### POLICE DEPARTMENT.

#### Report for the Year ending December 31, 1885.

POLICE DEPARTMENT—CITY OF NEW YORK,  
No. 300 MULBERRY STREET.

Hon. WILLIAM R. GRACE, Mayor, City of New York:

SIR—The Board of Police of the Police Department of the City of New York hereby respectfully submit a report of the operations and transactions of the Department and force for the year ending December 31, 1885.

For several years past no detailed annual report has been made by this Department, for the reason that it was not called for by the former Mayors; but as this Board is frequently called upon by the Police Departments of other cities, and by statisticians everywhere for such reports, it is deemed proper to prepare the same, and submit it to the Mayor for such disposition as he may be pleased to make. It is suggested, however, that this report be printed in full in the CITY RECORD.

#### THE POLICE FORCE.

The comparative strength of the Police Force at the close of the years 1884 and 1885, is shown by the following table:

RANK.	DECEMBER 31, 1884.	DECEMBER 31, 1885.
Superintendent.....	1	1
Inspectors.....	4	3
Surgeons.....	18	18
Captains.....	36	34
Sergeants.....	148	152
Detective Sergeants.....	40	40
Roundsmen.....	183	177
Patrolmen.....	2,323	2,356
Doormen.....	79	77
Total.....	2,832	2,858

The number of Patrolmen does not include 35 probationary employees, who, when they shall have completed the probationary term of one month, will, if their conduct and character be satisfactory, be appointed Patrolmen.

The changes in the Police Force, during the year, are indicated in the table below:

#### Changes.

RANK.	Appointed.	Promoted to.	Promoted from.	Retired.	Dischd.	Dismissed.	Dropped from Roll.	Resignation.

#### SICK TIME.

The time lost by members of the force by reason of sickness, disability and injuries during the year is shown by the following table, from which it will appear that the time actually lost was 25,958 days, or 2.50 per cent. of the total number of days' time of the force. The amount paid for such time lost was \$43,253.02, which does not include allowances of full pay for disabilities incurred by the force whilst in the actual performance of duty, and which allowances were made by the Board some time subsequent to recovery from the disability. The additional amounts paid aggregate the

sum of \$1,749.93, which, added to the amount above stated, makes the total sum paid for sick time \$45,002.95.

It will be observed that the per cent. of sick to full time in the Fifth, Ninth and Eighteenth Precincts is much larger than in other precincts. This may be attributed to the following causes: The station-house of the Fifth Precinct is built upon very low ground. At high water the tide backs from the river into the basement, rendering the lower part of the house damp and unhealthy. Even at ordinary tides the water backs into the sewer and forces the gases through every possible outlet. The Ninth Precinct Station-house is very old, the walls thin and unprotected by adjoining buildings. This cannot be remedied except by a larger expenditure for fuel and heating apparatus than our appropriations warrant. The Eighteenth Precinct Station-house is subject to the same total difficulties as is that of the Fifth Precinct, though, perhaps, to a smaller extent. The plumbing has been defective, but alterations and improvements have, from time to time, been made, and it is to be hoped with good results. The station-houses of the Sixth, Tenth, Eleventh, Twelfth, Sixteenth, Nineteenth, Twenty-third, Thirty-first and Thirty-second Precincts are comparatively and practically new. It will be noticed that the sick time in these precincts is below the average.

\* The Inspection District Offices were discontinued June 1 and the men sent to the different precincts.

The following table shows the number of men on the sick list each day in the year. An examination of this table will show that there was a daily average of more than 72 men sick in the entire force, or 2.48 per cent. constantly sick. The average seems large, but when we consider the exposures and unremitting labor on the part of Patrolmen we are agreeably surprised the number is not greater:

The report of the Board of Surgeons furnishes an interesting exhibit of the work performed by this branch of police service. The table below shows the number of visits made to members of the Police Force, the diseases and disabilities for which they were treated, and the number of calls to station-houses in accident cases. The latter duty has grown less from year to year, because of the admirable ambulance service in the city, an ambulance and attendant surgeon being available at few minutes' notice by telegraph. Nevertheless, the duties of the Police Surgeons require a great portion of their time, and the value of their service is very great:

#### APPLICANTS FOR APPOINTMENT.

The following table shows that there were 734 applicants for appointment as Patrolmen examined by the Surgeons during the year. The system of examination, physical, intellectual and moral, of all applicants for appointment is, perhaps, the best that could be devised to secure proper material for the maintenance of the Police Force. The physical examination is complete and thorough, and is supplemented by tests adopted by the Civil

From the table of arrests by precincts it will appear that 29.33 per cent. of the entire number of arrests in the city were made in the Fourth, Sixth, Tenth and Fourteenth Precincts, which adjoin each other and form as dense and diversified a population as can be found anywhere in the world. There is more squalor and pauperism in this district than can be readily understood by persons who do not know the facts.

In the Tenth Precinct alone there were 8,642 arrests, or 11.64 per cent. of the total. By reference to a table elsewhere published it will be seen that there are 9 pawnshops, 648 liquor and beer saloons, and 28 lodging-houses in this precinct, a fact that may possibly in part account for the large number of arrests.

Many of the arrests made by the officers attached to the Court Squads were made in the district above alluded to, and if added to the number made in the district (21,797) would make the per cent. much larger and furnish a more startling exhibit. The attention of the Mayor and of the public is respectfully called to the figures of arrests in the precincts named in order that due investigation may be made, and remedial measures adopted by societies and individuals having a special interest in tenement population and its tendency to crime.

The following table exhibits the offenses for which the arrests were made :

It will be observed that 122 persons were arrested for gambling, and 30 arrested for keeping gambling houses, a considerable increase over last year for the same offenses. The repressive measures adopted by the present Superintendent of Police, and the activity of the officers under his direction and charged with the duty of suppressing the great evil of gambling, have had gratifying results. Public gaming, by which is meant gambling in well-known houses accessible to all, has been carried on to a greater or less extent for several years past, but it is safe to assert that at present there are no public gaming houses in the city. It may be, and perhaps is, possible that there are places in the city where gambling is carried on, for instance, in private clubs. Other places possibly exist where the doors are so peculiarly constructed as to almost defy intrusion, and where other successful methods to prevent ingress by the Police, and all other parties not in the confidence of the proprietors, have been adopted.

In a community so large and cosmopolitan as is ours, it is difficult, if not impossible, to entirely prevent the vice of gaming. There is a peculiar fascination attached to the different games that seems to act constantly in one direction—the ruin of its victim. "Poker" is largely patronized in this city, and has, together with other form of gambling, been for some time past under particular observation by the Police Force, special efforts being made with a view to its suppression. Admission by the Police into places where this game has been carried on has, at all times, been difficult, at times being secured only after considerable outlay of money, and persistent efforts of the officers charged with the special duty of obtaining evidence. After evidence is obtained and arrest made, there is, or appears to be, a still greater effort to be made to secure conviction. Some of the Police Justices have taken the ground that "poker" is purely a social game, and one, when carried on in a private room, that should not be intruded upon or interfered with by police authority. The Superintendent, however, in a well-known case, brought to the notice of the magistrate a section of the Penal Code, which had a bearing upon the case in question, and secured a conviction. It is gratifying to report that generally the efforts of the Police have been successful in securing the arrest and conviction of "poker" players.

