NYC Sanitation Announces Collection Schedule for Election Day and Veterans Day 2023

In an effort to offer efficient service and keep the City, clean, safe and healthy, and due to the rare calendar anomaly of two federal holidays falling within the same week, the NYC Department of Sanitation has announced modifications to its collection schedule for the week containing Election Day and Veterans Day.

Election Day:

The New York City Department of Sanitation announced that in observance of Election Day, Tuesday, November 7, 2023, there's **NO** trash, curbside composting nor recycling collection that day.

- Residents who normally receive **Tuesday trash or curbside composting collection** may place their material at the curb Tuesday evening, for collection beginning Wednesday. However, residents should expect collection delays, as is common after holidays. We appreciate patience as we work to collect the backlog of material.
- Residents who normally receive **Tuesday metal/glass/plastic recycling** collection should hold their material, and place their items out at curbside Monday, November 13 for pickup on Tuesday, November 14.

Veterans Day:

The New York City Department of Sanitation announced that there **will be** trash, curbside composting and recycling collection on Veterans Day, (Observed) Friday, November 10 and Saturday, November 11, 2023.

- Residents who normally receive **Friday or Saturday trash, curbside composting or recycling** collection may place their material at the curb as they normally would. Residents may experience collection delays, as is common after holidays. We appreciate patience as we work to collect the material.

About the New York City Department of Sanitation

The Department of Sanitation (DSNY) keeps New York City clean, safe, and healthy by collecting, recycling, and disposing of waste, cleaning streets, attacking the scourge of illegal dumping, and clearing snow and ice. The Department operates 59 district garages and manages a fleet of more than 2,000 rear-loading collection trucks, 450 mechanical brooms, 705 salt spreaders, and several dozen bike lane operations machines. Under the Adams Administration, the Department is aggressively cleaning more parts of the City than ever before, including over 1,000 long-ignored areas spread across every neighborhood. With the highest wintertime uniformed headcount in 20 years, DSNY is more equipped than ever to remove snow and ice from the approximately 19,000 lane-miles of City streets.
