptroller.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment hereby denies the request of the Commissioner of Docks, as set forth in a communication dated November 14, 1913, for the modification of salary schedules Nos. 229 and 237 for the year 1913.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

The Secretary was directed to transmit a copy of the report of the Comptroller to the Commissioner of Docks.

The City of New York, Board of City Record, Office of the Supervisor, 13-21 Park Row, December 1, 1913.

Hon. JOSEPH HAAG, Secretary, Board of Estimate and Apportionment:

Dear Sir—I respectfully request a modification of the salary schedule made to the Board of City Record, Code No. 1161, 1913, Personal Service, Salaries, Regular Employees, Administration, Executive, as follows:

Eliminating the following schedule lines:

| | |
|---|------------|
| 1 Stenographer and Book Typewriter at \$1,500 | \$1,500 00 |
| 2 Clerks at \$1,200 | 2,400 00 |

| *Balance unassigned (A. S. I.) | 670 00 |
| *Balance unassigned (N. A. S. I.) | 180 00 |
| | \$5,530 00 |

Substitute therefor the following schedule lines:

| | |
|---|------------|
| *1 Clerk at \$1,800 (A. S. I., \$800) | \$1,800 00 |
| *1 Clerk at \$1,500 (A. S. I., \$700) | 1,500 00 |
| *1 Clerk at \$1,200 (A. S. I., \$400) | 1,200 00 |
| *2 Clerks at \$300 (N. A. S. I.) | 600 00 |
| *Balance unassigned (A. S. I.) | 70 00 |
| *Balance unassigned (N. A. S. I.) | 360 00 |
| | \$5,530 00 |

Bethel, Clerk at \$1,200, to Clerk at \$1,500, and to appoint one new Clerk at \$300. These changes are made necessary on account of the resignation of the Secretary and Chief Clerk.

The grades for the above positions were recently established in the City Record office by the Board of Estimate and Apportionment and the Board of Aldermen.

It is requested that this modification be made effective as of December 1, 1913.

Respectfully, DAVID FERGUSON, Supervisor of the City Record.

Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, December 9, 1913.

To the Board of Estimate and Apportionment:

Gentlemen—On December 1, 1913, the Supervisor of the City Record requested modification of the 1913 salary schedule entitled, "Board of City Record, Personal

Service, Salaries, Regular Employees, Administration, No. 1161, Executive." In connection therewith I report as follows:

The purpose is to increase the salary of Miss Rose McShane, Stenographer and Book Typewriter, at \$1,500 per annum to Clerk at \$1,800, and Mr. Edgar A. Bethel, Clerk, from \$1,200 to \$1,500 per annum. It is also proposed to provide for one new Clerk at \$300 per annum. These changes are made necessary on account of the resignation of the Secretary and Chief Clerk at \$2,500 per annum.

The grades of position of Clerk at \$1,800 and \$1,500 per annum were established by the Board of Estimate and Apportionment on October 16, and by the Board of Aldermen on November 25, 1913.

The \$600 necessary to meet the increases is provided by an unassigned balance available for salary increases. The incumbents have been provided for at the increased rates in the Budget for 1914.

It is also proposed to decrease a vacant position of Clerk at \$480 per annum to \$300 to provide for an additional Clerk. The difference, \$180, is carried as unassigned balance. Provision has been made for the additional Clerk in the Budget for 1914.

Hon. WILLIAM A. PRENDERGAST, Comptroller:

Dear Sir—Will you kindly submit to the Board of Estimate and Apportionment, with your approval, the enclosed schedules supporting Accounts Nos. 694C and 714C?

These schedules as modified will permit the change of title from Foreman of Bricklayers to Bricklayer, of an employee who has served efficiently for the past six years. The schedules adopted for next year do not provide for Foreman of Bricklayers, but there is provision for several Bricklayers. Yours truly,

HENRY S. THOMPSON, Commissioner.

The Commissioner states that the requested modifications will permit the change in title, from Foreman of Bricklayers to Bricklayer, of an employee who has served efficiently for the past six years, and thereby provide for his employment during 1914. Modification as of December 18, 1913, has been requested by the Commissioner's representative.

Commissioners of Accounts—Modification of Schedule (Cal. No. 76).

The Secretary presented the following:

City of New York, Office of the Commissioners of Accounts, Municipal Building, December 2, 1913.

Honorable Board of Estimate and Apportionment, 277 Broadway, Manhattan:

Sirs—Request is hereby made for a modification of the 1913 Budget for the office of the Commissioners of Accounts in schedule line No. 1953, supporting the salary appropriations for this Commission, effective December 1, 1913.

The modification is requested for the purpose of securing additional needed service to this Commission by the division of the position of third grade Accountant, annual rate \$1,650 (vacant), into the two positions of one second grade Clerk, annual salary \$1,050, and one first grade Clerk, annual salary \$540.

These positions are not created for the purpose of increasing salaries of present employees. It is also requested that this modification be made effective as to the schedule lines supporting the salary appropriations for this Commission for the year 1914.

The modified schedules attached hereto show the necessary changes to be made in the schedule lines supporting the salary appropriations of this Commission for the years 1913 and 1914; also the unassigned balances. The modification does not increase the budgetary appropriations of the above codes for the years 1913 and 1914.

Very truly yours,

HARRY M. RICE, Commissioner of Accounts.

Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, December 9, 1913.

To the Board of Estimate and Apportionment:

Gentlemen—On December 2, 1913, the Commissioner of Accounts requested modification of a salary schedule in his office for the year 1913, and a salary schedule also in his office for the year 1914. This request was since verbally amended. In connection therewith I report as follows:

In Personal Service, Salaries, Regular Employees, Administration, No. 1953, Accounting, the line "Accountant, 3 at \$1,650," is changed to read, "Accountant, 2 at \$1,650"; "Clerk, 1 at \$1,900 (N. A. S. I., \$300)"; "Clerk, 1 at \$540 (A. S. I.)"; "Balance unassigned (A. S. I., \$10)," and "Balance unassigned (N. A. S. I.), \$200." The vacant position of Accountant at \$1,650 is subdivided into Clerk at \$900 and a Clerk at \$540, and of the balance \$10 is carried to the line "Balance unassigned (A. S. I.)," and \$200 is carried to the line "Balance unassigned (N. A. S. I.)." Neither of the positions so created are to be used for purposes of salary increases.

Since this office has moved to the new Municipal Building with much larger quarters, the duties hitherto performed by the present force of first grade Clerks cannot be properly attended to, it has been found necessary to have a Clerk engaged in the inner offices to discharge some of the work formerly performed by the boys in the outer offices in the old quarters; besides, he will be required to relieve those engaged in general office duties. The Clerk at \$900 is to be used in assisting the Accountants in the field.

The following tables show the line changes in detail:

| Code No. | Schedule Line. | Schedule Transfer. | | Cash Transfer. | |
|----------|---|--------------------|------------|----------------|-----------|
| | | Increase. | Decrease. | Increase. | Decrease. |
| 1953 | Accountant, 3 at \$1,650..... | | \$1,650 00 | | \$137 50 |
| | *Clerk, 1 at \$900 (A. S. I., \$300)..... | \$960 00 | | \$75 00 | |
| | *Clerk, 1 at \$540 (A. S. I., \$180)..... | 540 00 | | 45 00 | |
| | Balance unassigned (A. S. I.)..... | 10 00 | | 83 | |

| | | \$1,650 00 | \$1,650 00 | \$137 50 | \$137 50 |

I recommend the adoption of the attached resolutions granting the request.

Respectfully,

WM. A. PRENDERGAST, Comptroller.

The only change from the present schedule is in the line "Driver, with team and vehicle," at \$5 per day, an increase of 216 days. Respectfully,

CYRUS C. MILLER, President, Borough of The Bronx.

Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, December 9, 1913.