That particular kind of gambling, known as "pool selling," "book-making" or registering bets on horse races and other sporting events, has for many years been a source of great annoyance to those of our citizens who regard these as the most pernicious form of gaming. For a long time it was found almost impossible to secure a conviction for this form of gambling, for many of the Police Magistrates were of the opinion that, to make a case, it was necessary that the person making the wager should see the horse, or the event, upon which he had staked his money, and it was not until a contrary opinion was rendered by the present Counsel to the Corporation, that the magistrates consented to commit the parties arrested for this offense. It is confidently believed that the evil must grow less under this opinion and ruling. During the year, the Superintendent has, from time to time, made special details of officers from different precincts, furnishing them with money, and sending them to special localities in the city, for the purpose of obtaining evidence, procuring warrants upon the evidence, arresting and convicting those guilty of "pool selling," until finally the offenders were driven from the city, and compelled to follow their illicit trade in adjacent cities.

The number of arrests for all forms of gambling, some of which are classed among other offenses, was 303; of these 115 were convicted, 152 discharged, and 36 cases are now pending.

The arrests for violation of the lottery and policy laws have been comparatively few, and the business almost completely broken up. The only lottery and policy business now done is conducted through the medium of "runners," or by persons who, in the interest of the proprietors of the business, travel from one customer to another, booking their ventures. In four cases convictions were secured, four were discharged, and the remainder are pending.

During the year there were 2,144 arrests made for violation of the excise law, 1,715 of which were for violations on Sunday. There were 255 convicted, 735 discharged, leaving 1,154 cases undisposed of. The Police have been continuously active in their efforts to compel obedience to the excise laws, but have been hampered and restrained by conflicting opinions as to their power and duty at certain times. It is respectfully submitted, however, that there is little cause of complaint against the force for failure to enforce the law on Sunday, for it must be admitted that the liquor saloons, generally, throughout the city are to all external appearances closed on that day, and that the number of intoxicated persons found on the streets on Sunday has grown perceptibly smaller.

Special attention is called to the subject of the soliciting of males on the public streets by females for improper purposes. This evil has long been recognized as the most glaring and offensive that is presented to the public view, and one that should be suppressed by vigorous measures. If, as it is often said, the so-called "social evil" cannot be completely stamped out in large cities, yet it appears within the bounds of possibility to put a stop to street solicitation, at least so far as to veil the offensiveness of it from the sight of respectable people passing through our thoroughfares at night.

Fully recognizing the evil and the necessity of suppressing it, strong measures have been adopted and enforced for driving lewd women from the streets. At the present time, though these may occasionally be found plying their miserable trade, the streets are practically free from the class that infested them. It must be admitted that the majority of these women are not inclined to criminality, and were it not for the vile and bestial passions of men, which makes them weak and willing subjects, the occupation of these women would be gone, and there would be no necessity for their arrest and prosecution.

During the year there were 5,717 arrests for the offense of soliciting, though generally the offense charged in the station-houses has been disorderly conduct. It appears from the above table that only six were arrested for the offense. Solicitation has been charged, where committed, as an addition to the complaint of disorderly conduct, and as a secondary matter.

The above table shows that more than fifty per cent. of the persons arrested were of foreign birth. In the annual report of this Department (the last published) for the year ending April 5, 1872, it is shown that 38,009 persons born in Ireland and 160 persons born in Italy were arrested. The report here submitted shows a great falling off in the former and an enormous ratio of increase in the latter, though the total arrests for the year 1872 exceeded by about 10,000 the arrests of 1885. This respective decrease and increase is, of course, due to the corresponding decrease and increase of emigration from the countries referred to. The arrests of native-born persons have increased about one-sixth in the past thirteen years.

No education	3,195
Totals	74,315

For the year ending April 5, 1872, the arrests of persons between twenty and thirty years of age was 36.47 per cent. of the whole number; for the year 1885 the per cent. was 35.89, an unimportant falling off.

In the year first mentioned the arrests of single persons were 61.60 per cent. of the whole number, while in the latter year the per cent. of single persons arrested was 67.47. This increase cannot be accounted for upon any other theory than the general disinclination to marry—a theory that has frequently been advanced of late years by writers upon social questions.

The number of lodgings furnished to indigent persons in the station-houses during the year was as follows:

Males	72,832
Females	61,513
Total	134,345

The following table will show the number lodged each month, and the very great difference between the cold and warm months in the year. Though the lodgings furnished are necessarily rude and uncomfortable, they nevertheless afford protection from the cold and wet of the inclement season, and are eagerly sought by the very poor, worthy and unworthy. There is very little doubt that the class of persons seeking lodgings in the station-houses, night after night, would gladly submit to arrest as vagrants, and would regard it favorably if they were sent to the City Almshouse for long terms of imprisonment, during which terms they would be well fed and housed with comparatively little work. There is also very little doubt that these lodgers, or a large majority of them, are petty thieves and beggars by choice, rather than of necessity. What shall be done with this increasing army of mildly criminal drones? This problem will, sooner or later, come before our people, and will have to be solved promptly and energetically.

## LOST CHILDREN.

Lost children are taken in charge by the Police, and the name and other particulars noted. If the name and address cannot be ascertained, an accurate description of person and clothing is recorded, and the same sent to all stations, by means of a telegraph alarm. By this means, lost children are restored to their parents or guardians in a very short time, leaving but a small number unclaimed. Those not claimed seem to have been abandoned by their parents, and have been committed to charitable institutions, as will appear below. Not a few of the lost children have been returned to parents living in other cities. The Bureau of General Information, lately established in this Department, has been found to be a valuable aid to the recovery of lost children and restoring them to their homes. The following shows the number received and their disposition:

**FOUNDINGS.**

The Bureau of Information, referred to under the heading of Lost Children has special charge of the reception, disposition and other important matters relating to abandoned infants. The number taken charge of by the Police is, it is believed, far short of the actual number annually abandoned by poverty-stricken and unnatural mothers. Many of these unfortunate infants are taken into homes and asylums in this city, many adopted into families, and many are sent into the country. In every case coming into the hands of the Police an accurate description of person and clothing is properly recorded in a book kept for that purpose, with the name and residence of the person finding the same, also name of officer and number of precinct, and any other facts which may be of interest or which might lead to the discovery of the parents of the child. The children are then delivered to the Matron at Central Office, and by her sent with a statement of all facts in the case to the Superintendent of Out-door Poor at office of Commissioners of Charities and Correction.

The number of foundlings received and disposed of is as follows:

Males, white	60

**MISCELLANEOUS STATISTICS.**

The Police perform a multitude of duties under the general head of miscellaneous. The following schedule shows the number of persons assisted by the Police, taken to station-houses and thence to the different hospitals by ambulance, or sent to their homes. It will appear that no less than 6,944 persons were aided during the year by the Police, a very small percentage of whom were sent to their homes.

