Minutes of Special Meeting of Art Commission Held in Its Offices, Third Floor, City Hall, on Wednesday, Dec. 20, 1916, at 2:30 o'Clock P. M.

The meeting was called at the request of his Honor, Mayor Mitchel, to consider the question of letter boxes for New York City.

Present: President de Forest, Presiding, Commissioners Healy, Crittenden, MacNeil, Wheeler, Sherrill, Guerin and Stokes.

On communications from Mayor Mitchel and Commissioner Boring explaining their absences, they were excused.

The President presented a copy of Mayor Mitchel's letter to Albert S. Burleson, Postmaster General.

The President presented a statement setting forth the relation of the Art Commission to designs for letter boxes which concluded with the following resolution:

Resolved, That the action of the Art Commission in disapproving on May 11, 1914, the designs for letter boxes and columns then submitted be reconsidered and the said designs be approved as respects any Post Office boxes to be located in the City of New York previous to May 1, 1917.

Instead of the above resolution the following resolution and statement were adopted—President de Forest not voting:

Resolved, That the Art Commission hereby reaffirms its approval of the two designs heretofore submitted on Sept. 27, 1915, and March 11, 1916, by the United States Post Office Department, so as to make it plain that ever since April 25, 1916, that Department has been in a position to use either of those designs in New York City.

The history of this matter is as follows:

The matter of Letter Boxes was first brought to the attention of the Art Commission by the submission to it on May 5, 1914, of a design for letter boxes which in the opinion of the Commission was objectionable both from the point of view of appearance and greater obstruction to the public streets than would be the case if letter boxes were attached to lamp-posts or buildings. This design was disapproved by the Commission on May 11, 1914. Since that time the Commission has been engaged in cordial cooperation, as it has supposed, with the Post Office Department in securing for the City a standard design unobjectionable in appearance which might be placed on lamp-posts or on buildings and even on columns in locations which would least obstruct traffic; and Charles Keck, who was employed by the Post Office Department to make a design, was in frequent conference with members of the Commission.

On Sept. 27, 1915, the Post Office Department submitted to the Commission a design made by Mr. Keck which was promptly approved by the Art Commission on Oct. 13, 1915, and this approval was promptly notified to the Post Office Department. The Art Commission did not ignore the practical question of expense. It understood that the cost of the boxes in question after a die was made did not differ materially from the cost of other boxes proposed by the Department.

Afterward and on March 11, 1916, James A. Edgerton, Purchasing Agent of the Department, submitted to the Commission another design less satisfactory in the opinion of the Commission than the one previously submitted by the Department

which the Commission had already approved, and the Commission through its Assistant Secretary notified the Department that either design could be used although the Art Commission much preferred the one first submitted.

The Assistant Secretary of the Art Commission on April 25, 1916, addressed to Mr. Edgerton the following letter explaining the situation:

"In reply to your letter of recent date in regard to letter box designs, I beg to inform you that the action of the Art Commission was final on the designs submitted by your Department. This action of the Commission was transmitted to you under date of March 20, 1916.

"I beg to quote the action of the Commission at its meeting on March 13, namely, 'that in the opinion of the Commission the ornamentation formerly submitted for the end of the box, consisting of an eagle, is satisfactory and very much to be preferred to the design now submitted consisting of a shield with the wing above it. The Commission, however, does not consider the latter design, provided some slight changes be made, so objectionable as to meet with its disapproval.' This means, of course, that either design may be used for letter boxes in New York City."

The Art Commission also calls attention to the fact that it has also previously approved a design for letter boxes on Nov. 24, 1911, some of which have been erected and which the Post Office Department ever since that date have been at perfect liberty to install.

In this connection the Art Commission places on record the following facts with regard to its policy:

For many years past, in addition to the attention it has been giving to more important matters, it has given especial attention to designs for comparatively small objects which are repeatedly used in the City to the class of which letter boxes belong. Among objects of this class to which the Commission has given its attention are electric light posts for the parks and main thoroughfares; street signs; and fences for small parks. Any one of these things in itself is comparatively insignificant. The frequent repetition of such objects makes their design of public importance. To no city structures has the Art Commission given more attention in recent years than to structures of this class. It is in this spirit that it has sought to cooperate with the Post Office Department in securing an inexpensive standard letter box, unobjectionable certainly if not agreeable in design.

It is for the above reason that it deems a proper design for letter boxes in the City of New York of public importance and it is for this reason that it strongly urges upon the Post Office Department the adoption at the earliest possible moment of the excellent design by Mr. Keck and submitted to the Commission by the Department which received its hearty approval on Oct. 13, 1915.