To the Board of Estimate and Apportionment:

Gentlemen—On December 1, 1913, the President of the Borough of The Bronx requested modification of four wage schedules involving a transfer of \$4,792.50. In connection therewith I report as follows:

It is proposed to keep in employment the present temporary highway force for the remainder of the year by the transfer of available money appropriated for the working force of the asphalt plant. Because of the extensive and necessary road operations carried on during the summer the money now remaining available for the payment of the temporary highway force is insufficient to pay for the necessary help for the early winter clean-up of leaves and other debris.

It is proposed to transfer the sum of \$3,712.50 from "Wages, Temporary Employees, Care of Highways, No. 2846TS—Roadways, Viaducts and Streets."

This will change the schedule lines in 2846TS as follows:

| |
|--|
| Foreman, at \$4 per day, from 7,429 days to 7,500 days. |
| Rammer, at \$4 per day, from 1,870 days to 1,899 days. |
| Laborer, at \$2.50 per day, from 87,693 days to 89,178 days. |
| Carpenter, at \$4.50 per day, from 488 days to 482 days. |
| Paver, at \$5 per day, from 3,750 days to 3,721 days. |
| Laborer, at \$2.75 per day, from 1,908 days to 1,844 days. |
| Painter, at \$4 per day, from 755 days to 742 days. |

It is also proposed to transfer the sum of \$1,080 from "Contract or Open Order Service, Transportation, Care of Highways, No. 2905TS—Asphalt Plant" to "Transportation, Care of Highways, No. 2904TS—Roadways, Viaducts and Streets" thereby changing the line Driver with Team and Vehicle, at \$5 per day, from 15,581 days to 15,812 days and decreasing the line Driver with Horse and Vehicle, at \$3 per day, from 665 days to 640 days.

I recommend the adoption of the attached resolutions granting the request.

Respectfully, WM. A. PRENDERGAST, Comptroller.

| Clerk, 27 at \$600 | 16,200 00 | Gentlemen—On November 12, 1913, the Commanding Officer of the First Field Hospital, National Guard, N. Y., requested that provision be made to provide for the compensation of a Laborer, for the care of horses, at the rate of \$3 per day, from November 7 to December 31, 1913. On November 24, 1913, an additional request was made to provide for an Engineer at \$4 per day from October 15 to December 31, 1913, and for an Assistant Engineer at \$4 per day, and two Laborers at \$3 per day, from December 1 to December 31, 1913. In connection therewith I report as follows: | |
| *Clerk, 3 at \$480 | 1,440 00 | The First Field Hospital is quartered together with the Third Ambulance Company in an armory at 56 West 66th street, Manhattan. Until recently this armory was occupied by the First Regiment of Field Artillery and a small portion of the armory was assigned to the First Field Hospital. The First Regiment of Field Artillery is now quartered in the old armory of the Twenty-second Regiment and the former space occupied by this organization in the armory on 66th street is now occupied by the First Field Hospital. As this change has greatly increased the size of the armory of the First Field Hospital, request is made by the Commanding Officer for provision for the additional employees for the proper care of the armory, as provided by the Military Law. | |
| *Clerk (N. A. S. I.) | 480 00 | Section 187 of the Military Law, as amended by chapter 558 of the Laws of 1913, provided for the employment of Engineers and Assistant Engineers and reads, in part, as follows: | |
| Clerk | 300 00 | " * * * If an armory be heated by steam there shall be allowed one chief engineer and also one assistant engineer if the commanding officer of the brigade to whose command the organization occupying such armory belongs or the major general or the commanding officer of the naval militia as the case may be shall approve the employment of an assistant engineer * * * " | |
| *Clerk | 300 00 | On October 1, 1913, the Commanding General, Division National Guard, New York, certified, in pursuance of the above section, "that the armory of the First Field Hospital, N. G., N. Y., 56-62 West 66th street, New York City, requires and that there is necessary for it one Engineer and one Assistant Engineer to care for and to run the machinery of the heating plant erected in the armory." The Commanding Officer of the First Field Hospital has, therefore, employed one Engineer and one Assistant Engineer. The Engineer was employed on October 15, 1913, the day that the First Regiment of Field Artillery transferred their Engineer to their new quarters. It is proposed to provide for the compensation of the Assistant Engineer from December 1 to December 31, 1913, as the armory was officially turned over to the First Field Hospital on December 1, 1913. | |
| Financial Clerk | 1,650 00 | Section 188 of the Military Law, as amended by chapter 558 of the Laws of 1913, provides for the employment of Laborers and reads, in part, as follows: | |
| *Financial Clerk (A. S. I., \$400) | 1,200 00 | "To provide for the proper care and cleanliness of armories and arsenals and of the property therein deposited, the officer having control and charge of an armory or arsenal may appoint laborers as follows: For armories or arsenals having ten thousand square feet or less of floor surface, one laborer; when the floor surface exceeds twenty thousand square feet, two laborers; and for each twenty thousand in excess of twenty thousand, an additional laborer * * * . For all armories in addition to the above there shall be allowed one laborer to each ten horses or mules therein stabled and used for military purposes by the organization quartered therein. * * * Before any such appointment is made, the necessity for the employment of such laborer or laborers shall be certified by the commanding officer of the division, of the naval militia or of the brigade, as the case may be, and such certificate shall be filed in the office of the disbursing officer of the county in which the armory or arsenal is situated. A certificate of the number of feet of floor surface of each armory or arsenal in which laborers are appointed shall be made by the engineer of the division or the brigade and approved by the commanding officer of the division, of the naval militia or brigade to whose command the organization quartered in such armory or arsenal belongs * * * " | |
| Financial Clerk | 1,050 00 | Pursuant to the above section, the Commanding General on October 11, 1913, certified, upon the certificate of the Chief of the Engineer Division, National Guard, that the armory of the First Field Hospital "consists of 40,265.7 square feet" and that therefore, under the provisions of the Military Law, two Laborers are necessary to provide for the proper care and cleanliness of the armory and of the property therein deposited. Upon this approval, the Commanding Officer has appointed two Laborers | |

and requests that provision be made to provide for their compensation from December 1 to December 31, 1913.

On November 17, 1913, the Brigadier General certified that the necessity exists for the employment, pursuant to the provisions of section 188 of the Military Law, of one Laborer to act as Hostler at the armory of the First Field Hospital. The Commanding Officer has, therefore, upon this certificate, appointed a Laborer to provide for the care of ten horses stabled in the armory and used for military purposes. As these horses have been stabled in the armory since November 7, 1913, request is made to provide for the compensation of the Laborer from that date.

Section 189 of the Military Law, as amended by chapter 558 of the Laws of 1913, provides for the compensation of employees in armories, and reads, in part, as follows:

"The persons appointed under the provisions of the two preceding sections shall receive compensation for the time actually and necessarily employed in their duties, to be fixed by the officer appointing such persons, as follows: When employed in armories or arsenals, armorers, janitors, electricians and engineers not to exceed four dollars per day. * * * Laborers not to exceed three dollars per day."

Pursuant to the provisions of this section, the Commanding Officer has fixed the compensation of the Engineer and Assistant Engineer at \$4 per day and the Laborers at \$3 per day. Request is now made by the Commanding Officer to provide for the compensation of the employees at the above rates for the balance of the year. As there is no provision for these employees it will be necessary to issue special revenue bonds as follows:

| | |
|--|-----------------|
| Engineer, at \$4 per day, from October 15 to December 31, 1913..... | \$312 00 |
| Assistant Engineer, at \$4 per day, from December 1 to December 31..... | 124 00 |
| Laborers, 2 at \$3 per day, from December 1 to December 31..... | 186 00 |
| Laborer for the Care of Horses, at \$3 per day, from November 7 to December 31 | 165 00 |
| | \$787 00 |

Section 189 of the Military Law provides that such compensation shall be a county charge upon the county in which such armory or arsenal is situated, and subdivision 7 of section 188 of the Greater New York Charter authorizes the Comptroller to issue special revenue bonds to provide for the payment of charges by counties wholly included within the limits of the City of New York.