*House of Detention for Witnesses.*

That peculiar prison known as the House of Detention for Witnesses, in which innocent persons so unfortunate as to have become involuntary witnesses to criminal acts are confined, still has a very material existence, as is evident by the figures here given, notwithstanding the earnest efforts of humanitarians to have it abolished. It is a house of forcible detention for no crime committed and is not only a blot upon the fair fame of this community, but a standing rebuke to the proper administration of justice in this great city. No argument is needed to show the horrible injustice of confining an innocent person within the walls of a prison, while the guilty criminal is permitted (in many instances) to go at large upon bail. These unfortunate prisoners are of the poorer classes, without money or friends to assist them to that liberty which is always granted (witnesses) to those possessing wealth and influence, and which is supposed to be the right of every person in this country not guilty of a crime.

The following figures will clearly show the magnificence of this monument to injustice. The average number of days imprisonment of each prisoner committed was about seventeen, and the average cost of maintenance (meals alone) was \$12.56. To the aggregate cost of meals should be added the salaries of the Police Force assigned to the charge of the house, repairs, supplies, furniture, fuel and light, all of which make up a considerable sum to support an institution not demanded by justice or humanity.

"    "    " elevators.....	17
Total.....	4,744

There are in operation in this city more than one thousand steam boilers which are exempt from inspection by the provisions of the present laws by reason of their being used for heating purposes only. Some of these boilers carry a pressure of from 30 to 80 pounds of steam to the square inch, and in our opinion are more dangerous and more likely to explode than boilers used to operate motive power, inasmuch as the latter are constantly exhausting, and are always in care of a qualified engineer, while the former retain to a very large degree the pressure raised, and therefore the wear and strain upon such boilers must necessarily weaken them, and they are usually in charge of a person of no experience as an engineer.

It seems to us that if the laws were amended so as to require all boilers and other apparatus used to generate steam to be inspected at least once each year, it would be for the better protection of life and property, and while it would not be necessary that an experienced engineer be required to have charge of such boilers as do not carry any great pressure, discrimination could be made for such; the condition of the boiler would from time to time be ascertained, and certificates issued for those found in good order, and those found dangerous condemned.

The Sanitary Company, independent of the squad detailed to the service of the Health Department, consists of one Sergeant, two Roundsmen and eighteen Patrolmen. An examination of the labor performed by this comparatively small force will show unexpected and most flattering results. It will prove that an average of sixteen applicants for engineers' licenses were examined upon every working day in the year, and an average of fifteen boilers examined daily. The incidental work in connection with the examination of boilers is very great and important; it requires the exercise of care and skill and faithfulness in order that the public may be guarded against explosions of unsafe boilers.

The fact that there has been no explosion during the year, of any boiler examined by authority of this Department, and no loss of life occasioned by incompetency of engineers having proper licenses, is a striking proof of the wisdom of the laws governing these matters in the City of New York, as well as the fidelity of the officers charged with their execution. The efficiency of the Sanitary Company, and the good results of their work appear to warrant a word in favor of placing all steam generators within the City limits under their management and supervision.

#### TENEMENT-HOUSE SQUAD.

Two Roundsmen and twenty-eight Patrolmen are detailed to the service of the Health Department, and are paid by special appropriation. They are nominally attached to the Sanitary Company, but are under the orders and direction of the said Department. Inasmuch, however, as the members of this squad are Policemen, and are performing duties somewhat in the nature of police service, it is deemed proper to exhibit the result of their work at this time. From the detailed report here given, it will appear that this squad is more than ordinarily active, they having reported no less than 32,597 violations of the Sanitary Code during the year. It will be observed that this squad is credited with a number of arrests growing out of their other labors.

#### PROPERTY AND PROPERTY CLERK'S OFFICE.

The transactions of the Property Clerk's office, the value of property delivered by the Property Clerk and at the several station-houses, the details of auction sales by the Property Clerk, the number of vehicles and animals lost and recovered, the number of complaints made of lost property, and the number of cases where property reported lost was recovered, are indicated by the figures hereto attached.

It will be noticed that in every item of the table, except value of property, there were more instances of recovery than of reported loss.

This is accounted for by the fact that prisoners are often found to have property in their possession that has been stolen and its loss never reported. Very often robberies are committed in the country and the proceeds brought to this city. Thus it is that much property comes into the possession of the Police without previous notice from or complaint by the owners.

## BUREAU OF GENERAL INFORMATION.

On June 16, 1885, the Board of Police, upon the recommendation of Superintendent William Murray, adopted a resolution establishing a Bureau to be known as the Bureau of General Information, for the convenience of the Department, strangers and citizens in general, and also having charge of the records of all missing persons, lost children, foundlings, persons found dead in the streets, etc., etc.

The following briefly narrates the transactions of this Bureau from date of its establishment to December 31, 1885, except in matters elsewhere herein referred to:

## Communications.

Communications have been received from all parts of this country and Europe, requesting information of friends and relatives who had not been seen or heard of for periods extending from one month to thirty years. To all these cases the greatest attention has been given. Officers attached to this Bureau have been sent to the localities where such missing persons have resided, and the old residents interviewed, thus often obtaining correct and accurate information. In many cases the present location and address of such persons have been obtained and the information forwarded to our correspondents. In other cases (and not a few) we have found that the persons inquired for were dead, in which cases copies of the death certificates have been procured and forwarded to the inquirers.

Through the officers attached to this Bureau much valuable information has been obtained and many thankful acknowledgments have been received.

The following is a summary of communications received, to all of which proper replies have been returned:

From places in the United States.....	314
"    Canada.....	14
"    Europe.....	49
"    Africa.....	1
"    New Zealand.....	2
"    Australia.....	1
Total.....	381

## Missing Persons.

Two hundred and sixty-two (262) missing persons have been reported. Many of these cases were surrounded by very mysterious circumstances, nevertheless, the greatest attention has been given to each. The records of the Department relating to persons arrested or sent to hospitals sick or injured have been carefully consulted, and if the desired information could not be obtained from that source, an accurate description of persons and clothing has been recorded in a book kept for that purpose, and the members of the Department were notified of the same by means of a telegraphic alarm sent to all stations.

The following is the number of missing persons:

Males.....	203
Females.....	59
Total.....	262

Of which there have been found and placed in communication with their friends:

Males.....	196
Females.....	55
Total.....	251

Total unaccounted for..... 11

## Persons Found Dead, and not immediately Identified.

In addition to the duties performed in connection with missing persons, the Board of Police, on recommendation of the Superintendent, detailed an officer at the Morgue, whose duty it is to make a daily report to this Bureau, giving an accurate description of all unclaimed dead bodies, which report is copied in a book kept for that purpose. In all cases the record of missing persons is consulted to ascertain if any resemblance exists between the description of such dead body and any person so missing.

In many instances the friends of missing persons have identified such dead bodies, they having been notified from this Bureau to go to the Morgue for the purpose.

Number of dead at Morgue not immediately identified:

Males.....	80
Females.....	7
Total.....	87

Number subsequently identified:

Males.....	38
Females.....	5
Total.....	43

The above figures indicate that there were 44 unidentified bodies, undoubtedly homeless persons without family or friends.

## Runaways from Home.

The motives that govern men, women and children in deserting their homes and families are numerous and conjectural. The Police are obliged to act on these cases with secrecy and delicacy for reasons plainly apparent. The value of the assistance rendered by the force has been very great and met with grateful acknowledgment. The number reported missing and the number returned to their homes is here given.

