OPEN-ENDED - SCHOOL BASED HEALTH CENTER SERVICES

- Competitive Sealed Proposals/Pre-Qualified List PIN# 81622P0003
- Due 12-31-99 at 12:00 A.M.

The New York City Department of Health and Mental Hygiene (DOHMH) continues to seek proposals for the School Based Health Centers (Open-Ended) Request for Proposals (RFP) through the PASSPort system. This RFP is issued and remains available through the PASSPort system only to those organizations that have an account and an Approved HHS Accelerator PQL qualification status in PASSPort. Proposals and prequalification applications will be accepted on an on-going basis ONLY through PASSPort. If you do not have a PASSPort account or Approved PASSPort HHS Accelerator PQL Application, please visit nyc.gov/passport to get started.

School Based Health Centers (SBHC) were established by Chapter 198 of the NYS Laws of 1978 "to improve the accessibility and availability of quality comprehensive and preventive physical and mental health services to preschool, elementary, middle and secondary school students in high risk areas of New York State. As a result of this Law, NYS Department of Health approves, licenses and monitors every SBHC in NYS. School Based Health Centers are medical health centers within the schools. They help students manage their illnesses during the school day. Because of the location, School Based Health Centers are an easy health care option for busy students with busy parents who cannot always make it to their doctor's office. School-Based Health Centers have been providing primary care to students in NYC schools for over 30 years. It's been proven that School-Based Health Centers lower school absences and parents' time away from work. They also lower the chance of an emergency room or hospital visit. If a child has a chronic illness, or suddenly gets sick, a School-Based Health Center at their school can assist the child with needed care.

PRE-QUALIFIED LIST (PQL) PROGRAM FOR VARIOUS TRADES

NYCHA is currently accepting applications for Pre-Qualified List (PQL) program for various trades.

A PQL is a tool that NYCHA will use to qualify vendors and contract goods or services for its developments, streamlining the process for both vendors and NYCHA. NYCHA will publish contracting opportunities, and the PQL will predominantly be used to procure goods or services for those contracts. Vendors who apply to those bids must pre-qualify according to specific criteria, and vendors who are admitted to the PQL can bid on contracts.

Currently NYCHA has established four (4) PQL lists for the Closed-Circuit Television (CCTV), Carpentry, Painting and Lead Based Paint (Assessment and Abatement, Inspection and Assessment & Lab Analysis).

All vendors interested in NYCHA's PQLs must follow two (2) important steps:

First, vendors must prepare and submit applications to the PQL: To pre-qualify, vendors must meet the minimum requirements listed on the Request for Qualification of the select PQL. Applications will be evaluated by NYCHA on a rolling basis.

Second, vendors who are admitted to the PQL can then bid on solicitations for services on the PQL: Vendors must bid on each contract award, as these are not guaranteed.

For more information regarding PQL's and to obtain applications, please visit NYCHA's website at: https://www.nyc.gov/site/nycha/business/nycha-pql.page.

SHARE PROGRAM ADMINISTRATION - Negotiated Acquisition - Other - PIN# 06924N0005 - Due 12-20-23 at 2:00 P.M.

The Department of Social Services (DSS) is seeking one (1) vendor to administer a new rental assistance program called SHARE in New York City for households who are otherwise ineligible for federal benefits and other State and Local housing assistance. In New York, the State and City have invested hundreds of millions of dollars over the last few decades in building up the resources, programs, and actual brick and mortar affordable housing options for families and individuals in the New York City shelter system. Housing subsidies, employment programs, affordable housing set-asides, and referrals to public housing make all the difference for households on the path to housing permanency—however none of those paths are open to households who are not eligible for federal benefits based on their immigration status. These families and individuals—often living with disabilities and other barriers—end up residing in shelters for years with no viable plan for permanent housing. The SHARE program will house homeless families and individuals, prioritizing those who have been in shelter the longest. The vendor will process housing packages received from the Department of Homeless Services (DHS), make up front and ongoing payments to landlords, assist the tenants in annual renewals, and provide ongoing assistance to tenants and landlords to ensure housing retention in the program.

AGENCY RULES

HEALTH AND MENTAL HYGIENE

■ NOTICE

Notice of Adoption of Amendments to Article 11 of the New York City Health Code

In accordance with section 1043 of the New York City Charter ("Charter") and pursuant to the authority granted to the Board of Health ("Board") by section 558 of said Charter, a notice of intention to amend Article 11 of the New York City Health Code ("Health Code") was published in the City Record on June 21, 2023 inviting the public to offer comments on these proposed amendments. The New York City Department of Health and Mental Hygiene ("Department") held a public hearing on these proposed amendments on July 21, 2023. One person spoke at the public hearing on general matters not directly related to the proposal and no written comments were received. The Department has not made any changes to the proposed amendments and requests that the Board adopt the proposed amendment text as published in the City Record. At its meeting on October 24, 2023, the Board of Health adopted the following resolution.