Provision has been made in the 1914 Budget for all of the above employees with the exception of the Laborer for the care of horses.

Special revenue bonds to the amount of \$787 will be issued to provide for the compensation of the employees for the remainder of the year.

I recommend the adoption of the attached resolution, modifying the schedule of the organization to permit of the proper audit.

Respectfully, WM. A. PRENDERGAST, Comptroller.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment hereby approves of the schedule, as revised, for the National Guard and Naval Militia, County of New York, for the year 1913, to be effective as of October 15, 1913, as follows:

Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, December 9, 1913.

To the Board of Estimate and Apportionment:

Gentlemen—On December 1, 1913, the President of the Borough of The Bronx requested approval of a form of final contract for the services of Andrew J. Thomas, No. 2526 Webster avenue, The Bronx, as architect for the preparation of complete plans, specifications, etc., and the supervision of the construction of a proposed public comfort station to be located in the Public Place at 149th street and Bergen avenue, Borough of The Bronx.

The contract states that the architect, under a preliminary contract, submitted an estimate showing a total estimated cost of the proposed building, including architect's fees, of \$20,097.60. Upon this basis the total fee payable under this contract to the architect is \$707.03, or five (5) per cent. of the estimated cost of the construction work, less the amount payable under the preliminary contract. This amount is reasonable.

The cost of the proposed contract is to be charged to the corporate stock fund entitled "C. P. X.—17A, Borough of The Bronx, Construction of Public Comfort Station at 149th Street and Bergen Avenue." An authorization in the sum of \$25,000 was approved for the fund by the Board of Estimate and Apportionment on July 17, 1911, and concurred in by the Board of Aldermen on July 25, 1911. The location of the comfort station was to be at 138th street and 3d avenue. By resolution adopted by the Board of Estimate and Apportionment on July 10, 1913, and concurred in by the Board of Aldermen on July 15, 1913, the location was changed to 149th street and Bergen avenue. On December 6, 1913, an unencumbered balance of \$24,750 remained in the fund.

The form of contract is the same as that prepared by the Corporation Counsel for final architect's contracts.

I recommend the adoption of the attached resolution granting the request.

Respectfully, WM. A. PRENDERGAST, Comptroller.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment, pursuant to its resolution of July 11, 1912, hereby approves of the form of final contract and estimate of cost in the sum of seven hundred and seven dollars and three cents (\$707.03) for the services of Andrew J. Department of Water Supply, Gas and Electricity—Issue of Special Revenue Bonds and Approval of Schedules (Cal. No. 87).

In the Board of Aldermen.

Resolved, That, in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and it is hereby requested to authorize the Comptroller to issue special revenue bonds to the amount of fourteen thousand dollars (\$14,000), the proceeds whereof to be used by the Department of Water Supply, Gas and Electricity for the purpose of purchasing coal for pumping stations in an amount not to exceed in cost the sum of \$11,000, and purchasing hypochlorite of lime in an amount not to exceed in cost \$3,000.

All obligations contracted for hereunder to be incurred on or before December 31, 1913.

Adopted by the Board of Aldermen November 18, 1913, three-fourths of all the members voting in favor thereof.

Received from his Honor the Mayor December 2, 1913, without his approval or disapproval thereof; therefore, as provided in section 40 of the Greater New York Charter, the same took effect as if he had approved it. P. J. SCULLY, Clerk.

City of New York, Department of Finance, Bureau of Municipal Investigation and Statistics, December 9, 1913.

To the Board of Estimate and Apportionment:

Gentlemen—On November 18, 1913, the Board of Aldermen requested \$14,000 in special revenue bonds, the proceeds whereof to the extent of \$11,000 to be used by the Department of Water Supply, Gas and Electricity for the purchase of coal for pumping stations, and \$3,000 for the purchase of hypochlorite of lime; all obligations contracted for thereunder to be incurred on or before December 31, 1913. In connection therewith I report as follows:

Under date of November 3, 1913, the Commissioner of Water Supply, Gas and Electricity requested \$17,000 in special revenue bonds, of which \$14,000 was intended for the purchase of coal to operate the pumping stations in the Boroughs of Manhattan, The Bronx and Richmond until December 31, 1913, and to allow a thirty days supply on hand at that date, and \$3,000 to provide for the purchase of hypochlorite of lime, required for the proper protection of the water supply during the remainder of 1913 and during the first two weeks in 1914.

The detailed estimate on which the Commissioner's request for additional coal for pumping stations was based was submitted with the request by the Engineering Bureau of that Department. This estimate shows the average daily consumption at each pumping station for the first nine months of 1913, the amount on hand at these stations on September 30, 1913, the date on which it is estimated this supply will be exhausted, and the number of additional tons required at each station for operation up to January 31, 1914, with the estimated cost of the same. The total estimated cost for Manhattan, The Bronx and Richmond is \$15,650. The amount requested by the Board of Aldermen for this purpose is \$11,000.

Bids opened on November 19, 1913, on which the Commissioner proposes to award contracts, total \$4,048 for the Boroughs of Manhattan and The Bronx, and \$7,049 for the Borough of Richmond, a grand total of \$11,097. The unencumbered balance in the 1913 appropriation for fuel, on November 21, 1913, was \$267,088, a portion of which will be required for cartage on coal to stations not covered in the proposed contracts.

The request for \$3,000 for the purchase of hypochlorite of lime is based upon

estimated requirements of 30,000 pounds for general use in the Croton watershed and 200,000 pounds to be delivered at Dunwoodie, where the main chlorinating plant is in operation. The 1913 appropriation for the purchase of this material is exhausted and no funds are available for the payment of lime used since.

From statements of the Commissioner's Engineers, it appears that approximately 3,400 pounds of hypochlorite of lime are used daily at the Dunwoodie chlorinating plant and about 15 per cent. additional at the four smaller plants, making a total daily consumption of 3,910 pounds. For the 57 days from November 18, 1913, to January 14, 1914, when deliveries from the 1914 appropriation will be available, there will be required, on this basis, 222,870 pounds. The present price for this material is given as \$0.01469 per pound, making the total estimated amount necessary \$3,273.96. The \$3,000 requested by the Commissioner appears, therefore, to be no greater than the probable needs of the Department.

I recommend the adoption of the attached resolution granting the request.
Respectfully,
WM. A. PRENDERGAST, Comptroller.

To the Board of Estimate and Apportionment, City of New York:

| Incidentals | 250 00 |
| | \$1,750 00 |

Private Secretary.

The Private Secretary shall perform all the duties generally performed by other persons holding similar positions in the Supreme and County Courts throughout the State of New York; to take proper care of the Court's correspondence, examine citations and cases, and to do and perform all work and services of a confidential nature required by the Judge.

The County Court of Bronx County is a new Court, and it is expected that the volume of business, in view of the large population, which is estimated at some six hundred thousand, and in view of the fact that there is but one Judge to handle all the business of the Court, will be greater in proportion to the business handled by any other County Court in the State, and it will be necessary to have a man of ability and experience to assist the Court in taking care of the said business.

County Detectives.

The two Detectives which I request are provided for by the General County Law, Laws of 1897, chapter 62, as amended by chapter 532, Laws of 1900.

The positions are mandatory, and the necessity for an appropriation to cover them is quite essential. One Detective is to be assigned as a parole or probation

officer, under my direct supervision, to whom all prisoners under suspended sentence must report from time to time, and a statement must be prepared by him, to be submitted to me, showing the results of the parole system in use in this Court.

The other Detective is to investigate the records, environment and associations of all persons convicted of a crime, awaiting sentence, in order that I make a proper disposition of all such criminal cases.

Court Stenographer.

The duties of a Court Stenographer and the necessity for his appointment are so apparent that further details are unnecessary, and it remains simply to ask that the salary of the position be fixed at thirty-six hundred dollars per annum, which is equivalent to the salaries paid Court Stenographers in the Supreme Court of the First Judicial District, Court of General Sessions of the Peace and County Court of Kings County.

Interpreter.

