BOARD OF EXCISE.

OFFICE OF THE BOARD OF EXCISE,
NEW YORK, Dec. 30, 1886.

Hon. WILLIAM R. GRACE, Mayor:

Having been selected by you for an important trust at a time when public attention was specially directed toward the Excise system, we deem it proper, at this time, to report to you regarding our work, with some suggestions which we hope you may consider of sufficient importance to transmit to your successor.

Not having had possession of the books and records of the office of the Board of Excise during the months of May and June, at a time when we were receiving an average of nearly fifty applications for license each day, contemplated changes in the methods of doing business were necessarily delayed.

The amount of labor devolving upon the office is very great, and is made greater by the fact that the hours usually devoted to business are largely occupied in listening to the personal statements of applicants, or those who come to speak in their behalf, and to hearings upon protests and complaints. The new law giving to applicants the right of appeal to the Courts has added very much to the work of the Counsel to the Board, making it necessary for him to have assistance, and also imposes additional labor upon the Commissioners.

During the year ending December 28, 1886, there were, as shown by the records of the office, 11,996 applications received altogether, and 8,879 licenses issued, for which \$635,930 was collected. Of the licenses issued within that time 3,553 were issued by our predecessors during the four months previous to May 1, for which they received \$255,615; 5,326 were issued by us during the eight months following, for which we have received \$380,315; and 641 were issued by Messrs. Haughton and Morris while they held possession of the office and assumed to act as Commissioners of Excise from May 1 to July 7, 1886, for which they received \$45,630.

Among the applications received a large number are for transfers of licenses already issued. The Commissioners being directly and personally responsible for the proper administration of their office, we have felt that we would not be justified in conferring discretionary powers upon our subordinates or in taking final action in any case without personal examination.

The Commissioners are necessarily compelled to rely upon the reports of their inspectors for most of the information upon which they must act. We have thought it desirable to make some changes in the system of inspections. To that end we have appointed special inspectors and have discontinued the practice of confiding a particular district or precinct to the exclusive supervision of one inspector. This gives the Board, in special cases where it is deemed advisable, the advantage of having separate reports from different officers, affording a safeguard for the Commissioners and relieving the inspectors from individual responsibility in doubtful cases.

The office of General Inspector has been abolished and a Chief Inspector appointed. It is made the duty of the inspectors to enter the reports of their inspections upon the records of the office.

In addition to their special reports upon applications, they are required, as far as possible, to be informed by personal inspection as to the number, location and character of all persons and places licensed, or subject to license; and to enter upon the maps and records of the office the information they obtain; the care and responsibility for the proper performance of this work being devolved upon the Special Inspectors.

We have in this way inaugurated a system of office records which will, when completed, contain the history of every place and person licensed. As a part of this record we have a set of maps designed to show each place licensed in the city. We also have preserved in scrap books, properly indexed, the published accounts of everything affecting the character of licenses, under the charge of Special Inspectors who are required to make inspection in all cases where the circumstances demand it.

The work of making these records is progressing as rapidly as is possible with the limited force at our disposal. We believe that when perfected they will enable us to readily determine the character and fitness of applicants regarding whom we would otherwise be uninformed.

We have increased the pay of our inspectors as far as the limits of our appropriation will permit. The highest salary now paid is \$1,500 per annum, and the lowest \$1,000. Formerly the pay was \$900 for all, excepting three general inspectors who received \$1,200.

The Inspectors of Excise should be men of character, integrity and self-respect. They are liable to the temptation of petty bribes, and there is evidence that custom has permitted their acceptance of gratuities. We are determined to break up this practice, and we have felt that where men who are subjected to such temptation are expected and required to resist it, they should receive an adequate compensation.

If the amount of money at our disposal were sufficient, we would pay our inspectors not less than \$1,500 per annum. We believe the service would be benefited and improved by doing so.

After careful consideration, the Commissioners have determined to change the rates and grades of license fees.

An expressed purpose of the law being "to suppress intemperance," it is believed that its intention can be carried out by encouraging the sale of beer and light wines.

The use of beer and light wines seldom leads to intoxication, and among those who drink them poverty and crime as the result of intemperance are rare. They are comparatively cheap, and form the customary drink of a very large portion of our population, with a great number of whom the use of beer is a habit of daily diet. Many of these cannot afford to purchase more expensive drinks.

The distribution and sale of beer is, to a very considerable extent, made by small dealers whose profits are not large.

We have, therefore, considered it wise to prescribe a special and comparatively cheap grade of license for this class of dealers. An ale and beer license has been heretofore fixed at \$30, the lowest rate allowed by law, but it has been of little practical benefit, because most of those who sell beer principally find it necessary to sell wine also, and in order to do that they have been compelled to take out a full saloon license, for which they pay \$75. We have determined to fix a new grade of license to sell ale, beer and wine, at a lower rate.