Statement of Basis and Purpose

The Department's Division of Disease Control conducts disease surveillance and control activities for most of the diseases listed in Article 11 (Reportable Diseases and Conditions) of the Health Code. In addition, the Department is required to comply with various provisions of Part 2 of the New York State Sanitary Code, found in Title 10 of the New York Codes, Rules and Regulations, with respect to control of communicable diseases.

To allow the Department to conduct more effective, timely and complete disease surveillance and control, the Board now amends Article 11 of the New York City Health Code as described below.

Alpha-Gal Syndrome Reporting

Alpha-gal syndrome (AGS) is an allergic reaction resulting from exposure to galactose- α -1,3-galactose (alpha-gal), a sugar molecule found in most mammalian meats (e.g., beef, pork, lamb) and products made from mammals (milk, milk products and gelatin). AGS can be a severe or life-threatening allergic reaction characterized by hives or

an itchy rash, nausea, vomiting, diarrhea, heartburn, cough, shortness of breath, drop in blood pressure, severe stomach pain, dizziness, or swelling of the lips, throat, tongue or eyelid. There is growing evidence suggesting that the increasing number of cases of AGS are triggered by the bite of a lone star tick ($Amblyomma\ americanum$). ^{1,2,3}The lone star tick has been found in limited areas of New York City as well as in New York State and other neighboring jurisdictions.

There is little epidemiological knowledge of the actual number of people with AGS due to the lack of reporting. Receiving laboratory reports of AGS test results will enable the Department to better understand the burden of disease and the demographic characteristics of the affected population. Preventing tick bites is the most impactful way of reducing the number of AGS cases and knowing in which neighborhoods cases reside will allow for targeted outreach and education. In 2021, the Council of State and Territorial Epidemiologists (CSTE) released a position statement that created a standardized case definition for AGS to enable improved surveillance by state and local health departments.

The Board now amends Health Code §11.03(a) to require laboratories to report to the Department all positive AGS test results. Reporting of AGS test results will improve our knowledge about the incidence and prevalence of AGS and will help to inform tick prevention programming.

Carbapenem-Resistant Organisms (CROs) Reporting

Certain carbapenem-resistant organisms (CRO) were classified by the Centers for Disease Control and Prevention (CDC) in 2019 as an urgent threat to public health. Organisms resistant to carbapenems are often resistant to commonly used antibiotics, severely limiting treatment options. Carbapenem-resistant Acinetobacter baumannii (CRAB), a type of CRO, caused an estimated 8,500 infections in hospitalized patients and 700 deaths in the United States in 2017, the most recent year for which national data is available. In 2022, the CDC began investigating an outbreak of another CRO, carbapenem-resistant Pseudomonas aeruginosa (CRPA), associated with the use of artificial tears, involving at least 81 patients in 18 states (as of May 15, 2023), including New York City.

CRO infections usually occur in hospitals, nursing homes and other high-acuity healthcare settings. Patients whose care requires devices like ventilators and catheters and those who are taking long courses of certain antibiotics are most at risk for CRO infections. Carbapenem-resistant Enterobacterales (CRE), a type of CRO, and formerly known as carbapenem-resistant Enterobacteriaceae, was made reportable to the Department by the Board in 2018. The annual number of reported confirmed CRE cases among residents of New York City has steadily increased since CRE became reportable in 2018, with a preliminary total of 1,165 in 2022. Though there is currently no requirement to report confirmed cases of CRPA and CRAB, some laboratories are voluntarily reporting these cases. One commercial laboratory reported 54 CRE, 40 CRPA and 97 CRAB cases in 2022.

An expansion of reporting to include CRPA, CRAB and other CRO will provide vital epidemiological information regarding the transmission and evolution of CRO; assist in the identification of cases and outbreaks to ensure rapid implementation of infection control precautions and improve our understanding of CRO incidence and prevalence in New York City to inform targeted public health action and combat continued spread. CSTE recommends that jurisdictions enact requirements for reporting of certain CRO.

The Board now amends Health Code §11.03(a) to require laboratory

reporting to the Department of CRO test results. CRE has been removed as a separate condition from the disease reporting list because the addition of CRO subsumes and includes such condition. Requiring reporting of all CRO will improve our understanding of these organisms and help combat their spread.

Statutory Authority

The authority for these amendments is found in Sections 556, 558 and 1043 of the New York City Charter. Section 556 of the Charter provides the Department with jurisdiction to protect and promote the health of all persons in the City of New York. Sections 558(b) and (c) of the Charter empower the Board to amend the Health Code and to include all matters to which the Department's authority extends. Section 1043 grants the Department rule-making authority.

The amended rule now reads as follows:

Note: Matter in brackets [] is to be [deleted]. Matter <u>underlined</u> is new. Asterisks (***) indicate unamended text.

"Shall" and "must" denote mandatory requirements and may be used interchangeably unless otherwise specified or unless the context clearly indicates otherwise.