By reason of the mixed nationality of the people of The Bronx the Interpreter should be able to speak many languages and be a man of considerable intelligence. He may be required to interpret Italian, Jewish, German, Polish, Russian and other languages, and for that reason I suggest that his salary be fixed at twenty-five hundred dollars (\$2,500).

Crier.

The Crier shall perform such duties as are at present required of him by law, to open and close Court, assist in swearing witnesses, and, in addition, I propose to have him act in this Court as the chief Court Attendant to supervise the work of the other Attendants under him, and also to act as Warden of the Grand Jury when so required. Owing to the responsibilities of his position I believe that his salary should be fixed at not less than two thousand dollars (\$2,000).

Court Attendants.

I have asked for five Court Attendants, two at eighteen hundred dollars each per annum, three at fifteen hundred dollars each per annum. In order that the business of the Court may be properly transacted, it will be quite imperative that this number be allowed me, inasmuch as one will be assigned to the pen to guard prisoners, one at the door, two to take care of the jury, and one in and about the courtroom to carry messages and to perform such other duties as the position may demand.

Contingencies.

I need make no comment regarding the items under the remaining code numbers, only to call your attention to the items enumerated under No. 3339.

The necessity for the hiring of temporary Interpreters from time to time is quite apparent, and, estimating the number of days used in Kings and Queens Counties, I believe that one hundred (100) days at five dollars (\$5) per day, amounting to five hundred dollars (\$500) would no doubt cover the item.

It is expected that the volume of business of this Court will be so great, owing to the large population of The Bronx, that it will be quite necessary from time to time for me to call upon County Judges in other Counties to assist me in disposing of the business of the Court, and I believe that the amount requested, one thousand dollars (\$1,000), will cover the expense of paying their salaries, transportation, etc., for such service.

Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, December 10, 1913.

To the Board of Estimate and Apportionment:

Gentlemen—On December 4, 1913, the County Judge-elect of Bronx County requested the establishment, pursuant to the provisions of chapter 548 of the Laws of 1912, as amended by chapter 266 of the Laws of 1913, of eleven positions for the court. In connection therewith I report as follows:

Chapter 548 of the Laws of 1912, as amended by chapter 266 of the Laws of 1913, provides that the other than statutory positions in the court shall be established and the salaries thereof fixed by the Board of Estimate and Apportionment of The City of New York. The County Judge-elect requests the establishment of the following positions:

| | |
|--------------------------------------|------------|
| Private Secretary | \$3,000 00 |
| County Detective, 2 at \$2,000 | 4,000 00 |
| Court Stenographer | 3,600 00 |
| Interpreter | 2,500 00 |
| Crier | 2,000 00 |
| Court Attendant, 2 at \$1,800 | 3,600 00 |
| Court Attendant, 3 at \$1,500 | 4,500 00 |

The duties which will be imposed on the County Court are at present now within the jurisdiction of the Courts in New York County. An examination into the number of cases which will probably be transferred to the Bronx County Court indicates that the following positions will be sufficient for the court:

| | |
|-------------------------------------|-------------|
| Secretary | \$3,000 00 |
| County Detective | 1,500 00 |
| Court Stenographer | 3,000 00 |
| Interpreter | \$5 per day |
| Court Crier | 2,000 00 |
| Court Attendant, 4 at \$1,500 | 6,000 00 |

Upon the establishment by the Board of Estimate and Apportionment of these positions for the County Court of Bronx County, provision for the payment of the salaries may be made by the Comptroller, pursuant to the provisions of subdivision 7 of section 188 of the Greater New York Charter.

I recommend the adoption of the attached resolution establishing the necessary positions and fixing the salaries thereof in the County Court of Bronx County.

Respectfully,

WM. A. PRENDERGAST, Comptroller.

The following resolution was offered:

The Secretary presented the following:

In the Board of Aldermen.

All obligations contracted for hereunder to be incurred on or before December 31, 1913.

Adopted by the Board of Aldermen November 18, 1913, three-fourths of all the members voting in favor thereof.

Received from his Honor the Mayor December 2, 1913, without his approval or disapproval thereof; therefore, as provided in section 40 of the Greater New York Charter, the same took effect as if he had approved it.

P. J. SCULLY, Clerk.

In the Board of Education.

Resolved, That the resolution adopted by the Board of Education on October 8, 1913 (see Journal, page 1656) relative to the issue of special revenue bonds to the amount of \$6,675 for the purpose of providing means to defray the cost of reconnecting the present fire alarm system of Public Schools 1, 3, 4, 5, 6, 7, 8, 9, 11, 12, 32, 43, 45, 54, 58, 69, 78, 111, 133, 157, Bay Ridge High School Annex, Manual Training High School Annex and the office and storage building, Borough of Brooklyn, to the new underground fire alarm telegraph system now being installed by the Bureau of Fire Alarm Telegraph of the Fire Department, be and it is hereby amended by striking out Public School 43 and Bay Ridge High School Annex, and inserting in lieu thereof Public School 42 and Boys' High School Annex, and that the Board of Aldermen and the Board of Estimate and Apportionment be requested to take such action as may be made necessary by this amendment.

A true copy of resolution adopted by the Board of Education on December 10, 1913.

A. E. PALMER, Secretary, Board of Education.

Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, December 9, 1913.

To the Board of Estimate and Apportionment:

Gentlemen—On November 18, 1913, the Board of Aldermen requested an issue of special revenue bonds to the amount of \$6,675 to provide means to defray the cost of reconnecting the present fire alarm system of public schools 1, 3, 4, 5, 6, 7, 8, 9, 11, 12, 32, 43, 45, 54, 58, 69, 78, 111, 133, 157, Bay Ridge High School Annex, Manual Training High School Annex, and the office and storage building, Borough of Brooklyn, to the new underground fire alarm telegraph system now being installed by the Bureau of Fire Alarm Telegraph of the Fire Department, all obligations contracted for thereunder to be incurred on or before December 31, 1913. In connection therewith I report as follows:

All of these buildings are now connected to the pole lines of the Fire Department. The removal of the Fire Department lines from the poles to the underground conduits necessitates changing the connections to the buildings within the zone of the underground conduits. In many places the cables now laid in underground conduits between the buildings and the pole will have to be removed and replaced with new cable. All of the work contemplated consists of replacements of existing work, either in the same or in different locations, and constitutes a proper charge against special revenue funds. The estimate of cost is reasonable.

Through errors in the original request, Public School 43 should read 42 and Bay Ridge High School Annex should read Boys' High School Annex. The Board of Education will take measures to correct these errors at the next meeting and at their request such corrections are anticipated in the resolution attached hereto subject to concurrence by the Board of Aldermen.

I recommend that the request be granted with the corrections specified, by the adoption of the attached resolution.

Respectfully, WM. A. PRENDERGAST, Comptroller.

The following resolution was offered:

Resolved, That the following resolution adopted by the Board of Aldermen on November 18, 1913:

"Resolved, That in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and it is hereby requested to authorize the Comptroller to issue special revenue bonds to the amount of six thousand six hundred and seventy-five dollars (\$6,675), the proceeds whereof to be used by the Board of Education for the purpose of defraying cost of reconnecting present fire alarm system of Public Schools 1, 3, 4, 5, 6, 7, 8, 9, 11, 12, 32, 43, 45, 54, 58, 69, 78, 111, 133, 157, Bay Ridge High School Annex, Manual Training High School Annex, and the office and storage building, Borough of Brooklyn, to the new underground fire alarm telegraph system now being installed by the Bureau of Fire Alarm Telegraph of the Fire Department, all obligations contracted for hereunder to be incurred on or before December 31, 1913."

—be and the same is hereby approved of and concurred in by the Board of Estimate and Apportionment, provided that, subject to the concurrence therewith by the Board of Aldermen, the number "43" be corrected to read "42," and the words "Bay Ridge High School Annex" be corrected to read "Boys' High School Annex," and for the purpose of providing means therefor, the Comptroller be and is hereby authorized, pursuant to the provisions of subdivision 8 of section 188 of the Greater New York Charter, to issue special revenue bonds of The City of New York to an amount not exceeding six thousand six hundred and seventy-five thousand dollars (\$6,675), redeemable from the tax levy of the year succeeding the year of their issue.