Number reported missing:

Males.....	103
Females.....	51
Total.....	154

Number returned home:

Males.....	94
Females.....	49
Total.....	143

## Assistance to Strangers.

Since the organization of this Bureau, applications for assistance have been received from many persons who were strangers in this city, they having come here for various purposes—principally to find relatives or friends—and being unsuccessful in their search and all the means at their command exhausted were unable to return home. Through the efforts of members of the force attached to this Bureau, transportation has been procured for them. This has not been confined to individual cases, for in one case a family consisting of a mother and her four children were taken care of. Great difficulty is experienced in the cases of emigrants who, upon their arrival in this city expecting to immediately meet friends, and not doing so, have left the emigrant depot in company with a shipboard acquaintance for parts unknown. In all such cases, after a long and painstaking search by the officers attached to this Bureau, they have been found and restored to their friends.

The following is a summary of persons assisted and furnished with transportation:

To San Francisco, Cal.....	1	To Baltimore, Md.....	1
To Philadelphia, Pa.....	7	To Hudson, N. Y.....	1
To Chicago, Ill.....	3	To Wappinger's Falls, N. Y.....	2
To Bridgeport, Ct.....	2		
To Boston, Mass.....	3	Total.....	20

The labors of this Bureau cannot be fully explained. They include quiet and persistent investigation, often requiring weeks and even months in single cases. The success of the Bureau, which originally was an experiment, is fully assured, and its existence warranted by the results attained.

The sum of \$4,465 was received for mask ball permits and the sum of \$1,940 for pistol permits and the amounts paid over to the Pension Fund, as the law directs.

## ORDINANCE SQUAD.

The Police Force of the Twenty-sixth Precinct is called the Ordinance Squad. Its duties are chiefly to make investigations on application for licenses issued under direction of the Mayor. It will appear by the figures below that no less than 28,390 investigations were made by this force during the year 1885. In addition to this the officers of this precinct have other and important duties.

## BUREAU OF CLOTHING AND EQUIPMENT.

The details of the transactions of this bureau will be found in the schedule hereto appended. The sales of the various materials that together fully equip a Policeman, amount in the aggregate to \$40,390.86, and are made entirely for account of the individuals and firms furnishing the same. This bureau was established for the purpose of furnishing the force with cloth and other material, uniform in quality, color, weight, and at a price very little above the manufacturing cost. In the judgment of this Board the continuance of this bureau is necessary, in order that the force shall maintain its reputation in respect to the uniformity and excellence of its dress.

## PRISON WARD AT BELLEVUE HOSPITAL.

The following letter was forwarded to the Department of Charities and Correction on the date named, with the result that, late in the year, a prison ward was established at Bellevue Hospital for the treatment of sick and disabled persons, and at the same time prevent a possible escape. The Department named readily complied with the request of the Superintendent, and this Board, fully

appreciating the value of the cheerful assistance rendered it, takes this opportunity to publicly thank the Commissioners of Charities and Correction :

POLICE DEPARTMENT OF THE CITY OF NEW YORK,  
No. 300 MULBERRY STREET,  
NEW YORK, June 23, 1885.

To the Hon. Commissioners of Charities and Correction :

GENTLEMEN—I would respectfully suggest that, for the better security of sick and injured persons, charged with crime and under police surveillance, a prison ward be established or built within the precincts of "Bellevue," for the reason that, under the present state of affairs, persons under arrest requiring hospital treatment at your hands are assigned to different wards, thereby necessitating a large detail of Patrolmen to insure their security, whereas by the establishment of a prison ward, securely barred to prevent escapes, it would require but the services of a single Patrolman (with the usual relief) to perform the duty which now requires the services of a dozen or more.

Furthermore, if not inconsistent with the rules of your Department or of other hospitals within the City limits, arrangements could be made whereby such persons, in confinement and under police care at other hospitals, might be transferred to the prison ward so established by you, thereby relieving from the duty of watchmen, a large number of Patrolmen, which would augment the force assigned to patrol duty.

I remain, very respectfully,  
WILLIAM MURRAY, Superintendent.

BOARD OF EXAMINERS.

On the 20th day of November last this Board adopted rules for the government of a Board of Examiners, whose duty it is to examine all applicants for promotion from one rank to another in the Police Force before permitting them to appear before the Civil Service Examining Board. The Board consists of the present three Inspectors of Police, whose long experience and excellent judgment upon police matters, eminently fit them for the proper examination of applicants for promotion. It is believed that a careful and impartial examination of these applicants will eventually result in increased efficiency on the part of the officers of the Department, and that the discipline of the force will be improved thereby.

#### DISCIPLINE OF THE FORCE.

The discipline of the force is at the present time admirable and thoroughly effective, and has, during the past year, been such as to merit the approval of the Commissioners and of the public. This condition is the natural result of the requirement by the Commissioners of a full and proper performance of duty, and in punishing by dismissal, fine and reprimand all delinquents.

The number of charges made against members of the force during the year was 2,570. The labor entailed upon the Commissioners in the hearing of testimony and sifting the evidence in this large number of cases has been considerable.

The judgments rendered by the Board have been as follows :

Dismissals from the force	16
Fines	1,620
Reprimands	317
Complaints dismissed	517

The aggregate number of days' fine inflicted as punishment have been—

Captains	50
Sergeants	59
Patrolman	2,942
Doomen	23

Total..... 3,074

The said fines have amounted to \$9,487.86.

#### BUREAU OF TELEGRAPH.

The importance of the system of telegraphing in use by this Department is exhibited by the following figures, from which it will be seen that 82,383 telegraph messages were transmitted on the wires of the Police Department during the year. Other details in regard to the telephone and telegraph by which connection is made with the Central Office and station-houses will be found of interest, not only to those who make a study of telegraphing, but to the public who derive the greatest benefit from it.

The following is a report showing the number of miles of Police telegraph lines, the mode of operating the same at Central Office, also a list of offices, banks, buildings, hospitals and other institutions connected by telegraph and telephone with Police Central Telegraph Office and Police station-houses.

#### Central Office.

At Central Office the police lines are divided into 5 sections, designated as the East, West, North, South and Central sections, comprising 38 telegraphic stations and by means of switching, two sections are connected into one, for the purpose of transmitting "general alarms," by this means a general alarm is transmitted to all stations, sending the same three times. The number of miles

in these circuits is about 70, two-thirds of which run on Western Union Telegraph Co. poles, and without expense to this Department, the remainder being on Fire Department poles.

The battery room contains about 300 jars of battery used for supplying the main lines which centre therein.

The following are connected with Central Office :

Fire Department Headquarters.  
Police Headquarters, Brooklyn.  
Police Headquarters, Yonkers.  
Police Headquarters, Staten Island (Stapleton).

#### Precincts.

First Precinct—The U. S. Sub-Treasury and Assay Office are connected with the station. The principal banks and moneyed institutions in this precinct are connected with the office of the Automatic Burglar Alarm Co., to which all alarms and calls are transmitted and by them retransmitted by special wire to Police Headquarters.

Seventeenth Precinct—Stuyvesant Safe Deposit Co.'s vaults, Seventh street and Third avenue.

Eighteenth Precinct—New York Gas Company.

Nineteenth Precinct—Murray Hill and Nineteenth Ward Bank.

Nineteenth Sub-Precinct—Several safes in the Grand Central Depot.