On motion the meeting adjourned.

J. Q. ADAMS, Assistant Secretary.

NOTICE TO BIDDERS AT SALES OF OLD BUILDINGS, ETC.

TERMS AND CONDITIONS UNDER WHICH BUILDINGS, ETC., WILL BE SOLD FOR REMOVAL FROM CITY PROPERTY.

THE BUILDINGS AND APPURTENANCES

thereto will be sold to the highest bidder, who must pay cash or certified check, drawn to the order of the Comptroller of The City of New York, and must also give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. Where the amount of the purchase price does not equal or exceed the sum of \$50, the sum of \$50 will be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract, but unfinished at the expiration of the contract period.

The purchaser shall not lease, occupy, cause or permit the building or buildings, etc., purchased by him to be used or occupied for any purpose other than that of their speedy removal nor shall he collect any rental or other revenue for the use of either the land or the buildings, etc., situated thereon. The breach of either or any of these conditions shall forthwith void the sale and cause immediate forfeiture of the purchase money and the security deposited for the faithful performance of the conditions of the sale. The placing therein or permitting the occupancy of any such building by any tenant free, for rent or otherwise, excepting the necessary watchmen or the workmen engaged in the actual demolition thereof, shall of itself be a breach of the above conditions of sale.

The sale will be as of the condition of the property on date of delivery thereof to the purchaser. The City of New York will not be responsible for any change or loss which may occur in the condition of the buildings, or their appurtenances between the time of the sale thereof and the time of delivering possession to the purchaser, after being properly vacated of all tenants. The sale and delivery to purchaser will be made as nearly together as the circumstances of vacating the structures of their tenants will permit.

All the material of the buildings, sheds, walks, structures and cellars of whatever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds, except the exterior walls of the buildings and their foundations and the sidewalks and curb in front of said buildings, extending within the described area, shall be torn down and removed from the premises. None of the dirt, debris or waste resulting from demolition shall be allowed to remain on the premises, except old mortar or plaster only, which may be left, but not higher at any point than two feet below the curb opposite that point. The exterior walls and their foundations shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building. Where there is no curb the elevation of the surrounding ground shall be considered curb level. All wells, cesspools, sinks, etc., existing on the property must be filled to the level of the surrounding ground with clean earth.

The purchaser at the sale shall also withdraw and remove all abandoned water taps and old service mains, and in place thereof cause to be inserted a brass plug in the main water pipe in the street, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and furnish the Department of Finance with a certificate from the Department of Water Supply, Gas and Electricity that this has been performed.

The purchaser at the sale shall also remove all house sewer connections to the main sewer in the street and the openings of the main sewer in street shall be properly closed in compliance with the directions of the Bureau of Sewers in the Borough in which the buildings are situated, and furnish the Department of Finance with a certificate from the Bureau of Sewers that the work has been properly performed.

The permit for all opening in the street to be obtained by and at the expense of the purchaser of the building.

Failure to remove said buildings, appurtenances, or any part thereof, within thirty days

from the day of possession will work forfeiture of ownership of such buildings, appurtenances or portions as shall then be left standing, together with all moneys paid by said purchaser on account thereof at the time of the sale, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and The City of New York will, without notice to the purchaser, cause the same to be removed, and the cost and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and must be completed within thirty days from the day of possession, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damage and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of said buildings.

Where party walls are found to exist between buildings purchased by different bidders, the materials of said party walls shall be understood to be equally divided between the separate purchasers.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down. All furrings, plaster, chimneys, projecting brick, etc., on the faces of such party walls are to be taken down and removed. The walls shall be made permanently self-supporting, beam holes, etc., bricked up, and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs and adjacent buildings shall be properly flashed and painted and made watertight where they have been disturbed by the operations of the Contractor.

No buildings, parts of buildings, fixtures or machinery sold for removal under these terms and conditions, shall in any case be re-located or re-erected within the lines of any proposed street or other public improvement, and if any such buildings, parts of buildings, fixtures or machinery, etc., shall be re-located or re-erected within the lines of any proposed street or other public improvement, title thereto shall thereupon be conveyed to The City of New York and a resale at public or private sale may be made in the same manner as if no prior sale thereof had been made.

The Comptroller of The City of New York reserves the right on the day of sale to withdraw from sale any of the buildings, parts of buildings and machinery included therein, or to reject any and all bids, and be it further

Resolved, That while the said sale is held under the supervision of the Commissioners of the Sinking Fund, the Comptroller is authorized to cause the sale to be advertised and to direct the sale thereof as financial officer of the City.