Department of Bridges—Retirement of Henry Lepper, Steam Engineman (Cal. No. 90).

The Secretary presented:

Report of the Committee on Salaries and Grades in the matter of the retirement of Henry Lepper, a Steam Engineman in the Department of Bridges.

Which was laid over one week (December 18, 1913).

Department of Finance—Approval of Award of Contract for Automobile Service (Cal. No. 91).

The Secretary presented the following:

Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, December 9, 1913.

To the Board of Estimate and Apportionment:

Gentlemen—On Friday, December 5, 1913, bids were received for furnishing automobile service for the Department of Finance for the year 1914.

Four bids were received, as follows:

Flatbush Avenue Taxicab Company, Inc., No. 369 Flatbush avenue, twenty-one (21) cents per mile and sixty (60) cents per hour for stoppages.

John H. Eckhoff, Jr., No. 835 Union street, Brooklyn, twenty-two (22) cents per mile and seventy-five (75) cents per hour for stoppages.

Orgood Motor Car Company, No. 525 St. Marks avenue, Brooklyn, twenty-three (23) cents per mile and seventy (70) cents per hour for stoppages.

Bryant Motor Service Company, No. 41 West 63d street, Manhattan, twenty-nine and seven-tenths (29 7/10) cents per mile and forty-nine and nine-tenths (49 9/10) cents per hour for stoppages.

The bid of the Flatbush Avenue Taxicab Company was the lowest. The next lowest bid was that of John H. Eckhoff, Jr. The difference between the lowest bid and the next lowest bidder on the mileage bidding was one cent per mile. The proposed contract for automobile service calls for furnishing about 41,000 miles of service for five-passenger cars. On this contract the difference between the low bidder and the next to the lowest bidder would be \$410. On the stoppage there is a difference of fifteen cents per hour. The contract calls for about 2,372 hours. Assuming that all of this stoppage should be used, the difference between the lowest bidder and the next lowest bid would be \$355.80 in a year. The total difference between the two bids in the whole year would be \$765.80.

Automobile service for the Finance Department is required chiefly for the City Paymaster in paying off employees of other departments in the outlying districts. The requirements vary considerably within the year. The contract proposed calls for furnishing from one to nine five-passenger cars, as may be required for any day except Sundays and holidays. It is important that the contractor be well equipped to carry out the terms of this contract. The cars to be furnished must be in good condition and not likely to break down. A delayed Paymaster is likely to cause a considerable loss of time on the part of the working forces that are to be paid. I have caused an investigation to be made into the condition of the equipment of the Flatbush Avenue Taxicab Company, the low bidder, and also have inquired into the other resources of the company. I find that the company has in the garage available for service two (2) Peerless limousines and one (1) Pope Hartford landaulet, each holding five passengers inside and one passenger in addition to the chauffeur in the front. There is a fourth car in the garage, but it does not appear to be ready for service. In addition to these cars there are several taxicabs, but these are not available for use under the proposed contract. In view of the reports that have been made to me

I am convinced that it would be to the best interests of the City not to award the contract to the low bidder.

I recommend that the Board of Estimate and Apportionment approve the award of the contract to John H. Eckhoff, Jr., the next to the lowest bidder. There is no question concerning the ability of Mr. Eckhoff to carry out the terms of the contract. He is furnishing automobile service to the Finance Department at the present time. The service has been very satisfactory. The difference between the total annual cost of the lowest bid and Mr. Eckhoff's bid is so small that I do not believe it would justify the City in taking the chance it would have to take by awarding the contract to the lowest bidder.

I recommend the adoption of the resolution hereto attached.

Respectfully,

WM. A. PRENDERGAST, Comptroller.

The following resolution was offered:

Resolved, That in pursuance of authority granted by section 419 of the Greater New York Charter, the Board of Estimate and Apportionment hereby determines that it is for the public interest that a bid other than the lowest bid should be accepted for automobile service for the Finance Department for the year 1914, this Board hereby authorizes the Comptroller to award the contract for automobile service for the year 1914 to John H. Eckhoff, Jr., of No. 835 Union street, Brooklyn, New York, at a price of twenty-two (22) cents per mile and a price of seventy-five (75) cents per hour for stoppages.

Which was adopted by the following vote:

Affirmative—The Mayor, the Deputy and Acting Comptroller, the Acting President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

Very truly yours,

R. A. C. SMITH, Commissioner of Docks.

City of New York, Department of Finance, Bureau of Municipal Investigation and Statistics, December 9, 1913.

To the Board of Estimate and Apportionment:

Gentlemen—On November 18, 1913, the Commissioner of Docks requested the transfer of \$5,600 within appropriations to his department for the year 1913. In connection therewith I report as follows:

The proposed transfer is as follows:

| FROM | |
|--|------------|
| 287 Engineering Supervision | \$1,000 00 |
| General Plant Materials, Docks, Piers, Bulkheads and Marginal Streets. | |
| 288 Maintenance | 2,000 00 |

| 289 Operation | 3,000 00 |
| Carfare, Docks, Piers, Bulkheads and Marginal Streets. | |
| 302 Administration | 400 00 |

The \$200 is needed in No. 261 for outstanding obligations and anticipated expenditures for stamps. The \$250 for No. 277 is necessary in order to purchase a typewriter and new chairs. Orders issued for equipment against No. 280 cannot be filled because of insufficient funds. An adding machine is needed. The sum of \$300 will cover requirements. The \$1,350 requested for No. 281 is for a limousine body for the Commissioner's car. The \$100 for No. 285 is necessary in order to liquidate outstanding liabilities. No. 289 is depleted and it is necessary that outstanding orders be filled in order that the operation of the ferries may be continued for the remainder of the year. For this purpose \$3,000 is necessary. In No. 302 the \$400 requested is needed for carfare. There is over \$200 now due for carfare and \$200 will be needed during the remainder of the year.

I recommend the adoption of the attached resolutions granting the request.

Respectfully,

WM. A. PRENDERGAST, Comptroller.

Board of Estimate and Apportionment—Efficiency and Budget Advisory Staff—Modification of Schedule (Cal. No. 93).

The Secretary presented the following:
Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, December 9, 1913.

To the Board of Estimate and Apportionment:

Gentlemen—On December 2, 1913, the Budget Committee of the Board of Estimate and Apportionment requested the modification of the 1913 salary schedule entitled, "Personal Service, Salaries, Regular Employees, No. 2120, Efficiency and Budget Advisory." In connection therewith I report as follows:

The modification is requested in order to provide for the substitution of an Assistant Foreman at \$1,200 and a Sewer Cleaner at \$1,200 per annum in place of two positions of Efficiency Examiner at \$1,500 per annum. The \$600 is to be scheduled as an unassigned balance. The inclusion of the two new positions is to provide for the payment of two incumbents transferred to the Efficiency Bureau from other departments. The grades of positions were established by the Board of Estimate and Apportionment on November 13, 1913, and by the Board of Aldermen on December 2, 1913.

It is also proposed to substitute an Efficiency Accountant at \$2,100 per annum for one at \$3,000, the \$900 difference to be scheduled as an unassigned balance. This change is requested in order to conform with the 1914 Budget. The grade of position is established in the Budget for 1914 as adopted by the Board of Estimate and Apportionment and the Board of Aldermen.

The following shows the line item changes in detail:

| Account No. | Schedule Line. | Schedule Transfer. | | Cash Transfer. | |

Board of Education—Acquisition of School Site (Cal. No. 95).
(The resolution of the Board of Education in this matter is printed in the minutes of meeting held December 4, 1913, at page 11805 of the CITY RECORD of December 17, 1913.)

The Secretary presented the following:

Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, December 9, 1913.