Twentieth Precinct—Roosevelt Hospital and Silk Factory, Tenth avenue, Thirty-fifth and Thirty-sixth streets.

Twenty-second Precinct—Roosevelt Hospital.

Twenty-sixth Precinct—Comptroller's, Paymaster's and District Attorney's Offices, also East River Savings Bank.

Twenty-seventh Precinct—Vaults of Union Trust Company and Equitable Buildings.

Twenty-eighth Precinct—Presbyterian Hospital. There is a private wire connecting Kepetsky's liquor warehouse, Second avenue, Sixtieth and Sixty-first streets, but owing to his refusal to pay the expense of maintenance according to agreement it is not in working order. The station is also connected with Central Park Police.

Twenty-ninth Precinct—Delmonico's.

Thirtieth Precinct—Manhattan Hospital.

Thirty-first Precinct—Institution of Mercy, foot of West One Hundredth street.

Thirty-second Precinct—Residence of the President of the Board of Police.

In the Second, Thirty-second, Thirty-third, Thirty-fourth and Thirty-fifth Precincts there is established a system of Police patrol signal-boxes, located at points from which the officers can communicate important messages to the station-houses. The Patrolmen are required to visit these boxes during their tours of duty as often as the Captain may determine. Responsible citizens, residing in the vicinity of them, are furnished with keys, so that they can use them in cases of emergency.

Signal-boxes are located as follows :

Second Precinct—Macomb's Dam Bridge, Judge Smith's Hotel, Mrs. Ogden's residence, Morris Lane, Morris Dock, Berrian's Landing road, ex-Mayor Edison's residence, Kingsbridge road and Central avenue.

Thirty-second Precinct—Deaf and Dumb Asylum, Eleventh avenue and One Hundred and Sixty-first street; Juvenile Asylum, Audubon avenue and One Hundred and Seventy-eighth street; Fort Washington Railroad Station; Bennett's Hill, Fort Washington; Inwood (Kingsbridge road); Elevated Railroad Station, One Hundred and Fifty-fifth street.

Thirty-third Precinct—Corner One Hundred and Forty-third street and Brook avenue, Southern Boulevard and Port Morris, Fleetwood Park Gate, Union and Westchester avenues, Harlem Bridge, Boston avenue and Jefferson street.

Thirty-fourth Precinct—The signal-box line is now being constructed in this precinct, and will be in operation in a few weeks. The boxes will be located as follows: West Farms; Railroad avenue and Bridge street; Second avenue and Walnut street; Railroad and Pelham avenues; Avenue A and Third street.

Thirty-fifth Precinct—Inwood Public School, Kingsbridge road; Riverdale; Mount St. Vincent; Woodlawn; Grand and Moshulu avenues; Spuyten Duyvil.

#### PAWN-SHOPS, LODGING-HOUSES, ETC.

The following schedule shows the number of pawn-shops, liquor and beer saloons, and lodging-houses or dormitories in each Precinct in the City. The cheap lodging-houses are growing rapidly in number in that part of the City south of Fourteenth street. Attention is called to these houses in order that the tendency of the practice of herding large numbers of men into single buildings may be closely observed.

It will be noticed that the number of pawn-shops and the number of liquor-saloons in the Tenth Precinct exceeds the number in any other precinct. Our table of arrests, elsewhere published, shows the large excess of arrests in this precinct over others. These may be coincidences, but they seem to be worthy of some consideration. The per cent. of arrests in the Tenth Precinct was 11.64, and the per cent. of liquor saloons is 7.58 of the whole number :

	11,100 00

Making a total added to the Pension Fund during 1885

There are at this date, six hundred and sixty-one (661) beneficiaries of the Fund, as follows :	
Males	363
Females	246
Orphans	52

Statement of the Capital of the Fund and the Amount Paid for Pensions for a series of years.

YEARS.	CAPITAL.	PENSIONS PAID.	DECREASE OF CAPITAL.	INCREASE OF PENSIONS.
1881	\$299,873 48	\$105,183 65		
1882	270,768 78	116,488 91	\$29,104 70	\$11,305 26
1883	160,963 01	142,795 17	100,805 77	26,306 26
1884	142,758 03	187,687 35	18,204 98	44,892 18
1885	135,953 37	248,023 73	6,804 66	60,336 38

From the above table it appears that the amount paid in pensions is increasing each year, and the capital decreasing, not, however, in so great a ratio. The generous legislation of the past two or three years has enabled the trustees to better meet the outlay for pensions. The large decrease of capital in 1883 was due to a decision of the Court of Appeals (Ryan case), which had the effect to institute many suits for deducted sick time, and payment was made, on mandamus, in a large majority of the cases from the Pension Fund. The amounts so paid in 1883 reached the sum of \$78,312 17.

Under the present mandatory provisions of the Pensions Laws, particularly after twenty years of service, the pension list must inevitably increase. There is no discretion left to the Board of Police on an application for retirement, even when the applicant is strong and healthy. Though a man was appointed a member of the force at the age of twenty-one, and at the age of forty-one, in the full vigor of manhood, makes application for retirement, there is no discretion, no power, to refuse compliance with the demand the law authorizes. Steps have been taken to remedy this error, and it is believed the Legislature will support the Board in its remedial recommendation.

THE FUNERAL OF GENERAL U. S. GRANT.

The operations of the Police Force on the 5th, 6th, 7th and 8th days of August, 1885, and the admirable arrangements perfected and carried out by them, excited the commendation of officials and citizens alike. During the days mentioned the city was crowded by a vast multitude, gathered from every part of the United States. The fame of General Grant and a universal desire to pay tribute to his memory were the causes of this immense gathering. The duty of maintaining order and protecting the lives and property of citizens and visitors devolved upon the Police, and the following communications and resolutions testify to the skill and faithfulness with which the duties were performed.

On the 11th day of August, the Board of Aldermen adopted the following :

"Whereas, On the day of the late lamented General Grant's funeral, when the streets of our city were thronged with over two millions of human beings, the property and homes of our citizens were preserved in security, their comfort provided for and the peace of the city maintained, through the masterly arrangements of the Board of Police Commissioners; and

"Whereas, Through the able generalship of Superintendent Murray and the efficiency of the Police Force a line of over 250,000 persons was maintained in perfect discipline and marshalled in marching order on our public streets through the busiest hours of the day and night, without any suspension of travel or traffic, and without a single mishap or accident; and

"Whereas, The funeral ceremonies of General Grant attracted hundreds of thousands of visitors to our city and the disorder and crime usually incident to such an influx of strangers was averted by the energetic and discreet action of Inspector Byrnes and the force under him; and

"Whereas, All of the facts recited in the foregoing preambles reflect the highest credit on the character and discipline of the Police Force and show that under its new regime, the Police Department has reached a standard of efficiency hitherto unattained and superior to that of any force in the world.

"Resolved, That we formally tender to the Board of Police Commissioners and through them to the Police Force of the City of New York, our sincere thanks for the faithful manner in which they discharged their duties during the trying period of the reception and final interment of General Grant's remains, and that in thus conveying the thanks of the Common Council, we do so with the assurance that we voice the sentiment and hearty appreciation of the citizens of the City of New York.