Among the first reforms determined upon were the restrictions regarding the licensing of new places. Under the rules adopted a large number of applications for license for new places have been refused. We have also been compelled, under the law, to refuse all applications for license whenever any musical or other entertainment was given, or intended to be given.

These compulsory refusals included reputable places to which, we may assume, the law was not intended to apply, but which come within the limits of its strict interpretation as construed by the Court of Appeals. Among these may be cited the American Institute Fair and Neundorf's Central Park Garden.

The result has been the loss of several thousand dollars to the Excise Fund that would otherwise have been collected, with the certainty of corresponding losses in the future.

While it may be held that the revenue for license fees is not the chief purpose of the law and is only incidental to its enforcement, we have believed it to be our duty to increase the revenue, if possible to do so without injustice, rather than to permit its decrease.

That being so, we have determined upon an increase of the fee for a license to sell spirituous liquors with ale, beer and wine, which will, we believe, result in a larger revenue without injuriously affecting those who will be compelled to pay the increased amount.

This action has not been taken hastily. We have sought the opinion and advice of those interested in the traffic as well as of others, and while it may be regarded as in some degree a concession to the very general sentiment in favor of high licenses, we have good reason to believe that our action in this respect will meet the approval of the better and more reputable persons engaged in the wholesale and retail trade.

We have also under consideration the question establishing several grades of licenses for store keepers (those who sell by the bottle or case—not to be drunk on the premises).

In determining upon the proposed changes we have considered the fact that some dealers who intend to sell spirituous liquors may take out licenses for ale, beer and wine only, depending upon their ability to escape detection. That this may be attempted is very probable, but we believe it to be entirely within our power to so enforce the law as to render its successful accomplishment very difficult. We do not anticipate any serious loss of revenue from this cause.

An inability or failure to compel obedience to the laws regarding excise licenses, will involve a serious loss of revenue under the increased fees, as many dealers will not apply for license if they find they can carry on their business without one.

This difficulty could, we think, be almost wholly overcome if we had a force sufficient to enable us to make a business of obtaining evidence upon which to procure arrests.

It may be necessary for us to employ a larger force of inspectors than that now at our command. The certainty of an increased revenue under the new system will far more than justify the granting of such additional appropriation as we may ask for that purpose.

There is a matter of the greatest importance, bearing directly upon a proper execution of the excise law, to which we think it to be our duty to allude. There is no power conferred upon Commissioners of Excise to compel obedience to the law. Their power is confined wholly to the granting of licenses, and their revocation. We cannot compel a man to take out a license, or prevent his selling without one. The law makes it our duty to take possession of the certificate of license in case of revocation, but we have no power to compel its surrender. The power to enforce the law rests wholly with the police.

We have been treated with uniform courtesy and consideration by the Commissioners of Police, and have to acknowledge the cordial co-operation and aid of the Superintendent of Police in every instance where we have had occasion to require it. It is, nevertheless, a fact that in numerous instances those who have been refused licenses, and in some cases those whose licenses have been revoked, have gone right on selling openly in defiance of law.

To a great extent the difficulty in enforcing the law arises, doubtless, from the fact that in some respects the law is deemed by a large number to be unjust and absurd. This is especially true as to the law prohibiting the sale of beer or wine where there is a musical or other entertainment. All the

more so because it is not believed that the law was intended to go so far as it does. It is evident that it was directed against a certain class of low and disreputable resorts, and not designed to affect rational and orderly amusements. A very large class of our citizens, and by no means the least industrious and respectable among them, feel the operation of this law to be a purposeless outrage of their personal rights.

That the Legislature did not consider the combination of wine and music as wicked or very injurious in all cases is evident from the fact that they specially exempted church fairs and Sunday school exhibitions from the operation of this law.

Many people fail to understand why they should not be allowed to enjoy a glass of beer at a secular concert as well as at a church fair.

Within the limits of their jurisdiction Commissioners of Excise possess a power greater than that conferred upon any other officers. It is a power that might be abused. The law passed at the last session of the Legislature giving applicants for license the right to appeal to the courts, if dissatisfied with the decisions of the Commissioners, affords a proper protection to the citizen. The fact that in all cases that have arisen so far the Commissioners have been sustained by the Courts, does not lessen the importance of the law as a safeguard against an unjust or erroneous exercise of power.

From the first of May to the 7th of July, 1886, the ex-Commissioners of Excise, Nicholas Haughton and John J. Morris, held possession of the office of the Board and unlawfully issued licenses to the number of 641, collecting therefor \$45,630. The City Chamberlain refused to receive this money as from the Board of Excise, but \$33,790 was received and is held by the Comptroller as a special deposit, and \$11,840 remains in the German Exchange Bank where Messrs. Haughton and Morris deposited it.