To the Honorable the Board of Estimate and Apportionment:

Gentlemen—At a meeting of your Board held June 12, 1913, a resolution was adopted authorizing the issue of corporate stock to an amount not exceeding \$480,000 to provide means for the acquisition of school sites in the various Boroughs of The City of New York, which amount provided for a site in the vicinity of Ferry street, Ocean View and Woodland avenues, Woodhaven, Borough of Queens. This resolution was concurred in by the Board of Aldermen on July 15, 1913, and approved by his Honor the Mayor on August 20, 1913.

At a meeting of the Board of Education held September 24, 1913, a resolution was adopted selecting and determining as a site for school purposes a plot of ground having a frontage on Ferry street of about 220 feet, with a rear depth on the southerly side of the plot of 190 feet, and a depth along Shipley street of 200 feet, with a width of about 219 feet.

Your Board at various meetings has authorized the purchase of all the properties included within this tract except one parcel, and the owner of these premises demanded such an exorbitant price that I am compelled to recommend the acquisition of the same by condemnation proceedings.

I therefore respectfully recommend that your Board approve of the selection of the following described premises for use of the Department of Education:

All that certain piece or parcel of land situate, lying and being in Woodhaven, Borough of Queens, City of New York, bounded and described as follows:

Beginning at a point formed by the intersection of the westerly line of Ferry street with the southerly line of Shipley street, and running thence southerly along the westerly line of Ferry street 220 feet; thence westerly 190 feet; thence northerly 219 feet 3 inches to the southerly line of Shipley street; thence easterly along the southerly line of Shipley street 200 feet to the westerly line of Ferry street, the point or place of beginning, be the said several dimensions more or less; the assessed valuation of which is sixteen thousand one hundred dollars (\$16,100), as shown by the books of record on file in the Department of Taxes and Assessments for the year 1913.

—and that the Corporation Counsel be instructed to institute condemnation proceedings at once for the acquisition of the above described premises, title to vest in The City of New York the day after the filing of the oaths of the Commissioners of Estimate and Appraisal, excepting therefrom, however, such portions of the above mentioned premises as the Comptroller has been authorized by the Board of Estimate and Apportionment to purchase at private sale. Respectfully,

WM. A. PRENDERGAST, Comptroller.

Board of Education—Acquisition of School Site (Cal. No. 96).

(On October 2, 1913, the report of the Comptroller thereon was referred back to the Comptroller.)

(On October 30, 1913, a resolution was adopted authorizing the purchase of a certain portion of said property.)

The Secretary presented the following:

In the Board of Education.

To the Board of Education:

The Committee on Sites respectfully reports that on December 11, 1912 (see Journal, pages 2186-88), the Board of Education requested the immediate authorization of an issue of corporate stock for the erection and equipment of a new school building in the vicinity of Washington avenue and East 170th street, Borough of The Bronx. Your Committee has given the matter of the location of the site for this proposed building careful consideration and is of the opinion that property on the south side of St. Pauls place, running from Washington avenue to Park avenue, which can be purchased, as the Committee is informed, should be selected for the purpose by the adoption of the following resolutions:

Resolved, That the Board of Education hereby selects and determines as a site for school purposes the following described lands and premises on St. Pauls place, Washington and Park avenues, in Local School Board District No. 25, Borough of The Bronx, the assessed valuation of which, as shown by the books of record on file in the Department of Taxes and Assessments, is \$81,600:

Beginning at a point formed by the intersection of the southerly line of St. Pauls place with the westerly line of Washington avenue, and running thence southerly along the westerly line of Washington avenue 170.38 feet; thence westerly 140.07 feet; thence northerly and parallel, or nearly so, with Washington avenue 7.67 feet; thence again westerly 150.96 feet to the easterly line of Park avenue; thence northerly along the easterly line of Park avenue 149.06 feet to the southerly line of St. Pauls place; thence easterly along the southerly line of St. Pauls place 291.41 feet to the westerly line of Washington avenue, the point or place of beginning, be the said several dimensions more or less.

Resolved, That the Board of Estimate and Apportionment be and it is hereby respectfully requested to take such action as may be necessary and proper for the acquisition of the land and premises above described.

A true copy of report and resolution adopted by the Board of Education on January 22, 1913.

A. E. PALMER, Secretary, Board of Education.

Department of Finance, City of New York, Bureau of Municipal Investigation

and Statistics, December 9, 1913.

To the Honorable the Board of Estimate and Apportionment:

Gentlemen—At a meeting of your Board, held June 12, 1913, a resolution was adopted authorizing an issue of corporate stock to an amount not exceeding \$480,000, to provide means for the acquisition of school sites in the various Boroughs of The City of New York, which amount provided for a site in the vicinity of St. Pauls place, Washington and Park avenues, Borough of the Bronx. This resolution was concurred in by the Board of Aldermen on July 15, 1913, and approved by his Honor the Mayor on August 20, 1913.

At a meeting of your Board, held January 30, 1913, there was referred to the Comptroller for consideration and report, a communication from the Secretary of the Board of Education, transmitting certified copies of a resolution adopted by said Board, requesting the acquisition of a school site on St. Pauls place, Washington and Park avenues, Borough of The Bronx.

The plot of ground selected by the Board of Education is located on the southerly side of St. Pauls place and extends along the westerly line of Washington avenue a distance of 170.38 feet and along the easterly side of Park avenue, 149.06 feet.

The premises are in different ownerships, and your Board at a previous meeting authorized the Comptroller to purchase two of the plots included within the site, at private sale.

I am now submitting for your consideration the buying of another parcel, and also recommending that the balance of the tract be acquired through condemnation proceedings, for the reason that the owners are demanding exorbitant prices for

their properties. It is well to note, however, that in the purchases already made at private sale, prices will be established which, in my opinion, will prevent the owners from securing exorbitant awards for their premises.

The parcel to be acquired at private sale is situated on St. Pauls place, distant 100 feet westerly from the southwesterly corner of St. Pauls place and Washington avenue, in the Borough of The Bronx, having a width of 40 feet with a depth of 69 feet, on which there is erected a dwelling house.

The original price demanded by the owners of these premises was \$12,500, but after negotiation by the Comptroller, the same may be secured for the sum of \$9,500.

The price being reasonable and just, I respectfully recommend that your Board approve of the selection of the following described premises for use of the Department of Education:

All that certain lot, piece or parcel of land, with the building and improvements thereon erected, situate, lying and being in the Borough of The Bronx, City of New York, bounded and described as follows:

Beginning at a point on the southerly side of St. Pauls place, distant westerly one hundred (100) feet from the corner formed by the intersection of the southerly side of St. Pauls place with the westerly side of Washington avenue; running thence southerly and parallel with said westerly side of Washington avenue sixty-nine (69) feet seven and three-quarter ($7\frac{3}{4}$) inches; thence westerly parallel or nearly so with said southerly side of St. Pauls place forty (40) feet; thence northerly and parallel with the westerly side of Washington avenue sixty-nine (69) feet three (3) inches to the southerly side of St. Pauls place; thence easterly along the southerly side of St. Pauls place forty (40) feet to the point or place of beginning; together with all the right, title and interest, if any, of the owner, of, in and to the street in front thereof to the centre thereof.

—and authorize the Comptroller to enter into contract for the acquisition of the same, at private sale, at a price not exceeding \$9,500, said contract to be submitted to the Corporation Counsel for his approval as to form.

I further recommend that your Board approve of the selection of the following described premises for use of the Department of Education:

All that certain lot, piece or parcel of land, situate, lying and being in the Borough of The Bronx, City of New York, bounded and described as follows:

Beginning at a point formed by the intersection of the southerly line of St. Pauls place with the westerly line of Washington avenue, and running thence southerly along the westerly line of Washington avenue 170.38 feet; thence westerly 140.07 feet; thence northerly and parallel or nearly so with Washington avenue 7.67 feet; thence again westerly 150.96 feet to the easterly line of Park avenue; thence northerly along the easterly line of Park avenue 149.06 feet to the southerly line of St. Pauls place; thence easterly along the southerly line of St. Pauls place 291.41 feet to the westerly line of Washington avenue, the point or place of beginning, be the said several dimensions more or less, the assessed valuation of which is seventy-eight thousand five hundred dollars (\$78,500), as shown by the books of record on file in the Department of Taxes and Assessments for the year 1913.