"Resolved, That a copy of these preambles and resolutions be forwarded to the Board of Police Commissioners."

At a meeting of the Board of Police, held on the 11th day of August, the following communication from the Mayor was received and read :

"MAYOR'S OFFICE, August 10, 1885.

"To the Board of Police Commissioners :

"GENTLEMEN—It is with pleasure that I take this opportunity to testify my personal and official appreciation of the very efficient manner in which the Police Force discharged the difficult duties devolved upon it by the event of last week. The executive ability and the activity displayed by the Superintendent amply vindicate the wisdom shown by your Board in appointing him and the intelligent and prompt assistance rendered him by the three Inspectors, and by the Captains and Sergeants of the various precincts is worthy of high praise. The uniform courtesy of the members of the force has also been widely noted and deserves hearty recognition.

"If you deem the suggestion proper I should be glad to have you communicate to the officers and through them to the force, this expression of satisfaction with the efficiency exhibited by them during the obsequies of General Grant.

"W. R. GRACE, Mayor."

Whereupon it was

"Resolved, That the Board of Police receives with pleasure the communication from his Honor Wm. R. Grace, commending the services rendered by the Police Force of this city in connection with the obsequies of the late General U. S. Grant and hereby directs that the same be entered in full in the minutes of the Board.

"Resolved, That the Board of Police in connection therewith takes great pleasure in placing upon record its high appreciation of the important and arduous services rendered respectively by the Superintendent and Inspectors of Police, the Captains, Sergeants, Roundsmen and Patrolmen of the force during the past week in so creditably carrying out the admirable arrangements made for the reception, viewing and interment in this city of the remains of the late General U. S. Grant.

"Resolved, That a copy of the communication from his Honor the Mayor, with a copy of these resolutions, be transmitted to Superintendent Murray, with directions that he cause the same to be communicated to each member of the Municipal Police Force of this city through its various and respective commands."

Among the letters received by the Superintendent was the following from the officer who had charge of the escort which accompanied President Cleveland and his Cabinet :

"U. S. ENGINEER OFFICE,  
ROOM 50, ARMY BUILDING, August 10, 1885. }

"Mr. WM. MURRAY, Superintendent of Police, New York City :

"MY DEAR SIR—I had expected to see you in person yesterday, but was prevented, and I now write to tell you how well pleased the President and Cabinet were with the arrangements you made in their regard at Claremont at the close of the funeral ceremonies on the 8th inst. The mounted Police, commanded by an excellent Sergeant, were on hand and the whole party were escorted expeditiously to the wharf, without detention, embarrassment or discomfort from the crowd, all due to the efficient services of the Police. I expressed the thanks of the President at the time to the Sergeant and now give myself the pleasure of communicating the same to you.

"Very respectfully,

"C. L. GILLESPIE, U. S. Engineers."

The Major-General Commanding, Winfield S. Hancock, in a general order (No. 15) issued from Headquarters Division of the Atlantic, Governor's Island, New York City, dated August 13, 1885, refers to and compliments the services of the different bodies participating in the obsequies, and speaks of the New York Police, as follows :

"Special mention should be made of the services rendered by the Police Department of the City of New York and of the skillful handling of his force by Superintendent Murray, on Wednesday, the 5th, and on Saturday, the 8th inst."

DETECTIVE BUREAU.

The report of the Detective Bureau will be found hereto appended (Appendix "A"). The importance of the work accomplished by the Inspector in command of the Bureau and of the officers assigned thereto, can scarcely be told within the limits of this report, nor can the figures herewith submitted fully explain the result of that work.

It has recently been said by those qualified to give truthful opinions, that the vicinity of Wall street is entirely rid of the criminal class that in former times made this locality an Eldorado. The establishment of a Branch of the Detective Bureau in the Stock Exchange Building, and the constant detail of experienced men to and around that branch, has had an excellent effect, and the thieves have given it a wide berth.

The Detective Bureau, under its present thorough system, has been successful in detecting and apprehending a large number of noted criminals. Indeed, so widely and favorably is this Bureau known, that its services are in constant requisition from all parts of the United States, as well as in

this city. The daily press of this city has been a faithful and truthful chronicler of the successes of the Detective force during the past year, and it is not needed that this report should more fully set forth their work.

## POLICE RELIEF FUND.

Under and pursuant to chapter 486, Laws of 1885, there was organized and established a charitable fund known as the Police Relief Fund. The trustees of said fund are the Superintendent and Inspectors of Police, in whom is vested the power to distribute said fund in accordance with the law. The first report of said trustees will be found in Appendix B, in which is fully stated the objects of the fund, and its financial transactions from the date of organization to December 31, 1885. An unfortunate difference of opinion as to the right of the Board of Police to make the monthly deductions demanded by the law has led to a litigation which is not yet ended. For this reason alone the intended beneficiaries of the fund have been deprived of the benefits assured them. It is believed, however, that the question of constitutionality involved in the litigation will be speedily decided in favor of the trustees, in which event no time will be lost in making every payment now due.

The report is presented in full in order that the public, the authorities and all who may have a personal interest may fully understand the difficulty that accompanies a prompt and proper administration of the fund.

Respectfully submitted,

S. B. FRENCH, President.

WM. H. KIPP, Chief Clerk.

## APPENDIX "B."

## ANNUAL REPORT MADE TO THE BOARD OF POLICE BY THE BOARD OF TRUSTEES OF THE POLICE RELIEF FUND, NEW YORK, JANUARY 1, 1886.

POLICE DEPARTMENT OF THE CITY OF NEW YORK,  
No. 300 MULBERRY STREET,  
NEW YORK, January 1, 1886.

## To the Honorable Board of Police of the Police Department of the City of New York:

The following report of the Board of Trustees of the Police Relief Fund is made to your Honorable Board in accordance with the provisions of chapter 486 of the Laws of 1885, passed June 11, 1885, creating a Police Relief Fund.

In accordance with the provisions of the above act, a meeting was held at Central Office, No. 300 Mulberry street, on June 17, 1885, consisting of the following persons, viz:

William Murray, Superintendent of Police.  
George W. Dilks, Inspector of Police.  
Thomas Byrnes, " "  
Henry V. Steers, " "  
—who proceeded to organize as a Board of Trustees by the election of Superintendent William Murray as Chairman, and Inspector George W. Dilks as Treasurer, and the selection of Sergeant Washington Mullin as Secretary to the Board.

The following rules to govern the action of the Board were adopted:

## POLICE RELIEF FUND.

Instituted by Authority of Chapter 486 of the Laws of 1885. Passed June 11, 1885.

## ITS MISSION AND PURPOSES.

To embrace in its membership the Police Force of the City of New York, and all persons connected with the Police Department, and such members of the Police Mutual Aid Association who were in good standing therein at the time of the passage of the act creating the fund who may desire to avail themselves of its privileges, thereby giving equal protection to all who may have an interest in said fund, and paying to the beneficiaries of its deceased members, as they may designate from time to time, the sum of twelve hundred dollars, thus enabling them to protect their families, or those dependent upon them, from privation and want.