We think that an advantage would result from a modification of the law permitting the granting of licenses for a short term.

Under the existing law a license cannot be issued for less than one year. It frequently happens that a license is desired for fairs, balls and excursions. In such cases a license is usually dispensed with; wine and beer are sold without license; if arrested bail is given and that is the end of it.

There is, very often, no good reason why a license should not be granted in these cases if the law permitted it.

As the law regulates the traffic under prescribed conditions, it should make those conditions consistent with the convenience and proper requirements of law-abiding citizens, and those conditions should be enforced.

An excise license is not property. It cannot be assigned or bequeathed. While we consider this to be a wise provision of law we think it would be proper to permit the executors of an estate, or the widow of a licensee, to carry on an unexpired license.

These suggestions are offered in the hope that, if approved, they may be embodied in a bill to be submitted, with the recommendation of the Mayor, to the next Legislature at its coming session.

Respectfully submitted,

CHARLES H. WOODMAN,
WILLIAM S. ANDREWS,
JOHN VON GLAHN,
Commissioners of Excise.

All of the articles are to be delivered at the various houses of the Department, in such quantities and at such times as may be directed.

No estimate will be received or considered after the hour named.

The form of the agreement, with specifications, showing the manner of payment for the articles, may be seen and forms of proposals may be obtained at the office of the Department.

Proposals must include all the items, specifying the price per cwt. for hay and straw, and per bag for oats and bran.

Bidders will write out the amount of their estimate, in addition to inserting the same in figures.

The award of the contract will be made as soon as practicable after the opening of the bids.

Any person making an estimate for the above shall present the same in a sealed envelope, to said Board, at said office, on or before the day and hour above named, which envelope shall be indorsed with the name or names of the person or persons presenting the same, the date of its presentation, and a statement of the supply to which it relates.

The Fire Department reserves the right to decline any and all bids or estimates if deemed to be for the public interest. No bid or estimate will be accepted from, or contract awarded to, any person who is in arrears to the Corporation upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

Each bid or estimate shall contain and state the name and place of residence of each of the persons making the same; the names of all persons interested with him or them therein; and if no other person be so interested, it shall distinctly state that fact; that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud; and that no member of the Common Council, Head of a Department, Chief of a Bureau, Deputy thereof or Clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof. Where more than one person is interested, it is requisite that the verification be made and subscribed by all the parties interested.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders of the City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person making the estimate, they will, on its being so awarded, become bound as his sureties for his faithful performance in the sum of four thousand dollars (\$4,000); and that if he shall omit or refuse to execute the same, they will pay to the Corporation any difference between the sum to which he would be entitled on its completion and that which the Corporation may be obliged to pay to the person or persons to whom the contract may be awarded at any subsequent letting; the amount in each case to be calculated upon the estimated amount of the work by which the bids are tested. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of this contract, over and above all his debts of every nature, and over and above his liabilities as bail, surety, or otherwise, and that he has offered himself as a surety in good faith and with the intention to execute the bond required by law. The adequacy and sufficiency of the security offered is to be approved by the Comptroller of the City of New York before the award is made and prior to the signing of the contract.

No estimate will be considered unless accompanied by either a certified check upon one of the National Banks of the City of New York, drawn to the order of the Comptroller, or money to the amount of two hundred dollars (\$200). Such check or money must not be inclosed in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the Estimate-box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same within three days after the contract is awarded. NOTICE TO CROTON WATER CONSUMERS.

NUMEROUS APPLICATIONS HAVE BEEN made to this Department by citizens claiming reductions or rebates on bills for water supplied through meters, on the alleged ground of leakage caused by defective plumbing and worn-out service pipes, or by willful waste of water by tenants allowing the faucets to be turned on in full force in water-closets, sinks, etc., without the knowledge or consent of the owners of the premises.

The main object of the use of water-meters is to enable this Department to detect and check the useless and unwarrantable waste of an element so valuable and essential to the health and comfort of all the citizens, and this object can only be accomplished by enforcing payment for the water wasted.

Under the law all charges for water supplied through meters are a lien against the respective premises, and the law therefore holds the owner of the premises responsible for the amount of water used or wasted.

Notice is therefore given to all householders that, in all further applications for reduction of water rents, no allowance will be made on account of waste of water occurring through leaks, from defective service pipes or plumbing, or wasteful use of water by tenants or occupants of buildings, though such leakage or waste may have occurred without the knowledge or consent of the owners of the buildings.

House-owners are further notified that whenever their premises become vacant, and are likely to remain vacant, they must notify this Department in writing, and that unless this requirement is complied with no deductions in extra water rents will be allowed for any portion of one year.

Commissioner of Public Works.