—and that the Corporation Counsel be instructed to institute condemnation proceedings at once for the acquisition of the above described premises, title to vest in The City of New York immediately upon the filing of the oaths of the Commissioners of Estimate and Appraisal, excepting therefrom, however, such portions of the above mentioned premises as the Comptroller has been authorized by the Board of Estimate and Apportionment to purchase at private sale. Respectfully,

WM. A. PRENDERGAST, Comptroller.

Board of Education—Modification of Schedule and Transfer of Appropriation (No. 98).

The Secretary presented the following:

In the Board of Education.

Resolved, That the Board of Estimate and Apportionment be and it is hereby respectfully requested to transfer the sum of six hundred dollars (\$600) from the Special School Fund for the year 1913 and from the item contained therein entitled "Personal Service, Salaries of Regular Employees, Administration, No. 3441, Office of the Superintendent of School Buildings," which item is in excess of its requirements, to the item also contained within the Special School Fund for the year 1913 entitled "Salaries, Regular Employees, Maintenance, Bureau of Buildings, Division of Repairs, Tax Levy and Corporate Stock Force, Code 3444TC," which item is insufficient for its purposes.

A true copy of a resolution adopted by the Board of Education on November 26, 1913.

A. E. PALMER, Secretary, Board of Education.

Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, December 8, 1913.

To the Board of Estimate and Apportionment:

Gentlemen—On November 26, 1913, the Board of Education requested transfer of \$600 from account No. 3441, Salaries, Regular Employees, Office of the Superintendent of School Buildings, to account No. 3444TC, Salaries, Regular Employees, Bureau of Buildings, Division of Repairs, Tax Levy and Corporate Stock Force. In connection therewith I report as follows:

The purpose is to cover a deficit in the appropriation (2444TC) for salaries and wages of the inspecting and drafting corps in the Bureau of Buildings. When the payrolls for this force for the month of November were prepared it was discovered that there was not sufficient balance in the tax levy portion of the account for which the 1913 allowance was \$134,933.33, to cover them, with the result that the payment of November salaries for over one hundred employees is withheld, awaiting sufficient funds in the account.

The Board of Education proposes that the deficit be covered by transfer of salary accruals, but this is contrary to the rules governing the Budget. It is not necessary, as funds are available in the special appropriation made in the 1913 Budget for Accounting Force, No. 3454. The sum of \$25,000 was appropriated for this purpose, of which sum the estimated available balance as of date aggregates \$4,224.23.

I recommend that \$600 be transferred from No. 3454 to No. 3444TC, instead of from No. 3441, as requested. Resolutions to this effect are attached hereto.

Respectfully,

WM. A. PRENDERGAST, Comptroller.

Department of Street Cleaning—Modification of Schedules and Transfer of Appropriation (No. 99).

The Secretary presented the following:
Office of Commissioner of Street Cleaning, New York City, December 10, 1913.
Hon. ARDOLPH L. KLINE, Mayor, Chairman, Board of Estimate and Apportionment, City of New York:

Sir—I have to request that a further revision of schedules and transfer, amounting to the sum of eleven thousand one hundred and twenty dollars (\$11,120), be made within the appropriations allowed this Department for the year 1913, as per attached resolutions.

The reason for the above request is that the appropriations allowed for regular and temporary Drivers in the Borough of The Bronx is insufficient, and will become depleted before December 31, 1913. This condition is due to the increased population and additional mileage of streets, causing additional output of ashes, street sweepings and rubbish.

The number of Drivers allowed for the Borough of The Bronx is, therefore, below the actual number necessary for the proper collection each day.

Respectfully,
WM. H. EDWARDS, Commissioner.
Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, December 11, 1913.

To the Board of Estimate and Apportionment:

Gentlemen—On November 20, 1913, the Commissioner of Street Cleaning requested modification of four wage schedules in his Department for the year 1913. Request was also made for the transfer of \$21,120 within the appropriation. In connection therewith I report as follows:

The request was granted to the extent of \$10,000, within schedules, Wages, Temporary Employees, Sweeping and Cleaning, No. 1226, Manhattan, and Wages, Temporary Employees, Carting and Stables, No. 1231, The Bronx, by a resolution of the Board of Estimate and Apportionment which was adopted on December 4, 1913.

It is now proposed to transfer the sum of \$11,120 from Wages, Regular Employees, Carting and Stables, No. 1220, Manhattan, to Wages, Regular Employees, Carting and Stables, No. 1222, The Bronx. This \$11,120 represents accruals in the wages of regular employees, caused solely by the fact that during the year the Department mischarged the wages of men who composed part of their regular minimum carting and stable force against Wages, Temporary Employees, whereas they should have been charged against Wages, Regular Employees. In this manner the purpose of the appropriation, which was in every way ample for the needs of the Department, was defeated, and a condition created which unduly depleted the Temporary Employee appropriations, while it fostered accruals in the Regular Employee appropriations which would be lost to the City. As this certainly was not the intention of the appropriation, I recommend that the general rule regarding transfers be disregarded in this instance and the money transferred, so that the City may receive the benefit thereof.

I recommend the adoption of the attached resolutions granting the request.
Respectfully,
WM. A. PRENDERGAST, Comptroller.

The following resolution was offered:

| The Secretary presented the following: | |
| Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, December 11, 1913. | |
| <i>To the Board of Estimate and Apportionment:</i> | |
| Gentlemen—On December 2, 1913, the Board of Aldermen requested \$18,381.75 in special revenue bonds for the office of the President of the Borough of Queens, the proceeds to be used for the employment of the present number of horses and carts and teams and trucks for the collection of garbage, ashes, etc., to December 31, 1913. In connection therewith I report as follows: | |
| During the year 1912 the collections amounted to 547,227 cubic yards. In 1913 there was collected up to October 31, 1913, 467,185 cubic yards, or an average of 46,718.5 cubic yards per month, making an estimated total of 560,622 cubic yards for the year ending December 31, 1913. On the basis of the cost of collection in 1912, the additional 13,000 cubic yards which it is estimated will be collected in 1913 should cost approximately \$5,200. This added to the cost of the hire of horses and teams for extra sprinkling wagons and sweeping machines, \$900, makes a total of \$6,100, which is the additional amount that would have been necessary had the account been administered as economically in 1913 as it was in 1912. | |
| On November 29, 1913, the budget appropriations of \$218,844 were practically exhausted. The continuance of the necessary force from this date to the end of the year will require \$18,381.75, as follows: | |
| Forty-seven teams and trucks, 26½ days each, at \$6 per day..... | \$7,473 00 |
| One team and truck, 9 days, at \$6 per day..... | 54 00 |
| One hundred and twenty-six horses and carts, 26½ days each, at \$3.50 per day | 11,686 50 |
| One horse and cart, 9 days, at \$3.50 per day..... | 31 50 |
| | \$19,245 00 |
| Less balance November 29, 1913..... | 863 25 |
| | \$18,381 75 |

I recommend the adoption of the attached resolutions granting the request.

Respectfully,
WM. A. PRENDERGAST, Comptroller.

mitting the proposal, it will be deposited in a sealed box, in which all proposals will be deposited. No proposal will be received or deposited unless accompanied by a separate certified check drawn upon a national or state bank or trust company having its principal office in The City of New York satisfactory to the Commission and payable to the order of the Comptroller of The City of New York for the sum of Fifteen Thousand Dollars (\$15,000). Such check must not be enclosed in the envelope containing the proposal.

The unit prices must not be improperly balanced, and any bid which the Commission considers detrimental to the City's interests may be rejected.

No proposal, after it shall have been deposited with the Commission, will be allowed to be withdrawn for any reason whatever.