RESOLVED, that subdivision (a) of section 11.03 of Article 11 of the New York City Health Code, as set forth in Title 24 of the Rules of the City of New York, be amended to include laboratory-confirmed alpha-gal syndrome and laboratory-confirmed carbapenem-resistant organisms to the list of Department-reportable diseases, in alphabetical order, and to remove laboratory-confirmed Enterobacteriaceae, carbapenem-resistant (CRE), from such list as this condition would be subsumed and included under CRO reporting, and for such list to now read as follows:

\$ 11.03 Diseases and conditions of public health interest that are reportable.

(a) Cases and carriers affected with any of the following diseases and conditions of public health interest, and persons who at the time of their death were apparently so affected, shall be reported to the Department as specified in this article:

Alpha-gal syndrome, laboratory-confirmed (reporting requirement applicable to laboratories only)

Carbapenem-resistant organisms, laboratory-confirmed (reporting requirement applicable to laboratories only)

[Enterobacteriaceae, carbapenem-resistant (CRE), laboratory-confirmed (reporting requirement applicable to laboratories only)]

PUBLIC NOTICE
Federal Emergency Management Agency
In accordance with 44 CFR §9.8 for Executive Order 11988
Proposed Pumping Station Improvements
Bay Terrace, Queens County, New York

Notification is hereby given to the public of the intent of the Department of Homeland Security-Federal Emergency Management Agency (DHS-FEMA) to provide federal funding to the New York City Department of Environmental Protection (NYC DEP) as subrecipient for a new elevated support building (superstructure) to house the electrical distribution for an existing pump station through the Hazard Mitigation Grant Program (HMGP). The purpose of HMGP is for communities to develop hazard mitigation plans and rebuild in a way that reduces, or mitigates, future disaster losses. This notification is given in accordance with Executive Order 11988 (Floodplain

Management) 44 CFR Part 9, regulations for implementing EO 11988 and the National Historic Preservation Act (NHPA). The Proposed Action is located at the southeast intersection of the Clearview Expressway and the Cross Island Expressway, Bay Terrace, Queens County, NY (40.78805, -73.789503).

The proposed scope of work consists of elevating the proposed superstructure to 17.5 feet NAVD88 which is at the base flood elevation (BFE), as indicated by best available flood map data, plus atleast three (3) feet of freeboard for this Critical Action. Raising the superstructure will allow for continuity of operations at the existing pump station during flood events.

This action would take place within the 100-year floodplain. Alternatives considered include: 1) no action, 2) proposed alternative, which is the proposed elevated superstructure or 3) alternate construction. FEMA has determined that building the proposed elevated superstructure is the most practicable alternative to ensure continuity of operations to support the existing pump station. FEMA has also determined that investment of funds to reduce flood risk is in the public interest.

Comments about this project, potential alternatives, and floodplain impacts may be submitted in writing within 15 days of the date of this publication to: U.S. Department of Homeland Security, Federal Emergency Management Agency – Region 2 – Environmental Planning and Historic Preservation, Mitigation Division, One World Trade Center, Suite 53, New York, NY 10007 or via email to FEMAR2COMMENT@fema.dhs.gov. If substantive comments are received, FEMA will evaluate and address the comments as part of the environmental documentation for this project.

Notice of Concept Paper

The purpose of this concept paper is to obtain input from stakeholders for a forthcoming RFx by the City of New York in regard to the Legal Support Centers program.

In the coming months, the City of New York ("City") will issue an RFx seeking qualified nonprofit Community-Based Organizations ("CBOs") to host Legal Support Centers ("centers") on their premises.

The centers will provide access to immigration legal services, disseminate critical information, and build capacity in the immigration legal services field. At these centers, immigrant New Yorkers will receive legal services in their community and their language (either in-person or through telephonic interpretation). The program will represent a scalable and innovative approach to delivering immigration legal services citywide. It will use an immigration legal support hotline, a centralized appointment-making system, and accessible service locations hosted at nonprofit CBOs, to serve as the entry point for New Yorkers seeking immigration legal support.

The Information Session will be held at the date and time indicated below

November 28, 2023, 10:00 A.M.

150 Greenwich Street (4 World Trade Center) 37th Floor, Bid Room New York, NY 10007

Participants will have the opportunity to provide feedback and ask questions during the Information Session.

Please note security at 150 Greenwich Street (4WTC) requires that all visitors provide identification (with pictures) to be admitted into the building. Please arrive at least fifteen (15) minutes early to ensure adequate time for security procedures. Please send an email to ACCOContractPlanning@dss.nyc.gov with the names of the individuals expected to attend from your organization no later than the day before the Information Session, which will expedite security processing. Please include RSVP and the title of the Concept Paper in the subject line of the email. In addition, proposers should bring a copy of the Concept Paper that would indicate the purpose of the individual's visit to the building.

The MOIA Legal Support Centers Concept Paper will be posted in PASSPort. EPIN: 06924Y0222. https://passport.cityofnewyork.us/page.aspx/en/rfp/request_browse_public. Instructions on how to submit written comments will be included in the PASSPort posting as well as the concept paper itself.