## TRUSTEES OF THE FUND.

By the provisions of the law the Superintendent and Inspectors of Police are constituted a Board of Trustees to carry out the objects of the law and to discharge the duties prescribed therein. In consideration of the responsibilities imposed, the Trustees have adopted the following rules governing the Board, and to facilitate the operation of the trust:

## MEETINGS.

The annual meeting of the Board of Trustees shall be held on the first Monday of February of each year at the Central Department of Police, for the election of a Chairman and Treasurer, and for the appointment of a Secretary to the Board. Stated meetings of the Board shall be held on the 5th day of each month (unless otherwise directed), and special meetings may be called by the Chairman whenever necessary and when requested by a majority of the Board.

A majority of the members of the Board shall constitute a quorum.

## CHAIRMAN.

The Chairman shall preside at all meetings of the Board of Trustees. He shall sign all orders drawn on the Treasurer by order of the Board of Trustees, and perform such other duties as may be required of him by law or usage, or by action of the Board of Trustees. He shall appoint all standing and special committees.

TREASURER.

The Treasurer shall have the custody of all moneys, and shall pay out the same only on the order of the Board of Trustees, countersigned by the Chairman. He shall keep proper books of account, which shall be subject to the inspection, at all times, by the Board of Trustees or any of its members, and he shall furnish to the Board of Trustees a statement of the receipts, expenditure and financial condition of the fund whenever required.

TRUSTEES.

It shall be the duty of the Board of Trustees to present a statement of the condition of the fund to the Board of Police, in the month of January in each year, showing the amount received, from what source received, the amount paid out for expenses and benefits during the preceding year, the moneys and securities on hand, and any other facts of general interest, which statement shall be printed for the information of those concerned and for the general public. They shall pay over to the Trustees of the Police Pension Fund all moneys in excess of the sum of five thousand dollars then in the hands of the Treasurer of the Relief Fund and not due to any person on account of a death payment.

SECRETARY.

The Secretary shall collect and receive, under the supervision of the Treasurer, all moneys from members who are not upon the pay-rolls of the Police Force, and immediately pay the same over to the Treasurer, keeping an accurate account of the same. He shall keep a correct record of the proceedings of all meetings of the Board of Trustees, conduct correspondence under the direction of the Chairman, and perform such other duties as properly pertain to his office, or which may be required of him by the Board of Trustees. He shall also keep the following books:

1st. A record of members, which shall include the Police Force proper, and all others who are or may become members, the beneficiaries in each case, the precinct or squad of each member of the force, and the address of each other member; the date of joining, the date of leaving the Force or department, and of death or relinquishment of membership.

2d. A cash-book containing the amount received each month from the Treasurer of Police; the amount received from present members of the department, and the amount received from all other sources; also the amount paid out, to whom paid, and for what purpose.

THE FUND.

The Relief Fund shall consist of a sum of money equal to two dollars per month from every member entitled to its benefits, and of all gratuities, interest on deposits, and the profits of such investments of the fund as the Board of Trustees may from time to time make.

BENEFITS.

The benefit shall be twelve hundred dollars, to be paid by the Treasurer upon the order of the Board of Trustees, to the person or persons designated by the member. Such designation to be made in writing, and executed in the presence of at least one witness, and filed with the Board of Trustees, or in the absence of such designation, then to the widow or next of kin of the deceased member, such benefit to be paid on the fifth day of the next succeeding month after collection.

DESIGNATIONS.

Every member is required to execute in writing, in the presence of a witness, a designation, naming the person or persons to whom the benefit shall be paid in the event of his death, such designation to be filed with the Trustees of the fund, and which may be altered or changed at any time by the member and duly filed as above.

MEMBERSHIP.

Every member of the Police Force of the City of New York is, by virtue of the law, a member of and is entitled to the benefits of this fund. Members of the department and all persons in the employ of the Police Department, and members of the Police Mutual Aid Association, in good standing may avail themselves of the benefit by paying to the Treasurer of the Board of Trustees two dollars on the 5th, 15th or 25th day of each month; and any member of the Police Force and department who may be retired, dismissed or resign from the force or department, may continue his membership and be entitled to its benefits as provided by said act. "But any such person, not in the employ of the said Police Department or a member thereof, who shall fail to pay the said sum of two dollars within thirty days after the same shall have become due shall forfeit all claim to any portion of said fund or benefit to be derived therefrom (see sec. 3 of the law).

OPERATION OF THE FUND.

In consequence of the objection interposed by some few members of the Police Force to the deduction of the sum of two dollars per month from their salary, the Treasurer of the Board of Police refused to pay over to the Trustees of this fund the amounts deducted from the salary of the members of the Police Force, and the Trustees were compelled to commence mandamus proceedings against the Treasurer of the Board of Police requiring him to show what cause he had, if any, for withholding from the Trustees the moneys which was to form the fund created by the law.

"The cause was argued before Judge Lawrence in Special Term, and the constitutionality of the said act was affirmed.

"An appeal was taken by the Counsel of the Corporation from the above decision, which appeal is now pending.

"In consequence of these proceedings the Board of Trustees of the Police Relief Fund has been unable to put the law into full and complete operation."

Such part of the provisions of the law as the trustees have been enabled to put into effect has been the collection of the contributions made by such members of the Police Aid Association as were in good standing at the time of the passage of the act, and have availed themselves of the privileges under the law, and also the payments of those of the active Police Force who have been retired, dismissed, or have resigned therefrom, and who have continued to avail themselves of its privileges by the payment of two dollars monthly; a full report of which is as follows:

## EXECUTIVE DEPARTMENT.

MAYOR'S OFFICE,  
NEW YORK, January 7, 1886.

Pursuant to section 9 of chapter 339, Laws of 1883, I hereby designate

"New York Times" and the "Daily News" two of the daily newspapers printed in the City of New York, in which notice of each sale of unredemmed pawns or pledges by public auction in said city, by pawnbrokers, shall be published for at least six days previous thereto, until otherwise ordered.

W. R. GRACE, Mayor.

MAYOR'S OFFICE,  
NEW YORK, December 31, 1885.

In pursuance of the ordinance, approved April 30, 1877, and amended June 1, 1877, entitled, "An Ordinance to prevent the danger of hydrophobia to any of the inhabitants of the City of New York," notice is hereby given that all Dogs found at large in the City of New York on and after January 1, contrary to such ordinance, will be seized and disposed of as provided therein.

The Dog Pound at the foot of Sixteenth street, East river, is hereby designated as the place where dogs so captured must be delivered to the Keeper thereof. The Pound will be open from eight o'clock A. M. until five o'clock P. M. daily, Sundays excepted, on and after the first day of January, 1886.

WM. R. GRACE,  
Mayor.

JURORS.

NOTICE  
IN RELATION TO JURORS FOR STATE COURTS.

OFFICE OF THE COMMISSIONER OF JURORS,  
ROOM 127, STEWART BUILDING,  
CHAMBERS STREET AND BROADWAY,  
NEW YORK, June 1, 1886.

APPLICATIONS FOR EXEMPTIONS WILL BE heard here, from 10 to 3 daily, from all persons hitherto liable or recently serving who have become exempt, and all needed information will be given.

Those who have not answered as to their liability, or proved permanent exemption, will receive a "jury enrollment notice," requiring them to appear before me this year. Whether liable or not, such notices must be answered (in person, if possible, and at this office only) under severe penalties. If exempt, the party must bring proof of exemption, liable, he must also answer in person, giving full and correct name, residence, etc., etc. No attention paid to letters.