The award of the contract will be made by the Commission as soon as practicable after the opening of the proposals.

Bidders whose proposals are otherwise satisfactory, in case the sureties or securities named by them are not approved by the Commission, may substitute in their proposals the names of other sureties or securities approved by the Commission, but such substitution must be made within five (5) days after notice of disapproval, unless such period is extended by the Commission.

A bidder whose proposal shall be accepted shall, in person or by duly authorized representative, attend at the said office of the Commission within ten days after the delivery of a notice by the Commission that his proposal is accepted and that the contract is consented to by the Board of Estimate and Apportionment, and such bidder shall then deliver a contract in the form referred to, duly executed and with its execution duly proved.

At the time of the delivery of the contract the contractor will be required to furnish security to the City by giving a bond for two hundred thousand dollars (\$200,000). At the option of the successful bidder, cash or approved securities may be deposited instead of giving a bond. If securities are deposited in place of a bond under the contract, they must be of the character of securities in which savings banks may invest their funds and must be approved by the Commission.

The contractor's bond must be in the form annexed to the form of contract.

In addition and as further security, fifteen (15) per centum of the amounts certified from time to time to be due to the contractor will be deducted until the amounts so deducted and retained shall equal ten (10) per centum of the sum of the amounts resulting from the product of the estimated approximate quantities and the unit prices as contained in the schedule of unit prices in the contractor's proposal. Thereafter there shall be so deducted and retained for such purpose ten (10) per centum of the amount certified from time to time to be due to the contractor. The contractor may from time to time withdraw portions of the amounts so retained upon depositing in lieu thereof corporate stock of The City of New York equal in market value to the amount so withdrawn.

In case of failure or neglect to execute and deliver the contract or to execute and deliver the required bond or to make the required deposit, such bidder will, at the option of the Commission, be deemed either to have made the contract or to have abandoned the contract. In the latter case, the Commission will give notice thereof to such defaulting bidder, and the Commission may thereupon proceed to make another contract with such, if any, of the original bidders, as, in the opinion of the Commission, it will be to the best interests of the City to contract with, or may by new advertisement invite further proposals. The defaulting bidder shall thereupon be liable to the City for all loss and damage by it sustained, including the excess, if any, of the amount it shall pay any other contractor over the amount of the bid of such defaulting bidder.

If the Commission shall give notice to any bidder that his or its proposal is accepted and that the contract is consented to by the Board of Estimate and Apportionment, and if the bidder shall fail within ten days thereafter or within such further period, if any, as may be prescribed by the Commission, to execute and deliver the contract and to execute and deliver the bond with sureties, or to make the required deposit, then the invitation to contractors and proposal accepted as aforesaid shall be a contract binding the bidder to pay to the City the amount of the bond or deposit and its provisions in respect of the bond or deposit are complied with.

The right to reject any and all bids is reserved.

NOTICE TO BIDDERS AT SALES OF OLD BUILDINGS, ETC.

TERMS AND CONDITIONS UNDER WHICH BUILDINGS, ETC., WILL BE SOLD FOR REMOVAL FROM CITY PROPERTY.

THE BUILDINGS AND APPURTENANCES thereto will be sold to the highest bidder, who must pay cash or certified check drawn to the order of the Comptroller of The City of New York, and must also give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. Where the amount of the purchase price does not equal or exceed the sum of \$50, the sum of \$50 shall be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract, but unfinished at the expiration of the contract period.

The purchaser shall not lease, occupy, cause or permit the building or buildings, etc., purchased by him to be used or occupied for any purpose other than that of their speedy removal, nor shall he collect any rental or other revenue for the use of either the land or the buildings, etc., situated thereon. The breach of either or any of these conditions shall forthwith void the sale and cause immediate forfeiture of the purchase money and the security deposited for the faithful performance of the conditions of the sale. The placing therein or permitting the occupancy of any such building by any tenant free, for rent or otherwise, excepting the necessary watchmen or the workmen engaged in the actual demolition thereof, shall of itself be a breach of the above conditions of sale.

The sale will be as of the condition of the property on date of delivery thereof to the purchaser. The City of New York will not be responsible for any change or loss which may occur in the condition of the buildings, or their appurtenances between the time of the sale thereof and the time of delivering possession to the purchaser, after being properly vacated of all tenants. The sale and delivery to purchaser will be made as nearly together as the circumstance of vacating the structures of their tenants will permit.

All the material of the buildings, sheds, walks, structure and cellars of whatsoever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds, except the exterior walls of the buildings and their foundations and the sidewalks and curb in front of said buildings, extending within the described area shall be torn down and removed from the premises. None of the dirt, debris or waste resulting from demolition shall be allowed to remain on the premises, except old mortar or plaster only, which may be left, but not higher at any point than two feet below the curb opposite that point. The exterior walls and their foundations shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building. Where there is no curb the elevation of the surrounding ground shall be considered curb level. All wells, cesspools, sinks, etc., existing on the property must be filled to the level of the surrounding ground with clean earth.

The purchaser at the sale shall also withdraw and remove all abandoned water taps and old service mains, and in place thereof cause to be inserted a brass plug in the main water pipe in the street, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and furnish the Department of Finance with a certificate from the Department of Water Supply, Gas and Electricity that this has been performed.

The purchaser at the sale shall also remove all house sewer connections to the main sewer in the street, and the opening of the main sewer

in street shall be properly closed in compliance with the directions of the Bureau of Sewers in the Borough in which the buildings are situated, and furnish the Department of Finance with a certificate from the Bureau of Sewers that the work has been properly performed.

The permit for all opening in the street to be obtained by and at the expense of the purchaser of the building.

Failure to remove said buildings, appurtenances, or any part thereof, within thirty days from the day of possession will work forfeiture of ownership of such buildings, appurtenances, or portion as shall then be left standing, together with all moneys paid by said purchaser on account thereof at the time of the sale, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and The City of New York will, without notice to the purchaser, cause the same to be removed, and the cost and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and must be completed within thirty days from the day of possession, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless, The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damage and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of said buildings.

Where party walls are found to exist between buildings purchased by different bidders, the materials of said party walls shall be understood to be equally divided between the separate purchasers.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down. All furrings, plaster, chimneys, projecting brick, etc., on the faces of such party walls are to be taken down and removed. The walls shall be made permanently self-supporting, beam-ends, etc., bricked up, and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs and adjacent buildings shall be properly flashed and painted and made watertight where they have been disturbed by the operations of the contractor.

The Comptroller of The City of New York reserves the right on the day of sale to withdraw from sale any of the buildings, parts of buildings and machinery included therein, or to reject any and all bids; and it is further:

Resolved, That, while the said sale is held under the supervision of the Commissioners of the Sinking Fund, the Comptroller is authorized to cause the sale to be advertised and to direct the sale thereof as financial officer of the City.

PROPOSALS FOR BIDS AND ESTIMATES FOR THE CITY OF NEW YORK.

NOTICE TO CONTRACTORS.

GENERAL INSTRUCTIONS TO BIDDERS.

The person or persons making a bid or estimate for any services, work, materials or supplies for The City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope, indorsed with the title of the supplies, materials, work or services for which the bid or estimate is made, with his or their name or names and the date of presentation to the President or Board or to the head of the Department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said Department, and read, and the award of the contract made according to law as soon thereafter as practicable.

Each bid or estimate shall contain the name and place of residence of the person making the same, and names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a Department, chief of a Bureau, deputy thereof, or clerk therein, or other officer of The City of New York, is, shall be or become interested, directly or indirectly, as contractor, party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

No bid or estimate will be considered unless as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money, or corporate stock or certificates of indebtedness of any nature issued by The City of New York, which the Comptroller shall approve as of equal value with the security required in the advertisement, to the amount of not less than three nor more than five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The amount shall be as specified in the proposals or instructions to bidders and shall not be in excess of 5 per cent.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department. No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately.

The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel can be obtained upon application therefor at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there.