Persons "enrolled" as liable must serve when called or pay their fines. No mere excuse will be allowed or interference permitted. The fines if unpaid will be entered as judgments upon the property of the delinquents. All good citizens will aid the course of justice, and secure reliable and respectable juries, and equalize their duty by serving promptly when summoned, allowing their clerks or subordinates to serve, reporting to me any attempt at bribery or evasion, and suggesting names for enrollment. Persons between sixty and seventy years of age, summer absentees, persons temporarily ill, and United States and District Court jurors are not exempt. Every man must attend to his own notice. It is a misdemeanor to give any jury paper to another to answer. It is punishable by fine or imprisonment to give or receive any present or bribe, directly or indirectly, in relation to a jury service, or to withhold any paper or make any false statement, and every case will be fully prosecuted.

CHARLES REILLY,  
Commissioner of Jurors.

## SUPREME COURT.

In the matter of the application of the Counsel to the Corporation of the City of New York, for and in behalf of the Mayor, Aldermen and Commonality of the City of New York, under and in pursuance of chapter 188, of the Laws of 1885, to acquire title to the additional lands required for Riverside Park, as defined, laid out and established by said act.

PURSUANT TO THE PROVISIONS OF CHAPTER 496 of the Laws of 1885, and of all other statutes in such cases made and provided, notice is hereby given that an application will be made to the Supreme Court of the State of New York, at a Special Term of said Court, to be held at the Chambers thereof, in the County Court house, in the City of New York, on Friday, the twenty-sixth day of March, 1886, at the opening of the Court on that day, or as soon thereafter as counsel can be heard thereon, for the appointment of Commissioners of Estimate and Assessments in the above entitled matter. The nature and extent of the improvement hereby intended, is the acquisition of title, in the name and behalf of the Mayor, Aldermen and Commonality of the City of New York, to all the additional lands and premises, with the buildings thereon and appurtenances thereto belonging, required for Riverside Park, as laid out and established by chapter 188, of the Laws of 1885, passed June 11, 1885, being the following described lots, pieces or parcels of land, viz:

## HARLEM RIVER BRIDGE COMMISSION.

CITY OF NEW YORK—OFFICE OF THE COMMISSIONERS OF THE HARLEM RIVER BRIDGE, ROOM 73, COTTON EXCHANGE BUILDING, HANOVER SQ., NEW YORK, March 15, 1886.

SEALED PROPOSALS FOR BUILDING THE Harlem River Bridge, indorsed with the above title, and also with the name of the person making the same, will be received at this office until 12 o'clock M. of the 22d day of April next ensuing.

The work to be performed will consist of a bridge and approaches extending from the Twelfth avenue, to Aqueduct avenue, or from points near those avenues, a distance of about 2,373 feet, of which there will be two spans of metallic arches, each span of 203 feet clear width and 90 feet rise, and two abutments of 237 and 340 feet length respectively.

The grade of the bridge will be at least 145 feet above mean high water, and its clear passage width 80 feet. The grades at the ends will correspond with those of the Fench and Aqueduct avenues, and the roadway and the walks of the approaches will be graded and paved as on the bridge proper, viz.: With granite blocks for the roadway and blue stone for the sidewalks.

The plans and specifications will be ready for examination at this office by the 22d day of March next, at which time blank forms of proposals will be furnished.

The offers may be made for a gross sum for the metal work erected complete, including the metal beams above the arches and abutments, and for the entire gross sum for the foundations, masonry, grading, roadway and foot-walks, etc., including all except the above metal work; or, those offering, may propose for constructing the whole work in one gross sum.

Each bid must be signed by all the persons interested therein, and must be accompanied by the written consent (on the printed form furnished), of two or more holders or freeholders of the City of New York, agreeing to become sureties for the proper performing of the work, and also a certified check on one of the incorporated banks of the City of New York, payable to the order of the Commissioners, to the amount of five per cent. of the security specified. All checks, except that of the successful bidder, will be made as and paid as the awards are made. When the contract and bond have been executed and accepted, the check of the successful bidder will be returned.

The amount of security required from the contractor for the metal work, etc., will be \$200,000, and for the masonry a like amount, and for the entire work, \$400,000.

Bidders for the masonry alone must, with their bid, present a certified check for \$100,000 to the order of the Commissioners. Those bidding for the iron work alone must present a like check, and those bidding for the whole work must present check for \$200,000.

The abutment piers and the middle pier must be ready to permit the contractors for the metal work to commence and prosecute their work earlier than the first day of July, 1887, and the whole masonry work must be completed by the first day of January, 1888. The arches and other metal work must be completed by the first day of February, 1888, and the whole bridge, including the roadway, foot-walks, etc., must be entirely complete by the first day of June, 1888.

In case any bid shall be accepted the contract for the execution of the work included in such bid shall be in such form and shall contain such provisions as shall be required by the contract, and the promptly returned as soon as the Commissioners reserve the right to reject in their absolute discretion, any and all bids.

JACOB LORILLARD,  
DAVID JAMES KING,  
VERNON H. BROWN,  
Commissioners.

CORPORATION NOTICE.

FOR THE REDEMPTION OF LANDS AND TENEMENTS SOLD FOR UNPAID ASSESSMENTS, UNDER THE DIRECTION OF EDWARD V. LOEW, COMPTROLLER OF THE CITY OF NEW YORK.

PUBLIC NOTICE IS HEREBY GIVEN TO THE OWNERS, LESSEES OR PERSONS OTHERWISE INTERESTED, AND TO THE MORTGAGEES OF THE REAL ESTATE, THEIR ASSIGNEES OR PERSONAL REPRESENTATIVES, that the lands and tenements in the City of New York, described in the following list, were sold at public auction by the Collector of Assessments and Clerk of Arrears of said City, and for the respective term of years mentioned in the following list, in default of the payment of assessments for opening, widening, extending and straightening roads, streets, avenues, parks and public places.  
That said sale continued during the 6th, 7th and 8th days of October, 1884, and the day when each parcel was sold is shown on the following list, and that a certificate of sale has been given to the purchaser of each parcel so sold, dated on the day of sale of such parcel.  
And notice is hereby further given that unless the several lands and tenements so sold be redeemed by the persons respectively claiming title to the same, or some other persons, on or before the expiration of two years from the date of the respective certificates of sale of the said lands and tenements, hereinafter particularly mentioned, which will be on the 6th, 7th and 8th days of October, 1886, as shown by said list, by paying to the Collector of Assessments and Clerk of Arrears of said City, for the use of the purchasers of the said lands and tenements sold, their executors, administrators or assigns, the respective sums of money for which said lands and tenements were sold, together with interest thereon at the rate of fourteen per cent. per annum from the date of the respective certificates of sale, the Comptroller, in the name of the Mayor, Aldermen and Commonalty of said City, will execute to the respective purchasers, their executors, administrators or assigns, a lease under the common seal of the said City of the lands and tenements so sold for such term of years as the same were respectively sold.

A. S. CADY, Collector of Assessments and Clerk of Arrears.

Finance Department, Bureau for the Collection of Assessments and Arrears of Taxes and Assessments and of Croton Water Rents, Comptroller's Office, New York City, February 23, 1886.
